A DUTY AT HAND

When President Harding, in his message to Congress, laid emphasis upon the need of taking steps "to promote the general welfare" by coordinating all the numerous bureaus of government that have been working to that end in a more or less haphazard fashion, it was acknowledgment of our social trend. Many times, in many forms of legislation, the government has reacted to popular demand for the protection of childhood in its rights to health, to happiness, to education, and general preparation for future responsibility.

We recognize that this is only economic thrift—that it means saving posterity and the future strength of the nation. At one time the home was an industrial unit, and produced nearly everything for its own support. We have witnessed the passing of that phase. At one time the home was a social unit, where youth received his training for citizenship. We may be witnessing the passing of that function of the home. Certainly each year sees more and more of the industrial and character training of our young people passing into the hands of organizations outside the home, not through any desire to supplant the home, or rob it of any of its functions, but because the home failed, and the organization passed from the position of the second line of defense to a place on the firing line. We have sewing clubs for girls that are teaching their mother and grandmother firmly taught. We have that finest of all boys' organizations, the Boy Scouts, and the companion organization, the Camp Fire Girls.

It is too soon to say that these and similar organizations will or will not accomplish in character building what we have expected the home to do. It is conceivable that young people trained under the principles that govern in these societies will have a bigger and less individualized social sense than could be produced in the old way. But in any event, these organizations offer all in the way of training that most of the next generation is going to have, and it has become the primary duty of every adult to stand behind them in every opportunity.

It is a time for clear thinking. Our values must be kept right. It is possible to be so engrossed in saving the country that we forget the very people for whom we are saving it.

NEW CHEROKEE CHIEF

Pick Leader From Famous Line of Indian Statesmen.

House of Grits Regains Heritage Brought Down by Long Line of Illustrious Leaders.

Taliquah, Okla.—The house of Grits regained the heritage brought down by a long line of illustrious Cherokee statesmen when the remnants of the Cherokee Indian tribe were here and elected Levi Gritts chief of the Cherokee nation.

In what was formerly the senate chamber of the Cherokee nation, where his father led many stirring debates, Levi Gritts was pronounced the tribe's new leader.

His grandfather, was a captain in the Civil war and later was first chief of the Kee Toe Wabs, the most powerful tribe of the Cherokee nation. Daniel Gritts, an uncle, was a delegate of Senator Howard L. Owen before the Indian payment, now whose chief of Gritts succeeded as delegate to Washington.

The new chief is 47 years old, a full blood Cherokee and a graduate of the Bureau Indian university of Muskogee and the Talipahus Male university at Talipahus, Okla.

Chief Gritts is now in Washington in the interests of his tribe. Numbered among several important missions which he will attempt to secure is the passage of the jurisdictional bill providing for the reuniting of the five civilized tribes of Oklahoma.

The Kee Toe Wabs society was founded in 1835 upon a constitution written by Chief Levi's uncle after the dissolution of the Indian government. The society was organized under the laws of the United States, with the announced purpose of promoting the educational, religious and social welfare of the tribe. The society is composed of between 8,000 and 10,000 full blood Cherokees.

Two smaller societies, the "Night Hawks" and the Cherokee provisional committee, are contained in the tribe, over which Chief Gritts has absolute power.

GERMANY USES GUILLOTINE

Murderer of Yank Soldier Will Die Under Knife as Result of Court Sentence.

Berlin.—A grim reminder of the fact that the guillotine is still in Germany for the infliction of the death penalty occurs in the sentencing of Engelbert Manns for the murder of Edward Gobling, an American soldier, whose killing the American to rob him was sentenced to death by the German court.

Executions were carried out in the market places before the populace, are now attended by the prosecuting attorney, who sits before a bench when the jury has been tried, sometimes the jury and those killed by the judge.

The executioner is appointed by the state and paid for each head he cuts off. He wears a gown of deep red and is masked. The prisoner is covered with a sheet.

Women convicted of murder also are put to death by the ax. A young woman recently was guillotined for the murder of a female companion.

\$24,000 Radium Needles Found in 2 Day Search

Talipahus, Okla.—Two radium needles valued at \$24,000 were found today in rubbish at the Methodist Asylum here. They had been missing since Wednesday, when they were inadvertently swept from a table in an operating room. The office later found the needles' papers in an all-day search of the basement before they were found.

The needles are three-quarters of an inch long and one sixteenth of an inch in diameter. They are encased in a slender aluminum shell and in one end into which the precious element is packed.

Told Children to "Play Fire"

Omanah, Neb.—Sister Mary Vincent of Faith of the Sacred Heart, Vincent school eliminated the possibility of a fire panic at the school the other day when she requested that the pupils "play fire," and then hurled them into a fire drill. They marched out without incident, to learn that the building actually was on fire. A seven-centimeter fire started in the kitchen, and the children's and teachers' "play fire" followed. The building was not badly damaged.

Coal Will Last 6,000 Years, Washington—

Washington—Work on the exhaustion of coal supplies may be put off for years, according to a report of H. C. Fleming, managing director, American Wholesale Coal association.

"We have four trillion tons of coal under our soil," Fleming declared in an address. "Think of this: It will supply our needs and support our export trade for at least 3,000 years."

Virginia Auxiliary Convention.

The first convention of the Women's Auxiliary of the Virginia Department of the American Legion will be held May 13 and 14.

WOULD PROBE LEGION CLAIMS

International Association of Rotary Clubs, Shocked at Reports, Orders Nation-Wide Survey.

Aroused by charges of the American Legion that the government has failed in its duty toward disabled veterans of the World war, the board of directors of the International Association of Rotary Clubs has ordered a nationwide survey of the situation to prove whether American Legion reports are based on hysterical or upon actual facts.

The Rotary organization has influenced the Legion's constitution program for the relief of the disabled, and will support the Legion's efforts to obtain the enactment into law, according to Chester H. Perry of Chicago, secretary-general of the Rotary club's organization.

"The 50,000 American business and professional men who form the 800 Rotary clubs of the United States, have started out to gather the actual facts in their respective communities with regard to the number in which the United States government is handling the disabled ex-soldiers," Mr. Perry stated in a letter to F. W. Galbraith, Jr., commander of the P. W.

"The Rotarians have been shocked by the disclosures made by the American Legion regarding the situation of the disabled ex-soldiers, and are determined to see that the rehabilitation of Uncle Sam's disabled ex-servicemen. Each Rotary club is investigating a special committee to approximate conditions in its community and report to the club. Every club will be asked to send the names of the names of the disabled ex-soldiers of its city in Chicago. The result will be that from 800 communities in every part of the United States will come evidence of business and professional men to prove to the American people whether or not the American Legion reports are based on hysterical or upon actual facts so revolting and heart-rending as to cause the whole American people to rise in their might and in justice to the men who sacrificed themselves for their country.

The Legion's national commander asserted that his organization will welcome the Rotary investigation.

"I hope the findings will be given the widest publicity," he said. "It will be found that the American Legion overstated the case in any particular."

