HOUSE ADOPTS BILL TO CURB ALIENS INFUX

Johnson Measure is Amended to Prohibit Immigration for One Year is Passed by Vote of 293 to 41

DEFEAT IN SENATE IS PREDICTED BY LEADERS

WASHINGTON, (AP)—The Johnson immigration bill, as amended to prohibit all immigration for a period of one year, was passed today by the house.

Exempts Brothers and Sisters

The Senate amendment exempting brothers and sisters of aliens who had become American citizens was approved, 203 to 76.

Immediately after the vote was announced, Chairman Johnson, of the immigration committee, issued a statement saying that the 1250 immigrants who arrived at New York Saturday on the White Star liner Adriatic had been sent to Hoffman island because of an outbreak of typhus among them and that at Gloucester, N. J., 11 aliens had been taken from the steamer ship Hayford and sent to the detention station suffering with typhus.

Rejects Two Years' Clause

Last minute attempts by house leaders to restore to the Johnson immigration bill the clause restricting immigration for two years, failed today, the house approving by a vote of 165 the Mann amendment limiting the barring of aliens to one year.

HOUSE VOTES TO CURTAIL WAR LAWS REPEAL DEBATE

WASHINGTON, (AP)—The house today adopted a rule limiting to two hours debate on the Volstead revision to repeal most of the war time laws. Debate was started immediately.

NEWS WILL HELP POOR TO ENJOY CHRISTMAS

"White Stocking" Club is Formed to Provide Presents for Kiddies

Every person in Twin Falls is eligible to membership in the "White Stocking club."

The "White Stocking club" is a charity movement formulated by the news.

The news office is to be the distributing point for the operation of this department. It is proposed to cheer the hearts of hundreds of children who, otherwise, would want the many little evidences of Christmas cheer.

The stocks are kept in supply at the news business office and will be delivered upon application. What the news wants is willing donors to take them up and fill them.

WAR PRISONERS CREDIT AMERICANS FOR LIVES

Former Officer of Austro-Hungarian Army Tells of Transformation in Siberian Hospital

WASHINGTON, D. C., (AP)—Credit for saving the lives of 100 Austro-Hungarian prisoners of war in a prison camp near Chabarovsk, in eastern Siberia, during the fall of 1918, is given to officers of the Twenty-seventh United States Infantry at Lieutenant Colonel Ferdinand Roder, of the former Austro-Hungarian army, in an open letter to the press of Austria and Hungary.

TOKIO, (AP)—Approval is expressed by the Osaka Asahi Shimbun of that portion of President Wilson's message to congress in which he urged the Philippine Islands receive their independence.

CONSTANTINOPLE, (AP)—The French have gained a foothold in Aintab, Asiatic Turkey, surrounding the town in the hope of starving out Turks. The fall of the town is expected soon. American workers of the Near East relief are safe.

TOKIO, (AP)—Three hundred and seventy-five Koreans were killed or executed in recent skirmishes near Changtao, Korea, according to advices received from that area, where Korean bandits have been operating for some time. Fifteen hundred Koreans are said to have surrendered, while two churches and five schools were destroyed.

BERLIN, (AP)—American soldiers in the occupied area have contributed a million marks toward a fund for providing Christmas cheer to poor German children, says a special dispatch from Coblenz.

IDAHO WEATHER

Tonight and Tuesday, fair.

FRENCH AND ENGLISH DISREGARD OF LEAGUE THEME OF CRITICISM

Separate Action by Premiers on Matters Before Assembly Made Subject of Sharp Comment by Committee on Admission of New States; Opinion is Expressed that if Powers Desire to Continue Old Form of Diplomatic Procedure They Are Not Ready for New Order

GENEVA, (AP)—The plan for an international court, submitted to the assembly of the league of nations by its committee which had been considering the subject, was unanimously adopted by the assembly at today's session.

GENEVA, (AP)—Military control of Danzig for Poland was recommended to the council of the league of nations in a report from the military commission. This recommendation, should it be adopted would be in line with a request from the Polish government.

HOLLAND CALLS MINISTER BACK FROM BELGRADE

Breaking Off of Diplomatic Relations with Jugo-Slavia is Announced with Dismissal of Serbian Charge

ACTION CALLED RESULT OF CONTINUED INSULTS

THE HAGUE, (AP)—Diplomatic relations between Holland and Jugo-Slavia have been broken off, it was stated here today.

Holland has recalled her minister from Belgrade and has dismissed the Serbian charge d'affaires at The Hague. The action was taken as the result of what the Dutch foreign office terms "a long series of insults to the Dutch government."

The beginning of the difficulty was the arrest by the early part of the war, without notification to Holland of the Dutch consul at Belgrade, who was an Austrian subject. Since then according to the foreign office, repeated efforts by Holland to adjust the difficulties amicably had met with no result.

League's Military Forces to Assemble Under New Banner

International Army's Flag Bears Swastika in White Field on Blue Square

WARSAW, (AP)—The league of nations international army to supervise the plebiscite at Vilna will probably establish its base at Mened, which is under the league's control. An army of 2,000 from Sweden, Spain, Denmark, Belgium, France and England probably will march into Vilna in January ready for the plebiscite, which will be held in February. Holland will probably have a contingent but the participation of Norway and Italy is considered uncertain.

Colonel Chadigney, commanding the league's army, will establish headquarters at Vilna. The army's flag will be a blue square, with a white field in the left hand corner bearing a red swastika in the center.

The forces under General Zeligowski will begin withdrawing when the international army arrives.

NATION'S COTTON CROP

LARGEST SINCE 1914

WASHINGTON, D. C., (AP)—Cotton production this year is larger than that of any year since 1914 when the country's record crop was grown. The final estimate of the crop amounted to 11,500,000 bales, or 40 per cent more than the production of 8,250,000 bales, exclusive of linters.

