PRICE FIVE CENTS

COMMITTEE LOPS BIG SUM OFF OF APPROPRIATIONS

Sundry Civil Bill, as Reported to House, Carries \$383,611,922, or \$420,914,192 Less than Asked by Departments

TAKES CARE FIRST OF MEN DISABLED BY WAR

WASHINGTON, (AP)—The sundry civil bill, carrying a total of \$383,611,922, or \$420,914,192 less than was asked by the government departments, was reported today by the house appropriations committee. It was the first of the big supply measures for the next fiscal year to be completed and its total was \$22,337,514 less than the amount appropriated for similar purposes this year.

Indicating a desire to put government expenditures on a pro-war basis, the committee has taken care of men disabled by war, set aside only \$160,611,922 for actual sundry civil expenses of the government, which was only \$24,000,000 more than the total amount appropriated for 1918.

The largest single reduction, \$147,600,000, applies to the shipping board emergency fleet corporation, the bill providing that the organization shall be supported entirely out of various sources of income.

Trims Anti-Suicide Fund
Requests from the department of justice for \$300,000 for enforcement of the national prohibition act was eliminated entirely. The sum of \$15,000 was appropriated, however, for suppressing liquor traffic in Alaska.

Other principal slashes in the amounts asked by the government departments included: War risk insurance, \$87,000,000; vocational education, \$13,000,000; military posts, \$60,924,515; national cemeteries, \$10,000,000; fiscal control, \$1,000,000; electric plants, \$10,000,000; Panama canal, \$7,187,257; immigration service, \$2,567,580; employment service, \$1,366,891; reclamation service, \$530,000; public health service, \$1,167,000; armories and arsenals, \$2,238,000; public buildings, \$6,708,400; iron mines, \$2,112,000; and department of health, \$1,800,000.

The bill includes \$423,000,000 on account of military and naval compensation for death or disability of soldiers, sailors and marines, medical, surgical and dental treatment, and gratuities of the bureau of war risk insurance, and vocational rehabilitation of soldiers, sailors and marines, all growing out of the world war.

Reclamation Gets More.
The principal increases over this year's appropriations are \$11,503,000 for the reclamation service; \$1,231,000 for national home for disabled volunteer soldiers; \$1,000,000 for lighthouses and beacons and \$1,200,000 for the government printing office.

The appropriation proposed on account of medical and hospital service for war risk patients was \$39,000,000, or \$13,000,000 less than the total for 1919. The estimate for 1922 was \$50,000,000.

While there was an apparent reduction of \$23,000,000 over this year's appropriations, the bill provides for reappropriation of unexpended balances, estimated at \$19,200,000, making the total proposed for this service \$21,800,000.

Appropriations for Alaska include \$4,000,000 for railroads; \$325,000 for education; \$90,000 for medical relief; \$120,650 for care of the insane; \$27,000 for long service.

When it came his time to talk, Mr. Cannon described the ceremony as a wake and said he was beginning to wonder if he was not really living in the hopes of those who desire to return from the other world to communicate with friends still participating in the ordinary affairs of the earth.

House big thing happened in 1872. The year he was first elected to congress, not the least of which was a violent eruption of Vesuvius, he said.

RIO JANEIRO, (AP)—A decree re-organizing the Brazilian Lloyd steamship line as a limited company was signed by the president Tuesday. The government will hold approximately eighty per cent of the shares of the company and the remainder will be turned over for public subscription.

WILLOWS, Cal., (AP)—An earthquake so severe that it aroused all inhabitants of the town occurred here at 2:15 this morning. So far as has been reported no damage resulted.

PARIS, (AP)—Because of the labor situation in England, which makes necessary the presence of Prime Minister Lloyd George in London, the next conference of the allied premiers will take place in London or Paris, and not at Nice, it is said by newspapers here today.

MADRID, (AP)—A large sum of money has been sent to Barcelona to facilitate the payment of current accounts by the Bank of Barcelona, which suspended payment Monday. The money was sent upon the initiative of government officials.

SEEK TO BRING BRITISH LABOR TO IRISH SIDE

Conference of Parliamentary Labor Party Adopts Resolution Challenging Disproval of Charges of Commission

LONDON, (AP)—A movement calculated by its organizers to place the full weight of British organized labor in support of the Irish self-determination claims began with a specially convened conference of the parliamentary labor party in London today, after which members of the party's Irish commission felt that they had observed and learned in Ireland.

A resolution was adopted unanimously challenging the government to deprive the commission's accreditation; regarding reprisals and other outrages charged to the crown forces. The conference was held as a curtain raiser for a campaign in behalf of self-determination to be inaugurated by the laborites in Manchester, January 17, and concluded in London, February 15.

A. G. Cameron, chairman of today's conference, in opening the lengthy discussion of the Irish commission's report, declared: "As a result of his handling of the Irish question, Great Britain has not a friend in the world."

GERMANY PROTESTS ORDER TO DISBAND CIVIL GUARD

Note to Allied Representatives Threatens Success of Brussels Conference

PARIS, (AP)—The foreign office was advised today that the German government delivered a note yesterday to the allied representatives in Berlin, protesting against the recent note of General Nollet, head of the inter-allied commission of control in Berlin, with regard to the failure of the German government to disband the Einwohnerwehr, or civic guard.

