SECESSION OF AFRICA UNWAGES UPON SELECTION

Question of Continued Allegiance to King of England or of Setting Up Independent Republic Presented to Voters

SETTLEMENT BY BALLOT IS PLEASING TO ENGLISH

LONDON, (AP)—No less vital an issue than the secession of an important state of the British empire by ballot arises in the election today of a new legislative assembly in the Union of South Africa.

Broadly, the question is whether South Africa, comprising the provinces of the Cape of Good Hope, Natal, Transvaal and Orange Free State, shall continue the allegiance to the king of England, as one of its self-governing dominions, or whether the South African union shall set up as an independent republic.

English sympathies naturally are for the loyalist set of South Africa. Both sides are, however, admitted for the election to settle differences by the ballot rather than by more drastic means.

South Leads Loyalists

At the head of the loyalist section is the South African population of approximately six millions is General J. C. Smuts, former floor general, now prime minister of the union. He is better known to this world as one of the leading advocates of the league of nations. Opposed to him is General Hertzog, also a former floor general, who is the general opponent of the league of nations. The former party obtained 41 seats in the legislative assembly, thus becoming a numerical majority.

Confusion of Issues Has Arisen

Confusion of issues has arisen as a result of the antislavery movement in the union. Radicals insist upon immediate cutting away from the British empire, while others make the time indeterminate.

General Hertzog's opinion is said to have been expressed in a speech when he declared for South Africa's right to secede from the British empire. In spite of the act of union, he is quoted, South Africa has the right to alter their constitution to gain independence.

SALT LAKE DETECTIVE SLAIN IN GUN BATTLE

G. B. Hamby Is Shot Dead by Tom Burns Who in Turn Is Fatally Wounded

SALT LAKE CITY, (AP)—City Detective G. B. Hamby, who was shot today at a hotel by Tom Burns, 30 years old, who in turn was shot by Chief of Police Joseph E. Burdette, while within the room, and a homicide narrowly escaped death, a salaried and bruising his shoulder. Early today Detective G. B. Hamby entered the Elverly Hotel, upon being advised that robbers were attempting to break into the J. C. Pougherty adjoining. The alleged robbers are believed to have been aware that the police had been notified and sought to make their escape through the Elverly Hotel. Hamby followed one man who opened the door of the room but he was entered and shot. The detective to throw up his hands. As he did so another man knocked him down. The detective was then struck by a bullet in the head and fell. He was running down the corridor. Before the alleged robbers could reach the street other officers appeared upon the scene. Several shots were fired by five alleged robbers who darted from several of the rooms. Three of the men were captured and Detective Rosenkrantz was revived and released. The police then concentrated on the trail of the two men who had escaped. Several hours later they received a tip that one of the men, Tom Burns, was the North end of the Elverly Hotel. Burns, Detective Hamby and Hatten knocked on the man's door. There was no response and Hamby entered the room. Burns was awakened into the room accompanied by the other officers. Burns unloaded his revolver and shot Hamby in the head. He then shot Burns. Hamby was formerly chief of Detectives at Boise, Idaho. He came to Salt Lake seven years ago and was a police force, being promoted to detective last July.

QUESTION OF PROCEDURE STORM CENTER IN HOUSE

CONSIDERING TAX REPEAL DRAFT OF ROAD PROGRAM.

CAUCUS Decision Upsets Prearranged Plans for Period of Repose Pending Draft of Road Program.

SCHOOL DISTRICT RELIEF MEASURE TAKES LIMIT OFF EMERGENCY LEVY

BOISE, (Special to The News)—(Continued from page 1)—The question of procedure in the house today was the center of a half hour's duration, the Idaho house of representatives this forenoon voted to call up for consideration at 2 o'clock the emergency bill No. 106 providing for abolition of the two mill state highway tax law which already has passed the senate and which yesterday was referred by the house to its committee on highways, bridges and ferries.

Urges Previous Plans

It was presumed that the bill would remain in the hands of the committee until the governor should present a road program providing for an appropriation equivalent to a three-quarters mill tax, or approximately \$800,000 to various counties and highway districts for money advanced to the state highway department. It is upon claim of necessity for meeting the obligation with tax money that advocates of the retention of the road levy are making their fight.