The Turkish-Armenian peace and the denunciation of the Soviet treaty by the Armenian and soviet governments was concluded at the request of Moscow, says the communique. "With the acceptance of the soviet regime Armenia ceased being independent. The country is now being governed by Russia."

World News Events

CONSTANTINOPLE, (AP)—The French have gained a foothold in Aintab, Asiatic Turkey, surrounding the town in the hope of starving out Turks. The fall of the town is expected soon. American workers of the Near East relief are safe.

TOKIO, (AP)—Three hundred and seventy-five Koreans were killed or executed in recent skirmishes near Changtao, Korea, according to advices received from that area, where Korean bandits have been operating for some time.

BERLIN, (AP)—American soldiers in the occupied area have contributed a million marks toward a fund for providing Christmas cheer to poor German children, says a special dispatch from Coblenz.

WILSON CALLS FOR \$300,000 RELIEF FUND

President Appeals to Countrymen in Behalf of Children who are Facing Starvation in Central Europe

DECLARES TEN DOLLARS REPRESENTS ONE LIFE

WASHINGTON, (AP)—President Wilson today called upon his "fellow countrymen" to contribute funds to save three and one-half million children who "are facing starvation in central Europe." The president announced that he would adopt 20 of these children as his temporary wards and said that \$10 contributed through the European relief council would save the life of a child.

"Three and one-half million children are facing starvation in central Europe," said the president's statement. "It is estimated that they can be aided over until the next harvest by money and service equivalent to \$30 per child. The cost of this cost in the personal and machinery for distribution but the other one third they must look abroad for, and they are looking to us."

"I suggest to my fellow countrymen that the circles around their Christmas tree be surrounded by children in peril with their own expectant children. They shall visualize some of the wants of central Europe, stretching out their hands to them, from their Christmas trees. I shall adopt 20 of these children as my own temporary wards and I can think of no better way in which I could get \$200."

Would Visualize Wait. "I suggest to my fellow countrymen that the circles around their Christmas tree be surrounded by children in peril with their own expectant children. They shall visualize some of the wants of central Europe, stretching out their hands to them, from their Christmas trees. I shall adopt 20 of these children as my own temporary wards and I can think of no better way in which I could get \$200."

Denial is Made of Dissention Between Turk Nationalists and Russ Reds

CONSTANTINOPLE, (AP)—Armenia is no longer an independent state, but is under the tutelage of Moscow, said a statement issued by the Turkish nationalist government at Ankara, bearing date of December 6, which likewise formally declares that no dissention exists between Mustafa Kemal Pasha's regime and the Russian soviet.

"The Turkish-Armenian peace and the denunciation of the Soviet treaty by the Armenian and soviet governments was concluded at the request of Moscow," says the communique. "With the acceptance of the soviet regime Armenia ceased being independent. The country is now being governed by Russia."

ARMENIA IS UNDER SOVIET'S TUTELAGE MOSCOW DECLARES

CONSTANTINOPLE, (AP)—Armenia is no longer an independent state, but is under the tutelage of Moscow, said a statement issued by the Turkish nationalist government at Ankara, bearing date of December 6, which likewise formally declares that no dissention exists between Mustafa Kemal Pasha's regime and the Russian soviet.

"The Turkish-Armenian peace and the denunciation of the Soviet treaty by the Armenian and soviet governments was concluded at the request of Moscow," says the communique. "With the acceptance of the soviet regime Armenia ceased being independent. The country is now being governed by Russia."

CHARGES CONTINUED WITH ENVOYMENT DESPITE MISHAP

NEW YORK, (AP)—Enrico Caruso, noted tenor who ruptured a blood vessel in his throat during a performance in Brooklyn Saturday night, will sing in the Metropolitan Opera House tonight, his physician announced today.

"A Russian Bolshevik has been appointed a member of the Armenian cabinet and 10,000 Russian troops have entered Armenia across Akastika (Trans Caucasus). The American soviet government has demanded the immediate evacuation of the neutral zone and the Bortschabad district."

WHITE HOUSE INTIMATES CHOICE OF MORGENTHAU

WASHINGTON, (AP)—White House officials intimated today their belief President Wilson had decided to name Henry Morganthau, former ambassador to Turkey, to act as his personal representative to mediate between the Armenians and the Turkish nationalist.

"The Turkish-Armenian peace and the denunciation of the Soviet treaty by the Armenian and soviet governments was concluded at the request of Moscow," says the communique. "With the acceptance of the soviet regime Armenia ceased being independent. The country is now being governed by Russia."

FORMER EMPRESS IMPROVES

BOONEN, Holland, (AP)—Former Empress Alexandra of Russia continues to improve in health, but her condition still is critical, former Emperor's sister Friedrich and Auguste-Charlotte have returned to Germany.

BRITISH REGULARS STAND GUARD OVER RUNS LEFT IN WAKE OF CORK'S FIRE

Hint of Reprisals for Killings in Ambush Figures Prominently in Attempt to Fix Responsibility

TWO DISTRICTS SWEEP BY FLAMES; ESTIMATES OF LOSS REACH \$15,000,000

CORK, Ireland, (AP)—More than 300 buildings are said to have been destroyed by the fire which yesterday had wiped a great part of this city. Most of the fires have been extinguished, but there are occasional sporadic outbursts of flames.

The police and military are having the greatest difficulty in keeping the thousands of spectators from the wrecked premises, the walls of which threaten to collapse.

St. Patrick street, one of the main thoroughfares of Cork this morning presented the appearance of having been wrecked by an earthquake. Looting has been general. Outside the fire zone the police seized a gang of burglars who were killing a woman.