LEGION IS LEGISLATOR

California Member of National Executive Committee Also Serves as Maker of Law.

Although he was forty-one years old when the world war started, Charles H. Kendrick of San Francisco, Cal., member of the national executive committee of the American Legion, served with distinction in the army, and was cited by General Sherman for his exceptional devotion to duty while in the hospital.

His legislative work has been so successful that he has been elected to the public schools of San Francisco, and is engaged in the selling of real estate and development of agricultural lands.

Commissioned a captain in the army, Kendrick served in America, 1917. Mr. Kendrick trained at Camp Dix, N. J., and was sent overseas in July, 1918, attached to the Twenty-sixth division as transport officer. He served with that division during the St. Mihiel offensive and was a member of the Fifth Army corps. After the armistice he was promoted to major and discharged from service in February, 1919.

Mr. Kendrick's devotion to Legion affairs during the war has been a member of the state executive committee led to his selection as representative of California on the national body.

Press Women Are Interested

The Women's Press club of New York city has become interested in American Legion welfare work and has adopted a letter to the Legion hospital, Shinn Estate, New York, requesting the club to send her to the hospital to work supplying the men with articles of clothing, tobacco and reading matter. An list proposed by the club of providing "gasoline" or window boxes for the hospital plants where ex-servicemen are being treated has become popular with relief organizations. The school children of Lombard, N. J., collected funds and bought a window box for the hospital.

HELPS FOR THE HOUSEWIFE.

Chill sauce may be prepared any time during the year with a few canned tomatoes, adding such spices, chopped pepper and onions as suits the taste. When preparing catsup or chili sauce for winter in large quantities, put the tomatoes through the meat chopper and use the juice, canned, for soup.

The old sun rubbers together in the form of a mat to use to save the enamel of the sink, when using dishes and drawers. These mats are also good to use on top to keep dishes from slipping.

Place small rings on the inside rim of the curtains in bedrooms, have small hooks on the side of the curtain; the curtains may be hung by the rings at night, securing better ventilation and saving the binding of the curtains. These hooks and rings will be found useful to hang up the curtains while sweeping the room.

When bleaching clothes, as soon as they turn the loss on them, then let the sun dry; the repeated wetting and drying will bleach them much sooner than the old manner.

Baskets and mats of sweet grass may be restored to fragrance by a quick dipping of the article into boiling water.

Wood, such as posts, stakes or trellis-work that must be driven into the ground, will last twice as long if the surface is charred by fire.

Make the candy for the children at home and save the price of one pound of candy, having three of home made.

In 300 Cakes—Sunk newspaper in a paste made by using one-half pound of flour, one-half pound of slum, and three quarts of water. Mix well and boil. It should be as thick as putty when it is ready to use. Force it into cracks in doors, windows or other cracks in masonry, and when it dries it will permanently seal cracks.

After painting furniture white, rub it with powdered pumice stone, using a cloth dampened in water. The paint should be thoroughly dry and at least two coats. Paint the wood either white and thus avoid accidents.

Report of the Condition of the BANK OF KIMBERLY

at Kimberly, in the State of Idaho, as at Kimberly, on the 31st day of April, 1921.

STATE OF IDAHO, COUNTY OF TWIN FALLS—

I, J. M. Maxwell, cashier of the above named bank, do solemnly swear that the above statement is true to the best of my knowledge and belief.

J. M. MAXWELL, Cashier.

Subscribed and sworn to before me this 4th day of May, 1921.

E. B. FOX, Notary Public.

Correct—Attest: H. W. CLOICHEN, L. E. BALLADAY, H. L. MAXWELL, Directors.

It's not a bit of trouble to have plenty of good things to eat all the time, when you use Calumet Baking Powder.

Mix up a batch of biscuits—or the finest kind of cake—it's all the same. There is never but one result—the sweetest and most palatable of foods.

There is not as much worry over baking cakes either. Because Calumet costs less—when you buy it—the price is moderate.

Calumet Baking Powder

It costs you less when you use it—because you don't use as much of it—it has more than the ordinary leavening strength.

You get more out of the flour, sugar, eggs, shortening, etc., because there are no failures—no waste.

Received highest awards World's Pure Food Exposition, Chicago, Paris Exposition, Paris, France.

The largest selling brand in the world. Found also in Calumet contains full 16 oz. Some baking powder comes in 12 oz. Instead of 16 oz. Be sure you get a pound when you want it.

Calumet Doughnut Recipe

4 cups of pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 teaspoon of salt, 1 cup of sugar, 2 eggs, beaten together, 2 tablespoons of melted butter, 1 cup of milk. Turn mix in the regular way.

COBBLER CLOSE TO COOLIDGE

Town Shoe Repairer, "Friend, Philosopher and Guide" of Vice President.

HELPS TO SHAPE HIS CAREER

Friendship Began in College Days Continues Through Early Struggles and Subsequent Prominence in Politics.

Northampton, Mass.—James Lucey, member of whom is passing away in his ship here with one eye on the newspapers for word of how the national capital treats Calvin Coolidge, his one-time associate in local politics, and now vice president.

When Vice President Coolidge, just before departing for Washington, recently grasped the cobbler's hand as the photographers snapped their cameras, he gave him a distinction that he was asked to explain. "Put Mr. Lucey down as my guide, philosopher and friend," he said, and so the cobbler is now nationally known.

What the vice president meant was more or less well known to Northampton folk. The story goes back to the days when Calvin Coolidge was a sophomore at Amherst college. With shoes to be repaired he sought Lucey's shop on Gothic street in this city, and there remained to listen to the cobbler's homely comments on the topics of the day.

Helped to Shape Career.

The student found the shoemaker's philosophy so engaging that during the remainder of his college course he went frequently to see him. As a lawyer later young Coolidge opened office here, and while he waited for clients, continued his acquaintance with the cobbler. Throughout his career in the politics of the city and state, Mr. Coolidge dropped in at the shoe shop from time to time to exchange ideas with his friend and have the benefit of the latter's pointed political observations.

The youthful Coolidge took away lessons from the cobbler counselor; Coolidge, the candidate, received the benefit of his influence, which was considerable in city politics, and when he rose to position of state and national prominence he still received the loyal support of the shoe man.

Mr. Lucey, modestly explaining that Mr. Coolidge long since passed out of his range of influence, admits that he may have been of some help when the vice president was on the first rungs of the political ladder.

Closest of Friends.

The cobbler says that the only time he ever crossed Calvin Coolidge seemed to make firmer the friendship between them. Mr. Coolidge had sought the election of a friend as mayor, and asked Mr. Lucey as a delegate to the party caucus to stand by his belief, but the cobbler, already bound to the opposing candidate, refused. This evidence of loyalty to a prior allegiance served to heighten their mutual respect.

