PRICE FIVE CENTS

BOMB EXPLODES KILLING DEATH AMONG SOLDIERS

Two Enlisted Men Killed and 12 Others Injured in Blast at Aberdeen, Maryland, Army Proving Grounds.

WASHINGTON, D. C., (AP)—Two enlisted men were killed, twenty officers and another enlisted man were injured, perhaps fatally, and nine others, including one officer, were more or less seriously hurt in the explosion of a bomb in an airship at the Aberdeen, Md., army proving grounds today, according to latest reports from the war department.

WASHINGTON, D. C., (AP)—Two enlisted men were killed and three officers and nine enlisted men were injured in the explosion of a bomb at the Aberdeen, Md., army proving grounds, according to private messages received here today from Aberdeen. Reports to the war department said that three officers were injured, two seriously and eight enlisted men were hurt. There reports told of none killed.

BOMB FALLS FROM PLANE IN ABERDEEN EXPERIMENTS

BALTIMORE, Md., (AP)—The bomb which exploded at the Aberdeen proving grounds today was being taken up in an airplane when the accident occurred, an officer at the proving grounds said over the telephone. As the machine started to ascend the bomb fell from its fastenings. The three officers who were injured were in the plane, he said.

A telegram from the correspondent of the Baltimore News at Aberdeen states that two enlisted men were killed and that three other soldiers were dying. Captain J. E. Hall, the pilot of the plane, which was a Martin bomber, had both eyes blown out and his condition was said to be critical.

Robert Herza, a civilian employe, had his left leg blown off below the knee when the airplane was completely wrecked.

Privileges Restored to Socialist Papers

WASHINGTON, D. C., (AP)—The Milwaukee Leader and New York Call were restored today to the second-class mailing privilege, it was announced by the postoffice department.

All the mails were denied these two daily newspapers by former Postmaster General Burleson because of the character of matter appearing in them which was in violation of American participation in the war.

American Contention in Oil Case Defended

WASHINGTON, D. C., (AP)—Exception to the provisions of the Netherlands government that the United States enter oil in protest against the Dutch oil policy in the Dutch East Indies to affect the operation of that policy is taken by the American government in a new note which it was announced today had been dispatched to The Hague.

Administration Makes Soundings on Armament Cut

Informal Feelers are Put Out to Develop Attitude of Foreign Powers

WASHINGTON, D. C., (AP)—"Informal feelers" with respect to an international agreement for a reduction of armaments already have been put out by the American government, it was learned today, in high administration quarters. The purpose it is understood, was to develop the attitude of foreign governments on the question before any formal negotiations are undertaken.

The approaches already made are understood to have been conveyed through American representatives sitting informally in the allied councils. The process is expected here to be a slow one and generally the belief is held that the "informal feelers" will be the only direct action taken now by President Harding in response to the Brand amendment to the avil bill requesting the United States to begin negotiations for a disarmament agreement.

WAR BABIES COME IN FOR ADMINISTRATOR'S STUDY

President and Official Family Inquire into Possibility of Law's Violation

WASHINGTON, (AP)—The possibility that there have been violations of the federal anti-trust laws by some of the larger special industries organized with government approval during the war was considered by President Harding and his official family at today's cabinet meeting.

Although it was indicated that no definite administrative policy was decided on it is understood that the department of justice will make an inquiry to satisfy itself that the laws are not being violated.

Japanese Submarines Collide in Maneuver

TOKIO, (AP)—Six Japanese submarines were collided during naval maneuvers off the coast of Okinawa, and one of them has been seriously damaged, as a result the proposed long distant cruise of these craft has been postponed.

AMERICAN CHIGOLE COMPANY DEFERS DIVIDEND ACTION

NEW YORK, (AP)—The American Chigole company today deferred action on its quarterly dividend of 1 1/2 per cent on preferred stock.

FLASHES FROM THE WIRE

MADISON, Wis., (AP)—Governor Blaine today vetoed the Madison prohibition amendment act, as in conflict with the federal Volstead act, terming it "indefinite and uncertain" and the Anti-Saloon league lobby "pernicious."

GLOBAL, Ark., (AP)—"Red Whiskers" Burnett, escaped convict, who has eluded justice for "kidnapping" and "cowboy" for the past ten days, following the murder of a Marine sergeant, open a posse of cowboys early this morning, in the vicinity of the Bar S ranch, 25 miles from here. None of the cowboys was hit.

ALLIANCE, Neb., (AP)—John J. Vance, 60, died suddenly yesterday a few minutes after he had jumped into a pool of water to save a three year old boy from drowning. Prior to the rescue Vance had been at work building a cement sidewalk and physicians said that the shock of plunging into the cold water while in an overheated condition caused heart failure.

MAOON, Ga., (AP)—The main building of Central city college, a negro institution here of 300 students, was set on fire and destroyed early today by an insane negro woman who appeared on the campus stripped of all clothing and stoned the building before entering to apply the torch. All students got out of the building without injury. The loss is estimated at \$100,000.

LONDON, (AP)—A locomotive has been selected as a memorial to the Great Central Railway here who fell in the war. The engine, which is a modern one and in use on the main line, has been christened "Walter" and beneath the title has been placed the inscription in large letters: "In memory of the employees of this company who fell in the war 1914-18."

PHILADELPHIA, (AP)—Alfred in Lincoln green and tan o'shankers, the class of 1911, led by Mrs. Eileen Graham, who pushed a gayly decorated baby carriage containing Eileen Graham, Jr., himself tam o'shankered and wearing a "One of Ninety" attracted most attention today at the high school day program of Bryn Mawr college. It was explained that sixty-five graduates of a decade ago now have ninety children.

RAILWAY LABOR BOARD COMPLETES-WAGE SLASH

Decision Outing Wages of Employes of 104 Roads Ready to Be Handled Down Tomorrow

CHICAGO, (AP)—The United States railway labor board today completed work on the decision which it will hand down to the 104 roads. Eventually the new rates to be established will apply to every road in the country.

Advances of substantial value are to be ordered by the board place the figure somewhere between 10 and 15 per cent, with the general belief that it will be nearer the lower figure than the higher.

