WALLACE GIVES FLEDGE TO AID FARM MARKETS

Secretary Declares Department of Agriculture Should Lend Same Assistance in Distribution as in Production

CHICAGO, (AP)—The department of agriculture should lend the same aid to farmers in marketing their crops as it does in their production, Secretary Wallace declared today in an address here before the Farmers Grain Marketing Committee of 17.

Study to improve marketing methods as well as of conditions the farmer should understand to produce intelligently.

The department "should turn on the light" to be continued. If there are points along the way which there is unnecessary waste, that should be made known.

Defends Organization Right

The farmers' right to organize into associations, co-operative or otherwise, for the purpose of marketing their products, Wallace said, cannot be questioned.

While not discussing the committee's marketing plan in detail, the secretary said it appeared to have profited by practical experience of the past and to have avoided the weaknesses which had broken down many previous organizations.

Calling attention to the current low prices for farm products which "practically everything the farmers buy are from 20 to 300 per cent above present prices."

Twin Falls Teachers Speak for Pupils and Themselves

As the time approaches for the special levy election, it seems only just that we, the 110 teachers of this independent school district No. One, at least 100 of our pupils, it is not necessary for us to enter into a discussion of the various reasons why we believe that the citizens of Twin Falls should come home forcibly to the teacher and that they should be considered very carefully before anyone should say "No" on the ballot next Friday, April 8th.

First, we who by virtue of our profession have a special right to speak believe that the children of this community would receive an irretrievable setback educationally.

Second, the teaching force have fulfilled not only their legal contract but a moral obligation to the parents and children of Twin Falls.

GRAIN GROWERS MARKET SCHEMES ARE MADE PUBLIC

Establishment of Producers' Corporation to Handle Crops is Urged Upon the National Conference

CHICAGO, (AP)—Complete machinery necessary for the grain to handle the marketing of their products is urged today in a report of the Committee of Seventeen recommending establishment of a corporation to be known as the United States Grain Growers, Inc., at a national conference of grain growers here today.

For Optional Pooling

The plans call for optional pooling of grain for co-operative marketing, providing there are contracts in effect, have defeated in the committee.

Contract Details

Salient details of the contract feature of the plan are these: There are two types of contracts, the first running from the farmer to the farmers co-operative elevator, the second from the elevator to the central agency.

REVAL, Esthonia, (AP)—Maxim Litvinoff, chief of the Russian soviet legation abroad, reiterated Russia's peaceful ambitions and desire for reconstruction in an interview here today, in which he characterized recent rumors of a soviet mobilization on the Latvian and other frontiers as "the usual sort of lies."

Declares Reds' Aim for Peace

He said he knew nothing of the recent report published in the Pravda of Moscow to the effect that soviet demobilization had been halted because Hungary, Rumania and Poland had entered into a new military alliance.

Growers Only Admitted

Other features of the plan require that all members of the United States Grain Growers, Inc., must be bona fide growers of grain.

Expenses after the membership fee is paid are to be met by deductions from the sale of grain.

Provision is also made for establishment of subsidiary corporations, including an export corporation, a warehouse corporation, a corporation to purchase seats on exchanges, and a finance corporation.

FRENCH COMMENTATOR CALLS AMERICAN ATTITUDE GRABED

PARIS, (AP)—A note of considerable length from Chas. E. Hughes, American secretary of state, has been received by the French foreign office through the American embassy here.

Identical communications were sent to the United States, France and Japan, it is understood, with notice that the text will be issued at the state department in Washington immediately after the interested governments have received it.

"Pettina", political editor of the Echo de Paris, who appears to have had access to the note, declares he considers it means that America declines to recognize any peace settlement in the treaty of Versailles, or taken by the supreme council or by the league of nations. He asserts that this is a grave mistake on the part of the United States.

It was learned in official circles today that the communication bears principally upon the action of the council of the league of nations last December in approving the mandates passed upon at that meeting, including the Japanese mandate over the North Pacific islands, taking in the island of Yap, but that it also outlined the policy of the new administration regarding the question of the mandate over the island of Yap.

A disposition to recognize the justice of the American claim was indicated in official quarters, although with the reservation that it was scarcely possible to give the United States the right to veto in the settlement of the mandate which necessarily were discussed in the absence of representatives of the American government.

The reply will probably express the policy of the administration if the United States is disposed to receive collaboration with them in the settlement of war questions.

