VOL. 5, NO. 17 PRIOR FIVE CENTS

INTERMOUNTAIN FREIGHT RATES ARE SUSTAINED Interstate Commerce Commission Finds No Fault with the Carriers' Charges on Traffic from Eastern Points

WASHINGTON, D. C. (AP)—Freight rates from points of origin east of the Rocky mountains to the intermountain territory were held by the Interstate Commerce Commission... Donnes Graduated Tariff.

Water Shipping Declines. "The ships that will ply between the Atlantic and Pacific ports, the committee said, are not nearly so numerous and the tonnage now moving is not nearly so heavy as during the period that followed the opening of the canal and preceding the entry into the world war."

Some Phases Decided. "Concerning the decision of the commission," Commissioner Eastman pointed out that the entire problem was not yet solved.

Industry Moves West. "The rate situation is having a tendency," the commission said, "to compel the eastern industries to erect manufacturing plants and branch houses in the west states."

UNION FORBIDS COAL MOVEMENT British Railwaymen are Ordered Not to Handle Fuel Shipments

LONDON (AP)—The National Union of Railwaymen has instructed its members not to handle coal and fireclay shipments from overseas, Sir Eric Geddes, minister of transportation, announced in the house of commons yesterday.

LODGE CALLS UP KNOX RESOLUTION WASHINGTON (AP)—The Knx resolution was called up in the senate today by Senator Lodge of Massachusetts, republican leader.

HOLDS MINERS' WAGE DEMANDS KEEP COST OF COAL STATIONARY Operator Declares Price Reduction Cannot Come Without Payroll Cuts

ATLANTIC CITY, N. J. (AP)—The coal operators of the United States cannot offer permanent relief in the way of reduced prices unless the United Mine Workers of America agree to a modification of their present wage contract.

PICKS SPOKANE MAN FOR PLACE President Nominates E. I. Lewis and J. B. Campbell for Commerce Commission

WASHINGTON, D. C. (AP)—E. I. Lewis, of Indianapolis, chairman of the Indiana public service commission, and J. B. Campbell, a Spokane, Wash., lawyer and coal operator, were nominated by President Harding today.

CONCLUSION ON SEAMEN'S WAGE IS POSTPONED Conference Between Shipping Board and Union Mariners' Representatives Fails to Bring Agreement

WASHINGTON (AP)—The wage conference between the shipping board and representatives of the marine unions and owners and operators of American steamships adjourned today until Friday without having reached a final conclusion.

Differences Develop. He hoped to obtain the adoption of a new agreement covering wages and working conditions. A sharp decline in wages of from 20 to 30 per cent proposed by the owners was rejected by the men who made counter demands for certain changes in existing regulations.

Boise Election Won by Taxpayers' League BOISE, Idaho. (AP)—The taxpayers' league, which elected its mayor April 5, carried Tuesday's city election in Boise.

OKLAHOMA PAYS HEAVY TRIBUTE TO PEST OF AIR

State's Board Bill for Crows Coming from Neighboring States is Estimated by Experts at \$1,200,000 a Year

STILL WATER, Okla., (AP)—Oklahoma's board bill for crows from its sister states—north, east, south and west—is \$1,200,000 annually. This pest of the air, who migrates to Oklahoma for the winter holidays, is one of the most costly visitors to which the state pays host.

According to a report made here today by C. E. Handlon, professor of entomology at the Oklahoma A. & M. college, crows cause a loss of more than this sum to farmers each year, chiefly through their consumption of grain. The figure was arrived at on an estimate of 10,000,000 crows consuming \$10,000 worth of grain per day for 120 days, the average period of their sojourn in the winter.

Boards Others' Burden. Oklahoma boards the crowd during the winter months and thus raises a heavy burden from the shoulders of eastern states, the report says, "where it appears to be more of a nuisance resident than a winter pest. They have acquired the habit of deserting others and returning to us until it appears the annual crop of crows from adjoining states winter here. The nature of the farm crops at this time of an estimate of 10,000,000 crows consuming \$10,000 worth of grain per day for 120 days, the average period of their sojourn in the winter."

Comparing with his report, Professor Sandborn quoted statistics from four community councils of Logan county, which estimated that the crows did \$73,000 damage in the county last year. The roosting places and food range of the crows are such, he said, that at least 20 counties were ravaged last year equal to Logan county, therefore making a total estimate of \$1,200,000 for Oklahoma's board bill for crows. "A proper estimate of the damage done by the winter in Oklahoma would appear difficult to persons who have not seen some proof of the crows' prevalence in the state," the entomologist declares. "Persons who do not travel over Oklahoma much, but have noticed herds of crows hovering over certain sections of the state, might think that all of the crows in the country were bivouacking in that particular locality."

