American Note to League of Nations Council Asserts Equal Concern in Overseas Possessions of Germany

AMERICAN RIGHTS GONE

AMERICAN RIGHTS GONE

PARIS. (AP)—The United States government, in its note to the council of the league of nations on the question of disposition of German spoils, asserted and interest with the other principal allied and associated powers in the overseas possessions of Germany and considered an equal voice in their disposition.

The council again took up the note this morning, considering it with particular reference to the claim advanced by the United States. Some of the members held that America had forfeited such rights by withdrawing, as an associated power, from the supreme council.

In the summary of the note which was made public Wednesday, it was revealed that the United States declared it had never given its consent that the island of Yap, an important link in the chain of communications in the Pacific, be included in the territories subjected to the mandate of the league. The principal feature of the note, in addition to the points contained in the summary, was the American contention of equal right and interest in disposition of Germany's overseas possessions. SOUTH CENTRAL IDAHO SECTION IS GOLD-LADEN

Bureau of Mines Tells of Heavy Deposits of Precious Metals in Hills

That great bodies of gold and silver ore lie in the mountainous regions of south central Idaho awaiting only adequate transportation facilities to make the mining of them possible and profitable, is the essence of a bulletin just issued by the state bureau of mines and geology. The bulletin covers the mountainous territory known as the Thander Mountains, Big Creek, Stanley Basin, Sheep Mountain and Snake River districts and which comprise one of the most inaccessible sections of the state. The survey was made by Dr. J. B. Dr. Dr. The report is a geological map made from his field notes. One in this region is of a low milling grade and hence profitable mining of it is impossible until the problem of transport is partially eliminated.

"The report is of great value to the mining world owing to the fact that practically nothing has been written about this region," said Dean Francis A. Thompson, head of the University School of Mines and director of the bureau. "Great bodies of ore may be found in these sections and with better shipping facilities this area will become a great mining section."

"The Thander Mountain country and the sections between it and the Snake River have been the scene of great mining rushes in their day and great sums of money were spent in developing various properties. It was found, however, that the ore was for the most part of a low grade and was hence unprofitable at the time."

The report is known as Bulletin No. 3, and may be obtained from the director of mines and geology, University of Idaho, Moscow, Idaho. A mailing printing charge is made.

GERMANS GIVE WELCOME TO ARGENTINE STEAMER

Hamburg Senate and Chamber of Commerce took place on Tuesday upon the arrival of the Argentine steamer Bahia Blanca, representatives of the Hamburg senate and chamber of commerce calling upon the captain of the vessel. They expressed thanks to Argentina for expressions of sympathy during and after the war.

Arrival of the Bahia Blanca at Hamburg is of especial interest because of recent exchanges between the allied nations and Argentina, relative to the purchase of war materials from Germany by the South American republic. Dr. Julio Moreno, Argentine minister of war, has officially denied reports the Bahia Blanca would take munitions back to Argentina. He said Argentina had not made any purchase of war materials in Germany since the war.

NEW RECORDS SET FOR PORTLAND CEMENT TRADE

Production, Shipment and Gross Value in Industry in United States Advanced by Leaps and Bounds

WASHINGTON, (AP)—A new record in production, shipment and gross value of Portland cement was established by the United States last year, according to estimates announced by the geological survey.

Production is estimated at 100,200,000 barrels, compared with 90,700,375 barrels in 1910, an increase of 24 per cent.

Shipments were 90,229,000 barrels compared with 82,506,616 barrels in 1910, an increase of 18 per cent.

Gross value was \$193,448,000, compared with \$140,600,000 in 1910, an increase of 31.9 per cent.

Stocks of finished cement on hand at the end of 1920 amounted to 8,500 barrels, compared with 5,835,407 barrels at the end of 1910, an increase of more than 41 per cent.

Average factory price in bulk at mills for the whole country was \$2.01 a barrel in 1920, compared with \$2.11 in 1910, an increase of 17.5 per cent.

