## FOREIGN TRADE SESSION TAKES DEFINITE STAND

### Committee of Thirty Headed by John McHugh is Named to Proceed with Organization of \$100,000,000 Corporation

CHICAGO, (AP)—The foreign trade conference in session here today voted to proceed at once with the organization of a foreign trade corporation, capitalized at \$100,000,000, under the provisions of the Edges act.

A committee of thirty, headed by John McHugh, of New York, was named to proceed with the work and a subscription list was immediately started to finance the underwriting.

### Representative Directorate

The conference unanimously adopted a report of the committee on plan and scope. The board of directors of the corporation will be chosen as representatives of commerce, finance, agriculture and industry, with due regard to geographical representation. The directors will nominate the principal executive officers.

The committee recommended raising of \$100,000 for underwriting purposes, the money to be returned later.

### Committee Personnel

The committee named to supervise the formation of the corporation includes: John McHugh, chairman of the committee on commerce and finance; Herbert Hoover, Paul Warburg and A. T. Bodford, New York; John S. Drum, San Francisco; James B. Forgan, Thomas E. Wilson and Arthur Reynolds, all of Chicago; F. O. Watta, St. Louis; J. B. Howard, Clinton, Ia.; J. B. Cullerton, Wichita Falls, Texas; Philip Stockton, Boston; Oscar Wells, Birmingham, Ala.; Julian H. Dutton, Detroit; Peter W. Goebel, Kansas City, Kan.

The committee will meet later today to begin work.

The resolutions of the committee on plan and scope declared that the extension of credit to countries where there is a stable government and where there is an assurance of integrity of purpose, and the operations of this corporation should be confined to financial trade for the benefit of the future foreign trade.

## SMOOT ATTACKS CREDIT SCHEME

### Utah Senator Denies Farmers Would Benefit Through War Finance Revival.

WASHINGTON, (AP)—The section of the resolution providing revival of the war finance corporation which directs the federal reserve board to extend more liberal credits to the farmers came in for attack today in the senate. Senator Smoot, republican of Utah, said he would move to strike it out, as he did not believe it would accomplish what the farmers had in mind.

### Denies Board's Power

Senator Smoot declared the federal reserve board could not do any more in the way of extending credits than it was doing without an amendment to the federal reserve act.

Senator Borah, democrat, of South Carolina declared that a preferential rate of interest on agricultural loans was desired. Although the bill was intended to give such a rate is contained in the present law, Senator Smith said.

Senator Borah, republican, Idaho, charged that the federal reserve system was not set up as intended and that it was under the beneficial influence of international bankers. The Idaho senator told the committee figures had been furnished him showing more than \$100 million dollars in the New York banks from country bankers and he wanted to know why this wasn't out in the country banks. Senator Smoot replied that this consisted of reserves which the banks had to maintain and that it probably was placed in New York for business reasons and because also of the rate of interest on daily balances.

### Oalls Provision Absurd

Senator Smoot declared that he wanted to call the attention of the senate to the absurdity of the action regarding the reserve board.

"I do not want the farmers to think it will place one dollar more to their credit than they have today," said he.

### GENERAL MOTORS TRUCK PLANT RESUMES OPERATIONS

PONTIAC, Mich., (AP)—The General Motors Truck plant here has resumed operations after a period of four weeks idleness. About half the workers are employed on a production schedule calling for 400 machines for the balance of the month. According to W. L. Day, manager, normal operations may be expected soon after the New Year.

## Police Fire Upon Demonstrators in Czecho-Slovakia

### Effort to Disperse Crowd about Parliament Building Results in Casualties

PRAGUE, Czecho-Slovakia, (AP)—A detachment of police ordered firing to clear away a crowd of demonstrators from in front of the parliament building yesterday, finding itself surrounded and attacked, the authorities alleged, fired upon the crowd, wounding at least eighteen persons, four of them seriously.

The government buildings are being guarded by troops.

## GREECE INVITES CONSTANTINE TO RESUME THRONE

### Official Notification of Plebiscite Result and Invitation to Return Received by Former Monarch at Lucerne

LUCERNE, Switzerland, (AP)—Official notification of the result of the plebiscite in Greece and an invitation to return to Athens and reascend the Greek throne immediately, were received by former King Constantine here this morning.

### Naval Escort Provided

The Greek government notified Constantine it will have a Greek cruiser and an escort of warships to receive him and his family at Venice Wednesday.

Because of the health of Queen Sophia, plans had been made for Constantine and his family to travel by the way of Brindisi, but on account of arrangements made for his return, his plans have been changed, and the family will leave Lucerne on an ordinary train probably on Monday.

### Bans Two Advisers

Professor Georges Strelt, former foreign minister of Constantine's chief adviser during his exile, who is reported to be pro-German, and Captain Stefan Pappapropoulos, commander in the Greek navy and Constantine's aide de camp, were prohibited from returning to Greece by the Greek government in the telegram inviting Constantine to return.

The plan to have a special train convey the royal party was abandoned, as it would be impossible to obtain one in time to reach Venice Wednesday.

As soon as the government's telegram was received, Constantine and his family began to make preparations for the departure on the ordinary train.

## WOULD GRANT EXTENSION ON MINE ASSESSMENT WORK

WASHINGTON, D. C., (AP)—Several bills designed to relieve mining claim owners of the necessity of doing assessment work for 1920 were introduced today into one of the senate committees on mines. Instead of eliminating the assessment work requirement entirely the new bill would grant a six months extension of time. Its provisions are extended to cover claims in Alaska as well as in the continental sections of the United States.

### VALPARAISO, Chile, (AP)—

Resolutions have been passed by the labor federation at Arica placing on record the refusal of its members to load or unload all classes of alcoholic beverages excepting liquors from foreign countries consigned to residents of Bolivia. The labor councils in the nitrate fields have taken similar action.

### TOKIO, (AP)—

The Asahi Shimbun announces today that the proposed amalgamation of the Japanese companies, in order to meet the situation created by the serious slump in shipping, has been abandoned.

### ROME, (AP)—

All the villages in the Tepelini district, southern Albania, have been destroyed by a violent earthquake, according to an Avlona dispatch to the Tempo today. Two hundred persons are reported killed, while 15,000 have been made homeless. The town of Tepelini itself was completely razed. The message reports the shocks are continuing.

## CABINET STAKES STABILITY UPON IRISH POLICIES

### Debate on Government's Program is Expected to be Opened in House of Commons by Liberal Leader Tuesday

### VOTE ON ISSUE WOULD TEST PREMIER'S RULE

LONDON, (AP)—Debate on the government's Irish policy is expected to be opened in the house of commons by Liberal leader next Tuesday. Announcement of martial law in southwestern Ireland, made by Premier Lloyd George Ireland, before the house yesterday, was accompanied by intimations that debate on the subject was not desired, but it appears probable the lower house of parliament may be called upon to decide whether the cabinet's plans regarding Ireland are to be carried into execution without the acquiescence of the legislative branch of the government.

This question, should it come to a vote, would test the stability of the Lloyd George cabinet.

Although the declaration of martial law in Ireland has been decided upon, the door to negotiations between the government and the Sinn Fein is not considered closed.

### Comment Mostly Restrained

Comment in this morning's newspapers relative to the government's Irish policy was, for the most part, restrained, and, with the exception of one journal, the government's proposals were nowhere wholly condemned.

The feature of the premier's speech that did not excite protest was the fact he was, in effect, holding an olive branch in one hand, and the sword in the other.

### Prefers Martial Law

"Few will question the wisdom and propriety of the new policy," said the London Times, "if the government shows a true and settled purpose to encourage the forces making for honorable settlement. Martial law under responsible control is preferable to the existing system of indiscriminate and lawless reprisals."

### Takes New Significance

It was pointed out today that the statement made by Baron Birkenhead, the lord chancellor, during the course of the debate in the house rule bill in the house of lords now seems to have a new significance. Baron Birkenhead declared that if proposals were advanced by representative opinion in Ireland, the government was prepared to make extensive alterations in its home rule bill.

Speaking here last night, Will G. Adamson, opposition leader in the house of commons, expressed fear that the application of martial law would seriously handicap any possible negotiations. Andrew Bonar Law, the British premier, said in an address at Edinburgh, Scotland, said there was hope of a settlement in Ireland.

