Department of Labor Says Business Conditions of Northwest More Encouraging with Unemployment on Decline

SAN FRANCISCO, (AP)—Business conditions on the Pacific coast are more encouraging, with renewed lumber activity...

Industries generally are attempting to expand production by drastic price cutting...

Optimism Prevails An optimistic feeling prevails, the report added, in the mountain district...

Parts of the report, covering several of the states, follow:

California—Considerable unemployment still exists. Owing to some migration from the west, the labor supply is abnormal...

Oregon—While unemployment is in excess of normal, there are some signs of improvement. Activity in lumber is more pronounced...

Washington—There is no marked betterment of the industrial situation. Lumbering is operating on a restricted basis...

Idaho—Improved conditions in mining, agriculture, highway work and service industries are being reported...

Arizona—Building and highway contracts are picking up, while agriculture is expected to absorb the lion's share...

Terrific Blasts Occur Near the Printing Offices Affected by Strikes

LIBBON, (AP)—The festivities of St. John's were interrupted by the explosion of three dynamite bombs...

Another bomb did less damage to the St. John's church, and the third which was of the same powerful type...

Another case of attempt against the life of a judge of the tribunal of safety to the state...

WIDTOSKE URGES SAVING OF IRRIGATION WATERS

Don't Use of Much Water Results in Bigger Crop Production

VERNON, B. C., (AP)—Farmers must govern more carefully the amount of water they use in irrigation...

"There must be better knowledge among farmers of the general relationship existing between the amount of water and the quality of the crop...

"Greater care must be given canals and ditches. When there is excessive leakage, attempts should be made to stop it...

"It is a world need that the system of civilization shall be made permanent, that nothing shall be done now that will make it temporary in its character...

"Excessive irrigation is the greatest menace to the growth of irrigation. An every other organism, irrigation maintains itself the power by the excessive use of water to destroy itself...

"A beautiful, wholesome civilization always grows up on the irrigated ditch. It is a world need that the system of civilization shall be made permanent...

CENTURIES OLD FERRARA COMES INTO LIMELIGHT

Reported Theft of Coins and Art Objects from Ponderous Castle Draws Momentary Attention to Historic City

WASHINGTON, D. C.—The reported theft of an invaluable collection of coins and small art objects from the ponderous castle of Duke of Este in Ferrara, Italy, a building constructed as a place of safety in the event of a revolt...

"It is located in Ferrara in the New Orleans of Italy," continues the bulletin. "It grew up from an unknown beginning in the flat, marshy delta of the River Po, on the banks of that great stream which like the Mississippi sometimes capriciously changes its course over night..."

"Conquered Environment Like New Orleans. "But spurred on by an indomitable spirit and with the assistance of able engineers, the people of Ferrara not only protected the city but reclaimed from the surrounding marshes and made productive hundreds of square miles of agricultural land..."

"The history of Ferrara is the history of a people bowed down by taxation, but with the comfort that while Italy seethed with war it was for a long time an island of peace with a culture that was the pattern and envy of Europe..."

"Drama Born Again in Ferrara. "When the awakening came from the mental sloth of the Dark Ages, Ferrara was in the van and the knowledge of the typical city of the Renaissance..."

"About the court of Este thronged some of the leading poets, artists and humanists of the age. In the city dwelled the most brilliant types of the days of a strong, wealthy Rome..."

NEW YORK SPORT CLUB TO TURN BACK LICENSE

Announces Voluntary Surrender of Permit to Conduct Outdoor Boxing Bout in Empire State

NEW YORK, (AP)—Voluntary return of its license to conduct outdoor boxing contests to the state boxing commission is announced in a letter... which promoted the Pete Herman-Joe Lynch lightweight title bout at... of the field Monday night.

