Senator Lodge Tells Senate the Treaty with Germany Probably Will Follow Enactment of Knox Peace Resolution

WASHINGTON, D. C., (AP)—A treaty with Germany probably will follow enactment of the Knox peace resolution, Senator Lodge of Massachusetts, republican leader, said today in the senate in supporting the peace measure.

Senator Lodge declared that the president and state department had made it clear that the United States did not intend to "abandon" the allies.

Only a vote on the peace resolution planned late today, the republican leader emphasized that all of the other nations except the United States had made peace.

With a vote on the peace resolution planned late today, the republican leader emphasized that all of the other nations except the United States had made peace.

Senator Walsh, Democrat, Montana, attacking the resolution, declared that it gave no benefits to the "United States and should be entitled as one for relief of the German people."

He declared it left open (to) German ships worth \$100,000,000 seized by this government and added that it would burden Germany with the cost of the wreckage and ruin and try to do something to help Europe and the world.

"That league that Mr. Wilson brought from Paris," he continued, "has been passed on by the senate and by the people and that league, I venture to think, will probably follow any day. It will stay dead for the next four years at least and I do not think any change or any party will restore life to that broken instrument."

Berlin Dispatch Forecasts Resignation of Fehrenbach and Simons

PARIS, (AP)—A semi-official note issued in Berlin states that Dr. Simons, the foreign minister, signaled his resignation to President Ebert, but the latter refused it, says a dispatch from the German capital today.

PARIS, (AP)—A Berlin dispatch today quotes the Vossische Zeitung as declaring that the resignation of Chancellor Fehrenbach and Foreign Minister Simons will follow the presentation of the reply from Washington to the German note on reparations.

A preliminary conference disclosed the fact that Premier Briand, who was supported by M. Jazy, Belgian foreign minister, held the view that the allies should occupy the Ruhr region immediately and then discuss with the Germans how the German obligation to Germany to carry out her obligations to the allied conference here. The session was called for 4 p. m.

This proposal was approved by the French delegation but the British to it was unnecessary, that the Germans had sufficient time.

Information has been received by the French delegation that sufficient American advisers at Berlin are urging members of the German cabinet to accept the allied terms agreed upon in Paris last January.

British Desires Position. Determination on the part of France to order her troops into the Ruhr district of Germany in default of payment of reparations to the allies was expressed to Prime Minister Lloyd George by Premier Briand.

SECRET SERVICE AGENTS ARE NOT APPREHENSIVE

WASHINGTON, (AP)—Despite strikes and threats of strikes and the already great unemployment over the country, agents of the department of justice were said today to have found practically no evidence pointing to serious day day disturbances. Department of labor officers were equally as optimistic.

Even plans of the radical elements over the country as far known to the government officials, contained nothing more than limited parades of a comparatively peaceful nature and the distribution of a literature advocating communism and the establishment of soviet.

State authorities with whom federal agents have communicated, have replied and said that they do not anticipate serious trouble.

ESTIMATES PUT UNEMPLOYED AT OVER 3,000,000

Return of May Day Will Find Thousands Idle Throughout United States, According to Experts' Figures

CHICAGO, (AP)—Eighty more than 2,000,000 men will be unemployed in 10 states of the union when May day is ushered in tomorrow, according to estimates given to the Associated Press by government, labor, state and industrial officials.

A large percentage of those who are unable to obtain work are in the big industrial sections of the eastern and central states, included in these 10 states from which unemployment figures were unobtainable, all show that unemployment exists and the estimated unemployment of the country, made by experts including labor leaders, runs from 3,000,000 to 5,000,000 men.

North and East Hit Hard.
Reports of such unemployment show up from New York, Illinois, Pennsylvania, Indiana, Michigan, Wisconsin, and Ohio while practically every state east of the Mississippi river, and seriously affected by the wave that has swept over the country during the last year. The reports indicate that the situation in the more sparsely populated states is growing more acute daily.

The report of the United States government employment service showed that on January 1 of this year the leading cities of the country with a population of 25,000,000 had a total of 1,863,765 unemployed and subsequent bulletins issued by this service indicate that this number has increased somewhat in these cities during the last four months.