Caucus Determines Action

Decision to call up the bill today was reached at a republican caucus last night. McDonald of Kootenai, was the sponsor of the bill. He did not put in an appearance this morning. Hal of Owyhee, stepped into the gap and presented the motion. President of the house, offered an amendment providing for calling up the bill tomorrow. The amendment was lost by vote of 30 to 23. There was no record vote on the bill.

CLAIMS PERJURY IN MOONEY CASE

Alleged Confession of One of
State's Witnesses Comes
from New Jersey

NEW YORK, (AP)—Frank P. Walsh, counsel for Thomas J. Mooney, convicted of murder in connection with the preparation of a bomb explosion in 1916, early today telegraphed San Francisco newspapers reporting them of an alleged confession by one of the witnesses in the case that he had given perjured testimony at the trial. A special grand jury is now investigating an alleged conspiracy to convict Mooney.

Alleged "Frame-up."
The witness named by Mr. Walsh was John McDonald, now a resident of Trenton, N. J., who with Mr. Walsh had a long conference last night. According to Mr. Walsh, McDonald declared in an affidavit covering thirteen typewritten pages, that the case against Mooney was a "frame-up."

"McDonald swore in his confession," Mr. Walsh said, that he could identify Mooney as the man who had been with a suit case prior to the preparation of a bomb explosion, although he identified Mooney during the trial. He said District Attorney Pickert, the San Francisco prosecutor, had forced him to make the identification.

Mr. Walsh quoted McDonald as saying he stood in Stewart street, near the corner of Market, in San Francisco at about 1 o'clock in the afternoon of July 25, 1916, and saw a man with a suitcase on the sidewalk, then, accompanied by another man who came from a saloon, went to have further said that he then walked down Market street, and in a short time heard an explosion. He thought it was the preparation of a bomb explosion. Next day he met a policeman named Heston and told him what he had seen. He said he could not identify the man.

He was induced, Mr. Walsh quoted further, to go to police headquarters where he was questioned by District Attorney Pickert and Captain Mathison, and told him he did not know Mooney, who was suspected.

He subsequently took to McDonald's cell and to that occupied by Billings, another defendant. He asserted, according to Mr. Walsh, that Pickert remarked: "These are the men you saw."

Clashes He Was Coached.
Further, McDonald is alleged to have stated he was coached with other witnesses in testimony to give evidence that he fixed the time of seeing the suitcase dropped at 1:50 o'clock in Billings' trial. In the Mooney trial, he stated that at Attorney Edward Cunha "he changed the time to 1:30 o'clock in order to break Mooney's alibi."

Nine persons were killed in the explosion. Mooney was sentenced to death and Billings to life imprisonment. After several years of imprisonment had failed, President Wilson intervened in Mooney's behalf and Governor Stephens commuted the sentence to life imprisonment.

OFFICERS SET WATCH ON SCREEN ACTORS' SCHOOLS

Investigation Shows the "Students' Act Before Cameras
Minus Film

NEW YORK, (AP)—Schools claiming to teach the art of motion picture acting must in the future be a bit careful and see that they really teach the art, instead of luring outwitted screen stars and their money to so-called studios where the money remains while the would-be dramatic artists return to the prosaic typewriter or kitchen.

The move was brought about when it was learned that Assistant District Attorney Owen W. Bohan and Frederick Sullivan had started a sweeping investigation of such schools and centers that advertised in the "help wanted" columns of newspapers for chorus girls or motion picture models. The schools say they intend to put out of business any such concerns which would lead the girls into expensively immoral employment and they have begun investigation of several which appear suspicious.

The "students" of these schools, say the attorneys, are usually girls. The investigation was instigated by Frank P. Donovan, who said he was a former motion picture director. He said he personally visited one such school and found some prospective artists acting before a real camera, except that the camera was a movie camera. The whole proceeding, he declared, was a farce to anyone who knew anything about motion pictures. Three girls from one of the schools they had been only promised positions with big film companies, but they had not seen a train bound for Los Angeles.