Imports during 1920 amounted to 48,951 barrels, while exports amounted to 5,935,807 barrels, or 522,118 barrels more than in 1919.

MOADDO CALLS RAILWAY LEGISLATION FAULTURE

Declares Carriers are Drifting Toward Government Ownership as Situation's Solution

WASHINGTON, (AP)—Declaring the transportation act a failure both in theory and effect, William O. Moaddo, director general of railroads during the war, said Wednesday that the carriers were drifting toward government ownership, which he added, seemed to be the only apparent solution.

The railroads, Mr. Moaddo said, had not been put into the condition desired despite the payment of millions of dollars of taxpayers money to them under the terms of the transportation act.

The increasing cost of coal has not solved the railroad problem, Mr. Moaddo declared. While the larger roads are showing better returns, the smaller lines are not profiting by the new rates, he added.

The proposed plan for the consolidation of the railroads into a number of systems was declared to be impracticable.

Referring to the railroad wage question, Mr. Moaddo expressed the opinion that the carriers should pay for their labor at its market value just as they have to purchase their steel from the mills at the market price.

It was announced here last night. Miss French was former superintendent of schools for Idaho, but is now a resident of Washington, D. C.

OPENS WAR ON LUMBER PRICES

Government Files Injunction Suit Against Southern Pine Association

ST. LOUIS, Mo., (AP)—The government Wednesday filed injunction proceedings against the Southern Pine association, sixty-one corporations and sixty-nine individuals, in an effort to end an alleged conspiracy to control and increase the prices of yellow pine lumber.

Aims at Disinfection

The government asked for a permanent injunction, after hearing evidence, which District Attorney Carroll asserted would amount to dissolution of the association.

The suit was filed by direction of Attorney General Palmer and charged violation of the Sherman anti-trust act. The injunction is asked to restrain the organization from recommending or suggesting curtailment of production of yellow pine, "for members or agents tending to result in such restriction."

Judge Parker directed the district attorney to prepare an order for the defendants to show cause why the injunction should not be granted. He set March 15 for the hearing.

Results from Investigation

The proceedings, it was explained, resulted from an investigation of the supply by the federal trade commission.

The suit requests that the organization be restrained from compelling or dictating further issue of trade bulletins and price currents; that the members and individuals be restrained from holding or attending further meetings, or any suggestion or act, in connection with the purpose of statistical exchange; and that they be required to abandon permanently any effort to control or increase prices through the organization.

LONGWORTH ASKS REPEAL OF EXCESS PROFITS TAX

Ohio Congressman Introduces Bill to Remedy Government's Income Collection Methods

WASHINGTON, D. C., (AP)—A bill to repeal the war and excess profits taxes and levies on transportation and soft drinks was introduced Wednesday by Representative Longworth, Ohio, a republican, to curtail the ways in which the government collects income taxes.

He said he did not expect action on it until the coming session of congress.

Repeal of the taxes on higher incomes from a 70 per cent to a 40 per cent maximum also is proposed.

MOON AND TIDE DICTATE PILGRIM PAGEANT DATE

Episodes in Lives of Forefathers to be Portrayed in Celebration Event

PLYMOUTH, Mass., (AP)—Moon and tide have dictated the date for the pageant to be presented next summer in celebration of the tercentenary of the landing of the Pilgrims.

At the scene are to be set on the shallow shore where the forefathers first trod, presentation of the place will be subject to turns of the tide. The best artistic effects it has been decided to hold the events as night, making the moon a factor in the pageant.

The pageant is planned as the central feature of the celebration here next summer. It is to be divided into seven episodes, portraying the lives of the fathers in many separate scenes.

The performances are to be given in the immediate vicinity of Plymouth Rock and that historic boulder may appear as one of the "stage properties."