A 10 per cent cut would subtract \$300,000,000 from the nation's railway payroll.

Tomorrow's decision will be effective July 1, just 11 months after the \$600,000,000 increase of last year took

PREMIERS FAIL TO AGREE UPON SILESIAN ISSUE

Lloyd-George Insists on Meeting Prior to Examination of Question by Experts; Briand Wants Investigation First

LONDON, (AP)—The latest proposal by the British government in connection with the Silesian question is still under consideration and a meeting next week at Bologna. This is regarded as a reply to the French suggestion that a meeting of the council before reaching the report of a commission of experts on the Silesian problem would be neither opportune nor desirable.

PARIS, (AP)—The exchange of views between London and Paris regarding a meeting of the allied supreme council to consider the Silesian question, has reached a sort of dead center, Mr. Lloyd George, British prime minister, is insisting that the premiers meet previously to the creation of an expert mission to examine the Silesian problem.

Premier Briand handed the British ambassador here last evening a note repeating the French argument and dwelling upon the impossibility of the premiers taking effective action previous to the examination of the question by the experts.

VON HOEFER ARGUES ALLIES OWE DEBT TO GERMAN FORCES

BERGHELOU, Upper Silesia, (AP)—German defense organizations in this city and in other towns west of the Oder river, have and probably are re-established in Upper Silesia, said General von Hoefer, commander of German guards in this city yesterday.

He added that the allies should be thankful that the Germans had "reorganized these men and had maintained order, instead of trying to disarm and liquidate the defense troops in this critical time."

"We do not want to keep these men under arms a minute longer than necessary," he went on, "but we must protect ourselves."

General von Hoefer lost his right arm during the great war. He has recently presented the Germans from starting a general strike, rising one morning at four o'clock to send orders to Germans already under way toward the Oder to turn back. He has been in close touch with British control forces.

Right discipline has been established, and operations are being conducted in a strictly military manner.

WEEKS ORDERS INQUIRY INTO AIRPLANE CRASH

Secretary of War Calls for Searching Investigation of Accident Costing Lives of Seven Men

WASHINGTON, D. C., (AP)—Investigation by the inspector general of the army of the airplane crash at Morgantown, Md., Saturday in which four officers and an enlisted man in the army and two civilians lost their lives, was ordered today by Secretary Weeks. Instructions transmitted by Major General Weeks, chief of staff, directed that every angle of the disaster be carefully reviewed. The report will form the basis for any further action which may be decided upon by the war department.

This investigation will be independent of the action taken by the aerobics' board of inquiry which reported that the plane had a not adiabatic, chief of the air service. This report exonerated the pilot, Lieutenant Stanley Ames, and said there was no evidence of defective design in the machinery.

The inquiry by the inspector general presumably will be of wider scope, however, and take cognizance of the statement made by Major General Leveque, air attaché of the French embassy, who rode in the wrecked plane from Washington to Langley field, but who had not noticed on the way down that he had lost balance and that the ship was at times out of control of its pilot.

PILOT IS EXONERATED OF BLAME IN PLANE CRASH

Board of Investigation Relieves Lieutenant Ames of Responsibility for Accident Costing Seven Lives

WASHINGTON, D. D., (AP)—Lieutenant Stanley Ames, pilot of the Curtiss-Eagle army airplane that crashed near Morgantown, Md., Saturday night with a loss of seven lives, was exonerated of all blame for the accident in the formal report of the board of investigation, submitted today by Major M. E. Scanlon, commandant at Langley field. The accident, in the opinion of the board of three army aviation officers, was absolutely unavoidable and was due to a combination of factors, which the airplane ran while returning from Langley field, Va., to Washington.

STRIKING PAPER MAKERS BAR OWNERS FROM MILL; CALL MADE FOR TROOPS

High Handed Proceedings on Part of Pickets is Reported From Green Bay, Wisconsin

GREEN BAY, Wis., (AP)—All officials, office employes and strikers employed at the Northern Paper Mills were turned away this morning when they sought to enter a strike on the mill, by more than 1000 strikers doing picket duty at the mill, according to Lewis Allard, local president of the papermakers' union. Earlier two men said to be strikers were slashed in an affray with four men declared to be mill employes.

GOVERNOR IS ASKED TO DISPATCH STATE TROOPS

MADISON, Wis., (AP)—Request was made of Governor Blaine this morning by the sheriff of Brown county for immediate dispatch of troops to Green Bay to quell disturbances which are said to have grown out of a strike in three paper mills there.

Governor Blaine over the telephone from Hoshok, he would get in touch with Brown county officials at once and determine if state action is necessary.

WHEAT FOR MAY DELIVERY JUMPS

Sensational Upward Swing in Price Recorded when Shorts are Ought

CHICAGO, (AP)—Wheat for May delivery made a sensational upward swing in price today as a result of demand from shorts who are waited until the last of the month before fulfilling contracts. Little was for sale and the market ran up 12 1/2 cents a bushel to 1.42 as compared with Saturday's 1.29.

Except in the May delivery of wheat prices although firm, kept within moderate limits. Huge receipts of all kinds of grain were today reported at a counter balance against the bullish effect of the unusual uptick in the price of wheat. About 24000 carloads of grain arrived, including 450 cars of wheat.

Increase in quotations on the part of shorts prompted the market's jump. The highest bid for May delivery was 1.42, the highest bid for June delivery was 1.37, though, lacked volume and excitement was confined to the groups directly at interest. The May delivery expired at the high price, 1.42, and a volume of 17 1/2 carloads with Saturday. July gained only half a 3-4 cent, closing at 1.28 3/4.

BRYAN REMOVES LEGAL RESIDENCE TO FLORIDA

Distinguished Nebraska Announces Decision to Transfer Citizenship to Southern State

NEW YORK, (AP)—William Jennings Bryan will vote in Florida in the future. While here today he announced that his actual residence in a state of suspended animation. He had decided to transfer his citizenship to Florida, and this made his actual residence his legal residence.

Mr. Bryan's health is such that it is necessary for us to live in the state which would become his legal residence, he said.

"I have decided to transfer my citizenship to Florida, and this makes my actual residence my legal residence."

