University of Wisconsin Instructor Presents Evidence Showing Decided Effect of Prohibition Upon Morals

MILWAUKEE, Wis., (AP)—Evidence has been found which seems to indicate that the cities which have been particularly perfect enforcement, seem to have a decided effect upon criminality. Professor J. T. Gillin of the University of Wisconsin today presented the results of a Conference of Social Work at its session here this morning.

CHAMPION DREAMS CLOSING DAYS OF TRAINING PERIOD

Dempsey Threatens to Take a Long Vacation Following Altercation with "Garp"

ATLANTIC CITY, N. J., (AP)—Today is the beginning of the end of Jack Dempsey's two months training grind. The champion is all through with his workouts in the open air arena and the last work out this afternoon probably will be staged behind barred gates in the old airplane shed back of the training camp. The work will be light and probably will not include boxing.

Brief Bits of Sport. Fred Fulton must be fixing for a go with Dempsey. He cleared Bug Day Daily of Pittsburgh into submission in the first round of a scheduled 12-sec non-battle the other night.

LEGION FIXES MINIMUM SAFE SALARY IN JAPAN

Justification is Found for Complaint at High Cost of Living in Orient

TOKYO, (AP)—Justification of the daily lament by foreigners in Japan over the high cost of living is found in a report given out by a committee of the American Legion of Tokyo and Yokohama. The report founded on replies received from members of the post, fixes the living expenses for a single man at between \$275 and \$291 a month for a married man between \$541 and \$606 per month and said that these salaries permitted no saving whatsoever.

Only one man in the list who made reports spoke of Japan as one where luxurious living conditions prevailed. He said: "It is luxurious, or better to say, lazy, as it seems necessary to have servants, and these are so inefficient that it takes two to do the work of one."

Salaries considered fairly good in the United States are not "good" salaries in the Orient, the result of the investigation shows. The report says the committee feels that no one should come to Japan for sums less than those mentioned above.

Of 17 men making prophecies as to the probable changes in costs during the present year, eight see little prospect of change, five anticipate increases of from 5 to 20 per cent while four hope for decreases of from 5 to 10 per cent.

Difficulties in finding permanent quarters are also mentioned in the list of replies. Regarding the length of time it has taken to secure permanent quarters, the average time needed in house hunting was two months and 10 days. One reply said that it took nine months to find a house.

CHICAGO, (AP)—Wheat prices developed moderate strength today after a week of quiet. No sales of Porto Rico were reported, but some 6000 bags of San Domingues went to local refiners at 2 9/10 c. For Antiquarians to Solve. In discussing the origin of names from occupations an interesting note crops up. NIGHT'S STORM LEAVES DAMAGE ALONG ITS PATH

Trees and Business Property Injured by Wind—Buhl District Gets Cloudburst

Uprooted trees, broken tree limbs, torn awnings, fractured signs and fruit-strewn floors of orchards mark the path of last night's terrific wind storm... and about Twin Falls. So far as has been learned no person, except one, suffered serious injury through the storm. The exception was J. C. Wilcox, who was struck by a tree limb as he left the Chautauque grounds last night and suffered two bad scalp wounds.

In towns the damage was confined to property losses, none of particular moment. Cottonwood trees suffered severely, in some instances these stately growths being uprooted, while in many more great and small branches were broken off and scattered over streets, walks and parkings. In the business district any awning not drawn up was practically wrecked in the night's fury, and in one instance a business house plate window was broken by a loose shroud of this sort. This accident occurred at Wagner's Home Bakery during the first freshness of the storm.

But one instance of heavy rainfall is reported, that report coming from the Buhl district, where there is a considerable stretch of country between the town of Buhl and the Gustave Knute cheese factory, some four miles south of the city. It is understood that the tidings of this wet storm to Twin Falls this morning. The messenger stated the entire country visited was flooded this morning. It is understood that in some places the ground was saturated, grain, vegetable and fruit crops suffered severely in the district mentioned through the excessive rainfall, and that for miles around the city of Twin Falls there has been a damage done to crops of all sorts through logging by the wind.

Frank C. Lynch, deputy county recorder, who returned last night from a automobile, reports a terrific hurricane while he was passing through the Filer section. The wind blew with such sustained velocity that he was unable to drive his machine into a ditch at the roadside and take refuge in the grass and weeds for himself. He remained lying flat on the ground until the fury of the storm had passed.

CAR CLIMBS CURB NEAR BANK, BREAKS RAILING

Woman Driver Loses Control of New Machine at Critical Moment

A Buick touring car, driven by a woman, yesterday afternoon jumped the curb at the intersection of Main and Idaho streets and crashed into an area protection railing at the Lottville. The railing was bent over, but promptly helped by pedestrians, the car was driven over the top of the railing into the street. The car, apparently just out of the factory, was undamaged. The driver lost control of the machine just as she drove to the curb. This is the fourth accident of this nature occurring in the past month.

WOOD ADVOCATES EQUAL SUFFRAGE FOR ISLANDS

Presidential Mission to Philippines Completes Work in Provinces of Luzon

MANILA, P. I., (AP)—The Wood-Fox mission returned to Manila on Tuesday after a two weeks visit to southern Luzon and adjacent islands where more than a hundred public meetings were held at which classes of citizens were invited to express their views and to present complaints. Virtually all speakers advocated independence in some form but many believed that the United States should establish a protectorate over the islands if independence were granted. The mission has now covered all the provinces of Luzon and most of those adjacent islands which are accessible. This territory contains more than half the total population of the Philippines. Members of the mission express much satisfaction at the progress of education. One member remarked that "the public schools are the brightest spots in the Philippines."

