RESCUERS TAKE MEN FROM BOAT AT SEA BOTTOM

Radio Messages from Army Transport Tell of Rescue of Officers and Crew of Submarine Submerged Two Days

BOSTON, (AP)—A message to date from the steamer Albatross, which took off the crew of the disabled submarine S-5 off Cape Henlopen, said that the Albatross accompanied by five other steamers was proceeding toward the Delaware capes with the S-5 in tow. The message was received at the naval radio station here.

PHILADELPHIA, (AP)—Radio messages flashed from the army transport Goethals to the Philadelphia navy yard via Cape May told of the rescuers early today of the officers and crew of the submarine S-5 which had been nearly two days locked in the disabled vessel beneath the Atlantic ocean, 55 miles south of Cape Henlopen. It was after 3 o'clock this morning when Lieutenant Commander M. Conko, who exercised his prerogative of being the last man to leave his vessel, was taken aboard the steamer Albatross. Nine hours had elapsed since the plight of the undersea boat had been made public through a wireless call picked up by an amateur operator in Farmington, Conn.

Buoy Gives Only Chance. It was a small buoy, a development of the world war together with the vigilant eye of a lookout on the bridge of the transport General Goethals, that gave the 20 men on the submerged submarine S-5 their chance for life.

This small buoy, with a bell and a device that can be operated when the boat is submerged, is part of the equipment of later type submarines. It was cast loose when the S-5 went down. The lookout on the General Goethals saw it, being attracted by its bell, as well as the fact that it was not afloat on the chart.

Buzzer Gives Message. A small boat, with an officer in command, was lowered from the transport to investigate. When the buoy was reached the buzzer device could be heard. The officer cut into the connection and quickly there came this message:

"The submarine S-5 has been submerged for 35 hours. Air is running low. Minchew is damaged. Send for help."

This plan was sent broadcast by the wireless of the General Goethals. Among those who responded was the steamer Albatross which with the army transport stood by the submerged vessel and managed to attach grappling hooks to its stern. Hoisting the submarine in a vertical position, a hole was cut through the hull and air pumped through to the suffering crew who had almost given up all hope of rescue.

Call for Help Sent Out. In the meantime the call for help had been picked up by the navy wireless stations and by command of Secretary Daniels destroyers were dished to the rescue from Philadelphia, Newport News and New York.

On all these vessels had had time to reach the scene however, word was flashed that all the crew had been taken aboard the steamer Albatross. The Albatross proceeded to tow the submarine to the Delaware breakwater.

CO-OPERATION AMONG FARMERS SUITS HARDING

Republican Presidential Nominee Advocates United Action on Part of Producers and Consumers to Cut Prices

MARION, O., (AP)—Co-operative farmers' associations for distribution of farm products were advocated by Senator Harding in a speech here today as a necessity if food prices are to be reduced.

Speaking to a committee of the national board of farm organizations, the nominee declared he abhorred any idea of class organization as such, but knew that unless the producers and consumers were brought closer together by organized effort, "organized profiteering will squeeze in somewhere."

When the responsibility for leadership in this fight was placed upon me, I said to myself that we must all unite under the slogan "America first." When I say America first, I mean not only that America maintain her own independence and shall be first in fulfilling her obligations to the world, but I mean that at home any special interest, any class any group of our citizenship that has arrayed itself against the interests of all must learn that at home as well as abroad, America first has a meaning, profound, and with God's aid, everlasting.

I desire with all my heart to speak for the consumer when I speak of American agriculture. With the agriculture of the United States is the basic industry, I am deeply concerned. We must look our land problems and farming situations squarely in the face and act bravely and wisely and promptly.

INVESTIGATION IS EXPECTED TO SHOW SCANDALS

Senate Committee Inquiring into Campaign Finances Subpoena Witnesses Cited by Cox Representative

CHICAGO, (AP)—Subpoenas for a dozen or more witnesses were sent today by the senate committee investigating campaign contributions while the committee took a recess until next Tuesday.

Many of these subpoenas, it was understood, were cited to committee members by E. H. Moore of Youngstown, O., pre-convention manager of Governor Cox.

"I have the names of men who can give absolute proof that before the public conscience was aroused the heads of this money getting organization publicly boasted that the Blair plan would raise \$10,000,000," Mr. Moore declared in a statement.

One of the subpoenas issued today was for Harry M. Blair, assistant to Treasurer Fred Uphaus, of the republican national committee. Mr. Moore declared Blair was "the father of the city quota plan" which was referred to by Governor Cox in his Pittsburgh speech.

After a conference with the committee, it was decided to have Senators Reed and Pomorene, the democratic members, get the names of proposed witnesses from Mr. Moore and issue subpoenas.

After the conference with Mr. Moore, committee members declared they would search into the records of every political group and that they expected to "unravel a series of political scandals."

OLD CALIFORNIA MINES STILL RETAIN MILLIONS

Engineers Declare "Forty-Niners" Took Principally Surface Gold

PORTERVILLE, Cal. (AP)—Many old California gold mines, which produced millions for the "forty-niners" and the men who followed their trails, still are able to produce many millions more according to mining engineers of this section of California.

The pioneers of the old mines, in most instances, took gold from the shallow pockets or surface veins of high grade metal, leaving millions of dollars of gold ore under the old workings.

Engineers point to Calaveras county to prove their point. W. J. Loring, they say, after prospecting several of the old diggings there, opened up one old mine and found rich ore in the lower depths. During the last 12 months this old mine, it is said, produced over \$1,000,000.

Another instance was the opening of the old Kelly Rand silver mine at Landsburg. According to reports here, it has produced net earnings of over \$1,000,000 during the last 14 months.

Following the announcement that some of the old Calaveras mines are again producing, came word of a rich strike in some of the old shafts in the famous Blue Mountain district of Kern and Tulare counties. Engineers say one old Blue Mountain mine has produced ore assaying as high as \$8000 per ton. This ore was in a pocket, but selected samples taken at various places in the diggings are running from \$800 to \$2000 per ton.

As a result of the finds, the old Ventura, Dredging mine in the Blue Mountain country again are being operated, while other mines are being investigated.

POINTS TO ALASKA FOR AMERICAN PAPER SUPPLY

Forest Service Chief Says Territory's Woods Would Provide Half of the Present Consumption

JUNEAU, Alaska, (AP)—Wood for making 2,000,000 tons of paper annually—about one-half the present consumption of the United States—can be furnished by Alaska forests without depleting them, Colonel W. B. Greely, Washington, D. C., chief of the United States forest service said while here recently.

Twenty or more large pulp mills could be operated year after year in Alaska, forest service officials estimate. The growing new timber would be sufficient to replace that cut in the mill.

Colonel Greely, accompanied by Geo. H. Cecil of Portland, Ore. district forester for the North Pacific district, and other forest service men, spent several days here looking over the highway and timber situation.

HUERTA WOULD ESTABLISH FRIENDLY RELATIONSHIP

Provisional President of Mexico Outlines Policy in Message to Congress

MEXICO CITY, (AP)—Cultivation of friendly relations and creation of confidence that Mexico is anxious and capable of fulfilling her obligations is the government's provisional President de la Huerta in his message to congress Thursday.

He gave as examples of the relations between Mexico and United States, mutual extradition proceedings carried on by the two countries and compliance by the United States with the Mexican request that airplane flights over Mexican territory be forbidden.

"Despite difficulties," the message added, "the government has striven to protect the lives and interests of foreigners here produced good results."