The shoemaker, a native of Ireland, came to Northampton forty years ago at the age of twelve. A family of eight children, seven of whom are now living, has made demands on his earning ability. Five are girls, one is stenographer, two are teachers, a fourth, who was formerly a teacher, is now married and one is a clerk. Of the two boys one is a graduate of Holy Cross college, and the other is a student in the Northampton Commercial college.

Tearless for the Spartan.

The "tearless battle" was fought 808 B. C. when a force of Arcadians and Argives endeavored to cut off a Spartan army under Archidamus III. in a narrow defile in Lacedaemonia. They were repulsed with heavy loss, and not a single Spartan was killed, whence the engagement came to be called the "tearless battle"—Literary Digest.

9,211,295 AUTOS IN COUNTRY

Licenses Fees in 1920 Totaled \$102,034,105, Reports Federal Bureau of Public Roads.

Washington.—Motor cars registered in the United States last year numbered 9,211,295, an increase of 1,645,840 over the preceding year of 22 per cent, the bureau of public roads announced.

The registration and license fees amounted to \$102,034,105.

In New York state alone the number of cars registered in 1920 exceeded the total registration for the United States in 1917, and the revenue derived in that state from this source was about equal to the entire registration revenue of the United States in 1917. Ninety-six per cent of the 1920 revenue was applied to road maintenance or construction.

Lumbago

This is a rheumatism of the muscles of the back. It comes on suddenly and is quite painful. Every movement aggravates the disease. Go to bed, keep quiet and have Chamberlain's Liniment applied and a quick recovery may be expected. Mrs. P. J. Dana, Brookport, N. Y., writes: "I can honestly say that Chamberlain's Liniment cured me of lumbago a year ago last summer. When I began using it, I was fit on my back and could not turn to the left or right. I had a bottle of Chamberlain's Liniment in the house and this was applied to my back. It promptly went away the pains and aches."

MISCELLANEOUS

DRESSMAKING. Mrs. Ella Cameron, Phone 639W.

STOLEN. From Northampton Thursday evening, a Weyth bicycle; reward, Phone 5113B.

CANDY MAKING BUSINESS. Start at home; everything furnished; men women; \$30 weekly. Bun-Don Co., Philadelphia, Pa.

MOTORISTS. Hereafter when you bring your cars to us for repairs, we will give you better service than what it will cost. L. A. Automobile Co.

FIRST CLASS dressmaking and ladies' tailoring. Miss E. A. Kellogg, 218 Second St.

DISOLUTION

The partnership existing between Louis LaBonte and the undersigned has been mutually ended and the undersigned now remains sole owner and proprietor of the business as previously run under the name of Palace Cleaners or Idaho Cleaners and Dyers. I bespeak from my friends and patrons their old time confidence and assure them of just and honorable treatment. Our prices for cleaning will be in accord with the special new light housekeeping of the city. The basic price being \$1.00 for men's suits or ladies' plain tailored suits. Even at these prices nothing can serve us from our standards of perfect work. Your satisfaction is our aim.

UPURNS ARE FOLLOWED BY DROP IN WHEAT PIT

Abnorch of Speculative Buying Order Causes Price to Slip Downward; Close is Unsettled

CHICAGO, (P)—Fresh crop damage reports from the southwest led to upturns today in wheat prices. The fact that radical bearish forecasts of the government crop report had not been fulfilled was also a stimulating influence.

Subsequently, notable absence of speculative buying orders caused prices to slip downward. The close was unsettled at 3-4 net decline to 1-5c advance.

Cash Quotations

CHICAGO, (P)—Wheat No. 2 hard \$1.45 to 1.47 3/4; No. 2 mixed \$1.42 1/2; Corn No. 2 mixed \$0.34 to 0.35; No. 2 yellow \$0.31 to 0.32.

Chicago Produce

WHAT WE ADVERTISE WE SELL THE BIG STORE WHAT WE SELL ADVERTISES US

FARMERS PROFIT BY REVERSAL OF COURT'S ORDER

Appeals Bench of San Francisco Makes New Ruling Favoring Salmon Settlers

The United States circuit court of appeals at San Francisco has amended its decision in the case of A. R. Caldwell and others against the Salmon River Land and Water company and others, and holds now that the cost of alterations made in the check basin at the Salmon River reservoir is a property construction charge to be borne by the construction interests and not a maintenance charge to be paid by the settlers, according to a telegram received here regarding the property.

Decision Means Refund

Under this decision, unless it is appealed to the supreme court, Judge Bixler believes the Salmon River Canal company will be required to return to the settlers a special assessment of 50 cents an acre made for the purpose of defraying the cost of the work at the check basin. The total amount of this assessment is estimated at about \$21,000. The company must also grant the settlers the right to operate return of the special assessment in the event of court ruling the charge one to be borne by the construction interests.

Only One Issue

The court's decision in respect to the question of the check basin leaves only one principle issue to be determined in the Caldwell suit, which was instituted several years ago to secure a special construction of the contract between the construction company and the settlers, and in which most of the various questions arising between the parties to the suit have since been incorporated. The remaining issue is in respect to the settlement to be made with land holders whose holdings have been excluded from the project. The result of this decision of the circuit court which has just been amended in respect to the check basin question, held that it would be impossible to determine the issue in favor of the settler parties to the action without a reclassification of the settlers, those settlers whose holdings were retained within the project constituting one class and those excluded another.

IBARRA GOES ON TRIAL FOR KILLING ACKERMAN

Mexican Whose Stab Caused Traveler's Death, Faces Judge Babcock

For the alleged murder of George S. Ackerman, on March 13, 1921, Emmanuel Ibarra, alias Francisco Sanchez, was this morning placed on trial in the district court, Judge W. A. Babcock presiding. Frank L. Stephan, district prosecutor, is in charge of the state's case, with E. V. Larson, defendant.

The morning was consumed in an effort to obtain a jury, many objections being lodged by the defendant's counsel to the selection of the jury. The state expects to call all the stand in an endeavor to get conviction. The defense, it is understood, will rely upon a claim of insanity to obtain release of Ibarra on bond charge, and may ask the court to consider hearing on an insanity theory.

Intense interest is being displayed in the trial, the auditorium of the courtroom being filled when the case was called for trial this morning.

Ibarra, a stock raiser, a traveling salesman, in the left eye with a butcher knife on the afternoon of Sunday, March 13, death following the next day.

MAYOR ISSUES ORDER TO CLEAN UP THE CITY

Proclamation Names Next Monday as Day for General Renovation

Mayor P. W. McRoberts has signed and issued a proclamation declaring Monday of next week "Clean-up" day. The proclamation issue followed an official call upon the members of the city committee headed by Mayor McRoberts, representing the city bureau of the Twin Falls Chamber of Commerce; Sewell S. Hill, secretary of the chamber of commerce, and C. V. Hinkle, a representative of the Twin Falls club. This committee urged in favor of cleaning up premises all over the town.