Brief Bits of Sport

At Mantl, Utah, this week "Farmer" Vance, of Jerome, made Ira Burn, of Salt Lake, travel at top speed to win a grapple bout. A local "rascal" flopped Vance in jig time July 4. Burn has beaten the local man, showing decided superiority at the meeting. Can you dope out this rascal thing? Pete Herman now says he only louted the title to Joe Lynch. A bit of brotherly love, methinks. The Salt Lake Bees won one-half a doubleheader in Salt Lake Sunday. Yesterday the Bees broke the Bees' winning streak, 14 or something to 0. Earl Shueley, former Bee, is playing first sack for the reformed White Sox, pulled his batting average to .322 last week, adding 11 points in the hebdomadal period. Ernie Johnson, former pal of Shueley's on the Bee outfit, is batting .317 for the Sox, and Eddie Mulligan, last year's third baseman, the Salt Lake club, has a mark of .304.

DOWNNEY BEATS CHAMP WILSON; TITLE DISPUTED

Cleveland Scores Decisive Win; Referee Says Foul Blow Struck... OLEVELAND, O. (AP)—The middle weight boxing championship of the world is in dispute today. According to the Cleveland boxing commission and sports writers who were at the ring-side, the title belongs to Bryan Downney of Cleveland, who having acquired it by a knockout over Johnny Wilson of Boston, in the seventh round of a scheduled 12-round non-decision contest here last night. But Jimmy Gardner, of Lowell, Mass., former world lightweight champion, declared Wilson retained the championship because Downney fouled Wilson.

Wilson was knocked down three times in the final round. The round was just one minute and six seconds old when Downney sent Wilson down with a right to the jaw and left to the stomach. Wilson was on one knee when Gardner slowly counted nine. Whether he counted ten is disputed. Official Timekeeper Artie Poole, of the boxing commission, said he heard Gardner count the fatal second, and that his watch showed Wilson had been down 13 1/2 seconds. Wilson regained his feet, Downney hammered him to the floor again and Gardner counted nine as Wilson staggered to his feet. Downney again subdued him with rights and lefts and Martin Miller, Wilson's manager, jumped to the platform and placed his hands on Wilson, who was sagging to the mat, for the time. After counting seven, Gardner stopped the bout, saying Downney had hit Wilson while he was down. A near riot followed.

Fox Can't Be Tamed... No wild animal is more easily domesticated than the fox, either red or gray, and none exhibits so much rascality when tamed, says the American Forestry Magazine, but they are susceptible of a very high degree of affection for whoever has them in charge.

LYOYD GEORGE'S ADVICE STIRS CHURCHMEN'S IRE

British Premier Arouses Storm by Advising Oregon to Storm Clear of Politics

LONDON, (AP)—Prime Minister Lloyd George has aroused the ire of leading churchmen by telling them that they ought to keep out of politics. The occasion was the general assembly of Welsh Calvinistic Methodists at Portland, Wales, when the premier delivered an address, in the course of which he complained of public utterances by highly placed divines at church conferences and elsewhere on questions of the day such as Ireland and the industrial unrest, which he asserted, "they were not in the least qualified to discuss." He stated that his observations as "interfered in the tank of government, which if followed, are replete with mischief both to the church and to the state."

This indictment has aroused a storm of protest and rebuke among the Welsh church's former colleagues in the free churches, and resolutions have been passed at various evangelical council meetings strongly discommending the prime minister's attitude. Dr. John Clifford, the veteran Baptist leader, asserts that the premier's doctrine is contrary to his own, which is that "the churches should take such action as to secure the application of the principles of the Gospel of Christ to the political conditions of the world."

More outspoken is the Rev. H. J. Taylor, a primitive Methodist leader, who says: "The premier declares that

the business of the church and his... to mind their own job. Their... to demand that the premier... should practice religion in the law of the land." From the pulpit of St. Paul's, Covent Garden, the bishop of Chelmsford... to the premier that he would not accept his rulings. "If he had said the church must not interfere in party politics, we might be agreed; but that is very different to politics," the bishop said. "The government touches human life at every point, and the church cannot agree to refrain from expressing her opinion upon that which touches all her members. "We are going to make continuous war upon all that poisons the atmosphere," continued the bishop. "We intend to have our politics impregnated with the right spirit—that of Christianity."

