United States Refuses Part in Silesian Controversy; Lloyd George Demands Impartial Execution of Treaty

REVEALS STAND OF BRITAIN ON UPPER SILESIA

Declares Empire Cannot Afford to Stand By While Versailles Pact is Trampled Upon by Polish Insurgents

LONDON, (AP) — Prime Minister Lloyd George issued a statement today reiterating the British attitude towards the Upper Silesian question expressed by him in his recent speech before the House of Commons.

"The fate of Upper Silesia must be decided by the supreme council and not by Korfanty."

"Children of the treaty cannot be allowed to break crockery in Europe with impunity. Somebody must place a restraining hand on them; otherwise there will be constant trouble."

Great Britain cannot consent to stand by while the treaty her representatives signed less than two years ago is being trampled upon."

The prime minister's statement began as follows: "In the course of the statement I made in the House of Commons on the subject of Silesia, I naturally can only accept responsibility for what I actually said and not for the truncated and distorted reports in the French newspapers. The almost unanimous approval given by the American and Italian press to the British press to the sentiments I then expressed shows that the great nations who stood by the side of France in the war mean to interpret the treaty of Versailles fairly."

Unanimity Adds Strength. "I have never witnessed such unanimity on any question," continued the statement. "All shades of opinion in their own countries take the same view. It would be unfortunate were the French press to take a different view; but we must be tolerant of differences of opinion among ourselves."

"With all respect, I would say to the French press that the habit of treating every expression of allied opinion which does not coincide with their own as an interference in their affairs is fraught with mischief. That attitude of mind, if persisted in, will be fatal to any entente."

"The stand taken by the British press in regard to the Upper Silesian public on the Silesian question ought not to be offensive to any nation. They stand by the treaty of Versailles. They mean to apply the terms of the treaty justly, whether they happen to be for or against Germany."

"The fate of Upper Silesia must be decided by the supreme council and not by Korfanty. Children of the treaty cannot be allowed to break crockery in Europe with impunity. Somebody must place a restraining hand on them; otherwise there will be constant trouble."

Solidarity Essential. "The course of the world in the coming years cannot be forecast. The risks ahead are more than 'legally sound.' Many will depend upon the allies holding together."

"Apart from treaty obligations, events which cannot be foreseen must determine the future of the nations, and the future of the world, and especially of Europe, will be determined by old or new friendships."

"The treaty circumstances of the treaty of Versailles is a document of infinite moment—especially to the nations of the entente. It binds us together when there is so much to divide us. Those who treat the provisions as if they were the sport of passion and prejudice may not have to live long to regret their headstrong conduct."

"The British people shrink not of their responsibility under this treaty. There are temporary differences which make it difficult to agree upon, but these differences will subside and will be over soon and I call attention to the fact that at the recent conference we indicated our readiness to allow the treaty to be placed in the allied council, to place the British fleet at the disposal of the allies for any operation that might be determined upon."

"The British government was anxious to have the division of Silesia at the London conference. All the facts of the plebiscite were known. However, the treaty was not ready to proceed with the discussion."

RIGA, (AP) — Both the united communist party and Industrial Workers of the World have been invited to participate in the third congress of the third internationale at Moscow in June as American representatives, according to the I. W. W. Workers of the World, it is understood, will be represented by William D. Haywood.

Harding Still Hopes To Visit Northwest

WASHINGTON, D. C. (AP) — President Harding is accepting today a season pass to the Pacific Northwest Baseball league, told the committee presenting it that he still hoped to visit the northwest this fall if Congress concludes its special session in May. Representative Johnson of Washington, who headed the committee, said the president indicated he would like to make the trip in August.

Western Governors Visit Mayor Hylan

NEW YORK, (AP) — Governors Davis of Idaho, Mabey of Utah and Hart of Washington, accompanied by representatives of 13 western states, called on Mayor Hylan today at City hall in the course of their tour of the east in the interest of development of arid lands. The party hopes to obtain congressional and in proposed irrigation of 20,000,000 acres for the benefit of war veterans.

WOULD LEGALIZE SALE OF BEER

WASHINGTON, D. C. (AP) — Sale of 5 per cent beer and wine with a 11 per cent alcoholic content would be permitted in states where voters approved such liberalization of prohibition enforcement, if bill introduced today by Representative Ryan, republican of New York, becomes a law. The measure provides for a popular referendum in each state on a vote of 12 per cent of qualified voters.

FEBU ESTABLISHES PARTIAL MORATORIUM IN PERU

WASHINGTON, D. C. (AP) — Establishment of a partial moratorium in Peru by government decree was reported today in a message to the department of commerce. The decree provides for a moratorium under the decree at maturity in installments of ten, twenty and thirty per cent at the expiration of thirty, sixty and ninety days, respectively, with renewal of the moratorium on like terms, the message said.

FLASHES FROM THE WIRE

DENVER, Colo. (AP) — Official returns from 193 out of 211 precincts in Denver's city election yesterday indicated that the daylight saving law, which had been in effect since May 1, had been voted down almost two to one.

WASHINGTON, (AP) — About 700 prohibition enforcement agents in various parts of the country have been temporarily laid off for lack of funds to pay their salaries. It was announced today at prohibition enforcement headquarters here.

TORONTO, Ont. (AP) — A bill authorizing the government to confiscate all private liquor stocks and to compensate the owners for the quantities taken, is to be introduced in the next legislature, the Toronto Globe said today. It had been introduced.

EMPORIA, Kan. (AP) — A nose dive in an airplane from a height of 4,600 feet yesterday resulted in the hearing of John Fowler, a farmer living near Emporia. Fowler was unable to hear the noise of the motor until the dive was made. He now can hear distinctly persons who speak to him. He lost his hearing a year ago.

TULSA, Okla. (AP) — A hitherto unrelated incident in the life of the late Judge John Devereaux came to light here last night. The judge's friends, in examining his personal effects following his mysterious death last week, found a small, hand carved and highly polished casket of cherry wood, which contained the embalmed body of a large French cat. Bitter, the pet for many years of the judge's wife before her marriage. The cat died 23 years ago and its mistress had it embalmed and kept in a specially made casket in her home. After his wife's death, the judge likewise preserved the casket.

