

IDAHO HOUSE ADOPTS MEASURE FOR EXCLUSION OF JAPANESE

The present count showed \$4,753.11 in gold coin, \$45,790,572 in cash.

TUBERCULOSIS HOSPITAL FUND IS THREATENED

Chairman Snook of the House State Affairs Committee Says Necessity for Appropriations No Longer Exists

BOISE (Special to The News)—Further efforts at retrenchment will be urged by the committee on state affairs in the house this week when it asks for the repeal of the law enacted two years ago which established the tuberculosis hospitals.

Appropriations totaling approximately \$400,000 was made by the legislature in 1919 for two sanitariums. Later these hospitals were located at Bannock and Payette. Since have been purchased but actual construction work has been delayed.

The committee on state affairs in the house will recommend that these appropriations be turned back into the general fund and that the state which have been purchased be sold. John W. Snook, head of the committee, says there is no need at this time for the sanitariums.

According to Snook the legislature two years ago appropriated money for the sanitariums because it was believed that the treatment of soldiers who had been gassed. The action of the federal government in looking after the former service men makes such action unnecessary, he said.

The bill repealing the law carrying the appropriations will be introduced the latter part of the week. A companion bill will appropriate part or all of the money for additions to the state sanitarium at Orville and for the state insane asylum at Blackfoot. Using the money originally appropriated for the tuberculosis hospitals to defray the cost of new buildings at the asylums the state will have more money than it needed for new buildings at the state educational institutions, Snook explained Tuesday.

CASSIA COUNTY READY TO FIGHT FOR NORMAL

Friends of School Organize to Oppose School's Abolition Plan

BOISE, Jan. 27.—The delegation from Cassia county in the legislature is preparing to make a determined fight in behalf of the Albion state normal school. Leaders in both houses are endeavoring to abolish the school in the interest of economy, as they express it, but the friends of the school are already beginning to organize.

This organization work is expected to lead to an alliance between the Cassia county delegation and their friends and the members of the legislature from the northern counties who will seek to save the Lewiston state normal from being abolished two years hence. There are also a number of the members of the legislature who want the two-normal read tax continued in force and they may be grouped with the Cassia county delegation in at attempt to save the normal and to prevent the abolishment of the law which makes a continuing appropriation out of the read tax.

It is now generally agreed by leaders in both houses that the state highway department has spent more money than the people of the state realized and as a result large deficiencies have been created which must be paid either by a direct appropriation or out of the bonds issue of \$2,000,000 voted by the state last fall. Many of the members want to continue the road tax for at least another two years for the purpose of paying off the bonds and to do this they must trade with delegations which are endeavoring to save the institution. Leaders in both houses want the road tax and want it abolished.

COUNTY GUARANTEE BILL IS NEARING COMPLETION

Twin Falls Representative at Work on Irrigation District Measure

BOISE (Special to The News)—The committee on irrigation, reclamation and reclamation has not completed its bill giving the counties authority to guarantee bonds sold by irrigation districts but it will be ready for introduction within the course of a few days, Carl J. Miller, head of the committee, announced Tuesday.

This bill is an administration measure. It has the endorsement of the attorney general, the commissioner of reclamation and others at the capital. It is expected to allow a county to organize an irrigation district and sell bonds which will become a lien against all of the taxable property within the limits of the county.

The companion bill, introduced Tuesday provides for the creation of a commission which is charged with the task of stabilizing bonds issued by the irrigation districts. This commission is given power to investigate the financial condition of a district, determine the value of the water rights on the lands and to determine on the feasibility of a project.

Pretty French Bride Seeks Divorce in America

On the steamship Imperator, which arrived in New York recently, was an exceptionally pretty French girl who said she was here to seek a divorce.

She was listed on the passenger record as Mrs. Harriet Scott. Before her marriage in Paris she was Miss Julia de Coudé. She was rescued by a handsome American stationed at Paris with the army of occupation, and married him in the belief that he was a captain.

Three days after the marriage she discovered that he was an enlisted man, a mere sergeant. She promptly left him and now has journeyed all the way to America to have the marital knot untied. As she realizes she is an American citizen by virtue of her marriage to the soldier, she decided to come here to seek a divorce.