Bill of Fare is Varied. "The most serious complaints relative to crop damage indicate that in Indian corn, kafir, sorghum, maize, peanuts, sorghum, melons and cotton are the products usually damaged by the crows. They also injure germinating corn and oats. Their damage to crops, poisoning of eggs and destruction of wild animal life is not only tremendous, but their habit of carion eating makes of them disseminators of livestock diseases. The latter damage is of a peculiar character and practically inoperable."

Deflation Problem for Reserve Board

WASHINGTON, (AP)—By direction of President Harding the federal reserve board has undertaken a special inquiry into the problem of deflating industrial values without serious injury to the agricultural interests. It is understood that some steps to aid agriculture in connection with the deflation trend may be taken by the board in the near future.

Paddock Breaks World's Record for 220 Yards

Charles Paddock, the University of Southern California sprinter who clipped two-fifths of a second off the world's record for 220 yards at a meet in Berkeley, Cal. The old record was 21 3/5 seconds. Paddock, time by four clocks, broke the tape in 20 4/5 seconds.

Girls Float Twenty-four Hours to Test Safety Suits

In order to test the durability of a safety suit for ocean travelers, two New York girls, the Misses Ruth Maples and Doris Vanderweken, donned the suits and floated in the waters of New York bay for twenty-four hours. They took their meals standing up in the water and even slept part of the time. Neither was the worst for the unusual experiment after the twenty-four hours were up. The photo shows the girls, with A. E. Jackson, floating around off the Battery wall.

PLANTERS WORK NOT SOFT SNAP

Disappointment is Met by Newcomers Lead to Island by Erroneous Reports

PAPETE, Tahiti (Society Islands)—Many recent arrivals at the Tahiti and Marquesas islands from other countries were attracted here by the erroneous reports that "have gone abroad that great tracts of rich coconut lands can be had at low prices and that only a small amount of capital and patience are necessary for one to come into possession of property that will pay good dividends for a lifetime."

Disappointments and hardships have been met by the newcomers for there is no truth in the reports they received. In the first place, island lands here are not for sale, as the natives will sell everything for one or two cents per acre. It considers himself a trustee of his acres, bound to pass the property unimpaired on to his descendants. What lands have passed from possession of the natives are in strong hands and for sale only at figures beyond their value.

A second reason why the reports are untrue is that it takes about 12 years to bring a coconut tree into profitable bearing. The plantations require constant tending and care, work which white men cannot do and retain their health. Plantation owners must depend upon native or Chinese labor and in these days it is hard to get help, for the natives being land owners, have sufficient for their own needs and the Chinese are engaged in trade or attending to their own gardens. The idea of importing labor was proposed but later abandoned.

FREIGHT RATES MENACE TO CANTALOUPE GROWER

Imperial Valley Producers in Washington Bay Record Drop is Threatened with Loss

WASHINGTON, (AP)—Declaring their record crop, valued at \$11,000,000, was threatened with loss through high freight rates, cantaloupe growers of the Imperial Valley, Cal., placed their plight Tuesday before western members of congress and executive officials. The cost of growing cantaloupes in the Imperial valley this year, they said, will amount to one dollar a crate, while the average freight charges under present rates total \$1.77 a crate. Inability to market the coming crop, they added, would mean the extermination of the industry.

Comparing Notes on American Contention

PARIS, (AP)—The allied chancelleries are exchanging notes regarding the points raised in the recent note of Charles E. Hughes, United States secretary of state, on the question of the mandate, with the view of a common reply.

It is considered improbable in French official circles here that the question will come up at the supreme council meeting on Saturday in London.

Vacation Trip to Pacific Coast Is Urged on Harding

President is Said to Have Expressed Preference for Northwest

WASHINGTON, (AP)—A vacation trip to the Pacific coast for President Harding late this fall is being urged by some of his friends and is understood to be receiving favorable consideration. The president is said to have indicated that if he finds opportunity for a vacation this year he will spend it in the northwest. The northwestern trip first suggested as part of a trip to Alaska, but it has been indicated that the president has little hope of getting that far away during the present summer.

HOUSE COMMITTEE FAVORS FARM ORGANIZATION BILL

WASHINGTON, (AP)—The house judiciary committee Tuesday ordered a favorable report on the Volstead bill permitting organization by farmers, ranchmen, dairymen and fruit growers for purposes of collective marketing. The secretary of agriculture would have supervisory powers.

