

GREAT PROGRAM IS CONSIDERED FOR WEST ROADS

Idaho with Other Regional States, Included in Fast Improvement Schedule

From Chicago comes word of a vast program of highway development in western states, particularly those on the Pacific coast, will be one of the subjects to be thoroughly discussed at the big American Road & Builders Congress and National Good Roads show to be held at the Coliseum in that city, February 10 to 12 next under the auspices of the American Road & Builders Congress, the organization of government, state, county and city highway officials, engineers, builders and manufacturers of road-building machinery and materials.

Gen. State Included. Western states, particularly Nevada, Wyoming, Idaho, Utah, Montana, California, Washington and Oregon, are fast coming to the front in road development. In California, Oregon, Nevada, Utah, Idaho, Montana, Washington and Oregon, enabling state, county and city bonds and direct relief providing for federal expenditure for good roads amounting to \$114,800,000, has been authorized. This is nearly three times the amount set aside by the states for the past year. The board for highway improvement in 1921 and 1922, and it paves the way for a vast amount of road work during the coming spring and summer which will afford some relief in the west for the condition of unemployment in the Pacific coast centers. And Idaho. The American Road Builders' association the oldest and largest organization of its kind here in the country. The movement in the United States and Canada has long been urging upon the legislatures of the western states, more extensive legislation in the interest of better highways. In this respect the association has had the moral support to no little extent of the ranchmen, manufacturers and shipping interests, in that section who are interested in improving marketing conditions and who are desiring better highways as railroads frown.

Genius figures show that western states, with the exception of California, will recently have been lagging behind somewhat in highway development. The backward states in particular have been those of Nevada, with only five per cent of one cent of her roads surfaced and improved, and Montana, with only four-tenths of one per cent.

Executive Called. The governors of California, Nevada, Montana, Idaho, Utah, Wyoming, Oregon and Washington, as well as those of other states and the mayors of large cities as well as the governor of Illinois and the Mayor of Chicago, respectively, will attend official sessions at the conference. The meeting will bring together from every part of the country, the practical and scientific mind, the highway construction and maintenance—the men who will be responsible for the expenditure of the vast sums available for highway work. There they will discuss from every angle the many problems connected with the construction, administration, financing and maintenance of national, state, county and city highways. The exposition of labor-saving road-building and highway construction machinery and paving materials will occupy more than 40,000 square feet of space on the ground floor at the Coliseum and from the number of exhibits already entered, the show this year promises to surpass by far in the number and variety of exhibits the big expositions held by the association in former years at Pittsburgh, St. Louis, Boston, Cincinnati, Louisville and Indianapolis.

BRITISH EDITOR CALLS INDEMNITY PLAN FOLLY

Manchester Guardian Believes Germany Able to Pay Reparations Only by Exported Goods

LONDON. (AP)—Allied reparations terms decided upon by the supreme council in Paris last week were described as "folly" by the Manchester Guardian today. The newspaper said, "We may be thankful the terms can never be executed."

In the opinion of this journal, Germany will be able to pay indemnities only by exported goods.

If the exported every year an additional 200,000,000 worth of goods to France, England and Belgium, the newspaper said, "the output of the country would be heart-rending. It is already unbearable."

WASHINGTON LUMBER MILLS REDUCE LABORER'S WAGE HOQUIAM, Wash., (AP)—The wage scale board for the lumber mills in this district reduced wages of common labor from \$4 to \$3.60 a day, it was announced Saturday. The prices of board in company camps was cut from \$1.60 to \$1.30 a day.

Triple Elopement Comes to Light in New Jersey Family

ATLANTIC CITY, N. J., (AP)—A triple elopement, involving three members of one household, none of whom knew of the other's intentions, was disclosed Saturday with the announcement that William M. Chase, retired New York manufacturer, and his daughters, Edith and Evelyn, had married the same man, five mates within twenty-four hours.

