

PROHIBITION IS GIVEN PLACE AS SUICIDE CAUSE

Divorcees - Congested Living Conditions and Dry Law are Credited with Responsibility in Self-destruction

NEW YORK, (AP)—Divorcees, congested living conditions, and enactment of the eighteenth amendment are given as probable causes for the alarming increase in the number of suicides in 1920 according to reports received by officers of the Save-a-Life League with offices in this city. Dr. E. J. Hoffman, statistician of the organization, estimated the number at not less than 12,000. Of these reported cases 707 were children, he said, the boys averaging 15 years, the girls 16.

Gov. Harry Warren, president of the league, also declares that restriction in sale of narcotic drugs helped to swell the total of unfortunates who died by their own hands.

Cites Trivial Causes

Dr. Warren cites many trivial causes as the impelling force for suicide. One man was distressed because his new suit did not have enough buttons on the sleeves of the coat. Another man rebelled at eating a lemon pie his wife had constructed out of turpentine and glucose. A youth killed himself because he was asked to eat ham and eggs for supper. A woman became morose because her husband refused to partake of her clam chowder. A couple disputed over whether the bed room window should be opened an inch or not the night before. The wife's argument prevailed, and the man killed himself.

Many of the suicides reported were among persons individuals, and Dr. Hoffman argues that no one basic reason can be assigned for the suicidal increase.

Dr. Warren believes it is possible to curb the growing number of suicides by making it more difficult for adults and children to obtain fire arms and deadly poisons. He urges that children be definitely restricted as to the sin and futility of taking one's own life.

Copes with Problem

The Save-a-Life league was founded a few years ago to cope with the suicide problem by offering the chance of encouragement. Dr. Warren says, in persons in mental anguish who may be tottering on the brink of self destruction.

Dr. Warren has three methods which he says are of value in reaching individual cases of world weary persons: One is spiritual counsel, another aim is to secure the third timely financial assistance.

The principal thing, he says, is to reach quickly the mentally tortured and advise him to look on the bright side of life. He says he has found it an easy matter to turn such persons to lives of usefulness and profitable service.

NIGHT FLYING MAIL IS PROMISED TO CHEYENNE

General Superintendent of Aerial Post Service Predicts Establishment of Innovation

CHEYENNE, Wyo., (AP)—Probable establishment of night flying in the air mail service between Cheyenne and Chicago and Cheyenne and Omaha July 1 was predicted here when Major E. C. Zoll, general superintendent of the air mail, who was making an inspection tour of the landing fields between the two coasts, visited Cheyenne. At present mail that arrives at either terminal at night fall is carried by rail during the hours of darkness and picked up again by plane the following day.

Major Zoll said he expected the new arrangement would result in the saving of 24 hours in time in the cross-country flight.

WORKERS FOR THE BLIND TO MEET IN ANNUAL SESSION

VINTON, Ia., (AP)—Approximately 400 delegates, representing all parts of Canada and the United States, will be present for the annual convention of the American Association of Workers for the Blind which will be here June 22-28, the committee in charge announced today. Sessions will be in the state college.

Veteran Missionary Returns to Northland

KEETCHIKAN, Alaska, (AP)—Dr. S. Hall Young, veteran-Alaska missionary, who first came to the territory in 1878, passed through Keetchikan recently on a visit to southeastern and southwestern Alaska towns.

There are not built a dozen men living in Alaska today, it is believed, who were here when Dr. Young first came to the territory. When he arrived there were no civil courts or civil authority in the northland.

Back in the early days, Dr. Young was a companion of John Muir in this section. He has written a number of books regarding his adventures in the north.

Every gold camp in the northland, from Klondike to Nome and including Fairbanks and others, was visited, while it was in the making, by Dr. Young.

His work as member of the Presbyterian Board of Missions in charge of operations in Alaska has made him known to nearly every northland from Point Barrow at the corner of the continent, to Keetchikan.

Furniture Makers of France Ask New Style

PARIS, (AP)—A new style in furniture was demanded by representatives of the French furniture industry at the Furniture congress recently held here.

