Powers Welcome Harding's Armament Limit Proposal; Quiet Reigns In Ireland As Truce Goes Into Effect

BELFAST ALONE STANDS OUT AS TROUBLE SCENE

Military Police Lorries and Armored Cars Disappear from Dublin Streets and Custodians of Order Turn in Arms

SINN FEIN OBSERVANCE OF TERMS IS EXPECTED

Sporadic Disorders are Attributed to Probability that the Word of Truce Has Not Reached Remote Districts

DUBLIN, (AP)—The truce in Ireland, agreed upon by government officials and republicans in London, is being observed in Dublin, where disorders in the streets of the military police and armored cars disappeared from the streets of the city.

In London, according to the terms of the truce, the police at noon were ordered to lay down their arms.

In Belfast, where disorders began on Sunday were still continuing in lesser degree this forenoon, the police were still retaining their arms.

Dublin Guard on Peace Footing The yard of Dublin castle, which is usually active with the movement of the police lorries and armored automobiles, was empty of cars this morning.

The Dublin castle officials who hitherto have been unable to gratify the Sinn Fein desire to have the castle opened to the Sinn Fein under normal conditions.

Another development was the appearance of furniture vans which left the castle recently with the contents of offices, who, while the truce lasts, will be able to leave the confinement of the castle area and live in their own houses.

In consequence of the abolishment of the curfew, the street car companies and the railways made announcements that from tonight they would resume their normal hours.

Confidence was everywhere expressed here today that the republican forces would observe the truce order. The record for the week end, however, indicated that the order had not reached the remote districts.

One item on the record came from Roscommon, County Cork, where Major O'Connor was kidnapped last evening and shot dead. He was formerly a noted union politician and candidate for parliament in Dublin, but more recently had been prominently identified with the Sinn Fein movement for an Irish settlement.

At Castle Island, County Kerry, a military patrol was attacked last night. Three soldiers were killed and three others wounded. Four members of the attacking party are believed to have been killed.

24 Deaths Over Week End According to the official reports there were 24 deaths, all told, from violence in Ireland over the week end. These figures included fourteen killed.

Senate Accepts Conferees' Plan on Navy Measure

Abandons Fight for Airplane Carriers and acific Coast Naval Sites

WASHINGTON, D. C., (AP)—Abandoning its fight for airplane carriers and Pacific coast naval sites, the senate today accepted the conferees' report on the naval appropriation bill, which will go to the president as soon as the house has taken final action on it.

Senator Poindexter, republican, of Washington, leading the senate conferees, said it was hoped that at least two airplane carriers would be authorized soon by a separate bill.

HIBERNIANS ORDER TO DISCUSS INDEPENDENCE

Proposals for Influencing American Government to be Offered at Detroit Conclave

DETROIT, Mich., (AP)—Promotion of the cause of Irish independence will be the chief subject discussed at the fifty-second annual national convention of the Ancient Order of Hibernians and of Ladies' Auxiliary of the organization, to be held here July 12 to 13.

Proposals for influencing the American government to recognize the Irish republic are to be offered at the convention.

The meeting will open with solemn pontifical mass on the morning of Tuesday, July 19, the mass being celebrated by Bishop Michael J. Gallagher of Detroit, national chaplain of the Hibernians.

FARMERS UNION HEAD CALLS FOR INVESTIGATION

Inquiry into Operations of Federal Reserve Board, Chamber of Commerce of U. S. and "Trusts" Urged

WASHINGTON, (AP)—Investigation of the operation of the federal reserve board, the chamber of commerce of the United States and "the great trusts, such as the steel, coal, credit and money trusts," was asked of a joint congressional commission today by G. S. Barrett, chairman of the National Board of Farm Organizations and president of the National Farmers Union.

The commission is charged with making a general survey of agricultural conditions. Mr. Barrett said that all of "these great aggregations of capital are engaged in operations which affect agricultural interests."

Charles A. Lyman, secretary of the national board of farm organizations, told the commission that agriculture was facing bankruptcy and ruin.

A policy of deflation of the currency, a restriction of credit, was instituted by government agencies, he said. "The policy has usually carried out has resulted in a loss to farmers during the past year of seven billion dollars."

COMMONS CHEER PREMIER'S ACCEPTANCE DECLARATION

Lloyd-George Expresses Pleasure of British Empire In Joining With American Proposal Toward Peace

ENDORSEMENT OF FRANCE CERTAIN; JAPANESE SENTIMENT FOR CHANGE

LONDON, (AP)—President Harding's message today to the effect of an international conference on the limitation of armaments has been received with the utmost pleasure by Great Britain, Mr. Lloyd George, the prime minister, declared in the house of commons today.

