## MEXICO DRIVES ALLEGED REDS OUT OF BOUNDS

### Two Americans, Two Spaniards and Four Other Foreigners are Ordered Deported as Undesirable Aliens

MEXICO CITY, (AP)—Frank Bennett alleged to be an American agitator; another American whose name was not announced, two Spaniards and four other foreigners were ordered expelled from Mexico last night on the ground that they were "pernicious foreign agents."

## MRS. BERGDOLL GETS SENTENCE

### Mother of the Notorious Draft Evaders Must Pay Fine to Avoid Prison Term

PHILADELPHIA, Pa., (AP)—Mrs. Emma C. Bergdoll was today sentenced in the federal district court in one year and one day in the Alcatraz penitentiary for conspiracy to aid her sons Grover C. Bergdoll and Edwin R. Bergdoll, to desert the United States Army, and was fined a total of \$7000. Judge Dickinson in imposing sentence announced the prison sentence would be remitted if the fine is paid within the present term of court ending the second Monday in June.

## SLACKER LIST GETS WAR OFFICE INTO HOT WATER

Publication of Alleged Deserters' Names Occasions Storm of Criticism

WASHINGTON, (AP)—The war department issued a statement today expressing its regret that it had published a list of alleged deserters from the draft in a magazine. The list, which followed its action in publishing lists of deserters from the draft as shown by the magazine, was a result of the urgency of "patriotic societies and the relatives of men who did their full duty and who, in many cases gave up their lives for their country," and the fact that the list has been given out, the statement said, "it is now insisted that this list should never have been published at all until the department was absolutely convinced that there is no person on the list whose name or name who actually rendered either military or naval service during the war."

## R. W. CHILD NOMINATED AMBASSADOR TO ITALY

WASHINGTON, (AP)—Richard Washburn Child was nominated by President Harding today to be ambassador to Italy.

## OL BUYERS ANNOUNCE REDUCTIONS IN PRICES

PITTSBURGH, Pa., (AP)—Prices of some grades of crude oil were reduced from 15 to 25 cents a barrel, the petroleum purchasing agencies announced today.

## Recount of Census Gives Population Total 27,512 More

### Final Figures Show 117,867, 368 Live Under Stars and Stripes

WASHINGTON, D. C., (AP)—Final statistics placing the total population of continental United States at 107,710,620 or 27,512 more than announced last October when preliminary figures were given out, were submitted today to Speaker Gillett of the house of representatives for appointment purposes by the census bureau.

## MRS. BERGDOLL GETS SENTENCE

### Mother of the Notorious Draft Evaders Must Pay Fine to Avoid Prison Term

PHILADELPHIA, Pa., (AP)—Mrs. Emma C. Bergdoll was today sentenced in the federal district court in one year and one day in the Alcatraz penitentiary for conspiracy to aid her sons Grover C. Bergdoll and Edwin R. Bergdoll, to desert the United States Army, and was fined a total of \$7000. Judge Dickinson in imposing sentence announced the prison sentence would be remitted if the fine is paid within the present term of court ending the second Monday in June.

## FLASHES FROM THE WIRE

ST. JOSEPH, Mo., (AP)—Because none of the hotels of St. Joseph recognize the "rocks and waters" union, the banquet of the Missouri Federation of Labor, scheduled for tonight, has been called off.

## LET WING JOIN LEADERS

CHICAGO, (AP)—The congress of the Chicago-Slovak socialist movement of the left wing has voted to join the third international of Moscow, the latter standing 50 to 7. The decision was reached without reservation and the wing of the party will adopt the name of the Communist League of America. It claims to have 350,000 adherents.

## WILL PICK POSTMASTER FOR GOOD OF SERVICE

WASHINGTON, D. C., (AP)—Only the "good of the service" will be considered in selecting the man from among the three highest rated candidates for the postmaster-general position. General Hays declared today in discussing the recent executive order of President Harding on the matter.

BETTERMENT IS SHOWN IN TRADE ON WEST COAST

Department of Labor Survey of Conditions in Pacific States Basis for Optimistic Outlook on Future

SAN FRANCISCO, (AP)—Slightly improved conditions were found in a survey made recently of Oregon, California and Washington industrial conditions by the United States department of labor...

Notwithstanding the sluggishness which characterizes some part of the industry, no disposition to evade recognition of existing conditions is noticeable and feelings of confidence are evident," the report said.

Lumber Mills Booming "Decreased activities in the lumber industry have resulted in a surplus of an unprecedented number of men. The reopening of a number of mills and camps this month is affording employment to a limited number. Production continues to be greatly below normal.

Considerable concern is being manifested in the high freight rates, by the lumber interests, fruit and vegetable growers and business interests generally. While it is generally conceded that general market conditions and hesitancy to purchase at prices now prevailing are the causes for the present depression, the opinion is expressed by many that an adjustment of freight rates would be promptly reflected by general industrial improvement.

Reports indicate a slight upward trend of employment; a large oversupply of labor exists in practically all sections of the district, due to restricted activities in practically all industries.

Building Fairly Active

No material increase in the use of laboring machinery is noted this season. On some farms more horses are being attached to each gang or harrow, thus permitting the cultivation of a larger area by one driver. Farm help in many cases departing from the usual custom of awaiting offers of employment and are making direct application to farmers. Reports received from practically every agricultural district in California indicate the existence of an ample supply of farm labor to meet all present demands. Agricultural enterprises in this state are highly specialized, each farmer confining himself to one crop or product and the type of labor of meeting particular requirements is utilized.

Decreased industrial activity has caused some workers to migrate from the cities to the farms, but no movement on a large scale is noticed. Farmers are exercising greater care in the selection of help; a larger number of experienced workers is available this season throughout California. Continued efforts are being made to improve housing and local conditions of farm workers. Owing to the inability of many olive growers to dispose of last season's crops and loss of profit on low yields, they are curtailing work wherever possible. It is anticipated that the demand for workers this season will be below normal.

Long Skirts Coming Back

The long full skirt is coming back, according to leading Parisian designers, no mannikins already are displaying the newly created frocks of the Longchamps race-track, near Paris, where this photo was made. It shows a new fashioning in a new style, featuring the baggy effect, the long full skirt, and a wide collar of organdie. The loose cuffs are also of organdie.

SUSPICIONS ARE AROUSED WHEN LYDA MEYER REPUDIATED NAME OF HARLAN C. LEWIS. MAN WHOSE DEATH OCCURRED IN BILLINGS, MONT.

Alleged Murderess and Billings Husband

The picture shows Harlan C. Lewis and Mrs. Lewis, otherwise known at different times as Mrs. Dowley, Mrs. McElaffie, Mrs. Meyer and Mrs. Southland, who is charged with the murder of her fourth husband, Edward F. Meyer. She is also alleged to have poisoned the three men to whom she was successively the wife prior to her marriage to Meyer. Lewis was her third husband. They are here shown apparently happy following their marriage at Denver, the picture being taken at Billings, Montana, where Lewis was a partner in the Four-Wheel Drive Truck agency with Frank E. Tomasta, formerly of Salt Lake, the boy of Butte, Montana. Lewis was married on March 10, 1919. On June 11 of the same year the New World Life Insurance company issued a policy on his life for \$5,000, naming his wife beneficiary. On July 6, or three weeks later, Lewis died. The amount of the insurance policy was paid to the wife.

That Lyda Southland had reason for not wishing her marriage with Harlan C. Lewis generally known about Twin Falls is a statement made by Frank L. Stephan, county prothonotary, through whose initiative the woman was tracked over the country to a lair in Honolulu. Mr. Stephan says the woman took pains to cover up the fact of her marriage with Lewis in Denver on March 10, 1919. After she returned to Twin Falls from Billings she adopted the name of McElaffie, the name of the husband whose death occurred October 23, 1918. It is related that when Edward F. Meyer lay dead, Mrs. Meyer was out on the streets of Twin Falls by a representative of the New World Life Insurance company of Spokane. Not knowing of her marriage or the death of her husband, she asked if that had been anything left in the apartments in which the Lewises had lived. This inquiry aroused the curiosity of the agent, who on meeting some friends later told them of the incident. The body of Lewis was exhumed and an arsenic was found in the stomach. An investigation was made of the quarters in which the Lewises had lived. This inquiry was asked if there had been anything left in the apartments in which the Lewises had lived. This inquiry aroused the curiosity of the agent, who on meeting some friends later told them of the incident.

VIENNA CONTENT TO GO WITHOUT DOORKEYS Proposed Law to Give Apartment Dwellers Means of Letting Selves in Meets with Opposition

VIENNA, (AP)—The proposed law to give Viennese apartment dwellers front door keys and relieve the landlords from the duty of letting them in and out is meeting with widespread opposition. Apparently the people themselves do not want it and the newspapers are unanimous against it. It is also meeting with opposition from the insurance companies on the ground of increased danger of burglary if the watchful eye of the concierge is removed from the entrance. The Merchants' association has made a formal protest against its passage. The papers advance such ingenious arguments as: What can a man do if he returns home late at night and has lost or forgotten his key? What about night telegrams and doctors' visits? Must every member of the family have a key at such effect? One paper even gravely suggests the plight of a man who might get drunk and have his key stolen. The enormous size of the front door keys here is not overlooked in the general argument and it looks as if the Congress association which demands the law is going to be defeated. American readers must remember that there is no such thing in Austria as the open apartment house vestibule with its electric bell or speaking tube to every apartment, but the massive doors with enormous locks cut the house from the street, except for the janitor's bell. Chamberlain's Tablets Are Mild and Gentle in Effect The laxative effect of Chamberlain's Tablets is so mild and gentle that you can hardly realize that it has been produced by a medicine—adv.

