SEEKS TO GAIN AMERICAN AID FOR ARMENIANS

Near, East Relief Calls Upon Congress to Exert Pressure Upon Allies and Turkey to Stop "Anarchy"

NEW YORK, (AP)—The United States congress has been asked to exert pressure on the allies and upon Turkey to stop the "state of anarchy" in the Near East and avert impending disaster to the Armenians under control of the nationalistic Turks.

The appeal is made in the form of a memorial addressed to congress by a committee of the board of trustees of the Near East relief, of a total of at least 200,000 of the people of the United States who have contributed to American relief work in the Near East.

The committee is composed of Dr. James L. Barton, secretary of the American Board of Foreign Missions; Dr. Stanley Whit, secretary of the Presbyterian Board of Christian Education; George Smith, of Philadelphia.

Ask immediate action.

They ask that congress and the United States government take immediate action and insist that England, Italy and France shall restore the Christian Near East relief to its former status in its homes and protect them.

In addition, the three trustees of the Near East relief have sent an appeal to about 110,000 contributors to American relief work in the Near East asking them to bring pressure upon congress to obtain the action urged by the committee.

As a result of the action of the committee, Dr. Barton said, that the Near East relief had disbursed over \$800,000,000 in money and supplies contributed by the American people and, he said, "there now is the enormous humanitarian investment of American philanthropy in danger of coming to nothing on account of continued anarchy in the Near East. We have, therefore, decided to try to bring the force of those who gave this money to bear upon our own government and the governments of our allies in the late war to put an end to the present state of affairs in the Levant."

Cites Turkish Turmoil

The memorial reviews political developments in the Ottoman empire since the armistice, and continues:

"It is reported by absolutely trustworthy American officials that Turkish Nationalists have proclaimed that the mosques and minarets destroyed in their conflicts with the French they will rebuild with the skulls of Armenians."

"Women and children declare that they would choose death, in whatever form it might come, to such a state of distress, of helplessness and of perpetual terror, and yet no way of escape opens before them. Among these distracted Christian peoples a state of panic prevails. Their safety seems to lie only in flight."

"There appears to be no protection for them in territory controlled by the Turkish Nationalists and the French protest is going into Syria. They were condemned by circumstances beyond their control to certain death."

"America is in a position to secure the protection required, if it acts decisively and promptly. We can insist that England, France and Italy, who have increased the Turk by depriving him of much of his choicest territory and excited in him a spirit of revenge, shall now demand and enforce the demand that crled and menced people be restored to their homes and protected there."

Propose American Policy

The memorial states that "all European and the Turk know that the United States in either case no desires territorial acquisitions or control in any part of the Turkish empire; but they should all be convinced that the people of America cannot and will not remain indifferent when inhumanities of such a character are openly practiced upon a helpless and unprotected people."

"There can be done without partisanship, since the recent platforms of the two great political parties declared in favor of readiness to render every possible help to the suffering Armenians. There has never been a time when

that aid was more imperative than it is today. Delay is perilous.

The board of trustees of the Near East relief which, the announcement rays, approved this action of its committee, includes former President Taft, Major General Leonard Wood, Elihu Root, Oscar S. Straus, Ambassador Myron T. Herrick, Henry Morgenthau John H. Finley, Cleveland H. Dodge, Charles B. Crane, Rabbi Stephen S. Wise, Wm. G. McCormick, Abram R. Elias, Frank A. Polk, Franklin D. Roosevelt, Major General James G. Harbord and Hamilton Holt.

COUNTRY DOCTORS GREAT NEED OF WEST VIRGINIA

State University Expects Pressing Demand for Physicians in the Rural Communities

MORGANTOWN, W. Va., (AP)—A pressing demand for physicians who will live and practice in rural communities is the most important problem confronting West Virginia, according to the authorities of the school of medicine of the University of West Virginia here.

Summersville, the county seat of Nicholas county, does not have a doctor, and Clay county has only one to look after the people living in its 322 square miles. In some of the other counties, many people live from 15 to 25 miles from the nearest physician, and in some of the mountain counties it has been found almost impossible to get doctors to make visits into the country districts.

On the other hand, the cities of the state are very well supplied with medical men, Charleston, the capital, with a population of 30,000, having 162.

"It is not always true that the city or town doctor makes more money than the country doctor," says a statement by Dean Simpson of the school of medicine. "Country people do not object to paying good fees for medical attention. They are usually glad to get it at any price."

An engineer and fireman of an international train left their engine recently to rescue from a burning farmhouse near Cochrane, Ontario, an invalid mother and her son. The boy jumped from the second story into their arms.

