

BRITAIN AND BELGIUM JOIN IN COORDINATING GERMAN PROPOSALS

REPORT FAVORS ENACTMENT OF TRADE BARRIER

Emergency Tariff Measure is Given Senate by Committee with Recommendation that It Be Passed

WASHINGTON, (AP)—The emergency tariff bill, designed for the relief of farmers and the checking of foreign goods, was ordered favorably reported today by the senate finance committee.

Senators Remind Bill.
Revelation of sections of the hour emergency tariff bill was agreed upon Wednesday by the senate finance committee. It was held to strike out the clause authorizing customs collect on to estimate depreciation of foreign currency up to 65 per cent, which it has been contended would be virtually all goods from central Europe. A substitute amendment, Chairman Penrose announced, would provide for collection of American duties on the foreign market or export value, which ever should be highest.

Revising the anti-dumping section the committee decided that the proposed prohibitory tariff should not be general. The plan adopted would give to the secretary of the treasury power to investigate and invoke the prohibitory anti-dumping penalty in necessary cases.

Measure is Worked Over.

The measure approved by the senate committee differs radically from that passed by the house anti-dumping and currency valuation provisions having been sharply revised although tariff provisions have been changed. A provision to continue government control of day importations through the treasury department was added by the senate committee.

VIVIENI DISCOVERS UNITY OF FRANCE AND AMERICA

Special Envoy Speaks Optimistically of Future of International Relations

PARIS, (AP)—René Viviani, France's special envoy to the United States, spoke most optimistically of the future of Franco-American relations in a luncheon given by the Paris newspapermen this morning. He said that in several of his morning newspapers, following his return yesterday from America.

"I bring back more than the hope of the certainty of the very early conclusion of France and America, both on diplomatic and financial ground," the ex-premier is quoted as saying.

"There is no reason for fearing that the link between the United States and Japan over the Island of Yap will be settled otherwise than by peaceful means," the Paris edition of the London Daily Mail quotes Mr. Viviani as declaring.

"I am confident," he added, "that I am bringing a plan for the reorganization of Franco-American cooperation."

The ex-premier said he had found the various elements in the United States united, for the greater part for the development of the American market and independence and industry, and that therefore he considered wonderfully prosperous future was in store for the American nation.

TWO STATES CONTENDING FOR WATERPOWER RIGHTS

Nevada, Arizona and City of Los Angeles Lay Claim to Power from the Colorado River Dam

WASHINGTON, (AP)—Two states and a city are involved in a water power controversy before the federal power commission. It was learned today. The question involved is the establishment of a dam and power plant on the Colorado river at the head of the Imperial valley. The states of Nevada and Arizona and the municipality of Los Angeles have made applications for the power to be derived from the project. It was said.

Under present rules, municipalities are said usually to be given the preference in the matter of power development requests and for this reason Los Angeles would appear to have the advantage, but that there have been indications that the two states may ask for an amendment of the rules. The commission has not taken the matter into consideration yet.

The proposed power has been claimed for two-fold purposes, it will be served, for in addition to developing a large amount of power it will serve to safeguard the Imperial valley against the danger of flood.

TO THE PUBLIC

UNION PRINTERS' DEMANDS. For a 44-hour week on and after May 1 of this year are now being put up to owners and operators of printing and publishing establishments generally and Twin Falls is, of course, not an exception.

In the interests of a thorough understanding of whatever result may ensue in the pending controversy, the following statement has been prepared by Twin Falls employers in the printing industry:

The contract now existing between the various printing establishments of this city and their respective employees was entered into on January 1, 1920, and expired December 31 last. By mutual arrangement the terms of this contract were extended to May 1, 1921. This contract calls for 48 hours work per day, or 48 hours per week. All work in excess of 48 hours per week is paid for at the rate of time, and a half rate per day instead of eight hours as formerly.

Twin Falls employers of printers seek and should have eight full hours work per day for each employee in the mechanical department of each and every plant, for which they are prepared to enter into a new contract as of May 1 on the same terms as that

in effect during the past year and a half. In this regard, all employers will not, however, agree to pay the same weekly wage for 44 hours as is now paid for 48 hours. They are, however, perfectly willing to pay the same rate as before as they are now paying on whatever hour week basis the Union may elect. But to curtail the hours of work and restrict the product of each employee without at the same time taking away from the expense of operation would be to set up a situation in which Twin Falls employers cannot and will not agree.

The principle of the 44-hour week for printers is being fought out generally over the country. Many shops will grant such demand, many others will not.

No element of personal feeling enters into the matter in Twin Falls. The point at issue constitutes a principle to which the undersigned employers cannot and will not subscribe and the demands of the Union are adhered to as a temporary closing down of the establishments involved is inevitable.

In the event of such an outcome the patience and consideration of friends, customers and subscribers is respectfully invited, such such as has a right of opinion in effect and the necessary men secured to permit of a full resumption of operations.

Kansas Miners' Leader Defies Union's Order

Howat Rejects Demand to Put Striking Coal Diggers Back to Work

PITTSBURGH, Kansas, (AP)—Alexander Howat, head of the Kansas Miners Union, has rejected the demand of the international union that he put back to work the striking employees of the three coal and mining companies.

The demand was delivered to Howat yesterday by the committee of the international executive board sent here by John L. Lewis, international president of the United Mine Workers of America to investigate the strike.