FARM PRODUCTS MARKET SCHEME UP TO MEETING

Plan Proposed by Committee of Seventeen is Presented for Ratification at Conference in Chicago

CHICAGO, (AP)—The ratification conference on the co-operative grain marketing plan submitted by the farmers' marketing committee of 17 assembled here today for "the most important meeting of farmers that the history of our country or any other country has ever recorded," in the words of C. H. Gustafson, chairman of the committee.

Details of the plan prepared during nearly a year of conferences, to market the majority of the farm products of the country under the most favorable price conditions were submitted to representatives of the various farm organizations behind the proposal.

Calls for Contract.
The plan proposed by the Committee of 17 as a basis of action called for farmers to contract for the sale of all their grain as members of the national co-operative organization. Several ways of disposing of the grain were offered. The principal one was for a national pool, machinery for handling the enormous quantities of pooled grain was outlined. This consisted in part of national agencies for finance and for export.

The proposed plan differed in some respects from that promoted by the Wheat Growers' Association of America, with headquarters in Kansas, and from the system already in operation under the Northwest Great Growers' Exchange. The three organizations were united in aim, the committee reported, though not entirely in scope or method.

Views Farmer Own Business.
"The plan provides purely and simply for the farmer to enter upon a program of conducting his own business," said Mr. Gustafson. "It is purely a co-operative plan offered in competition with existing unsatisfactory methods of marketing. We believe that, while recognizing and protecting the interests of the consuming public, it insures the farmer an equitable and just return on his grain crop by offering savings, avoiding speculation and the needless duplication of effort and eventually stabilizing the market for grain crops."

"We are told that farmer receives 34 cents of the dollar that the consumer pays for farm products. There is need to change that rate. It has apparently been the intention of the farmer to produce and then take his chance with market fluctuations and with market conditions where waste, duplication, manipulation and speculation have operated to turn the law of supply and demand upside down."
"With all other farmers I resent the discovery that the just and equitable share of profits from my labor and the labor of my neighbors has eroded a brown stone from on Lake Shore Drive or out-fitted a palace pleasure boat instead of being returned to me, wherewith to purchase the new dress that my wife had been waiting two years for, or to enable me to give my girl some of the advantages that her town girl friends enjoy."

Cause of Unrest.
The most potent cause of our present social unrest and commercial stagnation today lies in the fact that there is no farm market, President J. H. Howard, of the American Farm Bureau Federation told the conference.

"The American farmer has suffered from uneconomic and speculative marketing systems," Mr. Howard asserted. "Countless thousands of farmers stand today buoyed by the hope that this meeting will evolve their Magna Charta."

FIND LOW GERMINATION OF IMPORTED BEET SEED

Between November 15, 1920, and February 21, 1921, over 3,250,000 pounds of sugar beet seed were imported into the United States. Germination tests made by the United States department of agriculture show much of this seed to be low in vitality. Only 36.5 per cent of the total importation was equal in quality to the customary standard, which requires 75 per cent of the seed balls to give sprouts with 70,000 sprouts per kilogram of seed.

STATE WORKERS TO AID FIGHT AGAINST INSECTS

To aid in the general work of combating crop insect pests, the bureau of entomology of the United States department of agriculture is organizing a survey that will cover practically the whole country and deal with all the more important insects that destroy crops. Invitations have been sent to prominent state entomologists throughout the country asking them to take part in the work. It will be similar to the one attempted, and for a time successfully conducted, during the early war period.

It is planned to gather and disseminate information concerning the status of insect pests; to give information on the first appearance of migratory pests, so that precautionary measures can be taken; to accumulate information on fall and winter conditions of the insects as a basis for forecasts. An additional important feature of the work will be the preparation of a report of careful estimates of damage done by insect pests to the important crops.

As there is no federal appropriation for the survey, for each state it is said, will have to be conducted by state officials and through available state organizations. The department of agriculture will supply the information which it obtains through its agents, and will act as a clearing house for the information received from the several states. It is planned to issue the information in monthly reports, supplemented by a comprehensive annual report, and special reports on particular crop pests from time to time.

WALES TO MEET JAPAN'S CROWN PRINCE AT PORT

Elaborate Preparations Made for Welcome and Entertainment of Heir to Throne of Nippon on Visit to Britain

LONDON, (AP)—The crown prince of Japan is expected to arrive at Portsmouth on the morning of May 9 and will be met on behalf of the king by the Prince of Wales, who will accompany him to London. For three days the crown prince will be the guest of King George at Buckingham palace and for a week subsequently he will be the guest of the government.

