

URGES UNITY OF EFFORT AGAINST LOSSES BY FIRE

F. H. Wentworth Tells Credit Men at San Francisco Co-operation in War on Fire Hazards will Cut Waste

SAN FRANCISCO, (AP)—Co-operation by local organizations of citizens to eliminate fire hazards in every municipality was urged as the only effective way of reducing our enormous national waste, an address by F. H. Wentworth, of Boston, at the convention of the National Association of Credit Men here today. Talking as his subject "The Hell Perils of Fire," Wentworth, president of the National Fire Protection association, said in part:

"We have already burned up \$112,000,000 of created resources in the first four months of this year. This leaves us but \$128,000,000 for the remaining eight months to make up our annual cash loss of a quarter of a billion dollars, and there is little doubt that American businessmen will accomplish this shameful objective.

"There are optimists in America who state that we are reducing the fire waste because this average figure of \$200,000,000 represents a slight decline of value. There is little comfort in that academic reflection. The present housing situation is too desperate for us to be so complacent over it.

Fire Means Leaving Town.

"The mayor of a western city of 20,000 people has recently told me that one of his stores should burn its own warehouse to be done for. There is not a vacant shop or shack in the city to hold a new stock of goods. The shortage of dwellings is equally acute. A burned out family has to leave town. Every fire in every other city of the country is bringing it so much nearer to a similar situation. Every fire that swallows an apartment house intensifies an intolerable congestion or turns people into the streets.

"Every fire today is a crime against the whole people. Every fire should not be withheld punishment. Every community today for its own preservation should bring swift legal reprisals against the person who has a preventable fire.

"In Europe a man who has a fire is looked upon as a public offender. In America he is looked upon as an unfortunate. Don't you think that the underwriters pay the loss; that they pay \$250,000,000 a year out of their surplus and capital stock—and remain solvent? The fire waste touches the pocket of every man, woman and child in the nation. Every stock of goods is insured; the insurance is added to the cost of the goods; the cost is borne by the consumer. We pay this insurance concealed in the price of the goods.

Liability for Negligence

"The attorneys general of half a dozen states have given it as their official opinion that under the American common law a man whose negligence causes a fire is liable for fire damage to his neighbors' houses; but nobody thinks of bringing suit. The habit of mind that the insurance company pays the loss is too strong. But in the personal liability idea of the French resides a companion thought that is reminding the American brain—the idea of imposing a charge for the use of the fire department upon the man who disregards a fire prevention order.

"Fire departments are not maintained to protect a man from the results of his negligence, and when he calls upon the city in any such case he should be made to pay for the service.

"Considering the American psychology, an amazing success has been achieved in the last few years in gaining the recognition of this principle. Already it has been written into the charter of the city of Greater New York, the state law of Pennsylvania and the city ordinances of Cleveland and Cincinnati, O.; Portland, Ore.; Billings, Mont.; Austin, Tex.; and Newark, N. J.

Fire Losses Increased

"But with all this progress on record the fire losses in America in 1920 were \$211,000,000—eight million more than for the average year.

"There are men and women in every

CINCINNATI HOSPITAL IS REGARDED AS MODEL

Conveniences Make It Almost a Pleasure to Be Ill in the Ohio City

CINCINNATI, (AP)—That it is almost a pleasure to be ill in Cincinnati is asserted in all testimonials by those who have in mind the blessings of the new general hospital which the city of Cincinnati has erected on the summit of one of its highest hills.

Today, after several years of occupancy, it is still the object of visiting physicians and surgeons from all parts of the world, who acclaim it the last available in modern hospital construction and marvel that the enterprise of a single citizen, the late Dr. C. J. Holmes, could move a municipality the size of Cincinnati to expend some \$25,000,000 on a project so purely altruistic.

"When a patient enters the general hospital, his clothes are disinfected, cleaned, mended, pressed and hung in a cupboard devoted to their care in his ward. He finds a sun parlor and a roof garden. He drinks water that is filtered on the premises and cooled with ice manufactured on the grounds. Not only the patient, however, but the physician and surgeons, the internes, the nurses, the coroner, morticians and clergy, all find the same attention devoted to their needs in quarters eloquently fitted for each special purpose. In addition, the University of Cincinnati, with which the hospital is affiliated, maintains two major clinics as part of the hospital.

ROTARY SESSION NAMES AMERICANS FOR OFFICES

Pennsylvania, Iowa and Texas - Men Vice-Presidents of Association

EDINBURGH, Scotland, (AP)—Three Americans were elected vice presidents of the International Association of Rotary Clubs in the concluding session of the convention here yesterday. Ralph W. Cummings of Lancaster, Pa., was elected first vice president; Billy Coppock of Council Bluffs, Iowa, second vice president, and E. J. Luther Stark of Orange, Texas, third vice president.

(Dr. Crawford C. McCullough of Fort Williams, Ont., was unanimously elected president of the association on Wednesday.)

The trophy for the club with the best traveling record was secured by Longmont, Colo. Wichita, Kan., was second, and Worcester, Mass., third, while San Francisco secured the women's attendance trophy. The international gold trophy was won by the United Kingdom.

