

REPORT DEALS WITH PROBLEMS OF IMMIGRATION

Secretary of Labor Advocates Establishment of Agencies Abroad to Determine Upon Admission of Aliens

ASKS CONSIDERATION OF CONFERENCE PROPOSALS

WASHINGTON, D. C. (AP)—Establishment of machinery overseas in cooperation with foreign governments through which aliens before breaking up their homes may determine whether they will be admitted to the United States and legislative consideration of the proposals of the second industrial conference are outstanding recommendations in the annual report of Secretary Wilson made public today.

The labor secretary devotes much of his report to discussion of immigration and the expulsion of alien revolutionaries. He asserts that he alone has authority to order the arrest and expulsion of aliens although the bureau of immigration has assumed to itself power not only to make recommendations, but also to make findings.

The report shows that 633,371 aliens arrived in this country during the last fiscal year as compared with 237,021 the year before. Of the total arrivals 11,785 were excluded at the ports where they sought to enter. Of those arriving 403,001 are classed as immigrant aliens and 195,575 as non-immigrant aliens. Departures of aliens totaled 428,062, including 288,315 emigrant aliens and 139,747 non-emigrant aliens, making the net increase in the immigrant population for the year 183,614.

Japanese admitted numbered 16,173, as compared with 14,301 the year before. The total number of Japanese departing is placed at 15,653, making, the report says, the indicated increase in Japanese population 521. Of those admitted 9193 were males and 6981 females.

Besides the immigrants turned back at the ports of arrival, 2762 were ordered deported during the year on departmental warrants as compared with 2018 the year before. Of these 2018 period on warrants 469 were classed as anarchists and criminals.

Warrants for 6000 immigrants alleged to be revolutionaries were issued during the year. Mr. Wilson says, but a very large proportion of them were cancelled, "because the charges upon which they had been issued were not sustained by law fact proof at the hearing." In addition to the 314 anarchists deported 591 others are awaiting deportation, according to the report.

Mr. Wilson says that during the year 17,000 aliens took the initial or final steps toward citizenship. While this is less than the record total of the year before, Mr. Wilson says the decrease is confined to aliens in military service and results from the demobilization of the army. First papers were filed by 300,106 aliens while petitions for final naturalization were filed by 160,025 aliens in civil life and 51,972 soldiers.

For Industrial Peace.
Turning to the industrial situation, Mr. Wilson urges legislative action to carry out the recommendations of the second industrial conference, proposing joint organizations of management and employes for prevention of industrial disputes and a comprehensive plan for adjusting such disputes when they oc-

cur. Attention is called that during the year the labor department's division of conciliation was called upon to utilize its good offices in more than 4100 industrial disputes "directly involving more than 3,125,000 workers and indirectly involving more than 25,000,000."

"The department," says Mr. Wilson, "stands for collective bargaining. It recognizes collective bargains as the nature of genuine agreements in contradistinction to legally and forcible contracts. Collective bargaining cannot be regarded in the same category as ordinary contracts, because there is no mutuality. The employer does not agree and cannot agree to give steady employment to all the wage earners concerned nor to any specified number. Consequently, the workers included in such a bargain could have no legal claim except that they were actually employed by the other party to the bargain and as his discretion. There would be no fairness in making such contracts enforceable at law. To permit collective bargaining to be legally enforceable would be to discourage the ordinary contract, because their fulfillment of the good sense and good faith of each side would encourage their making and thereby promote industrial peace."

Employment Service Lags

Mr. Wilson says that as a result of the failure of congress to enact legislation defining the status of the United States employment service the service exists more as a function than as a bureau of the department and he urges legislation permanently establishing the service and enabling it to cooperate with state employment bureaus.

The labor secretary renews his recommendation for legislation to improve the work of labor distribution by making public lands and community owned lands more accessible. He also again urges congress to provide government means for the adequate training of workers in industry and to provide for federal control of the interstate transportation of private police, troops and gangs for industrial purposes.

Would Use Discretion.

That the secretary be given authority in immigration cases to exercise discretion as to individual hardships. Statutory provisions for references in the court for judicial hearings and judgments in all cases at law of doubtful aliens whose rights of continued residence are at issue either on questions of fact or questions of law.

Immediate legislation providing higher pay for employes of the department.

45,000 WOUNDED GERMAN SOLDIERS IN HOSPITALS

Officers' Association, Appealing for Christmas Gifts, Views Future Gloomily

BERLIN, (AP)—Two years after the war, 45,000 seriously wounded German soldiers are reported still in hospitals. Some of them have gone through from 20 to 30 operations, the German Officers' association reports, and thousands who were less seriously wounded have been sent to their homes. The association's report says the future of these men "is very dark" and has appealed to the German public to make donations for Christmas gifts to them.

MILITARY RAID IS FEATURE OF LIFE IN DUBLIN

Street Traffic Stopped to Prevent Surprise Attacks from Irishmen while Buildings are Searched for Evidence

DUBLIN, (AP)—Searches for evidence against the promoters of Sinn Fein outrages which are conducted by the police or military authorities are among the notable features of life in Dublin. They usually take place in the daytime or in the early morning hours.

In making them, the authorities have

committed some blunders. The military motor trucks used to drive up in front of a suspected house and stop there while the searchers entered the building. The trucks were left in charge of only a few men. This proved tempting to Sinn Fein attacks which frequently surprised those on guard.

Eliminates Risk.
No risk is taken now. The whole street, no matter what its importance, is cleared of all traffic for a distance on both sides of the suspected house and the searchers can thus do their work without apprehension of being taken in the rear.

The fact that a house is raided implies no reflection on its owners. Some of the most respected of Dublin aristocrats have had their premises exhaustively searched. There have been several searches in Sackville street, Dublin's principal thoroughfare and the starting point or junction of all its extensive street car system. A raid there meant that the street cars were held up all along the line and thus citizens half a mile or more away would learn that a raid was in progress.

While the search was going on, armored cars would dash about and prevent entrance to the area within the line set by the authorities. The results indicate that the government at last is obtaining information.

Others Collect Arms.
An incident which indicates that the government agents are not the only ones who are collecting weapons under the decree that arms must be surrendered occurred the other day at one of Dublin's most fashionable clubs. There were two old revolvers in the club room. The police heard of them and notified the club that they would have to be surrendered. A few days later two men appeared and demanded the revolvers which were surrendered to them. After they had gone, the club members looked at the receipt given for them and found it was signed "Mutt and Jeff."

Why worry about achieving fame? After all, fame is merely a bubble, whereas a dollar bill is 50 cents. Manitoba Free Press.

ITALIAN MAYORS PLAN FOR MEMORIAL FOR DANTE
ROME, (AP)—Ceremonies commemorating the sixth centenary of the death of Dante will be held in Ravenna next September. It was decided here today at a meeting of the mayors of Italian cities. A bronze and silver bell of artistic design will be placed over the poet's tomb and each night the bell will ring in memory of the immortal writer.

Men's Suits Priced Lower

We are indeed gratified at the response to our advertisements, and which proves that people believe in our offerings.

Our clothing prices strictly conformed with market conditions when originally priced—in fact we did a little better than that, and gave ourselves a little the worst of it on our original markings, so determined were we to sell clothing for men at "living" prices.

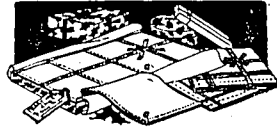

NOW OUR MEN'S SUITS ARE PRICED STILL LESS

Here is where you save by spending. SHOP and SEE.

We continue setting the pace in Men's Suit values at

\$22.50, \$25.00, \$27.50, \$30.00 up to \$45.00 for the best

We will not sacrifice quality to sell an article cheap, BUT WE DO BELIEVE in selling you the greatest values always for LESS than elsewhere.

Handkerchiefs

For Christmas

are more than an appreciated gift—they are a necessity, suitable and sensible. A choice selection of dainty handkerchiefs, either single or put up in pretty boxes of three and six, for women and children, in fine quality cambric and pure linen, of superior quality and, as always, here for less at—

5c, 10c, 15c, up to 98c, and in fancy boxes at 98c and up.

PRODUCTION IS INCREASED BUT VALUE SHRINKS

Department of Agriculture Estimates Worth of Abundant Farm Crops This Year \$5,000,000,000 Less Than Last

WASHINGTON, (AP)—Shrinkage in value of the country's crops has placed their total worth this year at almost five billion dollars less than last year...

The important farm crops, which comprise about 90 per cent of the value of all farm crops, were valued this year at \$3,451,510,000 by the department of agriculture yesterday in its final estimates.

Last year these crops were valued at \$11,987,995,000. Acreage devoted to the important crops also decreased...

Unpromising Start Overcome.

"The extraordinary character of the harvests which have proven to be among the most abundant in the nation's history, notwithstanding beginning about as unpromising as ever known, is emphasized by the December revisions of estimates..."