PILOT IS EXONERATED OF BLAME IN PLANE CRASH

Board of Investigation Relieves Lieutenant Ames of Responsibility for Accident Costing Seven Lives

WASHINGTON, D. D., (AP)—Lieutenant Stanley Ames, pilot of the Curtiss-Eagle army airplane that crashed near Morgantown, Md., Saturday night with a loss of seven lives, was exonerated of all blame for the accident in the formal report of the board of investigation, submitted today by Major M. E. Scanlon, commandant at Langley field. The accident, in the opinion of the board of three army aviation officers, was absolutely unavoidable and was due to a combination of factors, which the airplane ran while returning from Langley field, Va., to Washington.

TEXANS ASK REMODELING OF INTRASTATE TARIFFS

WASHINGTON, (AP)—Complaint that freight rates to and from the lower Rio Grande valley were prejudicial to other territories was made to the interstate commerce commission today by shippers in that territory through chambers of commerce and various commercial organizations.

"Practically all rates to and from Texas are higher than in other territories as common port territory, the complaint said, but to this rate was added numerous and varied differentials designed to make it higher."

Repeal of the Texas railroad commission is authorized by the commission to make a readjustment of these differentials.

Port of Petrograd is Reported Opened

RIGA, Latvia, (AP)—A radio dispatch from Moscow today said the port of Petrograd had been opened and that the first ship, a Latvian steamer, sailed from that port.

COLUMBIA RIVER FLOODS SPREAD OVER BIG AREA

Waters Break Through Barrages and Inundate Farm Land in Vicinity of Woodland, Wash.; Warnings Given

WOODLAND, Wash., (AP)—Flood waters of the Columbia river, which broke through 75 feet of dike six miles north of here last night, were spreading today after having flooded 45000 acres to a depth of eight to ten feet. No loss of life was suffered as a warning was given all residents of the flooded area. Damage was chiefly to crops and was estimated at from \$300,000 to \$500,000.

Breaks Through Outlet

At 5 o'clock today the water broke through a culvert on the Northern Pacific railroad fill, causing further spread of the flood. The culvert had been blocked up with sand bags against the rising waters during the night.

Neither the town of Woodland, which is on high ground, nor the railroad track, which parallels the dike, appeared in any danger. Crops of wheat, oats, and potatoes were damaged and eggs, cattle, were endangered.

Additional Spill Likely

The water is expected to spread over additional land to the south of this point as the level of the water outside the dike will in several feet above that inside.

Warnings was given all persons in the danger zone in time for them to evacuate shortly after the break at about 1 o'clock last night, and 1000 men hurried to the flooding area to render any possible aid. Hundreds of head of livestock were driven from the land and the water is several feet above ground. About a hundred head of cattle will be taken from the flooded district today.

Big Narrow Escape

Grand Juror, James A. Burke, pioneer farmer of Kelso and Woodland, had a narrow escape from being carried away by the water when a pump house on the dike was washed away by the rising water.

Young Burke, with his father and F. C. Burke of Oregon City, was inspecting the dike when the break came and was in the pump house.

"Diking district No. 5, in which the flood waters are spreading, includes from 6000 to 7000 acres. The dike is 1 1/2 miles long and is three-fourths of a mile, inland from the banks of the Columbia.

HIGH WIND SHIFTS DEBERT HANDS INTO SHANGHAI

PEKING, (AP)—A dust storm of greater proportions than any of recent years is blowing from the northwest, carrying Gobi desert sand to Shanghai and far out to sea. Japanese liners arriving at Yokohama reported having to stop navigation due to the heavy yellow cloud that enveloped them.

Peking looked like a deserted city during the continuance of the blow, nobody venturing out except under stress of necessity.

AIR FORCES OF PACIFIC FLEETS WILL MAKE TESTS

SAN PEDRO, Cal., (AP)—An intensive program of summer and fall maneuvers of the fleet's air forces will be effected here in planned by Captain William A. Moffat, director of naval aviation, which was designed here recently.

The program will include extensive testing, tests, designed to measure the value of aircraft against naval vessels. Aircraft will be mobilized at all Pacific bases for the tests.

SANTA FE RAILROAD TO REDUCE FORCES IN SHOP

TORONTO, Kansas, (AP)—Approximately six hundred and fifty men will be laid off at the Santa Fe shops in Toron, as the corresponding reduction in force will be made at Albuquerque, N. M., Cleburne, Texas, and San Bernardino and Richmond, Cal. This A. G. Wells, of Chicago, vice-president of the road, announced Wednesday.

OHIO FARMERS ISSUE OF AIR SERVICE STAMPS

PEKING, (AP)—The Chinese post office has prepared an issue of special acceptance service stamps of denominations 15, 20 and 30 cents, in recognition of the air transmission planned for the near future between Peking

States' Rights Issue Comes to Life in Highway Program

WASHINGTON, (AP)—The issue of rights of the states as opposed to those of the federal government is threatening to become the subject of debate in congress on the subject of highways.

The issue thus far has reached the stage of discussion only in the senate. The House will resume active charge on the subject of highways.

Mr. Dickerson no longer being connected with the society.

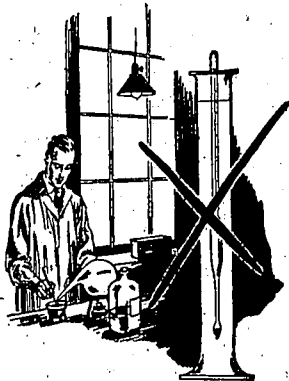

Members of the committee from the southern states have indicated, however, that the question of authority as between the states and the federal government will be raised when the Townsend bill reaches the senate.

Provisions of the Townsend bill give the proposed highway commission the right to issue bonds to the effect of five members authority to pass finally on the roads to be constructed with the

Why does the U. S. Government Ignore the gravity test for Gasoline?

A matter of vital interest to every motor vehicle owner

Ever since gasoline has been used on a large scale in pleasure cars and commercial motor vehicles, several popular "tests" have been used for gauging its quality. The most common of them is the gravity test, made by means of an instrument called a hydrometer. This gives the specific gravity of the gasoline in degrees Baumé—an accurate measurement of its weight.