Miss Edith Chase started the matrimonial race yesterday by slipping away from home, ostensibly for a shopping trip. She married Robert R. Crafts. Mr. Chase's sister left home married Mrs. Elizabeth Oberholtz. On returning home they were greeted by Mr. Chase's other daughter, Evelyn, who had been on the bride the day before at Greenwich, Conn., of Donald Riddle, eldest son of former Mayor Wm. Riddle.

INVENTOR OF UNDERSEA BOAT DETECTOR HONORED

Converted Perkin Gold Medal in Conferred Upon Dr. W. R. Whitney of Schenectady

NEW YORK, (AP)—Dr. Willis R. Whitney, of Schenectady, N. Y., inventor of a detector for giving warning of submarine approach, has been awarded the Perkin gold medal, one of the highest honors in science, in recognition of this many inventions through which he had applied chemistry to the service of mankind.

The medal is given for the highest achievements in applied science and is named for Sir William Perkin, a distinguished chemist and discoverer of the first processes for the manufacture of aniline dyes from coal tar.

The submarine detector, which was put into practical application during the European war at the Nahant station of the United States, is probably Mr. Whitney's best known invention. As a member of the naval consulting board he also did much for the development of radio telephony and radiotelegraphy while the contact with Germany was in progress. He is now director of the research laboratory of the General Electric company at Schenectady, N. Y.

McADOO'S MISSION IN MEXICO NOT POLITICAL

Will Take Part in Negotiations for Return of Railroad to Owners, Government Official Says

MEXICO CITY, (AP)—William G. McAdoo, former secretary of the United States treasury, was not coming to Mexico on a mission of political character, a high official of foreign relations department said last night. He stated further that Mr. McAdoo was a representative of the American stockholders of the National Railway company and would take part in the negotiations with the Mexican government regarding the return of the National lines to its owners.

SENATE VOTES TO CONFIRM ARMY OFFICERS NOMINATIONS

WASHINGTON, (AP)—The senate last Saturday confirmed the nominations of 5,000 junior officers of the army. The confirmations were the first of the present session and were made in open session by unanimous consent.

The nominations were presented by Senator Underwood of New York, chairman of the military affairs committee. A majority of the officers affected found their commissions on the battlefield of France.

ROCK ISLAND RAILROAD CUTS WAGES 20 PER CENT

DES MOINES, Ia., (AP)—Reduction of the pay of the men operating the force of the Rock Island railroad in this district has been ordered—effective February 1, C. W. Jones, general manager for the division, said Saturday. The men affected will be re-employed as soon as business conditions improve, he said.

Proper Pride Necessary. Pride, like laudanum and other poisonous medicines, is beneficial in small, though injurious in large quantities. No man who is not pleased with himself, even in a personal sense, can please others.—Frederick Schuler.

ROAD BUILDERS OF CALIFORNIA ARE CRITICISED

Two Big Automobile Clubs of State in Report to Governor, Charge Deviation from Program Promised

SAN FRANCISCO, (AP)—Claims that the state highway commission is not carrying out a road construction program it promised before the July, 1919, election on a \$10,000,000 road bond issue, were made in a report sent to Governor W. D. Stephens Saturday by the California State Automobile association and the Automobile Club of Southern California.

The report was based on a study made by club committees of all paved highways in California to determine their sufficiency in width, their present condition and their ability to carry the increasing volume and weight of traffic.

Charges Forewent Lack of vision, which the report said is constructive, is contained in the statement sent the governor. The highway commission, the report said, "has lack of vision, and has been unable to carry out adequate and sufficient or, experimentation, research and investigation on a broad and comprehensive scale." The commission also was charged with having "no stated program directed toward aiding county highway departments," and the report declared, "through a haphazard policy which must be changed as narrow and short-sighted, the responsibility of the commission's division engineers has been almost entirely lost to their work."

"Delay in payment of accounts was also charged to the commission, and that body's 'step toward highway contractors' of 'excellent standing' has been, it was charged, the cause of severe criticism from contractors."