District Attorney Bohan said these schools were not licensed, and that although their contracts did not mention jobs with motion picture companies, they usually painted the prospective students' future in glowing terms in order to obtain the \$25 necessary to make a train start.

VETERAN BOXER AGAIN SUCCEEDS AGAINST LEWIS

Jack Britton Beats Englishman
in Battle for Waterweight
Crown

NEW YORK, (AP)—Jack Britton fought the fourth round and thereby secured battle of his career last night when he successfully defended his title against Ted Kelly, champion of England. Today he said "I'm not through yet."

Britton entered the boxing ring 18 years ago. He has averaged 24 ring encounters a year. His last night fight was the nineteenth with Lewis. Lewis had put his thirty-year-old career to rest in the oldest holder of a ring championship.

The men weighed in at 146 pounds each. Both were in excellent condition. Lewis had the better of the exchanges in the first two rounds, during which both battled furiously and as well as with their fists. Britton protested against Lewis having a rubber protector in his mouth to guard his teeth.

When the bell had separated the men after the second round some one in Lewis' corner shouted at Britton, who turned quickly and rushed back to Lewis' corner, sending his gloves flying, hand into the face of Charley Lewis, the referee. Lewis took a swing at Britton, and it looked for a time as if there was going to be a fight.

The men were separated by their handlers and Britton returned to his corner. One of the boxing commission's men decided that Lewis had a right to wear the rubber guard and there was no more quibbling.

From the third round the champion got his anger out and was working hard, jabbing and hooking. He put Lewis' face, occasionally mixing these blows with rights to the head or stomach.

Lewis seemed unable to avoid Britton's jabbing left hand jab except when he was in his corner. He landed two lefts and a right swing on Britton's head. This round was about even and with the exception of the first two, Britton had the honors.

Do you know where the purest and best flavored maple sugar comes from?

The flavor of Maple Karo tells you

Over a thousand tons of rich maple sugar from Vermont and Canada to make Maple Karo for the American family

The American housewife endorses Maple Karo this way:
Over five million cans were consumed last year. This is a greater sale, by far, of any kind of maple syrup sold.
If you are particular about the syrup you buy, and the price you pay for it—the new Maple Karo is your kind of syrup.
Perfectly delicious in rich maple tang—yet very moderate in price. So moderate that you can serve it every day, every meal. And all grocers everywhere have it.
Go to your grocer today. Get one can of Maple Karo. Try it just once. If you are not absolutely satisfied return it—and your grocer will give you back your money.

IOWA'S LAWMAKERS USE
MACHINE TO CAST VOTEDevice Proves Time Saver; Red
Light Means 'Yes' and Blue
Light 'No'

DES MOINES, Ia., (AP)—Representatives in the Iowa legislature vote their opinions on roll call now with their fingers. No longer does the clerk call the roll and the member vote with his hands.

One result of the change is a saving of 15 minutes to half an hour in taking a roll call vote. When a question is put to a vote every representative may vote at the same time. It is difficult for any one to see what some one else will do and let his vote follow.

Since the session two years ago an electrical voting device has been installed in the house and already has been used. On each member's desk is a little device to which he carries a key. No two keys are alike. There are three small lights to show him how he is voting. When the question is put the legislator inserts the key and then manipulates the device. What he does is not only recorded for his own benefit by the light on his desk, but shows on a board above the speaker's head. The member all are named on the board. Opposite the name are three lights and a slot. If his vote is "yes" a red light goes on and a "Y" appears in the slot. A blue light shows and the letter "N" for a negative vote. To merely be recorded present and not voting a white light is used. Within 20 seconds after the voting is completed, a photograph of the complete record on the board, taken automatically, is delivered to the desk of the clerk. In the meantime, however, the total has been flashed to the speaker's and clerk's desks, so the result can be announced immediately. The photograph is the state's record.

The machine, is controlled by the clerk, who unlocks it and sets it when the vote is called for. As soon as completed he again locks the machine.