The familiar gravity jar and hydrometer are all that is necessary to find the "gravity" of a liquid. In this way the weight of the liquid can be computed with great accuracy. But as an indication of gasoline quality, "gravity" is unreliable.

Thousands of gasoline users have been led to believe that the gravity test is a reliable indication of gasoline quality. So believing, it is only natural for them to suppose that high gravity means high quality and similarly that low gravity indicates low quality. There are, however, many facts that show how erroneous this idea really is.

What happened during the war

At the time of our entrance into the war, the various departments of the government each had different specifications for the petroleum products that it used. To eliminate the obvious disadvantages of this condition, the President appointed a committee composed largely of technical men and scientists to draw up a single volume of specifications for all classes of petroleum products used by all departments of the government.

The work of this committee was embodied in the "Report of Committee on Standardization of Petroleum Specifications," published by the U. S. Bureau of Mines. And in this report—which contained complete methods for testing all petroleum products, including gasoline, illuminating oil, lubricating oil and fuel oil—the gravity test was ignored in every case.

In other words, this committee, in numerous conferences with prominent motor vehicle manufacturers, gasoline distributors and dealers, came to the same conclusion that gasoline refiners have held for years, namely that "gravity" has no significance whatever in ascertaining the quality of gasoline.

The report mentioned above, the latest volume of which is effective December 29, 1920 (Bulletin No. 5), constitutes the basis of all tests of petroleum products to be bought for any and all departments of the U. S. Government.

The opinion of a prominent authority on the subject

Most writers on the subjects of petroleum production, gasoline refining and testing, point out the fallacy of using the hydrometer to determine the quality or purity of liquids.

In "The Petroleum Handbook," by Mr. Stephen O. Andros, A. B., B. Sc., E. M., there is the following reference made to the gravity test in the chapter on Gasoline Specifications:

"Specific gravity is in itself of very little significance in determining the properties of gasoline. Gravity may serve as an index of other properties particularly volatility, only when knowledge is at hand regarding the source and method of production of a sample of gasoline."

At best, the gravity "test" is simply a rule-of-thumb method supposed by many to indicate something that gasoline manufacturers and authorities are well aware it does not indicate, that is—quality.

For this reason, the Continental Oil Company does not sell Conoco Gasoline on a basis of gravity. It is sold on a basis of its boiling points, the real test of gasoline volatility, power and mileage. On this basis it more than meets the new Navy specifications of the U. S. Government.

This "distilling outfit," shown above, is a common sight in most every well-equipped chemical laboratory. By means of it, the boiling point or volatility range of liquids like gasoline is easily determined, and constitutes a reliable indication of their power producing properties.

ALTER RAILWAY RATES TO MEET WATER CARRIER

Santa Fe Official Tells Senate Committee Transcontinental Freight Tariffs are in Process of Revision

WASHINGTON, (P) — Transcontinental railroad freight rates are being altered to meet ocean competition via the Panama canal, Edward Chambers, vice-president of the Atchafalpa, Topka and Santa Fe declared today before the senate committee investigating the railroad situation.

Interior Rates
"We shall fix the rates from San Francisco to New York to meet the water carriers," Mr. Chambers said, "and then modify the interior rates structure so that Kansas City, Chicago and Cincinnati for instance, will get the same rate as that to New York and producers in all points will be placed on a competitive basis."

Pampered Person Never Strong.
A pampered person is usually soft-bodied and good for nothing. One authoritatively derives the word from "pamper" (Latin) and the French "pamper," a vine-tendrill. A vineyard overgrown with leaves and fruitless branches is said to be pampered. "Paradise Lost" Milton speaks of pampered boughs, which needed hands to check fruitless embraces. The Italian have a phrase "pamperato," but this means well-fed and is derived from pane, bread, and bere, drink.

Quintessence.
The ancient Greeks, like modern chemists, said there were four elements or forms in which matter could exist—fire, air, water, and earth. The fifth element, called a fifth, which they called ether, more subtle and pure than air. This element, which flew upwards at creation, and out of which the stars were made, was called the fifth essence, hence quintessence or "quintessence" means the most subtle extract of a body that can be produced.

Vertigo Is Caused by Trouble in Ear.
Dr. Douglas Vanderhoff of Hitchcock, Va., states in the Medical Record that we must thoroughly understand that the labyrinth of the ear is the sense organ of equilibrium. Vertigo, from whatever cause, was essentially an ear ailment, and was always due to some disturbance of the vestibular apparatus.

HOME DECORATION
Interesting Lecture at Chautauqua by Hunt Cook of Chicago—Art Institute.

"No community can rise above the level of its home life and that home life is largely the product of home surroundings," says Hunt Cook of the Chicago Art Institute, who lectures at Chautauqua on the third afternoon.

Mr. Cook is an authority on interior decoration and he will talk at Chautauqua on "Art in the Home." He builds a model room on the Chautauqua stage and shows the right and wrong way of arranging the furniture. Mr. Cook stresses simplicity and the elimination of all unnecessary furniture. "The trouble with our homes is that we clutter them up," he says.

Uncle Sam's Money Man

Frank White, newly appointed treasurer of the United States, Mr. White is a former governor of North Dakota and was a resident with the A. E. F. during the war. His home is in Valley City, N. D. The new treasurer succeeds Guy F. Allen, who has been serving as treasurer since last January, when John Barke resigned for not being.

CELEBRATE FOUNDING OF UNIVERSITY OF VIRGINIA

Educators from Many Points Gather at Charlottesville for Observance

CHARLOTTESVILLE, Va., (P)—Educators from all parts of the country and from many foreign nations joined today in the celebration of the one-hundredth anniversary of the founding of the University of Virginia by Thomas Jefferson. The four days' program opened with exercises commemorating the influence of the University in the religious life of the nation.

The guests, who included several thousand graduates of the university, were welcomed by Governor Westmoreland Davis and Dr. Edwin A. Alderman, president of the University. The Rev. William Alexander Burr D. De, dean of the Christ Church Cathedral, New Orleans, was the principal speaker at the opening exercises. He was graduated from the university in 1892.