West Is Optimistic.
While the unemployment extends to the west and south, yet in the reports that the former has declined in opinion, optimism prevails for resumption of business activity that would spoolly do away with the unemployment while in the south the situation does not appear to be a serious matter and the report state that when the agricultural work is in full swing the surplus of labor will be small.

New York city, Philadelphia, Chicago, Detroit and Cleveland stand out as a contrast of the unemployment wave.

In the country's largest city, no reports indicate that approximately 250,000 men and women are out of work. On January 1, 1921, this year the government estimated that 292,516 were unemployed in Chicago and this has been increased during the four months according to the monthly bulletins of the industrial service.

The remainder of the state, however, has not been unscathed by any means, for the reports from Albany show that 364,000 of the state's 1,500,000 factory workers including New York city are unemployed. Other New York state cities report unemployed on about the same scale.

The United States employment service figures for Illinois shows a decrease that is like similar in that 36,000 were unemployed in the city of Chicago in January, yet the rate of increase in the last four months would indicate that this has been increased to more than 100,000 by today. In the state of Illinois, however, the figures move upward. The government puts them this way: On January 1, 1921, 124,000 were unemployed in this state. On January 1, 1921, these same firms employed 539,231, showing a reduction during that year of 414,000. Chicago firms were included in this survey. The figures for the next four months on these concerns, is given but an estimate based on 167 concerns, each employing more than 500 men or women, showing an increase in employment of about 3 per cent, on April 1 as compared with January 1, 1921.

Pennsylvania probably ranks next with an estimated number of unemployed placed at 250,000 by the state bureau of employment. Members of the Philadelphia Chamber of Commerce recently issued a statement estimating that this figure was too low.

Peggy Hopkins Sued by Third Millionaire

James Stanley Joyce, multi-millionaire lumber king, has come to the end of his romance with Peggy Hopkins, former "Follies" girl, whom he married at Miami, Fla., January 23, 1920. Joyce wants back his freedom and the fortune he gave her in money, jewels and property. Through his attorney Joyce filed suit in the Chicago Superior Court to annul his marriage to the much-married Peggy. In the suit he names numerous ex-lovers, notably prominent in America and Europe. Peggy, who has been the wife of two other multi-millionaires, is charged with marrying Joyce for his money and with being the wife of Philbrick Hopkins in the time she married Joyce.

In a number of states the reports give an estimate of the number of unemployed but the officials noted that the unemployment was large. In Massachusetts, for instance, the estimate was lacking although figures compiled from two trades ran the total of unemployed in these up to 22,000.

Gives Highest Total.
James H. Maurer, president of the Pennsylvania State Federation of Labor estimates that about 5,000,000 are unemployed in the United States, but government statistics and individual reports from almost all states do not quite bear out this figure, although they do indicate that the total is somewhere between 3,000,000 and 4,000,000.

Idaho Conditions.
Labor conditions in Idaho as represented in the three big industries of the state, mining, lumbering and agriculture, are for below normal, according to a statement made by O. H. Barber, state commissioner of immigration, labor and statistics. Of the 5000 men normally employed in the mining industry only 2000 are employed at the present time, there is practically no employment in the lumbering industry, and employment is normal in agricultural pursuits, according to Commissioner Barber.

Between 12,000 and 14,000 men out of work were in the state the early part of 1921, according to figures presented to the State Federation of Labor.

KAHN DECLARES FOR INCREASES IN ARMY'S SIZE

Military Affairs Committee Chairman Appeals to House to Provide for Enlistment of 175,000 Men

WASHINGTON, (AP)—Chairman Kahn of the military affairs committee told the house Friday that an enlisted force of 168,000 men, as fixed by the army appropriation bill, was too small and that at the proper time he would offer an amendment increasing the number to 175,000.

"I am not an alarmist, I am not afraid of war, but we all know that we are not prepared for a world war," he declared. "And in the interests of true economy, in the interest of the welfare of the country, I shall appeal to the membership of the house to support such an amendment."

Citing the fact that Japan and China both had much larger armies than this country, the California representative said that in proportion to population only Colombia and Paraguay had smaller armies than the United States.

Disarmament Without Result

"Thousands of our fellow citizens believe," said Mr. Kahn, "that this country by its action in the way of reducing its army can bring about international disarmament without any difficulty. Some months have elapsed since we reduced our forces. I have seen no indication anywhere that any other nation in the world is making efforts to follow our footsteps. Therefore, I consider it the part of wisdom, at least for the present, to maintain the minimum of which will be 175,000 enlisted men."