MINERS REJECT SUBSIDY OFFER

British Coal Diggers Turn Down Government's Proposal for Ending Strike

LONDON, (AP)—The miners' federation today rejected the government's offer, looking to a settlement of the coal strike, increasing the temporary subsidy to the industry from 7,500,000 to 10,000,000 pounds. The rejection was by an overwhelming majority.

NAVAL APPROPRIATION BILL PASSED BY HOUSE

All Amendments to Register Sentiment for Disarmament Are Voted Down

WASHINGTON, (AP)—After defeating all amendments designed to register sentiment towards disarmament, the house today passed the annual naval appropriation bill carrying \$306,000,000, of which \$80,000,000 is for continuing construction on vessels, the bill now goes to the senate. No roll call was ordered but on a rising vote the speaker announced 212 members for the bill and 15 against it.

Agree to Proposal for Reducing Out in Wages of the Employees

GERMANY MAKES RAPID STRIDES FOLLOWING WAR

Charles M. Schwab Tells New York Business Men Conquered Nation Settles Down to Work and Outstrips Allies

NEW YORK, (AP)—Germany, through the economy and sacrifices of her working people, has settled down to real production and is outstripping the United States and allied nations in the fight toward normalcy, Charles M. Schwab declared today in an address before the Chamber of Commerce of the State of New York.

Mr. Schwab was the guest of the chamber at a reception given in recognition of his service to the country during the war. He recently returned from Europe.

Understands British Industry

"Germany today can put a ton of steel in England at a price 20 per cent cheaper than England can make it," he said, "and is willing to put a ton in Detroit where formerly we shipped such machinery to Germany and shipped cheaper than she could make it."

"The difference is solely a matter of labor costs.

"It is estimated that 5,000,000 men are out of work in this country. It is accordingly of supreme importance to the working man as well as to the capitalist to restore our prosperity."

"It is possible that after having won the war, we of the allied nations were victorious in our hands will allow Germany to win the peace through the efforts of her labor."

"I understand that our railroads today pay to labor over sixty cents out of every dollar received."

"The labor cost of making a ton of steel today is 95 cents and of each ton of total cost."

Costs Must Come Down
"Railroad costs must come down and it is in the interests of national prosperity that our government, setting through its railroad labor board, and every other agency, shall reduce railroad wages and bring costs down to a living point."

"The present situation confronts our merchant marine."

"Insofar as our people in America are prepared to go to work at reasonable wages insofar as we are prepared to work at the artificial extravagances of the war, will we lay the foundations for a new prosperity such as we have never enjoyed before."

Schwab Receives Token
The chamber presented Mr. Schwab with a bronze tablet at the top of which is inscribed the address of his home, a chronicle Shakespeare play. The quotation reads:

"Here a vouches stronger than ever law could make."

SHUTDOWN FOR GERMAN PROPOSALS STATED FOR SESSION OF SUPREME COUNCIL

Diplomats Consult with Secretary Hughes While Nations Wait on Issue to Be Determined at London

WASHINGTON, (AP)—Sir Auckland Geddes, minister from Great Britain, conferred with Secretary Hughes today, arriving at the state department shortly afterwards. The Belgian ambassador, Baron de Strebrouck, arrived at the department before Sir Auckland left. They were the first of the allied envoys to see Secretary Hughes since he laid the new German reparations proposal before them in London last Tuesday.

It was understood that Prince de Chigi, counselor of the French embassy, had an engagement to see Mr. Hughes during the day. He was to meet for Ambassador Jusserand who is absent from Washington and was expected to communicate the decision of the French cabinet to the German offer was unacceptable.

FRANCE AWAITS DECISION. TO BE REACHED AT LONDON

PARIS, (AP)—The next development regarding the German reparations is expected to occur in London, according to the best information obtainable here today no further steps will be taken in this situation until the allied supreme council, which was to meet in London Saturday, has acted.

Demands Fulfillment Beginning.
France will insist that nothing short of a beginning of the actual fulfillment of Germany's obligations should be made by the allies before the first actual beginning. It is suggested that the delivery of one billion marks in gold from the reichsbank reserve, as demanded by the reparations commission, should be made.

Application of further penalties to Germany and the tracing of new boundary lines between Poland and Germany upon Silesia will be discussed by the supreme allied council at London Saturday, it was learned here today.

The United States, it is understood, will be invited to have a representative present.

Awaits Allied Approval.
Premier Briand of France will, it is asserted, not undertake the occupation of the Ruhr district of Germany without the approval of the allies. The occupation of the Ruhr district, as Washington and Berlin, Paris and London, and many things may happen before French forces are ordered into Germany proper in default of German payments of reparations.

GERMANS' WILLINGNESS TO MODIFY OFFER INDICATED

BERLIN, (AP)—A semi-official statement was issued here today suggesting that the German government was willing to modify its reparations proposal if asked by Washington to do so, and that by such action a basis of agreement could be reached.

"Possibility that the German reparations proposal may be rejected was reflected in press comment on the situation here yesterday," the Vorwärts saying that, "in all probability the German government will be called upon to further alter its terms 'if it hopes to achieve success with them.'"