Architects are blamed by the president of the Furniture Makers' association for the continued production of false Louis XV, Louis XVI and other styles of antiques. They design interiors to go with such furniture and naturally the manufacturers have to meet the demand, he says.

The president proposed that the teachers in the fine arts school should begin the campaign for a modern original style by favoring original ideas under the general direction of a committee composed of artists, architects and furniture makers.

He hopes this method will produce an entirely new style that will mark this epoch as did the styles of the two Louis, of the Empire and the Renaissance.

Forecasts Revolution in Printing Industry

LONDON, (AP)—Suggestion that printing from type is likely to be superseded was made by William Gamble at the recent World's Congress of Printers held here in connection with the International Printing and Allied Trades exhibition. Mr. Gamble said that at least three inventors were trying to develop a photographic process to take the place of printing from type.

He predicted that the machine for printing by photographic process would hardly occupy more space than a typewriter and more complicated.

He expressed the opinion that eventually the great printing presses in newspaper offices would give place to recording, swift-running and comparatively noiseless machines which would turn out printed matter with almost the same facility as the moving picture operator reels off his film.

Court Rules Lowered Costs Affect Alimony

LOS ANGELES, Cal., (AP)—Alimony rates for women seeking divorce must bear their proper ratio to reducing costs in other things according to a ruling made here recently in the divorce department of the Los Angeles county superior court.

Clothing and food are costing less, the court ruled, many men are earning less and women who seek alimony must content themselves with the same suited to the new conditions.

The court announced the new ruling with hesitancy, fearing an influx of petitions for reduction in alimony amounts set a year or two ago.

COURT NAMES RECEIVER FOR OKLAHOMA OIL CONCERN

BOSTON, Mass., (AP)—Federal Judge Anderson yesterday ordered the appointment of Daniel A. Shea, former assistant United States attorney, as receiver for the May State Refining company of this city and Tulsa, Okla. The action was taken on petition of the Bitzer-Coaly company of Pittsburgh, which placed the company's assets as \$450,000 and liabilities exclusive of deferred dividends on preferred stock at \$470,000.

INTERNATIONAL COURT PROBLEM FRONTS LEAGUE

Establishment of Permanent Tribunal is Considered Most Important of 25 Questions Presented to Geneva Session

GENEVA, (AP)—The most important single problem that will be considered at the second assembly of the League of Nations called for September 5 is the establishment of the Permanent Court of International Justice.

The statutes of the court which were adopted by the first assembly have now been signed by 33 states and are in process of ratification by members of the league.

While this is regarded as the most important subject, the provisional program of the meeting which has just been distributed to all governments which are members of the league consists of 25 items. Among them are amendments to the covenant, the reduction of armaments, the request of Bolivia for mediation in her dispute with Chili, and the appointment of four non-permanent members of the council.

Reports will be received from technical organizations of the league such as those dealing with the suppression of the opium traffic, the traffic in women and children, communications and transit, international health, registration of treaties, the economic blockade, and the alteration of expropriations of the league.

ITALY COUNTS COST OF INDUSTRIAL DISORDERS

Loss of 55,000,000 Days of Work in Year Figures in Official Report

ROME, (AP)—Italy lost 55,000,000 days of work last year because of strikes, according to figures just published by the ministry of labor. This figure includes labor disorders of every kind—wage disputes, loss occasioned by the occupation of the factories by workmen from last July to September, and disorders in the farming districts.

Wage disputes caused the major part of the loss, with 10,500,000 days. The Communist agitators of last year when the factories were occupied are calculated to have resulted in 10,000,000 lost days. Political strikes and other suspensions not included in the other classes are said to have lost 16,700,000 days.

The textile workers engaged in 212 strikes, the largest number in any trade, throwing out of work nearly 150,000 workmen. The most costly dispute was that of the transportation workers who had 137 strikes, affecting 241,359 workmen and losing 2,923,007 days of work.

