HARDING HEARS FREIGHT RATES SOLUTION NEAR

President is Appraised by Interstate Commerce Commission of Plans for Effective Downward Revision

WASHINGTON, D. C., (AP)—Downward revision of rail rates, particularly of those on necessities, was discussed by President Harding today with members of the interstate commerce commission at an informal conference at the commission's headquarters.

Mr. Harding inquired particularly about the prospect for modification of rates on fruits. The commission officials are understood to have told him that they were particularly pleased to agree on a plan for obtaining voluntary reductions in some rates through concerted action by the carriers.

At the conference today both the president and members of the commission expressed a hope for closer cooperation among all public officials toward a justification of the entire railroad situation. It was indicated that hereafter the White House would be kept informed about detailed steps contemplated by the rate fixing body.

Referring to the many complaints which have come to the White House from the west, Mr. Harding expressed hope that these schedules were among those whose revision is under consideration.

New York Banks Pay Out German Funds to Allies

Turn Over Deposits to Credit of England and France on Reparations Account

NEW YORK, (AP)—A small portion, \$35,733,000, of Germany's first reparations installment to the allies was paid by four New York banks with their checks against German government funds on deposit with them. The money was in the New York Federal Reserve bank today to the credit of the Bank of England and the Bank of France.

WHEAT ASCENDS TO NEW RECORD

Bullish Crop Reports and European Buying Cause New Turns in Market

CHICAGO, (AP)—New soaring of prices in the wheat market took place today, the July delivery rising 3-16 to \$1.85 1/4 a bushel shortly after midnight.

According to a leading crop expert, the probable yield of the domestic winter crop is 2,000,000 bushels less than what was expected a month ago. Moreover, selling pressure today was unusually light, hence seeming to have been rendered cautious by their losses yesterday in the windup of the May delivery.

SENATE PASSES NAVY BILL WITH BORAH PROVISIO

Adopts Appropriation Measure Carrying About \$494,000,000; Conference to Consider \$100,000,000 Increase

WASHINGTON, D. C., (AP)—The senate finally passed today the navy appropriation bill, carrying about \$494,000,000 and including the Borah amendment requesting the president to initiate a disarmament conference between the United States, Great Britain and Japan.

The measure, which carries funds for the navy for the fiscal year, beginning July 1, now goes to conference for consideration of increases aggregating nearly \$100,000,000 which were approved by the senate, despite an economy drive.

The 12 democratic opponents were: Dallas, South Carolina, Glass, Virginia; Harris, Georgia; Harrison, Mississippi; Hefflin, Alabama; Hillecock, Nebraska; Higgins, Illinois; Pomoreau, Ohio; Shreve, Texas; Stanley, Kentucky; Trammell, Florida, and Watson, Georgia.

WAGE DECISION OUTGROWTH OF FULL HEARINGS

Railway Labor Board's Order Cutting Carriers' Payrolls Follows Taking of Testimony Begun on April 18

CHICAGO, (AP)—Wage reduction ordered by the railroad labor board today results from a combined hearing involving 104 railroads which filed petitions to cut the wages of one or more classes of employees. The hearing began on April 10 and the labor and board representatives were each granted one week to present their cases. The final date for submitting evidence was set for May 10 and the board has been at work on the case constantly since that date.

Reduction in the wages of laborers of other classes and the declining cost of living were set forth by the railroads as the basis of their plea for the lower wage scales. The winter slump in business materially hastened action in the endeavor to cut costs, the country's railroad pay roll and many railroad officials declared before the board that their funds would be exhausted in a few days unless immediate relief were provided.

Attorney Begins Campaign The campaign for lower wages began in February, when Brig. Gen. W. W. Atterbury, vice president of the Pennsylvania lines, first demanded the board to hit the railroads with the rate prevailing in each road's territory. General Atterbury brought his demand to the board during the hearing and the board later ordered that which the board has not yet disposed of. At the same time General Atterbury demanded immediate abrogation of the national ship code agreement, which he declared would further reduce the railroads' labor bill by \$800,000,000.