LONDON, (AP)—British regulars stood guard today over twisted and blackened ruins left after the fires which Saturday night and yesterday swept virtually unbroken through the city of Cork, Ireland.

Hours of terror were spent by the people of Cork during Saturday night and Sunday morning watching throughout the city. It is said several lives were lost, and dispatches declare two brothers named Delaney, were called from their homes and shot, one of them fatally.

Two districts of Cork were swept by the flames. In the business section, along St. Patrick's street, from Cook to Mayor, hardly a shop was left unscathed. This was the shopping center of the city.

The magnificent city hall of Cork, located on the southern end of the Parcell bridge that spans the River Lee was reduced to a heap of debris, as was the Carnegie library, the west, was burned, and the Corn Exchange, to the south, was partly destroyed. Reports say Albert Quay, lying along the south bank of the river, is a mass of desolation.

PATROL BEATS OFF ATTACK

CORK, (AP)—A military patrol was ambushed at Cloyne, seven miles east of Queenstown yesterday. The attackers threw three bombs from two houses, but were defeated. Two of the attackers were killed, several wounded and two captured. One soldier was wounded. The houses from which the bombs were thrown, were burned.

WOULD HAVE GOVERNMENT GUARANTEE GRAIN PRICE

WASHINGTON, (AP)—Purchase by the government of the surplus of certain farm products on hand at the end of the crop year at a guaranteed minimum price was suggested today to the senate agricultural committee by W. H. Lyons, a member of the South Dakota legislature. He would fix a minimum price of \$2.25 a bushel for wheat, \$1.10 a bushel for corn, 75 cents a bushel for oats, and \$1 a bushel for flax.

A bill authorizing the United States grain corporation to borrow \$250,000,000 from federal reserve banks to carry out this plan had been introduced in the senate by Representative Christensen, republican, of South Dakota.

PROPOSES EMBARGO FOR YEAR AGAINST PRODUCTS

North Dakota Representative Introduces Bills to Protect Farmers

WASHINGTON, D. C., (AP)—An embargo for one year against the importation of wheat, wheat flour, barley, rye, oats, flax, wool, hops, cattle and sheep, is proposed in a bill introduced today by Representative Young, republican, North Dakota. It also introduced a bill establishing a permanent schedule of import duties upon these items after the one-year embargo.

HARDING SEEKS ADVICE OF ROOT ON ASSOCIATION OF NATIONS PLAN

MARION, O., (AP)—Advice on the plan for an association of nations was sought by President chief Harding today from Elihu Root, former secretary of state and more recently a confederate of European statesmen in the formation of a world court under the Versailles league covenant.

The conference, regarded as one of the most important to be held by Mr. Harding, in his meeting of mind, has been understood to have been concerned chiefly with the question of how far the machinery of the present league may be used in building a world peace concert acceptable to the United States.

BUILD SHIPS OR JOIN LEAGUE IS DANIELS' ADVICE

Secretary of Navy Gives Conditional Approval to Another Three Year Building Program Involving 88 Vessels

ASKS FOR MORE BASES ALONG PACIFIC COAST

WASHINGTON, D. C. (AP)—Approval of another three-year naval building program, involving the construction of 88 vessels, if the United States does not enter the league of nations or a similar world organization, is given by Secretary Daniels in his annual report today to President Wilson.

"If the United States is not to enter into any agreement with the other powers of the earth, which are now bound together in the league of nations," says the naval secretary, "I feel compelled to approve the recommendation of the general board that congress authorize another three-year program to be begun as soon as the capital ships now under construction are launched."

The three-year program recommended by the general board to be under way by 1924 includes the construction of three battleships, one battle cruiser, 20 light cruisers, eight gunboats, 18 destroyer leaders, 12 mines laying submarines, six cruiser submarines, four airplane carriers, three destroyer tenders and three submarine tenders.

"If the U. S. takes its stand with other countries in an organization to prevent war and promote peace," Mr. Daniels says, "our present navy, with the addition of some special types, will be adequate for our defense and the prevention of aggression."

"Not Really an Increase"

No specific recommendations for appropriations for new construction during the next fiscal year are included in the secretary's report, but his estimate of the cost of maintaining the naval establishment for the coming year is \$279,515,731 exclusive of any sums congress may add for new building. This is \$240,000 more than was appropriated for the present fiscal year, but Mr. Daniels says the sum "is not really an increase," but is "necessary to carry on the construction of ships and the completion of shore establishments already begun by direction of congress."

The most pressing problem confronting the nation with regard to the national defense, the naval secretary continues, is the immediate necessity for increasing the naval shore establishments and facilities on the Pacific coast.

"The day will never come," Mr. Daniels says, "when a powerful fleet will not be based in the Pacific and it is essential that ample provision be made not only for the Pacific fleet, but for the whole American fleet in its stated periods of tactical exercises on the west coast."

Among the new Pacific coast projects now under consideration for which congress has been or will be asked to provide funds are a deepwater docking and repair base, a submarine base and other developments at San Francisco; an aviation base at Sand Point, King county, Washington; a submarine, destroyer and aviation base at Fort Anclote, Washington; a submarine base at Los Angeles; a submarine and destroyer base at Astoria, Ore.; and a very extensive development of harbor and repair facilities at Hawaii. In all, the report declared, projects the ultimate cost of which will reach a total of about \$100,000,000 are urgently needed for the Pacific coast proper.