PULLMAN STUDENTS DECIDE TO CONTINUE WITH WRESTLING

PULLMAN, Wash., (AP)—Wrestling is to be continued as a major sport at Washington State college here, the associated students having decided against abolishment. Speakers at the annual meeting declared for Washington State college to drop wrestling would be a step backward.

Viviani Here; May Seek New Loan for France

Beno Viviani, the noted French statesman, who recently arrived in New York from France as a special envoy of the French government. Mr. Viviani's visit has created international discussion. While he formally declined his trip was to pay the result it is understood that his chief purpose is to create a closer bond between the two countries. It was later disclosed that the former premier may ask for an additional loan.

DENIES JAPAN BENT ON FIGHT

Uchida Says Appearance of Militarism is Due to Misunderstanding

TOKIO, (AP)—Japan, being in a disadvantageous position on account of the difference between things eastern and western, is made to appear a warlike nation, Viscount Uchida, the foreign minister, told a meeting of the Japanese League of Nations society here Tuesday.

"Nothing can be further from the truth than the idea that Japan is bent on fighting," Viscount Uchida added. The foreign minister expressed the opinion that, despite skepticism, the international league of nations had come to stay and eventually would become the moving spirit in the world's affairs. Resolutions declaring the society should help in solving the question of the Yip mandate and the American concerning it, and also the Shantung question, were presented. M. Kamei, a Japanese newspaper correspondent stationed in China, also denounced the misinterpretation of Japanese troops in Shantung, declaring Japan had pledged her honor to return Shantung to China, but showed no signs of fulfilling that pledge.

Pioneer Rendezvous of Outlaws Passing

BARTLESVILLE, Okla., (AP)—"The Port Said of Oklahoma," old Second street, Bartlesville's northern thoroughfare known throughout the annals of the history of Oklahoma and the old Indian territory as the pioneer rendezvous of outlaws, is passing. With the passing there is told again by old citizens of the city, people who lived here long before Bartlesville was chartered, incidents of protection that avenue once afforded the bank robber, liquor runner and highwayman. The Salvation Army has opened up its headquarters in "John Vann's place," declared by old-timers to have a history among outlaws that is rivaled in eastern Oklahoma. Thirty years ago, they say, "Vann's Place" was the mecca for shady transactions.

RAILWAY UNIONS ADD TO CHARGES OF INEFFICIENCY

Supplemental Statement Contains Suggestions for Savings of \$1,276,500,000 Held Possible to Be Made

CHICAGO, (AP)—The railway labor unions fighting wage reduction before the railroad labor board today filed charges of waste and inefficiency on a quarter billion dollars today. In a supplemental exhibit, that filed last week, setting forth alleged waste of a billion dollars, the employees charge that possible savings totaling \$1,276,500,000 could be effected by the railroads if they would introduce modern methods in maintenance and operation of the railroad industry.

Motive Power Obsolete. Under operative clauses, the exhibit quoted John E. Mahaffey before the American Society of Mechanical Engineers as saying that "the annual losses in locomotive operation and maintenance seem to be due entirely to the fact that the motive power of our railroads is relatively obsolete, in quantity and inefficient." Freight car performance, due to inefficiency, leads to "stalling deductions." The report continued, saying that a freight car travels an average of only 25 miles a day, is loaded about two-thirds of the time, and that 5.6 to 7 per cent of all freight cars are chronically unserviceable. In the western region the Union Pacific averaged 59.3 miles a day for each car and the Denver and Rio Grande 17.6 miles.

Many other wastes were enumerated. Saving Through Spot Repairs. In dealing with possible repairs, the exhibit estimated that \$42,522,500,000, with a savings of \$2,500,405,000 in the carrying cost of logs.

SOUNDS WARNING NOTE TO NEWSPAPER PUBLISHERS

Problems in Materials and Labor are Stressed by Association Head

NEW YORK, (AP)—Warning against a possible future demoralization in the news print market, T. R. Williams, president of the American Newspaper Publishers' association, in his address before the thirty-fourth convention of that body, today told publishers newspaper rates should not be allowed to descend. He urged upon the newspaper publishers the need of co-operation with government forces in restoring world peace and bringing business conditions back to normalcy, and especially in repealing unnecessary wartime restrictions and chaotic features of federal taxation laws.