The board, however, took no action on the demands at that time and it was not until the following month that distinct wage cases came to the board's attention. The Erie railroad and the New York Central line, the two big roads, began the reduction by presenting the matter to their employees. No agreement was reached; however, and the disputes finally reached the labor board.

Provisions of the transportation act of 1910 require that before any dispute is referred to the labor board, both employes and employes shall have made a sincere effort to effect a settlement. In case no agreement can be reached, the case may be referred to the board by one or both parties. The board then summons the disputants and holds a hearing, at which both sides are given opportunity to present their statements.

Holds Up Employes' Action Following their hearing, the Erie, which had already put a reduction in force, was ordered by the board to restore the former rates and the New York Central was ordered to make an immediate reduction, pending a hearing of the merits of the dispute. Defeat of the efforts of both roads to cut wages was then the signal for the hearing of cases which have since been taken to the board's offices. Requiring the faculty of attempting a separate hearing on each dispute, the board commenced its work on the hearing which resulted in today's decision.

After only one day's deliberation, the board made public a resolution on May 31 stating that prevailing conditions justified a readjustment downward and that a new wage order will be issued on or about June 1, to be effective July 1. The decision, however, is not as comprehensive as that which granted the \$600,000,000 wage increase to railway workers on July 20, 1920. Reductions under today's decisions will be effective only for a class of employes named by the railroads which filed disputes prior to April 18 and which appeared in the hearing beginning on that date. The hearings last year affected all so-called Class 1 roads, including nearly 200 of the larger rail systems of the country.

New Hearing Scheduled A new hearing will be begun June 6 to include all disputes filed with the board between April 18 and June 6 and a speedy decision is anticipated in the new case, members of the board stating that today's decision would set a precedent for subsequent hearings. Under the transportation act, seven factors are prescribed for consideration in determining "just and reasonable" railway employes. The board's wage increase decision declared all these factors had been given consideration and that rates established were considered just and reasonable. The decision at that time said:

Telephone Nibley-Channel LUMBER COMPANY

"The board has endeavored to fix such a wage as will provide a decent living and secure for the children of the wage earners opportunity for education, and yet to remember that no class of Americans should receive a special treatment and that the great masses of the people must ultimately pay a great part of the increased cost of operation entailed by the increase in wages." It is to be hoped that the present decision which adds substantial amounts to present wages will be felt to be just and equitable under all circumstances and that the employes will accordingly render the best service of which they are capable. If they will do this, it is believed the American people will receive benefits far outweighing the cost of the increase."

Otto Declines Costs Basing their argument upon the board's declaration that wages are established by this decision were just and reasonable in July, 1920, the railroads presented a volume of testimony to show that living costs had declined and that wages in outside industries had dropped. The railroad representatives declared wages should be cut in proportion.

The employes, while giving figures connecting the railroad's argument of lower wages and cost of living, made their main plea on the principle of the living wage. The labor men declared that railroad workers were underpaid and called "living wage" indults to substantiate their fight against any reductions. Fifteen labor organizations, including the Big Four brotherhoods, together with the affiliated members of the railway employes' department, American Federation of Labor, represented the employes involved in the present case. All of the roads asked reduction of the common labor wage scale and numerous carriers asked reductions in several other classes, a few of the roads filing petitions for reductions in wages of every employe.

Manila Carried over by Philippine Government, Calls for Subsidy or Regulation of Competition

MANILA, P. I. (AP)—The annual report of the Manila Railroad company which is owned by the Philippine government, shows operating revenue for 1920 of \$3,863,000 and operating expenses of \$4,933,000. After deductions for fixed charges and taxes, the report shows a profit for the year of \$119,000. Commenting on the inroads which the motor truck has made into railroad territory, the report says: "The present situation is untenable and in the absence of an adequate tax measure the government is confronted with the alternative of subsidizing its rail and water lines or restricting the operation of trucks to non-competing routes." The company operates approximately 600 miles of railroads and the total receipts according to the report, amount to \$10,660,000.

