FRENCH CLEAN TO OGDREON REGIME

Recognition of Mexico is Declared Imminent in Dispatches from Paris

WASHINGTON, (AP)—Recognition of the Ogdreon government in Mexico by France was reported as "imminent" in advices from Paris received here today in official circles.

Recognition of Mexico by France would cause some surprise at the department of the information and understanding that has existed for several years between the principal European governments and the United States that the relations of those governments with Mexico would be based largely upon the attitude assumed by the American government.

An immediate effect of recognition by France might be, it was explained, the serious curtailment of the aggressive activities of the United States in Mexico unless such action were confined to the banks part to the agreement.

The report that France has prepared a letter regarding that of President Harding and that it would be used in a manner to constitute recognition is regarded as an indication that the French government has decided to take a stand along the question of recognition.

BRITON DENIES CHANGE FOR FRICTION WITH U. S.

Lord of Admiralty Says Report of Statement on Naval Policy Incorrect

LONDON, (AP)—Lord Lee of Fareham, Minister of the Admiralty, has declared today that his reference to the United States in his discussion of naval matters at a meeting of naval architects here was not intended as a declaration of war.

"We saw the naval committee of the United States in London, and we are sure that America still maintains a navy at least equal to that of any other nation. It is a 'sin' to equalize with the navy of any other nation in the past and never would we have done so in connection with the great British fleet."

The difference between our formula and America's is too slight to be the subject of controversy, still less of friction or hostility."

# CO-OPERATIVE MARKET PLANS AT HIGH PEAK

## Farmers' Organizations Considering Most Extensive Venture into World of Trade in History of Country

### TWO PROJECTS OFFERED FOR HANDLING OF GRAIN

CHICAGO, (AP)—Farmers' organizations of the United States today are studying a plan which would combine the two extensive co-operative marketing plans in the history of the country.

Two well developed projects for handling grain already have been worked out and are now being presented to farmers. If adopted, they will go into effect this summer. Efforts are being made to unite the two farm groups concerned on a single system.

The final resolution meeting for the handling of grain, which includes the handling of all grain, is set for April 9. The other organization, which concerns itself only with wheat, is already in operation.

On April 7 the first working meeting of a national livestock marketing committee will be held here. Its object is to develop a national livestock marketing plan.

### Fruit Growers in Line

Coincidentally with these two meetings, fruit growers of the country will hold a conference in Chicago, at which consideration will be given to the possibility of national co-operative effort.

The national plan for marketing of wheat and livestock are the culmination of much local and regional co-operative enterprise already established by farmers.

The livestock growers in the plan mentioned are the American Farm Bureau Federation and the Wheat Growers' Association of America. Both organizations are developments of the last few years.

The "wheat strike" of the last year first attracted attention to the Wheat Growers' association, which has its headquarters at Wichita, Kan. With the assistance of Aaron Sapir, a California marketing expert, it worked out a plan to sign up five million bushels, or about half the crop, in a wheat pool.

### Farm Bureau Leads

The general grain and livestock marketing plans are those which the American Farm Bureau federation has taken the lead. The federation was permanently organized only a year ago, but the foundation of a national farm bureau, already long established.

The grain marketing plan, which has the federation's support and is to be presented to farmers in the various states, between now and April 9, is the outcome of six months' work. It was drawn up by farmers and other experts under a committee of 17 with H. Gustafson of Lincoln, Neb., chairman. As head of a big co-operative organization of farmers in Nebraska, Mr. Gustafson had already made a success in this field.

The livestock committee appointed by the American Farm Bureau federation to devise a national livestock marketing plan starts with the same aim as the federation's grain committee, but as it was created later it is just getting into its labors at the present time. This is called the "Committee of Fifteen."

Differ in Detail

While the two grain plans differ in detail and classify each call for a national sales agency. Whether the livestock committee will similarly advise a national livestock commission sales company is one of the questions before it. Mr. Gustafson is also chairman of this committee, and H. W. Mumford of the Illinois Agricultural Association is secretary. Dr. Mumford reports there are 5000 co-operative livestock shipping associations and half dozen co-operative livestock companies in the country.

