## GERMANY HAS TEN DAYS TO ANSWER YES OR NO TO ALLIED DEMANDS

### Supreme Court Reverses Conviction of Senator Newberry

#### DEMIES POWER TO CONGRESS OVER PRIMARY

#### Relieves Michigan Senator and Sixteen Others Accused of Conspiracy to Violate Corrupt Practices Act

WASHINGTON, D. C., (AP)—Conviction of United States Senator Truman N. Newberry in federal courts in Michigan for conspiracy to violate the federal corrupt practices act was set aside today by the supreme court.

The conviction of 6 other defendants also was set aside. The court held that congress was without power to regulate primaries.

Dissent to Principle.

Justice McReynolds held the opinion. Justice McKenna withheld his opinion as to the power of congress, but agreed to the decision.

Chief Justice White also dissented from the decision that congress did not have power to control elections but agreed that the statute had been very "unwisely" misconstrued.

Justice McReynolds said that the lower court erred in dismissing the demurrer of the defendants.

#### Hughes Tells Central American Nation American Decision Must Stand

WASHINGTON, (AP)—Unless Panama acts voluntarily within "a reasonable time," the United States will take measures to compel her to transfer jurisdiction of the disputed Colo territory to Costa Rica, Secretary Hughes says in a recent note to the Panama government. The text of the document was made public today at the state department.

#### SEEK TO HALT MARINE STRIKE BY MEDIATION

#### Secretaries of Commerce and Labor Urge Ship Owners to Accept Workers' Proposal for Intervention in Dispute

WASHINGTON, (AP)—White House officials said today, it was their understanding that appointment of a federal commission to mediate in the controversy between the ship owners and marine workers, awaited acceptance of government mediation by the owners.

President Harding on Saturday placed the whole question in the hands of Secretaries Davis and Hoover and it was said today that the commerce secretary was in communication with the operators in an effort to have them accept the workers' proposal for mediation.

It was said at the shipping board's office that little difficulty in obtaining crew for ships was anticipated because 30,000 seamen were idle.

Shipping board officials said today that few vessels had been tied up as a result of the refusal of the seamen to accept the 15 per cent wage cut ordered by the board Friday. In the cases reported, the vessels were held in port because the men refused to sign articles at the reduced rate of pay.

#### ALLIES EXTENDING TIME BEFORE USING FORCE

#### Meet Reparations Terms or Suffer Military and Naval Occupation, Germany Is Told In Ultimatum

#### ALLIED SUPREME COUNCIL ENDORSES PROPOSALS OF FOREIGN MINISTERS

LONDON, (AP)—Germany must give by May 12 a categorical answer—yes or no—to the allied reparations demands, or suffer the infliction of military and naval occupation according to the terms of an ultimatum drawn up by the allied foreign ministers today agreed in principle to the plan of Foreign Minister Jasper of Belgium providing for an ultimatum to be presented to Germany and not be for the purpose of negotiation.

The terms of the ultimatum were being discussed this afternoon by allied experts, who were to report to the supreme council at 5 p. m.

Four Powers Agree.

The declaration of the allied stand on the reparations question, in which Germany will be given a brief interval to comply with the allied demands, was drawn up at a conference this afternoon by the foreign ministers of Great Britain, France, Italy and Belgium.

This declaration was submitted to the supreme council at 11 o'clock.

After an hour's consideration, the council adjourned until 5 p. m.

Negotiations at End.

The interval of a few days provided for in the ultimatum to Germany will be for the purpose of negotiation, it was stated, but to give the German government time to reflect, negotiations being considered at an end.

Since Germany made her latest "peace gesture," through Washington, it was considered possible the allies would choose the United States as their intermediary in sending any ultimatum to Germany.

Premier Briand said this morning it would take 12 days to complete French military preparations for occupation of the Ruhr district.

"If at the end of that time Germany has not fully yielded to the allies," he declared, "The French troops will march."

"I hope they will not march alone," he said.

#### Mobilization of Military Forces Proceeds in Anticipation of German Refusal to Meet Allied Demands

PARIS, (AP)—The ministry of war said tonight with reference to the mobilization of military forces of infantry and cavalry from Mayence into the Ruhr. They will leave on Wednesday Tuesday morning.

PARIS, (AP)—The ministry of war said tonight with reference to the mobilization of military forces of infantry and cavalry from Mayence into the Ruhr that the government had not yet issued any order for such movement into the Ruhr region. The military authorities in Mayence, however, it was added, may have deemed it advisable to start the troops.

PARIS, (AP)—The French government is proceeding with the preliminaries necessary to the occupation of the Ruhr valley, should that step be ordered.

A brigade of cavalry was entraining today at Meaux to join a large detachment of infantry already on the way from Lyons, in addition to artillery from Vincennes and other garrisons, now on the move.

Orders from the mobilization of the class of 1916 were expected to be issued today.

Negatives are not expected to be included in the forces sent into the Ruhr.

Newspapers as a whole expressed their indignation today at the news of the mobilization, a discordant note being struck by Humanite which in large headlines attack the calling of the reserves. It is a blockaded, would probably occur in the North Sea, it was added.