"Second, that it is the sense of the congress that in case such an understanding can be reached, that it will conform in its appropriations and financing program to such an agreement."

Increases General.

Increases in almost every crop were reported in the revised production figures, as compared with the primary estimates announced in August...

The yield of corn per acre set a record with an average production of 30.9 bushels. Only once before has the average yield per acre exceeded 30 bushels...

While the corn crop is a record one, its value this year is \$1,662,000 less than last year's crop, which was less than 374,000 bushels. The price being paid to farmers for corn on December 1, was announced by the department as 67.7 cents a bushel as compared with \$1.349 a year ago.

ITALIAN SOCIALISTS STRIKE BECAUSE BREAD OETS HIGHER

ROME, (AP)—As a protest against the bill increasing the price of bread the socialists last evening ordered a two hour strike. The movement was not a general one, since most of the shops were open. The street cars, however, suspended operation and street lights were extinguished.

BLOOMERS AND MIDDLES OARS FOR NUDE STATUES

St. Petersburg, Fla., (AP)—Visitors at the Florida Winter Art school exhibition today found the nude statues garbed in midday bloomers and bloomers. Recently the Christian Civic League caused the nude art at the school and today several buses suspended from the sailing by strings that around the necks were labeled "Lynch by the Christian Civic League."

AGED NEBRASKA FARMER IS KILLED BY BULL

HOLDREDGE, Neb., (AP)—J. M. Larson, 78, farmer, living near here, was gored and trampled to death yesterday by a pet bull. Friends of the aged man after the animal had been shot, attempted to rescue him. Each attempt was met by a charge from the animal.

Text of Borah's Proposal to Cut Naval Armaments

WASHINGTON, D. C., (AP)—The text of the resolution introduced by Senator Borah requesting negotiations looking toward reduction of naval building program, follows:

"Whereas, A representative and official of the Japanese government has advised that the Japanese government cannot consent even to consider a program of disarmament on account of the naval building program, follows:

"Whereas, By this statement the world is informed and it is expected to believe that Japan sincerely desires to support a program of disarmament, but cannot do so in safety to herself on account of the attitude and building program of this government; and

"Whereas, The only armies whose size and efficiency requires the consideration of this government in determining the question of the size of its navy are those of Great Britain and Japan, two governments long associated by an alliance; and

"Whereas, The United States is now and has ever been in favor of a practical program of disarmament;

"Now, Therefore, Be it resolved by the senate and house of representatives of the United States in congress assembled, that the president of the United States be requested, if not incompatible with the public interests, to advise the governments of Great Britain and Japan respectively, that the government will at once take up directly with these governments and without waiting the action of any other nation, the question of disarmament with a view of quickly coming to an understanding by which the building programs of each of these governments, to wit, Great Britain and Japan, and the United States, shall be reduced annually during the next five years in 50 per cent of the present rate.

"Resolved Further, That this plan is suggested by the congress of the United States in order to bring about a substantial reduction in the naval armament of the world."

CHINA TAKES PLACE OF GREECE

(Continued from page one)

information requested in relation to other matters.

Requires Information.

There is a strong current of opinion in the assembly that the league under which the powers fix their own terms are not properly mandated, and there are indications the question may be thrown back upon the supreme council should it receive sufficient information has not been secured before Thursday night. The committee in charge of the matter holds that it must have this information before it can make an intelligent report.

The assembly, which has been discussing of only one subject a day since Monday, tried today to make better progress. On the program was the task of electing new members to the league, the choosing of four new executive members of the council and the disposing of questions regarding the "white slave" traffic and the opium trade, which was left over from yesterday's session.

Bulgaria May Be Admitted.

It appeared that Austria would probably not be admitted to the league, while it was probable that Bulgaria would also be accorded membership. In her case, however, France, it was said, would probably refuse to vote.

It seemed probable that Brazil would again be given a place on the council, and that a similar honor would be given Spain. China had many supporters as a successor in Greece, and an agreement was made to replace Belgium. There were many delegates, however, who were expected to support Belgium when the election took place.

NASHUA MILL OUSTS WAGES.

NASHUA, N. H., (AP)—A reduction and readjustment of wages will be effective January 3 in the Nashua and Jackson mills of the Nashua Manufacturing company. The mills employ 2000 in the manufacture of cotton goods.

WILLYS OVERLAND COMPANY PASSES DIVIDEND PAYMENT

NEW YORK, (AP)—Directors of the Willys-Overland company today announced that regular quarterly dividends of \$1.34 per cent on preferred stock would be paid.

GERMANY SENDS ENVOYS

Representatives on Way to International Financial Conference

BELMONT, (AP)—Germany's delegation to the international financial conference left last night for Brussels. Karl P. Von Siemens, the electrical magnate, who was appointed a delegate sometime ago, was unable to go to Brussels and was replaced by Rudolf Haverstein, a director of the reichsbank.

HAMBURG TRAFFIC GROWS

Shipping in November Nearly Five Times Greater Than Last Year

HAMBURG, (AP)—Farming and outgoing sea traffic in the Hamburg port during November was nearly five times greater than of November, 1919, aggregating 1,028,000 tons of shipping. For the ten months ending November 1, the net incoming and outgoing sea traffic aggregated 6,670,000 tons which was more than six times the similar period of last year but only about one-fourth that for the corresponding period of 1913.

UTAH IDAHO SUGAR COMPANY PASSES QUARTERLY DIVIDEND

SALT LAKE CITY, Utah, (AP)—Directors of the Utah-Idaho Sugar Company yesterday determined to pass the usual quarterly dividend paid in December. The company has paid dividends in the past years at the rate of two per cent quarterly. There are approximately 5000 stockholders of about \$25,000,000 outstanding stock at \$10.00 par value.

COLLECT DAMAGES BECAUSE OF GAS PLANT'S PROXIMITY

SALT LAKE CITY, (AP)—Mrs. Hattie G. Kinsman and eighty-one other plaintiffs were Tuesday awarded \$85,000 damages against the Utah Gas and Electric company for location of its plant in the vicinity of their property. The suit was filed in the federal court in Salt Lake City.

Today's Market

New York Stock Market

NEW YORK, (AP)—Stocks were under renewed pressure today, numerous additional dividend suspensions and market conditions in trade and industry prompting further bearish activity. Sales aggregated 550,000 shares.

Aside from oils, which were inclined to forfeit part of their substantial recoveries of the previous session, prices at the outset of today's stock market were irregularly higher. Within the first half hour gains of 1/2 to 1 1/2 points were registered by Atlantic Gulf, American Sugar, American Can, General Electric, Sloss-Sheffield Steel and several of the popular specialties. Bulls were mixed and equipments also reflected an uncertain trend. The possibility of a money flurry arising from the day's heavy tax payments made traders more than ordinarily cautious.

Call money eased to six per cent later, but failed to stimulate the market, leaders among oils, steels, equipments and shippings making further recoveries. The closing was heavy.

Liberty Bonds

NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$90.10; first 4's \$89; second 4's \$85.20; first 4 1/4's \$86.12; second 4 1/4's \$85.38; third 4 1/4's \$87.90; fourth 4 1/4's \$85.90; Victory 3 3/4's \$95; Victory 4 1/4's \$95.

Grains and Provisions

CHICAGO, (AP)—Wheat dropped quickly in value today as a result of radical enlargement of the government estimates of the 1920 yield of grain. On the decline, however, there was good buying attributed to the seaboard. Trading in May delivery of wheat began today, and as expected the price was at a moderate discount as compared with March. Opening quotations which ranged from 1 3/4 to 6c lower, with December \$1.61 1/2 to 1.66 and March \$1.60 1/2 to 1.63, were followed by a moderate rally in some cases. Subsequently, weakness intensified, and it was said country offerings in the

southwest were much larger. The close was unsettled, 5 to 6 1/2 c not lower, with December \$1.65 1/2 and March \$1.58 1/4 to 1.58 3/4.

Corn like wheat underwent a setback in price. Hog receipts 12,000; market mostly 15 to 25c lower; bulk medium and light butchers 48.40 to 8.60; top 48.45; bulk strong weight and packing grades 48 to 8.55.

Cattle receipts 7,400; beef steers and butcher cattle slow to 25c lower; bulk beef steers 67.50 to 89; bulk cows and heifers 45.50 to 85.60; veals 50c lower; stockers and feeders weak.

Sheep receipts 11,000; lambs fully 50c lower; bulk lambs \$10.25 to 11; top \$11.25; sheep 25 to 60c lower; best wethers \$3; yearlings steady; top \$3.75; feeders strong.

Chicago Produce

CHICAGO, (AP)—Butter unsettled; creamery 33 to 51c. Eggs unchanged; receipts 902 cases; poultry, alive lower; fowls 16 to 25c; springs 23c; turkeys 38c.