The German note says that the success of the Brussels conference is likely to be affected if the allies persist in the line of action they have taken concerning the police organizations and demands that the note of the commission of control, in which the subject was referred to, be communicated to the German government.

Dixon Puts Damper on Inaugural Ball

MISSOULA, Mont., (AP)—Governor-elect Joseph M. Dixon today pointed to the fact that the publication of Fiume, upon the dissolution of the Austro-Hungarian empire, had proclaimed through their national council, the union with Italy.

Croatia, now a part of Yugoslavia, opposed the claim on the ground that Suseak, an important suburb of Fiume and part of the city itself, was over which Italy had no claim.

The governor-elect, with his family will leave for Helena tomorrow afternoon. He will be inaugurated Monday.

D'ANNUNZIO SUBMITS BEFORE OVERWHELMING ARMY FORCE

Poet-Warrior Surrenders All His Powers to Fiume Communal Council; to Arrange Conditions of Peace

MILITARY OPERATIONS SUSPENDED UNTIL CONCLUSION OF CONFERENCE

ROME, (AP)—Complete recognition of the treaty of Rapallo has been given by D'Annunzio's representative in a short conference with General Ferrario today from General Cavaglia, commander of the Italian regular forces at Fiume.

Fiume, (AP)—Gabriele D'Annunzio early today surrendered all his powers to the Fiume communal council. General Cavaglia, commander of the regular Italian forces, will arrange conditions of peace with a delegation of the council today.

A conference for the purpose of arranging the final cessation of hostilities between the regular Italian forces of General Cavaglia and D'Annunzio's legionaries was set for this morning, according to earlier announcement, and all military operations have been suspended.

The truce was arranged during the night and will continue until the conclusion of the conference. Mayor Riccardo Gigante of Fiume, and Captain Hostward, in whose hands D'Annunzio placed the defense of the city, will be the spokesmen for Fiume, D'Annunzio apparently being ignored.

Shortcuts Knotty Problem.
Science of the part of Fiume in September 1918, by Gabriele D'Annunzio, Italian poet warrior, at the head of 5000 volunteer grenadiers and artilleers, the dramatic climax to a controversy reaching back to the treaty of London, 1915, and the allied powers, under which Italy entered the war against the central powers.

The truce suspends the part of Treaty of the Brenner Pass, as well as Trieste, Dalmatia, Istria and a section of the Dalmatian littoral to Italy, but gave Fiume, the seaport of Hungary.

When the war ended, Italian nationalists, including D'Annunzio, demanded that Fiume, with its preponderant Italian population, should be given to Italy, and that would have required the revision of the treaty of London. The Italians, however, invoked the principle of "self-determination" of President Wilson and pointed to the fact that the publication of Fiume, upon the dissolution of the Austro-Hungarian empire, had proclaimed through their national council, the union with Italy.

Croatia, now a part of Yugoslavia, opposed the claim on the ground that Suseak, an important suburb of Fiume and part of the city itself, was over which Italy had no claim.

The governor-elect, with his family will leave for Helena tomorrow afternoon. He will be inaugurated Monday.

Palmer Urges Need of Dry Law Enforcement

Attorney General Cites Facts in Connection with Arrests and Prosecutions; Violations Increasing

WASHINGTON, (AP)—Need of additional funds for prohibition enforcement with increased violations reported by Attorney General Palmer in testimony before the house appropriations committee, made public today for the first time. His request for \$300,000 was not included by the committee in framing the sundry civil bill.

Mr. Palmer told the committee that up to September 30, 1920, 17,598 arrests for violations had been made, of which 17,428 cases were recommended for prosecution by the department of justice. He said violations were increasing.

The committee also refused to include in the bill a provision to reward citizens for giving secret information regarding liquor smuggling.

FUEL CONTROL COST TO GOVERNMENT \$4,874,681

Final Report Discloses Expenses and Activities of War Time Organization

WASHINGTON, D. C., (AP)—The total cost of fuel control to the federal government during the war was \$4,874,681, according to the final report of the International Fuel Control administration, made public here today. This sum represents all expenditures of the administration from its organization in September, 1917, to June 30, 1919, when it virtually was disbanded.

DEFENDERS OF FIUME PUT UP BITTER FIGHT

Legionnaires Offer Stubborn Resistance Against Hopeless Odds Presented by Steady Advance of Iron Ring

PARIS, (AP)—Fighting at Fiume between Italian government troops and Gabriele D'Annunzio's legionaries has been suspended, for a time at least, it was reported today.

A dispatch from Rome stated that delegates appointed by the mayor of Fiume met General Ferrario, in direct command of the Italian regulars at Abbazia yesterday, and agreed to the terms laid down for the capitulation of the city. D'Annunzio was expected to sign the agreement and a truce was expected until noon today.

The Duke of Aosta, cousin of King Victor Emmanuel, was said to be on his way to take part in the negotiations.

LEGIONAIRES SET FIRE TO MAGAZINE IN FINAL STRUGGLE

ROME, (AP)—D'Annunzio's legionaries at Fiume set fire to a powder magazine in the Rocca valley, southeast of the city, Monday night, according to a report from Abbazia. The explosion, which occurred toward midnight, set fire to the woods surrounding Fiume to the south of the Rocca valley, southeast of the city. In some quarters the belief was expressed the dispatch states, that a petroleum refinery near the powder magazine had also been set on fire.