The reparations commission will advise Germany of the allied conditions after the decision upon has been reached by the supreme council. Germany will have until May 12 in which to give an answer, which is required to be a direct yes or no, without conditions.

#### PRINTERS OUT THEIR JOBS IN SEVERAL TOWNS

#### Employers in Many of Larger Cities Accede to Demand for Short Hour Week but Sporadic Strikes are Numerous

CHICAGO, (AP)—Acceptance by employers in many of the larger cities of the 44-hour week in the printing industry today appeared to have averted a nationwide strike in book and job printing shops, although isolated strikes in newspaper plants, and job printing offices had been called to take effect today.

Local officials of the International Typographical union were authorized by international headquarters to call strikers whose employers refused to accede to the 44-hour week and at a number of cities in the east newspapers were suspended by strikers of printers.

In several cities strikes were being taken by pressmen and other unions allied in the printing industry.

About 250 locals throughout the country are in dispute with their employers over the 44-hour week and south strikes were expected to day.

#### UNION LEADERS PREDICT COMPLETE SHIPPING TIE-UP

NEW YORK, (AP)—Union leaders predicted today that the walkout of marine workers called yesterday as a protest against 15 per cent wage reductions would result in 24 hours in a complete tie-up of American shipping.

Radio Carris Strike Call.

News of the walkout decision was wireless to all ships flying the American flag yesterday after the International Seaman's union, the marine firemen, oilers and water tenders unions and the Marine Engineers' union had voted to resign their jobs rather than accept the cut.

It is estimated that about 25,000 workers are affected by the walkout.

The 15 per cent reduction suggested by Chairman Dawson of the shipping industry and placed in effect at midnight Saturday means a virtual reduction of from 40 to 50 per cent when new working conditions are considered, workers declared.

#### EMPIRE STATE IN GLUTCH OF LABOR STRIFE

#### Twenty Thousand Union Workers in Printing, Building and Paper Trades Idle in Northern and Eastern New York

ALBANY, N. Y., (AP)—With approximately 20,000 union workmen in the printing, building and paper trades in northern and eastern New York idle today the result of strikes, their numbers were facing the most serious industrial tie-up in their history.

The building workers refused to accept wage reductions of 10 to 25 per cent, at paper makers rejected a proposal to reduce their wages 20 per cent and the printers stopped work because their demands for a 44-hour week were not accepted by their employers. Newspapers here were not affected.

#### MORE THAN 25,000 MEN ARE IDLE IN CLEVELAND

CLEVELAND, O., (AP)—Between 25,000 and 30,000 men employed in more than twenty crafts affiliated with the building trades council, left their jobs this morning immediately after reporting for work on building contracts controlled by the Cleveland Building Trades Employers' association. The employers had cut wages 20 per cent.

More than 1,800 printers went on strike this morning when their demands for a 44-hour week were refused by master printers.

#### BUILDING OPERATIONS IN PHILADELPHIA STANDSTILL

PHILADELPHIA, (AP)—Building operations in Philadelphia were almost at a standstill today because of the refusal of employees to accept wage reductions. Employers estimated the number of men out at 30,000, while estimates of the workers placed the figure at 40,000.

The reductions in the various building trades amount to about 24 per cent.

#### STRIKE MENACES PACKING HOUSES

#### Labor Leader Boasts Union Men, as Strike Breakers, Turn Cattle Loose

CHICAGO, (AP)—A strike of the live stock handlers on the live stock yards called Saturday night, may result in other branches of the packing industry here before nightfall, Patrick J. Griffin, president of the union, said today.

"We'll take every man out of the yards before next Monday," he asserted, "and there are 40,000 of them."

"We are willing to take a reduction," he said, "but not eight cents an hour."

"Only 500 men are out, according to P. L. Hinkle, general manager of the Union Stock and Transit company."

"We have between 200 and 300 strike breakers at work," said Mr. Hinkle, "and 1300 carloads of livestock are unloaded before 8 o'clock today in practically the usual time."

#### DECLARES HUGHES HAS NO WORD FOR GERMANY

#### French Ambassador Cables Outline of Conversation with Secretary of State

LONDON, (AP)—M. Jusserand, the French ambassador in Washington, has cabled here the outline of a conversation he had had with Secretary of State Hughes, of the American government.

The ambassador reported that Secretary Hughes desires an attitude on the reparations question that would irritate the allied governments. Secretary Hughes said that the state department has no further communication to make to Germany, the message added.

Secretary Hughes intimated preference that Germany should settle without the occupation of the Ruhr valley, as such occupation suggested a kind of war, M. Jusserand's cable said.

The conversation, the ambassador stated, was entirely informal and sympathetic.

#### FRANCE RESERVES COMMENT ON KNOX MEASURE PASSAGE

PARIS, (AP)—Official French circles are extremely reserved in their comment on the passage by the United States senate of the Knox reservation declaring at an end the state of war between the United States on the one hand and Germany and Austria-Hungary on the other. Confiance was expressed, however, that congress and the president would amply provide against any disadvantage to the allies as the result of separate peace with Germany.

