

### LEGION'S CHIEF MEETS DEATH IN AUTO ACCIDENT

#### National Commander F. W. Galbraith Suffers Fractured Skull when Car Leaves Road and Dies on Way to Hospital

INDIANAPOLIS, Ind., (AP)—The death of Colonel F. W. Galbraith, of Cincinnati, national commander of the American Legion, in a motor car accident here today, threw into mourning the legion posts throughout the nation.

Henry J. Ryan, of Indianapolis, national director of the legion's American Legion, today, after the funeral of the legion post in Chicago, national commander of the legion from Illinois was injured, not seriously, when an automobile in which the three men were riding went over a steep embankment.

**Car Leaves Road**

The men were returning to the city from the country club in Mr. Ryan's car. The car failed to make a slight curb on the road and went over the embankment, the sidewalk and part of several times, landing at the foot of a 20-foot embankment. All three men were thrown clear of the car as it went down.

Mr. Galbraith suffered a fractured skull in the fall and died on the way to the hospital.

Paul E. Robinson, who made an investigation immediately after the accident, said an examination of the wrecked machine showed a broken connection with the steering wheel.

Foreman's shoulder dislocated.

Mr. Foreman later was found to have suffered a fractured skull and injuries to his back and shoulder. He is in a serious condition at the city hospital.

Hospital attaches said that since the accident Ryan has been hysterical.

### CHIEF'S BODY WILL BE REMOVED TO CINCINNATI

Mr. Galbraith's body will be removed to Cincinnati for burial as soon as arrangements can be completed. He was elected national commander of the legion at the national convention held here last September at Cleveland. He was born in Waterbury, Vermont, Massachusetts.

An election probably will be held here next month to name Mr. Galbraith's successor, it was announced at national headquarters today.

The new commander will be named by the legion's national executive committee.

The national vice commanders, one of whom probably will be elected national commander are: John G. Frazier, Grand Rapids, Mich.; Joseph H. Golding, Newark, N. J.; Claudine G. Penhall, Barre, Vt.; J. C. Schurbaum, Carson City, Nev.; and E. Jackson Winslett, Birmingham, Ala.

**Colonel Galbraith One of Cincinnati's Big Citizens**

CINCINNATI, O., (AP)—Colonel Fred W. Galbraith was one of the best known citizens of Cincinnati of recent years. He engaged in various and especially business in Cincinnati up to the time of the entrance of the United States in the world war.

He was chosen as colonel of the 6th Field Regiment, 9th National guard, and when the war broke out he recruited that regiment to war strength and it was mustered into federal service as the 12th Central Postal Directory, seventh regiment, thirty-seventh division of the United States army. At its head he went overseas, took leave at home and then returned to his military home in Cincinnati.

### Boise Aviator Is Dashed to Death When Plane Falls

Lieutenant W. B. Brown is Victim of Fatal Crash at Virginia Beach

WASHINGTON, D. C., (AP)—Lieutenant W. B. Brown, Boise, Idaho, of the marine corps, was either killed or drowned today when the marine corps plane he was flying crashed at Virginia Beach, Virginia, near here on the Potomac river. Sergeant Dogby, a passenger in the machine, was injured.

### TOLEDO POLICE KILL MURDERER AFTER BATTLE

Thomas Kelly Barricades Himself in Attic of Building and Slays Two Patrolmen Before He is Laid Low

TOLEDO, (AP)—Thomas Kelly, 49, of Oklahoma, was killed this morning following a battle which lasted two hours and in which machine guns and hand grenades had been used to dislodge him from his barricaded room in the attic of his boarding house at 611 West Street.

**Board Bill Killed**

Before he was killed, Kelly shot and killed Patrolman Harry Dowell and Harold Mossbrugger, who had been called to the house to subdue him after he had refused to pay a board bill that had been issued. Kelly threatened his landlady, Mrs. Nellie Key, and her son Allen.

The roof of the house was partly shot away by machine gun fire and hundreds of shells were exchanged between the officers and the solitary gun man before he was finally killed.

Two machine guns were sent from the central police station and a high pressure fire hose was used in an effort to force him out of the house. Sulfur candles were lighted in the building and other chemical traps were set throughout the building in an effort to smother the rebel out.

**Patrolman Displays Courage**

Patrolman Mossbrugger courageously mounted to the roof of a three-story brick building, crossed its top under fire, sawed his way through a door for a five-foot drop to the floor of the attic and was killed by Kelly on the instant his feet touched the floor.

Patrolman Mossbrugger's pistol lay empty by his side and there was evidence of a struggle.

Kelly, who was a waiter, was reported to have recently purchased a couple of ammunition. A police officer in the neighborhood said that Kelly had bought arms and had talked of "starting a war."

### TWELVE PRISONERS ESCAPE FROM JAIL AT NOGALES

NOGALES, Ariz., (AP)—Twelve prisoners, five negroes and seven Mexicans, escaped from the Nogaes, Ariz., jail here early today after assaulting and knocking unconscious jailer J. M. Soto, and fled across the international boundary into Mexico.

Witnesses with bloodhounds by their sides, and the governor's men immediately took up the trail and hoped to recapture the prisoners today.

### RAW SUGAR PRICE HITS LOW FOR FOUR YEARS

NEW YORK, (AP)—A decline of one-quarter cent to \$1.22 in raw sugar today carried prices to the lowest level since the late 1910's. The decline in price was established on sales of 6700 bags of Costa Bleas, import duty paid.

### FEDERAL TRADE BOARD ATTACKS LUMBER TRADE

Charges Organization of Pacific Coast Loggers and Manufacturers to Fix Prices by Restricting Production

WASHINGTON, (AP)—Charges that loggers and lumber manufacturers of the "Douglas fir region" on the Pacific coast, the future "oil-belt" of the country, "lumber trust" are organized to fix timber prices by "concerted restriction of production" are made by the federal trade commission in a report submitted today to congress.

"They have been engaged in such activities for 20 years," the report said, adding that evidence from which "substantial portions" of the production were secured from the files of "the associations concerned with the production of Douglas fir."