PREDICTS NEW RECORDS IN IMMIGRATION FLOW

Commissioner General Caminetti Gives Views to Senate Committee

WASHINGTON, (AP)—The flow of immigrants from Europe will break all previous records, before July 1 unless steps are taken to check it, Attorney General Caminetti, commissioner general of immigration, declared Wednesday before senate immigration committee.

"I hesitate to estimate what will be the rate of immigration when Germany, Austria and nearby states open up," he added.

Mr. Caminetti said it was certain that new steamship lines would be established to bring immigrants from foreign ports. He said he had been unable to get complete reports as to daily arrivals at Ellis Island since August, although the force of employees there exceeded by 200 the number employed at the peak of immigration in 1914.

Chairman Cull requested Mr. Caminetti to expedite preparations of data on arrivals at various American ports.

FORESTRY SCHOOL WILL OFFER A MAIL COURSE

Woodcraft Branch of University to Conduct Lessons by Correspondence

The school of forestry of the University of Idaho at Moscow offers a correspondence course in lumber and its uses. That the course is meeting a real need is attested by the large number of students that have registered for it since it was first announced about three years ago. Some 30 different states are represented in the enrollment.

The course is designed to be of special value to lumber dealers, lumber salesmen, contractors or builders, carpenters, manual training teachers, and others connected with the wood working industries. The fee is a nominal one and includes the text book and all reference material.

The course consists of 12 assignments covering such topics as the structure and physical properties of wood, lumber grading, structural timbers, seasoning and preservation of wood, lumber production and the selection and use of materials.

A prospectus will be sent on application to the School of Forestry, University of Idaho, Moscow, Idaho.

AERIAL FIRE PATROLS TO CENTER AT MATHER FIELD

Paths to All National Forests in Northwest to Radiate from Coast Station

SACRAMENTO, Cal., (AP)—Aerial paths to all national forests in California, Oregon, Washington, Montana, Idaho, Nevada and Utah will radiate from Mather Field here during the coming forest fire season, under plans being made at present.

Five aerial patrols will be on duty constantly during the fire season, with reserve aviators on call at Mather Field. It is a theory of the army that forest patrol work is excellent training for aviators and close co-operation between the war department and the department of agriculture, which controls the forests, has been decided upon. In all, five air squadrons and 1,000 men will form the complement of Mather Field under plans announced unofficially. The field, it is believed, soon will be the largest air service training station in the western department of the army.

A forest rangers' school, intended to bring better co-operation with the army, is being conducted at the field. To the same end, a meeting of forest supervisors of California, with representatives from several western states and from Washington, D. C., will be held January 30.

Improvements to care for the added personnel at the air field are expected to consist of twenty-four sets of permanent quarters for married officers.

Receives \$2,000 Monthly from Estate of Her Father

Jacqueline Lebundy, sixteen, who is to receive \$2,000 monthly from the estate of her father, Jacques Lebundy, who was slain by her mother, Mrs. Margaret Lebundy, Burbank, Cal., of Nassau county, ordered the administrators with her of the estate to pay the money. Mrs. Lebundy is to receive \$10,000 for extra expenses incurred in her daughter's support. Jacqueline's share of the estate is estimated at \$1,000,000.

The Thimble. It has been asserted that the Dutch were the first to make thimbles properly and popular. Perhaps this may be so, but there is the strongest evidence that thimbles of a kind have been discovered at Hieracium and that in many cases they were in constant use to the dim and distant ages when the world was very young.

DOMINOES TOO MUCH FOR FOCH

Marshall's Strategy with Miller and his Aid is Unavailing in Parlor Game

PARIS, (AP)—Marshall Foch, whose strategy confounded the Germans, suffered a crushing defeat the other day. President Millerand of France shared the blame, for they were partners.

It was not at all as dominoes. The American ambassador, Hugh O. Wallace, and former President Polk are triumphed over the great marshal and France's chief commander. The incident is related by a writer of the Old de Paris in the best of French journalistic style, substantially as follows:

"The president's train carrying high personages of France and other nations to Verdun to attend the dedication of the monument marking the Bayonet French had been under way for an hour and conversation had begun to lag."

"If we had a game of dominoes," exclaimed Marshall Foch.

All the box of dominoes of the Fochs had been forgotten; and there were no dominoes in the restaurant.

"We must get some for the return journey," declared M. Millerand, who carried this important mission to his son, Jean.

When, after the ceremony, they rejoined the train for the return journey, a strong gust of wind from the north spread out on the table of the saloon car. It had been borrowed from a colonel of the gendarmes.