#### STEEL MAGNATES CONVENE

NEW YORK, (AP)—Presidents of the various subsidiary companies of the United States Steel corporation conferred today with E. H. Conroy while no announcements were made regarding the object of the conference. It was understood that the question of revised wage schedules would receive chief attention.

#### DEFINES LIMITATION

"Obviously the corrupt practices act covers also the primaries and other preliminary acts preceding an election," the court said. "The one question here is whether congress may limit expenditures of candidates. This gives congress the power of regulating the manner of holding elections, and not of election."

Chief Justice White, in his dissenting opinion traced in detail the growth of the election system to show that congress was given no power under the constitution to regulate senatorial elections.

"It is essentially a federal matter," he said, "existing before the constitution," said he.

#### UNCHANGED BY AMENDMENT

The direct election amendment to the constitution has not changed the provisions of section 4, article 1, of that document.

Chief Justice White protested that legislation would come which would set aside today's decision as to the power of congress to regulate elections, otherwise "government cannot live."

#### DISSENT IN PART

Associate Justice Pitney also read an opinion dissenting in part from the court's decision, and announced that Associate Justice Brandeis dissented in several other places in the opinion. Chief Justice White said he concurred in the reversal of the conviction but that a new trial should be held.

#### ELECTION INVESTIGATION IS NOT AFFECTED BY DECISION

WASHINGTON, D. C., (AP)—Senator Spencer, chairman of the senate subcommittee, considering the Ford-Newberry case, said his committee would proceed with the investigation irrespective of the decision of the supreme court. The board which was elected and the question of the alleged fraud charged by Mr. Ford will be considered, said Senator Spencer.

#### FEDERAL COURT TO DISCUSS CHARGES AGAINST NEWBERRY

WASHINGTON, D. C., (AP)—Judge Clarence W. Sessions, who presided in federal court last November in Newberry case, said his committee would proceed with the investigation irrespective of the decision of the supreme court. The board which was elected and the question of the alleged fraud charged by Mr. Ford will be considered, said Senator Spencer.

#### SENATE ELECTIONS COMMITTEE TO DETERMINE ITS POSITION

WASHINGTON, D. C., (AP)—Chairman of the senate elections committee, which has charge of the Ford-Newberry contest, said the committee would meet in a few days to consider the effect of the court's decision on future senate election. Senator Dillingham said he appeared with the corrupt practice law held void the committee would be without further jurisdiction.

#### SPREADS TO CANADA

The strike also spread to Canada, job printers in Halifax and newspaper printers in St. John's, N. F., voting a strike. Newspaper offices in Charlottetown, Lunenburg and Miramichi, N. B., also voted to go out on strike. In several cities of the west and south strikes were expected to day.

#### CHICAGO SHOPS TIED UP

Only two shops of the 700 union job printing shops in Chicago were working today, according to a statement by Harry Cantel, chairman of the committee of industrial relations for the Franklin closed shop division of the Franklin Typographic.

Between 400 and 500 are out of work, he asserted. This is said to be work, he asserted.

#### CENTERS IN NEW YORK

Of the 125,000 workers affected by the walkout, 30,000 to 40,000 are in this part. The number of shops affected is said to be about 2,000 of which between 50 and 100 are in New York. The total tonnage involved is more than thirteen million of which 700,000 is owned by the United States shipping board. It is believed by leaders of the marine workers that the walkout call will be heeded generally today in all parts in the Atlantic Gulf and Pacific coasts. They said they received messages from the west coast, indicating that workers there were in full sympathy with the movement.

From some parts came information, however, that the walkout call was not being heeded there. Some instances were taking us men at the old

### Daugherty Discerns Normalcy in Quiet May Day Observance

COLUMBIANA, O., (AP)—Quiet observance of May day throughout the United States, despite attempts to agitate demonstrators through the distribution of literature has given assurance of the return to normal conditions in America, said a statement issued here by Attorney General Daugherty. Yesterday had been a typical "American Sunday," the attorney general said.

Mr. Daugherty's statement said he had been urged to issue a general public warning against demonstrations, as the president of the United States would say and we have reason to be proud of ourselves."

ment of justice the last several years, but that he had refused to do so. "My idea was," the statement said, "that if a general warning were given it would invite, rather than prevent, demonstrations. The country is settling down to a patriotic program. I think we need less watching and more freedom in this country. As regards the object of the conference it was understood that the question of revised wage schedules would receive chief attention."

## Coblentz Discusses Possible Effect of Adoption of Knox Peace Resolution with an Eye on Its Pocketbook

COBLENZ, (AP)—The Germans at Coblentz have been speculating with deep interest on the possible effect of the Knox resolution in congress declaring that a state of war no longer exists between America and Germany. Whether the adoption of that resolution would cause the withdrawal of the American forces in Germany has been the main subject of discussion in the German press of the occupied territories.