Brief mention was made of petroleum legislation, it being stated that a bill had been prepared for the purpose of developing article 17 of the constitution, which nationalizes petroleum deposits.

The case of W. O. Jenkins, former United States consular agent at Puebla against whom criminal proceedings have been brought, it was said, before the courts of the state of Puebla and a verdict might be expected soon.

The message discussed the pacification of the country and gave details of dealing with the Cantu revolt, the Yaqui Indians, and the dispute over the governorship of the state of Vera Cruz.

Work of the commission studying a new banking law was described as being "well advanced."

JAPANESE 'REFORMS' IN KOREA CALLED PRETENSE

Provisional President of Subject Land Says Nippon Would Mislead

HONOLULU, T. Koreans, said Dr. Rhee, will not rest until they have attained their complete independence of Japan.

Dr. Rhee referred to announcement July 31 by the governor general of Korea Baron Saito, of the imminence of local self-government in Korean communities.

"This official announcement," said Dr. Rhee, "is in harmony with Japanese policy in Korea for the past ten years. Korea is covered with a screen of veterans attending to receiving immigrants or inefficiently in receiving immigrants. Their places have been filled by"

CHRISTENSEN ASKS FOR SPACE IN NEWSPAPERS

Proposes that Harding and Cox Each One Column Daily to Each Party

CHICAGO, (AP)—Parley P. Christensen, farmer labor candidate for president, today sent a telegram to Senator Warren G. Harding, republican presidential candidate and Governor James M. Cox, democratic nominee, suggesting the two newspapers grant each one column of space each day until November 2 for the publication of such facts, views and statements as the national committee of each party furnishes to your newspaper.

"If you will do this you will have done more for the development of American political, social and economic intelligence, in my opinion, than any one thing you could or can do during four years in the White House," Mr. Christensen added.

WELCOME FOR IMMIGRANT IS WALLIS' PLAN

Immigration Commission at Ellis Island to Make New-comer More Comfortable

NEW YORK, (AP)—Sweeping changes are being made at America's gateway—Ellis Island—by Immigration Commissioner Frederick A. Wallis, who proposes to make the big immigration station more comfortable for the newcomers to the United States.

Freedom and sunshine is being planned for the new arrival by the commissioner who has just announced plans for improving conditions in general on the island. Larger buildings are to be added, additional quarters provided for those unable to get beds and many other conveniences for the immigrant are to be installed.

Kind and Decent Treatment

Kind and decent treatment for all new arrivals has been demanded by Commissioner Wallis who has already announced the discharge of some of the veterans attending to receiving immigrants. Their places have been filled by

more courteous, attentive and younger men.

"I propose to make this receiving station representative of all American promises," he said.

Commissioner Wallis asserted that he planned to install beds at the island in order that every individual entering the country will be given a bath and have his clothes sterilized before he enters the station.

"They made our soldiers do this," he said, "so why not make our immigrants. This will be a big step toward preventing disease from entering our gates and will have a great moral and physiological effect."

Supplies Milk to Mothers

One of the latest improvements by Commissioner Wallis has been the supplying of warm milk to mothers with babies. This was done as soon as the commissioner learned that chilled milk made the infants sick.

When he learned that hundreds of immigrants were jammed in the detention pens the commissioner ordered the liberation of the occupants and gave them the freedom of the large examination hall.

Commissioner Wallis has appealed to Washington to remove the alleged radicals and anarchists detained at the island for deportation, because of the crowded conditions at the immigration station.

"They are a defiant lot and should be deported," he said. "They occupy a room that could accommodate a couple of hundred immigrants."

Calls for Co-operation

Railroads have also been asked by the commissioner to provide better transportation facilities for the immigrants and stop employes from "grafting" from the newcomers. He also wants them

to be properly fed while being detained for entrainment.

While funds are not immediately available for improvements at the island, Commissioner Wallis said, he will ask congress to provide the money. He said that he had already asked permission to raise funds by public subscription if the necessary money could not be provided by the government.

BRITISH HOUSE-BUILDING PLAN RUNNING BEHIND

Lack of Skilled Workmen is Considered Responsible for Delay in Carrying Out Program of English Ministry

NEW YORK, (AP)—The acute housing shortage faced by many cities in the United States today brought from the Guaranty Trust company a description by its foreign trade bureau of how Great Britain was meeting a similar situation.

"The program of the British Ministry of Health—complete rehousing in three years—is about one year behind and is costing more than double the original estimates," said the report. "Local authorities in England are left in charge of the work unless they fail to show results, in which case the business is turned over to the Ministry of Works."

"What is keeping back housing at the present time is the fact that there are not enough skilled men to do even a quarter of the work wanted. The trades unions will not allow the number to be increased from the present level."

"The government is using a sort of indirect compulsion by prohibiting 'luxury and unessential building,' so that if a man will not build cottages he is not allowed to build anything."

"Plans are being made for organizing all over the country. In London, subscriptions to the six per cent bonds amounting in at the rate of about 100,000 pounds a day. While the local governments are housing at the present rate, the British government charges seven per cent. Borrowing in the ordinary way for housing schemes not financed by bonds is usually seven per cent. On July 1 the total number of housing schemes in England and Wales numbered 10,673, covering, in all, land for 800,000 houses. Of these 7,120 have been approved with an area for 550,000 houses. In Scotland 103,000 houses have been authorized, the total amounting to about 1,000 pounds per house. This is roughly about 100 to 150 pounds more than it costs per house in England."

SOUTH AMERICA HOLDS BALANCE AGAINST U. S.

Department of Commerce Figures Show American Imports Exceed Exports

WASHINGTON, (AP)—South America wound up the fiscal year of 1920 with a trade balance of \$370,000,000 against the United States. Figures made available by the department of commerce show that exports from the United States aggregated \$190,914,179 while imports from South America totalled \$560,914,300.

Argentina was the largest importer from the United States, the total value of goods shipped to that republic during the 12 months ended July being \$192,146,618. Brazil was second in goods purchased from the United States, the value being \$115,929,217. Brazil led the South American countries in shipments to the United States, the total value being \$291,217,794. Argentina was second with \$257,783,114. Chile's exports to the United States were valued at \$112,657,925, while imports from that country were valued at only \$44,290,985.

Colombia was fourth among the South American nations in exports to the United States and in imports from this country. The figures were \$54,100,217 and \$52,123,464 respectively.

GRAND CIRCUIT RACES

READVILLE, Mass., (AP)—Fred Edman, Tennessee jockey at the Grand Circuit, yesterday captured the Boston Herald's \$2000 purse offered for two-year-old trotters and lead the field in the 2:06 trot. Pavonia was his entry in the juvenile event while Toistic Toise accounted for his second victory. Savanna and Little difficulty in winning the Herald purse, trailing a neck heat until the field swung into the home stretch then rushing past the leaders. Her best time was 2:06 1-2.

Toistic Toise led the others make the pace in the first heat of the 2:06 trot until she headed them in the home stretch, but in the final she led all the way. Her best time was 2:06 1-2.

Charles Valentine's gelding, Walnut Prince, was the best of the field in the 2:08 trot, so much faster in fact that the Ohio trainer won the final heat from Dottie Day after making a racing break at the three quarter pole. His best time was 2:08 1-4. Finishes were close in the 2:14 pace but Billy Crozier's mount, Billy Sunday, not managed to stave off his opponents at the wire. Best time 2:08 1-4.