The proclamation, signed by the executive hand of the municipality reads:

"Clean-up; plant up; paint up! 'Hear this, ye people—think! Act! Come on, let's put things in order. Our whole city can and should be made of clean, neat, and safe places to live. Then we will have a safer, happier, healthier city."

"The splendid ambition to have a city clean and beautiful is soon to be won a reality by the cooperation of all the people."

"Therefore, by virtue of the authority vested in me as mayor, and with the consent and approval of the council and zealous citizens, we hereby proclaim the day of

"Monday, May the 16th, 1921, as 'Clean-up—Plant up—Paint up' Day."

"Away with the rubbish piles and filth! Banish the plague spots! Clean up the yards, streets and alleyways! Cut the weeds, mow the lawns and trim the shrubbery, plant the yards and lots. Repair and paint the fences and buildings that need it if possible."

"We need this thorough cleaning and renovation. It is the sensible thing to— for the health, safety, thrift, pride and happiness of all our people. 'It's everybody's' job. Every man, woman and child will be expected to help."

"We need this thorough cleaning and renovation. It is the sensible thing to— for the health, safety, thrift, pride and happiness of all our people. 'It's everybody's' job. Every man, woman and child will be expected to help."

Social Notes

Edited by Mrs. E. B. Williams Telephone 396

The annual blossom banquet of the Business Women's club was held at the Hotel Regency Monday evening, May 9. Business women and their friends were present to the number of 68. Blossoms in profusion formed the principal decorations for the affair. Between the courses the following program was given: Vocal solo, "Springtime," Miss Martha Andrews; Springtime Dance, Miss Josephine Kuhn; Reading, "Dutch Selections," Miss Gladys Torburn; Violin Solo, "The Elf," Miss A. F. Hunt was accompanied for the evening. Miss Ellen L. Goebel, as toastmaster, introduced Mrs. H. J. Youngs, president of the club, who gave the address of welcome "Our Aim and Ambition." C. E. Munson spoke on "What Business Men Expect of Business Women." Attorney W. Orr Chapman, "What They Expect of Business Women." Miss Adna Walkington replying most aptly "What They Get." The finale was most complete as seen from the following point, the first scene depicted "How men run city affairs," the second scene showing "How the women would run city affairs." Those who participated in this clever little farce were Mrs. Cora Connor, mayor; Miss Esther Reece, city clerk; Miss Gladys Torburn, city attorney; councilman, Mrs. Alice Abbott; Miss Geneva Stafford; Miss Gertrude Owens and Miss Ruby Shear. Miss Adna Walkington as official complainant, and Dr. Emma C. Crossland as newspaper reporter, added materially to the levity of the occasion. The banquet concluded with dancing until midnight.

The Presbyterian Missionary society will meet in the church parlors Thursday, May 12, at 2:30.

Mrs. W. H. Eldridge assisted by Mrs. W. A. Ducker and Mrs. John B. Ault entertained the Daughters of the American Revolution at the Eldridge home on Street avenue Monday afternoon. The regular business meeting was held and officers elected for the ensuing year with the following results: Regent, Mrs. John E. Wilton; vice-regent, Mrs. W. B. Ambury; secretary, Mrs. M. J. F. Gamble; treasurer, Mrs. A. Wilton; Epke; registrar, Mrs. D. F. Sweet; historian, Mrs. Wilbur Hill; board members, Mrs. Evelyn E. Clark and Mrs. Frances A. Walker. Mrs. L. O. Holderman gave an interesting article on "The Siege of the Alamo." Mrs. Ault told of the planting of a tree by the D. A. R., at the Vermont Hotel taken from a certain spot in all the states of the Union. Mrs. A. W. Husted presented the chapter with one of the early flags bearing the thirteen stars. It was dedicated to the memory of the annual picnic on Flag Day, June 14. Twenty members were present and refreshments were served before adjournment.

The Henry V. Walling circle, ladies of

the G. A. R., met at the home of Mrs. J. H. Wise Monday evening. After a short business session a social hour was enjoyed.

EARLY INFORMATION AS TO CHILD'S DEATH ERRONEOUS

Robert Aaron's Death Due to Fracture, Not Choked by a Nail

Information reaching Twin Falls to the effect that the death in San Francisco of Robert, 4-year-old son of Dr. and Mrs. W. E. Aaron, was caused by a fall from the window of the apartment house in which the family resides, is not correct, according to later advice.

The child's death was due to a skull fracture at the base of the brain, but apparently the cause of the injury is unknown. The little fellow appeared to be slightly indisposed for a day or two, when medical aid was sought and daily examinations were made for a number of days before the trouble was located. He was then taken to a hospital and given every aid that medical science could offer, but without result, his death taking place within a few days.

Dr. and Mrs. Aaron write that he suffered during only one day, a desire to sleep being the principal symptom of the illness. During the last eight days he slept practically the whole time.

"We never knew," Dr. Aaron's letter reads in part, "how many good and true friends we had in San Francisco until our trouble came. But most of all we appreciated the presence of the Spragues, the Melaine and Charlie Smith from Twin Falls, and the many messages of love and sympathy from friends at home. Will you kindly thank them one and all for us."

QUEEN COMPELS GREEKS TO AID

Demands Government Action to Prevent Distress Among 20,000 Refugees

SALONIKI, (AP)—Queen Sophie, of Greece, and the Greek Red Cross, recently summoned members of the Greek cabinet to the palace and demanded that the government take steps to prevent the distress of 20,000 Greeks refugees from the Caucasus, now in barracks on the hills of Kalamaria near Saloniki, from becoming a national disgrace.

In consequence of her action one million drachmas (equivalent to about \$75,000 at present rates of exchange) were appropriated for the benefit of the refugees and 15 additional physicians were sent to Saloniki.

American Reports Condition. The miserable condition of the refugees had been reported to the queen by Colonel Olds, the American Red Cross commissioner for Europe, who inspected their camp. Queen Sophie, an eminent sanitary expert, as her personal representative to take charge of the camp. He brought a corps of ten physicians. Until that time only one physician had administered to the thousands ill among the refugees. There had been no one to look after sanitation.

The American Red Cross has sent to Saloniki Colonel Henry A. Shaw, of the United States Army Medical Corps, with a party of physicians and nurses to aid the Greek government in the care of the refugees. Colonel Shaw plans to gather 1000 of the orphans in old French barracks, several miles from the present camp, where he will have them given medical attention while food will be furnished by the Greek government. The expense of this work will be borne by the government.

Miss Lillian Spelman, a Boston nurse, is conducting a Red Cross dispensary at the camp where she distributes cans of milk and some will have them given medical attention while food will be furnished by the Greek government. The expense of this work will be borne by the government.

Many of the refugees were lured here by promises of rich land in Mexico but the majority fled from the Caucasus before the advances of the Bolsheviks and the Turkish national under Kemal Pasha.

In Overcrowded Barracks. The 20,000 are huddled together in barracks which were not intended to hold that number. A Red Cross inspector who visited the camp reports that disease such as typhus, dysentery and influenza is prevalent and that more than 1000 of the refugees died within a month.