Co-operative business being transacted at the present time by farmers runs into the hundreds of millions of dollars, according to figures collected here. The capital farmers have invested in co-operative grain elevators is over one million. The national organizing movement has also touched the hundreds of farmer-owned co-operative elevators, and they recently

## LAUDS AMERICAN QUICK COMEBACK

British Trade Authority Says United States Passes England in Recovery

LONDON, (AP)—America is dealing with the problems of reconstruction and the restoration of trade more successfully than the case in England, Sir Alagon, fifth, former president of the Association of British Chambers of Commerce, declared in a Times interview. Sir Alagon has returned recently from his fifty-first visit to the United States.

Among factors cited was to American factories in the situation, the British business man stated, were a more rapid reduction of values than in England and cooperation of labor in reducing the costs of production.

Mill workers in the United States, he said, are accepting wage reductions of as much as 25 per cent in order to enable manufacturers to turn out goods at prices which the public would pay. He said if this movement went much further it would mean that the United States would soon be in a strong position in the matter of exporting goods and would be able to secure prices that would otherwise come to Great Britain.

American loans of work were about the same as those in England, he stated, but the men worked much harder while they were in the mills.

Sir Alagon expressed an opinion that the situation in England is moving toward April, based on the fact that bottom prices were being reached, promising restored confidence and increased buying. He stated an open and frank dealing with Americans and cooperation between the two nations. He said he did not attach much importance to the question of tariffs because of the creditor position of the United States.

The veteran outfielder was given a salary increase of 10 per cent. It was said, and was announced, that the team finishes in first, second or third place.

## BILIARDISTS IN MARCH

NEW YORK, (AP)—Walker Cochran and Edouard Horemann, Belgian billiard champion, have been matched for an 18 1/2 ball line match here next week. It was announced today. The match will be at 4800 points in blocks of 400. Cochran defeated Horemann in a 3000 point match at Detroit last week.

## DEAN BEATS BEPP

SALT LAKE (AP)—Ira Dean, Utah's premier middleweight wrestler, won last night over August Bepp. Dean took the first and third falls, the center pinning the Italian's shoulders to the mat for the second fall.

## Brief Bits of Sport

Jim Smiley, agebrush sage, says: "What's a will to judge the 'licker how that's allus a way."

Spider Baum, veteran pitcher of the Coast league, given his honorable discharge by the fleet this winter, has secured the sum of \$1,000 to buy an outlaw baseball on the coast this year.

The salary is not so remarkable but in the fact that the Spider has declined it is very remarkable.

Speaking of Bee pitcher recalls to mind that Ralph Strong, star of the Salt Lake corps last year, is to be barred from playing in organized ball circles by jumping his Bee contract.

Looks as though Tommy Gibbons has played the game to his own advantage for tonight. The St. Paul light heavyweight boxer is to meet Al Reich in Cleveland that night for a purse said to have engaging proportions.

We don't know just what is going to happen to the indited White Sox players when the court gets at them this week but if they are guilty we know what should happen.

Benny Knuff, Glanats' outfielder, says he ain't doing nothing to nobody, and if he ain't he ain't got nothing to worry over.

Counsel retained for the defense of the indicted Pale Hoos players insists his clients are being given a "dirty deal."

As it has been generally understood somebody gave thousands of innocent fans worse than an ordinary dirty deal in 1919.

Most states have tried to get boating bills through recent legislative sessions and a few have done so. Others have been doomed to death.

But what every state in the union wants is a law that will regulate that game and put it on a basis that will guarantee a square deal for patrons of sport.

Edouard Horemann is an exploded billiard player. Both Jake Schaefer, and Walter Cochran were beaten by the Belgian ex-champion.

And neither Cochran nor Schaefer are considered in Willie Hoppe's class of ballline billiards.

Manager Tix Speaker of the world's champion Cleveland Americans, registered his first home run of the season in a practice game yesterday at Hubbard, Texas.

Stipitatus Zuyeko meets Joe Vreug of Cleveland in a final wrestling match tonight in the Ohio state. They are heavyweights.

The first game in the world's championship chess tournament at Havana, Cuba, between Dr. Emanuel Lasker, the German champion, and Jose Capablanca, Cuban title holder, was declared a draw after the fiftieth move. Play continues today.

University stars from all sections of the country are entered for the reorganization of the University of Pennsylvania, scheduled for Franklin field in April. Derring of Nebraska, and Gallagher of the Kansas Agricultural college, are booked for competition in the springs and hurdles.

Bing Miller and Dick Britton, the two players awarded the Washington honors by Judge Landis, in his decision against the Pittsburgh Nationals, have arrived at Tampa, completing the Washington roster.

