JAPAN REJECTS DISCUSSION OF VESTED RIGHTS

Cabinet Decides on Limits to Participation in Proposed Washington Conference, According to Tokio Press

CONSIDERS SHANTUNG AND YAP QUESTION SETTLE

Comment Indicates Recovery from First Shock of Surprise Caused by Invitation, but Disarmament is Dwarfed

TOKIO, (AP)—The Japanese cabinet, the Nichi Nichi (Morning Sun) has decided to participate in the proposed Washington conference with a general program of not discussing questions affecting vested rights...

A delegation of peers representing all the parties with Foreign Ministry today and questioned him concerning the conference, according to the Yomiuri Shimbun, Viscount Uchida expanded his views with relation to the conference and the Anglo-Japanese alliance, says the newspaper, and added that although the questions of Shantung and Siberia were popularly supposed to be included among those to be discussed by the conference, and might be so included, these matters had in fact been decided at the Paris conference.

Eato Oppose Coalition. In an interview in the Jiji Shimbun today, Viscount Kato, leader of the Toaikai, the opposition party, declares against the formation of a coalition government.

There is no need to propose a coalition cabinet, he is quoted as saying, because Japan is so strong that it is not necessary to ally itself with any other nation. It is to be expected, however, that the conference is to present her case openly and candidly. America is not a nation which refuses to withdraw from a position she is not prepared to abandon based on justice. Isolation must be avoided at all costs, but Japan is in no danger.

The comment on the Washington conference now appearing indicates that Japan is recovering from the first shock of surprise caused by the invitation, but expressing doubts as to the extent to which it will be able to participate in comparison with the importance of the proposition for a discussion of the Far Eastern problems and policies.

We should welcome the conference as affording an opportunity for Japan to dispel American misunderstanding and to initiate the Americans into the actual condition of the Far East, the editor of the Osaka Asahi writes.

So Japan on Trial. The press also presents the view of pessimists who forecast danger from the proposition. This America is pictured by some commentators as summoning the powers to as virtually to put Japan on trial for her foreign policy.

At Paris, Japan was the plaintiff; at Washington she will be the defendant, says the militarist Kokumin Shimbun in an article entitled "The American pressure threatens the Far East in the guise of disarmament conference." The Kokumin expresses the fear that such pressure on the part of the United States will deprive Japan of her special position in the Far East and affect her interests, particularly those in Kwang-Tung.

Views China as Calypso. "China seems so calm" for the Anglo-Japanese war, says the editor of the Osaka Asahi writes.

At Washington she will be the defendant, says the militarist Kokumin Shimbun in an article entitled "The American pressure threatens the Far East in the guise of disarmament conference." The Kokumin expresses the fear that such pressure on the part of the United States will deprive Japan of her special position in the Far East and affect her interests, particularly those in Kwang-Tung.

Replacements in Fleet Demanded by Lloyd George

British Premier Tells Commons it is Their Duty to Maintain Naval Efficiency

LONDON, (AP)—Mr. Lloyd George declared in the house of commons today that it was essential for the navy to proceed with the policy of replacing obsolete capital ships of the navy. It would be a dereliction of duty to allow the efficiency of the royal navy to deteriorate, the premier declared.

BOND ELECTION IS VALID, SAYS JUDGE BABCOCK

District Court Jurist Holds No Cause for Injunction in the Castelford Case

Trustees of Independent school district, No. 10, Castelford, may, according to a decision rendered by Judge W. A. Babcock of the district court, issue bonds for the erection of a high school building. The court has dissolved a temporary restraining order and ordered court action against the board dismissed.

Action by Judge Babcock, taken this morning, grew out of a suit and injunction instituted by R. C. Smith, a freeholder of the Castelford district, whereby an attempt was made to have a bond election held last spring, declared illegal. The ground on which the suit was based involved the legality of certain votes said to have been cast for the bonds, which carried by a small majority. Plaintiff declared, in a complaint prepared by Attorney Homer C. Mills, of Twin Falls, that Judge of election had permitted the casting of ballots for the bonds by persons not enfranchised and the rejection of legal ballots written against the bonds.

The court held that unqualified persons had voted on both sides of the issue, in making the election practically in accordance with the original and official count. The court maintains that the election is legal and stands in favor of bonds.

ILLINOIS GOVERNOR WILL NOT SUBMIT TO ARREST

State Executive, Charged with Embellishment, Stands on Prerogatives of Office

SPRINGFIELD, Ill., (AP)—Governor Len Small, of Illinois, will stand on the opinion of his counsel, and refuse to submit to arrest on warrants charging embelishment of the state treasury, conference name, issued yesterday following indictments of the governor, Lieutenant Governor Sterling and Veterans' committee.

Opinions held that the governor is immune from arrest were being drafted by his legal staff this afternoon and were presented to Judge Small later in the day. The warrant for the arrest of the governor was held up temporarily, pending discussion on the point of the executive's immunity from arrest.

The two other indicted are not in the county but have declared their intention to appear for trial.

FLASHES FROM THE WIRE

NEW YORK, (AP)—The forefinger of Patrolman Richard Faye, a rookie policeman, prevented disaster in Brooklyn yesterday, when he roped off two streets near Borough hall less than an hour before a corner three-story brick building he considered dangerous, crashed to the street. Adjacent streets were crowded with home goers.

RIO JANEIRO, (AP)—Work in newspaper offices in Rio Janeiro between the hours of eight o'clock Sunday morning and eight o'clock Monday morning, is prohibited under the provisions of an act passed yesterday by the municipal council. The local newspapers plan to discontinue Sunday afternoon and Monday morning editions.

PORTLAND, Ore., (AP)—The steamer Effingham of the Southern Pacific line, which struck the rocky bank of the Columbia river at Seila, Wash., Sunday night, was towed today under her own steam with sixteen feet of water in her forward hold. It had been reported previously that the Effingham had been sunk.

AUSTIN, Texas, (AP)—Representative Farnam today presented to Governor Pat M. Neff a petition bearing the signatures of forty-nine members of the house requesting the executive to submit a bill to the Texas legislature, now in special session, prescribing penalties which would be inflicted upon persons "disguising themselves and violating the laws of the state by inflicting punishment upon persons against whom no legal complaint has been filed."

AGRICULTURAL INQUIRY TURNS TO FARM CREDITS

Congressional Commission Summons Former Comptroller of Currency and Reserve Board Members

WASHINGTON, (AP)—The joint congressional commission of agriculture inquiry announced its decision today to take up the general question of agricultural credit, including the policy adopted by the federal reserve board and its effects on farmers. John Skelton Williams, former comptroller of the currency, will be held next Tuesday, as the first witness. Members of the federal reserve board will also appear.

LABOR REVOLTS OCCASION JAPANESE GRAVE CONCERN

Workers, Inflamed by Dispatch of Troops to Scene of Kobe Dockyards Strike, Threaten Organized Walkouts

TOKIO, (AP)—A tense situation appears to be developing between labor, on the one hand, and the government and capital on the other. The dispatch of troops to Kobe because of the situation created by the dockyard strike there has inflamed the workers, many of whom are protesting against the law which does not recognize labor unions. It also was decided to inaugurate a strike of two hundred thousand workers in Tokyo unless shorter hours and more wages were granted. The employer in government arsenal are taking a leading part in the agitation, being incensed by the refusal of the minister of war to receive a delegation of the new labor unions containing the demands of the employees and asserting the readiness of the men to sacrifice everything, if necessary, to obtain assurance of future relief. The same day the government sent a dispatch from that city Tuesday and another thousand workers in the Daimaru rubber factory have gone on strike.

