Tells Assembly Time for Disarmament Has Not Yet Come—Cites Armenia's Plight as Cause for Armed Intervention

GENEVA, (AP)—An international military force, with an international staff, was proposed to the assembly of the league of nations today by Senator Henri LaFontaine, of the Belgian delegation.

Disarmament Premature.

Senator LaFontaine had somewhat startled the assembly by declaring that the world was not yet ready for disarmament.

"It is necessary to say frankly to the people," he said, "that the time for disarmament has not yet come."

He proposed that the armaments and armies be comprised in an international force, with an international staff, ready to be used "in the cause of right," in such a case as arose from the present situation of Armenia.

The first formal step looking toward the revision of the covenant of the league of nations was taken by the assembly of the league at today's session.

The Dutch minister of foreign affairs, H. J. Van Karamel, introduced a resolution for reconsideration of article 18, having to do with the registration of treaties.

The resolution provides that the reconsideration be conducted either by the assembly itself or by a committee, to make the meaning of the article clearer.

The text of article 18 reads: "Every treaty or international engagement entered into hereafter by any member of the league shall be forthwith registered with the secretariat and shall as soon as possible be published by it. No such treaty or international engagement shall be binding until so registered."

GREECE IS FIRST TO RATIFY LEAGUE LABOR CONVENTION

LONDON, (AP)—Greece is the first nation formally to notify the league of nations of ratification of the labor conventions adopted by the Washington labor conference.

FIELD GOALS WIN FOR HARVARD AGAINST YALE

Crimson Triumphs Over Blue in Closing Game of Season for Big Universities

YALE BOWL. New Haven, Conn.—Early football team, undefeated this season, won its expected victory over Yale in the annual meeting between Blue and Crimson in the Yale Bowl today. The Ell team yielded before the Crimson attack only enough to make field goals possible. Three field goals was the cause of Harvard's nine to 0 victory.

Two of these goals were credited to Coach Knickerbocker, the third to Captain Horvath, but the spectator army of nearly eighty thousand could not be sure of identifying Harvard's heroes of the day because they were unnumbered. The game was an expedition of latter day football, opened wide by forward pass and kick made necessary by failure of both teams to carry advances for considerable distances by rushing against the line. The treachery of the modern weapon contained in the forward pass was shown by the frequent interceptions by opposing players, which caused transition of plays almost in a twinkling.

England Recognizes Soviet Regime, State Department Believes

Proposed Trade Agreement is Far Reaching, According to Washington

WASHINGTON, D. C., (AP)—In the view of state department officials virtual de facto recognition of the Russian soviet government is extended by Great Britain in the proposed trade agreement between the two countries. A copy of the agreement has been received at the department.

FIXES DATE FOR GREEK ELECTION

People to Vote on Question of Return of Constantine to Throne

ATHENS, (AP)—The Greek people will vote November 28 on the question of the return of ex-King Constantine to the throne. The cabinet has decided for a plebiscite on this question on the date named.

Constantine has cabled to the government that he will await the result of the plebiscite before returning to Greece.

All foreign ministers accredited to the Greek government, have called officially on George Rallis, the premier of the de facto Greek government.

It is rumored that chief commander of the Greek army will be given to Prince Andrew, brother of former King Constantine.

General Lamproy has been granted to about 150 German trained Greek army officers who had been interned on the island of Chios during the war.

DRY LEADERS PROTEST RE-ISSUING OF PERMIT

Delegation Headed by Anti-Saloon League Executive Registers Objection

WASHINGTON, D. C., (AP)—Prohibition leaders today protested to the government enforcement officers against the re-issuing of permits to wholesale liquor dealers to handle intoxicating liquors. The claim was made by Wayne B. Wheeler, counsel for the anti-saloon league, who headed the delegation, that issuance of the permits to liquor dealers, not manufacturers or wholesale distributors was not authorized by the Volstead act.

The permits, hundreds of which are outstanding, expire automatically December 1.

WASHINGTON, (AP)—A commission of silk manufacturers from China will attend the international silk exposition in New York next February to demonstrate Chinese processes, according to cablegrams to the department of commerce.

VIENNA, (AP)—The Caranthian inter-allied plebiscite commission Friday declared its task ended and handed over the administration of the entire plebiscite district to the Austrian authorities.

MADRID, (AP)—All the striking store clerks of the city have returned to work, their employers consenting to salary increases ranging from ten to forty per cent. Future disputes, it was agreed, will be submitted to an industrial court.

WASHINGTON, (AP)—The British government has presented to the government of India one hundred De Havilland and Avro aeroplanes, according to reports to the department of commerce, the only conditions attached to the gift being that the machines should be used for purposes of demonstration and instruction and should not be sold.

WOUNDS PROVE FATAL TO PROHIBITION AGENT

Kirby Falls Succumbs from Injuries Resulting from Alleged Moonshine Still

OKLAHOMA CITY, Okla., (AP)—Kirby Falls, a prohibition enforcement agent, died here early today from a gunshot wound received while he was raiding an alleged moonshine still at the home of George Wells at Perry last night. A posse of officials has left for Perry.

SALT LAKE LINE BUYS PROPERTY OF D. AND R. G.

Representatives of Western Pacific Railway Pay \$5,000,000 Cash for Clark Road at Foreclosure Sale

DENVER, Colo., (AP)—Representatives of the Western Pacific railroad bought the properties of the Denver & Rio Grande railroad at foreclosure sale here today.

The sale price was five million dollars, cash.

The purchasers also agreed to assume \$14,175,000 obligations of the Rio Grande.

Pay Minimum Amount. The men who acted for the Western Pacific in the purchase were: John F. Bowls of New York, general counsel for the Western Pacific; John R. Marsh, and Ralph M. Arkes, all of New York. The amount for which the road was sold was the minimum amount set by the United States district court in its order for the sale of the Rio Grande.

Mr. Bowls announced to the Associated Press a few minutes after the sale had been made that he had bought the property for the Western Pacific railroad.

He said there was no definite plan to combine the Denver & Rio Grande and the Western Pacific properties and that the properties may be operated as separate lines.

"The roads of course," said he, "will be under common ownership and their operation will be closely aligned."

Stockholders Left Out. No provision was made to take care of the stockholders of the Denver & Rio Grande railroad, Mr. Bowls said.

The stock, common and preferred, amounted to \$87,750,000.

Attorney C. F. Carbine of Denver, representing the Denver & Rio Grande stockholders protective committee, read a formal protest against the sale.

Mr. Carbine attempted to interrupt the special master to begin reading his protest but was silenced by Mr. Bowls who advised him "do not interrupt the master."

Attorney George L. Nye of Denver, also read a formal notice regarding certain contract rights of the Utah Railroad company.

Asked after the sale if there had been any provision made to take care of the stockholders in the Denver & Rio Grande railroad company, Mr. Bowls replied, "They will get nothing."

Proceedings Are Brief.

The proceedings of the sale occupied exactly 40 minutes. Just as the noon whistle blew in the factories surrounding the Clark road, the freight house, where the sale was held, Special Master.

SERIOUS SITUATION IN NEAR EAST CALLS FOR PREMIERS' CONFERENCE

Prime Ministers of France and England in Early Meeting to Determine Joint Action Relative to Fall of Venizelos in Greece, Advance of Russian Bolsheviks in Caucasus Region and Consequences of Defeat of General Baron Wrangel in Russia

PARIS, (AP)—Premiers Georges Leygues and David Lloyd George of France and Great Britain probably will meet in London soon for a conference which is considered necessary because of the serious situation in the near east. A staff of experts will, it is understood, take part in the meeting.

The conference will determine upon joint action relative to three questions—the defeat of Premier Venizelos in Greece; the advance of the Russian Bolsheviks in the Caucasus region, and the consequences of the defeat of General Baron Wrangel in south Russia.

Mexico Objects to Proposed Visit of Senate Investigator

Agents on Border Report Instructions Not to Vise Fall's Passport

WASHINGTON, D. C., (AP)—Mexican consular agents on the border, it was said today at the Mexican embassy, have been directed by Roberto V. Pasquaria, Mexican confidential agent in the United States, not to give the passport of Senator Fall of New Mexico, for the senator's proposed visit to Mexico to attend the inauguration of President-elect Obregon on December 15.

Information at the embassy was that Mr. Pasquaria's action was predicated upon what was regarded by him as the intervention attitude of Senator Fall, who is chairman of the senate sub-committee which for upwards of a year has been investigating conditions in Mexico.