The industrialist organ Der Tag, 4th page, shares the opinion expressed by Der Simons in his address before the reichstag, during which the minister said Germany would "enter the promised land of freedom when the last annuity was paid, but he said:

"This promise," the newspaper added, "is just as faulty as Dr. Simons' reasoning in general. The people of Berlin were permitted to take along their silver and gold when starting out on their journey, whereas the German people, obliged to leave their behind," the people of Berlin started their journey in their pockets, and the search of a new currency. We are to be locked up for forty years, and have only just started on the first birth of the new industry which is called upon to pay for the Anglo-French world pyramid. Dr. Simons is anything but a Moses; he is not even a gold calf."

EXTENDS ANNUITIES TERM

As the outgrowth of the British query of yesterday, Germany, it is stated, now suggests that the annuities be extended over a period of from 50 to 75 years, or even longer, instead of the 25 years originally mentioned. This is declared in official circles to be a sample of the "evasive methods" of Germany, which cannot be allowed to continue.

Great Britain has requested information in regard to the proposed international loan, which it is declared, could not be floated at 4 per cent, nor could it be floated in Germany. It is stated, however, that Germany is ready to make exceptions for the rehabilitation of northern France, if the allied acceptance settlement on the basis of the fifty billion francs offered. This at first was regarded as a concession but the issue was evaded when the

Mexican Bandits Stage Bloody Holdup in Tampico Oil Fields

HOUSTON, Texas, (AP)—The bloodiest payroll holdup in history occurred here today, a band of 15 Mexican bandits held up officials of the Atlantic Gulf West Indies Oil company and secured approximately \$250,000 in Mexican gold over Tampico, April 22, according to delayed ad-

vice reaching Houston. Ten persons were killed, including two bandits, in the fighting that accompanied the holdup.

Information of the payroll robbery was received today by mail by the Houston Chronicle from its correspondent at Tampico.

REJECTS 44-HOUR WEEK. MANITOWOC, WIS., (AP)—The Fox River Valley Typographical union has decided not to sign any 44-hour contracts for printers. It was announced Wednesday.

RECORDS FURTHER DECLINE. NEW YORK, (AP)—The refined sugar market weakened again today when prices were reduced 25 percent. Soy bean refiners to a basis of 25 cents were down to the lowest level in more than four years.

RESERVE BANK SEES SIGNS OF TRADE REVIVAL

Review of Business and Industrial Situation in Twelfth District Furnishes Basis for Optimistic Report

SAN FRANCISCO, (AP)—Definite signs of business revival in certain districts of the Twelfth Federal Reserve district appeared during the past month, during which period also spring activity in agricultural operations began, according to a report made public here today by the Federal Reserve bank of San Francisco.

"Lumber production, which has been at the lowest point in two years, was 17.5 per cent greater last month than in February, the month immediately preceding it," the report said.

"Approximately 60 per cent of the mills today are in operation—30.2 per cent on March 1, 1921, and 25 per cent on March 1, 1920."

"Several mill enterprises, which had been closed since the end of 1920, have resumed operations and others have increased their output in accordance with an increasing volume of domestic demand and a slight increase in foreign shipments."

Unemployment Declines

"Unemployment has decreased, except in the copper mining centers, where striking miners have prevented production from being ordered until the market price of copper rises to a point which will make production profitable."

"In the shipbuilding industry, two new contracts of record size were announced by one yard, although others are nearing the end of the construction for which they have contracts."

"The building industry shows distinct signs of revival, permits in March, 1921, exceeding in value those of March, 1920, by 23.9 per cent and being at their highest in three years since February, 1921, as to indicate more than seasonal increase of activity."

"Bank clearings were only 15 per cent less in total value in March, 1921, than in the same month of 1920, which, in view of the year's decline in prices indicates that the volume of business being done is not less and probably greater than that of last year at this season."

Farm Situation Mixed

"In the agricultural industries, mixed tendencies appear. Certain commodities—rice, cotton, barley, wool and hops—have not moved marketward in appreciable quantities during the month, but sugar, both cane and wheat, and various fruits have been steadily moving into consumption."

"Precipitation occurred opportunely during March but the month was not marked by the abundant rainfall which has characterized the winter of 1920-21. Conditions are reported especially favorable for growing crops in all sections of the district, except in sections of southern California and southern Arizona, where the rainfall has been below normal all season."

"A cold spell followed by frost occurred over the whole district during the last few days of March and the first few days of April. Some damage was reported from practically every fruit and grape growing area, and individual growers suffered varying degrees of loss, but in some cases reports indicate a considerable reduction in propagation crops of apricots and grapes from this cause."

"A section of the bank's report devoted to citrus fruits said on April 1, 1921, approximately 35 per cent of its mandarin orange crop was estimated to be ready for market to be marketed. The navel orange crop in 1919-20 was 16,700 carloads. Weather conditions, the report declared, have been favorably for the distribution."

Second Orange Crop Forecast

"The Valencia orange crop, which will be harvested during the summer months, is estimated at 22,200 cars," the statement said. "The coming crop promises to be the largest ever harvested in the state and the oranges appear to be of normal size, without an excess of either large or small fruits."

"Regarding sugar beet plantings, the report said the acreage planted this year was expected to be about the same as last year, when 292,000 acres were set out.

"Concerning livestock, the report declared the low prices of feed and of livestock seem to offer opportunities for profitable investment in stocker and feeder animals, but reports from principal markets indicate a decrease

are not buying to increase their herds.