Fighting Center on West Italian Regular Troops Surrounding Fiume

The fighting center on the west of Fiume continued to advance west and north of the city yesterday, while on the eastern side the situation was unchanged. The fiercest fighting advanced west of Fiume, where Alpi advanced from Castua, reached the public gardens. When they had forced their way that far, they found all the houses surrounding the gardens had been transformed into machine gun nests, from which a terrific fire was poured upon them.

An armored car advanced against the regulars, and inflicted heavy losses, the Alpi throwing themselves on the ground and continuing the struggle for some time. Major Dambars, in command of the Alpi, rode through the gardens on horseback and rushed toward the car, but was wounded twice and fell from his horse. The car was fired upon, and Major Dambars was able to struggle toward the car, and upon entering it found three dead legionaries and two seriously wounded commissioned officers.

Casualty Lists Mount

Wounded regulars have been taken in motor lorries to Anzio and Genoa, where special hospitals were organized. The number of men taken taken to these hospitals is increasing hourly, and all agree in declaring that the regulars find themselves handicapped in their fight against the legionaries. They are armed only with rifles, while the D'Annunzio troops use hand grenades and machine guns, and besides, have laid mines everywhere so that at every step the government soldiers are in danger of being blown up or killed by debris and splinters. Two houses in Fiume have already been destroyed by mines. The wounded men say the regular troops were ordered not to fire unless absolutely obliged to do so, while the legionaries have taken every advantage to inflict the heaviest possible losses upon their assailants.

It was agreed that unless Captain D'Annunzio capitulates, the occupation of the entire town of Fiume will be accomplished only with the utmost difficulty.

ASHURST SEEKS PROMISE

Arizona Senator Wants Wilson's Assurance of Approval of Miners' Bill

WASHINGTON, D. C., (AP)—Senator Ashurst, democrat, Arizona, wrote the White House today for the purpose of getting what he described as a "frank and manly" announcement from President Wilson as to whether the executive would sign the bill extending for six months the provision of the law requiring \$100 worth of work on mining claims before midnight December 31.

The senator went first to the executive offices where he was told that the president had the bill. He then went to the White House, where he was told there that the bill was at the executive offices.

HOUSE PAYS TRIBUTE TO REPRESENTATIVE CANNON

Colleagues Join in Celebration of Attainment of Long Service Record

WASHINGTON, D. C., (AP)—An unusual tribute was paid today by the house of representatives to Representative Joseph G. Cannon of Illinois, who has established a new record for length of service in congress. "Uncle Joe" was all smiles as Chalmers Clark of Missouri, the democratic leader, and other old hands of his accomplishments during a long career.

EXPLORERS PLAN EXPEDITIONS IN 16 DIRECTIONS

Seekers after Solutions of Un-solved Problems of Mother Earth Renew Activities with Closing of World War

NEW YORK, (AP)—Sixteen expedition expeditions are now in progress or in contemplation after four years of inactivity in this line of scientific research due to the great war. Most of these enterprises have been undertaken or projected since the armistice and they recall the fact that Mother Earth still has important biological, zoological, ethnological and meteorological problems which are still unsolved.

One of the most important of these enterprises is the British Antarctic expedition, headed by Commander John Lashlan Coyne, R. O. S., formerly of the British navy. It is estimated for \$750,000, includes five ships, 125 men, several airplanes and extensive wireless apparatus. The undertaking is to require five years and its objects are the circumnavigation of the Antarctic sea, a dash to the South Pole, the locating of new whaling grounds, and the discovery of supposedly rich gold, silver, coal and ruby fields.

"Captain Roald Amundsen, who discovered the South Pole in 1911, left Nome, Alaska, last August in his attempt to reach the North Pole. His ship, the Maud, had already spent 10 months in the Arctic, north of Asia and Europe, and had successfully made the northeast passage. It is expected the Maud to be locked in the icepack and to drift toward the Pole when the Arctic winter ended. In negotiating his way to Nome he was frequently compelled to blast a path through the ice. Captain Amundsen was last heard of off East cape, about 170 miles north, west of Nome in the Bering straits. The explorer, on account of high winds and scarcity of men, was handicapped by lack of help, his only companions being three sailors and an Eskimo cook.

The other interesting expeditions projected or now under way are as follows: Siberia—Captain Axel Lundmark, and Captain John Vataney, in 60-foot power boat on a 4000-mile voyage to the Kolyma river, using a primitive chart made in 1878 by Nordenskiold, a Swedish explorer, on a voyage from Norway to Japan via the Arctic ocean.

Greenland—Knut Rasmussen, Danish explorer, who returned from the coast late in 1919, studying Eskimo tribes, is preparing for an other expedition of five years' duration. Lango Koch, another Dane, is planning scientific survey of North Greenland, his main purpose being to establish Danish sovereignty in that territory.

Africa—Four expeditions are in progress, namely, the Mackle ethnological expedition to the interior of the purpose of studying the Bama, one of the chief pastoral tribes of Ankofo, a district west of Uganja; the British Natural History Museum expedition to the west of the Job-Maria mountains; the Duke of the Abruzzi's effort to find the sources of the Webl Shobell river, which flows from Abyssinia through the high mountains into the Indian ocean and the ontological tour of the Belgian Congo, by T. A. Barnos, who explored the Ituri and the Kasai, and who found a strange race of pygmy savages as well as gathering a wonderful collection of moths and butterflies.

