## REVOLT FLAMES HIGHER IN EMERALD SLE

### PAGKERS FILE NEW PLAN FOR DISSOLUTIONS

Substitute Proposal Provides for Organization of Union Stock Yards, Inc., to Take Over Holdings

WASHINGTON, (AP)—Swift and Company and Armour and Company filed today in the District of Columbia supreme court a new plan for disposing of their interest in stock yards, terminal railroads and market newspapers. It was understood that Wilson and Company would adhere to this plan, but Morris and Company and the Cudahy company were not a party to it.

Justice Stafford set November 8 as the final date for the department of justice to file objections to the new proposal, but Justice Kresel, special assistant to the attorney general, intimated that the department would file no objections if the court's order putting the plan into effect provided that the proposal did not conflict with existing legislation.

Within Time Limit

Morris and Company and the Cudahy company were given until November 16 to negotiate for their inclusion in the new plan and to find some other purchaser for the stockyards interests of these concerns acceptable to the court. Attorneys for Morris and Company declared they had not seen the new plan and had been negotiating with F. H. Prince and Company, Boston bankers, on the basis of an original proposal which was objected to by the government.

Proposes New Concern

Under the new plan F. H. Prince and Company, Boston bankers, will organize the United Stock Yards, Inc., under the laws of the state of Maine, to acquire part or all of the shares of the stockyard and market newspaper companies, type and printing companies, and other concerns under the same ownership. A decree recently filed in court by agreement with the department of justice.

The United Stock Yards, Inc., will be capitalized by issues of first preferred shares, second preferred shares and common shares of stock and by notes. The stock and notes will be sold to the public and the proceeds will be used to purchase the shares of the new company, but the common shares will have voting power. Under the plan, the common shares will be issued to or transferred to five voting trustees to be appointed by the supreme court of the District of Columbia "to hold under a voting trust for 20 years."

Operate Under Leases

The voting trust will be given authority to enforce the conditions of the leases and operating agreements provided for in the plan. The proposal by F. H. Prince and Company is that the companies whose shares are acquired by the United Stock Yards, Inc., although managed locally as far as possible, will be operated under leases or operating agreements with the Chicago Stock Yards company for a period of twenty years.

"As full compensation thereunder," says the agreement, "and for its guaranty of the notes of the holding company, and for its services in financing additions and betterments from time to time during the said period, the United Stock Yards, Inc., will pay or cause to be paid to the Chicago Stock Yards company."

### PRICE OF WHEAT SCORES ADVANCE

Chicago Trade Authorities Attribute Ascent to "Farmers Strike" Result

CHICAGO, (AP)—Wheat prices made a sudden ascent today, and trade authorities ascribed as one of the reasons a falling off in the holding company, and the fact that the "farmers strike" to begin, but no market effects were noticeable until today.

The exceptional strength which developed in the market today was due to the fact that export buying on a large scale was noted. It was estimated that exporters had purchased today 1,250,000 bushels of wheat, and that Great Britain and France were buying in India, where of late famine has been reported.

### City of Trieste is Reported Occupied by Italian Troops

D'Annunzio Disclaims Part in Movement Against New Objective

ROME, (AP)—The city of Trieste was occupied by Italian troops Sunday, according to telegrams from that place to the Courier d'Italia and the Isona Nazionale.

A report had been circulated that a landing by Gabriele d'Annunzio was imminent, but this did not materialize, d'Annunzio telegraphing from Fiume a denial of any intention to land at Trieste.

General Cavaglia assembled the officials of Trieste and appealed to their patriotism, the dispatches add. He urged unity and discipline for the defense of the country and abstention from any attempt at rebellion.

### Rioters in Russia Blow Up Warcraft Dispatch Declares

Destruction of Two Torpedo Boats at Kronstadt Is Reported

LONDON, (AP)—An Exchange Telegraph dispatch from Helsinki, Finland, today reports that two torpedo boats at Kronstadt, the Russian naval base near Petrograd, have been blown up by rioters. It is asserted that sailors were involved in the rioting.

The movement today declares that the Bolsheviks have employed Chinese mercenaries to put down local fighting reported to have taken place in Petrograd and Kronstadt. There is no confirmation of these reports from other sources.

### LEGION DEMANDS POST'S POSITION

Veterans of World War Request Dismissal of Assistant Labor Secretary

WASHINGTON, D. C., (AP)—Formal request for the dismissal from office of Louis F. Post, assistant secretary of labor, was submitted to President Wilson today by a committee of the American Legion.

(Continued on Page Four)

## World News Events

WASHINGTON, (AP)—The Cuban government today asked the state department to designate a financial expert to go to Cuba to assist in working out a solution of the Cuban situation. The request was referred to the group of bankers who have agreed to assist Cuba financially and they are expected to name the expert.

OTTAWA, Ont., (AP)—Iceland is going to have a world's fair, with agricultural implements and other exhibits common in warmer climates for the edification of the Eskimos who know how to gaze upon them. It will be held next June at Reykjavik, the capital; the Iceland government advised the Canadian department of trade and commerce today.

TOKIO, (AP)—Frequent allegations in the Japanese newspapers that Americans have been indulging in spying has been followed today by an article in the Nichi Nichi claiming that Captain Edward H. Watson, naval attaché, clandestinely visited the Kure navy yard with the object of obtaining information. Inquiry at the American embassy brought forth the statement that Captain Watson with his assistant, in accordance with arrangements made in advance by the navy department, paid an official visit to Kure. The American officers wore their uniforms and throughout the visit were escorted by Japanese naval officers.

### BELGIAN ENTRY WINNER IN WORLD BALLOON RACE

Aero Club Officials Concede Gordon Bennett International Trophy to "Belgics"

NEW YORK, (AP)—Officials of the Aero Club of America today conceded that the Gordon Bennett international trophy for free balloons had been won by the Belgian entry "Belgica," piloted by two Belgian army officers, Lieutenants De Meirter and Labrousse. They covered about 1100 miles from Birmingham and North Hero island, on Lake Champlain.

Plans are under way for a banquet to be held in this city in honor of the Belgian winners. At the dinner, the Bennett trophy will be presented.

### GREEK THRONE TO BE OFFERED TO PRINCE PAUL

Third Son of Former King Constantine is Chosen Successor to Alexander, Victim of the Monkey's Bite

ATHENS, (AP)—The throne of Greece made vacant by the death of King Alexander, will be offered to Prince Paul, third son of former King Constantine, it is officially announced.

Former Minister for Regent.

Admiral P. Konstantinidis, former minister of marine, is believed to be the government official most favored for the appointment as regent of Greece to hold office until the successor of King Alexander, who died last night, ascends the throne. He was formerly a member of the Saloniki government and is known to be friendly to the entente.

The lower chamber of the Greek parliament will be convoked immediately to elect the regent.

Situation Presents Difficulty

Many difficulties regarding succession to the Greek throne, it was believed, would result from the death of King Alexander. There was every indication the throne would be offered to Prince Paul, third son of former King Constantine, but as a condition, King Constantine must formally abdicate and Prince George, older brother of Prince Paul, must renounce his rights.

It is probable that King Constantine will at first refuse to meet these conditions, but it is understood Premier Venizelos will produce arguments of some importance.

Constantine's financial state is well known, and it is thought the understanding that the former king's suppressed pension, if the above terms are accepted, will be a factor in his decision.

Constantine Holds Balance.

Only in the event of Constantine's persistent refusal would there be a question of the establishment of a republic, but it is known Premier Venizelos is of the opinion that Greece is not ripe for that form of government.

There was also a possibility of offering the throne to a foreign prince, but the premier is reluctant to take such a step.

Members of the Greek cabinet conferred on Sunday, but decisions reached, if any, were not made public.

For the last three weeks, Colonel Wentz stated, soft coal production has exceeded 12,000,000 tons a week, the goal fixed by the operators as necessary to insure adequate supplies everywhere in the country.

Transportation Key

To insure against any contingency of failure to carry out the operators' program, Colonel Wentz declared it was imperative for the railroads to continue giving cars enough to ship 12,000,000 tons weekly well into the winter.

"If the mines have the cars, there will be no shortage of coal anywhere," said Colonel Wentz.

### TWO AMERICANS KILLED IN TAMPIOCO OIL FIELD

State Department is Advised of Fatalities Occurring in Mexican State; No Details

WASHINGTON, (AP)—Two American citizens have been killed in the Tampico oil fields, dispatches today to the state department said.

The victims are Arthur L. Mosley and George E. (Red) Salter. The report said that the men were killed yesterday afternoon at Vega de Oates, near Tampico. No details were given for both men were in the winter of 1919, but there is no record of a passport having been issued to Salter.

CHILEAN CONSUL ADVISES USE OF LOUISIANA PORT

VALPARAISO, (AP)—Greater use of the port of New Orleans for shipment of exports from the central Mississippi valley to Chile would be advantageous for both nations, Chilean officials in the opinion of Thomas A. Peck, Chilean consul in Cincinnati, who has been visiting in this country. He says the port city should be made a port of call for ships which now ply between New York and Chile.

### VILNA OCCUPATION PROVES POSER FOR LEAGUE COUNCIL

BRUSSELS, (AP)—The occupation of Vilna by General Zeligowski was the subject of animated discussion by the council of the league of nations this morning.

Three eventualities were under consideration by the council. The first of these was the expulsion of Zeligowski and the re-installation of the Lithuanian authorities, but the league's military mission reported there was no force available for this purpose. The second eventuality was continued occupation of Vilna by the Poles, and the third a plebiscite by which the inhabitants could express a desire for self-determination.

### COAL OPERATORS ENGLAND MOVES TO STRIKE END

Express Opinion that Little Danger Exists of Serious Shortages

CLEVELAND, O., (AP)—At a general open meeting of approximately 1900 bituminous coal operators from all parts of the country held here today, following a meeting of members of the National Coal association, it was the judgment of the operators, both association members and others, that the soft coal operators throughout the country will co-operate fully and heartily with Attorney General Palmer in an effort to reduce coal prices.

Under this plan the miners, while receiving more wages, would co-operate with the owners in preventing increased prices.