"General weakness and uncertainty characterized the butter market on the Pacific coast during March, the report said. "This condition was due largely to increased receipts and a diminution of local and eastern demand, which forced dealers to make price concessions in order to dispose of current supplies, as the storage season in the district is still a month away."

"The market for eggs was somewhat relieved by a resumption of eastern demand."

Lumber Output Increases

March production of lumber, 238,234,000 feet, according to reports from the four lumber associations in the district, was 3,264,000 feet greater than in February, 1921. In the corresponding four weeks of March, 1920, the cut was 168,670,366 feet. Although this increase is partly seasonal, the report said, it represents a continuation of the gradual recovery of the lumber industry, which has been in progress since early in February.

Business Failures During the Month Increased in Number and Liabilities as Compared with February and with March of 1920.

There were 105 failures reported in March with liabilities amounting to \$3,640,000. In the corresponding March of 1920, there were 107 failures with liabilities amounting to \$3,640,000. In view of the increase in price indicates approximately the same amount of business activity."

I. W. W. AGITATORS DEFY STRINGENT IDAHO LAWS

Radicals Distribute Books and Raise Funds Hero, Says Legion Field Man

BOISE, Idaho.—The I. W. W. are much more active in Idaho this spring than they were in the state generally, according to Robert A. Le Roux, field representative of national headquarters of the American Legion.

"The I. W. W. has some late letters from the state of Washington to all the Idaho department of the legion with its membership drive."

"Money is being raised in Idaho, he declared, for the defense of the I. W. W. organizers picked up in the north-west and despite the stringent laws dealing with radicalism the reds are carrying on their activities in this state."

"The Central Conspiracy," a book written by Ralph Chapin, convicted I. W. W. writer, is being freely circulated in Idaho through underground channels, he said.

"This book was printed and is being distributed by the I. W. W. Its author was taken to the federal penitentiary at Leavenworth, Kan., this week in company with 40 other industrial workers of the world."

Mr. Lohoux said a newsletter in French is issued by the group of organizers for distribution and that it was being sent into other towns in the northwest from north Idaho, the book is distributed from Spokane.

FRENCH FLOAT BIG LOAN FOR RECONSTRUCTION

Coal Mines and Iron Industries of Devastated Region Seek Capital at Home to Resume Operations

PARIS, (AP)—Subscriptions have just been opened in Paris for one of the largest private loans ever floated here. The amount is 800,000,000 francs.

The loan is issued by a group of coal, iron and steel industries of the north of France and the proceeds are to be applied to reconstruction.

The interest and principal are guaranteed by the indemnities due the companies of the group under the law passed by the French parliament as to the companies and individuals companies for the loss of their plants.

The floating of this loan enables the companies to continue the restoration of mines and reinstallation of iron works pending the payment of reparations by Germany without further burdening French government finances.

DOMINION USES AERIALS IN FIGHT ON FOREST FIRES

CALGARY, Alta. (AP)—Six airplanes in this district by the Dominion forestry branch to fight forest fires. The planes, it is announced, will be operated from the airbase at High River, and two other flights are to be made daily in ordinary weather, one north and the other south. There will also be a sufficient number of men and equipment to make extra flights when there is great fire danger. A minimum fire loss on the reserves is expected to follow inauguration of this service.

Seeks to Humanize Aliens' Reception

WASHINGTON, D. C. (AP)—A bill designed to put the human touch in the task of dealing with immigrants admitted to this country, was introduced Wednesday by Chairman Johnson of the house immigration committee. Under the plan proposed there would be a general reorganization of the bureau of naturalization, department of labor, as a bureau of citizen ship, "to provide for the guidance, protection and better reception of the distribution and adjustment for our alien population."

The bureau would be in charge of a director appointed by the president and one of his principal duties would be the dissemination of information to immigrants regarding American institutions in such manner as to best stimulate loyalty.

Promises Summer Job to U. of I. Students

MOSCOW, Idaho. (AP)—Commerce and business students at the University of Idaho here recently were asked what they planned to work at during vacation, if they cared for work and if they could offer any suggestion regarding it.

"In this way we will be soon able to furnish practically every student in the department with work similar to that which they intend to follow when college work is completed," said Professor H. F. Dale, head of the department of economics and business. "The department is corresponding with a number of business and manufacturing concerns in regard to positions for students and it is sure we will find places for hundreds of them."

Montana Town Calls Off Spring Election

WALKERVILLE, Mont. (AP)—Walkerville this spring eliminated the election and saved the expense. Only aldermen were to be elected and as incumbents were without opposition, election was eliminated and sufficient money secured to call off the election.

Walkerville is a suburb of Butte lying practically within the city but maintaining a separate corporate existence.

Paraguay Protests Bolivian War Moves

BUENOS AIRES, (AP)—Paraguay has protested to Bolivia against the erection of forts and garrisoning of troops near the territory known as Paraguayan Chaco, the boundaries of which have long been a subject of dispute between the two countries, according to a dispatch to the Nacion from Asuncion, the Paraguayan capital Wednesday.

Jury Frees Sunday Theatre Operator

L. A. CROSBY, Wis. (AP)—D. C. Brown, owner of a theatre at Virgo, arrested on a charge of violating the blue laws by keeping his movie house open on Sunday was found not guilty by a jury today. The petition for his arrest which was signed by 250 citizens, was circulated by the W. C. T. U.