Baffin Land—Donald B. MacMillan, who was with Peary, is to start next year to explore one of the richest fields in the Far North. He expects to establish a camp 700 miles south of Peary in Northwest Greenland, where his Crocker Land Expedition passed four winters. He attempts to circumnavigate Baffin Land and penetrate to 500 miles of its western coast.

New Zealand—The Holdehahl of Christiania University, is organizing a Northwestern Natural Science and Geological Expedition to this country and plans to start next summer.

Mexico—Professor Emu Odoline, a famous Neopolitan seismologist, representing the Italian government, is now studying the earthquake situation in Mexico by means of his "thermometer," an invention by which he is able to measure both motion and energy.

The Amazon—Exploration of this great river is to be undertaken next year by a large party of American scientists, headed by Dr. Harry B. Gray, of Columbia University. The party is expected to leave early in January and to traverse more than 1,000 square miles of almost virgin land in the upper reaches of the river basin.

Pacific Islands—Solution of the origin of the Polynesian race is one of the objects of a survey of the Pacific islands claimed at a conference of scientists at Honolulu under the auspices of the Pan-Pacific Union, representing the United States, Canada, England, Australia, New Zealand, Hawaii, the Philippines and Japan. Mere Man Now a Beauty Parlor Customer

"Do men have their hair marcelled and have their eyebrows plucked?" asked a woman patron in a Chicago beauty shop. "Do they, well I guess they do," replied the beauty parlor attendant, "and not only that, they go the limit and get a permanent wave. Men are becoming steady patrons in shops of this kind. They buy many cosmetics, including cold cream and perfumes." This photo shows a Chicago business man having his hair marcelled.

expedition will be sent to the South Seas for this purpose by Yale, Harvard and other institutions.

China and Tibet—The third expedition, backed by a fund of \$250,000, is now to start from Central Asia under the leadership of Roy Chapman Anderson, associate curator of mammals in the American Museum of Natural History, New York. The Chinese government is expected to co-operate with this enterprise.

JAPAN OBJECTS TO CONCESSION FOR VANDERLIP

Foreign Minister Uchida Tells Delegation of Opponents Soviet Grant to American May Work Disadvantage

TOKIO, (AP)—Concessions in Kamchatka granted to Washington D. Vandrelip, of California, by the Russian government might prove a serious disadvantage to Japan, Viscount Uchida, Japanese foreign minister, told a delegation of the opposition party which visited him today. He pointed out, however, that the United States had not recognized the contract because American had not recognized the soviet government.

The delegation also questioned the ministers of war and navy, and both replied that, if reports concerning the concessions were true, the situation held a menace to Japan from the viewpoint of defense, but declined to express any further opinion in the absence of confirmation of these reports.

Viscount Uchida also informed the delegation that although the league of nations had admitted in principle the right of Australia to mandate over islands in the Pacific, Japan had declared her intention to insist upon the principle of equal opportunity and would continue to maintain this attitude. He declared, however, he was unable to forecast the future issue of the question.

CHILD SUPPORTS CLAIM TO SIX GRANDMOTHERS

Less Than 72 Years Separate Youngest from Eldest in Five Generations of Arkansas Family

ARKADELPHIA, Ark. (AP)—A chain of grandmothers without a parallel in this section, at least, has been broken by the passing of Mrs. Emeline Eliza Miller, 82.

Before her death, two small children of Mrs. Eliza Hanson, her great-granddaughter, had six living grandmothers of whom two were great-grandmothers and two were just plain grandmothers. The oldest of the Hanson children is 13 1/2 years of age. Thus there were at one time five living generations with less than 72 years separating the youngest from the oldest.

The Hanson children had beside their six grandmothers, also under their feet, two great-grandmothers, four great aunts, two great-great-aunts and forty-second cousins, but no first cousins.

NALDER IN CHARGE OF HOME READING COURSE IN NORTHWEST

PULLMAN, Wash. (AP)—Dr. F. F. Nalder, director of general college extension at Washington State college here, has been appointed by United States Commissioner of Education P. P. Claxton, special laborator to have charge of the United States bureau of education's home reading course in the Pacific Northwest. The courses have been arranged by the United States bureau of education assisted by leading educators and prominent men of the country.

WINTER FAVORS LIVESTOCK

Feeding Conditions on Ranges of South-east Alberta Best in Years

EDMONTON, Alta. (AP)—In contrast with the severe conditions of last winter, livestock of the ranges of southern Alberta has had this season with the finest weather and the best feeding conditions seen in many years, according to A. J. McLean, chairman of public works, who has been spending a few weeks in the south. In spite of the somewhat serious depletion of the southern herds last winter and spring as a result of food scarcity, the ranchers were able to carry the bulk of their breeding stock and with prices holding low at present cattle reserves are being built up again.