Washington Secretary of State Has a Place in Museum for Ball of Pioneer Days if Found

TACOMA, Wash., (AP)—An official search has been started by Secretary of State Grant Hinkle of Washington for the old territorial seal of Washington which was made in 1853 and disappeared in 1862. If found the seal will be placed in a public museum. Pioneer residents of the state are to be interviewed by officials of the secretary of state's office in an effort to get trace of the seal. The old territorial seal was made of bronze and showed an Indian maiden standing on a hill overlooking Puget Sound and seeing in the distance a virgin depicting the future growth of the territory. Across the top was the word "AIAIK," an Indian word meaning "After while."

Senator Kenyon Gives Senate Former War Industries Board Chairman's Letter Asking Investigation

WASHINGTON, (AP)—Senator Kenyon, republican, of Iowa, presented in the senate Tuesday a letter from B. M. Baruch, former chairman of the war industries board, asking for congressional investigation of charges that he had profited in sales of copper to the government during the war. The letter included a statement of use made of the \$150,000 fund allotted to the economic section of the peace conference, which was under Mr. Baruch. The statement described the charge of profiteering in connection with copper as "correct, heartless lies." Mr. Baruch said when he took office with the government in 1917, he disposed of every interest which possibly might have been affected by his activities and that since that time he had "not engaged in a single financial pursuit." He offered to produce all his private papers.

Of the \$150,000 fund, which has been used (discussed in congress, Mr. Baruch said, presenting an accounting, that he drew less than \$25,000, the remainder being refunded to the government. He stated that while in Washington and Paris on government work he paid his own expenses personally, paid salaries and expenses of some employes, never used an automobile, and on one time paid telephone bills and office rent for which he never asked reimbursement.

Washington State Development Bureau Head Proposes Naval Scheme to Aid Airmen

OLYMPIA, Wash., (AP)—Huge nomenclatures with letters large enough to be read 2000 feet in the air will be erected in all parts of Washington if the plan of the state follow the recommendations of Thomas B. Hill, director of the state development bureau here. Mr. Hill has started a campaign to have cities erect the signs so that aviators who have lost their bearings may readily locate themselves. A number of commercial clubs have already taken up the suggestion, so that "he who flies may read." The huge letters, spelling the names of the cities, would be located near landing fields.

BALLS THE SAME BUT 1921 BATTER SMASHES HARDER

Restrictions Against Throwers Probable Cause of Heavier Hitting This Year

By L. E. SANBORN Heavy clothing in some of the major league games this spring and the frequency with which home runs have been made started the report that the big leaguers were using a heavier ball than in previous seasons...

Although it is a well authenticated fact, few fans believe the balls used in the American and National leagues are turned out by the same factory and from the same machines and materials...

There is no difference in the balls until they reach the man who stitches on the covers. Then one man uses red and black thread and the other uses red and blue thread, and one ball becomes a National league pill, while the other goes into the American league box.

**I. W. W. LEADER SNARED BY IDAHO AUTHORITIES**

**Secretary of State Jones Counts Conviction of Embree Great Victory**

BOISE, Idaho (Special)—Considerable interest has been shown here in the trial, just completed in the case of A. S. Embree at Wallace, charged with the crime of criminal syndicalism. It is said that this is one of the most notable victories the state has known in its drive against the I. W. W. It will be recalled that, following the Centralia tragedy, when American Legion members in parade on Armistice day, November 11, 1919, were shot down by members of this organization, the state of Idaho, through its department of law enforcement, in cooperation with county officials, began a systematic attack on the red organizers in the state.