Three Banquets Planned.
The place of residence for the royal visitor has not yet been decided. There will be three banquets given in his honor, one by the king at Buckingham palace on the night of his arrival, one by the Prince of Wales and one by the British government. There will also

be a banquet and reception at the Guildhall.
On the part of the Japanese there will be a banquet and reception by the embassy and entertainments by the Japanese society and the Japanese colony. Afterward the prince will make a tour of the province. He is expected to be in the country about three weeks, and, it is thought, will then visit France and other countries on the continent.

The prince's official party will number 18 in addition to servants and valets. With the crown prince will come Prince Kan, a member of the imperial family who was selected by the emperor to accompany his son, Count Okuma, member of the privy council and former ambassador in London; General Nara, in charge of the prince's military equipment; Viscount Iryo, grand chamberlain; Viscount Tsuchiya, chamberlain; Mr. Goto, master of ceremonies; the secretary of the Tokyo foreign office, naval and military aid de camps and two doctors.

Names Attache.
The king has appointed the following attachés to the royal Japanese party during the prince's stay in England: Admiral the Hon. Sir Stanley Colville, first naval A. D. C. to the king; General Sir Chas. Monroe, A. D. C. general to the king; lieutenant-in-chief in India; Captain Sir D. Geoffrey Fessett, squerry to the king, and Messrs. Lampton and Ashton Gwatkin of the foreign office.

WESTERN CLAY IS FOUND GOOD IN PAPER-MAKING

Clay that is highly colloidal has been found by the forest products laboratory of the United States department of agriculture to be very valuable as a leading material for giving finish and printing qualities to paper.
Previous to the discovery made by the laboratory at Madison, Wis., this whitish clay, found in large deposits in the Rocky Mountain region, has had little known use except as an excellent substitute for soap. In the past all the best clay used for leading paper has been imported. Experiments with the American clay from the west show

that when this clay is added to the English china clay generally used the paper produced has a superior finish and appearance and a more velvety feel than where the English clay only is used.

Influence of Toys.
The toy ugly in form, design or color should not be given to children for it may offend an inherited artistic sense, and misdirect a budding instinct for those things which are beautiful. One cannot expect a child to develop good taste if he is surrounded by articles and playthings which violate all the canons of symmetry and color.

TWIN FALLS BUHL

AUDITOR'S REPORT

Twin Falls District No. 1

April 6th, 1921.

Board of Trustees, Independent School District No. 1, Twin Falls, Idaho.

Purport to request we have audited the books and records of Independent School District No. 1, Twin Falls County, Idaho, for the period beginning July 1st, 1919, and ending January 31st, 1921, and submit our report thereon.

In order to complete this report in time for publication, we have found it necessary to postpone the examination of several items until later. They consist of the verification of such items as interest paid on warrants, interest received on deposits, tuition earned and received, and like matters, none of which can make any material change in the above report or affect the figures shown, except to a very minor degree, if at all.

With the exception of these few items, a list of which is attached to the following report, we take pleasure in certifying that the attached Balance Sheets show the correct financial position of the District at the respective dates of each, that the Exhibits of Receipts and Disbursements correctly present the Receipts and Authorized Disbursements of the District, as shown by your books, and that the accompanying Exhibits, Schedules and Comments correctly present the facts reported.

We had access to the complete records of the District and were shown every account and were assisted in every way within the power of the members of the Board, and of both its present and former officers.

Sincerely yours, THE EDWIN A. WILSON COMPANY.

Edwin A. Wilson, James Mann.

REPORT.

Due to the many and varied matters which have been investigated, and which we have attempted to cover in this report, it has become necessary and advisable to take up the several subjects in their logical order. To facilitate ready reference to the schedule and subject matter contained herein, an index has been prepared which will enable the reader to readily find the particular information desired. However, without repetition, it would be very difficult to fully cover each subject under a single caption. The report should be read in its entirety, as many points are so closely related to, and interwoven with others that a full understanding of the situation cannot be had from a reading of any particular section of this report.

COMMENTS ON BALANCE SHEETS.

Capital Assets and Bonded Indebtedness. The several items shown on the balance sheet as at January 31st, 1921, are explained and commented upon below in the same order as they appear in the statement.

The Intermediate School Building was entirely constructed and equipped during the present period. The contracts, costs, and other information appearing on contracts and bills are explained by comments under head of "Building Contracts."

In our opinion, the valuations at which the old buildings were appraised in 1913 are conservative. No improvements of a permanent nature have been added during the seven and one-half years which have elapsed since the appraisement.