It was denied at the embassy that Mr. Pasquaria also had ordered the consular agents not to give the passports of Governor Hobbs of Texas, and Colonel F. Hobbs of San Antonio, who also planned to attend the inauguration of General Obregon.

CONGRESSMAN-ELECT IS KILLED IN AUTO WRECK

Charles F. Van DeWater of California and Secretary Meet Instant Death

LOS ANGELES, Cal., (AP)—Charles F. Van DeWater, republican congressman-elect from the Ninth California district, and his secretary, were killed early today 20 miles east of here in an automobile wreck while they were returning from a meeting celebrating Mr. Van DeWater's election.

The secretary, Miss Jauness Lehigh, was killed instantly. Mr. Van DeWater died within a few minutes. Mrs. Van DeWater suffered a fractured skull and Mrs. E. H. Jackson, fourth member of the party, was injured slightly.

According to reports to the police of Pomona, where the meeting had been held, the Van DeWater automobile crashed into a trailer standing by the roadside with uplift lights. The Van DeWater automobile was overturned.

Mr. Van DeWater was born in Hobart, N. Y., October 10, 1872. His father, a retired Methodist Episcopal minister, is living at Long Beach, Cal. An official of the anti-trust prohibition movement in California about 15 years ago, Charles F. had been identified with real estate, water and banking enterprises. His election in November was the result of a bitter struggle with Charles H. Rankin, the first prohibition member ever elected to congress, who had served several terms.

Mr. Rankin is the only prohibition member in the present congress. He also, had the democratic nomination in November.

SLIGHT DEMAND CLOSES SIX SUGAR REFINERIES

NEW YORK, (AP)—All six refineries of the American Sugar Refining company have been closed as a result of slight demand for the commodity, it was announced here today.

"We have ample stocks on hand and are prepared to make prompt delivery of all grades of refined sugar. Business has been closed temporarily only to lack of demand from the trade."

Moscow Dispatch Declares Necessity for Conflict in Neutral Zone; Fighting Is in Eastern Siberia

LONDON, (AP)—The Russian soviet government declares in a wireless message from Moscow that it is compelled to carry the war into the neutral zone between Poland and Russia because of the attacks being made on the soviet forces by General Balakovich in command of Polish volunteer forces which refused to cease fighting when the Polish-Russian peace was made, says an Exchange Telegraph dispatch from Berlin today.

Reports from Warsaw, adds the dispatch, suggest that Poland is fearful of Russia's intentions, as 15 Russian divisions are concentrated on the Polish line.

LYDD GEORGE DEFENDS STAND ON REPARATION

British Premier Declares Differences Between France and England Do Not Amount to Quarrel or Prejudice Alliance

PARIA. (P)—Differences between Great Britain and France do not amount to a quarrel, and the views of these two nations have in no way prejudiced the alliance which hold them together during the war, said Premier Lloyd George of Great Britain in an interview at London yesterday with the correspondent of the Post-Parliament. Mr. Lloyd George declared that regarding reparations, England would stand "elbow to elbow" with France but he insisted that the amount Germany will be called upon to pay should be fixed.

Ability to Pay Is Limit.

The interviewer told Mr. Lloyd George the question of reparations took precedence over all others in France.

"I will tell you exactly what I think," said Mr. Lloyd George. "It is very simple—and Germany pays all she can. Yes, but how much? Have you a figure? I say the amount should be fixed. Why do I say that? Is it to please Germany? Oh, who could think so!"

"I was a lawyer before entering politics, and when I confronted a debtor I had two courses to choose, either to enforce strictly the claims of my client, and sell the debtor's house and furniture at the risk of getting nothing or next to nothing, or saying to him: 'You owe so much. How much can you pay at once? How much in a year or in ten years.' This latter method I found to be best and this I advise following in dealing with Germany."

"But," objected the interviewer, "suppose you knew the debtor who displayed empty pockets was cheating?"

Will Stand with France.

Mr. Lloyd George smiled as he replied: "Would I believe a debtor without a check being placed on his statements? No, we must check up on the facts and the amount due, and when that is done, Great Britain will be seen close beside France in demanding payment."

"I have, I think," continued Mr. Lloyd George, testified by acts, and not only by words, to my friendliness and admiration for the French democracy. In return, the French people think I am becoming an enemy because I speak as a business man and as a realist."

FOURTH BANK IN NORTH DAKOTA CLOSING DOORS

State Institutions. One After Another, Suspended Operations Giving Various Reasons for Action

BISMARCK, N. D. (P)—The Beach State bank of Beach was closed Friday by its board of directors, it was announced by O. E. Loftus, state bank commissioner. This is the fourth bank to be closed in North Dakota this week. A fifth bank yesterday sent word to Mr. Loftus that it had decided to close.

Directors of the Farmers' State bank of Greene, N. D., notified Mr. Loftus that they would close the institution and ask for the appointment of a receiver. Expected withdrawal of public funds was given as the reason. Failure of farmers to meet notes held by banks is one of the principal reasons for suspending operations, Mr. Loftus said. Harvesting of wheat for higher prices and poor crops in some sections also are said to be responsible.

John Hagan, state commissioner of agriculture and labor, declared last night that in his opinion the federal reserve bank could adjust conditions by extending more credit. Mr. Hagan said farmers are being forced to sell wheat below cost of production and others are holding for higher prices. The closed banks, according to Mr. Loftus, "are not closed as faults, and may be reopened later."

Dr. Emilio Forres Suggests the Joint Action of North and South America

BUENOS AIRES. (P)—The newspaper Friday published a letter written by Dr. Emilio Forres, a prominent publicist to Nicholas Murray Butler, president of the American Association for International Conciliation, in which he expresses the attitude of President-elect Harding toward the present League of nations and pleads for a new league with "a more democratic organization."

The writer characterizes the present league as only a league of conquerors "for the exclusive use of themselves." "The North and South Americans," according to Dr. Forres, ought to initiate joint action "to obtain the organization of a true league or association of nations as Mr. Harding proposed, based above all upon democratic principles in the conduct of its authorities and government."

Victor Munoz Makes Use of Popularity of American Baseball Star in Candidacy for City Council

HAVANA. (P)—Victor Munoz, sporting editor of El Mundo, of Havana, who has attended all of the world series games in the last six years, won his fight for membership in the city council here the other day by novel advertising methods. Instead of attending political rallies, Munoz went to the ball games, and on election day took Babe Ruth, the home run king, to the polling places to help get votes. Ruth, unable to speak Spanish, made signs to the voters, who dived for other candidates and put Munoz over.

The day before election Munoz wrote a column account of the first game in which Ruth appeared. Everything read it, and under the name of the 236-pound editor-candidate, suggested this: "Candidate of great physical solvency for the position of councilman."

NINE PERSONS LOSE LIVES IN NEW YORK FIRE

Every Member But One of Two Entire Families Perishes when Five Story Apartment House Burns

NEW YORK. (P)—Nine persons, constituting every member but one of two entire families, lost their lives here today in a fire which destroyed a five-story apartment house at 305 West 14th street. Fourteen other families escaped or were rescued by firemen.

Originating, fire authorities say, in a baby carriage on the first floor of the brick structure, the fire swept upward through open stairways, cutting off escape through the halls. Nearly a hundred men, women and children, clad in night clothes, swarmed to the fire escapes, some making their way to the ground while others huddled for refuge on platforms in mid-air until carried to safety.

All the dead were found on the top floor after the flames had been controlled. They were: Raphael Gobbis, his wife Anna, and their four children, Carmelo, Frank, Lena and Jimmy, who ranged in years from 7 down to 1 1/2; Mrs. Ada Frank, Mrs. Bertha Reynolds, her sister, and Ruth Reynolds, a girl of 16.

Charles Frank, overcome by smoke, fainted over a window sill and was dragged to safety and revived by a man who reached out from an adjoining building and drew him across the narrow open space.

Other residents of the doomed building escaped over adjoining roofs.

The cause of the fire was not learned.

SOCIALIST LABOR PARTY REPORTS CAMPAIGN COSTS

WASHINGTON. (P)—The socialist labor party today reported campaign receipts of \$18,000 in November 12, and expenditures of \$10,146. The report to the clerk of the house of representatives stated that loans and donations had been made to party activists in Oregon, Michigan, Kentucky and Washington.