GREAT WESTERN RACES

MILWAUKEE, Wis., (AP)—Allen Dillon, driven by Whitney won the 2:18 trot, future event on Thursday's great western circuit card here by the narrowest of margins from Kilo Wattle. The race went six heats with close finishes. Summary: 2:10 pace stake, \$1000; John R. won; Star Boy English, by B. G. second; Commodore Hal, B. I. G. third. Best time, 2:07 1-4.

CARPENTIER TO MAKE SECOND TRIP TO AMERICA

PARIS, (AP)—Georges Carpentier, heavyweight pugilistic champion of France, will leave for the United States tomorrow, according to newspaper here.

Brief Bits of Sport

"Chicago Kid," a shifty and hard-litting welterweight boxer, is here to work out with Romeo Hagan.

The "Kid" will probably be put on against Copenhagen, the "Battling Buckaroo" of Bull in one of next Monday's preliminary bouts.

Gordon McKay says he was never in better condition for the coming battle with Hagan, and, stripped, his looks bear out the statement.

This Wilbur B. Rose person, who impressarios for Ray Rose and Al Nelson, is an effervescent and irrepressible sort of a guy, besides being a real optimist.

He says the Rose-Meyers bout, scheduled for Pontecillo on Monday next, has created more favorable comment than the O'David-McKay battle.

Also he avers his Lantam and light-weight fighters will soon be battling champions for titles and things.

Well, so mote it be.

Anyhow the White Horse didn't lose yesterday, and by the same token, neither did the Indians win.

Sim Suley, sage-brush sage, says: "The reason so many gals are named Lily is because they toil not neither do they spin."

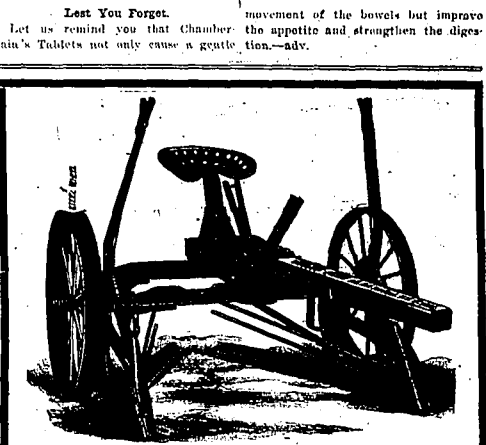

What a blessed pair of infielders Paddy Siglin and Jimmy McAuley must have been when they played side by side in other days.

Siglin, who is now with Portland, is the best key-stoner in the Pacific Coast league, while McAuley is running the best of the shortstops in that circuit a hard race for top honors.

Chicago papers daily run pictures of Mike and Dempsey with their fighting faces on.

Neither man would win a championship in a beauty exposition.

"More Deadly Than the Male"

Story by Joseph Gellomb Scenario by Julia Crawford Tveer Directed by Robert G. Vignola

Caught!—in fair arms that clung—drew him in—trapped him like a fly in the web of a spider!

And he had thought that women were weak; had planned adventure, hunting tigers in the wilds.

But the eternal tigress, woman, sprang into his life; at home; dreamed his days with more adventures than he ever dreamed; in the end, made him glad of her power.

A picture of rare beauty, stirring events, and a subtle appeal that is irresistible. Come!

COX DERIDES HARDING PLAN TO KEEP PEACE

Calls Hague Tribunal Failure Because it Did Not Prevent War in 1914; Considers the League Progressive Plan

EN ROUTE WITH GOVERNOR COX. (AP)—The western "swing" of Governor Cox was opened early today with a before-breakfast, rear platform address to a railroad station crowd at Toledo, while the democratic candidate was on route to Michigan.

"I'm starting for the coast," said Governor Cox to his surprise audience. "We're in the fight to win. We will win because our cause deserves to win."

The league of nations was featured by the governor at Toledo. In urging the league of nations at Toledo, Governor Cox referred to the present disagreement over German indemnities.

"The voice of America," he said "must fix it. Now they say that we should substitute for the league the old Hague tribunal. That institution closed up before the war. I imagine there are bats in its lofty and spider webs everywhere. It was a distinct failure, having failed to prevent war in 1914. The opposition candidate says he will go back and upon this old institution and try to keep house there."

Declaring that the league is "the modern idea of bringing the nearest guaranty of peace, Governor Cox said it was a progressive plan, and that Senator Harding, the republican nominee, stood far reaction as he had done also in opposing the new Ohio constitution.

Referring to the Harding front porch campaign, Governor Cox said that on his trip he was "going to see thousands of front porches from coast to coast in the belief that the front porch of the people is the seat of American sovereignty."

Governor Cox and his party were met at Toledo by a delegation of about 25 Michigan democrats.

LORD MAYOR OF CORK IS REPORTED SINKING FAST

Brother Says Imprisoned Irish Official Much Weaker This Morning

LONDON. (AP)—Torrence MacSwiney, lord mayor of Cork, who is in a critical condition in Brixton prison as a result of his hunger strike, which began August 12, was reported this morning to be showing signs of sinking rapidly and to be very much weaker. This statement of his condition was made by his brother, Sean MacSwiney, after he left the prison this forenoon.

At the lord mayor's request, members of his family visited him this morning later they expressed fear that the end was not far away.

Father Dominick, private chaplain to MacSwiney, celebrated a special mass in the prison this morning.

A report made on Mayor MacSwiney's condition shortly after noon said he was rapidly approaching unconsciousness. He was too weak during the morning to carry on a conversation, it was said.

ENGINEERS MAKE PUBLIC REPLIES OF CANDIDATES

Cox Assents without Reservations; Harding Requires Some Study

CHICAGO. (AP)—The American Association of Engineers today made public letters from Governor Cox and Senator Harding in answer to a questionnaire recently sent the presidential candidates.

Governor Cox wrote that "my reply to every one of the questions you ask is unequivocally 'Yes,'" while Senator Harding, in a lengthy letter, outlined his views more fully.

Among the questions asked were whether the presidential nominees favor a national department of public works for the purpose of reducing and coordinating many bureaus and commissions; the appointment of an engineer as a member of the interstate commerce commission; a progressive program of conservation and development of public resources; the budget system of appropriations and the reclamation of waste lands within a special financial system to aid the settler.

partment of public works but feared "I should be unworthy of public confidence if I ventured to decide so important and far reaching a question without the very fullest study."

RESOURCES TAKE MEN.

At 1:40 p. m. today naval authorities here issued the following statement to the maritime exchange:

"All persons who were on submarine B-5 have been saved. They are now on board the battleship Ohio. The submarine is now in latitude 38.30, longitude 74.02. This places her position approximately 75 miles southward from the entrance to the Delaware bay. The Ohio has not yet started to tow the submarine, but is preparing to proceed immediately with the submarine in tow for the harbor at the Delaware breakwater."

NAVY DEPARTMENT WAITS DETAILS OF DISABILITY CAUSE

WASHINGTON. (AP)—Informed by wireless that all members of the submarine B-5, submerged off Cape Henlopen had been rescued, navy department officials today awaited further details of the rescue and a report as to the cause of the submarine's disability.

Besides Lieutenant Commander G. M. Cooke, Jr., whose home is in Arkansas, other officers reported on August 1 with the B-5 were Lieutenant J. G. Gresham, home address not given; Ensign J. Lindley Longstaff of Nebraska; and Gunnery Robert Holt of Indiana.

A message sent by the transport General Gates to the commandant of the fourth naval district at Philadelphia, and relayed to the navy department today, described the accident as due to the submarine being "partially flooded while making a crash dive."

The crew list of the B-5 includes the following: Percy Fox, Buffalo Center, Iowa; Brown, Albert E. Quincy, Alameda, Cal.; and William J. Danver, Cleveland, Idaho.

