POLISH FORCES PRESS FORWARD TOWARD OPPELN

Former Polish-German Frontier Is Base of Triangular Region in Upper Silesia Now Reported in Insurgents' Grip

LONDON, (AP)—Well armed Polish elements in Upper Silesia, have forcibly taken possession of a wedge-shaped region, the base of which is the former German-Polish frontier and the apex of which has crossed Grotz Stalibitz.

After whole region, the Poles, angered by reports that the so-called plebiscite commission had recommended the return of the Grotz Stalibitz and Bytkow, in southern Silesia to Poland, have declared their intention to seize the whole region.

FLOOD OF GOLD SWEEPING UPON SHORES OF U. S.

Precious Metal is Rained Upon Uncle Sam in New Role as Creditor from All Quarters of the Globe

NEW YORK. (AP)—A veritable flood of gold is sweeping upon the shores of the United States. Already the precious metal in the country has attained an unprecedented amount of \$3,001,487,915 and yet the tide is rising. Financiers attribute this to the fact that the United States is the world's one "creditor nation" and for the equally important reason that the oil-rich nations of the world find it still impossible to transact business with the United States because of their own depreciated currency.

Europe's Toll Heaviest.

The precious metal is coming from all quarters of the globe, but the European countries, more particularly Great Britain and France, as well as the Scandinavian nations, are paying heaviest toll.

Much of the gold received from England represents shipments from South Africa to London, while the French and Dutch engagements hang back to the days of the war and in some instances to much longer periods. For example, Sweden is sending gold to the United States, while the Dutch also has gold for bullion which many believe to be of Russian origin. By way of the Pacific have come occasional shipments of gold from Siberia where they formed part of General Kolchak's war chest.

Latin-America Contributions.

South America and Central America also are making involuntary contributions to this country's vast holdings of the yellow metal, mainly because unsettled economic conditions in Latin America virtually preclude any other form of payment to this country. The local army in Germany has constructed modern equipment including huge vaults five floors below the street level, now holds upward of \$1,000,000,000, fully one-third of which has come from foreign countries. The machinery of the assay office here is working at high pressure in an effort to reduce and refine the foreign bullion and coin. Reports that large quantities of the gold are being shipped to the Philadelphia mint lack official confirmation.

Some Bankers Approbative.

Commenting on this inflow, which some bankers have viewed with apprehension, George E. Roberts, a vice-president of the National City bank and for years director of the United States mint, qualified as saying: "It is a nature that the people of Europe should be sending us their gold. Everybody everywhere owes us money. The easiest way for them to pay, if they are unable to do so in any other way, is to send us their gold. Pointing to the reduced international value of the British bank note, Belgian and French francs, the Italian lira and the shillings almost to the vanishing point of German marks and Austrian groenen, Mr. Roberts said:

'60' long as the premium on the gold dollar exists and is general, gold will probably continue to flow here in greater or less quantities. It seems incredible, however, that it can long continue at the present rate."

Duty Precludes Hoarding.

Paul M. Warburg, a recognized banking authority, now chairman of the newly organized International Association of Banks, Inc., says of the gold movement:

"With gold flowing our way, having resulted in an unprecedented accumulation of gold in our country, and with the increasing strength of the federal reserve system, it would be plainly up to the United States not to hoard its vast banking strength, but to make it available for other countries for the purpose of once more starting the wheels of commerce going."

"America having become the gold pivot of the world, countries with strongly fluctuating exchanges, in order to do a world trade, would have to lean heavily on American banks, in granting these credits, could well take to their shoulders a burden amounting to a billion dollars or more, and to that extent, relieve Europe."

Facts in Perspective.

"This would be one of the many measures that the United States would have to take in order to bridge the gap now existing between the dollar and other currencies, but on a very comprehensive scale it could not be undertaken until when political and economic peace would have been re-established in Europe."

C-operation Pays Farm Milk Producer

CHICAGO. (AP)—The farmers who are co-operating with the Twin Cities Milk Producers association have been awarded \$400,000 in the last four months, according to H. H. Leonard of the association, who spoke before the national conference of dairymen here Tuesday.