Lots on Second Street North, 250.00; These lots are situated immediately across Second Street North from the west corner of the present Intermediate School Building and were purchased in June, 1919.

There are seven of these lots in all consisting of Lots 7, 8, 9, 13, 14, 15 and 16 Block 15, and Lots 1, 2, 3, 4, 5, 6, 10, 11 and 12 of Block 15. The price paid for them are as follows:

All of Lot No. 6, \$1,000.00; The NE 1/2 of Lots Nos. 7 and 8, \$1,050.00; The SW 1/2 of Lots Nos. 7 and 8, \$1,050.00; Lot No. 13 and 1/2 of Lot No. 14, \$2,000.00; Lot No. 15 and 1/2 of Lot No. 14, \$2,000.00; Lot No. 16, \$2,000.00.

The School Board has been criticized for purchasing these lots, but the reasons for their doing so are not general in character and have not been given the consideration they merit. The reasons which influenced the Board to make this purchase were as follows:

Before the purchase of these lots came to the attention of the Board, it was definitely decided to erect a west of the High School Building which is known as the Intermediate School Building, although it is joined to and connected with the High School Building.

A new building of some kind, some where in the city was absolutely necessary to house the children of the district who could not be accommodated by the four buildings then owned by the district. Looking still farther ahead, the Board was confronted with a constantly increasing enrollment in the High School and had every reason to expect the enrollment in the High School to soon outgrow the capacity of the High School Building.

It was mainly for these reasons, to build the present Intermediate School as the completed west wing of the High School Building, which everyone knows was originally planned and built, and it was contracted to anticipate an addition in the future.

This was especially desirable from an economical standpoint, for several reasons. First, the heating plant could be enlarged to heat both buildings. Second, it was believed that a saving in fuel, in firemen and radiators would result. Third, the land was already owned by the district, and it would give relief to the already overcrowded High School as well as relieve the situation at the three grade buildings. Fourth, the location of the High School made it desirable to have a new Junior High School could be built and the Intermediate School Building could be devoted entirely to the use of an auditorium.

But if this came about, what is it certain to do in time, where would the new Junior High be built? A duplicate in manual training, gymnasium, equipment, another auditorium and many other expensive features already available in the present plant would become necessary.

are drawing interest at the rate of 7 per cent. The accrued interest on them at the date of this report, as well as the interest which will accrue on them until they can be paid from the July 1st bond vote April 8th, 1921, were included in the budget for the balance of the school year. The accrued interest to date for this reason has not been shown as a liability in this balance sheet.

The legality of the warrants is discussed under head of "Legal Aspect of Warrants."

Accrued Interest on Bonds, 66447.40: The total accrued interest on the Bonded Debt is here shown whether due or not. The interest on bonds, of course, accrues at different dates throughout the year, but the amount due at any annual interest is due in March last, but above amount covers all interest unpaid on the bonds as at January 31st, whether due or not.

Due Sinking Fund \$36,600: The sinking fund is here created and operated for the redemption of the principal of the bonds only.

In July, 1919, \$11,000.00 in bonds were redeemed and paid from this fund at which time \$16,600 was paid for interest on same. As the interest here has been deposited to and drawn from the General Fund, \$36,600 of the principal of the Sinking Fund has been used for interest and should be returned to this fund from the Interest Fund.

Excess of Current Liabilities Over Available Assets, \$155,533.79: This is the amount of the actual deficit in the operating funds of the district.

The district has \$155,533.79 in warrants and 66,447.40 accrued interest on bonds, which is but only \$9,000.00 to pay it off, or is short \$155,533.79.

It has, however, the revenue to be received from January 21st to June 30th, in addition to the \$8,407.53, of which this revenue were used to pay these warrants and this interest, which is already due and payable, all of the warrants for expense and all other purposes issued from January 21st, to June 30th, would be paid from funds to liquidate them, and the same condition would occur on June 30th, as now exists.

The indebtedness would only be pushed ahead five months and become due in January, 1921, but when next year's total legal levy, without the additional tax to be voted April 8th, is only sufficient to cover next year's expenses and this interest, the deficit can be overcome, and the operation of the schools continued.

This is fully discussed under "Financial Aspects of Condition of District." The total amount of the bonded debt is \$358,000.00. A bond issue of \$1,000,000.00 is authorized by the voters of the district in addition to pledging themselves to pay off the bonds and the interest increasing thereon.