Kansas City Produce

KANSAS CITY, (AP)—Eggs, firsts 1c lower, 65c; seconds unchanged. Butter unchanged. Poultry, hens and turkeys unchanged; fowls 1c lower, 14c; springs 1c higher, 37c.

Potatoes

CHICAGO, (AP)—Potatoes stronger; receipts 16 cars; Northern White, sacked \$1.30 to 1.45 cwt.; bulk \$1.40 to 1.50. Sugar

NEW YORK, (AP)—There was no further change in raw sugar early today, although the undertone seemed to be a little steadier, as there appeared to be a little better inquiry. There were sales of about 29,000 bags of Porto Rico's at \$4.63 for centrifugal. Refined was steady at \$8.25 for fine granulated.

CHICAGO, (AP)—Hog receipts 30,000; lights active, others slow, mostly 10c higher than yesterday's average; big packers generally bidding lower than yesterday; top early 40.25; bulk 49 to 0.15; pigs 10 to 15c higher; bulk desirable 90 to 130 pound pigs \$9.10 to 9.25.

Cattle receipts 9,900; beef steers active and steady; early sales \$8 to 12; some held higher; butcher stock uneven, steady to weak; canners weak to 25c lower; sales \$2.75 to 3.25;ologna bulls strong, choice kind \$6.25; calves steady; best vealers \$10; stockers and feeders steady to strong.

Sheep receipts 15,000; best fat classes and feeders steady; others dull; early top fat lambs to shippers and city butchers \$12.40; early packing top \$11.85; wethers 46.25; fat ewes \$5.50; few, early sales feeder lambs \$10.50 to 10.75.

Wheat receipts 12,000; market mostly 15 to 25c lower, with December \$1.61 1/2 to 1.66 and March \$1.60 1/2 to 1.63, were followed by a moderate rally in some cases. Subsequently, weakness intensified, and it was said country offerings in the

Grains and Provisions

CHICAGO, (AP)—Wheat dropped quickly in value today as a result of radical enlargement of the government estimates of the 1920 yield of grain. On the decline, however, there was good buying attributed to the seaboard. Trading in May delivery of wheat began today, and as expected the price was at a moderate discount as compared with March. Opening quotations which ranged from 1 3/4 to 6c lower, with December \$1.61 1/2 to 1.66 and March \$1.60 1/2 to 1.63, were followed by a moderate rally in some cases. Subsequently, weakness intensified, and it was said country offerings in the

CAMP SELECTS ALL-AMERICAN GRIDIRON TEAM

Dean of American Football Comments on Increased Interest in Sport

NEW YORK, (AP)—In a resume of the football season by Walter Camp, published in the current issue of Collier's Weekly in connection with the All-American selections for 1920, the dean of intercollegiate football states: "Outside of the development of the open play and forward pass, the most striking feature of the season was the great interest shown by coaches and enthusiasts in the east and west, the west and south were doing, and in the south and west as to what the east was teaching. This had been brought about by the growth in favor of the intersectional game led by Harvard's trip to the coast last New Year's day, and by the signing up of agreements between Princeton and Chicago for games in 1921 and 1922. Perhaps the greatest factor of all, however, was the very definite increase, already referred to, in the knowledge of the game by the football public. The spectator in the stands now is an educated spectator.

"On the present schedules the ranking of teams is impossible. But there is one quality that goes for a great deal, and that is the ability to win on the occasion when necessary, and when this test is applied we find that the outstanding teams were Princeton, Harvard, Notre Dame, Pittsburgh, Penn State, California, Virginia Military Institute, Boston and Ohio State. They all came through and would be the ones selected to carry a game away where. Their methods differed largely. Princeton had the greatest variety and made the largest use of generalship. Ohio State took the greatest advantage of the modern rules. California ran up the largest scores. Harvard and Pittsburgh were most cautious and calculating. Boston, Notre Dame and Virginia Military institute were most aggressive."

Mr. Camp's selection for his first and second All-American teams follows:

- End—Carney of Illinois, first team; Urban of Boston, second team.
- Tackle—Kee of Princeton, first team; Grier of Michigan, second team.
- Guard—Callahan of Yale first team; Wilkie of Annapolis, second team.
- Center—Stein, Pittsburg, first team; Cunningham, Dartmouth, second team.
- Tackle—Scott, Wisconsin, first team; McMillan, California, second team.
- End—Fincher, Georgia Tech, first team; LeGendre, Princeton, second team.
- Half-back—Stinchcomb, Ohio State, first team; Garrity, Princeton, second team.
- Half-back—Way, Penn State, first team; Davies, Pittsburgh, second team.
- Full-back—Gipp, Notre Dame, first team; French, West Point, second team.

THE CANDY BOX

(These recipes are of tried and proven value and should be clipped daily for permanent preservation. The readers complete recipe and formula for your favorite confection may appear any day. Watch for it.)

CANDY POTATOES.

Ingredients.

- 2 cupsful of sugar.
- 1/2 cupful of water.
- 1/4 teaspoonful of cream of tartar.
- 1/2 cupful of cocoanut.
- 1/2 cupful of blanched almonds.

Formula.

Boil the sugar, water, cream of tartar until it forms a soft ball when tested in cold water. Add the almonds, pounded to a paste and the cocoanut. Cream until cool and then with the hands knead it until it can be formed into little potato shapes. Roll in sweet powdered chocolate.

The O. E. S. held their regular meeting at the Masonic temple last evening and election of officers was held as follows: Mrs. Benish Sawyer, worthy matron; Capt. P. W. McRoberts, worthy patron; Mrs. Nellie Higgins, secretary; Mrs. Lena Friedman, treasurer; Mrs. Ruth Ware, conductress; Mrs. Bessie Finch, conductress.

The current events department of the Twentieth Century club met at the home of Mrs. M. J. Sweeney, 325 Eighth avenue, on Monday afternoon when a most delightful afternoon was spent. After each lady present responded to roll call with her current event, Mrs. Eugene Parker, the chairman, announced that a new kind of tea would be served, one that would strengthen the brain. A musical tea was then announced and heartily enjoyed. Several ladies of the department acted out the choruses, each word depicted ended in "ten." Each lady departed vowing it a most pleasant afternoon.

The Cosmos club met on Monday at the home of Mrs. Burton E. Morse, the topic for the day was "Hereditary and Environment" by Conklin. The club adjourned to meet the first Monday in January and the subject for study will be "Psychology" and "The Constitution of the United States."

On Thursday evening of this week, meeting at 8 o'clock, the Young People's society of the Church of the Ascension will hold their first party in the parish hall. These parties will be held weekly from now on, and thought under the auspices of the Episcopal church, a general invitation is extended.

I will sell to the highest bidder at public sale at 1:30 p. m., Thursday, the 16th, 500 head of sheep. 300 head of these sheep are pure bred Hampshire ewes from the Nye and Jester stock and are a choice bunch of Hamp ewes as will be found upon the tract.
Sale will be held on the E. A. Wilson farm, two miles west of Twin Falls on State Highway.

High School News

Monday evening the Science club met in room 229 of the high school. The program was furnished by the physics department. Several talks were given as follows: "Application of Physics to Football," by Ward Carter, "Cartesian Divers," by Lloyd Garrison; "Interesting Phenomena," by Everett Jahn; "Steam-pressure Cookers," by Madeline Hamilton; and a chalk talk on "Bridges" by H. W. Merritt.

BUYING THE TOYS

Some little girls will have big, flaxen haired dolls smiling from their stockings on Christmas morning. Some little boys will have toy airplanes, bomb throwers and all the other paraphernalia of modern nursery warfare.

Some other little girls and boys won't.

But those whose dollies are the ordinary sawdust kind with eyes staring, it must be confessed rather stupidly, in front of them, and those whose toy soldiers are just everyday fellows, are to be congratulated.

The toys have known it all along. They have known, too, that the humbler ones of their assemblage, now so shiny with new paint in a thousand toy shops over the land, are due for a far happier life than their pretentious brothers and sisters who are destined for the homes of the rich. For a toy's happiness is measured by the love that is lavished upon it. And the child who has one simple toy thinks far more of it than he or she who has a new trinket for every mood.

Psychologists are beginning to find this out. They have worked out a whole involved system of toy teachings, in which the child mind dwells principally on simple objects, plain contours and brave, not delicate colors. So if a momentary sigh comes to you because you cannot afford to have Santa bring "the best there is" to your little lad or lassie, snubly insist. They will be all the better for it.

TAXES, COMING AND GOING

Concerns and individuals who made payment of federal taxes on the installment plan this year will find that the business of contributing to the support of the government is lapsing over in a not very pleasant way. The last payment of taxes for the year 1919 will be due on December 15, and treasury officials will expect that all payments be made on or before that date. Blanks for making returns of incomes and profits during 1920 will be available January 1.

