

out of work. The strikers demand a large wage increase and better working conditions.

LAVISH DISPLAY OF RED HERALDS SOVIETS COMING

Former Headquarters of Kolchak at Omsk, Becomes Seat of Government for Bolsheviks in Siberia

LONDON, (AP)—Omsk, Siberia, formerly the anti-Bolshevik headquarters of the late Admiral Kolchak, has been transformed into Bolshevik headquarters, seat of the soviet government for all Siberia, chiefly by the use of red banners, red paint and red propaganda posters and pamphlets printed in Moscow and sent to Siberia.

New street signs, featuring Bolshevik nomenclature; new heroic street arches and monuments constructed of wood and painted red are other new changes noted by the Associated Press correspondent who recently crossed Russia.

Destitution Behind Scenes. Behind the scenes, however, the same city of suffering refugees, scant food and clothing and difficult living conditions in general, according to Russians who talked to the Associated Press correspondent and his companion, the first American to enter Omsk after Admiral Kolchak's hurried evacuation. There has been little relief in an economic way for the people, there being as much dissatisfaction under the reds as there was under Kolchak.

Gone from Omsk are the var-colored uniforms of allied missions from Paris, London and Tokio and forgotten is the Omsk express, the weekly train to Vladivostok. The former are replaced by convoys and wagons and supplies that may be obtained for shipment to the Bolshevik capital, American Red Cross nurses and Y. M. C. A. men have been replaced by Bolshevik workers who wear the red insignia on their caps.

Military opposition to the new order having been overcome, attention has been turned to constructive work. The temples are being made by vegetable gardens in public parks and ever in several streets. The entire grounds of the one cathedral were given over to potato growing during the summer.

Glorify Marx and Lenin.

At the head of Lenin street, at the top of the hill in the main part of the city, an heroic wooden arch painted red, carries the likenesses of Lenin and Karl Marx, the German communist whose philosophy is taken literally by the Bolsheviks. At the other end of the street is a great wooden column erected to the memory of the Bolshevik killed in the fighting near Omsk.

Bolshevik headquarters have been established in the new building which Admiral Kolchak had planned to use to house his ministry of justice. A red banner bearing the inscription "First Home of the Siberian Soviet," marks the building. In front of it is a large granite block, formerly the pedestal of a statue of a notable of the reign of Emperor Nicholas. Now it awaits a new bust of Karl Marx.

The chief Bolshevik commissar from Siberia, Tsvetkov, Smirnov, lives in one of the buildings formerly used by an American Red Cross hospital. It is a part of an agricultural college three miles north of the city.

NEVADA HAS MORE FARMS

Census of Agriculture Indicates Increased Tilling of Soil

RENO, Nev., (AP)—Nevada has 3104 farms, an increase of 475 over the number in 1910. According to the census of agriculture for 1920, received here recently from the department of commerce at Washington, D. C. The 1920 census shows an increase of 988 farms over the number in 1900.

Next to Nevada in the farm census comes Rhode Island. In that state there are 4084 farms, Texas with 435,686 has the greatest number of any state in the Union. California with 117,690 leads the states of the west. Utah has 25,664 farms, Idaho 41,109, and Wyoming 15,611.

Got Her Good Health Out of a Bottle. Mrs. Edward Rinfelder, Wabash, Ind., says that she owes her good health to Chamberlain's Tablets. She suffered from distress after eating and constipation and was completely cured by the use of these tablets—adv.

U. S. Marine Sergeant Champion Rifleman of the World

Sergt. Morris Fisher

Sergeant Morris Fisher, of the United States Marines, using a United States magazine rifle, won the 200-meter free rifle match at the Olympic shoot recently. Fisher was pitted against ninety expert riflemen representing thirteen different countries. His score was 995 out of a possible 1,000. This is the first time in history that this classic has ever been won by a competitor using the standard military rifle of any country. It is also the first time that an American has won this event.

TAFT-WILSON CABLE ON LEAGUE. ANOTHER BLOW

Cox Publication of Correspondence Involves Contradiction

NEW YORK — Governor Cox's publication of the Wilson-Taft correspondence has brought about a situation that will require much explanation from the White House, according to views expressed here. A special dispatch from Washington the New York Herald. No secret has ever been made of the fact that Mr. Taft, at head of the League to Enforce Peace, had communicated some of his ideas to Mr. Wilson. But the tangle comes in the statement from the White House and repeated by Governor Cox that "every suggestion from Mr. Taft" was followed literally.

Governor Cox's documents show that on June 28, 1919, Mr. Taft in an urgent and cordial note to Mr. Taft suggested that the president point out to congress the necessity of the league in view of the chaotic condition of Europe and the Bolshevik terror. Mr. Taft also said: "His (the president's) appeal will be much more influential if he pleads his cause and does not attack the opposition."

Then less than a month later, on July 23, Mr. Taft sent his memorable letter to Will H. Hays in which he attacked Mr. Wilson for "his apparent wish to dictate the policy of the world." At the time of this letter, Mr. Taft offered for the consideration of the senate his six reservations, which paralleled those of Senator Lodge, on article 10, the Monroe doctrine, the domestic issues, which many regarded as strong as those of Senator Lodge.

If the president "followed every suggestion from Mr. Taft literally," as Governor Cox says, what caused Mr. Taft, within the short period of a month, to break off with the president and appeal directly to the senate to ratify with reservations? That's the question that is puzzling political circles here.

ENLISTMENTS IN NAVY ARE MAKING BIG GAINS

Naval recruiting officials are enthusiastic over the increases in enlistments and the prospects for still further gains. A net increase in the enlisted strength of over 5,000 in the past few weeks has been made, and the growth of enrollments has prompted the recruiting division of the Bureau of Navigation to fix a quota for the recruiting service of 2,000 for the week ending October 14. This means an increase from an average of 1,500 during the past few months, not including the enlistments made at naval stations and on board ship.

TIDE OF IMMIGRATION FOLLOWS OWN PURPOSE

Ellis Island Authorities Without Power to Deflect the Current

NEW YORK, (AP)—Requests from all parts of the United States that the great westward tide of immigrants be diverted from the fastly growing cities to rural districts to populate abandoned farms have led Commissioner of Immigration Wallis to reply that immigration authorities lack this power. Immigrants, he said, plan their destination before leaving their home countries.

Delegations from different states have called at Ellis island to urge that steps be taken to prevent immigrants from going to certain cities.

Representatives of the Chamber of Commerce of Detroit, which new census figures advanced from the ninth to the fourth largest city in the country, asked that immigrants be sent to northern Michigan. Present labor conditions in Detroit are not such as to warrant an influx of foreign labor, they declared, as many Michiganders, barred from entering Canada by a recent order, have located in Detroit.

A Louisiana delegation visited the immigrant station in an endeavor to induce immigrants to go to unoccupied farms in that state.

Commissioner Wallis has conferred with railroad agents with a view of speeding the westward departure of immigrants to alleviate crowded conditions at the island.

INDIANS DEMAND WHITE MEN'S PAY FOR ACTING

Motion Picture Concern Falls to Put Over Out Rate Policy in Employing Aborigine

GREAT FALLS, Mont., (AP)—Black foot Indians of Montana recently refused to fight as "supers" for a moving picture for less than union pay. As a result, a California picture company, which wanted the Indians to appear before the camera, moved on to the Crow reservation of eastern Montana where it was thought Indians could be obtained for lower pay. Sixty principals and a technical equipment were brought to Browning, Mont., by the California people and a truck riders came from Great Falls, Havre, Fort Benton and other points to dash before the clicking camera as cavalrymen, pioneers and other characters of the early days.

Word also was sent to the Flatheads, the Shoshones, North Shoshones, Bloods of Canada, all Indian tribes, that 1500 Indians were wanted. When the Indians were told they were to get half the white men receiving pay, they refused, almost unanimously to appear.

CHEYENNE RADIO STATION AND LANDING FIELD FINISHED

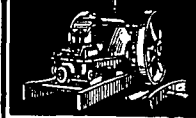

CHEYENNE, Wyo., (AP)—The government radio station at the mail airplane landing field here has been completed and the workmen who constructed it have left for Salt Lake to erect the station there. All mail airplanes are to be equipped with wireless and they are to keep in touch with the stations along the transcontinental route, from New York to San Francisco.

