RELEASES GRIP ON MINES TIED UP BY STRIKES

Coshulla Governor Turns Back Properties to Owners with Guarantee of Protection Against Disorders

MEXICO CITY, (AP)—Mining properties in the state of Coshulla, which for several weeks have been under government protection as a measure of safety during the strike of coal miners here, were returned to their owners yesterday by a decree issued by Governor Luis Gutierrez, Coshulla. Workmen who desired to return to their tasks were by decree assured of ample protection, and the owners received guarantees against disorders.

Gives Wage Scale Basis
The decree gave the basis of the wage scale which returned to workmen and owners mutual stipulation was made that if within three days the mines were not in operation and producing enough coal to revive paralyzed dependent industries, the government would again take over control of the mines.

Reports from Coshulla have asserted that 90 per cent of the strikers have returned to work. General P. Elias Calles, minister of war, in acknowledging receipt of information relative to the decree issued by the governor, instructed General Juan Rodriguez, federal officer in that state, to support Governor Gutierrez. The general was instructed to show mutual respect to owners and workers and to "give guarantees of life and property to all foreigners."

Miners Stop Train
Directors of the National railways were informed yesterday miners in the Rosita district had stopped a passenger train as a protest against the long-deferred settlement of grievances.

HUMANITARIAN POLICIES URGED BY LABOR LEADER

A. F. of L. Official Bespeaks Consideration at Hands of Mine Congress

DENVER, Colo., (AP)—Adoption of "broad and humanitarian policies" by the American Mining Congress in dealing with labor was urged today in an address by James Lord, president of the mining federation of the American Federation of Labor, read before the American Mining Congress.

"The worker," Mr. Lord declared, "will not be satisfied to be a mere cog in the machinery, but must be treated as a human being." "Neither the workers nor the operators alone can satisfactorily adjust joint questions. They must be worked out in voluntary joint conference. "The conditions of the world are changing. Readjustment of the world's economic affairs will occur in the same proportion that industrial peace is maintained and the competition between nations and operators can be adjusted. All problems regarding wages, hours, conditions of work, competition and legislative matters can properly come before a joint conference for discussion.

MOB ATTACKS NOGALES JAIL, CURSING MAYOR

Festive Junes High in Mexican Border Town Against Official Charged with Convincing with American

NOGALES, Ariz., (AP)—A mob of about 1000, said to be mostly laborers, attacked the city jail in Nogales, Sonora, last night, hurled stones, cursed Mayor A. C. Villanor, who was a prisoner in the jail, and threatened to hang him.

The crowd did not break into the jail, however. Governor Flavio A. Borquez, in a report here from Hermosillo, "I state explicitly by special train to endeavor to control the situation arising from the arrest of Mayor Villanor on a charge of conniving with a person, Ariz. policeman to deliver Mexican soldiers to the American officer for trial in Tucson on a murder charge.

Mexican Government Rejects All Three Petitions to Construct Oil Grazier Across Isthmus

Over 500 Russian Radicals Remain to be Deported

Refusal of Scandinavian Countries to Grant Thoroughfare Delays Expulsion

WASHINGTON, (AP)—More than 500 Russian radicals remain to be deported, it was said today at the department of labor. All except forty of these are at Liberty on both, but the others are held in confinement at Deer Island, Boston, and Ellis Island, New York, as they are regarded as too dangerous to be allowed at liberty even temporarily.

Delay in deporting Russians was explained at the department to be due to a refusal of the Scandinavian countries to grant the thoroughfare and to the closing of the frontier between Finland and Russia.

By an arrangement with the Canadian immigration officials, it was stated, Russia will be returned voluntarily at their own expense have been sent home by way of Canada and Germany.

STEEL CONCERN PRICES STAND

Announces Decision to Recommend Retention of Present Basis

NEW YORK, (AP)—The United States Steel corporation announced today its decision to recommend to presidents of subsidiary companies that the "present basis" be maintained in the steel industry continue in force unless and until it becomes necessary and proper to make change to meet altered conditions.

Would Stabilize Business
This action was taken, according to a statement issued by Chairman Elbert H. Gary, because of the importance of stabilizing business conditions at this time. The statement follows: "Our subsidiary companies have consistently and uniformly maintained the base selling prices of all iron and steel commodities, which were mutually fixed by representatives of iron and steel interests of the United States and representatives of the government on March 21, 1919.

"Since that time production costs of all manufacturers of iron and steel, including an advancement of wage rates aggregating \$1,000,000 per year to the steel corporation and larger freight rates, have materially increased. Under usual circumstances we would be justified in making additions to the average base prices.

Recognizes Obligation
"However, after deliberate and careful consideration, we have decided to recommend to presidents of our subsidiary companies that present base selling prices of all commodities continue in force unless and until it becomes necessary and proper to make changes to meet altered conditions.

"We think stability in business is of highest importance and that every man to the extent of his opportunity and ability, and even at some sacrifice, is obligated to assist in stabilizing and maintaining prices on a fair and sane level. The producer, consumer and workman will be benefited by this attitude."

World News Events

MADRID, (AP)—A bomb placed in a water conduit in a street here exploded last evening, injuring a child and doing great property damage. The outrage is attributed to a recrudescence of the recent terrorist campaign in Madrid.

SEATTLE, Wash., (AP)—Hundreds of Indians in the upper Copper river district of Alaska are facing starvation because of failure of the salmon fishing in their section. Paul Schwartz, recently returned from Alaska, told a commission in session here to investigate the demands of residents of Juneau and Cordova, Alaska, for restrictions on salmon fishing on the upper river.

ROME, (AP)—The municipal council of Fiume has advised D'Annunzio to give up agitation against the Rapallo treaty, according to the Epoca. A body of D'Annunzio's troops having occupied Mount Lubin and four villages which were being held by Italian regulars, General Cavaglia has sent an ultimatum to D'Annunzio, the paper adds. The post commander of the insurgents has not replied thus far.

MAINE WOODSMEN DROWN WHEN MOTOR BOAT BURNS

Party Becomes Panic Stricken and Many Jump Overboard when Efforts to Control Fire Fail

BANGOR, Me., (AP)—Sixteen woodsmen were drowned in Chiscook lake in the heart of the lumbering district, late yesterday afternoon when a motor boat took fire. The men were being taken across the lake from Chiscook dam to Cuxhaven. Efforts to bring the fire under control failed, and many jumped overboard, according to word brought here today.

IDAHO WEATHER: Tonight and Saturday rain.

QUEENMOTHER CARS THE FOLK TO KEEP ORDER

Olga Succeeds Admiral Coundouriotis as Regent of Greece on "Account of Absence of Her Son Constantine"

LONDON, (AP)—Admiral Coundouriotis resigned as Greek regent last night and was succeeded by Queen Mother Olga, says an Athens dispatch to the London Times. Immediately a message to the Hellenic people was issued by the new regent, announcing she had accepted the office in conformity with the constitution. "On account of the absence of my well beloved son, Constantine."

The people were called upon to maintain order and do nothing calculated to compromise international peace and prosperity.

General political amnesty has been proclaimed in Athens, and all political prisoners have been released. The city is said to be fairly quiet.

DEMONSTRATION FOR GOVERNMENT PREDICTED

ROME, (AP)—Princes Andrea and Christopher of Greece, brothers of former King Constantine, stated to the Associated Press Thursday that they would consider an act of condemnation of the foreign policy of former Premier Venizelos. Constantine never favored a policy against the interests of the empire. Reports stating he had studied the possibility of a coalition with the central empires were absolutely false.

FORETELLS ALLIED OPPORTUNITY TO REPEL OF CONSTANTINE

PARIS, (AP)—Allied nations probably will intervene to prevent the return of former King Constantine to the Greek throne, says Charles C. A. Jonard, former French high commissioner in Greece and at present extraordinary French ambassador at the Vatican. His views on the situation are set forth in an inkblot published today by the newspaper Eclair, and a similar opinion is voiced by Baron Denys Cochin, an eminent authority on Greek affairs.

"Constantine," says M. Jonard, "seems to me not only undesirable for the allies, but quite impossible. His return to the throne would mean that the greater Greece of Venizelos would be placed at the service of Germany. It is the right and duty of the protecting powers not to allow a Greece that is stronger than ever to become a vassal of Germany."

"It cannot be denied that Constantine acted as an autocrat, and the powers have a perfect right to oppose his return to the throne. The historical precedent may be found for this action, King Otto, the Bavarian monarch of Greece, attempted in 1862 to set up an absolute rule in that country. This resulted in Anglo-French intervention and the deposition of King Otto was required. The Bavarian dynasty was later replaced by one having its origin in Denmark."

WOULD NEGOTIATE OTHER JAPANESE CONTENTIONS

Asahi Shimbu Urges Necessity for Naval Understanding with America

TOKIO, (AP)—The suggestion that the Japanese-American negotiations in Washington be extended to cover all the subjects affecting the relations of Japan and the United States, was made in an article printed today by the Asahi Shimbu of Osaka. In particular it urges the necessity of a naval understanding which would eliminate needless naval competition.

The Asahi also advocates that a complete understanding be reached with China and proposes that the Washington government be invited to publish what it refers to as the Root-Kerensky agreement regarding the Siberian railroad and define the attitude of the United States to the acquisition of rights and interests in Siberia.