Recommends Chamberlain's Tablets

"Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle of them along with him. Whenever I have that heavy feeling after eating, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Vreeland, Milon, N. Y. Take these tablets when troubled with constipation or indigestion and they will do you good—adv.

Charges 568 Murders to "Rebels" of Erin

LONDON, (AP)—Murders by "rebels" in Ireland since July, 1920, have totaled 568, according to Greenoch, chief secretary for Ireland, stated in the house of commons Thursday. The number of crown forces convicted of the murder in the same period, he added, was 25. "The military force, the Royal Irish Constabulary, 1, and the police auxiliaries 1, the last named man being found to be insane.

Admiral Coontz, chief of naval operations, will accompany the party. On the return trip the officials will tour the Gulf coast.

FIRE FIGHTER PREFERS YOUNG MEN AS RECRUITS

Boys from 13 to 17 Years are Enrolled in Training Course Instituted in New Hampshire City

PORTSMOUTH, N. H., (AP)—"Catch your fire-fighter while young" is the motto of William F. Wood, chief of police of the Portsmouth fire department, who has instituted a plan which promises to develop a good crop of recruits for the force within a few years. After consultation with state and city fire department and educational officials he has set up a fire-training school for boys.

The first company has been formed, composed of fifteen boys ranging from 13 to 17 years, who have been permitted to choose a captain and a lieutenant. In addition to regular periods of instruction at the fire stations the boys have been made regular "call firemen." They will not be used on fire in buildings, but will respond to all calls for help on grass, brush and woodland fires. The school authorities have agreed to release them instantly from their studies whenever an alarm for a fire of this character is sounded.

ARMAMENT CUTS MAKE FOR UNITY AMONG NATIONS

London Times Takes Optimistic View of Plan for Working Anglo-American Understanding of World Scope.

LONDON, (AP)—In a lengthy, double spaced editorial, the London Times this morning discussed a dispatch from its Washington correspondent interpreting the attitude of the British government, and American opinion, on the general aspects of a plan for a working Anglo-American understanding of world-wide scope, particularly on disarmament.

Older News Obstacles.
The correspondent declared, in substance, that, while Ireland and the apparent unwillingness of this country to apply the principle of equal opportunities in mandated territories were the chief obstacles to a working arrangement between the United States and Great Britain, the first step to that end might be made in an agreement to limit expenditures on armaments. The dispatch suggested the initiative in reaching such an agreement might come from the British side.

Commends Limitation.
The editorial, referring to the correspondent's suggestion that the coming imperial conference should result in an announcement of the willingness of the British empire to agree to naval disarmament, commended the idea that the plan for limitation be determined by a financial formula. It declared that, while Great Britain eagerly reciprocates the desire for an agreement, it must be conditioned to circumstances in which this country stands

"Obligations of honor, as well as vital interests relative to the maintenance and consolidation of our relations with France on the basis of the 'Versailles treaty' the newspaper asserted, 'are essential parts of our world policy.'"
The newspaper declared, in discussing the address of Charles E. Hughes, American secretary of state at Washington, R. L. June 15, that there should be no discrimination in favor of nationals of any country.

While the declaration that Great Britain should without delay settle the Irish question, the editorial, concluded by saying: "Those who wish Ireland to remain cannot make a worse mistake than to ignore the Irish question, even by implication, an international problem."

LORD CURZON CONFERS WITH FRENCH PREMIER

British Foreign Minister in Paris for Discussion of Big Problems

PARIS, (AP)—Lord Curzon, British secretary of state for foreign affairs, arrived here today to confer with Premier Briand relative to problems possibly including reparations and Silesia, facing France and Great Britain. Great interest was taken in his visit to Paris, in view of recent reports that Prime Minister Lloyd George had decided to confine his attention to home politics, leaving foreign affairs to Lord Curzon.

In arranging for his visit of 48 hours to see M. Briand, Lord Curzon specified the Near Eastern situation as his dominant object.

M. Briand is understood to be inclined to discuss on this occasion the question of an alliance with Great Britain, even though Lord Curzon should not be subject, it is said, the does not intend going in view of the present unfavorable attitude of French public opinion, and also until it is seen whether the British-Japanese alliance is renewed.

FATALITIES RESULT IN MEXICAN SOVIET CLASH

Two Persons Killed and Four Wounded in Fighting in Michoacan State

MEXICO CITY, (AP)—Two persons were killed and four wounded during a Mexican-Soviet clash in the eastern part of the state of Michoacan yesterday. The clash was caused by a dispute between the factions over the ownership of a hill midway between the two towns of Buanaco and Villa Guadalupe. The two persons were near the hill yesterday and a verbal dispute fell upon each other with their fists, clubs and guns.

Soviet elements in the village of Chilichila, in the same state, attempted yesterday to take over municipal authority, but federal troops arrived in time to suppress the uprising.

POINCARÉ IS CAUTIOUS ABOUT BRITISH ALLIANCE

Former President of France Warns Against International Entanglements.

PARIS, (AP)—Raymond, Poincaré, former president of France, writing in the Revue des Deux Mondes concerning the alliance between France and Great Britain, which has been discussed in political circles for the past few weeks, says:

"Such an alliance which might have the greatest consequences at some future date, and upon which some day war or peace might hang, can only be definitely decided upon after mature reflection."