Answering the demand for reduction of government expenses, Mr. Kahn declared the secretary of war could be trusted absolutely to cut expenses wherever possible without injury to the military establishment.

Future Is Uncertain

"It seems to me the facts are so palpable that no one at this time ought to want to cripple our military establishment," Mr. Kahn declared. "We have some international questions which our state department is trying to solve. We hope they will be solved with honor and credit to our government. During the pendency of these matters and in their solution, no individual can forecast what is going to happen. I believe for one we can afford to be prepared for any possible emergency and I think the American people approve the increase in our enlisted forces."

OBREGON RETURNS LANDS SEIZED IN REVOLUTIONS

Mexican President Orders Governors to Make Speedy Restoration of the Property to Owners

MEXICO CITY, (AP)—Lands in the states of Chihuahua, Sonora, Nuevo Leon, Coahuila and Tamaulipas, valued at more than 20,000,000 pesos which were confiscated during various revolutionary periods in Mexico, were ordered returned to their owners yesterday by a presidential order, sent to the governors of the states. The order requested careful study of every claim and directed that a return of the lands in question be made as speedily as possible. Among the owners of territory in the states mentioned are many Americans, who deserted their properties during troublous times.

Among the several conditions imposed for the return of the lands was one that irrigation and land development projects under way when the properties were deserted be resumed, and that Mexican labor be employed. President Obregon is said to hope to provide in this way work for those lands of Mexicans who are returning from the United States, where they were unable to find employment.

Increase in Size, Number and Standards of Herds Bought in Southern Idaho

MOSCOW, Idaho, (AP)—Plans for a campaign of encouragement for the dairy industry in southern Idaho by increasing the size and number of herds, raising herd standards and adoption of better methods and equipment, developed by officials of the Oregon, Washington Railroad and Navigation company, and the Oregon Shierline railroad have been approved by the University of Idaho college of agriculture. A conference between railroad and college officials was held here recently. The importance of more and better cows, the use of better bulls and adoption of more efficient operation methods, will be stressed. The railroad officials were here to obtain the support of the college of agriculture and university extension workers and to conform their plans to the program of the agricultural college already in effect.

AMERICAN HELD BY RUSSIANS ON HUNGER STRIKE

William Flick, Motion Picture Operator: Held Captive in Moscow, Makes Decision to Secure Freedom or Death

RIGA, (AP)—William Flick, American movie picture operator, held captive in Russia, has declared a hunger strike in the prison in Moscow, where he is confined, according to information telegraphed here today by Captain Martin C. Cooper, the American airman who recently escaped from a Soviet Russian prison.

Flick has declared in a written statement to the Soviet revolutionaries that he would die in America, guilty of no crime and held in prison many months without trial. Hence his decision to secure either freedom or death.

PLOT TO HALT BUILDING CHARGED BY GRAND JURY

Seventy-one Indictments are Returned Against Contractors, Rent Collectors, Unions and Individuals

CHICAGO, (AP)—Wholesale collusion between building contractors and unions to create a conspiracy in restraint of trade under the Sherman act is charged in indictments returned today by the federal grand jury. Seventy-one contractors and individuals were named.

At the same time indictments on similar counts against 33 other contractors and unions were returned. The grand jury, which was organized on the March grand jury, but was suspended until today, was released.

An agreement between contractors and representatives of the American Sheet Metal Workers' alliance to keep out of the Chicago market all competitive sheet metal products is alleged in one indictment. This conspiracy, it is said, has been in existence for the past three years.

STRIKING TENANTS FACE CRISIS ON MOVING DAY

Various Estimates Advanced on Number of Renters Who Will Continue to Defy Landlords

CHICAGO, (AP)—The advent of moving day brought widely divergent estimates from officials of the Chicago Tenants Protective league and members of the rent strike, as to the number of tenants who will continue to "strike" of tenants—those were defying eviction suits and at the same time refusing to sign new leases at increased rentals.

"I fully believe there will be 2500 tenants who will retain their apartments Monday in defiance to their landlords," said President J. Ritchie Patterson of the tenants' league. One member of the real estate board said he did not think the striking tenants would number more than 500.

