Virginia Plans Fitting Welcome to President-elect on Arrival and During Two Days' Stay in State

FRIENDS DISCUSS PLACE FOR LEAGUE CONFERENCE

ON BOARD THE STEAMSHIP PASTORES (P)—The great President-elect Harding and party today, necessitating discarding their white raiment of the tropics for warmer clothing. The steamship Pastores was off the Carolina this morning and in spite of a heavy wind was making good headway. Captain Glenn predicted that the ship would dock at Norfolk by noon tomorrow.

VIRGINIA PLANS CORDIAL WELCOME OF PRESIDENT-ELECT

OLD POINT COMFORT, Va., (P)—Virginia will extend a fitting welcome to the President-elect and Mrs. Harding on their arrival here from Panama. From the time they land from the steamship Pastores, until they leave the Old Dominion for Washington, D. C., after a two days' visit Virginia hospitality will be at its best and politics will be forgotten.

Landing tomorrow at Newport News the president-elect and Mrs. Harding will visit the shipyard. Afterward, a public reception will be held in the academy of music and the president-elect will make an address.

DECLINES WILSON'S OFFER OF RECEPTION AT WASHINGTON

WASHINGTON, D. C., (P)—Senator Harding yesterday declined President Wilson's offer to place the presidential yacht Mayflower at his disposal next morning on his way to Washington to carry the president-elect to Washington. It was necessary, the senator said, in a radio message to Secretary Daniels, who transmitted the offer Wednesday to the senator, that he should make the trip by rail. The senator's message, as made public by the navy department, follows:

MASKED BANDITS ROB POSTAL CAR

MINNEAPOLIS, Minn., (P)—Begin today mail officially valued at from \$25,000 to \$75,000, was stolen today by three bandits who held up the clerk in a train out of the Moultrie-Minnneapolis train on the Chicago, Milwaukee and St. Paul railroad between Hopkins and Minneapolis. The bandits escaped. The bandits are believed to have boarded the train at Hopkins, a short distance out of Minneapolis. When alight within the city limits they entered the mail car, bound the clerk and fled from the moving train with the loot.

MISSOURI FARMERS WANT GRAIN GAMBLING STOPPED

ST. LOUIS, Mo., (P)—Reduction of production "to minimize our losses," a protective tariff "against the importation of cheap grain," and other similar other similar farm commodities and the enactment of federal legislation to "put an end for all time to the gambling in grain futures," were advocated by the directors of the Missouri Farmers' association, in session here last night.

WILSON TO ACT PERSONALLY IN MEDIATOR ROLE

State Department Officials Say Misconstruction is Put on First Statement as President's Undertaking

WORD FROM BRAZIL AND SPAIN MAY BE AWAITED

WASHINGTON, D. C., (P)—State department officials said today that a misconstruction had been placed upon their statement yesterday as to whether President Wilson would act officially or personally in naming a mediator to act for him in an effort to settle the trouble between the Armenians and Turkish nationalists. They said the president would act personally and not officially in appointing a mediator, but explained that it would be difficult, of course, to differentiate between Woodrow Wilson, president and as president of the United States.

Armenian Situation Talked by Premiers

LONDON, (P)—The Armenian situation was discussed by Premier Lloyd George of England, Premier Levesque of France and Count Borzari of the Italian foreign minister at the conference this morning, and they reported the decision that Armenia could not be admitted to the league of nations now because her legal existence had not been established. This existence, it was pointed out, depends upon the treaty of Sevres, establishing peace with Turkey which has not been ratified.

There is in this children's problem a great moral issue. We are today feeding bread to the people of the world, who are today replacing hate in the minds of this next generation. These children are the obligation of every man and woman who eat and peep more than his own children and his neighbor children require."

CHINESE SCENT ULTERIOR AIMS BACK OF BANDIT

Activity of Japan in Connection with Raids on Frontier Town Raises Serious Controversy Between Nations

PEKING, (AP)—The fact that Japanese authorities sent troops to the frontier town of Hungchun, in Chinese territory, for the announced purpose of protecting Japanese subjects after the town had been raided by bandits, appears to have raised a serious controversy between the foreign ministries of the countries in question, and incidentally has reopened an old controversy concerning an adjacent territory known as Chientao. (Hungchun is a Chinese town on the Tumen river at a point where the border of China, Korea and the Maritime Province of Siberia meet. It is about 60 miles south of Vladivostok.)