When the engineers on the clubs' committee started their investigation, four-inch concrete pavements were the minimum standard. While the investigation was being made the standard was changed to five inches. The report declared, "A five-inch concrete with less than three inches of subgrade is not thick enough to meet heavy traffic requirements." The report recommended pavements from six to eight inches thickness for trunk roads, and declared the state should use a thicker concrete mixture than at present used.

Argues for Greater Width

"Greater width of permanent paved roadway is of extreme importance," the report declared. "Efficient fast pavements without shoulders are unsatisfactory and dangerous. All double track highways should never be less than 18 feet on tangent and should be widened on curves and grades. Where traffic is congested the width should not be less than 24 feet. California highways built under the first and second bond issues will be worn out or obsolete before the last bonds are retired in 1925, the report declared. "Pavements should live as long as the average life of the bonds with which they are built" is added, and declared that about 25 per cent of the four-inch pavements have broken down in four and one-quarter years, practically before the retirement of any of the bonds. "It is important to build more permanent roads with shorter life bonds," the statement said.

HOUSE VOTES TO ACCEPT MORGAN'S LONDON RESIDENCY

WASHINGTON, (AP)—The house voted today to authorize the secretary of state to accept the offer of the residence of J. P. Morgan in London as an American embassy. Acceptance of the gift was proposed by Representative Walsh, republican, Massachusetts. The house also voted to appropriate \$100,000 for the purchase of an American embassy Paris. Both propositions were offered as amendments to the diplomatic and consular bill.

CHEROKEE'S PAGEANT TO DEPICT TRIBAL HISTORY

Plans are Laid for Commemoration of Invention of Sequoyia's Alphabet

TAHLEQUAH, Okla., (AP)—Early history of the Cherokee Indians is to be depicted in a pageant given here the first week in June in commemoration of the invention of Sequoyia's alphabet, presented to his people 100 years ago. Cherokees and descendants of missionaries who worked among the Indians before and after the migration to Oklahoma are to take part. The idea of the pageant has been in process of development several years by Prof. J. W. Burgess of the extension department of the University of Oklahoma, who came to Oklahoma 25 years ago as a teacher of the redmen. Final plans were worked out in Oklahoma City at a conference, between faculty members of the university, descendants of the old Cherokee tribesmen and members of the state historical society.

It was decided to ask the state legislature, now in session, for funds to defray expenses of the pageant.

Details of the pageant have not been announced. Working without knowledge of the English language, Sequoyia, who is an old man when, at the end of 20 years of labor, he gave to his tribesmen an alphabet, "in two years the Cherokees were raised from virtual illiteracy to a degree of education, and Sequoyia's achievement has been heralded as one of the greatest forward steps in the history of the American Indian. He is called a "crazy Indian," Sequoyia served and finally reached his goal by forming a character representing one of the 85 syllables of his language.

Anti-Kissing Law. In Bavaria, the state railways forbid kissing either on stations, where friends, relatives and families are united, or on trains while France issued an order two years ago forbidding kissing on trains.

MEXICO STUDIES NOTE REGARDING OIL LANDS

United States is Expected to Await Development of President Obregon's Petroleum Policy

MEXICO CITY, (AP)—Careful study is being given the latest United States government news regarding oil properties in Mexico and the Mexican government will probably answer it during the present week. Washington decided according to the Executive's revision of permits to drill oil wells granted by Jacinto B. Trevino, former minister of industry and commerce, and included with its note a list of oil companies whose interests would be seriously affected if the permits were allowed to stand.

It is stated that the opinion prevailing among government officials in the United States government will not insist upon its demands, and will await the development of President Obregon's petroleum policy.

Thanatopsis. The word is of Greek derivation and means "view of death." As used in Bryant's poem it might be interpreted as "a meditation on the subject of death."

DISPUTE ARISES ON PAYMENT FOR AMERICAN WARES

Advancing Exchange Rates and
Decreasing Prices Result in
Conflict Between Exporters
and Argentine Buyers

BUENOS AIRES, (P)—Advancing
exchange rates and decreasing prices
during the past few months have re-
sulted in a dispute over the payment
for American merchandise, which is

either tied up in the Argentine cus-
toms house, or is on its way to this
port. This statement was made by Ho-
racio B. Varla, a prominent commercial
lawyer, who last night addressed the
second annual banquet of the United
States Chamber of Commerce here.