Speaking on the subject of the American communication, the prime minister said: "I need not say that we welcome with the utmost pleasure President Harding's wise and courteous initiative."

The house cheered this statement, and the premier added: "In saying that I speak for the empire as a whole."

"The premier said China would be treated as an independent in the conference on Pacific affairs."

"The world has been looking to the British Empire for such a lead," Mr. Lloyd George declared in referring to President Harding's message. "It is an confident that the house will esteem it as an act of liberal and progressive spirit inspiring it."

Colonel George Harvey, the American ambassador, was in the gallery of the house to bear the prime minister's statement.

Alliance Bill Stands Mr. Lloyd George began his statement by referring to the Anglo-Japanese treaty. He said the Japanese government took the view that no notice of denunciation of the treaty had been given, and that this view also was held by Lord Curzon, the foreign minister.

The matter was referred to the lord chancellor, the prime minister declared, and of both parties that the agreement be brought into complete harmony with the covenant of the league of nations.

"When I told the house last Tuesday night that I was proposing to make a statement on Pacific and Far East questions today," the prime minister declared, "I was writing as an expert, and not as a politician."

Expectations Japan's Acceptance. "I am very glad to be able to inform the house that the views of the government of the United States, which reached me last night, are extremely satisfactory. The Chinese government also has given me a very favorable reply."

Warships Return to Tampico After Cruising 24 Hours on High Seas

MEXICO CITY, (AP)—United States warships, which on Friday were reported to have been withdrawn from Tampico, returned here yesterday morning. Dispatches reaching Mexico City last night said the Sacramento and Cleveland again were anchored at the mouth of the Tampico river, and, although an explanation was given for their return, it was presumed the vessels withdrew to the high seas for 24 hours in order to avoid the technicalities of international law and then returned to Tampico.

It is considered not improbable the vessels will continue this maneuver until the situation clears.

Reports from Tampico state that the situation remains quiet and that no disturbances have taken place.

Japanese Council Accepts British Alliance Proposal

TOKYO, (AP)—After a special meeting of the prime council here today under the chairmanship of Premier Hara, the semi-official agency of the imperial household issued a statement saying that Premier Hara and Foreign Minister Wakisaka revealed to the council the proceedings of the negotiation concerning the Anglo-Japanese alliance. The prime council, the statement said, agreed to "accept the proposal of the British government concerning the question of renewal."

There has been no public knowledge of any specific proposal made by Great Britain to Japan regarding the renewal of the alliance. The most recent official disclosure on the subject was embodied in the opinion of Lord Birkbeck, the lord high chancellor, that the alliance continued automatically for another year.

The result of today's conference will be submitted to the diplomatic advisory council tomorrow, after which an official statement explaining the situation is expected to be made public.

UNITED STATES AWAIT ANSWER TO PROPOSALS

Formal Invitations to Armament Limit Conference to be Issued if Suggestion is Favorably Received by Powers

TWO GOALS DEFINITELY SET AHEAD OF NATION

Discussion of the Far Eastern Problems is Regarded as of Vital Importance in Connection with Disarmament Plans

WASHINGTON, D. C., (AP)—The course of the United States was definitely set today for two goals of international importance—limitation of armaments and solution of problems involving the Pacific and the Far East.

Administration officials awaited official news as to reception by England, France and Italy of President Harding's informal inquiry concerning the willingness of those nations to enter into conference on the question.

If the powers were found to be favorable to the suggestion, formal invitations for the conference would be issued, the state department announced today.

Far East Vital Factor. The American government, it was indicated today officially, regards inclusion of a discussion of Far Eastern problems as of vital importance to any plans for disarmament. Without an adjustment of these problems, it was indicated, disarmament could not be considered.

Government officials refrained from defining the exact scope of the conference, the president's invitation and in discussing the details of its organization. There appeared no disposition to doubt that the powers would accept the president's invitation, and it was assumed that it would not be many months before the conference was underway. The date and personnel, it was explained, are features that could not be determined until the formal proposals of the proposal had been made.

Although the conference suggested was for the five allied and associated powers, it was indicated that in the consideration of special subjects in which any other nation was involved there doubtless would be no hesitation to extend the invitation to that nation or even of inviting direct participation in the conference.

It was explained that the United States did not intend to enter a conference with any idea of relaxing her vigilance at any point where national security might be menaced, and that full caution would be displayed in preserving to all the rights to which they are entitled.