October 17 (1885)—Some of the oaks are now a deep brown red; others are changed to a light green, which at a little distance, especially in the sunshine, looks like the green of early spring. In some trees, different masses of the foliage show each of these hues. Some of the walnut trees have a yet more delicate green. Others are of a bright sunny yellow. —Nathaniel Hawthorne, "American Note-Book."

An Indispensable Service

More of us than is ordinarily supposed depend directly or indirectly upon the chief constituent of petroleum—gasoline. Don't think for a minute that motor vehicle owners are the only ones who depend on gasoline. Motor transportation is a vital factor today in the life of almost every American community—particularly in supplying the so-called "perishable" foods. The problem of furnishing gasoline for the 9,000,000 motor vehicles registered in the United States is by no means a simple one. The Continental Oil Company is responsible as a public servant for maintaining a dependable supply of petroleum products in the six states which it serves at all times. And this responsibility is not an easy one to meet. It calls for a large amount of equipment, including tank-truck fleets; storage depots, properly maintained service stations, etc., all involving the investment of a large amount of capital. In other words, it is a decidedly big task and must be handled in a big, progressive way.

This company is always striving to be of the greatest possible benefit to the greatest possible number. It feels that the gratifying success it has attained is but an indication of the effectiveness with which its policies have been administered and the degree to which they have been of service to the public at large.

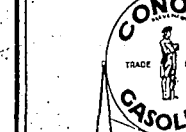

Largely as a result of the service now being rendered by the Continental Oil Company, motorized farm equipment is kept well supplied with fuel and oils of reliable and uniformly high quality; the motor truck fleets of industry and business in the large cities can obtain their full requirements at all times; housewives can obtain their full requirements, all of which will usually be delivered at their doors. And, of course, every motorist is assured of high grade gasoline and motor lubricants by simply stopping at any one of the hundreds of Continental soldier signs—they are symbols of superior quality and supreme service.

Don't go shopping for your gasoline and motor oils. Get a supply of Conoco Coupon Books and carry them in your car. You'll find them a decided convenience on the road.

EXPERTS BEGIN WORK ON UPPER SILESIA REPORT

Britain Holds Fast to Contention for Supreme Council Session to Determine on Course in Trouble Zone

PARIS, (AP)—The British, Italian and French experts designated to draw up a supplementary report of the Upper Silesian situation held their first session here this afternoon.

LONDON, (AP)—The latest French communication insisting that more troops be sent into Upper Silesia immediately is understood to have been the subject of a council meeting this morning, at which Prime Minister Lloyd George, the dominion premiers and several cabinet members were present.

It is understood Lord Curzon, foreign minister, will send a reply to Premier Briand, reaffirming the view that the situation in Upper Silesia does not justify the sending of more troops at the moment, and urging the desirability of a meeting of the supreme council at an early date to deal with the report of the allied commissioners in Silesia.

The French government, in its communication last night, said it deemed it impossible to decide on a meeting of the supreme council until the question of sending reinforcements into Upper Silesia had been decided.

Germany pledges compliance. Germany will abide by the decision of the allied supreme council relative to the question of transportation of a French division across Germany to reinforce the French troops in Upper Silesia, according to information available here today.

German foreign minister, Dr. Rosen, informed the French ambassador in Berlin last night to this effect, in a note.

Elaborate Ceremonies Mark the Occasion with Dignitaries in Attendance

LOUVAIN, Belgium, (AP)—The cornerstone of the new library of the University of Louvain, a gift of the American people to the people of Belgium to replace the one destroyed by the Germans in 1914, was laid with elaborate ceremony here today.