Duties Solution.
Senor Varla discussed the possibil-
ities of solving the conflict between
American exporters and Argentine buy-
ers over the acceptance of this mer-
chandise and payment without loss. In
his opinion, he said, no general mea-
sures such as government intervention
or collective loans could cure the "sit-
uation." He declared the solution was
to be found only in private agreements
between the interested parties, each
accepting necessary losses to save the
other.

The danger of the United States los-
ing its advantageous position in the
foreign trade through the lack of an
international policy was dwelt upon by
Jorge Mitre, director of La Nacion,
in a letter read at the banquet.

Also, during the war, and actively
intensified its foreign relations, Senor
Mitre's letter declared:

American Advantage.
"Americans have in their favor an
almost unanimous desire to see the
high principle of Pan-Americanism put
into practice in commercial relations,
as without these relations commercial
intercourse loses much of its force and
meaning in the life of nations. It
would really be regrettable that, with
such an excellent outlook a motive of
misunderstanding selfishness should cause
the United States to give up the ad-
vantageous position it has conquered
and again hold aloof. It is disappointing
to hope and to realize its future on the
international stage."

Senor Mitre praised the work done
by the chamber in bringing pressure to
bear for the purpose of preventing the
passage of the Fordney emergency tar-
iff bill by the United States congress.

What is useless to you may be val-
uable to others — advertise it in the

ISLANDS WOULD CONFER HONOR UPON HARRISON

Manila Council Suggests Adoption of
Governor General as Son of
Philippines

MANILA, P. I. (Correspondence
of the Associated Press)—The city coun-
cil recently adopted a resolution, re-
questing the legislature to pass a law
which would make Governor General
Francis Burton Harrison, an adopted
son of the Philippine Islands.

The resolution in part says:
"The Philippines, being a people that
know how to appreciate whatever is
done for the advancement of their
country, and Governor General Harri-
son having labored constantly to this
end ever since the memorable day that
he stepped for the first time upon our
shores, should express, in a permanent
way, their gratitude toward Governor
Harrison. The Filipino people desire
to have an enduring memory of his per-
sonality, in as much as it is not possible

for him to stay with us as long as we
should like. The best manner to show
to Governor General Harrison our ap-
preciation and admiration for him is to
make him, by law, an adopted son of
the Philippines."

JUGO-SLAVIA EXTENDS NO WELCOME TO HOLLANDERS

Strained Relations Between Nations
Reflected in Prohibitions Against
Dutch Travelers

THE HAGUE, (P)—The rupture of
diplomatic relations between Holland
and Jugoslavia has resulted in the
virtual prohibition of travel of Dutchmen
in Serbia. The Jugo-Slav government
has announced it will not grant visas
to Hollanders.

The break occurred over alleged bad
treatment of M. Rappaport, an Aus-
trian subject, who was Dutch consul at
Belgrade during the war. The Serbians
contended he was an enemy subject,
unfriendly, and, in fact, a spy.

MOTORCYCLE SPEEDS UP LIFE IN AFGHANISTAN

Native Director of Communications
Adopts Modern Device for Dis-
patch Ride Service

ROHAIY, (P)—Life in Afghanistan
is speeding up, writes a frontier cor-
respondent of the Times of India.

Three carloads of motorcycles have
recently arrived at Jellalabad for
Prince Karim Khan, the director of com-
munications, who intends to organize a
despatch rider service throughout the
country.

Orders have been issued by the
Amir's government for contracts to
construct macadamized roads through-
out the country to the capital, and for the
importation of automobile vehicles.
Firms are also invited to establish
woolen mills and sugar refineries at
Kabul, the capital.

