

PRESIDENTIAL ELECTION COST \$10,988,509

Senate Investigating Committee Files Report on Campaign Expenditures; Calls Disbursements Menace

WASHINGTON, D. C. (UP)—City, campaign costs of electing a president of the United States in 1920 were \$10,988,509, as estimated by the senate investigating committee which today filed its report with congress. Of this amount, republicans spent \$9,100,230 while democratic candidates were \$2,237,770. The compilation took into account only the expenditures made by or in behalf of candidates of republican and democratic presidential candidates, and of national, state, congressional and senatorial committees of both parties.

Asks Congressional Study.
Senators Keayon, Iowa; Page, New Jersey, and Spencer, Missouri, republican, and Pomeroy, Ohio, and Reed, Missouri, democratic, signed the report, which was unanimous. While stating their conclusion that "the expenditure of these vast sums is a present and growing menace to the nation," the recommendations for congressional action were made except that the suggestion was made that the national committee of the first congress should consider the question. Constitutional difficulties may intervene to prevent legislation on the subject, but congress should "take proper steps to submit" a constitutional amendment dealing with the difficulty "if it is found necessary."

While the largest sums of campaign expenditures were those of the national committee of the republican party and \$1,315,274 for the democratic, candidates who sought presidential nominations, the total accounted for a total of \$2,950,000.

Cools in Primaries.
Major General Leonard Wood's effort to secure the republican nomination in California was \$400,000, while Governor Coe, republican, spent \$220,000. James W. Gorman, former ambassador to Germany, was elected at \$100,000. Senator Francis P. McPherson, republican, Maryland, spent \$250,000.

Congressional Funds.
Something over \$700,000 of the total went into senatorial congressional contests. The republican committee spent only \$31,000, while the democratic national organization created for the purpose. The republican committee spent \$375,000, while the G. O. P. senatorial organization spent \$250,000.

MRS. ORTHWINE IS HELD FOR MURDER OF ZIEGLER
FATAL Shooting Results when Man Forces Way into Apartment of Woman Friend, Authorities are Told

CHICAGO, (UP)—Herbert P. Ziegler, manager of a city company's branch office here, was shot and killed at a "hook club" in the North Side apartment house here by Mrs. Orthwine in her North Side apartment.

According to the police Ziegler and Mrs. Orthwine had been friendly since she was divorced six years ago from Ralph Orthwine, millionaire St. Louis oil man, when she was said to have received a settlement of \$250,000, but lately quarrels were said to have been noticed by Mrs. Orthwine to Ziegler's attentions to other women.

A quarrel last night in a North Side apartment garden occurred when Mrs. Orthwine and Ziegler met each in the company of others. Later, she told the police, Ziegler forced his way into her apartment and when he became threatening she said she had called the police.

Police search of Mrs. Orthwine's apartment revealed a dozen unopened bottles of gin in a closet.

During the quarrel over another woman at the garden, Mrs. Orthwine told the police, she and Ziegler threw wine into each other's faces and that Ziegler followed her home.

Ziegler was married, the father of a child, and his wife, who did not reside with his family, she lived at a downtown home.

The Pneumonia Month
March is a typical pneumonia month and usually gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every cold, no matter how slight, is given prompt and intelligent attention, there is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and spreads in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and not only cures a cold but prevents its resulting in pneumonia. It is pleasant to take. Children take it willingly—adv.

Princess Alfonso de Bourbon, cousin of the king of Spain, with Miss George Cohan, actress daughter of George M. Cohan, snapped on the sands at Palm Beach. Miss Cohan and the prince are among the merry-makers at the famous resort and are frequently seen together.

JAPANESE BUTTERFLIES IN DEMAND IN COMMERCE

Boston Importer Applies to Yokohama Trademark Organization for the Gaudy Insects

TOKIO, (Correspondence of the Associated Press)—The Yokohama Chamber of Commerce has received a request from a Boston importer to be put in touch with some exporter of Japanese butterflies so that he may secure not only the complete butterfly, "dried and in perfect condition," for collectors and enthusiasts, but a few shipments of the gold from butterflies' wings, to be used as gold dust and for gold paint.