CHICAGO POLICE TO USE SHOT GUN IN MAN HUNT

Displacement of Rifle in Equipment of Authorities in the New Departure

CHICAGO, (AP)—Substitution of the shotgun for the rifle is the latest development in man-hunting by the Chicago police. The time-honored rifle squad has given way to the pump-gun squad.

The reason for the change was thus outlined by Michael Hughes, chief of detectives:

"In close range fighting the pump-gun is much the more efficient weapon for within 90 feet of the objective it has a spread of four feet. Each shot carries nine rounds of lead, corresponding in size to that in a .33 revolver bullet."

"In street fighting, also, the chances of hitting the innocent bystander are greatly minimized by the use of the shotgun, because the effective range is so short."

"The other day we discovered a new use for the shotgun. During a race after bandits in an automobile, one of our men emptied his gun through the rear curtain of the speeding machine ahead. The hail of bullets stopped that car as no rifle shot would ever have done."

"The gun we use has the shortest case. Every one of the detective carried these guns as regular equipment."

Another innovation in the detective bureau's equipment is a steel shield, as high as a man's head, from behind which the operative can direct, in comparative safety, his fire at bandits barricaded in a building. This portable armor is mounted on rollers, and is light enough, so that one man can operate it. Port holes, through which to fire, and a heavy glass peep hole are appointments.

Bombing, which is now a recognized part of police tactics in Chicago, can be carried on with great impunity from the shelter of this shield, said Chief Hughes.

Chicago police will use wireless telephones in their war on crime. A wireless is being installed on the roof of the city hall for constant communication with fireboats, rifle squads, fire engine houses, patrol wagons and police stations. Officials hope ultimately to have every policeman equipped with receiving apparatus, weighing but a few ounces.

OFFERS TRAINING FOR ARM MUSEUM CURATORS

University of Pennsylvania Adds Course in Science of Restoring to Curatorship

NEW YORK, (AP)—When the University of Pennsylvania opens next year a course in the science of painting and the care, preservation and restoration of paintings will be inaugurated.

This course, the first of its kind in the world, was made possible through an endowment by a prominent coin collector, whose name was not made public. The new chair will be occupied by Carl F. W. de Wit of this city, a native of Holland, who has acted as collector and curator of many famous collections, among them the Wiener, Morgan and Frick collections.

The course, it was announced, is designed to select and equip specialists and to give to those who desire to become art museum curators a thorough knowledge of the art.

SENATORS ENDORSE PLANS FOR PORTLAND EXPOSITION

WASHINGTON, D. C., (AP)—A resolution by Senator McNary, republican, Oregon, authorizing the president to invite foreign nations to participate in a proposed exposition at Portland, Ore., in 1925, to celebrate completion of the transcontinental highways and development of hydro-electric power, was reported favorably Tuesday by the senate foreign relations committee.

PRO LEAGUE REPUBLICANS DEBATE HARVEY'S STATEMENTS
NEW YORK (AP)—Pro-league republicans, headed by Professor Irving Fisher, of Yale, Tuesday sent a cable message to Lord Robert Cecil protesting against Ambassador Harvey's recent declaration that the election of President Harding denied against America's entrance into the league of nations.

DEPOSES NEW TREATIES TO REGULATE SALMON FISHING

WASHINGTON, (AP)—The president would be requested to negotiate treaties regulating salmon fishing in Pacific coast waters off the United States, Alaska and the dominion of Canada under a resolution by Senator McNary, republican, Oregon, reported favorably Tuesday by the senate foreign relations committee. Senator McNary told the committee that many wasteful practices, including use of small nets destructive to small fish, were threatening the salmon fishing industry on the Pacific coast.

and "carbonated" ice cream not only is PURER; it TASTES better in eating!

This is chapter 4 of the wonderful, new story of ice cream

THE thing of biggest importance, to YOU; about "CARBONATED" ICE CREAM is its absolute, unapproachable PURITY. That goes without saying. When we pay out a very respectable sum of money for a sterile, 100 per cent pure atmosphere—in which to freeze your ice cream—you may be VERY SURE, it's only because we KNOW we're giving you PURER ice cream than we could using ordinary air. When you realize that this "CARBONATING" atmosphere is ONE HUNDRED TIMES PURER THAN AIR, YOU know we're giving you PERFECTLY PURE ice cream.

But—on top of that—"CARBONATED" ICE CREAM tastes better. The flavor is enhanced, given a sort of "sparkle," and YOUR tongue FINDS it out. More, "CARBONATED" ICE CREAM really IS better for you, as a FOOD. And, finally, "CARBONATED" ICE CREAM stays hard longer than ordinary ice cream—and melts more SLOWLY when it does start melting.