GERMANY'S ADMISSION INTO LEAGUE IS URGED BY BRITISH DELEGATE

George Nicoll Barnes Tells Assembly Co-operation of Former Enemy States Is Needed

BACKS ARGUMENT WITH REFERENCE TO PRESENT ECONOMIC INSTABILITY

GRAIN TUMBLES TO LOWER LEVEL

Downward Swings Cause Break of Ten Cents a Bushel in Wheat Price

CHICAGO, (AP)—Grain prices smashed heavily downward today all along the line, with hogs and provisions following suit. Corn led the way, not withstanding that it was already lower than at any time since 1915.

New Crop Factor.

Expected greatly exceeded pressure of offerings from the new crop of corn appeared to be a leading factor in explaining the heavy sentiment caused by unsettled financial and economic conditions. As a result, before the day was half over, wheat had fallen 7 1/2 cents to \$1.73 1/4 for December delivery and to \$1.64 1/4 for March, corn was off 2 to 6 7/8 cents December, and on down to 46 5/8 cents for May.

The severity of the new breaks in prices and the extent of the accompanying selling were such comment. It was pointed out in this connection that corn had now been cut from \$1.83 1/2 a bushel to less than 70 cents within five months, whereas it was only a few cents higher than wheat before a bushel of corn could command an even \$1.

Wheat Suffers Heavily.

Downward swings followed rapidly in the wheat market until December delivery touched \$1.71, a sheer descent of nearly 10 cents a bushel from yesterday's high. The wheat market was a minimum loss of about 4 cents. Export buying of one million bushels of wheat took place on the break, and helped to rally prices a little at the last, but wheat was closing nervous at \$1.72 to \$1.72 1/4.

WOULD NEGOTIATE OTHER JAPANESE CONTENTIONS

Asahi Shimbu Urges Necessity for Naval Understanding with America

TOKIO, (AP)—The suggestion that the Japanese-American negotiations in Washington be extended to cover all the subjects affecting the relations of Japan and the United States, was made in an article printed today by the Asahi Shimbu of Osaka. In particular it urges the necessity of a naval understanding which would eliminate needless naval competition.

The Asahi also advocates that a complete understanding be reached with China and proposes that the Washington government be invited to publish what it refers to as the Root-Kerensky agreement regarding the Siberian railroad and define the attitude of the United States to the acquisition of rights and interests in Siberia.

WOULD AID AMERICANS

Mr. Barnes dwelt especially on the necessity of lending assistance to the Armenians.

"They are," he declared, "hemmed in by hostile neighbors on one side and by industrial beings on the other." The labor chapter would become the most important part of the treaty of Versailles, Mr. Barnes predicted.

Industrial Peace First.

"There can be no permanent peace in the world," he said, "until there is industrial peace; and there can be no industrial peace until labor gets a better share of the product of its efforts."

SHIP BOARD IS CHARGED WITH EXTRAVAGANCE

Former Special Agents of the Treasury Department Give Testimony in Hearing Before Congressional Committee

NEW YORK, (AP)—Testimony of former special agents of the treasury department, virtually all of whom were withdrawn from investigation of United States shipping board purchases and accounts after a brief period of such work, marked the opening of today's hearing by the congressional committee investigating shipping board affairs here.

Collects Two Salaries.
Peter J. Sullivan, one of those former agents, who after about "a month on the job," was transferred to the desert hills of Nogales, Ariz., told of shipping board purchasing agent, David Waxmond, at New York, who while on the government payroll, continued to draw his salary from his former employer, the New York and Porto Rico Steamship company.

Pays High for Milk.
Martin D. Jewell, another former investigator, said he discovered overcharges in purchases of condensed milk in which a shipping board employee had received a commission of 24 1/2 per cent. The board paid \$10.85 for this purchase, including an overcharge of 42450. Jewell said.

TEXAN WOULD PREVENT JAPANESE LAND OWNING

Member of State Senate Says He Will Introduce Bill Modeled After California Legislation

AUSTIN, Texas, (AP)—Legislation designed to prevent Japanese from acquiring ownership of land in Texas will be introduced in the next session of the Texas legislature by Senator W. H. Bledsoe of Lubbock county, announced here today. The bill, he said, would be patterned after California legislation on the subject.

OHIO VILLAGE IN GRIP OF TYPHOID FEVER EPIDEMIC

Seven Hundred and Eighty Persons Affected, More than 10,000 People

SALEM, O., (AP)—Seven hundred and eighty persons were today suffering from typhoid fever in this little city of less than 10,000 people. Four emergency hospitals established within the last few weeks were filled with patients, and the situation, according to R. A. Lamont, chairman of the citizens relief committee, was said to be desperate.

COURT OF APPEALS REFUSES TO DELAY 'D' AND R. G. SALES

ST. PAUL, Minn., (AP)—Refusal to delay a petition for a writ of habeas corpus by the Colorado people of the Denver and Rio Grande railroad was announced in a decision by the circuit court of appeals here today. A petition of stockholders for the postponement was heard at Omaha last Monday.

FEWER MILLIONAIRES BUT LARGER NUMBER OF INCOME TAX PAYERS AND TAXABLE INCOME IS SHOWN

WASHINGTON, D. C., (AP)—Despite the loss of 74 members of the country's million-a-year income class, the tax payers in the United States increased in 1918 by 272,000, according to a comparison with 1917, according to the income statistics announced by the bureau of internal revenue. Income reported for 1918 amounted to \$15,000,000,000, as compared with \$12,700,000,000 in 1917, though 141 persons filed returns for incomes of one million dollars or over in 1917 and only 67 in 1918.

Personal returns filed during 1918 numbered 4,425,114, and the tax, both normal and surtax, amounted to \$1,127,721,835. The average tax for each individual was \$254.55. As compared with 1917, a growth of 95,834 was shown in the number of returns filed. The increase in the total tax was \$244,258,981.

MYSTERY CLEARS FROM \$3,500,000 POSTAL ROBBERY

Seven More Arrests, One Confession and Recovery of Large Amount of Money Satisfactory Factors in Development

COUNCIL BLIFFS, Ia. (AP)—Fred A. Poffenberger, father of Fred B. Poffenberger, was arrested this forenoon. He is not suspected of having any part in the robbery but was brought in to explain some things that are reported to have taken place at the Poffenberger home. The five negroes arrested early this morning were released after several hours investigation. It was found they had no part in the robbery and did not get possession of a sack of mail that had been dropped, as was suspected.

COUNCIL BLIFFS, Ia. (AP)—Seven more arrests, one confession, the recovery of a large amount of money all in ten dollar bills, and the discovery of an automobile which was used today in clearing up the mystery surrounding the \$3,500,000 mail car robbery in the local yards Saturday night. Caught in Council Bluffs, Iowa, were two of the men T. A. Daly and H. A. Reed, one white and the others are negroes. The money was recovered from the alien house of the Daly home following the confession of Reed. Reed rooms at the Daly home. The negroes arrested are members of the John Bell family, and are held in connection with one mail sack not yet recovered. Reed was arrested at 7:20 o'clock last night, following his implication in the case by Fred Poffenberger yesterday afternoon. After long grilling, he gave information which led to the arrest at 2:40 o'clock this morning of Daly.

The money which was recovered was in ten dollar bills, and officials this morning had not made public the total amount. The ten persons under arrest will be given a hearing at the United States Commissioner W. A. Byers tomorrow morning. They are now in the tower of the Federal building.

Automobile Located.

The automobile was found last night in a garage a few blocks from the scene of the robbery. The number on the machine had been tampered with. The automobile used in the robbery was driven alongside the Burlington fast mail car, the train was slowing down for a crossing, enabling the robbers to enter and leave the car quickly as only an ordinary crossing stop is made. Evidence goes to show that the car speedily carried the mail away from the spot with their plunder. The car discovered last night is believed to be the one used in the robbery.

Reed and Daly each are 45 years of age. Daly has been working at the Omaha Grain exchange, but Reed has been unemployed the last few weeks and officers said they believed he was the "brains" of the band. **Wife Protests Innocence.** Mrs. Daly insists that Reed was at the Daly home the night of the robbery. Developments seem to show that he was leader of the gang, with Poffenberger as his lieutenant, and that the latter with Orville Phillips was arrested yesterday to save his older brother, Merle Phillips, did the work. According to Mrs. Daly, who is the wife of the man under arrest, Poffenberger brought the money to their home early Sunday morning wrapped in packages as currency is handled at banks. She saw them handling the money in a bedroom, she said this morning.

"I asked them if that was the money taken at the robbery Saturday night, but they just laughed. I said I was going to have company during the afternoon, and I didn't want any officers coming in. Then they went out to the garage and hid the stuff in a sack. "I overheard them say that they had burned everything in the sacks but the currency. "That evening my husband moved the money from the garage to the chicken coop. **Poffenberger Takes Cash.** Next morning, Fred Poffenberger came to our home and took away about \$10,000 saying 'I'm going to get honest-goodness money. I'm afraid this stuff is marked.' "My husband knows nothing of the case. He and Mr. Reed were home the night of the robbery."

Reed was arrested at 7:20 o'clock last night, following his implication in the case by Fred Poffenberger yesterday afternoon. After long grilling, he gave information which led to the arrest at 2:40 o'clock this morning of Daly.

BROTHER OF ROBBERY SUSPECT ADMITS GUILT

Youth Confesses to Participation in Iowa Mail Train Hold-up

COUNCIL BLIFFS, Ia. (AP)—Orville Phillips, 17, younger brother of Merle Phillips, has surrendered to the government authorities and has confessed to have participated in the three and one-half million dollar robbery of fast mail train No. 8 on the Burlington railroad here Saturday night.