PITTSBURGH, Kan., (AP)—Practically all of the miners of the Kansas district were back at work today. They were idle last week, following the trial at Columbus of Alexander Howat and August Dorely, union officials.

BORDER TOWN FLOODED WHEN OULDBURST BREAKS

NOBLETS, Ariz., (AP)—Many houses were flooded here last night when a cloudburst broke over this city. In one hour, 1 1/2 inches of rain fell, the total precipitation for the 24-hour period being 2 1/2 inches. No serious damage was reported.

Reformers to War on Sunday Train Service

NASHVILLE, Tenn., (AP)—Formation of a Sunday "blue law" prohibiting many other things the operation of Sunday trains, and excluding newspapers from the mails, will be urged by the Methodist Central Sabbath Day board committee in a petition to be presented to congress this week. It announced today by Noah W. Cooper, chairman of the committee, on leaving here today for Washington. On July 14, Mr. Cooper said, the committee, which represents 12 southern conference synods, will place a copy of the petition in the hands of every senator and representative in congress.

Diversion for Orient Found in Executions

SICHUAN, Kweichow Province, (AP)—Instead of moving picture, baseball games or similar diversions, the Chinese government (China) has found a diversion for its little town have as their sole form of public amusement: the rather frequent public executions.

In an effort to divert the attention of the population of numerous lands of robbers in this district, result in the capture of not a few of the offenders, who ordinarily are dealt with summarily.

An example of how swiftly justice sometimes works in China was given recently when 11 robbers were executed in the hands of every man under a foot less than 24 hours.

FLASHES FROM THE WIRE

REGA, (AP)—Even high Communist officials are openly attending church services at the churches of Moscow, since of them going to and from the ceremonies in automobiles. Says the Moscow Pravda in an article warning Communists that they must set an example to the populace not by transgression in religious gatherings.

JAMESTOWN N. D., (AP)—Records of the police magistrate court here today show that J. A. Murphy, the magistrate fined himself \$1 on a charge he lodged against himself for driving his automobile on the wrong side of the street to avoid an accident. Murphy was arrested by a patrolman who thought the magistrate "was trying him out." He paid the fine.

EAST ST. LOUIS, Ill., (AP)—With the thermometer registering above ninety degrees, Rev. Francis Geary, of the First Methodist church here, preached to a cool congregation last night. Behind him on the pulpit twelve one-hundred pound cakes of ice had been placed before a large electric fan. Cool breezes played over the worshippers. Artificial snow was scattered through the aisles.

MEXICO ASSERTS CLAIM TO ISLES OFF CALIFORNIA

Investigator's Report to President Obregon Suggests Surrender of Claims in Return for Foreign Credits

SAN ANTONIO, Tex., (AP)—Continuations upon which Mexico may have claims to a number of islands just off the coast of California in the Pacific ocean, which are now occupied by Americans and are under the control of the United States, are summed up in a report made to President Obregon by General Amado Aguilero, sub-secretary of agriculture and irrigation, the commission making a study of the islands, according to an account in Excelsior, published in Mexico City. The report declares that the claim of Mexico to the islands is indisputable and that the Mexican government is willing for the islands to remain under the American flag in return for foreign credits. The amount of which was not stipulated.

Includes Whiskey Estate
Included in the group of islands is Santa Catalina, of which William Whitley, Jr., of Chicago, is the sole owner. Others are the Parillanos, San Miguel, Santa Rosa, Santa Barbara, Arrecife, Santa Barbara, San Nicolas and San Clemente.

The arguments of General Aguilero in favor of Mexico's claims to the islands, as published in Excelsior, are:
"The United States is not occupying them by right of discovery, because they were discovered in the 16th century by the Spaniards, Captain Cabrillo, who gave them the names which they now bear."
"They are not occupied by right of purchase, as Mexico has never sold them to any person or nation."
"They are not occupied by right of conquest, for they were never conquered."
"They are not occupied by right of territorial jurisdiction, because the international code of the United States sets the principle that the territorial jurisdiction of a nation cannot extend farther than a league from shore, and the islands in question are at a greater distance from the shore of the United States."

"The international code of the United States rejects the right of conquest by a state that not all territory conquered belongs to the conqueror, but only that part designated by the stipulations of duly authorized treaties."
Cites Spanish Queen's Decree
Further proof of the claim of Mexico to the islands, is cited in the decree of the queen of Spain in 1536, declaring that the future all possessions of the Kingdom of New Spain belonged to the Republic of Mexico, a sovereign nation. For many years Mexico actually exercised control over the islands, it is asserted.