REGISTERED MAIL THEFT AT TOPPENISH REPORTED

Locked Pouch Containing Liberty Bonds and Salary Warrants for Teachers is Taken

YAKIMA, Wash. (AP) — A locked mail pouch containing seven registered bonds was stolen Tuesday from the Toppenish post office. No trace has been found of the mail bag or of the contents. The bag is known to have contained \$700 in Liberty bonds, which were registered and about \$500 in county salary warrants for the Toppenish teachers. Postmaster C. A. Winkler believes that the sack was stolen from the baggage room and that the thieves thought they were getting a large countering seven thousand in currency for one of the Toppenish banks.

SENATE SLICES \$1,000,000 OFF NAVAL MEASURE

Coalition of Republicans and Democrats Causes Rejection of Increase for Transportation and Recruiting

WASHINGTON, D. C. (AP) — One million dollars was cut from the naval appropriation bill in the senate today on the first roll call testing the strength between advocates and opponents of increases in navy appropriations. Through a coalition of republican and democratic senators, the senate rejected, 39 to 31, an increase recommended by the naval committee for transportation and recruiting in the navy.

Western Senators Oppose. Sixteen republicans and 23 democrats voted against the increase and five democrats and 23 republicans voted for it. The republicans opposing were Borah, Capper, Cunniff, Dillingham, Gooding, Harrell, Johnson of California, Jones of Washington, Kenyon, LaFollette, Townsend, McCormick, McCarry, Phipps, Tommas and Willis.

Sustains Another Increase. On the next vote, the senate sustained, 39 to 33, the committee's proposal to increase the house allowance for the naval bureau of yards and docks from \$7,500,000 to \$8,000,000. Senator Kings, democratic, Utah, gave notice, however, that another roll call would be demanded on the paragraph later.

UNITED BRITISH REQUEST DISARMAMENT CONFERENCE

INDIANAPOLIS, Ind. (AP) — President Harding was asked to call the leading nations of the world into conference to consider plans for universal disarmament by a resolution adopted today by the general conference of the United British church.

VOTE PRESIDENT POWER OVER CABLE LANDINGS

WASHINGTON, D. C. (AP) — Without a second vote, the senate bill authorizing presidential control over cable landings was passed today by the house. The measure was slightly amended and the senate bill must come to an agreement on the changes before it can go to the president. It empowers the president to prevent the landing of unauthorized cables and to issue licenses for cable operation.

HARDING SENDS MESSAGE OF CONDOLENCE TO WIDOW

WASHINGTON, D. C. (AP) — President Harding sent the following message to the widow of Mrs. Franklin D. Lane at Rochester: "I have just learned of the death of your distinguished husband and am writing to express my very great sympathy and my sincere deep sorrow over your untimely passing. He was an outstanding American who rendered most distinguished service to his country and his home state in the line of his affections of all who knew him well. Mrs. Harding joins me in an expression of most sympathetic condolence."

PIONEER BANKER IS DEAD

Wm. S. McCormick Dies at Salt Lake Hospital Following Operation

SALT LAKE CITY, Utah (AP) — William S. McCormick, pioneer banker of the intermountain region, died at a local hospital here. He underwent an operation for the removal of a blood clot in his knee about two weeks ago and his leg was amputated in an effort to save his life. He was 63 years old and a native of Canada.

Until about a fortnight ago W. S. McCormick was president of the Twin Falls Bank & Trust company of this city. He resided near his birthplace in Salt Lake City.

JAPAN CANNOT WIN WAR WITH U. S., SAYS Y. M. C. A. SECRETARY

Fight to Finish Would Result in Oriental Empire Being 'Wiped Off Map,' George Gleason Tells International Disarmament Congress; Denies Possibility of Conflict at Arms and Defends Policy of Mikado in Far East

CHICAGO, (AP) — A fight to finish between the United States and Japan would result in the wiping off the map, George Gleason, international Y. M. C. A. secretary, who has just returned from a trip through the Orient, declared today in addressing the International Disarmament congress here. Mr. Gleason declared, however, that "only those living in the kindergarten age of the world are picturing the possibility of war between this country and Japan," and that combining all the friction growing out of the Y. M. C. A. in the Orient and the questions would not furnish the remotest cause for war.

"Even if there were a cause," he continued, "a real fight to a finish between two nations would put Japan off the map. The island empire might capture the Philippines, Hawaii or even a part of our west coast, but when the smoke of war has cleared away and the skill of this vast continent were once mobilized, Japan, unable to draw on bankrupt Europe, would be literally starved to her knees."

"The Japanese themselves know it and none better than the army men. 'Japan's Monroe doctrine for Asia,' though often criticized, should meet with American approval. When the world's never become relaxed, we can see that Japan's policy for Asia is the same as our stand for the opposer of east European."

"Furthermore, Japan is ready to follow America's leadership if she has proved that it is unselfish and just. Had the world's never been relaxed, Japan's announced policies of world revival would be following us still."

DEACONS SUBURGERS

Yap was used by the secretary of state as an excuse to get back into the council of nations in the opinion of Mr. Parker an instructor in the Los Angeles high schools and also secretary of the American League of Justice. Mr. Parker pleaded for a better understanding of the Japanese question in California, asserting that the Japanese were law-abiding people, anxious to become Americans so far as American citizenship was concerned.

"America has denied the Japanese citizenship and should not object to his natural adoption to Japan and his desire to teach his own language in his children," continued Mr. Parker. "Some one has said that when an alien learns to read at the ampie at a small college he has become American. The day the Japanese learn to read and football games and I think he is pretty well Americanized," he declared.

He held no brief for Japan, said Mr. Parker, in conclusion, but he believed that America should judge the Japanese by a different standard than that of the past. A war between Japan and the United States would result in a great deal of devastation, he believed.

STEAMSHIP OWNERS BAN AGREEMENT WITH UNION

Close Doors to Further Negotiations with Employes Organizations

NEW YORK, (AP) — The executive and wage committees of the American Steamship Owners' association today announced that they had refused to sign any agreement with any seafaring employes' labor union. This announcement was made by H. H. Raymond, president of the association, shortly after the general strike committee of the Marine Engineers' beneficial association had left for Washington to continue its contact with Secretary of Labor Davis on a proposal for settlement of the nation wide marine strike.

Mr. Raymond asserted that the action of the owners today assured protection in employment and preference in promotion to engineer officers who stood by their ships or who signed on only in the American merchant navy.

COURT CONFIRMS SALE OF MAXWELL MOTOR COMPANY

HAY CITY, Mich. (AP) — Federal Judge Tully today entered an order confirming the sale of the Maxwell Motor company property and dissolved petition for injunction filed by stockholders protesting against the sale.