FRENCH JUDGES ACCEPTING
PAY BOOST ACCEPTABLEBelgian Remuneration from \$36 to \$58 a Month
and are Breveted by Wage of the
Warehouse Watchmen

PARIS, (AP)—Judges of many of the French courts including some of the higher tribunals are hinting that they would like to have their pay raised at least to the equivalent of telegraph operators, warehouse watchmen and junior officers. Their friends point out that the salaries of many of the magistrates are less than those of even ordinary skilled workmen. The newspapers have taken up the campaign in their behalf and are urging that they be granted allowances to enable them to live at least decently. Some of the judges have told their colleagues without private incomes have to sell their personal property accumulated in better days of the official work at home to eke out a living.

French judges are paid from 500 francs a month (equivalent to about \$35) up to \$33 franc (now equivalent to about \$38) for the presiding judge of the higher tribunals.

Proved Himself Hard to Kill.
There are many cases on record of professional fighters doing without food for 40 days. Some two years ago a French soldier, Corporal Dora, fell into an old mine-shaft near Paris. He lay there, unable to get out, for 28 days, and that without a morsel of food or drink. Yet the end of that time he was able to call for assistance, and when got out, could tell his story. With proper care he completely recovered.Gave Him Idea for Balloon.
The invention of the ordinary balloon is said to have had an extraordinary simple origin, though some authorities give more than one instance of this discovery. A linen-shirt was hanging in front of a fire, and Stephen Henson, who is said to have invented the balloon, noticed that as the warm air rose it took the shirt with it. Quite a simple invention, which led to a remarkable invention. — Seattle Times.Waterless Animals.
That there are animals that live without drinking is shown by the gophers on the island of Madagascari, off the coast of Sumatra, where there is no fresh water at all, and where the annual rainfall is less than two and three-quarter inches.

Catherine Calvert and Percy Marston have the leading roles in Villagers' Tom Turpin production, "Dead Men Tell No Tales." These players were selected because of their particular fitness for the parts assigned. They are duplicates of the characters described by D. W. Huntington in his famous novel.

Cold? The Fishermen Say So

That old King Winter has swept his hand over the Atlantic is evident from the ice-capped condition of vessels arriving in New York. The illustration shows the fishing trawler Gress, which arrived in New York recently from Boston, covered with ice from bow to stern, resembling a small iceberg. The crew suffered greatly from the cold.

UNION OF SOUTH AFRICA
HOLDS GENERAL ELECTIONHertog Policy of "Recession from Empire" Opposed by Senate
Issue to be Decided at Poms

CAPETOWN, (AP)—General elections were held throughout the Union of South Africa today; the actual balloting being the culmination of a three-cornered political contest. The South African party, led by Premier Jan Christian Smuts, the nationalists, under the leadership of General Hertzog and the laborites, whose chief has been Col. Cresswell, have for the past two months been engaged in a campaign which has set a precedent in South Africa. The main issue was joined between General Cresswell and General Hertzog over the latter's policy of "recession from the empire".

Five thousand miners in the Rand district have struck, and their action on the eve of the election case as a thunderbolt.

HARDING WAITS FOR BOAT

President-elect Spends Day Playing
Golf and Renewing Acquaintances

DAYTONA, Fla., (AP)—President-elect Harding spent today playing golf and renewing old acquaintances in Daytona, Fla. He is expected to leave for the houseboat Victoria to take him aboard here for the last leg of his vacation cruise along the Florida coast. Mr. Harding already is two days overdue at St. Augustine.

The house boat is expected to reach here this afternoon, a top having been sent to pull her out of the mud reef in Mosquito Inland, below New Smyrna, where she stranded yesterday.

PRICES OF WHEAT SCORE
SUBSTANTIAL ADVANCESDepression in Early Trading is Followed
by Big Upward Swing; Closing
7 to 8 3/4 Cents Higher

CHICAGO, (AP)—Foreign selling has a beneficial effect today on the wheat market. Reports were current that Germany was being supplied with Australian wheat on six months' credit from England, and that Italy had suspended for an indefinite period the purchase of cereal foodstuffs. Trade was light and the market easily influenced. Opening prices, which ranged from 1-1/2 to 1-3/4 lower, with March \$1.53 to \$1.53 1/2 and May \$1.43 3/4 to \$1.44 1/2, were followed by a material further advance.