Orville's confession is a dramatic incident in the story of the crime and his surrender was made, he says, when he discovered that his brother Merle was perjuring himself in an effort to save him. Orville Phillips says that Merle had nothing whatever to do with actual robbery and in fact did all that he could to persuade the other boys from carrying out the robbery. Orville's confession resulted in the finding of five more of the stolen registered mail sacks but all were empty. Orville says the contents were burned, and that a third man whose name he refused to tell, got the other four missing sacks.

Four sacks were found under the ice in a lake, and one was found in an outhouse in a local park.

HARDING TELLS MINE CONGRESS AMERICA SOUND

President-elect's Letter of Optimism and Confidence is Read to Delegates at Convention in Denver

DENVER, Colo. (AP)—Despite a "trying period in which national policy and aspirations have been misinterpreted and misjudged," the United States is "sound and secure," and the world's mainstay and hope, President-elect Warren G. Harding declared to Bulkeley Wells of Denver, president of the American Mining congress, in a letter which was read last night at the annual convention of the congress.

He also declared that he was anxious to take counsel with such men as would attend the congress in outlining the policies of his administration. Senator Harding's letter follows: "Hon. Bulkeley Wells, "President, American Mining Congress, Denver, Colo., "My dear Mr. Wells: "I have to thank you for your invitation to the twenty-third annual convention of the American Mining congress and to express my regrets that

it will be impossible for me to accept. My regrets are the more keen because your meeting will bring together a body of men with which I am anxious to take counsel in outlining the policies of the next administration. I am aware of the difficulties that confront the mining industry of the country and would be glad of the opportunity to familiarize myself with some of the details.

Depression Momentary. "It is my hope and belief that we will presently be brought to realize that the tendency to reaction and industrial depression is only momentary. Not only is our own country sound and secure, but it is the world's mainstay and hope. We have been misinterpreted and misjudged. We have now had a convincing demonstration of the real attitude of the American people, and it will not fall to reassure both our own people and the rest of the world, which so greatly needs our steadfast support and aid. A mighty effort will be required of us to meet the demands of a recovering world will impose. In no direction will these demands be more pressing than in supplying these necessities of life and reconstructions that must come from the richness of American mines. With wisdom and deliberation such as we hope to secure by dint of existing the aid of such expert authorities, as your own organization represents, I believe we shall place our country and its industry once more on the high road of prosperity and success. To that end you may be assured that every energy and effort of the new administration will be directed.

Great Wish to Serve. "Please be good enough to convey to the congress and all its members the assurance of my pleasure in receiving your invitation, and of my wish to serve you in common with every other worthy American interest. "Most sincere yours, (Signed) "Warren G. Harding."

The Progress of the State

IN following the census reports issued from Washington, you have noticed the big increase in population throughout Southern Idaho and Eastern Oregon. This increase in population is the main reason why the Idaho Power Company must continue to build more power plants, extend transmission and distributing lines and provide more equipment from year to year.

These new people coming into this territory are demanding electric power to light their homes, to irrigate their farms, to operate their industries. And if this country is to develop as it should, their demands must be cared for.

Old Industries Require More Power

OLD industries are growing, manufacturing plants are springing up, extensive areas of farming land are being opened. But without an ample supply of electric power, this development must be halted.

At the present time, new customers are being added to the Idaho Power Company's lines at the rate of between four and five thousand a year. To take care of these new customers and the increased demands of old power users requires from 8,000 to 10,000 additional horse power each year.

Present System Taxed Almost to Capacity

THIS year, a new 6,000 kilowatt unit plant was built at Thousand Springs to bear the burden of the increased load. In spite of this, there have been times during the past summer when the demand for electric current almost equalled the full generating capacity of our system. This means that additional power plant capacity must be built, additional lines must be installed, and sub-stations must be enlarged, before we can take on any appreciable amount of new business.

New Development Requires Money

AND new development requires money. In fact, an expenditure of between three-quarters of a million and two million dollars is required to take care of the normal growth in the demand for power in our territory each year. The expenditures required to provide power for new irrigation business alone during 1920 and 1921 are in excess of one and three-quarter million dollars.

In order to get this money, we must go out and borrow it in the open market. As the State Law does not allow the Utilities to charge their customers for their service rates which will provide the money required to pay for the construction of new power plants, transmission lines, etc., but our annual income must be sufficient to pay a rate of interest on our investment which will induce investors to put their money into our hands to be used for the new construction required to handle this constant growth in business.

Our Present Difficulty

NOW this is the situation at present: As we have shown before, our present rates provide a very small return on the money represented by the Common Stock of our Company. While this condition exists, capital cannot be secured on favorable terms for development, and thus the progress of the territory may be halted for want of power facilities.

We have been asked why it is that we can continue to pay annually 7 per cent on our Preferred Stock when we are earning such a small amount of money. We have only \$1,250,000 of preferred stock outstanding, and this stock receives its full 7 per cent each year before any return can be paid on the Common Stock. Consequently our Preferred Stockholders can be assured of their return regularly even when the money represented by the Common Stock earns and receives a very small return.

The next advertisement will show more fully why an increase in rates is necessary before investors will lend us money to carry on the work of development which the progress of this territory demands.

CANNOT DECIDE HOW TO DIVIDE SERIES MONEY

Second Place Cash is in Controversy Among White Sox Players

CHICAGO, (AP)—The share of the 1920 world series prize money, amounting to almost \$15,000, which belongs to the Chicago American league club for finishing second, has not been awarded. It was announced today. The national commission is awaiting the outcome of the trials of eight White Sox players charged with the "throwing" of the 1919 championship series to the Cincinnati Reds.

The longest White Sox at a meeting voted to ent up the prize money into sixteen and one-half shares to the exclusion of the players charged with crookedness. This would make each full share about \$900.

On the other hand, it was reported today that the commission thinks the money should be divided into twenty-three and a half shares, which number would include the seven members of last year's team under indictment.

YANKES GET COAST STAR

NEW YORK, (AP)—Miller Huggins, of the New York Yankees, league base ball team, announced today the acquisition of J. Mitchell, an infielder from the Vernon, Cal. club of the Pacific Coast league. Sixty-five possible seven, will be turned over by the Yankees for the California star, but Huggins has not yet made public their names. No decision has been made on spring training grounds.

BOB BROWN MUM

PORTLAND, Ore. (AP)—R. P. Brown, president of the Vancouver, B. C. team of the Pacific International league, was in Portland today on his way from Kansas City where he attended the meeting of the minor leagues. He made no comment on reports that he had made an offer for the franchise of the Salt Lake City Pacific Coast league team.

DEMPSY VS. BRENNAN

NEW YORK, (AP)—Jack Dempsey, the world's heavyweight champion will defend his title in 15-round bout against Bill Brennan, the Chicago challenger, at Madison Square Garden here on Tuesday, December 24. This will be the first contest between big fighters to be decided in New York under the Walker law.

BRITTON WINS BOUT

KANSAS CITY, Mo., (AP)—Jack Britton, champion welterweight boxer, won the seventh round in his fight against Bill Brennan, the Chicago challenger, at Madison Square Garden here on Tuesday, December 24. This will be the first contest between big fighters to be decided in New York under the Walker law.

DOG DERBY

THE PAS, Manitoba, (AP)—The 1921 Hudson Bay dog derby will be run on March 1 for a purse of \$2500. The distance will be 200 miles, from here to Flin Flon and return. The race is open to all owners all over the world and any type of sleigh, derby rules to govern.

MAY CROSS RIO GRANDE

NEW YORK, (AP)—The New York Giants are considering an invasion of Mexico, it was learned today. If the new Mexican government is recognized by the new administration, Washington, Manager McGraw recently said he would take his team to the Mexican capital for a series of exhibition games.

LANDS TO SEE GAMES

NEW YORK, (AP)—Judge K. M. Landis, newly appointed head of organized baseball, has accepted the invitation of Judge McQuade, treasurer of the New York Giants, to attend the Army-Navy football game at the Polo grounds November 27, as the latter's guest. It was announced today.

TO DECIDE WHO'S BEST

HOSTON, (AP)—Bob Martin, heavy weight boxing champion of the A. E. F., has been matched with Captain Bob Roper of Chicago, for a ten-round bout to a decision here next Wednesday night. The match will use the best 12-round non-division contests.

Brief Bits of Sport

What will today's score be?

Monte Carlo has made a bid for the Dempsey-Carpentier fight.

If held on that island the affair should be attended by a very select coterie of folls.

Jack Curley, impresario of the wrestling syndicate, has touched a French wrestler of the unusual name "Steve O'Donnell."

This French O'Donnell chap is said to have come direct from Paris and is credited with a lot of ability. His first match will be with one of the Big Four.

The Mandat family is coming back into the ring fame again. Although Joe is out of it forever a brother, George, has shown up and appears to have something. The other night he survived three knockdowns, and then came back and cleaned up Frankie Nelson.

Governor-elect Small of Illinois, is said to be in favor of legalized boxing, and fans of the game are, consequently, some happy.

But the new governor says he will not stand for wrestling within the borders of his jurisdiction.

Migawash, he must have heard something.

Joe Tanker has sold his interest in the National club of the American National and has announced his retirement from the game both as player and executive.

But his old sidekick, Johnny Evers, is still prominent in ball circles.