Financial Loss Due to Cold

It is estimated that the average man loses three days' work a year from inability to work on account of having a cold. Much of this loss can be avoided by treating every cold as soon as the first symptoms of the disease appear. Chamberlain's Cough Remedy has won a wide reputation and immense sale by its cure of this disease. Try it. You are certain to be pleased with its pleasant taste and the prompt relief which it affords—adv.

UTAH TO BE URGED TO BUILD PLANE HANGARS

Salt Lake Commercial Club Takes the Lead in Advocating Original Legislation

SALT LAKE CITY, (AP)—A law, giving county commissioners the power to spend public funds for building airplane hangars and fields for public and government use, is to be introduced in the next Utah legislature, according to announcement here. The aeronautical branch of the Salt Lake Commercial club is framing the measure, and if passed, it will be the first state legislation referring to air traffic to be undertaken in the history of Utah.

It is planned that the law will provide for the expenditure of public funds for construction of fields and hangars in much the same manner that money is now spent for roads. The law will provide for the creation of public facilities for airplanes the same as for automobiles and other vehicles.

COUNTY DIVISION KEEPS WYOMING MAN GUESSING

Rancher Has Unique Experience of Having Lived in Four Counties Without Having Moved

CODD, Wyo., (AP)—Harry Cheeseman, a rancher living near Sunshine, Wyo., has had the unique experience of having been a resident of four counties without having moved. When he settled near Sunshine over 30 years ago, the region was a part of Johnson county. Later Fremont county was created, taking in Cheeseman's ranch. Then Big Horn county was formed including the Sunshine basin and finally Park county was cut off from Big Horn. Cheeseman's ranch now is in Park county.

FRANCE UNDERTAKES TO PROTECT TROUBLED LAND

Military Authorities Give Assurance of Purpose to Guard the Armenians

NEW YORK, (AP)—French military authorities in Cilicia, Turkey, have informed officials of the Armenian National Union that France is going to occupy the entire region to the full extent of her mandate and that Armenians will be afforded complete protection, according to advices reaching Near East relief headquarters here from agents at Aleppo, Syria.

Both Urfa and Marash, now lying well within admittedly Turkish nationalist territory, are to be occupied these advices state. Urfa was the scene of a massacre by Turkish nationalists of French forces garrisoning the city last spring.

According to the information received by the relief organization, the French have sent to Kemal Pasha, nationalist leader, that they have not forgotten this massacre and that if any further outrages are committed against any Christian, Armenian or otherwise, in Urfa, the city will suffer.

Relief officials are inclined to believe that the only solution of the present critical situation in Cilicia is a former French policy in holding the occupied areas. According to latest information received at relief headquarters conditions are chaotic throughout Cilicia. Where the nationalists are not fighting the French at Antab, Adana and nearby cities they are persecuting the Armenians. Eighteen Americans are cut off in Adana by the slope that nationalists have been conducting against the French garrison since June 28.

WIRELESS PHONE PROMISED TO UTAH FOREST SERVICE

SALT LAKE CITY, (AP)—Wireless telephone service between the Salt Lake offices of the forestry service and district headquarters at Ogden, 30 miles from here, is to be instituted soon, according to R. B. Adams, wireless expert of the district forestry service. The Salt Lake-Ogden connection, Mr. Adams said, is to be made for the purpose of more thoroughly testing the instruments.

During last summer wireless telephones were used for reporting fires in intermountain forests and they proved a great success. Mr. Adams stated. Next spring, he asserted, it is planned to have wireless telephones at all forests. They are used at the forests by rangers, who first have been given thorough courses in their operation and repair.

Lines to Be Remembered.

A man who does not know how to learn from his mistakes turns one of the best schoolmasters out of his life. —Henry Ward Beecher.

DISCUSSES ADVANTAGES OF AIR MAIL SERVICE

Chief of Construction Predicts Cheaper and Speedier Delivery Through Development

SALT LAKE CITY, (AP)—The advantages of the air mail were set forth in an address here recently by Colonel John A. Jordan, chief of construction of the United States aerial mail service. He said that before long mail will be carried by airplane more cheaply than by rail and that experiments now being worked with, if successful, will further increase the speed of the airplanes.

"As a result of the air mail service," Colonel Jordan said, "a letter can be mailed at Salt Lake in the morning and arrive in San Francisco the same night. It takes from 24 to 30 hours to send mail by the air route from Salt Lake to Chicago. The mail is placed on the train at night for the reason that our planes are operated only in the daytime, although night flying is contemplated.

"The only excuse for the existence of the United States air mail service is the greater speed at which letters can be carried. If mail can be carried three times as fast by air, then it must be done."

Regulating the Concrete Mixer.

DEFEATING LEVINSKY BOOSTED CARPENTIER'S CLALL; DEMPSEY THE MORE CRUSHING FIGHTER

Frenchman Demonstrated He Is a Rare Two-Fisted Battler, and Demand for a Match with Dempsey is Universal—Salt Laker Stronger and More Bruising Scrapper

By FRANKLIN B. NOISE.

While the quick and decisive victory of Georges Carpentier, the French heavyweight boxer, over Battling Levisky will add tens of thousands of dollars to the box receipts of a Carpentier-Dempsey match, it has also wisely changed the minds of those who have been favoring Dempsey as to the ability of Dempsey to overwhelm Carpentier when they meet in the ring.

Convinces Experts.

Carpentier seems to have convinced the boxing experts that he is a two-handed fighter with a punch in either hand, that he is fast on his feet and altogether a splendid representative of his profession. Nevertheless, it is pointed out that this victory does not change the fact that Dempsey is more crushing in his strength and sheer dogged fighting ability. Battling Levisky never was considered an championship material and the weight of opposition he put up against Carpentier is regarded as failing to determine what Carpentier is able to do in the event he is pitted against an opponent who is able to inflict punishment on him.

Championship Way Cleared.

At least, the fight against Levisky has cleared the way entirely for the Carpentier-Dempsey battle and it has added a new interest to this matter. It is pointed out that Carpentier has been worked up but there has been no Levisky-Carpentier bout. While it would be interesting, and further give the public a chance to see the abilities of the Frenchman if he were to get in the ring against Fred Fulton, the champion plasterer, it is not at all likely that there will be any demand that he do this. If Carpentier is knocked out, Fulton, it would be Dempsey might seriously feel for re-election. In the event that the French man himself were beaten, it would make the Carpentier-Dempsey match a flat. There isn't the slightest likelihood that any promoter will take any chance of losing out on the big financial plan that hangs over the plucking under present conditions.

Ready for Match.

According to all precedent, but little time should elapse now before definite steps are taken to formally match Dempsey and Carpentier and to determine on a date and a place. The date should be early enough to give the only question in this connection being whether it will be held this year or early in 1921. There seems to be no reason why it should not be consummated at once. The French champion is here on the ground and both men are in perfect physical condition.

A couple of weeks, at the outside, is all that either of the men need to get in shape to step into the ring. As to the place, the importance of the match is such that New York seems to be first in line, particularly in view of the fact that Ted Rickard is there with both a big purse and, of which he is the lessee, at his disposal. Dempsey thought, has been having more or less trouble all along being allowed by the authorities to stage his battles and it would occasion no surprise if further difficulties of the same character were met in staging the proposed championship encounter.

That it will be brought about, however at some time and in some place may be taken as an assured fact. They had to put the Jack Johnson-Willie fight on in Cuba. There still are more countries left.

GRAND CIRCUIT RACES

ATLANTA, Ga., (AP)—The opening yesterday of the final week of Grand Circuit racing under ideal weather conditions and with the track in fairly good condition brought out four hotly contested events, three paring and one trotting.

John Henry, bay gelding and a consistent winner this season, the property of Thomas W. Murphy took the 2:05 pace winning the first and third heats, his best time being 2:02 1/4. The 2:12 pace went to Captain Mack, a brown horse, in straight heats of 2:05 1/4, while the 2:20 class, which was won by Nellie B., a bay mare owned by C. G. English of Rome, Ga., was piloted by George Stiles. Best time 2:10 1/2.