C. H. Gustafson, of Lincoln, Neb., opened the meeting by describing the American farm bureau federation and the farmers' co-operative methods.

CARRIBBS TAKE OBJECTION TO TENTATIVE VALUATIONS

WASHINGTON. (AP)—The Los Angeles and Salt Lake and Kansas City Southern railroads asked the interstate commerce commission Wednesday to amend the tentative valuations placed on their lines by the commission under the valuation act. They complained that the commission in announcing the valuations failed to state the reasons which caused it to fix a figure below the actual cost of the roads.

The Los Angeles and Salt Lake protested against the valuation of \$45,000,000 fixed by the commission, claiming that the road's actual value was \$70,000,000.

Starting Slips.

More house plants are grown from slips than from seeds. To do this take a branch half ripe and cut a slip three inches long. Take off all the leaves except the upper two and root it well in wet sand several inches thick, putting one and one-half inches of the slip under the sand. Keep this thoroughly moist. When the roots begin to grow put your plant, with its sand, into a pot provided with other soil. Some slips, such as oleander and ivy, will root in water.

ATTACKS TAX IMPOSED ON TRADERS OVERSEAS

Representative of American Business Men in Philippines Aims Blows

CLEVELAND, O., (AP)—Disaster threatens American business men in the Philippines through the revenue act of 1918, taxing the wholly foreign income of non-resident Americans, Daniel R. Williams of the American Chamber of Commerce at Manila, told the Eighth National Foreign Trade Convention here today. Mr. Williams said that this taxation endangered the trade and prestige of the United States through the entire Orient.

"The evidence which comes from every quarter of the globe, as to the discrimination worked by such taxation against Americans and to the advantage of their competitors is too unambiguous and too overwhelming to be questioned or minimized," Mr. Williams said.

"The stock argument—and the only one so far as we know in favor of this is that non-resident Americans receive protection from our government and should therefore contribute to its support. Possibly the loss said about the measure of protection which has been afforded American interests abroad the better. Certainly the testimony of the facts—whether in Mexico or elsewhere—would show the price charged to be out of proportion to the service rendered."

"Should we concede, however, that our government exercises the same vigilance over the rights and interests of its citizens abroad that it does over those at home, this hardly justifies the suicidal policy of taxing non-residents out of business."

Mr. Williams declared the tax to be taxation without representation. Thousands of bare race fans jammed along the Middlesex shore of the Thames at Barnes "followed" by wireless the exact position of Oxford-Cambridge crews in the intercollegiate regatta which resulted favorably for Cambridge.

Fans Follow Boat Race by Wireless

LONDON. (AP)—Another race was found for wireless here recently. Thousands of bare race fans jammed along the Middlesex shore of the Thames at Barnes "followed" by wireless the exact position of Oxford-Cambridge crews in the intercollegiate regatta which resulted favorably for Cambridge.

Every inch of the course was plain to the crowd, and in the stroke the crew was pulling at the particular invertebrate.

Reports came to the field from a launch which followed the rival eight.

ARGUES FOREIGN TRADE GOVERNMENTAL CONCERN

Detroit Man Proposes Establishment of New Department for Commerce Abroad

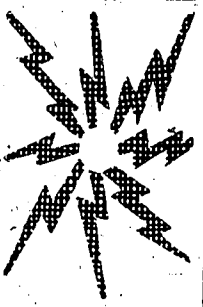

CLEVELAND, O., (AP)—Establishment of an independent governmental bureau for the extension and expansion of foreign trade was proposed by J. Walter Drake, of Detroit, in an address today before the National Foreign Trade council in annual convention here.

"The weakest point in America's industrial development is foreign trade. It is unfortunately true that relatively only a small proportion of American producers have realized the vital nature of foreign sales as a balance wheel for domestic trade. The result of this has been that in a national way this country has not developed an established foreign trade policy."

"The business can no more continue without government participation than could a private business abolish the sales organization with the season's output has been sold and trust to finding a new market each year for its product without sales service and effort. This must be a single department of the government in charge of all foreign trade service. Training established a government training academy which would rank with West Point and Annapolis, to be devoted exclusively to this preparation and education of men for the government foreign service."