TAKES OWN LIFE AFTER MURDERING TWO WOMEN

North Idaho Bookman Kills Wife and Her Friend and Then Blows Off Own Head with Shotgun

LEWISTON, Idaho, (AP)—After killing his wife and Mrs. Charles Willmirth, a friend, Joe Hart, who has been employed on a Snake river boat, blew off his head with a shotgun today, according to reports to authorities here. The attack on the women was made because Mrs. Hart had gone to a dance last night with Mrs. Willmirth and had spent the night at the Willmirth home.

Mrs. Hart filed a divorce action about two weeks ago. The Haris are survived by four children and Mrs. Willmirth by three.

Italy Endorses American Claim on Yap Mandate

Ambassador Expresses Complete Agreement with Position of United States

WASHINGTON, (AP)—Complete agreement with the position of the United States in regard to the island of Yap as expressed by Secretary Hughes in his notes to the four principal allied powers is expressed in a note delivered to the state department Friday by the Italian ambassador.

The Italian government, said it was convinced that the United States was seeking no privilege in Yap not granted to other nations and it offered Italy's co-operation to restore equanimity to the world.

Italy is also convinced that the United States intends to protect their interests in the island of Yap with full consideration for the interests of other nations," the note declared, adding that "Italy therefore has not hesitated to express herself in a way which completely agrees with the text of the American note of the fifth of April concerning the equality of rights among manufacturers in the exercise of their mandates."

WHEAT PRICE ADVANCES IN WEEK-END TRADING

CHICAGO, (AP)—Uncertainty as to the situation on the threatened strike of American seamen, trade rumors that Germany's situation with the allies would keep that nation out of the export market and private crop reports, indicating generous crops, combined to weaken the early wheat market today. May opened 1-4 lower at \$1.30 to \$1.30 1-4, rallied from this early bear, then sank back to \$1.30. July started 1-2 to 3-8 lower at \$1.40 to \$1.40, rallied from this early bear, then sank back to \$1.40. July started 1-2 to 3-8 lower at \$1.40 to \$1.40, rallied from this early bear, then sank back to \$1.40.

General evening-up of trades for over the weekend led to sharp rallies later and the early declines were cancelled. May closed 3/4 to 3c net higher at \$1.31 to 1.31 1-4 and July made a like advance, closing at \$1.57 1-2 to 1.57.

Corn was influenced largely by freeing of the May option which started 1-2 to 3-8 lower at \$0.14 to \$0.15 1-2. It was driven down to \$5 3/8 to \$4 before any support came. July and September opened a fraction lower yesterday's close, but held that position firmly well in the face of the drive on May.

Corn firm up toward the end on seaboard sales of 300,000 bushels and on selling of May and buying of July by some cash houses which were changing helges. The close was 1-4 to 3-8 net higher with May at \$7 to \$7 1-8 and July at \$6 3-4 to \$6 7/8.

Oats were generally neglected and few transactions were recorded. July began 1-4 lower at \$7 to \$7 1-8, then settled to \$6 7/8 and steadied at that price.

THE DUTY AT HAND... The President of the United States is a busy man. He must so arrange the disposition of his time that every moment is used for the most effective manner...

It is indeed a short sighted civic policy that does not give the most careful attention to creating favorable environment for the development of those who are the citizens of tomorrow...

When the public pays the bills for the repair of public property, wantonly destroyed by those whom one has taught to respect public property, it becomes evident to the dilapidated mind that the responsibility which is being ignored by careless and ignorant parents must be assumed by those who do care.

Whether or not it is your child, he is soon to be a citizen of our country. How worthy and efficient he is as a citizen depends upon the citizens of today. Without effort or argument, it is a matter of personal interest and attention that counts in the life of every child.

Just as long as boys and girls are guilty of wanton mischief, just so long shall the adult population stand condoned, or flagrant neglect of their highest civic duty.

For what shall it profit us, to gain all other things, if we have neglected to place the cornerstone of the building which is a high ideal of what it means to be an American.

THE NEWS SUNDAY SERMONETTE

By CHARLES GLENN BAIRD, M. A. Rector, Church of the Ascension, Episcopal

FAMILY RELIGION

Colossians 4: 16: "Salute the brethren which are in Laodicea, and Nymphas, and the Church which is in his house."

When the Master commissioned His apostles to preach the Gospel, He pointed them to go into the homes of the people.