Machinist's mate, John C. Smith, Vancouver, Wash. Miss. Attendant Roberto Igdanes, Pontevedra, Capiz, P. I. Water tender, Grove B. Conklin, Los Angeles.

Today's Markets

New York Stock Market

NEW YORK. (AP)—Extensive realizing for profits occurred in the stock market today, in anticipation of the triple holiday, but industrials reflected the more confident operations of bull pools. Sales approximated 375,000 shares.

Overnight advices confirming recent reports of an extensive gold export movement is to be inaugurated imparted a firm tone to the stock market at the opening of today's session. Stocks, oils and equipments were the prominent features. Creditable scoring on the list gain of 2 1/4 points. Rails were irregular, the impeding holiday inviting further selling for profits among those issues. St. Paul preferred soon cancelled a point advance and St. Paul common fell 1 point with St. Louis and San Francisco preferred.

Rails continued to lag in the later dealings but oil, food, shipping and various special issues extended their gains of the mid-session. The closing was firm.

Liberty Bonds

NEW YORK. (AP)—Liberty bonds closed: 3 1/2's \$89.00; first 4's \$85.10; second 4's \$85; first 4 1/4's \$86.00; second 4 1/4's \$85.20; third 4 1/4's \$86.00; fourth 4 1/4's \$85.38; Victory 3 3/4's \$95.50; Victory 4 3/4's \$95.50.

Grain and Provisions

CHICAGO. (AP)—Sharp advances took place in the wheat market today largely as a result of bullish estimates of the amount of wheat available for export. One authority figured the total as 110,000,000 bushels less than last year. Opening quotations, which ranged from the same as yesterday's, finished 2 1/4 to 3/4 higher, with December \$2.40 to \$2.41 and March \$2.37 to \$2.38. Word of urgent need of rain in Argentina and so, too, did an advance in Canadian exchange rates. Apparent stoppage of export demand, however, led to a reaction. The close was unsettled, 1-1/2 to 1-1/4 net higher, with December \$2.43 1/4 to \$2.41 1/2, and March \$2.37 1/4 to \$2.37 3/4.

Corn was dominated by the strength of wheat. After opening 1-4 off to 1-5 up, including December at \$1.18 1/2 to \$1.19, corn soon showed substantial gains all around.

Subsequently the market weakened when wheat suffered a setback. The close was heavy, 1-1/2 to 1-1/4 net lower, with December \$1.18 3/8 to \$1.18 1/2, and March \$1.17 1/2 to \$1.17 1/4. Other cereals starting about unchanged, December \$6 5/8, then sagging a little, and later tending upward.

Firmness developed in provisions owing to advance of grain and hogs, but trading lacked volume.

Cash Quotations

CHICAGO. (AP)—Wheat No. 2 red \$2.68 to 2.69; No. 2 hard \$2.57 to 2.60. Corn No. 2 mixed \$1.45; No. 2 yellow \$1.43 to 1.51. Oats No. 2 white 67 to 70; No. 3 white 65 3/4 to 68 1/4. DEATH PENALTY FULFILLMENTS BREAK RECORDS

Two Days to See Sentence of Hanging for Murder Carried Out in Cases of Twelve Men in Cook County Jail

CHICAGO, (AP)—All records for legal executions in Cook county are possibly in the state of Illinois, will be broken here October 14 and 15, county officials believe when 12 men are sentenced to be hanged for murder.

Eight of the men are under sentence to die October 14 and four on the following day. In addition two other slayers who have been executed are awaiting sentence and it is possible that they also may hang on one or the other of the two days.

Chicago has had several wholesale executions in the past—the most notable on November 11, 1887, when four of the Haymarket anarchists were hanged—but nothing in the memory of jail officials approaches a death list of 12 in two days.

Hangings in the Cook county jail take place in the corridor of one of the main cell blocks. There is a room for a doctor, a nurse, so it is possible, according to George P. Lee, the jailer, that the men will be executed in pairs. The hangings will cost the state approximately \$3000, including a \$100 fee for the sheriff for each man hung.

Those to be hanged October 14 are Sam Cardinella, leader of a blackhand gang whose members confessed several murders; Nick Viani, Thomas Ericson, Frank Campion, Sam Lewis, Joe Castanzo, Sam Ferrara and Henry Reese, the latter a negro.

The October 15 list includes Arthur Hessel, Richard Wilson, Harry Anderson and Frank Zager. Hessel, who killed his wife, was to have been executed last spring but was granted a reprieve five minutes before he was to have marched to the gallows. Andre was convicted of killing a watchman while robbing a factory safe. Wilson was found guilty in the same case, although he was on another floor of the building when Andre his partner, killed the man. The jury decided that an accomplice he was equally guilty.

AUTHORITIES INVESTIGATE ALLEGED HOLDUP ATTEMPT

Various Reports Current Concerning Stopping of Train West of Ogden

OGDEN, Utah, (AP)—Sheriff's deputies and railroad detectives were working here today following an alleged attempt to hold up a section of the west-bound Overland limited fifteen miles west of Ogden on the Southern Pacific. Four men, who had a small car, are said to have stopped the train by causing a block signal to register danger.

The stopping of the train was reported to the sheriff's office by Southern Pacific officials after they had received a brief telegraphic report from the train crew. This message said the train was delayed 27 minutes and told of four persons near the tracks but said no attempt was made to board the train.

Railroad men here said the train carried bullion.

EXPRESS MESSENGERS SAY REPORTS ARE EXAGGERATED

RENO, Nev., (AP)—Express messengers of the second section of Southern Pacific train No. 1 said here this morning that the reported attempt to hold up the train west of Ogden was exaggerated. They declared a soldier who had been trying to beat his way on the engine tender, was put off and three men passing in an automobile, who saw the train stop, offered to take him back to Ogden.

The brakeman of the train disarmed the soldier who had flourished a pistol in an effort to compel the crew to carry him. None of the express messengers knew anything of a holdup, they said. The train was composed of express cars only and carried no passengers.

CO-OPERATION AMONG FARMERS

call for the presence of the American farmer in our government offices, administrative and representative. They call for extension of the farm loan principle, not only in the case of the man who already owns a farm, but to worthy Americans, who want to acquire farms.

"I will sell out my farm at greater length the proposals in mind to remedy these conditions. On this occasion, however, I lay stress upon one—co-operation. I believe that the American people, through their government, should advise, not only in the behalf of the farmer but in behalf of their own welfare, and the pocket books of the consumers of America, will encourage, make lawful and stimulate co-operative buying; co-operative distribution and co-operative selling of farm products.

Approves Organization

"Industry has been organized; labor has been organized. Co-operation within industry and within labor and, indeed, co-operation between the two, is far advanced. I do not contemplate the organization of the farmers and consumers of this country as a step toward organization of special interests to obtain special favors. If I did, I would oppose it. But I know full well that we must all of us consumers act together to find our way clearer and easier and cheaper to the sources of our food supply."

FARM MARKETING.

Declaring the project not feasible, the resolutions committee of the National Board of Farm Organizations meeting at Columbus, has rejected a plan drafted in committee for the formation of a nation-wide wheat pool to be controlled by farmers.

It was argued before the committee that the proposed pool might be a violation of the Sherman anti-trust law. The best that the farmers might hope for, it was said, was the right to market their products co-operatively.

The distinction here made between marketing through a nation-wide pool which is rejected and through "co-operation" which is approved, seems to be one of extent rather than of principle. It must be plain that co-operative marketing if proven successful and carried to its logical conclusion, might very probably develop into a nation-wide pool.