"Today, as we face the competition of European countries for the foreign market of the future, which to them means almost life and death in their nations, it is imperative that we improve the present situation in which this country finds itself in respect of the organization and equipment demanded in such a competition."

"There is only way in which this situation can be corrected. A proper and adequate organization of the government service is vital and if necessary such a broad general measure put upon the statute books as will serve as a basis for a full and complete organization of all government activities in foreign trade."

Why We Are Strong for Willard

We've seen a lot of batteries, but never another like the Willard Threaded Rubber Battery.

Threaded Rubber insulates the plates instead of separating them the way wood separators do.

No carbonizing, puncturing, checking or cracking, because Threaded Rubber Insulation retains all the valuable insulating qualities of rubber and is not affected by acid.

That's one reason why we're strong for Willard Threaded Rubber.

COMBINED CIRCUSES ARE DUE HERE SOON

Trained Animals Will Be One of Features of Big Shows Coming May 11

It won't be long until the dappled horses, the clowns, the grunting hippo and all the merrily loved sights and sounds of the big show will be with us, for Circus day—Howe's Great London Circus and Van Amburg's Trained Wild Animals' circus day in Twin Falls will be Wednesday, May 11.

This new consolidation of two well known circuses, a union which will have as its resultant performances of remarkable scope and appeal, requires four trains of 70-foot steel cars, a big top seating 17,000 people, 11 acres of canvas, 450 horses and 700 people as adequate complement.

The arena program will be presented in three rings, on two stages, in two steel arenas, in an aerial covelette and in the quarter mile hippodrome track. Three hundred and eighty-four acrobatic stunts and 300 trained wild beasts, to say nothing of horses and 10 elephants take part in the big show, which opens with impressive pageantry.

The street parade of the show, which extends over 22 city blocks in close alignment, will feature many novelty stunts, and all the cages and dens will be open to view. Both the Howe and the famed Van Amburg "golden menageries" are to be seen in parades, as well as in the big six-ring menagerie top.

"The Sage Hen," the "Edgar Lewis" feature showing at the Gem theatre today, is a story by Harry Soller that Mr. Lewis has had in his possession for some time, awaiting the opportune moment to produce it. It is a favorite theme of Mr. Lewis' as it is capable of the greatest sacrifice and the greatest heroism of the world. Gladys Brockwell was chosen by the pathos producer-director to play the title role—that of the western mother whose beautiful spirit was unscathed by malicious tongues and vicious deeds. Other prominently cast are Lillian Rich, Wallace MacDonald, Helen Carr, James Mace, Arthur Morrison and young Richard Hendrick.

W. S. McCORNIC, BANKER, VICTIM OF ODD TROUBLE

Father of Local Banker, Aged 86, Forced to Have Eight Leg Amputated

Henry McCornick has been called to Salt Lake to attend the bedside of W. S. McCornick, his father, who recently passed through an operation for the removal of a leg. The patient is 86 years of age, and while he is reported to have passed through the ordeal of the operation with splendid fortitude, it is now stated that the shock has caused an unsatisfactory, if not alarming reaction.

ALLIED ULTIMATUM (Continued from Page One)

government fail to comply with the foregoing conditions. The occupation will last as long as Germany continues her failure to fulfill the conditions laid down.

Protocol Provisions

The protocol to be handed the German war burdens commission in Paris tonight by the reparations commission follows: Germany will perform in the manner laid down in this schedule her obligations to pay the total fixed in accordance with articles 231, 232, and 233 of the treaty of Versailles, 122 billion gold marks, less the amount of the reparations already paid on account of reparations; (2) sums which may from time to time be credited to Germany in respect of state property in occupied territory, etc., and the amount of the Belgian debt to the allies; the amounts of these reductions to be determined later by the commission.