### CLEARING HOUSE RESERVES SHOW DECREASE FOR WEEK

NEW YORK, (AP)—The actual count of clearing house banks and trust companies for the week shows that they held \$11,249,000 reserve in excess of legal requirements. This is a decrease of \$10,733,130 from last week.

## LEAGUE'S DISARMAMENT PLAN STRIKES SNAG WHEN JAPANESE PLEAD FEAR OF UNITED STATES

### DISPUTE THREATENS TO DRIVE CHILE OR BOLIVIA OUT OF NATION'S LEAGUE

GENEVA, (AP)—A dispute between Chile and Bolivia in the league of nations assembly today has raised the possibility of the withdrawal of one country or the other from the league.

The dispute arose over the submission to the assembly of the Tacna-Arica case, which involves these northern provinces of Chile, taken by Chile from Peru in the war between these nations nearly forty years ago, in which Bolivia also was involved, and the Peruvian and Bolivian claims concerning them.

SANTIAGO, Chile, (AP)—Chile will maintain her membership in the league of nations, in conformity with the well defined policy under which she entered it, "although recognizing at the same time as do the other nations which form the league, the high motives which have served as a basis for the proposals formulated by Argentina in the assembly," said a statement issued by the ministry of foreign affairs last night.

The announcement followed a meeting of the foreign relations committee of the senate and the chamber of deputies with Foreign Minister Aldunate and President-elect Alessandri, at which the retirement of the Argentine delegation from the assembly of the league was discussed.

## WARNS AGAINST ALIENS INFUX

### Immigration Committee Chairman Declares Emergency is to be Met

WASHINGTON, D. C., (AP)—Warning that the influx of aliens from central Europe "is serious and dangerous" and that the state department has information to prove the existence of a real emergency was given to the senate by Senator Johnson of the immigration committee during debate on his bill proposing a year's restriction of all immigration to the United States.

### Not Anti-Semitic

"Recent certain consular officers report an excess of Jews seeking passport visas at certain places, this bill has to be amended as an anti-Semitic bill," continued the chairman. "Not a Jew, Muslim, Pagan, Buddhist, Christian or what not. The country does not want it. It brings too many who are anti-government and anti-God."

"While engaged in cleaning house we don't want any more bread lines than we can help. I warn you that this bill is going to stand this day."

"The immigration coming now is the most undesirable that ever came to the United States."

"Before this measure shall have been many days in the committee of another body, this committee will have many additional reports from state department officials. Before this bill can be made into law you will see ships coming into Ellis island with immigrants hanging over the edges. Some ships today have established four close storage rates and it is not much of an exaggeration to say that in the future these immigrants are fed from troughs like swine."

### Predicts Big Influx.

"The immigration coming now is the most undesirable that ever came to the United States."

"Before this measure shall have been many days in the committee of another body, this committee will have many additional reports from state department officials. ## APPEALS TO LEAGUE TO AID IRISH INVESTIGATORS

### Representative Mason Makes Public Text of Cablegram to Paul Hymans

WASHINGTON, D. C., (AP)—Representative Mason of Illinois today made public a cablegram sent by him to Paul Hymans, president of the league of nations, appealing for support of the effort of the league of nations to send a special investigating body to Ireland. Passports issued by the state department to members of the investigating committee have been refused a visa by the British embassy.

Representative Mason in his cablegram declared that in the present emergency the league of nations afforded an extraordinary opportunity to prove to Americans its freedom from British domination by including the British government to permit the truth to be known to America as to conditions in Ireland.

### SENATE COMMITTEE DECIDES AGAINST DEFERMENT OF TAXES

WASHINGTON, (AP)—Final decision against tax legislation looking to the payment of the income and other tax payments due December 15, was reached today by the senate finance committee. The committee has not yet decided on an earlier decision of the republican members.

### SENATE COMMITTEE TO OPEN HEARINGS ON BONUS BILL

WASHINGTON, (AP)—Hearing on the bonus bill proposed by a former service man will be opened by the senate finance committee next Wednesday. It was announced today that representatives of the American Legion would be the first witnesses.

## Holland Accepts Draft of League Under Conditions

### Will Contribute Part of Military Force at Vilna Subject to Legislation

GENEVA, (AP)—Conditional acceptance by Holland of the invitation of the league of nations to contribute a portion of the military force to be sent by the league to the Vilna district for the plebiscite there was announced today. The acceptance is subject to the passage of suitable legislation by the Dutch parliament.

Poland has sent a note to the council of the league requesting that the fortress and fortified zone around Grodno be excluded from the Vilna plebiscite area.

## WOULD ACCEPT LEAGUE'S OFFER

### Montana Senator Urges Representation on Disarmament Commission

WASHINGTON, D. C., (AP)—A resolution requesting President Wilson to appoint an American representative to meet with the league of nations commission considering disarmament was presented and advocated in the senate today by Senator Walsh, democrat, Montana.

### First Mention of League.

After some discussion the measure was referred to the foreign relations committee. It was the first mention of the league in the senate at this session.

Senator Walsh told the senate that it should take cognizance of the invitation of the league of nations to participate in disarmament discussion by the league commission.

### Criticizes Wilson's Reply.

The senator said the president's reply as given was "utterly inadequate" and open to misconstruction.

Senator Walsh said the "almost innumerable" of nearly \$1,500,000,000 asked this year for the army and navy would give grounds for an unjust suspicion that America had imperialistic designs and added that he would like to "test the temper of both houses" of congress on the disarmament proposal.

### IDAHO WEATHER.

Tonight and Sunday rain or snow.

## HARDING INVITES BRYAN TO CONFER ON ASSOCIATION OF NATIONS PLAN

MARION, O., (AP)—President-elect Harding has invited William Jennings Bryan, former secretary of state in President Wilson's cabinet to confer with him here on December 17, in regard to the plan for an association of nations.

Mr. Bryan has been a life long advocate of a plan for permanent international peace, and considerable importance is attached to the forthcoming conference, especially in view of Mr. Bryan's willingness to accept republican reservations to the league of nations covenant when it became apparent that President Wilson's league of nations plan would not be accepted.

In some quarters Mr. Bryan's peace treaty plans have been advocated as a possible basis for the establishment of an association of nations.

Suggestions for a new American foreign policy, including the formation of an association of nations, were heard by President-elect Harding today from Colonel George Harvey, who was one of his closest advisers in formulating his campaign policies toward the Versailles league.

Before Mr. Harding makes his decision as to whether the United States should enter the Versailles league on any terms, he will talk with those who favor going in without reservations as well as those who favor staying out entirely. Colonel Harvey belongs to the latter class while Herbert Hoover, who will be here tomorrow, was a leader of the pro-league group.

Bryan Accepts

MAMI, Fla., (AP)—W. J. Bryan said today that he had accepted the invitation to confer with President-elect Harding on the proposed association of nations. Mr. Bryan expects to leave for Marion tomorrow.

## ATTAINMENT OF END BY GRADUAL STAGES ADVISED

### Committee Adopts Proposal for Propaganda Campaign in Connection with Program of Recommendations

GENEVA, (AP)—Japan cannot reduce her armaments as long as the United States is increasing hers, Viscount Kikuchi Ichi, of the Japanese delegation, declared at the meeting of the disarmament committee this afternoon when the question of disarmament was under discussion.

### Disarmament Scheme

Disarmament in three stages is the substance of the recommendation the committee on armaments of the league of nations assembly will make to the assembly as the result of its deliberations.

The first stage would be marked by an agreement among the powers to make no further increases in armaments.

The second stage of the recommended procedure is a gradual reduction in armaments.

The third stage would be that of general complete disarmament except insofar as arms were needed for police purposes. Mr. Dorot, delegate from Haiti, succeeded in securing the adoption of the committee's recommendation of an amendment providing that the council of the league inaugurate a propaganda campaign for "disarmament minds," as he put it, meaning the preparation of the younger generation for new order of things by proper education in the schools.

### Council Chooses Topics

Committees of the assembly of the league of nations were called into session this morning, and the meeting of the assembly was deferred until four o'clock today. The council will meet when the assembly met, decision would be reached as to the manner of choosing the four elective members of the council of the league.