Carrying coals to Newcastle has actually been accomplished by a firm of French exporters, who sent a direct shipment not only to Newcastle but also to Cardiff, the center of the South Wales coal fields. The coal was sent in response to a demand by English shippers suffering on account of the coal strike.

CUMMINGS SAYS CARRIERS ARE FIGHTING FOR LIFE

Krutzschmitt Agrees Failure will Result Unless Betterment Comes

WASHINGTON, (AP)—"If American railroads can't do better this year than last they won't last very long," Chairman Cummins of the senate interstate commerce committee told Julius Krutzschmitt, chairman of the Southern Pacific board Monday, when the senate's railroad investigation was resumed. The witness agreed. Senator Cummins endeavored to show that the present rate of increase used by railroads was reducing capital but Mr. Krutzschmitt said he did not have compiled statistics on the subject. Steel rails, the largest item in maintenance material costs, had increased in price during the last two years, he said. Daniel Willard, president of the Baltimore and Ohio, was called to the stand when Mr. Krutzschmitt was excused temporarily. "There has been some fear of difficulties in financial matters," he said, "and the provisions of the transportation act assuring rates high enough to pay a return on the capital may have seemed more feasible, but I believe the knowledge that roads would ultimately secure this return under the policy laid down has sustained confidence among investors."

Ohio Senator Decries Probability of War With Any Nation

WASHINGTON, (AP)—Senator Pomerehne, Democrat, Ohio, opened debate on the naval appropriation bill Monday, urging economy by retarding armaments. He decried the probability of war with any nation, though some persons, he said, "revive visions with hysteria over the island of Yap."

Supporting the Borah amendment for a debarment conference, Senator Pomerehne declared his own amendment authorizing the president to suspend capital ship construction for six months to investigate their future value.

Senator LaFollette, republican, Wisconsin, introduced an amendment to prohibit use of the navy to "coerce or compel collection of any private claim, grant or concession."

EXTENDS USE OF FUNDS FOR ARTIST AND WRITER American Founder of Fund for French Encourages American Extension of Scope of Beneficence

PARIS, (AP)—Two new bursaries for French artists and writers to encourage talent have been announced by Madame George Blumenthal, the American founder of the American Foundation for French Art and Thought. Each of these, like the ten funds already distributed, is for 12,000 francs yearly. They represent the income from invested funds given by Mrs. Blumenthal and other Americans.

One of the new funds, to encourage painting, is in the name of Henry K. Frick. The other, devoted to science, is to be called the "Jeffrey" bursary. It is endowed by an American who asked that his name be withheld. When Madame Blumenthal made formal announcement of the extension of the foundation's work to Marshal Jeffruffe, he began an expression of "gratitude." Madame Blumenthal, in answer to his, she told the magistrate. "Monseigneur le Maréchal, do not speak of gratitude. We love each other, that is all."

OPEN SHOPS' ADVOCATES SEE MOVEMENT SPREAD

Gratification with Progress of Idea is Expressed by Manufacturers

NEW YORK, (AP)—Gratification at the spread of the open shop movement was expressed in a committee report read Monday at the opening of the annual convention of the National Association of Manufacturers. "The open shop movement is meeting with gratifying response throughout the country," said the report. "The associations actively supporting the open shop now exist in 250 American cities." "Public sentiment, remembering the action of closed shop union labor during the war, and with a very vivid recollection of the Wino and Seattle general strikes, the outlaw railroad strike, coal and steel strikes and the Boston police strike, has for some time been favorable to the open shop." The committee on taxation submitted a report expressing disapproval of the excess profits tax. The committee asserted the sales tax plan apparently offered the most satisfactory solution of the whole problem.

Aviator Finds Matrimony More Dangerous Than Doing Tall Spins

Mrs. Jesse Catalano & Filippo Catalano

"He threw me out of our home and told me never to return," said Mrs. Jane Hervoux Catalano, well-known French aviatrix and bride two months in the West Side Court, New York, the other day when she appeared to obtain a summons for her husband, charging desertion and non-support. Mrs. Catalano, armed with the summons, went back to her home and Mrs. Catalano again objected her and tore the summons to bits, she told the magistrate. A policeman served the summons. Mrs. Catalano is thirty-three and her husband is ten years her junior. She has a school of aviation in New York.

# IDAHO'S WHEAT CROP IN EXCESS OF LAST SEASON

## Statistical Report Shows Only Two Per Cent of Acreage Abandoned

Winter wheat promises a crop of 8,943,000 bushels this year. The forecast is based on a May 1 condition of 97 per cent of normal, which is equivalent to a yield of 50 bushels per acre. A year ago the condition was only 92 per cent, and the crop that year amounted to eight million bushels, says Julius Jacobson, state agriculturalist in a general crop report of the state.

Small Loss. Only two per cent of the wheat sown last fall was winter killed, meaning that less than 8,000 acres will be re-sown in the spring and followed, and that 370,440 acres remain to be harvested. A year ago, the abandonment amounted to 10 per cent, while the average for the past five years is 6 per cent. Northwestern counties suffered the most winter damage, it varying from 3 per cent in Madison county to 9 per cent in Fremont county. However, in northern and southeastern counties, which have 70 per cent of the state's winter wheat acreage, the abandonment was only 1 per cent and 4 per cent, respectively.

Bye Reports Indicate Very Good Prospects. While top growth has been retarded due to cold weather up to the first week in May, still soil development has been highly satisfactory. The fields have a thrifty appearance and, still, time will be made up with the advent of warm weather.

Bye Promises Well. Bye last 5 per cent of the acreage seeded last fall due to winter killing and there are now left some 16,400 acres for harvest. A condition of 94 per cent forecast a production of 2,075,000 bushels. A year ago the condition was 93 per cent on 18,000 acres, and a crop of 2,520,000 bushels was harvested.

The same hay acreage has been reduced 2 per cent from last year's acreage, but will hay average remain the same, so that there remain for harvest 154,000 acres, compared with 1,175,000 acres in 1920. A condition of 98 per cent of normal indicates a production of 3,190,000 tons. This compares with 2,985,000 tons harvested last year. It was expected that a larger decrease in acreage would be shown, but it should be remembered that farmers are having great difficulty in financing their labor requirements and that hay crops can be harvested with less expense than any of the major crops.

Carry-over Is Large. Stocks on hand from last year's crop total 537,300 tons, or 18 per cent of the 1920 crop. On May 1, 1920, the carry-over was 46,000 tons; 1919, 80,000 tons; 1918, 257,000 tons.

Because of a mild open winter and abundance of feed, the mortality of live stock for the year ending May 1 was considerably lower than the average.

average. The loss per thousand head, all ages, as estimated May 1, is as follows:  
Horses and mules from disease, 11; cattle from disease, 10; cattle from exposure, 2; swine from disease, 12; sheep from exposure, 15; sheep from exposure, 13; lambs from both disease and exposure, 20.

**Estimates.**  
Winter wheat—Production, 8,943,000 bushels from 28,721,000 acres. Production last year was 8,175,000 bushels from 27,373,000 acres.  
Bye—May 1 estimate, 75,000,000 bushels. 1910 production, 69,318,000 bushels.  
Hay—Forecast for 1921, 107,778,000 tons; production last year, 108,233,000 tons.

# SUBSTITUTE FOR WHEAT IS FOUND

## Scientists Bend Efforts to Development of Grain Growing Wild in Tropics

MANILA, P. I., (AP)—The cultivation of adlay (rice lacryma jobi) with the view to its utilization as a food grain, has been undertaken by the bureau of agriculture and natural resources of the Philippine islands. The grain, which is not unlike a wheat kernel, grows wild in the Philippines, and other tropical countries and has been selected for experimental purposes, such as seedcakes and for ornamenting picture frames, although the inhabitants of southern China are said to use it as grain for fowl in small quantities.

The bureau of agriculture has for some time been engaged in developing the possibilities of raising at its experimental stations in various parts of the island and it is now able to announce that the grain may be grown in small quantities as to form a valuable food product. The average yield, the bureau says, is between 2000 and 3000 pounds to the acre and the plant can be grown successfully, without irrigation, at all elevations from sea level to 2000 feet above the sea.

In a statement on the preparation of adlay for food, the bureau of agriculture says:  
"As to the use of adlay for human food, more particularly as a wheat substitute, we have found that when hulled, it soaks up like rice and can be cooked. The average yield, the bureau says, is between 2000 and 3000 pounds to the acre and the plant can be grown successfully, without irrigation, at all elevations from sea level to 2000 feet above the sea."

The average yield, the bureau says, is between 2000 and 3000 pounds to the acre and the plant can be grown successfully, without irrigation, at all elevations from sea level to 2000 feet above the sea."