In substantiation of the assertion that Mexico exercised dominion over the islands, it is pointed out that a decree was issued June 20, 1853, authorizing the governor of California to make grants of any part of the islands to Mexicans, according to the stipulations of the law of August 18, 1824, and that the titles to parts of the islands granted to Castillero and Carrion in 1839 and 1841 were nullified by later decrees of President Santa Anna in November, 1853, by President Alvarez in July, 1854, and by President Comonfort March 10, 1857.

It is stated by Excelsior that President Obregon may include the matter in General Aguilero's report in future negotiations between the United States and Mexico toward the accomplishment of a proposed "Treaty of Friendship and Commerce."

NEWSPAPER MEN AT HILO TO SEE HISTORIC SPOT

Place where Princess Prayed to Stop River of Fire to be Shown Visitors

HILO, Island of Hawaii, T. H., (AP)—Delegates to the Press Congress of the World, which will meet in Honolulu next October, and will visit this island at the conclusion of their business sessions, will be shown the spot where forty years ago a flow of lava from Mauna Loa volcano, which threatened to destroy this city, was stopped in its path as a princess of the royal line faced the ascending river of fire and prayed that Hilo might be spared.

Not only will the visitors see the spot where the ten months flow of lava finally stopped as Princess Ruth faced the molten river along, but they will hear from the lips of men who saw the incident the story of Hilo's escape.

For more than 300 days, according to eye-witnesses, the lava had been pouring steadily from the side of the mountain, when suddenly the stream of fire changed its course and bore down on the city of Hilo. The efforts of the white men failed to stop the approach of disaster, so Hawaiians took the matter into their own hands.

Royal Hawaiian blood was said to have mingled with Pele, goddess of the volcano, so Princess Ruth at Honolulu was appealed to. She answered the call and, as she gazed towards the mountain, with her coturnic followers behind her she could see the track of destruction extending upward, mile after mile, while at its forefront, almost on the edge of the city, trees were burning and great columns of smoke were ascending.

A platform had been built in the path of the flow and, as Princess Ruth mounted it step by step, sacrifices of pigs and chickens were offered the angry goddess of the volcano. The princess, on her knees, appealed to Pele to spare Hilo. And the flow stopped.

Plainly visible against the foot of this hill today is to be seen the face of the lava flow, as it piled up and hardened in 1881 when the Princess Ruth came to the rescue of her people.

FAR EAST CONFERENCE IS MERELY HINTED AT

British Suggestion Hears Yet Develop Beyond Stage of Informal Conversations

LONDON, (AP)—Great Britain's suggestions for a conference at which matters pertaining to the Far East would be discussed were made in the course of informal diplomatic conversations, it was said by several newspapers here Saturday. This statement was made in explaining what was described as a misinterpretation of a statement by Lloyd George's statement relative to Pacific affairs in the house of commons last Thursday, it being asserted that he had an interest to convey the impression that formal invitations had been sent the United States, China and Japan to confer over Far Eastern matters.

Discussions that have occurred have been kept deliberately on an informal basis.
The news, which is hopeful that a discussion will take place, said that Great Britain and China and apparently Japan, are agreed that these three nations should be joined by the United States in any conversations that take place.

PLACES VALUE ON WESTERN PACIFIC

Commerce Commission Estimates Worth of Railroad at \$66,730,011

WASHINGTON, (AP)—Tentative valuation of the Western Pacific railroad was placed by the Interstate Commerce Commission Saturday at \$66,730,011. The capitalization of the road is \$172,250,912 and the general balance sheet of the carrier claimed that the investment in road equipment amounted to \$156,915,110.

The commission also announced tentative valuation of the Grand Canyon railroad at \$1,350,308 and that of the San Joaquin and Eastern (California) at \$1,148,900.

Recommends Readjustments
Commenting on the amounts shown on the Western Pacific books as being invested in road and equipment, the commission said:

"The account requires readjustment. Some items should be entirely excluded, some reduced in amount and some new items included. The account is made up on, in large part, of the value of securities at par exchanged for property which was not appraised and whose value is unknown, and in part charges for land, the cost of which can not be allocated as between carrier and non-carrier land."

Revises Investment Account
Revision of the account and a deduction of the amount of the capital

stock of the carrier exchanged for unappraised property of seven predecessor companies, the commission said, would leave the investment account at \$72,715,001. This sum, the commission said, cannot be taken as the actual investment of the carrier in existing road equipment, but is the nearest sum obtainable.