"We are friends of Japan but England is the ally of the Mikado's government. Tomorrow a thousand questions may arise in the Pacific between the United States and Japan, which would intensify racial strife."

"How far would England be drawn in by her alliance? Nobody can say. It is then, our duty to preserve our liberty, as not to be ourselves involved in entanglements."

DEBS GRATEFUL FOR LABOR AID

Mrs. Lucy Robbins Conveys Socialist Leader's Thanks to Denver Convention

DENVER, Colo., (AP)—A special committee of five to investigate unemployment and possible congressional relief was authorized today by the convention of the American Federation of Labor.

The resolution declared that "congress should be urged to appropriate in peace times for necessary public works and when a panic develops, there would be work for the unemployed."

Mrs. Robbins Reports.
Mrs. Lucy Robbins of New York, secretary of the Central Labor body conference, which has been making efforts to get amnesty for prisoners held under war-time laws, described conference members labor leaders and government officials.

She said refusal of President Wilson to pardon Eugene V. Debs was due to the fact that the committee was unable to get a personal interview with the president.

"A remnant of political prisoners remains," Mrs. Robbins said, declaring that credits in the release of those already given freedom was largely due to the efforts of the American Federation of Labor.

Ready Debs Letter.
She read a letter from Debs thanking President Coolidge and his administration for their efforts to obtain the release of Debs, and the release of other political prisoners. Debs declared that they had done everything possible under the law for the struggle for the greater triumph.

HARDING UNLIKELY TO DIVULGE PEACE PLANS

Pro-League Editor's Letter Fails to Draw Reply from White House

WASHINGTON, D. C., (AP)—Hamilton Holt's letter calling on President Harding to disclose his plans for an association of nations and to reduce the income tax failed to draw any reply from the administration and indicated that no reply will be made, at least in the present.

Mr. Holt headed the pro-league reply in the letter, but will not enter into any detailed discussion, and that so far as the administration is concerned the association plan must remain for the present in an indefinite status, as the administration prefers first a definite settlement of peace and a restoration of stable conditions in Europe.

Some persons in the confidence of the administration said today that progress of a preliminary character on plans for the proposed association had been made.

The draft of an association plan prepared by the president's request is understood to be constructed about the principle of a world court and an international conference for the discussion of questions likely to lead to war.

PHILIPPINE GOVERNMENT IS FACING BANKRUPTCY

General Wood and Governor Forbes Urge Lifting Indebtedness Limit

WASHINGTON, D. C., (AP)—The Philippine government is facing bankruptcy, Major General Leonard Wood and former Governor General Forbes declared in a cablegram transmitted today to congress by Secretary Weeks, who asked immediate action on a bill authorizing the island government to increase the limit of indebtedness from fifteen million dollars to thirty million dollars.

General Wood and Mr. Forbes, who are two of the leading members of the board for President Harding, said the island bank with which the island government, provinces and municipalities are required to deposit all funds, was "practically insolvent."

MEXICANS DENY REPORTS OF DEPLETED OIL FIELDS

Government Departments Make Public Figures Showing Constantly Increasing Production

MEXICO CITY, (AP)—Reports of the depletion of Mexican oil fields were described as "absurd and unfounded" last night by the treasurer and commerce and industry departments of the Mexican government, who made public figures showing that since 1901

production of oil in Mexico has constantly increased, and stated that it was estimated the total output for the present year would be more than two hundred and sixty million barrels. The total amount of crude petroleum output in Mexico at the end of 1920 was estimated at 8,828,030 barrels. The production for the first months of the present year was given as follows: January 18, 240,021; February 15, 303,864; March, 17,841,887; April 18,614,700; May, approximately nineteen million.

PLAYERS WOULD MAKE NEW YORK DRAMATIC PIVOT

Plans to Assemble More Than 1,000 of Best Known Theatricals in Select Performances Inaugurated in Gotham

NEW YORK, (AP)—A plan that is proposed to make this city a center of the dramatic activities of the world by bringing more than 1,000 of the best known members of the profession together in select performances covering the cycle of dramatic art, has been inaugurated here.

The project, which already has passed through initial organization steps, proposes an Equity festival week, in June, 1922, an American prototype of the famous Stratford-on-Avon festival which attracts thousands of theater lovers back to England every spring. Announcement of the festival was made by the Actors' Equity association, which is sponsoring the movement.

This event is expected to exceed by far the English festival. Whereas at Stratford only Shakespearean drama is produced, the American festival will produce the best plays of every country and age with casts which would hark back to the manager over a hundred years of the profession. The eight performances will cover the dramatic field from Euripides to Shaw.

"The festival will be the bicentennial week of the theatrical season," Frank Gillmore, executive secretary of the Equity association said. "It is not our desire to compete with any manager, but rather to help him make his theater bigger and better by awakening the public imagination.

Each week will include three plays which will include the best plays of all nations and periods. Willmore, Calderon, Sheridan, Plinco, Racine, Aristophanes, Beaumont and Fletcher, Rosalind, Marlow and so forth. We should give one of great musical comedies, one performance of dancing, and pantomime art and the finest example of the playlet art made during the year. We can also consider one performance of classical one-act plays.

"Already we are compiling lists of equity members who will be free at this time of the year. They will receive their parts early in the coming season so that they may have plenty of time to study them."