Wants Base in Hawaii

Characterizing Hawaii as the "crossroads and key to the Pacific," Mr. Daniels recommends the creation there of a fleet-operating base capable of accommodating the entire American navy with all auxiliaries. Facilities for a fleet of a thousand vessels could be de-

veloped at Hawaii, the report asserts, adding that "the strategic location of Hawaii is realized, its possibilities have been carefully studied and set forth by naval experts and its development on a broad scale as a fleet operating base cannot be too strongly recommended." Despite opposition to the project in this country and abroad of the completion of capital ships authorized before the war, the battleship remains the "backbone" of the fleet, Secretary Daniels declares. "The time has not come for the abandonment of capital ships, he says, and in support of his declaration he points out that recent British building programs included funds for destroyers, cruisers and battle cruisers and that Japan has "laid down five capital ships since the armistice and it is understood that eight others are projected for the near future."

Would Consolidate Control

A strong plea that all marine activities of the government be consolidated in the navy in the interests of economy and efficiency is made by the naval secretary. He declares that "America should have but one navy" and that at present there are various "little navies" under various government departments whose activities could be far more advantageously directed under a single control.

The navy department now operates a total of 979 vessels, Mr. Daniels points out, while the war department maintains a fleet of 470 craft, consisting of 1,345 other vessels of various types used in harbor work; the treasury 101 ships; the department of commerce 137; the shipping board 1,610, and miscellaneous divisions more than 200 others.

Amalgamation with the navy of the coast guard and the lighthouse and life-saving service is particularly urged by Mr. Daniels and he also says "it would be to the advantage of the army as well as the navy if all United States transports were manned by the navy in times of peace as well as war."

"In other words," says Mr. Daniels, "there should be but one marine department of this government and its craft should be operated by the navy as a single unit. This cannot be considered a radical departure or experiment, as its worth and practicability were thoroughly demonstrated under the severe test of dual fleets."

Justifies Dual Fleets

In reviewing the operations of the fleet during the year Mr. Daniels asserts that "no policy adopted in recent years has a sounder military basis or has been more completely justified than that of maintaining great fleets, one in each of the great oceans, are called upon to defend, with provision for their operation as one single fleet." Gratifying progress was made in larger vessels, he states, by the use of new recruits and maneuvering during the year, the report adds.

Reviewing the remaining work under the 1916 building program, Mr. Daniels says construction is going forward as rapidly as can be expected under the conditions encountered. All of the destroyers of that program have been completed except 12 which he decided not to construct because of a surplus of this type of vessel. The 10 scout cruisers are "going forward rapidly," the secretary states, and good progress has been made on the submarines except the nine fleet submarines, of which but three have been started. Eleven battleships and six great battle cruisers also remain under construction.

The navy's work abroad during the year was reviewed in detail by Mr. Daniels, particular attention being given the forces in the Adriatic, and Near East in connection with the treaty out the terms of the armistice, "a delicate task in view of the political and racial rivalries involved." The work of the forces in Turkish waters under Rear Admiral Mark Bristol, American high commissioner at Constantinople, is highly praised, and Rear Admiral Newton McCully is complimented for his conduct of a mission in South Russia.

Urges Aerial Development

The secretary renews his previously stated opposition to consolidation of army, navy and commercial aviation and recommended the creation of a separate bureau of aeronautics in the navy department. In connection with his review of the activities of naval aviation during the year Mr. Daniels asserts that the United States is "still far behind other countries in lighter-than-air craft" and urges a continuation of the development of this branch of the aerial service. Mr. Daniels again recommends government ownership of all radio facilities used in trans-ocean and ship-to-ship traffic. Earnings of navy radio stations from commercial traffic during the year were the more than \$1,100,000, the report says.

SOLVES FUEL PROBLEM BY USE OF WIND AND WATER

French Scientist Tells Association of Benetons from Installation of Kitch-on Turbine
PARIS, (AP)—Wind and water hold the solution of the fuel shortage in France, E. Colardeau told his associates at the Academy of Sciences at its last meeting. He presented what he considered proof in the results of an installation on his kitchen faucet of a water turbine which drives a dynamo that charges storage batteries. City pressure on the water, he explained, is sufficient to furnish a household with electric light. In the country, M. Colardeau would install windmills to pump water to elevated tanks and utilize the fall of the water through a pipe to turn charging turbine. New interest has been taken here in this idea of household installations because the higher costs of fuel and power, if it is controlled, may make practicable these water turbines.

DISCUSSES HAITIAN SITUATION

Mr. Daniels devotes a considerable portion of his report to the marine occupation of Haiti and to the investigation now being conducted there by a special naval board of inquiry. He gives in full the various reports of investigations by Major General Lejeune, Brigadier General Barnett and others, which previously have been published, and declares that "the duty of maintaining order and suppressing revolutionary movements has been performed in a spirit which has received the highest commendation from all who have familiarized themselves with the true history of the service of the marines in Haiti." "When the story is written of the courage, consistency and military spirit of the Haitians and the improvement in material conditions," says the secretary, "the people of the United States will find that they owe another lasting obligation to the marines who have made possible the best era in the history of that country, an era that will open the way for the stable government which I trust will be possible for Haiti under such American protection as will insure the prosperity of the Haitian people."

AMERICAN VESSELS IN MAJORITY AT HAMBURG

Correspondent Counts Ten Boats Flying Stars and Stripes as Against Fifteen of Other Nations
HAMBURG, (AP)—Ten American ships were counted today by the correspondent in a general tour of Hamburg harbor as against six flying the British flag, four the French, four the Dutch and one the Japanese. The American vessels, most of which were unloading grain, included the Chicomoleo of Seattle, the Belle and the Bete of Kearney, the Eastern Breeze and the Victorious of San Francisco. Small shipments of print paper, glass, matchboard, artificial flowers, pianos and other miscellaneous cargo, including airplanes, which the entrance is trying to prevent Germany from exporting, awaiting shipment to the United States, are the gigantic warehouses of the Hamburg-American line.