The waters of the bay on which the Mayflower sailed from the Cape Cod anchorage where the famous Compact was signed, to the spot where the landing was made will serve as backdrop, and Cole's Hill where many of the Pilgrims lived, died and were buried, with the waterfront, will form a natural amphitheater.

Performers who will number 1000 or more probably will include some of the few descendants of the Pilgrims who live near the scene of their settlement.

TOWN BUILDS OWN HOTEL

North Carolina Settlement Achieves Unique Municipal Ownership Record

RALEIGH, N. C., (AP)—Besides owning and operating its own waterworks, electric plant, ice plant, opera house and a railroad four miles long the little city of Warren, Warren county, North Carolina, with a population of less than 1000 is also building a hotel to cost \$140,000 to be paid for by a bond issue.

The municipally owned railroad runs from Warren to Warren Plains, where it connects with the Seaboard Air Line railway, it being the only line connecting the two towns.

"We have made a profit on all of our municipally owned enterprises, except our opera house, and we haven't lost much on it," declared Mayor H. P. Peck, prominent lawyer and member of the Warren board of aldermen.

Warren is one of the oldest towns in the state. Horace Greeley was married there in 1880.

MOUNT ASAMA IN ERUPTION

TOKIO (Correspondence of the Associated Press)—Mount Asama, the volcano peak which dominates the upper peninsula near Tokyo, erupted again in eruption. Yesterday evening thunderous explosions shook the entire district, followed by the bursting forth from the crater of the mountain of an immense quantity of ash and lava. The prevailing moonlight disappeared in the blackened cloud and a drift of earth sheets tended to increase the alarm of the inhabitants of the entire surrounding district as far as Takasaki and Maebashi. No loss of life is reported but many people are preparing to leave the town at the foot of the mountain.

IF YOU VALUE MONEY-- READ THIS

For two weeks I have advertised this event extensively, and I have backed up, with the quality goods, every line in my advertising. The response of the buying public has, to state it mildly, been gratifying. The public today knows QUALITY and appreciates, as never before, real values.

For JUST TWO MORE DAYS I am going to give values that no merchant can afford to give. My remaining stock of winter goods is going out. UTTERLY REGARDLESS OF COST. FOR JUST TWO MORE DAYS I am literally going to move shoes and clothing by the TON. The final price cuts have been made. There will be no further reductions with the single exception of the bargain bins—if anything remains in those bins on Saturday night I will practically give it away—they must be cleaned to the bottom that night.

FARMERS: You can't afford to miss this. If you can't come any other way, WALK. Go to the nearest railroad station. I'll pay your fare—see large bill for particulars—or if the roads are so you can drive I'll give you gasoline. Bring your LIBERTY BONDS if you want to. I'll allow in trade their full face value.

DISTINGUISHED GUESTS HEARD BY ROTARIANS

Business Club Members Hear Interesting Discussions on Moot Themes

Ralph Bristol, district governor of Rotary, of Ogden, and W. H. Cleare of the firm of Gordon and Uhlare of Pocatello, were guests at a banquet given by the Twin Falls Rotary club at the town's cafe on Wednesday night, in celebration of the birthday of the national club and the sixteenth anniversary of the founding of Rotary.

"Dr. Charles R. Scott served as toast master and following a well pointed dinner a number of interesting subjects were made. Fifteen members of the club registered their intention of attending the district convention, which is to be held in Salt Lake early in March.

How Rotary Works.
Governor Bristol gave an entertaining account of the operation and work of Rotary in an international sense from the standpoint of an executive committee of the institution. His attention to many of the important features of the larger work of Rotary as a whole. Mr. Bristol is an Ogden local man and receives an salary or other consideration but also taking part as a district governor has spent one week out of every month visiting the various clubs of his district in the interest of the work.

Ethics of the Order.
W. H. Cleare of Pocatello was its tenor with close attention as he described the ethical side of Rotary and outlined its aims and objects.