Prescription Bond Issues

The first series of bonds, for the amount of twelve billion gold marks, the protocol says shall be created and delivered by July 1, 1921, but the interest of 5 per cent plus one per cent shall be paid from Germany the first half yearly from May 1. The second series for 18,000,000,000 gold marks shall be issued on November 1. The third series for 82,000,000,000 gold marks shall be issued on November 1, be delivered to the reparations commission without coupon attached, and will be issued by the commission as and when it is satisfied the payments which Germany undertakes to make in pursuance of this agreement are sufficient to provide for the payment of interest and sinking fund on such bonds. The sinking fund shall be used for the redemption of the bonds by annual drawings at par.

Free from German Tax The first will be German government bearer bonds, in such form and such denomination as the reparations commission shall prescribe for the purpose of making them marketable, and shall be free from German taxes and charges of every description, present and future.

WHEAT PRICE EMULATES COURSE OF SKYROCKET

Sharp Upturns are Recorded in Day's Trading; Close is Strong, 5 1/4 to 5 3/4 Net Higher

CHICAGO, (AP)—Bullish crop reports from the southwest led to an advance today in wheat market after a show of weakness at the opening. It was said there was evidence of deterioration in the fields between Wellington, Kansas, and Enid, Okla., and that the decline in condition would be manifest when the wheat plant heads. Moreover houses with seaboard connections were buyers on the early setback in price.

Export demand both for wheat and rye counted later in favor of the bulls, and so likewise did persistent buying on the part of big commission houses, influenced in some extent by lowering of redemptive rates at federal reserve banks. The close was strong, 5 1/4 to 5 3/4 net higher, with May \$1.44 1/2 to 1 1/4 and July \$1.14 3/4 to 1 1/2.

Oats were governed by course of other cereals starting unchanged to 1/8 lower; July 37 to 37 1/8, and declining further, but then scoring gains. COURT NAMES CUMMINS REFEREE IN LAW ACTION

Testimony in Kaufman-Matter to be Reviewed by Neutral Party

Judge W. A. Babcock of the district court, has named Taylor Cummins referee in the matter of Charles E. Kaufman against Burton E. Moore, now at issue in the district court. The case was heard before Judge Babcock on May 4. Caldwell and Chapman appearing for the plaintiff and Boreley & Swedley for the defendant. Appointment of a referee was made on agreement of the respective counsel in open court at the time of hearing. Mr. Cummins will review all testimony submitted in the case and will make and file findings of fact and conclusions of law and recommendations for a decree in the case.

Sea Chameleons.

There are no more talented camouflage artists than some kinds of tropical sea-fish. A scientist who has been making a study of their color phases says some of them can take on the tints of coral, rocks, seaweed, sand, and almost instantly making themselves invisible to the hunting enemy. They are enabled to do this by the remarkable nervous control of the chromatophores under the skin with which nature has favored them. The fish has four color phases, the glesseye, four; that fascinating dandy of the deep, the sergeant-major, three; while the red gruper displays six and the Nassau gruper can actually provide the astounded spectator with a prismatic progress through eight colors.

BOOSTING LIBERTY BOND VALUES

A number of methods for bringing the various issues of Liberty Bonds to par have been suggested, but they have not received much consideration from leading financiers, who can see no permanent benefit from artificial stimulation of prices. As they view it, government bonds should take their chance with other securities.

Senator Townsend has introduced a bill, modeled on lines proposed by W. M. Thompson of the war credits board, which has for its purpose stabilization of Liberty bonds. The bill provides that the original purchasers of bonds may exchange them for a new issue, which would have to be authorized by congress.

Instead of bearing a set rate, interest on the bonds would be fixed by the federal reserve board before the time of interest payments. This rate would be based on that paid by "securities of the highest safety," and the presumption of the author of the bill is that it would have the effect of keeping the bonds at par.

The high rates of interest on industrial stocks and other forms of securities are given credit for depressing the market values of the various issues of government bonds. If the rate of interest on the proposed refunding bonds depended on the interest paid by "securities of the highest safety," the effect might be to increase the confidence of the public in government securities.

wherewith to pay; they have the funds and the simple question is whether they will prefer to see the hated French operate their plants in their debts and conquer them themselves. May 1 will answer. Then German military may drink again to the toast of "Der Tag."

YOUNGSTERS MAY WIN PRIZES FOR ESSAYS

Forest Service Has Unique Plan for Teaching Fire Prevention on Reserves.