**Traces Price Advance**

Eight conclusions are presented, in addition to the foregoing, from correspondence from which the analysis was compiled. The first conclusion asserts that fir lumber quotations went up from 200 to 500 per cent between 1901 and 1920, and most firms doubled in price after the armistice.

Despite reductions in 1918 and 1920, it continued, present quotations on "substantial portions" of the production, "are still higher than those of the October, 1915, prices" and fir logs in May, 1921, were quoted at prices identical with those which were then being on the war industries board at the war time maximum.

Ownership of standing timber in the hands of a few persons, the report declared, is "a comparatively few strong concerns," the report states, and "control of timber is the key to control of production" which is in turn used to control prices.

**Logs Absorb Profits**

"Ordinary manufacturing profit tend to be absorbed in the price of logs," the report declared, "and the nation's timber production is being falling wholly on lumber markets. The frequent and persistent claims of unprofitable mill prices are largely explainable by the collective action of loggers and timber owners in curtailing the value of logs and standing timber."

"Obtain" exchange of information as to their reserves and to be carried out between fir manufacturers and also between this group and Southern pine manufacturers "for the purpose and effect of curtailing production, harmonizing prices, and to the detriment of Western pine manufacturers are declared.

(Continued on Page Four)

### AMERICAN BOAT HITS ICEBERG

HALIFAX, N. S., (AP)—The American freight steamer, Charlott, from Philadelphia for London and Hamburg via St. Johns, N. F., struck an iceberg today about 200 miles from the New Foundland coast last night, according to a wireless message received here today. Her bow was stove in and the steamship Columbia is proceeding to her assistance.

**CAPTAIN EXPECTS TO MAKE RETURN TO PORT IN SAFETY**

NEW YORK, (AP)—The captain of the freight steamer Charlott, which struck an iceberg last night, reported by wireless to the Kew Steamship line today that although his ship was leaking, the pumps were working well and he expected to reach St. Johns, N. F., safely.

St. Charles, a vessel of 3,475 gross tons, is owned by the United States Shipping board and operated by the Kew Steamship line. She sailed from Philadelphia June 23 and put into St. Johns for supplies earlier. She carries a crew of 35 men and general cargo.

### MEXICAN EXECUTIVE IS CREDITED WITH EXPRESSION OF WILLINGNESS TO SIGN UNITED STATES' PROPOSAL

WASHINGTON STILL HOPES TO FIND COURSE LEADING TO AGREEMENT

MEXICO CITY, (AP)—Recognition of the administration of President Obregon by the United States, must precede treaty making between the two nations and although President Obregon desired to sign the treaty mentioned in the recent American memorandum he cannot do so except after recognition of the Mexican government by the United States, according to all the newspapers of Mexico City this morning, they apparently having derived their information from the same unnamed official source.

"In flaming headlines this morning," the newspapers assert "Mexico has refused to sign the United States' proposal."

**Calls Signature Impossible**

Formal signature of a treaty between Mexico and United States as a condition to recognition of the Obregon administration by Washington is impossible, said a statement issued at the presidential office last night.

A statement issued by the foreign office declared that a commercial treaty between the United States and Mexico was desirable, but that the Mexican president did not possess the right to conclude a treaty of a political nature such as was proposed by the United States in the recent memorandum, to the Mexican government.

**Objects to Political Phase**

"In the political phase, the American note was objectionable because it contained stipulations which were contrary to the interests of Mexico."

### LABOR BOARD ORDER DISTURBING ELEMENT IN RAILROAD SITUATION

Union Heads Express Dissatisfaction with Abrogation of Rules and Working Conditions Established Under Federal Control; Wide Divergence of Opinion on Meaning Develops

CHICAGO, (AP)—Disatisfaction over the railroad labor board's abrogation of rules and working conditions established under the federal control during the war, is being expressed by the railroad labor circles by union heads before the board today.

A wide divergence of opinion on the meaning of the board's abrogation order, which becomes effective July 1, was expressed by both employe and union heads. The fact that the board was finally handed to the left by both sides with a request for an interpretation.

**Charges Trouble Making**

"Trouble is being made by these unions which will not negotiate with the employes until they have a copy of the new set of rules before that date," said W. R. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen. "I have a letter from the president of one of the leading railroads in the country saying that the Chicago office is holding out the ear of one of our men but he is before this board with such a request, swept along with the other roads."

**Boards Don't Jurisdiction**

"I told that this board has no right to do anything with me or my men, but I have a right to argue my case and to argue my case and to argue my case."

W. R. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen, and J. P. Shupert, head of the conductors, upheld Mr. Carter's contention.

### FLOOD MENACE IS DISAPPEARING

South Platte River Reaches the Crest in Colorado at Midnight and Waters Inundating Low Lands Begin Descent

DENVER, Colo., (AP)—The South Platte river reached its crest here last night. After flooding for four days two square miles of Denver's lowlands on the west side and inundating farming sections along its course through northern and northeastern Colorado, the flood waters have begun a gradual descent.

Recession of the Platte is expected to be slow. Intermittent rainfall in the mountains has served to make the river rise during the last few days. It rained again last night, but not heavily.

In Denver, hundreds of frame dwellings and manufacturing plants were inundated, and railroad yards submerged by the water, which was at its highest yesterday at 12 feet one inch.

**Second Casualty Occurs**

The second flood casualty occurred here last night, members of the police safety patrol reported today. A cry for help was heard from the water. Workmen found footprints on the river bank, disappearing in the water. A body was seen in the water, but the body has not been recovered.

Farms in northern Colorado are inundated by the flood waters of the South Platte. In some places, bridges, by the score, are washed out. Highways were made impassable, and railroad trackage torn and twisted. Official estimates of the damage indicate that it will run the million dollar mark. Weld, Boulder, and Larmer counties suffered most. Logan and Morgan counties escaped the wrath of water. The latter, however, has a valley through which the Platte flows in that section.