STRIKES AND LOOKOUTS REPORTED FROM FORMOSA

TOKIO, (AP)—One thousand employees of the Formosa Sugar company in Kobe have been dismissed and the plants of the company closed, says a dispatch from that city Tuesday and another thousand workers in the Daimaru rubber factory have gone on strike.

SUMMERS TAKEN AFTER OPENING LIQUOR CACHE

Charles Summers is Accused by Authorities of Manufacturing "Moonshine"

Charles Summers, formerly a resident of Twin Falls and at present occupying a ranch seven miles southeast of this city, has been arrested and stands charged by county attorney of the illegal manufacture and bottling of liquor. Summers is out of custody on his own recognizance and may be called upon to give a satisfactory bond some time this evening.

Arrest of Summers was made in Twin Falls last evening by Patrolman W. R. Patton following a report made by county authorities against Summers, a farmer, who had a large quantity of alleged intoxicating liquor was being bottled. The liquor was found in a building on the place, together with a distilling worm. The rest of the manufacturing paraphernalia was not discovered.

According to Sheriff E. R. Sheinin, who led the raiding party against the Summers place, the liquor confiscated was contained in a 10-gallon keg. There was other evidence about the place, it is said, warranting the assumption that Summers was manufacturing moonshine. The two other indicted are not in the past few months. The farm is located near the sylvan of the low line canal.

FRANCE WILL REINFORCE TROOPS IN UPPER SILESIA

Determines on Policy of Precaution First, Decisions Afterward, Independent of Allies

LLOYD-GEORGE'S NOTE STRAINS FRANCO-BRITISH RELATIONSHIPS

PARIS, (AP)—France, it was declared in official circles this morning, will send reinforcements to Upper Silesia whether or not Great Britain joins in the movement. The French move will be made, it was declared, to insure the safety of the ten thousand French soldiers already on the ground there.

Premier Briand sent a note yesterday in reply to the British note on the Silesia issue, expressing his conviction that the supreme council could serve any useful purpose by conveying before measures are taken to assure order and provide for the security of the allied troops now in the district. News received here today from Oppeln was far from reassuring. The attitude of the German press, as interpreted by the French dispatches, was increasingly provocative.

Between Two Fires. France, it is declared, recognizes that danger threatens from the side of the Poles as well as from the German side, making it doubly necessary, in the French view, to increase the allied troops.

Precautions first, decisions afterward, probably will remain the French view, it is indicated, unless there are unforeseen developments.

French official circles received a distinct shock from the British government's reply to the French suggestion that allied reinforcements be sent to Upper Silesia, and in some quarters today, Anglo-French relations are described as critical as a result. The French government is said to have been unprepared for "the reversal and unyielding tone" that this morning's newspapers indicate characterize the British communication.

Charge Hasty Action. Editorial comment suggested that the French prime minister, David Lloyd George, acted too hastily in refusing to agree with the French view that additional allied troops were necessary in Upper Silesia. The comment also declared that he failed to inform himself fully regarding the necessity of prompt allied action, and that had he waited a few hours longer, he would have had before him a unanimous report from the allied high commissioners at Oppeln, in which it is urged that immediate reinforcements be sent.

Comity Not Endangered. While most newspapers agree that the incident brings Anglo-French relations to a critical point, the London Journal says the problem is not insoluble and in its final analysis, not of a nature to seriously trouble the comity of allied relations.

PARLEY CLOSE WITHOUT BASIS OF BRUSH PEACE

De Valera Returns to Dublin after Receiving Lloyd-George's Suggestions for Continuation of Conferences

AGAIN EXPRESSES WISH FOR END OF HOSTILITIES

Laoconic Communiqué Sheds No Light on Whether Proposals Were Rejected or Taken to Erin for Consideration

LONDON, (AP)—The conversations between Mr. Lloyd George and Eamon de Valera, from which it was hoped the basis for an Irish peace conference might emerge, have been terminated for the present without that objective having been attained.

At the final meeting of the British prime minister and the Irish republican leader today, Mr. Lloyd George submitted definite proposals which were represented as the considered judgment of himself and his cabinet as constituting suitable ground for a full fledged peace treaty, based upon his interviews of the past week with Mr. De Valera and Sir James Craig, the Ulster premier.

Whether they met with a flat rejection by the Irish republican leader or were taken by him without comment for later consideration, his colleagues in Dublin, in his hope they might contain the nucleus for negotiations, was expounded by the brief joint communiqué issued after the meeting. (AP)

LYDA SOUTHARD IS DENIED BAIL PETITIONED FOR

Judge Babcock Holds that Proof of Guilt of Murder is Strong Against Woman

Holding that the "evidence of guilt is strong and the presumption of guilt great," Judge Babcock of the district court, this morning denied petition of W. P. Guthrie and Homer O. Mills, attorneys for admission of their client, Lyda Meyer Southard to bail. Mrs. Southard, accused of murder of Edward F. Meyer, her fourth husband, will be held in the county jail for trial next fall.

Motion for admission of Mrs. Southard to bail was offered in the district court on Monday of this week, the petition for admission of the defendant, Lyda Meyer Southard to bail, was granted by Attorney Guthrie. Counsel argues that the testimony submitted before Judge O. P. Davall of the probate court in preliminary hearing had not justly holding the accused woman in jail pending the bringing of the case to trial. For the state, Attorney Frank L. Stank, who is appearing on the other hand, said the presumption of guilt was ample to warrant retention of the defendant in jail without option of bond.

Summers' denial of the bail application Judge Babcock said: "After considering depositions this court is of the opinion that proof of guilt is strong and the presumption of guilt great. It is not with it to be understood, however, that I mean to say the applicant is guilty or that her innocence cannot be shown on trial. The court is merely passing on the testimony on record, before it. On this alone is the court's opinion predicated and the application of counsel denied."

Klan Donates \$500 to Homeless Tots Care

DALLAS, Texas, (AP)—Knights of the Ku Klux Klan have contributed \$500 to the support of Hope cottage here, dedicated to the care of homeless children. The money was mailed to the Dallas newspaper yesterday with a letter saying a number of infants being cared for by the institution "are due directly to law enforcement of the Klan's condition" which must be met.

WHISKEY POSSESSION LANDS CONDIE IN JAIL

Arrested on Disturbance Charge Defendant is Found to Have Bottle of Booze

On arraignment in the district court this morning to answer a charge of illegal possession of intoxicating liquor Robert J. Condie admitted guilt and was sentenced by Judge Babcock to serve 30 days in the county jail and to pay a fine of \$100. He was returned to jail until the penalty is paid.

OFFICERS TRAIL JUD DEPARTERS

Five John Doe Warrants in the Hands of Police Seeking the Mob Leaders

MODesto, Cal., (AP)—James Shea, president of local No. 10, Fruit and Vegetable Workers' Union and former member of the San Francisco club in the Pacific coast baseball league, was arrested at Turlock today on a charge of kidnaping and inciting a riot in connection with the deportation of a group of Japanese laborers from the Turlock district yesterday.

