Poles Close Gateway of Escape to Russian Forces Between Prussia and Vistula River

CAUTIOUS POLES NOT TO ADVANCE PAST BOUNDARY

United States is Joined by England in Endeavor to Prevent Second Violation by Poland of Russian Territory

WASHINGTON, D. C., (AP)—Poland has been cautioned by the American government not to permit her armies in their present counter-offensive against the Russian Bolsheviks to advance beyond the ethnographic boundaries of Poland.

Makes Representations. Informal representations on the subject, it was stated officially today, have been made to the Polish government through the American charge at Warsaw.

The attitude of the United States with respect to the invasion of Russian territory was made plain to Poland for the first time in the United States note on the Polish situation addressed to the Italian ambassador.

Great Britain has joined with the United States in the endeavor to prevent a second violation by Poland of Russian territory, officials said and unofficial advice already received, certain assurances of the intention of the Polish government to heed the advice of the United States and Great Britain.

GIOLITTI TALKS WITH LLOYD-GEORGE ON NOTE

Italian Premier Seeks England's Advice before Replying to American Statement on Poland

LONDON, (AP)—That Premier Giolitti of Italy waited to talk with Premier Lloyd George of Great Britain before replying to the American note relative to withholding recognition from Soviet Russia is pointed out as significant in a Lucerne dispatch to the London Times.

Premier Giolitti the dispatch says, is in full accord with President Wilson as to the maintenance of Polish independence, but has given Italian socialist a pledge that he will grant recognition to the Soviet government. The reason for this, the dispatch adds, that Mr. Lloyd George approves the Italian position as to the urgency and expediency of extending such recognition as soon as peace is concluded between Poland and Russia.

Workers of Europe Urged to Organize to Prevent Warfare

LONDON, (AP)—Organization of all workers in the world to fight against future wars is urged in an appeal to "the proletariat of the United States" by the International League of Trade Unions at Rotterdam, claiming a membership of 27,000,000, and signed by a number of European labor leaders.

"One of the best methods of preventing future wars is the organization of the people will save mankind." A general world strike would be called if all other methods fail.

German Workers at Danzig Holding Up Supplies for Poles

PARIS, (AP)—German workers at Danzig have established a society and have seized the piers, preventing the landing of any supplies for Poland, according to a report from that city. The German commander of the port is said to have refused to assign moorings for the French despatch boat Acra and the cruiser Guvedon.

Sir Reginald T. Tower, high commissioner for the league of nations at Danzig, has refused to take any responsibility, declaring he must await instructions from London.

FACTIONS LINE UP FOR BATTLE IN TENNESSEE

Suffragists and Opponents of Opinion Next Step in Controversy is Hearing on Temporary Restraining Order

NASHVILLE, Tenn., (AP)—Anti-suffrage forces have taken further steps to prevent certification of the ratification of the federal suffrage amendment by the Tennessee legislature.

Under an amended bill filed in court here yesterday, Chief Clerk W. M. Carter and John Greer of the senate and house, respectively, were made parties to the temporary injunction restraining the governor, secretary of state and the speakers of the senate and house from taking any steps toward certifying ratification to the secretary of state at Washington.

Opponents of suffrage declare that their action in amending the temporary injunction will serve to prevent final legislative action on the resolution at least until after the hearing on the injunction proceedings, for which no date has been set.

Announces Speakers' Tour. After receipt here today of an address to the people of Tennessee from the 37 bolters at Decatur, Ala., urging that mass meetings be held in every county next week Saturday to express the will of the people as to ratification of the suffrage amendment, anti-ratification headquarters announced that a corps of speakers would begin immediately a tour of the state. The first meeting, it was announced will be held tonight at Gallatin.

NASHVILLE, Tenn., (AP)—Both factions in the Tennessee suffrage fight prepared today for a legal battle over the legislature's ratification of the federal suffrage amendment. Suffragists and their opponents were of the opinion that the next step in the controversy probably would be the hearing on the temporary writ of injunction issued Saturday by Judge Langford restraining state officials from certifying ratification to Washington.

RUNAWAY LEGISLATORS SET FORTH CONTENTION

Decamping Members of Tennessee House of Representatives Issue a Statement from Alabama.

DECATUR, Ala., (AP)—Members of the Tennessee legislature today issued a formal statement addressed to the people of Tennessee setting forth their reasons for breaking a quorum in the house by leaving the state. It bears the signatures of 32 members, of whom 27 are democrats and 10 republicans.