It has been decided by the commission on technical organizations to send the United States a special invitation to name a member of the international advisory committee which will study the question of the optical traffic. The invitation will also carry out provisions relating to the copper traffic which were embodied in the Versailles treaty.

### Amends Court Plan

Members of the international court committee have found what they hope to be a solution of the jurisdiction problem that will satisfy those who have objected to this feature of the proposed international court. They have inserted a clause in the proposed plan which would enable the state which is desirous of an arrangement by which an offended nation may cite an offender before the tribunal may signify its acceptance of the provision for obligatory jurisdiction. The clause would further stipulate that this obligatory jurisdiction would become reciprocally binding upon all those nations which signify their acceptance.

This is far from meeting the original demands of some states, but hope is expressed that the example furnished by the first nations to accept the clause will be a moral force strong enough to induce others to follow a similar course.

### WHISKEY THIEVES COMPEL DRUG CLERK TO OPEN STORE

KANSAS CITY, Mo., (AP)—Whiskey thieves kidnaped a drug clerk from his home here last night, drove him to a nearby town, held him open a day, and then robbed the place of four cases of whiskey and \$500 in cash. After the robbers had left, James M. Paul, freed himself from cords with which he had been bound and telephoned the proprietor, according to the story he told the police today.

# FARMERS PLIGHT CALLED PROBLEM FOR THE NATION

Secretary of Agriculture in Annual Report Suggests Several Remedial Measures for Existing Situation

## WOULD OPEN WAY FROM PRODUCER TO CONSUMER

WASHINGTON, D. C. (AP)—American farmers face a situation due to falling prices for farm products which should be dealt with as a national problem, Secretary Meredith declared in his first annual report made public today. On November 1 prices were 23 per cent below those prevailing at planting time, the secretary of agriculture said, adding:

"There is perhaps no single solution for the situation which the farmers are now facing, but there are many steps which can and should be taken to place our agriculture on a more satisfactory basis and to stabilize the business of farming, not in the interest of the farmers alone but in the interest of the nation as a whole. A sober national thought with respect to the importance, the absolute necessity of a sustained agriculture in this country is imperative."

Several remedies were suggested including extending the marketing act and some means of aiding in carrying over to periods of low production the surplus of years of high production. The question of farm and personal credit must be given favorable consideration, the secretary declared, and ways be found to aid tenant farmers or men just embarking in the business of agriculture to establish themselves.

**For Co-operative Market.**  
"The road between the producer and the consumer should be kept open and made shorter," the report said, to insure fair prices and that the consumer will be able to buy what is reasonable profits attached to the original selling price. Co-operative marketing undoubtedly affords an opportunity to shorten the channel between producer and consumer, and, in addition, as well as opportunity to reduce the cost of production by use of governmental information as to marketing, grading, etc."

The farmers of America "have again justified the faith of the nation to meet its requirements," Mr. Meredith declared, and have produced crops estimated to be about 13 per cent above this year. The combined yield of the ten principal crops was 13 per cent above the average for five years.

The corn crop of 3,100,000,000 bushels is unprecedented, exceeding about four-fifths of the world's production, the report said. The sweet potato crop of 105,000,000 bushels is in excess of any other year except 1916, while the rice crop of 52,000,000 bushels is one-fourth greater than the largest crop ever harvested. Tobacco production of 1,476,000,000 pounds, the sugar beet crop of 149,000,000 bushels and the potato crop of 421,000,000 bushels stand out as high marks while the apple production of 236,000,000 bushels has been exceeded only once.

**Good Crops and Low Prices.**  
"It ought to be a fact," Mr. Meredith continued, "that when the farm of the country produce abundantly, the consuming public will be liberally supplied with food at reasonable prices, the farmer taking the benefit of large production and the consumer receiving his increment of benefit from having an adequate supply at a reasonable cost."

"In general, we should expect it to be true that the farmer's condition is improved in direct proportion to the number of bushels of wheat or corn or the number of bushels of other products. It frequently happens, however, when all farmers have extraordinarily good crops during the same year low prices leave him worse off than he has been in other years with short crops and high prices."

This year, Mr. Meredith said, high prices for farm products continued until they were reduced to such a point that price reduction set in, covering everything the farmers had to sell and materially affecting nothing they were compelled to buy.

"The year's output, produced at an abnormally high cost," the secretary added, "is worth at current prices \$3,000,000,000 less than the smaller crop of 1919 and about 1,000,000,000 less than the still smaller crop of 1918. The secretary estimates that the total value of animal products in 1920 is \$2,755,000,000 or about \$200,000,000 less than in 1919."

"There is probably no other industry or business that could suffer a similar experience and avoid insolvency," the secretary said, "and it has become more and more imperative to take in importance with the financial problems of industry. In this, as in marketing, Mr. Meredith suggested expansion of the cooperative idea as likely to bring definite and tangible results."

# THROUGH FARM BUREAU EFFORTS LIVESTOCK IS SAVED IN STATE

## Field Husbandman Gives Interesting Details of Accomplishments by County Agricultural Departments During Serious Drought Period Last Spring — Locate Feeding Grounds for Starving Cattle

At least 480,000 sheep and 49,500 head of cattle were saved to the state during the drought, through the efforts of the county farm bureaus and the university extension division, according to figures contained in the annual report of E. P. Reinhart, field animal husbandman of the extension division, just completed.

Drought conditions were such, says the report, that it was necessary to shift 25 per cent of the range sheep and 20 per cent of the range cattle from their usual feeding grounds. The part played by the extension service and the farm bureaus was to find new feeding places, and Mr. Reinhart's report states that an attempt was made to keep as many head in the state as possible, an experience had shown that stock, once shipped out, was likely not to come back.

**Distribution a Problem.**  
"While there was plenty of feed," says the report, "the distribution was a problem. Three hundred thousand head of breeding cattle and 20,000 head of breeding cattle were moved to feed in other states, located through the special drought office."

"Feeding grounds within the state were located for 620,000 sheep and 85,000 head of cattle. Practically all of these feed grounds were located through the county agents' offices. The wisdom of staying within the state, for with the exception of the sheep wintered on the range in Utah and Nevada, none of the breeding stock which was shipped out when spring opened it had a greater value here than there."

"With all of this shifting of stock, as well as that brought in from the outside, there was still a surplus of feed. During the months of greatest shortage, hay was shipped out as follows: February, 1333 cars; March, 915 cars; April 1334 cars; and in May, 1334 cars."

"The period was passed through with a 10 per cent loss of sheep and 11 1/2 per cent loss of the cattle. The number of ewes of this year showed an increase of 10 per cent over that of all available sources were that it would be necessary to sacrifice 25 per cent of the sheep and 18 per cent of the cattle, so that the number of stock held and retained for breeding purposes through the efforts of the local farm bureaus approximated at least 480,000 sheep and 49,500 head of cattle."

**Idaho Livestock State.**  
Saying that "Idaho is primarily a livestock state," the report gives numbers and value of livestock in the state at the beginning of 1920 as follows:

No.	Value.
Sheep	3,234,000 \$33,633,000
Beef cattle	537,000 23,981,700
Horses	270,000 20,700,000
Dairy cattle	136,000 11,560,000
Poultry	5,937,000 8,455,000
Swine	187,000 3,228,000

"Sheep rank as the most important industry of the state, with beef cattle second," says the report. "Most of the area of the state is such that without either sheep or beef cattle there would be a waste, the feed being such that it can be utilized only in this way. Both have two distinct phases, the range and the farm."

**MEXICO CITY LAYS PLANS FOR WORKMEN'S RESSION**  
MEXICO CITY, (AP)—Elaborate plans are already under way here for the entertainment of the delegates to the congress of Latin-American Workmen which is to be held in Mexico City for a week beginning January 11. Indications are that several hundred visitors will be here with all the Central American republics represented and several from South America. The American extension of Labor will also send a delegation, it is understood.

John Crocker resigned to Twin Falls on Thursday from Maroa, Ill., after an absence of two months. He found some difficulty in locating old land marks and was astonished at the improvements.

The trustees of the Prosebyterian church will shortly hold a meeting for the purpose of deciding upon plans for a church building. A temporary structure may be erected, but the church may decide to rent until such a time as a suitable edifice can be built.