STRIKE LEADERS GO TO LEGISLATURE FROM JAIL

Winthrop Prison Doors Open to Labor and Three Men Chosen as Lawmakers for Province

WINNIPEG, Man., (UP)—P. William Ivens, John Queen and George Armstrong who were released Monday from the provincial jail after serving one year sentences on charges of making scurrilous utterances in connection with the Winnipeg strike in 1919, took their seats last night as members of the Manitoba legislature here.

W. A. Prichard and R. J. Johns, who received similar sentences, on the same charges, also were released. Because of good conduct, all five were freed a few weeks before the expiration of their sentences. All were leaders of the strike.

Ivens, Queen and Armstrong were elected to the legislature last fall, while they were in jail.

FENIANS AVER OLD MEN HELD

Few Prisoners in Internment Camps of Military Age, Say Nationalists

DUBLIN, (UP)—Of the 1000 prisoners confined in internment camps in Ireland the vast majority, according to spokesmen of the Sinn Fein, are non-combatants, many middle-aged and some quite elderly. Fein, it is asserted, are the much-wanted members of the Irish republican army.

The prisoners include men in every walk of life only a limited number of whom, it is said, took an active part in the republican movement. Among them are many whose principal offense, it is stated, was the interest they displayed in the Gaelic League or organization which for many years has sought to revive the Irish language.

A statement regarding the death of the two prisoners, Joseph Torney and Patrick Sloane, Ballyknishin County Down, recently has been given out by the Sinn Fein publicity bureau here. It says that the official report that the two men were shot at discretion, obeying the orders of a sentry was incorrect. That the sentry fired without provocation while the men were standing at a point which by official notification to the prisoners was not out of bounds.

The Sinn Fein commandant of the prisoners reports, it is stated, that several prisoners have been fired on by sentries without cause, and that he himself narrowly escaped a sentry's bullet while walking on the road near the spot where Torney and Sloane were killed.

BOARD OF THANKS

The war reduced the French population by 4,000,000.

BACHELOR "SOURDOUGHS" START HUNT FOR MATES

Organize Club at Anchorage and Send Appeal to Outside World for Twenty-five Brides

ANCHORAGE, Alaska. (UP)—Bachelor "sourdoughs" of Anchorage have organized a club and have sent an appeal to the outside world for wives. Twenty-five brides, ranging from brunette maidens to mature widows, are wanted.

"The charge of the wifeless brigade," as an Anchorage newspaper described the move, came when the men decided they were not appreciated by the few single girls here. "We have been scorned and will revolt," they said.

So the club was organized and a cablegram sent to Seattle asking that the desire for brides be broadcasted to the world. The bachelors promise to pay railroad and steamship fare from any part of the United States and to provide champagne.

A prospective bride, when she arrives, will be allowed to stop thirty days free at the Hotel Anchorage while the men and the woman look each other over and decide if they will go through with the move. If a wedding results, the hotel will give a five-day furlough of the bridal suite and a banquet and ball to the couple.

"Play the field," appeared to optimize the choice of brides. Two of the would-be husbands want orphans, three want widows, three "petite" blonds, three brunettes and four ask for "boss" work in the head but strong on jazz, they said.

From another part of Anchorage, around the afternoon tea cups, came the "Anvil chorus" when the announcement was made of the club's organization. "Why, the very idea," rejoined with other remarks accompanied by an uplift of dainty noses and haughty tom of heads.

VETERAN OF WORLD WAR EXCELS AS RECRUITER

Former Chicago Law Student Broude Wins Quiddities in Strenuous Effort Through Blue Ridge Hills

WASHINGTON, D. C. (UP)—When Edward M. Bentley, Chicago law student, enlisted in the army for the war, he went in lock, stock and barrel the whole 205 pounds of him. He got to France with the First division, became Sergeant Bentley, was wounded and came home to conduct a single-handed recruiting campaign in the teeth that has backed all previous exploits of the kind off the map.