# HOMELAND CALLS MANY BRIDES OF SERVICE MEN

## Numerous French Girls Among Applicants for Passports at Chicago

CHICAGO, Ill., (AP)—Many French brides of American soldiers are taking wing back to sunny France, according to the April records of the United passport office.  
"Presumably they are going back to visit," said Thomas Sells, deputy clerk of the U. S. court in charge of passport's office. "At least that is the reason most frequently assigned on applications."

Swedish girls, too, are making the pilgrimage to the land of their birth. In fact, the number of women of all nationalities now applying at Chicago for return to Europe decidedly exceeds that of men. Swedish girls, however, are also swarming the flow to foreign shores.

The legat in Sweden, Mr. Sells thinks, is largely traceable to the fact that the Swedish consular office in 1920, which gave them funds sufficient for the trip.

But by far the largest number of passport men have been here lately from Germany as "destination," Mr. Sells said. "Since we are still technically at war with Germany, however," he pointed out, "passports cannot be issued to them from this office. Invariable, though, the applicants for German passports come to us first, and in this way we know approximately the number of passport men going there. We send them, of course, to the local Swiss consular, who has charge of German affairs pending the declaration of peace. He issues the passports without further delay."

The flow toward Germany is large by women, who are returning to visit relatives or seek them in the German home front. Very few men are returning, it is said, save of business missions.  
Passports to Poland are being issued only in cases of extreme necessity, and no passports whatever are being issued for soviet Russia.  
The daily office at the Chicago passport office averages now 65 as against 100 in the past. This office is the second largest dispenser of passports in the country, Mr. Sells said.

## Brief Bits of Sport

Orville Hill James is going to try a comeback with an independent team at Lewiston, Idaho.

Harry Wright Junior, son of the famous old time ball player and manager, is this year to manage an independent team at Cape May, N. J.

It's a year of Finagone—and an off—for Pat Shea. The White Sox take him, then they don't want him. The latest is they don't want him. The Tokyo boy will be in John McGraw's hands.

The Cincinnati Reds looked exhibition games in Detroit and Springfield, Ill. for May 2 and 3, but rain and cold weather prevented playing them and the Cincinnati management lost a lot of money.

May 11 was the date—after the dinner for the Cleveland club to unfurl the pennant emblematic of the base ball championship of the world. The Washington club drew the honors as visiting team.

A New York critic asks: "Will Tierney become the lay wonder of the National league?" No, Cotton might become a wonder in the league, but he never will be a lay again; he's been here too long.

Both Chicago clubs played in Chicago on May 1. The White Sox attendance was reported as 14,000 and that of the Cubs as 10,000. It was not the sort of a day for any but the most hardy fans to turn out.

The quota of big cities in the Texas league were trailers in the matter of attendance figures as given out for the opening games, showing that the worth of a city in baseball is not always measured by its population.

About this time last year the Detroit Tigers, after losing their first 10 games in a row, were wondering if they ever would get out of the cellar. Al Hale Ruth was worrying about with last three home runs to his credit.

The London Minters on their way back from their training camp in Ohio, stopped at Jackson and played two games with Danzig Jenkins' Jackson Central league team, winning both by top heavy scores of 21 to 6 and 11 to 1.

Out in California Chick Gambl told what he was going to do to Eddie Collins when he saw him, for alleged snitching. When Gambl got to Chicago he had better to tell the newspaper reporters that he didn't blame Collins for the mess he is in.

George Murray, the North Carolina catcher pitcher who is in jail in New York, Yankees when school closes is doing some student's twirling in the southern college field and exhibiting a notable trend up for a big showing with the Yankees.

The St. Louis Browns last week took on the hometown Bernice Boland, and lost to the Detroit club. Manager E. D. Bell has his possibilities of Boland coming around in the St. Louis climate, he has had a bad hitting situation is pretty desperate.

If anybody wants to know, George Kelly did not hit his first home run last season until August 17, when he belted on Dick Rudolph for his fourth home run. From then on he hit them frequently and was only taking an average of one home run per game in 1921 campaign.

The Chicago White Sox have won three games in a row.

This constitutes a season's record in consecutive baseball contests, topped this year—by the White Sox.

# DENIES JAPANESE GUNS LAND ON PHILIPPINES

## Constabulary Commander at Mindanao Reports No Truth in Report of Oriental Activity

MANILA, P. I., (AP)—Official denial has just been made of many recent reports that Japanese had landed 14 high-powered guns at Davao, island of Mindanao. The provincial constabulary of the Philippine constabulary, after an investigation, reporting to Brigadier General Rafael Canale, chief of the Philippine constabulary, said:  
"With reference to the 14 large cannons reported to have been found in the interior of Davao, I have found none, except a few old obsolete iron tanks (More brass cannons) of large caliber now being used as park decorations. Some of these were found by Spaniards in the hands of Moros in 1848 when Davao was conquered. Others were brought to the place after wards."

# ST. LOUIS AND BOSTON SHOOT MANUFACTURERS COMBINE

BOSTON, Mass., (AP)—The merger of the International Shoe company of St. Louis and the W. H. McElwain company of this city, shoe manufacturers, was announced today. It brings together companies whose combined sales aggregated \$130,000,000 last year. The announcement said that the merger takes in 32 shoe factories of the International shoe company in Illinois, Kentucky and Missouri; three tanneries of Litch, Leach and company of Boston, recently merged with the St. Louis concern, in Pennsylvania and North Carolina ten shoe factories, two tanneries, and four shoe-materials factories of the W. H. McElwain company all located in New Hampshire.

**"Somé Biscuit!"**

**CALUMET BAKING POWDER**

Finally—what a difference in the taste. There is a deliciousness, a goodness that can be had in no other manner. Biscuits, pies, cakes, muffins, doughnuts—never were so tasty—so satisfying.

And then there is the satisfaction of knowing that Calumet is made in the World's largest, best equipped and cleanest Baking Powder Factory...

Found cans of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Biscuit Recipe  
4 cups of sifted pastry flour, 4 level teaspoons Calumet Baking Powder, 1 level teaspoon of salt, 2 rounded table-spoons of butter or lard, 1/4 cup of milk, 1/2 cup of water. Then mix in the regular way.

**Ouji Evidently Told Lie, Now Owner Faces \$10,000 Suit**

Clara Yost  
Eloise Yost  
Frank Walker

Clara Yost, fireproof companion in thousands of homes and confidential adviser to hundreds of families, has been dragged to court in a \$10,000 suit for slander in the Will county court at Joliet, Ill. A year ago the family of Mrs. Clara Yost, of Lockport, Ill. went away for a brief visit. On their return they found a quantity of sugar and raisins missing. Mrs. Yost began an investigation and assaulted the ouija board. Ouji, it is alleged, stated that Mr. and Mrs. Frank Walker, neighbors and old friends of the Yost family, had taken the missing articles. The story circulated about Lockport and Mr. and Mrs. Walker demanded that Mrs. Yost make a retraction in the local paper. This she refused to do and the \$10,000 slander suit is the result.

**I'd walk a mile for a Camel**

The pleasure is worth it. There's no substitute for Camel quality and that mild, fragrant Camel blend.

The fellow who smokes Camels, wants Camels. That's because Camels have a smoothness, a fragrance and a mildness you can't get in another cigarette.

Don't let anyone tell you that any other cigarette at any price is so good as Camels.

Let your own taste be the judge. Try Camels for yourself. A few smooth, refreshing puffs and you'd walk a mile for a Camel, too.

HISTORY SHOWS MANY BORGHIAS USED ARSENIC

Toxicologists Record Poison's Frequent Use by Women of Homicidal Intent

White arsenic, first prepared in the third century, is declared to have caused more destruction of life than any other poison except opium and its derivatives.

The first recorded attempt at murder with arsenic, it is believed, was that of Woudroust to poison Charles VI of France in 1384 and the poisoning of Toffana and Spain in the end of the seventeenth century was it declared, probably arsenical poisoning.

Last for murder in Germany resulted in the execution of a woman named by name, who moved in the highest circles of Berlin and who destroyed her husband, her lover, her aunt and her maid servants.

Another, German, Anna Marg Schmidt, was charged with poisoning three persons, and made numerous attempts to kill others, all with arsenic.

Children and Husband Victims: O. Mary Gottfried was executed in Bremen. She had poisoned fifteen persons with arsenic, her two husbands, and an intended third.

Another adept at poisoning was a pharmacist in Havre, who poisoned fifteen persons. Still another, was first of her kind in poisoning her father, her mother and son, as the final act of a series of poisonings by her during several years, all with arsenic.

Mrs. Mary Ann Cotton was convicted in 1873 of the murder by poison of her stepson and it was brought out that she had killed one of three husbands, four children and fourteen other persons.

The Maybrick case in England was one of the famous murder cases by poison. It was claimed that Mrs. Maybrick had purchased arsenic flasks to use as a solution for use as an external application for a cosmetic, and in her case it was shown that she had purchased three dozen arsenical flasks.

It was at first thought that she had used belladonna as the poison which was administered to him, but a test of the use of belladonna on rabbits showed that they thrived upon the drug and the leaves of the plant and her arrest followed, with the result that she was convicted of poisoning her husband with arsenic.

In the United States a famous poisoning case was that of Henrietta Robinson, who was convicted of the murder of her son, eight other members of her family having been poisoned with arsenic.

It had been said that many women use arsenic for the improving of the complexion, and that many of the arsenical waters for the complexion were largely advertised in the United States.

In later years laws have been enacted.