ORANSBYS LEAVE FOR HAWAII WITH EXTRADITION FOR MRS. SOUTHWELL

SAN FRANCISCO, Cal. (AP) — V. H. Ormsby and wife, Mrs. Nellie Ormsby, deputy sheriff of Twin Falls county, Idaho, departed for Honolulu on the Matsun line steamer today to bring answer to a charge that she murdered her fourth husband, Edward Meyer, in Twin Falls. The Ormsbys carried extradition papers for Mrs. Southwell, which they will present to the territorial court.

PLEA OF POLES FALLS ON DEAF EARS IN AMERICA

State Department Reiterates a Policy of Non-Interference in Europe and Applies It to Silesian Issue

WASHINGTON, (AP) — Poland's request for American support in the settlement of the division of Upper Silesia, has evoked a formal answer from Secretary Hughes that the American representatives abroad would take no part in the discussions concerning the Silesian question.

No Present Opinion. Poland was informed further in the reply delivered to the Polish minister, that "so far as at present may be seen" the American representatives on the supreme council, the council of ambassadors, and the reparations commission would not in any way express an opinion as to the settlement.

CHIEF JUSTICE WHITE IS BECKONED BY DEATH

Physicians Say Aged Juror May Last Through Night but End in Gortain

WASHINGTON, D. C. (AP) — Physicians attending Edward Douglas White, chief justice of the United States supreme court announced at 10:15 today that the aged juror had rallied from the sinking spell of late yesterday and that his recovery was not expected.

The doctors issued the following bulletin: "Chief Justice White was operated upon on Friday last. Although in a serious condition for some months past, he postponed the operation as he felt his presence at the court was imperative. His progress was satisfactory with normal pulse and temperature until Tuesday afternoon when acute dilation of the heart occurred. He has not rallied from this condition and his recovery is not expected."

Dr. Francis B. Hasker, M. D., "Thomas A. Clayton, M. D., "Chas. S. Lee, M. D."

At noon the physicians attending the chief justice said there had been no change in the patient's condition and that he might last through today and tonight, but that there was nothing upon which to base an alteration from their previous diagnosis.

British Officer Turns Tables on Insurgents

BURZHIN, Silesia, (AP) — Colonel Cockerill, British control officer, leveled a machine gun at a group of 15 Polish insurgents who halted him at 3 o'clock in the morning and attempted to examine his papers and give him orders.

The colonel jumped out of his automobile and shouted: "What are you boys doing out at this time with guns? Give me your names."

The insurgents, who were mostly youngsters, were nonplused. The leader finally handed over his rifle, and the colonel barked his orders. He then made the others give up their guns and sent them home.

HEART WILL BUILD NEW HOME FOR ENTERTAINERS

NEW YORK, (AP) — William Randolph Hearst, it became known today, has purchased property at West 58th street, just off Columbus Circle, to be erected to house his newspapers, the American and United Artists, and his motion picture services and film companies. The building will be ready for occupancy in about a year.

China and Germany Find It
Hard to End Technical State
of War Despite Efforts of
Delegations

BERLIN, (AP)—China and Germany are apparently no closer to an actual resumption of diplomatic relations than they were six months ago in spite of the fact that unofficial delegations are at work in both countries trying to perfect a treaty.

Germany Trade Under Ban
Although China passed a resolution declaring it was at peace with Germany, following the refusal of the Chinese to sign the Versailles treaty because of the disposition made of Chinese provinces, which the government has not yet abrogated its legislation forbidding Germans to carry on business in China.

Consequently, German firms are unable to conduct business with the Chinese in the name of German citizens. While the Chinese war legislation is not rigidly enforced, it still stands on the Chinese statute books and German trade is not regarded as safe until there is some written agreement between China and Germany which will prevent legal complications.

Waiting on United States
It seems unlikely that China will sign a treaty with Germany until the United States devises some plan of restoring diplomatic relations with Germany. China followed America's lead in breaking off diplomatic relations with Germany and did not enter the war against the central powers until the United States had done so.

Theoretically at Peace
Theoretically, China is at peace with Germany. It has so declared itself by legal enactment. But all the legal steps necessary for the restoration of diplomatic relations have not been taken. Theoretically, relations and commercial interchange are possible.

NATIONAL BALLOON RACE
STARTS WITH 9 ENTRIES

Aero Club of America Announces
Entries in Competitive
Drift

NEW YORK, (AP)—Nine balloons, to be piloted by some of the country's foremost aeronauts, have been entered in the national balloon race, to be started at Birmingham, Ala., Saturday, the Aero Club of America announced today.

Lieutenant Colonel Frank P. Lahn, U. S. A., winner of the first Gordon Bennett balloon race, will pilot the army balloon. His aide will be Major Oscar Westover, chief of the balloon and airship division of the air service.

H. E. Honeywell, Bernard von Hoffman, Captain John Berry and J. M. Kibben, all representing St. Louis, have entered balloons.

The Akron Chamber of Commerce has entered "The City of Akron" to be piloted by Wade T. Van Orman. The municipality of Birmingham has entered the "City of Birmingham" with Roy F. Danneberg as pilot.

NAVY PLANES TO
BE PUT TO TEST

Extensive Maneuvers to Determine
Value of Aircraft
Against Battleships

WASHINGTON, D. C., (AP)—With Atlantic and Pacific fleet air forces mobilized at bases on the two coasts, an intensive program of summer and fall maneuvers is being planned by Captain William A. Moffatt, director of naval aviation. Starting with the joint army and navy bombing tests of the Atlantic coast from June 15 to July 15, designed to test the offensive value of aircraft against naval vessels, navy flyers will be put through several months of strict exercises.

Early in July the naval aircraft ZB-2, purchased in Great Britain, will fly to this country in charge of an American crew. A great aerial demonstration will mark her arrival. Detachments of seaplanes, flying boats and dirigibles will fly far out to sea to meet the big airship and escort her to a point on the Atlantic coast just north of Boston.

The ZB-2 will then skirt the coast southward passing over the principal cities to Philadelphia, then proceed to the grand navy harbor at Lakewood, N. J., and "anchored" to a "mooring mast," the first device of this kind to be erected in this country.

Experts from Great Britain will supervise erection of the mast which will be a steel structure about 150 feet high with a swivelled bridge at the top to which the nose of the dirigible will be moored permitting the ship to swing always nose to wind. The structure will cost about \$50,000 and probably be fitted with an elevator to carry

by the crew of the dirigible to and from the ground.

