PRICE FIVE CENTS

## FLOOD TAKES UP OF HUNDREDS OF LIVES AT PUEBLO

### FIGHTING STILL CONTINUING IN UPPER SILESIA

#### Germans and Insurgent Poles Struggle for Possession of Schimischow while British Troops are Reinforced

OPPELN, Silesia, (AP)—Fighting between German and Poles continues in the vicinity of Schimischow, about five miles northwest of Gross-Strehlitz. The castle owned by Count Stahelitz has been burned.

The British are gradually reinforcing their troops in the plebiscite zone, bringing in fresh soldiers and many tanks. The inter-allied commission for Silesia is reported to be considering the disposition of a third corps here so that clashes between the Poles and British may, if possible be avoided.

### INSURGENTS FIGHT AGAINST DISCIPLINE FROM WITHIN

KATOWITZ, Silesia, (AP)—Drastic steps have been taken by leaders of Polish insurgents to prevent plundering. Fighting squads are busy every morning and several times recently six men have been executed at one time for various reasons.

In spite of the severe discipline, the Poles continue robbing and are reported to have robbed a food convoy. A young German was captured near this city yesterday and was beaten to death by the Poles.

The food situation in the industrial district near here is serious. There is no fresh meat, and babies are dying because of lack of milk. No beer can be secured, and because of the insufficient coal supply, lights are cut off at eight o'clock at night.

### POLE GOES TO DEATH FOR GIVING MILITARY SECRETS

WARSAW, (AP)—Lieutenant Henry Iwanicki, of the Polish flying corps, convicted by court martial of high treason in disclosing of military secrets to British agents, was executed Friday by a firing squad at the famous Warsaw Citadel.

Lieutenant Iwanicki, who was employed in the war office, and several other Poles were arrested in an attack upon the secret hollow in the house of someone by Mr. Lloyd George, the British prime minister, in which he criticized Poland for preventing the Upper Silesian insurgents. The others are now being held for trial.

### LIMERICK CROWDS PRAY AS KEANE IS EXECUTED

#### Firing Squad Executes Prisoner for Improper Possession of Arms

LIMERICK, Ireland, (AP)—Thomas Keane, sentenced to death by a court martial for improperly possessing arms and having taken part in an attack upon the police at Singland, was executed by a firing squad in the barracks square here this morning.

Keane met his fate without a quiver. As the execution was being carried out, large crowds outside the barracks, offered prayers and sang hymns.

### Flood Damage General Throughout Colorado

DENVER, Colo., (AP)—Reports to the Associated Press at Denver indicate the following conditions at outlying towns: At Lafayette—Barricade town under two feet of water; many residences and business buildings ruined; damage heavy; communication cut off. At Longmont—Three feet of water in main street; communication cut off; breaking of irrigation ditches principal cause. At Berthoud—Crops damaged and business section inundated. At Loveland—Two reservoirs, the Spring side and the Ryan gulch, broke this morning. The Silverton dam, five miles east, also broke, the concrete basins being washed entirely away. Ten thousand acres of farm land near Johnston are inundated. Damage will run into hundreds of thousands of dollars. Colorado and Southern railroad tracks washed away.

At Marshall—Big Marshall dam still holding but all residents in the valley have been ordered to seek places of safety. At Superior—Colorado and Southern tracks washed out; citizens fled to safety by means of rowboats on Chicago, Burlington and Quincy railroad around a point of flood. At Frederick—Town under three feet of water.

At Dacono—Ballasted bridge washed out. At Boulder—Interurban car service to Denver paralyzed. Impossible to run cars for five or six days according to C. W. Richards, general agent for the interurban line. At Greeley—All eastbound trains on Chicago, Burlington and Quincy railroad detained on account of floods.

At Denver—Town under three feet of water. At Aurora—Barricade bridge washed out. At Boulder—Interurban car service to Denver paralyzed. Impossible to run cars for five or six days according to C. W. Richards, general agent for the interurban line. At Greeley—All eastbound trains on Chicago, Burlington and Quincy railroad detained on account of floods.

At Frederick—Town under three feet of water. At Dacono—Ballasted bridge washed out. At Boulder—Interurban car service to Denver paralyzed. Impossible to run cars for five or six days according to C. W. Richards, general agent for the interurban line. At Greeley—All eastbound trains on Chicago, Burlington and Quincy railroad detained on account of floods.

### REPORTS FROM PUEBLO TELL OF HEAVY TOLL OF DEATH

#### People Fleeing to Highlands from Destroyed Homes, Thousands of Head of Livestock Drowned and Millions of Dollars Damage Done to Crops and Property in Havoc Wrought by Cloudbursts Throughout Eastern Half of Colorado

DENVER, Colo., (AP)—With the latest report from Pueblo, which, however, remains unconfirmed, of the death toll of the flood, which swept that city last night possibly reaching several hundred, details of the terrible havoc wrought by cloudbursts through the eastern half of Colorado began to come into Denver at noon today.

From all over the stricken area, which embraces all that part of the state lying east of the Rocky mountains, come reports of homes washed away, people by the hundreds fleeing to high lands, thousands of head of livestock drowned and millions of dollars damage done to crops and property.

Just before noon a special representative of the Associated Press left Denver in an airplane in an attempt to reach Pueblo.

The damage caused by the flood to Pueblo is tentatively estimated, but the two million dollars in the railroad yards alone and at more than four million to other property in the city. The railroad yards are filled with wrecked box cars and flat cars with wrecked box cars and railroad equipment.

Rangers Take Charge. The Colorado State Ranger, under command of Colonel Pat Hamrick, has taken charge of the city to prevent looting and to provide as many possible temporary shelters for the hundreds of homeless people. The greatest suffering is reported from the north end of the city. In that section of the city, where the water was deepest, many of the houses were washed away.