WIRELESS TELEGRAPHY IS AID TO NAVIGATION

Naval Officer Predicts Further Development of Communication at Sea

PHILADELPHIA, Pa. (P)—Admiral W. H. Bullard, director of naval communication service, in a paper read before the Franklin institute here, said wireless telegraphy is making navigation simple and safe.

"There will be a time when ships will be without chronometers and will be in constant wireless touch with New York until they reached the British channel," said Admiral Bullard. "This is not a dream; it is near at hand."

"By means of the radio compass a ship can get her bearings when she calls for it, anywhere along the coast of the United States. This instrument has already saved ships which were headed straight for the shore."

"The depth of water under the ship can now be accurately determined by the hydrophone, which works on the reflection from the ocean bottom of the sound of the ship's propeller. By this device shallow water can be avoided and even the proximity of icebergs detected. Ships also can communicate with each other by underwater waves, sent out by oscillators."

"By means of a cable laid along the bottom of New York channel and energized with current, a pilot, blindfolded, guided a destroyer safely to port, never getting more than 50 yards from the cable. The waves sent out by the cable were detected in telephone receivers, one on each ear, telling him whether he was to right or left of the guiding cable."

"Hurricanes can be detected by sensitive radio telephones, and even the general direction of storms are felt on wireless receiving apparatus. The time is now near at hand when by coastal stations and by the time given for certain longitudes, the ship can tell its location. Weather warnings and location of wrecks, derelicts and icebergs are given out."

CONFIDENCE AS AN ASSET FOR DEALER

"Patronage figures only as part of the day's sales, but confidence continues and becomes an integral part of the organization which called it forth," says Mr. C. E. Lind of the Lind Automobile company.

The dealer in automobiles who has erected his business structure upon the confidence of his patrons is amply in

assured against times of business depression and finds a ready market at all times for whatever he has to sell. This fact is becoming increasingly recognized by automotive dealers, and over the country generally is a more determined effort, on the part of the dealers, to merit the confidence of those who deal with them as well as to secure their patronage.

The development of this idea will make the world much safer for the buyer of an automobile. The time has long since passed when the dealer forgot about it the day after he sold a car. In our own organization we aim to follow each individual sale and to make certain that the car is performing in exact accordance with the expectations of the purchaser. We would rather have the confidence of one car owner than the patronage of ten, who feel that they are taking a chance, and who depend upon their own unaided judgment in the selection of whatever they buy.

With the selection of an automobile to sell was considered primarily from the viewpoint of establishing confidence in the minds of our customers, that is why we unhesitatingly can recommend any of the three cars we sell to our patrons. We believe that we can absolutely make good on this line up and that it will never destroy the element of confidence which becomes a part of every transaction in this establishment.

GRIZZLIES AGAIN DEFEAT BUHL BY OVERWHELMING SCORE; RAIN SOAKS FIELD AFTER FIRST HALF

Twin Falls Football Team Crashes Through the West-ender's Line for a 77 to 0 Count—Barry's Men Fail to Present Tricks that are Not Easily Intercepted or Solved by Evans' Pupils—Angelow Victim of Own Attack

With Buhl putting up a sturdier and more desperate defense than when Barry's men played in Lincoln field earlier in the season the Twin Falls Bruins brushed aside the west-ender's line today for a score of 77 to 0. There doubtless would have been more in favor of Twin Falls but rain, which started just at the finish of the first half and continued throughout the remainder of the game, put the field in soggy and slow condition. The first half ended with the score of 49-0 and the Evansmen going fast and hard against the foe.

Evans sent his men to play football compatible with conditions. Orders were carried out to a nicety and every offense tried by Barry's grid warriors was countered with a reply of appreciable advantage of the Bruins.

Mud Holds Score Down.
The experience Barry got when he sent his men against Twin Falls on the local field some weeks ago and was beaten 84 to 0, appeared to have effect for the west end team went into the field yesterday afternoon in top physical condition. They started smashing plays time and again only to be met with more smashing offense from the Grizzlies' side. Not once did the Bruins waver and never for a moment did they cease to batter and plunge against the mass attack of the foe.

The best of condition was apparent on both sides, but Twin Falls displayed a keener perceptibility of the various ramifications of the great American grid game than did Barry's students. The latter played hard to the finish and made considerable gains that earlier in the season would have dented the Buhl players for the count. That Barry's men were in the game at least to violate the Bruins' goal—nothing but done this evening was apparent in the very manner of attack. And it was this manner of attack that proved a boomerang for Barry who early lost his star player, Angelow.

Star Is Injured.
The quarterback is one of the sturdiest and most grim of players engaging in high school athletics. He is big and burly and a plunging and fearless as well as a fearsome player. He appeared on the field yesterday with a great yellow skull and crossbones emblemation on the front of his tunic. But the insignia worked against him instead of for him, and carried no terror to the fleet invaders.

In the first quarter, with the Bruins threatening the Buhl goal, Angelow received the ball and started a flee-sprint to get around the end. To meet a tackle he lowered his head and charged with bull-like ferocity, only to be met with a similar charge. The impact of two heads sent the Buhl giant rolling sideways and out of bounds with a "crack" in his neck. The Twin Falls player sustained no important damage but Angelow was the ward of a physician throughout the afternoon and did not participate more in the contest.

Play Shining Game.
"Speed" Newman played his usual star game, as did also Epler, Putzier, Hertz, Irwin and Fix. Tackling was well nigh perfect in all cases while interference has never been better. An intercepted forward pass in the first half by Hertz gave the Bruins a yard gain, while later in the afternoon Newman raced around the end escaping the opposing field until he was plucked out of bounds after making 55 yards on the run with only 15 yards to go. Newman took a punt for this run.

A short time before the game started some Twin Falls high school boys mounted the roof of the grandstand and bawled a Twin Falls pennant up the ballyards to the peak of the flagstaff. The pennant was soon observed by the opposition fans and a rush resulted for the pole. After a struggle, during which some blood was spilled and bruises sustained, a deputy sheriff intervened and ordered the Twin Falls folks out of the stand. Meanwhile a Buhl fan thrust climbed the pole and tore down the small flag, shreds of which were recovered by Twin Falls fans.

The Play.
Buhl kicked off, Angelow's kick to the goal line. The first touchdown within the first three minutes of play when Fix carried the ball over after a series of rushes which lifted the Buhl team off its feet. Goal was kicked. Buhl tried a passing game during the next few minutes which resulted disastrously for them as Hertz grabbed one and twisted 65 yards for a touch-

half, Hertz, Bieler; right half, Fix; fullback, Phillips, Yochem.

BASHAM PROVES WORTHY FOEMAN ALTHOUGH LOSER

British Welterweight is Knocked Out in 19th Round of Hard Battle

LONDON, (AP)—"Kid" Lewis last night knocked out Johnny Basham, former welterweight champion of England, in the nineteenth round of a 26-round bout was for the welterweight championship of Great Britain, which Lewis wrestled from Basham three months ago. It was a hard fought contest and anybody's victory up to the eighteenth round when Basham, after bleeding profusely from an injured ear, was fighting gamely.

In the nineteenth round Lewis sent his opponent down for the count of eight and then when Basham arose, landed a terrific right to the point of the jaw. Basham went down and was counted out.

POLOIST LINEUP.
NEW YORK, (AP)—Official announcement of the lineup of the American polo team that will go to England next summer to compete in the international games, is expected in a few days. Unofficially, it was reported to day that the team probably would be made up as follows:

Rumsey at 1, Watson Webb at 2, T. Hitechek, Jr., at 3, and Milburn at back, with Stoddard as forward substitute and Hopping as back substitute.

KELLEY REPLACES CRAVATH.
PHILADELPHIA, Pa., (AP)—Mike Kelley, manager of the St. Paul American Association baseball team, will replace Gavey Cravath next year as manager of the Philadelphia Nationals.

According to an announcement today by William F. Baker, president of the Phillies, Mr. Baker said Cravath has been given his unconditional release. Although Kelley has not yet signed a contract Baker said they had agreed on all details.

MIGHT TRY THE BRUINS.

TOLEDO, O., (AP)—Scott high school football team, holder of the interschool title by virtue of defeats handed the three eastern teams three consecutive years, is negotiating for a post-season game with Los Angeles, Cal., on Christmas day.

Signing of the final articles of agreement hinges on the outcome of the game today by Scott and East Tech of Cleveland.