The above amount represents the excess of the total assets over the amount of the mortgage bonds. The full amount of the bonded debt is \$358,000.00 and that \$305,533.79 has already been paid on the same. The Sinking Fund to retire these bonds at maturity. The actual net amount of the debt has therefore been shown at \$52,466.21.

The Sinking Fund at this date is made up of: First mortgage loans on real estate \$94,572.00; Due from General Fund \$36,600.00; Under title of "Bonded Debt" balance in Sinking Fund, all comments are made on the Sinking Fund and on the Loans. We also show in Schedule 2, a complete list of the Loans thereunder.

AVAILABLE ASSETS AND CURRENT LIABILITIES. We have here shown the accounts which are not fixed Assets and Liabilities, but are constantly changing from day to day, in other words, the operating funds and the indebtedness which is constantly liquidating and repaying.

Here is shown the actual financial condition of the District insofar as it concerns the operation of the schools, that is, the amount of accumulated expense, and for continued operation.

Cash in Bank, \$8,407.53: This balance is the total amount of cash in the Bank of Twin Falls on January 31st, 1921, and has been verified by us. This is the balance in the General Fund which is the fund out of which all warrants for operating and paying of accumulated unpaid warrants.

\$170,068.05 must be paid whether the schools are closed or not.

At this writing, however, neither of the five mentioned have needed the expense of which amount is approximately \$70,000.00 and in addition to this the salaries of teachers, who are under contract, represent a liability of 20 per cent of the remaining total of \$100,000.00 must be met whether the schools remain open or not.

With all "ways," "wherefore" citizens and school patrons and others obstructing and confusing things brushed away, in this is the condition the district is in, and the situation that must be met.

How it happens, who or what is responsible, is immaterial, the situation remains unchanged and the problem must be faced and solved.

The only solution has been provided by the last session of the state legislature, and is known as House Bill No. 121. It provides:

The Board of Trustees of an Independent School District, and other authorized officers of schools, in the absence of two-thirds of the qualified electors of the district voting at a special election to be held for that purpose, may, in addition to the levies now provided by law at any time during the years 1921 and 1922, levy such taxes as, when added to money appropriated to the County Superintendent of Schools, and other funds from other current levies, will be sufficient to provide the necessary funds for the maintenance of the schools for nine months in such school year and for the balance of the year from the Sinking Fund for the liquidation of the bonded indebtedness.

Provided, that if such levy with other authorized levies exceeds the limit prescribed in the General School Laws, such authorization to make same shall first be secured from the State Board of Education. Such levies shall be collected and expended in the same manner as other taxes and expenditures may be made in anticipation thereof.

It is only necessary to vote the additional tax required and in one year wipe out this deficit and start over again with a clean slate.

The budget for the terminating five months of the year is shown in detail on Exhibit "D" together with the real and estimated income as at June 30th, 1921. It is to be noted that the expenditures for the remainder of the school year shown in this budget; it was assumed that the present educational program and policy would be continued until the end of this school year.

Consequently, no effort was made towards retrenchment in estimating this year's expenses, but the way had changed in the educational policy before the end of the year would probably demoralize the taxpayers entirely.

However, since items of expense will naturally decrease towards the end of the year, such as supplies, fuel, etc., a decline in prices in some kinds of supplies may also help somewhat, and it is likely that with better weather, janitor service will not be quite so high as during the continued bad weather, considerable extra savings may be secured. But the very pressing can be deferred and provided for in the next budget.

A very large item of expense met this year was that for improvement of the building, principally, this tax for the current year was all paid in December, and is of course not included in our budget, but is here mentioned on account of its absence from the budget and also to call the attention of the board to the necessity of providing for this expense in the budget for next year.

FINANCIAL ASPECTS OF SITUATION.

The present financial condition of the district can be briefly described as follows: All of the operating revenue for the year so far received with the exception of the interest on bonds, and in addition \$155,533.79 has been expended which must be paid out of future revenues. The future income which will become available for this purpose amounts to approximately \$140,215.51.

This income would liquidate the warrant indebtedness of \$155,533.79 less \$140,215.51, but, of course, will not operate the school for the remaining five months of the year. The estimated amount required to operate the school until June 30th, 1921, is \$176,668.05. Therefore, \$176,668.05 plus \$69,197.77 must be raised from some source other than the revenue now available.