President Clark Griffith of the Washington Americans reports that Walter Johnson is fast now, ready to notch a slate, and probably will be able to resume his place this season as premier of the Washington pitching staff.

Paul Scholes, 620 batting champion of the Pacific Coast league, who finished the season with an average of .373, 33 home runs and 51 doubles, has resigned of the Chicago White Sox camp at Waco, Texas. He will be tried out at first by Manager Gleason.

The United States Amateur Hockey association has voted to invite colleges into the competition for the national championship.

# JOBS SHORTAGE DEALS SERVICE MEN HARD BLOW

Four Hundred Thousand Veterans of World War Out of Employment in United States, American Legion Reports

## SITUATION SEEMS TO TAKE TURN FOR BETTER

NEW YORK, (AP)—There were 400,000 veterans of the world war out of work in the United States on March 1 last, according to the statistics issued by the American Legion. This is a reduction of about 100,000 from the "peak" of more than 500,000 jobless ex-service men in the country shortly after January 1 last, and the Legion reports state there is promise of further improvement.

The survey of the national situation on which these figures are based was made by the American Legion Weekly, official publication of the legion, which states that the unemployment situation as affecting the veterans "appears to have taken a turn for the better."

A chain of employment agencies operated by the legion in every state has been set up to relieve the situation, and the legion officials. The legion has been instrumental in obtaining work for veterans, in discouraging the migration of unemployed men toward the great industrial centers and has encouraged a movement from cities to the farms. It has demanded that the workers who are being sent to the city to work should enjoy security rights on a par with those of military age when they are at home.

Ex-service men have suffered more in proportion to their numbers than other workers, according to the legion's survey, because of the operation of the existing rules and efficiency standards. Nearly a year is required for the returned veterans to get back into the old stride in industry, according to the testimony of large employers of labor. Another thing that has handicapped the ex-soldier is his restless and pensive tendencies. Both products of the strain and circumstances of war service.

Hoarding of factories and mills in the textile regions of New England and in the mining and industrial centers of Pennsylvania leads observers in these parts to believe the worst is past, according to the legion's survey. The automobile centers of Detroit, Cleveland and Indianapolis are showing slight improvement of conditions in Chicago conditions are stationary, it is said.

## Trend Toward Land

Throughout the agricultural middle west a general movement from the cities and towns to the farms is reported. The average ex-soldier had little taste for agriculture when he came back from the war. It was hard to keep "on down on the farm after they had seen Europe. They chose to work in the small factories or stores in the neighboring county seat, where, during 1918, jobs were plenty and wages high. When those jobs began to go there was at first an exodus toward the larger cities. The legion serves to discourage this. That movement has about spent itself and farmers throughout the west now report little difficulty in getting help, and except in the larger cities there are few able bodied ex-service men reported out of work in the middle west.

# New Spring Styles for Easter Wear

This new Utz and Dumm creation is a rare embodiment of snappy and fine quality in a strap pump of Blue Satin.

Of course no woman would think of starting out in a new spring suit or dress without proper footwear, for a shabby looking or ill-fitting pair of shoes will ruin the entire effect of an otherwise faultless attire.

It is made over a popular fine-fitting last and carries that expression of daintiness that harmonizes with and adds to the attractiveness of the most fashionable gown.

To those who are looking for a perfect fitting shoe that will add to the final touch of appearance, we can most highly recommend Utz and Dumm Company's "Baby Shoes of Quality" in our one-strap gray kid.

We also wish to offer an exceptional value in oxfords and ties, medium Louis heels, in the following: black kid, brown kid, gray kid and patent leather.

These oxfords are styles of good illustrations of fashionable footwear. Their perfect fitting qualities add to the feeling of satisfaction. They are made to retain their shape during a reasonable long life of service.

WHEAT PRICE DECLINES FOLLOWING EARLY GAIN

Quotations at Close of Unsettled Session in Chicago March 13 to 14 3 3/4 Lower

CHICAGO, (AP)—Wheat traders generally assumed a waiting attitude today pending development of fresh export business or of definite advice of crop damage. Movements in wheat to the industrial output tended to check both sides.

Corn was upheld by scantiness of receipts. After opening 1/8c off to a shade advance, including May at 60 1/4 to 60 3/8, the market suggest a trifle and then record slight gains.