Press Accuses Japan.

The Chinese press accuses the Japanese of being actually the aggressor in the case who they have pursued. E. Lenox Simpson, statesman to the president of China, has pointed out that it is significant that such attacks by Chinese bandits are being reported where Japan wishes to set up garrisons.

Early in October a band of outlaws which is said to have numbered about a thousand and to have been well supplied with modern rifles and machine guns, entered Hungchun, killed a number of people including, it is said, several Japanese, and burned the Japanese consulate. After the raid, and in the face, it is said of an impending repetition of the outrage, the Japanese moved troops into the place and incidentally into the adjacent territory of Chientao.

In the course of diplomatic exchanges over the situation, it appears that the Tokio foreign office and the Peking had agreed to "co-operation" by Japanese troops, whereas the Chinese foreign ministry alleges that the invasion having already occurred, the question of co-operation was first discussed, its attitude was one of protest against a fait accompli.

Voices Suspicions.

E. Lenox Simpson (Putnam World), comments on the Hungchun affair in the Tokio foreign office as follows: "Hungchun is the nearest important point on Chinese territory to the Sea of Japan, that important sheet of water which is virtually landlocked and which Japan now holds all the way. Hungchun is so close to Possiet bay that it is reached in a few hours by carriage. That it should have been taken out for the eyes of the world is curious and humiliating. Immediately prior to this affair, it should be recalled, the Chinese bandits attacked the valuable Su Chan coal mines near the same place, necessitating their occupation by Japanese troops precisely in the way that Hungchun has now been occupied.

"The remarkable audacity which the bandits of Manchuria have developed during the past year is a curious feature of a nebulous situation. The writer, when in the region of the Chinese western railway on an official mission, did his best to pierce the mist which surrounds the fact that such a large number of Japanese rifles and machine guns and Japanese hand grenades should be distributed through frontier towns, weapons not so easily acquired as to make the ordinary explanation acceptable. The fact that these attacks were always attempted in the vicinity of the railway is an official mission did his best to pierce the mist which surrounds the fact that such a large number of Japanese rifles and machine guns and Japanese hand grenades should be distributed through frontier towns, weapons not so easily acquired as to make the ordinary explanation acceptable. The fact that these attacks were always attempted in the vicinity of the railway is an official mission did his best to pierce the mist which surrounds the fact that such a large number of Japanese rifles and machine guns and Japanese hand grenades should be distributed through frontier towns, weapons not so easily acquired as to make the ordinary explanation acceptable.

Points Out Significance.

Mr. Simpson goes on to say that the conclusions he reached on the occasion of an investigating trip to Manchuria were that there are two distinct groups of men connected with Japanese staffs who favor the use of these bands in order to break down authority; that these bands have been equipped with allowed to purchase all the weapons they require and that they perhaps do not respect the orders of their agent-leaders and, in the heat of raids, act like savages.

"Hungchun and the long-coveted Chientao area which is enclosed by the two arms of the Tumen river," he continues, "have lately acquired special significance because of the occupation of Possiet bay by the Japanese. This superb anchorage which lies only 60 miles away from Vladivostok, is splendidly well served by the Chinese and Chinese territory, and is destined to be another Dairen and the terminus of a new Kirin province railway system, if the Japanese have their way."

CLAIM CHARGE AGAINST MARINES NOT JUSTIFIED

Military Authorities Defend Record of Corps in American Occupation of Haiti

PORT AU PRINCE, Haiti, (AP)—A total of 1142 Haitians met death since the beginning of the intensive campaign against the bandits of the island approximately two years ago, it was developed by the naval court of inquiry during its three weeks of hearings just concluded here into the actions of the American Marines in Haiti. The list includes the ten natives alleged to have been killed by ex-Corporal Freeman Lang and Sergeant Corporal Williams. Colonel (the top death charge) accounted Lang and Williams all the dead mentioned during the hearing held in the 208 actual battles that occurred, including the attack on Port Au Prince in January, according to the testimony. The sum total of the testimony obtained here brought out charges only against Lang and Williams.

Although the court of inquiry naturally declined to discuss this phase, the military authorities insist that the charges of "indiscriminate killing" brought by Major General George R. Barnett, former commandant of the United States marine corps, were not justified.