The Greek governor, General Zavitsanos, is in despair for he expects 15,000 additional refugees to arrive each day and there are more than 50,000 others trying to reach Greece. The fund appropriated by the Greek government to feed, cloth and provide medical attention will be exhausted within a month, say the relief agents.

NEW STRAIN OF SUGAR BEETS WILL BE TESTED

PRICE, Utah, (Special)—Orson P. Madson, agricultural agent for Carbon county, has announced that check plants will be run in this county during the coming season to test out the merits of a new strain of sugar beet seed which has been brought in by the farm bureau. A plot will be raised near Tuba by Clarence Nixon and another will be raised near Wellington.

Chamberlain's Tablets Are Mild and Gentle in Effect

Balroom to Boiler-room

Mrs. R. C. Doll, wife of a naval lieutenant, to demonstrate her ability to "run a ship" donated "dunagers" and fired boilers aboard the transport Hancock between the Atlantic coast and San Diego, Cal. Mrs. Doll took the driver's place, bowing the engine room, manipulating the big levers that carry the belted rods from bridge to engine, reversing the belt, slowing down and shoving open into the yawning firebricks. And she performed her tasks as well as any stoker. She declared, however, that she enjoys most playing about the big guns aboard the ship. She is shown here in stoker's dunagers and with her heavy aboved aboard the Hancock.

Daughters of 1812 Call on Mrs. Harding

At the recent convention of the United Daughters of 1812 at Washington a number of the delegates called on Mrs. Harding and were entertained by the

Death May Defeat Mexico's Effort to Extradite Garcia

SAN FRANCISCO, (AP)—Death may defeat the efforts of the Mexican government to extradite Captain Carlos Garcia on a charge of having embezzled \$60,000 while governor in the Mexican army. Garcia is dying of typhus in the San Francisco county jail. If he goes to Mexico, he may be shot as a traitor.

Garcia was arrested here at a fashionable hotel more than two years ago. He fought extradition on the ground that he was a political offense, and that in Mexico he would have to face a firing squad. He said he wished to die in this country and be draped with the American flag.

The case has been carried through several courts. After having been passed several times on bail, Garcia underwent a serious operation and tuberculosis developed. Recently he was pronounced in a serious condition. The lower courts ordered him returned to Mexico but he has carried his appeal to the United States supreme court, which says it does not wish to carry out his life until now.

When arrested, Garcia had in his possession \$28,000 of the \$60,000 he admitted having taken. The remainder had been spent chiefly for jewelry and clothing. The courts took charge of the \$28,000 and ordered that the cost of keeping him in jail and supplying him with medical attendance should be deducted and the sum remaining be returned to the Mexican government.

If the decision goes against Garcia, Mexico's efforts will have to cease him carefully to get him across the line, where, he says, he would be shot.

Sheep Herder Finds Prehistoric Bones

WASHINGTON, (AP)—William McVey, a sheep herder, discovered the skeleton of a prehistoric mammal the other day when he kicked over a "stake" in the sage brush in Butcher Kane canyon, about four miles east of Arden, Gilliam county, near the mouth of Willow Creek, while watching his flock feeding on the hills.

Parts of skeletons of prehistoric animals have been seen. It has a long neck, a crooked horn, and a long tail. The skull is about the size of a sheep's skull. A surface excavation disclosed an intact skeleton, including the head, vertebrae and ribs. Arthropods are planning to have the specimens examined and mounted for exhibition purposes.

Prisoners Build Own Temporary Quarters

LONG BEACH, Cal. (AP)—Prisoners at the Long Beach jail, in danger of being released, are building their own temporary quarters. They are taking off their coats and rolling up their sleeves, built a new, if temporary, home. The quarters in which they had been confined were being wrecked to make way for a larger jail building, on the same site.

Police helped the building personnel in total composed of convicted bootleggers and burglars, patrollers and jail carpenters.

The stained glass in England's beautiful cathedrals is being attacked by some mysterious disease which takes the form of minute holes which in time deepen and widen the glass flake. So far no remedy has been found.

COMMITTEE OPENS HEARING ON TAX REVISION BILL

WASHINGTON, D. C. (AP)—Tax revision discussion began Monday before the senate finance committee, with sales tax proposal the announced topic, but witnesses and committee members rambling over the whole range of the changes.

"I am advocating a reduction of the higher rates of income taxes, not the benefit of the treasury; get these taxes down and everybody will pay and then we will get some money into the treasury," said Senator Smoot of Utah, author of the pending sales tax measure.

CALLS LEAGUE ASSEMBLY FOR SESSION IN SEPTEMBER

GENEVA, (AP)—The assembly of the league of nations will hold its next meeting September 2 in Geneva. President Da Costa, of the league's council, Monday issued the call for this session.

Recovered Coin After Fifty Years

Fifty years ago when the foundations were being laid for the Washington statue in front of Independence hall, in Philadelphia, John Nash, then a postman, threw a 2-cent piece into the hole being dug for the foundations. Recently when some changes were being made to the statue, Nash recalled the incident and stirred up the dirt and uncovered the coin. It will be hung in Independence hall. Incidentally, Mr. Nash recalled that 2 cents had a buying capacity at that time triple that of today.

Smoke Injures Galvanized Iron

Galvanized iron has been found by a German chemist to be unsuitable for roofing such exposed to smoke. Sulphur dioxide, though having little effect when dry, causes rapid deterioration in presence of moisture, and a mixture of sulphur and carbon dioxide is very corrosive, though moisture is thought to divide along with slight action. The microscope shows in the corroded galvanized iron minute cavities and sulphate containing ferric oxide; due to galvanic action or actual solution of the zinc coating.

Toilet of Ant Complicated

There is no creature of the animal kingdom which is more particular as to personal cleanliness than the ant, which can not tolerate the presence of dirt on its body. These little creatures actually use a number of real toilet articles in keeping themselves clean. A well-known authority says their toilet articles consist of coarse and fine-toothed combs, hair brushes, sponges and even washcloths. Their combs, however, differ from ours mainly in that they are fastened to their legs. The ants have no set time for their toilet operations, but clean up whenever they get soiled.

It's Toasted Cigarette To seal in the delicious Burley tobacco flavor.

IDAHO DEPARTMENT STORE CIRCUS DAY SPECIALS

Brief Bits of Sport

Real fans just can't help feeling sorry for the White Sox, can they? It's the same sort of sentiment the humanitarian has for a lost dog, you know.

Six' Sniffles scolded his boys, says: "When friends don't suit you, try getting some new ones; perhaps your friends don't like you any better."

A little razzing now and then is good for some men; infamously Babe Ruth picked three good hits in Sunday's game against the Athletics.

But Mack's lovely fellows licked the Yankees 5 to 4 despite the hambo's warbling.

Bill and all the White Sox must be showing some speed in the fielding department. Here's a part of the summary for Friday's game against Cleveland: Collins to Johnson to Sheely; Johnson to Johnson to Sheely; Johnson to Collins to Sheely.