HE DEVELOPED "PUNCH."
ELIZABETH, N. J., (AP)—Young Bob Fitzsimmons, son of the former heavyweight champion, in his first appearance in the ring after a year's absence, defeated Carl Tanner, a fourth heavyweight, last night, in the fourth round. The referee halted the 12-round match to save Tanner from further punishment. Fitzsimmons' temporary retirement was for the purpose of developing a "punch."

GETS DECISION.
NEW YORK, (AP)—Bill De Foe of St. Paul received the judges' decision over Gene Delmont of Memphis at the end of a 15-round bout last night at the opening of the Pioneer Sporting club.

FRUIT OFFERING FOR MISSION.
At the Sunday school period of the Church of the Ascension tomorrow pupils will present annual offerings of canned fruit for the Fort Hall Indian mission.

CHANEY WINS.
CLEVELAND, O., (AP)—Young Andy Chaney of Philadelphia was given the newspaper decision over Johnny Murray of New York, in a ten-round bout last night.

MATCH FOR DEC. 6.
TOLEDO, O., (AP)—Tommy Gibbons of St. Paul and Chuck Wiggans of Indianapolis will meet in a 12-round bout at the Coliseum here the night of December 6, it was announced today.

Did not reach the score compiled against Buhl on Lincoln lot, but it would have gone over that had the field remained in condition.

'Twas a great day for Twin Falls, with action from the start of the game to the leaving of the train for home.

Twin Falls put more patrons into Paris field yesterday than did Buhl.

Hal Chase says if the baseball quizes ever get him into court they will have to drag him there.

Of course, that can be done, too.

Also Chase declares he has not been summoned out of organized baseball, and has received an offer from Maggy McGraw of the Giants to play first base in Gotham next year.

Which statement, in fact of what McGraw has recently said about himself being the initiator of purity in baseball, has a rather flat ring.

Proving that Hertz's drawing thinks more of Al Young as a fighter than he does of his townman Able Minkind the Salt Lake fight promoter has sign of Young to battle Young Papke in the main event at next Monday night's Manhattan club show.

Pinkie Mitchell, a brother of Richie, of Milwaukee, has been signed to mix with Jack Britton on December 6 in Milwaukee. Pinkie has grown into the welterweight class and is expected to make a real scrap for the champion.

The Jackson-Tender go, billed for November 23 in Milwaukee, has been called off for the present. Jackson refused to go through with his end because of the illness of his manager.

It is probable that Yankee Schwartz, of Philadelphia, will be substituted for Jackson in this bout.

Mugger McGraw says he may take his baseball lunch into Mexico for training next spring.

But it is an even bet he will change his mind before the time for shipping his string of players to a conditioning spot comes around.

Auto-game statements that Coach Barry had a lot of "new tricks up his sleeve," were either idle boasts for effect, or the tricks are still in the sleeve.

Nothing was displayed on the Buhl side yesterday that was not readily countered by the Bruins.

It was unfortunate that Angelow should be knocked out, but he alone was responsible for the accident which laid him low.

Yesterday's first touchdown was effected in two minutes thirty seconds after the kickoff. Thereafter during the first half it was a march for the Bruins.

What the finish of your motor car must do

Your automobile is "dressed" for ALL seasons in its varnish coats and these coats must meet every emergency of heat and cold, weather and wear.
A few little films of varnish! They are all you have to protect your car! Your car's beauty is largely dependent on the ability of these thin films to stand up under the extremes of heat and cold, weather and wear. No wonder these films of varnish should be properly applied—and good materials used.

CHARGES GRAFT IN HIGH PLACES IN SHIP BOARD

Name of Brother-in-Law of President Wilson is Mentioned in Connection with Alleged Irregularities

NEW YORK, (AP)—R. W. Bolling, brother-in-law of President Wilson and treasurer of the shipping board, was named in connection with a \$40,000 bribe alleged to have been paid by a Staten Island shipbuilding company to procure unusual favors from the board. In testimony before the congressional committee investigating shipping board affairs here today.

Banker Gives Evidence
Tucker Bunde, former vice-president of the Commercial National bank in Washington, testified that it was his "understanding" that \$1,800 he loaned Bolling against his note, and that Bolling already had paid him \$40,000. Bolling is brother-in-law of President Wilson of the Walling Downey Shipbuilding corporation for unusual shipping board favors.

Bunde said that the \$40,000, he understood, was to be split four ways between himself, Bolling, Lester Sister, former shipping board secretary, and a man named Kramer.

Admits Previous Charges
Bunde admitted that in an interview with Alfred W. McLean, reporter of the New York Globe, he had made allegations of the alleged bribe, which were incorporated in an affidavit, a photostatic copy of which was submitted to the board today, prepared for him, Bunde's signature.

BOLLING MAKES CATEGORICAL DENIAL OF ALLEGATIONS

WASHINGTON, (AP)—There is not a grain of truth in it," declared R. W. Bolling, brother-in-law of President Wilson, after reading statements concerning him made today in New York before the house committee investigating shipping board operations by Tucker Bunde of Washington.

Mr. Bolling said he expected to appear before the committee and would wait until that time to answer any charges or questions concerning his position as treasurer of the shipping board.

WASHINGTON VETERANS READY TO CLAIM BONUS

Legion Executive Estimates Total Payments Under State Compensation Bill at about \$12,000,000

TACOMA, Wash., (AP)—Washington veterans of the world war are making ready to claim their bonuses under the terms of the soldiers' compensation bill, passed by popular vote at the recent November election.

Dwight M. Evans, state chairman of the bonus committee of the American Legion, expects that the soldiers will begin receiving their compensation in January.

Mr. Evans estimates that 50,000 men in the state will receive a bonus, and the total payments will total about \$12,000,000. It is believed that the residents of the state, whether male or female, are qualified for compensation if they served in the war against Germany with the U. S. forces or with the armies of the allies. The bonus of the deceased of any war veteran his compensation will go to his widow if she has not remarried.

The bonus bill provides a payment of \$15 for service of six months or major fraction thereof, from the time the United States entered the war until the armistice. The maximum payment, for a man serving from April 6, 1917, to November 11, 1918, would be \$405 for 31 months service. Thousands of young men who went into the first draft will receive \$300, Mr. Evans said.

Nurse corps members and other service women will receive a bonus. Soldiers are barred who were conscientious objectors or who received dishonorable discharges. All who did not fight and men who received no extra compensation, exceeding in amount the bonus to which their term of service qualifies them, are eligible.

The American Legion will institute a friendly test case in the supreme court. Mr. Evans said, in order to determine the validity of the bonus funds. The bonus will then be sold and special forms distributed so that payments can be facilitated.

SAYS JAPANESE IN U. S. OPPOSE FOREIGN POLICY

Dissatisfaction with Occupation of Siberia and Baghalian is Found by Former Minister

TOKIO, (AP)—Japanese in the United States are against the foreign policy of the Japanese government, according to K. Shoda, former Japanese minister of finance, who arrived in Yokohama recently from America, where he has studied the attitudes of the Japanese immigrants. In an interview with the Hochi, the former official said that his countrymen abroad are intensely opposed to the occupation of Siberia and Baghalian. Mr. Shoda is connected with the opposition party here.

Marquis Hirohata, who was present at the emperor's conference at Genoa and who returned to Japan by the same ship with Mr. Shoda, interviewed by the Hochi, said: "On my returning journey I visited California. As the result of investigations, I came to the conclusion that the talk of war indulged in by Japanese at home is largely responsible for the increased anti-Japanese sentiment of Americans, especially Californians."

Young Society Elopers to "Go to Work"

To the keen surprise of his friends, Carter R. Ledy, of Philadelphia, whose elopement with Miss Fifi Widener, daughter of Mr. and Mrs. Joseph Widener was one of the sensations of the last social season, has announced his intentions of donning overalls and "going to work." Young Ledy will do his bit like hundreds of others in a car factory at Berwick, Pa. Ledy was 18 years old and his bride seventeen when they eloped last winter. Young Mrs. Ledy says she will do all the housework in the cottage they have rented at Berwick.

COSTLY BLAZE SWEEPS NEW ORLEANS WHARVES

Damage Estimated at \$2,000,000 Results in Water Front Fire

NEW ORLEANS, La., (AP)—Damage estimated at approximately two million dollars was caused by a water front fire here today which the fire authorities believe was started by sparks from a steaming engine.

Fire which started near Congress street early this morning, in a new building, destroyed that pier and quickly spread along the river front until the docks for a length of four squares were aflame. The Truxillo and the Poncelet, two vessels tied up at the burning wharf, were tossed to safety, but later an all tank in the stern of the Poncelet exploded.