Subsequently the market became more active and took a big upward swing as a result of demand from millers, giving big reports from Texas and inquiry from exporters who were said to be short and unable to obtain wheat in the southwest. The close was strong, unchanged to 3/8 lower, closing March \$1.61 3/4 to \$1.62 and May \$1.53 1/2 to \$1.53 3/4.

Corn declined with wheat. After opening unchanged to 3/8 lower, closing May at 65 1/8 to 65 3/8 cts, the market sagged all around. Good demand from the seaboard was a bullish influence later. The closing was strong, 1-5/8 to 1-3/4 net higher, with May 67 3/4 to 67 1/2 cts.

Oats were steadied by scantiness of

supply, starting unchanged to 1-1/2 cts, closing May at 61 1/8 to 1-1/4, but soon scoring slight gains.

Commission house selling on stop-loss

orders weakened positions.

New York Stock Market

NEW YORK, (AP)—Dealings in the

stock market today were almost at low

level, partly for any full session in

several months, but the list strengthened

appreciably as money rates eased. The

sales approximated 37,000 shares.

Extreme dullness marked the early

operations on the stock exchange today,

many speculative favorites remaining

unmoved during the first half hour.

Price changes were unimportant, gains

and losses in no instance exceeding

fractions. Mexican Petroleum, Royal

Dutch, and Amstar, Sears Roebuck,

American Writing Paper preferred and

Union Pacific comprised the firmer is-

sues. Southern Pacific, selling ex-

rights, registered a trifling decline and

Atlantic Gulf, Westinghouse Electric

and Pure Oil were moderately reaction-

ary.

All classes of stocks, especially rail-

roads, shipyards, steels and equipments,

arriving in the rise of the last hour when

call loans declined to 7 per cent. The

closing was strong.

ONE NATION ASKS U.S. TO CANCEL WAR LOANS

Secretary Houston Discloses Circumstance but Withholds Name of Petitioner

WASHINGTON, D.C. (AP)—Secretary of State Clegg Monday that "one nation" had requested the United States to cancel its war loan to that power. "What nation?" demanded Senator Reed, democrat, Missouri.

"I prefer not to say," Mr. Houston replied.

Recently published remarks of J. Austen Chamberlain, British chancellor of the exchequer, that such a proposal had been made to the United States and refused, prompted the question that drew Mr. Houston's statement.

Before that point was reached, Senator Reed had taken up the financing of the Russian embassy here and drew from Assistant Secretary Kelley of the treasury, in charge of foreign loans, a statement that embassy officials had obtained \$250,000 early in 1920 on the understanding that these funds would be replaced from other sources. "On motion of Senator Kellogg, republican, Missouri, the committee closed the doors to decide whether detailed investigation of the Russian loan status should be pressed."

Mr. Kelley said the Russians had received \$187,000,000 between July and November, 1917, "and nothing since then," with exception of the \$200,000 item. He described the second "Russian liquidation" which followed the fall of the Kerensky government when the embassy had about \$300,000 on deposit and owed \$100,000,000 to Americans for war materials. The claims were liquidated, leaving a balance, he said, under supervision of Norman H. Davis, representing the treasury, and "by one of the most brilliant financial feats of the war."

"Was any money used to support the Bakuninoff embassy?" asked Senator Reed.

"The treasury ruled that the embassy was entitled to be maintained out of the balance, which was in the National City bank," Mr. Kelley replied.

Settlement of Oklahoma.

After the acquisition by the federal government of the Indian claims the territory of Oklahoma was thrown open to white settlers, the central part by population of President Harrison on April 22, 1889, a large tract to 1891 and the Cherokee strip or cession to the north in 1893. The territory was settled with extraordinary rapidity. Oklahoma was admitted to the Union November 16, 1907.