The sergeant conceived the idea of "liking" through the Blue Ridge mountains in search of good soldier material. He was at it eight months. When he found up with a stay at Walter Reed hospital here to recover from the exhausting effects of the experience, he was only 65 pounds in weight, wore 17 pair of army shoes, been shot at by a suspicious moonbather, but had outgrown 1107 recruits, 1004 of whom had passed muster and are now in the army.

Incidentally, the suspicious young moonbather who took a crack at the soldier with a rifle is one of the recruits. Bentley talked it out with him over a slip of the mountain dew and said he had turned a poor whizky maker into a good soldier.

HENRY J. WALL—adv.

Who are You?

NINETY-NINE chances out of a hundred you are the man whose second finger on the right hand is expert in pressing electric buttons.

An electric button is a pretty small thing. By it we make elevators rise and fall for us, we summon employes, we order orders, we start big machinery whirring, we turn the light on and off, and—we could go on indefinitely. But remember, it is not the half-inch button that does all this.

There is the tremendous power behind the button; the huge dams and water turbines (in case of water power) or the enormous boilers, turbines, engines and generators (in steam plants); the wires of high-tension transmission lines, and the innumerable smaller wires stretching like a web from your very bedside out over the whole country.

1,400,000 people have invested their earnings in the securities of the electric light and power industry. Besides these foresighted citizens there are the investments of insurance companies and the loans made by banks.

They make possible "the button" that your finger presses morning, noon and night. Thirty-five million others enjoy the same instantaneous service.

There are still 14,000,000 homes in the United States remaining to be wired. 14,000,000 unwired homes mean that millions of people are without the benefit of electric light and power in their residences.

Gradually most of these residents will demand electric service, and the electrical industry with the support of the public, will find the means to extend this service to these prospective patrons, so they, too, will be able to press that half-inch button.

Meat — then and now

The most peddler of the old days, who killed his own live stock and then sold the meat from the salt cure, is now from our large towns and cities. He was a peddler and did good service but he couldn't keep up with his job. Crude methods had to give way to new ideas in sanitation and distribution.

Concentration of population drew the peddler and his wagon out and brought the modern packing industry and the neighborhood retailer in his place.

And the modern packing business means this: That near the farms and ranches, the centers of live stock production, are packing plants that receive and manufacture the meat products you use.

And in cities the refrigerator car is unloaded into branch houses, chilled and sanitary, from which deliveries are made to your meat shop. And all the time the meat is kept so chilled that deterioration is prevented.

Swift & Company's plants and branches are co-ordinated, interchanging supply and supporting each other, when necessary, so that no section of the country may ever lack its daily meat.

Food Movement in Eastern and Central Europe Called Almost Impossible

LONDON, (AP)—Lack of locomotives and freight cars to transport food and other supplies is one of the worst features of the distressing situation which prevails in eastern and southern Europe, says M. Hotovec, the Czechoslovak minister for foreign trade, who has been visiting London.

The minister said that there were tens of thousands of freight cars in these parts of Europe which were in need of repairs but could not be repaired due to use because of lack of necessary material and technical experts to do the work.

He asserted that the peace treaty had laid down the proposition that the reparations commission would distribute all railway rolling stock to Germany. This means that all rolling stock in Austria, Hungary and those which were surrendered by Germany but that virtually nothing has been done to date.

He also stated that the rolling stock in Czechoslovakia had been used for the consequent food pitees in central Europe.

NEW ARMY AIRSHIP TO CARRY 100 PASSENGERS

Giant Dirigible to be Provided for Military in Addition to Big Blimp Bought from Italy

WASHINGTON, D. C. (AP)—The army will have an airship capable of carrying 100 passengers in addition to the crew when the great Italian semi-rigid dirigible "Roma," recently purchased, arrives. An air service detachment is enroute to Italy to deftend the big bag and bring it home on ship board.