Both General Wood and W. Cameron Forbes praised the work of the schools but said the most urgent need at present was for more American teachers. General Wood was enthusiastic over the work of the women's clubs in many provinces but declared that experienced nurses were badly needed to teach the people how to care for infants. Both General Wood and W. Cameron Forbes said that "the work of women in public life would be beneficial to the Philippines."

ROAD CODE PRESCRIBED FOR FRENCH MOTORISTS

Simple Regulations are Substituted for Confusing Traffic Rules

PARIS, (AP)—American motorists through France in the future will have the aid of a "code of the road" to enlighten them upon the usually confusing French traffic regulations. As the result of 18 years' experience, the minister of public works has just issued a compilation of the regulations in which, after "warning" the animals of the road, he impresses upon the motorist that the highway does not belong to him entirely.

Among the abuses prohibited are unnecessary noise, blinding headlights and reckless driving. Irrespective of the responsibility a driver incurs for damages caused by him he is expected at all times to keep speed down to the point where he is absolutely in control of his car.

Wherever there is danger of accident, the minister says, the driver cannot expect others to remove it. If necessary he must stop. He must stop at nightfall and go slowly in a fog. At cross roads the car coming from the right has the precedence. Pedestrians are expected to give the right of way when they hear the car signal, failing to observe which does not excuse a driver, the regulations say, for running them down.

Speculation Renewed on Choice for Bench

WASHINGTON, D. C., (AP)—Recent developments revive speculation here today regarding the possible choice in the near future of a chief justice of the United States to succeed the late Edward Douglas White. There was a definite indication last week who would be named, although in most recent gossip about the place the name of William Howard Taft has been most prominent. It is understood that many of the foremost of the former president have come in from prominent lawyers in all parts of the country.

Terror Seizes Island as Stromboli Belches

MESSINA, Italy, (AP)—The volcano Stromboli, on Stromboli island off the north coast of Sicily, burst into wild activity last night and terror fills the island. The molten rocks and sulphurous gases pouring from the crater, it is feared, may spell impending doom to the panic-stricken inhabitants.

CONSTANTINOPLE, (AP)—A Turco-Bolshevik plot of vast proportions has been discovered by the allied authorities here, it was announced today. Numerous arrests have been made, including the alleged ring leader of the movement, a man named Auegublik.

Colorado Girl is Credited with Best Brain at Simmons

Miss Constance Bonck Heads Class in General Intelligence by Tests

BOSTON, (AP)—Miss Constance Bonck of Leadville, Colo., a freshman at Simmons college, is announced as head of her class in general intelligence. The University was reached through the application of mental tests originated by Dr. A. A. Roback, instructor in psychology tests at Harvard university and at Simmons.

The twelve parts of the Roback tests, with the exception of the analogy, hard opposites and direct tests, which were based on familiar principles, were devised by Dr. Roback with the college student in mind. It was explained in announcing the award. "One of the most interesting of the tests," he said, "was the problem test, designed to gauge capacity to grapple with a practical situation. One of the problems, for example, asks: 'If you were on the seventh floor of a department store in a hurry to get to the ground floor and two elevators came at the same time, one attracting a large crowd and the other only two passengers, which would you take and why?' The person answering correctly and some of average intelligence answer at once. 'The elevator with two passengers, because it is easier to get in and out of.' 'It takes the superior intelligence to reason that the full car will in all probability express to the ground floor, whereas the almost empty one would stop on the way down at each floor to take in more passengers.' 'The relations test was another pointer: 'If two first cousins were to marry, what would be the former and the new relationship of Miss A's sister's husband to Mr. X's? Answer, former relation, first cousin by marriage; new relation, brother-in-law. Of Mr. X to Miss A's mother? Answer, old relation, nephew; new, son-in-law. Of Miss A's brother to Mr. X's sister? Answer, first cousin and brother's brother-in-law. Of Mr. X's father to Miss A's brother? Answer, uncle and sister's father-in-law. Mr. and Mrs. X's child to Mr. X's brother's child? Answer, second cousin, first cousin. 'There were ten others besides the relations and the problems tests to be answered inside of three hours. 'The six highest scores were obtained by American girls of American parentage,' it was added.

Europe Owes Billion in Interest to U. S.

WASHINGTON, (AP)—Approximately one billion dollars interest was owed the United States by European nations up to May 31, treasury officials told the senate finance committee today in explaining the administration bill to give the secretary of the treasury broad authority in fixing the allotropic. Assistant Secretary Wadsworth placed the amount of interest due at \$945,543,760.

Secretary Mellon told the committee that his suggestion has been made that the United States accept German reparations bonds as substitutes for the allied obligations and declared that the treasury had no intention of invading any such proposal.

Fighters' Peace Still Threatened by Reform People

Bureau Camps on Trail of the Heavyweights and May Appeal to Grand Jury

JERSEY CITY, N. J., (AP)—Another skirmish—possibly two of them—was expected today between the International Reform, bureau and Promoter Tex Rickard to determine whether Jack Dempsey and Georges Carpentier were to be allowed to walloop each other here Saturday.

Chomp Keen to Beat Jess, but More Keen to Beat Carpentier

"I never was more anxious to win a bout than I am to win this one," said Jack Dempsey. "Of course, I was very keen to beat Jess Willard at Toledo and grab the heavyweight championship, but even-odd that that I don't think I was any more anxious to win than I am right now."

thin at any time since I won the title. I appreciate the fact that Carpentier is a great boxer. I expect to have a tough time with him, but I feel confident that I will be able to defeat the title successfully. I am going into the ring at Jersey City to win just as decisively and just as quickly as I possibly can."

MANHASSET, N. He wants to go and is having lots of fun making preparations. Outside of this he has not displayed the least of anxiety.