Two dominoes were immediately found. The president had the marshal for partner. Their adversaries were M. Polk and Hugh O. Wallace. "Are you strong enough?" M. Polk asked the ambassador. "The president and the marshal are crack players,"

"We, too, I hope," replied Mr. Wallace.

"No," quoth M. Polk. "You certainly."

The first game began. It went in favor of M. Millerand and Marshall Foch. "I know it," sighed M. Polk.

"Let us see how we go in the second game," responded Mr. Wallace.

Two days later.

The second game commenced. It was a surprise. The Polk-Wallace side gained a sweeping victory over the Millerand-Foch side.

"Let us have a revenge," the marshal declared impetuously. "We cannot, Mr. President, allow ourselves such a defeat."

The revenge was palpating, but in the end the game which for a long time swayed in the balance, pronounced itself in favor of M. Polk and Wallace.

"Well, Mr. Marshall, you are best," M. Millerand said.

"It seems to me, Mr. President, that you are, too," rejoined the marshal.

"But what advantage?" M. Polk asked. "The president and the marshal play very well and the ambassador is a champion player."

EUGENIE LEAVES JEWEL TO CARNAVALET MUSEUM

Executors of Will of Former Empress First Token of Appreciation for the Paris Institution

PARIS, (AP)—The executors of the will of the late Empress Eugenie upon opening the document found in it a small sealed package marked "For the Carnavalet Museum," and containing a magnificent jewel representing the arms of the city of Paris.

When the Empress Eugenie visited Paris in 1893 she spent an afternoon in the museum and was so touched by the affectionate and cordial welcome she received that she promised that she would bequeath the jewel to the city.

This museum is largely a memorial rather than a national collection. Eugenie desired in this way to express her affection for the city of Paris.

Millionaire's Wife Who Is Strangely Missing

Mrs. Ella B. Berenson, wife of Richard Berenson, millionaire manufacturer of Mount Vernon, N. Y., who mysteriously disappeared from her home, Mrs. Berenson was suffering from a nervous breakdown and returned to her home from a sanitarium in Connecticut. Berenson said his wife retired at 9 o'clock. Before retiring he went to his wife's room and found she had disappeared. Her clothing and handbag were missing.

MULLER URGED ON PROPAGANDA AS TO HORNSBY

Big Money Offers Branded as Simon-Pure Buncombe by Expert in Ball Matters

By FRANK G. MENKE

It is almost time that a halt was called on those within the National league who are attempting to bunk the public into believing that Rogers Hornsby is the most valuable man in baseball history.

Time has come for Branch Rickey, manager of the Cardinals, to shut up concerning those fabulous offers for the Cardinal infielder or produce the proof that they are bona fide.

If those \$200,000 and \$300,000 "offers" for Hornsby aren't fanciful ruminations, why doesn't Rickey tell us where they are being kept?

It is that although Rickey constantly insists that the offers really were made, that no club assumes credit for these offers.

Facts conversant with baseball know that magnates are too keen about publicity for themselves to want anyone to keep a secret record of offers which they have made for a ball player. Never in the past has any magnate made a huge offer for a ball player without the public being made aware of it.

It is time for Rickey to apply the mauler as regards the "offers" and "four players" offer for Hornsby—produce the documents.

As various columns to fight, the best guess is that the \$200,000 and \$300,000 "offers" for Hornsby are merely a bit of propaganda within the National league to make it appear that Hornsby is worth more than "other" players.

Both and that the National league the most valuable athlete, the home run king, brought approximately \$135,000 when purchased by the Yankees, and now the National proposition is attempting to make it appear a piker when in comparison with the valuation of Hornsby.

Right here and now the public should be disillusioned as to the superlative creation of the National league. The fact that Hornsby hit 270 in 1920 there is nothing remarkable about him. His best previous mark was 257. He has been in the big leagues for six years and his grand batting average is .309—a joke mark for a professional player.

Twenty-nine millionaires, 201 times, Hornsby has stolen only 71 times—a record so miserable that some of the "diamonds of the diamond" of the National league.

No one has sprayed much Sam Rice's publicity into the landscape, yet Sam Rice, of the Senators, is figures not used as a basis, is an infinitely more valuable player than Hornsby. While the "mighty" Hornsby was stealing 100 in 1920, the other outstanding player, Rice, stole 62. While the "mighty" Hornsby has been amassing a batting average of .309 since his big league debut, the cleverer and subtler player, Rice, has posted "out" for a mark of .320.

