CHARGE UNIONS BRAG HEARING ACROSS TRAIL

Western Railroads Executives Call Employers' Assertions of Waste Injected to Divert Attention from Issue

CHICAGO, (AP)—The statements presented to the railroad labor body by W. Jett Lauck, economist for the railway unions, charging that large amounts of money have been wasted in the financial and operating management of the railroads have no relationship to the wage question now before the board, it was contended in a statement filed before the board today on behalf of the western railroads. It was signed by Charles H. Merckham, president Illinois Central railroad; State Tolson, president Chicago, Burlington and Quincy; H. E. Ryan, president Chicago, Milwaukee and St. Paul; W. H. Finley, president Chicago and North Western; J. E. Gorman, president Chicago, Rock Island and Pacific; and S. M. Felton, president Chicago Great Western.

"Bald Propaganda"

The sole purpose of these statements is to prevent public attention from matters actually pending before the board. They are bald propaganda, intended to discredit private management and promote the Plumb plan, said the statement. "We respectfully request against the board continuing to allow hearings before it to be made a means of spreading this propaganda."

It was pointed out that the capitalization of the railroads has been made excessive and that in this way a burden has been imposed upon the public. We think that the capitalization of the railroads as a whole is excessive. Even if it were this would have no effect upon passenger and freight rates since the Interstate Commerce commission specifically limits the rates upon a valuation made by the commission itself.

Monopoly Charge Aband.

It is charged that the railroads and carriers, from which fuel, materials, supplies and equipment are under the same financial control and that in consequence the railroads pay excessive prices for these commodities. It is also charged that the railroads pay excessive prices for the commodities themselves.

ENGINEERS HOLD KEY TO ENDING MARINE STRIKE

Settlement Hinges on Decision as to Acceptance of Proposal to Submit Difference to Arbiters

NEW YORK, (AP)—Compromise proposals made by federal mediators in the hope of settling the marine strike will be considered here tomorrow by the Marine Engineers' Beneficial Association.

These proposals, according to union officials, call for a bonus plan of pay, with the 15 per cent reduction retained, continuance of existing working rules, and allowance of one hour a day overtime for efficiency. Similar proposals were rejected yesterday by the executive committee of the American Steamship Owners' association.

WASHINGTON, (AP)—Decision as to acceptance of the proposal to submit remaining differences between marine workers and their employers to a committee composed of Secretary Davis, Admiral Benson, chairman of the shipping board, and a representative of the men, is expected by officials here Monday.

Engineers Hold Key

William K. Brown, president of the association, said today the main difference awaiting adjustment rested with the engineers. But that representatives of the seamen had indicated they would abide by the association's action.

"I believe it will be the best interest of the organization and the public," Mr. Brown said, "for us to show a willingness to make reasonable concessions."

Mr. Brown made public a telegram from L. H. Todd, secretary of the Atlantic, Gulf and Pacific coast committee of the association, stating that existing committee had signed up for one year.

Other reports from Mobile, Norfolk, Portland, Maine; Philadelphia, Galveston, Charleston, Portland, Ore.; Savannah, New Orleans; and other ports along the key west, Fort Arthur, Jacksonville, San Francisco show favorable conditions for membership and 100 per cent loyalty to organization.

MAJOR JOHNSON RECEIVES 25TH HEROISM AWARD

Chinese Government Joins Other Allied Nations in Confering Decoration on American Commander in Siberia

MANILA, P. I., (AP)—Major Samuel J. Johnson, who commanded the allied forces of the Far East during the war and up to the time when the American forces evacuated Siberia, has just been awarded his twenty-fifth decoration by various nations of the east, for meritorious service and heroism under fire.

