LABOR LEADERS CROSS EXAMINE RAILWAY HEADS

Unions' Attorney Announces Purpose to Prove Insincerity of Carriers in Dealings with National Agreement Question

CHICAGO, (AP)—Cross examination of high railroad officials by labor leaders began today before the railroad board.

T. D. Witt, lawyer, chairman of the Association of Railway Executives, Robert S. Barker, his assistant, Carl G. Horn, president of the United Brotherhood of Carriers, and W. W. Atterbury, vice president of the Pennsylvania lines, appeared at today's hearing in response to the requests issued by the board at the demand of the labor side.

Witt declared that the national agreement which was signed in 1919 was a mere sham, and that the carriers were guilty of a conspiracy to defraud the unions. He announced that he had secured the cooperation of the Pennsylvania carriers, and that he intended to bring out evidence which would prove the roads had not been sincere in their dealings with the unions.

Mr. Witt's attorney, John R. Quinn, declared that he intended to show by the evidence that the carriers had conspired to defraud the unions, and that the carriers were guilty of a conspiracy to defraud the unions.

GOVERNMENTERS TO FIGHT ATTEMPTS TO LOWER WAGES

Union's Executive Board, Says Through President Majority of Men are Not Now Earning More Than Living

INDIANAPOLIS, Ind., (AP)—Any attempt to reduce wages of coal miners in the United States will be resisted by the labor union, John L. Lewis, president of the United Mine Workers of America, declared today.

Wage reductions proposed in West Virginia, Kentucky and Tennessee, he said, at the union headquarters, are regarded as a possible part of a similar proposal throughout the country.

The United Mine Workers' said Mr. Lewis' formal statement, "that under the present conditions it would not permit wage reductions in view of the fact that the great majority of the mine workers are not making more than a living wage as it is."

Suppose Washington miners. In Washington state, it is said, have about 4000 men, and the miners' refusal to accept reduction of wages is being protested in Washington state.

LOYD GEORGE FACES CRISIS

Retirement of Bonar Law Seems Likely to Weaken Coalition Government

LONDON, (AP)—A political crisis of the first magnitude has been created by the retirement of A. Bonar Law from the British cabinet. It is declared by the London Times.

The London Times, other newspapers, while less emphatic, agree in saying that Mr. Bonar Law's resignation is certain to have considerable political effect, and that it probably will materially weaken the coalition government.

It is pointed out that no successor to Mr. Bonar Law is likely to be so well known to the public as Mr. Bonar Law himself.

ONE MAN MAKES FLOUR TO LAST U. S. ONE YEAR

Minneapolis Miller Retires after Continuous Service of Nearly Half Century and Achievement of Unique Record

MINNEAPOLIS, Minn., (AP)—Ranking as the champion flour maker of the world, John Kraft, who retired March 1, after continuous service for 46 years, holds the unique record of making enough flour to feed the entire population of the United States and its possessions for a period of one year. Because of impaired vision, Mr. Kraft, who is 69 years old, terminated his connection with the flour company after establishing a record which milling engineers believe will stand for many years.

Production 138,000,000 Barrels.
Engineers at the plant estimate that during his 46 years of active service, Mr. Kraft made 138,000,000 barrels of flour. According to the veteran miller, an average normal consumption is about one barrel of flour a year or its equivalent. Mr. Kraft's output, therefore, could feed the population of the entire United States and its possessions which is approximately 115,000,000 and at the end of one year have a large surplus.

Expressed by milling engineers, the stupendous amount of flour milled under Kraft's eyes would if placed in barrels end to end, extend over the world three times; would cover every square foot of the site of Minneapolis with flour six inches deep and if loaded for shipment, would require 100,000 cars or 15,000 average trains.

Mr. Kraft has been a head miller for 38 years and during this time has had three mills under his supervision.
Born in Scholtzen, Germany, January 12, 1822, he came to this country in 1842 and in 1848 he and his wife still he had resided here three years when he obtained employment in the mills.