Wire communication with Pueblo is being re-established slowly. Thus far the telegraph is working, but the telephone is broken and most of the traffic over the big commercial company lines has consisted of state official business. Denver officials are receiving reports of a service close to normal within 48 hours.

Rain was still falling this morning in northern Colorado and southeastern Wyoming, but it had ceased in the west. After that which is characterized as the heaviest June rain in this city in 20 years last night, Denver today is going about its business under murky skies. The water has been regular and showers for Denver and the eastern slope of Colorado while unsettled conditions are predicted for the western slope.

The precipitation at Pueblo was reported at 2.92 inches. Denver & Rio Grande train, No. 3, (Continued on Page Five)

### EASTERN SLOPE OF COLORADO HIT BY FLOOD

#### Reports of the Loss of Life Filter Through from the Community Bearing Brunt of Catastrophe

DENVER, Colo., (AP)—From all over that part of Colorado lying east of the Rocky mountains, reports are being received of damage and probable loss of life reported from Pueblo, where several fires still were reported burning late last night, came messages this morning telling of lives lost and property destroyed following cloudbursts yesterday afternoon and last night.

Shut Off from World. Pueblo has been cut off from all communication since before midnight last night, and reports from there being to the effect that several fires, started by lightning, were raging in various parts of the city. Old residents say the flood is the worst ever known in that section. Early estimates of the damage in Pueblo alone fix the figure at more than four million dollars. A dispatch to the Denver & Rio Grande railroad office here from its operator at Larkspur, 60 miles south of here, gave the operator's opinion that there has been "considerable loss of life and property" at Pueblo.

Big Area Inundated. At Frederick, Colo., three feet of water in the main street is reported; at Greeley, Fort Collins and Loveland all wires are down and the towns are without electric power as the result of the flooding of the power plant at Loveland. Between Denver and Boulder a large area of farm land is inundated and the damage is estimated at \$100,000.

Houses were swept away at LaFayette and hundreds of head of livestock were drowned when Cook creek went over its banks and flooded all night. The residents remained up and prepared to flee, with bomb signals arranged, in fear that the great dam of the Farmers' Reservoir and Irrigation company, three miles above the town, and which was reported in a weakened condition late yesterday afternoon, would break. Trinidad is cut off from communication.

Trains Beats Flood. Only one train has arrived in Denver from Pueblo since yesterday afternoon. It pulled into the Union station here at 8 o'clock this morning, after a slow, all night trip, having lost 600 passengers. The water was beginning to creep into the city's streets.

Yesterday afternoon about 3 o'clock a heavy rain fell at Pueblo. Virtually no rain fell in the city itself, but by 5 o'clock the Arkansas river had gone over its banks and by 10 o'clock had inundated every house from the river to the heart of the business district had been flooded. People marooned in office buildings were rescued and the water was rising steadily and then suddenly the wires went down and Pueblo was isolated.

Debris Is Broadcast. Messengers sitting in through small railroads, station here, are reporting that there has been considerable loss of life. No confirmation is possible just now. A report from the D. and W. railroad, which operates at Leadspur, Colo., to the Denver offices this morning said the water in Pueblo had reached about six feet since midnight, when it was reported there was a heavy rain at Pueblo.

At 5 o'clock after report said the water had fallen to about one foot and added that the water in the neighborhood of the city here was rising. In Denver a heavy rain, mixed with bursts of hail, turned the streets, running from the Logan Hotel yesterday afternoon, and all night the rain continued. Damage in Denver, however, was slight.

HAWAIIAN BORN CHINESE IS CONSUL FOR BRITISH BORNEO. HONOLULU, T. H., (AP)—Anthony Lee Ahlo, Hawaiian-born Chinese, who for ten months has been Chinese consul at Apia, British Samoa, has been appointed Chinese general consul for British Borneo, according to advices received here by his friends. Mr. Ahlo was educated in the schools of Honolulu and later was graduated from Cambridge university, England.

LEAGUE WILL ASK FOR ARTICLE X DEFINITION. LONDON, (AP)—The league of nations committee on amendments, yesterday adopted a proposal to submit to a committee of jurists Article X of the peace treaty for exact definition of the responsibilities it places upon members of the league.

THE JURISTS chosen are Vittorio Belloni, Italy; Sir Cecil Belfrage, Britain; Sir Francis M. Stryker, Holland, and M. Bourquin, Belgium.

WHEAT CROP IN KANSAS COVERS 10,000,000 ACRES. TOPEKA, Kan., (AP)—Approximately ten million acres of wheat will be harvested in Kansas this year, J. C. Mehler, secretary of the state board of agriculture, estimated today. This is the largest acreage in the history of the state, according to a report of May 29, which was based on incomplete assessments returns of March 1.

WHEATHER PREDICTIONS FOR WEEK BEGINNING MONDAY. WASHINGTON, D. C., (AP)—Weather predictions for the week beginning Monday: Upper Mississippi and lower Missouri valleys, northern Rocky mountain and plateau regions: Normal temperature; considerable cloudburst and local showers.

Southern Rocky mountain and plateau regions: Partially normal temperature; generally fair.

### FLAMES ADD TO HORRORS IN WAKE OF CLOUDBURST

#### Bodies Are Carried to Morgues in Wagons Ploughing Through Debris-Strewn Streets of the City

PUEBLO, Colo., (AP)—The loss of life from the great flood which came rushing upon the city of Pueblo from the overflowing of the Arkansas and Fountain rivers last night at 1:45 o'clock this afternoon was variously estimated between 1,500 and 3,000 persons. The property loss will exceed \$10,000,000, according to estimate made at this hour.

At four o'clock this morning the Fountain river had washed out the bridge, uprooted the tracks, railroad and trolley, had made wire communication out of Pueblo impossible.

When the flood began to recede to the great damage was disclosed. Hundreds of families lost everything they had in their mad escape from the overwhelming waters.