Hundreds of arrests were made in the different parts of the state and a number of convictions were had. Many cases are yet pending. Idaho has made a record that has attracted comment over the country.

In speaking of the importance of the Embree conviction last week and its relation to the general I. W. W. situation, Robert O. Jones, secretary of state and commissioner of law enforcement, has the following to say: "The conviction of Embree at Wallace brings to a close one of the most important chapters in Idaho's drive against the I. W. W. High in the esteem of the national organization, only defeated at one time by a few votes for executive secretary, considered as the brains of the I. W. W. movement, and second only to Big Bill Hayward, Embree has ranked strong in the poisonous work of spreading the red doctrine.

"It is the opinion of many that the hurried trip of Hayward to congenial Russia and his consequent failure to begin the 20-year sentence of a federal court, together with the conviction of Embree and other leaders of the I. W. W. organization, I believe there is no doubt this outlaw organization is now weaker than it has been in several years. The disorganization, however, is only partial; recent developments have driven out the so-called conservative wing but the radical part is yet present. The real work will now get 'rodder'; therefore the I. W. W. is still a serious menace to our American life. There is yet demanded the most earnest effort on the part of federal, state and county officials to meet the situation."

**PEORIA UNION TEACHERS DISMISSED FROM SCHOOLS**

PEORIA, Ill., (AP)—Eleven of the score of Peoria teachers who were members of the Peoria Men Teachers' Federation, No. 24, before this organization recently surrendered its charter under protest, were dismissed from the schools today.

Participation in unjustified and strenuous criticism of the constituted authority and refusal to comply with its rules was the reason given for dismissal.

houses. They were rounded up and placed in the prison camp.

Adjutant General Barrett took up his headquarters at City hall and announced that Colonel B. H. Markham of Oklahoma City would be in command of field operations of the guardsmen.

**Negroes Are Assembled.**

The negroes assembled as refugees and prisoners were being cared for by civic organizations and private citizens who volunteered for the work. Water and sandwiches were being served and the wounded or sick were receiving medical attention.

Throughout the morning long lines of negroes streamed westward along the streets leading to Convention hall. Many wore their night clothes and ran in safety in their bare feet. Their sunken eyes, half of a sleepless night and their ashen faces bespoke gripping fear.

Men, women and children carried bundles of clothing on their heads and backs. One old woman clung to a

bible, a girl with disheveled hair carried a whole white dog under her arm and behind trotted a little dusky girl with a big wax doll.

But all those who came to Convention hall were not non-combatants. Heavily armed men, heavily armed, whirled up to the big hall directly from the scene of fighting. With them closely guarded, were negro prisoners captured with guns during the fray.

**Orders Discussed.**

All persons so equipped as special officers are ordered to disarm in a proclamation issued shortly before noon by Mayor T. D. Evans. Personal carrying guns will be arrested under the mayor's orders.

**Dawn Brings Gunfire.**

Steady gunfire broke out shortly after daylight near the negro quarter of Tulsa.

The firing came from a spot where throughout the early morning hours the mob of white men and a thousand negroes faced each other across railroad tracks. First reports to the police said that the bodies of from six to ten negroes could be seen lying in a space described as "the man's land."

Later reports placed the number of dead in the neighborhood of 15.

**Trainsmen Reported Killed.**

The police also had a report that three Pullman cars and San Francisco mail, day switchman and a brakeman had been shot to death.

The trainmen were killed, it was reported, because they refused to permit members of the opposing mob to ride upon a switch engine passing between the lines. The engineer was reported to have escaped.

Officials had hoped that with the coming of dawn the trouble would die out.

**Airplanes in Trouble Zone.**

As the dawn broke 60 or 70 motor cars filled with armed white men formed a circle completely around the negro camp. Half a dozen airplanes circled overhead. There was much shooting and shouting. A row of houses along the railroad tracks was fired. A party of white firemen was reported to be shooting at all negroes they saw and firing into houses. The negroes were busy trying to return the fire desperately.