HOUSE REJECTS EMBARGO ON DYE

Adopts Amendments Putting Oil and Asphalt on Tariff Bill Free List

WASHINGTON, D. C., (AP)—The three-year dye embargo provision, the House today rejected a tariff bill to come before the house proper for a vote was rejected today, 209 to 199.

The amendment to put crude and fuel oil back on the free list was adopted a narrow vote without a record vote.

Asphalt was also put on the free list with a roll call. Chairman Fidelity announcing that the previous vote on this schedule was so overwhelming it was unnecessary to vote again.

It was voted 217 to 198, the house today adopted an amendment to the tariff bill fixing a duty of 15 per cent on dyes.

Alleged were put on the free list with a roll call. Chairman Fidelity announcing that the previous vote on this schedule was so overwhelming it was unnecessary to vote again.

GOVERNOR STEPHENS DEFENDS RIGHTS OF ALIENS IN STATE

LOS ANGELES, Cal., (AP)—The rights of Japanese in California, and all other aliens resident in the state, must be observed, according to a statement issued today by Governor Stephens, referring to the deportation of the Japanese fruit pickers from Turlock on Tuesday night.

DE VALERA NAMED CHANCELLOR OF UNIVERSITY OF IRELAND

DUBLIN, (AP)—Eamon de Valera, the Irish republican leader, was elected chancellor of the National University of Ireland at a convention of the governing body of the institution to-day. No other name was submitted for the office.

ARGUES LARGE FOREIGN TRADE VITAL TO U. S.

Chicago Banker Tells Financiers Conclude Prosperity of American Industry Hinges on Commerce with Nations

MINNEAPOLIS, (AP)—When "America First" is made to mean "America First" in the sense of American foreign trade, it is not well said, Dr. Walter Lichtenstein, executive secretary of the First National Bank of Chicago, told a meeting of financiers here today. On the contrary, he held a large foreign trade is vital to the prosperity of some of the most important of America's business, particularly agriculture.

"All of us believe in America First," Dr. Lichtenstein said. "That is what we are here for, to do everything possible to aid and develop the business of our own country. But we are not giving aid and comfort if we support a policy which is based upon the theory that our foreign trade is unimportant and that conditions will right themselves if we will only look to our own affairs."

Five Per Cent Outlook

"It is true that our foreign trade amounts to only five per cent of the total business done in this country, but, in the first place, any business man will tell you that five per cent of the total business done in this country, remember that this is not a general average including every commercial and manufacturing activity known to the most important of all industries, however, however, the foreign trade is vastly larger than merely five per cent. We must export 200,000,000 to 300,000,000 bushels of wheat. Of the 10,000,000 to 12,000,000 bushels of cotton which we produce yearly, 6,000,000 bushels must be sent abroad in order to find a market, and in Chicago we receive the largest quantity of raw materials, so vital to the business of the Middle West, cannot prosper without a large foreign trade."

Farmer Especially Interested

"In short, the people who cultivate our soil and who comprise nearly half of our population cannot find a market for a large proportion of their products unless they can find foreign buyers for them. Now, then, we can see that domestic business to prosper, unless foreign trade prospers, and how can foreign trade prosper unless our customers in the international field are prosperous?"

"Surely, we want to set our own house in order, but a part of this setting in order must be the extending of credits to our customers abroad."

American railroads, farms and many of the other industries of the country were developed during the nineteenth century largely by British, French, German and Dutch capital invested in fixed assets in this country, Dr. Lichtenstein added. "It behoves us now," he said, "to put Europe on its feet by using our surplus means in a similar manner."

Weekly Bulletin on Water Supply

The following weekly bulletin, issued by General Manager J. C. Whoolen of the Twin Falls Canal company, shows the condition of water supply for the irrigated section on July 21, 1921, to the storage features at Milner and Jackson lakes:

Water diverted from Milner dam, 8500 acre feet; water foreseen natural flow, 2935 second feet; water diverted stored water, 655 second feet; water passing Milner dam as waste, 22 second feet (exclusive of surplus).

Our total capacity in Jackson lake, 97,183 acre feet; our total draft on Jackson lake to date 13,510 acre feet; plus 5 per cent loss, 1650 acre feet; on 14,800 acre feet. Total, 25,295 acre feet.

"As a tribute to American soldiers who fell in the Great War, a large warship was officially placed in the American cemetery at Winchester, England, on Memorial day.

WHEAT TARIFF IS NOT FEARED BY CANADIANS

Dominion Growers Organization Head Says Americans Handicap Themselves

REGINA, Sask., (AP)—Wheat prices in the Canadian west will not be affected by the new American tariff, except insofar as this interference with free shipment to the United States may be exploited by market manipulators, according to an opinion expressed by J. B. Muscellman, central secretary for the Saskatchewan Grain Growers' association, in a recent interview.

"So long as the United States requires western Canadian hard wheat for blending with their own winter wheat it would seem that her own people will have to pay the import duty on it, be it added to competitive wheat," said Mr. Muscellman. "The United States millers will be under a handicap in competing with Canadian millers when it is considered that imported wheat is used for blending in making flour for use in Europe."

"The effect of this tariff on our wheat industry is likely to be very much more detrimental to the farmers of this country, especially as Canada has practically no other market for her wheat," he continued. "The tariff for Canada to do is to leave no stone unturned in building up export markets for her commodities, and in perfecting financial and marketing arrangements that will leave her producers under no handicap in meeting the competition of the United States in the markets of the world."

MONTANANS VIEW OBSCURE PROSPECT WITH LESS OPTIMISM

HELENA, Mont., (AP)—Crop reports from 20 counties well distributed over Montana are less optimistic, due to the hot weather of early July, according to the statement of the department of agriculture, labor and industry here. More than half the counties tell of crop damage. Corn, with an increased acreage over last year, shows excellent prospects. The hay harvest is heavy, but the harvest of winter grain has already begun in some localities. Twelve counties reported damage by grasshoppers, but efforts to combat the pests with poison have proved successful where used. Fallon county has had hail in several sections.

Deserted Wife on Trail of Talking Bird and Tobacco

Mrs. William Hawes in Search of Run-Away Husband and "Another Woman"

CROOKSTON, Minn., (AP)—The trail of a talking parrot and tobacco pipe is being followed by Mrs. William Hawes, in search of her runaway husband, who, she asserts, is making for Canada with another woman. The trail was a week old when the deserted wife took up the search.

Without funds, Mrs. Hawes declared she had followed her husband to their new home in West Virginia. Some times speaking from town to town, sometimes riding on railroad cars and at other times getting a "lift" from passing automobiles, Mrs. Hawes made it a point to ask at every town she visited: "Have you seen a man who smoked tobacco with a woman and a talking parrot in an automobile? The combination was always remembered, if seen," she said.

"She believed her husband is headed for Winifred and hopes to track the party before it gets to reclaim her parrot, her automobile and, if possible, her husband."

MONTANA STATE COLLEGE ENLISTS NEW INSTRUCTORS

BOZEMAN, Mont., (AP)—A. L. McMahon of Madison, Wis., has been appointed instructor in animal husbandry at Montana State college. It was announced recently. Mr. McMahon was a student at Montana State college for two years before enlisting in the army. He completed his course in the University of Wisconsin following the war. Irving E. Jensen of Logan, Utah, has taken up his work at the state college as an instructor in agronomy. Mr. Jensen is a graduate of the Utah Agricultural college, class of 1918.