The local newspapers are continuing to print what purport to be charges against the Marines. Major Jesse F. Dyer, however, to be based wholly on rumors or hearsay, and hence not of a kind that can be presented to the court. These publications have actually been refused permission to claim the court has refused a sweeping investigation.

PORTO RICO ON CREST OF TIDE

Islanders Better Fed and Cloth- ed Through Benefit from Prosperity

WASHINGTON, (AP)—The people of Porto Rico, benefitting from a wave of prosperity which overpowered the territory during the last fiscal year, were better fed and better clothed than during any year in the island's history. Arthur Yager, territorial governor, declared in his annual report made public today.

Strike Causes Exception.

"The general prosperity of the island," Governor Yager asserts, "has been most remarkable and has included all the industries and every form of business with the notable exception of the citrus fruit growers, who were unfortunately gravely injured by the tie-up of boats in October and November due to the strike of stevedores in New York harbor. The unexpected increase in wages enabled the laboring class generally to share in the prosperity."

Work of reclamation and reconstruction has proceeded "steadily" and went forward slowly but surely, but was greatly affected by an earthquake which visited the island, by the high cost of materials, and by three large strikes.

Governor Yager reviews the island's commerce at considerable length, pointing out in particular that the external trade of the island for the fiscal year amounted to \$24,109,983, an increase of 74 per cent over the total for the previous year, which was the highest on record.

Trade Balance Favorable.

The balance of trade in favor of the island last year was \$4,100,983 which Governor Yager estimates as twice as much as during any year since the territory began to show a trade balance in 1907.

"The greatest part of the increase in the value of exports is said by the governor to have been due to the unprecedented high prices received for sugar."

The government authorities cite statistics for the statement that crime is decreasing in Porto Rico, especially those forms of crime attributed to the use of intoxicating liquors.

Governor Yager's sole recommendation consists of a repetition of his previous suggestion that the provisions of the farm loan act be extended to Porto Rico.

WIRELESS MAY BRING FARMER MARKET NEWS

Government Agencies Make Tests with View to Making Rapid Communication Avail- able to Agriculture

WASHINGTON, (AP)—The wireless telegraph as a means of carrying to the farmers agricultural market news such as prices and conditions is to be tested by the department of agriculture in co-operation with the bureau of standards. The experiment is to be tried in half a dozen Maryland and Virginia counties adjacent to the District of Columbia and if successful will be extended over the country.

Plans Several Stations.

The plans contemplate the eventual use of 17 wireless stations over the country. The wireless news of market conditions and prices will be sent broadcast and arrangements will be made with numerous private licensed operators who would aid in distributing the reports to farmers and others interested in the territory covered.

Present plans for the system provide for the use of ten wireless stations with a 250-mile radius, eight in the east where market centers are more numerous and closer together and two in the far west; two 300-mile radius stations to reach the outlying points of Maine and New York; to be located in the northeastern part of the country, and five 500-mile radius stations west of the Mississippi river.

Washington to Be Center.

Each of the distributing radio stations will be connected with the Washington headquarters and other distributing stations by leased telegraph wires of the present market news service of the department and which they would receive for immediate release by wireless a summarized report of market conditions and quotations at the principal market centers and shipping points. Detailed reports of market conditions in the immediate territory served would also be released as well as crop and weather reports issued by the department of agriculture.

SOUTH IGNORES LAW UNIFORMITY

Judge Hargest Tells Governors Conference of Efforts to Unify Codes

HARRISBURG, Pa., (AP)—Efforts being made nationally to conform to uniform state laws to unify the various codes in the various states were explained to the conference of governors here Thursday by Judge William H. Hargest, of Harrisburg, Pa.

"The desire for uniformity extends to law regulating commerce and business affairs, but does not seem to extend to those which regulate social and family matters," Judge Hargest said. The extreme southern states have been the least receptive to the suggestions of the conference, he declared.

"Arizona and Mississippi have adopted five suggestions and other southern border states a less number. Wisconsin leads in the number of acts recommended by the conference, having adopted seventeen; Massachusetts has adopted twelve; Illinois and Tennessee eleven; Alaska and Utah eight; Idaho, Nevada and Pennsylvania seven."