Expresses China's Appreciation.
His latest decoration was given by the Chinese government and is known as the Fourth Order of the Wen, Ho or Striped Tiger. The award was made "in token of the high appreciation of services on behalf of Chinese citizens" while Major Johnson was commander of the allied protest guard at Vladivostok. After the American forces evacuated Siberia Major Johnson came general manager of the Wen, Ho and largest lumbering companies in the Philippine islands, and now is a resident of the island of Negros. The award is made at the headquarters of the Philippine department of the army and will be presented to Major Johnson on his next visit to Manila.

Commands Diverse Units.
Major Johnson had under his command at Vladivostok, troops including Americans, British, French, Belgian, Italian, Russian, Serbian, Chinese, Japanese and Czech-Slovaks. All these nations decorated him for meritorious service, and besides he wears decorations from Argentina and thirty South American countries. His first award in the Far East was for heroism while fighting with the Cosaks in southern Russia, his native country, against Tartar cavalry.

Quits Hawaiian Guard.
When Americans entered the great war, Major Johnson was the lieutenant of the Hawaiian Guard of Hawaii. He resigned and enlisted in the army. After a month's training at Schofield barracks, Honolulu, he became a company commander.

Besides the decorations bestowed by the principal nations, he has won many medals in swimming contests and on the water race.

PRINCE FEISAL TOUTED AS ARAB STATES' KING

London Newspaper Gives Version of Churchill's Plans for Middle East

LONDON, (AP)—Formation of a series of Arab states with Prince Feisal, son of the king of Hejaz, as first Sultan, is the plan, according to the Daily Sketch, London. It says Churchill wants to establish a new overland aerial route to India, and to make Mesopotamia a huge training ground for British military aviators. Expenditure of 4,000,000 pounds in rebuilding airbases, reduction of British military forces to twenty battalions, and eventual military control of Mesopotamia by the royal air force, also were said to be planned. Prince Feisal's brother would be made provisional ruler of the Arab province of Trans-Jordan, the newspaper said.

SWEDISH WORKERS FIGHT EFFORT TO REDUCE WAGE

Break in Opposition is Made in Case of Wood Pulp and Cellulose Operatives

STOCKHOLM, (AP)—An effort to reduce wages and cost of production to the present lower level of prices is being resisted by Swedish wage earners generally, but a start has been made in the wood pulp and cellulose industry where wages have been lowered 15 percent. One of the largest electrical companies has also come to an agreement with its operatives, for an adjustment to a lower base.

PATRIOTIC COLORS MARK GARB OF GIRLS IN SHOW

Riders Manage to Get National Colors in Costumes They Wear in Ring

The girl riders with the new consolidated costumes—Howe's Great London and Van Ansburg's Trained Wild Animals, coming to Twin Falls Saturday, May 11, are American, English, Spanish and the American, and it is remarkable how each manages to effect a touch of her national characteristics and style in the more or less conventional robes of the lady leader's riders. There is just a suggestion of the hunt and the park in the fluffy flounces of the English girls; there is an airy nothing that recalls the continents and the continents of the Americas, and there is a certain stamp of the exotic in those of the girls from Buenos Aires and Rio. But for the American girls, there is a certain "rest-back" lead them all. The current fad of the day on Fifth avenue is reflected in the pretty fluffiness of the American girls' costumes. They're smart, those costumes, and they are invariably made by the girls themselves. And that's true of all circus wardrobes, except that of parade and opening nights, which the show furnishes. Every costume for every act is furnished by the acts, and the women of the circus make them during the long winter months. Of course, there's many a fetching gown and bolero made in the shade of the dressing tent between shows. That's why you find the women of the circus so often busy with needle and thread. It's a habit.

British Opinion Bans Live Pigeon Shooting

LONDON, (AP)—English public opinion is being stirred by a concerted attack by the press against pigeon shooting, and an act has been introduced in Parliament which would make this form of sport illegal. The storm arose over a contest recently at Chatham where live birds were released from traps for a shooting competition. Support for the proposed anti-shooting measure is promised by the government and is being given by the Royal Society for the Prevention of Cruelty to Animals. Agitation against this form of sport has extended to Monte Carlo, where an upper-class English spend part of the winter, and where the practice is said to be an institution. The Princess of Monaco is reported to be sympathetic to the attempt to eliminate the live pigeon shooting and to substitute clay pigeons.