Garry Herrman, formerly head of the minor leagues commission, while the minor leagues were in session in Kansas City last week, told the convention that a 12-round league was a "joke" and its theory ridiculous.

New York writers say Garry's talk was all in bad taste, and they still insist that the revolutionaries won a famous victory which ended the baseball war.

But the 12-round circuit, which they boosted to the skies, came down with a thump and the same two major league will function next year as of yore.

Willie Jackson, one of the most promising of late-day lightweights, has refused a \$30,000 purse in fight Leonard. Willie is honest enough to admit he has no inclination to be knocked out.

The National Cycle Racing association has suspended a bunch of endurance riders, and the latter declare they will form an outlaw association of their own.

The Chicago Nationals have purchased Ray Grimes from the Bridgeport club.

The rookie is a brother of the famous Hurley Grimes of the Dodgers.

NEW KIND OF TITLE

NEW YORK, (AP)—Johnny Dundee and Willie Jackson have been matched for a 15-round bout to a decision here on November 29, for the world's junior lightweight championship. It was announced today.

OIL MEN ATTACK DANIELS POLICY

Secretary of Navy Under Fire for Withholding California Reserves

WASHINGTON, D. C., (AP)—An attack on Secretary Daniels because of his insistence that the coveted oil reserves in California be withheld from public exploitation was made Thursday before the American Petroleum Institute by Thomas A. O'Donnell, president of the organization.

"The oil producers of the Pacific coast," said Mr. O'Donnell, "feel that the navy department has not been fair with the producers of the west. We believe this to be due to the extreme prejudice of the head of the navy department. While an armistice has been signed with the Germans, no armistice has been offered in the case of producers by the navy department."

Mr. O'Donnell said that in the face of the oil shortage on the Pacific coast—the most serious anywhere in the country—the producers there had had to contend with a "most deplorable situation," the withdrawal of public lands, with active drilling in progress and many millions of barrels already hoarded, which brought about years of expensive and exhaustive litigation.

"A naval reserve was created on these lands two years ago, after the development had started," continued Mr. O'Donnell, "and unjust public opinion created by constant publicity promoted a general belief that the petroleum producer of the west was trying to steal something from our navy."

Mr. O'Donnell asserted that agitation by government officials and politicians was an dangerous as government regulation and interference. It destroys ability, credit and confidence to the future, he declared.

Discussing the seizure by the navy department of all stocks on the Pacific coast, the speaker declared that this action, together with plans of the government to investigate the petroleum industry has had a disastrous influence on the development of oil resources in the west.

FARMERS ASK CONGRESS TO SAFEGUARD MARKETS

Propose Legislation to Prevent Importations when American Have Surplus for Sale

OMAHA, (AP)—A resolution asking congress to take steps to prevent importation of agricultural products when American farmers have a surplus for sale was adopted by farmers attending the closing session of the annual convention of the Nebraska Farmers' Co-operative Grain and Livestock association here Thursday.

Formation of a commission firm capital stock owned exclusively by farmers, designed to operate on the Omaha grain exchange, was among other measures urged.

FARMERS ASK CONGRESS TO SAFEGUARD MARKETS

Propose Legislation to Prevent Importations when American Have Surplus for Sale

OMAHA, (AP)—A resolution asking congress to take steps to prevent importation of agricultural products when American farmers have a surplus for sale was adopted by farmers attending the closing session of the annual convention of the Nebraska Farmers' Co-operative Grain and Livestock association here Thursday.

Formation of a commission firm capital stock owned exclusively by farmers, designed to operate on the Omaha grain exchange, was among other measures urged.

A Reliable Remedy for Colds and Croup

I would surprise you to know the number of people who use and recommend Chamberlain's Cough Remedy. Mrs. J. N. Rose, Verona, Pa., writes "Chamberlain's Cough Remedy has been used by myself and husband for a number of years for coughs and colds. I also gave it to my little grand-daughter three and a half years of age when she had croup last winter. It broke up the attack at once. I have recommended this remedy to many of my friends and neighbors who have also used it with good results."—adv.

BE PRETTY, TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and luster to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.—adv.

Plays All Makes of Records, Does the STRADIVARA

KNOWN FOR TONE

OWNERS OF THE MASTER MUSICAL INSTRUMENT—the Stradivara—are not limited in the records they can play. With this instrument you can have an unlimited selection, because the universal reproducer permits the playing of every make of record.

No need to purchase an instrument now that plays only its own records. The Stradivara has eliminated this. When you have a Stradivara the unlimited record libraries of the world's largest record makers—all of them—are at your service.

The Stradivara has a sound-board that makes it "Akin to Stradivari's violins."

There are no metallic, piercing or megaphonic tones.

Let Us Show You How Practical as a Real Instrument the STRADIVARA is

HALL DRUG CO.
KIMBERLY, IDAHO

THERE is a big difference between Calumet and all other Baking Powders.

First—you see it in the cost. Calumet is sold at a moderate price.

Then—you observe it in use. Calumet has more than the usual leavening strength, therefore less is required.

Next—you notice it in raising quality—in the evenness—lightness and texture of your bakings. They look better—finer grained.

"S-o-m-e Biscuit!"

CALUMET BAKING POWDER

Finally—what a difference in the taste. There is a deliciousness, a goodness that can be had in no other manner. Biscuits, pies, cakes, muffins, doughnuts—never were so tasty—so all satisfying.

And then there is the satisfaction of knowing that Calumet is made in the World's largest, best equipped and cleanest Baking Powder Factories.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Biscuit Recipe
4 cups of sifted pastry flour, 4 level teaspoons Calumet Baking Powder, 1 level teaspoon of salt, 3 rounded tablespoons of butter or lard, 1 1/2 cups of milk, 1/2 cup of water. These mix in the regular way.

SOUND GERMAN INVESTMENTS Offer Great Profit Opportunities

The assured future of Germany's great electrical and chemical companies, combined with the largest possible security and profits through:

- Advancing Rates of Exchange
- Increased Market Values
- Substantial Dividends

INQUIRERS HEAR WITNESS ASSAIL BLACK AND TANS

Balbriggan Town Commissioner Charges Militia in Ireland Makes Raids Without Provocation; Gives Details

WASHINGTON, (AP)—Charging that the "black and tan" militia in Ireland made raids without provocation, John Dermah, town commissioner of Balbriggan, Ireland, gave today to the committee of the Committee of 100 regarding the Irish question what he described as details of the September raid on his home town which, he said, resulted in the death of half a dozen persons.

The "black and tan" spent a night of yelling, burning and shooting," said Mr. Dermah.

Details Acts of Violence. The Balbriggan commissioner declared that James Lawless and Jim Gibbons were hauled to the militia. He said that a score of houses were burned and that the contents of those left standing were wrecked. About 100 refugees were herded into a hotel, Mr. Dermah said.

Mr. Dermah said he was dragged from his bed and severely beaten by troopers and then his own shop was first ransacked and stocks of liquor destroyed before his house was burned. The final act of destruction, he said, was the burning of the \$700,000 hosiery factory which, he charged, was done to cause unemployment and destitution.

Raid Follows Killing. This raid followed the killing of one policeman and the wounding of another. Mr. Dermah told the committee. The first inquiry, however, had failed to establish the identity of the persons who had killed the officer, who was shot, Mr. Dermah stated, while in the act of taking his children to school where the raid had refused to sell him more because of his intoxicated condition.

NEIGHBOR IS HELD FOR DYNAMITING DWELLING

Death List Reaches Three in Destruction of Maryland Home; Long-standing Feud Shown.

HEIMANTOWN, Md. (AP)—James Bolgan, a farmer, whose home near here was dynamited yesterday morning, died last night, increasing the death list to three. Two small children of Mrs. Hattie Shipley, Bolgan's housekeeper, were killed instantly, and an elderly woman, the mother of Mrs. Bolgan, died last night. Her son, Thompson, a neighbor, is being held in connection with the explosion. Montgomery county authorities said an investigation showed that Bolgan and Thompson had been enemies of long standing and that their enmity culminated in an encounter eleven days in which Thompson was shot in the back by Bolgan.

Fifty pounds of dynamite is believed to have been used in the destruction of the Bolton home.

CONDITION OF FORMER EMPRESS IS DANGEROUS

Heart Specialist Holds Out Little Hope for Recovery of Ex-Emperor's Deceased Kaiser

DORN, Holland. (AP)—Former tsar, press Augusta Victoria, of Germany, who yesterday underwent another heart attack, appeared last night to be in a more serious condition than officials at Dorn castle would admit. All her sons and daughters were notified of her illness, and are expected today.

Dr. Heymann Vandenberg, a heart specialist, examined the former empress yesterday and found her condition dangerous. She may, however, linger for many days.

A bulletin issued at the castle this morning stated that the former empress had passed a good night.

GREEK MINISTER RESIGNS

Foreign Diplomats in Washington Quit Offices as Result of Election

WASHINGTON, (AP)—M. Tzannetos, minister resident and counselor, and Kimon Colles, first secretary of the Greek legation, announced Thursday that they had submitted their resignations as a result of the Greek election in which the Venizelos government was defeated.

Minister Tzannetos and Secretary Colles had their last day only next month for home by way of France.

George Dracopoulos, second secretary of the legation, will act as charge d'affaires, pending appointment of a new minister.