"Laws regulating aircraft should be passed uniformly in all states. The right of recovery damages for landing in unauthorized places, and for flying too low will have to be defined, and flying over crowds regulated or prevented."

MAGELLAN'S DISCOVERY CELEBRATION DRAWS TO GLOBE

SANTIAGO, Chile, (AP)—Foreign delegations here to observe the fourth centennial anniversary of the discovery of the straits of Magellan will leave for Punta Arenas today, where they will conclude the program of the celebration.

The activities in this city virtually were ended last night with a ball at the government house, at which there were 2000 invited guests. Infante Fernando de Bavaria, representative of eleven states, returned to Santiago from Punta Arenas, at which time he will be travelling incognito.

URGES GOVERNMENT AID FOR AIRPLANE INDUSTRY

Major General Mencher Points Out Measure Essential to Preparedness

WASHINGTON, D. C., (AP)—Unless the government aids the airplane industry, Major General Mencher, in his annual report made public last night, said, "it is almost hopeless to depend upon the availability of suitable commercial aircraft and facilities for their employment nor upon the existence of manufacturing plants and supplies of materials necessary for the rapid production of aircraft in time of war."

A contract for purchase of the Italian T-34, the largest semi-rigid airship in the world, has been made, the report said, but efforts to obtain from Germany a rigid airship of the latest type has failed.

Among the experimental accomplishments of the year, the design and successful test of an armored ground attack three seater triplane mounting eight machine guns and a 37-millimeter cannon is reported. Contracts for ten of them have been let.

ADVISES EDUCATION ON LIVESTOCK SITUATION

Speaker at Chicago Meeting Points Out Failure to Find Reduction in Retail Meat Prices

CHICAGO, (AP)—Everett C. Brown, president of the National Livestock Exchange, at a meeting of livestock producers, packers and market interests Thursday, said wholesale meat prices were approximately those prevailing in 1914 but he had not found similar reductions in retail prices.

He declared the present conditions of low prices for livestock, reduced wholesale quotations on dressed meat and high retail prices had injured the producer and advocated formation of a national organization to educate retailers and the public to the needs of the livestock situation.

CATHOLICS OF OREGON-TIDMOM COLLECT OFFERING FOR WAIVER

ROME, (AP)—Offerings will be received in the Catholic churches throughout Christendom on December 26 on behalf of suffering children in all countries which are suffering because of the war. This day was fixed in an encyclical letter issued to the church by Pope Benedict today.

The amount of the offering this year differs from that of 1919, which asked for help for only children of central Europe.

MONEY TALKS!

During the last weeks, manufacturers and jobbers have thrown millions of dollars' worth of merchandise on the market with utter disregard to cost. We have lost no time to avail ourselves of this wonderful buying opportunity and are offering merchandise at reductions considered impossible three months ago. One good turn deserves another and we are passing it right along. If the primary need of the hour is thrift—our prices compel attention to the economical buyer who seeks the most in value for the least amount to spend.

best at \$45.00

and when we say a GOOD suit we mean the best garment at the price—hand tailored with exceptional sleeve lining, as well as body lining. It's no affair of ours if suits equal in quality to these that are priced five to fifteen dollars more elsewhere—but it's a fact nevertheless—and people are learning as they never have before what it costs them for the label of some manufacturers in their clothes.

These days of "high prices" and conservation made necessary by such are teaching valuable lessons of buying on strict and keen comparison. Regardless of efforts of reducing prices, we still undersell others (which, of course, can hardly be expected to be admitted by others) but our LESS PRICES and BETTER VALUES substantiate our claims and refute any to the contrary.

And NOW ONCE MORE, if in doubt SHOP BEFORE YOU BUY—and then come to the United Stores, and be convinced that we are determined to give you the most that money can buy. To tell you we fully realize that our styles must be RIGHT, our prices must be RIGHT.

CHARGES POLES BACK INSURGENT HOLDING VILNA

Lithuanian Constituent Assembly Member Voices Suspicions in Interview with Associated Press Correspondent

VILNA, (AP)—The charge that the Polish government instigated the seizure of Vilna by the former Polish general, Zeligowski, is made by M. Bilinis, a member of the Lithuanian constituent assembly and of the finance committee of that body.