Enumerating "reasons for our action in breaking a quorum in order to prevent the ratification of the resolution ratifying the suffrage amendment to the constitution," they declared:

Bolshevik Armies Which Invaded Poland and Threatened Warsaw Appear to Be on Eve of Complete Disaster

FORCES MENACING LEMBERG BEGIN RETREAT UNDER PRESSURE OF FORCE

PARIS, (AP)—Soviet Russian armies which invaded Poland and threatened to capture Warsaw appear to be on the eve of complete disaster, says the Warsaw correspondent of the Matin. He quotes General Weygand as saying Poland will be "grazed of three-fourths of the Bolshevik army." The correspondent declares the Bolshevik will soon be forced into a hurried general retreat, and that discipline has broken down in their ranks.

WARSAW, (AP)—The process of bottling up the Russian soviet forces on the northern front between Prussia and the Vistula river has been completed, according to an official statement issued just before last midnight. The Poles have closed the gateway of escape, taking prisoners and materials in such quantities that it is impossible to count them. One Polish infantry division alone took five thousand prisoners and sixteen guns.

The soviet forces which have been menacing Lemberg from the east and south have commenced to retreat under pressure due, the statement says, to the continued Polish advance along the entire central and northern fronts. All the Russians in the Lemberg region are in full retreat.

Twenty-two cannon were taken during the advance on the central front under the personal command of President Pilsudski, the Poles occupying Zambrow and Mazowiec, southeast of Lomza, and crossing the line of the New south of Bialystok, 120 miles northeast of Warsaw. The Russian retreat continues in the general direction of Grodno and eastward.

Polish Forces are Regrouped in Chase

WARSAW, (AP)—Polish forces cut off the retreat of four Russian soviet army units as they moved toward the German territory. On the extreme Polish left the soviet cavalry was defeated and driven out of Soldau and the regions occupied by the Russians in the north Vistula area between Thorn and Black.

The Polish forces have been regrouped into two armies for pursuit of the Russians, the northern army under General Haller and the center army under General Pilsudski. The latter's turning movement continues under the best conditions. The Poles have counted more than 35,000 prisoners and 200 cannon.

General Haller's forces have reached the line from Miawa to Przasnysz and his right wing is moving toward Ostrolenka, 23 miles southwest of Lomza. General Pilsudski's army has reached the line from Ostrow to Brian and is continuing the pursuit toward Lomza and Bialystok, its right wing having captured Brest-Litovsk.

Poles Drive Rapidly on Northern Sector

WARSAW, (AP)—Polish forces have taken the town of Gradusk, about 12 miles north of Ciechanow, and have cut the retreat of the Russian army west and north of this city by the way of Miawa and Przasnysz.

The eighteenth Polish division which has been attacking Ciechanow has been met by desperate resistance on the part of enemy detachments covering the retreat of the fourth soviet army, which last week advanced along the Prussian frontier until it threatened the Polish frontier along the Vistula river. After capturing Ciechanow, the Poles advanced rapidly northward and succeeded in cutting the only direct railway line eastward from the soviet positions.

75,000 Prisoners are Taken by Polish Army

PARIS, (AP)—The number of Russian soviet prisoners captured in the Polish counter-offensive will amount to 75,000 according to Warsaw advices to the French foreign office today.

Most of the 35,000 prisoners already counted were captured in the territory northwest of Warsaw, including the Dniepr corridor, by the army under command of the French general, Blotie. This army now is most effective and is composed of German trained men of Posen.

Premiers of Great Britain and Italy Adopt Proposals for Submission to France to Carry Out Treaty Terms

LUCERNE, Switzerland, (AP)—Premiers Lloyd George of Great Britain and Giolitti of Italy, have adopted proposals to be submitted to France for action to secure Poland free and unrestricted use of Danzig and its communications in accordance with the Versailles treaty, it was announced officially here today.

POLES VOICE INSISTENCE UPON HONORABLE PEACE

Delegates at Minsk Select Russian Soviet Terms Presented by M. Danilshvsky

WARSAW, (AP)—The foreign office announcement of Saturday night that Poland would not accept the Russian soviet terms presented to the Polish peace delegates at Minsk refers to those submitted by M. Danilshvsky, chairman of the soviet delegation at Thursday's session of the Russo-Polish conference. The Polish delegation's instructions were to insist upon an honorable and durable peace, and it was said at the foreign office today that no new instructions had been sent.

It is assumed here that representatives of the Russian soviet government presented their peace terms at the Minsk conference before the Polish delegates received word from Warsaw of the decided change in the military situation which now favors Poland. It is believed the Polish delegation in Minsk is fully informed of military and other developments.