After being thoroughly overhauled, the ZB-2 will undertake a cross-country cruise in New England in the people. Present plans call for a trip to Chicago and return, at least by way of the southern border of the Great Lakes, and if cities west of Chicago provide mooring facilities the cruise may be extended indefinitely. The ship can make a round trip to Chicago without refueling.

On the Pacific coast similar maneuvers will be conducted in connection with the Pacific fleet. It is possible a squadron of naval aircraft may accompany the trip "around the rim" of the country from a point in Washington state to Maine, during the year, the longest airplane cruise ever attempted.

Plans for a flight from San Diego, Cal., to this city have been abandoned by Captain T. C. Mustie, commanding the Pacific fleet air force, who would have led the expedition cannot be spared from summer exercises of the Pacific air forces.

MARINE CORPS IS OPEN
FOR FURTHER ENLISTING

WASHINGTON, D. C., (Special)—Youngsters between the ages of 18 and 20 years, with ambitions to become midshipmen at the United States Naval Academy, will now be accepted for enlistment at all marine corps recruiting stations.

One hundred enlisted men are appointed to the naval academy each year after a competitive examination given enlisted men of the navy and marine corps. They must not be more than 20 years of age on April 1 of the year it is desired to enter and have been in the service at least one year by August 15 of that year.

ORDERS ARIZONA BOARD
TO RAISE RAIL CHARGES

Interstate Commerce Commission Denies Interstate Tariffs Too High

WASHINGTON, (AP)—Freight rates and passenger fares within the state of Arizona were ordered today by the interstate commerce commission to be raised to the level in effect in interstate traffic, effective July 15.

The Arizona commission in refusing to advance state fares, contended that the interstate tariffs to be raised, and through that state were unreasonably high but the federal commission said the figures submitted to support this claim had "little probative value."

Regarding charges made by the state commission that the railroads were not efficiently managed the commission said:

"We are of the opinion that the showing made by the state is not sufficient to sustain a charge of inefficient management."

The present main line interstate passenger fares in Arizona are constructed on a basis of 4.08 cents per mile while the state line fares are on a basis of 4 cents a mile.

Regarding freight rates the commission said:

"The present rate adjustment gives no jobbing points within the state an advantage over jobbing points outside the state."

A concert sung by members of the Chicago Grand Opera company into a wireless telephone at San Francisco was heard as far east as Salt Lake, as far north as southern Alaska, as far west as Honolulu and as far south as Point Lima, close to the Mexican border. Ships on the Pacific within a radius of 1500 miles also heard the concert.

MILITARY OFFICERS PLAN
SUMMER TRAINING CAMPS

Two Courses of Instruction Scheduled; One for College Men, Another for Civilians and Reserve Corps

CAMP LEWIS, Wash., (AP)—Plans are being made by army officers here for two training camps scheduled for the summer. The first, an officers' training camp for college men, will open June 16, and the second, for civilians and members of the reserve officers' training corps, will probably start July 5. It is announced by Lieutenant Colonel W. H. Clendenin, in charge of the preliminary arrangements.

The work for college men will include a basic course and an advanced course, each continuing six weeks. Men who complete both courses will be eligible for examination for appointment as second lieutenants in the officers' reserve corps.

More than 300 college men are expected to take the course, and applications have been received from the following institutions: University of Washington, 21; Washington State college, 22; Oregon Agricultural college, 31; University of Oregon, 21; Harvard Military school, Los Angeles, 41; University of California, 109; University of Idaho, Montana State college, University of Montana; University of Nevada, University of Wyoming, and Agricultural college of Utah.

The exact date for the citizens' camp has not been set, but July 5 is the tentative opening. Two sources will last one month and all reserve officers all citizens between the ages of 18 and 35 are eligible. It is expected by army officers that next year the war department will make it compulsory for all reserve officers to attend the summer training camps but this year attendance is optional.

SEEKS TO MAKE TARIFF RATES EFFECTIVE NOW

Representative Longworth Proposes Imposition of Temporary Import Duties While Bill Goes Through Congress

WASHINGTON, D. C., (AP)—Proposed amendments to the revenue permanent tariff bill, Representative Longworth of Ohio, republican member of the ways and means committee, introduced today a joint resolution to make effective immediately all rates carried by the bill as reported. The temporary rates thus set up would remain effective while the tariff was making the journey through congress.

CALL FOR DRAFT EVASION COUNSEL

Congressional Investigators in Bergdoll Case Summon Weinberger

OTTAWA, Ont., (AP)—The dominion command of the Great War Veterans' association today was asked by the American Legion if it would support a demand for extradition from Germany of Grover C. Bergdoll, Philadelphia draft dodger.

WASHINGTON, D. C., (AP)—Harry Weinberger of New York, counsel for Grover C. Bergdoll in court-martial proceedings, was ordered before the house of the representatives today for contempt after refusing to testify before the house investigating committee regarding fees paid him by Bergdoll's lawyer.

Weinberger challenged the right of the committee to investigate the case of Bergdoll on the ground that his association today was asked by the American Legion if it would support a demand for extradition from Germany of Grover C. Bergdoll, Philadelphia draft dodger.

GENERAL SLASH IN RAILWAY PAY SCALES LIKELY

Federal Labor Board's Forecast to be Made Basis for Reductions Extending to All Classes of Employees

CHICAGO, (AP)—The general reduction of wages for unskilled railroad workers was announced today by the forecast by the railroad labor board in an announcement last night, will be made the basis of reductions extending to all classes of railroad labor, it was understood today.

Admits New Petitions. Although only the Chicago Great Western, the Chicago and Alton and a few other roads have requested that the wage reductions be extended to all classes of railroad labor by the board in its announcement for the filing of other petitions up to June 9, it is believed that others of the board will admit them.

Retards Trackwork. "The general effect of the decision will be to retard trackwork," said J. F. Felton, president of the Chicago Great Western. Disappointment was expressed by various railroad executives that the cut was to be delayed until July 1, as he thought it was with the heaviest part of track rehabilitation work is generally completed.

The decision last July affected approximately two million men and granted increases totalling nearly six hundred million dollars a year.

WHEAT PRICE ADVANCES

Increased Volume of Buying Sends the Quotations Up to 2 3/8c

CHICAGO, (AP)—Bullish crop reports from the southwest turned the wheat market upward today after a setback at the opening. Early declines were ascribed to forecasts of reduced wages for railroad employes. The expected wage cut was looked upon as indicative of lower costs in all lines, but offerings of wheat were readily absorbed, and the market quickly rallied.

