TAX REVISION PUT AT TOP OF SENATE'S LIST

Congressional Program in Upper House Takes Shape in Discussions at Dinner Conference at White House

MORE TIME DEMANDED ON PERMANENT TARIFF ACT

Agricultural Relief Bill, Anti-Beer Measure and Regulation of Future Grain Trading to Be Given Preference

WASHINGTON, D. C. (AP)—Virtual agreement was said today to have been reached in a dinner conference at the White House last night for senate consideration of tax revision legislation before the permanent tariff bill is taken up by that body.

White House officials had nothing to say about the conference today. His former associates in the senate were said to have advised the president that the finance committee would not have the house tariff bill ready for consideration short of five or six weeks.

President Harding told his guests he hoped both branches of congress could pass the middle of August to the latter part of September or the first of October, but was represented as opposed to any recast of either body.

Republican leaders said today the senate program would be to pass the bill on the tariff substitute for the Norris agricultural export financing bill, the Willis-Campbell Philanthropy bill for government regulation of future trading on grain exchanges before adjournment.

President Harding told his guests he hoped both branches of congress could pass the middle of August to the latter part of September or the first of October, but was represented as opposed to any recast of either body.

WASHINGTON, (AP)—The revision of medicinal beer regulations is the chief of his policy on the question of medicinal beer regulations will be made in the next few days.

The commissioner is working out the final form of the beer regulations which, it is understood, would provide in general for prescription of one case at one time, but without limit as to the number of prescriptions.

OSTEOPATHS HEAR CHANGE IN GLAND PROMPTS DIVORCE

CLEVELAND, O. (AP)—Dr. Ernest E. Tucker of the twenty-fifth annual convention of the American Osteopathic Association, attributed to a change in function of the pituitary body, one of the smallest of the so-called ductless glands, the increased prevalence of divorce in proportion to the growing wealth of the country.

Results have been secured by this technique in bronchitis, asthma, gonorrhea, loss of voice, whooping cough, tuberculosis and other affections of the lungs and throat, Dr. Young claims.

Dr. Jeannette H. Boles of Denver declared health is the foundation of all happiness and success.

Aside from accidents and injuries to the body, deformities may be produced by bad postures which may be corrected by special standing on one foot or roller skating on one foot, Dr. Boles said.

Do Valera and Colleagues Still Looking for Basis for Peace Conference

LONDON, (AP)—A communication has been received from an official residence of Prime Minister Lloyd George in Downing street, from Eamonn de Valera, the Irish republican leader, says the Central News.

DUBLIN, (AP)—A full meeting of the Irish republican cabinet, lasting all this afternoon, discussed the terms of the proposed peace proposals, but reached no decision.

It is understood the cabinet is awaiting a communication from Winston Churchill.

DUBLIN, (AP)—Eamonn de Valera, the Irish republican leader, and his colleagues have not yet found a basis for the proposed conference with the British.

JAPAN DEMANDS DELIMITATIONS OF CONFERENCE

Secretary Hughes Announces Eastern Empire's Conditional Acceptance of President Harding's Invitation

CALLS FOR AGREEMENT ON AGENDA IN ADVANCE

Centers Concern on Disagreement of Oriental Problems to Take Place in Connection with the Disarmament Parley

WASHINGTON, D. C. (AP)—Secretary Hughes announced today acceptance by Japan of proposals for a Far Eastern conference in connection with the disarmament discussions suggested by President Harding.

The Japanese acceptance was based on the understanding that the United States was not opposed to an agreement as to the agenda of the Far Eastern conference before it convenes.

The Japanese government expressed the opinion in its note that the agenda should be so arranged that the subjects discussed would be confined to those directly involved in the general subject of disarmament and that introduction therein of problems such as are of sole concern to certain particular powers or such matters as may be regarded as accomplished facts should be scrupulously avoided.

It was explained that the Japanese government had taken into consideration, in reaching its decision, the communications and the published statements of the American government of the conversations between the secretary of state and Baron Phillimore indicating that the American government grouped to discuss the Pacific and the Far Eastern problem because of the close bearing they have on the question of the limitation of armaments.

Others May Be Invited. The state department made public Japan's reply and the memorandum sent by the United States to the Japanese government through the American embassy in Tokyo, July 23.