BASEBALL FACES REORGANIZATION OR A CIVIL WAR

Ban Johnson and "Faithfuls" Butt of Attack in Called Convention

CHICAGO, (AP)—Professional baseball today was confronted with two apparent alternatives—peaceful reorganization or civil war. There was the possibility of 12 club league on one hand, composed of eight National League clubs and three American League clubs, with the other five American League clubs in another circuit. At least that was virtually an ultimatum presented to President Ban Johnson, of the American league, and owners of five clubs, Washington, Cleveland, Detroit, Philadelphia and St. Louis—none of whom was represented at yesterday's joint league meeting which proposed a plan for reorganization.

The plan approved by President Johnson, of the National league and the clubs of that circuit, all represented at the meeting as was Chicago, New York and Boston of the American League, was that proposed recently by A. D. Lasker, a stockholder in the Chicago National league club, to organize a board of three members of nationally known men not financially interested in baseball to supercede the national commission of major league clubs and the present national agreement would be abrogated. The chairman of the tribunal would receive a salary of \$25,000 a year. The other two members would receive \$10,000 each.

The five American League clubs not represented were given until November 1 to approve the new agreement or to vote in favor of it for 25 years. Unless they so agree it was threatened at the meeting yesterday to form a new 12-club league.

The new board would be elected by a majority vote of the clubs represented at a joint league meeting to be held in Chicago, November 9. The minor leagues will be invited to approve the agreement and recommendation the club owners formed yesterday.

Although the general outline of reorganization was expressed in the meeting yesterday and resolutions adopted, no definite step toward alignment of major league clubs was taken, it was stated. The threat of the 11 clubs represented to form a 12-club league in case the other five American League clubs did not acquiesce in the reorganization, included the rejection of some city not named to complete the circuit.

The National league today adopted a resolution complimenting President Johnson of the league upon his stand taken in reorganization plans and expressed a vote of thanks.

He made the following statements: "It was wisely recognized that neither President Johnson nor any representative of the Washington, Philadelphia, Detroit, Cleveland or St. Louis American League clubs were present. No word was received from Mr. Johnson or from the clubs mentioned."

"It was the unanimous opinion of those attending the meeting that the reorganization of baseball should be forthwith proceeded with, and plans immediately prepared to that end."

"The meeting felt that the public demand for public control was such that the immediate fruition of the same and all present were heartily in accord with the action adopted, believing that through the carrying out of the same, baseball would be given a rebirth with the American public."

President Johnson, of the American league, recently said that no reorganization scheme should be considered until the investigation of the baseball scandal had been completed. The five clubs not represented yesterday had aligned themselves with Johnson in previous American league controversies in one of which last year the majority failed unsuccessfully to oust the president.

JUNIOR CIRCUIT DOESN'T CONTAIN ALL CORRUPTION

Connie Mack Not So Sure Some National Clubs Don't Need House Cleaning

PHILADELPHIA, (AP)—Connie Mack, half owner of the Philadelphia American league club, said today he was not clear as to what the meeting of baseball men in Chicago was driving at.

The five clubs not represented at the meeting constitute a majority of the American league, he said. "We are the American league," he added, "and when the time comes the American league will meet at the call of its president and no doubt will take action that will help baseball; that will help raise the standard and prevent the scandals in the future."

"I am not sure," Mack said, "that some of the National league clubs represented at the meeting do not need a house cleaning. No one in or out of baseball can point a finger at the five American league clubs that were not represented. They are all clean."

"If all the American league clubs had supported Mr. Johnson as they should the present baseball scandal would never have occurred. Years ago he wanted to take measures to stop gambling, but never received proper support."

The American league has no objection to the National league trying to do something to uplift the game.

We will join them in anything that will raise the standard of baseball. The National league seems to send out the impression that everything is harmonious within its organization. I don't know whether it is true, but I do know there is harmony in the majority of the American league clubs and we are not going to meet until we know what's what and when we take action we will make no mistake."

Brief Bits of Sport

The Salt Lake Bees covered themselves with a bunch of glory Sunday. They won both ends of a double-header against Oakland.

Which, considering everything, was a considerable feat for said Bees.

That lets the Mormons stick in the 50 per cent division, which is worth something.

Tex Rickard says he is going to handle the Dempsey-Carpentier go when it is pulled off.

If reports of the Bat Levisky-Carpentier fight emanating from New York, prove out as indicated, there will not be any Dempsey-Carpentier affair, for the folks will put the skids under it before the match is made.

It seems strange to see Kid Lewis listed among preliminary scrappers, the champion of the British welterweight crown in the east.

Sounds like a lot of trouble for most of the members of the Vernon baseball club of the Pacific Coast league. All have been cited to appear before an inquiry committee for investigation on charges of "crookedness."

Miller Huggins says the guy who started the rumor that Wilbert Robinson was going to be his successor next year as manager of the Yankees, fooled his putt.

But you can bet all you have left after playing your money on the election, there will be some changes in American league club management.

If you should see a fellow with a long nose, money cut straight across his face as if it had been slashed with a bayonet, and a cauliflower ear or two, with a number of other evidences of having been in more than one milt nether, that's Abe Attell, and the Cook county, Illinois, grand jury wants him. Hang on.

Time was when it was a common and more or less of an honor to be known as a world's champion ball player.

But not now. Harold: not now.

The honor of making most hits in a season is now held by two players who are old and claimed allegiance to the St. Louis Browns. George Sisler makes the modern day record. Tip O'Neil of the old Browns of 1887 made the old time record, which was 287 hits in the year named. In that year, however, there were unusual conditions to aid a batter, who not only was allowed four strikes, but bases on balls were counted as "hits." Sisler's record therefore, is

Brooklyn Women Tell of Experiences in Ireland

First hand stories of the civil war in Ireland were told by Mrs. T. Clannan and Miss Mae Walsh of Brooklyn, N. Y., upon their recent arrival from abroad. While touring Ireland they saw many fights between the different factions to the British troops. On the way to a seaport their train was held up and both were robbed of many valuables.

rightfully considered the best of all time.

The New York Yankees, according to unofficial averages for 1920, passed 154 games, scored 837 runs in the past season, which was just 200 more runs than they allowed their opponents to score on them. Cleveland in 150 games its final series with Detroit not being included in the averages named, had scored ten runs less than the Yankees and had allowed opponents ten less. Cleveland pitchers allowed fewer runs than any staff in the American league.

The White Sox haven't such a bad ball club left at that. It probably could hold its own in an American league race as it took the field to finish the season, with Kerr, Faber, Wilkinson, Hodge and others as pitchers, Schalk, Lynn and Lees as catchers, Eddie and John Collins, Nemo Liebold, Amos Strunk, Eddie Murphy, Bill Falk, Ted Jordan, Harvey McClellan and others in the field.

Navin of Detroit Not in Favor of Present Session

Tigers' Owner Thinks Court Decision on Sherman Act is Needed

DETROIT, (AP)—It would be well to await determination by the courts of the status of the present national commission before setting up another governing body for organized baseball, said Frank J. Navin, president of the Detroit American league club, discussing the proposed reorganization of the game and abolition of the national commission.

Mr. Navin is one of the five American league club heads not represented at yesterday's meeting in Chicago when reorganization was decided upon. "It would be wise," Mr. Navin said, "to await the decision of the court of appeals in the Baltimore case, which will decide whether the national commission in baseball is in violation of the Sherman act."

LEONARD BEATS TILMAN.

AKRON, O., (AP)—Benny Leonard, lightweight champion, outpointed Johnny Tilman, St. Louis welterweight, in a ten-round bout last night. The men entered the ring at catch weights. Tilman was aggressive, but Leonard was too fast and clever.

POCKET BILLIARDS

CHICAGO, (AP)—Franklin of Kansas City won from Maturio of Denver 125 to 118 in the national pocket billiard tournament last night. Weston had a high run of 46 and Franklin an unfinished run of 34.

CHARGES PEACE LEAGUE CHIEFS DISREGARD LAW

Attorney for Senatorial Campaign Investigating Committee Alleges Illegal Conference with Europeans

ST. LOUIS, Mo., (AP)—Scores of confidential letters from the files of the League to Enforce Peace, of which William Howard Taft is president, were introduced into the record of the senate committee investigation campaign expenditures here late Monday. Names of a number of prominent New York bankers were mentioned in the correspondence.