The reading of a message from President Harding was a feature of the exercises which were attended by King Albert, who delivered an address presiding over the ceremony, and Cardinal Mercier, the primate of Belgium, former President Poelaere of France and Premier-We Wiert of Belgium.

CANADA'S TRADERS ARE FAVORED BY ISLANDERS

British West Indies Colonial Decide on Uniform Customs Tariff with Preference to Dominion Goods

KINGSTON, Jamaica, (AP)—The legislative council today adopted a law prohibiting the purchase and export of the Sumatran bird, a measure which was the outcome of the keen competition between American companies purveying and shipping bananas from Jamaica and the other British West Indies.

The colonies of the British West Indies have decided upon a uniform customs tariff for the colonies, one being made to give preference to Canadian goods, principally flour. In return, Jamaica is to give preference to West Indian products, principally sugar and oranges.

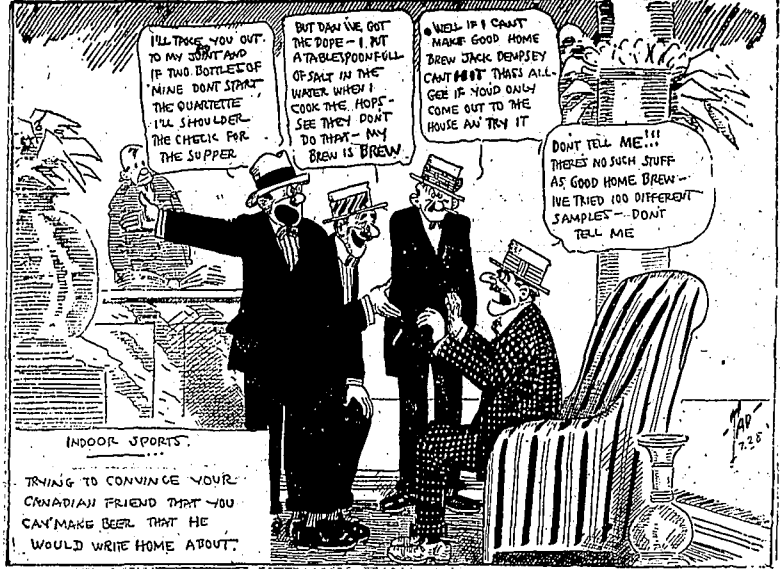

Home of Jefferson is Placed on Market

NEW YORK, (AP)—Reports that Monticello, the home of Thomas Jefferson, near Charlottesville, Va., is on the market, were confirmed today by attorney L. Levy, former congressman and present owner of the historic site.

Mr. Levy said he had made efforts to have the government buy the estate as a summer home for President-elect Hoover, but he would be willing to sell Monticello to the government for \$500,000, a value the estate at one million dollars.

BASEBALL CLUB FINANCES COME UNDER SCRUTINY

Accounts Showing White Sox Profits of \$409,337 During Six Years are Introduced in Evidence at Trial

CHICAGO, (AP)—The financial records of the Chicago American league baseball club were introduced in court today, the club's books showing a net profit of \$409,337 during the past six years, including more than \$225,000 in 1919 alone.

Henry Grabner, secretary of the club, brought the records into court at the request of the defense, which wanted to prove to them that the alleged sell-out of certain White Sox players in the 1919 world's series had not injured the club.

One Year Shows Loss The figures showed gross receipts of \$2,022,938 for the six years. In only one year was there a loss—1918, when the war cut the season short. The deficit then was \$51,673.

Grabner's testimony also showed the tremendous expense of a major league club, ranging from more than \$225,000 in 1916 to nearly \$700,000 in 1920 when gross receipts were \$210,300.

Charles A. Comiskey, president of the club, draws an annual salary of \$50,000, Grabner testified.