EXTREMISMS IN ARGENTINA STIR UP OPPOSITION

Citizens Take Situation in Own Hands when Government Displays Seemingly Benevolent Attitude to Agitators

BUENOS AIRES, (AP)—Like the Fascisti of Italy the Argentine Patriotic League, a semi-military organization, has undertaken the task of putting down the anarchists, communists and the extremist elements generally of Argentina, particularly in Buenos Aires.

The league's first attempt has resulted in what its leaders declare an unqualified success. The league was backed by virtually the entire business interest of the capital who had become tired of unpatriotic manifestations by communists labor unions, which they considered to be causeless strikes and sabotage, the flaunting of red flags, bomb outrages, and more particularly by the demoralization of commerce caused by a strike of a communist union of stevedores which had tied up the port for two weeks.

Government tries patience. The seemingly benevolent attitude of the government toward what they held to be the unwarranted demands of the union had tried their patience and they were determined to take matters in their own hands to the point of armed intervention, if necessary.

Today several scores of the extremist element including numerous agitators of foreign birth, are in jail, some are in the hospital, several hundred others have been under arrest, a general strike called as a protest against the atrocious activities of the Patriotic League, and all the agitators and the port services have been released from their heretofore almost complete control of the stevedores' union.

The government's policy of leniency toward many of the activities of radical syndicalism to which the interests behind the league objected changed almost overnight to one of stern repression of any attempt to deny the right of free labor to work or to upset the peace of the country. What the Patriotic League set out to do, the government did itself.

Demand Workers' Protection.

The conflict centered upon the issue whether the government would give protection to non-union truckmen to whom the members of the stevedores' union would deliver the goods they unloaded from the ships.

The Argentine Patriotic League was backed up by the Labor Protective Association and the Centro de Navegacion and the association of steamship lines representing the overseas steamship lines of foreign nationality.

The refusal of the stevedores' union to deliver any goods to non-union truckmen was aimed at a so-called "outcast" union of truckmen.

The various steps which led up to the history of the anti-union elements have been previously reported by cable but it is only by considering them together that their significance is appreciated.

Anti-Radicals Force Issue.

The anti-radical organizations forced the issue by sending non-union truckmen to the waterfront but found it closed by a cordon of police and marines sent the stevedores on strike. For two weeks it was completely their while the government endeavored to reconcile the differences of the labor unions. This failed.

It was then announced that the government would exclude all outcast or non-union truckmen who were not allied with the striking stevedores but that the Centro de Navegacion sent a strongly worded note to the government threatening to boycott the port of Buenos Aires in a strike in protest against what the Stevedores' union was permitted to dominate the situation.

At the same time the government learned that British and American men packing cattle which by most of Argentina's cattle were in sympathy with the steamship companies and were planning to close down.

The thousand members of the Labor Protective Association sent a demand to government officials for the right to employ free labor in the port. In answer the government guaranteed this right. However, when non-union truckmen reported for work at the pier next day they were fired upon by union stevedores, the police arrested, the labor association then demanded police protection.

Sets Capital on Fire.

Then came an event that almost set Buenos Aires on fire with patriotic indignation. On May 23, Argentina's most important national holiday, there appeared on bill boards and in radical newspapers a manifesto signed by the officers of the chauffeurs' union calling for a strike in protest against what they described as a "band of drunken bourgeois patriots."

This aroused the wrath of the patriotic league and resulted in the murder of the headquarters of the chauffeurs' union attended by shooting in which two chauffeurs were killed. Chauffeurs found there were compelled to attend the Argentine national anthem.

From that moment the attitude of the government changed. The police closed the offices of the chauffeurs' union and arrested several hundred of the members. Hundreds of agitators, an-

AMERICAN TARS PROVIDE THRILL FOR NORWEGIANS

Sailors of Battleship Squadron on Visit to Christiansia Come In for Some Criticism

CHRISTIANIA, Norway, (AP)—The officers of the American battleship squadron which recently paid a two weeks' visit to this port were very popular and were entertained privately in Norwegian homes, but the leading newspapers of the city criticized severely the conduct of some of the sailors while on shore leave.

The squadron was composed of the Kansas, Michigan, Connecticut, South Carolina and Minnesota, under command of Rear Admiral Hughes.

The Christiania newspapers published several articles protesting because the American sailors made too violent love to the Norwegian girls while riding about the city in taxicabs, asserting that the sailors "squeezed and hugged them" in public.

One of Norway's prominent clergymen wrote a protest to the Afterposten charging that the conduct of some of the American sailors was "an insult to the city" and a disgrace to the American nation. He urged Admiral Hughes to put a stop to it. Some parents sent letters to the newspaper urging the Norwegian authorities to protect the Christiania girls from associating with the American sailors.