In spite of the taxing machinery which has been in operation for several years, the government agents are forced to admit that many thousands of persons have been able to evade their financial obligations to the government, notwithstanding the penalties provided for delinquency. The rate on normal incomes for 1920 will be the same as last year—four per cent on the first \$1,000 above exemption, which is \$2,000 in the case of married persons and \$1,000 for those unmarried. It is expected that there will be a considerable shrinkage in receipts from incomes and profits in 1920, especially as the last half of the year has witnessed a marked reduction in earnings of industrial workers and a consequent decrease in the earnings of employers.

Ideal conditions from the taxation standpoint would be near if each person could be required to pay his share toward the support of the government through income taxes. It takes money only from those persons who are most able to spare it, after a reasonable sum has been allowed for maintenance. Honest folk will make honest reports, and the other kind should be compelled to do so.

Self-Help Virtue Though Necessity

At present the grain growers, the livestock raisers, the wool growers, the cotton planters, to say nothing of many other, are, if not "against the government," at least at odds with it. In an hour of distress they have called on the various public authorities for financial succor, only to be turned away with the intimation, in effect, that it were best they attend to their own business. Whereupon their feelings are hurt, and a hard-hearted and soft-headed government which lays claim to their fidelity and their affection.

There is neither right nor occasion to argue against that feeling, unfortunate though it may be, but because such effort would be futile and because time and time alone will take care of the circumstances. Bitter and more substantial results were not to be expected.

Being denied the paternalistic help they sought at Washington, they sought the various public authorities for financial succor, only to be turned away with the intimation, in effect, that it were best they attend to their own business. Whereupon their feelings are hurt, and a hard-hearted and soft-headed government which lays claim to their fidelity and their affection.

There are other associations each of which is taking its own independent course and for the results of which its members alone are responsible. We have no doubt they will do their several jobs much better than the government could have done them, and they will eventually solve their own problems more satisfactorily than the bureaucrats of Washington could by any possibility do.

But whether the respective measures are wise or not the agricultural interests are, under the spur of necessity, reviving the spirit of self reliance which was the glory of American citizenship until the people fell into the fatal habit of looking to the govern-

ment to get them out of their difficulties and save them from responsibility. While decrying and denouncing such a habit, we were fast succumbing to its debilitating influence by putting demands on the government every compliance with which made it more profitable. We were fast losing the desire to be independent citizens, and fast losing faith in our ability to survive unaided the obstacles which fell in our way. The resourcefulness which has probably contributed more than anything else to our greatness as a nation was being forfeited by our reluctance to exercise our own capacities and make our own sacrifices in meeting adversity or misfortune. The spirit of enterprise has been perceptibly dulled by a growing unwillingness to assume the necessary risks of adventure, as seen in the continued demands that the government intervene to insure private undertakings against loss. It would not be surprising if, when viewed in the perspective of a few years hence, these refusals of the government which now excite feelings of resentment and animosity, will be hailed gratefully as decisions which marked a turning point in our political salvation.—Lewisohn Tribune.

NOTICE OF SHERIFF'S SALE UNDER EXECUTION AND ORDER OF SALE

Anton Sovinski, Plaintiff, vs. P. P. Freeman, Prudence Freeman, his wife, John T. Gross and Mable J. Gross, his wife, Defendants.

Under and by virtue of an order of sale and decree of foreclosure, issued out of the District Court of the Fourth Judicial District, State of Idaho, in and for the County of Twin Falls, on the 17th day of November, 1920, in the above entitled action, wherein Anton Sovinski, the above named plaintiff, obtained a decree against P. P. Freeman, Prudence Freeman, his wife, John

T. Gross and Mable J. Gross, his wife, defendants, on the 10th day of November, 1920, which said decree is recorded in Judgment Book 8 of said Court, at page 232, I am commanded to sell at that certain lot, piece or parcel of land situated in the County of Twin Falls, State of Idaho, and bounded and described as follows, to-wit: The northeast quarter (NE 1-4) of Section 28 and the southeast quarter (SE 1-4) of Section 21, all in Township 19 south, Range 18 east of the Boise Meridian in Twin Falls County, State of Idaho, together with the tenements, hereditaments and appurtenances thereunto belonging or in any wise appertaining.

Notice is hereby given, that on the 23rd day of December, 1920, at the hour

of 2 o'clock p. m. of said day, at the east front door of the Court House, City of Twin Falls, County and State aforesaid, I will, in obedience to said order of sale and decree of foreclosure, sell the above described property, or so much thereof as may be necessary to satisfy plaintiff's decree with interest thereon and costs, to the highest bidder for cash, lawful money of the United States.

Dated this 26th day of November, 1920.

A. N. SPRAGUE, Sheriff.

By BEN J. BROWN, Deputy.

CONTRACTOR AND SURVEYOR HOLD INTENSE DEBATE

Municipal Session is Enlivened by Forensics Between Sidewalk Maker and City's Special Engineer

Debate that stirred up some acrimony threatened the unusual placidity of the city council session Monday night, Forensics were indulged in by W. L. Hoffeltz and members of the cement working firm Robson & Sorenson, a company having charge of sidewalk construction in Twin Falls.

The controversy grew out of a demand made by the contractors for a report by the paving engineer ordering the release of 10 per cent of estimates. The engineer had demanded to make sure that when the dust of the foray had passed the council stood four-square with Mr. Hoffeltz.

At the beginning Mr. Hoffeltz and the sidewalk contractors submitted estimates of work done by Robson & Sorenson, the contractors' report being for considerably more money than that of the engineer. The discrepancies were accounted for in charges made by the contractors for work which the engineer believed came under the terms of the contract and at the contract price. The engineer refused to call for such removal.

In addition the contractor demanded to clean up debris and excess material after certain walks had been laid, claiming that there was nothing in the contract calling for such removal.

The city treasurer submitted a monthly statement showing the sum of \$5,424.33 on hand.

An ordinance regarding the position of fire marshal, for providing rules for fire protection, was read and adopted. By this ordinance the local fire chief is made fire marshal. There is no salary connected with the position.

Orders were issued to the street commissioner, at his own suggestion, to surface dirt streets and allow collection upon payment of fine gravel. This scheme, it is expected, will prevent the carrying of mud on the pavement by passing vehicles.

WILL NOT PRESS CLAIMS FOR TRADE WITH RUSSIA

NEW YORK, (AP)—Washington D. Vanderlip, mining engineer and promoter, who claims to have received concessions of \$100,000,000 in potential value in Siberia from the Russian soviet government, said today he had abandoned his previously announced plan of going immediately to Washington to present arguments in support of assuming trade relations with Russia. Instead, he said, he will start for Los Angeles, Cal., tonight, where he will confer with his financial advisers regarding the next step to be taken.

He said he had received no intimation that he might be treated with coldness at the capital and that his chances of success in any way had been influenced by hints of official attitude. He declined to explain further his change of program.

LOS ANGELES, (AP)—The body of the nude woman found mutilated in a grove near here Sunday was identified Tuesday as that of Mrs. Fay Sudover, a divorced woman, reported to have been wealthy. The identification was made by a dentist who had done work for Mrs. Sudover. The body had been almost definitely identified by the woman's former husband, Jeff Sudover, and by two other persons.

British Women Become Expert Shoemakers

As the result of the experience they had working in English shoe factories during the war, many English women have become expert shoemakers and are continuing at the work. Some factories employ women almost exclusively, as, it is said, they are more efficient and economical than men employees. The picture shows a pretty worker putting plates on workmen's shoes.

PERSIAN COUNTRY SEETHING CALDRON

Murder Follows Wake of Bolshevism

Former Residents of Twin Falls Now in Tabriz Write Interestingly Upon Conditions Existing in Far Eastern Land—Ordered Out of the State Because of Dire Condition of Uprising

The following interesting article is made up of extracts from letters received by friends in Twin Falls, from letters received by friends in Twin Falls from Mr. and Mrs. Christy Wilson, who left Idaho over a year ago for Tabriz, Persia, where they expect to spend eight years in missionary work for the Presbyterian church. Mrs. Wilson was formerly Miss Fern Wilson and is well known here and in Burley. Mr. Wilson's relatives live at Idaho Falls. They speak of the joy that letters from America give them saying that "now the roads are closed except the long route around by India, letters from home seem like messages of joy from a world we can touch in no other way."

The political situation has not cleared since they last wrote. Bolsheviks Push On. The Bolsheviki have pushed on further and have come to Persia in two places. We do not know just what our status will be if they occupy this province but we feel it would not do us much good to run away as there is no place to go and we would rather nose upon the tender mercies of the Bolsheviki than the Turks or Kurds.

We have finished our work in the school for this term, we had only three members in the graduating class this year because of the war and all the interruptions. They are splendid young fellows and we hope they will be an influence, as other graduates are, in improving the condition of their people.