# CHANNEL MADE DEFENDANT IN LEAGUE'S SUIT

Highway District Executive's Removal Asked at Hands of District Court

Alleging misconduct in public office E. F. Walton, representing the executive board of the Tappan league, has filed an order asking in the district court against G. E. Channel, a member of the Twin Falls highway district board. The papers were prepared and recorded by Attorney Turner K. Hatfield and Edgar G. Mills and were immediately withdrawn after filing.

There are several specific charges, out of 30 charges of Channel's alleged misconduct, which are set forth in Mr. Walton's complaint against Mr. Channel. One is neglect and refusal to perform the duties of the office as a member of the commission by filing certain claims and bills against the district before they were regularly allowed at a regular meeting of the board; second, making unauthorized expenditures aggregating \$1,050.00; third, failure to require the secretary-treasurer to give bond and sufficient surety to cover the amount of money he is required to handle.

First of a Series. The complaint against Mr. Channel is said to be the first of a series to be filed against each member of the highway district board. It is stated similar charges are to be filed against G. H. McMillan, J. E. ... and the other members. The three commissioners were appointed to office by the governor in 1918. Their terms expire in January, 1921.

In the suit appeal it made to the court to call Defendant Channel up for hearing within a few days. Process served on Channel in the district court at this time may cause a delay beyond the time fixed in the complaint, according to Justice W. A. Hubbert.

On this appearance the defendant will be required by the plaintiff to show cause why he should not be summarily removed from office and judgment of \$500, together with an amount for costs and disbursements, be rendered against him.

Justice of the peace that the commissioner has refused and neglected to make publication of percolated reports and to file same as required by law. Allegation is also made that the law requires that the bond of the secretary-treasurer shall be sufficiently large to cover all amounts handled by him with an additional 25 per cent.

Case Quoted. Following is a quotation from a decision rendered by the supreme court of the state, Robinson against Haffner, in which attorneys for Walton declare they are losing their case: "The report was not made, and the evidence shows that such action was not based upon the legal advice of the prosecuting attorney, but whether such advice was given or not, the statute imposes his duty upon the board of county commissioners, and from reading the section it would seem that such report would be a matter of great concern to the state and highway districts of the state, and the general improvement of the roads of the state and the common good of the people; and the defendant and the board of county commissioners had no authority or authority to exercise the arbitrary judgment that it could be of no service. The legislature which enacted such law believed it to be of the greatest importance to the state, and the legislature had the right to pass such a law, and it is the duty of a public official to obey the law, and he cannot claim that he acts upon the ground that he does not believe it will be necessary to obey such law."

## FIRST BASEBALL GAME OF SEASON IS WON BY L. D. S.

Mormons Defeat the Christian Church Team in Thrilling 8 to 7 Encounter

By a score of 8 to 7, the L. D. S. Mutual baseball team on Wednesday afternoon defeated the Christian church team. The game, the first official game of the season, was staged on the old city ball grounds. Full nine innings were staged with the Christians leading 7 to 4 at the end of the fourth. The Mormon pitcher shutout half of the Mormons after that.

Score by innings: Mutual, 10031001131—4; Christians, 100000000—7. Batteries: Mutual, Jarman and Frazier; Christians, Patton and Griggley.

WANTS LAND REDEVELOPED. Suit for the removal of land from the city limits has been filed in the district court by the Kootenai & Bronk company. The action was filed today and is for the purpose of compelling the city to allow the filing of certain offers in including the parcel of land with another district in incorporation, proceeding.

BANK BRINGS SUIT. The Farmers National bank of Buhl makes A. V. Hendricks defendant in a suit in which the sum of \$200 is asked in judgment. The claim is based, it is stated, on failure to fulfill the terms of a purchase contract.

THE STARTING POINT

Sixty odd men last evening gathered in a hotel dining room here and for about three hours they sang together, ate together, smoked together and listened to each other talk...

Casual acquaintance gave place to a degree of intimacy that was not brood contempt but on the contrary produced a depth of sympathy and toleration...

Last night's affair was only typical of the benefits that flow from closer association between men and indicative of the course that must be pursued if the unity of effort that is essential to the solution of Twin Falls problems is to be attained.

Material growth of the community has led to bring about a division of interests and the Twin Falls Spirit has been undermined in the development of things; but the Twin Falls Spirit must be restored before over Twin Falls can emerge from her present trials with the same high degree of credit with which she met and overcame the obstacles that beset her in her infancy.