# Wins Boston Marathon in Record Time

Frank Zuna, of the Paulet A. C., New York, is being proclaimed the champion distance runner of the United States after the easy manner in which he showed his heels to a field of sixty-eight of the foremost distance men in the country in the American marathon over the famous Ashland-to-Boston twenty-five-mile course. In winning the race in 2 hours 18 minutes and 58 seconds Zuna broke the old record, which has been standing since 1912 of 2 hours 21 minutes 18 1/2 seconds. Zuna, a plumper and overcast veteran, stands 5 feet 11 inches and weighs 160 pounds. The above photo was made as Zuna crossed the finish line.

## Salary of American Lieutenant on Rhine is Equal to Foch's

### "Buck" Private Soldier's Pay Makes Him Rich Man Among Germans

COBLENZ, (AP)—The pay of a second lieutenant in the American army on the Rhine is equivalent at present rates of exchange, to that of Marshal Foch.

This may explain in part why the American army of 15,000 men costs Germany more than \$10,000,000 French francs in the Rhine zone. It accounts also for the exaggerated statements from German sources that America's fighting force cost Germany more than all the allied armies' occupation.

Marshal Foch's salary is 32,000 francs. A second lieutenant in the American forces in Germany receives \$2120 a year which extra allowances bring up to about \$2300. At the rate of exchange of 14 francs and a half to the dollar, the second lieutenant draws about \$3500 each year.

The buck private receives \$30 a month; a corporal \$51.50; a sergeant \$60, and a technical sergeant \$74.20.

The French soldier at Mayence has to be content with 75 centimes a day; a corporal receives 90 centimes and a sergeant two francs.

At the rate of exchange about 60 to 65 marks to the dollar, the American soldier in Germany draws a larger salary than many of the high German elite officials.

The American soldier in the Coblenz area lives better than the average bourgeois family of either France or Germany. At each of the ten best-managed hotels in the city, he has a Sunday dinner at the Bahnhof hotel, conducted by the Y. M. C. A., which the soldier could buy for 30 marks, or about a half dollar: Cream of pea soup, roast Danish turkey, hot dressing, cranberry sauce, potato croquets, Jersey sweet potatoes, creamed cauliflower, shrimp salad, radishes, omelets, rolls, pickles, butter, marshmallows, ice cream, coffee or tea.

There has never been a soldier in any army who has had at his disposal the organization of welfare work, which the American soldier in the Rhine enjoys. Officers say the boys here are living the lives of gentlemen and are behaving as such.

Although prohibition does not exist in Coblenz the correspondent has yet to see a drunken American soldier in the city and yet pay day, the dread of the military police has come and gone.

The Germans seem to bear them no animosity and they are very popular with the French and English. They are added to the outdoor sports which find favor with many soldiers.

Tides Move Big Building. The historic Tower of London moves four times daily on the tides of the Thames river and flow. The movement is most pronounced in two part nearest the river. The movement is due to the fact that many tons of water penetrate under the foundations with the rising tide, which movement has the effect of moving upward the whole mass of the tower.

# LABOR PROBLEMS MEETING THEME

## State and Federal Officials Gather in Convention at New Orleans

NEW ORLEANS, La., (AP)—Governors of three states, and federal and state labor department officials from many parts of the country are on the program of the annual convention of the Association of Government Labor Officials of the United States and Canada, which convened here today. The address of welcome this morning was delivered by Governor J. M. Parker of Louisiana. Governor Lee Russell of Mississippi and Governor Henry J. Allen of Kansas are scheduled to speak tomorrow. The Kansas executive will discuss the operation of the new Kansas court of industrial relations.

A wide scope of industrial problems as affecting men, and women and children in industry, are listed for discussion. Canada has a strong representation on the program, headed by Thomas H. Johnson, attorney general, Winnipeg. Of the federal labor department, Edw. Stewart, statistician; Spauldo Varano, Manila, Philippine Islands; Natalie Matthews, director children's bureau, Washington; Nip Allen, head of child labor tax division, Washington; J. S. Haskins, assistant director, federal bureau vocational training, will address the convention.

In addition to Governors Russell and Allen and Attorney General Johnson, speakers tomorrow on "Current Development and Tendencies in Labor Legislation," will be George O. Hambruch, chairman Wisconsin industrial commission; Mrs. Nellie Snyback, New Jersey department of labor, and Arthur Todd of Chicago, vice president, National Labor Relations Board, in Filing Wages and Working Conditions.

Other state labor officials on the program are: Frank E. Wood, labor commissioner, Louisiana; Bert Penn, assistant director, Illinois labor department; Louise Schutz, Minnesota labor department; William S. Hyde, Connecticut; Labor Commissioner E. H. Fletcher, Michigan; Ethel M. Johnson, Massachusetts; Mrs. Luella Cox, Indiana; Mrs. Katherine Phillips-Eaton, California.

The convention will continue in session until next Thursday noon.