Begins at Bottom.
Beginning at the bottom as a sweeper, he gradually worked his way up through the various stages of smelter, mill tender and grinder, until he had made a head miller in 1863. Five years later he was in charge of three mills. In 1908 however, with advancing years he relinquished his authority over two of them.

The Pneumonia Month.
March is a typical pneumonia month and it gives a high rate of mortality for the disease. After a long and hard winter, the system loses much of its resistance and people grow careless. When every day a man is howled at, it gives prompt and intelligent attention. There is much less danger of pneumonia. It should be borne in mind that pneumonia is a germ disease and breeds in the throat. Chamberlain's Cough Remedy is an expectorant and cleans out the germ laden mucus and gives relief. It is pleasant to take. Children take it willingly.

OPIMUM SCANDAL FIGURES IN JAPANESE POLITICS

Nihonchi Party Charges Government Connives in Traffic in Drug

TOKIO, (Correspondence of the Associated Press)—A hundred million yen opium scandal involving the Nihonchi party, Japanese business houses and public officials is charged by the Nihonchi which alleges that large quantities of the drug have been illegally handled in southern Manchuria by the connivance of government officials for the purpose of enriching their own pockets. The allegations are denied by Mr. Nakano, chief of the civil administration bureau in Dairen. Millions of yen worth of the drug passed through Kwangtung during the past few years, says the Nihonchi, of which only a small part has been burned by the government authorities. That which was burned allegedly to have been opium of inferior quality mixed with other substances before being destroyed.

Since April, 1915, the sale of opium has been conducted directly by the civil administration bureau in Dairen, it is said. The Okuma ministry discovered this and forced the profits to be turned into the government's coffers as temporary miscellaneous revenues, the Nihonchi goes on to explain, but when the Seiyukai party came into power after the Terauchi ministry, this revenue decreased to a minimum, the explanation given being that the decrease was natural because of the gradual prohibition of the sale of the drug.

As the revenue continued to dwindle, a rumor originated in Dairen and Port Arthur, says the Nihonchi, that local government officials were conniving with the Seiyukai for the illegal sale of opium whereupon the Dairen authorities, "on the advice of a certain high official," publicly announced that the confiscated opium had not been sold for private gain but to the value of 3,000,000 had been burned. But charges the Nihonchi, the only small quantity was destroyed and the public was deluded.

CLARA HAMON TO LEAVE ARMORE

Says She is Happiest Woman in the World when Acquitted of Murder

ARMORE, Okla., (AP)—Freedom of charge of murder for the shooting of Jake L. Hamon, by the jury's verdict yesterday, Clara Smith Hamon today was planning to leave Ardmore, the scene of her ten years association with Hamon, which culminated in the shooting last November, she probably will go to Wilson, 18 miles west of here, for a short visit with her sister and father, who live at Pasa where her father is seriously ill. After a trial lasting a week, the jury in the Hamon case debated its verdict only 40 minutes, agreeing upon acquittal on the first ballot. "I am the happiest woman in the world," Clara Hamon said, with tears streaming down her face when she heard the verdict. Mrs. Jake L. Hamon, the widow, who attended nearly two sessions of the trial, left the courtroom when the jury retired, and members of her family said had not yet been told the verdict. The state's final plea attacked the theory of self defense on which Clara Hamon's case had been built, but less than an hour after Attorney General E. P. Crowley had made the final address in the trial, the defendant was receiving the congratulations of scores of the attendants at the trial.

MEXICAN BANDIT IS FOUND DEAD

Pedro Zamora Suffers Fatal Wounds in Battle with Federal Troops

MEXICO CITY, (AP)—Pedro Zamora, for the last ten years one of the most formidable bandits operating along the western coast of Mexico, is dead as a result of wounds received in a recent battle with federal troops near the town of Zamoctla, state of Jalisco.

The dead bandit was associated with various revolutionary factions for years. He was also a lieutenant of Villa after which he joined Zapata but finally operating independently in the state of Jalisco, Michoacan and Colima.