Allied Interest Bill Reaches \$944,534,755

WASHINGTON, D. C., (AP)—Interest of \$14,547,755 now is owed the United States on allied war debts. Assistant Secretary Wadsworth of the treasury department told the senate finance committee today. He submitted a detailed statement of delinquent interest and said that \$75,000,000 in interest had been paid by the debtor nations.

WOULD USE RADIO FOR GOVERNMENT BULLETINS

Commission Named by Postmaster-General and Secretary of Agriculture Makes Suggestion

WASHINGTON, D. C., (AP)—A wireless telephone news service for farmers and business organizations made up of government information, including market reports, was proposed today by members of the national radio service commission in session here. The commission was appointed by Postmaster-General Hays and Secretary of Agriculture Wallace.

Proponents of the service said the government information, including market reports, was proposed today by members of the national radio service commission in session here. The commission was appointed by Postmaster-General Hays and Secretary of Agriculture Wallace.

BANK OF ENGLAND CUTS ITS RATE OF DISCOUNT

Announces Reduction of from Six Per Cent to Five and One-Half Per Cent

LONDON, (AP)—The Bank of England today reduced its rate of discount from 6 per cent to 5 1/2 per cent. Announcement of the reduction removed the uncertainty which has been prevalent in the money market during the past few weeks.

The chief factor paving the way for the reduction has been cheaper money, which was brought about by the stagnation in trade and the inflation of credits through government borrowing.

GIVES WAR RISK FIGURES

Treasury Secretary Reports \$386,835 Policies Lapsed by May, 1921

WASHINGTON, D. C., (AP)—Information regarding war risk insurance policies was transmitted by Secretary Mellon yesterday to the senate, answering a resolution by Sen. Walsh, democrat, Massachusetts. When the armistice was declared, Secretary Mellon reported, 4,439,664 war risk insurance policies were in force, \$386,835 of which lapsed by May 21, 1921. Reinstated policies since May 21, were placed at 210,495.

Back To The Farm

It was easy enough to urge others to go back to the farm, but until electricity began to supply its energy and convenience in the rural districts, few persons were willing themselves to go back.

Now on many farms throughout the country part of the work in the field is done by electric power, while the house is lighted and household conveniences are made possible. On such farms, life is different from what it used to be. A large part of the hardest work has been lifted from the shoulders of agriculture, and the back-to-the-farm movement has been accelerated.

There are 6,500,000 families living on "farms" in this country. The arduous lives of 2,000,000 of these families have been made more endurable by the introduction of electrical appliances, and their labor problems have been partly solved by the "burden-bearer," electricity.

Extension of such service to the farms not now enjoying it means that vast new capital must be invested. The electric light and power industry is regulated by the States, and the wages paid to the capital which must be employed in the industry likewise are fixed. As such wages are fixed fairly, more capital will be forthcoming to permit the extension of service to the farms, and city homes, and industries still calling for it.

Irrigation of millions of acres of land by electric pumping shows the importance of electricity to the development of agriculture. Utilization of electric power for many farm chores and tasks has helped solve the farm labor question and has reduced the cost of production of food stuffs, thus aiding in the battle against the High Cost of Living.

Extension of service to individual farms and farming communities requires large plant and distribution system investments, money for which can be "hired" only when companies are enabled to earn a return sufficient to attract additional money in competition with other industries also seeking new capital.

Member Audit Bureau of Circulations

THIS WOULD HELP.

A sincere and intelligent interest in the welfare of the Twin Falls country lies behind the suggestion lately made that looks toward the establishment here of a cannery or similar institution to consume a potential production of peas.

The Twin Falls country has real need of such an enterprise; that would rank in importance alongside the engineering and dairy products industries. Outside of his monthly cream check, the Twin Falls country farmer has no stable source of revenue at this season of the year. Production of peas with the certainty of market that the cannery would afford, would meet the exigencies of this situation and would bring into the community a flood of revenue in the early summer months that would be comparable to the settlement made in the fall and winter months for sugar beets.

Besides this, the cultivation of peas would prove a valuable factor in any scheme of crop rotation. The suggestion is worthy of, and should receive careful consideration.

UP STREAM OR DOWN?

Advices from Chicago are to the effect that the middlemen of the country, especially in the grain trade, are aroused and are preparing to launch a campaign in opposition to the several producers' movements among which the co-operative scheme of grain marketing may perhaps serve as an outstanding example.

But why should they? Certainly it will be admitted that the grower of grain has the right to sell it as he sees fit either individually or collectively.

If the grower elects to essay this function for himself it would seem inadvisable to seek to deter or hinder him by throwing obstacles in his path. Sooner or later the grower is going to come to the conclusion that the services of a middleman, whether one chosen from among his own ranks and trained at his expense or one trained in the school of existing commercial relations and drafted into the service of the producers, is an indispensable factor in successful marketing.

It would seem likely to occur to some at least of the grain dealer that a field of opportunity for themselves lies in the line of co-operation with, rather than in resistance to the producers' movement.

THE CROP PROSPECTS.

The forecast of the United States department of agriculture, based on the condition of the crops July 1, and indicating yields, with the possible exception of corn, considerably lower than those of last year, does not necessarily mean that the year is to be a poorer one for the farmers than 1920 was. From the standpoint of the farmer there was over-production of a number of crops last year and the prices they received fell to points which returned little or no profits. With Europe increasing its own output of agricultural products and unwilling to buy extensively of our crops except on terms of credit which we are unable to give, it may be just as well for us to cut down production.

It was the sharp slump in prices of farm products that started the depression in commerce and industry. The farmers constitute an important reaction of the buying public, and when their purchasing power was seriously curtailed it was inevitable that demand in all lines of business should slacken. With a return of prosperity to the farmer the whole country will benefit.

If the drop in the prices received by the grower for his crops were passed on to the ultimate consumer it would not be so regrettable as it is; but no such reductions have occurred in the prices of bread, cotton and wool goods, shoes and cigars as were noted last year in wheat, cotton, wool, hides and tobacco.

CANAL TRAFFIC DECLINES

Month of June Shows Lightest Use of Panama Cut in Fiscal Year

WASHINGTON, D. C., (AP)—Commercial traffic through the Panama canal during June was the lowest for any month in the last fiscal year in tonnage, number of vessels and tolls collected, according to a report today by the Panama canal office. The number of commercial vessels was 102, as compared with 210 in the preceding month and 201 in June, 1920, while tolls collected were \$751,967, against \$835,900 in May, and \$711,268 in the preceding June.

Despite the falling off in traffic during the last three months of the fiscal year, however, the tolls for the year amounted to \$11,274,859, against \$9,519,933 for the year preceding.

NET MATCHES.

CLEVELAND, O., (AP)—Players from Pittsburgh, Detroit, Indianapolis and San Francisco will open the second annual national inter-city tennis championship double matches here today. The first game is scheduled for three o'clock this afternoon.

Howard and Robert Kinsey of San Francisco and Messrs. Muz and Penon of Detroit are scheduled to meet in the second contest.

The cost of producing a ton of hard coal is from two and a half to three times as great as for mining a ton of bituminous coal because the beds are steeper and generally inclined at steep angles than those of the soft coal.

SPORT CLOTHES

Are all the Vogue
Make Yours

Fabrics in a multitude of weaves with gay colorings are the acceptable things. Cloths that are cool in appearance and comfortable to wear are what is wanted.
 You'll find your sport material at low prices here and sport garments, made up, now at further reductions.