Don. H. Hunt, attorney for the committee, who investigated the activities of the league, reported that "in my estimation," officials of the league have violated the Logan act, passed January 30, 1700, which prohibits American citizens carrying on negotiations with foreign governments or their agents regarding disputes or controversies without the permission of the United States. The act carries a penalty, upon conviction, of fines of not more than \$5000 and imprisonment of from six months to three years."

The senate committee met here Monday to complete its investigation of the pre-convention campaign in Michigan and Ohio. Before adjournment, telegrams were dispatched to the chairmen of the republican and democratic national and congressional committees, directing them to file complete statements of their receipts, expenditures and pledges at Chicago on Thursday, October 28. The reports will be made public at that time.

Sensation of Day.
The report of Mr. Hunt's investigation of the League to Enforce Peace proved the sensation of the day. Dozens of confidential letters between Mr. Taft, George W. Wickersham, Theodore Marbrough and others were given.

In his summary Mr. Hunt pointed out that Herbert S. Houston testified before the committee that he had talked with Bourgeoisie, the German chancellor; Lord Robert Cecil, and Lloyd George in regard to the United States entering the league of nations and Edward A. Filene, of Boston, who has been abroad on a similar mission in now "in Germany, on a mission to get Germany into the league."

Charges Law Violation.
"The correspondence and data which follows bears out the charge which I am about to make," Mr. Hunt's report says, "that this organization has through its officials, by correspondence and conferences, talked with various officials of foreign government about getting this and other countries into the league of nations peace treaty, all of which in my estimation, is in violation of the Logan act."

Do Kindly Act Gracefully.
Manners are the measure of action; and there is a way of speaking a kind word, or of doing a kind thing, which greatly enhances their value. What seems to be done with a grudge, or as an act of condescension, is scarcely accepted as a favor. Yet there are men who pride themselves upon their gruffness; and though they may possess virtue and capacity, their manner is often such as to render them almost insupportable.—Samuel Smiles.

Origin of "Pitched Battle."
"A pitched battle" originated in the days of knight-errantry and was so called then because boiling pitch was used by the defenders of a feudal castle to repel the attacking force. The battles, which usually took place outside the castle walls, would soon end when the boiling pitch began to flow from a tank on top of the walls. This originated the term "a pitched battle."

For Rent—Cellar for potato storage; reasonable rent. Inquire E. S. Larned, 9193—adv.

Helpmate and Beautiful Wife of President of France

This is the first photograph of Mme. Millerand, beautiful wife of the French President, to reach this country. Mme. Millerand is very popular among the French people. She is well acquainted with French office affairs and often accompanies her husband to his office.

OBEDIENCE TO NATURAL LAW

Fear implanted in Mankind for the Purpose of Promoting Caution—Differs in the Sexes.

"In normal, well-balanced persons there is a certain relation between the sense of fear and the element of courage. Even in an emotion existing for the purpose of promoting caution, and in primitive days and in animals tends to self-preservation. Anger, curiosity and courage are factors which oppose fear and flight. When knowledge, experience, repetition, finally logic or deliberation, of these two opposing instincts and emotions, a conscious action is carried out with understanding according to the inherent reactions.

"Woman was made with the element of fear and caution more pronounced than in man, because woman, the mother, was not supposed to be the fighter. Man, the primitive man, the fighter, was more endowed with courage." These quotations from a report by Dr. Samuel Wyllis Bandler of New York to the Journal of the American Medical association preface a discussion of the differences in the ductless, or endocrine, glands in man and woman. In normal persons these glands balance each other, but the balance is different in the two sexes and, according to Doctor Bandler, it is this difference in balance that causes the differences in the instincts and emotions.

SHREWDNESS BORN IN HIM

Successful Man's Ability as Trader Was Shown at an Extremely Early Age.

From day to day proof is forthcoming that genius is spontaneous and not a slow growth—that it is of the type of Minerva who springs full-formed from the head of Zeus. This is evidently as true of the genius of the mart as it is properly supposed to be of the more primitive man of genius.

An instance in substantiation of this opinion was recently related by a veteran business man as a side light on the why of the success of a well-known industrial leader.

"I remember him," it was related, "when he was a lad of six years. He wanted to trade a lantern for one owned by a playmate, which he admired. Coming to his father, he asked counsel about the matter and was informed that he should use his own judgment. 'Well, dad,' said the boy, 'I believe I'll trade; but wouldn't you take the oil out first?'"—Wall Street Journal.

Made Thorough Job of It.
The domestic happiness of an innkeeper in a village in the Jura has been shattered by the action of a Jewish wife. Ten years ago the innkeeper, who is French, brought home from America a boxom woman of Austrian birth named Sophie. Sophie is now fat and forty, and the affections of her husband have decreased. Sophie resolved to revenge herself, and when her husband was absent, she smashed all the furniture and then turned on all the taps of the wine barrels. Finally she soaked the wreckage with petroleum and set it alight. When the husband appeared his wife threw on the fire a number of bank notes which represented their savings. While the neighbors were busy trying to extinguish the flames Sophie lugged herself from the branch of a tree—From the Continental Edition of the New York Herald.

He Knows Its Use.
An Indianapolis family a few years ago took a boy from an orphanage. Now, of course, everything at the new home was different from the place he had just left. Still he tried to make himself at home and help all he could. One day the woman of the house told her grown daughter to go upstairs after a box. The orphanage youngster offered to go instead. "But you don't know where to find it," protested the woman.

"Oh, yes, I do," the little boy insisted. He had gone to her closet before after things and had seen the boxes. "They are in the little pantry that you keep your clothes in."

Alloy Stronger Than Steel.
An Italian engineer has discovered a new alloy of zinc and copper which is stronger than steel and less corrosive than copper, says the Scientific American. The most important characteristics of the new alloy, which has been named "Black Metal," are the highest known breaking point, the highest limit of elasticity, perfect homogeneity and higher resistance to both heating and chemical action. It has been stated that it can successfully be cast, machined, rolled, forged, drawn and stamped. It is expected that it will prove an acceptable substitute for steel, brass and aluminum.

Ground Ice.
A professional paper of the United States geological survey on the Canadian river region in northern Alaska, describes the occurrence of ground ice in that region and reviews the literature of ground ice in considerable detail. The author concludes that the two varieties of ground ice most common in northern Alaska are formed by the burial of river ice by sediments and by the growth in place of vertical ice wedges.

Where She Might Shine.
Mrs. Tondia—You've heard my daughter sing. Don't you think she's about ready for a public appearance?
The Impresario—Certainly, madam. I thought as I listened to her what a fine movie actress she'd make.

Today's Markets

New York Stock Market.
NEW YORK, (AP)—Business on the stock exchange today was dull and contracted but the trend was mainly upward on short covering. Sales approximated 400,000 shares.

The foreign situation was again responsible for further pressure against leading stocks at the opening of today's trading. British industrial disturbances continued to weigh upon international sentiment, quotations on London sustaining another sharp reversal. Losses extending from liberal fractions to 2 points attended the first offerings of steel, equipments, oils, coppers and various specialties, notably lenders and telegraphs, but rails denoted moderate support.

Willy-Overland, International Paper and a few other obscure issues became heavy later but this was neutralized by further improvement in rails, shipping, equipments and oils. The closing was firm.

Liberty Bonds.
NEW YORK, (AP)—Liberty bonds closed: 3 1-2's \$92.40; first 4's \$89.50; second 4's \$89.20; first 4 1-4's \$89.00; second 4 1-4's \$89.50; third 4 1-4's \$89.80; fourth 4 1-4's \$89.42; Victory 3 3-4's \$96.16; Victory 4 3-4's 4 3-4's \$96.22.

Grain and Provisions.
CHICAGO, (AP)—General selling due largely to disturbed industrial conditions in Great Britain led to fresh setbacks today for wheat values. Assertions by a prominent banker here that lowering of commodity prices must continue tended also to emphasize bearish sentiment. However, it was reported that Kansas bankers had been warned by the state banking commissioners' office that farmers should be urged to sell their wheat. Opening quotations, which ranged from 1 1-4 to 3 3-4 lower, with December \$2.07 1-2 to \$2.09 and March \$1.88 1-2 to \$2.00 1-2, were followed by decided additional drops. Liquidation as well as short selling was in evidence, with no sign of improvement during the day. The market closed nervous, 5 3-4 to 6 1-2 net lower, December \$2.05 to 2.05 1-4 and March \$1.95 1-2 to 1.95 3-4.