Last August he raided the towns of Aguilan and Quatlan, from which he carried off a number of captives. Among these were later released by Zamora were seven Americans and several British subjects. It was said that 10 girls carried off from Zamoctla committed suicide following their capture by the bandit.

REFORMER BACKS UP IN FIGHT FOR CENSORSHIP

Dr. Wilbur F. Crafts Seeks to Win the Film Makers Support of Interstate Commission Proposal

WASHINGTON, (AP)—Creation by congress of an interstate censorship commission to substitute for federal censorship of films was proposed in letters from Dr. Wilbur F. Crafts, of the national reform bureau, to film producers, made public Thursday by Dr. Crafts. This plan follows his recent conference with film men at New York at which it was agreed the producers would undertake censorship themselves and the bureau head would champion the campaign for a federal censorship act.

The commission, Dr. Crafts suggested, should be appointed by the executive and should be "kept out of politics." It would pass on licensing of film men to distribute pictures in interstate commerce since a convention of the producers was to be held in New York at which the thirteen standards upon which Dr. Crafts says there was agreement at the New York conference. The proposal was addressed to William M. Brady, president of the National Association of Motion Picture Industries, New York. Dr. Crafts stated he is in the draft of his proposed censorship bill with the suggestion that the moving picture men join in a convention of the producers at the special session of congress. Expense of the commission plan is \$225 on each original reel produced for interstate commerce.

Energy

ARE you a woman? And is your home electrically wired?

Then you know the magic of washing, ironing, sewing, cooking, cleaning and keeping your house warm or cool or light through electricity.

It's no new story to you. You are enthusiastic about it. Enthusiasm and energy are running mates—once die without the other.

The energy to feed your enthusiasm is no longer wrung from you.

It comes from the big electric light and power plant in your community—a flood of it—instantaneous, endless, limitless. It is brought to you through an orderly maze of cables, conduits and wires, and is at your service by the simple act of putting a plug in a lamsocket or an outlet, and of pressing a button.

Anyone can buy this energy. So it is called "public." It serves to make life better, easier, happier, healthier. So it is called a "utility."

Therefore, the power plant that drives your cleaner, that heats your shining cooking appliances, that lights your home, comes under the head of a "public utility."

Such great utilities are privately owned by plain citizens like all of us who have faith in the force called electricity. These utilities are, owing to their vital import to the country, under governmental direction.

Insurance companies have hundreds of millions invested in the different electric light and power companies; banks have loaned them money, and 1,450,000 individual Americans have put millions of their savings into this great industry.

It is these people of faith, business instinct and enthusiasm who stand back of you as you clean and cook and wash and iron electrically; who, in a way, guard your lamp at night, seeing that the light never fails. They deserve your co-operation in return for that service.

ROAD BOARD'S HEARING FIXED FOR THURSDAY

Court Orders Ohannel, Steel Smith and Larson Up on Ouster Proceedings

C. B. Ohannel, J. M. Steel and A. E. Larson, members of the board of directors of the Twin Falls highway district, have been officially called to appear in the district court at 10 o'clock on the morning of next Thursday to show cause why they should not be removed from the positions they hold on the executive board of the district.

This order was issued today by Judge W. A. Babcock following the filing of three complaints on complaint of the commissioners. The first one was filed yesterday against C. B. Ohannel, chairman of the board of commissioners, and the second and third against Messrs. Larson and Steel this morning. The plaintiff in each instance was E. F. Byrne, a member of the executive board of the Taxpayers League.

The case against Mr. Ohannel charges that he is a resident of the town of Twin Falls, which is the headquarters of the business of the office to which he was appointed, together with alleged irregularity of procedure in the carrying on of the business of the district. There are 50 cents in the complaint.

Byrdles charging all that is set out against the chairman of the board, Mr. Walton alleges that Messrs. Larson and Steel have been guilty of various charges and collecting fees for services. Specifically the allegations are that both defendants charged the district a total of \$1,100 on the morning of next Thursday at 10 cents per mile. Mr. Steel's bill is said to have illegally collected \$1,100 on a contract made with Mr. Larson's expense account is said to have been \$128. Judgment for \$200, as general reimbursement, is granted. E. F. Byrne, a member of such acts and disbursements as occurred in carrying on the actions. However, Mr. Byrne, K. Harlan and others have been retained to conduct the case in court.