OUR FIRST ANNUAL SHOE SALE

THE GREATEST OF ALL FOOTWEAR EVENTS

Starts Tuesday Morning, February First
AT EIGHT O'CLOCK, SHARP

Ends Saturday, February Fifth, ten p. m.

Five Days Only of Rapid Selling

As this is our first attempt at a sale in Twin Falls you may feel certain
that we are going to make this undertaking a wonderful success. There is only
one way to reach this goal safely, and that is to prove to the people, one and all,
that prices have really been cut to meet their expectations.

You will not be disappointed here, for prices are truly cut. Yes, the
high prices of the past few years are simply wiped off the map completely dur-
ing this, Our First Annual Money-Saving Sale. IT'S GENUINE.

This is a voluntary annual event—Not a Money-Raising Campaign. We

are going to take a big loss, and glad we are to do it. Not a single pair of
shoes will be sold above today's wholesale price — many pairs will move out
for less, and some at half price.

When you think of shoes or hose, we want you to think "SHOE MAR-
KET" and we are going to make it worth your while.

Be sure and select your shoes carefully, for there will be no exchanges
or refunds during these five days. Everybody will be busy.

CONVICTION OF BERGER RECOILS

Supreme Court Reverses Decision of Judge Landis in Case of Socialists

WASHINGTON, (AP)—Conviction of Victor L. Berger and four others, members of the socialist party, for violation of the espionage act, was reversed today by the supreme court on the ground that Judge Landis should not have heard the case after his eligibility had been attacked.

Those convicted with Berger in the federal court at Chicago were Adolph G. Rosenberg, national secretary of the party; William F. Kruse, editor of the Young Socialist magazine; J. Louis Engelhardt and Irwin St. John. Berger and the other four were convicted under the section prohibiting attempts to cause insubordination and disloyalty in the armed military forces, and sentences ranging from 10 to 20 years imprisonment were imposed.

The appeal was brought to the supreme court on the ground that Judge Kenneth Mountain Landis, who presided at the trial, had not been qualified to hear the case because of bias and prejudice against the defendants because of their nationality. The court divided 6 to 3, Justices Brand, Pitney and McReynolds dissenting.

Mrs. McReynolds added to the dissenting opinion a strong argument against Judge Landis' statement as merely showing his detestation of the socialist warfare which was being waged by "communists in America" and not an intelligent law.

The majority opinion held that the affidavit of prejudice filed by Berger against Judge Landis was sufficient to have caused his withdrawal from the case and that Judge Landis himself was not justified in passing upon the affidavit.

Justice Day, who filed a dissenting opinion, held, however, that the mere filing of an affidavit should not be held as sufficient evidence of the unfairness of the judge. The Berger affidavit should not be taken as an admission of bias, because the "facts" therein had been made solely on "information and belief" and no attempt was made to substantiate after closing in the court of the decision in the case and the new trial before some other federal judge.

MISSING WOMAN FOUND CAPTIVE

(Continued from Page One)

A. J. Carr was waiting. When she became suspicious the two men chloroformed her. They took her to a small house on a sheep ranch and put her in a room with only a cot and two blankets. Mrs. Withersell told the men who rescued her the men bought her candy and treated her "with every respect."

Ready for Emergency

The police and Mrs. Withersell's husband and father started for the kidnappers' house at 8 o'clock today, prepared for any emergency. The officers surrounded the house, and after closing in on it, smashed the door and windows. A man, said to be Floyd Carr, was caught off his guard and handcuffed.

Mrs. Withersell and her husband rushed into each other's arms. She sobbed and called him "Lambie, Lambie," over and over again.

The scene between Mrs. Withersell and her father, John C. Kratz, was so affecting.

Mrs. Withersell was rescued shortly after 5 o'clock and soon after the entire party started for Los Angeles. The Carrs were said by the police to have implicated others in the alleged kidnapping. The number varied from three to seven. They were also said to have directed the relatives of the woman to deposit the ransom money of \$20,000 at a hotel near the main road at a designated spot, promising to release Mrs. Withersell on the main road as she could be found after payment of the money.