Identification of the dead is a slow process just now. Business District Inundated. Water to a depth of six feet flooded practically all of the important business and financial houses of the city. The property loss is estimated at around \$10,000,000 but will probably run higher.

At 12 o'clock this afternoon the flood waters were receding fast on Main street. One grain house here reports a loss of \$20,000. The Assessor Packing company's plant was practically destroyed, many's plants are practically destroyed.

All Fires Extinguished. All of the fires that were burning at daylight have been extinguished. The loss of life was due to the fact that the people did not warn.

Hundreds Are Gashed. Signals were set out at six o'clock last night but due to the fact that the water came up with such suddenness it was impossible for hundreds to escape.

The flooding of the Fountain river early this morning gave the situation here it is supposed to have caused a still greater loss of life. Suggestions have come from prominent citizens that the immediate loss of Pueblo to fresh water and food, bedding and milk for the babies.

For the past hour or so an airplane has been circling the city, apparently seeking a landing place. It is believed to carry a correspondent of the Associated Press sent from Denver this morning.

OPERATOR SENDS CALL FOR TOILET TENTS AND WATER. DENVER, Colo., (AP)—At 3 o'clock this afternoon a telegraph operator at Mineola, Colo., a suburb of Pueblo, reported to the Western Union office here that loss of life in the flood at Pueblo had been heavy.

He reported bodies being transported in wagons through the streets to the morgues. Mineral is one mile from the business section in the city.

The Western Union has opened an office there to handle its business from the stricken city. The operator also estimates of the loss ranged from several hundred persons to one thousand.

"We need tents, food and water quick," he told the Western Union official on the Denver end of the wire.

DAHO WEATHER. Tonight and Sunday probable showers and cooler.

### Toll of Death in Flood at Four Sterling Remains at Four

STERLING, Colo., (AP)—The known toll of lives in the flood in western Logan county remained at four today. Waters from the cloudburst in eastern Weld county Thursday night had reached to the banks of Pawnee creek and now it is rising and further losses are not anticipated. The flood covered a territory 30 to 40 miles in length and varying from a half mile to a mile in width, running from the Logan Water tunnel line to the junction of Pawnee creek and the Platte river near Atwood.

Approximately a half mile of the Union Pacific railroad track, also used by the Burlington, was washed out near Atwood and perhaps a thousand acres of sugar beets and as many acres of other crops were flooded in the valley of Pawnee creek. Many farm homes were damaged, beef workers were carried away and loss in farm implements and equipment was large.

Service on the Union Pacific and Burlington railroads to Denver will probably be restored today. The Cheyenne-Sterling Burlington line will not be used before the first of the coming week. Virtually all of seven or eight highway bridges across Pawnee creek were washed out.

Carl Davis, his wife and three children awoke Thursday night to find the water ponding on their house. They escaped through a window but were separated by the waves. Davis was thrown out of the stream but his wife and three children perished. The body of Mrs. Davis was found 25 miles below the place of the drowning. Bodies of the two smaller children were not recovered. The house, 30 miles northwest of Sterling, was split.

Back water approached within a mile of Sterling but did not reach the city.

### TULSA RETURNS TO CONTROL OF CIVIL OFFICERS

#### City and County Officials Take Charge when the National Guardsmen Sent to Put Down Race War are Withdrawn

TULSA, Okla., (AP)—The state guardsmen mobilized here to put down the race war of Tuesday night and Wednesday morning, which cost 31 lives and approximately \$1,500,000 property loss, were withdrawn this morning when 325 militiamen entrained for Fort Sill, leaving the city in control of city and county officials re-entrained by Governor Bristow. The local guard units were ordered to Fort Sill on the occupation of the Oklahoma militia.

Negro Editor Held. A. H. Smithman, negro, brother to A. J. Smithman, editor of a negro newspaper, which is alleged to have been the headquarters of the negro voters, was held in the county jail without bond today. County officials also were seeking A. J. Smithman. He left town during the rioting but telephoned the sheriff he would return when the trouble subsided.

White Dead Number Ten. The death of Robert Hanson, 27 years old, tool dresser, brought the list of white dead up to ten today. The bodies of 21 negroes have been found.

HOME OF HAWAIIAN QUEEN IS PURCHASED BY GOVERNMENT. HONOLULU, T. H., (AP)—Washington Place, home of the queen Ka'iulani, national, last reigning monarch of Hawaii, recently became the property of the territorial government, by whom it was bought from the trustees of the late queen's estate.

Governor Charles J. McCarthy has used Washington Place as his official residence during his term of office, and it is expected it will continue to be used for that purpose by him and his successors.

GALUMET AND ARIZONA MINEING CO. LAUNCH QUORUM. NEW YORK, (AP)—Inability to obtain a quorum of directors of the Galumet and Arizona Mining company today caused indefinite postponement of action on the current quarterly dividend. Three months ago this dividend was raised from \$1 to 50 cents share. At present the company's plants are closed.

# VETERANS FARE ALL IN PORTUGAL

### Government is Assailed with Indignant Protests Against Failure to Aid

LONDON, (AP) — American soldiers who complain that the government does not properly take care of disabled veterans of the first war probably are in no worse a fix than some of the Portuguese, who similarly suffered and on whose behalf indignant protests are being made to the Portuguese government.

The greatest indignation has been aroused here by the discovery that 25 wounded soldiers had been discharged from a government institution with an allowance equivalent to about 35 cents a day.

Finding themselves destitute, the disabled men had decided to form a group and beg alms in the streets of Lisbon but they were induced not to do this by promises that their case would be presented to parliament and complaint would be made against the action of the war office. Subscriptions were taken up for them.

All the leading newspapers joined in the agitation and one of them threatened that if the government did not properly aid the disabled men they would be formed into a procession to march through the streets begging alms.