Our dealers have this wonderful NEW ice cream for you—the ONLY "CARBONATED" ice cream made in this city.

IMPORTANT IF TRUE

"Idaho Falls Gets Ham and Eggs for Two Bits," says a newspaper headline. If we had the price of a ticket to Idaho Falls, we would call them on that. Any local dealer will tell you that there is nothing in it—and we are too poor to find out. We are told that there is no connection between the price of flour and that of bread—and apparently there is not; that the price of livestock on the hoof has absolutely nothing to do with the price of meat—and that is true, also; that cheap cows and cheap hay do not make cheap milk—and there is no question about that. They do not.

Hence, what is reported to have happened in Idaho Falls, carries a hint of mystery. Is it another phase of the much heralded buyers' strike? Did the meat dealers all "lay off" and, until the hangers began to fear that their packed eggs would become outwitted?

WHEN BILLS COME DUE

One of the most extraordinary arguments presented to a congressional committee at work on tax revision proposals is that offered lately by one who declared that he appeared as the spokesman for a great organization of working men.

The record indicates that this witness, like the majority of those appearing before the committee, was disposed to elaborate on the desirability of reducing taxes of all sorts and that especially he had no use for the proposed sales tax. The record in this case may be inadequate, but it seems to contain nothing of a constructive nature. Nothing is suggested to take the place of the sales tax, which is opposed by this witness on the grounds that his organization has declared against it and that it would prove so unpopular, if it were adopted, that indignation meetings would be held throughout the length and breadth of the land. The implied threat seems to cover considerable territory, in as much particularly, as definite plans for administration of the tax complained against have not been

formulated as yet, and these details may have considerable bearing on the question of whether the proposed levy may be equitable or not.

Incidentally, it might be remarked that display of disinclination to pay for governmental risks and follies seems to come rather strangely from an organization which has endorsed what amounts to government operation of the railroads; which during the war ran the government so deeply into debt that now almost one-third of the federal tax dollar is required to meet that obligation.

OPINIONS

Investment News (Chicago): There is only one conclusion to be drawn from these trade revelations. America must adopt a fresh viewpoint regarding the economic status of Europe. It is not enough that early out work we discredited the groundless fear of general European insolvency, debt repudiation and economic collapse and substituted the opinion that England becomes more and more able to produce, while the Continent would remain helpless and impotent commercially and financially for Europe. We must face the truth that Europe becomes more and more able to produce, while our high production costs make it more and more difficult for us to sell.

Pasadena Tribune: With respect to the United States and Canada an accomplished fact, prices of farm products would be hammered down still further, many farms would be abandoned for mere grazing purposes, and American agriculture as an industry would receive a blow from which it would not soon recover. There is time for congress to repeal the act of 1911 before Canada has the opportunity to ratify it, and the forthcoming tariff bill offers a convenient vehicle for the repeal provision. Why not end this controversy by wiping the objectionable statute from the books?

Farm Life: A spokesman for the board of trade declares that the grain marketing plan worked out by the Committee of Seventeen is "impossible" and "bound to fail." He might be expected to say that, but he should not be so cocksure about it. Nobody knows, of course, what will happen in the future. The present movements in co-operation may not fulfill expectations, but the farmers are not to try them out. Everybody admits that there is a real need for reform in marketing agricultural products—even the board of trade men themselves admit it. And more that the farmers have a notion to get in the selling game—wheat, live stock, cotton, tobacco, fruit, dairy products—the rest of the folks can only sit back and hopefully wait to see what happens. All of the world's progress has been made by opposing the fellows who declared that the forward step was "impossible" and "bound to fail."

The Citizen (Salt Lake): If we consider our element of the readjustment by itself we are not to be misled. It is only by carefully examining the entire program of business, if we may use the term, that we shall arrive at a safe and sane conclusion. We must not be downcast. We must expect great things of the future, for the future of our country always proves to be greater than the past.

MURTAUGH

MURTAUGH—The officers of the Y. L. M. J. A. entertained the Bee Hive girls and their friends at a farewell party for the Misses Marie Olson and Anna Thompson, at the home of Mrs. N. D. Merrill Thursday eve-

ing. A most enjoyable evening was spent in games and music and delicious refreshments were served to 22 guests.

Miss Anna Hershey, teacher of the seventh and eighth grades, took her pupils to Artesian City Friday evening for a swimming party.

R. E. Greene left Friday afternoon for Ball where he will visit relatives before going to Boise. He will attend school at Moscow during the summer term.

C. C. Dudley motored to Twin Falls Saturday to bring home Mrs. Dudley and small daughter. The latter has been seriously ill.