All the joy that seeing another one of our products make good wages, to the University of Alabama enthusiasts do not quite make up for the conviction that without Riggs Stephenson the Alabamians are due to lose the Southern college baseball championship.

The Cincinnati club is famous for the length of service of some of its employees. Frank Haskins, who has been with the club ten years; Louis Wolfson has been on the pass game for four years; Herman Ritt has been in charge of score-card selling for 20 years, and so on.

The big league clubs continue to wreck that University of Alabama team. Now the Chicago White Sox have signed Frank Pratt, the Alabama shortstop. He's some sort of kin to Derrill Pratt and said to be as good as Joe Sewell or Riggs Stephenson as a ball player.

There being speckled pitchers, infielders and outfielders. It was up to the catcher wearing glasses to break in Hugo signed, coach Pratt, the Alabama infielder, has two of them on his squad. He does not, however, expect that either of them ever will break into the big show.

Commissioner Landis announced his decision reinstating Frank Baker on April 21, but Manager Huggins of the Yankees did not seem greatly interested. Baker, said Huggins, would be a handy man to have around, but he had no present intentions of changing his infield combination as it has been playing.

The Phillies picked up a player and wreck, taking on Tony Martelek after the Washington club had released him. He will be used for utility infield duty. Martelek is no youngster, but is a capable sort of a player. He has been playing independently in the States for several years, having drifted out of the minors.

COLAMBIA'S St. Stanislaus' Zayac, world's champion heavyweight wrestler, has been matched with George Kotsanaros, local Greek heavy weight for a wrestling match next Wednesday night. It was announced today.

Poland Negotiations are under way for a 12 round bout between Tommy Gibbons and Harry Greb to be staged the week of June 25, during the ornamental convention of the Local Order of Moose.

Detroit, Mich.—Michigan titles inaugurated the minor league baseball season today, after opening in the Central and the Mid-American leagues.

Colar, Rapid, Ia.—Jack Reynolds threw Andrew Krieger in 42 minutes with a tie ball last night.

Philadelphia—Mike Gibbons knocked out Frank Maguire of Williamsport, Pa., in the sixth round last night.

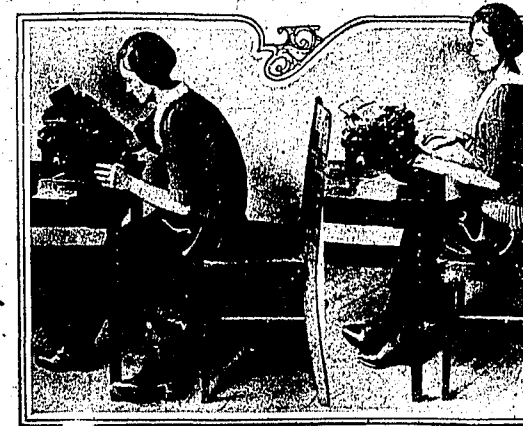

St. Paul—Billy Miske hit night knocked out Tommy McCarthy in the second round.

Chicago—Pitchee Joe Morris, a recruit with the Chicago Americans, to day was released to the Tulsa, Okla., club of the Western league, from which he was obtained last fall.

Reports show that of the French military class of 1921 more than 75 per cent consists of youth 20 years of age, who are of military service. This is a high percentage of effectives and the increase is attributed to a decrease in the use of alcohol, the improved living conditions on farms and the spread of sportsman France.

Bills of Constipation Perhaps the most serious of the diseases caused by constipation is appendicitis. You can avoid this dangerous disease, keep your bowels regular. For this purpose Chamberlain's Tablets are excellent, easy to take and mild and gentle in effect.

Incorrect and Correct Posture for Stenographer

How do you sit, Miss Stenographer, at your typewriter? Like the girl at the left or the one on the right? The New York Health Center of the Y. W. C. A. has started a campaign to teach young women to be healthy. Posture

has much to do with one's health and the first step in the campaign is to instruct girls and women to sit properly. The subject in these photographs is demonstrating the wrong and right ways to sit. In the wrong way, shown at the left, the body rests on the

of the spine; the back and shoulders are rounded; the chest hollowed; the head bent and the feet crossed and sprawled. The right way, shown at the right, is to sit well back on the chair, feet on the floor, back straight and head and chin up.

Indians Will Ignore Ba non Tribal Dance

DULUTH, Minn., (AP)—Chippewa Indians in the Lake Superior district expect to disregard a recent order issued by Charles H. Burke, newly appointed commissioner of Indian affairs, which condemns certain Indian dances as "immoral" and suggests that this type of dance be eliminated. John Arden, of Superior, member of the executive committee of the Head of the Lakes council, said Monday: "The council received a similar order from the Commissioner. No attention was paid to the first order. Mr. Arden said, as the council considered 'decency' all-dance indulged in by the tribe. In the Lake Superior district it seems most of the dancing is done by the older Indians. Usually these dances are in the nature of exhibitions and, according to Mr. Arden, contain nothing more objectionable than the 'square dance' wherein men and women form a circle and follow the cadence of the drummers.

Cost of Control to Carriers Runs High

WASHINGTON, D. C., (AP)—Loss to them under government operation of the railroad government under the federal control will be about \$200,000,000 or three hundred million dollars more than estimated by former Director General Hines, according to an estimate by Director General Davis.

ROTTING MARKS ROCHESTER BUILDING TRADES STRIKE

ROCHESTER, N. Y., (AP)—Quelling a riot of 400 striking laborers and seven publishers here Monday, several policemen were severely bruised, two others seriously shot and fifty others, both men and women, stunned and mutilated by riot sticks.

It was the most serious outbreak of the building trades strike which started here April 1. A new city, which as yet has no name, is being formed in the province of Saskatchewan on Lake Manitoba. Several factories are extracting chemicals from waters of the lake and, experts, have rich stratified deposits in the lake bed.

American Flier Who Made Escape, from Prison Camp in Russia

Captain Merion C. Cooper, of Jackmanville, Fla., former member of the Army Air Service, who has arrived in Biga, Russia, after escaping from a Bolshevik prison camp near Moscow. Capt. Cooper reports that another American, Captain Emmet Kilpatrick, of the Red Cross, is being held prisoner in the same camp from which he escaped.

HIGH SCHOOL NEWS

At a meeting of the girls of the senior class yesterday for the purpose of electing a vice president of the class Elva Mench was selected for the office. Plans regarding the junior prom were also discussed.

This week's assembly will consist of a fashion show by the home economics department and a short sketch from "David Harum," the senior play.

Kiss Has Been Important. The kiss has always played a rather important part in events of the world, from the kiss of Judas, betraying Christ, to the kiss of a French general on the blushing cheek of an American doughboy as he pinned a decoration on the khaki blouse. In the folklore of every country it is a prominent theme—it waked princesses who had slept for a hundred years in enchanted palaces, or transformed hideous beasts into gallant princes.