Corn fell with wheat. After opening 3-8 to 3-4 lower, with December \$5.34 to \$5.35, the market underwent a material gain.

No important buying developed, and future deliveries struck lower levels than for three years past. The close was unsettled, at 2 3-4 to 5 1-2 net, decline, with December \$2.34 to \$2.35.

Oats, depressed by the weakness of other grain, started 1-8 to 1-2 down, December \$5.12 to 5 3-4, and continued to decline.

Lower quotations on hogs and cereals forced provisions to tumble.

Cash Quotations.
CHICAGO, (AP)—Wheat No. 1 red \$2.31; No. 1 hard \$2.16.
Corn No. 2 yellow \$9.40 to \$9.12; No. 2 yellow \$9 to 90c.
Oats No. 2 white \$4 1-2 to 55c; No. 3 white \$2 1-2 to 53 1-2c.
Rye No. 2 \$1.73.
Barley \$5c to \$1.96.
Timothy seed \$5 to 6.50.
Clover seed \$12 to 20.
Pork nominal.
Lard \$20.45.
Ribs \$17 to 18.

Minneapolis Flour and Grain.
MINNEAPOLIS, Minn., (AP)—Flour unchanged to 40c lower. In cash sales, family patents quoted at \$11.50 to \$12 a barrel in 98-pound cotton sacks.
Bran—\$30 to \$32.
Wheat receipts 531 cars, compared with 491 cars a year ago. Cash No. 1 Northern \$2.11 to 2.16. December \$2.06; March \$2 5-8.
Corn No. 3 yellow \$7 to 88c.
Oats No. 3 white \$9 3-4 to 50 1-4c.
Barley \$4 to 85c.
Rye No. 2 \$1.67 1-4 to 1.68 1-4.
Flax No. 1 \$2.70 to 2.72.

Chicago Livestock.
CHICAGO, (AP)—Cattle receipts 12,000; market very slow on beef and

butcher cattle at generally steady prices; bulk good and choice steers firm, \$15.50 to 17.75; grassy kinds mostly \$8.75 to 14.25; best cows steady with early yearlings \$7.50 to 9.25; others \$6.75 to 14.25; best yearlings \$4.75; bo- logn bulls \$6 to 6.75; treasy kinds mostly \$4.50 to 5.50; calves unevenly lower; bulk choice vealers \$13.75 to 14; select- eds to \$14.50; feeder steers slow. Receipts westerns 5,000; early trading slow; bulk \$5.35 to 10.75.

Hog receipts 28,000; opening 25 to 50c lower, later 50 to 7c lower than yesterday's average; top \$15.25; bulk light and butchers \$14.50 to \$15.00; bulk packing sows \$13.50 to \$13.75; pigs 50 to 75c lower.

Sheep, 17,000; generally steady on all grades; choice native lambs \$11.75; bulk \$10.75 to \$11.50; no choice west- erns sold early; choice ewes \$8.00;

bulk \$5.25 to \$5.75; feeders steady. Omaha Livestock. OMAHA, Neb., (AP)—Hog receipts 3,000; medium and light butchers mostly 15 to 25c lower; bulk \$13.75 to 14; top \$14.25; strong weight and packing grades 25 to 55c lower; bulk \$13.40 to 13.75.

Cattle receipts 15,000; beef steers 15 to 25c lower; she-stock 25 to 50c lower; bulk and veals steady; stockers and feeders slow, mostly 25c lower.

Sheep receipts 25,000; lambs mostly 25c lower; top westerns \$12; bulk \$11.50 to 11.75; sheep strong; ewes \$5.50; feeding and breeding sheep and lambs steady; no choice light feeding lambs here; top \$12.

Chicago Produce.
CHICAGO, (AP)—Butter lower; creamery 39 to 54c. Eggs steady; receipts 6,850 cases;

first 57 1-2 to 58 1-2c; ordinary firsts 51 to 54c; at mark, cases included, 49 to 66; standards 60c; storage packed firsts 60 1-2 to 61c; refrigerator firsts 47 to 49c.

Poultry—Hens 3c lower, 16 to 20c; springs 2c lower, 20c; turkeys 3c lower, 35c.

Kansas City Produce.
KANSAS CITY, (AP)—Butter: Creamery 56 to 57.

Potatoes. CHICAGO, (AP)—Potatoes steady; receipts 107 cars; Minnesota, Wisconsin and South Dakota round white \$1.65 to \$1.75; bulk \$1.50 to \$1.65; Minnesota and South Dakota—Early Ohio bulk \$1.70 to \$1.85; Kings sack- ed \$1.45.

Ford

THE UNIVERSAL CAR

The Ford Coupe has an especial appeal for real estate folks because of its splendid up-to-date appointments. A comfortable and dependable motor car every day of the year—shine, rain, mud or snow. Equipped with electric self-starting and lighting system and demountable rims with 3 1/2-inch tires all around it, brings its owner all those established dependable Ford merits in economy in operation and upkeep, with assured long service. Not alone for professional and business men who drive much, but as the family car for women, the Ford Coupe meets every expectation. The demand for them increases daily so we solicit immediate orders to make reasonably prompt delivery. Will you not make our shop your repair place? Genuine Ford parts and skilled mechanics.

IT HAS BEEN SAID

that half the money spent on advertising is wasted

That probably was true six years ago.

It certainly is not true now.

To the Audit Bureau of Circulation is due much of the credit for the difference.

Six Years Ago space was bought by guesswork. Now it is bought with a definite knowledge of circulation—how many copies are printed, how they are distributed, how many paid for and how many given away.

The advertiser who does not protect himself by asking to see the A. B. C. reports of the publications he uses is reactionary and invites a return to the wasteful methods of former years.

The NEWS is a member of the A. B. C.

Its advertisers are fully protected.

FIRE has a dual personality. It cooks, warms and illuminates. It turns the wheels of industry. It is thus beneficent.

But without warning it changes from good to evil, destroying life and property.

A HARTFORD FIRE INSURANCE COMPANY policy helps to control Fire's criminal nature. Besides assuring prompt payment for loss, at no extra cost it entitles you to scientific fire prevention service.

Get this double safeguard through this "HARTFORD" agency.

You pay dollars for expert advice on some things, but our HOME FIRE PREVENTION booklet is free for the asking.

HARDING GIVES EXPLANATION OF HIS STATEMENT

(Continued from Page One)

It is not important enough to discuss, perhaps, but I respectfully urge to me is rather more than that to a private citizen. I hold a place as a member of the foreign relations committee of the United States senate, which is charged with certain constitutional authority in dealing with foreign authorities, and I am necessarily conscious that I am the nominee of the republican party for president of our republic.

In the combination of these two positions it ought not to be unreasonably that some very devoted friends of a new and better relationship among nations, no matter whence they came, should wish to advise me relating to aspirations to co-operate with our own republic in attaining that high purpose. Let me assure you again of the observance of all the proprieties and again assert that the French government has maintained that great respect for your position to which I myself subscribe.

"With great respect, I am,
"Very truly,
"WARREN G. HARDING."

DENIES HARDING GIVEN GOVERNMENT'S ATTITUDE

French Charge at Washington Says Paris Has Not Authorized Negotiations with Nominee

WASHINGTON, D. C., (AP)—Assurances have been given the state department by Count Delbarrat, French charge here, that the French government has not given authority to any one to approach Senator Harding with suggestions that the republican nominee take the lead in forming a new world association.

The announcement of the visit of the French charge to the state department yesterday afternoon was made today by Mr. Davis who said that while Count Delbarrat had delivered no formal reply to the American note of inquiry to the French government, dispatched yesterday, he supposed that the assurances given by the charge were the result of previous communications with his government.

Mr. Davis said he did not know whether the French government would content itself with the denial issued formally yesterday, or whether assurances given the state department through the French charge or whether a formal reply would be made to the formal note of inquiry sent by the American government at the direction of President Wilson.

It was further stated at the department that the American government had never had any intimation of a desire by the French government to "scrub" the present league of nations or to revise it.