As a special feature of Forest Protection week, May 22-28, the forest service is offering \$50 in cash prizes for essays on the subject "The Children's Day in Protecting the Forests." This and other prizes will be awarded to all boys and girls in Idaho south and east of the Salmon river who have not yet reached their nineteenth birthday. Fifty \$10 cash prizes will be awarded as follows:

1. Ten dollars for the best essay submitted by a boy or girl between the ages of 12 and 16.
2. Ten dollars for the best essay submitted by a boy or girl between the ages of 10 and 12.
3. Ten dollars for the best essay submitted by a boy or girl under 10 years of age.

All that any boy or girl needs to do to qualify in the prize race is to get posted on the subject of forest fires in our south Idaho forests, write and submit the essay. The essays must not exceed 500 words in length. They may be written with pencil, pen or typewriter, using one side of each sheet of paper, and each contestant must be sure that his or her essay bears the name, address and age of the author. Essays should be mailed or delivered to the nearest forest supervisor, who will forward them to the district forester at Ogden. Forest supervisors are located at Boise, Emmet, Weiler, McCall, Halley, Burley, Challis, Markony, Anthony, Salmon, Mosier, and Logan, Utah. All essays must be submitted not later than June 1. The district forester, with the aid of a committee, will judge all essays received. Prizes awarded and announced probably the winning essays published in the press of southern Idaho shortly after June 15.

The forest officers of southern Idaho as well as the district forester at Ogden will gladly furnish individual contestants information on the forests of the region and the forest fire problem. Local forest officers will discuss the subject before school classes, request meetings or similar gatherings on invitation.

Newspapers and periodicals, school authorities, women's clubs, libraries, chamber of commerce, county agents and other civic agencies are being urged to do all that can be done to arouse interest among the boys and girls in this educational contest, which, it is confidently expected, will result in a much greater interest being taken by the citizens of south Idaho in the most vital problems of future civic development—the adequate protection of our forests from destruction by fire.

Investment News (Chicago): For probably the first time since the smashing up of the German arm the people of Germany have awakened to the realization of their crushing defeat. It might be going too far to state that the nation is penitent and lins taken on sackcloth and ashes; it is assuredly bewildered by recent developments. It is all but ready to submit. Occupations of the Ruhr basin means more to the large industrialists—Hugo Stinnes at their head—than the hard pinch for a time through payment of reparations. Some feel Germany will still exist, but it will have only the forepart of the mills producing coal, and the consuming part of that. In the rebuilding this new Rudolph Heilmann, leader of the socialist group, touched a quick spot, when he boldly declared: "What about the destiny of France and Belgium? I am not mentioning destruction for war purposes, but destruction done in the interest of German capitalists. Let Stinnes answer." This is progress in the future of Germany. It is plain admission of ruthless destruction performed, as has been repeatedly charged, for the sole purpose of wiping out economically France and Belgium next. The German people must now pay for their wanton and indefensible destruction, they must pay for the deaths incurred and for the population injured in it. And this the great Stinnes at their head, have the

It is a matter of some psychological interest to note that the orchestra files its entirely foreign to Hindu nationality. That is, when a number play or sing together, all sound the same note at the same time, or in some times happens that extra songs or plays according to his own sweet will. But such a conception as that of making one harmonious whole by means of each playing or singing a different part has never occurred to any mind in India—an apt illustration of the dense individuality which obtains in India.