Miss Byrd Wall, the young daughter of Mr. and Mrs. H. J. Wall, is rapidly recovering from an illness which has prevented her attendance in school for about three weeks.

## HOBOS WILL CO-OPERATE

**War Clouds Hanging Over Camps of Two Rival Organizations Dispelled**  
TOLEDO, O. (AP)—War clouds which hung over the camps of two rival hobo organizations were dispelled today when J. Eads How, founder of the International Brotherhood Welfare association, and Gus Gromer, grand dictator of the Social Order of Hoboes, shook hands and agreed "to work in harmony together forever for the good of all hoboes in general."

How announced the brotherhood has obtained a nine-room house for a "home for hoboes" and "employment bureau."

## OPINION FAVORS WIGGINS.

# AMERICANS ENTERING UPON PERIOD OF RETRENCHMENT BUY MORE THAN \$10,000,000,000 NEW LIFE INSURANCE

NEW YORK, (AP)—Despite the fact that the people of the United States have entered upon a period of retrenchment, they are buying more than \$10,000,000,000 of new life insurance this year, according to original statistics presented to the annual convention of the Association of Life Insurance Presidents here yesterday. The sum, it was stated, is 21 per cent more than the amount bought in 1919, which in turn was 62 per cent more than that purchased in the previous record year. The total insurance in force on all American lives 10 years ago was only nine and a half billion dollars, or less than the present year's new insurance.

The statistics, which were contributed by 153 companies doing 99.12 per cent of the life insurance business of the country, were presented to the convention by President George L. Cochran of the Pacific Mutual Life Insurance company of Los Angeles, Cal., who said in part:

"Last year, which vastly exceeded previous records in volume of new life insurance, was the biggest year in extravagance and the people seemed to go the limit in almost profligate individual expenditure," he said.

"This year the people of the United States bought \$1,750,000,000 more new life insurance than they did in 1919, notwithstanding their entry upon a year of retrenchment."

## TWO CHAMPIONS ONLY ARE SAFE FOR WAGERERS

**Dempsey, Heavyweight, and Leonard, Lightweight, Best of All Fighters**

By RAY PEARSON

There are just two champions in the ring today who might be termed safe betting propositions. These two are Jack Dempsey, world's heavyweight champion, and Benny Leonard, world's lightweight champion.

That isn't a very large percentage when it is considered that there are men who occupy the proud position of titleholder in seven recognized divisions of pugilism. The other champions are Johnny Wilson, who heads the mob in the middleweight class; Jack Britton, the leading light of the welterweight; Johnny Kilbane, the best of the featherweight crowd; Felo Herman, champion of the bantamweights, and Jimmy Wilde, boss of the flyweights.

### Wilde Is Real Top Notcher

Not one of the five just mentioned unless it happens to be Jimmy Wilde, is really a good betting proposition. Wilde is a better bet than the other four, chiefly because there is little opposition for him among boys of his own weight. Wilde very frequently goes out of his class and battles the bantamweights in order to keep busy and garner the coin that goes with pugilistic action.

It would seem that a champion always should be a favorite when entering the ring to box a contender for his crown, but that doesn't always apply, and many instances could be recalled of a challenger being the choice, or at least an even money shot in the betting, when battling a champion. It is a natural favoritism that is accorded a division when he faces a challenger and he is made that to a great extent on sentiment, not on actual dope.

### Dempsey Even Bet with Willard

An instance of a challenger being installed an even money choice against a champion occurred when Jack Dempsey met Jess Willard at Toledo, July 4, 1919. Several days before the fourth there was plenty of talk of betting with the odds presumably 10 to 9, Willard, of course, being the favorite. But those weren't the odds when it came to staking the real clinkers at Toledo.

A fellow who wanted to wager on Dempsey was forced to put up just as much money as the chap who sought to have his coin ride on Willard. It was a case of take it or leave it, and the fellows who were so awestruck on Dempsey's chances in most cases took—and got away with it.

But why are Dempsey and Leonard safer betting propositions than any of the other champions? That's the natural question for the person reading these lines to ask. We admit that there are some questions about the boxing game which are sticklers, but we refuse to consider this a difficult one.

### Why Dempsey Is Great

Take Dempsey first. When a champion wades through every man who opposes him and does it without even taking a punching it must be admitted that his superiority is marked. In Dempsey's case it is remarkably marked be-

cause he has done that very thing, scarcely taking a slap, let alone a solid punch. He is clever, far more clever offensively than defensively.

Now any man who can hit as hard as Dempsey, and combine with his punching great cleverness and speed, must perform to be a good betting proposition. Add to this that there never was a more vicious batter in the ring than Dempsey, and you will get our point very easily.

A knockout puncher with either hand, who is fast and clever offensively, and an unrelenting warrior, is something rarely seen in the heavyweight ranks.

Take Benny Leonard next. The lightweight champion differs in some respects from Dempsey, because he hasn't the same style. Leonard is a one handed knocker out, using his right to put 'em to sleep. But Leonard isn't the artist offensively that Dempsey is, just because he doesn't knock them out with either mitt.

Defensively it might not be out of line to state that the champion of the flyweights is as good as they make 'em. Then add to this that Champion Benny has wonderful fighting brain and a viciousness that never fails to finish a man once he has him going, and there you have Benny Leonard, the second best betting proposition.

### How Others Stack Up

But why aren't the other five mentioned good wagering propositions the same as Dempsey and Leonard, might be asked. Here's the answer in brief: Johnny Wilson—A fellow who does not knock his opponents out, who isn't very fairly clever; won the title on a decision which provoked much discussion.

Jack Britton—A scrapper who isn't a knockout puncher, who is a master mind of cleverness, principally at defensive mulling; who boxes opponents a limited number of rounds in most bouts, and thereby takes the chance of an opponent upsetting him or outpointing him.

Johnny Kilbane—A boy who has been champion for many years and who today holds the title because the competition is not formidable; who isn't the same class scrapper a few years ago; a fellow who might fall a victim if some young fellow were developed with a knockout punch.

Pete Herman—A champion who, although still young, has shown evidence of having gone back, a fellow who doesn't punch with his old force and does not assimilate a wallop as forniciously.

### No Flyweight Like Wilde

There is no need of saying any more about Wilde than we already have said, except that he is in a class by himself when mingling with flyweights. When he tackles bantams he is taking chances.

## FREE PASSAGE TO FIRST BAG IS SORE SPOT

Further Legislation is Demanded to Eliminate Intentional Pass

By I. E. SANBORN.

The nemesis of the intentional base on balls still pursueth, and demands by the fans for its abolition before another playing season, seem to be as numerous and insistent as in previous winters.

They are already rooting for Babe Ruth to break his own world's record of 54 home runs next year, and don't want the pitchers to be permitted to deprive the Tarzan of the green diamond of any chance to smash that record by passing him intentionally.

If accused of rooting for the New York Yankees to win the 1921 pennant, these fans indignantly deny it, and defend themselves by declaring they want to see the Gotham club licked, but licked on the level, and they do not consider an intentional pass on the level. Strategy never did appear in the average baseball fan's highway, and the strategic base on balls fell of all.

### Fans Now Highly Critical

Baseball patronage has changed rapidly in the last few years, and particularly since the scandals of the 1910 world's series. Many of the former earnest and loyal devotees of the sport lost interest in it and a lot of them were heartbroken when they discovered some of their heroes were dishonest.

They will not return to baseball with their old zeal and regularity until Judge Landis has had time, in cooperation with the fans of dishonesty in baseball, to rehabilitate the pastime on its former high pedestal. There is no doubt in any one's mind that given the proper authority and backing by the club owners, the present jurist can do it, but it will take a little time to undo all that has taken place to hurt professional baseball.

### Attracts New Element

Meaning that the sport has appealed strongly to that element of the public which loves the spectacular and the unusual. In spite of the suspicious cast upon the pastime before and during the season of 1920, it was the most profitable year in the history of the sport, not only in the majors, but in the minor leagues as well. Witness the tremendous crowds that turned out to see Babe Ruth whenever and wherever he played, irrespective of whether or not the home team was likely to offer a good contest against the Yankees.

That love of the spectacular will tide baseball over until civic and national pride in its honesty and cleanliness is restored.

To return to the abolition of the intentional pass, most of the suggestions received this fall are repetitions of the same old stuff—based on the erroneous idea that it is possible for any one connected with the sport to tell when a pass is intentional and when it is not.