FRANCE IS NOT OFFICIALLY SEEKING LEAGUE SUBSTITUTE

PARIS, (AP)—French foreign office stated shortly after noon today that it had not as yet received any demand from Washington for information regarding the subject referred to by President Wilson in his letter to Senator Harding, telegraphed to the press of France from the United States.

The only statement authorized by the foreign office in this connection up to this time is that no official communication of any nature had been made by the French government regarding a substitute for the league of nations.

Kossuth on Liberty.
But if you say "American liberty," and take that for your policy, I dare say the time will yet come when humanity will have to mourn over a new proof of the ancient truth, that without community national freedom is never sure. You should change "American liberty" into "Liberty"—then liberty would be forever sure in America.—Louis Kossuth.

Was "Withdrawing Room."
The "drawing room" is a contraction of withdrawing room. It was originally known by the latter name, and in the days of the Vikings, it was customary for the ladies to withdraw from the dining room, leaving their husbands to their drinks, while they went into the "withdrawing room."

Hope to Restore Health of Girl in Dark for Sixteen Years

For sixteen years this crippled girl, ill fed, denied light and forced to live in utter darkness, has cheated death. The girl is Maria Zumbach, and according to her mother is eighteen years old. She was the "ugly duckling" of the family and was forced to live in the basement of her home in Joliet, Ill., for sixteen years. She has the physical proportions of a child six and the mentality of a two-year-old babe, according to scientists who are hopeful of restoring her health.

Days for deers are few, my brother,
Then today fulfill your vow;
If you mean to help another,
Do not dream it—do it now.

A FEW VEGETABLE DISHES.

A steam cooker, or, lacking that, an old-fashioned steamer which fits the top of a kettle is an invaluable utensil for cooking. Vegetables which are steamed contain all the valuable mineral salts, the soluble nutritive materials which are thrown away when the vegetables are boiled and the water thrown away. It takes about a third longer to steam vegetables, but it takes little fuel to keep the steamer in operation when once started. A whole dinner from vegetables to meat, fish and dessert, may be cooked together.

Summer Squash en Cocarde.—Take two and one-half cups of cooked squash, add three-fourths of a cup of thick, stewed tomatoes, two tablespoons of butter, one and one-half tablespoons of salt, one tablespoon of grated onion, one-half cup of chopped meat, fish, or nuts, mix well and cover with three-fourths cup of buttered crumbs. Bake in a hot oven until well browned. Egg plant or cauliflower may be served in this dish in place of squash.

Roast Beef with Mexican Sauce.—Roast cold roast beef cut in thin slices in the following sauce: Cook one onion finely chopped in two tablespoons of butter, five minutes. Add one red and one green pepper chopped, one clove of garlic also chopped, and two tomatoes cut in pieces. Cook fifteen minutes. Add one teaspoonful of Worcestershire sauce, one-fourth teaspoonful of celery salt and salt to taste.

Tomatoes and Onions.—Take one quart of tomatoes and one quart of onions sliced. Steep the onions until about half done in as little water as possible, then add the tomatoes. Cook until tender. Add a liberal amount of olive oil or butter, season to taste with salt, and thicken with a little flour stirred with cream.

Eggs aux Tomatoes.—Put a half pint of tomato pulp well seasoned into a well-buttered baking dish. Add a tablespoonful of butter, set into a hot oven for two minutes, then remove and add four eggs, added carefully to poach. Cook from three to four minutes and serve from the dish.

The Women's Bible class of the Christian church will entertain the Men's Bible class this evening at 8 o'clock in the class room just back of the church. A program has been prepared as well as a good luncheon.

The Forum met last evening in the high school, the first hour was given over to the study of parliamentary law under the direction of Mrs. Burton E. Moore. Mrs. P. W. McRoberts talked on "Internationalism" and Mrs. E. M. Wolfe on La Merced hospital.

Little Miss Mildred Dietrich entertained a number of her friends at a party at her home on North Main Saturday afternoon from 2 to 4, the occasion being her eleventh birthday. A merry time was spent with games, after which dainty refreshments were served, a feature of which was a beautiful birthday cake bearing eleven candles. Many pretty birthday gifts were received by the hostess. Those present were Mabel Bell, Nancy Kelly, Louise and Margery Lawrence, Vivian and Lavey Hill, Jessie Strong and Elizabeth Leathers.

Miss Cora Greenhow will entertain the Wednesday bridge club tomorrow afternoon.

Mrs. Burton E. Moore entertained the Monday Reading club yesterday. The topic for the afternoon was the League of Nations. William Jayne Hill's book being used, and various chapters were read and discussed. A most pleasant and profitable afternoon was spent by the five members present.

The Women's Pan Hellenic club held its regular meeting last evening at the home of Mrs. Hal G. Blue on Blue lakes boulevard north. A business session was held at which the constitution and by-laws submitted by the committee was adopted by the club. Two permanent committees were appointed by the president, a publicity committee, and a membership committee. After the business meeting refreshments were served by the hostess. Seventeen members of the club were present. The next meeting will be held at the home of Mrs. W. P. Pike, 202 Tenth avenue east, on Monday evening, November 1. The program for the evening will be in charge of Miss Winona Bandquist, Mrs. Taylor Cummins and Miss Helen Bate.

Friends of Miss Cornelia Almondine, formerly of this city, now of Prescott, Arizona, will be interested to hear of her engagement to Herman A. Young, a promising young farmer, near Toledo, Ohio and also a world war hero. The wedding will take place at the bride's home at Ann Harbor, Mich., immediately following the holidays.

HARDING WILL WIND UP CAMPAIGN IN OWN STATE

Four Days Speaking Trip in Ohio with Four Night Addresses is Announced

MARION, O., (AP)—Senator Harding will wind up his campaign next week with a four-day speaking trip in Ohio during which he will make night addresses in Cleveland, Akron, Cincinnati and Columbus.

Senator Harding had today his first real respite from campaigning in several weeks. No speeches were on his program, and although he had several conferences and considerable correspondence before him, he hoped to get away early for a ride and if possible a game of golf.

The front porch campaign virtually ended yesterday with the speech to first voters.

Tomorrow at 7 a. m. he will leave on his last campaign trip outside the state carrying him to Rochester and Buffalo, N. Y.

50 Suits Boys' Clothing, ages 5 to 16 years at \$10.00 per suit; also men's underwear and slippers, coats and vests, way down. 251 Main East. S. S. Ains.—adv.

PRECIPITATION IN WATERSHED IS GRATIFYING

Snow and Rainfall in Jackson Hills Assures Full Reservoir

Prosperity in the Jackson lake watershed is gratifyingly heavy, and prospects of a full reservoir when the next irrigating season opens are obviously assuring, according to a report just issued by officials of the United States reclamation service at Burley. This statement shows that at present 154,410 acre feet in the Jackson reservoir, as against 3100 acre feet this date last year.

In complete form the statement reads: "During the week ended October 9, 1920, the precipitation at Moran, Wyo., at the outlet of Jackson lake, amounted to 0.30 of a foot, while during the preceding week the total precipitation amounted to 0.11 of a foot. During the corresponding periods in 1919 the precipitation was as follows: "For week ended October 2, 1919, 1.41 of a foot; for week ended October 9, 1919, 0.24 of a foot. "On October 9, Jackson lake reached an elevation of 6737.55 corresponding to a storage of 154,410 acre feet. "On the corresponding date in 1919 there was 3100 acre feet of storage in the reservoir.

Cats a Source of Danger.
Cats are great carriers of disease germs, and scratches from their claws are sources of real danger, as those claws are generally coated with a mass of germs which may cause infection, and for these reasons alone should not be allowed to associate too intimately with young children whether the latter are asleep or awake.

Houses Built of Rosewood.
A church building, a courthouse and forty dwellings, built comprise the settlement on Pilemire Island, in the eastern part of the South Pacific, are built entirely of rosewood. The furniture is made of the same rare wood, which grows plentifully on the island.

COX CAN'T DO IT

Any person who intends to vote for Cox under the impression that he will have the power, even if he has the willingness, to effect the ratification of the Wilsonian league covenant, which is extremely doubtful, should pause and take a practical view of the matter. Mr. Cox, in enthusiastic oratorical moments, has given the idea that he will possess this magic power. Senator Harding, in outlining his proposed procedure regarding the conclusion of peace, has plainly stated his dependence on his constitutional partner, the senate. From the consistent attitude the senate has assumed throughout he has inferred that he will have its support. At any rate, he will consult that body and work in harmony with it in the successive stages of his negotiations. Mr. Cox, with characteristic disregard for the weight of promises made in the excitement of stump-speaking, boldly declares he will have the Wilsonian covenant ratified virtually at its stands.