DATA SHOWS MINIMUM OF REST FOR FARMER'S WIFE

Ten Per Cent of Profits for 94 Per Cent of Outdoor Work Average Share in Washington

PULLMAN, Wash. (AP)—The farm wives of Washington are doing 34 per cent of the outdoor work on the farm, 77 per cent of the housework, 26 per cent of the record-keeping, and in return receive 10 per cent of the money made on the farm, according to facts collected by Maude Wilson, state home demonstration agent of the Washington State college extension service. The census in which this survey was made were typical agricultural sections, including Spokane, Clark, Thurston and King.

To Washington 28.4 per cent of the farm wives got 11.4 days of vacation in the year.

DILEMMA FACES DUTCH FORMING OIL FIELD PLAN

Opposition of American Interests to Proposed Disposition of East Indian Fields Precipitates Problem

THE HAGUE, (AP)—United States authorities here fear that American interests will be excluded from the great Djambi oil fields to a subsidiary of the Batavia Oil company. The territory to be included in the concession is described as the most valuable petroleum ground in the Dutch East Indies.

The field has long been the scene of commercial rivalry between Dutch, English and American oil groups. Americans here say that the only way in which American interests could obtain representation there would be for the Dutch government to permit them to subscribe to the stock of the proposed handling company to be formed to handle the concession.

In this holding company, the Dutch East Indian government and the Batavia company would be provisions of the bill, be joint stockholders, the government sharing largely in the profits. The government, however, will have a majority on the board of directors.

According to the Amsterdam Handelsblad, the preferred shares, giving a right to vote as to the control but not as to the direct management, which will be in the hands of the Batavia company, will be mostly under government control, but in order to placate foreign, particularly American, interests, a certain portion of what are known as the "B" shares, may be sold to foreigners with the consent of the government.

A recent dispatch stated that the parliament of the Dutch East Indies had under consideration a motion opposing the granting by the Dutch government of an exclusive concession to the Djambi oil fields without the consent of the people of the colony.

FARM MARKETS QUESTION TO BE CONFERENCE TOPIC

Agriculture in All Its Phases to be Gone Over by Delegates to Fullman Convention

PULLMAN, Wash., (AP)—The marketing question in its relationship to the farmer will be given special consideration at the fifth annual convention of the Washington State Grain Shippers, Growers, and Millers' association to be held here January 11, 12 and 13, according to announcement by Professor E. G. Schaffer, of Pullman, association secretary. Farming in all its phases also will be gone over by the convention delegates.

Schaffer announced, will include E. O. Holland, president of Washington State college; D. G. Shea, Spokane banker; W. J. Jordan, Lewiston banker; E. C. Armstrong, Seattle businessman, and E. F. Benson, Northern Pacific railroad, St. Paul, Mr. Benson, it was stated, will speak on the "Wheat Production in Australia."

MAKING READY TO PROSECUTE BALL PLAYERS

Attorney General Says Examinations Will Be Conducted in Three Weeks

CHICAGO, (AP)—The preliminary hearing for the eight Chicago American league baseball players and five alleged gamblers who were indicted by the Cook county grand jury in connection with the alleged "padding" of games in the 1919 world series, will be held within three weeks and the trial will begin shortly after, State Attorney Robert E. Crow has announced.

Mr. Crow assigned George E. Gorman second assistant state's attorney, to handle the case and ordered him to prepare for an immediate trial. Mr. Crow refused to say whether Hartley Popoogie, former state's attorney, who handled the grand jury investigation, will be connected with the prosecution. The grand jury, in its report, recommended that Mr. Popoogie be employed as special prosecutor despite his resignation from the state's attorney staff.

Mr. Gorman tonight said he expected to devote the next few days to a study of the grand jury investigation and that he then would set definite dates for the preliminary hearings. He refused to discuss the trial of the Pacific Coast league players where the judge ruled that "straw" games was not a criminal offense but said that he would ask the attorneys who handled the prosecution of that case for the records of it so that he could see what hearing it might have on the trial of the major league players and the men charged with bribing them.

Eddie Cicotte, Joe Jackson and Claude Williams confessed their share in the grand jury investigation and Oscar Folsch was quoted by newspaper reporters as confessing to them but Pelech, "Buck" Weaver, "Brewie" Kinsberg and McMillan have officially denied they were guilty and have hired counsel to defend them. Jackson and Williams have been quoted in press dispatches as saying they "would like to play in baseball next season." Cicotte, the eighth indicted, has not announced his plans in regard to the trial.

WELSH WHIPS A DUB

NEWARK, N. J., (AP)—Freddie Welsh, who retired after losing the world's lightweight boxing championship to Benny Leonard in 1917, returned to the ring last night and scored a technical knockout over Willie Green of Boston after four rounds of a 12-round match. Green refused to respond to the bell for the fifth round claiming he had injured his shoulder.

The former titleholder showed only flashes in his old time form but had little difficulty in outboxing his opponent. Welsh weighed 137 1/2 and Green 135 pounds.

RAIN INTERFERES

AUCKLAND, N. Z.—Members of the American Davis cup tennis team were again disappointed today, when rain compelled a further postponement of the first match with the Australian team. It was expected that play would begin today, but heavy rain was falling shortly before the time for beginning the match between Norman E. Brookes and William T. Tilden II. It was decided, therefore, to begin the series tomorrow.

TREMAINE-FURYEAR BOUT

TOLEDO, O., (AP)—Carl Tremaine of Cleveland, and Earl Furyear of Baltimore, will meet in a 12 round bout here the night of January 10. It was announced today.