Revenge of Death of Police Inspector Leave Trail of Desolation

LISBURN, Ireland, (AP)—The business portion of Lisburn today presented a scene of ruin and desolation as a result of the burning of shops by loyalists in revenge for the murder of Police Inspector Swaine here yesterday. INVESTIGATORS CALL FOR PROOF

Ask Cox to Substantiate Charges Against Republican Campaign Fund

CHICAGO, (AP)—Chairman Will Hays and George White of the republican and democratic national committees, respectively; the treasurer of each committee and the treasurers of the senatorial and congressional campaigns committee, met today to discuss the charges against James M. Cox asking him to either appear here next Monday or send a representative to present any evidence he may have to substantiate his charges that the republicans are raising a \$15,000,000 campaign fund.

Senator Kenyon began preparation immediately after the committee's journey of a lengthy telegram to Governor Cox and messages to Hays, while, Willbur Marsh of Iowa, democratic national treasurer, and Fred Upton, of Chicago, republican treasurer, as well as the treasurers of the senatorial and congressional committees.

The committee decided to adjourn until next Monday, when it will start its work with an investigation of the presidential campaign.

As a result of the decision to take up the matter after the committee's meeting, Senator Kenyon, who earlier in the day announced that he would resign from the committee, decided to remain, at least for the present.

Senator Kenyon began preparation immediately after the committee's journey of a lengthy telegram to Governor Cox and messages to Hays, while, Willbur Marsh of Iowa, democratic national treasurer, and Fred Upton, of Chicago, republican treasurer, as well as the treasurers of the senatorial and congressional committees.

BOTH CHAIRMEN BRADY

NEW YORK, (AP)—Both Will H. Hays and George White, chairmen respectively of the republican and democratic national committees, today expressed readiness to appear in Chicago next Monday before the senate committee investigating the campaign expenditures which has decided to order appearance of the executive heads of the two parties.

Mr. Hays said he had known for some time that the senate committee was to begin an investigation of Governor Cox's assertion that a fund of more than \$15,000,000 was being amassed by the republican party as a campaign fund. Of the committee's action today, Mr. Hays said:

"Splendid. This is just what we want. We welcome fullest publicity now and later and as often as possible." (Continued on Page Five)

The congressmen plan to go directly to Fusan from Mukden and embark at Fusan on a special Japanese steamer. They will proceed to Kobe by way of the inland sea, stopping at the sacred island of Miyajima.

HUNGARY FEARS CONSEQUENCES IF POLES LOSE

Regent Declares Collapse of Poland Before Bolshevik Onslaught would Involve Europe in Serious Crisis

BUDAPEST, (AP)—Hungary's statesmen are fearful of the consequences if the Bolsheviks crush Poland. Admiral Nicholas Horthy, regent of Hungary, when seen at his palace office by the Associated Press correspondent, said on this subject:

"Should Poland collapse Europe would have to face a serious crisis, since all international order and standing power of central Europe has been shaken by the breakdown after five years of war and by the crushing peace treaty in addition to other evils in the wake of war. The treaties dictated by the allies were meant to create order and tranquility, on the contrary all our evils grew more acute and all painful problems on the way of solution more or less in the past, face us grimly like as many sphinxes. Central Europe is a volcano, after the eruption, still covered with smoke, and we cannot see any reassuring sign as yet to avert dangers lurking in the future above Europe.

Enemy of All Countries.

"I am informed about the preparations of the Bolsheviks. These preparations are not of a recent date and it is not exclusively Hungary they are related to. Bolshevik propaganda is an enemy of all countries not accepting the principles of the Third International, trying to spread its influence in the United States and Canada just as well as in Hungary.

The most dangerous means of all Bolshevik offensives is just the propaganda and from that viewpoint there was not a single moment's cessation in the Bolshevik offensive against Hungary. On the contrary it maintains a feverish activity against us by the means of the Hungarian communistic fugitives in Vienna aided with Russian money. It is a pity that in many western countries people do not realize the dangers and the means of the Bolshevik propaganda.

Hungary's Intentions.

"The relation of Hungary to her neighbors depends solely upon how our neighbors wish to establish it toward us. It is in their interest that the treaty has been forced on us by the allies so that in their duty to start better relations. Although it is much easier for them to do that, unhappily they show very few signs of their intention to that effect up to the present. They continue in their contemptible attitude toward Hungary living on territories severed from Hungary.