With the situation growing admittedly worse today, efforts were made to have the three local companies of the national guard step with the troops pending the arrival of Adjutant

**Prison Camps Crowded.**

At 9 a. m. 2,000 negroes had gathered at Convention hall under guard. It was filled, as was also the police station. The remainder of those gathered there are being taken to the jailcell block pending the arrival of Adjutant

General Charles F. Barrett, who was reported en route here aboard a special train bringing additional troops from Oklahoma City.

Under orders issued last night by General Barrett, guard companies in several adjacent towns were prepared for possible duty.

**Negro Is Removed.**

Dick Rowland, the negro charged with assault, was removed from the county jail during the night to a place of safety. It was learned today that Rowland was spirited out of town at 2 o'clock this morning by deputies from Sheriff McCullough's office. He reportedly refused to divulge his whereabouts.

In a fresh outbreak at 7:30 a. m. in the Stanton Hill district in the extreme northern section of the negro quarter, Mrs. S. A. Gilmore, a white woman, was shot in the left arm and side. Mrs. Gilmore was standing on the front porch of her home when she was picked off by a negro, one of a score of more berserked linc men.

Hundreds of armed white men were being rushed to the district in automobiles with open trunks which belated innocent.

**Policemen Fires First Shot.**

After Rowland, the negro, had been lodged in jail last night, a crowd of about 200 negroes assembled outside the building. Armed white men soon began gathering. The first shot, as far as known, was fired soon after dark when a policeman killed a negro. He said, resisted efforts to disarm him. The body was left in the street more than three hours. A white man was killed shortly afterward near the courthouse.

The crowd meantime were agitated and the authorities then communicated with Governor Robertson and asked for troops.

LO, THE RICH INDIAN

Perhaps it will astonish some persons to learn that the American Indian as a rule is not a citizen of the United States. It is true that the Indians have really the best claim for being among the "first families" in the country.

Citizenship would enable the Indians to use the riches which they own, but cannot now employ at their will. The value of their property is computed at \$1,000,000,000. They are charges of the government, and as such their financial interests are carefully guarded by Uncle Sam.

The Indians are far from having been exterminated in America. There are now 333,762 of them in the country, of which 164,783 are full bloods and 48,170 more than half bloods. Some 100,000 speak English and nearly 200,000 wear white men's clothes.

A CONSOLING THOUGHT... It is a curious fact, perhaps not generally known, that the famous Napoleon pearls in the Louvre are taken out once a year and given by the government to a woman designated for the honor to wear for a little while.

Now comes Andrew Alexander, noted gem expert of Philadelphia, to explode the belief. "It is absolutely unnecessary for pearls, in order to keep their fire, to be worn," says Mr. Alexander.

One of the greatest butter centers in the world is Cork, Ireland. One year's export of butter amounts to nearly 750,000 tons.

The "argument" that there is any substantial element in this country in favor of war, especially since our pacifists ran one for us and wall street wrecked the country doing it, assumes that the American people are a hundred and some millions of striveling glubs, because a moment's analysis of such a contention by any man in his senses will dispose of it.

BOOTH'S SHOE DEPARTMENT

THE STORE OF SERVICE AND QUALITY

These prices quoted on these attractive oxfords and slippers prove that you can reduce your footwear bills if you buy at this store.

Don't let these low prices lead you to believe these are cheap shoes, that is not so—they are good shoes cheaper.

The quality of these can best be described by saying they were bought at Booth's Shoe Department, Style Shoes of Quality.

We are making you a special offer for Thursday, Friday and Saturday on the following oxfords and pumps:

- Kid Oxfords, in gray, brown and black. Good values... \$5.50
Black Kid Pumps, Louis heels... \$5.50
Brown Calf Oxfords, low heels. Just the thing for sport wear... \$5.50
Gray Suede Shoes, medium Louis heel. Big value for... \$5.50