Let's see about that. A two-thirds vote is necessary for ratification. At the final showdown 28 Republicans and 21 Democratic senators voted to ratify the treaty and covenant with the reservations. Twelve Republicans stood out against the treaty even with the reservations. Only twenty-three Democrats let their minds go along with Mr. Wilson's—less than a fourth of the senate. The problem, therefore, may be stated thus: Given the sum of 23, would you turn it into 64, the number required for ratification? Primarily, recently held give no encouragement to Mr. Cox to hope for any decided accession to the ranks of Democratic senators or to the number of Democratic senators who could be induced to support the Wilsonian covenant. Furthermore, the real sentiment among Democratic senators, in favor of the reservations was far stronger than indicated by the formal vote, since a number who had agreed to the reservations in caucus responded at the final test to the cracking of the white house whip.

A vote for Cox means a vote for no league, no peace plan at all, for the only scheme he would approve could not be jammed through the senate without couldn't do it; Cox can't do it.

INSPECTING IMMIGRANTS

In view of the great number of immigrants coming to the United States and the threat of more when peace is made with all Europe that we should be guarded against the possibility of them bringing the germs of the many diseases that afflict Southeastern Europe in particular is vital. It is reassuring, therefore, that Surgeon General Blue, head of the United States public health service, is in Europe for the purpose of establishing medical inspection and fumigation in all ports from which immigrants may embark.

Typhus, typhoid plague and cholera have been prevalent in many of the war-ravaged lands. Scourges of such nature have been avoided by us as a product of the war, and it will be easier to prevent their entry by barring victims from embarking rather than to seek to stop them at Ellis Island. It is stated that every immigrant from Southern and Southeastern Europe will be required to be bathed, vaccinated and deloused before he boards the steamer. That should go far toward preventing the transmission of disease.

Guarding against disease is excellent, but it is much easier than to guard against those who may be healthy, yet more objectionable than if diseased. The man of bolshevist tendencies may be able to present a clean bill of health yet do as much harm when here as a

WOMEN GIVEN IMPORTANT ROLES IN ELECTION OF HARDING

Politics is a serious occupation and an absorbing one for women, as well as men, this year. All eight women on the Republican National Committee are devoting their time to routing the women vote of the country. Mrs. Harriet Taylor Upton, vice-chairman of the Republican National Executive Committee, spends all of her time at Chicago headquarters organizing the women voters. It is due to her masterful appeal to Republican assemblies in Tennessee that the Republican Amendment was ratified.

Mrs. Harriet Taylor Upton, vice-chairman of the Republican National Executive Committee, spends all of her time at Chicago headquarters organizing the women voters. It is due to her masterful appeal to Republican assemblies in Tennessee that the Republican Amendment was ratified.

Who Gets Soaked in North Dakota?

(North Side (Jerome) News)

The Non-partisan league orators, speakers and newspapers are holding up to a blinking audience the figures showing the comparative tax levies in the state of North Dakota, the Non-partisan league stronghold, between the Republican regime of yesterday and the Non-partisan league regime of today. The Republican regime ended in 1918 and the league ran the ship in 1919 and is still at the helm.

Tax levies mean nothing, set out by themselves. They must be accompanied by the property valuations, the assessments, as finally fixed. No one can compute his own taxes unless he has both, nor can anyone do it for him. So light is shed on what the tax may be in North Dakota or any place else by simply stating levies. If the valuation remains the same and the levy is cut in two, it does not take a very bright mind to figure out that taxes are reduced one-half by the operation. Or if the levy remains the same and the valuation is doubled, one equally as astute will tell you that taxes double, automatically.

So in order to get at what has happened in North Dakota or anywhere else, we must have both items—levy and valuation. These supporters of the league state the comparative tax levies of North Dakota to be as follows: 1918 levy, 4.3 mills; 1919 levy, 2.98 mills. The crowd is presumed to get the impression from this statement that the taxes have been reduced approximately one-half, or cut in two, by the remarkable statesmanship of the league officials of North Dakota.

It required some effort to get the facts, but The News has finally secured what it believes to be official figures. A few days ago this office secured a copy of quite a bulky pamphlet entitled "Proceedings of the State Board of Equalization of North Dakota, 1919." The report was published under date of January 17th, 1920, and is sworn to by the state tax commissioner and secretary of the state board of equalization. The News believes it to be authentic and believes that anyone interested can secure a copy by addressing a request to the officer named.

A condensed statement of the assessed valuations of all classes of property in the State of North Dakota for the years 1915, 1916, 1917, 1918 and 1919 is to be found on page 124 of the report.

of the farmer was \$229,307,669, as follows: Farm lands exclusive of improvements, \$221,459,525; improvements on farm lands, \$7,848,144. Add them together and see if this is right.

Now, in 1919, it will be seen that the total amount assessed against the farmer was \$1,072,167,653. This was for the land alone, as the Non-partisan regime had adopted a modified Henry George theory of assessing property which exempted improvements on farm lands. They are not exempted on town and city real estate. So all that is assessed is the land and the total of this valuation for taxation purposes is (let's print it out this time) one billion, seventy-two million, one hundred and sixty-seven thousand, six hundred and fifty-three dollars. Glancing at the figures there, placed side by side, it is readily seen that this is almost five times (let's print them out again) two hundred and twenty-nine million, three

CONDENSED COMPARATIVE STATEMENT SHOWING VALUATION OF DIFFERENT CLASSES OF PROPERTY AS LEFT BY STATE BOARD OF EQUALIZATION FOR THE YEARS 1918 AND 1919

Class of Property	1918	1919
Farm Lands Exclusive of Improvements	\$221,459,525	\$1,072,167,653
Improvements on Farm Lands	7,848,144	
Town and City Lots Exclusive of Improvements	15,340,001	51,738,830
Structures and Improvements on Town and City Lots	20,578,287	52,210,528
Personal Property	56,631,693	119,019,772
Railroads	77,840,105	218,563,362
Telephone	721,312	1,503,273
Capitols	1,762,743	5,708,785
Street and Interurban Railway	950,807	2,360,290
Pullman	90,365	250,165
	159,276	224,382
Totals	\$403,422,240	\$1,623,747,028
Total Acres Assessed	40,375,592	40,936,895
Average Value per Acre	5.48	20.19

It will be seen that in 1918 the total hundred and ninety-seven thousand, six hundred assessed against the property hundred and sixty-seven dollars. In

vide the greater sum by the lesser and see. Or just multiply the lesser sum by five and see how little it exceeds the greater sum.

Well, if everybody else got a similar soaking it is all right, somebody says. But did everybody else get it? Take the next item and compare the figures for 1918 and 1919—they are printed there side by side. The item is "Town and city lots exclusive of improvements." It is seen at a glance that this increase is but a little more than three times as much instead of almost five times as is the case on the farm lands.

Next item: "Structures and improvements on town and city lots." These figures show on their face that the increase is just about two and a half times, instead of nearly five. It is simple division and any fourth grader can work it.

Next item: "Personal property." Any one can see this is a little more than two times, against farm lands almost five times.

Next item: "Railroads." Yes, the railroads, they surely got theirs. But did they? Valuation 1918, \$77,840,105. Valuation 1919, \$218,563,362. Just sizing it up roughly this looks like about three times. It is—about—but under rather than over. It is a little less than three times and a little more than two and three-fourths times. Pass this one to the fourth grader and see. Hoisted for an increase of less than three times as against a soaking of almost five times for the farmer. This certainly made the railroads sit up and take notice. I bet you.

Well, there are some more items. Next one is telephone. They surely soaked this grasping outfit! But did they? A glance will show that they did, a little more than two to one instead of letting the farmer in at almost five to one.

They must have had a grudge against the telephones (and may be some of these are mutual concerns owned by the farmers, but this is guess work. The News doesn't know. Anyway, the telephones were raised a little more than three times, instead of the very considerable almost five to one raise for the farmer.