HIGH COURT REVERSES CONVICTION OF ALBERS

Holds Evidence Lacking to Prove Portland Mailer Guilty of Violating Espionage Act

WASHINGTON, (AP)—Upon motion of Solicitor General Frazier, confessing error, the supreme court Wednesday reversed the conviction of Henry Albers in Portland, Ore., on charges of having violated the espionage act. Evidence produced at his trial proved that Albers, who was of German descent, was in a state of "maudlin drunkenness" when he made statements commending the German army and predicting its victory, upon which the indictment against him was based.

Albers was sentenced to one year in prison and three years imprisonment. The government's action today was taken because of the lack of evidence to prove criminal intent, the court held.

Delays Proceedings on Haywood's Bond

CHICAGO, (AP)—The government is withholding action towards the forfeiture of the bonds of William D. Haywood, I. W. W. leader who is believed to be in Russia pending receipt of a cablegram from Haywood himself, which is expected daily, District Attorney Clyne said Wednesday.

"Haywood's friends have maintained throughout that he went to Russia on a personal mission and would return if his bonds are not forfeited," Mr. Clyne said. Mr. Clyne said that 13 of the 47 I. W. W. expected to report to the Leavenworth, Kan., penitentiary last Monday had not yet reported and that search for them had been started.

CLAIMS DISTINCTION BECAUSE MINES WORK FULL CAPACITY

ANXIO, B. C. (AP)—It is claimed that Anxio is the only copper camp in the entire western hemisphere operating at anything like full capacity. More than 1100 men are employed. Wages have been decreased in accordance with a sliding scale agreement. Fluctuation on copper prices determine the rise and fall of pay to be received by the workers.

JEROME FORCES EVANS' MEN TO LIMIT IN MEET

Youngsters from North Side Show Unusual Speed in Dashes and Relay

CLINT EVANS' elder path squad had a run for the money in the dual meet with Jerome, which was run off yesterday evening on Lincoln field. The North Siders captured their first place and the relay race, showing up particularly well in sprints, and winning all three in the 100-yard dash. Eleven firsts were won by the local clan, all being in distance runs, weights and jumps. The final score was: Twin Falls 77, Jerome 64. Epler was high point man with 20 points to his credit. Newman started things by taking first in the pole vault, leaping nine feet even. Black of Jerome was second with eight feet and ten inches and Hall, a Twin Falls man placed third with eight feet nine inches. First and second places in the 50-yard dash went to the visitors, Turley traveling the distance in six and three-tenths seconds, because of the remarkable showing made by their omnibus relay team last Saturday. Among the teams scheduled to arrive

second and third for Jerome. The running broad jump went to Epler of Twin Falls with a leap of 19 feet two and one-half inches. Newman took second and third went to Walling of Jerome. Newman threw the javelin 110 feet and eight inches for first place, second going to Schag of Jerome with a throw lacking ten feet of being the equal of Newman's. Johnson threw third for Twin Falls with 107 feet even. In the 220 low hurdles Epler had first place in 31 and one-tenth seconds, Walling of Jerome and Garrison of Twin Falls placing second and third. Captain King took the mile run in five minutes and seven seconds. Hall of Twin Falls took second and Peavey of Jerome, third. The Jerome relay team took that event.

Getting Relay. The relay event proved the most interesting of the afternoon, except perhaps, the sprint for second place in the mile run, which went to Twin Falls by mere inches. Jerome's speed trio went into the relay with dash that threatened to sweep the locals, from the field. Tenacity of purpose, however, made a brilliant race of it, and it close one at that. Trained especially for jump at the inboard Jerome sprang into the lead at the start, the North Sider winning a five-foot margin over Epler with the crack of the gun. The link star of the locals' hurdling and broad jump divisions, clung to his man and lost no further distance up to meeting Newman for the second lap. "Epler" too, kept the margin from widening, and handed over in Patz one of the toughest legacies to carry that a youngster was ever bequeathed. Patz fumbled a bit at the start and lost some distance, but made a dazzling run of it, and gave his man a gratifying finish. The race, however, belonged to Jerome, and was won on merit alone.

DIAMOND NEEDS AN AWARD FOR STAR PLAYERS

System Similar to Chalmers Trophy is Sought for Individual Player

By I. E. SANDORH

AMERICANS are essentially hero worshipers. They salute to champions in every branch of sport, and in response to that craving of the public, sporting writers try to select champions when the results of actual contests do not decide the question of supremacy beyond dispute.

Baseball is popular because it does settle all arguments, as a rule, in regard to which is the best team each year. The seasons of 1910 and 1920, when the "Black eight" of the White Sox dominated the whole world, are fresh in memory, but that will never happen again if the promoters themselves join hands to prevent it. In spite of the fact a baseball campaign does decide by actual results the champion team of each league, major or minor, and their crowns are recognized as world's champions at the finish, the green diamond rotters are not satisfied. Most of them have heroes among the blue rams, and crave to have individual excellence labeled with a "star", on the theory that many a brilliant player is buried for life, under the present system, in a second division team, while many players, who are not individually stars, acquire merit through the composite strength of their teams, or the supremacy of their leaders.