TWIN FALLS, IDAHO
Capital and Surplus \$165,000.00

F. F. Johnson, Pres. W. H. Eldridge, Vice-Pres.
J. M. Maxwell, Cash. W. E. Nixon, Asst.-Cash.
H. L. Maxwell, Assistant Cashier
A. Dorman Johnson, Assistant Cashier

from here they told him there were Sabsevans, or roving bands of robbers, on the road and urged him not to go on. He had a very small escort, a servant, a phaeton driver and five Cosacks went ahead of the carriage and when a few hours out band of horsemen swept on them from the rear about 300, the servant said. He fought for two hours before he was killed. People are often robbed on the roads, are seldom killed until they resist.

Christy just came home from the consulate with the news that we have there has been a case of a deaf Bolsheviki talk the past week but we have had it regularly the last two months and thought it would blow over, but it seems not.

English to Bolter.

An English army is coming up from Mesopotamia to take us out, there will be several hundred English soldiers and 250 Cosacks will go from here so we will be well protected from the Sabsevans on the way. None of us want to go, it seems almost impossible for us to live and leave almost three thousand Christian refugees who are dependent on us. They are already people stricken and keep saying, "What are you going to do with us, what shall we do?" They think as long as the Americans are here they are safe because they were protected in our mission yards in Urumia when the Turks came so they think we will try to go with the caravan. Of course, they will have to walk and a great many will fall by the wayside, but they would rather do that than stay here and die of the plague and the violent uprising in the city which would mean another massacre of Christians like they had in Urumia two years ago.

Hot Weather.

It will take about 25 days to get to Hamadan from here as the caravan will be very large and cannot go very fast, August is not a very good month for a flight in the east where the sun is so hot. We will be able to take only a very light baggage, but a few things will be necessary. All other things will pack and leave here, it seems probable that we will never see them again but when you come to times like these, worldly things are not the greatest value. From the lending of my letter you will see we did not go with the caravan. We were all packed and had food prepared for the journey when Mr. Paddock, our consul, sent word that the English bank would remain, although all the English families and some other Europeans were going. He said conditions were a little better for the present and since the bank was not leaving there would be another chance for us to get out with a safe escort, if necessary. We called a mission meeting and asked them to reconsider our going and they voted that it would be best for us not to go.

Rumors Worry.

The one thing that is hard to bear is the continual tension caused by rumormongering of fighting and political trouble. There are many people here who believe that if the Bolsheviki advance much further in the Caucasus Bolshevism will flame forth here. The Turkish nationalist soldiers are said to be not far from the border and there have been threats by local moslems here to take revenge on Christians because the Armenians have destroyed moslem villages in the Caucasus. These unusual circumstances make life especially hard for the missionaries who have been here through the war and have experienced massacres and all the fears that death could bring from Turks, Kurds, and Persian Moslems.

Last Tuesday we had the sad news that Captain Geard, the British political officer who had been here for a long time had been killed on the road between here and Teheran.

Tells of Murder.

He was a fine young fellow who seemed to have no fear and rather courted danger than avoided it. He had made trips all alone off into the Kurdish mountains where few Europeans would dare to go. He had started asking for a certain kind of Teheran on his way home to England. At a village about 25 miles

Appoint Philadelphia Girl Librarian for League of Nations

Miss Florence Wilson, of Philadelphia, who has been appointed chief librarian for the League of Nations. Miss Wilson served with the American Peace Commission in Paris and then joined the league forces in London. For several years she was librarian at Columbia University, New York. Two American women will assist Miss Wilson in her new duties.

the scenes described in the book of Ruth that happened 3000 years ago. A Syrian woman was just here with her little girl asking for help, the child has that terrible head disease that is so common in this country. It is prevalent mostly among the Moslems and this little girl caught it while she was thrown in with Moslems after a Christian massacre in a village near here. The disease is practically cured now but it has left one-half of her head bald and hair will never grow there again. The native doctor whom they had, changed them 10 and they can't pay it. We try to keep cases like these by paying part but not all. There are so many poor people who are actually suffering from hunger that we cannot afford to spend much money for anything but bread. If it were not for the money sent from America, many, many of these poor people must have starved long ago.

MONUMENT COVERS NEW TOMB OF HIGHLAND MARY

GREENOCK, Scotland, (AP)—With great solemnity, the remains of Mary Campbell, Robert Burns' "Highland Mary," were transferred recently from the Old West Kirkyard here to a new grave in Greenock cemetery. The removal had been necessitated by an extension of a local sidewalk. From the spot where Mary was buried 134 years ago, the coffin was borne reverently on the shoulders of representatives of Burns Clubs from all over the country to its new resting place, and a large crowd of Burns admirers attended an impressive funeral service. Mary Campbell, a beautiful Argyllshire girl, plighted her troth to the poet after a romantic courtship, but she died of fever. By her Burns was inspired to some of his most famous Scottish love songs. The monument which Burns admires covers on Mary's grave in 1842 now covers the new tomb.

SELLING REAL ESTATE is a classified advertising task. Why waste time with signs and placards at tracing little notice except in the immediate neighborhood? Your logical buyer undoubtedly reads the ads—but he may not even know about your property through any other means.

How To Plant An Advertising Crop--

Until the advent of the Audit Bureau of Circulations, advertisers sowed their business seed in a vast but fallow field. Some of it grew and returned a fair harvest--much of it was cast upon barren ground and was lost. There was no standardized method of determining the fertility of a publication's field. Experimenting was expensive.

The A. B. C. has eliminated the barren spots of circulation. Planting an advertising crop is no longer an experiment. Advertisers know the field through audit reports. They know whether it is fertile ground and sow their seed accordingly.

The NEWS' circulation has been audited in this publication are seeds well sown.

DANZIG VIEWS FATE OF VILNA WITH CONCERN

Free State Considers City Held by Zellgouski Strategic Point on which Must Hang Issue of Peace or War

IMPORTANCE TO POLES IS SHOWN BY HISTORY

DANZIG, (AP)—Vilna, which the former Russian general, Zellgouski, recently acquired with troops of the Polish army, has figured in the aspirations of Polish expansionists for nearly 700 years. The Free State of Danzig is important in the outcome of the campaign for possession of the city because it is felt here that Vilna must be the strategic point upon which will always hang the issue of peace or war. The league of nations decided at its first assembly in Geneva to send an international force to Geneva to enable the people of that city to decide what their nationality shall be.

When its possession was given to the Poles is indicated by recounting some of its turbulent history.

Founded by Lithuanian Vilna was founded by Prince Godim, of Lithuania, who reigned from 1345 to 1391, with Kiev. It formed an important part of southern Russia. Godim and King Wladislaw of Poland united in a war against the order of the Teutonic Knights, and in 1413, after nearly 100 years, later that the two countries established a common Reichstag. This was at Hrodno on the Big river and here the rulers of the Polish lands cooperated in declaring all important issues.

There was a complete union of Poland and Lithuania in 1569, as far as all state affairs were concerned, and this continued until the end of the eighteenth century. Although Lithuania was divided into six governmental subdivisions in 1795 and was under the rule of Russia, the Danzig Reichstag remained with Poland.

Poles Pre-eminant
Vilna was occupied by Russian "red" troops in the summer of last year and twice changed hands during the Polish-Russian war. It has been called the capital of Lithuania, but the writer in the Danzig Zeitung says the number of Poles in and around Vilna probably would be 100,000 more than in Danzig.

In conclusion he believes there is no question but Poland will seek to re-establish the boundaries existing before the war. The state of Danzig is interested in an early stabilization of Poland's eastern boundary terms, to give Danzig an opportunity to begin working out its economic problems.

LATVIAN GIRLS WOULD BE BRIDES OF AMERICAN MEN

War Leaves Surplus of Women and Husbands are Scarce and Expensive

LIBAU, Latvia, (AP)—Latvian girls are looking longingly at the American matrimonial market. The war has left Latvia with a surplus of women and husbands are scarce and expensive. Under the Latvian customs a bride must bring her husband a dowry of keeping with the social position of her own family and that of her husband.

A Latvian merchant consulted the Associated Press on the subject of finding husbands for his daughters in America.

"The price of my daughters is in New York in school. She is only 15 and I am not worrying about her," he said. "I know she will learn English perfectly and find a good husband who won't desert her and who will support her. I have two other daughters here in Latvia. Any men that I would have for sons-in-law demand unreasonable dowries. They want a hundred thousand rubles, that is about \$750. Some of them demand 200,000. That's a lot of money for us under present conditions, and I want to send the girls to America. They are studying English now, but I can't get permission for them to go to the United States."

CENTENARIAN WOMAN VOTER IS THANKED FOR HER BALLOT

HOSTON, (AP)—Miss Annie Stone, 102 years of age, who celebrated the woman suffrage victory by voting for Governor Harding, has received a note of appreciation from the president elect's secretary thanking her for her interest in public affairs. Word of the centenarian's going to the polls reached Senator Harding's office through a newspaper clipping sent by an admirer of Miss Stone.