Baronette Satin \$3.95 Yd.
 This wonderfully lustrous satin for sport skirts is 36 inches wide. The white is beautiful to wear with bright colored silk smocks, comes in plain and jaquard patterns. We also have it in pearl grey, peach, navy and rose at \$3.95.

Fancy Corded Sport Silk for \$4.95
 Beautiful two-toned effects in green and gold, blue and gold, grey and white, and all white. Very soft and pretty. 36 inches wide. Now \$4.95

All Wool Army Blankets For Camp—For Porch—For Home
 These for \$3.95 are the best values we ever saw any time—absolutely old fashioned all wool O. D. blankets. Passed government inspection, sold by the war department—are not the mere cheap cotton mixed kind. Very special \$3.95

Play Suits For 29c Yard
 A genuine Amoskeag cloth, 32 in wide—fast colors in various colored stripes, wears like iron. Make it up for the kiddies.

36 Inch Tricolette For \$1.95
 In the most charming bright colors, the lively shades that spells sport wear. Make up into smocks, blouses, skirts, dresses. By combining colors beautiful effects are accomplished. Comes in rose, tomato, taupe, pearl, blues, lavender, wine, and tan. It also makes attractive pillows, tubular 1-2 yd.

Wool Jersey Is Adapted for Sport Wear \$3.50 Yard
 Practical and becoming. It's 54 inches wide. Don't require much. Butterick Deltor patterns tell the amount to the inch. You can't go wrong. Sport shades such as rose, Kelly green, scarab green, purple and greys, also heather. Two weights are here—It's good for hard wear and street wear. It fills a place that nothing can supplant.

Real Genuine Handkerchief Linen \$1.75 Yd.
 It's much used for dresses, ladies or girls,

White Skirting Is Popular
 Many like to wear a pretty white skirt with a bright colored crepe smock or blouse. These white skirtings are extra quality, from 50c and 75c to \$1.50 a yard for 36 inch, and the genuine Jap crepe is 50c yard in fast colors.

Voiles In Sport Patterns
 With sport styles so popular the voile man had to make some of his goods in sport colors and sport patterns, so cool and so comfy. 40 inch voiles 39c, 50c to \$1.00

New Gingham For 30c Yard
 A case of fall gingham received this week opened to you now. It's a nice fine quality, fast colors, and pretty plaids, stripes and checks. If you're going for an outing you'll want some new gingham dresses.

New Shipment of White Shoes for Children
 Just in this week. Our prices have been so reasonable on these pumps and oxfords we had to get more of them. We are able again to fit most of the feet. And don't forget the children's sox and hose. You get more wear for your money out of Booth hose.

Organdies and More Organdies
 In all their crispy brightness. We have ordered and re-ordered them over and over again. Customers have appreciated the permanent finish and washing qualities of our organdies. Bright colors and subdued shades. \$1.00 per yard and up.

Don't overlook our comfortable sport models in corsets
 New models in satin and coutil Be fitted

History Reveals Stormy Career of Baltic State Destined to Serve Either as Barrier or Gateway to Russia

WASHINGTON, D. C. — "World attention has been focused so closely upon storm centers of Central and Southern Europe that comparatively little has been heard of the new nation carved from Russia along the Baltic sea," says a bulletin from the Washington, D. C., headquarters of the National Geographic Society.

"But with the gradual resumption of commerce between Russia and the outside world Estonia and Latvia will assume a most important aspect, either as barriers or gateways to interior Russia.

"Much, too, has been written of the oppressions of other subject peoples. The Estonians might well claim to be the peers of any national sufferers since medieval times because they have been sore beset both by Germans and Russians.

Revered by Russians and Germans.

"From the earliest of the last century until the world war period Estonia bore the double yoke of Tsarist laws administered by German officials. As one writer explains, 'Heaven preserve us from German law as interpreted by German! The Russian official may not take a Russian law very seriously, but one can be sure that the German officials will.'

"One must go far back into Estonian history to trace the origin of this double yoke, and the student of human geography the emergence to a sudden independence of a people so long submerged will make an experiment worth watching.

"The Esths are an aboriginal people of northern Europe who once terrorized the Baltic by piracy, and later clashed often with Swedes and Danes.

"The Esths are an aboriginal people of northern Europe who once terrorized the Baltic by piracy, and later clashed often with Swedes and Danes.

"The Esths are an aboriginal people of northern Europe who once terrorized the Baltic by piracy, and later clashed often with Swedes and Danes.

Opposed in Guise of Conservatism.

"Few nations can show so consistent a record of conquest under the guise of conservatism as the Estonians. The Russes came to baptize them at the point of the sword; then entered the Knights of the Sword, coming in the robes of crusaders and remaining for some six centuries as overlords. During the long era of German ascendancy the country became thoroughly Protestant.

"Within the past half century the Russians unlearned strenuous methods to gather the Esths into the fold of their Orthodox church. Long experience taught these people the wisdom of avoiding 'crusades' and they returned to their fold. But when they tried this expedient after the visits of Russian priests they found it a civil crime to withhold from the Russian church after having entered it. Moreover for a Protestant clergyman to marry a man or woman who belonged to the Russian church was punishable by imprisonment.

"The rugged endurance of this northern people, their vitality and spirit, is sufficiently shown by their hearing up under oppression that was heavier in religious and political, and from the political standpoint both Russian and Prussian. Perhaps their Mosquito descent helps record for that."

Revered and Nature Unkind.

"Before the world war Estonia was accounted one of the most progressive regions agriculturally in Russia. No place is so severely kind to the Esths than Russia. They live in a low swampy country nowhere as high above sea level as the base to top height of the Washington monument. Their summers are hot, their winters cold.

"The people have an especial love for song, are industrious and progressive, and their struggle to gain a livelihood from the soil rather than a livelihood of enterprise accounts for the fact that some of their smaller villages have been described as being among the most non-descript and least lovely in all Europe.

"It should be noted that the free Esths recognized by many European governments comprises more than the old Russian Estonia. A part of Livonia is included in the new state, while the southern part of Livonia, along the Courland, goes to make up Latvia. The Estonians and the Letts have less in common than one might expect of two neighbor peoples who have suffered for centuries the same slings of outrageous national fortune.

Barons of First Big Trust.

"Several, by separate city, betray a German influence, and has been described by some visitors as akin to a middle-class German town. It has had a commanding position in commerce since

Let the Wedding Bells Ring Out

Urge Universal Adoption of American Cotton Standards Before Conference

A strong plea for the establishment of universal standards for American cotton was made before the International Cotton conference in session at Liverpool, England, by William H. Meadows, of the United States department of agriculture. As a means for carrying into effect the plan outlined in his address before the assembly, Mr. Meadows introduced a resolution, in effect, providing:

"That the official cotton standards of the United States, with such modifications as may be determined upon, should be adopted and universally accepted as the sole recognized standards of classification of American cotton; and that a committee of influential representatives and recognized experts of the cotton industry be appointed to cooperate with the Liverpool Cotton Association and the United States department of agriculture in taking the necessary steps at the earliest practicable date to accomplish this purpose, including the consideration and agreement upon any changes or modifications of existing standards that may be deemed necessary."

Favored by Growers and Exchanges

Practically all of the American cotton exchanges, he told the conference, are in agreement with the idea of uniform standards. Many of the leading American cotton firms have expressed similar views. Association representing producers have likewise favored the establishment of a single set of standards. The American cotton trade almost cordially favors the establishment of uniform standards, he said.