Chalmers Trophy Recalled

That craving for the recognition of individual stars was satisfied some years ago by an idea that originated in the brain of Hugh Chalmers of Detroit. However, the most recent crop of rotters does not remember the Chalmers trophy, which was awarded by a simple and effective system to the individual player in each major league who had been of greatest value to his team during each season. The award was made by a jury of eleven baseball writers, serving without remuneration, and voting by a joint system, which eliminated all possibility of favoritism. From several sources I have received recently suggestions for determination of the "best" player in the major leagues each season. One of them comes from Quebec, Canada, which is so far north that a southerner would secrete even in August. This fan suggests that the baseball writers choose every day the "star" of each game and tell the world their choice. Thus at the end of the season

let the statisticians figure out what player has been named as "star" the greatest number of times, and award him the stellar crown for that year, with lesser honors for the all round star of each team. This is a sample of the suggestions received indicating the fan craving for a hero and to have his particular hero recognized, if possible.

This demand can be gratified easily by the promoters of baseball, if they will simply revive the Chalmers trophy idea and expand it a bit. It will cost them practically nothing for the value of the prize offered will be secondary to the honor.

Plan Would Work Finely

If the major league club owners will set aside a comparatively small sum to be expended for a token of some simple nature to be given each year to the player who has proven of most value to his team in each league, and then establish a jury of one expert writer in each city to determine the award, the craving of the roter for individual heroism will be satisfied. That idea could be extended to the minor leagues all the way down to class D, if desired.

By reviving the point system of voting, which was devised for the Chalmers trophy, it would be possible to determine over a period of ten years the name of the player who had been the "star" of his decade. And it would cost the club owners nothing except a small appropriation for the token and for stationery and postage. The Baseball Writers' association of America would do the rest gratis and gladly.

Brief Bits of Sport

Make Ruth will have to hasten a bit or his laurels will be snatched. This kid George Kelly, first baseman of the Giants, has the bambino's five-hundred record tied up in a double-hitch

knout, and looks good to outstrip the Yankees' star batter. By the way, Kelly comes from a baseball family. His uncle is Big Bill Lange, who outfiddled along with Walter Whitton and Jimmy Ryan for the old Chicago Nationals when Cap Anson was in the heyday of his piston glory.

Gotin give it to Tris Speaker for strategy. The leader of the Cleveland world champs used 23 men in his lineup before he was able to haul by the Detroit Tigers in Tuesday's game.

Cobb's outfit scored five runs in the second round, thus taking a four-out-nil lead, but Tris began to switch players until he found a combination that finally won 9 to 8.

Dickie Kerr just does not seem to be able to get by a whole game without one bad inning. He has 'em 'em every tilt, and usually it is that bad session that loses the show.

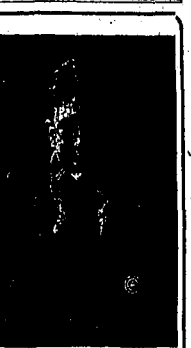

Sam Smiley, sugarbush 'nigg, says: "Efren you hev a half hour to spend don't spend it w' somebody as hasn't."

All the Black Sox and their cohorts have been cited to appear in court May 1 to answer charges involving the world series of 1919.

PREPARE FOR RELAY CARNIVAL

PHILADELPHIA (AP)—Franklin field was alive today with athletes from all parts of the United States, who were limbering up after long journeys in preparation for the University of Pennsylvania's twenty-seventh annual relay carnival, tomorrow and Saturday. Much interest was manifested in the practice of the University of Redlands (California) team, which arrived yesterday because of the remarkable showing made by their omnibus relay team last Saturday.

late today are Nebraska, Iowa State and Yale.

ACTIVE SUMMER AS PLANNED FOR YANKS ON RHINE

American Boys Composing Army of Occupation Entering Upon Months of Hard Work in Grim War Maneuvers

COHEN, (AP)—If Americans at home imagine that the life of the soldiers composing the American army of occupation on the Rhine is one of idleness they will be a long way from the truth.

The little fighting force of 10,000 men has to be kept hard, trained and ready for quick action, and that means work—eight hours of a day at drill, study, target practice or maneuvers.

Most of the American boys just now preparing for a summer of grim war maneuvers, for the open training season has just commenced and will continue until October 31.

Only Death Absent.

The second period, from August 1 to September 45 will include, battalion, regimental and brigade maneuvers and terrain exercises.

The third period from September 15 to September 30 will be taken by maneuvers of the full army of occupation.

During the fourth period, from October 1 to October 31, brigade and separate unit commanders will correct deficiencies noted during the previous field training.

Water Months Occupied.

During the past winter months special training in educational and vocational training were taken by soldiers.

Grant's Struggle to Win Spurs as Soldier Recalled

Illinois Capital Indulges in Reminiscences on Great American's Birthday

SPRINGFIELD, Ill., (AP)—Tricks of command that Ulysses S. Grant passed and rebuffs he endured before Illinois hesitatingly accepted him and sent him into the Civil war.

Here it was that the future president, the Twenty-first Illinois Infantry, as colonel, this one of the world's greatest soldiers applied three times in Springfield for a chance to serve as commander-in-chief, now recalled here Wednesday on the ninety-ninth anniversary of his birth.

Even War Governor Richard Yates, however, repulsed him. "I'm sorry to say, Captain," he told the former major, "there is nothing for you to do. Go again."

Remaining in Springfield until his final run, Captain Grant called a second time at Governor Yates' office, this time at the governor's invitation. He was given a desk in the adjutant general's office and put to work drawing lines and filling in the blanks.