# Puts Flank Toters in Class with Gunmen

Persons who carry hip-pocket flasks are now in the same class as the man who carries a pistol or dirk without a permit, according to a statement made by John A. Leach, first deputy police commissioner of New York, who is in charge of the police enforcement of the new state dry laws in New York City. "Anyone carrying liquor," said Deputy Commissioner Leach, "is just as much a violator of the law as one who carries a pistol."

"Plumage Transformation." A type of plumage transformation which appears to have a very clear adaptive purpose is what is known as the "eclipse of the male." It is particularly characteristic of many species of ducks, the two sexes of which ordinarily have distinct plumages. Most ducks totter their flight feathers all at one time, with the result that they are quite unable to fly for a term of several weeks after the breeding season. During this period they live retired lives among the secluded waterways of their nesting grounds, waiting for a growth of new quills to equip them for their autumn migration.

# REDS MAKE CONCESSIONS TO PETROGRAD STRIKERS

## Bolsheviks Modify Communist Principles to Placate the Workmen

TERIJKI, Finland, (AP)—Copies of Bolshevik posters designed to quiet the strikers of Petrograd during the recent revolution (the strikers who) have been brought across the border here, show the communists turned to soft words in their effort to win over the workmen.

Previous posters were couched in words of command but these were addressed to "Dear Comrades" and were full of promises. One of them reads: "Dear Comrades, We offer you the following seven concessions: "Eighteen million pounds (of 36.02 pounds each) of coal have been ordered from abroad; "Nonparty representation will be allowed on the grain trade commissions; "Reparations for city vegetable gardens are under way; "Country workers will be dismissed and sent home from Petrograd because of the short rations; "Check detachments on the railways are ordered to exempt working men. (The 'check' detachments were communist guards who seized any produce brought from the country into Petrograd); "Sixty new trains will be operated to the suburbs for workmen; "Unlimited requisition of grain will be replaced by the definite quota system; "Hunger only becomes greater through revolution."

Tottering for 800 Years. The famous Leaning tower of Pisa is of pure white Carrara marble in the Gothic style. Its departure from the perpendicular has been variously interpreted, but there is little doubt that it rises from the softness of the soil on which it stands and which has given way. Notwithstanding its threatening appearance, it has now stood for more than six hundred years without rent or decay.

# LATIN AMERICA SHOWS INTEREST IN TRADE MEET

### Invitations to New Orleans Convention to Further Plans for Closer Commercial Relations Widely Accepted

NEW ORLEANS, (AP)—Practically every Central and South American country will be represented at the third annual convention here today of the Mississippi Valley association, acceptance of invitations indicating in addition several representatives of European and Oriental countries have signified their intention to attend.

Several speakers of national importance including Herbert Hoover, secretary of Commerce, and Archibald Kain, president of the Federal International Banking company will address the foreign delegates on matters of commerce and trade; it has been announced by H. H. Morick of Chicago, president of the association, Secretary Hoover is expected to speak on "Old and New Domestic and Export Trade Markets."

Formulation of plans to bring about closer trade relations between the United States and countries represented by foreign delegates will be among the main lines of the meeting. It is expected these delegates will be able to offer detailed information concerning the class of products of other countries which the valley might purchase and there will be thorough discussion of the subjects of foreign credits, financing, port facilities and market conditions, all tending to foster further intercourse between the United States.

Information received from President Morick's office indicates that special efforts will be made during the convention to formulate plans for the organization of such reciprocal foreign trade machinery as may be needed to foster the closest possible relations between the producers, manufacturers, distributors, bankers and shippers in the Mississippi valley and similar groups in Latin America, the Orient and Europe.

Originates During War. The Mississippi Valley association was organized here during the world war by a small group of representatives of chambers of commerce, industrial and financial organizations for the purpose of bringing to the attention of the world in general and the United States shippers in particular the necessity for diverting to the gulf ports a vast amount of merchandise which was being sent to overseas markets by the congested Atlantic seaboard. It was pointed out that the easy north and south rail and water routes could be used advantageously by the shippers and would incidentally relieve the congestion at eastern ports.

Although the organization was perfected without any ostentation and the meeting was called without any particular advertising the movement gained rapid headway and applications for membership from southern Louisiana to northern Minnesota swarmed in. The temporary secretary, shortly afterward the association was put on a firm foundation and since has functioned in a manner regarded as satisfactory by its founders.

John M. Parker, now governor of Louisiana, was the first president.

All of European Origin. A dumpling is a good old English dish, and comes from the word dumpling, which means to throw down suddenly, and the diminutive ending "ling." The idea was a little cake that was made by throwing raw dough into boiling water. From Portugal comes the word marmalade, which was originally a sweet preserve made from quinces and takes its name from shalote, the Portuguese name for that fruit. Cruller is a good Yankee dish, though it is from an old German or Dutch word, "krullen," meaning little curled ends.

Steel Corporation President May Be Shipping Board Head

## W. W. Leader Plans to Russia to Escape Jail Term

Federal officials in Chicago have received confidential information that William D. Haywood, secretary of the Industrial Workers of the World, and at the Lawrence, Kan., federal penitentiary, has fled from the United States and is now in either Moscow or Riga, Russia. Haywood, it is said, sailed from New York about April 2 and landed in Russia fifteen days later.