(By International News Service) The theory that the legal mind is necessarily masculine in gender, has been exploded in the last few years by a number of women lawyers who have made good in their chosen profession, some being elected judges of various courts.

St. Louis Player Doctor by Profession, Ball Player by Choice

Dr. J. L. Lavin, star shortstop of the St. Louis Cardinals, is a real, honest-to-goodness M. D. During the winter he follows his profession, but with the coming of spring he heads the call of the ball game from his baseball bag.

which prevent, the sale of poison only the prescription of a physician and such purchases have been thrown around the purchase of poison, that they can not be secured without a great deal of trouble.

SEEKS FARMERS' VIEWS ON PENDING QUESTIONS

Farm Bureau Federation Sends Questionnaire to 2,000,000 Tillers of Soil

MT. PAUL, Minn., (AP)—A referendum covering 15 questions of agricultural nature, now pending consideration by the House, has been mailed up by approximately two million farmers, it was announced today.

The principal questions upon which the vote is to be cast include: "Do you favor legislation making stock raising of farm products illegal?" "Do you favor putting the packing industry under government regulation?"

"Are you in favor of continuing the excess profits tax?" "Do you favor the submission to the state of constitutional amendments prohibiting the issuance of tax-exempt securities?"

The call for the poll of farmers throughout the nation also involved an attempt to bring about voluntary rate reductions in freight rates on the part of railroads by demonstrating that lowering of rates would result in traffic increase, so large that it would more than make up for reduced charges.

One of the questions upon which the farmer will be asked to submit their opinions is whether the average farmer will be asked to substantially larger amount of agricultural products if the American Farm Bureau federation obtain an adequate reduction in freight rates.

Making Use of Lizard Skin. The lizards of India and India has a great crop of them—are hunted for their skins.

Love Works Miracles. The cure for all ills and wrongs, the cures, the sorrows and the crimes of humanity, all lie in the one word "love."

Echo of the God House. An excellent substitute for cork is now obtained from turf, which, treated by a novel invention process, furnishes a material for insulation and building purposes quite equal to cork.

Success at Last. "Ah!" said the goffer, who was asking, as the ice came way beneath him, "at last I have developed a perfect follow through!"—Boston Transcript.

TROUBLE FEARED IN MINGO FIELD

Authorities on Guard Against Untoward Activities on Battle Anniversary

WILLIAMSON, W. Va., (AP)—Preparations are being made here to anticipate any untoward activities on the Mingo fighting front next Thursday, May 19, the anniversary of the battle of Matawan, 1920, in which ten persons were killed, including the mayor of the town and seven military police detectives.

WAR DEPARTMENT IS NOT DISPOSED TO INTERFERE WASHINGTON, (AP)—The federal government is not disposed to declare martial law and employ regular troops in the Mingo county, West Virginia strike region, merely to anticipate a situation that may get beyond the control of the state authorities, Secretary Weeks declared today.

Today's Markets

WHEAT PRICE HOLDS OWN

Downturns Following Initial Rise Bring Quotations to Yesterday's Level

CHICAGO, (AP)—Buyers on the part of a certain trader who has recently been on the bear side led to a material advance today in the price of wheat. Bullish sentiment was also engendered by the meagerness of the visible supply and that of the stock on hand in Chicago, and by the squeeze in May delivery at Minneapolis.

Following, owing to heavy profit taking sales and a decline in the corn market, most of the wheat advance was lost. The close was unaltered at the same as yesterday's final, 1.02 1/2 higher with May \$1.96 1/4 to 1.01 1/2 and July \$1.15 1/4 to 1.15 1/2.

Corn netted heavy at the start, but rallied when wheat began to ascend. After opening unchanged to 1.3 to 1.4 lower, including July at \$1.98 to \$1.97, the market sagged a little further and then scored gains all around.

Later the market was without support, declining rapidly under commission house selling. Country offerings were said to be larger. The close was higher, 5/8 to 7/8 net lower, with July 60 7/8 c.

Oats paralleled the fluctuation in corn, starting unchanged to 3-8 lower, July 35 3/4 to 35 7/8 and later showing some advance.

A big increase in the supply of yard here weakened quotations.

Cash Quotations. CHICAGO, (AP)—Wheat No. 1 hard \$1.61 to 1.61 1/4; No. 2 mixed \$1.61 1/4 to 1.61 3/4; No. 3 mixed \$1.60 3/4 to 1.60 3/4.

Oats No. 2 \$1.39 to 1.40. Barley 38 to 38 1/2; No. 2 white \$1.2 to \$1.2 1/2.

Clover seed \$13 to 18. Pork nominal. Lard 40.25.

Flour unaltered. MINNEAPOLIS, Minn., (AP)—Flour unaltered. Wheat receipts 137 cars, compared with 214 cars a year ago.

Cash No. 1 Northern \$1.44 3/8 to 1.51 5/8; May \$1.38; July \$1.21 3/8. Oats No. 2 \$1.39 to 1.40.

Flax No. 2 \$1.83 to 1.85. Rye No. 2 \$1.89 3/8 to 1.91 1/4. Flax No. 2 \$1.83 to 1.85.

CHICAGO, (AP)—Butter unchanged. Eggs unchanged; receipts 34,858 cases. Poultry alive unchanged.

Portland Livestock. PORTLAND, Ore., (AP)—Cattle 25c lower; receipts 845; choice steers \$8.25 to \$10; medium to good \$7.50 to \$9.50; fair to good \$6.50 to \$7.50; common to fair \$5.75 to 6.75; choice feeders \$6 to \$6.50; fair to good \$5.50 to 6; choice cows and heifers \$6.25 to 7; medium to good \$5.75 to 6.25; fair to medium \$5.25 to 5.75; common \$4.75 to 5.25; canners \$2.75 to 4.25; bulls \$3 to 5.50; choice dairy calves \$9.50 to 10; prime light \$9 to 9.50; medium light \$8 to 9; heavy \$2 to 8.

Hogs 25c lower; receipts 105; prime light \$9.25 to 9.50; smooth, heavy 250 to 300 pounds \$7.50 to 8; 300 pounds up and \$6.50 to 7.50; rough heavy \$5 to 6.50; fat pigs \$9 to 9.75; feed pigs \$8.50 to 9.50; stage \$4 to 7.50.

Sheep 50c lower; receipts 285; prime lambs \$7 to 7.50; fair to good \$6 to 7; culls \$4.50 to 5.25; feeders \$3 to 4.50; light wethers \$4.50 to 6; heavy \$3.50 to 4.50; ewes \$1 to 4.25.

Omaha Livestock. OMAHA, Neb., (AP)—Hog receipts 8,000; generally steady; bulk 180 to 240 pound butchers \$8.15 to 8.35; top \$8.40; bulk butchers 250 pounds and over \$7.85 to 8.10; packing grades, smooth \$7.25 to 7.65.

5-hilt receipts 6,000; killing classes steady to 15c lower; early top steers \$8.75; veals steady; stockers and feeders firm. Sheep receipts 5,000; lambs generally 5c higher; top California spring lambs \$13.60; best clipped lambs \$11.85; sheep steady to strong; feeders unevenly higher; best clipped feeding lambs \$9.25 to 10.

Chicago Livestock. CHICAGO, (AP)—Cattle receipts 10,000; generally steady; early under tone weak; choice medium weight steers \$9.50 to Wisconsin for further gains; top yearlings to keels \$9.50; bulk fat stock \$8 to 7.50; bulls higher; \$5.50 to 6.25; calves strong to higher; bulk vealers \$8.50 to 9.25; top to shippers \$9.50 to 10; stockers and feeder steers \$6.50 to 7.50.

NEW YORK STOCK MARKET. NEW YORK, (AP)—Price movements were uncertain today's sluggish stock market, the firmness of money provoking further occasional pressure against the wall leaders.

Sales approximated 400,000 shares. The market closed strong today's late rally showing extensions in almost every part of the list.

International Paper overstepped all other issues on its first transaction of 1,500 shares, at a large fractional price, which soon was increased to almost 2 points.

Standard or better hay, in stack, first cutting, \$7.25; same, poorer, as low as \$6.00; baled, \$12.00.

HOUSEWIFE'S GUIDE (Retail Prices). Flour, 20-lb. sack \$3.10 to \$3.20. Sugar, best, 100 lb. \$9.25 to \$9.45.

Sugar, cane, 100 lb. \$9.35 to \$9.55. Potatoes, 100 lb. \$1.25 to \$1.50. Cream Cheese \$5.50.

Brick Cheese 35c. Beans 25c. Lettuce, leaf, lb. 15c. Head \$20.

Butter (creamy) 25c. Butter (rich) 20c to 25c. Eggs (crack), doz. 20c to 25c. Chickens 40c.

Bacon 35c. Bacon, sliced 35c. Ham 50c. Ham, sliced 50c.

Pork chops 25c to 30c. Mutton chops 25c to 30c. Pork roast 25c to 30c. Pork sausage 25c.

Steak—Sirloin 35c; T-bone 35c; round 30c; chuck 25c. Beef—7-8 rib 20c; neck 17 1/2c; plate 15c; brisket 10c.