### RIGHTER PERSONS KNOWN TO HAVE BEEN KILLED IN FLOOD

PIEBLO, Colo., (AP)—Eight persons are known to have been killed in the flood in the LaJunta district, according to Captain J. B. Meek of the Colorado National guard who arrived here today after a five day tour in the district against the elements. Captain Meek's report was the first official statement of the situation around La Junta.

The report was given by Meek to the Associated Press. Today, Captain Meek, who assisted Mayor Fred Sablin in the work of rescue and in the search for bodies of the dead, reported that the total in the district at \$80,000, to \$100,000.

The list of dead as given by Captain Meek follows:

- Frank T. Lewis, city engineer of La Junta.
- John J. White.
- Mrs. E. E. White and daughter, Miss Elizabeth White.
- Agnes, young man.
- John A. Agnes, young man.
- John Agos, 11 years old.
- Darr, wife and four children; bodies not found, but relatives believe that the bodies are in the water.

Five Mexican laborers, unidentified whose bodies were found at Hadley, three miles east of La Junta.

According to Captain Meek the dead bodies of the Associated Press were dragged yesterday while trying to get to La Junta for supplies.

La Junta, itself is not flooded, Captain Meek said.

### WICHITA PREPARES TO MEET RUSH OF COLORED FLOOD

WICHITA, Kan., (AP)—Wichita to day expects to receive the diminished flow of the Arkansas river, which wrought havoc at Pueblo, Colo. with the amount of probable damage here depending upon the volume of water released in the interval. It is expected that the water will reach Wichita from western and central.

### Alleged Agreement Between Soviet and Irish Is Given

LONDON, (AP)—The government is said to be under a heavy obligation to give the text of what purports to be the draft of a proposed treaty between the Russian soviet government and "the Republic of Ireland," which the government states was captured at Dublin. It was stated, captured at the same time signed "Dermond O'Leary," described in the white paper as one of the Irish republic parliament's secretaries, and a member of the government.

A memorandum also accompanied the document, which states that it was alleged to have been written by Dr. McCann. This memorandum is quoted as saying:

"The understanding at present is I shall first write up the gist of the matter and then the full text will be another member."

According to the intercepted document, the agreement is being made to have been sent to Russia to further the mutual interests comprehended under the treaty.

"The agreement is being made to have been sent to Russia to further the mutual interests comprehended under the treaty."

"Destinations of promoting peaceful and friendly relations between all nations, especially the peoples of Ireland and Russia, and striving to cooperate in the interest and advancement of the human race and for the liberation of all people from imperialist exploitation, the government states that the Russian socialist federal soviet republic and the republic of Ireland agree as follows."

### Gold and Silver are Found on Iowa Farm

EMMETSBERG, Ia., (AP)—Discovery of gold and silver in mining quantities on the Bernard Smith farm, seven miles west of Emmetsberg, Iowa, reports from a Chicago assay office have started wild excitement in the north part of Palo Alto county, along the banks of the Des Moines river.

Bernard Smith, while digging potatoes on his farm several days ago, accidentally struck a gravel bed. Noting shavings in the gravel, he sent samples to the Chicago assay office. The report might be gold. The report just received, states that gold and silver found in the sample from 500 to \$100,000.

MEXICO RESTRICTS MONEY IMPORTS TO GOLD COIN

MEXICO CITY, (AP)—Importation into Mexico of any foreign money except gold coins is prohibited. The new such currency in this country, is prohibited after July 1 by a decree issued last night by President Obregon.

### Red Cross at Pueblo Issues List of 437 Missing Persons

PUEBLO, Colo., (AP)—The local chapter of the Red Cross which is in charge of relief work in the flooded district in Pueblo, this afternoon issued a list of missing persons containing 437 names.

PIEBLO, Colo., (AP)—The first unit of the huge refugee camp being organized here is now in operation under supervision of the United States Army. It was announced by the military authorities today. The refugee camp will have a capacity of twenty thousand.

There are 1,000 persons in the Salvation Army unit. Honor T. Swale, adjutant of the refugee camp, announced, and 1,500 more persons are expected today.

Designations to that camp hospital are permitted to follow a census of those which began today. This hospital, Colonel Paul J. Hamrook, state adjutant general, in command of the city, will have a capacity of twenty percent of the capacity of the refugee camp, or 4,000. He is for that capacity, a demand will be made to meet emergency.

The flood wreckage of Pueblo will be cleaned up by members of the American Legion. An organization for that purpose is complete last night and Captain Van Law of Pueblo has placed in charge. The legion men will have from two thousand to three thousand men at work this week. It was predicted that the army would be in military order just issued directed Major Albert H. Miller of the United States army to take charge of all United States property in the city. Military officers are today being ordered to take charge of the Pueblo Packing company's plant is being repaired and will be used to store fresh meats. Its ice plant is now in operation and the stock and meat will get ice until everybody can be supplied.

An order prohibiting profiteering has been issued by Colonel Hamrook. Any firm or person charging more than the pre-flood prices for goods will be punished by the military authorities, the order says.

# BIG QUESTIONS ARE PRESENTED TO CREDIT MEN

### Discussions on Credits and Finances from National Viewpoint to Figure in San Francisco Convention

SAN FRANCISCO, (AP)—Discussions and talks on credits and finances at the twenty-sixth annual convention of the National Association of Credit Men to be held here June 14 to 17. The two and a half day convention and financial authorities of the country are expected to attend.

"America's Responsibilities as a Credit Nation will be one of the subjects of the program for general discussion, with Henry M. Robinson, president of the First National bank of Los Angeles, Cal., making the principal address."

W. F. H. Knobel of New York, president of the association, will call the meeting to order and preside at the sessions. Vernon Hall, Dallas, Tex., will respond to the address of welcome by Governor William D. Stephens of California.

Among the speakers and their subjects are: F. Maxwell, New York banker, "A Study of Prices, Profits and Depression, with a Review of Commercial Credits Since the Armistice"; John L. McLaughlin, San Francisco, "Credits and the Law"; William Spreale, president Southern Pacific company, "Transportation as a Factor in American Credits"; J. H. Westworth, secretary National Fire Protection association, Boston, "The Red Peril and Its Prevention."