## ROAD MEETING WILL BE HELD IN IDAHO FALLS

### Important Conclave for Discussion of Road Building Called for Tomorrow

A general conference of delegates interested in road building plans and programs for Idaho has been called for Idaho Falls to be held tomorrow. This meeting calls together delegates from over southern and eastern Idaho and points in Utah. The meeting was postponed from April 28, and was originally scheduled for Postville. It is probable that Ed E. Johnson, head of the roads bureau of the Twin Falls Chamber of Commerce and A. M. Swin, chairman of the reclamation bureau of the same state body, will attend.

The purpose of this district convention is to interest the towns throughout southeastern Idaho in the proposition of securing a change in the established routing of the proposed national park-to-park highway. The present route of the proposed national highway bypasses both Utah and Idaho and the plans of these two states contemplate building together in an effort to secure a change in its routing, declaring that the states have been discriminated against.

The convention will make arrangements to send delegates to the tri-state convention in Salt Lake later on in the summer when delegates from Idaho will be securing a re-routing of the proposed highway will be taken up.

The union has heretofore had a nearly equal country bordering on the Pacific ocean through which it is spreading its doctrine of cooperation and fellowship among the nations on that ocean's fringe.

Time to "Get Up." An author who has helped to make a portion of New England famous presided at a banquet as a suburban citizen some nights ago. His host fitfully entertained the principal guest of the evening, and in colloquy told this story: "An old farmer drove into town one day and put into a feed store, bought half a pack of oats. Stabling his horse by the side of the road, he gave him a copious lunch. When it was ended the farmer hitched up, got into the buggy, took up the lines and addressed the oat. 'Now that you've been fed up.'" The landlubber, turned and looked at the guest for a moment, and said:

## Brief Bits of Sport

Clint Evans' Men proved conclusively on Saturday that the two wins scored in Boise a fortnight ago, were no flukes.

In fact, they proved that the win scored by Boise on Friday was a fluke of most decided character.

The Saturday tilt also demonstrated that Evans has a star twirler in Bob Butler, as well as a capable catcher in this same sturdy athlete.

From this action on "Put" will probably be asked to take a regular turn in the box for the Twin Falls high school ball team.

With Fix on First, Yoehben and "Speed" Newman at the keystone point, and Hilder dispatching the playing form he did most of the distance Saturday at third base, the infield seems to be about the best in the conference.

This bit of information has come from Camp D'Dempsey, in New Jersey, that he will be in his very best trim when he meets Georges Carpentier in July.

That's the first what's next?

As we have heretofore asserted that Dickie Kerr just has to love one last inning in which he loses his game, even if he has to go extra innings to get it. So that Saturday's 12-inning tilt with Cleveland.

Ira Dorn's persistent successes must

SEVEN SLAIN ON IRISH SABBATH

Fatalities Result in Clashes in Counties of Cork and Tipperary

CORK.—Seven persons were killed Saturday by the violence and men of the military forces in clashes in counties Cork and Tipperary.

In an ambush of crown forces in Kildorrery, County Cork, two Irish republicans were killed and five others captured, two of which were wounded. There were no crowd casualties in the fighting, which lasted an hour and a half.

A police patrol which was fired on in a public house in Tipperary returned the fire, killing two men. One of them, James Maloney, is said to have been the son of P. J. Maloney, Sinn Fein member of the British House of Commons from the south division of Tipperary.

Three other fatalities occurred in minor clashes.

Deaths

Booker S. Scott, aged 83, died Saturday evening at a local hospital. Death was directly due to cerebral hemorrhage. He was a member of a Nebraska G. A. R. post and had made his home with his daughter, Mrs. J. R. Neely, at Boesford some time. The funeral was held in Grossman's mortuary chapel at 2 o'clock this afternoon with officers of the local G. A. R. post reading the veterans' ritual. Captain J. F. Purdy, of the Salvation Army, assisted at the services. Burial was in Twin Falls cemetery. Decedent served for four years as a member of the 25th Indiana regiment in the civil war.

FUNERALS

Funeral services were held this morning for Elmo, two and a half months' old daughter of Mr. and Mrs. A. F. Funkhouser, with Captain J. F. Purdy of the Salvation Army in charge. Burial was made in Twin Falls cemetery at 11 o'clock this morning under direction of P. J. Grossman, undertaker. Death occurred at the family home on Sixth avenue west Sunday.

a fair decrease and this fact served further to make shorts anxious. Most of the trading, however, was in small lots. Opening quotations, which varied from unchanged figures to 1 1/2-c higher with May 41.32 to 1 1/2-c 24 and July 41.08 to 1 1/2-c 24, were followed by decided gain all around.

The bulge checked export business to some extent but the fact that foreign-ers continue to take wheat in the face of unfavorable existing rate was a bullish influence. The market closed unsettled 1 to 3/4-c net higher with May 41.34 to 1 1/4-c and July 41.09 to 1 1/4-c 1 1/2.