It would be folly, however, to urge any objection to this score against whatever may be done to encourage co-operative marketing on the part of the farmer. Not only is co-operative marketing, beyond question, the best bet for the farmer at the present time, but it offers the one way out of the situation that is bound to hold agriculture back until the industry is brought out to a business basis where it belongs.

Concerning the desirability of co-operative marketing for the farmer there can be no question; and if development on that basis should result in a farmer's control of marketing which would bring it in contact with the anti-trust law, certainly it must be recognized that if anybody is privileged to wield that great power, the man who first produces the stuff that is marketed ought to be that person.

Until such time, however, as the farmer's power in the field of marketing borders on infringement of the anti-trust law, not a straw should be laid in his path in pursuance of this course toward attainment of the position that rightfully belongs to him in this sphere.

Co-operative marketing is a result of self-reliance and self-aid that is commendable in any industry.

It is the solution to the existing marketing problem, as it is worked out by the farmer who is making no odds at any time in the road, and is something entirely different from the plan of his incompetent brother who vainly hopes for a solution to be given him in the guise of state socialism at the hands of the professional "up-lifter."

HOW WILL WOMEN VOTE?

There was bound to be considerable speculation as to the effect admission of women to suffrage would have on election results. But the problem might be more mystifying than it is, had not women in 12 states voted for president four years ago. Since then other states have admitted them to partial or full suffrage so that it is estimated that 17,000,000 women would have had the right of presidential suffrage had not the eighteenth amendment been satisfied. Under the suffrage amendment it is estimated that 27,000,000 will be eligible to cast their ballots.

It has not been found that admission of women to suffrage has revolutionized the politics of any state. In most cases it has merely emphasized the previous political trend. In fact the matter of deciding political affiliation is "such more of a family matter, and properly, than might be suspected. There are instances, doubtless, where the family divides politically; but as a rule the adult members of a family are of one mind politically.

The eighteenth amendment was based on the ground that it would accord to women what is and has been their right. That it should be expected to op-

erate to reverse political tendencies is not indicated by its operation in the states where women have long exercised the right of suffrage. By reasoning or intuition the wife is likely to find herself reaching the conclusion as to the proper course in political action that the husband has arrived at by similar means. What is the political, reasoning and interest of one member of a family is likely to prove the interest of all.

No doubt the influence of women at the ballot box has been expressed forcibly heretofore and the most marked

difference to be observed will be in the increase in the number of ballots cast.

GERMANY ACCEPTS TERMS
Meets French Requirements on Account of Incidents at Breslau

PARIS, (AP)—The foreign office at 2 o'clock this afternoon received official notice of Germany's acceptance of the terms embodied in the French demands for reparation on account of the recent incidents at Breslau, which included an attack by a German mob on the French consulate. Telegrams from Berlin yesterday had forecast the German acceptance.

ESTABLISHES SPACE BASIS
Commerce Commission Acts on Complaints of Roads Carrying Mail

WASHINGTON, (AP)—The space-basis system governing payments to electric railways for transportation of mail was established today by the Interstate Commerce commission. Complaints filed by electric railway companies throughout the country contended that the present method of payment did not afford a fair measure of service rendered in all cases. The commission fixed schedules of payment under the space basis system which was held to be a reasonable means of measuring service.

BOYS AND GIRLS TO OWN A HOME AT STATE FAIR

Accommodations Are Being Provided for Prize Winners Among Youthful Club Workers of Idaho.

BUILDINGS WILL BE PERMANENT

Funds Being Raised by Popular Subscription to Defray the Cost of Dormitories and Kitchen.

Boise, Sept. 2.—Prize winners among the boys and girls of the state who are engaged in club work under the direction of the agricultural extension department of the state university will be housed and fed in buildings erected especially for their benefit at Idaho's big state fair this fall, according to an announcement made this week by Secretary O. P. Henderson.

The agricultural extension department is now engaged in raising funds with which to pay for the cost of two buildings under course of construction, both of which will be completed and ready for use before the gates of the fair swing open on the morning of September 27.

A fixed sum of money is being raised in each of the 44 counties of the state to apply on the cost of the buildings. At least three counties—Canyon, Bear Lake and Jerome—have raised their apportionments and a number of other counties are about over the top in the drive. The bankers of the state, all of whom believe in the future of the boys and girls, are taking the lead in the drive for funds, but business men and farmers generally, are contributing freely to the cause and the agricultural extension department is confident that the needed funds will be raised in ample time to permit it to pay the contractors for the new buildings at the time of their completion.

The two buildings which are being put up for the accommodation of the prize winners in the club work are of frame construction. One of the buildings is a dormitory 184 feet long by 84 feet in width with accommodations for 150 boys and girls—will be equipped with toilets, shower baths, dressing rooms and screened to keep out the flies.

William Stuart, of Welser, and six months old gilt with which he won Armour & Co. trip to Chicago, Junior grand champion and other open class boys' and girls' club prizes at State Fair, 1919.

The other building now under construction, will be used for a dining room and kitchen. Both buildings will be of permanent construction. They are designed for use exclusively by the boys and girls at the state fair year after year. Next year a second dormitory will be built.

Each of the dormitories will cost \$7,000. The building to be given over for use as a dining room and kitchen will cost \$4,000.

Last year 4,000 Idaho boys and girls were engaged in club work. Out of that number 75 of the young people were chosen as prize winners and taken to the state fair, where they were quartered in tents erected for their use.

This year more than 6,000 boys and girls are enrolled in club work and out of that number it is expected that about 115 prizes winners will be guests of the state at the big fair. The tents proved satisfactory and for that reason, it was decided to erect buildings which can be used from year to year as is the custom with states in the middle west. The buildings provided this fall will cost approximately \$12,000 when furnished, and to get the money with which to pay for them, it was decided to make the statewide drive now under way.

Every mail is bringing in contributions ranging in size from \$2 to \$50. The task of raising the funds has been placed in the hands of a board of trustees of which Governor D. W. Davis is chairman and R. F. Becknell, president of the Overland National bank of Boise, is treasurer. Other members of the board of trustees are W. H. Thompson, president of the state fair association; C. B. Ross of Canyon county, president of the Idaho state farm bureau; W. F. Alworth, president of the Twin Falls county farm bureau; J. Robb Brandy of Pocatello and C. J. Call of Jefferson county, vice president of the Idaho state farm bureau.

Prize money in the sum of \$2314 have been offered to prize winners among the boys and girls who exhibit at the state fair. These cover prizes for the best in live stock, poultry, needle work, agricultural products, fruit, cooking and canning.

Barefoot, Muddy Kids Go Motoring with the President

'A cat may look at a King,' but here are the three typical American boys who went motoring with the President of the United States. Today Marcus Monsh (center), fourteen year old son of an Austrian grocer, is wondering if it all isn't just one of the Austrian fairy tales told him by his mother at bed time. 'Mickey' Deegan (left), ten, whose parents boast of Irish extraction and whose father is a taxi driver, bears an "exclusive" attitude; while 'Tilly' Falcone (right), whose father is an Italian barber, eagerly tells of the great event. It seems the youngsters were being chased by a cop for wading in Rock Creek and were on their way when they halted the passing auto and were invited to ride. Once inside, embarrassment at being wet and muddy replaced boyish confidence. For they had recognized the President and his wife. 'Oh, Boy! Some feeling!' said 'Tilly' Falcone. 'He asked us about the movies and everything.'