Mid-Season Silk Sale. \$1.59. Taffetas, Messalines, Fancy Taffetas, Georgette Crepe, Crepe de Chines, Crepe Failles. Wonderful silks in a wonderful array and at prices less than half. Such quality as you would find in silks selling for \$3 and \$4 per yard. And now because of our Mid-Season sales, you can buy them for the astonishingly low price of \$1.59. Remember, folks, that these are not cheap silks, purchased to make a hit with their low price, but quality silks reduced to less than half price because we want to give you something extra during our Mid-Season Sale. There are about 600 yards in this group and they will be on sale until every yard is sold. Included in this lot are Taffetas, Messalines, Georgette Crepes, Crepe De Chines, Fancy Taffetas, and Crepe Failles. The color range is good, including every desirable shade.

# CHURCH EDIFICE COST \$100,000

### Christian Congregation Makes Plans for Erection of Modern Structure

Erection of a church building to cost \$100,000 is contemplated in plans being prepared for the board of trustees of the First Christian church. Building operations will start early next spring. The edifice will be a steel structure, corner of Fourth avenue east and Second street.

Official announcement to this effect was made today by K. B. Peters, treasurer of the church. Mr. Peters, with W. C. Chas. representing the church board of trustees, last night appeared to and received from the city administration permits to erect a temporary structure on the site of the present church. Operations on this temporary edifice are to be started so that it can be occupied for services this fall. The structure will be planned with a seating capacity of 500.

The proposed new church building is to be constructed throughout of fireproof material and will be colonial in architectural design and will be equipped in all its equipment and appointments. A pipe organ, of latest type, and adequately suited to the purposes of the church will be installed. Under the existing structure there will be a full basement, and arrangements will be made for ample class rooms as well as Sunday school and general auditorium. The normal seating capacity of the building will be 500.

The present First Christian church building was erected 16 years ago, at which time it was regarded one of the most substantial and adequate structures of the city. It was a full basemented building, and the congregation has far outgrown the building, creating demand for a new and more commodious structure. The board of trustees is composed of: W. C. Chas., chairman; Peters, D. W. Hylgaard, J. C. Chas., John Klimes, S. A. Pittsburg.

## Social Notes

Edited by Mrs. E. B. Williams Telephone 598

The Children's World Crusaders of the Baptist church met Saturday afternoon in the bungalow, for their first business meeting. There will be a full program prepared by one of the girls, the boys and girls interested themselves in doing missionary work. At the close of the afternoon refreshments were served by Mrs. J. K. Jensen, Mrs. O. J. Johnson and Miss Edna Drough.

The Wintodisc club will meet on Wednesday afternoon with Mrs. W. J. Young on Fourth avenue east.

The Mentor club met at the home of Mrs. H. A. Giese on Thursday afternoon. There were 12 members and two guests present. A general social time was enjoyed and refreshments served by the hostess assisted by Mrs. Bowen. The next meeting will also be at the home of Mrs. Bowen. The next meeting will be held with Mrs. Bowen at Carry.

The Women's Pan-Hellenic club met at the home of Mrs. E. C. Helms on Monday afternoon. After the business session a social hour was spent and refreshments served. Sixteen members were present. The next meeting will be held at the home of Mrs. A. J. Peavy.

The Star Social club met on Monday afternoon at the home of Mrs. Edward S. Hanson in East Lewis. After the transaction of business the afternoon was spent socially and the hostesses Mesdames Chas. Jones, Quaye, Crossy, and James Smith served refreshments. A vacation of Hines was used to decorate the rooms.

## Local Brevities

Birth—Born to Mr. and Mrs. W. J. Reed; Sunday morning, May 15, a son.

On Business—Alan Goodman of Rupert was a business visitor in Twin Falls yesterday.

Mrs. Weatherly Calls—Mrs. Fred Weatherly of Elmer was a Twin Falls visitor Monday.

Comes from California—J. F. Evans of Pomona, Cal., is a guest at the home of his son, Clinton W. Evans.

Returns from Europe—Mrs. Fred Wahl returned Monday from an eight months visit in Switzerland.

Come from Jerome—Mr. and Mrs. E. Bennett were visitors in Twin Falls yesterday and today from Jerome.

Will Visit in Salt Lake—Mrs. R. E. Hanks has gone to Salt Lake where she expects to visit for some time.

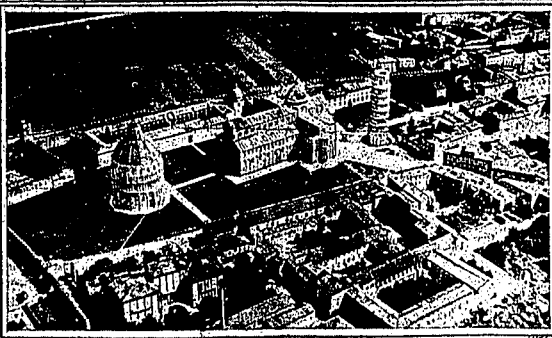

On Week's Visit—George Steele of Portland, Ore., is spending the week at the home of his brother, Robert W. Steele.

To Work in Bank—Leland Bennett departed Monday for Boise from there he goes to Caldwell where he has a position with a bank.

Home from College—Miss Irene Warner arrived yesterday from Oakland, Cal., where she has been a student at Mills college for the year.

Were at Hot Springs—Mr. and Mrs. Willbur Bolton of Kimberly, Miss Ar-

## Historic Italy from the Air

An aerial view of a section of the historic City of Pisa, Italy, showing the famous Leaning Tower of the Cathedral, and the famous Leaning Tower of the Cathedral, and the famous Leaning Tower of the Cathedral.

## PATIENT MAKES RAPID HEADWAY AT SPRINGS

County Officers Report splendid improvement in Mrs. Smith's Condition

Dr. U. Q. McGinnis, county physician, and H. G. Jackson, health officer, returned yesterday from Smith's Springs, 41 miles south of Twin Falls. They spent several days inspection the place and looking after the wants of the patient. The authorities report Mrs. Arthur Smith, who was taken to the springs a fortnight ago, showing wonderful improvement in physical condition.

Mrs. Smith, the authorities report, when taken to the springs, was suffering from rheumatism and was in a helpless condition. Improvement has been marked from almost the first day it is stated.

## LOOKED AFTER BUSINESS

E. Dillard and C. L. Bonny were among the residents of Burley who looked after business affairs in Twin Falls Monday and Tuesday.

No Damage—The new fire apparatus was called to the Reed apartments last night to quench a fire discovered in a small automobile. The blaze was easily extinguished.

Leaves for Home—Miss Arvilla Ball who has been a member of the faculty of the Kimberly high school the past year, left Monday for her home at Santa Ana, Cal.

Gone to California—Mrs. Mary Mitchell left this evening for Long Beach, Cal., where she expects to make her home. She will visit friends in Salt Lake several days en route.

James Tuttle Leaves—James Tuttle, father of Mrs. Charles Maranley, departed this morning for his home in Albert Lea, Minn. Mrs. Tuttle will remain for some time visiting with her daughter.

Twin Girls—Born to Mr. and Mrs. Roy Bruce, 401 Ninth avenue east, May 14, twin girls, Daisy Deana and Frances Louise. The former weighed two pounds four ounces; her sister one pound 13 ounces at birth.

Visits Sister—Miss Jessie Erick, and Miss Edna Hild of Boise spent Sunday and Monday at the home of Miss Beick's sister, Mrs. C. C. Cole in this city, leaving this morning for home. The trip was made by automobile.

Believed to Be Inmate—William Long is a prisoner in the county jail awaiting completion of plans for an investigation of his mental condition. The man, who is 35 years of age, was complained of by Hansen residents to Sheriff Sherran, and was picked up by the authorities. He is said to have acted in a suspicious manner while loitering about Hansen and environs.

Pays Fine—C. H. Long this morning appeared in the municipal court and entered a plea of guilty to a charge of turning an automobile in the middle of a block. A small fine to defray costs of the action was imposed. Long paid, and announced he would leave immediately for California. The arrest was made by Roy Brown, motorycle policeman.

TO ATTEND FUNERAL—Members of American Woman lodge No. 1114 are requested to meet tomorrow afternoon in Moose hall at two o'clock that they may attend in a body the funeral of S. P. Atterton.

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

Pup, "Bad" Boy's Pal, Sent to Reformatory with Lad, for Contempt

"Send me, send my dog," sobbed the twelve-year-old Billy Dunlop, as he faced Judge Ben Lindsey in the juvenile court in Denver when he was sentenced to the state reform school as an incorrigible. In sentencing the lad Judge Lindsey placed his hand on his shoulder and "Trixie," Billy's mongrel pup, who had accompanied his young master to court, growled and seized the judge's

## COBURN AUTO COMPANY GETS IN NEW QUARTERS

New Concern Starts Business in Stand of Old Twin Falls Concern

The Coburn Auto company, of which A. C. Coburn is head, has established quarters in the building on Second avenue, formerly occupied by the Twin Falls Auto company. The place was formally opened for business this week.

The Coburn company will pay attention mostly to the storage of automobiles, washing, greasing cars and supplying gas and oil. There will be no machine shop or repair department. The building has a storage capacity for 44 machines. The place has been remodeled and refitted for the purposes of the new concern. Mr. Coburn for six years was connected with the Lind Auto company as salesman.