Other speakers and their subjects are: F. Stern, chairman of state banks, San Francisco; E. F. Reiter, Chicago; E. D. Ross, Portland, Ore.; W. Eberly, Kansas City; H. W. Egan, Providence, R. I.; George B. Cole, Toledo; J. S. Thomas, Philadelphia; W. E. Deane, Seattle; W. A. Voemann, Spokane; A. F. Stapan, Los Angeles; J. M. Hensford, St. Paul, Minn.; A. H. Tholia, Memphis; Eugene Stern, St. Louis; T. K. Cree, Pittsburgh; George J. Cron, Cincinnati; H. W. Louis, Los Angeles; J. P. Young, Louisville; C. D. Foster, New York; and B. K. Knapp, Portland, Ore. Each of the speakers will talk about the business in which he is interested.

General discussions at the convention on various subjects are to be led by the delegations from Cleveland, St. Joseph, Mo.; St. Louis, Baltimore, New Orleans, Los Angeles, Pittsburgh, Boston, Wichita and Chicago.

# JAPANESE FIND OCCASION TO HOLD SIBERIAN TOWNS

### General Kumura Says Developments Necessitate Continued Occupation

COPENHAGEN, (AP)—General Kumura, commanding Japanese troops in the Vladivostok district, has announced that the Japanese, in consequence of the situation developing in eastern Siberia will be forced to occupy various Siberian towns of strategic importance, says a special dispatch from Helsinki.

The Russian bolshevik government is said to have made an "arbitrary" proposal to the Japanese, and in a reply to the British and French governments it declared to hold all the entente powers morally responsible for Japanese intervention in Siberia.

# AUSTRALIAN TIMBER MEN ASK PROTECTIVE TARIFF

SYDNEY, N. S. W., (AP)—Suggestions have been made in Australia that American timber merchants are attempting to dump quantities of second grade Oregon pine on the New Zealand market at extremely low prices. If this is allowed, local millers claim, conditions will be the same as they were in 1917 when local timber men were unable to market large quantities of local lumber and consequently hundreds of workers were thrown out of employment. Suggestions have been made that a duty be placed on lumber imported for building purposes.

# AMERICAN ARMY STORES PROVE BOON TO FRENCH

### Vast Stock of Canned Foods is Made Available to Public Demand

PARIS, (AP)—The vast stock of canned foods left in France by the American army and now being sold to the public is proving a boon to the French housewife.

She is now able to go to her usual grocery store and buy canned goods—usually canned in America, and containing labels in real English—at a price which is sometimes 300 per cent cheaper than the same variety of food obtained by the French.

String beans, salmon, tuna fish, corned beef, pickled ham, combinations of vegetables and meat of various kinds and many others are now obtainable from the stock of things the American army left behind and sold to the French government.

Many of these things, pork and beans, for instance, were virtually unknown to the French until the American army came to France. All are products of the best known American packers and it is striking that the average French housewife says American canning methods are better than the French.

# NO BIDS RECEIVED FOR VETERAN ARMY VESSEL

### Old Transport Crook, Offered for Sale by Philippine Quartermaster is Still on Market

MANILA, P. I., (AP)—The veteran army transport, Crook, which was offered for sale by the Philippine department of the Philippine department of the United States army, is still on the market, no bids having been received for the craft in response to advertisements. The reason assigned for lack of bids is a surplus of ocean tonnage for the freight now offering.

The Crook was formerly a British ship, having been built in Scotland in 1882. She was known as the Roumania until purchased by the United States at the outbreak of the Spanish-American war. Her gross tonnage is 4120.

It is also planned to sell the transport Warren which operates regularly between Manila and Chinese ports. The Warren was once the German ship Scamilla of the Hamburg-American line. She was built in 1880 and purchased for the shipping out of the Spanish war, in 1898.

# WESTERN SHOE DEALERS TO BE CALIFORNIA'S GUESTS

SAN FRANCISCO, (AP)—Shoe dealers from California, Oregon, Washington, Idaho, Nevada, Montana and Arizona are expected to attend the thirtieth annual convention of the California Retail Shoe Dealers' association to be held here June 14-16.

Several national leaders in the shoe industry will speak at the convention. It was announced here recently—  
**PULLMAN COMPANY'S MEN BEGINS STRIKE BATTLE**  
CHICAGO, (AP)—The strike battle, circularized Pullman company's shop forces in more than 80 cities, which was to have been voted and returned Friday morning, Wednesday was recalled, following a conference with the railway employees' department of the American Federation of Labor.

# SILAGE FED COWS GIVE MORE MILK

The experience of dairy men shows that fodder preserved in a B. P. Frost Proof wood silo will increase in food value. Cows fed on it give more milk.

# Anti-Frost Air Space

The air space between the walls of a B. P. Frost Proof silo keeps out the frost, and the wonder walls keep the silage fresh and nourishing.

# Now the Time to Build

Right now, between planting and harvest, is the best time to build your silo. You'll have it ready for the crop when it comes. It's a permanent improvement—profitable every year.

Ask our sales manager about the plans and specifications that make it easy to build a B. P. Frost Proof Silo.

# SIMS STANDS BY LONDON REMARKS

### Declares He Will Not Repudiate Single Word of Address on Irish Question

LONDON, (AP)—Rear Admiral William S. Sims, United States navy, is quoted by the Press association today as saying this morning with regard to the speech he delivered on the Irish question here Tuesday: "I stand by all I said, every word of it. I shan't repudiate a single word I said, and I see nothing un-American in it, even if Senator McCormack says so."

Admiral Sims, who this morning said he had not received the subrogation requested to have been sent him by Secretary of the Navy Denby inquiring if the admiral was correctly quoted in the press reports of his speech, has arranged to leave the cable message delivered to him as soon as it reaches London.

Speaking at a luncheon given by the English Speaking union at London on Tuesday, Admiral Sims was reported to have made a bitter attack upon Irish sympathizers in America. He was said to have declared: "They are like robbers—either black horses with white stripes or white horses with black stripes. But we know they are not horses—they are men. Each of these asses, however, has a vote, and there are lots of them." He declared that the persons he assailed were Americans "who will leave money, but Sinn Feiners when on the platform," and added: "They are making war on America today," according to cabled versions of the admiral's remarks.