It was pointed out that no one festival week could hope to cover more than a fraction of the work to be done, but in the course of time all the best examples of dramatic art will be produced. All of Shakespeare's plays are to be included, at the rate of three or four, for it is intended to make the festival an annual event.

HOLT CALLS FOR HARDING TERMS

Pro-League Editor Demands a Statement Relative to the World Association

NEW YORK, (AP)—Hamilton Holt, magazine editor, who headed the delegation of pro-league republicans, that called on former President Wilson during the last presidential campaign, to give made public a letter he had written President Harding asking him to explain to the American people the terms of the Harding association proposed to supplant the Wilson league of nations.

"If you delay much further, people everywhere will inevitably conclude that you have no concrete plan at all, or else that you propose to put party harmony above world welfare," said Mr. Holt. "In that event, there will be nothing left for those who want peace to do but to fight for it, and to stabilize the world but to organize the country so as to capture congress for the league in 1922 and the presidency in 1923."

Holt asserted, could be done. He declared that the league of nations and holocaust were the only great ideas that had come out of the war, and that the president who had signed the league would be held responsible for the world which he had no plan at all for the substitute of the league.

AVERAGE INTELLIGENCE OF CONVICTS IS HIGH
Investigator Tells Cleveland Medico-Folkers Excel Ordinary Run of Prisoners in Mental Capabilities

CLEVELAND, O., (AP)—Convicts in penitentiaries show a higher average of intelligence than the general population, Dr. Herman Adler, of the Cleveland Foundation's justice survey, told members of the Cleveland Academy of Medicine at a recent meeting. Reporters, whom he returned to the penitentiary time after time, show a higher average of intelligence than those who learn of intones the first time, Dr. Adler said.

Criminals who are caught and convicted are not necessarily those least intelligent, but those with an antagonizing personality, Dr. Adler explained. An engaging personality is the most frequent cause of miscarriage of justice, he added. Ten million people in the United States are classed as feeble minded, that is, they would be confined if brought into court or a mental clinic, he said.

These conclusions were derived from a tabulation of mental tests of 1,700,000 men in the draft army, and 1,000 convicts in the Illinois state penitentiary. The latter tests were confirmed by examination of selected groups picked according to military qualifications before the tests were made.

Wild Horses Roam No More
Somewhere in the isolated mountain canyons of the West towns are found of running loose, but while these might be tamed, they usually belong to some rancher who has let them run loose. Wild horses are frequent in various parts of Arizona and occasionally are found in Utah. But the old wild horse herds of the mountain plateau regions have gone, probably forever.

Today's Markets

WHEAT PRICE MAKES GAIN

Export sales and the disappointing threatening returns boost quotations

CHICAGO, (AP)—Hot weather and reports of consequent damage to crops in some localities had a bullish effect on the wheat market today. Offerings were light until prices had advanced an advance of 5c in some cases. Then sellers became more numerous, and the prices began to sag. Opening quotations, which ranged from 3 1/2 to 3 3/4, generally advanced to 4 1/2 to 4 3/4 by 10:30 a. m. and September 1 1/2 to 1 3/4, were followed by a material reaction from initial, top figures.

Export sales of 750,000 bushels, disappointing thrashing returns from Missouri and forecasts that the hot wave would continue several days led to a rise later. The close was unsettled, 3 1/2 to 3 3/4, 1 1/2 to 1 3/4, and September 1 1/2 to 1 3/4, 1 1/2 to 1 3/4.

Corn and oats were stronger with wheat. Corn after opening 3 1/2 to 2 5/8, and oats 1 1/2 to 1 1/4, both higher, with July 1 1/2 to 1 1/4, 1 1/2 to 1 1/4, and September 1 1/2 to 1 1/4, 1 1/2 to 1 1/4.

Subsequently apprehension of a drought scare was a handicap on the wheat. The close was strong, 2 3/8 to 2 1/2, and September 55 5/8 to 55 1/8.

Oats started 3 1/2 to 1 5/8, up September 40 to 40 1/2, and a little more, and then reacted somewhat. Provisions, although dull, were firmer, reflecting the upward tendency of grain and hogs.

Cash Quotations
CHICAGO, (AP)—Wheat No. 2 red 4 1/2 to 4 3/4; No. 2 hard 4 1/8 to 1 1/4; No. 2 mixed 63 1/2 to 64; No. 2 yellow 63 3/4 to 64 1/2.

New York Stock Market
NEW YORK, (AP)—Selling for both accounts was renewed in today's stock market. Extreme losses of 1 to 5 points in popular issues involved many low records. Sales approximately 7,000,000 shares.

The proposed stock dividend on Louisville and Nashville and the fifty other stocks.

per cent reduction in the Crucible Steel dividend were reflected in the regular trend of prices at the opening of today's stock market. Louisville and Nashville rose 2 points and Crucible Steel fell 2 1/4 points. Within the first half hour, however, the market again lapsed into its recent weak condition, Atlantic Gulf common and preferred were especially weak losing 1 1/2 to 2 points at low record. New York Air Brake, Harvester, Petroleum, Sumatra Tobacco and American Western showed losses of 1 to 1 1/2 points. A few trifling gains among sugars and related specialties soon were cancelled.