Considerable buying of May wheat here for seaboard export was regarded as boding against sales for export. It was said also that a good deal of Canadian wheat had been sold of late, but not reported. Close was strong, 2 to 3/8c net higher, with May \$2.15 1/2 to \$2.16 1/2, and July \$2.15 1/2 to \$2.16 1/2. Were followed by moderate gains all around.

Shipping demand for corn was active, with country offerings somewhat larger but held mainly above the market. Prices closed strong, 2 to 1c net higher, with July \$1.58 to \$1.59 1/4. Oats paralleled the action of corn, starting unchanged to 1/4c lower, July 38 1/8@1/4 to 38 1/4c, and sagged somewhat further, but then became firmer. Provisions were inclined to draw lower in the absence of any special demand.

NEW YORK, (AP)—Business on the stock exchange today was extremely confusing but strength of rails being offset by the heaviness of various industrial and specialties. Sales approximated 700,000 shares. Rails were the feature at the broad opening of today's stock market, advancing 2 to 3 points within the first fifteen minutes as a result of the proposed cut in wages announced by the United States railway labor board. Low grades as well as investment shares joined in the advance, but conspicuous strength was shown by Chicago and Northwestport, Northern Pacific, New

million land held by soldier settlers was approximately three and a half million acres, and during last year nearly half a million acres of new land was broken. It is estimated that those settlers last year produced ten million bushels of grain, more than a third of a million tons of hay and green feed, in addition to large quantities of butter, fruits, milk, eggs and livestock.

This speaks eloquently of the industry and good management of the former service men, of whom some 50,000 have taken up farms under the Canadian soldiers' re-education act. But the government is entitled to no small share of the credit for the success of the settlers, its generosity having contributed mightily to the results attained.

New York Herald—What we have been saying about the ability of the police to enforce prohibition was publicly verified on Sunday. The news was given that it had been shown the days when Theodore Roosevelt made the police do police work. It was only necessary for the police commissioner to let his men, from inspectors to patrolmen, understand that the law must be obeyed. When 10,000 police went on the street with that message every speakeasy and saloon quickly closed its doors. Such an exhibition of the legitimate power of the police ought to be an inspiration to the commissioner to keep up the work of enforcing the law.

WASHINGTON, D. C. (Special)—Addressing in his policy regarding meritorious members of his enlisted personnel with commission, the United States Marine corps will open an officers' training school in or near Washington this summer, to fill over the ranks of the corps. The enlisted personnel of the corps who have been recommended for a commission as a reward for meritorious service is that of a major.

The order recently issued by the major general commanding specifies that no non-commissioned officer will be considered for such advancement unless he has had less than one year's service in the army, navy or marine corps, of which not less than six months shall have been in the marine corps. Only men between the ages of 21 and 27 years will be considered.

WASHINGTON, (P)—Walter H. Hudson, president of the British Union for the Abolition of Vivisection, is expected to speak with Dr. George W. McCoy, director of the federal vivisection laboratory, here last night when he asserted before a meeting under the auspices of the National Society for Human Regulation of Vivisection that epidemic diseases were often the result of preventive inoculation. Dr. McCoy characterized the statement as a challenge to him from the floor as a "damnable lie" and Dr. Hudson demanded that Dr. McCoy "prove the lie."

Dr. Hudson asserted that the germ theory of disease would be completely upset with another decade, the medical profession recognizing the disease germs were the result rather than the cause of disease. He said inoculation for disease prevention was the "most ridiculous assumption ever introduced into a sane world."

Attorney General Roy L. Black says the judges have assumed this prerogative by inferential authority from two statutes mentioned. If the death sentence is imposed the governor can only sign the sentence except on petition of reprieve.

OREGON IS WARNED TO BEWARE MADERO'S FATE

Liberal-Constitutionalists of Mexico Send Memorial to President

MEXICO CITY, (P)—"Beware the fate of Francisco Madero, who failed to heed solicitations to change his policy, and fell" was the warning sent to President Oregon last night by liberal-constitutionalist members of the chamber of deputies and the senate.

Referring to the necessity of President Oregon changing his policy immediately, the memorial said: "In connection with the invasion of the chamber of deputies last week, the press has published your statements, which are almost identical with those made officially by the Confederation of Syndicated Workers. You have stated the attack was of small importance, but this is a statement which is at absolute variance with all the concepts of society."

Secretaries called on by Huerta were charged with attempting to use their office to propagate radicalism. There was no request made, however, for the resignations of the two members of the cabinet.

FIREMEN BAR RADICALS FROM DEPUTIES CAUCUS

Fall Attempt to Attack Members of Mexican Liberal-Constitutional Party in Legislative Hall

MEXICO CITY, (P)—Radical sympathizers attempted to force their way into the chamber of deputies last night in attack members of the liberal-constitutionalist party, who were holding a caucus there. The men engaged in the disorder were dispersed by the fire department.

The streets near the congressional building were filled all day yesterday with angry people who were awaiting developments. One socialist deputy was arrested.

Members of the liberal-constitutionalist party who were openly carrying arms as they left the building, but there were no attacks made upon them. An explanation was made later in the evening that there was no attempt to prohibit socialist deputies from entering the chamber, but that the doors had been closed to forestall a possible demonstration by spectators.

No woman has ever been executed for murder in Idaho, according to the records. Neither do present officials find any record of any woman ever having been convicted of first degree murder in this state.

The only woman killer convicted in recent years is now serving a sentence of from five to ten years for manslaughter.

Idaho statutes, however, say any woman found guilty of first degree murder shall be hanged by the neck until dead.

Another statute permits the jury to recommend life imprisonment instead of the death penalty. If a jury simply returns a verdict of guilty without specifying the penalty, the judge may make a recommendation.

Attorney General Roy L. Black says the judges have assumed this prerogative by inferential authority from two statutes mentioned. If the death sentence is imposed the governor can only sign the sentence except on petition of reprieve.

SITTING BULL'S PIPE IS GIVEN TO SOUTH DAKOTA

State Historical Society Receives Famous Relic of Indian Chief Bearing Autograph

ABERDEEN, S. D. (P)—The famous old pipe of peace of the Indian chief, Sitting Bull, has lately been presented to the state historical society by H. C. Pryor, of the Aberdeen Normal school.