ITALIANS DIVERT SHIPS FROM U. S. TO CANADA

Look to Dominion for Business Lost Here as Result of New Immigration Law Operation

ROME (AP)—Italian navigation lines between Italy and America are having great difficulty in finding business for their liners at the present moment, due to the enactment of the present American immigration law. To meet the difficulties, the Navigazione Generale Italiana line has directed part of their ships into a new Italian-Canadian service.

This is the first Italian line that has been established between Italy and Canada. The other steamship companies are also occupied on the problem of finding other fields for the surplus Italian population. It is expected that one or two more Italian companies will commence sailings to Canada, diverting their present New York service to that effect.

REVENUE BILL FRAMERS WILL IGNORE SALES TAX

Chairman Foretold Says Committee Members Agree Not to Include Provision for Scheme in Measure

WASHINGTON, (AP)—Agreement among members of the house ways and means committee that in revision of revenue laws no provision will be made for a sales tax was announced Tuesday by Chairman Fordney at the opening of public hearings on the proposed measure.

H. C. McCondo, tax representative of the American Farm Bureau Federation, put into the record a statement that in a referendum, members of his organization had voted 87,395 to 7,221 against a sales tax, 78,256 to 3,921 in favor of a constitutional amendment to prohibit the issuing of tax securities, and 83,475 to 6,121 against repeal of the excess profits tax.

DRY AGENTS LAKE FUNDS TO ENLIST NAVAL AID

WASHINGTON, (AP)—Plans for naval cooperation in the hunt for liquor smugglers along the Atlantic coast apparently have been abandoned, prohibition officials declared Tuesday.

They had been discussed tentatively with the navy department, an official said, but it was found the prohibition unit would have to betray expenses of the craft used and lacks sufficient funds. They are going ahead with the assistance of the coast guard, it was added, in an effort to sweep the seas of the rum-runners.

NEW VLADIVOSTOK REGIME CO-OPERATES WITH JAPAN

Depends Upon Empire's Assistance to Restore Order in Siberia

TOKIO, (AP)—Demetrius Grigoriev, who has arrived in Yokohama, authorized by the newly established Vladivostok government to represent the anti-Bolshevik interests in Japan in a statement to the press said that the government established through the latest political coup d'etat would represent the will and wishes of the people and is determined to put the country in proper order with the aid of the Japanese.

He added: "The new government depends on Japan for everything for the present, and the withdrawal of the Japanese troops from Siberia before the government is established on a solid basis will only undermine the very foundation of the existence of the newly created anti-Bolshevik government."

"Ataman Semionoff is now at Vladivostok and is in a very awkward position. He arrived in that city in disregard to advice from the Japanese as well as of Commander Gonkatti. The Ataman himself is a man of character and ability, but some of his colleagues seem to be of an objectionable character. The Semionoff troops are conspicuous for the absence of discipline and discipline in their ranks is contrastingly well controlled."

Mr. De Grigoriev was the last governor and intendant of Saghalien under the Tsarist regime.

SOVIET TO TIGHTEN GRIP ON CHURCHES IN RUSSIA

Plans to Restrict Sormon Rituals and Present Ritual Attractions

MOSCOW, (AP)—Russian Soviet government officials have decided to take stricter control over the churches in Russia, according to Moscow newspapers. A recent number of the Izvestia, says that persons are to be allowed only on the condition that they are of a strictly religious character.

It appears that the Soviet government, while continuing to permit religious worship, is to present vital restrictions in the church buildings in the shape of lectures on communist doctrines.

The tale of a dog with a moral

THERE'S AN old ex- THEY USED TO yell. SO OLD that nowadays. PEOPLE THINK it's new. ABOUT THE man who had. TO SHOOT his dog. AND A friend said. "WAS THE dog mad?" AND the first guy. SAYS, "WELL, he wasn't." SO DANDY well pleased. AND A chap told me. THAT THIS described. SOME SMOKES he'd tried. THEY DIDN'T exactly. MAKE HIM mad. BUT HE wasn't. SO VERY well pleased. OF COURSE that was.

MY CUE to stop him. A REAL cigarette. AND AFTER he'd taken. A GOOD pull or two. INTO HIS constitution. HE GRINNED and said. "THE ONLY way those. WILL EVER make you mad. IS THE way. YOUR FRIENDS eat 'em up. I ONLY hope you've got. A COUPLE of packs. FOR THEY sure. DO SATISFY."