FEAR OF BECOMING STALE HAUNTS FRENCH CHALLENGER IN HIS SLEEP

Carpentier Distressed Because of Omnipresent Notion that He May Overtrain for His Fight on July 2—Court Jester as Relaxing Element is Recommended

NEW YORK, (AP)—Fear of overtraining appears to haunt Georges Carpentier and his manager. In his eagerness to be in complete trim when he meets Jack Dempsey on July 2, the French pugilist has, apparently, reached top condition well in advance of the date of combat.

Several close observers of pugilistic conditioning methods have intimated recently that Carpentier was training at too fast a pace for a bout to be held in the early part of July. His open exhibition of bag punching, shadow boxing and body strengthening exercises Thursday appeared to produce an impression of fatigue out of proportion to the amount of physical energy expended.

Among those who watched the workout was Boyd Comstock, former trainer of the University of Southern California track team. Asked regarding his opinion of the exhibition, he said: "In many respects Carpentier is a most remarkable athlete. I should say right now he is mentally set, if not physically so."

"Considered as a whole I would say that Carpentier's bodily development leans toward that of a track athlete or an acrobat rather than a heavy-weight pugilist."

"I was more interested however, in his apparent insanity. Everybody spoke in a whisper and it appeared to have the general aspect of a funeral. If I were handling Carpentier I would insist a court jester and a couple of negro minstrels to live up to the Frenchman. It would be a pity to see him mentally fagged out as Jim Jeffries was on the eve of just such an important contest."

Fighter Says He Has No Intention of Marrying after July 2 Battle

ATLANTIC CITY, N. J., (AP)—Jack Dempsey today is enjoying a full 24-hour rest. The heavyweight champion, becoming weary of the camp routine with boxing off the program, decided to take a day off and mull over to Camden, N. J.

Some one started a report at camp yesterday that Dempsey intended to be married after his July 2 battle and would retire from the ring. He is reported to be in a mood of being getting married. Dempsey said: "I've already arranged for transportation on the first train leaving for the west after the match."

SHARPENED WIT AIDED FITZ IN SHARKEY AFFAIR

Australian Talked New York Sailor into Leaving Openings for Body Blows

HARLIE WHITE, one of the best known of American ring arbiters, told this one on Bob Fitzsimmons, who was a past master in the subtle art of ring politics.

"When Fitzsimmons and Sharkey fought at Coney Island some time after their classic at San Francisco, the sailor, who had improved a great deal in the meanwhile, rushed at Fitz swinging both hands hard, his left knocking to the point of the jaw and crippling the Australian's groin."

"That was a good one, Tom," Fitz gasped.

Bit of Repartee.

"Yes, and here comes another one I'm not as easy on you think," said Sharkey.

"Tom had the best of the round and kept Fitz on the defense throughout. As they started towards their corners Fitz turned with a wink and a grin and said to Tom:

"Just you wait till you see me sink the ship." The ship was a fine, big, full rigged three masted ship that Sharkey had fastened on his enormous chest. In the next round Fitz suddenly exclaimed:

"Ere now, Tom, 'ere goes one for your face." Instantly Sharkey threw up his guard without thinking of a trick, and Bob swung his famous right to the keel of that big blue ship with a thud. The keel was just about on Tom's solar plexus.

Fitz Launches Torpedo.

"The ship reeled, quivered, and slowly sank to the floor with all on board. Tom was a great caller, however, and in a few seconds was up fighting again. Once more Fitz yelled 'Ere's one for your face' and before Sharkey threw up his guard to ward off the intended swing.

"As he did so Fitz shifted and brought in his right to the solar plexus. Sharkey cringed to the canvas and I had to count him out. Fitz was standing over by the ropes, flinging out his hands to the frenzied throng and grinning from ear to ear. As I turned to slip him on the back he said:

"What I meant to say was: 'Ere's one for the ship!'"

JEFFRIES PLAYED WAITING GAME IN SHARKEY CONFLICT

Fitzsimmons' Conqueror Tired Irishman Out, Then Sailed In and Finished Him

Just a few months after James J. Jeffries took the world's championship of pugilism from Bob Fitzsimmons he met Tom Sharkey, of Ireland and won a referee's decision in 25 rounds, November 3, 1899, at Coney Island. The Irishman was groggy when the tussle terminated, but he was still swayed.