Chicago and Ohio lost 2 points on further postponement of dividend payment, other falls falling 1 to 2 points. Among oils, steels and motors rallies of 1 to 4 points accompanied extensive short covering. The closing was irregular.

ROD AND LINE EXPERTS WILL PROTECT FISH

State Commissioner Aids in the Preliminary Toward Forming Permanent Club

Designed for the protection of fish in the brooks and other streams coursing throughout this district, and for the development of rod and line art, a movement was set on foot last evening by local rod and gun men for the formation of a permanent club composed of Twin Falls people. A preliminary meeting was held in the office of the county treasurer, the courthouse, with C. B. Chaffee seated as temporary chairman. E. B. Dooley was made secretary of the meeting.

The convention was called at the instance of George H. Isaac, state fish commissioner, who is making a tour of the southern section of this state in the interest of fish protection through the organization of protective clubs. Mr. Isaac left today for Burley where he will make an attempt to interest rod men in his enterprise.

Approximately 50 men were present at last night's meeting, practically all of these signing pledges to become active members of the proposed permanent organization. The committee appointed a committee on membership; this committee is to be prepared to report on its activities at a meeting soon to be called to make the organization a permanent affair. On the committee are: Jack Shroul, Charles Jones, John R. Taylor, Sidney Craig.

Mr. Isaac assured those attending last night's session that as soon as flood waters have receded in Rock creek that stream will be stocked with rainbow trout fingerlings. He announced, too, that the dam has been completed for the stocking of the Salmon reservoir with bass and perch. A supply of trout fry was planted in Rock Creek some weeks ago, Mr. Isaac said.

DEMURRER IS FILED.
In lieu of their client attorneys for A. D. Pollock, accused by the state of embezzlement from the bank of Hannan, appeared before Judge W. A. Babcock in the district court with a demurrer to the complaint filed by the prosecuting attorney. The demurrer declares the charges contained in the information do not constitute an offense. Pollock was scheduled to enter a plea to the charge today.

SEBBS FORECLOSURE.
The sum of \$12,800 is involved in a foreclosure action filed in the district court by Crawford Moore against J. D. Adahall, his wife, Stella, and others. The plaintiff acts in this case as trustee for the First National bank of Idaho. A mortgage was given to the bank; it is averred in the complaint, as security for a note of hand.

BANK BRINGS SUIT.
The First National bank of Idaho has instituted proceedings in the local district court against J. A. Howard, Maggie Howard, his wife, and others for judgment in the principal sum of \$1,000. The suit is based on a promissory note, it is alleged. Foreclosure of a chattel mortgage is asked.

BUSINESS MEN TO HEAR PLAN FOR ADVERTISING

Immigration Commissioner and Dr. Fisher to Attend Meeting Here Tuesday

A program of publicity for the state of Idaho is to be considered in detail at a meeting of business men to be held in connection with a chamber of commerce luncheon at the Hotel Regency, and will be attended by U. H. Barber, state commissioner of immigration, and Dr. Alan Fisher of Boise. Invitations are being sent to all business men to attend this luncheon and business meeting.

The plan devised by Commissioner Barber involves a study of advertising features throughout the east covering a period of five years. The advertising will be done largely by the medium of moving pictures and lectures. At next Tuesday's session, a complete explanation of the plan, its cost and its probable results will be outlined by both the commissioner and Dr. Fisher.

Perilous "Spout"
What is the world's most dangerous spout? Mounts climbing takes many the victims, but descending into the crevices of volcanoes beats it. The present activity of Vesuvius calls attention to it. The descent must be made in fireproof clothes and gas mask. The air is full of stinging fumes and there is always the sporting chance that the volcano may start erupting. The floor of an active volcano is usually semi-liquid. Paris are solid enough to stand upon, others are liquid rock.

Pinky Tribe in Cold Weather.
ATLASH do not hibernate during the winter. Some species find holes in holes or beneath rocks and roots and get along very well without food during the cold weather, but they are not torpid like the bears and groundhogs that hibernate. FIFTEEN YEARS AGO IN TWIN FALLS

Several sets of gravel, cement and lumber have been unloaded... The building will be 110x24 feet.

Mrs. Nellie O'Neill and Miss Jennie Burlison of Salt Lake City are the guests of Mr. and Mrs. W. S. Oakley.

The Twin Falls Homestead of the Brotherhood of American Yeomen will be installed Saturday, June 19, at schoolroom D, with an initial strength of \$25,000.

John Erickson has returned from Duluth where he went as a delegate from Twin Falls lodge No. 46, to the grand lodge meeting of the Knights of Pythias.

John Erickson has sold his alfalfa and stands in the field for \$60 an acre. The purchaser will irrigate and cut the alfalfa. This year's crops will pay for Mr. Erickson's land and water rights.

President Paris of the Academy of Idaho spent several days in Twin Falls this week and greatly enjoyed his visit. The appearance of the tract sold Mr. Paris, was so grand that he could hardly believe it.

Miss Ester Hartledge, daughter of Mr. and Mrs. E. H. Hartledge and Herbert S. Martin were married at the home of the bride early Monday morning by Rev. John Gousley, the Presby. pastor.