DEMAND STILL CONTINUES FOR OLD STYLE GRAIN GRADLE

MOBAGANTOWN, W. Va., (AP)—A large demand for grain gradles still exists, it was discovered recently, when George W. COLLEGE STARS KEPT TOO LONG IN PREPARATION

Walter Eckersall Recommends Shorter Season or Track Sport will Suffer

By WALTER ECKERSALL UNLESS college coaches shorten track and field seasons...

The season which was brought to a close with the successful national collegiate meet in Chicago produced the usual number of star performers...

The national meet was held after the sectional intercollegiate. The athletes had been in their respective districts and did not care to keep in training for another meet.

Illinois, victor in the national meet, won the honors without the aid of a first place. The Orange and Blue athletes had been burned out.

During the winter Coach Gill prepared his men for the Illinois meet. Before and after this set of games was held, the dominators engaged in dual meets with strong teams.

When Earl Ely, the great middle distance runner of Pennsylvania, came to Twin Falls for the national, he asserted he had tired of training.

"Track athletes are being developed to a fine point that a man must be on edge for every race," Ely said.

Another well known athlete who took the same view as Ely is the world's recorder of Dartmouth, who holds the world's record for the 120 yard high hurdles at 14.25.

While Thomson was hobnobbing with other athletes after the Chicago meet, some one asked him why he did not run in the 220-yard high hurdles.

It is hard enough to keep a football team in training for two and one-half months, let alone a track squad.

On the other hand the track athlete must be in trim for five months, with little time for relaxation.

Although Ely and Thomson are the most prominent athletes who can be cited as the type who are being forestalled in their athletic work...

Brief Bits of Sport

When Gabriel sounds his last trumpet and records compiled on earth are officially recounted Salt Lake will be on the celestial map as the place where the biggest baseball scores were established.

In a twin bill, played on the Pacific Coast park grounds in Salt Lake last Saturday a total of 65 runs was scored by Seattle Villucums and the Salt Lake Bees, with the former on the long end and when honors were distributed.

In that brace of encounters Seattle men got 41 runs, the Bees being on the short end by 17 markers.

Speaking of the Bees, however, reminds that a former Bees was responsible for the White Sox landing another game in the woe column on Saturday.

Earl Sheely, first baseman, who went from the Salt Lake club with Ernie Johnson and Eddie Mulligan this spring, cracked out a hit against the Yankees that tied the count in the ninth inning, and in the sixteenth round hit a single that sent across Outfielder Paik with the winning run.

Earl seems to be rounding to the form that made him famed in the Coast league since before the war, and is steadily adding to his batting average.

The big lad is a natural .300 hitter, and should be topping the league in lengthy hits.

Black Jack Johnson is putting out a lot of monthly publicity for himself, and is making a desperate attempt to stir public opinion in his favor toward getting a match for the world's fistie championship.

If the country has a lick of moral decency left it will ignore the belchings of the convicted white slave and let him earn his living by the sweat of his brow instead of making it possible for him to replenish the treasury that was once so well filled with white men's money.

Jack Johnson was convicted of an unspeakable crime against law, dignity and social order. A term in a federal prison has not, apparently, shored him up any of his natural arrogance.

By the way, what's become of that famous wrestling spot syndicate?

During the prolix conflict played between the White Sox and the Yankees Saturday last "Babe" Ruth appeared

at the platter eight times in the sixteen rounds. His portion was a measly single in all these trips.

Bill Clymer, who once managed the Seattle club of the Pacific Coast league and was canned in mid-career, has suffered a similar fate as mentor of the Toledo Mudhens, of the American Association.

A Bill was let out by President "Rag" Brennan last week, when the club's directors shot off a lot of stuff that was unfavorable to "Dignity Bill."

Comes now Charley White when Benie Leonard is all laid up with a fierce attack of gout or something, and demands a match for the world's lightweight knuckle titls.

Ain't it fierce the way these fellows take advantage of a guy when he's on his back.

The directors of the Twin Falls Twilight Baseball have put the official ban on contract jumping or what the club's directors shot off a lot of stuff that was unfavorable to "Dignity Bill."

Rife has been ordered to doff a league uniform and either report back to the fraters or not play baseball in this league.

Just like a regular league, b'gum.

WARLESS WORLD IN 1923 IS ENDEAVORER'S SLOGAN

Call on All Forces of Christianity to Join Movement for World Peace

NEW YORK, (AP)—The new slogan of the Christian Endeavor societies will be "a warless world by 1923."

Black Jack Johnson is putting out a lot of monthly publicity for himself, and is making a desperate attempt to stir public opinion in his favor toward getting a match for the world's fistie championship.

Jack Johnson was convicted of an unspeakable crime against law, dignity and social order. A term in a federal prison has not, apparently, shored him up any of his natural arrogance.