Several million feet of lumber here belonging to the government caught fire and much was destroyed.

SLAYER SUSPECT MAKES SECOND SUICIDE ATTEMPT

Alleged Murderer of Kansas City Society Girl Tries Twice to Take Own Life without Success

BROKEN BOW, Neb., (AP)—Dennis Chester, alleged slayer of Florence Barton, Kansas City society girl, made a second unsuccessful attempt to end his life in the county jail last night, county authorities reported today. He tried from his "bunk" in his cell head first to the floor of the jail. He heard struck the cement floor rendering him unconscious. He did not regain consciousness until this morning.

Chester attempted to kill himself by strangulation in the county jail here last yesterday. He tore a blanket into strips, tied one end around a bar of his cell, placed the other end around his neck and then allowed himself to fall backward with his feet still on the floor. He was found unconscious in this position by Sheriff V. C. Talbot and the latter's brother-in-law, H. P. Kennedy.

THE DELECTABLE CHICKEN.

Chicken is a favorite meat with people the world over and no matter how served, if well cooked, it is always popular.

Maryland Chicken.—Dress and cut up a chicken, sprinkle with salt and pepper, dip in flour, egg and crumbs, place in a well-greased dripping pan and bake in a hot oven, basting with one-third of a cupful of butter. Serve on a platter and pour over two cupfuls of cream sauce.

Chicken Curry.—Slit and cut the chicken at the joints in pieces for serving. Cover with boiling water, add two tablespoonfuls of salt and a half tablespoonful of pepper. Simmer for half an hour or longer if not tender. Drain, discard with seasoned flour and brown lightly with a tablespoonful of butter. Fry one large onion in the same fat, mix one tablespoonful of flour, one tablespoonful of sugar and one tablespoonful of curry powder or stock. Add one cupful of water or broth, one cupful of tomato or sour apple chopped with salt and pepper to taste. Pour this sauce over the chicken and simmer until tender. Add one cupful of hot cream and serve with boiled rice.

Jellied Chicken.—Bring to the boiling point two cupfuls of chicken stock from which the fat has been removed, add to it one tablespoonful of gelatin which has been soaked in four tablespoonfuls of cold water. Press into a mold four cupfuls of seasoned cooked chicken, pour over the stock, put under a weight and chill until firm. Any other meat may be served in the same way.

Chicken Pie.—Dress and cut up one chicken as for frying; cook until tender. Season when nearly cooked, lay the pieces in a baking dish, add one pint of stock thickened with two tablespoonfuls of flour, and pour over the chicken. Add a slice of onion. Make a biscuit dough, cut out as a biscuit and cover the top of the dish of chicken. Add cream or rich milk and bake until the biscuits are brown. Serve from the baking dish.

Historic Bells.

The largest bell ever cast was done in Russia in 1653, and to the intense disappointment of the makers it was cracked in the casting. The bell weighed 105 tons. The earliest record of bells is to be found in Exodus, where they were used as trumpets for Aaron's robe at the horn. A golden bell and a pomegranate, a golden bell and a pomegranate. The pomegranates were in brilliant colors and the bells tinkled to announce to the people when he came out from the altar.

Today's Markets

New York Stock Market

NEW YORK, (AP)—The stock market was very unsettled again today, a heavy opening giving way to further weakness, irregular recovery following later. Yesterday's weakest features, especially steel, oils and railway equipments, were under increased pressure with new low records for several hours such as Crucible Steel, Mexican Petroleum and Baldwin Locomotive. Fuel, leather and miscellaneous specialties also went lower on renewed liquidation. The latter class of stocks, however, rose 1 to 3 points, but cancelled some of their gains when industrials became more reactionary. Such firmness as was shown in isolated instances probably resulted from short covering, there being little public interest or support. The closing was irregular. Sales amounted to 350,000 shares.

The weekend session on the stock exchange opened with indications of a continuance of the recent severe liquidation, although neutralized in part by the firmer tone of investment rails. Crucible Steel, which led yesterday's advance setback opened at a further loss of 1 3/4 points to a new low for the year, and Mexican Petroleum also recorded a new minimum its decline of 1 1/2 points. American Smelting, Best Sugar, California Packing and Tobacco Trust averaged losses of 1 point. Great Northern, Reading and Southern Pacific hardened and Royal Dutch and Virginia Carolina Chemicals recovered part of their recent declines.

Liberty Bonds

NEW YORK, (AP)—Liberty bonds closed 3 1/2's \$95.30; first 4's \$87.10; second 4's \$85.60; third 4's \$84.62; fourth 4's \$85.70; Victory 3 3/4's \$95.94; Victory 4 3/4's \$95.94.

Grains and Provisions

CHICAGO, (AP)—New low figures on the crop were again recorded today for wheat and corn futures. There was a fairly strong opening in wheat influenced by export conditions but after initial buying by seaboard houses ceased there was no support to the market and it slumped from 3c for December wheat to 2 1/2c for March. Liverpool advices had it that United Kingdom wheat supplies had reached such a volume that the British wheat commission was likely to reduce the fixed prices of wheat to millers.

Opening wheat prices, which were from half to 1 1/4 lower, with December 1 1/2c to 1 1/4c, March 1 1/2c to 1 1/4c, first offered at the higher levels and then fell to 1.09 for December and \$1.00 3/4 for March.

After December wheat had touched \$1.07, there was a rally based upon the week-end covering and bullish export reports. This movement continued to the end with the close at \$1.08 1/2 to 1.09 for December and \$1.05 1/2 to 1.06 for March. The net declines for the day ranging from 3 to 4 5/8c.

Commission houses sold corn and there was renewed liquidation in that pit. The opening was from 1 1/8 higher to 1 1/2c lower, with December 60 1/2 to 1 1/4c, May at 72 to 71 1/2c and July 72 1/4 to 72c. The slump carried December to 65 1/4c and May to 70 7/8c.

The wheat rally had small effect on corn and when it was off, the market eased off again. December corn closed at 64 3/8c to 64 and May at 70 to 69 7/8c. Data followed corn closely with the May option closing at 48 to 47 7/8c, the rally to 48 3/8c from its low of 47 5/8c.

Oats dropped from an opening of 48 3/4 to 1 1/4c for May down to 48c.

Provisions were also weak with fresh pork and lard at reductions in the cash market.

SALT LAKE LINE BUYS PROPERTY OF D. AND R. G.

(Continued from Page One)

ter William A. Jackson began reading the formal notice of the sale. There were approximately 4000 words in this notice. At exactly 12:40 o'clock, he announced that the road had been sold to Messrs. Davis, Marsh and Arkush.

The sale was held just outside the offices of the freight house and the financiers, attorneys and others who attended the sale were kept busy dodging trucks and wagons going to and from the freight house. About 100 persons, including five or six women attended the sale.

Glossy Tumultuous Chapter.

Sale of the Denver and Rio Grande to the highest bidder by order of the United States circuit court of appeals, marks the close of a tumultuous chapter in the history of the road founded by General William G. Palmer in 1871.

Millions of dollars a year in wages were paid annually in the prosperous period of the road's history and other millions were used in numerous efforts of various financial interests to gain control of the railroad. From the time the Jay Gould interests caused the retirement of General Palmer from the road in 1883, it was the object of financial companies and individuals until the receivership caused by default of the road in payment of Western Pacific railroad bonds in 1918, bond payments having been guaranteed by the Denver & Rio Grande.

Court Takes Hand.

The bond issue was for \$50,000,000 and when the Equitable Trust company of New York brought suit and obtained judgment in 1918, this had been reduced to a little more than \$35,000,000—the amount of the judgment. On January 20, of this year Edward L. Brown, president of the road, and Alexander B. Baldwin, vice president of the Western Pacific, were named as receivers by Judge Walter L. Sanborn of the United States circuit court of appeals. A month later Brown was named sole receiver, comply with regulations of the United States railroad administration during the war. He was delegated agent of the administration.

Hearings were held before a United States master in chancery and on September 25, 1920, an order was signed by Judge Sanborn for the sale of the road, over the protest of a stockholders' committee who had petitioned for a month. The road was advertised for sale for 30 days and November 20 set as the date of sale.

Part of Palmer's Dream.