Begins Artist Career at Age of 18 Months

CARLEFF, Wales, (AP)—Helen Williams, of South Wales, is stated to be the world's youngest artist. Her claim to this distinction is that, although she is only 18 months old, she picks up a crayon every day and with a pencil and drawing board sketches the things that interest her. Two of her studies drawn from memory are being exhibited at the annual exhibition of the Royal Drawing Society in London. Her sketches are an outline of a cat with a ribbon bow and a running gamecock.

URGES AMERICAN TRADE INVASION OF FAR EAST

Speaker Tells Foreign Trade Council Big Prize is to be Won in Orient

CLEVELAND, O., (AP)—Aggressive furtherance of American trade interests in the Far East was advocated by M. A. Oudin, of the International General Service company, in an address before the eighth convocation of the National Foreign Trade council here today. Mr. Oudin said in part:

"The markets of the Far East constitute the world's greatest commercial prize. If American business enterprises successfully to compete with other nations it must exert itself primarily in three local directions. First, it must freely co-operate with native business in local enterprises; second, it must liberally invest its surplus capital in the development of industries, natural resources and public works; and finally, it must insist that American economic interest be upheld by an American diplomacy, as alert and vigorous as that displayed by other governments."

"In carrying out this program, Chinese business should be made a partner, in investments we make in Chinese resources and enterprises for the public good; Siberian business should participate in legitimate concessions we may secure for the opening up of Russia's great wealth; and Japanese business should be asked to co-operate."

"If American business men are to withstand the increasing competition of the other commercial nations in the Far East, it is not sufficient that they should finance that trade. They must take an active part in the industrial and commercial life of the Far East. They must invest also in government loans for the economic unbuilding of the countries there. Such an opportunity may occur before long in the group of American and foreign bankers known as the Consortium. "If American business men seek the diplomatic support of their government in order that they may be placed on an equal footing with their competitors abroad, a reciprocal obligation exists to support the foreign policies of the government necessary to make this action effective."

"Aunts" in Demand in English Society

LONDON, (AP)—There is a growing demand for "aunts" to escort school boys and girls who are passing through London on their way to and from school for vacations. American visitors are also keen on securing the services of "aunts" for sightseeing and shopping expeditions.

This has led to the formation of an association called "Universal Aunts," composed of about 70 cultured women experienced in travel and having high social ability. Their sphere of usefulness is not confined to the chaperoning of boys and girls, and American visitors, as many of the "aunts" are experts in designing dresses and decoration of houses.

SCHOLASTIC RIVALS IN TRACK MEET AT SEATTLE

Universities of Oregon and Washington are Contending for Athletic Honors

SEATTLE, Wash., (AP)—Two traditional rivals, the University of Oregon and the University of Washington are meeting on the university stadium track here today in their annual track and field meet, the first Pacific conference affair of its kind held by the northern schools this year. Discuss and javelin records are expected to fall during the meet, for Captain A. R. (Gus) Pope, who throws the discus for Washington, is national champion in that event, and Arthur Tuck, Oregon javelin thrower, holds the coast record in his entry. Pope and Tuck competed at the Antwerp Olympic games last year. Both Pope and Tuck have made better marks than their records this year. Recently, in practice here, Pope threw the weight 149 feet and three inches, the longest he has ever made. He won the American championship at Boston last year with a throw of 147