Mr. and Mrs. J. E. Steiner returned Monday from Boise and Naupau, where they have been attending a Sunday school conference.

William Stroud, who has been quite sick the past few days was taken to Harley Saturday for medical attention. Paul Nash was scalded badly about the body Thursday afternoon when a pan of boiling water turned over on him.

Miss Marie Howey, primary teacher the past term, left Monday morning for her home at Beardsden, Ill.

School closed here Friday, May 20. The following pupils graduated from the eighth grade: Dora Williams, Thelma Clawson, Floyd Hall, Glenn Jain, Both Roberly, Norm Howe, Leatrice Taylor, Annie Thompson. The high school has been placed on the accredited list for one year's work. If 10 students enroll in high school next term, it will be accredited for two years work.

Mrs. H. H. True and Mrs. P. J. Fahy entertained at a delightful dancing party at the home of the former Saturday evening in honor of Miss Marie Howey. A most enjoyable evening was spent in dancing by 34 couples. During the evening, several vocal selections were given by Mrs. H. H. True. Delicious refreshments were served.

Miss Phoebe Merrill of Twin Falls and Miss Venna Merrill of Richmond, Utah, returned to their homes Monday, after visiting relatives here several days.

Eleven members of the Murtough Sewing club with their local leaders Mrs. C. A. Dillon and Mrs. G. Carman were motored to Twin Falls Saturday by Miss Anna Hershey, Ima Campbell

and V. R. Bell, to attend the banquet for all the sewing club girls of Twin Falls county, held at the Loggson hotel. The following girls received achievement plus: Dorothy Carman, Iola Dunlap, Nella Campbell, Margaret Holey, Gladys Johnson, Edna Thomas, Leona Nelson, Leona Decker, Cleo Decker, Elva Peck, Thelma Jensen. Mrs. Carman and Mrs. Dillon, who have had charge of the sewing classes, were presented with local leader pins.

Mrs. V. R. Bell entertained the ladies of the M. E. Alt at a Kensington Thursday afternoon. A social sing was enjoyed and dainty refreshments were served.

A large crowd attended the exhibit of the work done by the school children, which was on display at the school house Thursday afternoon. Some of the work was very good and the teachers and pupils deserve a great deal of credit for the efforts put forth.

The pupils of Mrs. C. V. True enjoyed an ice cream treat from their teacher Friday morning.

Mr. and Mrs. Morgan Knapp and two daughters of Richmond, Utah, who have been visiting at the home of the former's daughter, Mrs. Lure Merrill, returned to their home Monday morning.

Mr. and Mrs. E. S. True, Mr. and Mrs. Carroll True, Mr. and Mrs. H. P. Jain, Lloyd Jain and Mrs. A. J. Folter motored to Twin Falls Sunday evening to attend the baccalaureate services at the Methodist Episcopal church.

The W. A. B. class entertained at a lawn party Friday at the home of Lloyd Jain, as a farewell to one of

their members. Miss Marie Howey, Games were enjoyed after which a program was given. The feature of the evening was writing letters, each one presenting a long letter which was to be read by Miss Howey on her railroad journey. Refreshments of ice cream, cake and cookies were served. The guests numbered 27.

Boosted up.

U.S. CHAIN TREAD

One of the few tires of which it may be said that they deliver economy year in and year out and tire after tire.

The U. S. Chain Tread gives sufficient traction on all ordinary road surfaces. It is probably the handsomest, and by all odds the most popular, of the whole U. S. Fabric Tire line.

"As in the greatest cities so in his own home, everywhere in the U. S. The new 6 1/2 inch, five tire of current production."

"In every section, however remote, you find a dealer in fresh, live U. S. Tires."

Economy rides on U.S. Tires

If you could get together all the car owners you know, you'd probably find that their tire experiences had been much the same.

Most of them have taken their fling at "job lots," "discontinued lines" and "surplus stocks." Soon or late, nearly all settled back on quality first as the one sound assurance of tire value.

As soon as a man forgets the cut-price tag, and comes to the dealer who concentrates on a full, completely sized stock of U. S. Tires—he learns what it means to get fresh, live tires—not once in a while but every time.

Not merely in the big cities, but in his own home town.

Not merely for the heavy car, but for the medium and light-weight car—a full selection of size, tread and type.

Your U. S. Tire dealer can give you this service because of the service he gets from his neighboring U. S. Factory Branch. There are 92 of these Branches. Each gets its share of U. S. Tires, so that the dealer is always supplied with fresh, live stock.

U. S. Tires sell as fast as they are made. There is no over production. No surplus piled up waiting for a "market."

Wherever you buy a U. S. Tire—you buy a tire of current production, as full of life and value as the day it left the makers.