Emergency Bill Opposed.

Strong opposition to the government emergency power bill, giving the administration far-reaching authority in the event of a general strike or of disorders, was anticipated in the house of commons today. The measure entered the committee stage of consideration, and the government issued instructions for all supporters to be present at today's session of the house.

In the house of commons last night a motion for the rejection of the bill was defeated by a vote of 257 to 55, and the measure was passed to second reading.

Former Lloyd George defended the bill, which he declared was not intended as an attack on trade unions, but absolutely necessary to "face the threats of railway men and the triple alliance to cripple our national life almost without notice."

Turns Debate to Ireland.

Further consideration of the bill was postponed during the night session, as T. P. O'Connor, leader of the Irish nationalists, obtained permission to begin the debate on events in Ireland. Mr. O'Connor discussed recent acts of reprisal in the island, but no new points were developed.

### COX SAYS PRO-LEAGUE MOVE SWEEPS COUNTRY

Declares Churches, Labor and Women Unite in Support of Covenant

RENOVA, W. Va., (AP)—Governor Cox today closed his West Virginia campaign here today with another appeal for the league of nations and a statement that the churches, labor and women were together in the movement which, he said, was "sweeping the country."

Governor Cox declined today to make his statement last night at Huntington with regard to the ratification of the treaty of Versailles and attendant reservations.

He announced last night that if elected president, he would sit down with the pro- and anti- league "movement" upon the league of nations and that his agreement should be determined by the senatorial elections.

"The executive will," the democrat presidential candidate said, should not control and it is "unthinkable," he declared, that American membership in the league should be postponed two years, when the next senatorial elections will be held. American membership, he indicated, was the primary consideration. That he favored American participation with "clarifying reservations" he reiterated by the governor.

Governor Cox said that he had been asked what he would do if the senatorial deadlock should continue as a result of the senatorial elections.

"I've believed still that we would get in. I'm trying to get in and the other man is trying to keep out."

IDAHO WEATHER

Tonight fair and colder. Wednesday fair.

### GUERRILLA WARS AND RIOTS TAKE TOLL OF LIVES

Belfast, Cork and Dublin are Scenes of Outstanding Disturbances with People in the Land on Verge of Panic

BELFAST, (AP)—Further rioting occurred in this city last night. Large crowds burned offices of Terence MacSwiney, the late lord mayor of Cork, in a street in the slum section of the city and a nearby party, mistaking the office for that of Premier Lloyd George, started a riot which was going on, and the police being powerless to quell the disorder, troops were summoned. Several shots were fired by the soldiers and order was soon restored.

John McLeod was shot and killed yesterday during a fight caused by the display of Sinn Fein flags. The clash occurred in the east end of the city.

SOLDIERS FEARING ATTACK OPEN FIRE UPON CROWDS

CORK, (AP)—Crowds along the Grand Parade, one of the principal thoroughfares of this city, were thrown into a panic last night when soldiers were fired from a military lorry and an accompanying armored car. So far as known, however, there were no casualties.

It appears that the car had turned its searchlight on the Sinn Fein club house, and a large number of people, lured by curiosity, surrounded the machine. The soldiers, fearing an attack, fired and the crowds scattered through streets in the business district in the city. Subsequently the streets were almost deserted.

Armed body of rioters flagged the afternoon mail train running from Cork northward today and searched the cars.

### MOURNERS OF AVERAGES IS QUESTION ABOUT PRISONERS

DUBLIN, (AP)—Eight men, said to be residents of Cork, were arrested last evening as they were about to sail for England and the police are investigating whether they were merely going to the funeral of Lord Mayor MacSwiney or whether there is a possibility that they intended to avenge his death.

Each of the men wore the uniform of the Irish republican army under his ordinary garb and one carried four revolvers. None of them was armed.

Three men were shot and killed by masked men who were alleged to be working for the Irish republicans. The shooting took place in the Thurlagh district, one of the victims being the registrar of the local arbitration court, Michael Ryan, another one of the slain, was shot while lying in bed, where he had been suffering from pneumonia a week ago.

It was reported tonight that a political prisoner, who was incarcerated in Mountjoy prison was dead. The identity of the man was not announced.

### RAIDERS KILL BARKEEPER

GALWAY, Ireland, (AP)—Thomas Egan, keeper of a public house at Athlery, was shot dead at his home Sunday night by raiders after the latter had accused him of complicity in the murder of Frank M. Shaw, a Galway magistrate, last March.

### RELEASES BODY OF MACSWINEY

British Government to Make No Interference in Plans for Obsequies

LONDON, (AP)—Inquiries which have been made of members of the family on behalf of the government regarding arrangements for the funeral of Lord Mayor MacSwiney of Cork have been interpreted by Father Dominic, the late lord mayor's private chaplain, as an indication that there will be no interference with the family's plans and that the body will be turned over to them immediately after the inquest. This, the home office states, will be held Wednesday morning.

The body will lie in the Brixton prison mortuary, clothed in a coarse brown Franciscan habit.

It is reported from Dublin that all the members of the anti-Dail Eireanna or Irish republican parliament, intend to come to London for the obsequies here. It is also stated that a body guard of 50 Irish volunteers will attend the funeral party throughout the journey.

Comment on General.

Articles on the death of MacSwiney occupied much space in this morning's newspapers, regardless of their political views. Some of the journals reprinted from the columns of the situation which has arisen, while others have written in accordance with their customary attitudes on the Irish question.

# FREE TRADE IS PROVEN FALSE, HART DECLARES

Idaho National Committeeman  
Points Out Evils Attendant  
Upon Letting Down of Tar-  
iff Wall Against Foreigner

BOISE, Idaho (Special Correspondence).—"The theory of free trade has gone glimmering in these days of tight prices and no markets and the producer of the country, regardless of his capacity or operation, is facing virtually the last wall of bankruptcy," said Senator John W. Hart, republican national committeeman from Idaho, who recently returned from headquarters at San Francisco.

"There is no disputing the fact that the producer is hard hit and if free trade were to continue for an extended period all business and industry would be affected in the same disastrous manner. If any individual figures that he would not be hurt by free trade he would better disillusion himself in a hurry."

**Expresses Confidence.**

The veteran wheel horse in the sphere of politics was very emphatic in stating that Idaho would give Harding and Coolidge an overwhelming majority and this would include both the congressional and state tickets. The senator after a reasonable survey of the situation is fully confident that Frank H. Gooding will be elected United States senator and that Congressman French of the First district and Congressman Smith of the Second district will also be elected by a large majority.

Mr. Hart adds: "It will be distinctly gratifying to republicans and to the people of Idaho generally to see that we are to secure a republican delegation in full harmony with Senator Borah on all matters that affect the great policies confronting the people of today opposition to the Wilson league of nations and the great project of tariff revision that will give Idaho protection to its industries and products. The lack of teamwork has badly handicapped the state of Idaho in the past two years and Senator Borah, whose splendid work in the upper house of congress stands unparalleled, has had no help from his colleagues from this state. All of us know that Frank Gooding and our two congressmen will prove a potent working force co-operating with Senator Borah and we are satisfied that not only the senator but the party and the people will derive a great deal of confidence in that the situation splendidly approved by all parties concerned."

The tariff issue of course is one of the big items before the people of the intermountain states at this particular time and it is upon that issue they are building their hopes for the success of the republican ticket. The solution of the troubles and problems confronting the farmer and stockman at the present time lies only in the protective policy and obviously this can be attained in no other manner than through legislative enactment of a republican body. The influx of frozen meats and foreign grains and other commodities has become more than a menace. It is a daily abuse, and the small dealer even is beginning to feel the effect. No theory is involved in this situation. It is a practical and existing fact and our democratic friends may struggle with might and main to draw fancy comparisons but it remains that they have no argument to refute the deadly complaint that free trade has brought to the producer of the country.

**No Market for Farmer.**

Our hay is worth less than our wool, and that is worth practically nothing and all over the country our wool is lying in warehouses without the prospect of an immediate market.

The cattle man will not be able to realize on his stock to pay him for

feeding them last winter and if the sheep have to go to the desert this winter it will mean that the best stores of hay within the state will go begging for a market and the farmer can hardly afford to unload it at too much loss. That is one of the things that is brought forcibly home to him. Southwestern Idaho will return to the usual heavy majority for all candidates on the republican ticket and I am satisfied that every other county in the state has seen the wisdom of backing up the republican ticket this year. Democratic free trade and open ports coupled with the disastrous showing made by the Alexander administration in Idaho for four years, has turned the people against anything that has a semblance of democratic "shoddy," connected with it. The democrats, unfortunately, all have been double-crossed and have come to the conclusion that the best system of readjustment is to sustain the republican ticket in as much as no element or factor connected with the ticket can be attacked in truth by the opposition.

We are going to elect a republican ticket and Gooding and the two congressmen will go from Idaho to sustain a republican president in proper manner, and there is not much guess work about that.

## GERMAN CONCERNS EARN BIG POST-WAR PROFITS

Textile Mills Dividends Exceed  
Record Set Prior to the  
Conflict

BERLIN (AP).—Ten large German textile concerns earned larger profits for the year ended April, 1920, than in the best years before the war.

One Bremen concern increased its profits as compared with last year from 4,000,000 marks to 16,800,000 marks. Including shares allotted gratis to the shareholders, the dividend paid is 62 per cent.

A cotton company increased its profits from 2,000,000 to 9,700,000 marks. Of the other companies the minimum dividend is 16 per cent and there are several dividends exceeding 30 and one exceeding 40 per cent.

Th profits are due to the big price rise of last winter. All finished goods put on the market during the winter were priced on the basis of the price of raw cotton at time of their sale, and as raw cotton rapidly advanced in price the public was charged 7 hundred per cent more than the actual production cost.

## TROOPS CARRY GERMS OF CHOLERA THROUGH CHINA

Unusual Spread of Plague is  
Attributed to the Military  
Movements

NEW YORK, (AP).—As a result of the frequent movements of Chinese troops in Szechuan province, West China, cholera has been spread more extensively recently than in the last 50 years. This is the opinion of Professor Daniel S. Dye of West China Union university, expressed in a letter to Rev. W. R. Taylor, representative of the American Baptist Foreign Missionary society in China, now on furlough here.