feet and five inches. At Eugene, Ore., recently, Tuck bettered his Pacific coast record mark by more than six feet when he made a throw of 190 feet and five inches. He used an imported Finnish javelin. Oregon is considered not only strong in the javelin but also in the broad jump and the pole vault. Tuck will enter both the broad and high jumps, and also put the shot and throw the discus. Washington, in the high jump, will be represented by "Chuck" McFrankland, who took third with a leap of six feet and one inch in the Pacific coast conference meet at Palo Alto last year. In the javelin, the Sun hoppers are relying upon Victor Hurley and "Casey" Anderson who paced first in the relay carnival held here recently. Washington has three exceptional half milers in Don Douglas, Harry Icaal and Harold Williams all of whom are credited with stepping the distance under two minutes and three seconds. The Oregon team probably will have more distance men entered than Washington. COLORED BALL PLAYERS TO OPEN SEASON AT RUPERT RUPERT—The baseball season here is to open Sunday when the local team will meet the crack, Pocatello colored team, Centre Athletic "The Robbers."

UNIVERSITY PINS HOPES ON PERRINE AND IRVING

Two Men Bear Heavy Responsibility in Meet with Washington State College

UNIVERSITY OF IDAHO, Moscow, (Special)—Hopes for Idaho victory in the dual meet with Washington State college today at Pullman rest heavily on the shoulders of Captain Pat Perrine of Nez Perce and Neal Irving of Rupert. Perrine, with his inexhaustible physical power, will be entered in seven events, giving him an excellent opportunity to be high man of the meet, as he is in good shape for both dashes and the weights. Irving, who holds the Idaho shot-put record, will take part in four events.

Coach Thomas Kelly today announced his entries as follows: 100 yard dash—Les Moo, Kellogg; Robert Leitch, Lewiston; Perrine, 200—Robert Leitch, Mos. Purly Eaton of Mountain Home; Ivan Packenham, Boise. 440—E. G. Van Hoesen, Merz, K. W. Williams, Gerald Friedman, Moscow; Packenham, d'Alene. Half mile—Raymond Harsh, Moscow; Van Hoesen; M. Powell, Moscow. Mile—G. Powell, Moscow; Marshall Moore, Boise; Powell, Harsh, Two mile—Gerald Gill, Blain Falls, S. D.; Robert Leitch, Moscow. High hurdles—John Signeman, Hillyard; Perrine, 220 lbs. hurdles—Gerald Friedman, Moscow; Packenham, Perring. Pole vault—Arthur Gueffie, Spokane; J. R. Mularky, Lewiston. High jump, shot put, discus, broad jump and javelin—Irving and Perrine.

EVENTFUL WEEK SCHEDULED FOR COBYALLS INSTITUTION

COBYALLS, Ore., (AP)—Intercollegiate contests and the formal opening of a new swimming tank are scheduled for Junior Week days at the Oregon Agricultural College here May 27 and 28. Two baseball games between O. A. C. and the University of Oregon will be played, tennis contests between the same schools will be held and the Aggie's track team will meet the athletes from Washington State College.

CALIFORNIANS HOLD UP PLANS FOR PACIFIC COAST MEET

EGGENE, Ore., (AP)—University of Oregon's track here will be in excellent shape for the Pacific coast conference track meet scheduled for May 21, according to Marion McClain, grad uate manager. Definite plans for the meet are being held up, awaiting definite word from Stanford University and the University of California regarding their entries. Both the California schools are to send teams out this spring, and may not enter the meet here.

Tennis Champion Expects to Hold Crown Short Time

William T. Tilden Tells High School Students of His Experiences

PHILADELPHIA, (AP)—"Being a tennis champion has its compensation, but I was the goat in several tennis tournaments during the Davis Cup tour," declared William T. Tilden, second national and world's tennis champion, in an address before the student body of the Northeast High school recently.

"When I was picked as a member of the Davis cup team I figured it made me of some importance. But the trip on a boat, sea sickness and the critical manner in which tennis enthusiasts followed the game of the members of our team was quite an experience and gave me an idea of how important I really was."