Close study of the budget will solve the problem, as a very large part of the

A small but charmingly arranged home wedding took place Tuesday, April fifth, at four o'clock in the afternoon when Miss Charlotte Jeanette Stevens, daughter of Mr. and Mrs. Sherman Stewart, became the bride of A. Dorman Johnson. The home of the bride's parents, 346 Eleventh avenue east, was artistically decorated with flowers and potted plants. The bride wore a traveling suit of navy blue tulle, with grey hat, shoes and gloves, and carried an arm bouquet of light roses. Presiding over the ceremony was the vocal selection "Until" was by Miss Sara Thomas. To the strains of Lohengrin's wedding march played by Miss Grace Bell the bridal party took its place in the dining room where the Rev. Edgar L. White, pastor of the Methodist church, performed the ceremony, using the ring.

The bride has been a resident of Twin Falls about nine years, graduating from the high school and later attending Northwestern university at Evanston, Ill. Mr. Johnson was born and reared in Idaho, son of Mr. and Mrs. F. E. Johnson, pioneers of the Coeur d'Alene; but for some years residents of Boise. He was educated in the public schools of Wallace, graduated from the high school in that city, also from Phillips Exeter academy, Harvard college. Mr. Johnson is assistant cashier in the First National bank. After a short honeymoon trip to Portland and Cambridge, the young couple will be at home to their friends at 101 Bee apartments.

Mrs. Charles L. Hart and Mrs. W. H. Johnson were hostesses to Charlotte Stevens, daughter of Mr. and Mrs. Sherman Stewart, at the home of the former on West Main Tuesday evening. After the regular business session with the president, Mrs. E. P. Dunlap, presiding, an English program in charge of Miss Jessie Fraser was enjoyed. Mrs. W. F. Ostrom sang two solos and Miss Fraser gave a most interesting talk on the work of the public school. A greeting was received ("A Shakespearean romance" was a part of the entertainment, with Mrs. Ostrom capturing the prize. Mrs. Frank E. Bell then favored the chapter with three verses and the following refreshments were served to the following members: Mesdames F. S. Bell, H. S. Cowling, E. P. Dunlap, E. W. Felt, C. J. Hahn, Hal G. Blue, C. L. Hart, W. H. Johnson, F. E. McLean, J. F. Nelson, C. O. M. McElwain, W. E. Nixon, E. B. Williams, E. White; Edward Cooper, the Misses Grace Bryant, Eula Fox, Jessie Fraser, Jane Maxwell, Edith Dyer, Mrs. W. A. Ostrom of Boise was a guest.

The Twentieth Century club met in the Baptist bungalow Tuesday afternoon. An interesting session was held, with Mrs. E. B. Williams presiding. Refreshments were present. These brought before the membership the need of all public spirited citizens' vote for the school bond issue. The chairman, Mrs. E. J. Finch and A. J. Crom spoke in favor of the measure and the club placed themselves on record by voting to assist in canvassing the city and placing the vital need of a favorable vote before the people. After the transaction of business a program was given under the direction of Miss Stella Hibbard, as follows: Delightful recitation by Mrs. E. A. Landon, accompanied by Mrs. B. D. Stover, "Out Where the West Begins"; an entertaining talk by Mrs. T. H. Irwin on her "Impressions as a Sociologist" and a dramatic play selection by Miss Margaret Boebe. Election of officers will be held at the next meeting, the nominating committee consisting of Mrs. W. F. Nelson, Mrs. E. A. Landon, Mrs. J. H. Morehouse, Mrs. D. F. Sweet and Mrs. M. J. Swoley, posting the following ticket: President, Mrs. W. T. Herbert and Mrs. E. H. VanCott; first president, Mrs. A. E. Peck and Mrs. C. E. M. Wolfe; second vice president, Mrs. A. Wilton Peck and Mrs. L. F. Brackton; recording secretary, Mrs. G. D. Duke and Miss Stella Hibbard; corresponding secretary, Mrs. L. E. Boar and Miss Alberta Simonds; treasurer, Mrs. H. P. Laird and Mrs. D. Henry; auditor, Mrs. Donald McLean and Mrs. E. A. Landon; secretary of directors, Mrs. G. M. Simpson, Mrs. R. S. Lewis, Mrs. W. F. Peck or Mrs. P. H. Smith, Mrs. J. H. Morehouse, Mrs. Katharine Frost. Two members of the club, Mrs. C. M. Jones, James Fitzgerald and Mrs. H. W. Clouche, were elected from the floor. Nineteen new members were added to the club.

Leto yesterday at the Baptist parsonage, Charles A. Bundo and Della Christov were united in marriage. Mr. A. C. Hahn and Hilda Christov, sister of the bride, witnessed the ceremony. The young people have a wide circle of friends here. The groom is the son of Mr. and Mrs. Charles Bundo of Idaho Falls, and the bride is the daughter of Mr. and Mrs. Nelson Christov of Ellet. After a brief honeymoon trip they will return to live in this city.