Only men charged with the commission of specific crimes will be tried first. We have made every possible effort to insure fair and impartial hearings.

HARDING NEWS
BATTLESHIPS OF
EAST DIVISION

Atlantic Fleet, Returning with
New Laurels from Southern
Drill Grounds, Passes in Re-
view Before President

ABOARD THE PRESIDENTIAL
YACHT MAYFLOWER, HAMPTON
ROADS. (AP)—The day was
cold and gray with an overcast sky
and low hanging clouds. The hor-

approached today for the presiden-
tial review of the Atlantic division
of the American fleet.

The Mayflower played dis-
turbances and airplanes flying low
to escape the low drifting clouds.

Shortly before 9 o'clock, Sec-
retary of the Navy Denby boarded
the Mayflower and greeted Presi-
dent and Mrs. Harding, who then
took the bridge.

At nine o'clock the great battle-
ship Pennsylvania appeared out of
the haze. She was followed at 500
yards intervals by the other mem-
bers of the armada.

She approached the Mayflower
and about a mile away, wheeled
steadily 90 degrees to starboard off
the port side. Her opening gun
boomed in salute at 9:10.

Over the flagship and extending
backward in the path of smoke hov-
ered fleet and great guns. The sta-
toco notes of their motors punctuated
the roar of heavy calibre guns
aboard the battleships.

OLD POINT COMFORT, Va. (AP)—
The Atlantic fleet, bringing back
a new record for accomplishment from
16 southern drill grounds, passed in
ceremonial review before President
Harding today as it entered home wa-
ters in Hampton roads.

More than 60 ships of war, led by
the flagship Pennsylvania, were in
the long column that filed by to pay
a commander-in-chief's honors to the
president as he stood with Secretary
Denby and a party of officials on the
deck of his yacht, the Mayflower.

Flagship Captain Saltonstall
A low cloud curtain screened the
sunlight from the pagant, softening
the grim lines of deck and turret. The
fleet moved on the various gray now
in peace and war alike.

It was a few minutes past 9 o'clock
when the Pennsylvania, passing the
reviewing ship, opened up the blunder-
ed her presidential salute, and before
the 21 guns had been spent, the next
ship in line took up the firing while
the Mayflower's batteries spoke in ac-
cord. The command continued in an
almost unbroken roar until the review
was over.

Crews of the battleships manned the
turrets and fought valiantly in the
fighting craft steamed by. On the
quarterdeck of each the marine guards
snapped to "present arms" opposite
the Mayflower, and the honor played
the opening bars of the Star-Spangled
Banner. In return the presidential
yacht paid the proper honors to the
senior officer on each passing ship.
The salute, however, only to the
Pennsylvania.

Harding's First Review
It was Mr. Harding's first review of
any part of the nation's sea power
since he assumed office and it was
the navy's first opportunity to salute
him.

With Admiral Wilson, fleet com-
mander, on the Pennsylvania, was As-
sistant Secretary Roosevelt, who made
the navy's first opportunity to salute
him.

Following the Pennsylvania came
the battleships Oklahoma, Nevada,
Arizona, Utah, Florida, Delaware, North
Dakota, Michigan, South Carolina and
Connecticut, the Utah flying the flag
of Vice Admiral H. P. Jones, com-
manding the battleship force. Close
behind the battleships was the tender
Black Hawk leading three divisions
of six destroyers each and 13 subma-
rines of the O and K classes. They
were followed by a number of minelayers,
force vessels and ships of the supply
train, headed by the cruiser Columbia,
flagship of the train.

Submarines in Line
On the submarines a little group of
men on the decks almost awash stood
rigidly attentive as the submarine
lines slipped by the reviewing party.

EARLY TRIAL LIKEY IN
"GAME THROWING" CASES
Five Players Indicted in World
Sports Scandal Call for
Hearings

CHICAGO, (AP)—At least five of
the eighteen men indicted in connection
with the 1919 world series scandal may
be brought to trial in June, as a result
of a plea filed today by their attor-

ney, Al Sheeran, representing "Babe"
Weaver, Charles Bibeber, Oscar Felsch,
Claude Williams and Fred McMullin
filed a petition with Judge Charles A.
McClurg for an immediate trial of the
defendants. Under the Illinois law the
indictments against the men automati-
cally will be quashed unless their trial
starts by July.

George W. Morgan, assistant state's at-
torney in charge of the prosecution of
the case, said that he probably would
be ready for a trial by July.

Social Notes
Edited by Mrs. K. B. Williams
Telephone 306

The M. B. and S. club met at the
home of Mrs. Walter B. Parish on
Wednesday afternoon with Mrs. H. B.
Sherman and Mrs. A. W. Swift, assist-
ant business managers. The rooms were
attractive with decorations in the club
colors of green and white, potted
plants and ferns being used in profu-
sion. After a business meeting Rev.
E. A. White gave a short address, Mrs.
Martha Farrar entertained with two
readings, and Miss Eunice Lang and
Miss Velma Parikh each gave a piano
solo. The afternoon was refreshments
were served. The attendance numbered
about thirty. The next meeting will
be held with Mrs. Hamilton.