"Day by day for 18 months our people have been fleeing from the occupied territories and our national territories are not large enough to shelter the railroad cars they are living in. These persecuted families of course, are strong incentives of an irredentist propaganda. If our neighbors have a really serious intention to improve general sentiment toward us, they have to make it possible, first of all, for those fellow-countrymen of ours to return home. They have to stop persecutions so that even on that most unfortunate spot of Europe there should be open for everybody a chance to make a living compatible with human dignity. It would be of a first rate importance to have effected that improvement in public sentiment as a preliminary condition to the resumption of economic connections.

Cites Misery of People.

"The misery of the people of these territories of the former Austro-Hungarian monarchy, a compact economical territory in the past, is due mainly to the fact, that all the natural, economic ties are cut and they are being forced into the most unnatural connections. We quote as an instance the salt supply of the country which commodity could be produced from the mines a few kilometers distant from the present boundary line in Marmaros. In spite of all that we are obliged to supply our needs in salt from Germany. The result is that order of things increases enormously the cost of living and paralyzes all production."

The Nevadans meet the University of Hawaii eleven Christmas day and the Inter-island champions on New Year's day. University of Hawaii football men are planning to play Stanford university or the University of California Christmas after next.

PLANNING STADIUM.

PASADENA, Cal., (AP)—Pasadena is planning to build a stadium for the east coast west football game played here every New Year's day. W. L. Leishman, president of the Tournament of Roses association, which has charge of the games, recently suggested that the stadium be built on the order of the Yale bowl. Mr. Leishman made his suggestion after inspecting eastern athletic fields.

PORTLAND, Ore., (AP)—Edward J. BLUES LOSE OUT.

KANSAS CITY, Mo., (AP)—President George Buhlback of the local American Association club has received word from Spokane, Wash., that Shortstop Singbird, whom the Kansas City management had purchased from the Coast league team there would go to Oakland, the latter club has exercised an option right on him.

THAT DOG DERBY.

THE PAS, Manitoba, (AP)—Next year's Hudson's Bay Dog derby race, which is run here every winter, probably will be held in January instead of in March as in the past. Snow trails are in better condition in January and mowers, trappers and others who enter the race have more time than in March, it is said.

BABERBALL IN ALASKA.

NENANA, Alaska, (AP)—Baseball games are being played every Sunday this summer in interior Alaska, not far south of the Arctic circle. Teams from Nenana and Fairbanks, two interior towns, are playing a series, the winner of which probably will meet a soldier nine from Fort Gibbon, north of here.

At the June meeting of the association here, it was decided to inform the American organization that the Australasian body is not prepared at this time to compete.

NEW YORK, (AP)—Benny Leonard, world's lightweight champion and Edie Fitzsimmons, also of this city, were signed today by Tex Rickard for a 15 round title bout at Madison Square Garden September 17. The men are to weigh in at 135 pounds.

Brief Bits of Sport

Anyway the White Sox are champions of the American league for a day.

The state boxing commission says it won't ask for Ray Rose to box within the borders of the state. But perhaps the commission will change its mind again before the week is out.

Also Gordon McKey has been cleared of the suspicion attaching to his bout with Mike O'Dowd, July 5.

And at Anvers, Americans continue to clean up the big events just as though an Olympiad was a daily local affair instead of an international doings of extraordinary moment.

Proof that San Francisco is the right sort of baseball city is found in the fact that there are 13 San Francisco lads playing with the home team of the Coast league.

But then San Francisco originated the "native son" idea.

Des Moines is bidding for the national horseshoe pitching tournament in 1922. Columbus, O., is also trying to attract the baysward golf meet.

He's just a horse but the earnings of Man O'War for two years represents \$132,290. This is the result of 15 turf victories. The wonder nag has won all six of his starts at the barrier this season.

Eddie Roush, Giant outfielder, does not believe in overwork. The other day he gave a quiet alibi for not changing a fly ball in a game with the Reds recently. He said he was saving his legs for the next day.

Mike O'Dowd appears to have left his knockout punch at home lately. He went over to Lawrence, Mass., the other night and just shamed a newcomer named Tommy Dobson in a 15-round bout. The St. Paul scrapper hasn't won by a sleep-producer in months.

Sim Smiley, sagebrush sage, says: "With this high cost of lumber an ever-thin tin's getting on about all a feller kin build nowadays is a few castles in the air."

From New York comes the report that the Giants would pay for Roger Hornsby a sum equal to that the Yankees paid for Babe Ruth.

President McCarthy of the Coast league cannot Bill Ruml for his circuit, but says he has no objection to the Salt Lake management selling the player to another league.

If Ruml is too bad for the Coast league why pass the buck to another circuit?