By the way, what's become of that famous wrestling spot syndicate?

During the prolix conflict played between the White Sox and the Yankees Saturday last "Babe" Ruth appeared

16,000 delegates at the convention here it will be accompanied by another one calling for "universal brotherhood."

All the forces of Christianity throughout the world, Dr. Clark said, would be called upon to join the endeavor movement in order to prevent war.

TAFT IS SWORN IN AS SUPREME COURT CHIEF

Former President is Elevated to Nation's Highest Tribunal with Ceremony

WASHINGTON, (AP)—William Howard Taft was sworn in today as chief justice of the United States.

The simple ceremony of elevating the former president to the supreme court was performed in the office of Attorney General Daugherty by Justice Hoehling, of the district supreme court in the absence from the city of the justice of the supreme court. Those present, were Mr. Taft's brother, Henry W. Taft of New York, and John T. Adams, chairman of the republican national committee.

MEXICAN OFFICIAL IS KILLED IN AUTO CRASH

CALEXICO, Cal. (AP)—Francisco Terraza, secretary of state of Lower California, was instantly killed and A. Ybarra, cousin of Governor Ybarra of the peninsula state, was seriously injured here shortly before midnight last night when they were run down by a large touring car being operated as a rent. Fred Underwood, the driver, was arrested for investigation.

The accident occurred when the two men were crossing a roadway in the business section on the way to their homes.

Ybarra is in a hospital at El Centro, Cal. He is 60 years old.

Terraza, who was 34 years old, was a member of the old Mexican Terraza family which, it was said, financed part of the Mexican revolution. He served as secretary of state under Governors Bolander, Alameda, Cantu and Ybarra.

BUYING A PIG IN A POKE

THE buying of advertising space used to be buying "a pig in a poke." The quantity and quality of circulation was shrouded in mystery and often the bag was tied against investigation.

That day has passed. The advertiser no longer depends upon "mere claims." The Audit Bureau of Circulations has untied the strings of the sack and the circulation of the better class of publications is thrown open for the most searching scrutiny.

In buying advertising space in the NEWS you are not buying "a pig in a poke." Our A. B. C. statements will stand the analysis of the most exacting investigator.

PRESIDENT TO CARRY MESSAGE TO LAWMAKERS

Joint Session of Congress to be Held for Reception of Harding's Advice, if Present Plans Mature

WASHINGTON, D. C. (AP)—White House officers indicated today that President Harding probably will hold a joint session of Congress to receive his message which probably will be presented within a day or two.

At Work on Message. Mr. Harding returned to the White House today from a week-end cruise down the Potomac to Chesapeake bay, and continued work on his message, which is understood to have started during his trip.

Harrison Scores Executive. President Harding was attacked by a group of Harrison, a democrat, Mississippi, for visiting the capital last week and urging deferment of the soldiers' bonus bill. The president, Senator Harrison and his associates are being publicly rebuked early in his administration to avoid interfering with congressional proceedings.

Belmont Alone Stands Out. In Belmont, where 80 persons were wounded and 80 houses were burned.

Curfew is Reinforced as Result of Belfast Disorders. Belfast, (AP)—The curfew was reinforced today as a result of the disorders in Belfast and other parts of the only place in Ireland under the curfew regulations, despite the terms by which the curfew was raised earlier.

Quiet prevailed in all districts of the city this morning, following yesterday's disorders and bloodshed. Injuries at hospitals showed that persons who were injured and held in custody as a whole, progressing satisfactorily, although a few were believed to be in a critical condition. About 60 persons are still in the hospitals.

Personal Contact Aids. "Let me aid only one word," said the premier, "as to the part played in these events by the gathering in the streets taken by the conference to any the action taken by it conference would not have been taken in so prompt, effective and unanimous manner but for the intimate personal consultations between the promoters of the empire and the representatives of India which this gathering enabled us to enjoy. We have taken counsel together without reserve."

Extremists Cause Apprehension. The truth between the crown forces and the Irish republicans became effective at noon today, but there were apprehensions that extremists on both sides of the bitter controversy in Dublin would be asked to return. Fighting in Belfast, during which at least 15 persons were killed and nearly 100 injured, aroused grave fears over Ireland which might happen tomorrow. It appeared today that conversations between Mr. de Valera and the prime minister would revolve around raising the minimum status to Ireland on condition that the Sinn Fein demand for the establishment of an Irish republic would be abandoned. There are other serious questions to be decided, however, among them being the boycott of Ulster by South Ireland which has brought serious difficulties to the people of Ulster. There was hope to believe, however, that the conference was underway, no means of smoothing out present difficulties would be found.