# YELLOWSTONE IS BOY SCOUT GOAL

### Two Hundred Iowa Lads to Make Trip as Guests of Business Men

YANTON, Ia., (AP)—Two hundred boy scouts of this city are preparing for the time of their young lives which will leave here on June 20 bound for the wide old Yellowstone park. The trip is unique in the annals of youthful entertainment. It is being conducted by 50 business and professional men of this city who will be hosts to the youngsters.

Nothing so precise as Pullman sleepers will be used and hotels will be departed for. The boys and their chaperons, together with a 25-piece band will travel in five automobiles while their sleeping equipment, commissary and such, will follow closely in five large trucks. Camp will be made each night en route, the entire party tenting in the open. The personnel of the hosts will include doctors, nurses, a moving picture outfit and wireless equipment. The trip will consume more than a month of travel, starting on June 20 and ending July 20.

# GEORGIA AND ARMENIA HAVE PERIOD OF QUIET

### Bolshevik Rule Brings Lull in Turmoil Involving the Near Eastern States

TIFLIS, (AP)—Georgia and Armenia seem to have a period of quiet now that Bolshevik rule is definitely established. The governing power, while ostensibly in the hands of local revolutionary committees, is said to depend upon secret Russian committees. Bolshevik troops at Tiflis, Batumi and Erivan apparently are on "their good behavior." They are trying, it is said, to convince Armenians and other foreigners that the Baku outbreaks are not to be repeated. So far there have been few executions. Most of these were for food speculation.

Probably half the people of the cities are without money and are being fed at Bolshevik soup kitchens. The dollar, worth 5000 rubles three months ago, is quoted now at 12 times that value.

Restaurants and nearly all stores except those selling food are closed. In general foreigners have not been bothered, although palaces and the property of the wealthy have been requisitioned.

# BIG MEETING PLANNED BY COLUMBUS KNIGHTS

### Approximately 20,000 Visitors are Expected to Attend Supreme Convention in San Francisco

SAN FRANCISCO, (AP)—Many parts of North America will be represented, it is expected, at the thirty-ninth annual international supreme convention of the Knights of Columbus to be held here August 2, 3 and 4. Approximately 20,000 visitors, including 900 delegates, are looked for. Delegates will attend from every state, Canada, Mexico, Cuba, Porto Rico, the Canal zone, Alaska and even Hawaii and the Philippines, according to present plans.

Eastern coast delegates have chartered the steamer Venezuela to bring them to the meeting. The Venezuela will leave Baltimore July 7 and arrive here July 31.

# COAST CITIES TO OBSERVE NATIONAL PARK OCCASION

FOCOMA, (AP)—National Park day, June 14, will be celebrated in Seattle and Tacoma this year to mark the opening of Rainier National Park, which is located in the Mount Rainier country near here. The government road to Longmire Springs in the park was opened recently and the road on to Paradise valley, near the summit will be cleared of snow and opened June 25.

# Speeder Sentenced to Copy Automobile Code

SANTA BARBARA, Cal., (AP)—Harry Munson, Los Angeles, must copy the entire contents of the state motor vehicle law in longhand as part of his punishment for speeding at the rate of 45 miles an hour in Santa Barbara county, a court here announced recently. Munson also was fined \$15.

## CASE OF BOXER VERSUS FIGHTER IN COMING GO

### Shifty Man Will Meet Stubborn Plugger in Georges-Dempsey Battle

By RAY PEARSON.

As Georges Carpentier moves along slowly and carefully in his preparation for his battle with Jack Dempsey for the world's heavyweight championship... The heavyweights championship slipped out of the grasp of an American for the first time on St. Patrick's day 1897, when Bob Fitzsimmons, a lanky Australian, pumiled James J. Corbett into submission in the fourth round at Carson City, Nev. This occasion was the first of its kind as both moving pictures were taken. Both fighters enjoyed themselves right as the able money from the movies was declassified at that time. It was also the beginning of worn-out prize fighters.

### Runs 100 in 11 Flat

Carpentier takes great pride in his athletic ability. He has the speed to travel 100 yards in 11. He is a high and broad jumper, and hurdle racing over the brush is another of his accomplishments. When asked how he could go to the high jump and the distance he could negotiate in the broad jump, Georges smiles prettily with a dimple showing in each cheek and modestly declines to give figures.

But there are others in the camp of the European champion at Manhattan who find talking of Georges a pleasant occupation, and who are proud of present figures, they simply date on the athletic achievements of "My Georges."

But they never fall to swell with conceit when it comes to discussing the fighting ability of the man from across the Atlantic.

### Disabled in War; Comes Back

While it is difficult to get accurate data on the athletic achievements of Carpentier, enough is known to give a general idea of his ability. That was demonstrated during the world war, when Georges was prominent in many athletic events in the army. He was successful in army competition, which is sufficient to indicate his ability.

Now take Jack Dempsey. The champion makes no pretense of being an athlete in the sense that term is generally applied. He is content to be termed a fighter, and he is there and nothing more. His efforts in sports other than boxing would never place him in the limelight. He is an example of the rough old American youth. He likes to play hard and better than any other sport besides fighting, and he plays it for the fun he gets out of it, not with the object of developing skill.

### Georges Much Better Schooled

Athletes and education go together, and it is not surprising that the reason why Dempsey isn't listed among the athletes today can be explained by the fact that he was handicapped by lack of education. His education, such as it was, was gained in the field of toil and experience, not in a high school or a college. So Georges must be conceded the margin there.

But when we go back to the original argument of whether or not an athlete can defeat a fighter in the ring, if we were to depend on precedent, we would write it down right now. The result of this battle would be the defeat of Carpentier by Jack Dempsey. Glancing back over possible records, we find that the only man who has ever been defeated to capture the world's heavyweight championship always have failed. Every man who has held the crown has been a fighter, except one and that one was the marvel of cleverness, Jim Corbett.