"The simplest way, it seems to me, in bringing about the establishment of universal standards for American cotton," Mr. Meadows said, "would be for the leading cotton exchanges of Europe to adopt the official cotton standards of the United States for American upland cotton as they now exist, since they have already been considered and approved by competent officials of the leading European exchanges. As here used the term 'Upland' includes all

it was one of the 85 city members of the first giant trust, the Haasestrasse. But it has Russian link marks, notably the Tower of St. Olaf, one of the tallest in Russia, which would set up the Times building in New York."

"Drapet is the Cambridge of Estonia—perhaps the Heidelberg of Estonia would be the better application, since Drapet was a seat of German influence. The University of Drapet was founded by Gustavus Adolphus twelve years after the Pilgrims set foot on Plymouth Rock and more than a century before the next greatest university in pre-war Russia, that at Moscow."

growths of cotton within the United States except Sea Island, Monois, and American Egyptian or Pima. It is thought that there will be no question regarding the United States official cotton standards for determining length of staple as that standard is a basic, descriptive one on which interested parties should find no difficulty in agreeing, inasmuch as character in cotton is not covered by these standards."

Mr. Meadows explained that he meant to imply no criticism of any other standards, and that his recommendation was made solely for sound, practical purposes. They have the sanction and recognition of the laws of the United States, and that government assures their accuracy, he said.

MARINE CORPS BOMBERS LAND ON GERMAN BOAT

NOFOLK, Va., (AP)—Four direct hits were scored by the marine corps planes in the first attack launched Wednesday against the former German battleship Ostfriesland. Two of the hits were with live bombs which exploded, and the other two were "duds."

THOUSANDS EKE OUT EXISTENCE IN WAR'S CAVES

Dugouts Along Old German-Russian Trench Line of 1917 Afford Shelter to Peasants Returning to Wrecked Homes

WARSAW, (AP)—Inspectors of the American Red Cross administration of the European Children's fund which is feeding 3,000,000 children in Poland have just explored districts along the eastern frontier of the new republic where thousands of peasants made homeless by war are living in soldiers' dugouts and where no white bread has been seen in more than three years. Therefore, it has been almost impossible to reach these areas chiefly because of lack of transportation.

In the Tripit marsh country, between Pinsk and the Russian border, an inspector reported that after reaching the railroad terminal he had traveled two days by automobile, then by boat and by horseback to visit people who had been reported in need. Poles had been the principal food upon which these people existed during the winter, the inspectors reported, and with the coming of spring, many women and children lived chiefly upon cooked grass, rancidness and some farm products.

Find Shelter in Dugouts. At various points along the frontier, which follows the old German-Russian trench line of 1917, peasants who had been driven from their homes by advancing armies, had been wandering to find their homes demolished and virtually everything gone excepting the bare land. They have taken to the dugouts for shelter until they are able to build shacks upon their holdings.

In scores of villages in this battle are not one house has been left standing. There were demolished either during the fighting between the Russians and the Germans or afterward when the Bolsheviks invaded territory which is now a part of Poland. No attempt has been made to reorganize these areas.

In 1914 the village of Tolydy had 121 buildings. Not a house is left standing. Of the inhabitants about 500 are living in dugouts and 89 other persons have sought shelter in nearby barracks. Three hundred persons who claim to be natives of the same town are all living in dugouts.

Former Village in Ruins. When the German and Russian armies clashed, Lubiszew, was a thriving village of 605 buildings. Twenty houses are now standing, some badly damaged by shellfire. There 800 persons are living in barracks and the 20 houses.

Because of the shortage of houses it was a common sight in these districts, according to the inspectors' reports, to see men and women pulling plows in the fields. Arrangements have been made by the relief administration officials to get food to these districts as soon as possible and during the summer, kitchens will be established where all children up to 17 years of age will receive one full meal each day.

PLANES PRECURSORS TO RAILS IN REMOTE AREAS

British Air Ministry Announces Opening of Aerial Route Across Near Eastern Desert Region

LONDON, (AP)—Regions that would have to wait many years before they could be traversed by rail are now being reached by aerial transport. News comes today from the air ministry that a new air route has been opened up across the desert between Palestine and Mesopotamia. No difficulties have been received of the arrival at Baghdad of three airplanes of the Royal Air Force which have flown over this route.

The new route is about 530 miles long. It is an extension of the present Cairo-Ramleh route. It starts from Ramleh, where is the main Royal Air Force aerodrome in Palestine, passes through Amman (east of the Jordan) and Kasr Azrak, where landing grounds have been prepared, and proceeds thence in an almost straight line across the Arabian desert to Hamadi on the Euphrates, and thence to Baghdad.

The distances between the principal stations are as follows: Ramleh to Amman, 65 miles; Amman to Kasr Azrak, 55 miles; Kasr Azrak to Hamadi, 400 miles; Hamadi to Baghdad, 60 miles.

Chinese railways have free boiling water at each important station. A boiler under a queer-looking circular roof furnishes the water for the making of tea.

UPHOLDS WIFE'S RIGHT TO CHOOSE COMPANIONS

Florida Court Delivers Ruffert to Husband who Objected to Conduct of His Spouse

TALLAHASSEE Fla., (AP)—A wife has a right to be alone with a man friend on a public highway without interference from her husband, according to a recent decision of the Florida Supreme court.

The case came up through a husband's complaint that his wife was riding alone with another man. He attacked the man, and as a result of the fight that ensued his wife's companion was convicted of assault with intent to commit murder. The state supreme court reversed the lower tribunal.

"There may have been a time when a wife was regarded as her husband's chattel, and being out alone on a public road with another man regarded as sufficient provocation to justify his husband in making an assault upon her companion, but this is no longer true, when women enjoy equal freedom with men," said the opinion, read by Chief Justice Brown.

"The mere walking or driving of a

married woman with another man, or a married man with another woman, is not sufficient provocation to justify an assault by either spouse and the greater freedom of intercourse between men and women in this day protects them from unwarranted attacks by a jealous husband or wife, who sees in innocent acts of social intercourse confirmations strong as proofs of holy writ that they are flagrantly immoral."

TAR AND FEATHER VICTIM RELEASED ON STREET CORNER

LUPKIN Texas, (AP)—Billy, about thirty years old, was seized last night by masked men, given a coat of tar and feathers and released from an automobile on a prominent corner as the evening show patrons were passing. Billy ran through the business streets to his automobile and left hurriedly for his home in Dillet, about ten miles from here.

The Orage Indians are one of the richest people in the world per capita. Recent sales at auction of thirty thousand acres of Indian reservation, oil lands near Tulsa for four and one-half million dollars plus a bonus of one-sixth of the oil produced was recently approved by the Interior department.

Seven companies control seventy per cent of the total output of anthracite coal in the United States. The remaining thirty per cent comes from mines operated by less than one hundred companies and individuals.

MOSCOW RENEWS HOPE OF RELIEF IN FOOD CRISIS

Importations of Breadstuffs and Flour Coming In from Abroad and the Provinces

MOSCOW, (AP)—Moscow papers say that the local food crisis there should now be over, as food shipments have come in both from abroad and from the provinces, and that regular distribution should now proceed. The basis of current distribution of bread is, however, only three pounds for five days to workmen of the "preferred" classes, and only one pound for five days to the "non-preferred" classes. The former are also to get four pounds of herring. Reports from Petrograd state that 41,000 tons of foodstuffs, mostly flour, herring, beans, rice, etc., have either arrived or are en route for the capital. More than 1,000,000 scythes and thousands of other agricultural implements have already arrived there.