Mrs. Walter Dufresne and Mrs. J. B. White entertained at a miscellaneous shower Tuesday afternoon complimentary to Miss Leonilla Bonetti, at the home of the former on Sixth avenue east. The rooms were beautifully decorated with pale pink carnations and

forms. A charming arrangement was carried out for the opening of the girls, the dining room table having at one end an improvised altar before which the parcels were placed, an altar laid from the opposite end of the table with the large "kewpie" dressed as bride and groom, proceeding down the flower strewn path to the altar. Bride and groom played after the afternoon and a two course luncheon served. The guests were Mesdames Frank and John Thometz, Charles D. Anderson, E. Van Heert, Davison, Hal Bloer, Thomas McElwain, Robert W. Bloer, Charles Lottman, Bert Koster, Hugh Lewis, C. F. Parsons, W. L. White, the Misses Merle Nowlan, Lena Eckert, Gertrude Macaulay, Sarah Lathoy, Leslie McFarland, Alberta Simonds and Dorothy Roy.

The Episcopal Guild will meet at the Parish hall on Thursday afternoon at 2:30.

"Buy What You Need"

to two causes we attribute the fact that business at this store continues as usual, that sales are no smaller than last year.

- first, we have had the courage to keep stocks complete; we have not let them run down, we have bought what we need.
- second, is our willingness to meet the new market prices, to take a loss as prices come down.
- our stocks are back to normal. All old merchandise of the high price period is gone.
- today you buy here from stocks complete in every detail, with prices down to today's market.

REFORM: In times of mental stress and community excitement an ounce or two of caution thrown in for good measure is pretty apt to be a good thing.

On the other, is lacking in the essentials of justice as between men. Likely there have been violations of law of the latter class. Probably there always has been, here and elsewhere, but an outraged sense of public justice demands something more than this...

As to the future conduct of public office and public administration here and elsewhere, retrenchment must be the order of the day.

As before stated this is a time to proceed with caution. There is such a thing as reform run wild. The eyes of the people of the entire State are fixed upon the Twin Falls Country and the net result to date does not tend to enhance the desirability of this section as a place of residence.

Specifically, common sense rejects the proposition that one hundred per cent of the men who constitute the Highway District Board, the School Board and the City Council are either crooks or incompetents.

Just a mere pamphlet issued by a New Haven Justice and approved by the government in 1807 bears the following mass of words: Most Serene, Serene, most Pleased, Pleased, High, Illustrious, Noble, Honorable, Venerable wise and prudent, Louis, Emperors, Kings, Republics, Princes, Dukes, Earls, Barons, Lords, Burgesses, Schepens, Counsellors, as also Judges, Officers, Justicialars and Regents...

Without any particular knowledge of the right or wrong of the charges so freely preferred and so strongly urged against a majority of the members of the various boards and bodies now under fire it would seem that the kind of reform which falls to distinguish as between the breach of law committed in the hope of selfish gain and in a spirit of downright dishonesty and that which violates technically but results neither in profit on the one hand or loss

GERMANS SEEK SPAIN'S TRADE

AMERICAN OBSERVER SAYS TONS IN BARCELONA QUOTE VALUES AT RANDOM

LONDON, (AP)—George White, an American, writing from Barcelona to the Daily Mail, says the Germans are making "a drive" to secure the Spanish market in practically every line of industry...

The Germans, he says, are quoting cement delivered in any port in Spain at 100 pesetas which is about 20 pence below the standard price Spanish manufacturers ask...

TAKE THE AFFIRMATIVE

Henry C. Wallace, now secretary of agriculture, not only emphasized a statement in his report of agricultural in the words that we quote from him below, but he gave an insight into his own personal character. He is of the affirmative type, not the negative type of man. He was discussing the endeavor of the farm bureau to solve the marketing problem when he uttered the following appeal to the farmers of America: "Take the affirmative, not the negative." The farmers of this country have been on the negative side of this whole marketing business for 40 years. They did not know enough about the affirmative side to help themselves until this movement started. The time has gone by for the negative fellow. If you are not going to take the affirmative and adopt the business method of looking after your own business, such as all other businesses have adopted, you will get no more sympathy from any class of people. The first thing to do is to go forward, to help yourselves, to adopt the affirmative attitude. Once you adopt that view of looking at things you are going to go forward. If we cannot do it, then let us quit kicking and sit down and become "heavers of words and drawers of water," and we content with our lot—Linnis Farmer.