### Every Champion a Fighter

Corbett was the closest approach to an athlete, but he could not be truly called one. Tommy Burns, the famous, also was a good boxer, but the middle long-distance was the limit of his athletic ability.

We refer to the champions of glove fighting, not to those who have held within the raw bars. Think over the list of men who have held the Queensberry title: There was John L. Sullivan, Bob Fitzsimmons, Jim Corbett, Jim Jeffries, Marvin Hart, Tommy Burns, Jack Johnson, Jess Willard and Jack Dempsey. Every one of them was a fighter who made the ring work his life, and was satisfied with that career.

There have been many cases of athletes who have tried to become fighters and failed. The nation's greatest long-distance runner, Jole Hay of Chicago, tried it, and gave it up. Frank Gehl, one of the greatest champions, tried it, and gave it up. There were many others too numerous to mention here. So the athlete Carpentier makes his bid against the fighter Dempsey on July 22, he will have to do something that others have failed to do if he is to become world's heavyweight champion.

What is useless to you may be valuable to others - advertise it in the classified.

## FITZSIMMONS SUCCUMBED TO JEFF'S POWER

### Giant Strength of Massive Gallornian Too Much for Australian to Combat

Only a little more than two years were given to Bob Fitzsimmons in which to enjoy the glamour and the gold that accompanies a heavyweight championship. The honor was knocked from his sturdy shoulders by James J. Jeffries, the ponderous Californian, on June 9, 1899, at Carson Island.

Jeffries had graduated from a boot-making establishment into the ring, and with two rugged flats that pounded Fitzsimmons into submission in 11 rounds, scoring three knockdowns before the knockout. Jeffries moved cautiously in the ring until his ire was aroused whereupon he would create a thunderbolt with one of his fists. The first knockdown was in the second round. Fitzsimmons' withered attack tired him, and in the tenth round Jeffries knocked him down twice. In the next round the Gallornian landed a slipping drive over the champion's head and followed it through with rights and lefts to the jaw. These blows dashed Fitzsimmons and Jeffries sent him down for the full count with a crushing right hand blow to the chin.

## BEAR DOPE COMES OUT OF DEMPSEY'S TRAINING QUARTER

### Press Accounts Tell of Bad Out Over Eye Caused by Sparer's Rugs

ATLANTIC CITY, N. J. (AP)—Sparing partners in Jack Dempsey's training camp will be compelled to wear head gear when boxing is resumed to lessen the danger of re-opening the wound over the champion's left eye, which was split open last Sunday when Larry Williams hit him, trying to evade a punch. Since then Dempsey has done no work with the gloves. Dempsey wears no dressing over the injury. His special great deal of time expending it to the sun to hasten its healing. "I could resume boxing now," Dempsey said today, "no wound is not causing me any pain, but there's no use taking any chances until it is thoroughly healed."

Dempsey, with boxing off the program is concentrating on his famous shift. He stands before a heavy punching bag, first shifting for a right hook and then landing a left. The champion is timing his blows accurately and is hitting sharply and with great force.

## Dempsey's Mother Always Interested in Battles of Ring

### Has History of All Important Championship Fights Committed to Memory

ATLANTIC CITY, N. J. (AP)—Mrs. Cecelia Dempsey, the 51-year-old mother of the world's heavyweight champion, is a newspaper fight fan. Although she never has witnessed a ring battle, nor expressed any desire to see her son in action, she has been an in-

terested reader of glove contests, even before she became the mother of the world's title-holder.

"It's a strange thing, but our mother has been always an ardent reader of fight, even before Jack was born," Bernard Dempsey, Jack's oldest brother, said here today. "She knows more about heavyweight history than either Jack or myself. All of the old clippings of famous fights, no matter how old, are still in her trunk at home. She can give you an account of the Sullivan-Corbett fight as well as any person who sat at the ringside."

Major Dempsey will get her account of the Sullivan-Corbett fight month as the blow-by-blow story trickles off a press wire.

## Brief Bits of Sport

Bill Smiley, sagebrush ace, says: "Time was when all the ash cans were overflowed with all kinds of empty bottles; now a fellow's gotta pay money for one."

Weakening in the last inning is all right if the other fellow weakens more.

St. Kliefner started folding hands with Ole of the Electrics in short stopping last night. Both lads played in superb style.

Riley Miller has reason to congratulate himself for winning the contest against the Electrics. He made the hit that put the winning count on the board.

As the season progresses players learn to demonstrate that condition counts. Errors are fewer and all around play is improving with care.

Henry Leonard and Rocky Kansas

went 15 rounds to the limit the other night; but the champion of the lightweights demonstrated that when he desired he could make Kansas cover up to escape punishment.

From this distance it looks like another bout for the pair, and if they come together there is a sure-enough root in pickle for Rocky.

You can get all kinds of dope from the training camps of Dempsey and Carpentier. All of it tends to cloud the main issue, however.

The Legion and I. D. S. teams will play off a protracted game tonight. The legion defeated the I. D. S. recently, but used an ineligible player.

New York—Ineffective pleading, due to the elimination of Frank Deliver, is responsible for the slugging of major league baseball clubs this year, according to Manager T. S. Speaker of the world's champion Cleveland club.

Jersey City, N. J.—Johnny Buff, American heavyweight boxing champion, and Harry Mansell of England, are opponents in a 12-round, no-decision bout here tonight.

St. Paul—Hilly Miske of St. Paul outpointed Hill Brennan of Chicago in a ten-round no-decision bout last night according to legitimate newspaper critics.

## TWELVE ARMY PLANES TO PATROL OREGON FORESTS

EGEGNE, Ore. (AP)—Twelve United States army airplanes on June 15 will begin their summer task of patrolling the forests of western Oregon to detect and report forest fires. The planes will be stationed at Eugene and

will be commended by Captain Lowell H. Smith.

Co-operation between the army's forest service and the forest service has been assured. The planes will report all fires by wireless to the forest service, which will send fire fighters to the scene.

The planes will make their headquarters at the Eugene municipal aviation field. Other planes will be located at Molokai, Oregon, south of here.