The Booth Dry Goods Co. has moved into their new quarters in the Boyd building. Mr. Booth displayed excellent taste in selecting his fittings and furniture following the substantial and artistic mission style throughout.

SEATTLE, Wash., (AP)—Now the Seattle club of the Pacific Coast baseball league, which is to be called the Indians, instead of the Rainiers or the Bombers...

Recently a committee named by the club owners went over a thousand or more names for the new club, finally settling on the name "Indians" and all will be given free tickets to games.

The new name, its claimed, is typical of the rugged Sound country, especially as this city was named after old Chief Seattle, an Indian leader of the early days.

RIVAL TWIN DIFFER EVERY POSSIBLE WAY

Carpenter Loves Quiet Woods; Champion Strong for Mob and Glamor

By RAY PEARSON.

WHERE in the world have we met across a couple of fighting men so different in temperament as Jack Dempsey, the world's heavyweight champion, and George Carpentier, the European champion, who enter the ring for battle at Jersey City on the afternoon of July 2. There is nothing in common between them, except the business of punching, or rather the profession they have chosen for the glory and money to be gained from it.

George Carpentier does not think in the same channels as Dempsey. His acts are not those of Dempsey and in every respect his preferences are radically different. We have watched Carpentier for a couple of weeks in his training camp at Manhasset, L. I.; we have talked with him, sometimes through his interpreter, and without, when Georges speaks the scant babble of American language he has learned.

Comparisons impossible.

We have known Dempsey for a long time and viewed the acquaintance at Atlantic City and one might as well jump into the ocean as to try to make comparisons of the two big men.

We are forced to think that this Frenchman is rather different from that which is normal in pugilism. He is not a fighting man by nature, if we may judge by what we have seen of him and by conversation with him. He is a bit too finely built mentally, for those who boast familiar knowledge with the game will tell you that his training camp on Long Island is a quiet, unexciting place. He is a quiet but pleasant sort of person, not given to boastfulness, and he really is the most quiet pugilist in his training camp on Long Island. He watches the squirrels scamper about the ground and the rabbits speckle it through the brush.

That's what Carpentier is fond of doing, and it can truthfully be said that in the woods which surround the camp at Manhasset he finds the happiest hours of his days.

Jazz Records Busted Away.

But art is another of his hobbies and it runs in musical channels. There is a victrola in the camp and like most homes, there are plenty of jazz melodies. But in this American jazz there is no melody for Georges. He doesn't care for it. He wants something more classical and Decapauze, his manager, has seen to it that the jazz has been bundled away in a corner and opera substituted for the "hot" melodies.

Now take Jack Dempsey and we find that the world's champion is probably the best example of the ideal fighting man that the ring ever has produced. Big, bumpy, almost always cheerful, his construction is that of a man who finds genuine pleasure in tearing loose in the ring and does it with the circumstances of a natural fighting man. The plunk of those padded gloves is music to his ears.

While Carpentier loves the more genteel and that occasionally the more genteel life, it never would do for Jack. He must have the rough, tough play or he would pine away.

Quite different. It is to laugh.

The never could stroll through the woods of Manhasset, or any other place, listening to the birds and enjoy-

ing happiness out of the silence. No, boys; not at all. His place is in the crowd, with the noise and that sort of thing, and the louder the noise, the more contented is Jack Dempsey.

Talking about music gives a line on the facility of trying to make comparisons of these two fighters. Dempsey also has a victrola. There are a few pieces of opera in the collection of records, but a count will show that the noisy jazz music has the call by a big majority. Jack wants jazz for breakfast, jazz for dinner, and jazz for supper, and he gets it. They quit love out the classical stuff as far as he is concerned.

Becomes Boardwalk Fan.

Anything that makes for seclusion at Airport, Jack's Atlantic City training camp, isn't wanted by Dempsey. Anything is welcome. But that isn't all. The champion of them all often strolls into the boardwalk section of the Jersey resort in the evenings. The crowd is there, and it calls to the champ.

At Manhasset, it is just the opposite. Carpentier has no desire to be bothered by crowds and doesn't travel into New York to mingle with the Jan.

No, brother; Jack Dempsey is one fellow, and George Carpentier is another. They don't look the same, and in temperament they are no more alike.

Choice of Third Man for Big Tilt Deferred a While

Promoter Rickard Requests Postponement of Selection for a Few Days

JERSEY CITY, N. J., (AP)—The selection of a referee for the Dempsey-Carpenter match to be held here July 2 was indefinitely postponed at a meeting of the New Jersey boxing commission yesterday. While no date was set for further consideration, Secretary Cassidy of the commission stated that the third man in the ring might be named next Monday.

The postponement was made at the request of Promoter Tex Rickard, who said he had vital interests at stake and desired additional time before the commission made its decision.

J. L.'s Old Rubber Sees Carpenter 'Sho' Debbil Man'

Uncle Matthew Framingham Living son Smith, who in the "good old days" was a musician in John L. Sullivan's camp, has seen Georges Carpentier and says he "sho' is a debbil man."

While walked all the way from Port Washington, L. I., to Manhasset to get a peek at the challenger. The old dicker, who claims to have known all the fighters of the bare knuckle days, now is employed by a wealthy resident out of the section as a musician for saddle horses.