Harding Gives Views on Lodges' Benefits

WASHINGTON, (AP)—President Harding recounted to an audience of Odd Fellows last night, assembled in celebration of the 102nd anniversary of the order, a personal experience as a member of a fraternal organization. In attending a meeting of a fraternal organization, the president related how he had found himself seated by a man who was a chauffeur.

SUCIDE IS SEQUEL TO SHOOTING OF LANGDON

Japanese Commander at Vladivostok, Killed in Shooting at a Soldier's Death, Takes Own Life

TOKIO, (AP)—Lieutenant General Sakai, commander of the city of Vladivostok, committed suicide on Monday, his death being a sequel to the shooting of Naval Lieutenant W. H. Langdon in that city on January 24. General Sakai is said to have either held himself responsible for the death of Lieutenant Langdon, or to have been motivated by what he believed was the weakness of the Japanese government in dealing with the incident.

SERVICE MEN CAPTURE

(Continued from Page One) ed up to that time, was announced the lead of the service men's successful candidate was indicated as was that of the contending candidates on the citizens' ticket and Dr. J. O. Boyd, the Taxpayers' candidate for mayor, was leading T. F. Warner on the Citizens' ticket by 57 votes. The count of the vote is announced as follows: "clock gear in the following results: Mayor—McCliberts 525, Boyd 516, Warner 458; clerk—Taber 408, Rounds 378, Minick 200, Packard 129; treasurer—London 47, Wheeler 446, Alexander 463; cracker, first ward—Passer 407, Bracken 483, Bangor 524, Stinson 442, Caudle 343, Simpson 347; council—Cauld, ward—Krogan 534, Perk 448, and the other—Bowles 448, McKay 355, Davis 302.

Service Men Parade

Upon the announcement of the completion of the contract, former service men and their friends organized an impromptu parade headed by several pieces of a brass band, and marched, single file, with shouts and singing, down Main street and up and down Main avenue, pausing at the intersection of the thoroughfare to stage an elaborate "snake dance" in which more than 500 men participated. The march was resumed with the bandmen playing "Onward Christian Soldiers," the strains of the hymn succeeding the initial strains of enthusiasm that found expression in the familiar strains of "Hail, Hail, the Gang's All Here," and "There'll Be a Hot Time in the Old Town Tonight."

Returning to the second ward polling place, the marchers halted to demand statements from Captain McCliberts, Dr. Passer, Mr. Peck, Taylor, Cummins, chairman of the servicemen's committee, and other candidates, and others, each of whom was hoisted onto a table which had been prepared for the purpose.

Push Manager Plan

The service men's campaign committee today issued a statement to the effect that the petition would be circulated immediately calling for submission of the question of adoption of the city manager plan of municipal administration, for which its candidates were pledged.

LIVESTOCK HANDLING CHARGE IS SUBJECT OF CONGRESSIONAL HEARING

WASHINGTON, (AP)—Farmers, livestock producers and shippers filed complaints with the interstate commerce commission Tuesday that railroads had increased the fixed charges for handling livestock in Chicago to a greater percentage than was authorized by order of the commission last August. The complaints held that the increase from \$2 to \$3 was illegal and that the increase should have been only 35 per cent.

PARIS DETECTS BACKWARD STEP

(Continued from Page One)

Briand Continuing Study of Proposal

PARIS, (AP)—Germany's proposal relative to reparations is still being considered by Premier Briand, and it is probable a decision will not be reached before tonight regarding their acceptance or rejection. When such a decision is reached it will be communicated first to the United States government.

Officials here were reticent this morning regarding the German proposals but in political circles close to the premier there was a belief that the Ruhr district of Germany would be occupied immediately after May 1. Germany's proposals are entirely insufficient, it is declared in authoritative circles, being at least one hundred billion marks below the terms fixed by the supreme allied council. The demands decided upon at that time have been considered as a minimum, amounting to approximately 200,000,000 marks.

Britain Waiting for More Light on Offer

LONDON, (AP)—The British government today requested its representatives in Berlin to inquire informally regarding the new German reparations offer for the purpose of clearing up the ambiguity concerning the terms of the offer in which payments would be made under the offer.

LONDON, (AP)—Germany's new proposals, says the London Times, commenting on the German notes, "are not so desecratory as the proposals of March, but they are still very vague what the allies, after many volunteer abatements, have declared to be the minimum demand."

With respect to a loan the Times says the matter of security is highly important and that it is not likely the allies will assent to an interest rate of four per cent. It adds that the German qualification that the present basis of production is not further to be diminished, is intended to cover the plans to Utopia.