The disease has caused great ravages in Tungkwan, Changking and Chengtu as well as many of the smaller villages. Americans and Europeans are virtually immune, Professor Dye said, due largely to the unusual precautions observed by them in the preparation of food and in the matter of hygiene and diet.

The first graduates of the university medical school recently received their diplomas, are serving as internes in hospitals in the province.

Professor Dye was formerly a member of the faculty of the University of Wisconsin. He is a native of New Matamoras, Ohio.

## BUILDS HOME ON WHEELS

New Yorker to Tow Household to Florida to Avoid Coal Bills

NEW YORK, (AP).—A bungalow on wheels, under construction by a Staten island resident and prospective inhabitant of Florida, is claimed to be the latest device for beating the high cost of building and railroad transportation.

William Ward, designer of the "rolling home" consisting of a living room, bath and kitchen, reckoned it would be cheaper to build, equip and tow his household, intact by automobile to "where we shall not need coal," than to ship his effects by train.

## EXPORTS DOWNWARD TREND IS HALTED IN SEPTEMBER

WASHINGTON, (AP).—The downward trend of exports and the upward trend of imports was halted during September. Figures made public today by the department of commerce showed that exports for the month exceeded those of August by \$28,000,000 and that imports were \$150,000,000 below those of the month before.

## NEW RAILWAY FOR MEXICO

Government Reaches Agreement with  
American Corporation

WASHINGTON, (AP).—The Mexican government and the Kansas City, Mexico and Orient Railway company have reached an agreement under which the company is to construct a railroad about 35 miles in length from Del Rio, Texas, to Altamira, Coahuila, on the Mexican International railroad, the department of commerce was advised today by Trade Commissioner Cunningham at Mexico City.

The new road will afford a direct route between Kansas City and Mexico City with a saving of 24 hours in time, the trade commissioner said, and an equal saving in time on the route to the Pacific coast over the Southern Pacific railway.

## Financial Loss Due to Colds

It is estimated that the average man loses three days time each year from inability to work on account of having a cold. Much of this loss can be avoided by treating every cold as soon as the first symptoms of the disease appear. Chamberlain's Cough Remedy has won a wide reputation and immense sale by its cure of this disease. Try it. You are certain to be pleased with its pleasant taste and the prompt relief which it affords.—adv.

# HOME PRODUCTS EVENT FOUNDER IS FOR TARIFF

Mrs. Martha Spangler Says the Women of West Appreciate Necessity for Protection and will Support Republicans

(Special Correspondence.)

**BOISE** — "The women of the west realize what protective tariff means to the building up of our American industries and to the farmer. We have stood for western made goods and we realize that imported foodstuffs will not enhance the standard of the west. The women of the west stand for 'America First' and have confidence in the republican party to take of our interest and to deal fairly with other countries," said Mrs. Robert Spangler of the New West magazine and editor of the Western Woman's department, who is in the city to gather material for an article in reply to the statements in the Saturday Evening Post in regard to western reclamation.

Utah Women Awake.

"In Utah, the women realize that their interest in preserving the rights of America is paramount to every other interest and that the Senate needs the assistance of a republican congress. They are therefore settling aside every personal influence or opinion relative to the senatorial race and will return Senator Smoot to his seat in congress. That same feeling is apparent in Idaho among the many women I have met here. They realize that Mr. Coolidge's long experience and many interests in Idaho has fitted him for the office he aspires and that his knowledge of Idaho's reclamation needs equip him with a fund of facts to confront eastern doubters and opposition to western reclamation plans," said Mrs. Spangler.

Mrs. Spangler recently returned from the east, where she interviewed both Mrs. Harding and Mrs. Cox. "Mrs. Harding," said Mrs. Spangler, "is a very sensible, aggressive and substantial woman, and one of the women of the west are sure to admire. She is such a very efficient, wholesome and practical type of woman; interested in the advancement of women and alive to her husband's ambition and career. Nobody stands on ceremony around the modest Harding home."

Cites Common Interests.

"The republican women of Utah and Idaho," added Mrs. Spangler, "have much in common and are planning on making much of the next administration and republican candidates and platforms have promised much to the hopes of western reclamation plans. It is really going to be a mistake to send a democratic senator to a certain republican administration. Utah women regardless of political faith are going to send Senator Smoot back to the senate, so if Utah sends a republican and Idaho should fall for vice versa, nothing would be gained. It must be a republican house and senate or the west will lose. I am firmly convinced that the women of Utah and Idaho will send both Senator Smoot and Coolidge to Washington to help the west and to

help Mr. Harding and Mr. Coolidge fulfill their promises to the west."

Cox Alienates Women.

"An instance of Mr. Cox's campaign in the east recently," said Mrs. Spangler, "has alienated many women voters from the democratic party. I refer to his address made in Boston on October 18, where he is reported to have said that our most beloved national hero, George Washington, was a slave driver and owned a whiskey distillery. The mothers of this country are rearing boys and girls with reverence and love for our national heroes and instilling patriotism in their hearts for their valor. Such remarks, made in order to excuse personal attitudes of public questions, are being resented by the patriotic women of this country. Patriotism has been instilled in the hearts of our western women and we feel keenly such slighting remarks used for political purposes."

## BRITISH SHIPS REPORT BIG DROP IN FREIGHTS

World's Tonnage and Scarcity of Goods for Export.

**LONDON, (AP)**—There has been a big drop in freights during the past few months, a shipping authority has informed the Liverpool Post. Taking the market all round he said, freights have fallen by about 50 per cent since the beginning of the year. This situation is attributed to the increase in the world's shipping tonnage and the general scarcity of goods for export. Ships are leaving London and other United Kingdom ports with part cargoes.

"Before the war the United Kingdom was the carrier for half the goods of the world," said the shipping man. "Our share is now about one-third. The United States which before the war carried a nominal amount of tonnage is now our chief competitor and swallows such freight that would otherwise be carried in British holds. Operating costs are tremendously high, the coal item being one of the biggest factors."

## ELIMINATE PLEDGE TO OBEY IN MARRIAGE BOND

Congregationalist Brides in London Need No Longer Promise Obedience to Husbands

**LONDON, (AP)**—Congregationalist brides here no longer need promise in the marriage service to obey their husbands.

A committee of the Congregational Union of England and Wales, appointed to draw up a new form of service, has decided that modern ideas favor the omission of the word "obey" and this notwithstanding the fact that no woman sat on the committee; neither were any requests received from women to omit the faithful word.

"All the churches are becoming less strict in their insistence on the wording of the marriage service," said the secretary of the Women's Freedom League. "Even in Anglican churches the word 'obey' is sometimes omitted at the bride's desire, and a great number of leading non-conformist ministers have lately made a practice of cutting out the word to obey."

**Get Her Good Health Out of a Bottle**  
Mrs. Edward Raftender, Wabash, Ind., says that she owes her good health to Chamberlain's Tablets. She suffered from distress after eating and constipation and was completely cured by the use of these tablets.—adv.

## LOCKLEAR OPENS WAY TO AVIATION DEVELOPMENT

Reckless Acrobatic Stunts Resulting in Death are Not in Vain

**CHICAGO, (AP)**—The reckless aerial acrobatics with which Omer Locklear startled the world until they resulted in his death recently in California have not been in vain, according to air mail service officials here, for they report Locklear's "stunts" have opened the way for important developments in commercial aviation.

Locklear's stunt of changing from one plane to another several thousand feet above the earth will be copied in the air mail service and by commercial aviation companies in changing sacks of mail, packages or pilots from one ship to another, thus enabling airlines to make long journeys without landing, officials say. Some believe that within a short time airplanes may even take gasoline and supplies in the air.

When one of the mammoth air planes which aviators believe soon will be common flies over the control station, a smaller plane will come out to meet it, the officials explain, and by means of a rope, mail sacks or other packages will be lowered from the large to the small plane. By means of a long hook the large ship will take on baggage from the smaller ship and speed on to its destination.

Eventually it is expected that this plan will be perfected so that fuel supplies can be transferred from one plane to another, making a non-stop coast-to-coast trip possible.

Pilots will change planes in mid air by means of a rope ladder lowered from one machine to the other, just as Locklear did, it is explained. The government has been conducting tests along this line for some time.

officials here say, and one commercial aviation company is reported to be planning to put its scheme into effect within a few months in transferring mail.

## LANDIS TAKES HAND IN CHICAGO BOOZE SCANDAL

Sounds Warning Against Excess Publicity in Connection with Investigation

**CHICAGO, (AP)**—Federal Judge Kenneth M. Landis, took a hand in the controversy between Assistant Attorney General John J. Kelly and Police Chief John J. Garrity over the chief's liquor ring investigation today and warned Mr. Kelly against "going much publicity" in connection with the federal investigation of the whiskey scandal.

The judge's warning followed a statement by Mr. Kelly alleging Garrity had "doubled crossed" him. Chief Garrity, an advice of his attorney, refused to surrender original copies of affidavits and other papers collected in the investigation of the connection of certain policemen with the liquor ring. Mr. Kelly had demanded the evidence by 10 o'clock this morning under threat of subpoenaing the chief if it was not forthcoming.

## ARCHAEOLOGISTS IN FRANCE DISCOVER ROMAN VILLAS

**PARIS, (AP)**—Archaeologists have discovered in the wood of Eze, near Borne, Switzerland, two Roman villas which appear to have been constructed in the first century B. C., says a Geneva message. Further excavations are to be made in an attempt to establish the whereabouts of the 12 towns and 400 villas mentioned by Julius Caesar which it is believed existed in the neighborhood. Traces of the former existence of an important Roman colony at this spot have already been discovered.

Mrs. J. L. Kearney of Jerome, arrived in Twin Falls yesterday for a brief visit.

C. Raymond Carter of Filer was among the out of town visitors in Twin Falls yesterday.

George and William Hoover are in the city from the north side looking after business affairs.

Miss Clara Beamer of Halley is the guest of Miss Martha Stevenson at her home on Tenth avenue north.