As showing the distress of some of the men who fought for Portugal in the great war the Imprensa says that one soldier nearly blind is still wearing the spectacles given to him by the Germans, that another is wearing a wooden leg given by the French while another is trying to support a wife and three children on his allowance of 35 cents a day.

On the other hand, the war ministry has denied any lack of care for the disabled, soldiers and asserted that many of them have been offered posts in the public service but have refused them.

## Audacious Named for Belmont Park Handicap Feature

### Mile Record Maker of Last Wednesday is Entered for Today's Event

NEW YORK, (AP) — Audacious, which set an American competitive horse racing record of 1 minute and 35.3 seconds for a mile, Wednesday, is one of the nine horses named overnight for the Suburban handicap today at Belmont park. The race, for 3-year-olds and upward, is at a mile and a quarter. Topweight has been assigned to Estrominator. Paul Jones, winner of the event, last year, is entered.

- The probable starters, weights and jockeys follow:
- Estrominator, weight, 133; jockey, Johnson.
- Mad Hatter, weight, 130; jockey, Saade.
- Audacious, weight, 129; jockey, O. Kenna.
- Paul Jones, weight 118; jockey, Rice.
- Donacona; weight 111; jockey, Kots.
- Sevenside Park; weight 110; jockey, Collins.
- Yellow Hand; weight 108; jockey, Miller.
- Bill Clark; weight 108; jockey, Collins.
- De Bahilee; weight 100; jockey, Mc Atee.

## WILL GEORGES PROVE SECOND JIM CORBETT?

### Old Timer Predicts a Surprise for Dempsey Supporters in July 2 Go

By HARRY NEWSMAN

At the end of the second week of Jack Dempsey's training here we wonder whether Georges Carpentier is as well prepared as we think the champion is. We haven't had much of a chance to observe the Frenchman's condition, but looking at things from this angle, Georges will have to be in his very best mood to hope for an even break with the slinking scrapper who will represent America in the international combat at Jersey City July 2.

On the day we hopped the rattler for this burg we had just taken a peep at Carpentier behind those barred wire cages in the international combat at Jersey City July 2.

Sullivan Hopes It Out

We were disposed to bump into Jimmy Sullivan just as we left the Carpentier camp. Jimmy fastened the old button-hole on us, and, dragging us into a corner, proceeded to slip on the low down to the whole world.

We ought to mention right here that Jim is far from being a slouch when it comes to picking them right in a big way, and we have a great respect for Jimmy's circulation-giving propensities. But, and we hope that Jimmy never hears a word about this, Sullivan's behavior is dead wrong the time, daily told us in absolute confidence that the Dempsey-Carpentier scramble would be a repetition of the Sullivan-Corbett fight of years ago, and that a lot of good fellows were going wrong on the dope.

Boys Dope Is All Wrong

"You're all wrong about this big fight," said the genial James to us, "without knowing a blessed thing about how we felt in the matter. This kind of argument will take Jack Dempsey just as sure as you are alive. They did not think Corbett had a chance with Sullivan, did they? You could not make any one believe Sullivan could be beaten. But Corbett grabbed him, didn't he? Well, you just watch. It this time," concluded James, "Carpentier will take this fellow Dempsey just as sure as you are alive, and make no mistake about it."

We raced away from Sullivan that day, leaving him with his mouth full of words, and as we pulled into the Dempsey camp that afternoon we found a rugged, bewhiskered, smiling giant whaling the dickens out of a corps of suffering sporting writers. "Georges doesn't look his part. What an awful contrast! How could that pallid faced French kid whom we had seen sitting at ease on the nose of that ancient homestead in Mon hasset hope to compete with this bronze faced American giant! And then our thoughts went back to Jimmy Sullivan and his predictions. Jimmy may be right. Dope has

put some queer twists in the fight game. Carpentier may knock Dempsey for a row of tomatoes and upset the sporting world, just as the handsome young bank clerk, Corbett, crushed the mighty John L. more than a quarter of a century ago, but we do not think that there are parallel situations.

John L. was about through and had to go, while Dempsey and Carpentier are fairly equal, with the odds especially in favor of Dempsey.

Jack Dempsey is in great shape right now outside of a little extra baggage above the waist line, but which is gradually spurring down with his training operations and is being

### Too Early for Predictions

It is a little early to make predictions, and it would not be fair to pass judgment on Carpentier until he has had a chance to subdue his credentials, but the folks down here are going down hook, line and slinker on Dempsey to cop.

Dempsey got in some fine licks today during his training week and boxed several rounds with his sparring partners before a good crowd at the open air arena. Martin Burke, the tall southerner, is anxious to get going with the champion and is hoping that his damaged ear will soon be fixed.

Mike Gibbons has been matched to box at the new arena here in two weeks, and will doubtless join the Dempsey camp when he gets through with his own engagement.

There is a rumor floating around here that Jimmy Dougherty, the Philadelphia promoter, is likely to get the job as referee of the big contest.

## PRINCETON CREW LIGHT COMPARED WITH WESTERNERS

### Tiger Rowers Weigh 4 Pounds Below Californians to Man for Today's Race

PRINCETON, N. J., (AP) — Princeton draws her 1921 rowing season to a close this afternoon with the California race on Lake Carnegie. For the westerners the contest is merely a by-goner, since they face more than two weeks of intensive practice for the Touchetque regatta on June 26.

Both crews are evenly matched for today's race from the advance data that can be gathered. California outweighs the Tigers over four pounds in a gun, but Princeton's record thus far, with victories over the Navy, Yale, Harvard and Cornell, puts her in an enviable position.

The time trials have been practically identical. Yesterday Coach Walla's westerners rowed half a mile in 2:35 against a strong wind.

"This is going to be our hardest race of the season," declared Coach Specht after giving his men a final workout. "California has a strong crew and for sheer power surpasses any other combination we have rowed."

The race today begins at 5:30 day light, saving time or 4:30 eastern time. There is no difference in the current in the two courses, so neither will be handicapped by the draughts.