"On the boat I tried a little running to keep in trim, but when the ship rolled it made me sick. My efforts in the first exhibition in England were sorrowful. I went after the ball shot over the net by Williams and expected to slant it back with precision, but missed it entirely. The Brits got the impression we were not good. That got our goat."

"The average boy," he continued, "has an idea a world's champion in any form of sport inherits the title and has a claim on it for life. The truth is he is hanging onto his title by his finger."

Now, I am on my last legs, and I know some fellow is going to get me soon, but the game of tennis will go on. The champion of tomorrow is the schoolboy of today. Tennis should be learned while young. "I have been the victim of more likings than any other man in the game of tennis. I started to get liked when I was six, and have been liked, both physically and on the tennis court, ever since."

GRACK TEAMS ENTERED IN BOISE POLO TOURNAMENT BOISE, Idaho—Plans for a four-cup polo tournament to be held here about the middle of this month are being completed. Crack teams from Camp Lewis and Fort Russell and two Boise teams are expected to enter. Interest is great in polo here this year and large crowds have attended the exhibition games.

Quebec Taken in Daytime. The battle of Quebec was fought in the daytime. At two o'clock the morning of September 23, 1759, the British troops under General Wolfe began crossing the Montmorency river and landing at a point now known as Wolfe's cove. Wolfe, after suffering a repulse more than a month before, had determined upon a desperate expedient of crossing the river, and landing the heights above the town. The French sentinels were surprised, and before the day broke 4,500 men with two guns had climbed the steep heights and were drawn up on the plains of Abraham, about a mile from Quebec. About ten o'clock they were attacked by Montcalm, who had a force equal to the British, but of inferior training. The French lines were broken by the British fire. General Wolfe, as he led the charge, was struck three times, the last time in the breast. He was compelled to lie down, and while the pursuit was still on he died.

WHEAT PRICE TUMBLES

Optimistic Crop Reports Cause Setbacks for Bulls on Chicago Market

CHICAGO, (P)—Rains in the south-west, affecting yesterday's reports of poor crop prospects in that region, knocked the props out from under the wheat market today. May wheat was under special pressure and at one time in the first hour was 58 cent yesterday's close while July was off 2 3-4.

Crop reports were more favorable and forecasts for additional showers help

ed the movement. May wheat on the initial trades was \$1.17 to \$1.40 1-2; a decline of 1-2 to 1 3-4 for the opening. July started at \$1.14 to 2 cents lower at \$1.16 to \$1.16.

May dropped to around \$1.43 before the selling was checked and then stood off at \$1.41 1-4. July touched \$1.14 1-2 and seemed inclined to hold at about that figure.

The weakness continued to the end with further declines toward the close. May wheat ended 6 3-4 cent lower at \$1.41 1-2 to \$1.41 3-4. July closed 3 to 3 1-2 cent lower at \$1.13 3-4 to \$1.14.

Coarse grains were easier at the start but the seaboard announced that charter for 120,000 bushels of cash corn had been made for Montreal. May corn opened at 58 1-4 to 1-2, which was 1 7-8 cent to lower with July off 3-8 to 7-8 cent at 62 1-4 to 62 3-4.

The market kept up its resistance to the wheat influence and maintained its earlier position. The close saw May 1e lower than yesterday's close at 59 1-4 to 59 3-8. July ended 1 1-4 cent lower at 61 3-4 to 61 1-2. The last bid on September of 61 1-8 was 1 1-8 cent lower than yesterday's final.

Oats were in sympathy with corn. July starting 3 1-2 to 7-8 cent lower at 24 1-4 to 24 3-4. The price steadied later at 24 3-8.

Provisions were dull. Prices were slightly lower.

New York Stock Market

NEW YORK, (P)—Further profit taking and renewal of bullish pressure against the more speculative shares made for extremely irregular conditions in today's stock market.

Issues of recent strength, such as steels, oils, motors and related shares, were uncertain or heavy. Some of the rails, particularly coalers showed firmness, but trading in that quarter was contracted.