ARIZONA VOTERS TO MAKE CHOICE OF CANDIDATES

Nominations for Presidential Electors, Senator, Congress, and State Offices to be Made at Primary Elections.

PHOENIX, Ariz., (AP)—Arizona voters at a primary election September 7, will choose party candidates for the United States senate, member of the house of representatives, presidential electors, governor and other state offices. The candidates named at the primary will make the final race at the general election November 2.

Senator Marcus A. Smith, democrat of Tucson, Governor Thomas E. Campbell, republican of Prescott, Ariz., and Representative Carl Hayden, democrat of Phoenix, are candidates for the offices they hold.

Opposed to Senator Smith for the democratic nomination are John W. Norton, Phoenix, R. C. Stanford of Phoenix, and A. A. Worley of Tucson. Candidates for the republican senatorial nomination are Ralph H. Cameron of Phoenix; E. S. Clark of Prescott; Thomas Madsick of Phoenix and Edward M. Robison of Flagstaff. Representative Hayden is unopposed in his own party and no republicans are running for the nomination for his post.

Campbell Unopposed. Governor Campbell is the only republican candidate for his office. Two democrats, Secretary of State, M. H. Simms of Selmonville and M. H. Winsor of Yuma are seeking their party nomination for governor.

Republican candidates for presidential electors, of which Arizona has three are James P. Boyle of Phoenix; John L. Gust of Phoenix; Joseph W. Smith of Snowflake and Frank R. Stewart of Phoenix. Democratic candidates for presidential electors are B. P. Billingsley of Dunsmuir, May Belle Craig of Phoenix and H. T. Southworth of Prescott.

Candidates for the other nominations are: Supreme court justice, democrat, A. G. McAllister of Safford; Thomas W. Nealon of Phoenix and Samuel L. Patton of Tucson; republican, Edward J. Flanagan of Boise.

Secretary of state, democrat, E. A. Carroll of Winslow; Mrs. Nellie A. Hayward of Douglas; Harry S. Ross of Tombstone and Charles D. Sales Wheeler of Phoenix; republican Ernest E. Hall of Phoenix.

State auditor, democrat, P. J. Munch of Nogales; republican, Charles W. Fairfield of Winslow.

State treasurer, democrat, Raymond R. Earhart of Nogales; Sam F. Wobb of Phoenix; republican, J. W. Estill of Tucson.

Attorney general, democrat, Leslie C. Hardy of Nogales; Wiley E. Jones of Phoenix, and Louis B. Whitney of Boise; republican, W. J. Galbraith of Glendale.

Superintendent of public instruction, democrat, C. O. Case of Phoenix, and A. C. Peterson of Thaler; republican, Linwood S. Pratt of Lakeside, and Elsie Toles of Tombstone.

Corporation commissioner, democrat, L. E. Adams of Boise, P. D. Cashel of Phoenix and Loren Vaughn of Phoenix; republican, no candidates.

State mine inspector, democrat, G. H. Hollis of Boise; Tom C. Foster of Lovell; Charles E. Hansen of Dunsmuir; Harry Jennings of Boise; Edward Massey of Boise and Ed O'Hagan of Jerome, republican; V. G. Melligren of Flagstone, and John F. White of Phoenix.

State tax commissioner, democrat, E. A. Hughes of Tombstone; Frank Luke of Phoenix; M. A. Murphy of Phoenix; C. M. Zander of Tropic; republican, Rudolph Knicker of Phoenix.

THREE HAWAIIAN RAINBOWS WELCOME ANNIVERSARY DAWN HONOLULU, T. H., (AP)—Three rainbows in a row, linked together at their bases, appeared over Honolulu to welcome the dawn of Thursday August 12, the twenty-seventh anniversary of the lowering of the Hawaiian flag and the raising of the Stars and Stripes over the king's palace, now the capitol, here.

Hawaii is a country of rainbows, beloved by its natives of olden days to be ominous of good, and scarcely 24 hours pass without one or more of the celestial arches appearing above this city.

A Grateful Letter. It is in trying conditions like that related below by Mrs. George L. North of Naples N. Y. that proves the worth of Chamberlain's Colic and Diarrhoea Remedy. 'Two years ago last summer' she says 'our little boy had dysentery. At that time we were living in the country eight miles from the doctor. Our son was taken ill suddenly and was about the sickest child I ever saw. He was in terrible pain all the time and passed from one convulsion into another. I sent my husband for the doctor and after he was gone thought of a bottle of Chamberlain's Colic and Diarrhoea Remedy in the cupboard. I gave him some of it and he began to improve at once. By the time the doctor arrived he was out of danger.'—adv.

Buying a Pig In a Poke The buying of advertising space used to be buying "a pig in a poke." The quantity and quality of circulation was shrouded in mystery and often the bag was tied against investigation. That day has passed. The advertiser no longer depends upon "mere claims." The Audit Bureau of Circulations has untied the strings to the sack and the circulation of the better class of publications is thrown open for the most searching scrutiny. In buying advertising space in The News you are not buying "a pig in a poke." Our A. B. C. statements will stand the analysis of the most-exacting investigator.

DADDY'S EVENING FAIRY TALE

BY MARY GRABAM BOWMER

LAST STORE STORY.

The Wishing Fairy and the Fairy know that almost everything in the big store had now had no more of existence to be someone else. None of them had ever enjoyed themselves as others, and they had only felt out of place.

"You're So Big."

They had heard the stories of how miserable the others had been, but they themselves had gone to sleep and nothing would make them happy but to try it all for themselves.

And one of the doll's houses had wanted to be something else, too—one of the doll's houses which hadn't changed before. So as they all made their requests the Wishing Fairy granted them. The canary bird, now an opera singer, had just finished singing before his audience. They were calling for a speech and the canary bird couldn't make a speech. He had nothing to say. He could only chirp.

"And," said the canary bird to himself, "I'll be so worn out and tired tomorrow that I won't be bought by those nice people who looked at me today and who said they'd probably decide to take me when they come tomorrow."

"I don't know what to do with you, Moon," said one of the partners of the pair of gloves which had asked for the moon. "You're so big, you're extremely difficult to manage."

The moon was sitting on the counter by the pair of gloves. "I can't even try myself," you neither can my mate, for you have no hands. And you can't run and play, for you've no feet and no legs. Oh, Moon, why did I wish for you?"

"I'm sorry you don't like me," said the moon, grinning from ear to ear. "You see, it was only because the Wishing Fairy asked me to come down that I came. I never leave the sky as a rule. But she said she was tired of folks and boys and girls wishing for the moon. She said she would bring me down for a change and just show some folks that I was best where I was."

"I thought," said one of the mates of the pair of gloves, "that I would get the most wonderful thing in the world if I got the moon for my wish."

"Sorry," said the moon grinning, "but cheer up; you're not the only one liable to make such a mistake."

The blue apron was weeping now. It had disagreed itself by suggesting to one of its new companions, whom it wanted to be like, a silken jacket, that when they went calling as they planned to do they'd better call upon over themselves in case they were asked to dust or sweep or clean doll's houses.

And the silken jacket had turned up its top button which it called its nose and had said, "You and I will not go calling together. We drink cambric ton or cocoa when we go a-calling. We're not like you sweep. Your mother, alas and alack, never has been made of very coarse and cheap and ordinary material!"

The doll's house was tired of being different kinds of toys. It wanted to be a doll's house again, so it would always be loved, and not change off for a new toy several times in the same evening. The great children's store now began to grow smaller and was no longer the enormous thing it had been during the night. Now it was its usual size again.