Caddock Displays Old-Time Prowess Against Big Pezek

Former Wrestling Champ Flops Nobraskan Twice in Succession at Des Moines

DES MOINES, (AP)—Earl Caddock of Walnut, Ia., former world's heavy weight wrestling champion, won in straight falls from John Pezek of Ravenna, Neb., here last night.

Caddock displayed his old time form and had his opponent in jeopardy many times during the match.

Both fell scattered from double wrist locker, the first coming in one hour, eight minutes and twenty seconds and the second in seven minutes. (See Special of Carroll, Ia., was in straight falls from Max Orlando, a Chicago heavyweight.)

SHARKEY TO FIGHT MOORE

NEW YORK, (AP)—Jack Sharkey, New York bantamweight, will have an opportunity tonight in a 15 round bout with Roy Moore of St. Paul, at Madison Square Garden, to show whether he deserves a return match with Joe Lynch, the American bantamweight champion. Lynch knocked out Sharkey in a hard fought bout recently.

WRESTLING

MASON CITY, (AP)—Paul Prehn, wrestling coach of the University of Illinois, defeated Charles Chaveria, Franco-American middleweight title holder, here last night in straight falls. The first fall came in 32 minutes from a body scissors and double wristlock. The second fall took 18 minutes and came from Prehn's new leg split hold.

SEEKING MEMBERSHIP

CLEVELAND, O., (AP)—James P. Potts, secretary of the national baseball federation, has gone on a western trip in the hope of inducing several more cities to join the federation. He left here last night for Chicago, planning to visit Omaha, Minneapolis, Kansas City and other points.

Brief Bits of Sport

The best Albin Mikkin could get against Al Young in Salt Lake Monday was another draw.

Charlie Herzog insists he is going to find out who the Cubs called him, and not who they came in on in the loan he waived him.

The action of the National league magnates with respect to Herzog already has been mentioned in a mystery, but no doubt said "mags" know the answer.

And when "Buck" hears he may get a full car of something that will quiet him down a lot.

There was considerable discussion heard over return of players who had jumped their clubs last summer or earlier to play with industrial teams. "The wise ones were saying that the 'old stuff' was going to be pulled by the magnates and that the offending players—who had been proclaimed from the house tops as blacklisted for years—would be found drifting back without much if any penalty for their grasshopper stunts.

President Verek of the Cubs and Manager Evers sparred with President Dreyfuss of the Pirates and Manager Gibson over a trade for an outfielder. The Cubs wanted either Carey, Southworth or Blalock but the deal was blocked when Dreyfuss insisted on a catcher, pitcher and infielder he would name in exchange for any of the outfielders.

Donovans come and Donovans go in the international league. Thus Patay Donovan succeeds Bill Donovan as manager of the Jersey City team and again becomes a manager in the league in which in the past he had led the Buffalo, Newark and Syracuse teams. Last season Patay did some scouting for a major league club.

Roger Brennahan of Toledo announced on Thursday that Bill Clymer would not be his field leader in 1921, but there will be a native player in addition as team captain. Previously a story had been printed that Brennahan had negotiated with the Boston Braves for catcher Arthur Wilson with the intention of making him manager of the Toledo team.

Bill Donovan, as new manager of the Phillies, associated with Hugh Jennings, assistant manager of the Giants. Baseball men assembled were told a loss whether in congratulatory Donovan or console him as the leader of the hapless Phils.

President Harry Frazee of the Boston Red Sox said on Thursday that he had come to terms with Jimmy Burke by which the former manager of the St. Louis Browns would act as assistant manager to Frazee. The deal, it was said, was a denial of this statement, so that no one knew what to believe.

President Grant of the Boston Braves told Pitcher Dick Rudolph he could negotiate with any club for his services. The Boston club hopes Rudolph can place himself, if not he will get his unconditional release.

John Heydler already had one year of office to serve and the additional three years given him means four years in his new contract at increased salary. Heydler was warmly endorsed for the manner in which he had handled National league affairs the past season.

Talk of a 164-game schedule heard earlier was still when the magnates got down to the business of making plans for the 1921 program. They sensibly concluded that 164 games are enough.

On account of the high cost of living the National league umpires were asked a sum of money to reimburse them for extra expenses incurred in their travels last season.

Taking it by and large Herzog seems to have been whitewashed but he has no job.

Give Bill Donovan a lot of good

There's some talk of creating a ball league with some eastern Washington northern Idaho and Montana towns comprising the circuit. Spokane has withdrawn from the Pacific International league to get a berth in the new league.

DEVICE REVEALS ENORMOUS SIZE OF REMOTE ORB

University of Chicago Scientist Tells Physicists Session of Measuring Star 27,000,000 Times Larger Than Sun

CHICAGO, (AP)—Results of the first successful experiments on an astronomical device at the Mt. Wilson, Cal., observatory revealing that certain remote stars in the universe are many thousand times larger in size than astronomers had ever surmised, was discussed today by Professor A. A. Michelson, chief scientist at the University of Chicago, who perfected the device, before the American Physical society, meeting here in connection with the American Association for the Advancement of Science.