MISSING PLANE IS SAFE

Fears that Aircraft from Key West is Lost are Dispelled by Message

HAVANA, (AP)—Fears that the hydro-airplane Santa Maria, which left Key West at 4:30 yesterday afternoon for this city, had been lost, were dispelled early today when reports were received that the machine had landed at Santa Cruz, a small port 15 miles from here. The captain, pilot and mechanic and six passengers carried by the plane were reported safe.

It developed that the pilot of the machine found the sea off the harbor of Havana too rough and made for Santa Cruz, the harbor of which is land-locked.

There is a reason for the large crowds at the U. S. Army Goods Department. You save money. Important.—adv.

ALLEGED MURDERER OF SOCIETY GIRL RETAKEN

Deputy Sheriff and Companion Nebraska Suspect in Walk Along Nebraska Country Road

BROKEN BOW, Neb. (AP)—Denny Chester, alleged murderer of Florence Barton, Kansas City society girl, who escaped from officers by leaping through the window of a Burlington train at Broken Bow Monday night, was captured this morning six miles west of Oconto, Neb., by Deputy Sheriff Hammond and Dr. Hanson, while walking along a country road.

Chester admits he is the man wanted according to the sheriff, and in reply to a question as to how he made his escape, told the deputy sheriff to inquire of the officer in charge of his arrest at the time.

"About six miles," was Chester's answer. "How far did you say it was?" Dr. Hanson asked. Then he stepped from the automobile and drew a pistol, pointing it at the prisoner. "Get up or put up your hands and later was also 'covered' by the deputy, following which the party returned to Broken Bow where the prisoner was placed in jail.

GREAT FALLS WOULD BE PLACE FOR STOCK SHOW

Montana Town Will Succeed Laytton in Northwestern Circuit if Plans Mature

GREAT FALLS, Mont. (AP)—Plans to place Great Falls in the circuit of fall livestock shows are being considered by the directors of the Montana Livestock Pavilion company at Great Falls.

The northwest for several years has consisted of the Northwest Livestock show at Lewistown, Idaho; the Western Royal Livestock show at Spokane, Wash.; and the Pacific International Stock show at Portland, Ore. This year's show will be the last at Lewistown, which has withdrawn from the circuit.

The Montana Livestock Pavilion company has a heated pavilion at Great Falls, capable of seating 5000 persons, according to C. L. Davis, secretary of the company.

"At a State fair show it was urged by the breeders of Washington and Oregon that to bring Great Falls into the circuit would draw business from Lewistown, Idaho and the Dakotas who would continue with the circuit to the Pacific coast and increase the territory from which the shows now draw," said Mr. Davis recently.

BLANKET MAN IS EXTINCT

Transient Labor Ceases to be Factor in Montana Industrial Life

HELENA, Mont. (AP)—Transient labor has ceased to be a factor in Montana industrial life, according to C. O. Burg of Helena, secretary of the Montana Mining association. He declares that it is no longer possible to get men and hire men at random to work in mines, but that the labor market must be combined.

"The laborer who used to go around with his clothing in a blanket roll on his back has ceased to exist, or, at least he never comes this way any more at all," says Mr. Burg.

Reports from other cities of the state bear out Mr. Burg's statement.

FARM BUREAU FEDERATION HEAD ENDLESS STRIKE

CHICAGO, (AP)—Views of farmers to certain production activities and wait for price adjustment was given in statements made Thursday by J. R. Howard, president of the American Farm Bureau Federation.

Howard, president of the American Farm Bureau Federation, and C. W. Hunt, president of Iowa Farm Bureau federation, they declared that the market price of many farm products was below the cost of production and that it was contemplating a farmers' strike, urged producers to "show down" until prices adjust themselves.

"Prices are frightfully low," Mr. Howard said. "All farm products have declined in price from 50 to 100 per cent, an average arrived at this week approximating 72 per cent. When oil, or commodities come down in price, or commodities come down in price, or commodities come down in price, we will go ahead with production. It is a matter of adjustment and supply and demand."

"The market is showing some recovery," said Mr. Hunt. "We have thought to be a readjustment in market prices," said Mr. Hunt.

BLOAN SUCCEEDS HOWELLS AS AMERICAN GARDEN MEMBER NEW YORK, (AP)—William Milligan Sloan, historian, and former chancellor of the American Academy of Arts and Letters, was elected to succeed the late William Howells, as president of the academy here yesterday.

Lorato Tafi, sculptor; Booth Tarkington, author; Childre Henshaw, painter, and David Jayne Hill, publisher, were elected to the academy, which is limited to 50.

Today's Markets

New York Stock Market NEW YORK, (AP)—Severe shrinkage of prices occurred in the stock market again today, few records marking a period of low prices. Sales approximated 1,350,000 shares.

Many substantial recoveries from yesterday's extreme weakness were made by leading stocks at the opening of today's session. Short covering and some investment buying facilitated the rally which was most conspicuous in the railway division. Reading and Great Northern rose 1-4 points each. New York Central 1-2; Rock Island 1-8 and Southern Pacific and Erie one point. Baldwin Locomotive was the strongest of the industrials, rising two points and Atlantic Gulf recovered five points of yesterday's loss. Other strong features included American Car, Mexican and California Petroleum and United States Rubber. Losses of one to two points were made by Granite Steel, Harvester and Louisville and Nashville.

Steels, oils, motors, shippings, leathers and utilities were grouped in the weaker section. Short covering and heavy declines of 3 to almost 10 points. The closing was weak.

Liberty Bonds NEW YORK, (AP)—Liberty Bonds closed: 3 1/2% 92.02; first 4 1/4% 88.38; second 4 1/4% 85.51; first 4 1/4% 87.7; second 4 1/4% 85.50; third 4 1/4% 85.30; fourth 4 1/4% 85.30; Victory 3 1/2% 92.30; Victory 4 3/4% 85.90.

Grain and Provisions CHICAGO, (AP)—All deliveries of wheat, corn and oats all today, to the lowest price in this season. General free selling which forced down prices was based largely on the fact that the movement of the big new 1920 crop was slow. Bears asserted that there was a heavy surplus of wheat in the world and the pressure which would result. Opening wheat prices, which varied from 1 1/2 to 2 3/4 lower, with December 81.78 to 81.70 and March 81.62 to 81.58, were followed by a slight rally and then by heavy downward plunges.

No adequate support for the wheat market developed until prices had dropped nearly a bushel in some cases. Ward and Germany had bought 1,000,000 bushels on the break led to a moderate rally later. The close was nervous, 5 3/4 to 8 1/2 not lower with December 81.72 to 172 1/4 and March 81.63 to 1.63 3/4.

Liquidation by holders was mainly evident in the corn market. After opening 1-8 to 3-4 lower, including December 81.25 to 81.25, the market recovered a trifling, and then suffered a decided setback.

An extreme decline of nearly 4c took place without encouraging any important reaction. The close was unsettled, 2 1/8 to 3 1/2 net lower, with December 68 3/4 to 68 1/2.

Oats yielded to the bearish influence of corn, starting unchanged to 1-4 to 3-4 off. May 58 3/4 to 58 7/8, were followed by a little surge, and then made a sudden descent.

Tumbling prices of grain and hogs pulled down provisions.

Cash Quotations CHICAGO, (AP)—Wheat No. 1 hard \$1.81 to 1.82; No. 3 red \$1.92. Corn No. 2 mixed 75 to 75 1/4c; No. 2 yellow 74 1/2 to 75 1/4c.

Oats No. 2 white 48 1/2 to 50 1/2c; No. 3 white 46 1/2 to 48 1/2c. Rye No. 1 \$1.53. Barley 75c to 1.00.

Flour—No. 1 best 45.50 to 45.50. Pork nominal. Lard \$19.20.

Minneapolis Flour and Grain. MINNEAPOLIS, (AP)—Flour unchanged to the lower. In carload lots family patents quoted at \$9.20 to \$9.75 a barrel in 48-pound cotton sacks. Bran—53.

Wheat receipts 461 cars, compared with 412 cars a year ago. Cash No. 1 Northern 61.64 5/8 to 1.69 3/8; December 61.14 1/4; March 61.61 1/4. Corn No. 2 yellow 70 to 75c. Oats No. 3 white 41 1/2 to 42c. Barley 64 to 86c. Rye No. 2 81.46 3/4 to 1.48 3/4. Flax No. 1 2.12 to 2.14.

Chicago Livestock CHICAGO, (AP)—Hogs 27.00; fairly active, mostly 50c lower than yesterday's average; top early 812; practical top later 811.85; bulk of sales 811.25 to 811.75; pigs mostly 50c lower; bulk desirable 100 to 130 pound pigs \$11.50 to \$11.75.

Cattle 8.000; all kinds steady to strong, with indications pointing to a fair clearance of killing grades and to a better clean-up of stockers and feeders than seemed possible earlier in the week; packers buying canner and cutter cows freely; big movement of sides this week, increasing the outlet for low grade stuff; good corn fed steers scarce and wanted; calves steady.

Sheep 8.000; fat lambs steady; top natives 811.75; but \$11 to 811.50; fat stock slow, about steady; choice handweights ewes \$5.25; bulk natives \$4.50 to \$5; feeders steady.

Omaha Livestock OMAHA, Neb., (AP)—Hogs 5.000; 25 to 35c lower; bulk \$11 to \$11.50; top \$11.75.

Cattle 750; market fairly active; beef steers and butcher cattle strong; veals steady; stockers and feeders firm; quality of supplies, medium to common. Sheep 4,000; steady on all classes; best fed lambs \$10.50.