His most interesting point consisted in his statement that the man who has grinded the earth with toil, trenched through mountains, built ships and flying machines and in every way endeavored to progress along every known line of endeavor has yet one thing which mankind had not learned to do, namely, to live in harmony with the fellowmen. The bringing about of a better understanding among men and the inauguration of a spirit of service rather than profit, he offered as the highest and best endeavor to which Rotary and its members are pledged.

Arthur J. Peavey contributed to the program with an account of the operation of the headquarters officers as described by the secretary general of the institution.

FOUNDING OF PYTHIAN ORDER COMMEMORATED

Twin Falls Knights of Pythias and Pythian Sisters last night celebrated the fifty-fourth anniversary of the founding of the Pythian order. The affair was conducted in the regular lodge hall with a large gathering. The program was given by the following soloists: Carol Thompson, vocal solo; Miss Hazel DeWitt, piano solo; Miss Ruth Brown, song and dance; Miss Luella Kennedy, piano solo; Miss Adelaide Eldred, piano solo; Miss L. L. Laitinen, vocal solo. The affair was closed by the conclusion of the program.

FORFEITURE ORDERED.
Judge W. A. Babcock has rendered judgment for \$100 in favor of Frank T. McAuley against E. B. Ripley, Robert Ripley, W. O. McKibben and Blanche McKibben. The judgment carries with it order for the payment of mortgage given to secure a promissory note, together with cost of property.

WILSON TO RIDE WITH SUCCESSOR.

(Continued from Page One)
House, where it will be joined by the president and Mrs. Wilson.

Wilson to Sign Bill.
From the White House the procession will move over Pennsylvania avenue to the capitol. There the president and probably Mr. Harding, will enter the president's room where Mr. Wilson will sign the bill. He will then be taken to the capitol where he will deliver his inaugural address.

After the new vice president has taken the oath in the senate and delivered his inaugural address, the guests will proceed to the steps at the east front of the capitol, where Mr. Harding will be sworn in. As soon as the first three inaugural addresses the new president will depart for the White House.

Five hundred marshes in full dress uniforms will be on duty at the capitol, governing the regular capitol police, and will form a line through which the guests will pass in according the capitol steps.

Take Oath in Stand.
Mr. Harding will take the oath in a stand 20 feet square which has been erected on the steps. The stand will accommodate only the president-elect, Chief Justice White, the members of the congressional committee, and a few others.

The other guests will stand during the ceremony. Besides the marshes and cavalry, 500 regulars from Camp Meade, Md., will be brought to Washington on the morning of March 4 for guard duty along Pennsylvania avenue.

TRIAL CLOSES IN CARBON.
OF KIDNAPING IN MANILA.
MANILA, P. I., (AP)—Trial of 25 Philippine constabulary soldiers on charges of murder in connection with the kidnaping of a British subject, was closed here today and the case taken under advisement by the court.

ATTEMPTS BEING MADE TO SPLIT TWIN FALLS HIGHWAY DISTRICT

O. G. Zuck Said to be Sponsor of Movement to Give Kimberly and Hansen School Areas Separate Road-building Territory—Scheme Believed to Grow Out of Dissatisfaction Over the Plan to Build Around Kimberly

If a plan said to be fostered by a certain element in the Kimberly district succeeds the Twin Falls highway district will be split and the areas comprising the Kimberly and Hansen school districts will be formed into a separate road building territory.

Reports reaching Twin Falls in the past few days indicate that an effort is being made to have Kimberly and Hansen withdrawn from the Twin Falls highway district.

According to the statements of Kimberly people a petition has been in circulation about that place some day for signatures of persons interested in making a change in road district territory. The statements intimate that O. G. Zuck, former state senator, who last fall was Non-partisan league candidate for the office of lieutenant governor, is the moving genius behind the scheme. It is also stated that persons in charge of the petition have drafted the petition and that 200 signatures on the petition, and that 500 more will be added as soon as travelling conditions are improved.