BRITAIN REDUCES DEBTS

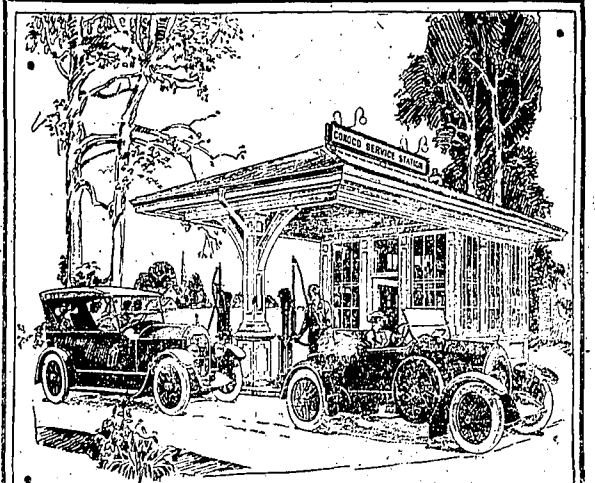

Cuts Down Amount Owed Foreign Creditors by 117,151,000 Pounds

LONDON, (AP)—Great Britain's external debt now amounts to 1,161,503,000 pounds, a decrease for the year ending March 31 of 117,151,000 pounds, an official return states.

The chief creditors are the United States, 972,704,000 pounds, and Canada, 53,329,000 pounds.

BATON ROUGE CARPENTERS ANNOUNCE WAGE CUT

BATON ROUGE, La., (AP)—The carpenters' union of Baton Rouge Wednesday announced that it had made a cut in carpenters' wages from ninety cents to eighty cents an hour. The cut was made to stimulate building, it was said.

Supplying Vital Necessities

Probably no other commodities from the beginning of history, not even coal or iron, ever experienced the tremendous demand and competition for their possession as have petroleum and gasoline during the last ten years. Science and invention have made these products well nigh indispensable in the life of the present generation.

The Continental Oil Company is but one of over 15,000 concerns whose combined activities constitute the great petroleum industry of this country. Our policy has always been to supply the needs of the six states which we serve with unfailing dependability and petroleum products of the finest, uniform quality procurable.

These needs are great and call for immense volumes of products. The prices are based on a smaller unit margin of profit than those of almost any other staple commodity. The thoroughness with which this company has undertaken to serve the six intermountain states has called for a great outlay of funds to provide ample storage, transportation and delivery facilities.

This company is not the only one of its kind to operate in the territory which it serves. We honestly believe that the degree to which we have succeeded is but a reflection of the efficiency of our methods and service and the intense loyalty of every member of our organization.

We are augmenting from time to time the number of our own service stations, dealers and force of attendants. We insist upon one flexible and impartial rule of courtesy on the part of every Continental employee toward every Continental customer.

Naturally, we are constantly striving to improve the calibre of our service. Suggestions and constructive criticism from the public are always welcomed and given prompt, official consideration. Our present practice of issuing Conoco Coupon Books for the motorist's convenience was inspired in this way.

SERVICE MEN BEAT SPARKERS IN 9-5 GAME THAT'S MARKED BY ROUGHNESS AND ACRIMONY

Players and Fans Alike Called to Account by Umpire for Unwholesome Tactics in Fiercely Fought Baseball Encounter—Arbiter Gets In Bad for His Pains—Fans Urge Contestants to Employ Force

ROUGH play, sometimes bordering on assault, marked last night's baseball win by Legion over the Electric, 9 to 5. Acrimony figured around the entire game, and at times the stands were so packed that a great deal of violence by players of one side against the other. Fans participated in the war-torn fight by urging players to deeds of violence and, themselves by the application of unwholesome tactics against players and the umpire alike. Last night's gathering of fans seemed unwilling to discriminate favorably to either side, but largely contented with the attack against the Legion players and the umpire.

Fans Are Partisan.
The ire of the fans, seemingly awaiting nothing more than the application of a spark to the tinder of an ugly mood toward Legion players, was aroused in the first inning when Bell touched Rigney out on the first base line with two men on bases. Rigney hit a bouncer in the diamond but Lewis was still safe when Zinke fanned Bell touched Rigney out on the first base line with two men on bases. Rigney hit a bouncer in the diamond but Lewis was still safe when Zinke fanned Bell touched Rigney out on the first base line with two men on bases. Rigney hit a bouncer in the diamond but Lewis was still safe when Zinke fanned Bell touched Rigney out on the first base line with two men on bases.

On another occasion Bennett put Digby Jarvis out at second base, the most dramatic play in the temporary injury of Rigney, the Legion player. On another occasion there was a split at the plate, a Legion player going into the catcher and causing Rigney to drop the ball.

Pacific Umpire Absurd.
Taken altogether the game was unwholesome for baseball in this city, and left a bad taste with all fans who want clean contests played with a fighting spirit but with the cleanest of intentions. The umpire's conduct was so rowdy a temperament as was exemplified on the field, some of them going to extremes in an apparent effort to instill respect on the field. Umpire Goldwater took the matter in his own hands and warned players and fans alike to "play the game clean." He was right, as shown by all hands for his life efforts.

The Electric's set Elliott of Oakley against the Legionnaires in the hope that the veteran could and would stop the former soldier folk in their headlong flight toward the goal for which all clubs in the Twilight league are striving. The wrecking crew of the soldier batters and the imported pitching product, until also scores were compiled against him. All this despite the raggedest sort of playing by the soldier batters. Zinke was sent in for the Legion and, except for two innings, went along competently and winningly. He was last night's better pitcher. Zinke was complete master of the Electric for the first three rounds, allowing only one hit, a single in those seasons. In the fourth he weakened perceptibly and his support withdrew almost entirely. Digby started the count with a double to right. He was thrown out at second by Zinke on a play that gave Rigney safely at first base. The latter took a walk on the second. Electric's first marker on successive errors by Bennett on Wal-

Brief Bits of Sport

Fighting spirit wins many baseball games, but fighting fits get ball players nervous.
Beside a display of quarrelsomeness last night's contest was marked by a lot of procrastination on part of players.
The game, which might easily have been run off in 110, took 20 minutes longer than that. Twilight league ball players have not learned discipline and many of them return to be urged into action by the umpire.

Twin Falls fans generally speaking, mistake abuse of players for rooting. It's poor sportsmanship to make an opposing player the butt of abusive attack.
A certain contingent which patronizes most of the ball games nightly, centers its diatribe against the Legion team members as a whole. Nobody seems able to explain this condition, but various theories are submitted, one

BUHL AND ALL-STARS TO MEASURE STRENGTH

Game with West End Town Ball Club will be played on Lincoln lot tonight. At 6 o'clock this evening Empire Phil (Goldwater) will call the Buhl and Twin Falls baseball teams to the center for a hostile demonstration. A ball game of nine innings is scheduled as the feature of the evening's entertainment. This is the first appearance of the Buhl club in Twin Falls this year, and, in fact, the most important of games with an outside team a contest pulled off here this season. Buhl boasts a strong aggregation, and will present Cooper, a pitcher belonging to a Coast League club in the box. He will be opposed by Moreley, star of Twin Falls, and one of the best speedsters of the district.