SPECIAL POWERS DENIED OREGON

Chamber of Deputies Votes Down Request Relating to Oil Regulation

MEXICO CITY, (AP)—The chamber of deputies has just voted down a request by President Obregon that he be granted extraordinary powers to adjust article 27 of the constitution, which relates to oil deposits.

Yesterday morning, President Obregon called a joint conference of the congress in both houses and explained the necessity of immediate action on article 27, as well as pleading for permission to proceed with its adjustment.

Article 27 has long been a stumbling block in the relations between Mexico and the United States, the latter government protesting the action of the confederate, and against the principles of American rights and interests obtained in Mexico under proper laws.

Today's Markets

WHEAT PRICE GOES HIGHER

Closing Quotations in Chicago Pitts. Elbow 2-14 to 3-4c Advance

CHICAGO, (AP)—Fresh strength developed in the wheat market today owing more or less to assertions that the prospect of large receipts had been passed.

Subsequently, bullish aspects of the government weekly crop report led to an additional advance.

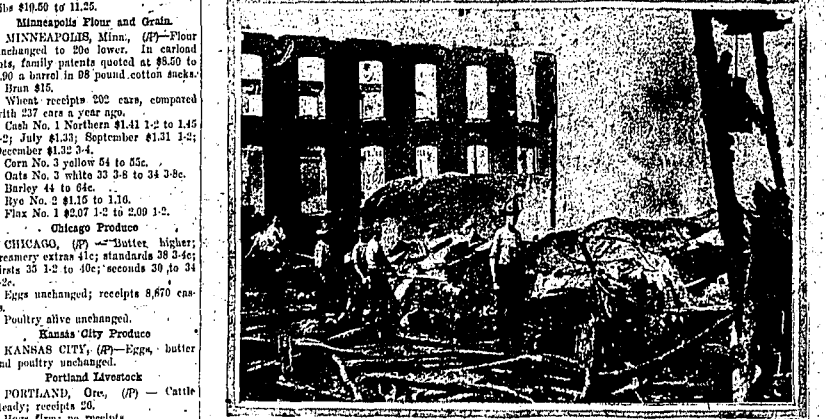

Corn hardened with wheat despite news of showers over night. After starting 1-8c off to 2-8c up, including September, it closed at 1-27 to 1-27 1/4 and December 1-28 3/4 to 1-29.

Oats were steadied by the firmness of hog prices. The market opened unchanged to 3-8c lower, September 32 1/4 to 32 1/2c, and then turned up strength.

Oats Quotations CHICAGO, (AP)—Wheat No. 2 red 1-24 1/2 to 1-25 1/2; No. 2 hard 1-25 to 1-26 1/4.

Corn No. 2 mixed 63 to 64 1/4c; No. 2 yellow 63 1/2 to 63 3/4c.

Rioting Convicts Fire Twelve Buildings at Pittsburgh Penitentiary

Secondary fires, which destroyed a dozen buildings of the Western Penitentiary, were accompanied by rioting by nearly all of the prisoners. Fourteen persons were injured in what at one time promised to be the greatest wholesale jail delivery the country has

ever known. Only the alertness of the guards in refusing to be tricked by a ruse, prevented the convicts' plots from being successful. For more than two hours guards and police battled with the convicts. So far as known not a convict escaped. For several weeks trouble

had been brewing between the Pittsburgh Penitentiary convicts and a batch of convicts brought from the Eastern Penitentiary, in Philadelphia. The photo shows firemen fighting the flames near the mess hall.

and industrial were well supported in today's stock market on lower money rates, but speculative issues sustained severe losses. Sales approximated 475,000 shares.

Acute weakness in United Fruit shares, which opened at a further loss of 5 1/4 points and soon extended its decline to 7 1/4 points was the striking feature of the early dealings in today's stock market.

Among the more popular issues advances predominated. United States Steel gained a substantial fraction and Baldwin Locomotive, American Woolen and United Retail Stores were firm. Bethlehem Steel, Studebaker and Central Leather were inclined to ease. Foreign exchange was little altered, save for a sharp break in the Italian rate.

Leases forfeited part of their gains later, although call-money eased to 4 1/2 per cent. Obscure speculation, including American Car and Present Steel, developed further weakness. The closing was irregular.