### PLAYERS HURT

COLUMBUS, O. (AP)—Following an hour's hard scrimmage yesterday in which Coach Jack Wiley from the full back position on the reserve team, demonstrated that he could still plug the line, Fullback William and Halfback Henderson of the Ohio State football team were laid up today with minor injuries. These are not such, however, it was said, as to prevent their participation in the New Year's game against California at Pasadena, Cal.

## Brief Bits of Sport!

There are various ways of naming matters and things.

Firstance, one sport writer calls a six-day bike grind a "diversion."

When it's just another form of cruelty to animals.

Gordon McKay and Al Sommers are billed for another of their famous scraps in Pocatello on December 16.

While McKay is Sommers' master at all turns of the mitt road the men usually manage to give a fairly good account of themselves when they are in the ring.

Sommers is a husky and willing battler, but McKay, while having both those attributes, is clever and hard-hitting.

Pocatello fight fans are clamoring for a return bout between Spug Myers and "Kid" Solla.

These lads fought a slashing draw in the Junction city a while back, and the folks have had enough of them.

By the way, anybody heard from Abie Mishkind of late?

Neither have we, but we'll bet he will rest some time on the laurels he received (not to say won) from Al Young in Twin Falls a few weeks ago.

"Habe" Barton, former first baseman of the Vernon club of the Coast league; Bill Rumlir and Earl Mangert, former outfielders of the Salt Lake Bees, have been indicted by a Los Angeles grand jury on charges of conspiracy in connection with 1919 baseball games.

Rumlir has denied all along that he had any hand in the crookedness, but the grand jury evidently sees the evidence in a different light.

Harry McKinley put a lot of willing, if not classy, boys in the Lacerwing ring last night for mitt contests. As a whole, the kids worked well and gave a generally pleasing entertainment.

It's a good start and should result in a lot better flat things for home fans before the winter is done.

And it beats hollow bringing in high priced boxers to stage hippodrome matches.

Charlie Comiskey says that when Eddie Cleotis came into his office to confess his misdeeds Eddie said he was going to drown himself in the lake.

Charlie is quoted as being particularly caustic in his reply, saying: "Drowning would be too good for the likes of you now. Good-bye and don't

ever come into my presence again. Am sorry you were so weak you listened to tempters."

Some homily, that!

Migawah!

Frank Moran of Pittsburgh, sailed over to London, landed a punch on Joe Beckett's jaw; collected the dough and is now ready for the return journey.

CHARGES AGAINST INSTIGATORS OF RADICAL MOVES

Attorney-General Reviews the Campaigns Against High Cost of Living, Trade Combinations and Radicalism

DISCLOSES CARD INDEX ON AGITATORS ACTIVITY

WASHINGTON, (AP)—The campaign against the high cost of living, efforts to break up trusts and combinations in restraint of trade and the government's fight on radicalism are reviewed by Attorney General Palmer in his annual report sent today to congress.

In a discussion of the radical problem Mr. Palmer discloses that his department of justice has developed a card index system, containing more than 200,000 cards, giving detailed data on the activities of ultra-radicals and their organizations as well as a complete library of reference on the general radical movement.

Ninety per cent of the communist and anarchistic agitation during the last year, the attorney general says in a recent report on radicalism. He adds, it is not confined to the so-called "economic evils" but has been directed also toward the stirring up of racial prejudice.

The foreign language press has been particularly noticeable for its strong ultra-radical leanings. The attorney general says. He declares that the spread of radicalism has been "aided" in 26 or more foreign language newspapers in the United States. The results of the January raids on the communist and communist labor party meetings, Mr. Palmer says, caused a "marked temporary cessation" in radical activities here.

Mr. Palmer recited the legislative program laid before congress at its last session in which he said existing laws did not permit the government to carry on the sort of prosecution required in the case of the various labor courts, notably the Industrial Workers of the World whose activities the department has been unable to touch in most instances.

Turning to law enforcement activities, the attorney general says the government collected approximately \$4,532,000 in fines and judgments in the last year. Of this, \$2,452,000 was due to criminal prosecutions while the remainder was collected in civil proceedings.

Twenty-eight anti-trust cases are pending in the various district courts over the country and the supreme court of the United States. Frank K. Nebeker, assistant to the attorney general, in his special report on the subject, says that prosecution of anti-trust proceedings as rapidly as the machinery of the courts having jurisdiction can be moved.

Sixteen cases against alleged trusts or combinations in restraint of trade have been instituted in the last 12 months and twelve others have been disposed of by final court action, Mr. Nebeker says.

The report also notes in its campaign to lower living costs the department brought a total of 2,016 legal actions under the Lever act. Of these, 1,049 were on direct charges of profiteering. Other cases were brought in connection with the provisions against hoarding, manipulation of food stocks, conspiracies, etc.

Indictments were drawn in 771 instances, the report says, and to date 99 sentences have been imposed.

Drive Locks Assistance Mr. Palmer explains that the department's work, especially in connection with its drive on profiteers, has been handicapped by an insufficient number of attorneys, auditors, accountants and similar employees.

The inadequate number, he continues, was pitied against high-priced talent of the big industries and corporations, but he says that the work of the department's staff was commendable.

Delay in the completion by the department of the contingent investigation, ordered by congress, was explained by the inadequacy of the investigational force. Mr. Palmer says, however, that he expects a report on this investigation at an early date.

probably "soon after the opening of congress." The number of federal prisoners, described as the inmates of the various penitentiaries on June 30 was 4,737, as compared with 4,788 on the same date a year previous, says the report. Of these 4,888 were confined in federal prisons, 180 in state and territorial penitentiaries, 225 in state reformatories, 190 in national training schools and the remainder in miscellaneous institutions.

Mr. Palmer makes numerous recommendations for changes in laws, most of which have been sought for several years previously by his predecessors. He asks that the constitutionality of the right of the government to have a stenographer before grand juries be definitely established by legislative action in order that the records of all such investigations may be preserved.

Other Recommendations Included in the other recommendations are the creation of banking a federal indictment run to all parts of the country; legislation enabling the settlement of certain claims against vessels under government ownership; the right of the government to appeal by the government to the board of customs appeals; provision for payment of transportation of discharged prisoners to their homes at time of discharge which may be different than the place from which they were indicted, and the placing of bankruptcy referees on a salary instead of a fee basis of compensation.

Mr. Palmer also recommends practically a general increase in the salaries of United States attorneys and marshals in most cases the increase is \$500 per annum and is proposed, the attorney general says, because it has been found that many resignations are being received because the salaries of these officers are not in step with the increase in living costs.

MILLIONS OF EVERGREENS LEND CHRISTMAS CHEER

Forest Service Figures Show Many Trees are Used in the Yuletide Season

WASHINGTON, (AP)—Between four and five million Christmas trees will be felled this year to brighten American homes, churches, schools, centers, and delight the hearts of the children. This is the estimate of the forest service, which says that the total trees used in this country each year for the Yuletide season amount to approximately the combined consumption of England, Scotland and Wales and is about 25 per cent greater than that of Germany.

Forest service officials are opposed to any movement to discourage the use of these trees for Christmas purposes. To the argument that the cutting and the more sturdy trees, they also argue that trees are for use and that there is no other use to which they could be put that would contribute so much to the joy of mankind as their use by children on this one great holiday.

Of the total of Christmas trees consumed in this country, 1,500,000 are used in New York state and New England. In the forest service says, blue and red spruce are very commonly seen in New England Christmas celebrations and in New York and Philadelphia. In Illinois and Ohio the local demand is supplied partly with Norway spruce. Pines are in great demand for Christmas trees when fir and spruce are not available.

Throughout Maryland, Virginia, and in Washington, the forest pine finds its way into many homes, while in southern Wyoming the Lodge Pole pine is almost the only species available. Hemlock, but only in the absence of other varieties. Red cedar, says the forest service, is not depicted where better trees cannot be had, as in the treeless states and other parts of Pennsylvania, in California red cedar and incense cedar are not uncommon. The swamps of Michigan, Wisconsin and Minnesota furnish the markets of Chicago, St. Louis, Minneapolis and the cities of the plains states, while Maine, New Hampshire, Vermont, the Berkshires, Hills of Massachusetts and the Adirondacks furnish the New York market.