We find St. Paul and the other early missionaries, who went from city to city, making their headquarters at the homes of some friend or some new convert, and in those homes the disciples were trained.

The Christian religion never could have been established and maintained apart from the family life. Like ancient Judaism, it took its very roots and life the domestic circle.

The modern Sunday school was never established in the place of the home in the matter of religious nurture.

Modern Sunday schools are more than necessary today. The fact that the majority of homes have delegated systematic religious training to outside agencies, if indeed, many parents have not been wiser.

Whether or not it is your child, he is soon to be a citizen of our country. How worthy and efficient he is as a citizen depends upon the citizens of today.

It is not money that is required of you, it is your interest, your sympathy, your companionship—yourself.

Sunday schools are not, and never can be a substitute for religious training in the home.

A few years ago the writer recalled to visit a lonely ranch home in Wyoming. The mother said she was in the habit of reading Bible stories to her children.

Many decades, if not generations, of men and women have been converted into houses of worship, and side training, however excellent.

We talk with great confidence in these days about institutional and organized religion, but we still stand upon church and Sunday school statistics.

The home is where we learn most of our religion in its personal side. The home deals with religion most with people more in groups and masses.

The responsibility of the home in the field of religion will admit of no proxy before God.

GOOD HITTING BADLY OFFSET BY MISPLAYS

Twin Falls Ball Team Shows to Bad Advantage Against Boise, Latter Wins 21-14

ABILITY to hit the ball for an frequent found an effort for Twin Falls yesterday in further ability to make errors of all sorts at times which were of good harm to the locals and most good to the invaders in the first baseball tilt with Boise. The final count was 21 to 14 for the visitors.

Evans was forced to the expedient of using five pitchers, of one kind or another, starting with Pix, and running the gamut of Newell, Baker, Epler and Selck. None showed much of any pitching goods, but each was as good as, or better than the support received him.

In the sixth frame 11 men faced Twin Falls pitchers, eight hits and nearly as many bobbles, giving the invaders eight runs. In the last round 12 men of the locals club were at bat, eight scoring on five hits and all sorts of miscues and actual errors.

Boise used three pitchers, none of whom were particularly effective, and one being named in the first inning, Wilcox, who served a little more than two innings, ended last, but did not score any runs, anything. The box score tells the story of the game. The teams play again this afternoon on Lincoln lot.

HIGH SCHOOL ATHLETES HOLD BOISE'S RINGSTERS EVEN IN ROUSING SCHOLASTIC TOURNEY

Twin Falls—Excels in Wrestling but Loses Margin in Boxing Exhibitions—Coaching by Professional Ring Man Counts in the Long Run Against Local Lads—Big Crowd Attends

SHOWING to better advantage in wrestling, Twin Falls piled up sufficient total counts to hold Boise high school athletes to an even thing in a boxing and wrestling tournament, held here last night. Boise louted best with the mitts and scored two stops, in six battles. The local team from dreamland at the hands of Pege, Obo, in the first round, while in the last round of the Frye Tucker handed out a clip on high Nicholas and chin, and the local middleweight stretched his length on the canvas for more than the requisite count.

Snappy Bout.

The tourney was a snappy affair, both in the boxing and the wrestling sections. In the latter Boy's hands proved superior to that of the Boise conel, while the advantage in boxing was with the visitors, that claiming the benefit of a professional boxer, tanager fight.

Brown and Rogers went to a draw in one of the hardest contested bouts of the evening, there being no choice in the men of the local club, and being in the 105-pound class and were ordered for five more minutes after the regulations 10 had concluded without a decision.

Nicholson Loses.
Hansen, outweighing Nicholson, took the decision without a fall from the local man; the grunting proving too much for 'Bo' who staggered from the ring at the final gong, and was some one of the boys' most over time in their 145-pound class engagement, but the decision went to the Boise man on points.

Collins sent a sturdy little fellow named Pece in against Robinson, for 125-pound class honors. The Boise man outboxed Robinson in punching ability and science. Robinson fought back hard until two or three snatches in vital spots but his groggery. A bout began when the towel was flung over the ropes.

Adams, a 145-pounder of Twin Falls, soundly whipped Carter of Boise, and in the second round he was almost out. Good coaching from the Boise corner helped Carter stay the limit, but the margin was wide for the Twin Falls lad.