This was his verdict:

"You just bet your socks this young fellow 'no' first. Some folk says Carpentier ain't in no condition, but you can tell 'em that your Uncle Matt knows diff'unt 'n' 'deed he do."

Brief Bits of Sport

The Cleburne club of the Texas Oklahoma league has been re-financed and changes made in the team. Pete Dillon is the new manager. Cleburne had had broke, its park being visited by a fire just before the season opened, but the fans are a game lot and have put up a total of \$10,000 in cash to finance their club through the season.

Occasionally there is an outbreak of the old time pitching. Two night contests were turned in by minor league twitters that week when John Wesley of Atlanta southpawed as well against Memphis that the league legend Chickie could not get a safe ball. The other was by Winner of Brantford against Sagawin, in the Michigan-Ontario league.

After making a good showing in the city training with the 1921 baseball Western Canada team down in Florida, Alvin Stupin, third baseman, was not allowed to enter Canada because of some immigration regulation. Stupin was born in Russia, though he is not to blame for that. He is said to be one of the best prospects turned out on the Los Angeles lot.

Buddy Berza, former Texas and Southern league player; Bud Brunet, under contract to New Orleans; Chet Turkelson, New Orleans pitcher; and Nick Brunel, a semi-pro player of New Orleans, were victims of an automobile accident on May 23 near New Orleans in which Berza and Bud Brunet were severely injured. They are, however, expected to recover.

Oglethorpe university, at Atlanta, is testing several of its 1921 baseball team over to professional clubs. Three players joined teams in the Georgia State league. They are Roy Carlisle, captain and center fielder, who Oxford, 428 Main N.

The almost peers of the colleges are shocked by another Vergon Pairs case. The player involved this time is Ellis Hager, Gre Pennsylvania State college, where he was captain of the ball team. The other day he was turned in for having played professional ball in the Virginia league two or three years ago under the name of Hinkley. He resigned the team captaincy at Penn and is in disgrace.

Paul-Andre Gobert, N. Y. Laurcut, Jean Sauerzull, J. Brugnon and Mike Suzanne Lengua have been definitely chosen as the French tennis team to take to the United States this summer. It was announced today. This team, which will sail July 23, or at least the male members, will be in Japan there in the Davis cup preliminary matches. Mike Lengua will play in the national championship for women.

Missus-pud-Eddie McGoorty of Oakland, Wis., and Mike Gibbons of St. Paul, Middleweights, will meet in a ten-round no-decision boxing bout here tonight. In preliminary Everett McGoorty, former amateur state champion of America, will make his debut as a professional boxer in a six-round bout with Barney Dugan of Minneapolis.

Poughkeepsie, N. Y.—Intercollegiate athletics for women's colleges were strenuously opposed here yesterday by elder graduates of Vassar although debating contests with other institutions were generally approved.

New York—Purchase of the 3-year-old bay colt Kinoble by Harry F. Sinclair from the Quinby stables, was announced today. The price was said to be \$25,000.

TWIN FALLS IS CHARGED TO GET INTO CONFLICT

Mayor Meeting of Boise A-ttends Sherman on Fight Against Rate Raise

Attended by Mayor Frederick Sherman of Boise, and Herman C. Henrico, a civil engineer of Kansas City, a member of the board of directors and members of the Twin Falls Chamber of Commerce, with Mayor J. W. McRoberts and members of the city council, were held last night in the chamber of commerce rooms for the purpose of discussing features of interest connected with the physical valuation statement of the Idaho Power company with the state engineering department in connection with an expected application for a raise in rates for illumination and power energy.

Mayor Sherman explained that Engineer Henrico has made some preliminary surveys of power company holdings and properties in the past week or two, and stated that his surveys have resulted in findings which warrant the assumption that the company's claimed valuation of \$25,000,000 is excessive. The statement was made last night in the chamber of commerce, where for the purpose of reducing the valuation to something like \$10,000,000. On this amount the rates in the future, it was explained, would be based, not on the amount named by the company in its inventory, it is stated. Mayor Sherman showed that the company is permitted to assess rates on a basis of 3 percent of its property valuation.

The visit of Mayor Sherman and Engineer Henrico was made in an effort to bring Twin Falls into the organization and communities in southern Idaho into the organization, recently completed at a meeting of state mayors in Boise, for the purpose of making a list of company property by city, town and communities in the power company. Engineer Henrico has already been employed by the organization to make a list of all company properties and plants. His findings will be submitted at a general meeting to be held in Boise on June 20. Mayor Sherman went to Bull Trough to hold a meeting in the afternoon at that community in the fight. The engineer is in American Falls.