The statistics of the crew follow:

California—Bow position; J. M. Rogers (captain), 135 pounds; R. E. Magnanien, 129; J. A. Brown, 119; T. G. Kemp, 104; S. B. C. Downs, 182; G. D. A. McMillan, 120; F. C. Mehan, 172; stroke, A. E. Larsen, 168; coxswain, K. H. Beahm, 115.

Princeton—Bow, J. M. British, 162; 2, H. B. Fleming, 163; 3, S. W. McIne, 177; 4, J. S. Curtiss, 173; 5, J. B. Lewis, 177; 6, J. Sinclair, 170; 7, H. P. Brigham, 167; stroke, J. J. Lath, 162; coxswain, W. B. Schulz, 113.

## AMERICAN LEAGUE BATTERS' SETTING A TERRIFIC PAGE

### Hellman, Cobb, Speaker and Blaser Away in Lead in Tight Hitting Contests

CHICAGO, (AP) — The American league batting race has developed into one of the hottest in many years. With Harry Hellman of Detroit leading with 435 and Ty Cobb, Tris Speaker and George Rysler of St. Louis, last year's champions, setting a terrific pace with percentages of 403 each for Cobb and Speaker and 404 for Rysler. The latter in the past four weeks has hoisted his average more than 150 points.

In the National league, Rogers Hornsby, St. Louis, continues in a slight slump, but still holds the leadership with 435 over men who have played in 25 or more games. McHenry, another St. Louisian, follows Hornsby with 394.

## Brief Bits of Sport

"Buster" Brown has resigned as manager of the Legion ball team. Paul Meyer has been elected to succeed him.

Brown felt that the weight of managerial responsibilities affected his playing, so he decided to devote all his attention to the playing end of the game.

The official scorer of the Twilight league complains that changes are often made in team lineups after play has proceeded without any announcement being made of the changes.

It is the duty of the captain of each club to notify the umpire and the scorer of such changes, so that the fans in the stands may be apprised of the changes, and so that the scorer can keep the records clear.

Columbus, Ohio—Martin Burke, New Orleans heavyweight, and at present one of Jack Dempsey's sparring part-

ners has been matched with Joe Downey, Columbus, for a 12-round decision bout here next Thursday night. It was announced today.

Chicago—The faculty committee of the western conference will discuss a proposal to permit college athletes to play baseball in the summer of professional teams.

New York—Henry Leonard, lightweight champion, boxer and Rocky Kansas, his challenger in next Monday's bout at Harrison, N. J., finished their training this afternoon.

Philadelphia — Stanislaus Zyzanski threw Ivan Linow with a toe hold in 50 minutes.

The Lindsle team of the Georgia State league has a catcher whose last name is Boll. A season pass to 1920 games to the first fan guessing what they call him for a nickname.

George Murray, college pitcher, expected to join the New York Yankees when his school closed, is pitching for an independent team in North Carolina. The other day he beat an opposing team 1 to 0, allowing but two hits.

The St. Louis Cardinals and Philadelphia Athletics, who hooked up in a spring series, renewed the battle in an exhibition game at Rochester on May 20. The Cardinals won by a score of 4 to 0. Five thousand Rochester fans witnessed the game.

Pitcher Earl (Dunner) Garzik, jumper from the Sacramento Coast league club, signed to play with George T. Beau's Milwaukee (outlaw) league. Theo he concluded to keep on jumping and was about to join an independent club in California, but Tebeau went to court and got an injunction to hold him.

The Lakeland club, intending to replace Harry Swain as manager, closed a deal with Joe Wall of Brooklyn.

**Ford**  
THE UNIVERSAL CAR

The Garden farmer will find the Ford Model T One Ton Truck an especially valuable factor in his business because of the flexibility as well as the reliability of the service given by this splendid truck. The worm-drive of manganese bronze carries all the power of the motor to driving the Truck, and there are combined in larger and heavier form all the elements which have made the Ford Model T Car the greatest motor car in the world in point of service. The Ford Truck with its worm-drive is most economical in operation and maintenance. There is very little, if anything, to get out of order at any time; there is the simplicity in control, there is the convenience in the flexibility of the car, it will turn in a circle of forty-eight feet; it accommodates itself to narrow alleys, and it "stands the gas!" of hard work day after day, and month after month, to the great satisfaction of the owner. There is hardly a line of business activity where the Ford One Ton Truck is not really a necessity. Come in and talk it over.

# PERUVIANS PLAN BIRTHDAY PARTY

**AR Nations Invited to Assist in Celebration of Independence Centennial**

LIMA, (AP) — Virtually all the nations of the world have been invited to send representatives to this city in July to attend the centennial celebration of Peruvian independence. An official program is now being prepared. Great Britain, Germany, Japan, Norway, France, Italy, Chile, the Central American states and Mexico are among the countries that already have signified their intention to be represented at the celebration. It is expected that United States will send a special mission. Argentina plans to send a cavalry troop and an air squadron as well as a diplomatic representative and Bolivia, according to an announcement, will send a company of infantry. An exhibition building is under construction in which it is proposed to display the agricultural and mineral products of Peru. Foreign manufacturers also are planning to exhibit. It is said the government proposes to permit the free importation of articles for exhibition. The feature of the celebration, which will begin about July 20 and continue for two weeks, will be the unveiling of an equestrian statue of Jose de San Martin, the Argentine general who played a leading part in the liberation of the South American colonies from Spanish rule.

# MASKED MEN MAKE RAID ON SHIP BOARD VESSEL

**Attack and Injure Members of Crew Before Bluejackets Arrive**

OLD POINT COMFORT, Va., (AP) — A party of masked men boarded the ship-boarding steamer Mitchell in Hampton Roads today and attacked the crew, badly injuring eight and slightly injuring several others. A naval detachment answered the Mitchell's call for help, but before the bluejackets arrived the attackers escaped.