# Supplying Vital Necessities

Probably no other commodities from the beginning of history, not even coal or iron, ever experienced the tremendous demand and competition for their possession as have petroleum and gasoline during the last ten years. Science and invention have made these products well nigh indispensable in the life of the present generation.

The Continental Oil Company is but one of over 15,000 concerns whose combined activities constitute the great petroleum industry of this country. Our policy has always been to supply the needs of the six states which we serve with unfailing dependability and petroleum products of the finest, uniform quality procurable.

These needs are great and call for immense volumes of products. The prices are based on a smaller unit margin of profit than those of almost any other staple commodity. The thoroughness with which this company has undertaken to serve the six intermountain states has called for a great outlay of funds to provide ample storage, transportation and delivery facilities.

This company is not the only one of its kind to operate in the territory which it serves. We honestly believe that the degree to which we have succeeded is but a reflection of the efficiency of our methods and service and the intense loyalty of every member of our organization.

We are augmenting from time to time the number of our own service stations, dealers and force of attendants. We insist upon one flexible and impartial rule of courtesy on the part of every Continental employee toward every Continental customer.

Naturally, we are constantly striving to improve the calibre of our service. Suggestions and constructive criticism from the public are always welcomed and given prompt, official consideration. Our present practice of issuing Conoco Coupon Books for the motorist's convenience was inspired in this way.

BRITISH FORCE POLES TO QUIT SILESIAN TOWN

Insurgents Make Show of Resistance at Rosenberg but Evacuate when Fire is Not Returned

OPPELUNG, (P)—Five thousand Polish insurgents have been driven out of the city of Rosenberg, northeast of here, by British forces, and last night the Poles were reported as retreating in a southeasterly direction.

When the British entered the city, the Poles dropped a few poorly aimed shells behind them, and there was a scattering of rifle shots from the Polish positions. The Poles then picked up their machine guns, which had been set up in a road, and fled.

When the British marched in they found a Polish commander, with 300 men. The commander was directed to leave the city within an hour and to evacuate the district before daylight. The Poles said this was impossible, and he was warned that every insurgent found in Rosenberg at the expiration of an hour would be held for execution.

MAVER OFFERS REJUGES FOR ATTACK ON FRENCH TROOPS

PARIS, (P)—Dr. Mayer, the German ambassador here, called at the foreign office this morning and presented the case of the German government for an attack upon the French troops in Silesia yesterday by the forces of General von Hofer, head of the German Silesian forces in the district.

STRIKE THREAT SENDS WHEAT UP

Rapid Advance in Price Results from Possibility of Railroad Tie-Up

CHICAGO, (P)—Possibility of wide spread labor tie-ups on the railroads July 1 had a good deal to do with a rapid advance today in the price of wheat.

A big falling off in production of wheat this season is shown by the government crop report had made the trade anxious, and then talk of general strike possibilities rent the market.

RAILROAD STRIKE TALK SENDS WHEAT PRICE UP

Market Closes Unsettled, 1-4 to 3 Cents Higher; Flurry Subside after the Shorts Cover

CHICAGO, (P)—Wheat took a decided upward swing in value today as a result of the bullish aspect of the government crop report.

Subsequently, talk of a general railroad strike July 1 gave new impetus to the wheat market.

Corn lacked support. After opening unchanged to 5-8 higher, including July at 52 1/4 to 53 1/4, the market underwent a general decline.

CHICAGO, (P)—Wheat No. 2 red \$1.28 to 1.01 1/4; No. 2 hard \$1.04 1/4. Corn No. 2 mixed 91 to 92c; No. 3 yellow 91 to 91 1/2c.

EXPANSION OF GERMAN TRADE: Some interesting figures are now available regarding the energetic way in which Germany has gone to work to rehabilitate her foreign trade.

By comparison with the period immediately preceding the war, it is seen that the United States is selling more goods to Germany than in 1913. In the nine months ended March 31, 1921, our exports to Germany were valued at \$288,091,978, against imports of \$146,887,434.

sentinal improvement in the government's business methods. Almost a year ago congress sent to President Wilson a budget bill that had been passed in response to insistent public demand.

Another year's appropriations have been drafted and acted on under the old un-economical methods. In the bill now sent to President Harding the comptroller general may be removed by joint resolution of congress, which requires signature by the President to become effective.

Passage of the bill is fulfillment by the Republican congress of a party pledge and will enable introduction of more business into government, as advocated by Mr. Harding.

The emergency tariff bill signed by the President is another measure the benefits of which have been denied the country for months. We may be sure that it will serve well, as designed, to protect American industry.

The complete revision of the tariff, which business already has been taken up, the country will be fortified against a repetition of the blight due to foreign competition that was experienced in 1914 under the operations of virtual free trade provided by the Democratic party.

By comparison with the period immediately preceding the war, it is seen that the United States is selling more goods to Germany than in 1913. In the nine months ended March 31, 1921, our exports to Germany were valued at \$288,091,978, against imports of \$146,887,434.

ted States men are able to teach the doctrine of the benefit of the regime in Russia not only with personal safety but with the aid and encouragement of men holding positions under the government.

It is hoped that some effective measure for the rectification of conditions may result from the widespread attention that has been given by the resignation of the college president at Valparaiso, Ind.

He presided at the annual meeting of the British Industrial Safety association the other day. In his address he drew largely upon his American experience. Slips had been taken here, he said, to ascertain whether it was the hustling, hustling business man who was supposed to shorten his life and see misery by crowding no dawdled through life.

He declared there were men in the United States today 80, 90 and between 90 and 100 years of age who were still in the vigor of their life engaged in business, whereas men who had retired early from business had shortened their lives thereby.

It is thought that the law dawdling was largely instrumental in shortening the lives of individuals in Great Britain—that the more a man worked, whether professionally or in other ways, the more he would enjoy his life and strength and the life and commerce of the country.