Under the direction of Professor Michelson, astronomical experts have just computed the diameter of Alpha Orionis, one of the stars in the constellation of Orion. The orb is found to be three billion miles in diameter, approximately 300 times the sun's diameter. Its volume is 27,000,000 times as great as the sun being almost a million times as large as the earth, this planet seems most insignificant in comparison with Alpha Orionis.

Professor Michelson was awarded the Nobel prize in physics 14 years ago. His device used in calculating the diameter of Alpha Orionis is briefly described as follows: The mirror of an eight-foot reflecting telescope is obscured by an opaque cap with two slits adjustable in width and distance apart. When the instrument is focused on a star, there appears a series of interference bands arranged to equal distances apart and parallel to the two slits. When the slits are properly adjusted a distance is finally attained between them at which the fringes disappear.

HEAD OF LEGION TALKS ON BONUS

National Commander Calls Houston's Statement "Out-of-Fish Skirmish"

WASHINGTON, D. C. (AP)—Testimony of Secretary Houston of the treasury, before the senate finance commission of soldier bonus bill at \$2,000,000,000 was characterized by F. W. Galbraith, national commander of the American Legion, in a statement last night as "a cattle fish skirmish to muddy the waters so that the principle involved can be clouded in a lot of figures that no one can understand."

Prisoner Robbed by Companions in Jail

STUBENVILLE, O., (AP)—The recent editorial in the Sing Sing prison of how many in which residents of the stone-walled city are pressed job at being beyond the grasp of present day hold rollers, was proven a red herring today. County jail officials reported that Lawrence Shields, a prisoner, had been robbed by three negro prisoners.

NO PLAN OF ACTION REACHED BY CALIFORNIA DELEGATION

WASHINGTON, (AP)—The California delegation to the Japanese cabinet executive session to discuss the Japanese land legislation recently adopted in their state, but they adjourned without formulating a definite course of action. Members said they were awaiting further information from the state department, which is discussing the California law with the Japanese ambassador and from California officials.

CUBS SIGN ROOKIE

CHICAGO, (AP)—As a reward for making Grover Alexander, pitcher, of the Chicago Nationals, work 12 innings before he won his game, James D. Kenney today was signed to a Cub contract. The game was played in Francoville where in the United States army, and Alexander's team was victorious, 1 to 0. Upon his return to the United States, Alexander recommended Kenney, who is a right-hander, bats right and averages 20 miles tall. He pitched semi-professional ball around Chicago.

Electricity to Restore Youth

No little interest is being taken in the electrical instruments for the use of dentists and surgeons, and in this connection it is permissible to refer to the worldwide curiosity which is felt relative to the claim made by Dr. Eugen Steinbach of the University of Vienna that he can restore youth to the aged by the X-ray. The full merits of this treatment are yet to be determined, as is the efficiency of the patent taken out by young Edward M. Hubbard of Seattle for process of generating electricity from the air by means of a dynamo weighing only forty pounds. Hubbard says his invention will revolutionize the uses of electricity in the home, office, etc., for by it every householder shall be able to make his own heat for cooking and have heating and what is dependent on nothing but air for his supplies.

Girls Studying Economics

According to statistics compiled by the bureau of education, there are now 10,000 American girls pursuing the study of home economics in schools and colleges, and these students will ultimately bring within the scope of their influence as teachers approximately 1,000,000 pupils, as home economics education begins in the fifth grade in the more progressive cities. It includes food and nutrition, textiles and clothing, home construction and furnishing, household management and sanitation, child care and training, household administration, and financial management.

D'ANNUNZIO SURMISES

(Continued from Page One) capitulated numerous anti-Wilson outbreaks in which D'Annunzio took a leading part. Meanwhile, Orlando and Sonnino quit the Paris conference and returned to Rome where they were received with wild acclaim by the people. The Italian chamber of deputies adopted a vote of confidence in the Orlando ministry. Later, however, the two statesmen returned to Paris at the invitation of their colleagues and participated in the negotiations and the signing of the Austrian peace treaty.

Costa Orlando Ministry

Failure to reach a satisfactory solution of the Fiume embroglio, however was one of the principal causes of the downfall of the Orlando ministry in June, 1919, and in it was succeeded by moderate Nitti cabinet, whose selection disappointed the Italian nationalists and was the forerunner of the d'Annunzio coup d'etat the following September.

Fiume, at the time of entry of the d'Annunzio forces, was under the military control of General Pitaluga, of the Italian army. The general had led a strong detachment to the outskirts of the city to intercept the invaders who had armed automobiles and were armed with machine guns. D'Annunzio met him with the salutation: "I understand you would fire upon me, but I prefer to hear (bearing his breath) 'Fire upon me!' As this it was reported, Pitaluga embraced d'Annunzio and the soldiers on both sides set up the cry: "Viva d'Annunzio!" The d'Annunzio troops then entered the city.

Tragedy Plays Part

The 15 months that have elapsed since the post-warrior set himself up as "a dictator," have been filled with struggle as well as opera bouffe events. Clashes between the Italian and Jugo-Slavic were frequent. D'Annunzio proclaimed the annexation of Fiume to Italy even while that country was appealing to the allied powers to expel the city from him. By strikes and fires were numerous, and the United States cruiser Olympia and Pittsburgh were sent to the Adriatic to protect American interests. The Jugo-Slavic cut off d'Annunzio's supplies and Italian warships blockaded Fiume from the sea.