OHAKES MUST PAY TAXES COMPLETE

County Commissioners Reconsider Former Order Authorizing Partial Rebate

Twin Falls county treasurer will collect from Ohakes and company, who sell groceries, persons' taxes for the year 1920 amounting to \$8,765.88 instead of \$6,011.54, as a result of action taken today by the county commissioners in rescinding an order made on January 29 of this year which reduced the valuation placed on Ohakes and company's property to \$74,513.80 and ordered a rebate amounting to \$2,752.34 in taxes paid and to be paid for 1920 by that concern.

Rescission of the order followed the filing by the Taxpayers League of a protest against such rebate. Claim was set up in this protest that the commissioners were without authority under the law to alter valuations and rebate taxes at the time the order was issued, and that such action could only have been taken during the period beginning on the first Monday of December and continuing until the third Monday of that month while the commissioners were in session as a board of equalization.

The petitioners also expressed the opinion that the valuation in this case as fixed by the county assessor was more accurate than that sought by the grocery concern.

CRUSOE'S ISLAND IS TO BECOME HEALTH RESORT

Chilean Government Lays Plans for Popularizing Historic Situation

VALPARAISO. (AP)—Juan Fernandez Island, 450 miles west of Valparaiso, widely regarded as the spot named with the story of Robinson Crusoe was written, is to be turned into a health resort, according to present plans of the Chilean government.

The island is 13 miles long and four miles wide. Vegetation is abundant. Many kinds of fruit thrive there and the sea in the vicinity swarms with a species of codfish and quantities of scallops, according to a recent visitor.

The actual origin of Defoe's story of Crusoe was said to have been Alexander Selkirk, one of a crew of buccanniers who quarreled with his skipper; was marooned at his own request on Santa Cruz, a rocky island, where he spent for lonely years. The grotto where Selkirk is supposed to have lived with his man, Friday, still is to be seen. A British warship visited the island in 1888 and member of the crew created a tablet in memory of Selkirk.

Some years ago the Chilean government attempted to repopulate the island and gave free passage to emigrants, but the scheme was a failure and today now has only 200 inhabitants.

Today's Market

WHEAT PRICE DECLINES; MARKET LACKS SUPPORT

Economic Conditions Restrict Factors in Chicago Plus; Close in Heavy, 2 1/4 to 3 1/4 Net Lower

CHICAGO. (AP)—Reported crop damage by great hogs in Kansas had a noticeable though transient bullish influence today on the wheat market here. New crops, year ago the Chicago market active buyers in the advance, however, and the market underwent a decided reaction. Opening prices, which ranged from 1 1/4 off to 1 1/2 advance, with March \$1.07 and May \$1.18 to 1.48 3/4, were followed by a slight general sag and then by a rise to well above yesterday's finish, with a subsequent decline lower than before.

Toward the end of the day, settling on the part of a house with Omaha connections found the market without support, and with economic conditions a bearish factor. The close was heavy, 2 1/4 to 3 1/4 net lower. In March 1 1/2 to 1 3/4 3/4 and May \$1.45 to 1.47 1/2.

Corn reflected the change in wheat. After opening \$5.88 lower to a shade advance, including May at 68 1/8 to 68 1/4, the market held within a narrow range.

Subsequently corn showed increased sympathy with the depression of wheat. The close was weak, 1/2 to 3/4 to 7/8 net lower, with May \$7 3/8 to \$7 1/2, and June \$7 1/4 to \$7 1/8 net lower. Oats were governed by the action of other cereals, starting unchanged to 1/4 higher, May 42 1/8 to 42 3/8, and later weakening somewhat.

New York Stock Market

NEW YORK. (AP)—Apart from rails and a few specialties, average prices in the stock market today were variously higher after an early period of reaction. Sales approximated 700,000 shares.