De Valera's Outlook. It is a well known fact that Arthur Griffith, leader of the Sinn Fein; Professor John MacNeill, E. J. Duggan and Michael Staines, Sinn Fein member of parliament, will accompany Mr. de Valera to London to meet the premier. De Valera has not yet been announced.

COMMONWEALTH PREMIER'S

(Continued from page one)

house at this point. Mr. Lloyd George went on: "The main considerations in our mind and upon them we were unanimous. The object of our discussions was to find a method of combining the three aspects of the problem which would remove the danger of a heavy naval expenditure in the Pacific, with all the evils that such expenditure would entail and that would ensure the adoption of the most national interest in the Far East."

Position on Alliance Obvious. "We had first to ascertain our exact position in regard to the Anglo-Japanese agreement. There had been much doubt as to whether the settlement of the League of Nations last July constituted denunciation of the agreement."

If it did it would be necessary to decide on some interim measures which would be a temporary expedient pending fuller discussion with the Pacific powers, and negotiations with this object in view already are in progress."

Co-operation First Principle. "A broader discussion of the Far Eastern and Pacific policy to which we then turned showed a general agreement of opinion among the members of the imperial cabinet desiring to pursue. I have already explained that the first principle of our policy was friendly co-operation with the Pacific powers and that we are all agreed that upon this, more than any single factor, depends the peace and well being of the world."

It was also clear, as I have stated, to maintain our close friendship and cooperation with Japan. The greatest merit of that most valuable friendship is that harmonious relations exist between the two greatest Asiatic powers and this constitutes an essential safeguard to the well being of the British empire and peace of the world. We aim at preserving the open door in China and at giving the Chinese people every opportunity for peaceful progress and development."

Safeguard Own Interests. "In addition to these considerations we desire to safeguard our own vital interests in the Pacific and preclude any competition in naval armaments between the Pacific powers."

All the representatives of the empire were in complete agreement on these questions should be communicated with complete frankness to the United States, Japan and China with the object of reaching a general understanding which might lead to more formal discussions and a conference. Lord Curzon accordingly held conversations last week with the American and Chinese ministers, in which he communicated to them the views of the imperial cabinet and asked in turn for the views of the United States and China. It was expressed at these conversations the very strong hope that this exchange of views might if their government shared our desire in that regard, meet on the problems of the Pacific and the Far East."

The prime minister then made his reference to President Harding's dispatch which he spoke of as "momentous."

Harvey Quotes Message. President Harding's note regarding a conference on the limitation of armaments was received by the American embassy here yesterday and forwarded to Ambassador Harvey, who was in the country. The note was handed over to the American ambassador by the British foreign office early in the day. Lord Curzon, the secretary for foreign affairs, interviewed both Ambassadors Harvey and Baron Hiyashi, the Japanese ambassador, before leaving for the cabinet meeting. Later the Chinese minister called at the foreign office.

The preliminaries which led up to President Harding's invitation are understood here to have involved a long conversation between Ambassador Harding and the British foreign office. It was stated that the British foreign office early in the day. Lord Curzon, the secretary for foreign affairs, interviewed both Ambassadors Harvey and Baron Hiyashi, the Japanese ambassador, before leaving for the cabinet meeting. Later the Chinese minister called at the foreign office.

Satisfaction Is General. President Harding's proposal was the one topic of conversation in diplomatic quarters today. Expressions of approval and interest in the proposal were voiced at the Washington conference. If it were agreed upon, would only be comparable in importance to the Paris peace conference. Some of the dominion premiers called at the prime minister's official residence yesterday and attended the special conference met and considered President Harding's message. George Harvey, American ambassador to Great Britain, is expected to be present at today's sessions of the house of commons at which Prime Minister Lloyd George was expected to refer to the Pacific problem and make a statement regarding the proposal for a conference on limitation of armaments. Newspapers this morning gave the president's proposal in detail and most important comment there was, most appreciative of Mr. Harding's action.

Later, the market underwent a setback, owing more or less to gossip that the movement of new wheat was increasing. In addition, the Chicago elevator strike opened as a drag. TOURING ROUTE OF WATER WAY

Great Lakes Tidewater Association Institutes Five Weeks' Inspection Trip

NIAGARA FALLS, Ont. (AP)—Members of the Great Lakes Tidewater Association, a delegation from congress, governors of five states and a hundred or more business men of the east and central west began a four day tour of the route of the proposed Great Lakes-St. Lawrence deep-water way. They are to make a five days trip over Lake Ontario and the St. Lawrence river to Montreal and Québec, on the steamer Cape Elmore, tendered by the Canadian government.