"It is only from Warsaw that General Zeligowski can obtain food supplies and ammunition for his troops," said M. Bilinis to the Associated Press correspondent.

"The Polish government officially calls Zeligowski a rebel and denies all connections with him. However, they have issued an official statement saying their troops stand at the gates of Vilna."

Denies Polish Assertion.

M. Bilinis denies the Polish assertion that Zeligowski's army is comprised of white Lithuanians, Ukrainians and Russians who revolted because they would return to Vilna. On the contrary, he says, that the three divisions, detached from the Polish regular army are composed in majority of Poles.

"Such aspirations make Poland a menace to all the Baltic states," said M. Bilinis.

"Another reason why the Polish government is interested in the occupation of Lithuania is that many of the highest Polish officials among them General Pilsudski, head of the Polish army and Prince Sapieha, Polish foreign minister, are the owners of large estates in Lithuania," Bilinis asserted.

Interests Play Great Role.

"The interests of these Polish land owners play a great role in the Polish Lithuanian conflicts. On several occasions it was impossible to find the marketable lines, as estates belonging to some member of the Polish aristocracy was involved."

M. Bilinis declares that General Zeligowski is a second-in-command of the German commander who occupied the Baltic states but was compelled to withdraw.

Since the foregoing statement was made the council of the league of nations has undertaken to send to Vilna an international force composed of military contingents from Great Britain, France and Belgium to preserve order there while the people are given an opportunity to determine for themselves what nation they shall give adherence.

WOULD LIMIT IMMIGRANTS TO CITIZENS' RELATIVES

Incoming of Foreigners Would Be Practically Suspended for Two Years by Johnson's Bill

WASHINGTON, (AP)—Immigration would practically be suspended for two years under a bill submitted to the house immigration committee Thursday by its chairman, Representative Johnson of Washington. The measure would permit the admission only of blood relatives of citizens and aliens who had declared their intention of becoming naturalized and the entry for a period of not more than six months of travelers and of otherwise admitted aliens from Canada, New Zealand, Cuba and Mexico.

The bill, Mr. Johnson explained, is a tentative draft which will be the basis of committee discussion. The changes, suggested by other members of the committee, he said, might be incorporated in the measure. Naturalization is not declared in the bill. Chairman Johnson explaining that this phase of the alien question is taken care of by a bill pending before the house.

The Johnson bill would permit students to enter the United States for the purpose of study at designated educational institutions, but upon graduation or completion of their studies they would be required to leave this country.

"The clause permitting six months entry of aliens from Canada, Cuba and Mexico, Mr. Johnson said, is confined necessary to provide for temporary admission of workers in certain lines of employment."

Blacking Discovery.

The teacher had to a chapter from "The History of the American Revolution" and Raymond had then heard the word "blackwork" for the first time. Telling his mother the story when he got home, he said: "When the British got up in the morning and saw the Americans on the opposite side of the hill, they threw up their blackwork."—Boston Transcript.

STATE NEWS

BLACKFOOT—Commissioners of Blingham county have approved an increase of 33 1/3 per cent in the salaries of the county probate judge, treasurer and superintendent of instruction, which had been \$1600 a year, and reduced the salary of the county surveyor from \$500 to \$50 a year.

MACKEY—Approximately \$213,000 worth of cattle and \$120,000 worth of sheep and sheep products have been sold and shipped from here this year. Stockmen estimate a per cent loss on their 1920 production.

BLACKFOOT—Postponement for three days of sale of \$60,000 issue of waterworks bonds resulted in submission of a higher bid accepted Friday which yielded the city of Blackfoot a margin of \$600 over the amount that would have been received if sold on the date originally announced.

BLACKFOOT—Fifteen swine breeders of Blingham county are co-operating in plans for a sale of pure-bred swine to be held here December 14.

BILLI—Ernest Molander was re-elected and W. R. Morrison was elected to succeed George A. Childs in the election here Monday for directors of the Bull highway district.

The KITCHEN CABINET

"Upon a crutch—her gleeful face
Laughs with love and tender care—
Alights she hangs from place to place
Upon a crutch."

And you and I who journey through
A rose-leaved world of dawn and dew,
We cry to heaven overmuch,
We rail and fret and frown and frow,
And many more in agony
Are brave and patient, strong and
Upon a crutch."

SAUCES FOR FISH AND MEATS.