Ransom Total \$25,000

Reports totaling \$25,000 were offered for information as to Mrs. Withersell's whereabouts. Withersell's former business partner and former stenographer, Charles Beverly and Mr. Elmer Western Tenney, were killed early Saturday in an automobile accident while detectives were following them into Los Angeles from a suburb. Why they were followed was unexplained.

TUSCALOOSA CITIZENS TO DEFEND GUARDSMEN

HAMILTON, Ala. (AP)—Bergean: Ralph L. Lancaster, a member of Company M, Alabama National Guard, was to go on trial today in connection with the lynching of William Baird, a negro, in a suburb. The prosecution decided to give the negro a new trial.

Citizens of Tuscaloosa, the home of the guardsmen who were on duty in the miners' strike zone, have raised a defense fund and employed counsel for the accused, who are little more than boys.

John Northcutt, Baird's father-in-law, was killed by James Morris, a guardsman, December 22. Morris was killed shortly afterwards. Baird was caught and "surprised" in a suburb on the night. He was taken from jail at Jai on January 13 and shot to death by guardsmen. The guardsmen were implicated in the lynching by a traitor owner.

WHEAT CLOSES HEAVY AFTER LIVELY START

Quotations Finish 2 to 3 1/2 Cents Lower as Result of Advice from Abroad

CHICAGO, (AP)—Wheat prices developed considerable strength today after a brilliant start. The market was active, but the final offerings were light. Bullish estimates of the domestic supply, together with reports of a recent decline in the wheat crop in the United States, were factors in the upward movement. The market closed 2 to 3 1/2 cents lower than yesterday's close.

Chicago Wheat Receipts: 15,000 bushels. Total receipts for the week: 100,000 bushels. Total stock on hand: 1,000,000 bushels.

Chicago Flour Receipts: 10,000 barrels. Total receipts for the week: 50,000 barrels. Total stock on hand: 500,000 barrels.

Tomorrow Marks the Beginning of A New Era in Value-Giving, and the Opening of the BIG WHITE STORE'S 14th ANNUAL WHITE SALE

We know that tomorrow will usher in a new standard of values to the women of this region, for the values offered at this big sale will be the standard that will apply to future sales. As in past years, this store will be crowded with eager and careful shoppers, for a mere announcement of our White Sales would bring forth refreshing memories of the money-saving opportunities that were found here the years before. But this year we expect to do more. We expect to offer exceptional values and offerings beyond expectations. And we shall make good this statement. This one item will show you how exceptional are the items marked.

Two For the Price of One--and a Quarter More; These Corsets

This announcement will attract the woman of keen judgment in buying, for never have corsets been offered at such an attractive figure as this. Think of it! Two corsets for the price of one and twenty-five cents more. How can we do it? It is our firm resolve to prove that we never disappoint when we announce bargains in our ads. And the plan is simple. You buy one corset at the marked price, pay twenty-five cents more and you can then purchase another of the same price (any size you wish, thus allowing you to "go in" with some one). All corsets included in this sale.

Embroideries, Laces, White Goods, Domestic, Bed Spreads and Curtain Material, at Great Price Reductions During This Stupendous Sale.

Sale Opens Tuesday Morning at 8 o'clock

Member Audit Bureau of Circulations

THE HUMAN SIDE

A first class example of the work-
ings and the benefits of co-operation
in business is to be found in the action
of the banks of Twin Falls in coming
to the rescue of a bank in another town
in the county, and through the exercise
of a business courtesy as commendable
as it is unusual, actually preserving to
continued usefulness a concern which
stress of circumstances and circum-
stances only had forced into a position
of the gravest moment.

All of which goes to show that bank-
ing is not always the mere money-making
machines which popular fancy delights
to describe them. There is a human
side to banking as there is to every
business under the sun and the men who
constitute the directing heads of the
banks of Twin Falls county are the
same kind of men as are to be found in
the vanguard of every line of business.
They are in the banking business, pri-
marily, to make money, but above and
beyond any question of financial gain
they run the same strain of business
courtesy as is to be found among men
of all classes in whatever occupation,
when common cause offers opportunity
for action.