Chicago Produce CHICAGO, (AP)—Butter easy; creamery 40 to 61c. Eggs unchanged; receipts 891 cases. Poultry alive unsettled; fowls 21c; turkeys 25c; turkeys 38c.

Kansas City Produce KANSAS CITY, Mo., (AP)—Eggs unchanged; firsts 70 to 72c; seconds 50c; selected 70 to 72c. Butter unchanged; creamery 62c; packing 32c.

Poultry—Hens 1c lower, 21c; springs 3c lower, 21c; turkeys 4c lower, 32c.

Potatoes CHICAGO, (AP)—Potatoes dull; receipts 34 cars; Minnesota and Wisconsin bulk \$1.25 to 1.90 cwt.; Michigan Best \$2 cwt.; Red River Ohio \$2.10 to 2.25 cwt.; Idaho, sacked \$2.25 to 2.35 cwt.

EVIDENCE PRESENTED ON CEMENT TRADE CONTROL Extends Best Wishes to President-elect and Expresses Wish for Practical Farmer in Cabinet

NEW YORK, (AP)—Evidence purporting to prove that the output of the cement industry over the entire country is "controlled by a national association" which tends to eliminate competition in bids for construction work, was presented here today to the Lockwood committee investigating the alleged "building trust."

Information regarding the "association," the name of which was not divulged, was given the investigating committee by Hugh White, connected with a local construction company. He said the United States was divided into districts for the purpose of supervising the cement trade and to insure proper geographical distribution of contracts.

POLICEMAN IS INDICTED IN BUILDING TRUST INQUIRY NEW YORK, (AP)—Stephen Birmingham, a member of the New York police department, was alleged today to be manager of the "composition bureau" maintained by Robert T. Brindley, labor leader indicted in connection with the joint legislative committee's inquiry into New York's "building trust."

STURGEON BAY, Wis., (AP)—Three persons were electrocuted here at 7:30 o'clock last night when their automobile plunged over a bridge and struck an electric wire carrying 23,000 volts. The dead are Miss Louise Zanders, 21 years old, a school teacher, Arthur Delwich, 27, driver of the machine, and Clements Doni, 23, all of Gardner, Wis.

Often the first effort in classified advertising brings the wanted results but not always, of course. You must "stick."

AMERICAN FARM BUREAU'S CHIEF GIVES POLICIES

Organization with More Than Million Members Seeks to Advance Interest of Agricultural Industry

CHICAGO, (AP)—J. R. Howard, president of the American Farm Bureau federation, announces that the federation has now over a million members and has 35 state organizations affiliated with it. The national federation took permanent form on last spring and established headquarters in Chicago this past summer.

Sketches Organization Plan.

Sketching the character of this new organization among the national farm organizations, together with its program, Mr. Howard, himself an Iowa farmer, said: "The federation is an alliance of county farm bureaus into state farm bureaus federations and in turn these federations into a national organization as the American Farm Bureau federation."

"Its purpose is to work for the economic, social and educational advancement of the farmers of the United States and for the benefit of the nation. It is proposed to develop this work by means of bureaus."

Studies Production Costs.

Our bureau of agricultural economics and statistics has already been set up. It will make a study of costs of production of the principal agricultural products and will direct and compile statistics in connection with the department of agriculture, and the various state agencies. This work will give a much better insight into the supply and demand of agricultural products, with the thought that this will lead to a more efficient marketing.

Our bureau of transportation is making a study of necessary transportation facilities, both for land and by water, for the marketing of our farm crops. The purpose of this bureau is to get at the real facts in the transportation problem and govern its actions accordingly. It proposes to establish rates and traffic files, which have never yet been built up for agricultural products.

Covers Wide Range.

"The bureau of trade relations will make a study of world supply and world demand, as well as of our national supply and demand. This information, coupled with the work of the farm economics and statistics bureau, will give us accurate world-wide knowledge upon which to base our plans."

"We are already undertaking important investigation of co-operation enterprises in marketing, which looks toward the establishment of a bureau of co-operation. This will make study in the country and abroad, with the thought that special industries interested in forming local or district co-operative agencies will be benefited by the experience of other people in similar enterprises before starting their undertakings."

New Bureau in Prospect.

"The bureau of education which we have planned but which has not yet been started will present facts relative to the food supply and other necessities produced by agriculture to the daily papers in order that there may be a more general understanding of agricultural production and a closer relationship between producer and consumer. This bureau will be a service to agricultural papers, presenting regional and national facts of particular interest to farm people and be of service to our own affiliated farm organizations, state and county."

STOCK MARKET IS WEAKER

New Low Records Made by Many Speculative Issues During Day

NEW YORK, (AP)—The stock market dropped further today during the day after opening with a moderate show of firmness. Calls for extra margins issued by brokerage houses after yesterday's collapse met with indifferent response. It was said, and this evidently precipitated further liquidation. New low records were made by many speculative issues. Losses were extended at mid-day when United States Steel established a new low for three years and Bethlehem Steel registered its lowest price since 1915.

Gross declines among prominent industrials in the last hour extended from 3 to almost 10 points.

Rails also gave way, losing 1 to 2 points. The market's tone was feverishly weak at the close. Sales were estimated at 1,350,000 shares.

GERMANY'S ADMISSION

(Continued from Page One)

going on for a year between Poland and soviet Russia.

The British delegate held that it was quite possible for the league to do something to prevent a fresh outbreak of hostilities between Poland and soviet Russia, which he declared was unmistakably threatening, in spite of the unpatched up peace."

Labor Demands Admission.

Regarding the admission of former enemy states, Mr. Barnes said he would like to represent the element of Great Britain, and he knew the vast majority of the laboring people demanded that all the enemy states be admitted without delay.

URGES IMMEDIATE REPEAL OF EXCESS PROFITS TAX

Resolutions Committee Makes Recommendations to Mining Congress Session in Denver

DENVER, Colo., (AP)—Immediate repeal of the war profits and excess profits taxes was urged upon congress in a resolution presented to the twenty-third annual convention of American mine congress here today by its resolutions committee.

The committee's report touched nearly a score of subjects. It was expected to be unanimously adopted. Enactment of a federal statute authorizing the president to appoint, with consent of the senate, a bipartisan board of ten men to pass upon and settle the cases of taxation arising out of the war period was urged in another resolution.

The board, the resolution recommended, would have power to summon witnesses, compel production of books and records, and to make suggestions of fact, law, and to make recommendations. The resolution strongly urged that the board be an independent body, "separate and apart from the bureau of internal revenue and the treasury department."

"No count of a federal statute authorizing federal control of the mines, such as has been advocated by Senator Calder, of the United States senate reconstruction committee," declared another resolution.

"If industry is let alone," it continued, "present co-operation between transportation, producers and labor will continue, and high tonnage production will be maintained."

Immediate problems of transportation and marketing facing the metal mining branch of the industry were taken up in several resolutions. One urged "improvement of the existing postal rates" of United States customs duties and tariffs on metals, minerals and their products "sufficient to enable United States producers to meet such foreign competition as continues to maintain American standards of wages and living conditions."

Another asserted immediate steps should be taken by carriers, ore producers and shippers, jointly, to secure "present readjustment and revision of the ore rates as will permit of the continued operation of the metal mines."

The McAdams bill providing for relief for gold miners was endorsed. "The gold mining industry of the United States is in deplorable straits, having almost ceased to function," the resolution declared.

CENSUS BUREAU DEFENDS ITS COUNT OF JAPANESE

Director Rogers Comments on Criticism of Enumeration of Orientals in California

WASHINGTON, (AP)—Figures on the census bureau says the Japanese population of California were "the result of a careful, actual enumeration of each individual." Director Rogers of the bureau declared today in a formal statement commenting on an article in the Sacramento Call, by V. S. McClinty, its publisher, declaring the census figures were far short of the actual number of Japanese resident in California.

"The Japanese associations in making their census evidently did not operate under the same instructions as those controlling the federal employes," Mr. Rogers said. "The three estimates given of the Japanese population ranging from 87,000 to 109,000 should not be given the same credence as the result of an actual enumeration. The census figures are preliminary. It is believed, however, that there is and that may be discovered, will have but little effect on the total."

GRANGE ASKS REVISION OF EXCESS PROFITS TAX

New York Building Trust Investigators Hear Competition Is Strangled by Association

BOSTON, Mass., (AP)—The National Grange went on record today as opposed to the repeal of the excess profit tax but asking for revision of the vision of the law "to bring it up to date."

Another resolution adopted extended beat wishes to President-elect Harding, and expressed the "wish and desire that in the selection of a cabinet for the position of secretary of agriculture in his cabinet he select a practical farmer."

The convention will close tonight after receiving the report of the committee on claims and grievances which heard evidence in the trial of William Bouck, master of the Washington State grange, charged with violation of regulations prohibiting introduction of partisan politics into grange sessions.

Preclusiveness of Rarity.

We not infrequently hear the first kisses of love very highly spoken of, but a good deal may be said also for the great kiss of a wife's relative—Ohio State Journal.

Pearls.

The most valuable pearls are round; next come the pear-shaped, and lastly the egg-shaped.

John E. Hayes, in charge of the crew of engineers which is engaged in laying out the townsite of Bull.

M. J. Morgan Nibbet, the well known architect of Boise, has planted 120 apple trees on a farm near Twin Falls and is engaged in setting out 23 other varieties of fruit trees on his property.