Rogers Has Rivals

Rice is taken as only one instance. There are numerous others in the American league of players who, having played approximately the same length of time as Hornsby, have over-mastered him in every way in brilliant performance over the seven years of Hornsby's career.

Hornsby, good player though he is, pales into insignificance with George Rube. The latter joined the Browns the same year that Hornsby became a Cardinal. Rube, upon the record of the

life passes for winners.

SEATTLE, Wash., (AP)—Life passes for all athletic affairs left in the new University of Washington stadium, here are to be given by the university to all winners of "W" blankets. To win a blanket, an athlete must win three letters in one sport or one letter in three sports.

Turf Sport Coming Back?

LAS ANGELES, Cal., (AP)—Horse racing is far from dead, according to Ted Stoen, famous jockey, who is in Los Angeles occasionally appearing in the motion pictures. Stoen said recently that he expected to see the sport come back some day.

Social Notes

Edited by Mrs. E. R. Williams
Telephone 336

Mrs. J. Paul Johnston was hostess to the M. C. B. club Wednesday afternoon at her home on Ninth avenue east. Nine members were in attendance and Mrs. W. A. Fairchild was the guest. The afternoon was spent with bridge and Mrs. John Costello won the prize.

Mrs. F. H. Cox entertained the Harmony club Wednesday afternoon. The prize for high score in the bridge games was won by Mrs. H. W. Sawyer. Club members present were Mesdames M. G. Putnam, A. W. Hosted, M. O. Sawyer, H. W. Sawyer, E. R. Van Cotte, H. P. Barker, M. E. Howe and J. A. Campbell. Mrs. Ed Adams and J. Charles Nelson were guests. At the close of the afternoon delicious refreshments were served.

Mrs. Erhardt Herbst entertained a tea on Thursday afternoon at her home on South Main. The guests were Mesdames Richard Bakke, Bert Marsh, Frank Sweet, Elsie Rambo, Nelson Hayward and Miss Hazel Melcher.

Mrs. A. L. Skinner assisted by Mrs. Ella Stiffler and Mrs. Kathryn Ross entertained a tea at the home of the R. N. A. club on Wednesday afternoon. There were 30 members and 10 visitors present. The afternoon was spent in fancy work, music and social conversation, after which delicious refreshments were served. The next meeting is to be held at the home of Mrs. Laila Kunkle, February 3.

Last Thursday afternoon, the ladies of the Highland Vauxhall club met at the home of Mrs. Leonard and formed a club to be known as the Highland Vauxhall club. The following officers were elected: President, Edith A. G. Leonard; secretary, Mrs. A. G. Leonard; treasurer, Mrs. A. E. Henderson. Mrs. Leonard was over a light house was present.

Mrs. R. H. Spafford entertained the Wednesday Bridge club yesterday afternoon. Twelve members were present and Mrs. V. H. O'Grady won the prize for highest score.

The day session of the M. B. and S. club at the home of Mrs. and Mrs. Charles Eldred was one of the pleasant events of the season. The house was decorated in festoons of green and white, the club colors and the hostess was assisted by Mesdames E. Cory, Hall and Charles Jones. After dinner the following program was rendered, and a toast to "The Star Spangled Banner" and a toast to "The Club" by Mrs. G. W. Origen; toast, "The Helpless" by Will Origen; toast, "The Twin" by Mrs. A. J. Regan; piano solo by Velma Parish; a toast, "Our Children," by Mrs. Cory; a toast, "To the Program" by Mrs. A. J. Regan. The program was concluded with an old fashioned singing match. Fifty members and ten visitors were present.

Local Brevities

Strays in Salt Lake—501 Strays in Salt Lake City for a few days looking after business interests.

Licensed to Wed—A marriage license was this morning issued to Ed Hudson aged 21 and Geraldine Mifflin, 18, both of Coatsville.

Returns from South—Mrs. J. B. Steele returned Tuesday from a month's visit with her mother and sister at Little Rock, Ark.

To Install Officers—The neighbors of Woodcraft will meet Friday evening in the I. O. O. F. hall at 8 o'clock. There will be installation of officers and refreshments will be served.