Answering the criticism of historians who attributed Jefferson's tendency toward liberalism in religion as a desire to break away from the established faith of the church, Dr. Burr said that in founding the university Jefferson "aimed so low as any religious influence that might be fostered by it."

"The blow was at sectarianism only," he said, "at the religious tests and the abillibolies which he conceived as obstructing the most effective work of an educational institution."

Fifty-three classes were represented at the exercises today, answering the call of "back to the old Rotunda!" They were led by the members of the class of 1922, of which there are thirteen survivors. The graduates called in a body on Dr. Francis H. Smith, professor emeritus of natural philosophy, and said to be the oldest living member of the Phi Beta Kappa in the United States.

Several hundred of Virginia's 1,200 world's war veterans who saw service overseas held an impressive reception at military headquarters, which was fitted up to represent the Virginia Union in Paris. It was the first reunion since they were discharged from service.

This evening the new Greek Amphitheatre will be dedicated with an organ recital by Humphrey John Stewart, musical organist of San Diego, Cal., and Dr. Henry Van Dyke Murray, professor of English literature at Princeton University, will speak at vesper service.

Today's Markets

MAY DELIVERY WHEAT IS GRAIN TRADING FEATURE

Climbe Higher than Topmost Previous Figure; July Stocks Fractional Advance

CHICAGO, (P)—Anxious shorts in the wheat pit continued with a scarcity of offerings and yet facing last of the month settlement of contracts ran up the price of May delivery 12 1/2 today. Effort was being made for settlement purposes was a surprise in view of the fact that 450 carloads had been received here since Saturday. Aided from the flurry on the part of shorts in July, the wheat market exhibited many channels, with bulls having the advantage from a continuance of crop shortage news despite their rains. Opened at 12 1/2 higher, with May 81 1/2; July 81 1/2; and July 81 1/2 to 1.30 1/2, was followed by a further advance for May and a reaction to 81 1/2 for July.

In the last hour the May delivery climbed again, and at 81 3/8 surpassed by 2 cents the topmost previous figure on the crop, but with business very light. The close was nervous, 1 1/2 to 3/4 higher, with May 81 1/2 and July 81 3/8 3/4.

Notwithstanding immense receipts of corn, 1,750 cars, the market for that cereal was firm in sympathy with wheat. August, 60 1/2; September, 60 1/2 to 1 1/4 higher, including July 60 1/2 to 1 1/4, the market showed material gain 3/8 around.

The day's receipts were readily absorbed, with elevator and shipper the chief buyers. Prices closed easy, at half cent decline to a like advance, July 64 3/4.

Oats paralleled the action of corn, starting a shade off to 1 1/8 up, July 40 7/8 and then going up grade. Higher quotations on hogs helped to strengthen provisions.

Cash Quotations

CHICAGO, (P)—Wheat No. 2 red \$1.10 to 1.12; No. 2 hard \$1.09 to 1.17. Corn No. 2 mixed \$4 3/4 to 6 1/2; No. 2 yellow 6 1/2 to 6 3/4. Oats No. 2 white 10 1/2 to 41 1/2; No. 3 white 30 1/4 to 41 1/2. Hay No. 2 \$16.00 to 1.67. Harley 60 to 70. Timothy seed 4.50 to 6. Clover seed \$13 to 18. Pork nominal. Lard 49.20. Hils 49 to 10.

Mississippi Flour and Grain

MINNEAPOLIS, Minn., (P)—Flour unchanged to 1/2c lower. In eastern lots, family patents quoted at 49 to 50 a barrel in 68 pound cotton sacks. Bran 4 1/2. Wheat receipts 573 cars, compared with 340 cars a year ago.

WANTED AT ONCE!

The Name and Address of every person in Twin Falls County suffering from cancer in any form. Those cases which have refused operation had also those who have been pronounced incurable by reputable surgeons, especially desired.

For Test Days Address
PHYSICIAN
Box 502
TWIN FALLS, IDAHO

#1.50 to 4; common cows \$3.50 to 4.50; canners \$2 to 3.50; bulls \$3.00 to 4.75; choice dairy calves \$6.50 to 10; prime light \$9 to 9.50; medium light \$8 to 9; heavy \$3 to 6.

Hogs steady; receipts 699; prime light \$8.75 to 9.25; smooth heavy 250 to 300 pounds \$7.25 to 8.25; 300 pounds and up \$6.25 to 7.25; rough-heavy \$3 to 7.25; fat pigs \$9 to 9.25; feeder pigs \$3.50 to 6; stags \$4 to 7.25.

Sheep 25c higher; receipts 425; prime lambs \$6.75 to 7; fair to good \$5.50 to 6.50; culls \$4 to 5.50; feeder lambs \$2 to 4; light yearlings \$7 to 7.75; heavy \$4.50 to 6; light wethers \$4.50 to 5; heavy \$3.50 to 4.50; ewes \$1 to 4.25.

Omaha Livestock

OMAHA, Neb., (P)—Hog receipts 7, 400; steady to 25c higher; bulk 100 to 240 pound butchers \$7.50 to 7.75; bulk butchers 250 pounds and over \$1 to 7.50.

Cattle receipts 6,000; beef steers uneven; best yearlings strong; others steady to weak; top yearlings \$5.50; all other classes steady.

Sheep receipts 3,500; spring lambs 25 to 50c higher; top woolled \$12.25; other lambs steady; best clipped lambs \$11.15; sheep 50c lower; top head of ewes \$3.50.

Chicago Livestock

CHICAGO, (P)—Cattle receipts 10, 000; beef steers and fed steers 25 to 40c higher; common and grassy cattle steady; exporters and shippers liberal buyers; top \$9.25; bulk beef steers \$8 to 8 1/2; fat cows and heifers mostly \$5.25 to \$6.75; bulls, calves, stockers and feeders steady to 25c higher; bulk \$4.50 to \$6.75; veal calves mostly \$3 to \$3.50.

Hog receipts 25,000; active, 25 to 35c higher than Saturday's average; top \$8.25; practical limit \$8.15; bulk \$7.50 to 8.00; pigs mostly 25 to 50c higher; bulk desirable \$8.