On the stem of the relic, burned or inked into the wood is the autograph of the warrior. The bowl of the pipe is of pink sandstone from the quarries at Pipestone, Minn. The stem is about 20 inches long and is of ash wood. The pipe was traded to Mr. Pryor by Father I. D. Pryor, now a resident of Los Angeles, by Sitting Bull at Camp Crook in 1887 for a blanket.

"There was some argument, I believe about the autograph," explained Mr. Pryor. "The old chief thought he should have extra compensation to sign the blanket for it. It seems that his name was about the only thing Sitting Bull could write in English and he was very proud of it."

"The story goes that Sitting Bull had been released from prison at Fort Hadsell and was making his way northward to the reservation. Always ready to pick up a few dollars, he stopped off at Pierre, S. D., and started a flourishing business selling his autographed cards at \$1 each. Some one induced him to step into the telegraph office there and write his name on a number of harmless looking message blanks. The Indian's anger rose to white heat when he discovered that carbon had been inserted between several sheets under the one on which he wrote."

Doane Robinson, South Dakota state historian, says numerous pipes reputed to have been the "pipe of peace" of Sitting Bull have been offered for sale, but he is obliged to believe that the one which Mr. Pryor has just represented to the state is "the genuine one." The autograph on the pipe is exactly the same as appears on the cards the chief sold in Pierre it is said.

DEPORTEE GETS BAD IMPRESSION OF BOLSHEVIKI

Former Brooklyn Communist, in Revel after Four Months in Russian Jails, Tells of Terrible Ordeals Passed

REVEL, Esthonia, (AP)—The worst phase of imprisonment in Moscow is not the possibility of probability of execution but the daily attempts made to wring confessions from the prisoners, says Dr. Morris Zucker, a Brooklyn communist, who arrived here this month after having served four months in the Russian jails. Some of his experiences and observations have previously been made public. Zucker mentioned in New York in 1919 to 90 years imprisonment for sedition but was deported instead.

Speaking of the life of the prisoners in the principal political prison at Moscow, which is called the "O. O. V.," he said, "the daily third degree to which prisoners are subjected is such a matter of a political crime is worse than the execution. These prisoners are taken every day, if their captors think there is a chance of wringing a confession from them, whether they have anything to confess or not, they are commanded to repeat the truth."

"The commissar puts a revolver to the prisoner's head 'confess, or I'll shoot,' he says. The prisoner waits for the shot. He never knows whether it is coming or not."

Death Always Outcomes.
"This process is often repeated until the prisoner will confess to what he undergoes any further ordeals, in which case he is shot away."

The mental condition of these prisoners became such that Zucker, the Brooklyn Communist says that he met in the various prisons of Moscow 20 of the radicals deported from America and that he could well understand why the bolsheviks arrested them for they were chiefly anarchists who did not believe in any government, "particularly in a government as detested as that maintained by the bolsheviks."

Zucker said he found in prison also the president of the Turkish soviet republic Mohammed Ali Khatib, General Alex. Petrov, once commander of the Russian coast western front, eight members of the executive committee of the right wing of the soviet revolution party, three members of the executive committee of the left wing of that party, including Mayocoff, who was commissar of agriculture in 1918 and also a former minister of ecclesiastical affairs, M. Samson.

Bad Terror Undiminished.
Zucker described the summoning of prisoners for execution in such the same way as did Schwartz, the San Francisco communist, who came out of Russia, some months ago. He added that executions were going on as late as March 27 and declared there had been no diminution of the "red terror" in Russia.

Dumb Guy is Rookie's Epithet for General

CAMP LEWIS, Wash., (AP)—A "rookie," here called Major General Charles H. Muir, commander of Camp Lewis, a "dumb guy" just before the general went to San Francisco to take temporary command of the Ninth corps area, and got away with it. The circumstances have been revealed by officers here.

General Muir was at work in his garden, garbed in overalls. "You in the army?" asked a John private, passing by and weighted down with the wisdom acquired from a month's service. The general nodded yes. "You're pretty old to be in the army," continued the rookie. "Are you a sergeant?" "No," said the general. "See, it has been in the army all this time and ain't even a sergeant, you must be some dummy," commented the recruit.

JEFFERSON LIVES AGAIN IN MEMORIAL PHOTOPLAY

Unusual Ceremony is Part of University Founder's Day Celebration

CHARLOTTESVILLE, Va., (AP)—While citizens in many cities were celebrating the 175th anniversary April 13 of Thomas Jefferson's birth, Jefferson himself "lived" in an appearance and was seen chatting with visitors on the broad verandas of his beloved Monticello.

The unusual ceremony was part of the University's Founder's day celebration. Jefferson founded the historic university in Charlottesville, Va., 100 years ago and its officials decided that April 13 was the most appropriate time to record the activities of the founder and sponsor in moving picture films.

William L. Morton, secretary of the Charlottesville and Albemarle Railway company took the part of Jefferson. Dr. Magnus Ugeda, dean of the department of surgery of the university's department of medicine, portrayed Lafayette.

The night of Colonial party in tall hats, form fitting frockcoats and tuff knee breeches come as a surprise to several hundred Virginians who make an annual pilgrimage to Monticello to decorate Jefferson's grave.

BIRD WITH TEETH FOUND IN KANSAS CHALK BEDS

Fossil Over 25,000,000 Years Old Finds Place in State University

LAWRENCE, Kan., (AP)—One of the two specimens in the world of bird's teeth was found in the chalk beds of western Kansas and has been preserved at the University of Kansas museum, according to Prof. H. T. Martin, curator of the museum, who found the specimen in a number of specimens in the Yale university museum. The Kansas fossil is of the Cretaceous period, about 25 million years ago. Ten teeth are included with the fossil.

This is the second oldest known type of bird life, according to Professor Martin. It is the most complete specimen that has been preserved. The bird was five feet long, had a short veretebrae tail and possessed no wings. It was a marine bird and resembled the modern penguin.

Prisoner Spoils Plea of His Own Attorney

TACOMA, Wash., (AP)—It was a brilliant plea for acquittal made by W. A. Hudson, 26, charged before Judge John W. Linek with possession of intoxicating liquor. The virtue of the defendant were being attested to the judge when Hudson blurted out: "Let's cut out the indictment and let me go to jail." The shocked attorney sat down and the judge granted the request. The sentence was 225 days and \$150 fine.