M. J. Sweeley of Sioux City, Ia., is in the city. Mr. Sweeley is one of the leading attorneys of the Hawkeye state, his specialty being titles. This is his second visit to Twin Falls and he has made up his mind to make his home in this city. Mr. Sweeley's son is reaching the football team at the Pullman, Wash. college and will soon join his father here.

Carl Hahn of McCormick & Co., here to Lake to escort Mrs. Hahn to Twin Falls. Mr. and Mrs. Hahn will reside in a snug cottage built for them by G. W. Terr.

Rain is badly needed in this section of the state. The range is unusually dry and range animals are working down to the ground in droves. This has been a freakish year. The spring rains were unprecedented and the wind storms during the summer were worse than have ever been known. The present spell of glorious weather is normal but should have been preceded by the drenching showers in October. The first earthquake ever felt in this local city was experienced on Saturday last. It was very mild, so mild, in fact, that many did not notice it. In other parts of the state it was somewhat startling. Hereafter the mountain tops have been covered with snow at this time of year, at present only the crests of the summit show traces of snow.

The dynamo which will furnish our power for the lighting of the Hotel Fortine is en route to Twin Falls and will probably be in working order by Thanksgiving. It will be operated by steam for the present. The hotel furniture is being installed rapidly and the building will soon be ready to open.

TACOMA BOY PRODIGY EXCELLS IN SINGING

Twelve Year Old Robert Murray In tones Highest Note Ever Reached by Human Voice

NEW YORK, (AP)—Among boy prodigies Edward Rochin Hardy, 12 year old Columbia freshman, may boast the mastery of a dozen languages, and Samuel Rzeschewski, 9 year old Polish chess wizard, recently checkmated nineteen West Coast chess players in a row—but neither of them can sing.

Robert Murray, 12, of Tacoma, Wash., can. Yesterday, before a group of famous Metropolitan stars, including Mme. Frances Alba, who discovered the boy's last summer, Murray not only reached with ease the high notes in various of Galli-Curci and Tetrazzini arias but, to the astonishment of his hearers, he transposed these high notes to a higher key and reached them with equal facility and resonance. The singers who heard the performance asserted this was the highest note ever reached by the human voice.

MEXICAN MINE STRIKERS DRIVE AMERICANS AWAY

Exodus Toward Eagle Pass and Federal Garrison Follows Ours of Reoccurring Workers

LAREDO, Texas, (AP)—Striking Mexican coal miners, who seized the mines in the Monteloya district of Coahuila yesterday, have notified all Americans to leave the district, according to reports reaching the United States consular office at Nuevo Laredo. No Americans have been victims of violence, the report said, but there is an exodus towards Eagle Pass.

A number of American refugees were reported to have arrived at the border at Eagle Pass. Those unable to leave

the Monteloya district were said to have gone to Sabinas where a large force of Mexican federal troops are garrisoned.

The striking miners have notified the operators that the workers will operate the mines hereafter, according to the reports. Mine managers were reported in conference with Luis Guirrez, governor of Coahuila, at Sabinas, Thursday.

ANSWER 'HEBE!'

The annual Red Cross roll call is now under way. Until Thanksgiving day effort will be directed to continuing every membership through 1921 and to adding many new names to the almost universal list. It is to be hoped that response will be unanimous, for it is especially important that in its development into a great agency for mercy in peace the organization shall be unhampered. Only if the society is maintained with ample reserves and unimpaired facilities can it hold itself ready for those emergencies which come swiftly and without warning.

The task to which the Red Cross plans to devote itself is of importance to every citizen. It proposes not only to minister to suffering, but to prevent suffering. The field for this labor is vast. The education of the people at large in the fundamental principles of hygiene, the prevention of conditions from which epidemics of disease arise, the ceaseless research from which the special discoveries come — these are some of the major works. Ambitious plans have been prepared; a start has been made; the work must go on.

Membership in the American Red Cross is the symbol of interested citizenship. So little is asked from each, so much has been given to all, that it is a privilege rather than a duty to participate in the service of love of "The Greatest Mother in the World."

LOYALTY THE TEST

Most persons who are happy here in them those elements of steadfastness and conviction to which applied loyalty gives visible form. It is, indeed, difficult to conceive of any continuous pleasure in an existence not motivated and spiritualized by unwavering allegiance to certain fundamental tenets of established truth. But loyalty to the general, the abstract proposition, is likely to be ineffective—probably as an influence upon one's self and most certainly as an influence upon others—unless it is visualized in loyalty to the concrete issue, the definite institution, the living person.

Every man, perhaps, is conscious of a desire to be loyal to his God, but it is only when he translates that fidelity into a loyalty to his church that his

purpose has meaning. Every man, too, desires to be loyal to his country, but it is only when that wish is translated into vigorous, militant loyalty to the responsible agencies of government that his loyalty is worth while.

No man can be loyal and neutral in a moment," wrote the Bard of Avon. Men who carry water on both shoulders, who are insinuating and super-agreeable in their daily conversations, can never hope to command respect or carry conviction in the tests of life.

The man who is frankly loyal to those institutions in which he believes and to those persons with whom he is allied, is the man who is admired, even by his enemies.

For the man who is discouraged, downhearted by the rush of events, oppressed by petty failures, there is no stimulant like the compelling power of an intensive loyalty. Let the man who is not making good in his work dedicate himself to a new sense of allegiance to those with whom and for whom he labors. Out of vigorous loyalty to his fellow workers and his employer will come the spirit of which success is forged. Let the man whose life seems dull and moribund find a loyalty—a loyalty to his home, perhaps, to his city, to his college, to his church—and life will be transformed for him as the gleam of purpose dispels the clouds of cynicism and mist. Out of loyalty to others will come that greater loyalty to self that transmutes a person into a personality, a slave into a servant, and a human into a Man.

Let us attain to a loyalty and hold fast to it.

DAKOTA'S BLACK HILLS LOSE ROMANTIC FIGURE

Passing of Prospector Due to Short-Sighted Government Policy, Says Speaker at Denver

DENVER, Colo., (AP)—The Black Hills prospector, that unique character who furnished many a theme for novels built around man's quest for gold, generally has disappeared from South Dakota. R. C. Yates of Lead, S. D., declared Thursday in an address before the twenty-third annual convention of the American Mining congress.

Passing of the prospector has been due primarily to the fact, according to Yates, "that the gold taken from the mines does not have sufficient value to pay the cost of production." He described the gold industry in the Black Hills as being "in a state of disintegration."

"In every mining community of the hills are to be found empty houses and deserted prospectors' cabins," he said. "The gold industry," he continued, "is face to face with a grave crisis, brought about by the world war and the short-sighted policy adopted by the government of breeding without feeding the one industry absolutely essential to the life of any civilized nation at all times."

NORTH DAKOTA EXAMINES CLOSES TWO STATE BANKS

BISMARCK, N. D., (AP)—The Security State Bank of New England, North Dakota and the Farmers State bank of Havelock, were closed Thursday, pending an examination by State Bank Examiner O. N. Louth.

Refusal of farmers to sell their wheat at present prices with ensuing scarcity of money is responsible, Mr. Louth said.

CHARGES POWERS IN COMPACT ON MEXICAN POLICY

Mexico City Newspaper Publishes Text of Treaty Alleged to Have Been Signed by U. S., England and France

MEXICO CITY, (AP)—The text of a treaty alleged to have been signed in Washington in May, 1917, by the United States, Great Britain and France, outlining their course of action in Mexico and South America was published this morning by La Vanguardia, a newspaper recently established to support former Minister of the Treasury Cabrera.

The important clauses of the treaty, according to the newspaper, provide for recognition of the Monroe doctrine by Great Britain and France and priority for United States rights in Mexico, England agreed not to permit Central and South America or on the Pacific ocean.

Elaborate provisions are made in the treaty, La Vanguardia asserts, for controlling Mexican imports and in the event that either the United States or Great Britain goes to war with Japan, neither of them shall aid Japan financially. The treaty, the newspaper says, was signed by Captain Andre Tardieu for France and Arthur J. Balfour, then British secretary for foreign affairs, for Great Britain, but the signatory on behalf of the United States is not named. La Vanguardia says that the text of the treaty, as published by it, is an authentic copy secured in the United States from an unnamed source.

"In case Japan objects, the United States and British fleets are to unite against the Orientals," says the newspaper's version of the alleged treaty. "The United States may acquire control of the Mexican railroads and, if necessary, extend its territorial expansion to the Panama canal."

Elaborate provisions are made in the treaty, La Vanguardia asserts, for controlling Mexican imports and in the event that either the United States or Great Britain goes to war with Japan, neither of them shall aid Japan financially. The treaty, the newspaper says, was signed by Captain Andre Tardieu for France and Arthur J. Balfour, then British secretary for foreign affairs, for Great Britain, but the signatory on behalf of the United States is not named. La Vanguardia says that the text of the treaty, as published by it, is an authentic copy secured in the United States from an unnamed source.

ALLEGED TREATY AGREEMENT IS DENIED IN WASHINGTON

WASHINGTON, (AP)—Chief Secretary Davis, of the state department, denied that the United States, Great Britain and France had entered into any treaty outlining their course of ac-

tion in Mexico and South America as alleged by the La Vanguardia, a Mexico City newspaper.

State department officials said a familiar report regarding an alleged treaty between the three countries had been circulated in Mexico City on last October 8 and that the Mexican minister of foreign affairs on that occasion had specifically denied the report.