New York Stock Market

NEW YORK, (P)—Shorts renewed their aggressive tactics in today's listless stock market. Adverse financial and industrial developments effected further losses of one to three points. Sale approximated 400,000 shares.

A firm tone accompanied the resumption of trading on the stock exchange today, although industrial developments over the prolonged recent favored the short account. Some of the rail, equipments and steel averaged gains of 1 point, notably Chesapeake and Ohio, American Car, Midvale Steel

and Colorado Fuel. Motors reflected further price readjustments in the trade and European oils contained their recent heaviness. Preliminary quotations indicated further consolidation in the foreign exchange market, the British rate falling sharply under last week's final rate.

Exporting rails, which were relatively steady, price tendencies in the interdealings were toward still lower levels, especially among steels, oils and coppers. The closing was:

Liberty Bonds
NEW YORK, (P)—Liberty bonds closed: 3 1/2's \$87.50; first 4's \$87.40; second 4's \$87.00; first 4's 1/4's \$87.40; fourth 4's \$87.10; Victory 3 3/4's \$90.00; Victory 4's \$89.00.

Potatoes

CHICAGO, (P)—Potatoes steady; receipts 107 cars; Northern White, sacked and bulk 50 to 55c cut; new Texas Triumph No. 1 \$2.25 to 2.40; Louisiana White 1.90 to 2 cwt; South Carolina Cobblers \$2.25 barrel.

Copper

NEW YORK, (P)—Copper steady; electrolytic spot and nearby, June and July \$13 1/4 to 13 3/8.

Sugar

NEW YORK, (P)—The raw sugar market was unchanged early today at \$3.00 for centrifugal, with sales of 31, 500 tons of Philippine which are duty free. The inscribed duty, however, has caused considerable hesitation among holders of dutiable sugar who are waiting the attitude of refiners toward purchases including readjustment of the basis of the new tariff.

Raw sugar futures were easier under increased liquidation, with price at midday 4 to 11 points no lower. The market for refined was unchanged at \$6.30 to \$6.00 for fine granulated. The demand was moderate.

In refined futures it was announced that all outstanding contracts would be advanced in order to comply with the increased duty. The market was firmer.

Sugar futures closed easy; sales 3,400 tons; July \$2.35; September \$3.35; October \$3.30; November \$3.20.

What the new DELTOR means in a family of girls

Frocks, dresses, skirts, coats, dainty, yet practical lingerie and negligees—all the multitude of things that a girl really needs in order to wear and under apparel— are needed in these days more than they ever were.

To have all these things made is a serious task. To be able to make them for one's self is a fortunate thing, and many a woman has sighed for the skill of an experienced dressmaker.

Butterick's new invention, the Deltor, makes it possible for you to make any kind of a garment as easily as if you had done it for years.

- The Deltor does these things:
- It prevents over-buying of material.
 - It prevents buying too little.
 - It prevents waste in cutting out.
 - It prevents cutting the wrong "way" of the cloth.
 - It assures putting together right—no ripping out, fusing and doing over again.
 - It assures just the right set to the collar and sleeves—two things so very apt to bother.
 - It assures just the right look to the completed garment, with every plait, and tuck, and gather, and fold, and drapery exactly as it belongs.
 - It assures that perfection of French finish is prized by us all—dainty and delightful.

The best way to describe the Deltor is to say that it is a picture-story, and that the pictures show the expert way of taking each step in making the garment.

These pictures are perfectly plain. Nothing could well be simpler. To look at them is to understand them and to follow them is to do, with ease, what the expert would do.

You will be amazed and delighted with this invention—the greatest thing for women since the sewing-machine and the paper pattern.

Still had more drumming for every woman, no matter how inexperienced she may be, is as momentous as anything which has happened in the home in a generation.

There is no longer any need for hesitating to make every garment your family needs. Ask our Butterick Department for Butterick Patterns with the Deltor.

THEOLOGIAN TO GET NEW BOOKS

Methodist Bishops Make Important Changes in Course of Instruction

CHICAGO, (AP)—Important changes have been made in the books to be read in the course of study for the three thousand Methodist Episcopal young ministers who are studying while they preach, and the students at ten theological institutes, who are preparing for the ministry, according to information received today at Methodist headquarters here.

Among these recommendations, the most remarkable change made by the bishops at their annual meeting in Portland, Oregon, is the adoption of the volume of the church and industrial relations dealing with social problems, issued by the Interdenominational Committee on the War and the Religious Outlook, and a volume on Modern Premillennialism by H. F. Hall, which combines this doctrine.

Professor Hall is a member of the faculty of Garrett Biblical Institute of Northwestern university.

The study course including books to be read by the three thousand young ministers and the students at Methodist theological seminaries, are in charge of a commission created by the general conference of the church, the chairman of which is Bishop Edwin Hughes of Boston. The commission, once in four years, prepares the course of studies to be followed. The new plan just passed on and approved by the bishops, who recommend several changes.

While Methodist authors predominate, the course includes volumes by Dr. R. H. Pattison, Professor W. N. Clarke, Colgate university, Baptists; Dr. Washington Gladden and Professor Whittier Walker, Yale university, Congregationalists; by Dr. J. P. Smyth and Dr. A. V. Allen, Episcopals; and by Prof. A. C. McGiff, who is a Presbyterian.

The course of the students is directed by the commission, under a director, Dr. Allan MacRae of New York, and by over a hundred boards of examiners in the United States, Canada, and other countries.

GREATER USE OF POWER PLANNED

Gigantic Program of Electrification is Discussed at Chicago Convention

CHICAGO, (AP)—Plans for the launching of a gigantic electric light and power development program, nationwide in scope, will be unfolded at the forty-fourth annual convention of the National Electric Light Association, to be held here beginning today and lasting until June 3.

Development plans will be discussed which call for the extension of the industry at the expenditure of millions of dollars for the purpose of extending the service of electric energy to American industry.

JAPANESE WILL ATTEND WORLD PRESS CONGRESS

Tokio Editor is Named Delegate to the Convention of Newspaper Men to Assemble in Honolulu

COLUMBIA, Mo., (AP)—Japan will be represented in the Press Congress of the World in Honolulu next October by a delegation of distinguished journalists headed by K. Sagamura, editor of the Tokyo Asahi Shimbun, according to cables received here by Ivan Walter Williams, head of the School of Journalism of the University of Missouri and president of the congress.