Spargue Going to Coast—Former Sheriff and Mrs. A. N. Spargue expect to leave tomorrow for points in California, where they will spend the remaining weeks of the winter.

Church Social—The congregation of the Presbyterian church will hold a social in the church parlors Friday evening at 8:00. A surprise program, featuring the various organizations of the church, will be given.

SCHOOL LAD CALLED UP—John Houghlin, a high school student and son of A. L. Houghlin, appeared in the police court this morning in answer to a summons. Ray B. Brown, motorcycle policeman, was the complaining witness. He charged defendant with driving an automobile without a valid license and along Ninth avenue east. Judgment is withheld until the young man's father can be contacted. Mr. Houghlin is at present in an eastern state on a visit.

WARRANT ISSUED—A warrant has been issued for the arrest of P. D. Burnham, who is accused by juvenile authorities of taking a worthless check for \$5 in favor of the Big White store. The check was made January 21. It is stated, and was drawn on the First National bank.

NYH GETS JUDGMENT—A district court jury, impaneled to hear the case of J. N. Y. against the estate of J. N. Y., returned a verdict in favor of the plaintiff. The latter asked judgment for \$150 on wage account. The award was \$155.

Get the habit—Popcorn Crispettes, adv.

January Sale Ends Saturday

Just a Few Days Left!

We are one of the few stores who take their inventory January 31st instead of December 31st. This gives us an opportunity to put on a January Sale and reduce our stocks to a minimum before inventory. Our January Sale is an institution and every year has been so successful that our good friends wait for it. They know that we give exceptional values and that everything in the store is cheaper. Not just a few sale items, but everything. There are just three more days in which to restock your needs at prices that we are sincere in telling you are Rock Bottom.

Wright's
A GOOD PLACE TO TRADE

will be cursed, but blessing shall be upon
the head of him that sells it.—Pro-
verbs 11: 24.

IGNORING THE PUBLIC

While representatives of organized
labor and organizations of manufac-
turers in the United States show a re-
luctance to take the aggressive in the
conflict over the "open shop," the
"closed shop," it is the feeling of the
text between these two points is
about to be made. The United States
Chamber of Commerce took occasion
recently to declare its hostility to the
"closed shop" plan of organized labor.
The National Association of Manufac-
turers has followed with a declaration
for the "open shop."

Representatives of organized labor
have called a meeting in Washington
for February 23, and labor leaders de-
clare unequivocally that the principal
purpose of this conference is to make
plans to oppose any intention upon the
part of manufacturers to bring about
the rule of the "open shop" in in-
dustry. Labor leaders assert that in-
dustrial plants have been closed down
for the purpose of bringing about a re-
duction in wages, with the ultimate
purpose of creating labor organiza-
tions. Manufacturers take the position
that the "open shop"—freedom to
work whether or not a member of a
labor organization—is the only Ameri-
can way.

The general public can hardly have
any prejudice in the contest, for its
interests depend on the smooth op-
eration of the relations between capital
and labor. It does desire, however,
that the fullest possible justice be done
to all interests involved in industry,
and in the "third party" in labor and
other disputes affecting industry it
has rights that should have considera-
tion.

A PARTY ADMINISTRATION

As a matter of pure sportsmanship,
if nothing else, the public will hope
that President-elect Harding will carry
out his declaration, repeated just be-
fore leaving for his visit in Florida,
that he intends to give the country a
strictly "party government."

With a plurality of more than five
million votes, Mr. Harding has every
justification for concluding that he
has been given authority by the peo-
ple to "go the limit" in carrying out
the policies of the republican party as
enunciated in the Chicago platform
and proclaimed by leaders in the cam-
paign.

There is no good reason why Mr.
Harding should feel called upon to
select for his cabinet or any other im-
portant position in the government an
man whose Republicanism has been
found in the political fires and found
to stand the test of partisan heat. No
half-and-half statesman would even
have any claims on the incoming ad-
ministration.

It is reasonably certain that the
great plurality given to Mr. Harding
was his because the public felt that
the administration he would inaugu-
rate would be something different from
the present one, and it is also just
reasonably certain that the people
would not be satisfied with any com-
promise with the ideas of Democrats
or so-called progressives.