The task of developing personal contact among Twin Falls folk may seem more difficult now than it was in the early days, because there are more people to be dealt with.

Organizations can help wherein they afford a meeting place and common interest for any group of citizens; but the detritus of organizations in this undertaking must be of scope and vision so broad that they look beyond their own immediate memberships and contemplate the assistance and co-operation of every other element in the community life.

The several organizations of Twin Falls people, in this undertaking, which will stand in the place of the various "outfits" that made up the nation's fighting forces during the world war.

In each of these military organizations there was developed a fine esprit d'corps, and this in the aggregate made up the morale of the army.

It is significant that Twin Falls people were most closely united and Twin Falls advanced farthest during the time of hardship incident to planning and it is significant that the bonds that unite these men were severed in the fire of common stress and danger.

The period of tribulation has returned to Twin Falls, in common with many other communities. Adversity, by all the rules, should restore the Twin Falls folk.

Let us make sure first that we would rather live and work in Twin Falls than anywhere else we know of; and then let us endeavor to give our fellow Twin Falls credit for the same degree to the community. Let us try for

a while to work on the theory that we are all in the same boat and all striving for the betterment of conditions in Twin Falls. Let us try to grasp the other fellow's viewpoint and to co-operate with him just as far as we can to the attainment of this end, and, anyhow, let us try to know the other fellow just a little better.

It is the development of contact between individuals that will restore Twin Falls and the Twin Falls Spirit.

PROCEEDINGS OF THE COMMISSIONERS OF THE TWIN FALLS HIGHWAY DISTRICT

(Continued from Wednesday's issue)

# SUNSHINE CLUB OF TWIN FALLS IS OUTCOME OF JOINT MEETING OF ROTARIANS AND KIWANIAN'S

## SONG AND STORY ADD HAPPY NOTE TO THE PROGRAM

### Local Business Men Gather About Banquet Board and Discuss the General Existing Conditions

With song and speech, in the midst of an atmosphere of happy good will, at a gathering of between 75 and 100 local business men, the Kiwanian club and the Rotary club, was held in the Regency hotel dining room last night, the Sunshine Club of Twin Falls. The Sunshine Club is an institution, without membership fee or dues. Except for its "articles of faith" to which every man present at the meeting pledged, it is but an imaginary institution. Its membership roll is not confined to those alone who were present at last night's meeting, but is intended to include every person who has the spirit of its foundation appeals.

The occasion of last night's gathering was a dinner given by the Rotary club, the members of the Kiwanian club, Hal G. Blue, president of the local Rotary club, served as chairman and toastmaster and, following a dinner interspersed with songs in which everybody present joined, something like a dozen brief speeches were made by officials and members of both clubs.

Speakers on behalf of the Kiwanian club were E. J. Olander, president; H. A. Swezey, vice president; John W. Graham, C. E. Wright, Frank L. Stephens. The list of Rotary speakers included the following—Astor B. Wilson, Stan H. Kayler, C. E. Booth, Dr. Charles R. Scott.

Speeches Well Received.

Every speech carried with it a plea for a greater degree of harmony and a better understanding among men, but with respect to local problems but in a general sense.

The active assistance of all present was pledged to the work of bringing about improved local conditions and to the task of creating a healthy atmosphere in a business sense. Practically every speaker pointed out the need of a general sense of responsibility, thinking that it is possible to bring about real improvement and all dwell upon the need of improvement if the old Twin Falls spirit were not to be allowed to perish utterly.

The session lasted until a late hour and both clubs look forward to the repetition of the occasion in the near future.

Carle Olitz of the Rotary club added materially to the pleasure of Kiwanian night by playing a beautiful string quartet was one of the most enjoyable features of the session.

### MURTAUGH FARMERS ARE FAVORABLE TO CONTRACT

### Sugar Beet Growers Sign an Agreement with Company for Coming Season

Reports reaching Twin Falls today of a meeting of sugar growers of the Murtaugh district, held last night, indicate general satisfaction with the contract offered by the sugar company for the season of 1921. It is stated the agreements were freely signed by those attending the meeting.

Short talks made at this meeting were impressive along the subject of benefits derived by the farmers through the growing of sugar beets.