SIX CRIMINAL TRIALS DATED FOR NEXT WEEK

Baro Ordered Into Court to Answer Charge of Murdering Iowa Salesman

Beginning next Tuesday, Judge W. A. Babcock of the district court, will conduct trials of criminal matters now pending, according to a calendar just set. The calendar contemplates trials as follows:
May 10—State of Idaho against Emanuel Baro, alias Francisco Sanchez, accused of the murder of George B. Ackerman, in Lewistown, Frank L. Stephan will appear for the prosecution and E. V. Larson for the defense.
State of Idaho against A. D. Pollock, former officer of the Bank of Hamers, accused of forgery. Frank L. Stephan will appear for the state and W. P. Guthrie for the defendant.
State of Idaho against Ben Hutchins and Charles Clark, in which the defendants are accused of the illegal manufacture of intoxicating liquor. Frank L. Stephan for the state and W. P. Guthrie and John W. Graham for the defendants.
May 11—State of Idaho against A. W. Willaman, a Buhl hunter accused by the state of attempting to sell for the carcass of an animal alleged to be affected with tuberculosis. Frank L. Stephan will prosecute, J. W. Taylor for the defense.
State of Idaho against Fred Green. This is a petty larceny in rem, appealed by the defendant from the ruling of Judge O. P. Duvall of the probate court. Frank L. Stephan will prosecute, E. D. Davis appearing for the defendant.

ROTARY CLUB PAYS HONOR TO RETIRING PRESIDENT

Hal G. Blue Recipient of Hand-some Gift from Members of Local Institution

The annual meeting of the Twin Falls Rotary club was held last night with an attendance amounting to close to 100 per cent of the club's roster. A program of the usual Rotary type was given by the members but during and after dinner with song and story and various features interpolated and otherwise.
Hal G. Blue, retiring president of the club, was the recipient of a handsome gift from the membership in acknowledgment of his services to the club and as a mark of esteem upon his retirement from this particular field of activity. The gift consisted of a gold fountain pen and a gold pencil, suitably engraved, the presentation ceremony being made by Judge Walters, a former president of the institution.
The following officers were elected for the ensuing year: Roy C. Dyer, president; Arthur C. Dyer, vice-president; Stuart H. Taylor, secretary and treasurer; George R. Pasley, sergeant at arms. The board of directors consisted of the president and six members: E. L. Sulladay, Joseph H. Scavner and John M. Maxwell. The club now numbers 41 members in all.

COURT HEARS COUNSEL ARGUE IN OUSTER CASE

Judge Babcock Not Yet Prepared to Adopt Any Findings Statement

After hearing arguments on two statements of finding of fact and conclusions of law in the matter of E. F. Blaine against the administrators of the Twin Falls Highway district, Judge Babcock this morning announced he would make review of both statements and decide later which he would adopt, if either. The statements were supported by attorneys on each side, and were presented for support this morning. The court's decision as in the merits of the case was given Monday, and supported outer contentions of the plaintiff.

SUBS TRUST COMPANY

Arrangements for the Potrero Security Trust company of Potrero is asked in a suit filed in the district court by John O. Lewis, the plaintiff. In asking that a receiver be appointed, he alleges that the funds company note to the amount of \$11,829.88 secured by warranty deeds. He asks that the deeds of conveyance be adjudged a lien against the property.

NON-SUPPORT CHARGE DENIED

Riley Miller was arraigned in the probate court this morning to answer charge preferred by his wife of non-support. Defendant denied the charge and was held under \$100 bonds to appear later for trial.

COURT INTIMATES CASE NOT PROPERLY BROUGHT

Judge Babcock has Cleveland Damage Matter Under Consideration

Although announcing the points at issue would be given consideration and later Judge W. A. Babcock, seated in the district court this morning intimated that the William Cleveland damage action might properly have been instituted through newspaper mentioned in the complaint then against the City of Twin Falls.
The case is one wherein William Cleveland, dairy man living about six miles east of Twin Falls, is claiming \$10,000 damage from the city for statements appearing during the winter in two local daily newspapers, namely the Twin Falls Chronicle and the Daily Times, said statements being reputed to be of a defamatory character and damaging to his business. The articles appear in a complaint filed in the district court by Attorney S. D. Davis, in connection with general reports on the typhoid fever situation early in the year, and in which statements derogatory to Mr. Cleveland and his place of business were attributed to various city employes.
The city's demurrer was presented to the court this morning by Taylor Cummins, recently appointed legal counsel for the municipal board. Mr. Cummins called attention to what he construed as a fact that the case should more properly have been brought against reporting newspapers. The court intimated that a finding on this basis might be expected.