The sauce of average thickness which is the most commonly used allows two tablespoonfuls each of flour and butter with one cupful of liquid, whether milk, stock or tomato.

An appropriate sauce to accompany a dish makes a plain dish out of the ordinary. The cook who serves tasty sauces always has on hand materials for making such sauces as white, brown, tomato and bechamel, and with these as a foundation is able to make sauces innumerable. For a brown sauce a slightly larger quantity of flour is used to thicken as thickness is lessened by browning the flour, the starch being dextrinized. A brown sauce is made by browning the flour and butter well before adding the liquid.

Bechamel Sauce.—Cook one and one-half cupfuls of white stock (white fish broth from chicken or a combination of veal and beef) with one slice each of carrot and onion, a bay leaf, six peppercorns and a sprig of parsley, then strain. There should be a cupful of butter and one-fourth of a cupful of flour and gradually add the stock and one cupful of milk. Season with salt and pepper.

Tomato Sauce.—Take one-half can of tomatoes, two teaspoonfuls of sugar, eight peppercorns, a bit of bay leaf, and salt. Cook twenty minutes, rub through a sieve and add one cupful of brown stock and four tablespoonfuls each of browned flour and butter cooked together. Gradually add the hot liquid. To serve with fish the following is a most pleasing sauce:

Sauce Pilante.—To one cupful of brown sauce add one tablespoonful of vinegar, one-half small chopped onion, one tablespoonful each of chopped capers and pickle with a dash of cayenne.

Liberal Offering.

One Sunday while at church, there was a special offering and the preacher preached for a liberal silver collection. As the plate was being passed I grabbed for a dime, the only piece of money I thought I had. I pulled out a penny and deposited it in the plate. It was not until the gentleman next to me smiled that I noticed my error.

Dangers to Be Avoided.

Wrong eating brings disease and premature aging. This is obvious to all apprehending health. And there are two principal styles of eating which must be avoided to secure dependable health—namely, eating badly prepared food and eating too much of food properly prepared.—J. M. Tilden, M. D.

Today's Markets

New York Stock Market.

NEW YORK, (AP)—Oils and rails, Southern Pacific excepted, represented the steadier features of today's stock market while shippings, motors and specialties were somewhat erratic. Total sales approximated 750,000 shares.

Rails and the Mexican oils made the most substantial contributions to the higher trend of prices in the early stages of today's stock market. Reading and Missouri Petroleum rose 1 to 1 1/2 points, respectively, with fractional advances in the transcontinental lines, including Southern Pacific. Contrary to their recent course, European oils were heavy, Royal Dutch losing 1 1/4 points. Shippings and leather and paper specialties also reacted, but the steels, equipments and motors were irregular at nominal gains and losses.

As to the weakness of Willys-Overland common and preferred, the market made further upward stride later, Mexican Petroleum succeeding Reading as the strongest feature. The closing was firm.

Liberty Bonds.

NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$90.20; first 4's \$85.82; second 4's \$85.10; first 4 1/4's \$86; second 4 1/4's \$85.32; third 4 1/4's \$88.10; fourth 4 1/4's \$85.74; Victory 3's \$85.50; Victory 4's \$93.50.

Grain and Provisions.

CHICAGO, (AP)—Evidence of a pause in export demand tended today to bring about weakness in the price of wheat. It was pointed out that foreign governments have pursued the policy of buying wheat only when prices were depressed. Bulls, however, pointed to the fact that the amount of export business already done or with the amount of milling yet to come. Opening prices, which varied from the same as yesterday, were 1 1/2 to 1 3/4 lower with December \$1.68 1/2 to 1.69 and March \$1.64 to 1.64 1/2, were followed by a decided rally, but then by a material decline all around.

Subsequently large eastern offerings were absorbed by commission houses and elevator interests. Then shorts tried to cover, and prices receded something of an advance. The close was unsettled, 1/4 to 1/2 lower, with December \$1.67 1/2 to 1.70 1/2, and March \$1.64 1/4 to 1.65.

Coin sugar with wheat. After opening unchanged to 1 1/8, including May at 75 3/4 to 76, the market recovered somewhat, and soon became weak for all deliveries.

Despite liberal profit taking on the part of recent buyers, the market tended upward with wheat at the last. Higher quotations on hogs together with weakness of grain carried provisions downward.