Chief Officer Henry L. Dodge said the raiders came alongside in a large power boat, scrambled over the rail and attacked the crew, injuring fifteen of them. He said they announced they were strikers and proposed to "drive everybody from American ships."

# Wirth is Sustained by Reichstag's Vote

BERLIN, (AP) — The reappointing today of Verelind in the government of Chancellor Wirth. The vote was 213 to 77, with 43 members not voting.

# STANDARD OIL COMPANY OF INDIANA BOOSTS CAPITAL

CHICAGO, (AP) — Stockholders of the Standard Oil Company of Indiana Friday authorized an increase of the capital stock from \$100,000,000 to \$140,000,000. The increase is partly to finance the purchase of the Midwest and Eastmain company.

# New Jersey Attorney May Be Solicitor-General

James M. Beck, prominent New Jersey attorney, who was recently reconfirmed as solicitor-general by Attorney-General Daugherty, according to reports from Washington, Mr. Beck had for some time been mentioned as possible under-secretary of state. It is a foregone conclusion that he will be confirmed for the post, in which case he will take office during the first days of July. Mr. Beck conferred with President Harding in an advisory capacity during the campaign. From 1900 to 1903 he served, as assistant attorney-general. He has argued many important cases before the United States supreme court, including the famous Danbury haters' case. His duties as solicitor-general will make him the representative of the government before the supreme court.

# DELEGATES TO WORLD'S PRESS CONGRESS NAMED

**STERLING THE ICE CREAM SUPREME IS CARBONATED (HEATHMADE)**

Prof. W. P. Heath discovered that ice cream manufacturers were putting the purest ingredients of all kinds into ice cream and then freezing these ingredients in common air which is never pure. He finally discovered a process for substituting carbonation for aeration.

Heathmade Carbonated Ice Cream is frozen in a pure, sterile, germ-proof atmosphere one hundred times purer than air. He uses the same atmosphere utilized in making carbonated water. This has the virtue of increasing also the flavor and quality of ice cream. It makes it more delicious, richer, more creamy.

You can let your children have all the carbonated ice cream they will eat. It is the finest food in the world for them. INSIST that your dealer supply you with our carbonated ice cream. Accept no other.

THE NEWS' SUNDAY SERMONETTE

By CHARLES GLENN BAIRD, M. A. Rector, Church of the Ascension, Episcopal

HISTORY OF EPISCOPAL CHURCH IN TWIN FALLS

These are commencement days among the schools and colleges of the country, and our educational systems are being reviewed...

Education among the Jews of our Lord's day was for the most part religious. It had a religious motive...

Early in the child Jesus we hear certain verses of the Holy Scriptures. The mother was the kindergarten teacher in the educational system...

During the last part of the period, the care and attention of the church and faithful man, Archbishop Howard Gray, as well as from the loved and revered Bishop Patten...

The present of Ascension church is known to all, but an historical review must note that on November 5, last, the vestry unanimously elected, through Bishop Traylor, a call to Rev. Charles C. Baird, the officiating minister with three churches...

Mr. Baird's arrival was greeted with a visitation from Bishop Frank (Male) Traylor, whose every word and work since taking charge of this interesting congregation has been marked by his firmness and firmness in the confidence and affection of his people...

Mr. Baird's arrival was greeted with a visitation from Bishop Frank (Male) Traylor, whose every word and work since taking charge of this interesting congregation has been marked by his firmness and firmness in the confidence and affection of his people...

I GEs FOR THE I GEs A STORY OF THE BUILDERS OF DEMOCRACY BY IRVING BACHELLER

CHAPTER I: Which Describes the Journey of Samson Traylor and his Wife and Two Children and Their Dog Sambo through the Adirondack Wilderness in 1831 on Their Way to the Land of Plenty...

In the early summer of 1831, Samson Traylor and his wife, Sarah, and two children left their old home near the village of Vergennes, Vermont...

"If we had been at the Congregational church on Sunday we might have heard the minister saying to Samson and Sarah, 'This is a hard day to understand why the happiest family in the parish and the most beloved should be leaving its ancestral home to go to a far, how country of which little was known...'"

"I had been at the Congregational church on Sunday we might have heard the minister saying to Samson and Sarah, 'This is a hard day to understand why the happiest family in the parish and the most beloved should be leaving its ancestral home to go to a far, how country of which little was known...'"

"I had been at the Congregational church on Sunday we might have heard the minister saying to Samson and Sarah, 'This is a hard day to understand why the happiest family in the parish and the most beloved should be leaving its ancestral home to go to a far, how country of which little was known...'"

"I had been at the Congregational church on Sunday we might have heard the minister saying to Samson and Sarah, 'This is a hard day to understand why the happiest family in the parish and the most beloved should be leaving its ancestral home to go to a far, how country of which little was known...'"

"I had been at the Congregational church on Sunday we might have heard the minister saying to Samson and Sarah, 'This is a hard day to understand why the happiest family in the parish and the most beloved should be leaving its ancestral home to go to a far, how country of which little was known...'"

"I had been at the Congregational church on Sunday we might have heard the minister saying to Samson and Sarah, 'This is a hard day to understand why the happiest family in the parish and the most beloved should be leaving its ancestral home to go to a far, how country of which little was known...'"

for food and drink. Colonel was the near horse. Now and then Samson threw a sheepskin over his back and put the boy on it and tramped along with arm's reach of Joe's leg; leg; this was a great delight to the little lad.

They proceeded at a better pace to the Black River country, toward which, in the village of Canton, they tarried again for a visit with Captain Moody and Silas Wright, both of whom had taught school in the town of Vergennes.

They proceeded through DeKalb, Hicville and Gouverneur and Antwerp and on to the Sand Plains. They had gone far out of their way for a look at these old friends of their.