Player's Testimony Withdrawn Previous to Grabner's testimony the defense called John Collins and Harry Leibold, former White Sox players, now with Boston Red Sox, and Walter Reuther, who pitched for Cincinnati in the 1919 world series. It had been planned to have these men tell whether they thought the 1919 series was on the square, but on numerous defense objections they were withdrawn.

Attorney for Carl Zerk, of St. Louis, presented numerous witnesses whose testimony was intended to offset that given against him.

Offers Afloat for Zeiser The defense offered in the form of an affidavit for David Zeiser, of Des Moines, Ia., was completed when the register of the Hotel Sinton in Cincinnati for September 29, 1910, showing he registered there that day, was presented.

Bill Buza, state witness, had testified he conferred with Zeiser in New York that day over having the series thrown, meeting him at "Bennett," a lieutenant of Arnold Rothstein.

"AERO WAGON" CARRIES 8 RUSSIANS TO DEATH

Five Delegates to Third International and Two Other Persons Victims of Fatal Accident

RIGA, (AP)—Five delegates to the third international and two other persons were killed in a fatal July 27 airplane "aero wagon" on the Kurak road, according to the bolshhevik Rosta News agency.

The "aero wagon" is presumed in Riga, to be some new invention. It is not described by the telegram. The delegates killed were Struand and Gelbach of Germany, Howlett of England, Constantinooff of Bulgaria and Fremok of Australia.

The others killed were the inventor and engineer of the machine, Adamoffsky, and one Russian official.

COMMERCE BOARD REFUSES TO PRESCRIBE FREIGHT RATES

WASHINGTON, D. C., (AP)—The interstate commerce commission refused today to prescribe divisions of joint freight rates east and west of the Hudson river sought by the Standard roads, but declared that fair divisions cannot "flow from existing arrangements."

WHEAT SUFFERS SETBACK

Prices Fall Off 1 to 1 3/4 Cents when Export Demand Halts

CHICAGO, (AP)—Dulls had an advantage in the wheat market today owing to continued smallness of rural offerings. Belief that export business of late had been greatly under-estimated was also a strengthening factor.

Subsequently, the market declined as a result of an apparent halt in export demand. The close was heavy, 16 to 1 3/4 net lower, with September 1 1/2 to 1 1/2 3/4, and December \$1.27 1/2 to 1.27 3/4.

Dry weather helped the corn market. After opening 1/4 to 5/8 up, including September at \$1.73 to 5/8, the prices closed a decided gain.

Rains in Iowa and Nebraska eased the market later. Prices closed weak at 1 1/4 to 3/8 net decline to 1 1/8 net advance, with September \$1.23 to 1/2.

Oats were firmer with other cereals, starting 1/2 to 3/8 higher, September 29 1/2 to 29 3/4, and then continuing to second.

Higher quotations on hogs gave strength to provisions.

NEW YORK STOCK MARKET

NEW YORK, (AP)—Liquidation and professional pressure caused extreme declines of 2 to 12 points among vulnerable issues in today's stock market.

Traders ignored former relation of money rates. Rates approximated 475,000 shares.

A five point rally in United Drug and an eight point decline in Pressed Steel bar, an overnight announcement that dividend action on the latter had been deferred, following the consolidating movement of active shares at the opening of today's stock market.

The rally in United Drug was short lived, however, that stock soon reacting 7 points. Other issues, particularly equipments, oils, rubbers and motion picture shares became unsettled at reactions of 1 to 2 points.

Texas and Pacific, was among the steady rails, and General Asphalt, Baldwin Locomotive and Retail Stores registered moderate gains.

Speculatives, particularly equipments, were under greater pressure later, regardless of call money's decline to the unusually low rate of 3 1/2 per cent. The closing was heavy.

NEW YORK, (AP)—Raw sugar market was firm early today. After sales of 120,000 bags of Cuban had been made at 3 cents cost and freight, equal to \$4.01 for centrifugal, the Cuban committee advanced the price to 3 1/4c. Additional sales of 10,000 tons were made to the United Kingdom.