The A. P. says Pat Scott of the Vancouver club has been sold to the Kansas City club of the American Association, but the esteemed A. P. does not say whether said Pat is a pitcher, catcher, fielder or battery.

The worries of the past week hurt Francis's betting considerably and he fell off in percentage so that George Sisler was able to pass him.

But then George has a good week, and set up a season's mark of .408.

DEPORTED GERMANS MAKE LIQUOR ON SHIP BOARD

Instance of Inequality of Teutonic Mind is Related by British Officer Transport

WELLINGTON, New Zealand (AP)—A British officer who had charge of Germans deported from New Zealand upon the steamer Willochro some months ago has returned with an interesting story of the voyage. On the voyage it was discovered the Germans had devised a still and made liquor from fruit which had been presented to one of them and had denied.

Count Felix von Luckner, who commanded the German raider Seeadler, and Dr. Schuler, former governor of German Samoa, were among the deportees.

While the vessel was in Sydney harbor, en route to Rotterdam the Germans caught a shark which was exhibited on the deck. "That's the best centry this ship possesses," Von Luckner said.

POLICE OF COPENHAGEN TO WAR AGAINST DRUG EVIL

COPENHAGEN (AP)—The police are making determined effort to stamp out the drug evil here. One tald has just resulted in the confiscation of 800 bottles of morphine.

The drugs were destined for Germany and in an effort to clear them through the customs a false declaration was made by the consignee.

EARLY RECORDS REVEAL UNCHARTED MISSION SITE

Ruins of Structure Built by Spanish Padres Found in Vicinity of Nogales, Arizona

NOGALES, Arizona, (AP)—Records left by the early Spanish padres recently led to the location by Frank Pinkley of the United States national park service of the ruins of an old Arizona mission which had never been officially recorded. The mission is at Calabasas nine miles north of here, and it is thought, was founded in 1770.

Another old mission, yet unrecorded, is in this district, Mr. Pinkley believes. The second mission, which bore the name San Luis Baraceno, is located, it is believed, somewhere near the Mexican border. Pinkley is to make an extensive search for the ruin.

INDEPENDENCE OF EGYPT IS TO BE RECOGNIZED

Great Britain to Set Out Position as Soon as Final Agreement is Signed by Two Governments

LONDON, (AP)—Negotiations incident to the recognition of the independence of Egypt by Great Britain will take place between this country and the world powers as soon as a final agreement is signed by the Egyptian and British governments, says the London Times. The final conditions will be submitted for confirmation to the British parliament and the Egyptian assembly.

It is probable the latter body will be asked to pass a new organization law embodying the new agreement and laying down the future constitution and relative responsibilities of the ministry and the sovereign.

The Times adds that details will be worked out for a treaty of allegiance which, it is hoped, will be negotiated as soon as the Egyptian delegation here returns home and reports the agreement to its country.

Features of the agreement, as outlined by the newspaper, include a guarantee by Great Britain of Egypt's independence and the right of the present system of placing advisors in different ministries will be discontinued, but British officials will be appointed to take over and carry out the operations of the Egyptian government and look after legislation regarding foreigners. All British officials who may be retained in the Egyptian service are appointed in the future will be responsible to Egyptian heads of departments. For the present, Egyptian foreign diplomatic agents probably will be confined to countries where Egypt has special interests and British representatives will not elsewhere for her. Legislation affecting foreigners may be vetoed by the high commissioner.

FAMOUS AIRPLANE PILOT IS VICTIM OF ACCIDENT

C. P. Proctor with Two Others is Dash-d to Death in Test Flight in California

REDWOOD CITY, Cal., (AP)—Chief P. Proctor of Bristol, England, one of the most thoroughly experienced airplane pilots in the world, was one of three men killed yesterday when an airplane he was piloting fell to the ground. His companions were passengers on the airplane.

Proctor had served as test pilot for the British aviation corps throughout the war and had flown hundreds of machines of all types. He was in Redwood City demonstrating an airplane equipped with a high powered engine.

The airplane fell into a tail spin when 300 feet from the ground. Spectators believed one of the passengers interfered with the control of the machine. Proctor, according to information here, was the son of a rancher near Great Falls, Mont., and had a wife and child in Los Angeles.

Funeral arrangements have not yet been completed.

ANTWERP, (AP)—The Olympic athletic events in the stadium closed this afternoon with the American athletes far in the lead in the point scoring, that they were the winners by a large margin.

The closing contests were held in the rain with only a handful of spectators present.