The trend of prices at the active opening of today's stock market was again downward. Rails, oils and tobaccos

showed initial losses extending from large fractions to a point. Pennsylvania declined 3/8. Tobacco were weaker of the specialties, falling 1/8 to 2 1/8 points. Standard Oil, American Woolens and First Sugar also averaged 1 point decline. The reaction assumed wider dimensions within the first half hour. Mexican Petroleum, Royal Dutch and the high class rails, especially transcontinentals, ending 1 to 3/4 points. Oils, steels and equipments overadvanced the general list in the final hour at extreme gains of 2 to 3 points. The closing was strong.

ATTACK LODGED AGAINST LOWER TEACHERS' PAY

Educators in Rupert Schools Return Contracts Naming 10 Per Cent Decrease

RUPERT, Idaho (Special)—Declaring a 10 per cent reduction in salaries unjust the 30 teachers employed in Rupert schools have returned without signature contracts submitted for the coming year. The reduction was authorized at a recent meet of the board of trustees of Independent School District No. 1.

When the contracts were submitted explanation was made that the reduction in pay was ordered to conform with popular clamor of taxpayers for a decrease in taxes. In returning the contracts unsigned the teachers advised the trustees that since the had been an appreciable reduction in living expense the lessening of pay is out of line and unjustified.

Attached to the returned contract one of the teachers submits the following statement of living cost:

Board and room	\$ 50.00
Laundry	5.00
Clothing	5.00
Professional papers and books	5.00
Medical and dental service	5.00
Insurance	5.00
Heat	5.00

Total \$105.00

Annual Rupert teachers' salaries are the trustees on the subject of salary reduction noted in the contract, makes the following illuminatory announcement:

"The salaries offered are wholly inadequate. The minimum salary, or in other words, a bare living wage, as demanded by the N. E. A. of the state teachers' association and the educational departments of the largest universities is \$2000. This represents a minimum salary a teacher can live on and work efficiently. But even this does not take into consideration the time and money spent in preparation for teaching. By figuring the time and money spent to qualify for teaching it will amount to a sum not less than \$2000 and in cases of \$3000 in large number of cases."

Rupert teachers are not asking an increase of salary, but a demand for continuance of the present terms.

New Spring Fabrics

Welcome as Spring Blossoms are These Pretty Dress Materials.

Prettier patterns may have been designed, if so, we have never seen them. Better qualities may be procurable, but surely not in this state. Without the slightest hint of a boast, we affirm that our present gathering of dress fabrics is superior to any previously exhibited at this store. We want you to come in and see them. The first impression you will gain is that the designers have excelled themselves in producing such pretty shades. And you will find a great deal of help and inspiration in working out your spring dressmaking plans. The combination of quality and broad assortments coupled with our modest prices will prove irresistibly attractive to you.

Voiles are Irresistible

Beautiful beyond comparison—all shades and a world of patterns to choose from. The largest cities would hardly show a broader assortment to choose from. About half last year's prices.

Priced 39c, 60c, 75c and 85c per yard

Beautiful Tissue Gingham

We have waited long for these newest patterns. They've just arrived and worth waiting for—you will want more than one dress off them.

Colored Dotted Swiss

They are the rage of the east—difficult to procure and certainly are new and pretty. Come in navy with red dot—navy with white dot—white with navy dot—brown with white dot and rose with white dot—they lend themselves well to present styles. Priced at \$2.00 Per Yd.

Colored Linens are Good Permanent Finish Organdie

It's here — don't seem possible, but it's true—fine, pure dress linen in green, white, gold, tan and raspberry. 36 inches wide. You'd think it would cost double but it's only \$2.00 Yd.

It's lovely—fine and crisp. In all the pretty spring colors and it will be organdie after washing instead of voile. You'll want lots of it for spring 75c to \$1.00 Yd.