Mrs. T. E. Moore and daughter, Grace, were in the city yesterday from Filer, shopping and visiting friends.

Harry M. Meroy of Boise was among yesterday's arrivals in this city and will remain for a short time looking after business affairs.

The Misses Helen and Esther Shaw of Halley are in Twin Falls for the teachers' institute, and are guests at the home of Mrs. Harry J. Benoit.

## LEGION DEMANDS

(Continued from page one)

Representatives of the legion in the Pacific coast states demanded last May an investigation of Mr. Post's official conduct with reference to the deportation of aliens.

An announcement by the legion committee today said a special committee's report reviewed the entire matter of deportations and stated that the labor department cancelled from January 4 to June 15, 1920, 2115 deportation warrants, ordered deportation in 530 cases and deferred 60 cases.

"It's main contention against Mr. Post," said the announcement, "is that 42 of the aliens ordered deported, were actually deported but that at that point Mr. Post took charge of the matter and the deportations ceased."

## GREEK TRIBUNE

(Continued from Page One)

Elections at which will be chosen members of the new Greek national assembly have been postponed one week, it is announced here. They were to be held on November 8.

**MAKING STEADY RECOVERY.** Steady progress toward recovery is recorded at the county hospital in the case of Harold Minnerly, who was accidentally shot in the right knee while attempting to remove a charge from a revolver for a demand loan. Saturday, the young man, it is said, will be able to return home in a few days.

## Today's Markets

**New York Stock Market**

**NEW YORK, (AP)—**Trading on the stock exchange today was again dull and dominated by the money market, further contraction being shown by a review for demand loans. Sales approximated 400,000 shares.

Low priced or speculative rails, especially those comprising the southwestern group, also oils, steels and tobacco, were the firm features at the opening of today's stock market. The more hopeful tenor of industrial advances from Great Britain induced noticeable short covering. Gains in Texas and Pacific, St. Louis and Southwest were preferred, Bethlehem and United States Steels, Royal Dutch and Mexican and Pan-American Petroleum ranged from large fractions to a full point. The only stock to display marked heaviness was Coca Cola which added 1-8 points to yesterday's severe loss on suspension of the dividend.

Prices of leading stocks ended in the last hour when call money repeated yesterday's high rate of 10 per cent. The closing was irregular.

**Liberty Bonds** — Liberty bonds closed: 1 1/2's \$92.80; first 4's \$89.80; second 4's \$88.00; first 4 1/4's \$89.60; second 4 1/4's \$88.30; third 4 1/4's \$90.50; fourth 4 1/4's \$88.60; Victory 3 3/4's \$90.20; Victory 4 3/4's \$96.10.

**Grain and Provisions**

**CHICAGO, (AP)—**Moderate strength developed in the wheat market today owing in some degree to hopeful prices toward a settlement of the British coal strike. An upward tendency in hog values tended also to lift grain prices including wheat. Besides offerings were light. Opening quotations, which ranged from 1-2 to 1-4c higher, with December \$2.12 to \$2.01 and March \$1.93 1/2 to 1.94 1/2, were followed by further gains, and then by a fair reaction.

Subsequently the market scored a sharp ascent, influenced by word that exporters today had bought more than 1,000,000 bushels. Reduction of offerings from the coasters, apparently because of the farmers' "strike" continued also as a bullish factor. The market closed strong, 9-3-4 to 10-1-4c higher, with December \$2.09 1/2 to \$2.00 3/4 and March \$2.02 1/2 to \$2.02 3/4.

Corn paralleled the action of wheat. After opening 1-8 to 1-2c higher, including December at 80 1/2 to 80 3/8c, the market hardened still more and then sagged somewhat.

Later corn made a decided fresh gain with wheat. The close was nervous, 1-1-2 to 2-2c higher, with December 82 1/4 to 82 3/4c.

Oats were governed by the course of

other cereals, starting a shade to 1-4c up, December 3-1-4 to 63 3-8c, and continuing to show firmness.

Higher quotations on hogs gave an upturn to provisions.

**Cash Quotations**

**CHICAGO, (AP)—**Wheat No. 2 hard \$2.12 to 2.18.

Corn No. 2 mixed 84 to 85c; No. 2 yellow 84 3/4 to 86c.

## NUGENT CROWD IS APATHETIC

U. S. Senator is Heard in Silence During Oratorical Sketch of Issue

Senator John F. Nugent, candidate for re-election on the democratic ticket, spoke here for more than two hours last night in discussion mainly of the league of nations issue, with some reference to other national and state issues. He addressed an audience in the Lavington theatre which, at its peak, numbered about 600 persons.

Senator Nugent received measured applause when he appeared on the platform and was introduced by W. Orr Chapman, chairman of the democratic county speakers' bureau, and again at the close of his address when he invoked religious aid for acceptance of the league of nations. The audience evidenced enthusiasm only when the speaker touched upon a project launched by the Republican senator and governor of Kansas and declared that he returned to the senate, he would favor abolition of the Chicago board of trade and other institutions which "speculate and gamble in foodstuffs."

**Heard in Silence**  
The audience failed to respond to the running of the democratic presidential candidate at the crest of an oratorical period, and it heard in dead silence Senator Nugent's declaration that he "always opposed machine politics and manipulation of political conventions by political bosses."

Senator Nugent opened his address with a brief review of legislation on acted during the period in which Democrats controlled both the legislative and executive branches of the government, declaring that more progressive legislation had been enacted during that time than during any 25 years prior to that period. He mentioned the federal reserve act which, he said, was a guarantee against panics; the income tax act, the federal farm loan act and the exemption of organizations of farmers and laborers from operation of the Sherman anti-trust law.

**Seeking a "Goat"**  
Declaring that the tariff question, as raised in Idaho at this time, was a "fake issue," Senator Nugent asserted that no one who wanted anything except a square deal need fear any consequences of the democratic tariff policy. He laid the whole responsibility for stagnation in the wool market to "greed and rapacity" of the American Woolen company, and explained the difficulties attending the marketing of farm products generally this year to the fact that "the farmers have no comprehensive, systematic system of marketing their products."

Senator Nugent asserted that he had little knowledge of Idaho politics because of his long absence in Washington. He endorsed provision of the democratic state platform for re-enactment of the direct primary law "with reservations to favor the preservation of political organizations," and re-enactment of the non-partisan judiciary law. He declared that the opinion was general that the administration of former Governor Alexander was "one of the most economical and businesslike Idaho has ever enjoyed," and attributed to T. A. Walters much of the credit for its success.

**McAdoo Statements**  
In discussion of the league of nations, Senator Nugent covered, with greater detail the arguments for American ratification previously advanced here by former Secretary McAdoo.

He re-invoked the democratic campaign slogan of 1910, declaring unreservedly that a vote for the democratic presidential candidate was a vote for peace, while a vote for his opponent was a vote for "preparedness for war."

He asserted repeatedly that under the league of nations war would be an impossibility, and admitted a chance for error in the predictions of league proponents only when he insisted that "nations are only aggregations of individuals," acting upon the same motives that move individuals. In pursuance of this proposition he argued that maintenance of an international police force toward which he suggested, for purpose of argument, the United States might contribute 25,000 men, would create a safeguard for peace, and that in case of necessity he would increase the police force. He did not,

however, pursue this comparison to the extent of indicating that nations might form combinations and alliances within the league.

**Debate Society**  
He contrasted the league covenant to show that the league would be without any power except such as should arise from fulfillment of moral obligations on the part of member nations; assigned to the league council practically exclusive power within limits of the covenant, and denominated the league assembly a "debating society," contending that members other than those registered in the council would occupy a position in the league similar to that of territories in the United States.

Senator Nugent advised his hearers to study the covenant for themselves; declared that not one of the "almost" numerous newspapers which are opposing the league had published the text of the covenant," but did not explain where or how it could be obtained.

## STATE FARMERS FACE LOSS BY CARS' LACK

Everett Sweeley, Utilities Commissioner, Seeking Relief in Bad Situation

The only hope of a solution of the car shortage with respect to the requirements for potato shipments in this section lies in the possibility of the public utilities commission being able to make the car service section of the interstate commerce commission see the importance of providing cars, perhaps at the expense of some other section.

This is the statement of Everett M. Sweeley of the Idaho public utilities commission who is in Twin Falls in an effort to procure action in the matter of obtaining potato cars for the surplus crop above storage facilities here. Between 1500 and 2000 cars of spuds will be lost, Mr. Sweeley says, unless some relief is provided, in that section from Duhi eastward, on the Ashton branch and the North Side. This represents approximately the amount of spuds over and above those which can be cared for in storage.

Every effort is being made by the commission to bring home to the car service department the importance of cars for spud equipment. The Idaho commission has a number of men in the field in an effort to expedite the work, under direction of Mr. Sweeley. While the total number of cars for shipments of all kinds is inadequate it is hoped that some method may be worked out whereby those sections where the need is greatest may be taken care of and the loss of spuds and other sections postponed until some future time.

## COMMISSION APPROVES MURTAUGH WATER PLAN

The county board of commissioners, seated yesterday to hear final reports on the petition of Murtaugh residents for the creating of a 40,000 irrigation district in the Murtaugh section, gave approval to the plan. The petition was presented some weeks ago by T. T. Rutledge and others and has been the source of considerable contention at various hearings. The vote on the petition was unanimous. Today Attorney J. W. Porter, who has been retained by the petitioners, and other representatives of those interested, were in session with the commissioners for discussions of the points in conclusion of the hearing.

## STIRRING ADDRESSES HEARD AT INSTITUTE

Noted Educators and Specialists Occupy Platform Before Teachers

The lecturers appearing before the institute yesterday had today have demonstrated their ability in a very striking way. As these are the chief of the meeting they are proving of great help in making the institute a success. Of the lectures delivered yesterday the one by Dr. Edward Haim, dean of the college of letters and science of the University of Idaho on "The World After the War," was especially interesting and occasioned a great deal of favorable comment. "The Unstable Child and Society," also given yesterday morning by Dr. Ramond A. Schwegler, made a deep impression and left a feeling with the hearers that the speaker knew his subject well and had gone deeply into the subject before venturing an opinion upon it.