The American team came into the stadium only the Olympic stadium, where for the past week spirited contests in field and track athletics have been witnessed. Each nation entering the games entered only the best one team of from 16 to 24 gymnasts. In addition, there were events for individual experts, in which nation competing was permitted to enter six men.

The individual events included work at free exercises without apparatus and trials on the horizontal bar, parallel bars, the rings and the "horse." In addition there was a special production for common oratorical medals which might be called a parade. All judging was by points.

The final heat of the individual cross-country run of nearly ten kilometers was won by Nurni, Finland, in 27 minutes 15 seconds. Bachman, Sweden, was a special production for common oratorical medals which might be called a parade. All judging was by points.

Today's Markets

New York Stock Market

NEW YORK, (AP)—Much of last week's rally in the stock market was cancelled today despite the more favorable character of the foreign news and the relative steadiness of money. Sales approximated 350,000 shares.

The tone of the stock market was irregular at the outset of today's trading. Further recovery was noted from abroad being balanced by last Saturday's clearing house statement, which showed a large loss of actual reserves. Initial reactions extending from fractional declines to 1-16 points were made by Canadian Pacific, Illinois, Plover, Arrow, Inveivable Oil, Texas company, Anacostia, Marine, Preferred and National Amalgam.

On the constructive side advances of equal or greater extent were recorded by Royal Dutch, Shell Transport, Mexicana Petroleum, Vandind and Reading, with Wisconsin Central the strongest feature of the junior market.

Bears made another effort against shipplings, oils, steels and equipments in the final hour when the general list recorded lowest prices of the session.

Liberty Bonds

NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$89.00; first 4's \$89.30; second 4 1/4's \$89.40; third 4 1/4's \$89.78; fourth 4 1/4's \$89.80; Victory 3-4's \$95.54; Victory 3-4's \$95.58.

Grains and Provisions

CHICAGO, (AP)—Wheat was under pressure at the start today because of lack of support. After opening at 5.31 1/2 and March 5.32 1/2, buying orders appeared and a fair rally followed.

The rally in wheat was of short duration, prices dropping sharply because of the decline in corn. After dropping more than eight cents, the market again stiffened and closed 1-4 to 7/8 under the previous finish, with December \$2.28 1/2 and March \$2.28.

Corn opened 1-4 lower to 1 1/2 higher, with the May delivery in the lead. Fair selling on the advance caused a reaction, with September a little firm on scattered buying. Corn fell to low temperatures in some effects, but the sentiment still is bullish among the pit element. September started at \$1.42 1/2 and December \$1.20 1/2 to 1 1/2.

THE EUROPEAN PUZZLE

The combatants would exhaust their resources in a few months and that would end the conflict. That was the general belief when the world war opened. It was an oft-expressed opinion that the war would not only speedily bankrupt the nations engaged, but that the armies would be decimated so rapidly that an end would be brought to hostilities because few fighters would be left.

Long before the war was brought to a close by the armistice we had heard of the destitution that prevailed over a large part of Europe. Russia, which because of her original part in the war, and the ravages of the Bolsheviks, was supposed to be in an alarming state and it certainly has grown worse with the passing years. Poland suffered repeatedly from the ravages of conflicting armies. Both might have been considered long past the point of putting effective military forces in the field.

The result shows that the basis of reasoning on which men relied on in order to reach a conclusion that it requires large treasure and abundant stocks of food as well as vast numbers of men in order to carry on war did not take stock of some reserve that apparently has been called to the aid of Russia, Poland and others who still persist in seeking to settle disputes by force of arms.

By some means the Russians are equipped and fed, mysterious though the source is. Poland may have had help from Entente sources, though such aid has been carefully covered, if given. And these are not the only "military exhausted" nations though the most notable, that are able to carry on war long after such a condition seemed impossible. It would seem that it is necessary to revise pre-war conceptions of what is necessary to prosecute military operations.

SURPLUS FROM A MULOTED PUBLIC

Postmaster General Burleson has issued an order creating new conversion rates for foreign money orders. Under the new ruling a British pound will be worth \$4 instead of \$4.87 as heretofore. Rates for other countries have been reduced accordingly. Throughout the war the post office department has adhered to the pre-war conversion rates, and anyone desiring to purchase a money order payable in England, for instance, has been compelled to pay for it at the rate of \$4.87 per pound in spite of the fact that the actual value was way below that figure, at one time

being as low as \$3.15. The difference between the amount received by Mr. Burleson from the purchaser of the order, and the amount his department was compelled to pay when the order was presented by Great Britain for redemption was credited on the books of the post office department as profits. In that way millions of dollars have been made by the department in the past few years, and those profits have been utilized by Mr. Burleson in support of his boast that his administration of the postal service has been without loss and marked by great efficiency.