\$1,000,000 TO AID ORIENT

Laura Spellman Rockefeller Memorial Fund Offers Help for College Women.

New York.—Trustees of the Laura Spellman Rockefeller memorial fund will grant \$1,000,000 for the purpose of aiding colleges for women in the orient, on condition that \$2,000,000 is raised by a special committee of the Women's American Baptist Foreign Missions society.

This announcement was made here by Mrs. Henry W. Penobdy of Boston, vice president of the society. The money is to be used for buildings for the six colleges in Japan, China and India, which are supported by twelve co-operating mission boards. Mrs. Rockefeller was greatly interested in educational work among the women of the orient.

The raising of mushrooms in beet vats is becoming such an important industry that growers are calling for tariff protection.

GREAT CIRCUS RIDERS WITH COMING CIRCUS

Howe's Shows Will Present a Number of Best of World's Baroback Equestrians

It is unqualifiedly claimed that never before have so many of the greatest riders in the world been brought together for a single performance as in the program of Howe's Great London Circus and Van Amburg's Trained Wild Animals which will exhibit here on Wednesday, May 11.

The most expert artists from the four corners of the earth have been successfully induced to unite in the enormous bill of these supreme shows. The dressings of the huge circus are filled with equestrian acts of novelty, peril and exclusiveness from the time the arena program begins until the ending two hours later.

All the nerve-quickening deeds of familiar circus history are re-enacted with superior grace and deftness, and much more dramatic bounding, picturesque posing, thrilling tumbling and subtle daring are rendered with astounding ease and precision. These renowned riders seem to upset all natural laws and are proclaimed to have reached the limit of human possibility. There are whole companies in some acts, while other startling features are controlled by groups or individuals. It is a common sight to see four superb riders moving as one, jumping from the ground as one person and landing on the back of a galloping horse at the same instant. Such riders in beautiful manege numbers, daring horsemanship of the plains and other equestrian feats of impelling ability and historic fame are to be seen in the hurried movement of the tremendous program.

The Martyred Abess.

A terrible incident, was the origin of the ghost which haunts St. Oystre's priory, 12 miles southeast of Colchester, England. In the year 633 a band of Danes ravaged the neighboring country. Attacking the priory they led its young abess into a wood and ordered her to worship their gods. She refused, and in spite of their efforts to terrify her into submission, the brave woman remained faithful to her creed. In a fury, the leader of the band ordered her to lay her head down to be cut off. Obeying, her head was immediately severed from her body. On one night every year the abess revisits the scene of her martyrdom, carrying her head in her hands.

MONEY MATTERS HOPE OF ATTENTION OF EXECUTIVES

School Board Again Fights Bugbear of Operation on Restricted Funds

Questions of finance and how to keep within the restricted bounds of a budget passed upon the crash outlook for the coming year, occupied the attention of the board of trustees of Independent School district No. 1 at a recently concluded meeting held last night. A more or less intensive consideration by the members of the board with M. C. Milhedge, superintendent of schools, was given to the problem of following a rigid retrenchment policy, the district will be able to get through the coming year on the resources in its hands.

Teachers' Salaries

There will be no increase allowed for teachers in the district for the year now employed will be re-engaged at the salaries being received at present, while new teachers will be placed in positions at a rate of \$2000. The board ordered that the same conditions of contract of departmental forces and operation will be the order during the coming year, according to Mr. Mitchell, whose scheme of curtailment, presented to the board, received practically unanimous support from that body. The board also ordered that no salary will be paid off before attempts are made to liquidate merchandise and similar bills, in the settlement expressed by members of the board. The board also ordered that a general character against the district submitted for consideration. The total amount of the claims reviewed was nearly \$4000. The bill for the finance committee has to be obtained. This is expected next week. This economy is required because the fund provided through the Twin Falls Bank & Trust company to defray salary claims for the year. Another bill was laid down by Mr. Mitchell, and it is expected, before all the bills and claims of a general character can be taken up.

Job for the Boys

If the settlement of the board, expressed last night, prevails, the high school annual fund department will get the job of reconstructing the fire-damaged barn at Lincoln school. No attempt will be made, however, to reconstruct the barn until the insurance adjusters have completed the work of examination.

The board has been advised, through the presence of the Smith-Flughes of the amount of the fund for the year \$1000. Therefore the amount allowed for the year will be \$1000. This reduction in the amount will be \$400. This reduction, according to a letter received by Mr. Blue from Melvin S. Lewis, state superintendent of schools, is necessary because of an increased demand on the fund set aside for this purpose. In his letter Mr. Lewis says:

Booke's Coal Contract

Representing the Shanel Coal company, Robert Shanel, appeared before the board with a request to be permitted to fill the district school building with coal. The board decided that the work could be done now at a cash saving to the district because of lackness in demand for coal deliveries. Mr. Shanel will pay \$1000 for the coal, and the board will be able to pay \$1000 on delivered, the district to pay shrinkage, weighing and drayage charges, which is the greatest price. The settlement of the board was that the coal contract should be submitted for competitive bidding. A report on the delivery of coal will be given at the next meeting.

Robbers Is Sued

The Holland North American Mortuary company has instituted proceedings in the district court to recover judgment for \$6420 from J. W. Kohr, the Twin Falls Canal company, J. H. Wise, and others. The action was brought to recover for the loss of a diamond ring, valued at \$1000, which was stolen from the plaintiff by the defendant as principal, and against the others as having an equity in property held as protection for the debt.

Sue on Note

Carl Ridgway, as trustee for the First National bank of Kimberly, and the First National bank of Kimberly, have brought suit against George France and Jack France to recover judgment for the sum of \$2920.33 said to be due on a promissory note given by the defendant to secure the note, is also asked.

Disturbance Is Allayed

Disturbances in the Hazelwood were crushed here yesterday for Butler authorities and were taken to court this afternoon to stand trial. The men are accused of disturbing the peace at Arden City recently.

ADMINISTRATIVE BOARD WRESTLES WITH NUMEROUS MUNICIPAL PROBLEMS WHICH ARE DECIDED ON ONE SALARY CUT

Administrative Board Finds a Tangle of Matter to be Straightened Out and Enters into Spirit of the Battle with Zest—Will Engage City Engineer—Cleanup Proclamation Authorized

The new city council last night delved deep into a tangle of municipal difficulties for remedying conditions "Clean-up Day" next Monday and of a widow for renewal of the arrangement under which she receives water fees for the quantity of water of alleged inadequacy of a \$10,000 underground conduit to deliver water to some 40 acres at the north and west end of Main avenue, and also for the \$200 appropriation for the public library, of procedure under a contract signed August 20, 1920, for a new street lighting system involving pipe expenditures of \$12,000 and of the installation and payment for water meters. Definite action was taken by the council with respect to these problems. The three cases were referred to committee while the discussion with respect to the greater issues seemed to be begun and carried on with the purpose on the part of the council to familiarize itself with its inherited responsibilities and obligations.