Mrs. H. P. Barger entertained the
Harmony club Wednesday with a
charming three course luncheon served
at one o'clock. The afternoon was
spent with bridge, Mrs. Ernest White
winning the club favor. Those present
were Mesdames J. C. Moore, H. O.
Cox, Thomas H. Hawley, Mrs. E. P.
Fennell, M. E. Sawyer, M. E. Hume, E.
R. Cox, E. R. Van Cott, Ernest White,
A. W. Husted and J. A. Campbell.

Mrs. V. H. Ormsby was hostess to
the Wednesday Bridge club yesterday
afternoon. Mrs. W. H. Greenlow re-
ceived the prize for high score. Mem-
bers present were Mesdames G. D.
Thorp, R. R. Spafford, C. H. Burton,
L. F. Morse, W. H. Greenlow, H. C. Closs,
George Easley, L. T. Wright and Miss
Cora Greenlow.

Mrs. R. E. Bohler entertained the
M. C. B. club yesterday afternoon at
her home on Sixth avenue east. Those
present were Mesdames John Costello,
P. J. Costello, Peter Ericson, J. Paul
Johnston, Mary Mickelvall, Fred Ram-
say and Mary Kelly, the latter win-
ning the prize for highest score.

The Young People's social com-
mittee of the Church of the Ascension
gave a dancing party at the Parish
hall Wednesday evening. Preceding
the dancing a fine program was given,
in charge of Miss Sara Thomas,
Rev. Charles Glenn Baird, rector,
speaking especially to the teachers in
attendance of their conduct during
the trying times experienced in the
schools. Several splendid musical num-
bers were given, and an exhibition of
needlework dancing by pupils of Miss
Milford Dryce. Punch was served dur-
ing the evening.

The "Peep" club of the Idaho De-
partment store, entertained their mem-
bers last evening at the Idaho De-
partment store. The room was beauti-
fully decorated in peach blossoms and
the floor well waxed for dancing, while
those who preferred card tables were
prepared in the shoe department. Punch
was served throughout the evening, and
before adjournment more substantial re-
freshments were enjoyed. Each mem-
ber invited a guest, about 60 being
present to participate in the pleasant
evening.

The Pythian Sisters entertained the
Knights and their families on Wednes-
day evening. The following program
was given: piano selection, Virginia
Hartfield, singing, and Thelma Hart-
field; reading, Evelyn Whit; piano solo,
Jack Nomenaker; classic dance, Mar-
guerite Harrison; song and dance,
Doreen Opatzky; reading, Solis
Duke; classic dance, Catherine New-
man; song and dance, Little Lucille
Kennedy; piano selection, Mrs. Ken-
nedy; and a saxophone solo by Mr. Hay-
wood accompanied by Mrs. Kennedy.
At the close of the program a ladies'
race was given, Mrs. Kennedy win-
ning the prize, a box of candy. A gen-
eral social time was enjoyed and re-
freshments served.

MEMBERS OF KOZUBUSKO
SQUADRON COMING HOME
WARSAW, (AP)—Members of the
famous Kozubusko squadron which was
recruited in America for service in Po-
land against the Russian Bolsheviks, in-

A GOOD TO TRADE
Selling Events Bring Crowds To Our Store
In our organization we have 15 department heads, ex-
perienced buyers and merchandisers who are planning
selling events for our stores. They know the markets in
their respective lines and because of their buying power,
they are approached with big deals by manufacturers and
jobbers. They know a "good deal" when it is presented
and thus the answer to the question asked by customers
and merchants "How do they do it?"
This week's event was the Aluminum Ware Sale. To-
day we announce the arrival of more Jersey Suits at \$10.
Watch for other events.
—W. H. WRIGHT & SONS COMPANY.

SCHOOL BALLOT LEGALITY NOW IS UNDER FIRE

Complaint in Court Charges Irregularities in Counting the Castford Vote

Illegality in the counting and recording of votes is alleged by R. C. Smith in an action instituted in the district court.

The suit grows out of alleged irregularities permitted at a school bond election held on April 9, when, by a majority vote of the people, bonds amounting to \$2500 were voted to construct a school building at Castford.

In his complaint Mr. Smith, contending the recent election and denouncing a recount and reconsideration of the entire vote polled, announces that the total ballot was 301, with 292 for the bonds and 9 against, as shown by the books of the clerk and legal charge.

The plaintiff makes the serious charge that certain votes were thrown out by the election judges in the counting, and that certain illegal votes were admitted and were counted.

The alleged legal votes thrown out were those of Lois B. John, Maxwell Silva and Mrs. Maxwell Silva and Grace Bergen.

The illegal votes are those of V. G. Charles, Bertha Brown, W. E. Wilson and Laura Crisp. These latter are claimed by the plaintiff to have been claimed by the plaintiff residing in the district, and therefore not competent to participate in a school bond election.

Election Result to be Remembered by Town Hallers

City Employees Will Fraternize for Last Time Around the Festive Board

City hall employees tomorrow evening will conduct a "Sham Song Festival." The affair will be in the nature of a farewell to the outgoing administration, and to jobs that have been held by those parties.

The party is scheduled to open with a banquet at 6 o'clock, the principal piece of resistance being a stuffed turkey.

Keynote will be the "Sham Song," which was lost on the Independent ticket in the late election, has been chosen toastmaster.

Alex W. Murray, sanitation inspector, and W. E. Anderson, clerk, are scheduled for special numbers on the program.