Liberty Bonds NEW YORK, (AP)—Liberty bonds closed; 3 1/2-2's 87.20; first 4's 87.50; second 4's 87.40; first 4 1/4's 87.50; second 4 1/4's 87.50; third 4 1/4's 87.50; fourth 4 1/4's 87.50; Vic-

tor's 3 1/4's 89.48; Victory 4 3/4's 89.48.

Sugar NEW YORK, (AP)—The raw sugar market was firm today at 3c for Cuba's cost and freight, equal to 16 1/2c for centrifugal. There were sales of 14,000 bags of Cuba's far August shipment to New Orleans.

Raw sugar futures were steady and at midday showed advances of 2 to 5 points on covering. Trading was light. In refined prices were advanced ten points by a local refiner to be for fine granulated. Others were unchanged at 52.85 to 53.00 with the demand not quite so active. Refiners are pretty well sold up and few are able to make prompt delivery.

In refined futures trading was confined to the March position, a few lots selling at 52.75.

Sugar futures closed steady; approximate sales 4,050 tons; September 53.10; October 53.01; December 52.85; January 52.78.

Potatoes CHICAGO, (AP)—Potatoes unsettled; receipts 64 cars; branded stock 62.25 to 5.40 barrel; plain marks 85 to 5.25 barrel; Jersey Cobblers 83.10 to 3.15 cwt.; Kaw Valley 81.25 to 1.50 cwt.; California 82.25 to 2.50 cwt. best stock;

CALLS ON STATE FOR MORE FACTS TO CONVICT MEN

Judge Friend, Presiding in the Baseball Trial, is Not Convinced by Evidence Against Weaver, Felsch and Zork

CHICAGO, (AP)—Judge J. Friend today informed the state attorneys in the baseball trial that he would direct the jury to return a verdict of not guilty in the cases of "Duke" Weaver and "Red" Felsch, former White Sox players, and Carl Zork of St. Louis, unless further evidence was introduced against these men.

The state refused to discuss the cases during Judge Friend's statement. "Zork, Weaver and Felsch may not be deeply implicated by the evidence we have presented," said George Gorman, assistant state's attorney. "But they are not beyond the law."

Defense Gets Hintings The defense began its presentation of evidence in the afternoon session. It announced that Faber, Schick and other White Sox players had been ordered to return from the east, thus seriously crippling the team.

Maharg Corroborates Burns The state today rested its case in the baseball trial after Billy Maharg of Philadelphia had given testimony corroborating much of Bill Burns' story of the alleged conspiracy for the Chicago White Sox players to throw the 1919 world's series.

Maharg, who was intimate with Burns, said he attended during the alleged sell-out of meetings between Burns, Eddie Cicotte and Chick Gandil in New York, of further meetings in Cincinnati and Chicago and of how at least \$100,000 to the players in Cincinnati by Burns when \$10,000 was due them.

Like Burns, Maharg identified David Zerk, the Chicago player, as a man who he knew in the alleged conspiracy as Bennett.

Maharg denied that he was "Peaches" Graham, former major league catcher, who had been identified as "My name is Billy Maharg," he said. "I was raised on a farm and was a prize fighter from 1897 to 1907."

FOUR LEGISLATURES FOR IRELAND ABE SUGGESTED

LONDON, (AP)—The possibility that four legislatures be established in Ireland—one each in the provinces of Ulster, Munster, Connaught and Leinster under a central national parliament, is hinted at this morning by a leading Irish politician.

"It need not be assumed, as is done in some quarters, that under unification there would be only two governing legislatures," said the speaker in the Irish parliament. It has been almost overlooked that there are four great provinces in Ireland, each with a historical individuality.

Much Married Bride is Weary of Honeymoons

Mr. & Mrs. Richard Long

Three times divorced and four times married, Mrs. Richard H. Long, former stenographer in her husband's Boston office, is not disturbed nor greatly concerned regarding plans for a honeymoon. The bride of the prominent manufacturer, who was twice candidate for governor of Massachusetts, said: "Plans for a honeymoon? We have no plans for a honeymoon. Maybe after a time we shall go off somewhere to be by ourselves—but not now. For the present we are going to stay right here. There is so much to be done—so much for me to learn."

She is thirty-five, gave this as her third marriage on the license issue. She was wedded first in October, 1904, to Dr. H. M. Long, a Frank Canadian. She was later divorced and married N. H. Brown, whom she divorced and remarried, the last decree being granted in May, 1920.