"Street and interurban railways" enjoys a raise of less than three, and the blessed "Pullman" a raise of less than two. A glance at the figures shows this, even a pencil and paper not being necessary.

All of this simply shows that the owners of farm lands got the worst of it in the revision upward, of about 40 per cent. But it does not show whether taxes were increased proportionately or even increased at all. As stated above, levies, as well as valuations, have to be known before the tax charged can be arrived at.

The Idaho Lender, the official Non-partisan league paper of Idaho, states that the North Dakota 1918 tax levy was 4.3 mills and the 1919 tax levy 2.98 mills. It is well to confirm any of the Lender's figures or statements on such matters and on examining the official publications of the state of North Dakota from which the above table of assessed valuations are taken The News finds that the figures as to levy for 1918 are correct, and 1919 are slightly incorrect. But we will use their figures. Well, let's see how doubling up the valuation say five times and cutting the levy say in two, worked out.

The total assessment against the farmers in 1918 was the two items of farm lands and improvements, totaling, as stated above, \$229,307,669. The levy was 4.3 mills or \$0.0043. Good practice for the fourth grader let him do it. If he is fairly accurate at figures his answer is \$986,409.97. That is the tax

that was actually paid by the farmers of North Dakota into the state treasury in 1918.

Now for 1919. The total assessment (just the farm lands, improvements being exempt) was \$1,072,167,653, and the levy 2.98 mills, or \$0.00298. Simple multiplication again the boy says. The answer is \$318,509.60—of any rate if that is his answer he is not far off. A few thousand or even a few hundred thousand, more or less, right or wrong, after one gets to skilling among the millions and billions is of no great importance. This was the real tax that the farmers paid into the state treasury in 1919, as against \$986,409.97 in 1918. Evidently if the valuation is raised almost five times and the levy is about cut in two it increases the amount the property owner will pay something more than five times.

On a percentage basis, according to these official facts, the tax of the North Dakota farmers was increased 226 per cent from 1918 to 1919, notwithstanding the low levy.

It is not necessary here to occupy space with the figures. Anyone competent can compare fairly enough. If they do they will discover that the approximate increase in taxes levied against the other classes of property is around 82 per cent instead of 226 per cent wished onto the farmer.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied, with wonderful effect.

But brewing at home is messy and out of date. Nowadays, by asking at any drug store for a bottle of "Wych's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy—naturally.

THE RIPE RASPBERRIES.

"Did you hear the great news?" asked one of the raspberry bushes of another bush.

"No, what is the great news?" asked the other raspberry bush.

"There is going to be a great raspberry hunt today," the first raspberry bush said.

"Well, if they see us they won't have to hunt very far," the second raspberry bush said.

"That is so," answered the first raspberry bush, "and they know we're here. We get some of our messengers tell them. The only thing is they are not sure whether or not we are ripe."

"They said they were not sure we were or not, and so they will be delighted when they find how easily we come off the bushes. For when we're ripe we come off easily and when we're not we stick on and show we don't want to come off."

"That really is what we should do," said the second raspberry bush. "It would be very mean if we came off easily and pretended we were ripe when we weren't. Folks could get us easily and then we might make them sick. It's much kinder to do as we do. And the other berries are apt to do the same way. They don't come off so easily when they aren't ready to eat. But anyone can always tell that a raspberry is ripe when it comes off easily and doesn't want to stay on the bush."

"They're going to gather ever and ever so many of us," said the first raspberry bush, "and then they're going to give us an entertainment for the benefit of some hospital where there are some sick children. That is why I am so glad we are ripe."

"What sort of an entertainment are they going to give?" asked the second raspberry bush.

"Why, they are going to have an entertainment with all the children wearing red ribbons on their hats and red sashes, so as to match our colors."

"That is what they are going to call their entertainment. Yes, it is to be called a raspberry festival."

"They have sent around notices and they've asked people to come, and they're going to have raspberry ice cream and crushed raspberries over the cream."

"They're also going to have raspberry sherbet and raspberry ices. It's going to be a regular raspberry party."

"Everyone is going to come to it, I believe, and all the people who are making the ices and ice creams have been only too glad to do what they could to help, and then the children are going to gather all the raspberries for the party."

"They are going to run it and manage it, and the money will go to the hospital where the sick children are. Isn't that a nice idea?"

"Wonderful," said the second raspberry bush. "And isn't it fine we are all ready and quite ripe and very good? There are so many, many raspberries on both these bushes."

"And if they need more than we can give them," said the first raspberry bush, "we can tell them where they can get more, down the road further along."

"Oh, yes, we will help them all we can. Hush! here they come. Now be ready, all of us, to come off easily, for we're ripe and we want to help them hurry."

The children picked and picked and picked. Oh, how many they got, and the raspberries were so happy as they were dropped into the pails, to think of all the good they were going to do.

"And," said one child, "I think we ought to make enough ice cream, so that not only the money goes to the hospital, but so they have a dish of ice cream apiece. It will be so good. Let us go without our share, if there isn't enough, so that every hospital child gets a good dish of it."

And they all decided to do this. "Ah," said the first raspberry bush, as the last of the berries were taken, "how glad I am that we were all ripe."

"So are we," said the second raspberry bush, "and that there are the other ripe bushes down the road! It's fine to be ripe raspberries, fine, fine!"

UPHOLDS CONVICTIONS OF THIRTY-NINE I. W. W.

Federal Court in San Francisco Sustains Judgment in Case of War Law Violation

SAN FRANCISCO, (AP)—Conviction of thirty-nine members of the Industrial Workers of the World in Sacramento in January, 1919, on a charge of conspiring to violate the selective draft and espionage acts, was upheld by the United States circuit court of appeals here today. A group of the defendants were sentenced to the federal prison at Fort Leavenworth, Kan., for terms ranging from two to ten years. The remainder were given county jail sentences.

CONVICTION OF SOCIALIST PARTY IN NEW YORK STANDS

WASHINGTON, (AP)—The supreme court today refused to review the conviction in New York of the American socialist party for violating the espionage act. The party was fined \$3,000 for publishing a pamphlet by Scott Nearing entitled "The Great Madness." Nearing was tried at the same time, but was acquitted.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the Commissioner of Public Works of the State of Idaho, at the office of the Commissioner, Boise, Idaho, until two (2) o'clock P. M. on the 10th day of November, 1920, for the construction of a bridge across Deep Creek, consisting of two 60 foot steel spans, and a reinforced concrete bridge 37 feet by 20 feet across Little Salmon River, known as Federal Aid Project No. 44-B, on the Idaho Panhandle Highway in Twin Falls County.

Proposals will be opened and publicly read at the above stated hour. Plans, specifications, forms of contract, proposal forms and other information may be obtained at the office of D. P. Olson, Director of Highways, Boise, Idaho. A deposit of ten dollars (\$10.00) is required for each set of plans and specifications. The deposit will be refunded if the plans are returned intact, within 14 days after bids are opened.

All proposals must be made on the forms furnished, and must be signed by the bidder, with his name and post-office address.

The right is reserved to reject all proposals, or to accept the proposal or proposals deemed best for the State of Idaho.

No proposal will be considered unless accompanied by an acceptable Proposal Guaranty in an amount equal to five per cent (5 per cent) of the total amount of the proposal. This guaranty may be in the form of, (a) cash; (b) a certified check drawn on an Idaho bank and made payable to the Commissioner; or (c) a bidder's bond.

It is the purpose of the Commissioner to build the improvement in the shortest time consistent with good construction, and complete and well designed equipment and effective organization will be insisted upon.

Dated October 19th, 1920.

D. P. OLSON, Director of Highways.

WM. J. HALL, Commissioner of Public Works.

Gas Buggies—The gasoline shortage may kill this evil

(Copyright, 1920, by New Era Features)

by Beck

APPLIES FOR DAILY ALLOTMENT OF GASOLINE — HURRIES HOME WITH PRECIOUS FLUID — FILLS TANK AND LINGERS LONG TO ADJUST CARBURETOR AS USUAL — FINALLY FINISHES AND PREPARES TO START—SPINDS MOTOR FUTILELY— INVESTIGATES — FINDS GAS TANK EMPTY— CAN'T UNDERSTAND IT — THEY NEVER GET NEXT TO THEMSELVES.