Of the evening lectures the one by Dr. Hulme on "Italy and the Italians" gave a new insight on the future setting in Italy at the present time. Dr. Hulme is a pleasing lecturer and improves his hearers with his knowledge of the subjects upon which he speaks. During the lecture hour this morning talks were given by Prof. Melvin B. Lewis, director of vocational education for Idaho on "Progress of Vocational Education in Idaho." The speaker clearly outlined what has been done in the state in this important matter in an interesting talk. In "A Look Forward" State Superintendent Ethel E. Sheffield gave an interesting lecture on the future of education in Idaho and Mr. Hulme gave a talk on "Impediments to Social Progress." The departmental lecture hours were taken up with lectures by Dr. William H. Crothers of the Kansas State Teachers' college, Dr. Virgil E. Dickson of the Oakland, California, city schools, Miss Grace M. Poorbaugh of the Ohio State Normal school, and Dr. J. F. Messenger of the University of Idaho. At the lecture hour this noon a talk by Dr. Hulme on "The Forces of Social Progress and one by Dr. Schwegler on "The Physical Facts of Adolescence" occupied attention.

## Colder Weather on Way Hither, Says Executive

THERE has been no definite indication of a serious upturn of temperatures for some days, and the weatherman is quite definitely disinclined to check any movement looking toward an upturn.

True it is that last night was a brace of degrees warmer than the night prior, but at that it was nothing to fear, or even brag about. Only 25 above zero. High during the day was 58, and an official promise is pledged that colder weather is on the way. "Fair and colder" is the prognostication for tonight and tomorrow.

## ALLEGED GO-BETWEEN FOR REVOLUTIONISTS IS HELD

LONDON, (AP)—Sensational charges were made in Bow street police court today against a mysterious man of undivided nationality who, the government attorney declared, has been acting between members of revolutionary circles in this country and the Russian revolutionists.

The government attorney said that among the letters found on the accused was one from Sylvia Pankhurst to Nikolai Lenin, premier of soviet Russia saying: "The situation is most acute; not ready for revolution yet."

The accused declined to answer questions put to him. He was remanded for a week.

## PACKERS FILE NEW PLAN

(Continued from Page One)

Many \$300,000 per annum. The said leases or operating agreements shall provide that there shall be no restraint of free and open competition in respect to the purchase and sale of livestock in the yards, or any of them, nor any combination in restraint of trade, and that no packer shall exercise directly or indirectly any control or influence over the operation of said yards, or any of them."

## GOOD SERVICE SHOE MARKET SAVES YOU MONEY FIFTY FOOTWEAR

The best place to find the newer things in snappy footwear, fancy hosiery and tailored spats. Our prices are always right here, and we make buying a pleasure for the most particular. VISIT THE SHOE MARKET FIRST.

## QUALITY FOOTWEAR TENNIS SPATS BETTER HOSIERY

The first consideration with us is quality. Next comes style and comfort. Our shoes always look a little different and fit better because they are well selected and well sold. We never misfit a foot.

This line of tailored spats is simply wonderful. They fit as neatly around the ankle and look like regular boot tops. All sizes, and the newest shades to select from. You'll like them.

Some people do not know that we handle good hosiery. YES, WE DO! And the lines handled are the very best — Olivers' sport and silk hosiery for women, Dr. Posner's certified hosiery for children, True Shape hosiery for men. None better.

## RESERVATIONS

Governor Cox, with boldness worthy  
of a better cause, is attempting to ob-  
tain from Senator Root a retraction of  
the statement that President Wilson  
and the Democratic candidate for the  
presidency are absolutely at one in re-  
spect to the league of nations issue.  
Governor Cox has succeeded not only in  
proving that Senator Root's estimate  
of the situation is the only correct one,  
but he has served a highly important  
and in drawing public attention to the  
subject of reservations.

This subject is especially important  
in view of the fact that there is nothing  
in any of Senator Harding's state-  
ments of policy or criticism of the Wil-  
son league of nations to substantiate  
the contention that as president he will  
take any different ground than that  
which he occupied as a member of the  
senate in voting for acceptance of the  
league of nations with the Lodge reser-  
vations.

In this colloquy also Governor Cox  
reveals for the first time his idea as  
to proper reservations, disclosing and  
establishing an attitude that varies in  
no particular from that of President  
Wilson.

It is illuminating to inquire into  
these reservations which have been es-  
poused first by President Wilson and  
now by Governor Cox as the Wilson  
her presumptive.

In his latest demand upon Senator  
Root, Governor Cox quotes as express-  
ing his own idea of a proper reservation,  
the Hitchcock reservation to Article X,  
the article which President Wilson  
had denominated the "heart of the  
covenant."

But first let us look into the text and  
purport of Article X itself. Here it is:

**THE MEMBERS OF THE  
LEAGUE UNDERTAKE TO RE-  
SPECT AND PRESERVE AS  
AGAINST EXTERNAL AGGRE-  
SSION THE TERRITORIAL IN-  
TEGRITY AND EXISTING PO-  
LITICAL INDEPENDENCE OF  
ALL MEMBERS OF THE  
LEAGUE.** In case of any such ag-  
gression, the council shall  
advise upon the means by which  
this obligation shall be fulfilled.

It will be observed that there are two  
sentences in this article. The first cre-  
ates a definite and unqualified obliga-  
tion which a great many Americans  
contend, requires from members of the  
league an unqualified pledge to wage  
war if it is necessary in its fulfill-  
ment. It is a pledge as binding as any  
treaty ever written and cannot be broken  
except in pursuance of the former  
kaiser's ill-starred example.

President Wilson has said it is pre-  
cisely this sort of a pledge that it is,  
backed and secured by an "absolutely  
compelling moral obligation."

The second sentence is supplementary  
to the first. It provides that the  
council shall advise upon the means by  
which this obligation shall be fulfilled.  
There is in no quarter a quarrel with

## SLOAN'S GOES RIGHT TO THE ACHING SPOT

You can just tell by its healthy,  
stimulating odor, that it is  
going to do you good

THOUSANDS of men and women,  
when the least little rheumatic  
"crick" assails them, have Sloan's  
Liniment handy to knock it out. Pop-  
ular over a third of a century ago—far  
more popular today.

That's because it is so wonderfully  
helpful in relieving external aches and  
pains—sprains, lumbago, backache,  
neuritis, overstrained muscles, stiff  
joints, weather exposure results. A  
little is all that is necessary, for it soon  
penetrates without rubbing, to the sore  
spot. No muss, no stain, no odor.  
All druggists—35c, 70c, \$1.40.

**Sloan's**  
**Liniment** (Pain-  
killer)

the provisions of this second sentence,  
and it is universally recognized that  
such advice would be binding upon the  
American congress.

It is the first and not the second  
sentence of Article X that creates a  
binding obligation upon the American  
congress and nation.

Now let us look into the Hitchcock  
reservation. Here it is as quoted by  
Governor Cox:

"That the advice mentioned in  
article ten of the league of nations  
which the council may give to mem-  
ber nations as to the employment  
of their naval and military forces  
is merely advice which each nation  
is free to accept or reject according  
to its conscience and judgment of  
its then existing judgment, and in  
the United States this advice can  
only be accepted by the act of con-  
gress at the time in being, con-  
gress alone under the constitution  
of the United States having the  
power to declare war."

It will be observed that there is not  
a word in this about liberty of the  
United States to judge of the circum-  
stances that might lead it into war in  
fulfillment of its pledge given in sub-  
scribing to the first sentence of article  
ten. In fact, the pledge is ignored en-  
tirely and this so-called reservation re-  
fers only to the second sentence con-  
cerning which there is no controversy.

It means nothing that is not already  
generally understood and conceded, and  
its value as a reservation or anything  
else, except, perhaps as political camou-  
flage, is precisely nothing.

The identity of purpose of Wilson  
and of Cox to secure unqualified Ameri-  
can ratification of the league of nations  
covenant is conclusively proven and es-  
tablished in the fact that both have  
endorsed the Hitchcock "reservation,"  
and both have expressed aversion and  
contempt for the Lodge reservation on  
this article, which is as follows:

"The United States assumes no  
obligation to preserve the territorial  
integrity of political independ-  
ence of all other countries by the  
employment of its military or naval  
forces, its resources, or any form of  
economic discrimination, or to inter-  
fere in any way in controversy  
between nations, including all  
controversies relating to territorial  
integrity or political indepen-  
dence, whether members of the  
league or not, under the provisions  
of Article X, or to employ the mil-  
itary or naval forces of the United  
States, under any article of the  
treaty for any purpose, unless in  
any particular case the congress,  
which under the Constitution has  
the sole power to declare war or  
authorize the employment of the  
military or naval forces of the United  
States, shall, in the exercise of  
full liberty of action, by act or  
joint resolution so provide."

There is no question about the pur-  
pose of the Lodge reservation. It not  
only asserts the sole power of the Amer-  
ican congress to declare war which is  
everywhere conceded, but it consti-  
tutes a real reservation in that it spe-  
cifically provides that the United  
States shall be the judge as between  
controversies and wars under the league  
of nations in which it will engage and  
those in which it will not embark.

The plain reading of the obligation of  
Article X makes it mandatory upon the  
United States, as a member of the  
league, without any reservation or  
qualification whatsoever, to take what  
ever action may be necessary to en-  
force the status quo in the world as es-  
tablished by the Versailles peace con-  
ference, including a guarantee to every  
member nation of American support in  
continued full possession of their

pendent territories and peoples under  
any and all circumstances.

That is what Wilson and Cox want.  
And they say they want it.

Their position in this matter has been  
made plain beyond peradventure of a  
doubt in their espousal of the Hitch-  
cock "reservations" and their unquali-  
fied rejection of the Lodge reserva-  
tions.

In this position, as Senator Root  
points out, Wilson and Cox stand as ad-  
vocates of the present day recrudescence  
of that organization which was  
described a hundred years ago by the  
despots of Russia, Austria and Prussia  
and supported by every monarchy of  
Europe to "safeguard the peace of  
the world" through maintenance of the  
status quo, and which for more than a  
quarter of a century stood as the most  
bitter opponent of the forces that  
make for progress and extension of the  
sphere of liberal ideas.