HOW GREEN GAGE GOT NAME

Neglected Gardener Responsible for Succulent Fruit Having Its New Well-Known Appellation.

Not one person in a thousand who enjoys the small, green plum which goes by the name of the green gage, ever connects the fruit with an old manor in Suffolk, England. A beautiful, old house, it is Hengrave hall, which in the time of Charles II was settled by the Countess Rivers upon her daughter Penelope, who married Sir John Gage. Her third son, Edward Gage, who was created a baronet by King Charles II, 1685, inherited Hengrave, and his descendants after him.

The gardens here on a magnificent scale and everything that was new in the horticultural world found its way to Hengrave. In this way, among other plants, the fruit tree, a small plum tree was sent to the gardener, who planted it without much care or thought, and without noticing that the label which ought to have been attached, was missing. When the little tree began to bear fruit it was seen that it was something in the way of a novelty, a little round, green plum, that was not known to anyone in Suffolk and until some account could be obtained of it, the name, the Gage plum, or to distinguish it from others, the green gage plum, was used and became general—Christian Science Monitor.

Europe Short of Bottles.

There is a scarcity of bottles in Europe with the result that the demand for second-hand bottles is unprecedented.

In the pre-war days the empty "muddy" bottle was drug, on the market, for a few cents more than what they sell small sums for whisky, port, sherry, burgundy and claret bottles, but the champagne bottle was on the black list. Today it is the king of the empty bottle trade.

Wonderful Babylon.

The city of Babylon, which built by Nebuchadnezzar, formed one of the greatest and most magnificent of the world has ever seen. Ancient historians can find no words to describe the grandeur of the palace and surrounding edifices, large gardens and pleasure grounds, especially the hanging gardens, a sort of lofty terraced structure supporting earth enough to grow trees.

Marked Era in Journalism.

The Edinburgh Review, established in 1829, was the first high-class critical journal to find a permanent footing and achieve success. Its founders were Jeffrey, Scott, Gorman, Broughman and Sydney Smith and under them it developed a new era in periodical criticism, having a wider range and more elevated tone than any of its predecessors.

Ancestry Probably Persian.

In the mountains of southern Arabia, in a region of tremendous heat and precipices, lives a mysterious tribe of people who are entirely different from the Arabs. They are lighter in color and live in villages, not tents. They are said to be a relic of the Persian army which invaded the country nearly 1,000 years ago.

LOWER OCEAN RATES ON GALVESTON GRAIN SHIPMENTS

Galveston, Texas, (AP)—A reduction of two and one-half cents in ocean rates on grain now loading for Antwerp, Rotterdam and Havre, were put into effect today by the shipping agents here and at other Gulf ports. The arrival of increased ocean tonnage at Gulf ports is reported to have been the cause of the reduction. Rates were previously quoted at 29 1/2 cents.

CUBA CONSIDERS REDUCTION

LAID OUT AS A PLAYGROUND

Famous London Street Had Its Beginning in the Whim of Monarch for New Sport.

For the origin of this famous street in London known as Pall Mall, we can hark back and take a peep into the diary of that remarkable man, Stuart Leggs. On April 2, 1661, he says: "To St. James park, where I saw the duke of York playing at Pelencote, the first time that I ever saw the sport."

The duke's brother, King Charles, had recently formed what is called the mall for the playing of this game, which was new in England, as there had previously existed a walk for that purpose on the ground occupied by the street now known as Pall Mall.

The game was introduced from France, but the game appeared to be from the Italian "pallamaglio" and was played with a ball and a mallet along a straight alley and through a ring elevated about 12 feet on an arm extending from a standard. The game somewhat resembles golf, as the winner is he who effects the object in the smallest number of strokes. The mallet is somewhat similar to the one used in croquet, the handle being much longer and the face so inclined as to raise the ball when struck. This ball was about 3 inches in diameter.—Exchange.

"Great Basin" Region.

What is known as the Great Basin of North America is an inland drainage in western United States, situated between the Sierr Nevada and Cascade ranges on the west. It comprises most of Nevada and portions of Utah, Oregon, Idaho and California and has a total area of about 210,000 square miles. The basin has a graded slope from the north, where the elevation is 4,000 feet above the sea, toward the south, forming a tilted plateau whose surface is broken by interrupted groups of mountains with a general north and south trend.

Meaning of Dream of Eagle.