TOOKO TO USE VESSELS AS FLOATING ORBATORATORY

TOKIO, (AP)—Tokio will soon have a "floating oratory" the first of its kind in Japan. Two specially constructed vessels of 150 tons each with facilities for cramming 30 bodies at a time will be used. The vessels will be anchored at a wharf at Siburua and after funeral services have been held on board, they will leave for a point about seven miles off the bay for the cremation.

HE WAS ENLIGHTENED

During a flood a few years ago the river reached the power plant about 30 feet out of the power. The operators in the telephone exchange called the wire chief, who started to the office in his flivver, and found his lights out. Before reaching the office he was stopped by a police officer, who asked him why he had no lights. Doing a little thinking, he told the officer: "Of course, my lights are out, the juice is out all over town." The officer studied a minute and said: "By golly that's so, go ahead."—Science and Invention Magazine.

RESULTS ARE PROMISED FROM FARMERS MEET

Nationwide Agricultural Conference at St. Louis to Work in Unity of Effort in Marketing of Products

CO-OPERATIVE BUSINESS ENTERPRISES INVITED

WASHINGTON, D. C. (AP)—Co-ordination of effort and unity of action in marketing agricultural products will be the principal subject before the nationwide conference of agricultural representatives at St. Louis, December 16, 17, 18, according to Charles S. Barrett, president of the National Farmers' union, which requested the national board of farm organizations, to call the meeting.

Mr. Barrett describes the conference as a getting together of the survivors of the many farmers' co-operative agencies now in existence.

"It will not be another one of the thousands of meetings which have met in the past only to result in a discussion of plans and nothing more," says he.

Co-operation Big Factor.

Something in the nature of a national marketing board may be evolved at this meeting, and co-operative buying of supplies also will be considered.

"The co-operative meeting," says Mr. Barrett, "for the purpose of counselling together and mutually carrying out plans for a business enterprise which will adequately meet the agricultural situation and in part free agriculture from its ills."

Leaders of thought in Chile Urge Abbreviation of the Procedure

SANTIAGO, (AP)—A shortening of the process of electing a president of Chile which has been in use since 1833 is urged by many public men here. It now takes almost three months to elect a chief executive, the actual legal stages in the election just concluded, in which Arturo Alessandri triumphed being consumed 12 weeks.

Several years behind us of the greatest agricultural effort in the face of greatest obstacles ever encountered by American farmers. And now suddenly at the end of the crop producing season with costs of labor, seeds, fertilizers and interest rates higher than before, a deflation policy has been put in motion that has caused wheat to sell at the country buying stations for only a little over a dollar a bushel and upland midland cotton to sell for only a little over 15 cents a pound.

Capital Sense Situation.

"At Washington I find that practically everyone whose business it is to keep informed as to public affairs is now beginning to sense the fact that agriculture is in the midst of a great crisis the outcome of which is uncertain and which if not properly met will involve the welfare not only of farmers but of many others as well. Real alarm is being expressed by some of the very people, who I am convinced are in part responsible for the erosion of farm prices, that the gigantic losses to farmers will amount into still greater losses to the capitalists. A juggernaut is bearing down on its creators."

"The farmers of this nation have the grit and brains to defeat the sinister designs of those who are responsible for setting in motion such a deflation in the values of agricultural products as this country has never experienced before."

PRODUCTION.

"You have been putting up some buildings," remarked the visitor from the city.

"Yes," replied Farmer Courtneal.

"In that a new barn over yonder?"

"No. That's a moving picture theater and just beyond is a dance pavilion. I've about decided that the great secret of modern farming is making it pleasant for the help, regard less of expense."—Washington Star

Sometimes I think homes were erected in order that men may have some place in which to be kings.

In spite of prohibition a "lightwad" still remains "tight."

Christmas Giving

Again rolls round the Christmas tide, the time when hearts are light and as a token of man's good will for his neighbor, comes also the good old custom of Christmas giving, it is with a feeling of great satisfaction that this store is able to offer gift merchandise at prices that make Christmas giving the old fashioned joy it once was.

Honned Limbs Eliminate High Cost of Silk Stockings

The increased price of silk stockings has not phased pretty Miss Laura Anson of Los Angeles, in the least. For, by a process such as this, exclusively in the east, Miss Anson has eliminated the need of silk stockings. "I honned them, of course," said Miss Anson, "and I could not wear shoes on my bare feet so thought of sandals with narrow silk ribbons; heather. I don't see any difference in those draped in henna and those draped in silk, except the difference in price."

SIMPLIFICATION SOUGHT IN ELECTION PROCESSES

Leaders of Thought in Chile Urge Abbreviation of the Procedure

SANTIAGO, (AP)—A shortening of the process of electing a president of Chile which has been in use since 1833 is urged by many public men here. It now takes almost three months to elect a chief executive, the actual legal stages in the election just concluded, in which Arturo Alessandri triumphed being consumed 12 weeks.

Several years behind us of the greatest agricultural effort in the face of greatest obstacles ever encountered by American farmers. CALIFORNIANS PROTEST MISBEHAVIOR IN MEXICO

State Department is Asked to Register Objection Against "Vice Conditions"

WASHINGTON, (AP)—The state department today was petitioned to protest to the Mexican government against alleged "vice conditions" in Tia Juana, Mexico, across the border from San Diego, Cal., and until such conditions were corrected, to deny passports to Americans desiring to go there. The petition was signed by the mayor and officials of 21 civic and public welfare organizations of San Diego and was presented by representatives of the United Labor Federation of America, American Federation of Labor, Anti-Saloon League and other national organizations, who declared San Diego was suffering seriously because of Tia Juana's vice.

SELLING REAL ESTATE

is a classified advertising task. Who wants to sell his property? He is attracting little notice except in the immediate neighborhood! Your logical buyer undoubtedly reads the ads—but he may not even know about your property through any other means.