There is, it is understood, a reason therefor, or counter petition ready for circulation in both the Kimberly and Hansen districts, this having been prepared by business men who have expressed the opinion that there is no occasion at the present time for road action against the present highway district or system.

The Kimberly Chamber of Commerce has called a mass meeting to be held in the State theater at Kimberly next Tuesday afternoon for the purpose of discussing the petition and the proposed change in road district territory. The highway district will probably be present to present certain facts relative to the question now being agitated.

Action in part of the district, it is averred, grows out of dissatisfaction over the state and federal highway departments' attitude toward Kimberly in the matter of the proposed to build the state highway around the town instead of through it. A recommendation to the state highway department to go after a survey had demonstrated that to pass directly through Kimberly two railroad grades would have to be crossed. Later another survey was made and announcement followed that the line proposed to be followed in the report a year ago would be followed and the road built to the east and south of Kimberly.

PROTEST MADE AGAINST PLAN OF ASSESSMENT

Merchants Want Taxes Based Upon Replacement Cost Instead of Invoice

Expressing dissatisfaction against the county assessor's plan of fixing a 70 per cent valuation against merchandise stocks in county stores, a coalition of some 25 or 30 district business men lodged personal protest with the county commissioners yesterday afternoon. The party called at headquarters in a body and engaged in a pro and con discussion of the case. No definite decision was reached but the commissioners received information and detail believed sufficient to warrant action when the board meets next as a commission of tax valuation.

The protest of the merchants is founded upon the manner of arriving at a basis for fixing the annual assessment against stock. The merchants in view of the downward revision and scale of prices at the present time, objected to involve quantities being taken as the basis for valuation. It was pointed out that merchandise is still subject to a devaluing market, and the protestants expressed the belief that assessments should be fixed upon a basis of what the goods now in stock might reasonably be expected to be replaced at and not on what the cost was when the purchase was made. All the protestants expressed opinions that market values would see further recession.

The delegation was composed of Twin Falls, Piler, Kimberly and Buhl merchants.

The debate lasted more than an hour, and at its conclusion the commissioners announced they would give the protest due consideration.

ORDER POSTOFFICE LOBBY LOCKED FROM 8 IN EVE TO 5 MORN

Federal Treasury Department Issues Mandate to Local Postmaster

Lobby will keep trying no more, perhaps forever, in the lobby of post office between the hours of 8 p. m. and 5 a. m.

All day long letters and telegrams are not mentioned in the official directory of the post office. It is a fact that a mandate has gone forth ordering the Twin Falls post office lobby closed between the hours of 8 p. m. and 5 a. m. before 5 a. m. mail, perform, accommodate themselves to the system of using the out side drop locker.

Of this official edict Postmaster M. A. Strunk was today authoritatively advised, but the local lobby declared he can only conjecture on the subject of cause. He assumes the scheme to be merely a precautionary measure against possibility of robbery during the night when forces employed are at minimum strength.

The order is said to be effective at all postoffices throughout the country where working guards are not provided for day and night. At larger places where it is necessary that lobbies be open day and night, and where there are two entrances, guards must be stationed at the entrances. If there are two such entrances one must be barred during the time when indoor working forces are at minimum strength and a guard must be stationed at the other.

DIVORCE GRANTED.
Judge W. A. Babcock of the district court, today ordered a divorce against the plaintiff in the Ella M. Taylor divorce action against Robert Taylor. Charges of cruelty and non-support formed the basis of the complaint.

District Ranch Was Meadowlark Winter Habitat

COMES now M. Hammons, district rancher, and avers, declares and says that his truck patch has been the winter habitat of a flock of meadowlarks.

Thus it is believed that the meadowlarks have been here all winter. The meadowlarks took a sudden and unwholesome slip last night, falling 50 degrees from the top notch of the day, which was 65 degrees.

Tonight and Friday will be fair, unless the climate maker slips as badly as last night's temperature.