THE STARTLING STAGE

These astronomer fellows will never let us alone. No sooner have they demonstrated, and got us to believe, that they know the actual size, composition and favorite brand of chewing tobacco of a star we never heard of, than Professor Einstein comes along and proves that the universe itself is being infinitely, is nothing of the sort.

Now, everybody people aren't looking for a quarrel with Professor Einstein, and besides the universe is big enough for them, finite or infinite. Let him have his own way about it. But when the astronomer in charge of the Yerkes observatory announces that the rings around Saturn are set at a cocky angle this water for the first time in 29 years, it is really giving a little too far. Saturn, as you know, resembles nothing more than a grape-fruit in the middle of a dinner plate. Just now the edge of the plate is turned toward the earth, and we see nothing but the grape-fruit. It is enough to startle me.

What we have to complain about, though, is that these astronomers have known all about it, and have been keeping it up their sleeves. Why didn't they tell us before that this was going to happen? They can't expect plain, common folk to remember things of that sort for 29 years. If they have positive, inside information that the earth is going to do a squaw right with the other planets, or that the sun is about to take a little holiday, why they would let us know in advance. We have money in the bank and it is getting in going to bank we want to get paid up on our check due before hand.

LOWER PRICES—HOW MUCH LOWER?

Manufacturers and distributors of ready-made clothing say that prices for clothing during the remainder of the year will be higher than the prices which prevailed during the recent cut price sales, when dealers were making an effort to dispose of their surplus. The public is not so much interested in obtaining clothing at low prices as in getting goods that are worth the money. During the period of four or five times the pre-war prices, few persons believed that they were getting values for their money, and it was this which brought on the "buyers' strike."

Many persons read about the reductions which have been made in the wholesale prices of merchandise, and they complain because these reductions have not been reflected in the same degree in the business of the retailers. They fall to take into account the fact that the buyers themselves are responsible for building up a system of overhead costs which cannot be abandoned. The delivery system is one which adds considerably to the cost of merchandising, yet not enough patrons of a store are willing to forego this service to enable the proprietor to adopt the cash-and-carry method of doing business. Fancy packages and other items demanded by customers which do not add to the value of the articles purchased increase the cost of doing business. Now there is simplification of merchandising operations that obtain between the point of production and the place of delivery, not all that consumers expect in the way of price reductions will be possible.

IRISH DIVISION PROBLEMS LOOM

Immense Difficulty in Fostering in Splitting Government Departments

DUBLIN, (AP)—Immense difficulty is foreseen by political leaders in splitting into two parts the work of such important bodies as the local government board and the Irish department of national education which will ensue from the division of Ireland for governmental purposes.

An official summary of the government of Ireland not just issued gives indication of the difficulties, complications and the vast amount of work that will be involved in operating the new house rule, or partition scheme. The summary says that the departments of the government of northern and southern Ireland will be distinctly separate and that each of such governments and parliaments will decide what their departments are to do.

For every department now existing in Dublin it is expected that the Irish government will demand a court order. This Ireland probably will find itself confronted with a dual control, common services, such as the postoffice, says the Irish Times, which regards the net with considerable misgivings.

Throughout Ireland the paper says, will never consent to transfer business relating to postal or other matters to the government of another province in Dublin. So it probably will demand the right to have in Belfast a postoffice official of equal standing to the one in Dublin. This duplication, says the Times predicts, "may lead to a rather farcical situation."

One thing, it is understood, that Dublin will retain intact is the National gallery, whose collection of pictures is regarded as one of the best outside of London.

TO DARKEN HAIR APPLY SAGE TEA

Look Young—Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea, with sulphur added, will turn gray, streaked and faded hair beautifully dark and lustrous. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur soap at home, though, is troublesome. An easy and safe method is to use Sage and Sulphur Compound at any drug store, all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyo's Sage and Sulphur Compound, no use can tell, because it does so naturally, so evenly. You just dampen a sponge with soft water and brush it through your hair, taking one small strand at a time; by morning all your hairs have disappeared, and after another application or two your hair has become beautifully dark, glossy soft and lustrous.—adv.