The few elements of strength comprised minor issues which are mainly stocks of United States Realty and California Petroleum. The closing was weak, the sales approximated 355,000 shares.

The week-end session of the stock market opened with a continuance of the profit-taking movement which characterized yesterday's final dealing.

Some of the prominent oils, motors, steels and copper forfeited large fractions to almost two points in the first few minutes of the active dealing.

The few gains were restricted to specialties, notably sugars and tobaccos and some of the minor transportation. Further activity was reported in the foreign exchange market, with substantial additions to the recent advance in French and Italian remittances.

Liberty Bonds

NEW YORK, (P)—Liberty bonds closed: 3 1-2's \$89.30; first 4's \$87.50 bid; second 4's \$87.34; first 4 1-4's \$87.08; second 4 1-4's \$87.38; third 1-4's \$90.08; fourth 4 1-4's \$87.44; Victory 3 3-4's \$98; Victory 4 3-4's \$98.

Sugar

NEW YORK, (P)—The local raw sug-

ar market appeared firmer today and prices were slightly higher with sales reported last night of 10,000 bags of Porto Rico's to operator at \$4.89 for centrifugal, while 25,000 bags of Cuba's were sold by the committee at 3 7-8 cent and freight, equal to \$4.89 for centrifugal.

Raw sugar futures were steadier and closed 7 to 8 points higher; May \$3.89; July \$3.08; September \$4.03; December \$3.77.

The market for refined was unsettled and without changes in list prices which ranged from \$6.30 to 6.60 for fine granulated.

Refined futures higher on support by Cuban interests, closing steady at 7 to 13 points net advance.

Bugar futures closed steady; sales 559 tons; July \$2.95; September \$1.93; October \$3.94; November \$3.80.

Potatoes

CHICAGO, (P)—Potatoes, old firm receipts 40 cars; Northern Whites, sacked 80 to 90c; bulk 70 to 80c; new steady; Florida No. 1 80 a barrel; No. 2 85.

WOMAN SHOTS HUSBAND DEAD

Mrs. Fred R. Leves of Los Angeles Kills Spouse in Heart of New Orleans

NEW ORLEANS, La., (AP)—Mrs. Fred R. Leves of Los Angeles, shot and killed her husband here today. The shooting occurred in the heart of the business section shortly before noon when the streets were crowded with people.

Witnessed by Hundreds. The shooting was witnessed by hundreds of persons and followed a brief tiff between the couple from which Mrs. Leves gave herself up to the police. She refused to make a statement.

Mrs. Leves was seeking a divorce, according to the police.

Business Interests Involved. Business interests also were said to have been involved in the couple's domestic troubles.

Mrs. Leves police say, recently was in Baton Rouge where she fruitlessly tried to have Governor Parker sign extradition papers to have her husband returned to California.

Mrs. Leves today walked up to her husband who was standing on a corner outside a hotel, and after exchanging a few words with him, shot him in the back.

MARITAL TROUBLES FIGURE EXTENSIVELY IN NEWSPAPERS

LOS ANGELES, Cal., (AP)—The marital troubles of Frederick L. Leves, Los Angeles attorney and clubman, and his wife, Mrs. Matilda Leves, who shot and killed him in New Orleans today, have been recounted in the newspapers here at various times in the last two years.

Publicity was first given their affairs when Mrs. Leves publicly horsewhipped a woman in one of the leading Los Angeles hotels. The last published account of their trouble came only a few months ago, when Mrs. Leves was freed from a charge of insanity after a hearing before the lunacy commission, and advised by the president judge "to cease her violent tactics and leave her husband alone."

May Inherit Fortune from Millionaire Hermit

Mrs. Jessie Stevens and Calvin Stevens De Souza.