EXPECT TO CONCLUDE DAMAGE ACTION TODAY

Military Company's Case Against City Should Go to Jury Tonight

Progress in the Elito Military Company's action against the city of Twin Falls in the first day indicated that the suit should be concluded this evening. The plaintiff concluded testimony yesterday afternoon, and the defense began to introduce witnesses: John J. Pilgrimage, superintendent of the city waterworks, was called as the city's first witness yesterday, and he was recalled this morning. H. B. Rayburn, W. R. Worrell, the latter chief of fire department, William Harkins and E. V. Berg, former city engineer, and Ernest Weir were called to the witness stand this morning.

The military company is suing for approximately \$6000 alleged to be the amount of damage sustained to the company's stock and goods through the flooding of a building where city water mains burst.

PRISONER RELEASED

William Eugene Richardson, who was held in custody at Buhl on suspicion of being implicated in a robbery committed at the Buhl Department store Sunday night, was yesterday afternoon released on order of Deputy Sheriff Ben J. Brown, after the latter had made a full investigation of the suspicions attaching to the prisoner.

BOSTON, Mass. (AP)—Braving death from exposure and ice coated needles while lost at night on Mount Monadnock, N. H., during a weekend trip, Karl H. Robinson, a Boston university freshman, carried Rupert Robinson, a fellow student, from the summit to safety after Rupert had been rendered unconscious by a fall. They are not related.

For many miles Karl Robinson bore his stricken chum on his shoulders. He finally lost his way and was about to drop from exhaustion when he heard a dog bark. Guided by the bark, he pushed on to safety. Rupert Robinson, in a delirious condition, was rushed to Fitz William, M. H., for medical treatment. He recovered quickly and returned yesterday to the university.

Woman Still Operator Has Killed Her Man

ATLANTA, Ga. (AP)—Mrs. Sarah Chase, 50 years old, from the mountains of Pickens county, Georgia, today began serving a thirty day sentence for operation of an illicit still, and, according to prohibition officers, after serving her sentence, will return to be tried in the state court for killing the man who told on her.

Clad in a gingham dress topped by a gray shawl, the sturdy little woman gazed defiantly at the "Reverend" who testified against her, and when the verdict was read her only comment was "They didn't tell the truth."

Theatres

Twin Falls is to have a music festival Wednesday, February 9, when Ralph Dunbar will present his cooperative production of the DeKoven opera "Robin Hood" at the Taverling. Dunbar comes from Chicago—with what is said to be one of the best singing casts and choruses ever gotten together in America.

For two years Dunbar has been receiving popular opera and has been engaging only American singers. He was in helping the young men and women of America who aspire to the operatic stage and in Chicago he has a studio where he gives them the proper training before placing them with his various traveling companies. Each day possesses of voices are heard in the Dunbar productions are operating and the promising ones are called out and sent into Chicago for training. Many of the principals in the Dunbar companies this season come from choir choirs and from small town choral societies.

This season Dunbar has separate companies in various portions of the United States presenting "Robin Hood," Gilbert and Sullivan's "The Mikado" and the first opera "The Pirates of Penzance" and "The Gondoliers." The latter is being sung in English and is making a phenomenal success in the middle west cities. "Robin Hood" is presented by an exceptionally large roster of principal parts and chorus. Dunbar believes that a good chorus is the foundation of opera and his singers frequently possess just as good voices as those of the principals.

Scale are on sale at the Majestic Theater.

MANY CIVIL ACTIONS ARE FILED IN COURT

Principally Promissory Notes are the Cause of Judgment Suits

A considerable number of civil actions have been filed in the district court in the past 24 hours. These are mostly on notes, and are for rather small amounts.

The First National Bank of Kimberly seeks judgment against C. L. Berry and others for \$400, said to be due on a promissory note. The North American Mortgage company seeks judgment for \$800 on a note and the foreclosure of a mortgage given as security for the note. P. O. Robinson and H. Joyce are made defendants in an action brought by the Twin Falls Bank & Trust company to procure enforcement of \$1144 on a promissory note. The same plaintiffs sue Hober Hodge and others for \$478.00 on a note, while the Hober Hodge company is made defendant in an action against W. J. Hohenbeck and others on two contracts involving a total sum of \$1100. A promissory note is involved in this suit.