IWASAKI FOUNDS SCHOOL FOR STUDY OF FAR EAST

Contributes Chinese Lore and Engages Staff of Experts for Prosecution of Scheme

TOKIO, (AP)—Baron Hisaya Iwasaki, whose sister is the wife of Baron Stratelara, Japanese ambassador to Washington and who is himself the present head of the famous Iwasaki family, has announced the creation of an institution for the study of Far Eastern lands and peoples.

For this purpose the Iwasaki family possesses a unique facility in the shape of the valuable collection of works in all languages bearing on China purchased from the late Dr. Morrison of Peking. The buildings required will be put up at a section of the spacious grounds of the family mansion at So-machi, a suburb.

Dr. Magnus Ugeda, dean of the literature department of the Tokyo Imperial university, who will reside at the end of this month will be the head of the establishment. A large staff of investigators will be trained under him and competent experts will be constantly despatched to the continent to prosecute original investigations in various fields of knowledge.

The number of students attending the University of Wisconsin has increased to an extent that make it necessary to establish traffic rules in the corridors and on some of the streets of the building containing lecture rooms.

Mrs. Francis Lee Johnson who has been visiting at the home of her daughter, Mrs. E. O. Smart of Nampa, the past two months, returned here Saturday.

Murtaugh schools will close Friday, May 20. An exhibit of the work that has been done by the pupils of the different rooms, will be held at the school house Thursday afternoon.

W. O. W. camp 348 held election of officers Monday evening, the following officers being elected: G. W. Johnson, council commander; Lloyd Jain, advisor; William Gosham, secretary; J. F. Sine, warden; E. P. Williams, manager; J. O. Campbell, warden.

The Messrs. Marie Howe and Vida Foley were week end guests at the Hyrum Pickett home.

Mrs. R. E. Greene and daughter Miriam Mae, left Tuesday afternoon for Idaho, where they will visit with relatives before leaving for Boise to spend the summer.

The infant daughter of Mr. and Mrs. C. G. Dudley, who has been sick at a Twin Falls hospital, is reported to be improving.

R. E. Greene gave a very interesting talk at the M. E. church Sunday morning on "Community Welfare."

PAPERS WHOSE ROOM WITH CANCELLED POSTAGE STAMPS

MIDDLEBORO, Mass., (AP)—A room papered with cancelled United States postage stamps stands as a monument to the industry of William G. Sawyer of this town. More than 30,000 stamps of 164 varieties have been used and in denotation they represent issues from one to 30 cents.

The room is 12 feet square. Mr. Sawyer has been collecting stamps for a quarter of a century.

This is chapter 2 of the wonderful, new ice cream story

Men haven't even hoped that ice cream could be made so PURE as this remarkable, new process makes it!

Ordinary air won't do!

So we buy this "atmosphere" which is a hundred times purer

On each "freezer"—in using this "CARBONATING" process—an ingenious little mechanical device is attached, which drives OUT all ordinary air from the ice cream, and replaces it with this ATMOSPHERE WHICH IS A HUNDRED TIMES PURER THAN AIR. And, while we have to PAY for this atmosphere, we are MORE THAN GLAD TO DO IT—since the finished ice cream is so perfectly, so delightfully PURE!

The result? Purer, Finer ice cream than ever you've tasted!

This additional cost of manufacturing is NOT passed on to you—we very gladly assume it, just to give you BETTER ice cream. And it IS better. Not only ever so much purer—but actually BETTER TASTING, because carbonating really IMPROVES the flavors. It is more wholesome, too, because the carbonating "atmosphere" has long been proved beneficial in digestion. And what is more, the new CARBONATED ice cream, KEEPS better—stays hard longer, and melts MORE SLOWLY when it does start melting.

Ours is the only ice cream made in this city by this wonderful method.

STERLING SUPREME CARBONATED ice cream is the ONLY ice cream made in this city by this new "CARBONATED" process. The discoverers of this process have LIMITED its use to ONE manufacturer in any city. We were fortunate enough to secure exclusive rights for Southern Idaho. OUR dealers, ALONE, can furnish you with this SUPER-PURE ice cream.

GIRL GETS SERVICE MEDAL

Emblem Presented to New York High School Miss in Recognition of Patriotic Work.

As a tribute to her patriotic services during the World War, Miss Pauline Henkel, a fourteen-year-old New York high school girl, was presented with a patriotic service gold medal by F. W. Galbraith, Jr., national commander of the American Legion, in behalf of S. Franklin Drew post.

The presentation ceremonies took place in front of the Fifth Avenue public library in New York city.

The grand honor for Miss Henkel, who is known as the "Little Colonel," was composed of members of the marine corps under command of Lieutenant Miller and Gumpertz and Sergeant Janssen, congressional medal of honor men.

Although she was only ten years old at the start of the World War, Miss Henkel sold \$320,000 worth of Liberty bonds, more than any other minor in the country, and also was recognized as one of the most effective patriotic speakers and war workers in America.

With the return of the American soldiers to their native land, Miss Henkel is still devoting herself to their welfare, as attested by the following quotation from her speech of acceptance:

"The happiest moment of my life will be when I see a disabled and unemployed soldier who has been taken care of in the same way as the disabled soldiers who sacrificed their lives for our country. Let us take care of the man who saved our country; we owe them an obligation we cannot afford to ignore."

MISS PAULINE HENKEL should care above everything else in our hearts. Let us take care of the man who saved our country; we owe them an obligation we cannot afford to ignore.

LEGION POST ADOPTS CREED

Member of Somerville (Mass.) Organization is Author of Paragraphs Worthy of Consideration.

Somerville (Mass.) post of the American Legion has adopted the following creed, written by one of its members:

"I believe the American Legion is a dependable organization.

"I believe that the American Legion is a potent factor in the community.

"I believe that the American Legion stands for equality for all ex-servicemen.

"I believe that the American Legion's ideas never will be shelved.

"I believe that the American Legion will gallantly stand by what is right and help to destroy what is wrong.

"I believe that the American Legion's principles are immutable by any violent or radical individual or organization.

"I believe that the American Legion will help to bring peace out of chaos.

"I believe that the American Legion is looking forward, not backward.

"I believe that the American Legion is a constructive unit, not a destructive unit.

"I believe that the American Legion is an asset to ex-servicemen, not a liability.

"I believe it. Do you?"

Sets 40,000 Members as Goal. With 24,000 members at the end of 1920, Kansas department of the American Legion has set 40,000 Legionnaires as its goal for 1921. The state has a potential membership of 90,000. The department now numbers 314 posts of the Legion and 100 units of the Women's Auxiliary.