One of the most amazing stories brought to Twin Falls has been revealed in the death of Calvin Amory Stevens. Stevens, a millionaire, lived as a recluse in the heart of New York's financial district, while his wife and daughter lived in a beautiful mansion in Brooklyn. Complications have now resulted over the will, which is missing. It is estimated he left a \$15,000,000 estate. A few days before his death, his daughter, Katherine, eloped with Richard Egan, a twenty-year-old Dartmouth university student. Egan is eighteen years old. The illustration shows Mrs. Jessie Stevens, his widow, his daughter, Katherine, and Calvin Stevens De Souza, who are expected to share in the fortune left by the eccentric millionaire.

Vesuvius.
The country at the foot of Vesuvius is the most fertile and best cultivated of the kingdom most favored by heaven in all Europe. The celebrated Licymia Christine lived fourteenth century lands totally devastated by lava, as if nature here made a last effort and resolved to perish in her richest array. As you ascend you turn to gaze on Naples, and on the fair land about it—the sea sparkles in the sun as if strewn with jewels; but all the splendors of creation are extinguished by degrees, as you enter the region of ashes and smoke, that announces your approach to the volcano. The iron waves of other years have traced large black furrows in the soil. At a certain height birds are no longer seen; further on plants become very scarce; then even insects find no nourishment. At last all life disappears; you enter the realm of death and the slain earth's dust slips beneath your unmeasured feet.—Madame De Staël.

Man Cannot Sense Coming Pain.
It is somewhat extraordinary, but man is the only animal that cannot naturally perceive approaching pain. All other animals show uneasiness when pain is coming. At such times dogs get restless, cats sneeze and wash their ears, fowls crouch with cold, harsh noise, owls screech, peacocks scream and ducks and geese are unusually noisy. This is said to be due to the relaxation of their nerves by the damp air, which makes them uneasy.

WAR DEPARTMENT TO SEEK WOOL STORES AT AUCTION

WASHINGTON (AP)—Between five and six million pounds of wool will be sold by the war department at public auction to be held in Boston about May 20. Secretary Weeks announced today. Additional sales may be authorized if the wool is satisfactory to reduce the \$0,000,000 pounds the army has on hand.

Lime for Bow-Legs and Knock-Knees.

Knock-knees, bow-legs and other deformities of children are caused, according to Dr. Frank E. Peckham, writing in the Journal of the American Medical association, by a lack of lime in the food. In such cases there is generally a history of artificial feeding, which usually means that the milk given was sterilized or pasteurized. These processes, while insuring the purity of the milk, destroy the vitamins that are so necessary to healthy growth. These vitamins are essential to the assimilation of lime, and without lime the bones grow soft. Dr. Peckham insists that mother's milk is the ideal diet, but that when cow's milk is substituted this must be fresh and uncooked and should have lime water added to it. The juice of oranges must also be given.

A new lemon called the Ponderosa, is now being cultivated. It grows to the size of grapefruit and, although its flavor is rather mild, may be used in every way in which ordinary lemons are used.

AMERICAN DELEGATES

(Continued from Page One)
and would facilitate a general settlement of peace problems.
Referring to divergencies between Premier Briand and Prime Minister Lloyd George, which arose during the meeting of the supreme allied council at London, the Matin declared that the opposition of the latter to many of M. Briand's demands "stopped, as by enchantment" when he was told of the United States note to Berlin rejecting the German reparations proposals.

ARCH PRESERVER SHOE

for Perfect Foot Health.

THE youthfulness, the natural beauty and the perfect health of your feet can be preserved throughout your lifetime by wearing Arch Preserver Shoes.

Arch Preserver Shoes preserve foot health because they fit the feet, come up to the arch and stay up, providing a permanent, non-changing tread base for the foot—to keep the arch from falling down. And to make doubly sure of these advantages, Arch Preserver Shoes are fitted your feet by a special plan.

Health, comfort and happiness for your feet, yet without sacrificing appearance. You will be delighted with the style and beauty of Arch Preserver Shoes. Come and see them.