Mr. Sagamura, who is one of the foremost journalists of Japan, is a member of the executive committee of the Press Congress and helped to organize it at San Francisco in 1915. He will have a prominent place on the program in Honolulu.

Representation of all the 43 countries wherein reside members of the congress is expected at the sessions in Honolulu by those in charge of the arrangements.

Will White, editor of the Grey Eagle, Minn., Gazette, and former president of the National Editorial association, is arranging for special trains and steamship accommodations to carry the delegates from the United States to the meeting. He is the chairman of the organization's transportation committee.

Whooping Cough

This is a very dangerous disease, particularly to children under five years of age, but when no paregoric, opium or other opiate is given, it can be cured by giving Chamberlain's Cough Remedy. Most people believe that it must run its course, not knowing that the time is very much shortened when the child is little danger from the disease when this remedy is given. It has been used in many epidemics of whooping cough, and it is safe and pleasant to take.—adv.

LUMBERMEN'S CLUB OF TACOMA WARS ON COSTS

Cites Statistics Showing Disproportionate Range of the Prices in Northwest

TACOMA, Wash., (AP)—It costs \$1.82 a day to buy food for the average family of five here, according to statistics compiled by the Four-L-League, the official paper of the Loyal Legion of Loggers and Lumbermen.

The cost of food here, the figures said, is exceeded in the Pacific northwest only in Portland, Wash., where the cost is \$1.85. The lowest cost is in Portland, Ore., where \$1.45 a day is declared to be sufficient.

Figures for the other northwest cities are:

Springfield, Ore.	\$1.49
Everett, Wash.	1.51
Bozeman, Mont.	1.53
Bellingham, Wash.	1.53
Silverton, Ore.	1.53
Deer Park, Wash.	1.59
Spokane, Wash.	1.66
Olympia, Wash.	1.68
Mrsfield, Ore.	1.69
Seattle, Wash.	1.69
Beard, Ore.	1.70
Portland, Ore.	1.74

On the basis of these figures, the Lumbermen's club of Tacoma, composed of various lumber mills, has started a movement to force retail reductions here.

Ireland's New Viceroy

Lord Edmund Talbot, recently appointed as Viceroy of Ireland, succeeding Viscount French, King George created Lord Talbot a Viscount, which honors the latter an ancient British title office as Irish Viceroy. Lord Talbot is the first Roman Catholic Viceroy of Ireland. His appointment is accepted throughout England and in parts of Ireland as the first step toward new and better relations between the two countries.

SPORTS

(Continued from Page Two)

NEW YORK

Tom Gibbons scored his ninth straight knockout on Jack Clifford in the third round and Mike Gibbons defeated Dave Rosenberg in twelve rounds last night.

NEW YORK

Rocky Kansas won from Gene Belmont in twelve rounds.

HUNTINGTON, W. Va.

Ish Martin knocked out Gumbert Smith in the third round.

GRAND ARMY MEET OPPOSE O'HARE

Veterans of Civil War Urge the Cancellation of Engagement for Woman's Address

That veterans of the Civil war are opposed to permitting Kate Richards O'Hare the privilege of addressing an assembly in Twin Falls because a number of recent yesterday when Dan Melnick, post, No. 33, in special session assembled, adopted resolutions urging those persons who inspired the movement to bring the woman here, to cancel the arrangement and "keep her away lest something worse might happen."

Whereas, it has been publicly announced that one Kate Richards O'Hare intends to deliver an address to the people of Twin Falls in the near future; and Whereas, not only was the trial, convicted and imprisoned for treacherous efforts and attempts during the great war, but she has also once been visited Twin Falls and attended the east and hearts of all loyal people by the most gross and vicious attack upon our military and naval forces, and is now being backed and financed by one of the centers of anarchy and anarchy in this country; therefore, Resolved, That we, the members of the Grand Army of the Republic, No. 33, G. A. R., that we feel and believe that she does not deserve and should not be given another hearing in this community; and that we, the members of the Grand Army of the Republic, do hereby urge those persons who have encouraged her coming here to cancel her engagement and keep her away lest worse might happen.

BOY SCOUTS HAVE CHARGE OF INTERESTING FEATURE

Local Members Gather at Banquet to Formally Hoist Big High School Flag

An interesting feature of the Memorial Day program took place yesterday when Boy Scouts to the number of about 20 in charge of D. D. Alvord, president of the local council of the Boy Scouts of America, and E. W. Stunt and Dr. George Caldwell, acolytes, gathered on the high school grounds and formally hoisted the high school flag for the day. In accordance with rules and tradition, the flag was first raised to full mast, then lowered to half mast, where it remained until 12 o'clock, when it was raised to full mast again and at sundown lowered for the day. The scouts present reaffirmed their allegiance to the flag through the recitation of the scout oath, which was led by Edward A. Walters, district leader, and followed address upon the general topic of the flag and its significance to boy scouts and citizens generally.

ANOTHER STEADY POUR SATURATES ALL COUNTRYSIDE

Floodgates Opened in Early Morn, Continue Hard Deluge Up to Noon

Up to noon today all of an inch of rain had fallen on this community since the clouds opened their floodgates at 5 o'clock this morning. According to word from various outlying sections, it has been general throughout the district. It is said, are almost impossible in this area, as the storm has no subsiding signs. Beginning with the breaking down-pour last Saturday afternoon, precipitation to noon today has amounted to 1.8 inches. For the week as a whole, a steady pour, while that of Saturday was a deluge lasting a comparatively short time. That storm was attended by severe hail in many sections of the district, reports from some of these indicating damage to fruit and alfalfa. Hailstones of extraordinary size are said to have fallen at Peavine and Carey. Twin Falls Civil committee officials report no ill-effects to the system from the effects of heavy flow of water into the canal.