The sources of supply for New York, Philadelphia and Boston and even Baltimore and Washington. Christmas trees, the forest service says, will be in size from 3 to 35 feet and prices run from 25 cents to \$35 or \$50. Where the 25-cent trees are available is not stated.

STATE NEWS LEWISTON—Eighty-five carloads of grain have been handled from the warehouses along the lower Snake river since November 22 by the steamer Lewiston, the service thus far being directed principally to the warehouses which are on the railroad shipping point. As soon as their demands are met, the boat will work into Lewiston and then on to the upper Snake river warehouses.

LEWISTON—An ingenious slot machine for selling apples and oranges is being exhibited here by the event of L. B. Dietrich of Lewiston Orchard. The machine is gauged for any purchase of from one to 100 cents.

IDAHO FALLS—The Falk American Potato Flour corporation plant here will use 8,000,000 pounds of raw potatoes this season in making 2,000,000 pounds of potato flour according to statement of Manager Lawrence Hodgins. An average price of 55 cents a hundred pounds for field raw potatoes throughout the season continuing until July is promised.

CHINESE COMMISSION TO TAKE UP SHANTUNG DEAL

Peking Government Forms Organization to Promote Interests in League of Nations

PEKING, (AP)—The Peking government has organized a peace treaty commission, headed by C. T. Wang, one of China's delegates to the Paris peace conference, to act in an advisory capacity to the ministry of foreign affairs on matters concerning China's interests in the league of nations. Other members thus far named are Lou Ching-chen, former minister to Russia, and Shen Jui-lin, one-time minister to Austria. One of the first questions to be considered by the commission will be the Shantung affair.

MONTANA COMMERCIAL CLUBS SECRETARIES MEET IN BOZEMAN BOZEMAN, Mont., (AP)—Representatives from nearly every city in Montana are expected here today to attend the annual meeting of the Montana Association of Secretaries of Commercial Clubs. The annual address of the president, W. L. Jones of Glasgow, is to be given by G. D. Greenfield of Helena. Among prominent Montanans expected to be present is Nelson Strout, Jr., of Bozeman, lieutenant governor-elect.

Today, Alfred Atkinson, president of Montana State college, is scheduled to give an address on "Higher Education and State Commissioner of Agriculture." C. L. Greenfield of Helena is to speak on the subject, "Publicity for Montana." The convention will close at a close tonight.

Today's Markets

New York Stock Market

NEW YORK, (AP)—The stock market continued its downward course during the day, with many stocks opening as speculative shares yielding to persistent pressure in the absence of buying power.

The tone of overnight advices bearing upon values was again largely favorable to the short interest. Ralls of the representative type were heavy, losing 1 to 3 points and losses among secondary rails were more extensive.

The bulk of the selling centered in oil, metals, steel, shipping and food and textile issues, American Union showing further weakness.

Conditions in the automobile industry were reflected in the passing of the Pack Motor company dividend. The closing was weak. Sales approximated 350,000 shares.

Liberty Bonds NEW YORK, (AP)—Liberty bonds closed 3 1/2's @90; first 4's @85.00 bid; second 4's @85.10; first 4 1/4's @86.25; third 4 1/4's @85.85; third 4 1/4's @86.4; fourth 4 1/4's @85.84; Victory 3 3/4's @85.32; Victory 4 3/4's @95.34.

Grain and Provisions CHICAGO, (AP)—The wheat market showed considerable strength here today because of a general commission house buying program covering in all grades. Offerings were light.

Strong commission houses with eastern connections were said to be good buyers of the export. Opening prices which ranged from one cent lower to 2 1/4 higher with December \$1.02 1/2 to 1.03 and March \$1.57 to 1.60, were soon followed by sharp advances, the March delivery jumping 5c over the inside figure early.

There also was some good buying of corn by strong commission houses with eastern connections, and opening trades which ranged from 3-8c lower to 3-4c higher, with May 71 to 71 1/2c, soon were followed by additional gains.

The strength in corn was not maintained, however, despite a fair trade to seaboard, and at the finish prices were unchanged to 1/2c under yesterday's close with May 71 1/8 to 71 1/4c.

Oats were in sympathy with other grains. Initial quotations which ranged from unchanged to 1-4c higher, with May 49 1/8 to 49 3/8c, were followed by a setback.

Trade in provisions was quiet, opening prices ranging from 5c lower to 25c higher.

Cash Quotations CHICAGO, (AP)—Wheat No. 2 red \$2.05.

MORE HOSPITALS FOR EX-SERVICE MEN ARE NEEDED

Public Health Service Surgeon-General Urges Provision for Additional Facilities for Rehabilitation Work

CITES TEN-FOLD INCREASE IN NUMBER OF PATIENTS

WASHINGTON, (AP)—Additional hospital facilities for former service men and women and appointment of an administrative head for the three major agencies involved in rehabilitation work were recommended by Dr. Hugh S. Cumming, surgeon-general of the public health service in his annual report sent today to congress by the treasury department.

Emphasizing the need for additional hospital facilities, Dr. Cumming points out that 20,000 patients were receiving hospital care from the public health service on last July 1, as compared with 2,000 in October, 1919.

In addition to construction of new hospitals the surgeon general urged that existing ones be placed in first class condition and that 20,000 patients be treated with few exceptions are of antiquated construction and badly in need of repair.

STUDENTS INTELLIGENCE COMES IN FOR CRITICISM

Washington University Chancellor Says Standard is Lower

ST. LOUIS, Mo., (AP)—The average intelligence of college students in low grade schools is being questioned according to the annual report of Dr. Frederick A. Hall, chancellor of Washington university.

This conclusion, the report explains, coincides with that of authorities in other educational institutions, as ascertained through correspondence. The number of college students has been increasing steadily, the report says, and it is indicative of what may be expected in the near future.

MARINES BRING ORDER IN TROUBLED ISLANDS

Military Situation in Haiti and Santo Domingo Called Satisfactory

WASHINGTON, (AP)—The military situation in Haiti and Santo Domingo from the point of view of the marines is "extremely satisfactory," Major General Lejeune, commander in chief of the corps, declares in his annual report to the secretary of the navy made public today.

A year ago the handi situation in Haiti was "quite serious," General Lejeune says, but the present brigade and gendarmerie commanders have handled the situation in a "masterly fashion and it has been at least completely suppressed."

There has been no serious banditry in Santo Domingo in the last year, General Lejeune says, adding that on his recent visit he found the marines stationed there to be in efficient condition.

The "after effects" of the world war have been felt from the marine corps, the commandant continues. He believes that both officers and men have overcome the relaxations and unrest which followed the war and that they are working unceasingly to maintain the efficiency of the corps at its highest standard.

Strikes or Threat of Walkouts Hang Over Virtually Every Business Institution in the City of Berlin

ONE MILLION GERMANS REPORTED UNEMPLOYED

BERLIN, (AP)—Gradually increasing price for food in Berlin has caused a corresponding increase in the demands of workmen for higher wages, and strikes, or the threat of strikes, hang over virtually every business in the city.

Problem for Cities

Nearly every municipality in Germany is occupied with the problem of providing work for unemployed and adjusting wage difficulties, in an effort to forestall the spread of strikes and further discontent.

Spontaneous Strikes

Spontaneous strikes already have occurred not only in Berlin but also in the provinces, and, while there has been no evidence that a general strike is probable, the situation is causing state and municipal governments much concern.

STRESSES MULTIPLE TAX AGAINST LIFE INSURANCE

Speaker at New York Session of Actuaries Discusses the Federal Levies

NEW YORK, (AP)—A person holding a policy in any one of the American life insurance companies finds himself subject, indirectly, to the imposition of five and perhaps six federal taxes.

Although emphasizing the multiple taxation of life insurance, Mr. Rhodes urged that it is far better that insured men shall sincerely and wholeheartedly cooperate with the government in finding a reasonable basis of taxation than that they should take an antagonistic position toward all plans that may be presented.

A FAIRY TALE OF SCIENCE

A veritable fairy tale of science is unfolded in an interview given out by the mayor of Pueblo, Colorado, after a journey from Denver to Pueblo by airplane. He compares the trip with one he made half a century ago.