TO CURB GRAIN GAMBLING

The reputation of Herbert Hoover as
a "grainful man" is in danger of
becoming impaired if he insists on the
adoption of his suggestion for curbing
the "evil" of speculation in grain and
other food products on the curb mar-
kets and exchanges. Mr. Hoover, ap-
pearing before the house agricultural
committee, expressed the opinion that

the bad effects of speculating in grain
futures would be largely overcome, if
not eliminated, by "limiting the quan-
tity of the commodity which could be
used in speculative trade."

At the man on the outside might in-
terpret his plan, give the grain gam-
blers enough of the commodity to keep
them interested in the game, but not
enough to work any injury to the pro-
ducers or the consumers—just like lim-
iting the allotment of candy for the
small son of the family so his digestion
will not be impaired.

The country got along very well dur-
ing the war without the exchanges
whose principal business is gambling
in grain futures—running the price of
wheat and other grain up and down,
just like a small boy playing with a
monkey on a stick—the public playing
the part of the monkey. Is it reason-
able to suppose that speculation in grain
is necessary?

When it comes to curtailing the in-
terest of the American people in giving
assistance to the millions of needy
in Europe, Mr. Hoover is a decided
skeptic, but his prescription for curing
the ills of grain gambling should be
given at least the trial—before it is
taken seriously.

RED CROSS IN
CHINA ACTIVE

Relief Organization in Shang-
hai Distributes Moch-
Hospital Equipment

SHANGHAI, (AP)—The Shanghai
branch of the American Red Cross com-
pleted its December distribution of
something over \$500,000 worth of medi-
cal and hospital supplies to mission
dispensaries and hospitals in all parts
of China. The materials given in Si-
beria were those left behind in Si-
beria when the American Red Cross
was withdrawn, consisting of 2000
cases of goods, about a shipload, that
were transported from Vladivostok to
Tientsin in the summer months.
In order that a last might be ar-
rived at for a systematic analysis of
the requirements of hospitals in China
and so that the distribution might be
equitable, questionnaires were sent out
by the Shanghai Red Cross and based
on returns from them a chart was pre-
pared which gives a history and de-
scription of the distribution.

In all, 400 shipments went forward
to various parts of the country, to 200
hospitals and institutions that received
them. 232 were non-American and 118
were American. The distribution was
made regardless of nationality or creed
and hundreds of letters the Shanghai
Red Cross has received, attesting the
useful work of the things given, particu-
larly at this time when owing to the
disruption of exchange and other cause,
working budgets of hospitals have been
seriously impaired.

Among the supplies shipped were five
complete sets of surgical instru-
ments, the majority of which were not
to be obtained in China markets, and
other things sent included various kinds
of cotton and bandages, surgical dress-
ings, blankets, garments, sterilizers,
microscopes and drugs. All expenses
and charges for forwarding the sup-
plies were borne by the China central
committee of the Red Cross.

NEW LIVESTOCK BREEDS
ESTABLISHED IN WEST

Sheep Adapted to Range and a Utility
Horse Being Developed by the
Department

The United States Department of
Agriculture is developing types of live-
stock believed to be more useful than
those now represented by present breeds,
says a report just issued by the Bureau
of Animal Industry.

"Range sheep breeding conducted in
Clark county, Idaho, is resulting in a
type which has become so fixed as to
warrant its classification as a breed.
These sheep, known as Columbia sheep,
are particularly adapted to range condi-
tions and are believed to be profitable
both for mutton and for wool produc-
tion."

"A new type of American utility
horse is rapidly being established in co-
operation with the state at Buffalo,
Wyo. Characteristics of the type—pos-
sibly entitled to the term 'breed'—are
activity, endurance, strength, and rea-
sonable calmness. The horses are believed
to meet a demand for general farm and
ranch work, delivery purposes, and for
certain classes of military service."

"Poultry breeding at the Bureau
farm, Beltsville, Md., shows progress in
the establishment of a new breed of
American chickens, characterized by a
white plumage and yellow legs and skin,
are now well fixed, but there is still
considerable variation in the type and
it is in need of eggs. The birds developed
this year show improvement over those
of a year ago."

Waste Time on Trifles:
J. B. Davis, a friend of a most estimable
man, who is so conscientious about doing
little things to a complete finish that
he never allows himself to neglect details
of the most trifling nature. The result is that, although he is
a strenuous worker, his energies are
so exhausted on trifles that he has very
little strength or time for im-
portant things that need his attention.