OFFICIAL FAREWELL IS SAID TO CITY OFFICERS

Employees Hold Departure Banquet for Those Who Are to Quit Positions

Employees of the city last night held a farewell banquet at Tom's cafe. The festal occasion was marked by reviews of associations formed and maintained through the various municipal offices. W. A. Mianick, clerk, was toastmaster of the evening, with Alex Murray, sanitation and plumbing inspector, making the principal address. The program was in the nature of a farewell to those heads of departments who, through the vagaries of an election, will sever connection with the city administration.

Mr. Murray was called upon to respond to a toast, 'The Life of a Funeral,' and did so in the following statement: 'I have met here in partake of the bread of friendship before the parting of our official family, we must remember the trials of the past as our guide for the future, may your railroad ticket in your journey of life lead you safely in the valley of prosperity, teaming with happiness and overflowing with milk and honey.'

Mr. Murray said that the pen is mightier than the sword. It may be so in other places and at other times, but it is not true in Twin Falls, for in the late political battle the sword was victorious. Mr. Murray said that he was glad to let us trust to the wisdom of the incoming administration that their work may rebound to the good name and prosperity of Twin Falls. It was in the line that we extend some token of gratitude to those who were ready and offered to make the supreme sacrifice for the honor of our country, and the memory of the patriots died was victorious and the crepus of the tramping of the boys as they marched away, awayed the hearts and hands of the voters, and the proud citizens of the country that Twin Falls honored and supported his soldier boys.

Funerals
Commitment services were conducted in Twin Falls cemetery this morning by the Rev. G. H. Young of the First Baptist church, for Clyde Terry, infant son of Clyde Terry of Ellet. The child was 9 days old and died yesterday. The mother died several days ago in a local hospital. The funeral was in charge of J. E. DeWitt, undertaker.

DIVORCE DEBREE GRANTED.
Judge W. A. Babcock of the district court, late yesterday ordered a default divorce decree issued in favor of Marion Jordan against H. H. Jordan. There was no appearance. Failure to provide an answer meant the main charges in the complaint. The case was handled for the plaintiff by Wolf, Martin and Wade.

GRILLING EXAMINATION MARKS COURT INQUIRY

Highway District Ouster Case Seat of Intensive Harangue by Attorneys

Grilling cross-examination of witnesses marked the outset case brought by E. F. Walton against members of the Twin Falls Highway District board in the district court. The suit, which is before Judge W. A. Babcock, is attracting considerable interest among outsiders and daily audiences are large.

Examination, and cross-questioning of Stuart H. Taylor, secretary-treasurer of the district, was concluded at court adjournment last evening. Mr. Taylor was on the stand from 1 o'clock Thursday afternoon to 1 o'clock evening. His testimony dealt almost exclusively with the manner and method employed in his department in the handling of district accounts, his books, and its reports. The cross-examination of Mr. Taylor was conducted by Attorney E. R. Damper, of Rupert, who is assisting the prosecution.

Witnesses were called this morning. W. L. Johnson, district engineer and director of highways, was called to the witness stand to testify as to alleged payment of claims against the district before authorization had been voted by the board. Testimony in his respect was brief. Mr. Johnson explaining that such claims had been paid upon his authority to certify carrying out of his defense program.

C. B. Channon, chairman of the district commission, was called on for direct testimony. His cross-examination was a question by Attorney Damper, witness emphatically declared he had never refused or knowingly neglected to perform the duties of his office. Other cross questions dealt with the matter of additional bonds for the secretary-treasurer, and with the making of audit reports of the district according to the testimony of L. Hodgins, for the defense, conducting the examination. Mr. Channon's testimony had to do with the conduct of the affairs of the office.

P. N. Practical Front CORSETS

There are many reasons why P. N. PRACTICAL FRONT CORSETS are different from other corsets.

It is the location of the front closing directly in the center of the body. It puts the front closing of the corset exactly where it should be; directly in the front.

No longer will you have to suffer the loss of not being able to wear front lace corsets because you can't stand the pressure of the front closing over the bust. P. N. PRACTICAL FRONT CORSETS have solved this difficulty for you.

A cleverly arranged inner elastic web combined with the feature of the clap in the center will open for you a new era in your corset wearing.