The "Roma," driven by six twelve-cylinder engines developing an aggregate of 2400 horse power, has a lifting capacity of 65,000 pounds. She can carry nearly 10 tons through the air in addition to herself and her crew on an estimated maximum speed of 84 miles an hour. The big gas bag, holding 1,200,000 cubic feet of gas, is longer than all but the most modern war craft, 410 feet, and is 82 feet wide while bag and car together to a height of 88 feet, 6 inches.

ATTENDANCE TAKES JUMP AT CHICAGO ART SCHOOL

New Records are Set During Year at World's Largest Institute of Its Kind

CHICAGO, (AP)—Art is keeping right up behind the band these days. Attendance at the art school of the Chicago Art Institute, the largest art school in the world, set new records last year, Controller C. A. Hough announced. Pupils at the school for 1920 numbered 4267, he reports.

Public attendance at the institute continued to climb in 1920, reaching 13,614 persons. This was nearly 100,000 more than the previous year. Visitors on a recent Sunday totalled 15,000.

In membership the institute is first in the country, Mr. Hough reports. It has touched 15,000. The museum's collection has increased by a quarter and a half million dollars, its endowment amounting to about \$3,500,000. The Byrnes library of the institute devoted entirely to art, has acquired a total of 14,000 volumes, while the Burnham library devoted to sciences.

RICKARD TO PLAY HAND ALONE; PAYS OFF THE OTHERS

New York Promoter Gets Bid of Brady and Cochrane in Handing Champ Match

NEW YORK, (AP)—"Tex" Rickard, boxing promoter, has taken over the interests of William A. Brady of New York and Charles H. Cochrane of London in the world's heavyweight championship match between Jack Dempsey and Georges Carpentier which the three promoters originally agreed last November to stage in 1921.

At the same time that Rickard handed to Brady, Cochrane's New York representative, a check for \$60,000.00, representing Brady's and Cochrane's share of the \$100,000 posted by the promoter on signing the papers, he announced officially that the match would be held Saturday, July 2. The location had not been fixed but he had asked the boxers for an extension of 36 days.

LEWIS GETS ANOTHER

BIRMINGHAM, Ala. (AP)—Dr. Lewis, the Lewis and Clark of Panhaskia, Hungarian champion, here last night in two straight falls. Lewis won the headlock in the first fall for a 2-0 lead. In the second, 25 and 12 minutes respectively being required.

Brief Bits of Sport

Bas B. Johnson has again spoken. This time Basile, who rules most of the baseball world, declares not a ball player who has been run out of his game on account of last year's diabolical acts, will ever again play in organized ball circuits.

That is very definite, and probably Bas means just what he says. Johnson says the grand jury say and the courts may whitewash but organized baseball has sufficient evidence upon which to bring about the permanent banishment of all persons of White Sox and other baseball stars.

The statement has all the appearance of a scheme to checkmate possible plans of club management to whitewash some of the stars and let them back into the fold.

Rickard says there are only three likely looking men in the heavyweight division today; they being the men he has contracted for battles.

Tex might give some of the fellow he doesn't think so much of a chance, anyway.

Bill Brennan gave the champion a hard battle in 12 rounds, and though beaten he gave the champion as good as he received until the fatal blow was slipped over.

When there is Frank Moran, who has been looking every bit as good as Carpentier of late. And perhaps Prof Fulton might be given some consideration, if Tex only would look that way.

Where Rickard gets his dope to class Willard with either Dempsey or Carpentier has not finite student-hopping sideways.