Leaves Question Unsettled

On January 1, 1920, when the supreme allied council disbanded in Paris the Adriatic question was still unsettled. Last March, Italy strengthened the blockade whereupon d'Annunzio proclaimed Fiume "a free and independent state." In announcing this to the allied powers he said the action did not mean Fiume's "renunciation" of Italy. He also summoned a constituent assembly to meet an order that precipitated the resignation of the Fiume national council and left d'Annunzio as chief of state, foreign minister and commander of the army.

D'Annunzio Is Defiant

Meanwhile, diplomatic efforts were in progress between Italy and Jugo-Slavia, to compose their differences. These led to the paucity between delegates representing both nations at Rapallo early in November, 1920, and a settlement of the long vexing Adriatic question on the following basis: 1.—The Italian frontier to be controlled by the Jugo-Slavia; 2.—Fiume to be independent, with its hinterland contiguous to Italy; 3.—Zara to be under Italian suzerainty; 4.—Islands of Cherso, Iussina and Unie to be granted to Italy. The treaty was signed by the envoys of both nations on November 10. It was later approved by the foreign relations committee of the Italian chamber of deputies. D'Annunzio was administered to accept its terms. He replied that to do so would be "suicide" for Italy. Jugo-Slavia thereupon appealed to Italy to oust d'Annunzio from Fiume and Italian regular troops then surrounded the city.

Mischiefous Magpie

A tame magpie was once observed to be gathering some pebbles in the garden, and solemnly dropping them in a deep hole which had been made to receive a post. As each stone dropped, the magpie gave a triumphant chuckle, and searched for another stone. Examination showed that a ton was at the bottom of the hole, which can only point to the fact that the bird was stooping for amusement.

Would Substitute Music for Booze

CHICAGO, (AP)—The demise of "jazz" and a renaissance of "good music" were predicted by delegates to the National Music Teachers' association, which opened its annual meeting here today. "Music," said Robert G. McCutchan, head of the fine arts school of De Paul university, "will give the country the emotional stimulus formerly taken by booze. A singing nation is a contented nation; music will drown out the insidious muttering of red agitators."

EVERY DOLLAR that is spent for advertising in a publication that misrepresents its circulation and thus obtains money under false pretenses is a dollar lost to the publishers who give full value. In self-defense, therefore, the "above board" publishers have an independent audit made of their circulation records by the Audit Bureau of Circulations and invite their competitors to do likewise. When excuses or evasions are given for declining the challenge, the advertiser can draw his own conclusions. There are many excuses for not belonging to the A. B. C. There is only one reason. The News is a member of the Audit Bureau of Circulations. There are no hidden mysteries about its circulation records.

TAX PAYMENTS GREATER THAN WERE EXPECTED

Fifty Per Cent of First Installment Collections Have Been Made

On the first installment collection county taxes paid will amount to approximately 50 per cent of the entire total assessed. This will amount to 15 per cent below the average for the first installment, according to Deputy Treasurer H. C. Parsons.

On an assessed property valuation of \$2,625,143.37, there are in Twin Falls county a total tax sum of \$1,634,313.28, including the assessments against personal and real property.

MESSIAH SINGERS ARE CALLED FOR PRACTICE

Decision Will Be Reached Tonight Whether Oratorio to Be Repeated

Deferring to the wishes of scores of people interested in better class music plans are being made for a repetition of the Messiah, given last Friday night by the Community Choral.

A cursory survey of the situation as applying to the proposed repetition of the Messiah, reveals a growing and deep-seated sentiment in favor of re-repeating of the great oratorio in a place where all who care to attend may do so in comfort.

This year's Messiah offering proved more successful musically than it did last year, when a number of notes grade of music were established for Twin Falls. The first offering was in the church of the Ascension, and the demand for seats was so great that the management decided to repeat to give the oratorio in a larger auditorium this year.

There are some questions of minor moment to be decided before the repetition can be considered, but there seems, at this time, according to Conductor Harry Barrett, no good reason to suppose that the scheme for the Presbyterian church, which could not be carried out and the Messiah rendition be made a still greater musical success than on last Friday night.

Princess Rober Bink will be open Monday and Friday from 10 to 12 a. m. for beginners. This is an excellent time to learn as we have competent instructors to give you every attention.

WELCOME GOLBY IN MONTEVIDEO

Great Crowds Throng Streets of Uruguayan Capital to Greet Secretary

MONTEVIDEO. (AP)—Great throngs lined the streets of this city late yesterday afternoon to welcome Bainbridge Golby, the American secretary of state. American residents of Montevideo declared it was the most enthusiastic greeting they had seen given any foreign visitor in many years.

The battleship Florida, on which Mr. Golby came to South America, was met at sea by the cruiser Uruguay, bearing the American minister and representatives of the Uruguayan army and navy. After salutes had been exchanged, Mr. Golby and his party were transferred to the cruiser, which brought them to this city.

The crack cavalry regiment of the Uruguayan army was drawn up at the pier, where Mr. Golby was greeted by Foreign Minister Buero. The drive to the palace, where the secretary was received by President Bruz, was one continuous ovation, there being an almost unbroken display of "The Star Spangled Banner", which was played by eight bands stationed at various points. Each band took up the American national hymn as the party drove by.