Cash Quotations.

CHICAGO, (AP)—Wheat No. 1 hard \$1.62; No. 2 mixed \$1.62; No. 3 yellow \$1 to 85c.

Butter creamery 54c; packing 1c lower, 2c.

Poultry hens unchanged, 18 to 22c; roasters 15 to 18c; springs 23c; turkeys 1c higher, 35c.

Potatoes.

CHICAGO, (AP)—Potatoes stronger; receipts 47 cars. Northern White Round sacked \$1.00 to 1.75 cwt.; Minnesota Kings \$1.85 cwt.; Idaho Rurals, sacked \$2 to 2.20 cwt.

Sugar.

NEW YORK, (AP)—Offerings of raw sugar increased early today and sales of 15,000 bags of Cuba's were reported for 4 3/4c cost and freight equal to 55.70 for centrifugal.

The demand for refined continued light and fine granulated was unchanged at 48 1/2 to 5c.

Increased offerings of raw cane sugar light liquidation in futures and at midday prices showed declines of 6 to 8 points.

Hawaii's Pineapple Output.

In the Hawaiian Islands the pineapple industry has, during the last few years, experienced considerable development, causing it to rank second to that of sugar. At present there are about 7,000 acres planted with pineapples.

The Woodcock provides one of the most examples of protective coloring that nature has ever made. His bright eyes, however fitted for the night work to which he puts them, are sometimes his betrayal. The female woodcock is larger than the male and its weight varies as widely as to run between eight to twenty-seven ounces. Woodcock is a tremendous glutton, so he is fit. The woodcock can fly either as lazily as a rail or as swiftly as a swallow.

PATRONIZE AMERICAN SHIPS.

That business competition may be sharp and even ruthless between nations otherwise friendly is indicated by the statement of the chairman of the United States shipping board advising American exporters to patronize American ships.

Developments in maritime commerce have not taken just the turn that our European competitors anticipated and desired. Germany, it is true, has been eliminated from the ocean trade; but the United States, an almost negligible rival in this field of trade before the war, gives promise of being as formidable a contender as Germany was.

YOUTH OR MATURITY

The question whether youth is to be preferred to a more mature period of life has furnished food for controversy from the earliest times and fortunately we are no nearer a final answer today than we were when Cicero glorified old age.

It is this last note on which a recent writer on the subject seizes in an effort to appraise the alleged freedom of youth. Youth, he says, is a "time

when one did what one didn't want to. One was happy—much as in the army—one drifted through the years with bewilderment * * * often in a state of apprehension as to what was going to happen next.

The most delightful thing about this whole controversy is that anything that may be said on the subject is so tinged with personal feeling and reflects so much the individual's own experience that what may be true of him may still be wholly untrue in the case of another individual.

Fortunately this theme will continue to invite writers and speakers of all sorts. We shall learn more and more about old age and youth; but unless the future is not to be interpreted by the past, every individual will gather his final solution to this question from his own personal experience.

GOVERNORS URGE AID FOR FARMERS

Conference Adopts Report Urging Government to Create Finance Corporation

HARRISBURG, Pa., (AP)—The governors conference Thursday adopted a committee report urging the federal government to create a finance corporation which through loans to foreign countries, will permit export of American foodstuffs and other products to relieve the critical situation confronting the nation's farmers.

Speaks for States Rights

Amendment of the federal constitution to provide that no further amendments shall become effective unless sanctioned by the people, was urged in an address before the governors conference by Governor Percival W. Clement of Vermont.

Gov. Clement said that in recent years there had been a tendency against state's rights with centralization of power in the federal government.

Remedy Rests with People

"There is a remedy that rests with the people themselves, and that remedy is an amendment to the federal constitution, providing that no further amendment shall become effective unless sanctioned by the people, either voting directly upon such proposal of amendment, or taking action through a convention elected solely for that purpose.

FARMER - BUT GERS AMENABLE TO MUNICIPAL SANITATION STATUTE

Ranch Stock Raisers Must Conform to City's Ordinance Regulations in Slaughtering Cattle for Disposal in This Community—Inspection of All Animals and Carcasses Required

Of particularly vital importance to farmer-livestock and the consuming public of this community is an opinion rendered by the state attorney general in answer to a query by City Meat Inspector W. A. Falon. The question in answer deals with the definition of the word "raised" as found relating to the growing of cattle in the state meat disposal statute.