Raw sugar futures were firmer on covering, owing to the firmness in the spot market, and prices at midday were four to ten points net higher.

No change occurred in refined sugar, with prices ranging from \$5.45 to \$6 for fine granulated with a good inquiry reported.

Refined futures were nominal. Sugar futures closed steady; approximate sales 4,150 tons; September \$23.13; October \$20.09; December \$20.85; January \$23.85.

# DRWIG LOSES STAR PLAYER IN FIRST TILT

## Kieffner Not to Be at Shortstop in Opening of Series with Buhl-Balloy Subs

Tonight's contest, the first of a scheduled series of five ball games between Buhl and the Twin Falls All Stars, will get under way at 8:45 and fall into innings well played, according to completed plans filed up by the promoting management. Umpire Goldwater has been authorized to call the players afield promptly at the time set.

The game will be played on Lincoln field and is the initial tilt of a series planned to decide playing supremacy in this district of southern Idaho. Buhl claims the title by virtue of two wins over the locals against one for Twin Falls. Both of Buhl's victories were scored on Parit field, Buhl, while the All Stars were victors on the home lot a week since.

### Only Regulars Eligible

In arranging the supremacy series management was careful to select eligible only players who participated in the Buhl-All Star game of a week ago. This agreement was made merely to prevent the inclusion in addition of professional players in an effort on part of the clubs to reach superior strength. It is understood that throughout the series there will be no change of the strongest weak spots. However, because of the necessity of filling one of the most vital positions on the club, shortstop, "Bull" Bailey will "fill" at that position tonight for "Gib" Kieffner, who at present is vacationing far away from the hectic touring and strife of the big city with its social pavements and heated base ball discussions.

### Sub Goes In

Bailey, next to Kieffner, is the best shortstop in the Twilight league. He has hit better so far than Kieffner, but does not cover his much territory in the field as the J. D. man and is not rated as accurate in fielding of throwing as Kieffner.

Under arrangement agreed to by the management of the two clubs the team will take the field this evening in about the following array:

- Buhl—Shields, second base; Liggett, shortstop; Hubbell, left field; C. Murphy, center; Charles, right field; Simpson, catcher; Hall, center field; Miller, third base; Cooper, pitcher.
- Twin Falls—Whitely, second base; Buhl, first base; Whitely, left field; Zienke, first base; Bell, center field; Patton, catcher; Bailey, shortstop; Hiles, right field; Moreley, pitcher.

# COOPERATIVE SCHEME IS PLANNED IN FIGHTS AGAINST HIGH FREIGHTS

## Twin Falls Business Men Propose Consolidation of South Section Shippers and Consumers in Reorganization for Warfare to Reduce Tariffs Now in Effect

Shippers and consumers of Cassia and Minidoka counties are thoroughly aroused over apparent discrimination and extreme height of freight rates for this section of southern Idaho and volcano with cargoes the proposal lately put forward of an organization to correct this situation, according to the statement today of John W. Graham, chairman of the committee named to inaugurate a campaign in the interests of the proposed organization.

Mr. Graham, with C. E. Munson and H. E. Powers, who with J. S. Russell, M. J. Sweedy and Donald McLean, comprise the personnel of this committee, this week addressed meetings held to present the subject at Burley, in Cassia county, and at Rupert and Paul in Minidoka county. In each instance the proposal was cordially received, and local committees were named to take charge of the organization work in the respective communities.

The committee's schedule calls for similar meetings to be held this evening at Kimberly, on Friday evening at Elmer, on Monday evening at Castelford, and on a date in the immediate future yet to be determined, at Buhl.

As soon as the organization work is completed or well under way in each community, a general meeting will be called for the purpose of effecting organization of the central body and as soon thereafter as possible an active and vigorous campaign will be launched by the organization to secure relief in the matter of freight rates.