The foreign money order business of the post office department has been an example of just the sort of gross profligacy which another department of the government has been busily trying to suppress. For years Mr. Burleson has been selling foreign money orders to the public for only a fraction of their true worth. He has a monopoly of the business, and could charge what he pleased. Even under the new rates of exchange which he has promulgated he will be making unconscionable profits—no much as thirty cents on every pound sterling of an English order, in addition to the regular fees for the service.

THE SOLDIER-SAILOR VOTE (Fargo Forum)

Appeals by politicians for the votes of ex-soldiers and sailors of the war as such are a practice that should be condemned by every patriotic American, most of all by the former service men themselves. This appeal to the man-of-war-men was emphasized in Fargo Monday in the address of Franklin D. Roosevelt, democrat candidate for vice-president. Mr. Roosevelt did not mention the American Legion but he drew a strong picture of what he called away for the fields of glory beyond the Atlantic and the first to greet the veterans in joyous welcome on their return to America. Well, maybe Jim did all that. And what patriotic American didn't do the same as far as his opportunities permitted? Overlooking the fact that Mr. Cox's party took a surprisingly anti-war stand at one time, it is accepted that Mr. Cox did his full duty by the brave Buckeye boys throughout the war and after as the rest of the loyal governors and other officials as well as private citizens did.

The point is that no politicians should appeal to class feeling in any form in the effort to gain votes and secure election. The ex-soldiers and sailors should vote as individuals, loyal American citizens, not as the members of the Expeditionary Army, the Regulars, the Marines or the naval organization. Mr. Roosevelt is no more a transgressor than the mass of politicians at present appealing to the soldier as such but he certainly must be aware of the dangers of class division in America and realize the inadvisability of fostering and increasing this division by any means or for any purpose whatsoever. The ex-service men should be the first to rebuke this class appeal to them. It does small honor to either their patriotism, so well proven, or to their intelligence as American citizens.

RED CROSS HUMANITIES

War Activities Changed to Practical Efforts for the Health and Happiness of General Public

(Contributed.) Every one knows of the beneficent work of the Red Cross during the years since it sprang into life at the behest of Florence Nightingale for the purpose of mitigating some of the horrors of war.

Tip to the close of the recent world war, when its greatest and most wonderful achievements were reached, with exception of a few isolated occasions, the Red Cross was known only in connection with the relief of its unusual and awful conditions.

Now, however, it has entered upon a new phase of beneficence which has not yet become as well and generally known as we believe it should be. To the end thus indicated, the organization is being fully perpetuated, both nationally and locally, and it is to its present less conspicuous but equally important work that we desire to direct attention.

In pursuance of the new purposes and activities of the Red Cross, its wartime organization in this county has been continued and re-vivified. The Twin Falls chapter, of which Mr. E. J. Finch is president and Mrs. Edwards, secretary, has numerous useful activities, one of special importance being that conducted by the public health nursing committee, with the aid of its executive officer, Mrs. McGrail.

Hence the child welfare clinics which were held last week at three different points in the county and will be continued at the high school building in Twin Falls next Thursday, Friday and Saturday, beginning at 9 a. m. on each day.

The first of these clinics was held at Hollister on Wednesday of last week.

The child welfare committee consisting of Mesdames B. E. Morse, G. D. Aiken and E. L. Warren, and some local people assumed charge of these clinics with the county nurse, Miss McGrail, directing. The necessary technical and professional assistance was rendered at Hollister by Doctors Myers, Millford, Leete, with Dr. Oslette, dentist.

At Ellier Doctors Caldwell, Van Cott, Segal Newberry, Goode and Cartney officiated. At Kimberly Doctors Millford, Caldwell, Paster, Davis, Segal, Harstad and Fisher.

The practical feature of these clinics was the examination into the physical condition of the children who were presented, with explanations and recommendations in each particular case that would, of course, make for the benefit and instruction of all present.

Possible ailments were classified, one specialist examining the teeth, another the eye, ear, nose and throat, another the torso, the abdomen and the limbs. Each of these clinics was well supported and attended locally and much interest manifested, parents paying eager attention with manifest appreciation of the opportunity.

The last of the present series of clinics will be held next week in Twin Falls city as above mentioned where children may be brought for examination if desired, it being understood that every thing in connection with this work is free.

When children are to be brought and in case special appointments are not made before hand, a small sheet or wrap should be brought for each child.