JOURNALISTS OF TOKIO URGE NATIONAL PROTEST

Newspaper Men's Committee Demands Expression Against California Legislation

TOKIO, (AP)—A committee of Tokio journalists adopted a resolution here Thursday demanding that a national protest be made against Californian legislation hostile to the Japanese. They decided to hold a mass protest meeting in Tokio, and also to unite with the 20 scattered societies dealing with the emigration question. The Kokumin Shimbuu and the Yozon Chubu, which led the outcry against the California legislation, simultaneously advocated appeals to public opinion in preference to stronger courses. The Kokumin Shimbuu suggests a war of tongues as a middle course between the old alternatives of humiliation and war. Japan's resistance to Californian legislative discrimination, it says, should take the form of an appeal to the public opinion of the world.

The Asahi Shimbuu suggests that the Shantung question should be decided by international arbitration. It says that Japan has nothing to fear from such a course.

MISSIONARY SOCIETIES SYMPATHIZE WITH JAPAN

Association Convention Calls Nipponese in California Victims of "Un-Christian Propaganda"

SPRINGFIELD, Mass., (AP)—A resolution of sympathy for the Japanese in California because of the attitude manifested toward them in the recent adoption of the alien law by the state was adopted in Thursday's session of the forty-seventh annual meeting of the American Missionary association. The resolution was proposed by the Rev. Dr. George L. Chaly, of New York, and declared the Japanese the victims of "un-Christian propaganda."

The meeting pledged co-operation to bring about harmony between the two factions in that state and to right what it professed to believe a distinct wrong.

FIRST WITNESS TESTIFIES FOR IRISH HEARINGS

Labor Member of Thurles Town Council Recounts Tales of Mistreatment Before Committee of One Hundred

WASHINGTON, (AP)—"Only the director... 'I am sure that the... of Ireland, Frederick C. Howe, chairman of the commission from the committee of 100 investigating the Irish question declared Thursday at the opening of the commission's hearing. He added that the conditions in Ireland 'have created and are creating a widening rift in the friendly relations of English-speaking people not only in America, but all over the world.'"

To Extend Inquiry. "The commission plans to send a mission to England and Ireland to make an inquiry into the conditions in the latter country," Mr. Howe explained. "It will investigate the killings and disorders. Quite as important to the present adjustment of the dispute, it will investigate the economic conditions in Ireland, the extent to which the Irish have developed a self-contained economic and cultural life, as well as the extent to which the Irish people have evolved their own system of self government during the last few years."

Irishman on Stand. Denis Morgan of Thurles, Ireland, was the first witness called. He said he was a college teacher in Thurles and that he had been elected chairman of the town council as the labor candidate, winning over Sinn Fein and independent candidates. The witness described what he termed the shooting up of the town of Thurles by government constabulary. He testified that after a constable had been shot, the constabulary in uniform in reprisal made a midnight raid upon homes and stores of townsmen prominent in the Irish independence movement. Ten houses and stores were riddled with bullets and many green flags were seen.

No rioting preceded the shooting, he continued, and he was told that the constabulary was "precisely acting under orders." The witness described how he and his family lay huddled on a stone floor all night to escape the bullets flying through his windows and doors.

There were no religious differences between the Thurles inhabitants, Mr. Morgan said and the town was law-abiding.

Recounts Story of Detention.

The witness testified that he was arrested by a squad of eight constabulary who left his home January 30 to attend an organization meeting of the town council. He said he asked with what offense he was charged and the constabulary replied: "No charges, just government orders." Mr. Morgan said he never did learn the charge against him, and was never informed of trial. He testified that any other prisoner, he was transferred from place to place, he said, once being placed with 34 other prisoners in the fouth of a war sloop in Cork harbor, and later being suddenly taken to Wormwood Scrubs in London. His five-year-old son died in Thurles but he was not allowed to attend the funeral, he said.

Cites Formal Verdict.

Acting Mayor Morgan, of Thurles, told the committee that the killings by the constabulary a coroner's jury organized by the constabulary returned verdicts that the killings were "wilful murder by men dressed in constabulary uniforms." The British government, he said, has prohibited publication of news regarding the Irish republican movement and banned public gatherings. People leaving church, he said have been searched for arms.

Troops are being increased in Ireland the witness said, and "constabulary becoming worse." Armored motor cars patrol government streets constantly. "They fire in the air apparently for the purpose of hearing women and children scream and terrorize them," said the witness. Several Americans who visited Ireland recently, followed Mr. Morgan on the stand and told of their observations. The Rev. Michael English of Whitehall, Mont., declared that while visiting his parents in Ireland, soldiers entered his father's home, searching all the men for arms and his baggage. He said that when he protested on the

ground that he was an American citizen, the English officer replied: "Your American citizenship don't count here." "An inspector who searched the house," said Father English, "took a picture of George Washington from the mantle piece, threw it on the floor and ground it with his shoe, saying: 'This is what all these Americans should get.'"

ENGLAND NOT PREPARED TO TRY FORMER KAISER

Bonar Law Indicates Hobsonism will Escape Penalty in Reply to Commons Member

LONDON, (AP)—It seems now to be finally settled that the former German emperor, is not to be tried in connection with the war. The question was asked the other day of Premier Lloyd George, if the house of commons by Charles Frederick White, labor member for West Derbyshire, whether, "in view of the fact that Holland has refused extradition of William II, the supreme court would summon him for trial, and in the event of his non-appearance, would arrange that he should be tried in his absence, so that the promise that he would be tried in London might be fulfilled." Mr. White's reply was made by Andrew Bonar Law, leader of the house of commons, saying: "The government is not prepared to adopt this suggestion."

GOVERNMENT OF MEXICO ACTS IN MINERS STRIKE

Issues Ultimatum Demanding Resumption of Operations in Coahuila District within Three Days

EAGLE PASS, Texas, (AP)—The Mexican government Thursday issued an ultimatum to striking coal miners in the Coahuila district, demanding that the mines be in operation within three days, it was reported yesterday. In event the demands are not met within the specified time of 20 per cent. The miners would take over the properties and operate them. Reports that several persons have been killed in strike disorders could not be confirmed here. It was reported the Mexican government is demanding resumption of operation of the mines, which have been idle since October 11, ordered the operators to pay the workers a wage increase of 20 per cent. The miners went on strike when their demands for a 100 per cent advance was refused by the operators. Mexicans here asert that the American Federation of Labor is standing behind the strikers, who number about 19,000.

RADICALISM SPREAD IN MEXICO CAUSES ALARM

American Government Agents View with Concern Return of Coahuila Mines by Strikers

WASHINGTON, D. C., (AP)—Seizure of coal mines in Coahuila, Mexico, by striking miners, has served to increase the concern felt by American government officials over the steady spread of radicalism in Mexico. Details of seizure of the mines have not been received by the department but it has voluminous reports of the activities of the radical agitators and the soviet-like measures adopted in northern Mexico caused no surprise. The property occupied was one owned by the American Metals company, a German corporation, whose stock was taken over by the alien property custodian during the war and later acquired by Americans.

ROBBERY IS ATTRIBUTED TO TRAIN HOLD-UP SUSPECTS

DENVER, Colo., (AP)—Four men, believed by the police to have been the ones who attempted to hold up two trains near Denver Tuesday night, last night attempted to hold up A. J. Mackinzie, a wealthy rancher of Mexico, 15 miles east of here, as he was driving to Denver in his automobile. Police, who are searching for the men today, believe they wanted the car to leave the vicinity.

Serious Results from Colds

Colds not only cause a tremendous financial loss but are also a serious injury to every one who contracts them as they lower the vitality and prepare the system for the most serious disease. It is not at all unusual for people who have serious lung trouble to say "I had a hard cold last winter. Why not take Chamberlain's Cough Remedy and cure your cold while you can—adr."

Tell, in a classified advertisement, what you can do and what salary you want. Repeat your story, if necessary, until you find our work.

PLANS ARE COMPLETED FOR BOYS' CONFERENCE

Three Days Next Week Will Be Devoted to Southern Idaho Conclave

The older boys' conference for southern Idaho will be held in Twin Falls, November 26, 27 and 28. Free entertainment will be provided for all delegates and adult leaders in the homes of the people of Twin Falls. They are also to give a luncheon for all the delegates and leaders Saturday evening, November 27. Carlisle-Pickett is heading up the local committee on arrangements. The H-Y club has accepted the responsibility of making the arrangements. This club has a membership of 120 other fellows and is a real factor for good.

OFF FOR WASHINGTON AFTER SON'S MARRIED

Congressman and Mrs. A. T. Smith to Go East to Remain December 6

Congressman and Mrs. Addison T. Smith leave for Boise this evening, where they will spend a few days and then go to St. Maries, Idaho, to attend the wedding of their son Walter on the evening of November 25th and then to Washington, D. C., for the opening of congress on December 6.

ALFALFA QUARANTINE IS DISCUSSION THEME

Agriculture Bureau Considers Injustice Being Done State at Large

Ignorance on the part of officials of the state agricultural department was justly given as the reason for the maintenance of a rigid quarantine by bordering states against Idaho hay. The charge was made at a meeting of the agricultural bureau of the chamber of commerce.

ALFALFA SEED ROTS IN ROGERSON FIELDS

Agent H. E. Powers Tells of Probable Great Loss to District Farmers

That Hook Creek and Rogerson district farmers will be heavy losers if wet weather should continue much longer is the report brought by H. E. Powers, head of the alfalfa division, Idaho.