SHARK CATCHER WASTES NOTHING

Victoria Man Gives Interesting Sidelights on New Canadian Industry

VICTORIA, (AP)—With the supply of raw material unlimited, an industry new to this country is flourishing at Fisher Island, between Galiano and Mayne islands in the Gulf of Georgia. It is the business of catching sharks, and a week's catch at the beginning of May ran to 80, with an average weight of over a ton each.

for catching them, which works on a screw, comes from the fish and is called cod-liver oil, which is the market of the world, is really shark liver oil, manufactured in Norway.

Nothing is wasted in a shark plant. There is no finer fish meat than that taken from the bodies of the sharks. As a fertilizer it is superior to dog fish. The head of the shark is full of gelatin of a highly valuable quality and the fins are a much prized Chinese food delicacy.

Suggests Reason for Mackerel's Penchant

BRIGHTON, Eng. (AP)—The question why the mackerel in the aquarium here always swims from left to right round the rock in its tank and never varies the direction of its endless journey has puzzled many and even when the question was recently asked at a meeting of the aethi and ichthyology committee no one was able to supply the information.

BUILDING COSTS ARE \$300,764.20

Accountant Makes Detailed Report of Expenditures to the School Contractors

A total sum of \$300,764.20 was expended in construction of school buildings, additions, repairs to school buildings and their general upkeep from July 1, 1919, to January 31, 1921. The cost for architectural supervision, amounting to approximately \$47,500, is not included in these figures.

Many Contractors

Eight contractors participated in the expenditures, these being: Ernest White, general contractor; E. H. Mull, excavating contractor; E. P. Brown, plumbing; C. A. Phillips, installing mechanical equipment for the heating plant at the intermediate school; E. A. Mason, construction of one-room school buildings; American Electric company, wiring and electrical equipment; Holmes Brothers, construction of cement walks and steps.

Scouts to Use Gym

A committee composed of D. D. Alford, Dr. O. H. Caldwell and James McMillan, representing the executive board of the Boy Scouts of America, Twin Falls, presented an oral request for the use of the high school gymnasium four or five evenings each week throughout the summer for the purpose of the Scout camp.

PARISH MEETING CALLED

The semi-annual meeting of the Church of the Assumption parish will be held in Parish hall Monday evening. The pastor, the Rev. Charles Glenn Baird, will discuss the new organization of the Episcopal church in America.

RILEY MILLER'S HARD SMASH SNATCHES VICTORY FROM ASHES OF DEFEAT FOR THE MERCHANTS

Walter-Twirlar Hooks Up with Joe Henefer in a Wicked Pitching Duel with Breaks in Favor of the Former—Winning Tally Rung Up when Henefer Gives Three Hits in a Lone Inning

RILEY MILLER, caterer and expert server of baseball to the hitters for the I. D. S., against the Merchants last night won his game with a sturdy club when he did most good, as damage, according to viewpoint.

Miller's punch came in the last moment of the last inning, the seventh, when, with Hammerath on first base he pulled a single, scoring "Ham" and breaking a 1-1 tie that had existed since the first part of the inning. Miller was a two ply hero, for in addition to scoring the right thing at the right time, he pitched a superb brand of baseball. The game was won, 2, to 1, by the I. D. S.

Game, Worth While

The seventh inning—which is always the last in this league—was an auspicious and momentous one for the contending teams last eve. Each out field had gone along in brilliant style during the six rounds preceding, neither side getting a man across the plate.

Winning the Game

For the Sparks, Gale opened the seventh, grounding out to Boone. Lewis cracked a single over second and Miller, who had been wobbling seriously here, walking Gae, who had singled on his other appearance at the plate. When Catcher Fluke brought down the batter, Henefer, Gae was forced at second, but there were runners on first and third by that time.

THE BASKET

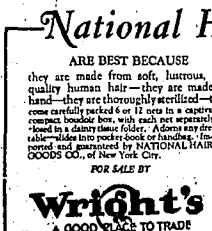

Centerfielder Kennedy, opening the frame, sent a ripping single past third, but was forced out by Boone on a grounder to Henefer. Louphy's solo second and third successively, and was left standing on third when Jarvis captured a short centerfield-fly by Boren. Hammerath, blue socked second basemen for the Merchants gathered his third hit of game, it being the only distance about the I. D. S. registered. The pill shot over Jarvis' head in centerfield, and was associating with the bunched hair debris when it was retrieved. Boone, meanwhile, had counted, and the latter was on third. Riley Miller here herded himself into the hearts of the I. D. fans. He caught one of the Electrician Joe's fast ball.

SUIT PAPERS REMOVED IN OLSEN COURT CASE

Dorothy Olson of Filor Brings Divorce—Action Against—Wilfred Olson

Two divorce actions, a suit on alleged unlawful detainer, and an action for the foreclosure of a mortgage given to secure a promissory note, constituted the chief for suit filings in the district court in the past 24 hours.

Seeking a divorce Mrs. Dorothy Olson has entered action against Wilfred Olson. The papers in the suit were filed by Attorney J. W. Taylor, of Dubuque, and were immediately withdrawn to conceal their charges. It is understood one of the charges preferred in the bill of particulars is cruelty. The plaintiff is a resident of Filor, and an instructor in dramatic art.

Mabel B. Condie alleges desertion and failure to support in her application for divorce from Robert Condie. The pair married in Idaho Falls on September 27, 1917. Defendant is said to have deserted his wife on May 15, 1920.

Charge of unlawful detainer is made by B. J. Bean against D. M. Whitset, doing business under the firm title of The Farmers' Garage and Machine company, against whom judgment for \$240 damages is asked in payment of \$400 for the detained car.

Alvin Hess brings suit against William H. Hess and the Twin Falls Canal company for the foreclosure of a mortgage securing a promissory note for \$500.

SLAGLE TRIAL IS SET FOR THE COMING WEEK

Trial of Edwin L. Slagle, for the murder of G. H. McCullom, will be started in the district court next Tuesday, Judge W. A. Buebeck presiding.

Date for this criminal trial was set down by Judge Buebeck this morning prior to the setting of a motion calendar for the June term of court. W. P. Guthrie has been retained by his defense. Frank L. Stephan will be prosecutor.