ROTARIANS OPPOSED TO APPEARANCE OF O'HARE

Civic Body Supports Protest of Former World War Soldiers Against Address

Sustaining Twin Falls post, No. 7, of the American Legion, in response against the proposed to bring Kate Richards O'Hare to Twin Falls to lecture the Twin Falls Rotary club, at its regular meeting. The club members are drafting protesting resolutions, and selected a committee to draw these as a part of the proceedings and records of the club. The resolutions read: WHEREAS, it has come to the attention of the Twin Falls Rotary club that an effort is being made to bring to Twin Falls for the purpose of giving a lecture or address, one Kate Richards O'Hare; and WHEREAS, it is the profound conviction that no permanent good can result from such lecture or address, given to one of such general reputation; therefore BE IT RESOLVED, That the Twin Falls Rotary club unqualifiedly disapproves of any effort to bring to this community the woman herein mentioned—Kate Richards O'Hare.

frequently in his room; that on at least one occasion she saw Mrs. Meyer alone with Mr. Meyer in his work. Asked to fix the time she says Mrs. Meyer alone with her husband, witness said that she had no record from which she could ascertain the date, but that to the best of her recollection, it was on or about the day previous to his death. She adhered to this statement at cross-examination, which was brief.

Sought Cadillac Car.

D. P. Magel, lead witness in the hearing, identified a paper submitted to him by Prosecutor Stepan as a contract entered into by the purchaser with him for the purchase of a Cadillac car. The contract was dated August 16, 1920, on the sixth day following her marriage to Meyer, and 11 days prior to Meyer's death at Blue Lakes ranch. The contract was signed Lydia McEliff, but the witness alleged that the signature was that of Mrs. Southard, the wife of the defendant, who he alleged made the contract. The significance of the use of the name Lydia McEliff by Mrs. Meyer was brought out at that time she had been twice married since the death of her second husband, McEliff; once to Lewis in Montana and after his death to Meyer.

At the conclusion of the testimony.

The usual course was in attendance during the morning session, jamming the courtroom and the corridors, and filling the window ledges on the outside. Mrs. Southard's mother did not appear in court with her, but her father, W. J. Trumbull, sat at her side during the entire hearing.

Tortifying yesterday afternoon.

Dr. Hal Bieler said that in his opinion the death of Meyer was due to arsenic poison.

First having found on microscopic examination what he had thought to be colon typhoid in a blood examination, witness said that last April he had not present when the body was exhumed from the grave, and had made careful tests of specimens taken from spleen, liver, kidney, upper and lower bowel and hair, and that in all, including the hair, he had found the presence of arsenic. Other specimens were taken from the same organs at the same time, witness said, and examinations were made in cooperation with Dr. Herman Barnes, Salt Lake, Utah state chemist, and State Chemist Edward F. Rodebaugh, Boise. Dr. Bieler said that his own tests and examinations were made in cooperation with City Chemist E. R. Dooley of Twin Falls and that Chemist Dooley had the record they had jointly made.

Details Part in Case

The statement by Dr. Bieler that in his opinion death was due to arsenic poisoning came at the close of his direct examination yesterday afternoon. Witness had told in detail his belief that arsenic poison was administered to Meyer. He had been called in consultation by Dr. J. F. Coughlin on the afternoon of September 6; had taken blood sample and from it made microscopic and chemical examinations and detected what he believed to be colon typhoid, or typhoid bacilli.

Finds Typhoid Germs

He had so reported to Dr. Coughlin. The following day Meyer died and he requested a post mortem. Dr. Coughlin, witness said, also desired post mortem and this was agreed to. He made microscopic examinations of parts of contents of girl's bladder, and again found what he believed to be colon typhoid, and so reported to Dr. Coughlin. This was on the evening of the day of death, September 7.

Second Post Mortem

On the following day, after the hardening compound had been placed in the abdomen, a second post mortem was held, attended by Dr. Coughlin and Dr. H. W. Wilson. Sections of

spleen, liver, kidney, heart, upper and lower bowel were taken. At that time he found a condition which would justify the opinion that death could have come from any draculizing disease.

Called in by Prosecutor

Upon these findings and his report to Dr. Coughlin the matter rested until April 2, when at request of County Prosecutor Frank J. Stepan, he was present when the body was exhumed. Witness detailed the basis for identification as that of deceased Meyer. When the body was exhumed there were present the witness, City Chemist E. R. Dooley, State Chemist E. F. Rodebaugh, County Coroner P. J. Grossman, Deputy Sheriff V. H. Ormsby, his cousin and his assistant.

Body Again Opened

The body was opened and several specimens from each of the spleen, liver, heart, kidney, upper and lower bowel and hair were taken. Chemist Herman Elyard of Salt Lake received one each of these samples, as did State Chemist Rodebaugh and City Chemist E. R. Dooley, the latter specimens those used by Dr. Bieler and Mr. Dooley in their tests, with results above stated.

Fixes Place of Alleged Crime

Earlier in the afternoon Dr. Coughlin had concluded his testimony. Testimony he left the stand by was asked by Prosecutor Stepan if it was, whether or not, in his opinion, Meyer had recovered from any poison administration or which might have been administered at Blue Lakes ranch. Witness said that if Meyer had received arsenic poisoning at Blue Lakes ranch, he had recovered from same, and to a further question stated that if death were due to arsenic poisoning the poison was administered in Twin Falls county. On a cross examination witness said he did not in fact know positively in his own mind what had been cause of death.

Purpose of Inquiry

The purpose of this questioning by the state was manifestly to show that the fatal arsenic poison alleged to have been given was administered in Twin Falls county and not in Jerome county.

Insurance Men Testify

C. D. Thomas and Rex Thomas told of the application for the life insurance policy upon the life of Meyer, and, subsequent to death, the application of the accused for payment of the amount, \$10,000.