A virtually all of today was taken up by an inspection of the new Welland canal which the Canadian government is spending one hundred million dollars.

The party was enlarged today by arrival of seven congressmen, including Will Williamson, of South Dakota, and George M. Young, of North Dakota. As members of the council of the association, governors and members of congress from several states, as well as cabinet members and engineers and economists were expected to make the tour. Among the states comprising the council are Illinois, Minnesota, Ohio, Indiana, Michigan, Wisconsin, Iowa, Colorado, Wyoming, North and South Dakota, Idaho, Missouri and Montana.

At Toronto, Ont., a wreath will be laid upon the graves of several soldiers killed in the war of 1912. Remains of soldiers were unearthed by workmen excavating for the new Welland canal and were re-interred by Canadian authorities.

The engineers recently completed their study of the problem involved in deepening the upper St. Lawrence and their report has been forwarded to Washington and Ottawa. It is expected to be made public at the late national joint commission, which recently heard testimony throughout the west and northwest upon the advantages of the project.

While the engineers' report has not been made public, unofficial estimates have placed the cost of deepening the St. Lawrence in a distance of 120 miles above Montreal at \$250,000,000. It is declared the necessary improvements will develop 1,750,000 horsepower.

Cloth Upholstery.

Cloth upholstery may be best cleaned by beating curtains and backs lightly with a stiff carpet beater, then the accumulated dirt is whisked off with a brush. Grease or oil may be removed by an application of lukewarm water and mild soap, applied with a woolen cloth. There are a number of woolen cleansers which will work very well on cloth upholstery, but gasoline and benzine have a tendency to spread instead of to remove dirt.

NEVADA SHOPMEN GET WAGE BOOST

Railway Labor Board Approved Increase to Meet Higher Living Costs

CHICAGO, (AP)—Shop employees of the Nevada Northern railway agreed an increase of 13 cents per hour over the rate of pay as of March 1, 1920, in a decision of the United States railway labor board, handed down today. The new rate is 97.58 cents per hour. The award is retroactive to May 1, 1920.

The Nevada Northern was not involved in the recent wage reductions and the shopmen will consequently continue to get the full amount granted by the 1920 wage award.

Living Costs Higher.

The employees contended before the board that they had always received higher wages in the Nevada mining section than those paid in other localities on account of the high cost of living, inconvenience of the isolated sections and similar reasons. Prior to the 1920 wage award, the shopmen received 84.38 cents an hour. Following the wage award, the company increased the rate to 85 cents, the standard set by the board through the increases granted. The employees contended that they should have had the increase of 13 cents named in the award over their previous wage. The board upheld this point and granted the increase.

On the basis of his having worked eight hours a day and 23 days per month from March 1, 1920, to July 1, 1921, each employee affected by the decision is now entitled to \$410 in back pay.

Claims Liberty Motive.

The company showed in its evidence that it was owned by the Nevada Consolidated Copper company and the high wages were paid to preserve liberty in the copper business and the liberality of the company. The company contended that it was operating at a loss at this time, and should not be compelled to pay higher wages.

Strings of Fish Ample Evidence of Great Sport

Local Waltons Return with Rare Catches Made on Sunday Trips Outside

Fishing was a popular sport with local Waltons yesterday, a number of parties being made up for Sunday trips to outing places where game fish play. All returned with very successful engagements along the streams. W. G. Thompson, assistant postmaster, and Byron Lanesport spent the day on Flat Creek and returned with good catches of the steelhead, and a few Kieffer, C. P. Wright and C. P. O'Griff went on Fish creek, where Carey and brought back ample material evidence of the fishing was satisfactory. John B. Taylor spent the day at Madras and brought back enough fish to make those who remained at home envious of the catch.

VENIRE IS EXHAUSTED; COURT ISSUES NEW CALL

Foreclosure Case Against Quinoy Foster Promises to be Long Drawn Out

In an effort to obtain 12 men called to both sides in the district court case of James H. Wike, trustee, against Quinoy Foster, and others, the panel was exhausted early today and Judge Babcock ordered the drawing of a special venire of 20 men to complete the list. This special venire was made reversible at 2 o'clock tomorrow. This case is one wherein claims amounting to nearly \$23,000 against an 80 acre farm in the Flater district are presented for adjudication. Attorney G. H. Wike was named as claimant, and for all claimants and brings the action for settlement in lump. Court attaches, as well as counsel engaged in the controversy, expect the case will occupy the attention of the court the major portion of the week.