To see one foretells success in love and a fortune in commerce. To see one fly through the air at a furious pace denotes success in your present undertaking. To dream that you ride upon an eagle's back, your life is in danger. If an eagle lights upon your head it foretells death to a near relative or friend. To see a dead eagle signifies the death of some prominent person and the success of a poor one. To kill one denotes happiness of short duration. To see one carry off prey foretells loss by theft.

CRITICISM THAT COUNTS

Patience with which persons entrusted with responsibility for the success or failure of the county fair seize upon suggestions made with a view to bettering the institution or enhancing its value and attractiveness is perhaps not so generally appreciated as it should be.

The manner in which effective assistance may be rendered in this regard is aptly indicated in an editorial recently appearing in the Idaho Farmer. It is deserving of careful consideration by every one who has an interest in the county fair—and that should include pretty nearly everybody.

Every year, just about the close of fair time, somebody comes forward with a scathing criticism of some of the entertainment features of some fair somewhere. Often this criticism is justified by the character of the entertainment or some of the amusements on the grounds. But criticism after a thing has happened is valuable only in so far as it may tend to prevent recurrence of the offense.

Again, remember, that your fair operators should be more and more of less questionable features have been real revenue-producers. To be sure, they should not be kept, if they produce revenues, but if you require your manager to eliminate them you must help him put in wholesome features that will give revenue-producers in their stead.

Needless for individual payment of debt in maintenance of healthy financial and trade conditions applies with equal force to the federal government; and President Harding seems to have had this idea in view in making his request upon congress for acceptance of his remedy for "early adjustment and relief of the railroad" problem.

The plain facts in the situation are that the Government owes the railroads money which it has not heretofore been in position to pay. The President proposes a method by which these claims can be settled with "no added investment on the part of the government."

There is ample reason to believe that the President's scheme will work and that the necessary authorization from Congress will be soon forthcoming. The railroads seem likely to get an early settlement of their claims, and the general public will look forward with a good deal of interest to subsequent developments bearing upon the freight rates issue.

A DEADLY HABIT

Old and keen observers remark that one habit of the budding motorist, if fairly established, never leaves its victim until he finally lands in the morgue. That is the habit of passing or trying to pass whatever cars happens to be ahead on the open road.

is the worst of all the mean bad habits the new driver can pick up. Other undesirable practices may be outgrown, according to the old-timers and psychological researchers. One by one road manners may be drilled out of the offending driver. But the mad desire to pass everything on the road gets everyone who picks up the habit.

The driver who wants to get ahead, who "pulls around," is urged by that incurable impulse against which old-timers, wary all new pupils. The only way to safety so far as that is concerned is to restrain the first promptings. Don't make a start at it. Keep in line with the traffic and take your turn with all the others.

It is designed to co-ordinate a group of services which never should have been separate and the effect unquestionably will be to facilitate disposition of cases that in the past have been buffeted about from one post to another in a decidedly inhumane manner.

More Truth Than Poetry

The First National Bank of Twin Falls. TWIN FALLS, IDAHO. The FEDERAL RESERVE BANK serving this district has announced a 1-2 per cent reduction in its discount rate. A reduction in rates always precedes a general improvement in the money situation. The effects of this move will not be felt locally for some time, until bank deposits start upward again. This adjustment period is drawing to a close although there are many needed changes to take place before stability can be assured. The change in rate will tend to hasten this improvement. Brief Bits of Sport

Pete Herman has forever given the lie to the old-time assertion of sport experts that "they never come back."

By declining on Joe Lynch, Pete won back the title he lost some time ago and looks good to keep it a while.

Noel Mike Gibbons can whip Johnny Wilson and win the middleweight crown we'll believe that the world is absolutely turned top-side down.

But as to the latter performance we have our doubts. It took Mike 11 rounds to beat Al Semmer on July 4, and Gordon McKay gave Al a good beating in Lagoon, Utah, since then.

Perhaps what Mike did to the former Postelien paid the way for McKay, and Mike may be able to demonstrate more wares against Wilson when the champion bout comes off.

Freddie Wehla, former lightweight champion, thinks the old ones can come back, and he has tried but cater into the ring of futile endeavor after a long absence since he lost the diadem of the division to Benny Leonard.

And from his point of recollection Benny Leonard issues a statement that in a week or two he will be fit to meet any and all the best lightweight the country or the world possesses.

Meanwhile the Black Sox probe is on and seems all to the advantage of the prosecuting side of the argument.

Ben Johnson, president of the American league, has started a scandal within a scandal. He avers truthfully that he has evidence of the theft by a for-

mer employe of the Illinois state prosecutor's department of all the important confessions made by the Black Sox to the former prosecutor.