Jacob Schaeffer and Amy Schaeffer, his wife, allege that fraud was practiced by P. C. Hansen in representing the Hansen farming company in a transaction by which the Schaeffers traded a district farm for a hotel in Twin Falls. The plaintiffs allege that the hotel is not the sort of property it was described to be. Return of the note and an accounting is asked through court procedure.

BOWEN IS CANDIDATE FOR JOFFRE FORENSIC HONOR

Twin Falls Student at Stanford University is Chosen for Competition

STANFORD UNIVERSITY, Cal. (Special)—Theodore E. Bowen, Twin Falls, has been selected as a member of the Stanford University Joffre debating team which were the University of California for the possession of the "Joffre Medal," presented by the Republic of France to the most effective speaker in each of the annual contests.

The "Joffre" is the most widely known debate west of the Mississippi because of its extensive publicity. The speakers work on a general topic until 11 o'clock on the night of the discussion, when the actual debate is to be delivered. Two hours later, the contestants appear on the platform. Seventeen minutes of extemporaneous debate is permitted each speaker, their refutation and argument delivered to suit circumstances.

After the Joffre of Twin Falls, Bowen has been a member of this team for three years, but did not enter competition this season. He is manager of the school paper, the Daily News, and a student newspaper at the university.

DEAN CHAMBERLAIN TENDERS RESIGNATION

Reverend of St. Michael's, Boise, will Take Missionary Position in Maryland

After 14 years of service in connection with the Episcopal church in Idaho, the Rev. Alvin Chamberlain, rector of St. Michael's, Boise, Idaho, has presented his resignation to the chapter parish to take effect April 1st, and to be succeeded by the Rev. A. C. Brown, of the Episcopal church of the Diocese of Idaho.

High School News

The next big school attraction to be presented will be "In the Garden of the South" which will be given in the near future by the girls club under the direction of Mrs. G. O. O'Connell. It is a three-act musical comedy requiring three hours for presentation. There are about 100 principals and a chorus of 25. The plot has to do with the adventures of two young American sailing engineers in Persia. They incur love affairs to the south but with characteristic American wit and presence of mind they surmount every obstacle finally attaining their goal. Large numbers of stunts and routine numbers tend to the oriental atmosphere.

Programs for meeting and both teams for the near future are in the making. Arrangements for both with Gooding, Hayward, Boise and Salt Lake are pending. The boys' team will have entered for wrestling and all weights are represented in boxing. D. L. Robey, of the boys' team, won the state wrestling championship last week and they are all in the best of condition. Boys staged between halves of the game, and much good news was exciting, and much good talent has shown up.

OPTIMISTIC CONSERVATION ESSENTIAL NEEDS REELECTS

State Reclamation Director Urges Concentration in Things that Tend to Build Up State—Period is Not Calamitous but Need of Retarded Spending is Necessary—Idaho Building Other States Against Its Own

Idaho is a good free miller, and new people to come into Idaho now by Washington, Oregon, and Utah are getting a lot of our cream. Even Montana is beginning to look carefully around the corner to see up the prospect of filling her bucket. This refers to the wholesale and jobbing business. Idaho should have her own wholesale and jobbing business on a more extensive scale than at present.

The Cour d'Alene mines contribute tremendously to the prosperity and upbuilding of the state of Idaho. Washington. Southwestern Idaho contributes hundreds of thousands of dollars a year to the prosperity of Portland. Many of the big interests of Idaho are in the state of Oregon. Why not keep them there? Why not encourage a man to locate on a dry farm with the expectation of raising a good crop every year, for if he does not, that's all right. This is true unless the farm location has the possibility of coming sometime within the chance of irrigation.

At the present time there is a good deal of dissatisfaction in Idaho among the taxpayers. It is the intent to look at the conditions as they exist. We have just passed through an unusual period of prosperity, extravagance, and carelessness. In most instances people who have received big money and have spent it as they went along are entitled to a great deal of sympathy. The farmer who raises a crop and is unable to market it is in bad shape and is entitled to help. The Idaho people are not light on their feet, and as long as they get value for their money.