The letter from Charles E. Hard, assistant secretary said, "While the senator is on his way to the Canal zone and has not been advised of this circumstance I know he would desire me to write you and thank you most cordially in his name. He would feel a great compliment indeed to know that you are so much interested in public affairs and have such a cordial feeling for the republican party."

SHUTDOWN AFFECTS 13,500 MANCHESTER, N. H. (AP)—The Amoskeag Manufacturing Co. Tuesday announced a ten-day shutdown commencing December 22 and a wage reduction of 25 to 12 per cent. The mills employ 13,500 persons.

Nobody can disagree you but yourself.

Typical Scene in "Private Secretary"

High School students are soon to present Charles Hantroy's roasting farce in the auditorium under direction of head of public speaking department. Play has lots of action and bounds in humorous situations.

WOOD CONSUMPTION FIGURES SHOW EXTENT TO WHICH AMERICANS PUSH FOREIGNERS OUT OF TOY MARKETS

WASHINGTON, D. C. (AP)—Some idea of the extent to which foreign-made toys have been replaced in America by the home-made article is given by the estimate of the American Forestry association that close to 30,000,000 feet of lumber was used this year by American toy makers.

The waste problem in toy making is not a serious one so says the forestry association, because most of the pieces used are small and what does not do for one thing will, as a rule, do for something else.

GERMANS DODGE MONTHLY DEBT BALANCE PAYMENT

Defines Own Course when Negotiations to Alter Obligations Fail

BERLIN, (AP)—Negotiations have been proceeding for some time between the German and foreign governments with the view to changing the present clearing arrangement by which Germany is obligated to pay her monthly debt balance in cash, says a semi-official statement issued here.

CENTRALIA TO BE SITE OF LEGION'S MEMORIAL

Building Dedicated to Memory of Four Veterans as Planned by W. W. is Planned

CENTRALIA, Wash., (AP)—Plans are being made for construction here of what is expected to become an American Legion shrine—a building dedicated to the memory of four Legion men killed by alleged industrial workers of the World during an American Day parade last year.

American Legion posts in various parts of the country have asked that they be allowed to help in raising the \$500,000 needed to erect the structure, officers of the local post have announced.

The building, according to plans decided upon, will contain a memorial hall, a museum for war relics, Legion club rooms and an auditorium.

UTAH LABOR FEDERATION ASKS PRISONERS' RELEASE

SALT LAKE CITY, (AP)—Telegram have been sent by the Utah State Federation of Labor to President Wilson, Governor W. D. Stephens and Senator Wm. Johnson of California, asking them to urge their influence toward the release of political prisoners, particularly Warren Billings and Thomas Mooney.

LOCUST PLAGUE COVERS EARTH IN ARGENTINA

Fighting Squad Organized by Government Unable to Cope with Insects Swarming Like Moving Carpet

BUENOS AIRES, (AP)—A plague of locusts, like that which in ancient Egypt "covered the face of the earth," this year descended upon the province of Santa Fe. Similar invasions are almost annual events in one part or another of Argentina.

The locusts come suddenly and without warning. Where for a year or several years perhaps not one of the insects has been seen, a voritable cloud of them will one day appear and settle on the ground. These usually come from the northwest, from the vast almost uninhabited tracts in Bolivia, it is supposed. They cover the earth like a moving carpet, gradually moving on.

At first little damage is done, aside from the inconvenience of having literally millions of the insects covering everything and even penetrating the houses. But as they progress through the country they here holes into the earth, preferably in hard spots such as roadways, into which they deposit their eggs within a short time the holes are hatched and come forth. At first these cannot fly, and it is at this stage that they devour every living plant within their path, with the exception of a few species such as willow trees.

A little later the insects develop their wings and, leaving the country through which they have passed a desolate trail, they disappear almost as suddenly as they came. Where they go to has never been discovered.

Argentina has had recourse to many methods of fighting the locusts. That first, they disappear almost as suddenly as they came. Where they go to has never been discovered.

NEBRASKA FILLS OBJECTION TO STOCK DIVIDEND PAYMENT

WASHINGTON, (AP)—The state of Nebraska filed a brief with the interstate commerce commission Tuesday objecting to the proposal of Chicago, Burlington & Quincy railroad that it be permitted to distribute \$1,000,000 of its surplus in stock dividends and in bonds as a cash dividend.

SAYS PERMITS ARE GRANTED TO KILL BUFFALO IN UTAH

SALT LAKE CITY, (AP)—Sixty permits to kill buffalo on Antelope island in the Great Salt Lake at \$200 per head have been granted, according to information to this effect sent to Ann B. Cameron, acting director of the national park service in Washington, D. C., by Thomas Robinson, secretary of the Utah state livestock board.

HARA ADVISES FOREIGN CRITIC TO INVESTIGATE

Premier Defends the Japanese National Characteristics Against Misunderstanding, Citing Nation's History

TOKIO, (AP)—Denying that Japan is militaristic and inviting foreign critics to study Japanese history to prove the contention, Premier Takashi Hara has written an article entitled "Japanese National Characteristics as Misunderstood by the World," which is published in the Chuwa, an organ of the Seiyukai party.

"I am charged that the Japanese is an aggressive race, belligerent and hostile in civilization other than the art of war," the premier wrote. "This misunderstanding may be attributed to three defects of view. First, Japanese history is disregarded; second, Japanese literature and art are not studied; and third, the true conditions of the life of the people have not been studied."

No Record of Conquest
"Japan has no record in her history of having conquered other races, of every one knows. The foreign wars in the Meiji era, especially the Russian war, were simply wars for self-defense against foreign aggression."

"If Japan's history is examined closely, it is rich in records of warfare, to be sure, but it is a great mistake to jump to the conclusion that the Japanese people have been a warlike race all together, born and reared in the midst of wars. In the days before civilization had advanced, political and military wars were employed for the same purpose by all countries which are now civilized."

Keeps International Law
"Japan has never violated international laws or international faith. She has been rather too timid to do so, or to be too modest and reserved. In other words, she has not yet been degraded to that extent. If for its any fault to be found with the Japanese, it may be as critics at home tell us, that Japan is too modest and reserved. In respecting international obligations and in being loyal to friendly nations, there perhaps is no country which will surpass Japan, though many nations apply the same principles of moral conduct between nations as between individual men."

Pleads Personal Equation
"To be sure, I cannot say that there has been no cause or misunderstanding as regards affairs with China in the past, but that was a question of the ability of the men in power at the time. It was not due to the traditional principles of Japan. That the result of the deals with China were such as a section of Americans had understood them to be is a matter which has now been brought home clearly to the people of the world. Of that I am firmly convinced."

WAGES ARE REDUCED IN COEUR D'ALENE DISTRICT

SPONANE, Wash., (AP)—Wage reductions of \$1 a day have been announced by all the mines in the Coeur d'Alene district of northern Idaho except the Bunker Hill and Sullivan, effective January 1, according to information received by local employment officers.

The Bunker Hill and Sullivan, it was announced, has announced a fifty cent reduction.

The wage scale for all the mines in the district will be \$4.25 a day for miners and muckers, it was stated, the Bunker Hill and Sullivan having been paying \$5.25 as against \$5.00 at other mines.

SHAKE-UP IN PROSPECT IN MEXICAN OIL BUREAU

Complete Re-organization is Forecast in Official Announcement of Request for Resignations

MEXICO CITY, (AP)—Complete reorganization of the department handling all phases of petroleum matters was forecast Monday when official announcement was made that Senor Casilla, chief of the department, had been asked to resign. His two most important aides, Vasquez Schafflin and Joaquin Santella, who are charged with irregularities in granting oil land concessions, were also asked for their resignations.

Jesus Rodriguez de la Fuente, who was chief of the oil department until a few days ago, resigned, according to announcement, when investigations indicated he and others had organized development companies to which concessions were granted. Yesterday's announcement, which was given out at the office of President Obregon, stated the government in future would grant no concessions to "cuyotes," or intermediaries who were merely acting for development companies.

Concessions in future will be granted only to companies or persons who can prove their financial ability to carry on exploration and exploitation.

In the meantime all petitions now pending in the department will not be considered until investigations prove they were made by reliable companies, and all concessions granted during the Obregon regime will be subjected to similar inquiry. Those found irregular will be suspended by the government. It is announced.

WRANGEL'S FLEET SETS SAILS FOR TUNIS PORT

CONSTANTINOPLE, (AP)—General Wrangel's fleet, which abandoned Crimean waters with the recent defeat of the Wrangel forces by the Russian soviet armies, sailed from Constantinople Sunday for Bizerta, Tunis. The fleet consists of one dreadnought, two cruisers, four submarines, seven destroyers, four sloops, four ice breakers, three school ships and three tugs. General Wrangel remains here on board the cruiser Koroff.

Reports that the Russian destroyer Livov had been sunk in the Black sea, with the loss of all her crew, have been confirmed.