Endorsement of the attitude of Wil-  
son and Cox would mortgage the arm  
and paralyze the conscience of Ameri-  
ca. It would enlist the United States  
beyond definite possibility of recall, as  
a member of the modern outcropping  
of the Holy Alliance which acted as  
the policeman of Europe until it was  
vanquished by the movement of life  
in the bosom of the nations.

In contradistinction to this the atti-  
tude of Senator Harding is not less  
plain, and has been summarized most  
admirably by himself in these words:  
"It seems to me that there should  
remain a shadow of a doubt  
about my exact position as regards  
the proposed league of nations as  
drafted at Paris and submitted to  
the Senate and as regards the great  
world sentiment for better under-  
standing among nations to discour-  
age war and generally to advance  
civilization. Let me restate my po-  
sition as explicitly as my power of  
words permits."

"First—I am unalterably opposed  
to going into the league of nations  
as that particular proposition now  
stands. That proposal is contemptu-  
ous and potentially destructive  
of the American Constitution. It is  
not favored by the American people.

"Second—I am in favor of a world  
association—but if what you will,  
the name is of slight consequence  
—that will discourage or tend to  
vent war and that will encourage  
or tend to encourage a better un-  
derstanding among the nations of  
the earth. The old order of things  
is done with, not only in America  
but throughout the world, and the  
United States always quick with  
sympathy, always just and usually  
led by common sense, must play its  
part in this new order."

"Third—I believe that such an as-  
sociation can be formulated with-  
out wrecking the Constitution that  
remains the corner stone of our lib-  
erties and of our happiness; with-  
out seizing or flinching the sov-  
ereignty that is our pride and our in-  
spiration to fine living and good  
works."

"Fourth—I earnestly believe that  
the consequences, the ready sym-  
ptoms, the sense of justice and the  
plain common sense of the United  
States can be depended upon by the  
rest of the world, and that it would  
be stupid as well as unlawful to at-  
tempt to chain our sympathies, our  
sense of justice and our common  
sense, to tie these strong, fine, de-  
pendable American qualities to the  
possibly selfish ambitions and aims  
of foreign nations or groups of na-  
tions whose ideals are not the same  
as ours, never have been and never  
will be."

"Fifth—It is my purpose, when  
elected, to take the whole people  
into my confidence as regards these  
matters, to seek their advice, and  
more importantly, to act consonant-  
ly with their advice; and to this  
end it will be my pleasure as well

as my duty to call into conference  
with me the best minds, the clear-  
est minds that America affords. I  
thank God that the time has come  
when I can ask the advice of Ameri-  
can men, women, and especially the  
mothers of America."

The substance of these things has  
been said in some form or other in  
every address, and I say it all defi-  
nitely now, because I am not al-  
ways fully reported and I want  
America to understand my thought  
of co-operation as well as the abid-  
ing opposition to the league pro-  
posed.

## MURTAUGH

MURTAUGH — Rosetta McGrail,  
Twin Falls county Red Cross nurse,  
visited the Murtaugh school Friday  
morning and examined 27 children.  
Murtaugh schools are closed this  
week for teachers' institute, which is  
held in Twin Falls.

Mr. and Mrs. C. C. Clawson and baby  
spent Thursday at Twin Falls.

The pupils of the high school and  
seventh and eighth grades gave a very  
nice program at the auditorium Friday  
afternoon.

On account of the heavy snowstorm  
of Monday and Tuesday the farmers  
have been unable to harvest their  
mug beets and potatoes. Business men  
are helping to get the potatoes in.  
W. B. Hall, one of Murtaugh's old-  
est pioneers, when registering said,  
after casting a shadow on this election  
would be the sixteenth president he  
had voted for. The first one being  
Abraham Lincoln, and that he had  
lost only four votes.

Misses Mae and Pearl Hall spent  
Saturday at Twin Falls.  
Mrs. T. D. Nash entertained a num-  
ber of ladies Wednesday afternoon  
at a miscellaneous shower complimen-  
ting her sister, Mrs. C. H. Buchanan.  
The party was in the nature of a fare  
well as Mrs. Buchanan will leave the  
first of the month for her old home  
in Kansas. A musical program was  
given during the afternoon and deli-  
cious refreshments were served. The  
guest of honor received many pretty  
gifts. Those present were: Mesdames  
R. P. Jain, E. B. True, W. C. Hall,  
A. S. Hall, J. F. Steinhart, Francis John

## Public Market

Now that the canning season is  
about done, it is time to fill the  
root cellar for the winter, before  
the cold weather sets in. I can  
furnish you at the following prices:

Prunes—\$1.50 to \$2.50 per bush-  
el.  
Spuds—60c to \$1.25 per hun-  
dred.  
Carrots, turnips, onions and  
squash at \$2.00 per 100.  
Beets—\$3.00 per 100.  
Cabbage—\$2.50 per 100.  
Honey—20 to 25c per lb.  
Apples—\$1.00 to \$2.50 per box  
if you bring your own box.  
All mail orders for box goods  
add 35 cents for box. Orders sent  
by freight add 55 cents for first  
two packages and ten cents there-  
after for cartage. Send money to  
pay freight, as it must be pre-  
paid.

ED. VANCE

son, G. A. Dillon, J. J. Stark, G. L.  
Bettory and James Beck. The host-  
ess was assisted by Miss Mae Hall.  
Mrs. J. S. Rowley returned Thursday  
from Shelley, where she has been visit-  
ing relatives.

Henry Johnson entertained a few  
friends at a wild duck dinner Thurs-  
day evening. Those present were Bon-  
nie, Marjorie, Helen, Marshall, Vida  
Boley and Harry Sawyer.  
Raymond Beers left Sunday for Ba-  
ker City, Ore., where he will stay with  
his grandmother and attend school.  
Harry Beers and Charles King of  
Baker visited at the Matthews home  
last week.  
J. J. Olson, H. Appelbaum and E. D.

Thompson attended the republican rally  
at Twin Falls Friday evening.  
Mrs. Ina Smurr is visiting at the  
home of her parents, Mr. and Mrs.  
Charles L. Johnson.

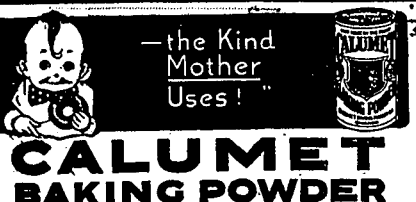

Grip usually starts just the same as  
a cold with a watery discharge from  
the nose. You are much more likely to  
contract the grip when you have a cold.  
For that reason when grip is prevalent  
you should go to bed as soon as you  
feel that you are taking cold and stay  
in bed until fully recovered, which  
should not be long if you take Chamber-  
lain's Cough Remedy. Three days in  
bed now is better than three weeks  
later on.

It's not a bit of trouble to  
have plenty of good things  
to eat on hand all the time,  
when you use Calumet Baking  
Powder.

Mix up a batch of biscuits  
—or the finest kind of cake—  
it's all the same. There is  
never but one result—the  
sweetest and most palatable  
of foods.

There is not as much worry  
over baking costs either.  
Because Calumet costs less—when  
you buy it—the price is moderate.

—the Kind  
Mother  
Uses!

**CALUMET  
BAKING POWDER**

It costs you less when you use  
it—because you don't use as  
much of it—it has more than  
the ordinary leavening strength.

You get more out of the flour,  
butter, eggs, shortening, etc., because  
there are no failures—no waste.  
Received highest awards  
World's Pure Food Exposition, Chi-  
cago, Paris Exposition, Paris, France.  
The largest selling brand in the world.  
Pound can of Calumet contains full  
16 oz. Some baking powders come in  
12 oz. instead of 16 oz. cans. Be sure  
you get a pound when you want it.

Calumet  
Doughnut  
Recipe  
4 cups of pastry  
flour, 3 level tea-  
spoons Calumet  
Baking Powder,  
1/2 teaspoon of  
salt, 1 cup of  
sugar, 2 eggs,  
beaten together,  
2 tablespoons of  
melted butter,  
1 cup of milk.  
Then mix in the  
regular way.

**We Have Houses  
FOR SALE**  
**Ostrander Lumber Company**

## DEAR OLD PETE:

Just wound up the one swellest day of  
my life! Since early this morning, when I  
got an invitation to visit R. J. Reynolds  
Tobacco Co. factories, I've been in the  
midst of millions of Camel cigarettes.

Man—the happiest idea you or I ever  
had as to the size of this Reynolds enter-  
prise, or the number of Camels manufac-  
tured daily, is simply piker-stuff! Wipe  
off the slate and start fresh! Why—Pete,  
it seemed to me like a couple of those cig-  
arette-making machines could keep half the  
nation smoking Camels steadily—BUT—  
honest to goodness, there are hundreds of  
these machines bating out Camels at the  
rate of 27,000 an hour—EACH!

Pete, you wouldn't have to consult a guide  
book to know you were in the Camel fac-  
tories! The atmosphere is charged with  
that wonderful aroma you get when you  
open up a deck of Camels! And, you know,  
old elephant—you've had a trunk full!

As the Camels dropped into the contain-  
ers I figured the delight each one would  
supply! And, how Camels mellow, mild  
body would hit the right spot and how  
Camels refreshing flavor would cheer up  
some smoker's jaded appetite! And, each  
Camel free from any unpleasant cigarette  
aftertaste or unpleasant cigarette odor!  
And—

Pete—I'll have to lay off and light an-  
other Camel! Write you some more soon.

Yours joyously

Shorty.  
**Camel**  
**CIGARETTES**

## NOTICE

To All Property Owners, City of  
Twin Falls, Idaho.

We earnestly urge all taxpayers who have not reg-  
istered for City Bond Election to be held November 9,  
1920, to register and be prepared to vote, as unless the  
bond election carries the city will have to pay paving con-  
tractors with a warrant, the total amount of which will be  
due in one year from date, whereas, if the bond election  
carries bonds will be issued running from ten to twenty  
years or an average life of fifteen years. In other words,  
the bonds will be retired out of taxes at the rate of one-  
tenth each year.