Distributing Victory Medals. Although there will be no more army recruiting for some time, the recruiting officers will continue to distribute Victory medals to members of the American Legion and other ex-servicemen.

LEGION LAWMAKER ALL THERE

Youngest Member of North Dakota Legislature Produces Results for His Fellow Soldiers.

To Robert J. Boyd, a member of Gilbert G. Grafton Post No. 2 of the American Legion at Fargo, N. D., goes the honor of being the youngest member of the house of representatives of the North Dakota legislature. He is twenty-five years of age.

A former president of the Fargo Trade and Labor Assembly and an active member of the Pressmen's union at Fargo, Mr. Boyd was active in support of several bills advantageous to organized labor. He was also a strong advocate of legislation backed by the North Dakota department of the Legion.

Among the results of his work are: the passage of bills making Army Day a legal holiday, protecting the Legion emblem and increasing tax for bonus fund from three-fourths to one mill on taxable property. He also led the fight which resulted in the passage of a bill providing an adequate proper place for the treatment of tubercular ex-servicemen by F. W. Galbraith, Jr., national commander of the American Legion, in a speech in Philadelphia last November. His stand followed numerous investigations into government municipalities, and a public appeal from 95 tubercular veterans being treated there.

Victory for the Legion.

The closing of the United States public health service hospital for tubercular ex-servicemen at Mackinac Island, Mich., by Assistant Secretary of the Treasury Irving Laporie, is regarded by American Legion officials as a great victory for the ex-servicemen's national policy in regard to disabled veterans. This hospital was first denounced as an improper place for the treatment of tubercular ex-servicemen by F. W. Galbraith, Jr., national commander of the American Legion, in a speech in Philadelphia last November. His stand followed numerous investigations into government municipalities, and a public appeal from 95 tubercular veterans being treated there.

First in Membership Contest. In the first published list of leading posts in the Kansas membership contest of the American Legion, Cal Matheson post No. 259 of Edmond, Okla., takes the lead. Next in order are the Legion posts at Sterling, Elkhart, Weir and Logan. Seventy-eight posts in Kansas have already placed their 1920 membership, while ten posts have an delinquent membership.

Scions of Aristocratic Families Appear at Costume Dance in Paris

Children of some of the oldest and most aristocratic families in France attended the children's costume party given recently in the Hotel Majestic, Paris, by the Viscount de Baselin. The illustration shows charming Miss de l'Aigle as she appeared in the costume of a Marquise of the Louis XV period, and Master Hart as he appeared as a nobleman of the reign of Louis XV.

Race of Red-Heads. The possibility of red-headed people being "a separate race" was mentioned at a recent meeting of the Royal Anthropological Institute in London. According to F. G. Parsons, the average number of red-headed people is roughly 1% in each 100, and it is quite an aristocratic color. In London 61 per cent of the upper classes have red hair, as compared with 4.3 per cent in the lower classes. There is, says Prof. Parsons, an abnormal amount of red hair among the beauties of the southwest of Ireland.

Post-Mortem Jokes. Quite an interesting article, we fancy, could be written on "The Humor in Will." For example, take this passage from the will of Lord Pembroke: "I bequeath nothing to Lord Say, because I know he will bestow it upon the poor." Or this: A Lancashire gentleman bequeathed an ounce of modesty to the editor of the London Journal, explaining the small quantity by saying that he was "convinced that an ounce would be found more than he would ever make use of."—Boston Transcript.

House With Walls Made of Straw. A house with walls made of compressed straw has been erected in Paris. The framework of the building is of wood and the sides are filled in with blocks of tightly compressed straw, which are stated to be as hard as concrete and just as inflammable. Owing to the lightness of the materials only small foundations are needed, and a house of this kind can be built in a month. The idea of using straw in this way is attributed to a French textile engineer.

WHOLESAOME GOOD THINGS.

For an emergency dessert, if you have a few cream puff shells at hand or near enough to purchase on short notice, is cream puffs filled with vanilla cream and served with a hot chocolate sauce. If chocolate is not liked, a simple sauce is very nice, and a few nuts may be added if one wishes to have a very dainty dish.

A sauce to serve over plain vanilla ice cream, making it something out of the ordinary is:

College Sauce.—Take three-fourths of a cupful of sugar, one cupful of water, one-fourth cupful of seeded raisins, chopped. Boil together for five minutes, remove from the fire and add one-fourth of a teaspoonful of almond flavoring.

Apple Turnovers.—Make apple sauce according to taste, seasoning with lemon and a dash of cinnamon, adding a small lump of butter. Cook the sauce until very thick. Place a spoonful of this sauce on a square of pastry, pinching the corners together after wetting them. Bake in a hot oven until the pastry is well-browned. Serve with cream and sugar, either hot or cold.

Pecan and Pineapple Cakes.—Cream together one cupful of butter and two cupfuls of sugar, add two cupfuls of

four stirred with two teaspoonfuls of baking powder, alternately with one cupful of milk, adding a pinch of salt. When all the ingredients are well mixed, fold in the stiffly beaten whites of six eggs.

Bake in two layers. For the filling put two cupfuls of shelled pecans through a meat chopper and mix with one cupful of shredded pineapple. Stir with the beaten whites of two eggs enough powdered sugar to make a thick paste and mix with the nuts and pineapple. Use as filling and for the glazing on top of the cakes, decorating with halves of the nut meats arranged in a border while the icing is still soft.

Animal Prophecy.

Few beliefs are older or more widespread than that animals, not especially wild animals, have foreknowledge of what the weather is to be, and something that amounts to such foreknowledge of many of them doubtless do possess, but there is no reason, and only poor excuses, for assuming that there is a source of information remote enough and of application remote enough to give any appreciable extension to the weather bureau's prognostications.

Water is Plenty and More Sighted for Near Future

WATER, water everywhere, and still the country "dry."

Not since the days of Noah and his ark has there been much more precipitation in this state than in the past day or two.

In the 28 hours ending at 10 this morning more than half an inch of water fell. In the prior 24 hours it was .45. And there is every indication of more to follow.

On the most topic of present weather the Atlantic captain speaks of unsettled conditions tonight and tomorrow: "Even stormily threatening and probable showers and thunderstorms in southeast portion."

Variation between high and low temperatures in the past 24 hours was only 10 degrees. Yesterday's top was 32 and low 42.

Have gone to Portland, Ore., for a visit.

From Murtaugh—Mr. and Mrs. P. M. Sorenson and family were among the visitors in this city yesterday from Murtaugh.