Today's Sporting News

STECHEER-LEWIS BOUT FOR TITLE BILLED FOR TONIGHT

Grapplers to go on Mat for Supremacy—Dempsey-Brennan Tomorrow

NEW YORK, (AP)—Two world's championship matches—wrestling and boxing—are on the card for New York sport enthusiasts on consecutive nights this week. Tonight Joe Stecher of Dodge, Neb., will defend his heavyweight title against Ed "Strangler" Lewis, of San Jose, Cal., and tomorrow night, Jack Dempsey, champion heavyweight boxer, will face Bill Brennan of Chicago in a 15-round match at Madison Square garden. The fighters virtually completed their training today.

BUYING A PENNANT.

NEW YORK, (AP)—Contractors between officials of the New York and Cincinnati National baseball clubs have led to persistent reports of an offer by the Giants of \$150,000 and a challenge for the "pick of the Red team." Roush or Groh, both former Giants, were among the "picks" said to have been mentioned.

DUFFY QUIT JOB.

PITTSBURGH, Pa. (AP)—Harry Greb, of Pittsburgh, was a technical knockout in his bout Saturday night with Jack Duffy, Chicago. Duffy failed to respond to the bell for the sixth round after he had been floored twice in the fifth.

Brief Bits of Sport

Slowly but surely the country is developing a sentiment against the proposed Dempsey-Willard match.

The interest of humanity demands that federal action be taken to prevent carrying out these plans.

Frank Moran, Smoketown third-rate batter, whipped Joe Beckett, heavyweight champion of England in a brace of rounds, rather in a round and a piece.

This is almost as quick a job as Georges Carpentier did on the Briton.

Now the question arises, how much better is Carpentier than Moran.

Perhaps it would be as well to find out before they pit Carpentier and Dempsey.

John C. Slavin, a New York actor, has brought suit against John McGraw, manager and part owner of the Giants, for \$25,000 claimed as damages.

WELSH POSSESSION OF GOLD IS EXCEPTIONAL

Farmers Hoarded Profits Contain Most of Vanishing Sovereigns of Yelow Metal

LONDON, (AP)—The golden sovereign has almost vanished from circulation in most parts of Great Britain since paper currency has been issued, but in the west of Wales gold is plentiful as it was before the war, says the Daily Chronicle.

There the British sovereign causes no surprise at all when change is given and both the sovereign and the half-sovereign are passed frequently from hand to hand until the banks get hold of them.

With the exception of Spanish currency, it is probable there is as high a standard of gold currency in Wales as in any part of Europe today. Welsh farmers have earned big profits in the last few years, and hoarded them. It is these hoards of gold which are now making their appearance.

HELPED SOME.

"Does is your doctor, isn't he?" asked the village tailor of his neighbor.

"He is," replied the man next door, who was a shoe dealer.

"Do you think he ever helped you?"

"Oh, yes, I think he has. He tells all his patients to walk more."—Yonkers Statesman.

STARTING RIGHT.

"And what is that lad of yours going to be when he grows up?"

"I rather fancy he'll be a golf caddy."

"Really!"

"Yes. The last tanning I gave him he turned around and told me I wasn't holding the stick the right way."—London Opinion.

MORAN BEATS BECKETT.

LONDON, (AP)—Frank Moran of Pittsburgh knocked out Joe Beckett, English heavyweight champion, in the second round here last night. The knockout blow was Moran's first of four at real fighting. He put all his strength into the right uppercut which landed on Beckett's chin and sent the British champion to the boards where he rolled over and over, until counted out.

ELDRIDGE ANNOUNCES SPECIAL BARGAINS FOR BOTH TUESDAY AND WEDNESDAY

In order to be sure that people in the country get ample notice, Eldridge will hereafter announce his daily specials two days ahead.

For Tuesday he has selected 60 men's and young men's \$4.50 suits and put them on sale at \$2.49.

For Wednesday he will make a table of men's fall and winter caps at 79c; and men's Hanes and Chalmers heavy white and dark drawers at 49c.

Here's a chance for the man who wears two-piece underwear to pick up a snip—adv.

Today's Markets

New York Stock Market

NEW YORK, (AP)—All classes of securities were embraced in the additional movement of prices in the stock market today, leaders showing extreme losses of 2 to 8 points. Sales approximated 1,900,000 shares.

Extension of the world-wide reaction in trade and industry, as again indicated by advices over the week end, gave impetus to the further depression of prices at the opening of today's stock market.

Additional losses of 1 to 3 points were established throughout the list, especially in steels, oils and shippings, also among numerous specialties. Recent pressure against Comal, Atchison, Northern Pacific, St. Paul and Rock Island offering little resistance to renewed selling. United States Steel was the only leader to display comparative steadiness, yielding only a small fraction.

The less conspicuous rails and industrial were included among the further reactions of the last hour. Central of New Jersey losing 15 points and Union Bag and Paper proffered 6 3/4. The closing was weak.

Liberty Bonds

NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$90.00; first 4's \$86.02; second 4's \$85.18; first 4 1/4's \$85.28; second 4 1/4's \$85.20; third 4 1/4's \$87.88; fourth 4 1/4's \$85.98; Victory 3 3/4's \$95.16; Victory 4 3/4's \$95.20.

Grains and Provisions

CHICAGO, (AP)—Wheat prices ran upward today after showing considerable depression at the start. Adverse financial and industrial conditions were much commented on, but selling orders proved less numerous than had been expected, and the majority of traders appeared willing to accept a temporary opinion that bearish factors had been more than discounted for at least the time being.

Strong commission houses led in the buying which developed. Opening prices, which ranged from one cent to 3 cents lower, with December \$1.03 1/2 and March \$1.00 1/2 to 1.58, were followed by a sharp advance to well above Saturday's finish.