GOTHAM FACES HOUSE PROBLEM STILL SERIOUS

Situation Not Less Acute This Fall than in Spring when Army of Tenants Made Demand for New Rent Laws

NEW YORK, (AP)—New York city faces a housing situation this fall no less acute than that which last spring caused an army of tenants to march on Albany demanding new rent laws.

Last spring the immediate problem which faced legislators was passage of measures which would protect tenants, in a city where every apartment was at a premium, from grasping landlords. Next fall the problem, which is expected to engage attention of state law makers is the encouragement of apartment house building.

The housing shortage this summer has been the cause for sundry hearings by state and municipal bodies. At each was heard the cry: "We must have more apartments." But so far there is little prospect that this demand will be met.

Experts have given it as their opinion that next fall, instead of having more flats, New York's meager supply will be depleted by several hundred. The reason, they said, was that demand for office space, especially in Manhattan, had caused many property owners to raze old apartments for construction of commercial establishments which they could rent at higher prices.

Some experts estimated that rent laws passed last spring, designed to check the meteoric rise of rents, had tended to check building of apartment houses.

The building trend was well illustrated last month when plans for new structures filed in Manhattan showed to what little extent property owners were going toward filling the need for 250,000 additional apartments. Construction of only one apartment house and one single-dwelling were filed, whereas five theaters, 116 garages and three loft structures are contemplated.

Normal construction in this city, according to Tenement House Commissioner Mann, is 28,000 apartments a year, in addition to two family houses and hotel apartments. Four thousand a year has been the average, however, for the last four years.

Various plans have been suggested for encouragement of home-building, including co-operative ventures and use of the city's sinking fund for loans on bonds or mortgages. The latter plan has been advocated by Mayor Hylan, who is seeking to establish the legality of such action.

In a time when prices are unstable it is important that women should keep informed as to the latest fluctuations of that they may solve their shopping problems wisely.

WILBURTON, Okla., (AP)—The last of ten men who were killed in an explosion in the Degan-McConnell mine No. 19 at Degan, three miles west of

The explosion tore a great avalanche of dirt and rock from the roof and walls of the shaft, blocking it completely, and making rescue work difficult.

Pass this all along the line etc. Thursday P. M. DEAR PETE: Just blew into Pittsburgh to close that N and P purchase. While I was waiting for the contract to be signed who ambles in to the G. M.'s office but President Holt! Asked me if I had a cigarette. Slipped him my "Carnel Garage." Remember, he hit the "straight" boys when I met him last year? Pete, you ought to hear Mr. Holt talk Camels! Gee, I thought I was some Camels pieler. But he went right to the mat with the subject. Say, if I could have shorthanded that line of super-stuff I'd have the job writing Camel ads by noon today! "Reynolds ought to get a dollar for every Camels cigarette," Mr. Holt declared. "Why, my boy, Camels are simply wonderful," he added. "Don't ever let anybody talk about mild cigarettes compared with Camels! I know! (Get that, Pete). I've proved it to a hundred smokers that Camels are the mellowest and most refreshing cigarette in the world," etc., etc. Pete, Camels won Mr. Holt like they won me — on their quality! After hearing him cut loose, I felt like saying: "You tell it, old parcel post, I can't express it!" Pete, I'm hatching an idea about Camels. I'll spill it your direction next time I write! It's what York State folks call a "pip-ing!" And it's ripe! Yours till the next fire-up. Shorty.

SCIENCE LOOKS TO HAWAII FOR REMEDY FOR LEPROSY

Territorial Board of Agriculture and Forestry Encourages Production of Chaulmoogra Oil

HONOLULU, T. H. (AP)—Chaulmoogra oil which scientists of the University of Hawaii believe can arrest, if not completely cure leprosy, will be produced on a large scale in Hawaii under arrangements being made by the territorial board of agriculture and forestry.

Professor Joseph F. Rock, botanist with the United States department of agriculture, who is en route to Burma and India to obtain seeds of the Chaulmoogra tree, has been commissioned to bring back a consignment of the seeds to Hawaii for propagation purposes.

Thirty patients recently were liberated as cured from the Kalahele leper station here after having received the treatment prescribed by Dr. A. L. Dean of the University of Hawaii, who perfected the system of refining chaulmoogra oil.

Cultivation

"Cultivation is a fine thing for both the soil and the mind."—Palmer Parker

It's a good idea also to cultivate good habits, like paying your debts, minding your own business, exercising the tooth-brush and going in to see a good dentist occasionally. Not one person in a thousand has teeth so perfect that he can keep decay away without the help of a dentist.

People who don't visit the dentist are getting ready to visit the doctor.