## HIGHWAY COMMISSION RELEASES TWO WORKERS

W. F. Edwards, Engineer, and J. J. Byers, Draughtsman, Taken from Payroll

At yesterday afternoon's meeting of the Twin Falls highway district board of commissioners a cut in the monthly payroll was made when the board decided to dispense with the services of two members of the engineering force.

W. F. Edwards, assistant to the chief engineer, and J. J. Byers, office draughtsman, were released. President Asher B. Wilson today stated, in explanation of the releases, that the engineering work of the district is well in hand, with little outlook for need for a large working force.

## INSANE MEXICAN GOING TO BLACKFOOT HOSPITAL

Attendant to Accompany Thru to the State Institution—Court in Release

An attendant arrived this afternoon from Blackfoot and will leave this evening with Emmanuel Hara, who has been found to be insane.

There is no session of the district court today, all cases on the criminal docket having been disposed of. Judge Babcock will open a civil calendar tomorrow.

## GETS FOUR MONTHS TERM

C. V. Carr, a married man separated from his family, was yesterday sentenced by Judge O. P. Duvall to serve a term of four months in the county jail. Carr acknowledged a state charge, alleging misconduct with a minor girl.

TO ALL PRESENT AND PROSPECTIVE SUBSCRIBERS—The new issue of the telephone directory closes May 23rd. Kindly arrange to take care of any contemplated changes on or before that date. The Mountain States Tel. & Tel. Co.—adv.

If your property is desirable, and is advertised in the classified—"you'll find your buyer."

Water Power Development. If the falls of Niagara were fully utilized it has been estimated they would supply energy equal to 7,000,000 horsepower, while on the upper Mississippi 2,000,000 such units of work should be available.

## DENTIST SURE OF DEATH OF BERGQVIST ATTORNEY

Tells Investigating Committee Gibbons's Identification is Positive

WASHINGTON, D. C. (AP)—Dr. William H. T. Collins, a Philadelphia dentist, told a house investigating committee today that there was no doubt that D. Clarence Gibbons, counsel for Grover Cleveland Bergdall, Philadelphia draft evader, was drowned in Mexico last December. He said that after the body had been shipped home he was called in and made certain of the identification from a close study of the teeth.

The committee which is investigating Bergdall's escape sought to clear up all doubt as to the death of the lawyer in view of recent reports that Gibbons was still alive.

Before going into this phase of the inquiry the committee examined Major Edmund A. Buchanan, who testified that the military intelligence department got on the trail of Bergdall immediately on receipt of word that he had eluded his guards. The witness contradicted the testimony of Samuel R. Ansell, former acting judge advocate general of the army and counsel for Bergdall, that the Ansell firm paid for posters offering a reward for the capture of the prisoner.

## SHARK'S USEFULNESS ENDED

A shark in Siskyou harbor, Idaho, falling to take a baited hook, was fed a large piece of pork containing chlorinated fresh lime. The action of the water on the lime caused an explosion which threw pieces of shark meat 200 yards away in the mangrove thickets.

Integrity First of All. Integrity is the first step to true greatness. Men love to praise, but are slow to practice it—to maintain it in high places costs self-interest; in all places it is liable to opposition, but its end is glorious, and the universe will yet do it homage.—C. Simmons.

Water Power Development. If the falls of Niagara were fully utilized it has been estimated they would supply energy equal to 7,000,000 horsepower, while on the upper Mississippi 2,000,000 such units of work should be available.

## STRANGE WOMAN DOMINATES CULT

### Police Investigations Into Japanese Organizations Bare Extraordinary Situation

TOKIO. (Delayed.) (AP)—The sudden arrest of three priests who preside over the mysterious Japanese cult known as Omotoko, founded by an elderly woman named Deguchi, has again brought into public notice this religion which aroused interest throughout the empire because it is regarded as a strange mixture of extreme chauvinism and revolutionary radicalism.

Many extraordinary reports have recently been circulated concerning the mysterious influence of the cult. For instance, some people attributed the recent curious murder of a wealthy Osaka business man while he was traveling in a train from Tokio to that city, as an act of vengeance of Omotoko.

Many wealthy people who became interested in the cult are alleged to have been forced to make large contributions and it is even charged that some people who obtained intimate knowledge of the secrets of the religion mysteriously disappeared. Some who were in Aoyama, a small village in the province of Danjo, Kyoto prefecture, where is located the headquarters of the religion, for the purpose of detecting the real nature and scope of the cult have failed to return and are entirely unaccounted for.

The charges upon which the three priests were recently arrested is unknown and the Japanese newspapers have been forbidden to publish any news concerning the arrest. A girl of 14, Naohi Deguchi, the daughter of the founder is supposed to be the presiding mistress of the temple and it is declared that other priests have explained the disappearance of their worshippers by telling the Omotoko worshippers that they have been hidden by some unseen deity in accordance with divine will.

One of the attributes of the temple at Aoyama is supposed to be a sacred water in the compound of the temple and this water was supposed to come from a spring of holy origin. Mining engineers from Kobe working on a concession near the temple discovered two big water pipes which fed the well from a nearby pond. The engineers will excavate the ground of a suburban house at the temple.

The story of the cult is that the founder of the cult buried a million yen worth of pure gold in the floor of the temple and that ten carpenters were employed in the construction of the hall never returned to their homes.

### ORLEANS SEEKS HONORS

City Defended by Jeanne d'Arc Aids for Emblem of Distinction.

PARIS. (AP)—Orleans, chiefly famous because of its defense against the English by Saint Joan d'Arc, recently succeeded through Mayor Leger that the Legion of Honor should be given the city.

### Whopping Cough

This is a very dangerous disease, particularly in children under five years of age, but when no proferic coughs of other origin is given, is easily cured by giving Chamberlain's Cough Remedy.

## PROPOSES "HOT" STORAGE

### West Virginia Entomologist Works Out Plan for Combating Insects

Morgantown, W. Va., (AP)—"Hot" storage as opposed to "cold" storage for many things affected by insects, but not by heat, may be realized soon if the experiments of Prof. L. M. Peairs, of the department of entomology of the University of West Virginia prove entirely satisfactory. Professor Peairs has met with a great degree of success in showing the practicability of hot storage for such articles as carpets, clothing, particularly furs and woollens, as well as cereals, dried fruit products and other materials unaffected by dry heat.

Professor Peairs has used grain and carpet beetles and other insects of a similar nature in demonstrating that they do not develop at a constant temperature of 100 degrees Fahrenheit and in some cases at 95 degrees. Even such forms of insect life as could survive a constant temperature of from 95 to 100 degrees, he said, then he has concluded that hot storage with a uniform and constant temperature of 100 degrees would prove more effective than cold storage in many cases.

## PROVIDES ACCOMMODATION AT FORMER BATTLEFRONT

### American Organization Transforms the German-Headquarters at Laon Into Hostess House

LAON, France. (AP)—An American hostess house for the convenience of Americans planning to tour the battlefields of the line and the Somme will be opened here in May by the American Committee for Devastated France. For 52 months the mansion it will occupy was the headquarters of a German command and it has now been remodeled for the American traveler.

From the hostess house special motor trips under the leadership of American guide chauffeurs will be arranged to the centers of the American Committee at Salouster, Bierancourt, Anisy, etc.

### VETERAN'S MALADY FUZZLES SPECIALISTS

GENEVA. (AP)—Emile Froideveaux, 63, dying of an ailment that has puzzled specialists for two years. Little by little his legs and parts of both arms have been amputated in a series of 33 operations that have not stopped the spread of the malady.

If a man is to be moved from a hospital to his home where, it is hoped, he may receive in ceremony, before he dies, the Croix de Guerre awarded him by the French government.

## LENINE LOOSES GRIP TOO LATE

### Abandons Control Over Breadstuffs after Food Supplies are Exhausted

BEHLIN. (AP)—Lenine's abandonment of government control of foodstuffs came too late to relieve the situation in Bolshevik Russia, according to letters received in Berlin from a family which has lived in Petrograd throughout the Bolshevik regime.

"The conditions are worse for us than they were when food was issued on cards," one letter stated. "We are told now that we may buy food and the peasants are told they may sell food without violating government regulations. But there are no food stores. And the peasants about Petrograd have little food to sell. They don't want paper roubles."

"They even refuse all sorts of manufactured articles in exchange for what little food they may have. They are afraid to give it us, as they are not sure that they can get another crop the coming year."

"The Petrograd district is so sterile that little is produced here in normal times. Transportation is so bad, and the peasants in the grain districts have sent no surplus to the city. The government simply couldn't continue the small rations it was issuing on cards. So it told us to do for ourselves a job which it could not accomplish with all its power and military force."

"The re-establishment of free trade and the announcement that government restrictions have been lifted will not put food into cities which have no supplies, which have no adequate railway connections with grain districts and no means of reconciling peasants who attribute most of their troubles to the two great cities in Russia and want to starve them out."

## NOMINATES OFFICIALS TO ADMINISTER PATENT OFFICE

WASHINGTON. (AP)—William A. Kinman, of Michigan, was nominated Monday by the first assistant commissioner of patents.

At the same time the president named Karl Fennell, of Ohio, to be assistant commissioner of patents and Bidney E. Smith, of Massachusetts, to be examiner in chief of the patent office.