The road was built originally as part of Palmer's dream of a line running from Denver to El Paso. Development of the mining enterprises in the western part of the state resulted in a change in the direction of the road's development. The construction of branch lines westward into the mining communities became a part of the contest between the road and the Union Pacific for control of the Rocky Mountain territory. The latter road already having an advantage in the northern Rocky Mountain region.

Among the prominent railroad men connected with the road in various capacities were George Gould, Benjamin F. Buck and H. V. Mudge.

Jiji Shimpō Counsels PATIENCE WITH AMERICA

Tokio Newspaper Argues for Confidence in Government's Settlement Efforts

TOKIO, (AP)—Discussing the California question, the conservative Jiji Shimpō said that it is necessary that patience be exercised and confidence placed in the sincerity of the American government authorities who are now doing their best for the happy settlement of the problem.

The journal filed the special attention of the Japanese people to the American system which prevents the federal government from interfering with the legislation by states. It will be well for the American authorities to know sincerely the American authorities endeavored to prevent the anti-Japanese legislation regarding land ownership proposed since this year in California and how futile were all such efforts, said the Jiji Shimpō.

Japanese Newspaper Charges Assistance Given in Honolulu to Independence Movement

TOKIO, (AP)—The Kokumin charges that a newspaper which is fostering the Korean independence movement is being published in Honolulu and that copies have been brought into Japan and Korea and eagerly read by the more radical Koreans. Back of the Korean movement, the Kokumin tells its readers are foreigners.

Furthermore, the newspaper avers that a provisional Korean government has been organized in Hawaii and the first "president of the Korean republic" has been named. The Sanbho given as the name of the new publication. The independence activities being carried on at Honolulu, says the Tokyo journal, are more energetic than those at Shanghai.

SLOTH BEAR.

"It is well," said the Sloth Bear to the Japanese Black Bear in the zoo, "to be recognized easily. Then one's friends know who one is."

"Who are your friends you want to have so sure of knowing you?" asked the Japanese Black Bear.

"Well," said the Sloth Bear, "I'm not sure just who I'd want to let know who I was, but I think it is best to be yourself and look like yourself and all of that."

"Most creatures look like themselves, don't they?" asked the Japanese Black Bear.

"Bears don't look like boys and boys don't look like bears, and little girls don't look like chimpanzees and monkeys don't look like birds."

"As far as I can make out," the Japanese Black Bear continued, "creatures look pretty much like themselves."

"That is true to a certain extent," said the Sloth Bear. "In fact it is true to a very great extent. And in fact I would almost say it was entirely and absolutely true."

"But what do you mean then when you say it is well to have creatures look like themselves?" asked the Japanese Black Bear. "I shouldn't think that always would be a good thing. Just suppose a man with a gun was out looking for bears and the bears should look like pussy cats—that wouldn't be bad, eh?"

"Japanese Black Bear," said the Sloth Bear, "you are a ridiculous creature."

A Ridiculous Creature.

ture. I started to tell you that I am very much like myself and no one else."

"So that was what you started out to tell me," asked the Japanese Black Bear. "Well, I'm glad you have said it to me, considering you started out to tell me that. I am so glad you don't have to go home or to the other end of your cage or to sleep without feeling that you had told me that. And I am so glad that you are like yourself. I had thought for a long time you were very much like a fish."

"Japanese Black Bear," said the Sloth Bear, "you are in a very silly frame of mind. Something must have made you like this. But still you're good-natured and you're not always like that. I've heard that your relatives who came first were nice and friendly, but that all of you Japanese Black Bears who have come to the zoo lately have been very nervous, shy and also cross."

"Well, I'm feeling a bit more friendly today. After all I'm a pretty interesting bear. I come from Japan, as my name tells you, and I'm one of the smallest bears in the world—next to the Malayan sun bear in smallness. I'm like a little black bear of the United States of America—you know what I mean—the American black bear—I'm like him in looks, except I am so very much smaller."

"I know that," said the Sloth Bear, "but I wanted to tell you how nice you was to look so like one's own self, as I do. I am called the Sloth Bear and the Long-Lipped Bear. I can be seen far, far away and recognized because of my great black hair which is so long and my white muzzle or nose and my long white claws. I have interesting ways, too, and I come from the forests of India. Ah, yes. When creatures see me far off they know who they are looking at, for you couldn't mistake me for any other bear than a Sloth or Long-Lipped Bear."

"Ah," said the Japanese Black Bear. "It is better when you say that creatures know you then they see you from afar than when you say, as you did before, that you could be seen far away—just as though you might be far away, but always around."

"There might be times, plenty of times, when you wouldn't be recognized because you wouldn't be around at that time, would that not?"

"Oh, Japanese Black Bear, you're full of your jokes today, full of them," said the Sloth Bear.

"Soon I will be full of dinner and that is better," said the Japanese Black Bear as he saw the keeper coming around with his dinner, and the Sloth Bear said:

"Yes, that will be better, much better."

Treed by Elephants in Wilds of Borneo

Mr. and Mrs. MARTIN JOHNSON

Mr. and Mrs. Martin Johnson, noted globe trotters, photographed upon their return to the United States with their pet, a gibbon and an orang-utang, 22 members of their thrilling experiences with the cannibals of the Solomon Group. Mr. and Mrs. Johnson sailed in 1914 to the South Sea Islands and went to the Island of Malekula. They were made prisoners by the cannibals and only the arrival of a French battleship two days later saved them. In telling of his experiences in Borneo, Mr. Johnson said while making a trip through the jungle, their party was forced to take to the trees when attacked by a herd of elephants. They remained in the upper branches of the trees for an entire night. Mr. Johnson is holding Bessie, the orang, who added quite a thrill to the trip from London to New York when she secured a bottle of vermouth and went on a spree. Bessie was nursing a big head upon her arrival.

FAMINE FORCES INFUX OF CHINESE TO ISLANDS

Manila Immigration Office Reports the Arrival of 1200 Orientals within Two Weeks

MANILA, P. I., (AP)—More than 1200 Chinese immigrants have arrived in Manila during the last two weeks, according to a statement from the immigration division of the bureau of customs. The authorities say that the unusual influx of Chinese at this time is due to famine conditions in the five provinces of China where millions of people are said to be starving to death by reason of the failure of crops.

Upwards of 600 of this number hold to be in the merchant class have already been permitted to land but the immigration authorities assert that the remaining 600 who are held for investigation probably will be refused admission to the Philippine islands.

The collector of customs, Vincente Aldabas, said: "While it is true that some of these Chinese have been admitted into the Philippines, in virtue of priority of residence of their protection, parole or other members of the family, I feel sure that more than one half of them will be refused admission and will be returned to China."

TOKIO TRADING ACTIVITY LIMITED TO SILK MARKET

TOKIO, (AP)—The silk buying syndicate purchased approximately 5000 bales of silk today, but otherwise there was no business.

The October exports of silk, the lowest in months, totaled 12,200 bales, of which 9263 went to the United States. Rice is slumping heavily and the farmers are dumping their stocks on the market.

DECREASE IS SHOWN IN CLEARING HOUSE RESERVE

NEW YORK, (AP)—The actual condition of clearing house banks and trust companies for the week shows that they hold \$12,470,380 reserve in excess of legal requirements. This is a decrease of \$19,735,600 from last week.

A MUSICAL REMINDER.

John Burton was certainly a steady man; but he was a bit too steady for Clara Hopkins. They had been engaged to be married 15 years, and still he had never asked her to name the happy day. One evening John called in a romantic frame of mind, and asked Clara to sing something tender and something that would remind him of him. After a moment's thought she sat down at the piano and sang an old ballad with meaning. It was entitled, "Darling, I Am Growing Old."

WILLIS-KNIGHT CARS MAKE SOME RECORDS

According to John R. Taylor, manager of the Browning Automobile Co., Twin Falls, Idaho, reports from all parts of the county are reaching the Willis-Knight company of Toledo, O., to the effect that the new Willis-Knight is a motor car of even more remarkable qualities than the series of Willis-Knight cars which have preceded it.

A striking evidence of this fact was established this summer when in the Los Angeles Yonemite Economy run, the biggest event of the year on the coast, a Willis-Knight romped home in second place in class 2, its record for economy in gas, water, oil, being beaten by only one other car—and that winning car happened to be a new Overland sedan.

In this economy run, a 355 ton which included 100 miles of mountain travel, the Willis-Knight driven by Tim Stevens, established a mileage of 217 per gallon of gas.