The different dresses, the canary bird, the pair of gloves, all were weeping and sighing. "What is it?" asked the first fairy. "Didn't the Wishing Fairy grant your wishes?"

"But we want to be what we were," they all cried.

"Oh, ho," said the Wishing Fairy. "So that's it! Well, I see that no one and nothing wants to be anything else for long with anyone else. Everything in this store has its one right after the other. And now everyone is satisfied with what they are, eh?"

"Everyone," they shouted with such a loud cry that the Wishing Fairy held her hands to her ears and promised, "Never, never again, no matter what you ask you like to be!"

And this is the last story of the store where everything wanted to change places with everything else and where they tried it, but all decided they were happiest where they were and with what they were!

GALVESTON IN SECOND PLACE AMONG PORTS

Doubles Value of Export Trade During Fiscal Year Just Closed and Takes Position Next to New York

WASHINGTON, D. C. (AP)—Galveston, Texas, took second rank among the ports of the United States in the value of exports during the fiscal year ended last June 30. The total value of its foreign shipments as given by the department of commerce was \$505,239,227 or nearly three times more than the year before and greater by three times than those in 1918.

Nearly half of all the exports from the whole country were sent out of New York, the ratio being \$2,305,638 or \$180,000,000 greater than the exports the year before and nearly one million dollars more than in 1918.

New Orleans ranked third with a total of \$259,402,922 or \$100,000,000 more than during the year before. Philadelphia was fourth with \$449,691,705 or \$40,000,000 less than the year before. Baltimore was next with \$338,902,435 or \$24,000,000 more than the year before. Savannah, Ga., ranked next and ahead of Boston with \$311,171,389 or double the 1919 total. Exports from Boston were valued at \$281,614,910 or \$10,000,000 more than the year before.

Exports from Norfolk and Newport News were valued at \$230,098,288 or more than double those in 1919. San Francisco was slightly ahead of the Virginia ports with \$235,674,773 as was Seattle, with \$228,186,694.

Exports from the other principal ports were:

Tampa, Fla., \$96,154,982 compared with \$51,876,014 the year before.

Mobilio Ala., \$87,782,701 compared with \$50,915,756.

Fort Ward, Ore., \$42,812,801 compared with \$11,592,029.

Portland, Ore., \$42,812,801 compared with \$10,618,219.

Charleston, S. C., \$32,474,625 compared with \$3,041,315.

Los Angeles, \$21,874,135 compared with \$8,700,903.

STATE OF WASHINGTON POPULATION RANK DROPS

Growth in Last Ten Years Little More Than One-Third Increase in the Previous Decade

WASHINGTON, D. C. (AP)—Population growth in Washington state in the last ten years was little more than one-third of its numerical increase in the previous ten years. The total 1920 population was 1,356,216 as announced Thursday by the census bureau. As result Washington, which ranked as thirteenth state ten years ago, is now outranked by Connecticut, thirty-first state in 1910.

Washington's increase numerically was 214,326, while Connecticut, which had about 27,000 fewer people than Washington ten years ago, has shown an increase of 295,829 in the last decade and now has about 34,000 more people than Washington.

The rate of growth of Washington, 18.8 per cent in the last ten years, was the smallest in the state's history. Its highest rate of growth was 37.6 per cent in the decade ending with 1860, while in the decade ending with 1910 it was 120.4 per cent, the highest rate of increase shown by any state in the union in that decade.

USES SANDWICHMEN IN ATTACK ON HIGH COSTS

New York Efficiency Engineer Follows Up Demand for Lower Prices with Publicity Campaign

NEW YORK, (AP)—Old fashioned sandwichman publicity has been chosen by Dr. Robert Grimshaw, efficiency engineer and faculty member of New York university, for an attack on the high cost of groceries in the Washington Heights section of this city.

Dr. Grimshaw served notice that grocery would have to cut their price or hear from him. Quotations remaining virtually unchanged, the doctor's bill-boarded sandwichmen paraded throughout Washington Heights' main thoroughfares and market sections holding the wholesale prices for garden truck showing a wide margin below retail costs.

Washington Heights' housewives generally have noted the Grimshaw sandwichmen and their message, and "everybody is talking about it."

NEW RECORD IN SET FOR COMPLETION OF OIL WELLS

OIL CITY, Pa., (AP)—A new record for oil wells finished in the United States was established in August, when the total reached 321, according to the monthly review of The Bureau, made public here Thursday.

New production in August was 299,518 barrels, a gain of 11,250 barrels over the previous month, the review showed.

MUNICIPAL COUPON BOND ISSUE AND SALE BY THE VILLAGE OF KIMBERLY, COUNTY OF TWIN FALLS, STATE OF IDAHO

Public notice is hereby given that the Village of Kimberly, in the County of Twin Falls, in the State of Idaho, intend to issue and negotiate the Municipal Coupon Bonds of said Village in the aggregate amount of \$14,707.18 for the following purposes, to-wit:

Municipal Coupon Bonds to the amount of \$14,707.18 to be designated "Municipal Coupon Paving Bonds of the Village of Kimberly," to provide for the building and constructing of drainage, curbing, gutters, sidewalks in the spaces formed by the junction of two or more streets or where one main street terminates or crosses another main street in Local Improvement District No. 3 of said Village.

Said bonds will be issued in conformity with the provisions of Ordinance No. 21 of said Village adopted and approved on the 24th day of August, 1920, subject to the approval of the qualified electors of said Village voting upon the question at an election to be held in conformity with said ordinance on the 27th day of September, 1920.

If the issue of said bonds is approved by the electors as aforesaid, the bonds will bear date as of the date of their issue, will be redeemable at the option of the Village at any time after the expiration of ten (10) years from the date thereof and shall be absolutely due and payable in twenty (20) years after the date of their issue. Said bonds shall be issued in the denomination of \$1000.00 each, except bonds in the denomination of \$500.00 or \$100.00 may be issued when necessary and the principal of said bonds and the interest thereon shall be payable at the office of the Village Treasurer or at the National City Bank, in the City and State of New York, at the option of the holder. Said bonds will bear interest at the rate not to exceed six (6) per cent per annum, payable semi-annually on the 1st day of January and the 1st day of July, in each year. The Chairman of the Board of Trustees and the Board of Trustees of the said Village of Kimberly will, on Tuesday, the 25th day of September, A. D. 1920, at the hour of 9 o'clock P. M., at the office of the Village Clerk of said Village of Kimberly, in the Village of Kimberly, receive sealed bids for said bonds. All bids must be without condition as to legality and must be accompanied by an unconditional certified check on a National Bank or Trust Company equal in amount to ten (10) per cent of the face value of the bonds bid for. Bidders shall state the rate of interest, not exceeding six (6) per cent per annum, on which their bids are based.

After ascertaining the best terms upon and the lowest rate of which said bonds can be negotiated, the bonds will be sold, but in no case for less than their par value and accrued interest at the time of disposal by the Village Treasurer, under the general supervision of the Chairman of the Board of Trustees and the Board of Trustees of said Village of Kimberly. The Chairman of the Board of Trustees and the Board of Trustees of said Village of Kimberly reserve the right to reject any and all bids.

By order of the Chairman of the Board of Trustees and the Board of Trustees of said Village of Kimberly, Twin Falls County, State of Idaho.

J. M. STEELSMITH,
Chairman of Board of Trustees.

Witness my hand and seal of said Village of Kimberly, Idaho, this 26th day of August, A. D. 1920.