SCOUT BROWNUP PLANNED FOR NEXT WEDNESDAY NIGHT

Material to Complete Boys Troops in City Will Be Gathered Together

Plans have been practically perfect for conducting a general round-up of Boy Scout material in the city this evening, unless the present schedule will be held in the high school auditorium immediately following the school closing on Wednesday night. The round-up will be directed by Clinton W. Evans, athletic instructor at the high school.
The round-up scheme was evolved at a general meeting of scouts and scout masters held during the present week, its primary purpose being to draw together all the available scout material in the city to the extent possible. It is further stated that there are more troop directors than there are boys enrolled in the companies. Further plans of operation will be discussed at this meeting.

WIFE AND BABES PLEAD FOR RELEASE OF DIETZ

Wisconsin Governor Hears Recall of Family's Struggles in North Woods

MADISON, Wis., (AP)—The family of John Dietz appeared before Governor Blaine late yesterday to make a final plea for his pardon. He is serving a 20-year sentence. They recounted again the tale of their struggles in the northern Wisconsin woods at the Cameron dam, of their troubles with the Chipewee lumber and boom companies, and the various legal differences and finally a plea for his release from the family and a sheriff's posse.

Governor Blaine listened sympathetically to the pleadings of Mrs. Dietz and her four children and indicated that his decision would free the founder of Cameron dam from serving the full sentence. He was convinced for the alleged killing of Oscar Harp, a deputy sheriff, the night of October 8, 1911. Dietz now is 64 years old.

Evidence presented to show that the jury which convicted Dietz was composed almost entirely of employees of the lumber industry, was regarded as of special significance by Governor Blaine.
Charles Leslie and Mira, with their mother, went over many of the incidents which occurred during the last year's trouble. Helen, a fourth child was not present.
They said that their father was not responsible for the breaking of Cameron dam which was all following the breaking of two dams up the river. Discussion then centered on the fight which ended in the killing of Harp and on the trial which followed. Mira told how she and Clarence had sat in a wagon and were ambushed by two deputies hiding in the woods. She was shot by one of them. During the trial she said hundreds of shots were fired to have been fired into the house and barn where the girls and Mrs. Dietz were staying.

SEKERS FORGOCLOURE

Swearing judgment for \$22,000 and the foreclosure of a mortgage C. E. Lind has brought suit in the district court against E. S. Wright, Mota Wright, his wife, and others. The suit arises from debt alleged to have been incurred.

SHOTGUN ENTHUSIASTS TO ENGAGE IN TOURNAMENT

Next Sunday Set for Biggest Event of the Year in Local Blue Rock Circles

A shotgun tournament which will have to be seen to be appreciated will be held at the grounds of the Twin Falls Rod and Gun club at 10 a. m. Sunday. The affair is in the hands of George Wilby and John Kendall and their description of the program runs something like this:
"You see Fines and Ernest White, Bill Haffey and the rest of the 'rats' amateurs are going to be shot on Sunday. They will leave Saturday and in their absence the better shots of the club have determined upon a regular shoot, without the handicap of the presence of these fellows who for years have held down the club's averages and generally interfered with the progress of the sport in Twin Falls when it comes to the matter of adding up shotgun scores. This is going to be the big event of the season. There will be prizes donated by the merchants of the city to an extent never before equaled in Twin Falls. For instance, one more is putting up a gun to be shot for. This will make the prize list but there are others almost as good. Everybody will be given a chance. You want to come, is going to be great—why man!

CHAMBER CALLS FREIGHT RATE MEETING MAY 6TH

Shippers and Bureau Members Will Hear Arguments for Lower Schedules

A meeting of the railroads bureau and agricultural bureau of the chamber of commerce and all shippers interested in securing the reduction of freight rates will be held in the chamber of commerce office on Friday evening, May 6.

The purpose of the meeting is to outline plans for taking part in the hearing before the Interstate Commerce Commission which will be held in Boise on Saturday, May 14. The matter of securing adequate and proper representation at this important hearing will be decided. It is certainly necessary that Twin Falls community be fully represented on this occasion.
This hearing on the tariff is regarded as offering the best opportunity this state has ever had to bring the matter of freight difficulties directly before the Interstate Commerce Commission. Definite requests for reductions of Idaho products will be presented to the commission.