Even better records have been established in drive-aways of the new Willis-Knight cars and in the hands of owners themselves. E. Brazier, of Chase, Md., left the Toledo, O., factory of the Willis-Knight company on July 22 for his home in Chase, Md., a distance of 582 miles. The car on this long run averaged 22.67 miles to the gallon of gasoline despite the fact that it was an unseasoned, unnumbered car.

The purchaser of the car, Daniel Weber of Roseville, Md., with his wife and daughter, accompanied Mr. Brazier on the trip home. They have made of it a record of the correctness of the mileage record. It required 30 1/2 hours, driving time, to make the trip.

P. D. Warren, manager of the First National bank of Coeur d'Alene, Idaho

is the owner of a new Willis-Knight coupe. On a run from Coeur d'Alene to Lewiston, a distance of 412 miles over a level dirt road, the car, carrying four good sized men, used 18 gallons of gasoline, an average of 23.4 miles to the gallon. And this was accomplished with a Willis-Knight that was practically unseasoned having been run less than 1000 miles.

Scarcely a mail reaches the Willis-Knight company that does not contain a report of some new record made by the new Willis-Knight.

VOTERS ENDORSE INDUSTRIAL COURT

Now that the more strenuous features
of the recent political campaign have
been passed upon by the voters, it may
be in order to call attention to one that
has not received a great deal of at-
tention outside of Kansas, where the
idea of an industrial court had its in-
ception.

It will be recalled that the radical
miners of Kansas opposed the labor
court law with great uncton, and Gov-
ernor Allen, the author of the idea as
it is effective in Kansas, was made the
subject of the most bitter opposition of
the elements of labor who could see
nothing except the strike for settlement
of labor differences.

The people of Kansas, by the largest
majority in history, have re-elected
Governor Allen and placed their ap-
proval on the industrial courts law. It
is significant that an analysis of the
vote reveals the belief that a large per-
centage of the labor vote was given to
Governor Allen, with the exception of
the more radical elements.

The fine thing about the Kansas law
is that it is working effectively, both
in the interests of employers and em-
ployees, despite the contention by some
labor leaders that it would only "en-
slave" the laboring man and make him
subject to the autocracy of the courts.
No such result has occurred, and it is
not likely to occur.

If the industrial court idea works
well in Kansas, what is to prevent every
other state from adopting the principle?
The time and money which is now lost
in strikes and lockouts would be saved,
and employers, employees and the pub-
lic would be the gainers in every way.
The rights of no interests are adversely
affected by the decisions of an impar-
tial tribunal, and if errors were made
the way would be opened for reconsi-
deration.

The coal strike in the bituminous dis-
tricts one year ago brought to the front
the rights of the public to participate
in any labor disputes affecting essen-
tial industry, and the same principle
was recognized in the railroad contro-
versy. It will be a splendid condition
when labor disputes are considered from
a judicial standpoint and the rights of
all parties interested respected.

ROBBING CHILDHOOD

A recent canvass of conditions in the
schools of Cleveland, made by the med-
ical department of the board of educa-
tion, developed the fact that more
than 80 per cent of the pupils were un-
der-nourished; they were either receiv-
ing not enough food, or food that was
not adapted to their needs.

Health Commissioner Robertson of

of sufficient sleep on the part of chil-
dren of school age is costing the lives

of 5,000 of them each year in Chicago
alone. He believes that similar condi-
tions obtain in nearly every large city
in proportion to population.

Medical authorities are agreed that
children of school age should not be per-
mitted on the streets after nine o'clock,
for it deprives them of the sleep that
is necessary for the proper growth of
the body and development of mental
powers.

It is not surprising that so many
children fall in their studies at school,
and the records of schools in the mat-
ter of efficiency in mental application
are not such as to create either pride
or reasonable satisfaction on the part
of school authorities or parents. One
of the causes of physical and mental
deficiencies is indicated by Commission-
er Robertson. School authorities, he
says, are able to apply regulations dur-
ing school hours to overcome some of
the bad habits into which so many pu-
pils have fallen, but they can only ad-
vise the parents regarding the manner
in which the time of the pupils should
be spent outside school hours.

INCREASES IN LAND TAX ARE AGITATED IN SPAIN

**Alleged Profiteering by Land-
owners Arouses Wave of
Dissatisfaction**

MADRID, (AP)—Alleged profiteering
by landowners has aroused an agitation
here for a tax on the increases in land
values. A writer in the newspaper La
Libertad, accuses the proprietors of
rapacity in increasing the prices at
which they held their farm lands and
of taking advantage of the high cost
of home-grown grain brought about
by the advance in freight rates on the
foreign product. He says they have ad-
vanced their land prices to five and
six times former values without pay-
ing anything into the national treasury
as a tax on this appreciation.

An instance is cited in which an
owner sold one farm at nine times the
price he paid for it five years ago. The
newspaper writer declares that these
large increases have cost the land-
owner practically nothing, but asserts
that it is high time a law taxing the
increase in land values should be es-
tablished in Spain, modeled after
those in Germany, Canada, and Aus-
tralia.

VANDERLIP TO RESTORE GOOD LOOKS TO VILLAGE

**New York Banker and Millionaire
Takes Old Settlement Under
His Wing**

SPARTA, N. Y., (AP)—This little
village—fallen into decay from the
homely dignity it enjoyed a hundred
years ago—has been rescued to its
cleanliness and architectural simple-
beauty.

Frank A. Vanderlip, New York
banker and millionaire, who has bought
the entire place is rebuilding it.
The sang brick home which thrifty
townsmen erected long years back will
be renovated and reinforced. Gardens
will bloom again where rank grass and
weeds have won their way. And clean
streets and neat sidewalks will be re-
placed.

Speaking of his plans for Sparta—
which is part of Ossining, N. Y.—Van-
derlip declared stories that he intended
to build modern tenements here. Re-
storation of the old place to its former
elegance is his desire.

"Of course we hope to get rid of
what elements there are which are not
the best in Sparta," Mr. Vanderlip
said. "Restoration of the village ar-
chitecturally will be accompanied by
efforts to restore its morals."

The notoriety Sparta received a few
years ago, when the district attorney of
White Plains declared Sing Sing con-
victs working outside the prison fre-
quented its saloons, has not helped the
village's reputation. Wealthy resi-
dents of Ossining and of Scarborough,
on the Hudson half a mile to the
south, have deplored the "increasingly
ramshackle" aspect of the place
and Mr. Vanderlip's object is not only
to improve its "run down character"
but to "restore its looks."

WASHINGTON STATE COLLEGE URGES FARM FLOCK OF SHEEP

PULLMAN, Wash., (AP)—The "farm
flock" of sheep is the object of a new
livestock campaign which has been
launched by the Washington State col-
lege extension service, the aim being to
get more sheep and better sheep in
Washington. Farm boys are to be in-
terested in sheep raising at home. It
is believed that many of the boys can
be interested in sheep raising as a
permanent business.

DESTROYERS ASSIGNED FOR VACATION CRUISES

**San Diego Navy Men Accommodated
in Wish to Spend Years of Absence
in Los Angeles**

LOS ANGELES, Cal., (AP)—Two 46
knot destroyers have been assigned to
a naval ferry service between San
Diego and Los Angeles, for the benefit
of navy men stationed at San Diego,
and who have friends or relatives here
with whom they may wish to spend
their leaves of absence.

Admiral Hugh Rodman, fleet com-
mander, in announcing the new ser-
vice said that observation had shown
that ever since the fleet came to the
Pacific its men had made Los Angeles
their goal when given shore leave. Land
transportation, he said, had been slow
and expensive, and in many cases the
men had spent half their leave coming
here and returning to station.
The destroyers, it was stated, can
carry 300 passengers, will make the
run from port to port in two and a
half hours, and will transport the sail-
ors without charge.

MINE CONGRESS OPPOSES FEDERAL BLUE SKY LAWS

Resolutions Touching Nearly a Score of Subjects Adopted at Closing Session

Denver, Colo. (AP)—Animated debate which led to withdrawal from the report of the resolutions committee of a clause upholding all state "blue sky" laws featured the last session of the twenty-third annual convention of the American Mining congress here Friday. Selection of a 1921 convention city was left to the board of directors.

Report of the resolutions committee was adopted unanimously after the defeated clause had been stricken out. "Federal blue sky" legislation was objected to.

Repeal of excess profit taxes, creation of a federal board to settle taxation cases carrying out of war conditions, a national "hands off" policy in the coal industry, higher tariffs on minerals, and lower railroad rates were among resolutions which received the convention's sanction.