VERDICT FOR GRENZ

Fred Grenz, garage operator of South Park addition, was found not guilty of the charge of theft preferred by the county prosecutor on Saturday night. The verdict was returned by a jury after four hours deliberation. Grenz was tried on Saturday on an appeal taken from the probate court, in which he was found guilty. The defendant was accused of complicity with two others in theft of an automobile tire. E. V. Larsen defended the case, Frank L. Stephan, prosecuting for the state.

IMPRESSIVE CEREMONIES MARK MEMORIAL DAY'S OBSERVANCES; MORNING PARADE NOTABLE SIGHT

Veterans of Civil War, Aided by All Patriotic Orders, Engage in One of Most Memorial Annual Occasions in History of Community—Parade Nearly Mile in Length—Solemnization Period Begins with Sunday Services

Clear skies and a moderate temperature made yesterday ideal for Memorial observances. Interest in the various phases of the day's exercises was general, large crowds attending the morning street procession, the attendant decoration services at the cemetery and the afternoon indoor speaking and singing ceremonial program.

With all patriotic bodies participating in the morning parade was made one of the most impressive, as well as one of the longest, ever held in Twin Falls. The parade started at 10 o'clock, and proceeded up market street and automobiles in line, stretched from the high school almost to Kimberly road. It was led by the City band with a squadron of Sons of Veterans marching in front of the organization. Aged veterans of the Civil war, marching on the heels of their comrades, bearing the banner of the country in the order of march. A platoon of World War veterans, sailors, marines and soldiers, carrying the Union Jack flag, followed, with a drum squad leading the marching legionnaires. This corps contained one woman, a nurse who served across seas. Auto veterans brought up the rear. Memorial day observances began on Sunday morning with the G. A. R. special services being held in the First Methodist church. On this occasion the Rev. F. L. White spoke to the veterans and members of other patriotic bodies upon the subject: "The Debt We Owe Our Fathers." The address, a typical memorial talk in which the minister pleaded that all devote the highest care and consideration to the men who fought the north and south war, was listened to by a congregation that filled the church amphitheater. At a special service of honor four chairs, appropriately draped, were ranged in front of the pulpit, placed there as silent reminders of four commanders who have passed to the great beyond since the late Memorial day observance. The year's dead are: Elijah Shearer, Shadrach Bonwell, Henry S. Wick and Booker B. Scott. During the evening afternoon music by the high school glee club, with special sacred exercises and patriotic readings featured the program, which was opened at 7:30 o'clock with a selection by the high school band. Jacob Lewis, a member of the high school graduating class of this year, read Lincoln's "Gettysburg Address," and Hal G. Lingo, superintendent of city schools, gave a memorial address of special merit. The Rev. W. W. Bucks of the Christian church, invoked the blessings and A. W. Vrek, chaplain of the Legion post, read "Order No. 11."

HIGH SCHOOL HONOR PUPILS ARE LISTED

The 20 students in the senior class who earned the highest averages for the second semester, 1921: Violet Stogard, Mildred Hunter, Viljo Phillip King, Dorothy Sullivan, Con Evans, Lloyd Garrison, Edward Back, Duane Heriz, Marie Nunnally. Father Whoops Baby 1,000 Miles in Quest of Health

After wheeling his baby son 1,000 miles in a perambulator all over the state of California, James P. Watkins has arrived in Los Angeles happy in the knowledge that the baby, James, Jr., is in the best of health. The little fellow was left motherless shortly after his birth. He contracted pneumonia and the illness left him very weak. Watkins decided that fresh air and plenty of it was all that would save his little son's life, so he "hit the road," wheeling James, Jr., in a perambulator. Without funds, Watkins had to work his way through the tour in quest of health. The photo shows Watkins and eleven-months old James, Jr., as they arrived in Los Angeles after their long tour.

COURT BUSINESS BRISK FOLLOWING HOOG FLOW

Police Bake in Bunch of Drunks Saturday, Sunday and on Holiday

A flow of hoogs followed Saturday's rain downpour, causing considerable activity in police, electric, Saturday night, Sunday. Also the police magistrates, Paul R. Taber, was compelled to hold a special session of his court on Saturday in order to clean up the city. Manuel Melrano and Pete Flores, both Mexican, paid fines of \$15 each, for not wearing their hats while out of drunkenness. Jack Ready paid a fine of \$25 for a similar offense. This makes four convictions for Sunday this year. He got tipsy on Sunday. Stanley (Dutch) Miller paid a fine of \$15 for being drunk on Sunday and Elery Patterson paid \$5 for speeding. He was arrested on Saturday. G. W. Hodge, a farmer resident living a mile east of town on Addison avenue, was arrested yesterday on complaint of his wife, who alleged to the officers that her husband was drunk and very disorderly. He was released on bail.

WORLD WAR SCENES ARE DEVICTED IN PICTURE

"Flashes of Action," a motion picture taken by the United States Signal Corps, and shown at the Grand Theatre of the late war, is said by those who have seen the presentation, to depict more vividly than any other scene ever shown in this country. The picture is to be offered at the Lavering theatre on June 3 and 4 under the auspices of the local legion post. In this picture the Sixty-first division, the One Hundred Fifty-sixth field artillery and the Second Engineers are specially featured and all of their activities while in the field, are participated, are shown in all their dramatic vividness. John Rogers post, American Legion, Boise, has purchased the state rights to this picture which affords the public, it is said, one of the best opportunities of procuring a view of actual conditions connected with latter-day warfare and of the fighting line with the gruesome details eliminated. Where the film has been unrolled it has attracted especially crowds, and is generally very well spoken of.

Jupiter Pluvius Opens Floodgates on This District

SHOWERS will feature the weather tonight and tomorrow, according to the official guess of the weatherman. Tonight and Wednesday probably showers, that of light occasions. Weather in copious quantities was the prime feature of Friday night, Saturday afternoon and today. Saturday was a fair sort of day and Monday day was a perfect holiday, as far as weather had anything to do with it. But the heavens opened along about 5 o'clock a. m. and they stayed open, too. Chance are they will have a drought up there if this thing continues much longer.

Yesterday's high temperature was 77 degrees, with 44 for low last night.

Local Brevities

On Brief Visit—Arnold Hutto came down from Turley Monday for a brief visit.

On Business Call—Thomas Higgins is in the city from Rogerson on a business trip.