Corn advanced for much the same reason as wheat, May deliveries proving small. After opening 3 3/8 to 3 7/8 higher, including July at 61 1/4 to 61 7/8 the market continued to harden. Subsequently, profit-taking sales caused a moderate reaction. The close was easy, 1 to 3/4-c net advance, with July 62 to 62 1/2-c 1 1/2.

Oats were dull but sympathized with the firmness of other cereals, and starting 3 to 3 1/2-c higher and then ending a trifle. Lower quotations on hogs weakened provisions.

New York Stock Market

NEW YORK, (P)—Trading in stocks today was very active and broad. Popular issues in the industrial groups received extensive gains of 1 to 4 points. Sales approximated 1,500,000 shares. Last week's lively dealings in selected stocks at higher prices were resumed

at the outset of today's session. Oil, dairy and all specialties were most active with Pierce Arrow and Central Leather leading, gains of 1 to 1 1/2 points; metals and equipments were irregular. Coppers and shipping denoted further moderate accumulation. Rails displayed little animation and the usual minor specialties were unactive. A. F. funds special were reflected in rates for 4.75.

Financial exchange, demand sterling rising to 49 5/8, the highest quotation so far this year. Mexican Petroleum formed part of its recovery, later and rails lifted into dullness, but metals, equipments extended their gains. The closing was strong.

Sugar

NEW YORK, (P)—The raw sugar market was steadier, early today, and while no sales were reported, offerings were light and prices held at 37c for Cuban cost and freight, equal to 44.89 for centrifugal.

Raw sugar futures were firmer, particularly for the near months, which were about 8 points higher on covering owing to the steadier feeling in the marine strike and fears that the marine strikers may interfere with the movement. Lard deliveries were one point higher.

In refined the demand was better, 8 1/2c to 8.50 for fine granulated. Trading in refined sugar futures was started on the New York coffee and sugar exchange. There was only a light business.

No printing establishment in the State of Idaho is better qualified or better equipped to supply printed matter of every kind and character than is the Job Printing Department of The News.

While the principal business of The News is the publication of The News, Daily and Weekly Editions, there remains plenty of opportunity for other work—work of the kind we like to do.

The News does not compete for business on the basis of cheapness because cheap goods of any kind have but one recommendation, namely, the element of cheapness itself, upon which basis such goods must always be exclusively sold.

But News prices are themselves the best recommendation possible, paradoxical as this may seem—you pay no more, but you Get More.

Now don't take the unsupported word of The News for this, convince yourself of the truth of the assertion.

There are several ways in which you can do this but the best way, perhaps, is to have The News execute your next printing order.

Too much printing has always been sent out of town in Twin Falls—and is now—and there isn't the shadow of an excuse for it.

COUNTRY NEEDS DOCTORS

Attention is called to an increasingly important factor in rural life, the difficulty of obtaining medical services...

The life of the country doctor is hard. He must travel all kinds of roads in any sort of weather, at any hour he is called.

In New England the situation is so bad that it is proposed in some instances to appropriate public money to induce doctors to locate.

Foreign Marriages. Why is more the traditional and fashionable hour for wedding ceremonies? Because the hour became the customary one in England many years since, when the rule of parking of the holy communion as the first act together of the married pair was universally obeyed. It was not permissible to celebrate that sacrament after mid-day.

Trees Marvellously Preserved. Discovery has been made in the Holman iron mine near Teacote, Minn., not far from the source of the Mississippi river, of the trunk and branches of a prehistoric tree in an excellent state of preservation with the cones on it. The tree is not petrified and the wood is perfectly sound.

Katherine Sellers

One of America's leading judges is Miss Katherine Sellers, who served as law in the justice court of the District of Columbia. It was while practicing law in Washington that Miss Sellers attracted wide attention, so much so that she was appointed to her position by former President Wilson.

Cat Very Much on Warpath. A dog will often chase a person who annoys it, but who ever heard of a cat doing so? However, a court reporter in Seattle tells us that he was chased by a cat which also made determined efforts to reach the object of her vengeance. The cat—an ordinary house-bred animal—suddenly went wild and chased two people into the house. They managed to lock themselves in a room, but the cat followed and scratched at the door. Eventually it went around to the window and endeavored to get into the room. Seizing the opportunity the two left the room and ran to a neighbor's house. The cat gave chase and overtaking them scratched one of them very badly. The cat was eventually killed by the children's father.

Siberia's Wealth of Wild Flowers. Were I a poet I should write a book of verses about the wild flowers of Siberia. There is a vast new world blooming in the mountains and foothills. Then there is the meadow and gold of the "Mary and John," that is forested most by the Siberians. This lovely flower is named after the Virgin Mary and the Love-Disperser, whose seeds to have planned a planting thousands of blossoms to delight the eyes and hearts of pioneers living in the thinly populated wastes of Siberia. Every week, it seemed to me, there was another blossom of wild flowers for the view from my window; all summer long they suggested ever-changing tapestry wrought on a background of verdure, hills and water—Cody March in the National Geographic Magazine.