Export demand counted later as a sustaining influence, and there was also active buying of futures on the part of houses with country connections. Prices closed firm, 2 1/4 to 3 3/4 net higher, with December \$1.08 3/4 and March \$1.01 3/4 to 1.02.

Corn displayed independent strength. After opening 1-8c off to 3-8c advance, including May at 71c to 71 1/2c, the market secured material gains all around.

Wet weather and buying for elevator interests helped to uphold values. The close was firm, 1 to 2 1/8 net higher, with May 72 1/8 to 72 1/4c.

Oats were inclined to lag, starting 1-4c to 1-3c lower, May 49 to 49 1/4 and ending a little more before beginning to rally.

Provisions went down grade with hogs.

Cash Quotations

CHICAGO, (AP)—Wheat No. 2 red \$1.75; Corn No. 2 mixed 76c; No. 2 yellow 70 1/2c.

Oats No. 2 white 49 to 50c; No. 3 white 48 to 49 1/4c.

Rye No. 2 \$1.63 1/2 to 1.50 1/2.

FOR RENT—Furnished housekeeping suite; comfortable, ground floor. The Oxford, 428 Main No.

FOR SALE—A bargain! Owner leaving town, 4 rooms, bath, large sleeping porch, front porch, and garden. See it. 629 Second N. terms.

Member Audit Bureau of Circulations

EASTERN REPRESENTATIVES:
George H. David Co., Inc., 171 Madison Ave., New York; A. R. Keator, 1411 Hartford Building, Chicago.

To the city police force, attaches of the sheriff's office, auto owners and drivers and the public generally, the following is heartily and earnestly recommended:

RULES FOR PEDESTRIANS.

1. Pedestrians crossing streets at night shall wear a white light in front and a red light in the rear.
2. Before turning to the right or left they shall give three short blasts on a horn at least three inches in diameter.
3. When an inexperienced automobile driver is made nervous by a pedestrian, he shall indicate the same, and the pedestrian shall hide behind a tree until the automobile has passed.
4. Pedestrians shall not carry in their pockets any sharp instrument which may cut automobile tires.
5. In dodging automobiles, pedestrians shall not run more than seven miles an hour.
6. Pedestrians must register at the beginning of each year and pay a license fee of \$5 for the privilege of living, and a return to rebate if they do not live the entire year.
7. Each pedestrian before receiving his license to walk upon the streets must demonstrate before an examining board his skill in dodging, leaping, crawling and extricating himself from machinery.
8. Pedestrians will be held responsible for all damages done to automobiles or their occupants by collision.

IDAHO'S NEEDS.

Within a very short time now the duly elected representatives of the people will gather in the Legislative Halls of Idaho for a sixty day session intended primarily to be devoted to the work of improving the lot of Idaho and her people.

It is sincerely to be hoped that the salient features of the real work of a Legislature will be kept prominently and constantly in mind.

This year, above all others, there is need of the best thought of the best men in the State in the matter of the things to be accomplished at the forthcoming session. The State does not stand particularly in need of a fresh crop of additional laws, introduced and passed upon the hypothesis that the business of a Legislature is to legislate, but it does require the enactment of certain fundamental features by way of improvement in existing conditions, the passage of necessary appropriation measures, and the applica-

tion of certain corrective principles in the matter of laws now on the statute books.

Idaho legislators should gather together for the work of this session with the idea firmly implanted in the mind of each and every one that, this year if never before, Economy should and must be the watch-word. If there ever was a time when retrenchment should properly be the order of the day, that time is now, and if the members hope to return to their constituents with anything like an abiding conviction that their services have given satisfaction, they will see to it that the old order of things is relegated to the scrapheap and a new report set along lines which will make for lower, not higher, taxation.

If we judge the temper of the people aright, no explanations will go. The people of Idaho want Economy, and with the "con" left out.

ABOLISHING MONEY.

The economic ideas of the soviet government of Russia, as they have been applied to industry and business, have not demonstrated their worth to the extent that would make anybody but a Russian believe in the proposed abolition of money. It is true that if money in the United States did not possess any more purchasing value than the millions of currency issued from the printing presses of the soviet government, the people might be prepared for the next step of eliminating it altogether.

With the exception of the metal used in money, it has no intrinsic value beyond that possessed by the paper for waste; but bills, checks, and other evidences of credit are used between civilized nations and people as a medium of exchange, and it will continue to be regarded as such until something better than money at all has been provided as a substitute.

Russia will injure only herself by destroying money as a means of exchange, for Russia will not be able to get anything from other nations unless she pays in current value or trades goods for goods. This is not progress, but retrogression as far as financial policies are concerned.

Huge financial transactions are carried on by telegraph and cable, orders being flashed from one financial agent to another, the good faith of the governments backing the policy which makes business dealings quick and satisfactory. Russia would destroy all the conveniences of a medium of exchange that is recognized by progressive nations.

A sensible woman knows that the occasional grinch who is a good provider is rather to be chosen than the tabby cat who makes her do the providing.

CONGRESS GETS BLAME FOR BIG POSTAL DEFICIT

Postmaster General Burleson's Report Shows Second Largest Cash Deficiency in History of Service

REVIEWS OBJECTIONS TO BLANKET WAR WAGE BONUS

WASHINGTON, (P)—Operation of the United States postal service for the fiscal year 1920 resulted in a deficit of \$17,270,482—the second largest in the history of the service—Postmaster General Burleson shows in his annual report today to the president, in which expenditures of the post office department are placed at \$454,322,000 and revenues at \$437,051,518. The postmaster general charges congress with direct responsibility for the deficit, explaining that the expenditure included approximately \$3,302,000 paid as a wage bonus to postal employees and stated that but for this there would have been a surplus of \$18,327,017. Mr. Burleson says he declined to approve the bonus because of the legislative department holding that he had offered suggestions of another plan for compensating the employees which would have served the purpose without at the same time giving a blanket increase in pay to "thousands who were already amply compensated."