## Gas Buggies—Things have changed since father was a boy

MEYER'S DEATH BY FOUL WEATHER, SAY HIS WIFE

Salt Laker, who worked at the Perrine Ranch, Tolls of Suspicions Last Fall

In a statement contained in the Salt Lake Telegram, Hugh Tuttle, son of Mark Tuttle, state senator of Utah, who says he was well acquainted with Edward F. Meyer, fourth husband of Mrs. Loyola Southard, and supposed to be one of her poison victims, says he is convinced Meyer came to his death by foul means. Meyer, according to Tuttle, went to Salt Lake to spend his honeymoon with the woman who is now charged with having killed him. The statement reads: "I sat with Ed Meyer at the same table for more than three months last summer at the boarding house on the Perrine ranch in Snake River canyon. Four of us—Beth Berg, Louis Alfors, Stanton Cozgrove and myself, who were pupils in the E. D. S. high school. When the summer vacation came last year we went to Idaho to work," continued Mr. Tuttle, "during the month of August, where we obtained employment and where we remained until the fall term of school was called. Ed Meyer was our foreman and was the best manager. He was a most likable man and all the crew almost worshipped him."

Told His Father "I left the ranch on the day after he was stricken down and at that time it was said that his illness was due to a cold. I was not at all attracted to beans that he ate, but I was confident that it could not come from there. I also had eaten bean soup at the ranch. I told father that I was certain Meyer had died from some kind of poison, not of the poisonous variety. He was an ideal man, I tell you. He was a very kind, generous, and kind woman and she came out to the ranch on Saturday and would stay over Sunday with Ed. She had a pleasant personality and, what is strange in view of her husband's death, she was not identified by the childless at that time. She would walk out to the ranch from Twin Falls on Saturdays, but would only stay over Sunday. Ed was a home body man and he wanted her to remain on the ranch, but she would not do so, preferring to remain in Twin Falls as a waitress."

Was Attractive "When she was at the ranch, she was very attractive. I do not know on could be put in coffee, that must have been the medium that carried it to Ed. He seemed to dislike her even though his disposition was retiring and faint. "There were eight of us on the ranch and when Meyer was stricken down after a few days of indisposition, there was unanimity among the eight of us that the man was not stricken down by anything. He had robed in the locality of the ranch for more than ten years and, as he had told us, he had never seen a car which he had never seen his life. It was, I might say, a husky man and a hearty car, and he was a great lover of fish, for which the ranch was famous. "On the return to the ranch after his marriage, he had the appearance of a man marked by death. He and Mrs. Meyer came to Salt Lake on their honeymoon trip. If you could call it that, they were a car which he had never belonged to her. It may be that on that trip she obtained the poison. It was current gossip on the ranch that Mrs. Meyer had married Ed simply for his money. She was a very beautiful woman, a considerable sum, saving most of her earnings. Then to her had a faith of his own near Twin Falls, so that what came from Twin Falls."

Deeply in Love "I know that Ed was deeply in love with Mrs. Meyer and this was the general belief. Mrs. Meyer was as I have said, a handsome woman. "On the day that Ed was stricken Mrs. Meyer was unconcerned as if he was a total stranger. She was on the ranch then and when told that he was ill and suffering paid no attention whatever until she climbed into an auto stage and went off and left him. "After I came home and learned of Ed's death I told father that Mrs. Meyer had done something to him and that I was certain that she was responsible for his death. I learned from some of the other boys that an insurance company in which Ed had his life insured had taken up the matter of his death and an investigation followed, but I never learned the result. "The story in the Telegram last evening called up the many things the boys had talked about on the ranch and I was glad to hear that Ed was not well in Ed's married-life, which only lasted about a month. I am not sure about the arrest of Mrs. Meyer, nor at the charges alleged against her."

TWO MEN SENTENCED William and Orin Hutchins have been sentenced to receive 60 days in the county jail and to pay \$200 for maintenance. Hutchins was sentenced by Judge W. A. Balcomb of the district court. On recommendation of the prosecuting attorney, Frank L. Stepan, the defendants were charged with kidnapping and Charles Stepan was dismissed. All of the men were arrested some weeks ago in a raid made by sheriff's foremen against a saloon in which they were operating. It is believed to have been in full operation when the sheriff and his men arrived.

EARLY LIQUIDATION OF CLAIMS SAVING AGAINST CITY SCHEME PROPOSED BY MUNICIPAL BOARD

Administration Lays Plans for Paying the Outstanding Obligations Through an Increase of Tax Levy Expected to Raise About \$20,000—Budget of Expense Prepared for Publication

Full payment will be made this year of all debt and unpaid claims and obligations standing against the city under provisions of an estimate of the probable amount of money necessary for all municipal purposes for 1921 was last week adopted by unanimous vote of the city council. This estimate contemplates a multiple tax levy this year of 31 1/2 mills made last year. The proposal increases in the levy is expected to raise approximately \$20,000, of which amount \$10,000 and \$12,500 is to be used to meet unpaid bills standing against the city when the new administration took office and the remainder is to be applied on or after the first of January, 1921, in a system for which contract was entered into on August 30, 1920, and on the increased cost of street lighting service adopted in installation of the new system.

Statutory Limitation. Four weeks' time must elapse before the adoption of this estimate and the final order of the council fixing the municipal tax for the fiscal year. The first publication probably will be made tomorrow. The estimate as adopted shows considerable reductions in the proposed expenditures of the several departments of the city government as compared with the estimate for 1920. The total for this year being \$80,100.21 as against \$117,345 for 1920. In the case of the street lighting appropriation also there is an increase of \$10,000, or \$10,000, over the \$49,000 for last year. This is accounted for by reason of the installation of the new lighting system.

Expenses Reduced. The estimate shows reductions in the appropriations for the several departments as follows: Administration \$117,000 \$110,000 Public safety \$11,000 \$10,000 Fire department \$10,000 \$14,823 Parks \$4,000 \$2,100 City seals \$1,500 \$1,200 Sanitation \$7,500 \$3,000 Police \$10,000 \$10,000 Street department \$2,500 \$2,500 Engineering \$5,000 \$250 Sewer department \$4,500 \$2,650 Public works \$10,000 \$10,000 Contingent fund \$10,000 \$4,041

The estimate was presented by Chairman C. P. Bowles as chairman of the finance committee. The finance committee at the council's time at last night's session was taken up by consideration of municipal finances, details of the new street lighting contract, together with the possibility of increasing and use in an auxiliary capacity by the city of the old fire engine replaced by new equipment and of participation with other southern cities in a proposed highway project. The Idaho Power company was present at the request of the council for this purpose. Mr. King stated that all of the matters were briefly discussed by the city and that the city system were on the ground, and he asked the city to exercise its option with respect to installation. He advised the council that the city of Hull, which this month completed the installation of a similar system had effected a saving of approximately \$100,000 by the means of the estimate by doing its own work. He estimated the cost of the system installed at approximately \$18,000, and the first of ten annual payments to be made by the city on the contract at about \$3,200. Provisions of the contract were cited to show an increase of \$37,000 in the annual cost of the system, and an increase of \$100,000 in the annual cost of the new system.

Defers Action. The council decided to defer exercise of its option with respect to installation until its meeting next Monday. It was stated that the city system of the new system, stating that 108 curb posts were to be installed to replace 32 lamps now used. These posts would be installed in the street from the city park to the railway station and from Shoshone street along Main avenue in connection with a drainage system. When invited by Chairman C. P. Bowles to discuss the power company's inventory filed with the utilities commission, Mr. King said that \$20,000, which had been determined upon as the replacement value of the company's property, and \$100,000,000 as its actual value. There was no duplication of assets, and that every part of the system being now worked to capacity. City Attorney Taylor Cummings read a communication from the Southern Idaho Electric light, Heat and Power Users association in which A. H. Connor, assistant attorney general, was quoted as giving the opinion that municipalities should be held liable for damages for purposes of the proposed inventory investigation. The council took no action on this matter.

DELEGATES ENCOURAGED THROUGH RATE HEARING

Bolief Expressed that Recent Rate Inquiry Will Bring Adjustments That in Detail of testimony tending to prove need for lower freight rates on fruits and vegetables from southern Idaho points was left out at a hearing held in Boise recently before W. O. Ford, special representative of the Interstate Commerce commission. The statement made by both C. E. Munson and Donald McLean, delegates from Twin Falls, both delegates' representatives have related filled with enthusiasm over prospects for better freight governing carriage of these products from this district. The hearing was conducted in the senate chamber at the state capitol and occupied about five hours. During this period a mass of testimony was submitted by various delegates, tending to show that southern Idaho is controlled by rates that are highly discriminatory against this section. Commissioner Ford, at the hearing, was understood to hold that only questions relating to fruit and vegetable rates would be considered, but as the city progressed its comparison with the rates of other sections, Captain A. H. Connor, attorney for the state utility commission, questioned witnesses. C. E. Munson represented the Twin Falls Chamber of Commerce, and Donald McLean the local and other similar societies with which he is officially connected. W. B. Sherear, president of the Idaho Farm Bureau, was present.

Mr. Munson was made chairman of a committee of three selected by the fruit and vegetable growers, the committee being authorized to compile a report to be presented to the commission. The report was a bulky affair and occupied an hour in the reading. It contained a lot of detailed figures relating to the districts in Idaho, and, according to Mr. Donald McLean, it was a "splendid deal" in the compilation. Donald McLean submitted figures relating to the packing and shipping of beans explaining that freight rates now in effect are injurious to the industry. He offered some preliminary figures in comparison with other sections.