The Ant's "Parasol." The so-called parasol ants of Brazil get their name from their habit of marching along in single file, one on top of another, with a piece of green leaf held over its head. These scraps of leaves are taken to underground chambers, well chewed, and allowed to ferment and decay in a mass, through which the marcher's body is pushed, and so to run in white threads. When this mushroom buttons have started to develop the workers bite them off and feed them to the baby ants.

WINDMILL

A windmill is an unexpected legacy or money dropped as it were from the sky. The saying originated when the English nobility were forbidden by the tenure of their estates to fell the timber, all the trees being reserved for the use of the royal navy. Such trees as were blown down, however, were accepted, hence a good wind often proved a veritable godsend.

Kerosene and Coal. Kerosene contains more heating energy than coal when considered on a weight basis. A pound of kerosene contains about 10,000 heat units, whereas a pound of high-grade coal contains about 15,000. The cost of the various fuels for heating purposes depends largely upon the relative supply.

ARE DEVELOPED FROM THE COURTS

Outer Proceedings Instituted Against Highway Board is Sustained in Court

Sustaining practically all claims and conclusions made by E. P. Walton against the three commissioners of the Twin Falls Highway District board, Judge W. A. Babcock, of the district court, this morning rendered the court's decision in the case...

Following the recital of his findings Judge Babcock expressed regret that the conclusion was necessary, but explained that violations of law had been committed and that the court found no fault in the manner in which each spoke of his long personal acquaintance with him and his friendly for all of the defendants, but justified his position in the face of the evidence...

The Decision

The first fitness causes of action charge the defendant with neglect to protect the file and public records reports. The court finds that while some error was made by the secretary to file some of these reports, most of them were shown to be correct...

From the recital of the forty-ninth cause of action, the charges lay out the neglect of the board to consider, audit and allow claims against the highway district aggregating a million dollars. The court found that these were all paid upon the authority of the director of highways without having been allowed by the board before payment...

Having decided to give Putzier a chance in the box Coach Evans was forced to make several changes in the lineup of his team. He sent Fletcher Fix to first base, Bielek to first base and Setek to right field. The combination of the three players was a surprise...

Stonewall Infield. Captain Jake Yeohem and 'Speed' Newman, who played a bang-up game both in the field and at bat. 'Speed' played a fine game at bat, hitting a home run, besides handling his four fielding chances perfectly. The out field, with Bielek in right, Phillips in center and Setek in left, were well, but looked a bit slow in the play...

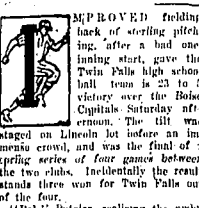

Conclusions Reached. The court concluded that the defendants must be removed from office and the judgment rendered against each of them for \$500 in each case and costs of court. The attorneys for the plaintiffs were directed to prepare findings...

JURY IS CALLED. Judge W. A. Babcock this morning called out for a jury to serve during the spring term of the district court. The venire consists of 30 jurors, and these will be called to report on May 15. A jurymen manual calendar was set this morning.

IMPROVED FIELDING, BACK OF SETTING, FIGHTING, AFTER A ONE-ONE-ONE START, GAVE THE TWIN FALLS HIGH SCHOOL TEAM A VICTORY OVER THE BOISE CAPITALS SATURDAY AFTERNOON

Bob Putzier Twirls Brilliant Game After First Inning, Allowing But Three Hits for Two Runs in Subsequent Eight Rounds—Nervous Responsible for Bad Session to Begin With—Team Looks Better

Without hit or run, with 12 batters facing 'Put.' With two out in the fifth Bob hit Whale Cameron in the third, and the moon set steady, scoring Bob Setek on a two-bagger, a right which Setek had just mangled playing the ball badly on the hop after watching it fall. Warden canned a home ball, struck to Metcalf, first man in in the sixth, proved fatal, for the keystone for the opposition; went to third on a fielder's choice which killed off Hankin on a grounder and he scored on Texas leaguer by Lanslow. Wilcox was thrown out at first by Putzier, who after taping transportation to Coon, fanned Griffin for the fourth out...

Team Looks Better. Taken altogether the Twin Falls team looked a million dollars better than on Friday when Boise, pounding out the pitchers, beat them 10-0 from 21 to 14. On Saturday the order of things was reversed. Coach Jack Keane having all the trouble with his pitching staff in the first five innings in the good with Putzier in the box.

LAND LESSEES GET EXTENSION

State Board Puts into Operation Relief Act Passed by the Legislature

According to word reaching Twin Falls from Boise the state land board, at a recent meeting, approved applications of many leases of state land for extension of time in which to pay their rentals. The extension carries up to October 1, this year, and is granted under the terms of the relief act passed by the 1921 legislature.

Of approximately 750 holders of leases whose rentals are delinquent, 300 applications for extension of time have been received. Land Commissioner I. N. Nash said. "Only a small percentage of the remainder have made payment of their rentals since final notice was sent, and unless payment or extension application is made by May 1 their leases will be cancelled.