Samson's diary tells how, at the top of the long, steep hills he used to cut a small trail by the roadside and its bits to the rest and hang on to his branches while his wife drove the team. This held their load, making an effective brake.

Tramped Along Within Arm's Reach: tethered, fed and watered their horses and while Sarah and the children busy a fire and made tea and biscuits. He was sitting back and catching fish in the stream.

"In a few minutes from the time I wet my hook a mess of trout would be dressed and spizzled, with a piece of salt pork, in the pan, or it was a bad day for fishing." he writes.

After supper the wagon was partly unloaded, the feather bed laid upon the planks under the wagon roof and spread with blankets. Then Samson sang songs and told stories or played upon the violin to amuse the family.

Often if the others were weary and depressed he would dance merrily around the fire, playing a lively tune, with Sambo glad to lend a helping foot and much noise to the program.

By and by the violin was put away and the little girl, who had been praying aloud for protection through the night, "So it will be seen that they carried with them their own little theater, church and hotel."

Soon after darkness fell, Sarah and the children lay down for the night, while Samson stretched out with his blanket by the fire in good weather, the loaded mule and the dog Sambo lying beside him. Often the howling of wolves in the distant forests kept them awake, and the dog muzzling and barking for hours.

Samson woke the camp at daylight and a merry song was his reveille while he led the horses to their drink. When they set out in the morning Samson was never to say to the little girl, who generally sat beside him: "Well, my boy, did the boys and you get this morning?" Whereupon Joe would say, "parrot like!"

"God help us all and make His face to shine upon us." "Well said!" his father would answer, and the day's journey began.

Often, near its end, they came to some lonely farmhouse. Always Samson would stop and go to the door to ask about the roads, followed by Little Joe and Betsey with secret hopes. One of these hopes was related to cooking and maple sugar and butter bread and had been cherished for an hour of good fortune early in the trip but discouraged by sundry good-livered women along the road.

Little Joe was the hope of seeing a baby often. It would be said, the hope often, my boy, did the boys and you get this morning?" Whereupon Joe would say, "parrot like!"

# SMITH'S ADDRESS ATTRACTS LARGE FARMER THROUS

### Parish Hall Crowded to Hear Speech on Diversified Farming

Seating space at Parish hall was at a premium for the C. L. (Farmer) Smith lecture on diversified farming this afternoon. While the convocation was primarily for district farmers, scores of people engaged in other lines of business in this section seized the opportunity to hear the address. The Union Pacific Railroad system among the farmers of the west.

Farmer Smith spoke on a number of agricultural topics, including the value of farming with dairying as a leading factor, with pigs and chickens as an important supplement.

### Crop Rotation

In consequence of the general subject he stated that any student of the history of agriculture in this and other countries is familiar with the fact that in any given locality where a single crop system has been used it has usually been only a question of time when the individuals and the community engaged in it find the line of production becoming steadily less and less satisfactory in market conditions, plant diseases, or exhaustion of soil fertility.

### Dairying Needs

Referring to dairying and the dairy cow he stated that the dairy cow is an individual, not a breed. There is just as wide a variation between individuals of the same breed as between individuals of different breeds.

### Fourth-Breeding

Carelessness, negligence or ignorance of the dairymen in regard to any of the factors will eliminate or seriously impair the measure of profit.

### To Balso Pig

In speaking of pork production, Farmer Smith made a very careful investigation of the methods practiced and results secured by a large number of farmers who are producing pigs on the open range.

### To Make Eastern Trip

P. H. Smith, Louis Haffer and E. White started this morning by automobile (auto) in eastern part of the Idaho region. Mr. Haffer will go to Boston to remain some time, while Mr. White will leave the party at Omaha, where he will remain until fall. Mr. White is a car salesman in South Park. His business recently burned down.

# COMMERCE ATTACKS PROBLEMS THROUGH NUMBER OF COMMERCE

### Dinner for "Farmer" Smith is Made Occasion for Consideration of Plans for Welcoming the New York Homeseekers; and Fourth of July Celebration—Visitors Give Inspiring Messages

Asher B. Wilson, president of the chamber of commerce today announced the appointment of committees to arrange for entertainment here of New York homeseekers en route to the West. The committee to investigate the feasibility of holding a Fourth of July celebration here.

The celebration committee is composed of John W. Graham, F. J. Ehrman, O. M. DeLeon, and C. H. B. P. W. Dumko, Howard E. Sablin, Donald McLean.

The chamber of commerce dinner at the Rogers hotel last evening, which was announced as a reception for C. L. (Farmer) Smith, agriculturist for the Oregon-Washington Railroad & Navigation company, resolved itself into an occasion for consideration of community questions involving a wide range of subjects and definite action was taken with respect to several of them by nearly 100 representative men.

A suggestion looking toward entertainment here of the party of New York homeseekers en route to the West End project was made following the dinner by the committee.

### EIGHTH GRADES ADD 102 TO HIGH SCHOOL

### Grammar School Pupils in Goodly Number Will Move Up This Year

Graduates from city eighth grades this year numbered 102, according to a list just issued by Superintendent H. O. Blue. This number is about 11 off setting the total in the high school graduating class this year.

### FINANCES FOR GROWERS DISCUSSED WITH BANKS

### Sugar Company Officials Meet to Consider Problem of the Funds for Beet Men

For the purpose of devising a scheme whereby beet growers of the district may have the advantage of funds for carrying on the cultivation of the sugar beet-crop this year officials of the Ogden and Twin Falls sugar companies, both of which are represented by Charles Woolston, Jesse Young.

### FIRST BAND CONCERT ATTRACTS LARGE CROWD

The first of the season's open air band concerts held this evening in the city park, attracted a large attendance. The program proved popular throughout with the masses and the organization, conducted by A. G. Thorpe, received much applause.