Serious Greetings

Just a mere pamphlet issued by a New Haven Justice and approved by the government in 1807 bears the following mass of words: Most Serene, Serene, most Pleased, Pleased, High, Illustrious, Noble, Honorable, Venerable wise and prudent, Louis, Emperors, Kings, Republics, Princes, Dukes, Earls, Barons, Lords, Burgesses, Schepens, Counsellors, as also Judges, Officers, Justicialars and Regents...

Prohlistic Cemetery

An interesting discovery was made at Crall, Scotland, recently. When some men of the telegraphic department were at work on the west links they unearthed a stone coffin with a human mink skeleton inside. There is nothing to show the date, but it is obviously of great antiquity, and probably belongs to the same remote period as other stone coffins that have been discovered at various times upon the old hough.

He Should Worry

He was a wise man that said that he had no time to worry. In the daytime he was too busy and at night he was too sleepy. The Black and Margenta (New Crown, Ohio).

SNOWBOUND FIELD CHECKS EVANS' BASEBALL TRAINING ACTIVITIES

Boys of High School Athletic Horde Compelled to Rely Upon Mental Suggestion, with a Little Oral Application in Preparing His Men for the Spring Field Work - Has a Multitudinous Squad

BASEBALL and track work being practically at a standstill due to the weather, Coach Evans was unable to do anything but talk of future plans today. The Blue and White team was forced to pace the halls and do most of its team building mentally and orally.

Before he went on with Peck Ed Lewis announced from the ring that if the Cornhusker beat him he would retire from wrestling circles. Two days in succession, Saturday and Sunday, the White Sox were defeated by one score by Texas League teams.

Looks him for major league baseball on the south side of Chicago. Annus Strunk was the final member of the White Sox to sport. His reason for being tardy was that he had been ill at his home in Pennsylvania.

While the outfielders do not number any second Babe Ruths in the ranks at present there are a number who can cover the large territory. Philippe, Thomas, Nye, Doona, Sanger, Mickelwait, Bob beta, Stradley and Hoffman show up strongest though there are many others coveting outfield positions.

Brief Bits of Sport

LABOR COUNCIL LEADER GIVES LIE TO REPORT

O. E. Thompson Denies Unionists Oppose School Levy in Resolutions

Humors, said to be current on the streets today to the effect that organized labor has adopted resolutions in opposition to the school tax levy, are given vigorous denial by C. E. Thompson, president of the Twin Falls Building Trades council in the following statement, made at noon today to The News:

Reported on street this morning that organized labor has adopted resolutions against the levy election for the public schools of district No. 1. To this report I am emphatically opposed in behalf of the council I represent. No resolutions have here been brought before the body in regard to the school levy matter and no action has ever been taken either for or against the election.

BUTCHER NAMES CITY OFFICIALS IN COURT SUIT

Judgment for \$30,000 is Asked in Damage Action Started Today

Charging malicious prosecution, Charles Dunn, proprietor of the American Meat Market, has instituted a damage action in the district court asking judgment for \$30,000.

The suit is based upon a case brought in the municipal court on January 29 of this year in which he was accused by Inspector Stinson of hatching a head of hogs without having submitted the animals for post mortem examination by the proper authorities, as is provided by the city ordinance.

Plaintiff claims that by reason of this arrest he has been damaged in "the inconvenience and injury to his friends; the loss of the good name and reputation; his personal mortification by being placed under arrest; his wounded pride; and the smart and injury of the malicious act and acts of oppression of defendants."

The sum of \$10,000 is asked for those alleged injuries to business, name, reputation and pride, and in addition each of the defendants is asked to pay the sum of \$5,000 as punitive damages.

A similar action is said to be in course of preparation in which C. B. Jaaks will plaintiff against the same defendants named in the Dunn case.

American Legion Supports Tax for District Schools

World War Veterans Endorse Election Movement to Provide Funds

Twin Falls post, American Legion, at a meeting last evening went on record in hearty endorsement of the authorization of a special levy to permit the continuance of public school sessions here this year and named a committee composed of Carl L. DeLong, P. W. McElroy, Ed. R. C. Mills, Dr. C. Beche and A. W. Rowle to co-operate with similar committees named by the chamber of commerce and other organizations to work for endorsement of the levy of the election on Friday next.

The Legion committee held two meetings today and perfected plans for assailing voters in getting to the polls.