W. F. BROOKON,
Village Clerk.

Fordson Farm Tractor

TRADE MARK

The Fordson cuts the cost of preparing land almost to half of what it costs with horses. But even more important is the fact that the Fordson saves from thirty to fifty per cent of the farmer's time. And time saved—getting fields in shape to plant in the proper season; getting things done when they should be done—means money to the farmer. Besides it helps greatly in solving the labor problem.

As ever, the machine way is proving more efficient, faster, easier than the old hand way. In the factory, the machine increases production, saves labor—produces more at less cost. And that is what the Fordson does on the farm. The Fordson way is the machine way of farming. Besides it helps the labor problem.

The Fordson's first cost is low; and the after or operating cost is low. It is a compact, easily handled tractor, backed by the greatest tractor service organization in the world.

We are Fordson dealers. Not only do we sell Fordson tractors, but we carry a stock of Fordson parts and employ Fordson mechanics to help the farmers get the best results from the Fordson. Let us demonstrate the Fordson on your own farm.

U. S. REFUSAL OF MANDATE IS REGRET CAUSE

Noted Orientalist Says American Control Over Turkey Would Have Preserved Best Traditions of Race

BUDAPEST, (AP)—"I as a scholar regret deeply the refusal of the United States to accept the mandate over Constantinople because the learned world lost a unique chance to have an American library in Turkey which would have brought out the still hidden treasures of medieval Turkish literature, the Korean commentaries and Arabian philosophy," said Professor Ignatius Goldziher, famous orientalist who has just celebrated his sixtieth birthday.

The study which Goldziher received the correspondent of the Associated Press in itself a complete library of Oriental science.

"Either old Turkey must be reestablished, or else the nationalists must totally modernize it which would be a pity," continued Professor Goldziher.

"The Turks are the most honest people of the east. When a Turk pledges his word, you can rely upon it, which is hardly the case with their neighbors. But when they come into touch with western civilization they get spoiled. The Turks generally pick up the style of the Parisian boulevard but is out of sympathy with the culture of the west. And they must not abandon their national customs. It was one of the tricks used by the Germans to seduce the Turkish nation by the false hopes of a new civilization dangled before their eyes. The strength and value of the east will be in their racial peculiarities, in their simplicity, honesty, poetical ability and one of the greatest blessings of America's control over Turkey would have been the preservation of these national qualities."

"According to the news I received from Germany, Oriental studies there have come to an end and the well known Oriental Academy in Berlin is closed. But I sincerely believe it will be filled by American men of science who are aware of their responsibility to save the science of the Orient if its nations are doomed to decay."

PACKERS SEEK PLAN TO SAVE STOCK GROWING

Conference of Growers, Railroad Officials and Bankers of Middle and Far West Called to Consider Situation

CHICAGO, (AP)—Representatives of the Chicago packers today sent letters to stock raisers, railroad officials and bankers of the middle west and far west, asking them to attend a conference here on September 10, to discuss plans for financing increased production of livestock.

The letter urged bankers, packers, livestock producers, railway representatives and others interested to meet here with representatives of the federal reserve banks "to find out whether there is not a better plan by which to develop stock industry can be protected and financed to the end that confidence and normal food production be restored and abnormal shipments of young and breeding livestock be stopped."

The letter was signed by J. Ogden Armour, Thomas E. Wilson and L. F. Swift of the packers; Hale Holden, president of the Chicago, Burlington & Quincy railroad; J. C. Underwood, president of the Wyoming Stock Growers' association; J. M. Wilson, president of the Wyoming Wool Growers' association; B. Howard, president of the American Farm Bureau Federation; O. G. Smith, president of the National Farm Congress, Kearney, Neb., and others.

This summer of 1920 has produced one of the greatest crops of hay, corn, pasture and other feeds known in the history of the country," the letter said. "However, the farmers and feeders find it difficult to secure funds with which to purchase livestock for their usual operations."

NEW PLAN PROPOSED FOR MEXICAN OIL OPERATION

Government Board Seeks to Bring Administration and Petroleum Interests Closer Together

MEXICO CITY, (AP)—A plan for the operation of the newly formed petroleum consulting board of the ministry of industry, commerce and labor, has just been made public.

In the effort to bring the government and the petroleum interests into closer relations, the latter will be permitted to attend the sessions of the board and present claims or give information, but without the power to vote.

Another of the announced purposes of the board, which General Trevino, secretary of industry, commerce and labor, is chairman, is the dissemination of information regarding the petroleum industry. The board has begun functioning.

MILL MAN HOPES FOR RELIEF IN MOVING GRAIN

L. L. Breckenridge Says Freight Car Situation is Fault of General Conditions and Not Specifically that of O. S. L.

The freight car situation with respect to shipments of wheat and wheat products in this section is the fault of general conditions and not specifically that of the Oregon Short Line or any other railroad...

Expecting Temporary Relief. Mr. Breckenridge believes that temporary relief may come at any time, that freight cars will be available from time to time for wheat shipments from Twin Falls and the other towns on the branch...

The troubles of the railroads today as a whole are growing and are spreading under three heads: lack of terminal facilities, lack of motive power and lack of manpower...

Getting down to local conditions, Mr. Breckenridge says: "Understand me, I am not trying to pass the buck to the Short Line in the matter of car shortage, but I am pointing out some real facts as I find them."

CONTESTS LOOM IN ELECTIONS

Representatives of Labor Active in Choice of School Directorate

Evidence of activities on the part of organized labor in connection with the Twin Falls independent school district election to be held on Tuesday next...

The positions of three members of the board whose terms expire at that time are to be filled at the election. Members whose terms expire are W. E. Nixon, treasurer, who has served as a member of the board of 12 years; D. F. Clark, who is completing his second term; and E. J. Finch who was appointed to fill an unexpired term.

All three are candidates for reelection. The names of other candidates for the positions have not as yet been presented; but reports are persistent that a ticket endorsed by organized labor will be put in the field following a period of interviews with the board members obtained by H. H. Friedheim, a member of a building trades union.

STATE TAX BILL SHOWS DECLINES

Twin Falls County to Pay \$18,868.65 Less Than Last Year to State Funds

Taxpayers of Twin Falls county this year will be called upon to pay into the state treasury \$18,868.65 less than they did last year, according to statement received by County Auditor C. C. Siggins from the office of State Auditor E. G. Gallet.

The total of state taxes paid last year by Twin Falls county property owners was \$137,332.23. This year the county's total tax bill for state purposes will be \$108,464.57. Predatory animals tax included in these amounts last year amounted to \$2,027.30 and will be this year \$1,507.70.

This year's taxes will be collected against a property valuation which has been increased by the state board of equalization from \$25,741,385 to \$25,164,160, the increase amounting to \$577,225.

Increases of 20 per cent over the valuations as reported by the county assessor's office were made in the case of agricultural lands, business lots, sugar factory and sugar factory machinery.

CHURCH EMPLOYS OLTZ

High School Superintendent of Music to Direct Methodist Choir

Carl H. Oltz, superintendent of the Twin Falls high school department of music, has been engaged to take charge of the music for the First Methodist Episcopal church, as choir director and organist to use the new pipe organ soon to be installed. Mr. Oltz will enter upon his service with the church on Sunday morning next. He is making elaborate plans for the choir and perfecting plans for special music on the occasion of the dedication of the new organ.

Justice Greatest of Virtues

The sense of justice was never born in the human heart. This divine virtue is at variance with the instincts of the individual and nature itself is essentially non-just. Justice is the flowering of all the other virtues—the heavenly embodiment of rare and great souls only. St. Richard Coeur.