There were representatives from every county in central and southern Idaho. J. A. Reeves, of the O. S. L. department, assisted the company's general counsel in cross-examining witnesses. Leonard Way, rate expert for the utility commission, was one of the most important witnesses for the growers. Delegates from this section express the belief that the best results will come from this hearing.

AUTOMOBILE DAMAGED WHEN WIRES CAUSE FIRE

Haley's Machine is Found Burning as it Stands in Front of Home

Due, it is believed, to mis-connection of an automobile belonging to G. H. Haley, living on the east side of the city, a fire broke out in the Haley residence, and was to have been caused by wires from the Haley's machine. A smoke issuing from beneath the hood attracted her attention from the house, and it was necessary to use extraordinary measures to extinguish the blaze. The car was considerably damaged but was covered by insurance. The claim was paid immediately by the Realty company's office.

WORMS BRESTREW Walks in Wake of Heavy Rain

ON the greasy, vacuous shells of single worms brestrews scattered to work this early morn, fish bait bestrewing walks from end to side, driven thicker by half an inch of water. The temperature yesterday rose to 70, but took a flop last night, setting back 31 points to the zero. Ice is promised for tonight and tomorrow, coming in occasional showers.

SCHOOL HEAD BLAMES EDUCATIONAL FORCES REGARDING SALARIES \$9,820 FOR YEAR

Intensive and extensive discussion of necessary measures of retrenchment and the adoption of a definite policy of economy held the attention of the school board at last night's session. The board found many loopholes by employment of which the expense of decreasing salary planned for the coming year might have been evaded, but the members of the board declined to make use of this opportunity and stuck hard and fast by the pledges made two months or so ago to cut expenses to the limit and operate the schools of the district on a well defined scheme of economy.

Foros Reduced. Adhering to this policy M. C. Mitchell, superintendent of the city schools presented a report of eliminations he had worked showing a reduction of \$9,820 in salaries for the year. Mr. Mitchell explained, however, that necessity might compel a slight reduction of this in some small instances. Mr. Mitchell told of having adopted a definite scale for the janitor's forces the coming year, the scale carrying a reduction of salaries amounting to approximately 25 per cent. Salaries of wagon drivers will doubtless be subject to some cut, probably as much as the janitors are to receive, according to Mitchell's statement. Not less than 50 per cent of the teachers at present employed in the city schools have expressed willingness to accept a reduction of salaries in view of imposed salary conditions governing operation next season, according to Mr. Mitchell, who presented statistics supporting this statement. Expressions of willingness to reduce salaries in the signed contract placed with the superintendent-elect.

For Current Year. Superintendent Blue's statement of cash needs to carry on the school system for the coming year shows a total sum of \$209,212.73. This includes \$1,597.71 for salary warrant accounts. For teachers the sum is \$238,800. For drivers \$3,000.00 and for janitors \$1,000.00. Bookkeeper F. C. Lynch presented a report and balance sheet showing \$32,000 assets available to complete the current school year. Board President D. W. Undergraff announced settlement with a representative of the board of fire underwriters allowing the city \$1119 to cover the recent fire damage to the Lincoln school. Mr. Undergraff was authorized by the board, at a special meeting last night, to make settlement for the damage.

HIGHWAY FRANCHISE PLEDGED BY KIMBERLY

Village Authorities Assure Asher Wilson Action will be Taken Immediately

Assuring the construction of the state highway through a portion of the village of Kimberly the town trustees of that place last evening gave Asher H. Wilson, head of the Twin Falls highway district, a verbal pledge from the town of right of way would be granted. Official papers for the franchise are being prepared by attorneys representing Kimberly and the highway authority and will be delivered to the latter tomorrow if it is accepted. This pledge entails a deposit of bond standing and makes possible the construction of the highway from Twin Falls eastward through Hansen. The line through Kimberly will take a diagonal course along the north side of the village and will eliminate two railroad crossings.

BIG BATH AT CLOVER.

CLOVER (Special)—Yesterday afternoon this section was visited by the heaviest rain of the year. The storm started early in the afternoon and continued several hours. The storm ended with a flurry of hail. No damage is reported at either crop lands or buildings and will be delivered to the latter tomorrow if it is accepted. This pledge entails a deposit of bond standing and makes possible the construction of the highway from Twin Falls eastward through Hansen. The line through Kimberly will take a diagonal course along the north side of the village and will eliminate two railroad crossings.

HIGH SCHOOL NEWS

The senior play, "David Harum," is ready for presentation. It is three acts in length and is one of the most delightful of comedies. "David Harum" is a truly American play of yesterday and is one of the few productions to weather the storm of time. "David Harum" first staged it and in it, those who followed the theatre a few years since, will remember William H. Crane and James H. Hertz who played in the original cast. Throughout the three acts David's honey philosophy crops out and his dry humor is a thing to remember for many a day. It is the fellow that has made "David Harum" what it is and has kept it one of the most popular of productions.

As presented by the high school seniors "David Harum" is in the same form it was when first produced by the late Mr. Frohman and the high school stars really fulfill their part. The cast of characters is: John Lewis, a hero in reduced circumstances; Elbert Harward; General Wolsey, an attorney from New York, Edward Babcock; Chet Timson, clerk to David Harum; Charles Hart; Dick Larabee, janitor to David Harum; Willard Benson; Zeke Swinney, a son of Honorable Kenneth Yoelien; Amos Elright, landlord of the Eagle Tavern; Lawrence Jaeger; Dug Robinson, who drives the livery to the station; Olive Sherry; Nell Montag; a Homeville tough; Lloyd Garbin; Deacon Perkins, a pillar of the church; Jack Pelpin; Mary Blake, a social belle; Mrs. Mary E. Johnson; Ann; Pauli Babler; David's sister; Marie Nunally; Willard Cullen, who has been better days; Dorothy Frank; Polge Hopkins, a boy in David's livery; Charles Hart; David Harum, the Homeville banker and horse trader; Jacob Irwin.

The senior class will hold its annual class day tomorrow, having a program which includes a breakfast at Top's in the morning, an assembly in the auditorium at 1:16 in which the public is invited and a picnic after school.

FUNERALS

Funeral services were conducted yesterday afternoon in the Kimberly L. D. E. chapel for David H. Morgan, 11-year-old son of Mr. and Mrs. M. I. Morgan, living southeast of Kimberly. The child died on Sunday of dropsy. Funeral services were in charge of the officers of the L. D. S. church, burial being held in Twin Falls cemetery with P. J. Grozman directing.

In the DeWitt chapel at 2:30 this afternoon funeral offices were conducted for Ida A. wife of W. Stevens. The Rev. E. L. White of the First Methodist church officiated. Burial in charge of J. E. DeWitt was made in Twin Falls cemetery. Death occurred Sunday. The family resides on ranch six miles southeast of Twin Falls.

The funeral of Senator S. P. Atherton will be held at the First Methodist church at 2:30 tomorrow afternoon, the Rev. E. L. White officiating. Burial will be in Twin Falls cemetery. The body is at the DeWitt mortuary chapel.

CITY ADMINISTRATORS CONSOLIDATE OFFICES

J. J. Pilgerrim is Made Head of Both Water and Streets Departments

Consolidation of the offices of superintendent of waterworks and street commissioner was last night approved by unanimous vote of the city council and the appointment of J. J. Pilgerrim to fill the dual role was confirmed. Mr. Pilgerrim was superintendent of waterworks under the old administration. An street commissioner he succeeded C. E. Sycamore. His first period of annual salary of \$1200 in each capacity, making a total of \$2,400 for his year's work. Adoption of the ordinance consolidating these offices provided also for the position of waterworks clerk, a position which in the past has been held by Frank E. Wheeler, former city treasurer. The appointment of E. A. Langston as waterworks clerk was confirmed by the council, as was that of J. E. Henaff, incumbent, as electrical inspector. The council requested in its tender of the appointment as meat and dairy inspector to William L. Izard of Chickasha, Oklahoma, a graduate in 1921 of the Kansas State Agricultural college. The appointment of J. J. Pilgerrim was employed by the United States bureau of animal industry in stock eradication work in Oklahoma at the time of his enlistment in the army as a member of the veterinary corps. His period of military service extended over a two year's period and included one year's service overseas.

FUNERALS

Funeral services were conducted yesterday afternoon in the Kimberly L. D. E. chapel for David H. Morgan, 11-year-old son of Mr. and Mrs. M. I. Morgan, living southeast of Kimberly. The child died on Sunday of dropsy. Funeral services were in charge of the officers of the L. D. S. church, burial being held in Twin Falls cemetery with P. J. Grozman directing.

In the DeWitt chapel at 2:30 this afternoon funeral offices were conducted for Ida A. wife of W. Stevens. The Rev. E. L. White of the First Methodist church officiated. Burial in charge of J. E. DeWitt was made in Twin Falls cemetery. Death occurred Sunday. The family resides on ranch six miles southeast of Twin Falls.

The funeral of Senator S. P. Atherton will be held at the First Methodist church at 2:30 tomorrow afternoon, the Rev. E. L. White officiating. Burial will be in Twin Falls cemetery. The body is at the DeWitt mortuary chapel.