Mercury Rises Within a Mark of the Record

WITHIN one degree of the season's record the mercury rose yesterday, the top place being 97 for the day. It was loath to recede, too, dropping only .35 degrees during the night. Cooler weather is predicted, with fair, for the southeast section, with warmer tomorrow in the north portion. Nothing is said about the south, of which this is an important section.

Today's Markets

WHEAT PRICE HOLDS OWN

Reports of German Credits Granted by Britain Cause Upturn. CHICAGO, (AP)—Predictions of continued liberal receipts had a bullish influence on the wheat market today. Besides, the need of stock deliveries here owing to congested storage facilities counted also as a depressing factor. Hot weather in the northwest failed to stimulate much buying. Initial quotations, which varied from unchanged figures to 1-16 lower, with September 11-15 3/4 to 1-1/2 and December 4-1/2 to 1-1/2 1/2, were followed by a slight rally, but then by a modest setback all around. Subsequently, assertions that rural crop shipments in the southwest are limited only by ability to get cars led to a decided downturn in values, but reports afterward that Germany had obtained \$15,000,000 worth credits in Great Britain led to a rally. The close was firm, at the same of yesterday's finish, to 3-1/2 higher, with September 11-15 1-1 to 1-1/2 and December 4-1/2 to 1-1/2 1/2. Liberal shipments of corn from here were firmness to price. After spending \$3-1/2 to 1-1/2 advance, including September at 61 5/8 to 61 3/4, the market receded gains all around. Hearshel crop reports tended somewhat to weaken the market later. Prices closed unsettled, a shade lower to 1-1/2 to 6-1/2 advance, with September 61 5/8 to 61 3/4. Cash Quotations CHICAGO, (AP)—Wheat No. 2 red 11-1/2 to 1-1/2 1/2; No. 2 hard 11-1/2 to 1-1/2 1/2; No. 2 mixed 11-1/2 to 1-1/2 1/2; No. 3 white 10-1/2 to 1-1/2 1/2; No. 3 white 10-1/2 to 1-1/2 1/2.

Local Brevities

Visiting Sister—Miss Dora Gardner of Salina, Kan., is the house guest of her sister, Mrs. C. D. Irwin. To Detail Officers—Installation of officers of Twin Falls lodge, I. O. O. F., will take place at the meeting of the order in Odd Fellows hall this evening. Play Time—Friday forenoon from 9 to 11 a. m. is story hour at the park for all children of the fifth grade and under. The play hour is supervised and volunteer help is available to give all who come a very happy time. Visiting Relatives—Mrs. H. H. Hedstrom and Mrs. George Hallatt of 320 Eleventh avenue east, are enjoying a visit from their mother, Mrs. M. Midland and sister, Miss Vera Midland, of Pueblo, Colo. On Auto Trip—Mr. and Mrs. G. M. Simpson of Fourth avenue north and Mr. and Mrs. H. D. Hall of York, Neb., left this morning for Boise where they will spend several days. The trip is being made by automobile. Comes for Vacation—Miss Lena Polly of Sioux City, Iowa, is visiting her grandparents, Mr. and Mrs. J. S. Palmlier and her uncles and aunt, Mr. and Mrs. C. M. Gates of Twin Falls, and Mr. and Mrs. George Peter of Kimberly. Return from Coast—Mr. and Mrs. L. A. Wier and children of Poplar avenue, returned Tuesday from a month's visit at Long Beach and Hollywood, California. They made the trip by car and report sections of the Lincoln highway through Nevada as being in very bad condition. Lodge Takes Vacation—At a meeting of The Falls lodge, No. 48, Knights of Pythias, last night, decision was reached to recess until the first regular meeting in September. This will be the first recess in that month. Plans and preparations are under way for the fourth annual asaghen dinner to be served on August 21, probably at the C. H. Eldred grove. Call 216W and have your suit cleaned for 50 cents. Idaho Cleaners and Dyers.—adv.

DL WEATHERBERG RETURNS

After three months spent in Chicago and Denver, taking post-graduate work, Dr. Charles Weatherberg has returned to Twin Falls and reopened his office. He is now located in the Booth building.—adv.

and 'cutters active, bulk \$1.60 to 1.65.

bulls sharply lower; calves steady; bulk vealers \$1.0 to 1.05; stockers and feeders \$1.0 to 1.05. High receipts 25,000; active, 15 to 25c higher than yesterday's average, mixed and packing grades up most; top 11; bulk better grades \$1.0 to 1.1; bulk packing grades \$1.0 to 1.1; bulk desirable \$1.05 to 1.1. Sheep receipts 10,000; lambs steady to strong; early top westerns \$1.80; sheep native \$1.0; cut native mostly \$1.0; sheep and yearlings steady; good western yearlings \$1.15; fat native ewes mostly \$1.50 to 1.75. New York Stock Market NEW YORK, (AP)—Dealings in the stock market today were exceedingly light with an uncertain undertone. Traders ignored favorable factors including carrier credit conditions. Rates approximately 200,000 shares. The stock market inside only caused response at the opening of today's trading to earlier credit conditions. Lower discount rates announced yesterday by the Federal Reserve bank and today's reduction of the Bank of England rate seemed to impel little short covering. Mexican Petroleum lost 1-1/2 points at the outset and heaviness was shown by other oils, as well as independent stocks and food issues. Firmness marked the trading in Heating-United States Rubber, American Tobacco, Fluorine. Fluorine change was more unsteady, with British demand bills at 12 1/2. Cuckoo Steel and Paterson Players were reactionary here, but mills, especially Pacific and Coaling, as well as oils made further recoveries. The closing was irregular. Liberty Bond NEW YORK, (AP)—Liberty bonds closed 1-1/2 to 1-1/2 1/2; first 1-1/2 1/2; second 1-1/2 1/2; third 1-1/2 1/2; fourth 1-1/2 1/2; fifth 1-1/2 1/2; sixth 1-1/2 1/2; seventh 1-1/2 1/2; eighth 1-1/2 1/2; ninth 1-1/2 1/2; tenth 1-1/2 1/2. Potatoes CHICAGO, (AP)—Potatoes weaker; receipts 10,000; Michigan \$1.10 to 1.15; Idaho \$1.10 to 1.15; California \$1.10 to 1.15. Sugar NEW YORK, (AP)—The raw sugar market was unsteady, with a net gain of 1/2 cent. Cuba's cost and freight, equal to 14 1/2 for centrifugals with rate of 35,000 tons reported at that level. Porto Rico's quoted at \$1.50. Raw sugar futures steady. Midday prices 12 1/2 to 13 points higher. The demand for refined continues of fair proportions. List prices unchanged at 12-1/2 to 13 for fine granulated, with no business taken at the inside price, while some of the higher priced refiners were said to be accepting offers below their list quotations. Refined futures nominal. Sugar futures closed steady; approximate sales 1,800 tons: September 12 1/2; October 12 1/2; December 12 1/2; January 12 1/2. Fifty-cent cleaning special all this week. Idaho Cleaners and Dyers.—adv. 10 lbs. new spins, 50c. Phone 133.—adv. Drive over to Fluor Friday night. American Legion dance at Heybroco, Blue Bird orchestra.—adv. 10 lbs. new spins, 50c. Phone 133.—adv.

reported at that level. Porto Rice's quoted at \$1.50.