Predicts Another Deficit

"For reasons that can be readily understood," he continues, "the legislative department rejected these suggestions made by the postmaster general and hence is directly responsible for the deficit which inevitably followed the indefensible action."

"The postmaster general feels constrained to point out that if a prompt halt is not called and such a policy is persisted in, there will be a deficiency for the next fiscal year of approximately \$30,000,000 and the postal establishment will cease to be self-supporting, as it should be, and will become a constantly increasing burden upon the general treasury."

Praises Administration

In his discussion of his administration of the postal service, the postmaster general says: "The present postal administration has been one of continuous and permanent progress and improvement. Nothing has been left undone that was within the authority of the postmaster general to do to effect readjustments in the interests of the people as a whole and not in that of any special class."

"The air mail service, which has been operated successfully since its inauguration, May 15, 1918, has been extended across the continent and collaterally and further extension by contract service inaugurated.

"The parcel post service, both domes-

tic and international, has been greatly extended and facilities for handling parcels improved, 200 foreign countries and colonies now being reached by this service.

"City delivery service has been extended, the established service in all the larger cities materially improved, and the government owned motor-vehicle service, inaugurated in 1914, has been established in 103 cities.

"The railway mail service has been operated with increased efficiency under the space system, facilities for the handling of mail improved, and the service firmly established upon a scientific basis.

War Conditions Overcome

"War conditions have been overcome in the foreign mail service, which has been brought back to normal and is rapidly improving.

"The money-order service and the postal savings system have rapidly recovered from war conditions and are in most satisfactory operation.

"The rural mail service was extended during the fiscal year to more than 600,000 additional persons and the facilities of the service systematized and improved.

"There has been still further improvement in the registry and insured parcel post systems and the methods of handling dead letters.

"A large number of important improvements have been made in the mail equipment shop, facilitating the work, adding to the compensation and the comforts of the employees, and at the same time lowering, by efficient methods, the unit cost of production.

"Salaries of employees in all grades have been increased and working conditions and conveniences improved wherever possible."

Denounces Organization.

Attention is again directed by the postmaster general to the growth of organizations among the postal employees and he urges that steps be taken to "curb the malicious and pernicious influence" of these organizations upon the postal personnel. He says they have operated to "interfere to a considerable extent with the efficient conduct" of the service, adding that "much of the so-called 'debased' postal service" and "disaffection" exists only in the minds and imaginations of paid agitators of these organizations who instill and hammer these doctrines into the minds of the

139 MAIN WEST

employees through the medium of their publications."

"The avowed purpose of these organizations," continues Mr. Burleson, "is not solely to advance the social and economic welfare of their members, but to exercise a coercive influence upon the department to compel submission to their demands."

"The postal service head declares the use of the strike against the government by an "outside" organization is a menace to the welfare of the republic as it not only results in a divided allegiance, but engenders disaffection, discontent and unrest and in the lowering of efficiency.

"Postal employees have become bold because of this affiliation and have within recent years threatened to strike," Mr. Burleson adds. "In one case, they actually did so by tendering

their resignations and leaving in a body. In this case, they were promptly

We Have Houses FOR SALE
Ostrander Lumber Company

CAMEL CITY—U. S. A.
(or, Winston-Salem, N. C. according to the map)
GREETINGS, PETE!
Here I am tonight in Winston-Salem where more tobacco is manufactured than in any other place on the face of the earth!
When I knocked off for the day, I buzzed around like a hungry bee in a buckwheat field—and down long streets of R. J. Reynolds Tobacco Co. factories!
As the Reynolds enterprise proved out more and more gigantic and I talked with more men about it, I got the real and true answer as to why Camels are so good and so entirely different from any other cigarette! I'll spin it for you, old top—listen:
Every man I talked with made the one big point that the officials and the more than 350 Reynolds foremen have an inborn knowledge of the tobacco business; that (putting it into a North Carolina expression) they were virtually "born and raised in a tobacco patch"; that they know tobacco; how to grade it, blend it, and how to manufacture and sell it!
And, what's most important of all, Pete, these Reynolds folks sure give men what they want—the best that can be produced! Why—Pete, it took months to perfect Camels Turkish and Domestic blend—and that refreshing flavor—and wonderful mild, mellow body!
Tomorrow, I'm going to meet some of the Reynolds folks. Got to see inside of those factories!
And, you know me!

Fund Derived from Stamp Disposal is Used in Campaign Against Tuberculosis

December 15 is the Tuberculosis School Day all over the United States. All teachers have been requested, either on that date or later, to devote part of the school day to the subject of tuberculosis.

HEALTHY NEW YEAR

Remember that tuberculosis kills 150,000 people in the United States every year, and that 1,000,000 are bedridden with the disease. Tuberculosis is a most curable disease if taken in time, but PREVENTION is what we must work for. Health education means prevention.

JANKS DENIES GUILT

C. B. Janks, proprietor of a lock meat market, was in the municipal court this morning to answer three complaints, filed by the city meat inspector, Dr. W. A. Faloon, who charges illegal disposal of meat. Defendant denied the charges and will have a trial at 5:30 this evening. Janks is said to have slaughtered animals without submitting them to ante-mortem inspection, as required by the city law.

DAIRY LICENSE REVOKED

Notice was served this morning on Silas Eggen by the city milk and dairy inspector, forbidding Eggen to sell milk or cream in the city of Twin Falls. The order also advised the dairyman that his license has been revoked. The action results, according to Inspector M. H. Hoag, from the failure of Eggen to comply with sanitation terms of the city ordinance.