The following statement, made by the Amalgamated Sugar company's cashier, of money paid out last season, is illustrative of the profit to the grower through this crop:

"Paid out to farmers \$275,500.22, in addition to this the farmer paid out no labor about 420 per acre, which money was spent in the community. Besides the payroll at the factory, of \$256,025.78, here is the employment of 102,000 man hours, and the total amount paid out by this company along all these lines would be felt by the community for the next year, in addition to this there is a market for hay created by the feeding of pulp which amounts to a considerable item. We feel that this is the year when every farmer who has best land should plant beets, as we feel the factory requires the beets and the farmer needs the factory."

### PETITION DENIED

Judge Bohacek, in the court yesterday denied the petition of Mrs. Zenia Evans for divorce from Homer H. Evans. The case was dismissed. This action has been given the court about a year. According to the court evidence presented was insufficient to warrant an affirmative decree.

## ARTICLES OF FAITH OF THE SUNSHINE CLUB

1. We believe in Twin Falls—in all that she has accomplished and in all she seeks to achieve.
2. We affirm our faith in the citizenship of Twin Falls.
3. We believe that no single section of the United States of America is more favored in those natural geographical resources which furnish the necessary basis for a sound and permanent civilization.
4. We affirm our faith, in ourselves and in the rank and file of the people and in our officialdom.
5. We pledge ourselves to uphold constituted authority; to criticize, without unbecoming affect, any deal in fact or policy; to give credit for the same qualities in our fellowmen that we possess ourselves; to look for the good and never the bad; to think prosperity and oppose adversity; to help ourselves by helping our neighbors, realizing at all times that our own success depends upon the success of our fellow citizens and that a return to normalcy in the Twin Falls country can best be encouraged by the individual return of each and every one of us.

### More Occasional Rains and Frisky Breezes Ordered

MORE "occasional rains" calendar for tonight and tomorrow, according to the official meteorologist, who issued the same forecast yesterday. He also ticks to the "increasing southerly winds" idea which has been dead wrong since the first prediction. The big and prevailing wind comes from a diametrically opposite direction. Temperature range for the 24 hours ending at 6 p. m. was from 55 to 38 degrees.

### MINISTERIAL SOCIETY TO HOLD NOON SERVICE

#### Special Sacred Meetings Will Mark Occurrence of Week of Passion

Arrangements were completed yesterday for Passion week services to be held next week by the members of the local ministerial association.

A committee of three, E. J. Finch, J. A. Cron and A. L. Swim was appointed by the chamber of commerce to assist in making arrangements. The manager of the Idaho Theater, B. H. March, has given hearty consent to the use of his theater for the meetings and the services will be held there every day from 12:30 to 1:15 p. m.

The singing will be under the direction of William Angus Arthur of the Baptist choir, good old hymns being a feature. Having the services at this hour it is believed that many of the business men and women of the city will find it convenient to drop in daily. The chamber of commerce has heartily endorsed the movement and has promised to assist in getting an attendance. Everyone is welcome.

Regular Monday night pastoral services will take their turn in bringing a message. The schedule for the week is as follows:

General theme, "The Mysteries of the Kingdom of God."  
Monday—Matthew 13:11. "Hath you it is given to you to know the mysteries of the Kingdom of Heaven."  
Tuesday—"The Mystery of the Incarnation of Christ."  
Wednesday—"The Mystery of the Divine Ancestry."  
Thursday—"The Mystery of Human Brotherhood."  
Friday—"The Mystery of Christian Faith."  
Saturday—"The Mystery of Christ's Identification."  
I Timothy 2:16—"Great is the mystery of Godliness."

### OFFICERS PICK UP CLUES LEFT BY 'ELLA RAY'

#### Woman who Blinded Merchants Believed to Have Escaped in Early Morning

Development in the search by criminal authorities for the woman who gave the name of Ella Ray when making extensive purchases of merchandise at local stores early this week, indicate that the woman escaped the grasp of the officers by boarding the east-bound train on the morning of the day when the goods purchased were left in the doorway of stores where they were bought.

Investigation by the officers suggests that the woman was the great girl of friends on the morning of the day that she kept the merchandise without paying while staying there. Investigators believe that publicity given the woman's operations frightened her into restoring the goods at 10 hour so early that there was little chance of detection in the act, and that she caught the morning train or took an automobile out of town. These clues are being followed in the hope that a trail may be uncovered that will lead to the whereabouts of the person sought. The officers are convinced that they have established an accurate identification of the woman, but without the name alleged to be the correct one until all clues are run down.