You must register specially for this elec-  
tion at the office of the city clerk, and be-  
fore November 9th.

CITY OF TWIN FALLS

By W. H. ELDRIDGE, Mayor.  
Attested: W. A. MINNICK, City Clerk.

# MORMON TEMPLE LIKE ACROPOLIS

Interesting Architectural Scheme is Adopted for the Lethbridge Pile

LETHBRIDGE, Alta. (AP)—Set upon a hill, the highest point in the town of Carleton in the extreme southwest of Alberta, stands the Acropolis of ancient Athens, the first such structure to be erected on British soil—a Mormon temple.

Six years ago last August the first sod was turned. Year by year the temple, which will like place in May of June of next year. Interior decoration, which has already made the temple famous throughout the length and breadth of the continent, is still progressing and it will not be before the final touches are made.

Once the temple is completed, dedicated, and turned over to the corps of temple workers for the special rites and ceremonies for which it was constructed, it will be sacred ground. No member will be allowed to set foot within its portals, and only members of the church who carry a certificate from their bishop showing themselves to be in good standing in every particular, will be allowed to take part in the ceremonies within its walls.

Surrounding the temple and lifting it up, is a great square within a retaining wall 235 feet square. Within are being developed beautiful artificial gardens in the center of which the temple stands, rising. Its highest point to 110 feet in the air. The structure is built of Nelson granite building eight dollars in gold to the ton. On the interior of the temple, the walls are hung with rugs with each other to lead a tone of quiet magnificence. Throughout all the rooms special woods are used in decorating. There is African and American walnut, redwood from South America, ebony and rosewood, while in every room are splendor of inlaid work which took months of time on the part of several cabinet makers to complete.

The Latter Day Saints have built eight temples, including the one at Carleton and one at Lethbridge, Idaho. The ninth will be built at Mesa, Arizona.

The greater part of the money for building the Carleton temple was furnished by the central council of which President Heber J. Grant is head. This money came from Mormons in every part of the continent. However, many thousands of dollars were contributed by members of the church in Canada, while much of the money expended on the temple was contributed by members, without pay.

# GUARDS HEALTH OF YOUNGSTERS

New York Teachers Undertake to Detect Physical Defects in Pupils

NEW YORK, (AP)—New York teachers will examine every pupil in New York November 9 to determine their physical fitness. The department of health, under the direction of Dr. William H. Taft, is making a survey of the teachers in the city, expecting them to more quickly detect physical defects and report them promptly to the school physician.

In 21 years of a prominent health doctor or nurse has visited each public and parochial school in New York daily. The teachers report to them any child exhibiting signs of illness. Nurses examine all pupils monthly for contagious eye and skin diseases and pronounced physical shortcomings. Those having symptoms of contagious diseases are immediately sent home.

In this way contagious diseases have been held under control here. This was shown in the influenza epidemics which were checked in the schools so forcibly that attendance was proportionately as great as during the same period in other years, and the sickness and death rate was lower in the five to 15-year-old group than for any other period of life.

The health department expects to make vigorous search for unhealthy pupils in the future. Most of the men rejected for war service, it has been noted, had defects which could easily have been prevented or corrected during childhood.

# STATE OF EXCITEMENT PREVAILS IN IRELAND

CORK, (AP)—A state of excitement, which is difficult for Americans and Englishmen to appreciate unless experienced, prevails in Cork and throughout Ireland.

The following can be given as an illustration: As the Associated Press correspondent was passing the general postoffice the other day a motor truck filled with soldiers and police, with rifles at ready, dashed in the main entrance. Several of them descended and entered the postoffice, one policeman holding a revolver, posting himself in the doorway.

This was nothing more than the posting of military mail, the elaborate precautions taken being due to a daring exploit recently when the government mail bag was snatched from a soldier as he was leaving the postoffice. The bag was not recovered.

# MINORS TO MEET

CHICAGO, (AP)—President Al Pearce of the Western League yesterday called a meeting of the club owners for November 8 at Kansas City, the day before the national convention of minor league club owners. The meeting will be held for "general discussion of the present baseball situation."

# Today's Sporting News

## BEE TEAM MEN FAIL TO REPORT AT QUIZ BOARD

Mulligan, Rumlur and Dale Not on Hand when Probers Call for Them

LOS ANGELES, (AP)—Six witnesses were heard here yesterday by the Los Angeles county grand jury in its investigation of alleged corruption in Pacific Coast baseball league games in the 1919 season.

They were "Shino" Scott, colored trainer of the Vernon club; Art Fromme, Vernon pitcher; Pete Schneider, Vernon outfielder; Forbes Alcock, Los Angeles pitcher; Victor H. Lacey, a Los Angeles merchant, and Matthew Gallagher, baseball writer on a Los Angeles newspaper.

William Rumlur, E. J. Mulligan and John Dale, members of the Salt Lake club, whose presence was desired here today, did not appear. Frank W. Stafford, deputy district attorney, who is directing the inquiry, said he hoped they would report Wednesday when the grand jury will meet again.

## Brief Bits of Sport

Twin Falls sport fans are to have wrestling thrust upon them.

A match will be staged at the LaVerne theater on election night.

Looks like taking advantage of the crowd, doesn't it?

The baseball smudge is still in the nostrils of sports all over the country, and it is not probable that very ardent enthusiasm will prevail over wrestling, with all of its unsavory past in front of the fans.

However, perhaps the time is due for even professional wrestlers to give play a disposition to deal honestly with the public.

One never can tell.

Negotiations are still being conducted to bring together here some good boxers on Armistide day.

Tom Andrews, Milwaukee fight agent, says there is so much "wire pulling" in Gotham boxing circles that he is not sure of anything.

## VANDERLIP ANNOUNCES NEW DEAL WITH SOVIET

Western American Financier Reports Acquisition of Lease in Northeast Siberia

LONDON, (AP)—Washington D. Vanderlip, 61, California, who recently visited Russia has sent a telegram from Copenhagen saying he has concluded an extensive arrangement with the Russian soviet authorities by which an American son of western American financiers acquires a 60-year lease of a vast tract in northeastern Siberia, with exclusive rights to develop coal, oil and fisheries. He stated that his associates are the heads of leading financial institutions west of the Rockies.

Mr. Vanderlip's telegram describes the tract thus acquired as "all northern Siberia east of the one hundred and sixtieth meridian, including the peninsula of Kamchatka, an area of some 400,000 square miles."

He says that the tract is to be taken over and active operation begun in the spring of next year.

He adds, concerning his recent visit to Moscow:

"I am highly amused by stories contained in recent foreign papers about the rebellions in Russia. Moscow is as safe as any city in the world. Reports of rebellions and street fighting are absolutely false, and are, I believe, foreign propaganda designed to prevent legitimate American business activity in this great Russian market. I have confidence in their power to carry out their part of any agreement we may enter into."

the game is again on the feather edge and in peril of ruin.

Wire pulling has done boxing more harm than all the Johnson-Willard, Willard-Dempsey or LeMay-Carpenter fiascos ever pulled off.

Bumof has it that Dempsey and Carpenter have been matched to fight some place in the United States this fall of these days.

Perhaps the promoters have taken this early occasion to contract the pair in the hope that the disgust of the country with the Lovinsky-Carpenter affair will wear away.

Joe Geeson, once a member of the Salt Lake Bees, is getting a bunch of regular prominence through this baseball quiz.

Geeson appears to be in possession of more facts concerning baseball bribery than is good for him.

Members of the Vernon baseball club of the Coast league, were grilled by bribery inquirers yesterday. What information was gained is being held a secret by the questioning board.

Bill Rumlur, Eddie Mulligan and John Dale, all 1919 members of the Salt Lake Bees, who have been mentioned in connection with the bribery charges, failed to show up for questioning.

Tomorrow the Twin Falls Bruins and the Burley high eleven will battle on Lincoln field for grid honors of south Idaho.

On form and showing thus far made this season Evans' busters are favored in the betting, if any wagers are being made. Anyhow they are favored by the home sports and school people.

Miller Huggins, master of the Yankees, is surprised at the folks, and denies he has resigned as manager of the New York Americans.

The owners of the club are said to be at variance on a number of questions concerning the club, and it is intimated that Huggins is one of the prime points at issue.

The kerf between the magnates is said to have proceeded so far that a hint is out that one may sell to the other, or both may sell to somebody else.

# AN OLD RECIPE TO DARKEN HAIR

Sage Tea and Sulphur Turns Gray, Faded Hair Dark and Glossy

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair, which, faded, stricken or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Nyott's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger—adv.

Improve Your Digestion. If you have weak digestion eat sparingly of meats, let at least five hours elapse between meals, eat nothing but warm meals. Drink an abundance of water. Take one of Chamberlain's Tablets immediately after supper. Do this and you will improve your digestion—adv.

# INTEREST RUNS HIGH FOR G. O. P.

Congressman Smith Finds Unbounded Enthusiasm at Republican Meetings

Congressman Addison T. Smith and Attorney General Roy L. Black, who have been speaking for the republican national and state ticket in the eastern and southern part of the state during the last two weeks held a well attended and enthusiastic meeting at Pocatello last night. They will speak at Pocatello this evening, and then go to Ada county for the next two days. Attorney General Black will go to his home at Coeur d'Alene Friday to hold final meetings and vote, while Congressman Smith will speak at American Falls on Monday evening before election.

Other Elections.

"Although this is the eighth time that Idaho has in a presidential election since the state was admitted 30 years ago, on only two occasions was the electoral vote cast for the republican candidate for the presidency. In 1892 the electoral vote was cast for James B. Weaver, the populist candidate. In 1904 Roosevelt carried the state by nearly 20,000 majority and in 1908 Judge Taft received a majority. In the other presidential years the democrats were successful. I predict that Senator Harding will carry the state by 20,000 majority, and that former Governor Gooding will have a majority of at least 10,000, and Governor Davis 15,000.

"The sentiment against the league of nations is almost unanimous apparently, as we have found in every town we are visiting. The people seem to be convinced that there would be more danger of our being drawn into war if we join the league than if we should refuse to go into a partnership with more than a score of nations, most of which are bankrupt, and but few of which speak our language or appreciate our needs and needs in dealing with other nations.