The remarkable developments of the last 50 years suggest a peep into the future 50 years hence. Will New York people slip away on Saturday afternoons for week-end visits at California or Mediterranean resorts? Will a woman by that time have achieved the presidency of the United States? Will tuberculosis have been wiped off the earth? Will wireless telephony have become so perfected that it will be possible to walk into communication with a friend, wherever he may be?

HOLLAND NEXT REPUBLIC

There was more than a little uneasiness among the allied diplomats during the world war over the attitude of Holland. The Netherlands kept its position of neutrality admirably. But it was hard to forget that the queen's consort and the heiress apparent's father was a German prince.

Should the balance of power in Europe, now so loosely swinging, catapult the continent into another bloody war, the Dutch do not intend to be caught napping. A special parliamentary committee has just drawn up some new provisions for the constitution that are illuminating.

Among them are the exclusion from the throne of all those "about whom there is no certainty of their sharing the Dutch people's natural feeling, and who are not acquainted with Holland's internal conditions." That is a blow aimed at the Hohenzollerns.

The committee goes further. It proposes that if the queen and Princess Juliana die without further issue, and no sovereign fulfilling the necessary conditions can be found, then the constitution shall be left open for the choice of another form of government.

### BASEBALL HEADS MEET TO ADOPT NEW AGREEMENT

Judge Landis Presides Over the Greatest Game Convention Ever Held

NEW YORK, (AP)—The greatest convention of baseball interests ever assembled in this country, involving a program for complete reorganization of the sport's government, got under way here today. The meeting of a new national agreement was the most important problem for settlement. The sessions will continue for several days, under the presidency of Judge K. M. Landis, newly appointed head of the sport. Some important deals involving exchange of major league players were expected to be made during the gathering. The events that led up to the necessity of adopting a new national agreement had their beginning about two years ago, when the national association of professional baseball leagues, the organization of minor leagues broke away from the national agreement because of a controversy relative to draft provisions.

**Re-organization Demands.**  
Then there arose from various quarters a demand for a re-organization of the national commission. The commission had been composed of the presidents of the National and American leagues with August Herrman, president of the Cincinnati club of the National league, as chairman. The organizations interested are represented in the present convention as follows:

- National league—August Herrmann, Cincinnati; Barney Dreyfus, Pittsburgh, and Charles H. Ebbets, Brooklyn.
- American league—James C. Dunn, Cleveland; Thomas Shibe, Philadelphia, and Frank Navin, Detroit.
- National association—Michael H. Sexton, president; Thomas J. Hickey, president of the American association; J. D. Martin, president of the Southern association; J. W. Morris, president of the West Texas league; George H. Maines, president of the Michigan-Ontario league, and W. H. Walsh, president of the South Atlantic league.

**Have No Vote.**  
In addition, John A. Heydler, president of the National league; Ben Johnson, president of the American league, and Secretary John H. Farrell, of the National association, are acting in an advisory capacity without the George Wharton Pepper, of Philadelphia, and John Conway Tool, of New York, are legal advisers.

The new national agreement which the committee propose to draw up will replace the one adopted in 1903. It is generally expected, that it will take the form of two parts: One between the National and American leagues that will apply to questions involving the interests of those two divisions.

Club owners and players have been invited to present ideas.

**New Agreement Certain.**  
The new agreement, in the opinion of baseball men here, is certain to contain a provision for the restoration of the draft system. Such a provision is likely to meet with serious opposition from some minor leagues and it is not unlikely that it would result in some of the minor leagues refusing to become a party to the new agreement.

When the proposed new agreement which is expected to include numerous radical changes, finally is in shape for acceptance by the committee, it will be submitted by them to their respective organizations for ratification. The agreement, in addition to outlining the duties and powers of Judge Landis, will confer upon him an official title, which probably will be director of baseball. He undoubtedly will have more power and authority than has been possessed by any individual or commission in the history of baseball.

As director of baseball it is the gen-

### GIBBONS LIKELY DEMPSEY FOEMAN AFTER JANUARY 1

Plans in Making to Send Tommy Against Champion in a 15-Round Bout

TOLEDO, O., (AP)—A 15-round boxing bout to a referee's decision between Jack Dempsey, world's champion heavyweight, and Tommy Gibbons of St. Paul, is planned by Al Thacher, according to a statement Thacher made today. Thacher, the man who assisted Tex Rickard in bringing the Willard-Dempsey match to Toledo a year ago last July, said he had signed Gibbons to a contract and was waiting to hear from Jack Kenra, manager of Dempsey.

It is proposed to stage the bout shortly after the first of the year, Thacher said.

**DECISION FOR BRITISHER.**  
NEW YORK, (AP)—Tommy Noble of England received the judges' decision over Bobby Michaels of New York, in a 15-round bout last night. Each weighed 127 pounds. Noble took a count in the first round but outboxed his opponent in the other rounds.

**WRESTLING.**  
ALBERT LEA, Minn., (AP)—Holmer Myre, Mason City, light heavyweight wrestler, defeated George Hill, Waterloo, heavyweight, in straight falls of 2 and 2 minutes, respectively, here last night. Myre was the aggressor throughout the match winning both falls with flying headlock.

**LANDIS WILL BE THERE.**  
CLEVELAND, O., (AP)—Judge K. M. Landis, head of the new baseball commission, will officiate next summer at the raising of the first world's series pennant ever won by a Cleveland team, according to President Sanford, of the Cleveland Rotary club.

**FOOTBALL HERO DEAD.**  
LA FAYETTE, Ind., (AP)—Robert Leo Sears, aged 44, famous Purdue university athlete and captain of the football team in 1906 and 1907, died yesterday at his home in Canyon City, Colo., according to word received at the university today.

**THORP HAS EASY TIME.**  
CEDAR RAPIDS, Ia., (AP)—Harvey Thorp of Kansas City easily outpointed "Bum" Steuher of Chicago here last night in their regularly scheduled on-round bout, according to newspaper critics.

**OPP IMPROVES.**  
SOUTH BEND, Ind., (AP)—George Gipp, Notre Dame football player, who is dangerously ill here with atropin-occident throat disease, showed slight improvement yesterday, attending physicians announced last night.

Gas Buggies—Every cloud has a silver lining (Copyright, 1920, by New Era Features) by Beck

I PAID TWELVE HUNDRED OUR CAR TWO YEARS AGO—THEY OUGHT TO ALLOW SIX HUNDRED ON IT NOW.

DON'T YOU TAKE A CENT LESS THAN THAT?

HOW MUCH DO YOU ALLOW ON IT?

IT'S PRETTY OLD—AND THE NEW ONES ARE DOWN IN PRICE TOO—

I THINK I OUGHT TO GET SIX HUNDRED AT LEAST—

THE NEW CAR IS ONLY SIX HUNDRED—AND YOURS IS TWO YEARS OLD—THEY DEPRECIATE FIFTY PER CENT A YEAR—

YOURS DEPRECIATED 300 THE FIRST YEAR AND 150 THE SECOND—SO FIGURING ON THE NEW PRICE IT'S ONLY WORTH \$150.

ONE HUNDRED AND FIFTY—IS THAT ALL?

YOU ONLY GOT A HUNDRED FIFTY?

WE'VE GOT SOMETHING TO BE THANKFUL FOR—THE PRICE OF THE NEW ONE ISN'T SO LOW WE HAVE TO PAY EXTRA TO TRADE IT IN—

# CANNOT AGREE; JURY DROPPED

## Judge Babcock Discharges 12 Men in Ramsayer Murder Trial after Report

Unable to agree the jury in the Ramsayer murder case was this morning at 11 o'clock discharged by Judge W. A. Babcock. Foreman W. E. Wallace told the court the jury was irreconcilably at variance on the main points at issue. Judge Babcock ordered the case continued for the term.

According to reports emanating from the courtroom the jury on the last poll had nine for acquittal of Ramsayer; two more for a verdict of involuntary manslaughter and the other one for a verdict of murder in the second degree.

The jury took the case on Thursday at 6 o'clock and took 41 hours to ponder over the testimony and instructions. It is understood there was no change in the temper of the 12 men during the past 24 hours, and no indication of any change in the ballot.