Perhaps no county in Idaho can of-
fer a better example in the way of a
demonstration of all that is fine and
clean and human in the ranks of busi-
ness. Possibly, also, no other county
or at least very few, is able to boast of
banks which are capable of an action
such as that taken up Saturday. But
aside from this, what has happened
should be a source of pride to this
entire section as well as the basis of a
renewed confidence in Twin Falls banks
and banking.

Banking everywhere is facing stormy
days and dark blue nights but the
silver lining in the clouds of business
adversity is beginning to show through
the gloom and there is not lacking evi-
dence in support of the belief that a
change for the better, almost imper-
ceptible as yet, is beginning to take
place.

There never has been any occasion
for worry over the banking situation
here, except in so far as this might have
been affected by outside happenings.
What has happened is a matter for con-
gratulation to all concerned, the moral
aspect of which should not be lightly
lost sight of.

INTERIM A WASTE OF TIME

The proposal to advance the date of
the inauguration nearer to the time of
the election of the president and vice-
president of the United States is one
that should not be permitted to pass

without serious consideration to con-
gress. It will be necessary to secure
the adoption of an amendment to the
constitution to bring about the change.
Congress has been in session since the
first Monday of December, but it has
done nothing in the way of legislation
or any other action to help solve the
problems of the readjustment period,
and the majority is waiting until a pre-
sident in sympathy with its political
ideas has been inaugurated.

The interval of four months which
elapses between the election and the
inauguration of a president is pre-
cisely wasted by congress when a change
of administration is pending. Even if
congress should pass measures favored
by the republican party, it is almost
certain that they would be vetoed by
the democratic president.

Two proposals for amending the con-
stitution regarding the inauguration
are pending in congress. One of them
fixes the first Monday of December for
the meeting of the new congress and the
second Monday for the inaugura-
tion of the president. The other fixes
the second Monday of January for the
meeting of congress and the third Mon-
day for the inauguration.

The first proposal would probably be
favored by a majority of the people. If
there is any advantage in making
the change, it might as well be made
within 30 days of the holding of the
election, which would give plenty of
time for verification of the vote by the
senate, which would meet one week
ahead of the inauguration.

The waste of time and money by a
congress which is not actually func-
tioning because of an antagonistic ad-
ministration, seems warrant enough for
the passing of a resolution that would
place the matter of changing the in-
augural date before the state legisla-
ture. It looks like a bit of govern-
mental economy that may well be ap-
proved by all the states.

YOUR OWN HOME

A lot of young folk who have been
wanting to buy their own homes will
find this present season an excellent
time to do it. Prices are down pretty
well, and it is possible to pick up a bit
of property on more reasonable terms
of payment than it has been for several
years.

A couple starting out in life has a
big advantage in moving into a place
that is home, right at the start. But
not nearly all can do that. It is up to
the husband, though, to keep the idea
constantly before him. He owes it to
his wife to do this.

It is a mistake to buy too big a place.
That means a lot of extra work. And
if the rooms are too few and too small
it is hard to get along without quar-
reling more than is good for folk. So
the young couple must exercise judi-
ciousness and get some competent advice
before they choose the neighborhood carefully,
don't take on too big a financial bur-
den, look before you leap, and—buy
your own home. You'll be happier.

CALL FOR COUNTY WARRANTS

The following county warrants will
be paid upon presentation at the Coun-
ty Treasurer's office, Twin Falls, Idaho.

THE FORUM

To the Twin Falls News:

A situation described in an article
which appeared in Thursday's News
under the caption "Tuberculosis, Dis-
eases Threatened," is so very far from
the truth that I feel compelled to cor-
rect it. I personally assisted in the
tuberculosis hospital bill and I am
under attack and worked day and night
for its passage in the last legislature.
I feel qualified to speak on the sub-
ject and will give direct answers to the
misstatements made.