National Sovereignty at Stake.

"More than a dozen wars are now raging in Europe, not including the insurrections in Ireland and Russia where blood is being freely spilled. If we were members of the league we would be required to furnish our share of men and treasure to carry out the wish of the league council. Why should this great nation surrender its sovereignty and independence to become embroiled in the controversies of the insolvent nations of Europe, and make it possible for our being drawn into an armed conflict without the direct mandate from congress as provided by the constitution. If we had entered the league our boys might now be crossing the Atlantic to enter another bloody war.

"The deplorable situation confronting the stock industry in the Rocky Mountain states calls for the quickest and most effective remedy that can be applied if the industry is not to be destroyed. Our democratic friends offer no solution and the remedy suggested by the non-partisans is entirely expedient. Whenever the emergency policy of protecting our home market by a reasonable high tariff against foreign importations the country has been prosperous, and only the election of a republican president and republican senate and house of representatives and the enactment of a protective tariff law can relief be expected, and prospective recovery for our home market is to be effected with foreign wheat, cotton, butter, wheat, potatoes, beans and other farm products, the agricultural interests of the country must languish, and if the farmer does prosper, he cannot erect new buildings, buy new machinery, automobiles, and other manufactured goods and consequently the wage earner is thrown out of employment and the country is in a state of depression in all lines of business. Competition among the wage earners for employment will be immediately followed and wages will be reduced.

Protective Tariff Needed.

The only way an unfortunate condition can be avoided is to place a protective tariff law on our statute books. Even if we elect Senator Harding and a republican house this could not be accomplished without the aid of republican senate. The small republican majority in the senate and the danger of losing two or three republican senators makes it necessary to elect republican senators to take the place of democratic senators. Idaho may determine the complexion of the senate, hence the importance of every one who believes in a protective tariff, should vote and vote for the election of the republican candidate for the senate former Governor Gooding.

I have been much pleased to learn from many of the railroad employes that my record on labor legislation during my four terms in congress is regarded with favor, inasmuch as the report sent out by the American Federation of Labor shows that out of 40 bills supported by organized labor I voted for 37 of them. Few members of congress have a better record. Having readily understood his viewpoint and recognize his rights, as well as the rights of the employer. In every vote I have cast affecting labor I have endeavored to keep constantly in mind the best interests of the employee and the employer and the public.

FIRST MORTGAGE INVESTMENT Arthur L. Gies, adv.

## BERG QUILTS POSITION AS CITY'S ENGINEER

Will Engage in Private Business—Spencer Street Commissioner Now

To engage in private engineering business E. V. Berg has resigned as municipal engineer. The resignation was submitted to the municipal board at last night's weekly meeting and accepted. Mr. Berg will be released as early as is considered compatible with the best interests of the city.

Mr. Berg has served the city of Twin Falls as engineer for more than two years, being appointed under the F. E. Becken administration, to succeed J. A. Hylton. Mr. Berg was in charge of the city's water works and sewerage system. With the office of engineer Mr. Berg has also served as street commissioner. Both positions have been relinquished. It is possible that W. L. Haeffeltz, special engineer in charge of paving, may be prevailed upon to assume charge of the engineering features connected with the city's sidewalk and other contracts to the termination of these works.

Succeeding Mr. Berg in the position of street commissioner the council last night appointed F. C. Spencer who enters upon the duties of the position immediately. Mr. Spencer is said to be thoroughly acquainted with the requirements, having at one time held the position, and is believed to be fully qualified to carry out all street maintenance programs.

Mr. Berg expects to open and carry on an engineering office in Twin Falls for the conduct of private business.

## SPEAKERS ARE GIVEN ROUSING RECEPTION

Pleasant View People Turn Out in Force to Greet G. O. P. Talkers

With Shad L. Hodgkin, chairman of the republican central committee, and H. J. Robinson, speakers, an interesting and enthusiastic political meeting was held last night at Pleasant View. There was a gratifying crowd present and the remarks of the speakers were received with constant bursts of applause.

Tonight Congressman Addison T. Smith and Roy L. Black, state's attorney, were the main speakers. Mr. Smith held a big meeting in Pocatello, C. A. Robinson and Shad L. Hodgkin will be speakers at a similar meeting in Murtaugh.

REGISTRATION PLACE.

Mr. George Rice, registrar for Twin Falls precinct No. 3, today announced, through republican county headquarters, that he will record registrations on Saturday night at the Burkholder Furniture store, Shoshone street, west, from 9 o'clock a. m. until the closing hour at night. This precinct includes the west quarter of Twin Falls as well as the northeast and southwest corners and on the southeast by Shoshone street.

WANTS CAR RESTORED.

D. C. Watson is made the defendant in a replevin action started in the district court by J. N. Jensen, who seeks to recover possession of a Ford coupe. Plaintiff, who acted as agent for the Ford company in the sale of the machine, claims there is a substantial balance due on the contract.

FUNERALS.

Funeral services were held at two o'clock this afternoon in Grossman's chapel by the Rev. Ben Knell of the Presbyterian church at Hazelton, and the Royal Neighbors, of the same place, for Mr. E. B. Price, who died in a local hospital a week ago. The body is to be sent to Ashton, Idaho, for burial. Dr. B. A. Price, husband of deceased, arrived last night from Mexico.

ANNOUNCEMENT.

Harry C. Allen has opened a studio over the Model Shoe store for evening instruction on the mandolin, mandola, mandocello, banjo, tenor banjo and guitar. Expectation given for the formation of an orchestra will be formed, as soon as pupils are sufficiently advanced. Agent for the Gibson and Vega instruments. Call 908W for appointments.—adv.

For Rent—Cellar for potato storage; reasonable rent. Inquire E. B. Larned, 919J.—adv.

The best equipped cleaning plant in Southern Idaho is at 312 Shoshone Street E.

GEM—Norma Talmadge in "Yes or No"; also two part comedy feature.

RED CROSS DRIVE.

Arrangements have been made for starting the annual Red Cross drive on November 2. The campaign will be known as the Fourth Roll Call. Memberships will cost one dollar. Mrs. H. W. Clouhch is chairman in charge.

DIGEST OF AUDITOR'S REPORT

The Twin Falls Board of Cooperative Association Period May 16th, 1920, to September 30th, 1920

Auditor: John Wolfenden, Twin Falls, Idaho.

The complete report is on file at the office of the Association and may be inspected by interested stockholders.

Progress of Business.

The stockholders on the whole have reason to be satisfied with the result of the first four and one-half months of business of the Association.

While without a doubt the profits shown did not live up to the expectations of a good many, yet in all fairness it must be remembered that had the Association broken even this period under audit, no legitimate reason would even then appear for adverse criticism.

In the first place, the Association commenced its labors in troublesome times, what with the financial stringency, high cost of labor and of merchandise, etc., and indeed it is doubtful if a more opportune time, comparatively speaking, could have been selected for the opening up of the store and the experiment in co-operation.

Again, heavy expenses have been incurred during this period that will very probably not occur again during the remaining months to complete the first year of business, and these expenses were unavoidable and have been kept within bounds.

Stockholders will be gratified to learn that nothing has been bought that was not discounted. The small amount owing on accounts payable proves this, and this indebtedness was liquidated in the first days of October. The Association's credit ranks high with wholesale houses.

Many will question the small amount shown as profit on the grocery department in view of the heavy sales, \$70,227.54, and large purchases, \$72,508.46. Net profit on the grocery department is \$2,509.80. Of the purchase figures over \$17,000.00 represents the purchase of butter and eggs from co-operators, on which not one penny was made in profit.

A considerable loss in fact was sustained in handling same, a loss that very grocery store in town has to contend with. As these commodities are sold at cost, the more standing all are reduced expenses are less through liquidation and cutting of prices, a very conservative estimate of the loss incurred in butter and eggs would be \$2,000.00. This fact should be strongly pointed out to the members of the Association, who in turn should endeavor

PROFIT AND LOSS STATEMENT

May 15, 1920, to September 30, 1920

MAIN AVENUE STORE

Purchases, freight and drayage \$78,508.46

NOTES ON BALANCE SHEET

Bills Payable—\$11,517.68 of this amount represents money loaned by banks to purchase surplus. This has since been considerably reduced. As no stocks are delivered until customers' notes are lifted this amount is secured.

The balance on this account represents notes given for the purchase of your real estate on contract.

CAPITAL STOCK—No stock has been listed unless paid for. In view of the fact that notes given for the purchase of stock have not been taken in to the books, same have not been listed as assets. The Association holds notes for 272 shares of stock.

Respectfully Submitted,

(Signed) JOHN WOLFENDEN, Accountant and Industrial Engineer.

## BORAH IS SCHEDULED FOR SPEECHES IN CONNECTICUT

NEW YORK, (AP)—Senator William E. Borah of Idaho, after a conference here today with the director of the eastern division of the republican national speakers bureau, will leave for Meriden, Conn., where he speaks tonight. Other speaking dates for Senator Borah include New Britain, Conn., tomorrow night, Bridgeport, Conn., Thursday night, and Cumberland, Md., Friday night.

A GOOD PLACE TO TRADE

Timely Suggestions

One merchant has said that successful merchandising is to have the right kind of merchandise at the right time, at the price the public wants to pay for it. Here are three suggestions of quality merchandise at the right price.

Waists

Waists galore, every one of them has arrived within the past 60 days. All were bought on a low silk market. There are Georgettes, Tricolettes, Crepe de Chine, Pongee, Taffetas. All the very latest models. See our window.

\$5.95 to \$10.00

Silk Underwear

Just think of pure silk underwear at a price almost as cheap as muslin. Will wear even better. This merchandise was recently bought on a low silk market. Pure silk, trimmed with lace and ribbon. Downs and combinations.

\$2.95, \$3.95 and \$5.95

Plaited Skirts

A good assortment of plaited skirts in the plaids or navy serges. One cannot buy the material and have the skirts made for a little. Nothing quite so stylish and serviceable as one of these reasonable plaited skirts.