Adopts Two Ordinances

The council adopted two ordinances, one covering the annual salary of the chief engineer, and another providing for the employment of a city engineer when his services would be deemed necessary at a maximum salary of \$10 a day instead of a stated salary of \$3000 a year. It confirmed the appointment of J. W. Thayer, former manager of the One Hundred Forty-sixth Field Artillery Regimental band, as municipal landman, and of Paul B. Zober, clerk and police judge, as municipal employment officer; authorized the mayor to issue a proclamation designating Monday next as "Clean-up Day," and authorized the city engineer, when action is to be taken on a tentative budget for municipal expenditures of the coming year, which was last night submitted by E. A. London, city treasurer.

This tentative budget provides for the expenditure next year of a total of \$70,175.20 as compared with appropriations amounting to \$116,246.00 by the old council last year, and contemplates the laying of the maximum of 15 mills municipal tax. It includes an item of \$120 for the holding sessions on the adoption of the city engineer plan of municipal administration.

Ask More Time

The council, after being considered, but did not adopt a proposed ordinance to provide for combining the offices of superintendent of waterworks and street commissioner. Councilmen C. P. Sawyer and W. E. Sawyer were for more time in which to consider the proposal. The proposed ordinance would authorize the mayor to appoint waterworks clerical, a street commissioner and superintendent of filtration, meter readers, valve men, foremen and other necessary employes at salaries to be recommended by the street and waterworks commission and approved by the council.

Pilgrimage Opens Subject

Discussion of the meter question was incidental to consideration of statements made by J. J. Pilgrimage, superintendent of waterworks, who was called in to give his opinion on the proposed combination of offices. He said that the scheme was entirely feasible and could be carried out without difficulty, except when other department were engaged in an extensive construction program. Developing his statement first one way with the other organization would be able to administer both positions. Mr. Pilgrimage said that there was little difficulty now in securing competent labor, and he added that with a crew of 10 men he was now installing from 20 to 24 meters daily at a maximum cost of \$2.50 each for installation. He said that installation of the meters in the city would be completed in 10 days, and that there would then be lacking only about 700 meters to complete the equipment of the system.

In subsequent informal discussion the council evidenced agreement on continuation of meters installation but seemed disposed not to seek immediate delivery of additional meters to complete the equipment of the system.

There was some discussion with respect to the manner in which payment should be made for meters, the relative advantages and disadvantages of each method being considered. Ultimately, but nothing like an agreement was attained and the matter will be again considered deferred further consideration of the issue.

Demand Water Delivery

Complaint against alleged inadequacy of water deliveries through a conduit built last year to irrigate an open ditch carrying water to acreage tracts north and west of the end of Main avenue was voiced by J. Blake, market gardener, as the spokesman for a group of eight or ten citizens meeting on this account at this time. Mr. Blake said that the maximum of water delivered through this conduit for an acre of land is only 15 minutes was 17 inches. Approximately 33 acres was entitled to water from this source, he said.

Spencer Supports Complaint

Mr. Blake's statements were supported by Fred C. Spencer, street commissioner, who reported that he had previously investigated complaints on this score and that he has suggested as a solution of the difficulty the installation of a pump to lift water from

Weather Expert Takes a Chance and Gets Blank

THE weather bureau operator took a chance and lost. He predicted cold weather for the night and today. It was warmer both nocturnally—and minutally.

Top of the height attained by the mercury yesterday was 49 degrees, and for the low last night. The latter figure was two points above the mark of Sunday night, while the day temperature was five degrees above. Today gives every indication of being still warmer.

SELF-DEFENSE POINT UPHeld, KELSO IS FREE

Judge Dnval Finds All Testimony Favors Slayer in Colored Club Affray

Finding that practically all testimony supported contention of self-defense of O. P. Duvall, of the probate court, this morning ordered the discharge of Bert Kelso from custody. Kelso, a colored man, had Thursday night shot and killed Walter James, a paving construction worker during trouble in the Workmen's Social club on Main avenue.

Trail of the case was conducted yesterday afternoon in the district courtroom and was attended by a great number of Twin Falls citizens, including most of the colored population. Witnesses in almost every instance corroborated the defense claim of self-defense, and all gave evidence reflecting upon the dead man as having been the aggressor throughout.

Kelso excited one of the last witnesses called to the stand. He gave a clean-cut story of the affray, but was unable to say how many shots were fired. He charged that James was in a quarrelsome mood during the evening, and that among the first aggressive things he did toward the defendant was to address him by vile and opprobrious names. Kelso stated he had attempted to evade James but that, even when friends interposed in his defense of James, the latter seized a cue laid down by Kelso and struck the de-

fendant on the head. Kelso stated that this blow staggered him and as he recovered James threw a pool ball at him. The ball, however, missed its mark. Kelso declared James threatened to feed him with "lead pills from my forty-five".

Immediately after this statement Kelso testified, James started around the billiard table in the defendant's direction, thrusting his hand in his trousers pocket as he did so. Fearing an attack with a deadly weapon, Kelso said he did not recall how many times he shot, but admitted it was probably more than the once.

Supporting Testimony

Other witnesses, including Arthur Barker and Henry White, both of whom were in the club-room at the time of the shooting, testified that the first ball seemed to vibrate James around from Kelso's direction. The second bullet struck the roofing man in the right jaw, passing through the neck. The third struck in the right shoulder, from the side and the fourth caught James under the right shoulderblade from the chest, the missile passing through the chest and under the belt.

Dr. J. F. Coughlin and Coroner P. J. Grossman testified as to the location of the bullets. Chief of Police John M. Beck gave testimony relating to being called to the social club following the shooting and of gathering material evidence in the case.

Frank L. Stophan presented the case for the state and William P. Guthrie defended Kelso.

After the dress tomorrow night come and enjoy yourself at the Laverling Pavilion.—adv.

Graduation Dresses

Scale of \$8 is Brought Down One Dollar on Order of the Local Union

At a meeting of the Carpenters' union held last night, decision was reached to agree to a voluntary reduction of the day wage scale for carpenter work, according to C. A. Reiley, president of the Twin Falls local.

The reduction, Mr. Reiley says, will be \$1 per day beginning next Monday. The scale governing this class of work last year was \$8.

Carpenters Vote to Reduce Wage for Day's Work

Graduation Time is a never to be forgotten event in the life of your daughter. Nothing should be spared to make it a time of enjoyment and pleasure.

Pleasure and enjoyment would be hers to possess one of our charming white frocks. Beautiful girlish models of white organdy and net. Not too many frills, not too plain. They are truly exquisite.

Specially Priced

FUNERALS

Funeral services were conducted this afternoon at the Presbyterian church, the Rev. A. H. Brand officiating, for Mrs. Christina Swenson. Burial, in charge of P. J. Grossman, was in Twin Falls cemetery.

There will be a special Circus Day here at the Laverling Pavilion tomorrow night.—adv.