In the first place Senator Snook,
who recommends the repeal of the bill
and the diversion of the funds to the
former service men, is not a member of
the last legislature and I am forced to
conclude, knowing nothing about the
subject and is not interested in any
thing but cutting expenses.

The states that appropriations
amounting to \$400,000 were made for
tuberculosis hospitals and wanted
the bill repealed and the money used
for other insane asylum.

As a matter of fact the bill asks for
1.4 million dollars for the first year,
and 1.8 of a million every year there-
after. The figures were based on the
old law which would have given
about \$120,000 for the building of the
institutions and 1.8 of a million there-
after would have been paid in the neigh-
borhood of \$400,000 annually for main-
tenance. According to the new law
the \$400,000 would have been avail-
able for the building purposes which is
fortunate as prices increased so much.

The bill was an emergency bill and
became operative as soon as it was
passed. It was not intended to be
in force until the state department had
made up its mind as to whether it was
to be turned over to the avian. The at-
tention for the hospitals were denied and
would doubt be referred to the mat-
ters in the event of not being used.
The architectural plans were also de-
nied by the National Tuberculosis As-
sociation, and the money has been
turned over by the state the hospital
would have been finished and operat-
ing long ago.

Senator Snook states that the state
purchased for the hospitals at Payette
and Lewiston can be sold and money
turned over to the avian. The atten-
tion for the hospitals were denied and
would doubt be referred to the mat-
ters in the event of not being used.
The architectural plans were also de-
nied by the National Tuberculosis As-
sociation, and the money has been
turned over by the state the hospital
would have been finished and operat-
ing long ago.

According to Snook the legisla-
ture two years ago appropriated
money for the sanitariums because
of a number of hospitals for the treat-
ment of soldiers who had been
gassed. The action of the federal
government in looking after the
former service men makes state
action unnecessary, he said.

The following facts will enable you
to draw your own conclusions in re-
gard to whether it has become neces-
sary for the state to find a way
very necessary to have one in every
county and nearly all states have one
or more institutions.

Two years ago according to statis-
tics we had approximately 3000 an-
nual cases in Idaho that is walking
around spitting blood. The average
patient excretes four to five billion
times a day, every one of which con-
tains of life time poisonous dose, if
not subjected to the action of fire,
radioactive or 16 hours of bright sun-
light, but it is possible that the dis-
ease has increased in the state! No
one is immune.

Two years ago it was found that
in 11 counties 250 men had been re-
jected by the draft boards and we
were expecting unknown numbers
home from the war and they came and
we had no provision made for them.
Three that I know of were sent from
Twin Falls county out of the state for
care and later two more were sent to
and where tuberculosis patients could
not get the required care.

Our Twin Falls County Red Cross
nurse has at the present moment ten
cases under her care, eight of whom
would go to an institution if we had
one and there are no doubt many more
cases if we knew about them.
I do not know the present state sta-

tistics but if we have eight hospital
cases in one county it is not unrea-
sonable to believe that the other 43
counties in the state have an equal
number and that would make 372 hos-
pital cases with no place to go, and
Senator Snook says it is not necessary
to have more hospitals and the exten-
sion of poppers.

It is very true that we need a new
insane asylum at Blackfoot and I hope
we will get it, but insanity is not con-
tagious and tuberculosis is, and our
little children are the most easy vic-
tims. So let's all unite in protesting
against this most destructive economy
which is proposed and insist that the
legislature and the state officials re-
main true to the trust which was im-
posed upon them by the last legislature
with only two dissenting votes.

CARRIE HARPER WHITE.

NOTICE TO PROPERTY OWNERS.

Notice to owner or owners of prop-
erty in Local Improvement District
No. 35 of the City of Twin Falls, in

Cecil B. DeMille's Production
"Old Wives for New"
"It is not enough for wives to be merely virtuous and to
take their husbands for granted. We must trim our 'votes
for women' with a little lace and ribbon if we would keep
our man a lover."
That's what the "old wife" said—too late!
A fascinating romance of home-life intimacy and night
life revelry. Thrilling! Lavish! Beautiful!