GERMANS GIVE
UP PROPERTY
OF AMERICANS

Final Settlement with Owners
is Held Up Pending Ratifica-
tion of Peace Pact by United
States Government

BERLIN, (AP)—American property in
Germany which was taken under con-
trol by the German custodian of enemy
property after the United States en-
tered the war, has been unconditionally
released, said Dr. Hans von Helldorf,
under-secretary for foreign af-
fairs, today. Final settlement with the
American owners, however, has
been impossible, owing to the pro-
vision of the Versailles treaty which stipu-
lated that such settlements should be
made through an international clearing
house, he added, and this operation
cannot be carried out until the United
States ratifies the treaty or a new pact
is negotiated.

Factory Staffs Remain.
In cases where American factories
were placed under German control, the
under-secretary said, their staffs were
permitted to remain. Out of 186 of
such factories and corporations taken
over by the custodian, Germany re-
ceived only 20,000,000 marks out of
their administration. The fund has been in-
structed to provide Americans with
funds for their maintenance, pending
ultimate settlement.

The under-secretary cited the case
of the International Harvester com-
pany, the vice president of which, he
said, had recently thanked the German
foreign office personally for the "effi-
cient and generous manner in which
the custodian had protected the com-
pany's German interests during the war,"
as an example of the care with
which American property was safe-
guarded.

Forced by England.
Dr. Hans von Helldorf said that the
German government was hampered at
the release of private enemy property
at the beginning of the war, but that
England's procedure had forced her to
adopt such measures. When the
United States entered the war and pro-
ceeded against German property there,
Germany advised Washington she
would apply the same measures to
American property in Germany. The
under-secretary declared the
had "repeatedly" opposed demands
from the German military command
that American property in Germany
be subjected to the same treatment as
was given that of other belligerents.

American Patents Safe.
"American patents and licenses were
neither sold nor transferred," he said,
and there was no forced liquidation
of American holdings. Where there
were temporary transfers, they occurred
only with a view to protecting
American holdings, which he trans-
ferred back to American control as
soon as he was able. He added that there
were only a few instances of such tem-
porary transfers. No stocks nor bonds
were put up for forced sale, but were
temporarily listed for the purpose of con-
trol and were permitted to remain in
German hands.

CHICAGO MAIL BANDIT
SUSPECT IS CAPTURED

Apprehension of James Schump Follows
Spectacular Escape in Running Gun
Battle Over Roofs

CHICAGO, (AP)—James Schump, a
bandit, was captured today after a
series of being the leader of a new crew
and for holding up postal employees and
stealing 12 bags of valuable registered
mail they were unloading from a truck
at the Union station January 18. His
capture followed a spectacular escape
last Friday night when he eluded the
police after a running gun battle over
roofs and down fire escape.

Two pistols and 36 cartridges were
taken from Schump's pockets, the police
say.

SALTS FINE FOR
ACHING KIDNEYS

We Eat Too Much Meat which Clogs
Kidneys, then the Back Hurts

Most folks forget that the kidneys,
like the bowels, get sluggish and clog-
ged and need a flushing operation. If
we have backache and dull misery
in the kidney region, overacidity, rheu-
matic twinges, torpid liver, acid
stomach, sleeplessness and all sorts of
bladder disorders.

You simply must keep your kidneys
active and clean, and the moment you
feel an ache or pain in the kidney re-
gion, get about four ounces of Jad
Salt from any good drug store here,
take a tablespoonful in a glass of water
before breakfast for a few days and
your kidneys will then act fine. This
famous salt is made from the acid of
grapes and lemon juice, combined with
sodium and is harmless to flush clogged
kidneys and stimulate them to normal
activity. It also neutralizes the acids
in the urine so no longer irritates,
thus ending bladder disorders.

Jad Salt is harmless; inexpensive;
makes a delightful effervescent lithia-
water drink which everybody should
take now and then to keep the kid-
neys clean, thus avoiding serious com-
plications.

A well-known local druggist says he
sells lots of Jad Salt to folks who be-
lieve in overcoming kidney trouble
while it is only trouble.

TRUTH-IN-FABRIC BILL
IS URGED UPON TAILORS

National Sheep and Wool Bu-
reau Secretary Addresses
Chicago Meeting

CHICAGO, (AP)—Continued support
of the Freach-Capper Truth-in-Fabric
bill now before congress was urged
upon the merchants tailors of America
at the annual convention of their na-
tional association today by Howard E.
Greene, secretary of the National Sheep
and Wool Bureau of America.