Check That Cold Right Away

Dr. King's New Discovery soon breaks a cold and checks a cough

A sudden chill—cough—stuffy feeling in the head—and you have the beginning of a bad cold. Get right after it, just as soon as the sniffles start, with Dr. King's New Discovery. For five years a standard remedy for colds, coughs and grippe.

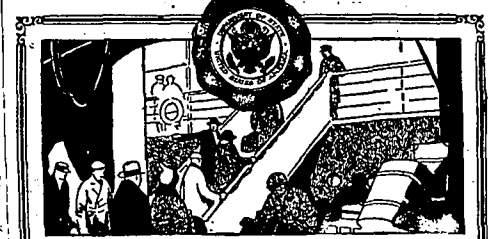

You will soon notice a change for the better. Has a convincing, healing taste that's kidding like. Good for croupy coughs. At druggists, 50c and \$1.20 a bottle.

For colds and coughs Dr. King's New Discovery

Put "Pep" in Your Work

Many a man has been a failure in business, many a woman in her home, because constipation has clogged the whole system, storing up poisons that enervate and depress. Dr. King's Pills act mildly and make bowels act naturally. Same old price, 25 cents.

BRENNAN TOUGH BUT IS BEATEN BY SALT LAKER

Chicago Man Withstands Rain of Blows to the 12th Round Then is Downed

NEW YORK (AP)—Bill Brennan, who was knocked out in the twelfth round by Jack Dempsey, the heavyweight champion, in Madison Square Garden last night, said today he intended to ask for another match. "I am not satisfied that Dempsey is my superior," he declared.

The challenger, while saying that he had vindicated himself, asserted that he was "surprised" when the referee motioned him to his corner, believing that he had beaten the round.

Dempsey said "Brennan was much tougher than I expected. He stood up longer than I thought he would. His blows didn't hurt me at any time. But I found him a hard man to hit properly." Dempsey expects to leave for the Pacific coast tomorrow, to remain until late in February, when he will come back to New York to train for his match with Jess Willard on St. Patrick's day.

There were many opinions expressed by fans here as to Dempsey's inability to finish his opponent quickly. When Dempsey did cut loose, however, he certainly made a quick job of it but it was not until after Brennan had split that he was absolutely unfeeling of the champion's punches and had split Dempsey's left ear with a right hook.

The champion proved to be Brennan's master in nearly every stage of the bout but the challenger without many hard blows in the wind and ribs through his magnificent physical condition.

Twenty ticket speculators, arrested outside the fight arena, were fined \$2 each in the night court. Five others were dismissed.

The match last night broke all records for receipts for an indoor affair in this country, according to unofficial estimates today. The 11,950 seats brought in \$208,825. This does not take into account the receipts from about 1000 temporary bleacher seats and 2000 persons who obtained standing room.

Deducting Dempsey's share of \$100,000 and Brennan's guarantee of \$50,000 last night, the promoters estimated profit, after paying taxes and expenses probably will be about \$13,000. The federal tax amounts \$21,000, and the state tax \$10,500.

MAGGETT GIVES HIMSELF UP FOR JURY'S ACTION

Indicted Salt Lake Baseball Player Surrenders to Los Angeles Officials

LOS ANGELES, Cal. (AP)—Hart Maggett, former outfielder for the Salt Lake city club of the Pacific Coast baseball league, indicted by the Los Angeles county grand jury last Friday for alleged conspiracy to "throw" games in the 1919 season, surrendered himself to the authorities here yesterday.

Maggett was arraigned before Judge Frank H. Willis of the criminal department of the superior court and given until December 21 to plead.

Maggett, also named in the indictment, was arraigned in the same court and given the same time to enter his plea.

Maggett who is in business in Berkeley, Cal., gave bonds of \$1000. Boston previously had provided some bonds.

W. G. Hunter, Salt Lake outfielder, and Nathan Raymond, alleged gambler, Seattle, also named in the indictment with Boston and Maggett, have not yet responded to the grand jury's bill.

THREE SEASONS AND LOSES NOT A SINGLE GAME

Wittenberg College Eleven Has Compiled an Envyable Record on Grid

SPRINGFIELD, O. (AP)—Completing their third year without defeat, tied for the state championship honors of Ohio, and with three members on the mythical "All-Ohio eleven" is the football team which finished its season here Thanksgiving by defeating Denison university, 7 to 0.

One of the power 7-college men are Captain Wilbur Etter, right halfback, and universally admitted to be the most sensational player in the Ohio collegiate conference; William Troutman, center; and Al O'Neil, men are left guard. Etter was also named captain of the all-state team. "Babe" Hall, Wittenberg's left end, is placed on the All-Ohio second team.

This season Wittenberg has met and defeated six Ohio conference teams including Cincinnati university, Miami university and Denison university.

Wittenberg is the only other school in Ohio remaining undefeated, refused to accept a challenge to play a post-season game, leaving Wittenberg and Waverly tied for championship honors. Many football critics of Ohio consider the Wittenberg team to be the best gridiron aggregation in the state.

In eight games Wittenberg played this season, Wittenberg rolled up a total of 281 points to their opponents' 23. Wittenberg's Ohio conference score is 180 to 23, which is the highest record made by any team in Ohio. Wittenberg also made the highest single game score in the Ohio conference by defeating Hiram, 82 to 7. While Wittenberg was scored upon by five weaker teams, two of the biggest teams which Wittenberg played, Miami and Denison, were held scoreless.

To Wittenberg's coach, Ernest F. Godfrey, is largely due the credit for developing successful football at Wittenberg. From a small number of men and inferior equipment he has built up a championship outfit. The team was built from probably the smallest number of men turning out for football at any school in Ohio.

While Coach Godfrey loses eight or nine of Wittenberg's best athletes by graduation next June, he says that he will have plenty of new material from which to build a squad next fall that will maintain Wittenberg's football reputation.

Brief Bits of Sports

Looks like attendance at last Friday's festa near the knoll of boxing shows in Twin Falls, for a while, at least.

Gate receipts were not at all satisfactory, especially considering the class of show stage.

Bum business, but then—

On Tuesday morning death here away one of the greatest stars of the gridiron, Gipp of Notre Dame. The young man, yielding to the importance of six friends, played football when he should have been in the hospital and contracted a disease of the throat which finally laid him low after one of the games of struggles.

This incident stands alongside of that connected with the death of Tom Shevlin, famous as the greatest quarterback Yale ever developed. Shevlin responded to the call of Old Eli when the team was in a bad slump and he took the field as coach after being out of the game several years. He contracted a cold while mentoring the Yale team, developed pneumonia and died.

Jess Willard says he is sure he can "come back."

WARD GETS VERDICT

MILWAUKEE, Wis. (AP)—Bobby Ward, St. Paul lightweight, last night outboxed Johnny Mendicino, Milwaukee, in a ten-round no-decision contest, newspaper critics agreed.

ALFALFA RATE IS REDUCED \$5 TO THE RIVER

Union Pacific Announces Tariff Lowering to Help Idaho Farmers

OMAHA, Neb., (AP)—Announcement was made here by Pacific that rates on alfalfa meal and hay from Idaho points east to the Missouri river would be reduced from \$15 to \$10 per ton, the reduction to be in effect commencing April 30. Idaho interests had declared it impossible to move those products at the present rates.

Private advices to The News and President Asher B. Wilson, of the Twin Falls chamber of commerce, confirm the Associated Press report, adding that the application is made to permit publication of the new rate on "one day's notice."

The following message was received this morning from Joseph T. Young, of Pocatello, now in Salt Lake:

"Union Pacific has requested permission from interested commerce commission to put into effect on one day's notice rate ten dollars ton hay Missouri river points expect prompt confirmation holding conference here today on grain and potato rates will advise results."

Confirming Mr. Young's statement sent to Asher B. Wilson, president of the Twin Falls chamber of commerce, is the following message from Miles Cannon in Boise:

"Official notice received at this office Union Pacific system has made application interested commerce commission for permission publication effective on one day's notice a rate of \$10 per ton on hay from all points Idaho to Missouri river points. This rate will be a maximum on alfalfa meal in carlots. Greatest caution should be exercised by shippers to avoid overstocking any particular markets to the detriment of buyers to appropriate this concession."

Two weeks ago the Twin Falls Chamber of Commerce made an urgent appeal to the Oregon Short Line railroad for a reduction of freight rates on Idaho alfalfa and alfalfa products to the Missouri river. Explanation was at that time made that under present shipping conditions hay stacked in this district could not be moved out except at a loss to the grower. The railroad company was asked to reduce rates so as to enable shippers to start movement of thousands of tons of alfalfa outwards from this district. This a movement of the railroad company of a reduction comes in reply to this urging of the chamber of commerce.

In connection with the lowering of freight rates on products announced comes from Salt Lake that a conference is being held in that city today on the question of a reduction of the tariff governing shipments of grain and potatoes.