### STUDENT EXAMINATIONS

A considerable number of students are enrolled for examinations by the county superintendent, Miss Britton Wolfe, in room 102 at the high school. The examinations are for candidates for entry to normal school classes.

### TO OUR FRIENDS:

We wish to express our gratitude for the sympathy and kindness shown for us in our recent sorrow.

Mrs. H. H. Howe, Mrs. Edna M. Howse, Mrs. M. S. Stanbury, Mrs. R. V. Crater, Henry P. Howe.

# SUITS FILED IN COURT INVOLVE LARGE AMOUNT

### Total Sum of \$36,247.08 Named in Damage, Account and Note Actions

Aggregating \$37,247.08, three important civil actions have been entered in the district court in the past 48 hours.

The sum of \$12,025 is involved in an action filed today in the district court wherein the Blackwell-Wilandy Book & Stationery company is plaintiff against C. E. Lewis, the latter doing business under the firm title of Twin Falls Book and Stationery company.

This amount, according to the complaint filed with the court clerk, represents an amount due and payable.

Yesterday the McCormick Investment company entered suit against Frank De Klotz, H. M. Vanderpool, June H. DeKloster and others claiming judgment in the amount of \$11,485 of which \$10,295 represents the principal of a promissory note, said to be due.

In a third suit filed in the district court the Twin Falls Canal company is made defendant by David K. Egbert, Harry G. Taylor and others who claim that 75 acres of his 100 acre farm has been ruined and rendered unproductive.

The first party to the suit for damages to land in this district is the Shoshone street drainage levee, said to be one of the largest levees in the district and similar items.

# WHEAT GROWERS WILL ELECT FOR STATE BOARD

### Letter Notifications of Election Here June 11 Sent Out by Donald McLean

Notifying all persons concerned of a primary election of state directors for the Idaho Wheat Growers' association, a letter has been sent out by Donald McLean, secretary of the association.

The primary meeting, according to the letter, will be held in Twin Falls on Thursday evening.

"It is very important that we increase the very best candidate possible good business man, as well as farmer, to represent us on the state board this year."

"There is just one member allowed on the state board from the Twin Falls and Jerome district, and it is very important that we elect the best man possible who will see that our district gets fair consideration, and that the affairs of the association run economically. So, please take special pains to attend this meeting if possible, and bring your indorsements for the best man."

### LIONIZED TO WED.

Marriage licenses have been issued to Charles D. Goldsbury and Emily S. Dougherty, both of Twin Falls; to Ralph S. Gray and Alma M. Martin, both of Boise.

### STEPHAN IS ILL.

Frank L. Stephan, district attorney, is confined to his home with an attack of grip. He has been ill a couple of days, but is said to be somewhat improved today.

### RE-ARRANGING CHAMBERS.

Judge O. P. Duvall is supervising the rearranging of the probate court chambers today. The new plan includes a study for the jurist.

# GRANT FARMERS RIGHT TO MAKE SURFACED ROADS

### District Commissioners to Provide Material for Improved Highways

Later this afternoon announcement was made that positions presented by farmers of east- and south sections tributary to Twin Falls, for the construction of water-bound rock and gravel roads, had been favorably acted upon by the board of highway commissioners.

The district will provide the material but the farmers in the districts interested must do the work themselves. These farmers reside on the south extension of Shoshone street will get rock from the pile assembled at the filter plant; those on the east line must haul from the crusher plant.

Farmers berthed the offices of the Twin Falls highway district this morning with petitions for roads. More than 40 farmers constituted the delegation in presenting demands for better highways in the particular districts in which they are most interested.

The first party of petitioners represented a two-mile stretch of road extending from the end of the South Park road, in a southerly direction. This is really an extension of the Shoshone street pavement, and, if authorized and completed would start at the city filtration plant corner and end at the high line canal.

The other petition is for a mile of road connecting with the south half surface road at the filter plant corner and running in a southerly direction to the rock crusher plant road south.

Petitioners do not ask for bituli this, concrete or oil-bound macadam in the construction of these roads; they say they will be satisfied with water-bound macadam, with a good base of crushed rock topped with gravel.

The district highway commission is considering the merits of the contentions, weighing these against the available cash resources.

### IS STUDENT PRESIDENT?

S. G. Diehl, living four miles north of St. Paul, has received word that his son, E. J. Diehl, has been elected president of the student body of the Utah Agricultural college at Logan, Utah.

### School Book on Sale

The Coyote, Twin Falls High School's year book, can be obtained at Cloc book store now. All students who have not bought copies should do so and have the complete history of the most successful year that the high school has ever experienced.

# STARTS MOVEMENT TO REORGANIZE TESTING

### Omamuck Here from Boise to Re-Start Important Association of Dairymen

On May 1 this year the district cow testing association contract expired, and this necessitates reorganization of the association's affairs. For the purpose of conducting this reorganization E. B. Omamuck, field dairymen of Boise, has been in Twin Falls several days.

This afternoon he is meeting with farmers and dairymen of the district at the Parish hall, farm meeting. "Speaking with respect to the testing association H. E. Powers, county farm bureau agent, makes the following statement:

"No association work has been done in the county since the first of May when the contract expired and the tester, H. A. Anderson, severed his connections with the association. It is anticipated that the organization will be completed and the new tester on the job so that work may be done, the first of July.

It is believed that we shall have the largest number of herds under the official test of any county in the state. Twin Falls county does not, at present, have quite as many dairy herds as some other counties in Idaho, very much interest is being emphasized in dairying, especially within the last few months and the work in the game recognize the importance as an fact the imperative need of testing. It is the only way whereby they are enabled to know definitely just what their animals are doing.

"The slogan, 'Test Don't Guess' is of more meaningful significance to the man with a few or a large number of dairy cows.

Mr. Omamuck conducted a meeting of dairymen and farmers at Bull eye today, the topic being the reorganization of the association. He reports a strong sentiment favorable to the movement.