Things are getting interesting in this quiz, hey?

Tonight the Legion club will do a deadly battle against the Moose lodge club. The latter has been strengthened materially of late and is showing to advantage against opponents.

Urban Faber lost his game against the Washington club yesterday.

It's so long since this steved White Sox flinger lost a game that the break comes as a sort of relief from tension.

Tomorrow night's game at Lincoln park starts promptly at 8 o'clock, says Umpire Gohlwiler.

It will if somebody can lug out some major league notions of operation into the Hull club.

We recall that last week the Bull captain kept his men on the practice field far into the time when the locals should have been working out, and he declined to listen to the promptings, urgings and pleadings of the officials to follow the rules of the game.

Bull shouldn't require any more tutoring than opposing teams are allowed.

ARTESIAN CITY

The Artesian Sunday school held a picnic in the beautiful grove at Artesian, Monday evening, Miss May Hahl, being the guest of honor. Mrs. C. E. Artesian escorted Miss Hall to the picnic and a number of her plate was a little purse containing ten dollars as a gift from the Sunday school. More than 40 people were gathered around a full bodied table, a fried chicken dinner. For nearly four years Miss Hall has taught the adult Bible class in this Sunday school which has resulted in some blessed friendships being formed. She leaves this week for Los Angeles, Cal.

JURY'S VERDICT EXES NO RESPONSIBILITY FOR DEATH OF ELECTRICIAN R. C. COLE

Coroner's Panel Finds Tragic Occurrence Results from Contact with Charged High Tension Wire of Idaho Power Company - Foreman Provides Illuminating Testimony - Funeral Services Thursday Morning

Fixing responsibility upon no one is the testimony of witnesses in the matter of the accidental death of Ray C. Cole on a Sunday evening last night reported on finding that the accident was caused by means of an electrical shock.

The verdict was agreed to by R. H. Stevenson, foreman, M. B. Corcoran, George Ayres, W. C. Hill, L. C. Cronquist, William H. Stinson, J. B. Stewart, H. L. Dinkelacker, and Edward Coroner's hearing conducted by P. J. Grossman at the Grossman mortuary chapel yesterday. The hearing started at 10 o'clock and continued until late in the afternoon.

Although five witnesses were called to testify, little new evidence of material value was added at the hearing. The testimony of Judge added to the information already yielded through the medium of newspapers that was given by O. A. Buenz, foreman in charge of a local company of workers of which defendant was a member at the time of Sunday's accident.

The formal trial of hearing Cole began as he seized the broken wire to take up slack. He called to R. H. Pollock, another worker in the gang, and told him that Cole had been injured. Buenz climbed the pole and found that one of Cole's feet had come loose and was catching in the wire.

Further testimony by Buenz told of attempts to get physicians to the scene of the accident. The men drove off by visiting Floyd Norman, substitution attendant of the power company of the accident.

Other Testimony. Dr. H. W. ... explained that he had been called to attend Cole, but had found life extinct when he arrived. Lineman Pollard gave testimony relating to precautionary measures taken by the men working with Cole, explaining that the victim of the shock had assisted in fixing the "ground" chain. Charles Neely, district manager of the power company, was on the stand briefly and told of trouble reported on the current system and of having located the place of the accident. He said he had left the matter in the hands of employees for repairs and knew nothing of the accident to Cole until he returned from a trip to the country.

GIRLS AND TAXIS LEAD TO BROWN'S DOWNFALL

Buhl Farm Hand Spends More Than Income - Issues Worthless Checks

Following confession in the probate court Luther Brown, a farm hand, was this morning bound over to the district court for trial on charge of having uttered a fictitious check. He was arrested yesterday at Buhl.

The check which caused arrest of Brown was written recently at Buhl in favor of the Idaho Mercantile company at Buhl and was for \$50. It was drawn in favor of H. W. Wiley and signed by A. Marlin. Claiming to be Wiley, Brown cashed the check, and in explanation to the cashier of the Mercantile company that he had been working for Marlin, who was a farmer near Centfield.

Yesterday Judge Devall transferred between counties with the district court of his court in Buhl, while he was awaiting arrival of his car to bring him back to Twin Falls. Manager Hjort's part in information interesting to Buhl's arrest. On the way to Twin Falls Brown is reported to have explained that he liked to "ride with the sheriff" and had it took a lot of money for tax hire.