The "closed shop" was attacked in an address by L. Ward Banister, Denver, who said the labor unions were becoming "a great trust," and declared "open shop sentiment is sweeping the nation."

W. O. Eberd, president of the Chicago and Alton railroad, said federal control of railroads was a "failure." Speaking of the labor situation, he said "there is still danger from the greed and avarice of the corporations' class." He said the "class" of the country must "unite in common interest with a common purpose" to achieve settlement of industrial problems.

Resolutions touching nearly a score of subjects were adopted.

Weather Forecast

WASHINGTON, (AP)—Weather predictions for the week beginning Monday are:

Upper Mississippi and lower Missouri valleys: Generally fair weather and normal temperature first part; rain or snow about Wednesday, followed by fair and colder.

Northern Rocky mountains and plateau regions generally unsettled and occasional snows and rains. Considerably colder probably the last half of week.

Southern Rocky mountain and plateau regions: Rain or snows Tuesday or Wednesday; otherwise generally fair with normal temperature.

COURT CLEARS WAY TO SETTLE SALMON CASES

Judge Dietrich Rules All Salmon River Project Settlers Should Be Parties to Foreclosure Suit

In two decisions just entered by Judge F. S. Dietrich in federal district court in Boise, in foreclosure suits brought against settlers by the Commonwealth Trust Company of Pittsburgh as trustee for the Salmon River Land and Water company, the way is paved to make all Salmon River project settlers parties to any action for foreclosure on water contracts that may be brought.

The decisions are considered of far reaching effect and importance, in that they are deemed to remove one of the principal obstacles to a settlement of difficulties involving the project almost since its inception.

Allows Broad Scope

In the case in which Max Smith and Margaret Smith are defendants represented by Turner K. Hackman of Twin Falls, the court holds that "the question of parties which the defendants were preliminarily raised by motion is in its main aspect the same as the question just decided (in the case of A. E. Caldwell and others) and that "insofar, therefore, as the motion seeks to have brought in as parties the other settlers, it must be allowed." Motion in the Smith case that the beneficiaries of the trust deed should be joined as plaintiffs is denied on the grounds that they are represented by their trustee, the plaintiff.

Points Out New Policy

In the Caldwell case which is defended by James R. Bohlwell, attorney for the Salmon River Settlers' association and Sullivan and Sullivan of Boise, the court holds that it is proper for adjudication "an issue to which all the settlers are indispensable parties for upon it (an amended complaint) any decision that may be entered will necessarily affect the interests of absent claimants and may be inconsistent with equity and good conscience." The court holds in conclusion, that "it is a question of jurisdiction of which the court must be cognizant. Courts of equity have not the power to enter a decree in the absence of an indispensable party, whose rights must be necessarily be affected thereby. In view, however, of the fact that the precise question has not been presented, and of its great importance, I shall be very willing to give it reconsideration upon a petition for rehearing or in any other manner upon which counsel may agree. No course is now apparent upon which we can proceed without violating fundamental principles of justice but possibly one can be suggested. In the absence of such suggestion, the order must be either set aside or the parties be brought in or the cause dismissed."

Gives Reason for Change

In a preliminary review of the Caldwell case in which the complaint was filed December 14, 1914, and which was brought on for trial in the latter part of July, 1920, Judge Dietrich recalls that during the intervening period he denied a motion to make all settlers parties to the suit "upon the ground that the issues thus presented were not suggested in the complaint." "Subsequent observation and experience in relation to litigation growing out of the project," Judge Dietrich says, "served to deepen the conviction that this question ought first to be conclusively adjudicated by a proceeding binding upon all interested parties. Out of it primarily the numerous suits now pending in this and the state courts have arisen, and because of it the cases in all greater numbers are likely to follow. And yet with all this litigation, some of which has been pending for an undecidable length of time, no real progress seems to have been made, owing to the want of necessary parties in any given case."

Questions Plaintiff's Attitude

"From their attitude in this and other pending suits it is to be inferred that the plaintiff and the company are, to say the least, disinclined to seek a general, binding adjudication. But since this issue unsettled it has become so manifest that a decree of foreclosure may do great injustice to one or the other of the parties, that a court of equity must seriously consider whether, to avoid such possible injustice to the defendant, it must not either afford him an opportunity to have the requisite adjudication, or resolve such doubt as there may be in its favor, or decline to entertain the suit at all."

Indicates Procedure

Pointing out general lines on which litigation involving the project may be expected to develop, the court says in its decision in the Caldwell case: "If plaintiff is entitled to recover and holds liens upon the settlers' lands for the company's entire outlay, the amount of such outlay must first be determined; and if * * * this amount, whatever it may be found to be, is to be allocated pro rata to the defendants, it is to have the beneficial use of the entire water supply, such area must be found both in amount and in definite location. "Under such a theory it follows as of course that if the defendants' lands are to receive their due proportion of an adequate water supply, they are subject to a lien for the proportionate cost of the system. If, upon the other hand, they can and will be lawfully excluded from the area to which the water can be supplied, by parity of reasoning, they are under no obligation and are subject to no lien. Hence * * * we have the fundamental and avoidable question of the dignity, and status of the defendant's water, and that cannot be adjudicated without the presence of all claimants."

NEWMAN'S GREAT TOE SETS UP NEW KICKING RECORD

Sensational Bruins' Quarter-back Puts Over 58 Consecutive Goals

Six football games have been played by the Idaho Falls Bruins "Speed" Newman missed kicking a goal. He has missed but one this season out of 62 attempts. The failure was recorded in the game with Piler when ten touchdowns, nine goals and a safety were recorded.

Newman's record is said to be an example in the west, and as far as available records show no similar work has been compiled by an individual player in schools or colleges of the country. Just which one of the tries he failed in in Piler is not a matter of record, but the player himself thinks it was the fifth. If this is true he has kicked 57 consecutive goals since the failure. The Twin Falls team has compiled a record of 435 points to nothing by opponents this season. This is a much more impressive record than that compiled by the Boise team, which has won up but 150 points this year, and has been scored on more than once by the opposition. Boise's record is 1 to 20, both Caldwell and Layette scoring the Ada players' goal line. The Bruins' record is 10 to 0 for Boise but Caldwell beat Boise 10 to 7.

WALTERS CONFESSES POSSESSION OF BOOZE

Quantity of Moonshine Whiskey Basic Cause which Lands Man in Jail

Picked up by police officers last night and delivered into the custody of the county authorities, T. A. Walters, this morning confessed in the probate court, confessed the correctness of a charge of illegal possession of intoxicating liquor. He has been bound over to the district court for trial.

When arrested Walters had in his possession one pint bottle and a half pint bottle full of moonshine whiskey, the contents of the larger container being water white, the smaller being colored. On examination Walters declared he procured the stuff at a local poolhall but gave no further detail.

FIVE MEN ADMITTED TO NATURALIZATION

Natives of Foreign Lands are Given Enfranchisement after Examination

At a citizenship examination, held this morning in the district court, five foreigners were admitted to naturalization. One was considered to make the study of the constitution and laws of the United States. He will be up again for examination at the next term of court.

The class to be examined consisted of about 16 applicants, the quiz being continued this afternoon with Del L. Sullivan, examiner of Salt Lake, in charge. Judge Babcock presided. Those admitted this morning are: George Riehl, a native of Norway; Nels Pentou, a native of Sweden; Anton Barnhard Kalland, of Norway; Christian Christensen of Denmark. Alexander Findlay appeared but was not verified by the required number of United States citizens.

A GOOD PLACE TO TRADE

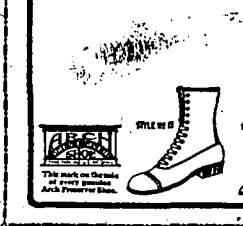

Keep your Feet Young HOW often you have wished that your own feet might be as active and healthy as the feet of your children. Yet this is not a vain wish, for foot vigor and comfort are not the exclusive riches of childhood. They may be preserved throughout your lifetime if you wear the right kind of shoes.

ARCH PRESERVER SHOE

preserves foot health because it fits the foot, comes up to the arch and stays up. It provides a permanent non-changing tread base for the foot—to keep the arch from falling down.

And you can wear Arch Preserver Shoes without sacrificing style. You always feel well dressed in Arch Preserver Shoes. You will say they are unusually fashionable. Come in and try on a pair of Arch Preservers. Find out what a real shoe fit feels like.

TOM'S CAFE