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

APPRECIATION I want the public to know that I heartily appreciate its patronage of my recent selling event: The volume of trade exceeded my most optimistic estimates. THANK YOU. HIGH PRICES GONE My high-priced stock is gone. The people who bought it during my sale will have reason to favorably remember this store—and I believe they will. What few items of the high-priced stock remain have been re-marked—regardless of cost to me—with the new 1921 Prices. I will continue to Feature Quality Merchandise in shoes for the whole family and clothing and furnishings for Men, Young Men and Boys. It is arriving daily now to replenish my vacant shelves. This new stock is remarkable not only for its lower price but for better quality in fabrics, workmanship and colors. Competition among manufacturers and wholesalers and the lower prices for raw materials is giving us better goods at the lower prices. 1921 POLICIES My merchandising policies conform to the popular demand for economies. I am buying at the very best prices obtainable, buying in quantities that give the discount benefits; and, re-selling on a correspondingly small margin. The new stock and the new prices will be a revelation to many. Come in and inspect both. J. A. SINCLAIR

FOREIGN TRADE SHOWS DECLINE

Volume of Commerce with Europe and South America Falls Off in January

WASHINGTON, D. C. (AP)—There was a sharp falling off in European trade in January and a reduction in the volume of trade with South America. A trade review issued today by the department of commerce showed that exports to Germany decreased nearly \$10,000,000 as compared with December and imports from that country nearly \$1,000,000. The export figures were \$48,802,000 and the total imports \$47,000,000.

Everything Glitters

THE goddess of Fashion must have had a twinkle in her eye this year when she turned her thoughts toward spring millinery, and almost everything in hats reflects that twinkle. Colors are recovered and rich—they can afford to baste on the outside, for the most comprehensive description of the new modes is found in the phrase "Everything Glitters." It fell from the lips of an expert millinery authority after a study of a great collection of new models, but is not meant to convey that everything has a hard brilliance. Hats are radiant with a play of light over surfaces that catch and reflect it.

The outstanding feature in spring hats is cellophane materials, sometimes alone, but often in conjunction with other fabrics. Fashion has led up to this brilliant stuff by the way for braids and embroilleries and, after several seasons of experimenting, manufacturers have advanced cellophane to the place of first importance. The new hats—of whatever material—are soft and light, their lines beautiful and becoming and their colors rich. Laces, flowers, bows, veils and handsome ornamental pieces are the trimmings favored.

The group of models shows above includes four hats that are representative of the season. At the top a chic street hat has a crown of cellophane and a draped brim of corded moire, all in gray, with two coral pins by way of finish. It is a simple but impressively clever bit of artistry. At the right another gray hat of cellophane, with a gray rose of folded ribbon at the front divides honors with a very handsome navy veil. A lovely dress hat at the left has a body of black half-hair with rows of narrow cellophane panels applied and a fringe of malines about the graceful brim. A wreath of fine flowers and a generous wash of French blue ribbon completes a hat that every woman loves. A similar style below, of navy half-hair and cellophane with a wreath of old blue poppies, fulfills the mission of a less picturesque but equally pleasing dress hat which is equal to many occasions. Black and brown are great favorites and the refinement of lace and malines in both colors is an attainment that designers make the most of.

RAIN OR SHINE

the former of the county will come to Twin Falls to hear Mr. Shriner in the Parish hall Thursday - adv.

March Roamed in Without Vestige of Rampant Fuss

LIKE a woolly lamkin March ushered itself in a quiet of men, mild of manner and without a symptom of the rampant lion, which it is expected to portray when the month makes its coming.

By the way, girls, March is an unlucky month in which to wed, save for one single day, the 27th, so said the astrologers, who also remarks that the first day of the month is especially calamitous for gluttons. So beware!

Although the top temperature yesterday was one notch below Sunday the night low mark was eight degrees higher than in the preceding nocturnal period, being 39 at against 31.

But cooler weather is threatened for tonight through the south portion of the state, with generally fair tomorrow.

Miss Margaret Bihola of Duhl spent yesterday in the city. James Bihola of Buhl was a Twin Falls visitor yesterday.

B. M. McKay of Milner registered in Twin Falls Monday. E. H. White is in the city from Patel on a business trip.