JUDGMENT IS ASKED AGAINST E. A. WILSON

District Farmer Sued for Total of \$13,519.97 by Two Plaintiffs

Aggregating \$13,519.97 three damage actions have been instituted in the district court by separate plaintiffs against Mr. and Mrs. E. A. Wilson, farm operators in the Twin Falls district. Two of the suits are based upon alleged sale of crops mortgaged to the plaintiff, John B. Norris, while the third is brought by Mrs. Louise Pavette, lumber company against E. A. Wilson alone, for judgment in the sum of \$1398.75 on alleged debt.

The other cases involve damages in each instance of \$5,000.00, and all attorneys fees are asked in addition. In the first complaint booked the plaintiff makes the Rogers Brothers Seed company a co-defendant with the Wilsons, and in the second complaint the Boyette Commission company is so named. It appears, according to the papers, that Plaintiff Norris held a mortgage against Wilson's crop of beans to secure a promissory note of \$524, and a similar mortgage on a potato crop in a like amount. Claim is made that the beans were sold to Rogers brothers and the funds to the Boyette Commission company without consent of the mortgage holder. In these two instances attorney's fees amounting to \$575 in each case are asked in judgment.

TUBERCULIN TESTS OF CATTLE DEVELOP GOOD MANY REACTORS

Veterinarian Makes Report of Improvement Work Done Among Stock Herds of Southern Idaho Showing Results of Examinations for Existence of Tuberculosis — Officer Sounds Warning to Owners

Out of 6400 southern Idaho cattle, subjected to tuberculin test during the period from last February to December 1, 1320 were found to be reactors to the test and 70 others are held under suspicion.

These figures are introduced by Dr. A. K. Kuttler, veterinarian in charge of tuberculin test work in the south end of the state in a general report of the functioning of his department. Dr. Kuttler reports 610 herds tested during the 10 months. The territories included in the scope of operations takes in Twin Falls, Jerome, Cassia, Ada, Fremont, Franklin, Lincoln and Gooding counties.

In Twin Falls County, out of the total 107 reactors 88 were located in the 10 months.

Kuttler's report explains, of the 70 "suspects" 39 were found in this county. Tests made in the Twin Falls district were 2450, with 3340 successful passings. One animal is held for test here, two in Wendell, three in Richfield, one in Rupert. In the Bluff district there are three reactors held in quarantine and one under suspicion.

On the general subject of tuberculosis, results and progress Dr. Kuttler makes the following report:

"If one were to calculate the economic loss to the livestock industry of the state alone, and even at the present low values of cattle, it would not be an exaggeration, in view of the fact that a large per cent of the reactors were pure bred animals, to say that the economic loss is more than it has cost the state to conduct the work throughout the entire state. This is not taking into consideration the damage to the public health when tubercular animals are used for dairy purposes. In one herd found in Twin Falls county over 70 per cent of the calves, which were taken from the cows at birth, were found to be tubercular, and it will be remembered that the disease is not hereditary, so there can be no doubt that the disease was being transmitted through the milk and calves will contract it by drinking milk, it is reasonable to suppose that the human family is at least very seriously exposed by drinking such milk."

In an exception, of course, the herd mentioned above is only the exception I would not have any one think there are many such herds in Idaho. But the history of the disease was the statement that it would not be long until there would be many such herds, if steps are not taken to eradicate diseased animals. The experience of the other sections of the country, although the work has only been conducted on a large scale throughout some sections of this country during the past three or four years is that it is eradicated by means of a campaign.

The greatest problem is that of getting the last spreader of tuberculosis to get the last one, the work must be continued. To discontinue work which all independent countries build under the head of "World Arranged For," Dr. Kuttler makes this statement:

"Applications have been made, and have been accepted, beginning in the early part of January for considerable testing in the following counties: Gooding, Cassia, Lincoln, Twin Falls, Minidoka and Jerome."

White Stocking Club to Provide Christmas Cheer

The News Movement to Gladden Hearts of Poor Gets Interest

If you know of a boy or girl who, through circumstances, could only appreciate the Christmas season by viewing the shop windows and not by participation in any of the good cheer of the times, would you be willing to do something to make that child's Christmas life a little brighter?

An opportunity is afforded every person in Twin Falls to cheer the heart of some boy or girl at Christmas time through the medium of The Twin Falls News. This opportunity rests in membership in The News' "White Stocking Club." This club provides stockings to all members. These stockings are to be filled with candies, nuts, fruit and to contain, perhaps, a small toy. They can be prepared at The News office any time in the day and should be called for immediately if the purposes of the club are to succeed. When filled the stockings are to be returned to The News office for delivery to the Salvation Army.

Many calls for these Christmas receptacles have been made thus far and many names enrolled in the club. Will you be one?

RABBI WILL SPEAK ON "ZIONISM" PLAN

Refugee from Russia will Give Two Addresses Here Sunday Evening

Rabbi Joseph Goldman, who came from darkest Russia a little more than four years ago, after he had seen his wife and six children murdered by the Bolsheviks, will be in Twin Falls next Sunday for two addresses. He will speak at the Methodist church at 3 p. m. the afternoon and again on Sunday evening continuing the subject of "Zionism."

Rabbi Goldman was in Twin Falls two years ago in the interest of a Liberty loan drive. He is a firm believer in the Zionist cause, and is convinced of the truth of the ancient prophecy that the Jews will return to Palestine and redeem it from barbarian hordes to their own purposes. "There are eight million Jews in Russia," he says, "and in six months they will all be gone from Russia. If they stay the Bolsheviks will get them. Many of Jews will go to Palestine, which will become a nation."

Mercury Makes New Low Mark for the Season

THE lowest temperature of the season was recorded last night, the mark established being three degrees below the former low, or 12 above zero. Ten days ago the record reached was 15 above. High yesterday was only 23.

But cheer up, warmer weather is promised for tomorrow, with a chance for rain or snow.

ROWCLIFFE IS MADE HEAD OF STATE DYERS

Organization is Perfected at Pocatello with Officers Elected

The recently organized Association of Cleaners and Dyers of the state of Idaho, held a second meeting in Pocatello on Sunday last. At this meeting a permanent organization was effected by adoption of constitution and bylaws and the election of officers. The purposes of the organization, as set forth in the constitution, is "To foster and promote a feeling of fellowship and good will among members and conserve their individual and associate interests; to acquire, preserve and distribute information to members of the association relating to improved processes in dyeing and cleaning, and apply appliances, and other information that will be of benefit to the association. To establish and maintain uniformity in business and commercial usages; to eliminate or minimize methods, abuses and practices inimical to the public and the association."

The state association will have affiliation with the National Association of Cleaners and Dyers and thus be in a position to draw from a wide field of information regarding the things that will be of greatest benefit.

The officers elected at the Pocatello meeting were: Charles E. Rowcliffe, president, and Martin G. Insley, secretary-treasurer, both of Twin Falls.

CORNER LOT TAX CASE AGAIN COMES IN COURT

Restraining Order is Sought Against the County Treasurer and City Clerk

Suit has been filed in the district court by T. J. Woods, W. A. Babcock and other Twin Falls property owners seeking to restrain the county treasurer, E. L. Warren, from making certain tax collections, and against W. A. Minick, city clerk, restraining that official from filing further assessment rolls governing the taxes involved in this suit.

The action comes out of the city's scheme of taxing special improvement on lateral against the corner property, the claim being made that this system is illegal, and that the lateral tax should apply in proportionate amount to the middle of the block. The city lost a case of this sort, tried by Judge Harry E. Ziegen in the district court, and has appealed to the superior court for consideration.

SAWYER LICENSE CASE ATTRACTING ATTENTION

Both Sides in Interesting Trial Present Many Expert Witnesses

In the case of the State of Idaho against H. W. Sawyer, osteopathic physician, accused of practicing surgery in this state without being provided with a medical board license, the state rested last evening and this morning the defense took up the case. Many witnesses of an expert order, have been called to the stand. The main feature of the trial is to establish whether or not an osteopath is permitted to practice surgery in this state. The state presented a number of local allopath physicians and also called Paul Davis, head of the state license bureau, to the stand. This morning the defense took up the case calling S. W. Anderson of Boise, Dr. O. R. Meredith of Nampa and Dr. A. McCauley of Idaho Falls, Dr. Emma C. Crossland of Twin Falls, all osteopaths, and also the defendant. The defense sought to show that appendectomy is a minor operation. The trial is attracting considerable interest, the auditorium of the courtroom being filled at every session.

PAY FINE FOR GAMBLING

In the police court yesterday evening five men giving fictitious names, admitted the truth of the charge of gambling preferred by the police officers. The men were fined \$5 with an additional \$2.50 costs. All were arrested, according to the police, in a room at the Weaver lodging house on Saturday night. They gave the names of Richard Roe, Sam Jones, Jim Brown, John Doe and Ole Olesonky when booked at the police station.