Consideration should be given the German proposals by the allies, said the Daily News. The newspaper expressed the opinion that the German note was not clear, but added: "On the face of this, they are not terms which the American government is likely to flinch at as unworthy of discussion."

Budge Elected New Mayor of Pocatello

POCATELLO, Idaho, (AP)—In a spirited municipal election yesterday Pocatello selected a republican mayor in Jesse B. P. Budge, and on the councilman ticket divided honors with the Democrats. C. W. Pomeroy and W. H. Doblecker, republicans, and W. E. Trapp and S. L. Terce, democrats, were elected.

OFFICIALS REDOUBLED EFFORTS TO STAMP OUT DRUG EVIL

VANCOUVER, B. C., (AP)—Alarmed by the spread of the drug evil in British Columbia and western Canada federal, provincial and civic forces are redoubling their efforts to put an end to the traffic. Special precautions have been taken to prevent smuggling of the various forms of "loophole" into this port. Airplanes have taken a prominent part in this work, accompanying liners from Victoria to Vancouver so that any dropping of packages will be picked up by small craft not read to go unobserved.

FAMINE-FUND WORK AT HALF-WAY MARK

The American Committee for China Famine Fund, according to a statement issued by Thomas W. Lamont, chairman, has reached the second stage of its mission of raising and sending funds from America to feed the millions of starving famine victims in the far eastern republic...

"Whereas early estimates made it seem that millions must perish, we now are advised that instead of the 15,000,000 who, it was originally feared, were doomed to death from hunger, relief at present in sight from all sources, American, Chinese and foreign, is sufficient to provide scanty rations for the entire harvest of the next 5,000,000 people..."

"It is the earnest hope of the Committee that the number of contributions made as well as the aggregate will be such as to make our humanitarian relief to China a grand success..."

"One way to make individual effort, and generally contribute toward saving China's starving population is for every one responsive to China's needs to buy a pair of socks for a friend in China for a day..."

"When I was young, women were different. My saluted mother had no use for expensive furniture. Father always was doing his best to get the best for the least..."

"CHINA WEEK" IS SUPREME EFFORT OF FUND WORKERS

As a practical and popular demonstration of the sympathy of the nation for a sister republic, "China Famine Week" is to be observed throughout the United States, has been announced by the American Committee for China Famine Fund...

"I wish it was 'finally' with your mother," said Mrs. Jamesworthy. "I'm sick of hearing of her."

To hasten the work of relief, this newspaper will forward contributions to the local Treasurer, or to the National Treasurer, China Famine Fund, Bible House, New York City.

Daddy's Evening Fairy Tale

"My dancers are coming," shouted Brownie Joy to the boy and the girl who were off for adventures... "The boy and girl looked, and from far off the road came running and hurrying and scurrying and dancing lots and lots of creatures who seemed to be here one moment and there the next..."

"They're the shadow dancers," explained Joy. "They must always come to a dance like this. They've done it a great honor to come from out of the woods to dance and dance along the road, laughing at the sun as he plays jokes on them..."

"Like dogs with collars," said the girl. "It would be terrible if they were to lose their collars..."

The Little Glee Twins

written on them, too, in case they're lost! "She was surprised to hear Joy say..."

"It might be a good thing," Joy added. "If they could always wear their collars so that more could know their names, for they don't seem to always be heard when they speak..."

After a time the boy and the girl danced too with the other dancers, among whom were the Little Glee Twins, and the two Hiss brothers, and Glimmer, Cheer, Delight, Gaiety and Jollity...

"After they had some refreshments from the boy's knapsack, and there was enough for all, though there was nothing left over for any other meals..."

"Good-bye," said the boy. "We've enjoyed seeing you so much and your dancers too..."

"Yes, that's right," said the girl. "They started on their way and Joy turned to the dancers..."

"It is, isn't it?" said the girl in front of his mouth. "They shared their food with us and they didn't think they were improving their characters or being noble and self-sufficient..."

"Therefore they were, and they're not so serious minded as they were. Gracious! They thought they could show us out of the way and that I'd not be missed in life!"

"Well, we'd better take this short-cut which Joy pointed out to us," said the boy. "They started on their way and Joy turned to the dancers..."

"No, I wouldn't. I'd call it a human impossibility..."

"No, I wouldn't. I'd call it a human impossibility..."

"No, I wouldn't. I'd call it a human impossibility..."

Nothing to Disprove Belief. Teacher—"Why did the ancients believe the world to be flat? Didn't they have globes to prove that it was round?"