Definition Given.

In brief the state legal authority declares that the statute wording means that no farmer may slaughter for sale any animal not bred and raised on the same premises and he may not purchase cattle for slaughtering and selling unless so authorized by local inspection authorities.

The Opinion.

"The entire question upon which we are asked to pass depends upon the meaning of the word 'raised' in the statutory dictionary in defining the word 'raise' as used in the statute defined to mean: 'To promote the growth of, bring up, rear, grow, breed, as to raise crops, plants, stock, etc.' The dictionary defines it as follows: 'To cause to come up or into being and grow; to care for and direct the growth up to maturity, bring up, breed, rear, as to cattle, etc.'"

"I think the meaning of the statute is plain on this point, which is to the effect that the cattle which a farmer slaughters and sells must be such as he has bred and raised naturally upon his farm in the ordinary pursuit of farming and stock raising operations. This would preclude him from the right to slaughter and sell without inspection any animals that he has purchased with the intention of slaughtering and selling."

"This section further prohibits the sale of a public or private sale of any meat or food products which have not been prepared for human consumption in the slaughter houses mentioned in the preceding sections of the act, and conducted in accordance with the terms of the act, with the proviso that nothing in the act shall be construed to prohibit any farmer from slaughtering and selling his own meat and disposing of the meat of such animal, if the meat thus prepared by the farmer is prepared in a proper sanitary and wholesome manner."

An Exemption. "You are advised that while the act exempts the farmer from the prohibition as to the sale insofar as the slaughtering in a slaughter house is concerned, it does not exempt him from inspection, your department and your department, in any slaughterhouse owned by a farmer unless that meat has been slaughtered in a sanitary and wholesome manner under proper sanitary conditions, as required by law in proximity to slaughtering conditions of any kind, and protected at all times up to delivery to the purchaser from dirt, dust, flies and other contamination, and the determination as to whether such meat has been slaughtered and prepared under these conditions is particularly the province of your department."

PATTON CLAIMS BIG DAMAGE FROM DOCTOR

Patient Alleges Negligence Resulted in Injury to His Eyes. In a \$25,000 damage action, instituted in the district court late yesterday, J. F. Patton makes Dr. D. L. Alexander, a local physician and surgeon, defendant. Plaintiff charges negligence.

The case grows out of an operation for tonsillitis and had to have been performed by Dr. Alexander on July 23 of this year, when, it alleged, negligence in the administration of the anesthetic caused damage and injury to the plaintiff's eyes, the drug, it is claimed, reaching the optic.

Two causes of action are alleged, one for \$25,000 damages, and the other for compensation on claimed loss of time.

WHEAT-GROWING CHAMP

Walter E. Weaver, of the Filer district, won second on an exhibit of Dicklow wheat at the International Grain Show at Chicago. This winning was made in competition with the grain growers of the United States and Canada. It carries a liberal cash prize.

TWIN FALLS WHEAT WINS AT EAST SHOW

District Dicklow Scores Heavily at International Exposition

Telling of the winning of important prizes for Twin Falls county grain entries at the International Hay and Grain show in Chicago, B. E. Sheehan, state seed commissioner, has sent a telegram to the local farm bureau. The telegram reads: "Walter Weaver, second, White Spring, International Hay and Grain show; Carl Irwin, third; L. D. Burke, fourth; C. H. Hardin, first alfalfa and red clover; Burrow Bros., second, alfalfa."

According to announcement made to day by H. E. Powers the show at which these winnings were made in the large field in the United States and that placing in this show carries with it more prestige than any other show on the western continent. Mr. Powers has been through the show and is more than satisfied with the results. He says that the Twin Falls entries were more permanent, for-seeing publicity is gained for Twin Falls county than through any other medium.

Speaking with respect to the winners Mr. Powers says all are entitled to equal credit for the showings they made. Walter Weaver won first for Dicklow at the state fair. At the same fair Twin Falls county won first, second and third places in red clover and alfalfa. Mr. Weaver won seven out of nine prizes at the state exposition for offerings in this class. This final winning doubly emphasizes the fact that Twin Falls county can produce the best seed and grain to be found anywhere.