Figures Tell Tale

Again, Idaho has 200,000 less people than the city of Los Angeles, and yet Idaho is attempting to maintain the same institutions that California does. Idaho has 84,000 square miles, about 15,000,000 acres, and 431,000 people in the entire state, or about 100 people per square mile. Consequently our taxes are high and will be so until we get more development and more people. The writer favors schools, highways, and everything that will add to the upbuilding, happiness and prosperity of Idaho and its people, and he is the pronounced enemy of the new-fangled "muck" which means our boys and girls. At the same time, there is a practical side to this matter that must always be kept in mind. We will not quit this host. The problem the workers and leaders are now facing is to arrange some plan to relieve the situation for everybody so they can at least make a living and save a little money while these big matters are under consideration and construction. The O. R. R. is the only one that will pay every month for new work and the Idaho Power company is spending considerable money every year on new work. The money paid for the sugar beets in the big money we have had coming into Idaho this year.

The Idaho Reclamation association is working persistently, methodically and earnestly to create conditions favorable to the irrigation of the water that flow out of this state every year for everybody to use. The water can be applied to the land, thereby creating new homes and new opportunities. It is the writer's conviction that in the development of this state that by an organized effort, work in the proper channels this result can be accomplished within the next few years.

SCHOOL BOARD AWAITS LAW-MAKERS' ACTION ON MATTER OF RELIEF IN FINANCIAL CRISIS

No Definite Move Will Be Taken Locally Toward Meeting Present Unfavorable Situation in Independent District until it is Known what Legislature Can Accomplish in Relief Enactment—Citizens Attend Session at Which Figures on Expense and Resources are Obtained—Teachers' Council Considers Question

Until definite action is taken by the representatives of independent school district No. 1, now before the legislative session in Boise, the members of the board will mark time on the question of school conduct the rest of the year.

There is nothing the board can do until action is taken by the legislature, either for or against the relief we have asked for the present financial situation. We expect the legislature will see that it is to the advantage of the state in general to provide a means of financial relief for the district.

At a regular monthly meeting of the school board, last night, many questions were considered, both by the board and by the teachers, seeking a way out of the unfortunate dilemma created by the school district. Nothing of a definite tangible nature was evolved, however, and the board was unable to make a decision on the proposed relief through legislative enactment. By this plan it is suggested that the legislative body should pass a bill to the effect that school boards, to insure negotiable notes against 100% taxes to meet current expenses. That the situation existing in the local school district is not an isolated one, or peculiar to this community, is a fact that has been established by the school board and citizens at the high school. Statements were made involving Butte, Payson, No. 10, and other places in similar fashion. It was stated that schools in a district near Boise have been closed on account of shortage of funds. It was also stated that others must close unless the legislature can be made to see the necessity of meeting through emergency bill to provide relief for the suffering districts.

condition of the district. All warrants will be drawn against the funds to be applied under the separate fund system.

C. A. Robinson and Attorney John W. Graham were prominent speakers at the meeting, each submitting schemes by which the relief of the district might be administered if put into operation, it is believed. The decision at the meeting of the board is to wait until the legislature meets in Boise, and then to see what can be accomplished. It is also expected that when the legislative matter is at hand there will be some representatives of the board who are conversant with the local situation, will be sent to Boise to assist Mr. Hodge in drafting and getting the bill before the lawmakers.

There was some talk last night of calling a mass assemblage of citizens for a general discussion of the situation, but today Chairman Parish said the decision had been against such a meeting until action has been taken by the legislature on the relief matter.

The board has decided to hold work meetings until the condition of the situation, but today a new scheme of operation evolved.

Immediately prior to the school board meeting last night the Teachers' association met in the office of the school superintendent, Hal O. Blue, for a discussion of affairs in the district at the present time. The Teachers' association was called into the council session to provide detail of the situation. No definite action was taken, but the Teachers' association is planning to bring a petition to the board, and will be looking for a meeting of the board of members, each representative of 12 members division of the school district.