Yesterday evening the court ordered all beds out of the jury room, and also ordered the jurymen deprived of all paraphernalia which might create discussion. A chess board and chessmen, packs of cards and poker chips were removed from the room.

The defendant was present in the state's complaint of murder in the first degree, J. H. Abel, a neighboring farmer, being the victim of shooting, which has never been denied on the stand.

Ramsayer's attorney set up a case on self-defense theory. This was the second trial, Ramsayer being convicted of second degree murder in the first.

# DEMAND AN EMBARGO ON IMPORT PRODUCTS

## Chamber of Commerce Bureau Addresses Resolutions to Congressmen

Encouraging enactment of legislation looking toward the immediate establishing of an embargo on all foreign products now entering the United States in direct competition to Idaho goods from production of the agricultural bureau of the Twin Falls Chamber of Commerce has addressed the following resolutions to the Idaho representatives in Congress, with the request that steps be taken toward getting the suggested legislation adopted:

Because the cost of production in foreign countries and the cost of labor is lower than exists in the United States; and

Because the cost of water transportation from various foreign countries to the United States is less than the rail haul charges from Idaho to the central markets; and

Because livestock and livestock products, and wheat and wheat products and other farm products are being imported into the United States in quantities at the present time; and

Because the existing rate of exchange given the foreign producer a subsidy of approximately 20 per cent over our home producers' monetary rate; and

Because the farming and livestock industries are at present in a deplorable financial condition as the result of the present tariff conditions mentioned; and because this status of the livestock industry particularly affects all farmers in this state producing hay for sale; and

Because wheat importations are directly affecting the present price and sale of wheat to the disadvantage of our Idaho farmers.

Therefore, Be It Resolved by the agricultural bureau of the Twin Falls Chamber of Commerce that you, as a representative of the best interests of Idaho, be respectfully urged to use every means to encourage and further any legislation that will cause the enactment of an immediate embargo on foreign products now entering the United States in direct competition to our Idaho raised farm products.

# WRITES FROM CHINA

Mrs. E. D. Kellogg has received a letter from her son, J. M. Brower, posted in Shanghai, China, telling of safe arrival there, and that she will be permitted to spend the New Year season in Twin Falls. Mr. Brower is chief on a ship out of Portland, which carries relief supplies to starving people in China. He tells of a good voyage with the exception of one storm period. He sailed from Portland in October.

# WILL SEND DELEGATES

The chamber of commerce has requested the county commission to send delegates to the convention of quarantine officers in Spokane next week. The commissioners granted the request and will send representatives to urge the reopening of the quarantine on alfalfa seed, also the potato and fruit quarantine.

# INTEREST INCREASES IN U. S. NAVY SERVICE

## Trade Advantages Prove Tremendous Help in Recruiting for Sea Work

Reports from all over the country of increased re-enlistments in naval service are taken today to indicate growing interest in that branch of the U. S. service.

The past week has been particularly gratifying locally to the Twin Falls navy recruiting officers, who report 10 men accepted for service. They are: James F. Denny, John W. Riley, Chester D. Rydahl and Edgar M. Van Roy, electrical school, California; Hector A. Harpur, Edmund Leloy Parker and George D. Hitchcock, machinist school, Virginia; Ruben I. Stokor, plumbers' school, California; Donald C. Jayne, and Carl B. Burkhardt, Yeoman school, California.

Trade training advantages offered by the navy are exerting an influence and proving a tremendous help in popularizing this service.

# Ill Luck Pursues Quarry Man; Foot is Broken Twice

Joe Osa goes to hospital second time through accidents to member.

For the second time in two months Joe Osa is in the hospital for surgical treatment. He suffered a crushed foot on both occasions.

Osa is a quarry laborer employed at the highway district rock plant. Two months ago a large rock fell on his right foot, breaking the member. Last Monday he returned to work in the quarry. Thursday he was in the hospital again. The last break was caused by the slipping of a heavy loading pan on the same foot. The second break is said to be much worse than the first. Osa has a wife and two children.

# Local Scrappers Give Good Bouts in Lavinger Ring

## Lively Scraps Mark Opening of Club's Season Fistic Schedule

Some good mitt contests were staged at the Lavinger theater last night under the direction of the Twin Falls Athletic club. Five bouts in all were put on, but only providing good entertainment for the throng.

The exception was skit between Everett and Ford. Everett found the going too rough and he stepped from the ring.

Ashton and Cross, lightweights, put on a stirring six-round main feature that was inaugurated with action from the start. The boys mixed willingly from the start, and finished up with honors even.

Waltman and Hoffman started the melee with a good four-round draw, but a bit of applause for Johnson and Huetel and Kirkpatrick and Dougherty gave rare examples of willingness and fistic art in short bouts that were draws.

# MAOEL BRINGS SUIT

Alleging that the terms of a building contract were not fairly and fully performed and that he has been damaged to the extent of \$25,000, Conrad Maoel has brought suit in the district court against Contractor W. J. Reed, 1114 E. Fifth st., Drayton, county of Maryland. The second defendant bonded the contractor on a contract for the erection of a garage building on Third avenue north, Plainville, Idaho. The suit charges that Reed's faulty construction has been employed.

# PEPPERMENT WAFERS

Ingredients  
1 1/2 cupsful of sugar.  
1 1/2 cupsful of eggs, cup.  
1 1/2 teaspoonful of cream of tartar.  
1 1/2 cupsful of milk.  
1 teaspoonful of butter.  
1 1/2 teaspoonful of extract of pepper.

Formula  
Boil the sugar, syrup, cream of tartar, milk and butter until it forms a soft ball when tested in cold water. Remove from the fire and when nearly cool add the extract and beat until creamy. Press from a whipped-cream bag into water-shaped drops.

Members of the Winonaiah club entertained their husbands at a 7 o'clock dinner Friday evening at the home of Mr. and Mrs. E. J. Jenson. The guests came in costume and after dinner "The District School" was cleverly given by some of the members. Those present were: Mrs. and Mrs. James A. E. Mann, M. E. Jenson, S. H. Kaylor, Urban Tracey, C. M. McElwain, H. S. Cowling, L. L. Breckenridge, W. J. Young, J. C. Bencehugh, H. J. Young, W. E. Nixon, G. J. Scott, C. S. McMartin, J. M. Spackman, W. A. Babcock, H. W. Wilson and J. P. McClure.

Mrs. C. L. Longley gave an illustrated lecture on "The Development of Art and the Old Masters," at the Kimbly Woman's club, Thursday.

A large number of high school students enjoyed the first of our art and high school dances at the Bluebird pavilion last evening. Members of the faculty chaperoned the party and music was furnished by the Bluebird orchestra. Punch was served throughout the evening.

Mrs. Earl Pelt entertained the Fort night club on Friday, the afternoon being spent in a card and refreshment society. Those present were Mrs. C. Mitchell, Mrs. W. H. Eldridge, Mrs. L. E. Salladay, Mrs. C. H. Krengle, Mrs. J. C. Vincent, Mrs. A. B. Colwell and Mrs. Oliver Harstad.

The art department of the Twentieth Century club met at the home of the leader, Mrs. C. L. Longley, Friday afternoon. Japanese art was the subject of study with special reference to pottery. Many beautiful specimens of various ware were exhibited, notably Cloisonne, Ming, Royal Satsuma and others, including vases, bowls, plates, tea bowls and several interesting vases. One article of special interest was a tiny snuff bottle carried by the exquisite dandy of Japan, but representing a far from tiny investment in dollars. Mrs. Longley also displayed a number of Japanese prints and explained something of the law regarding the execution of art in Japan. Plans were developed for an art exhibit later in the season whereby Twin Falls will be given an opportunity to see reproductions in sepia and colors, of the best in modern art, and the early masters. This department's new numbers soon 30 or more on the membership list. The next meeting will

be held on the Friday following the first general club day in January.

Mrs. H. F. Sheehan entertained last evening consisting her house, Mrs. David Revor of Ogden. Progressive "500" formed the amusement for the evening. Mrs. B. A. Heitler winning the prize for high score, and Mrs. Revor received the most prizes. Following the card games, music and refreshments were enjoyed. The guests were Messrs. and Mrs. James Wise Evans, Ed Kinney, E. A. Heitler, F. W. Brobaugh, F. W. Dumke, A. L. Stone and Miss Marguerite Freis.