It took the throes of a world war
to awaken the general public even
partially to the realization that some-
thing was wrong with the wool cloth-
ing situation. Mr. Greene declared, and
even now the public does not fully
understand what is wrong.

"The 313,000,000 pounds of secured
wool actually manufactured in 1919,
if exclusively devoted to wool wear-
ing cloth, would not have made half
of the 620,000,000 yards turned out by
our mills," declared Mr. Greene.

"It is estimated that the cotton used
in wool woven goods amounts to one-
fifth of the amount of secured vir-
gin wool used. The workers in the
Textile Fabric movement feel that
400,000,000 pounds would be a very
light estimate of the amount of re-
worked rags or shoddy materials that
fill 'all wool' cloth by American tex-
tile mills in 1919.

"What the customer wants is the
assurance that, no matter what grade
he buys, he can depend on the label
to reveal the contents, and knowing
that he is reasonably safe in depend-
ing on his judgment and the price
marks to point out the various
grades."

SEAMEN'S UNION CALLS
FOR CAKES AND PUDDING

"Salt Horse" is Not Listed in Food
Specified in Demand for Food
Cattle Bill of Fare.

SYDNEY, Australia, (AP)—The
changes which have taken place in the
demands of seamen as compared to the
times when "salt horse" was the chief
food in the forecabin are shown by a
new set of requests for food from the
Federated Seamen's Union. They
ask that their menu should include
canned fruits, condensed milk, Worcester-
shire sauce, corned beef, ham, veal,
beef, mutton, veal, assorted sal-
ads, cakes, plum pudding and cran-
berry sauce, custards, and jellies. "Salt horse"
was not on the list. Examined uten-
sils and clean tablecloths three times
a week are insisted upon.

DIRECT ACTION BEFORE
BRITISH LABOR SESSION

Railwaymen's Secretary Says Decision
on Attitude Toward Question is
Possibility

LONDON, (AP)—The question of di-
rect action by British labor in connec-

tion with the unemployment situation
was brought to the fore today at the
national conference of the labor party
and the Trade Union congress here.
J. H. Thomas, secretary of the Na-
tional Union of Railwaymen, said that
if the government failed to accept the
proposals of labor the question of di-
rect action would be discussed, and a
decision regarding it reached on Feb-
ruary 23.

The Big Country Merchant

It is service to the rural community that makes
the big country merchant big. That's what
A. B. Macdonald discovered when he began
writing the stories of their success for

The COUNTRY
GENTLEMAN

He found that the rural merchant prospers as
he helps his neighborhood and county to prosper;
that his custom will grow as his ability to
render prompt, efficient, thorough and fairly-
priced service increases.

In next week's issue Mr. Mac-
donald tells of how the COUNTRY GENTLEMAN
should take care of his business, how he
should deal with his customers, how he
should serve, established, as well as
individuals, "out of the rut."
Clarence Budington Kelland, in the
same issue, tells of a village general store that
thrived in a hard time by its
competition by making itself a
factor in the lives of its
patrons.

It saves you time, worry and money

Studebaker

THE NEW LIGHT-SIX

ORIGINAL COST

In making your original investment in this car, you receive the benefit of the
manufacturing savings estimated at 20% to 25%, made possible by com-
plete manufacture in the new modern \$20,000,000 Studebaker plants at
South Bend, Indiana, because—

- the price includes but one manufacturing profit on castings, forgings, stampings, motor, axles, transmission, frame, body, top, etc.
- the amount of overhead expenses included in the price is very small.
- excess weight is eliminated without sacrifice of durability or quality. The shipping weight of the car, 2500 pounds, is distributed equally over the four wheels.

OPERATING SAVINGS

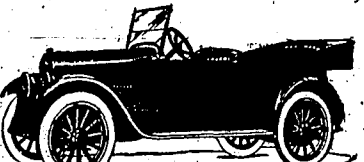

In operating this car, you receive the benefit of the economic advantages
arising from its superb design, skillful manufacture, excess safety factors,
and high quality, because—

- it will go from 12 to 15-thousand miles on the standard 32 x 4 cord tires.
- it will go from 18 to 22 miles on a gallon of gasoline.
- it will render from 8 to 10 years of satisfactory service.