Sharkey, brimming with enthusiasm, carried the fight in the early rounds with a fire and vigor that won him great admiration and buoyed up the hopes of his partisans. Jeffries used the same cautious tactics that puzzled Fitzsimmons.

At the fight were on the blows of Sharkey grew less powerful and Jeffries assumed the offensive. Several times Jeffries landed a wallop intended to end the affair, but Sharkey turned a deaf ear to the call of the referee.

Brief Bits of Sport

The Electric on Monday evening will entertain the Legion team in the gloaming at Lincoln field.

Persistent violation and disregard for the cosmic social and political order is what is ailing Russia today.

Persistent violation of the national sport, baseball, will as sure as death and taxes bring death to the Twin Falls Twilight Baseball League.

Hippodroming by one of the team engaged in last night's Twilight encounter disgusted and disappointed the fans, both partisans of the team performing and those of the opposing club.

There is no rule or elastic regulation that permits any team in the Twin Falls Twilight Baseball league or any other league in the country such a juggling of the batting order as the Moose team management pulled off last night.

The league management should know now that such actions are steps toward the absolute disintegration of their organization, and unless such disintegration is desired a stop should immediately be put to this, as well as all other forms of rules' violations.

The company numbers forty people, and the equipment includes Eliza's escape across the ice, ponies and other effects. A band of 20 colored entertainers, singers, musicians and dancers appear in the plantation scenes and helps to lend realism to the play. A street parade will be given daily with band, chariots, floats, dogs and novelties.

Origin of Widow's Caps.

Widows wear caps, says an authority, at the time of the Roman conquest of England, because they shaved their heads as a sign of mourning; as women would not allow shaved to be seen with a bald head, she made herself a pretty cap. Though the necessity for it has long since passed away, the cap still remains. Why do we wear heads on our heads? Because the scandal-like outbreak of olden times was not adapted to horseback riding, and when the high boots were introduced heels were put on for the purpose of giving the foot a good hold on the stirrup.

Her Heartless Conduct.

We read in the World Outlook that Bishop Thoburn was once dictating a letter to a native Indian stenographer. "I am sore over the matter and chagrined," he said. When the stenographer brought back the letter to be signed the bishop was astonished to read: "I am sore over the matter, and she grinned."—Youth's Companion.

Well-Known Tenor Has Little Patience With Singing in Foreign Language Exclusively

Sam Lewis, the prominent Welsh tenor, who is singing for Chautauque audience this year, has little patience with the concert singer who tries to "foist foreign languages on Americans." Mr. Lewis says, "I believe the singing is not far off when American audiences are given a demand for singing in a language they can understand. Personally, I never sing even one group in a foreign tongue unless it is specifically requested."

Mr. Lewis has made rapid strides in the music world of late years. He is appearing this season at the head of his own company. Assisting artists are Arthur Hopkins, leader, Allen Ament, violinist, and Florence Bernay, pianist and accompanist.

TWO MEN MISTAKEN FOR ROBBERS SHOT BY POLICE

Iowa Citizens in Pursuit of Mall Bandits Open Fire on Innocent Taxi-Cab Owner and Lineman

ATLANTIC CITY, Ia., (AP)—A. E. Gould, owner of a taxi cab, and Earl Alexander, a telegraph lineman, were shot and wounded early today near Anita, Ia., by a posse of citizens who mistook them for the robbers who had night stole six pouches of mail after overpowering the night operator at Anita, Ia. Gould and Alexander were returned from Valley Junction in an automobile when arrested by a posse headed by Art Bean, Anita town marshal. When ordered to halt Gould told Alexander to increase his speed, thinking they were about to be held up by robbers, and the shooting followed.

"I'LL WRITE A CHECK"

There's something about the man who pays by check that inspires confidence.

One knows that he has a definite record of his business transactions; that his canceled checks are his receipts and that his check book enables him to travel with small amounts of cash.

If you have never enjoyed the advantages of a checking account, see us.