## Salvation Army Head Says Country Faces Winter of Hardship

### Commander Evangelino Booth Looks Forward to Widespread Distress

NEW YORK, (AP)—Commander Evangelino Booth, head of the Salvation Army in the United States, says that the country is facing the worst winter industrially it has known in 15 years. "In New York City alone," she declared yesterday, "we are receiving an average of 300 registered applications a week for regular employment. That is less than one-third of the actual number applying, because we do not register the transient or unskilled men nor does it include the hundreds who come to us daily for food and lodging. Of the applicants for work, today 84 were really professional men whose credit rating entitle them to good paying positions.

"Most of the men who apply to us for relief are young men under forty, who are willing to work but there are no jobs for them. Last week we had 84 families to care for, with little children who were actually starving. Eviction because the rent money was lacking, was imminent for most of them."

## BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

### WHY I AM A SCOUT

The following statement, written by a boy scout, appeared in a Chicago newspaper in connection with a campaign for scout funds:

"I am a boy scout because I believe in the doctrine of the Boy Scouts of America—America first. I believe in the service to others which the boy scouts have made the premier issue, and I believe that the future of this government, if not of the world, rests in the hands of the boy scouts of today."

"But what have the boy scouts done and why should they be helped? During the war they were ready to answer the summons of their country at any time. Being too young to shoulder a gun, they set to work at home to raise money for the Red Cross and Liberty bonds and war savings stamps, only in the last few days of the campaign, to the few who were not touched before. They were ready to respond to their country in giving first aid to our men, or doing anything else they were called upon to do. For this they received only a word of gratification from their government, but they were not after praise."

"The boy scout is trained to rescue a person in danger, and to apply first aid to his wounds until the doctor comes. The doctrine of the Red Cross is put into practice all over. A scout can be trusted and will never break his word or commit a theft. A scout is loyal and obedient to the right, kind and unselfish, and anxious to maintain friendly toward others and cheerful in his actions. He has to pass certain tests which give him a greater knowledge and a broader view."

"You are now being asked to contribute some money to the boy scouts in order that they may continue their good work. What is your return? A safe government for your children, based on the principles of love, unselfishness and common sense. There need be no fear for the future of America if placed in the hands of the boy scouts."

### SCOUTS LOCATE STOLEN CAR.

The new plan whereby police reports are sent up, decided by wireless every evening had an immediate effect in locating and recovering a stolen car. On a certain evening a large amount of police data and reports were related to the high power radio station of the American Radio and Research Corporation in Medford, Mass., and hurried through the air to a 100-mile radius for the information of some 5,000 amateur operators. Among the items reported were the number, make, engine, etc., of a car which had been stolen from Harvard square, Cambridge, the day before. Among the "listeners" was a boy scout named Barney, who wrote down the details of the theft, for practice in receiving. The next day, walking along the street in his home town, he noticed a car standing beside by the roadside which was of the make of the stolen radiator. He made a quick mental note of the number and ran home to compare it with his radio notes. The two tallied and he at once telephoned the police and the car was restored to its owner.

### SCOUTING A WORTH-WHILE JOB.

B. K. Willow of Philadelphia, a ten-year scout man, says:

"It has been a great pleasure to be associated with the scout work through these past ten years. Whatever it may have meant to the boys it has meant a great deal to me. The seven years when I was actively engaged with the different groups of boys as scoutmaster has brought a great deal of pleasure to me. If every man could come in contact with boys thus intimately he would find it helpful in many ways even though it takes time and means the sacrifice of things men hold dear."

"After the experience of these ten years in connection with work for boys I am convinced that there is no better program for character building than the scout program and I hope that I may have a hand in it for years to come."

### SCOUT REMEMBERS BROTHER.

Among the many Memorial day observations in loving memory of those young men who gave their lives in the great war, perhaps none was more touching than that of the boy scout who saved his pennies faithfully for a long time until he had enough to buy a fine wreath to place on the grave of a neighbor, a lad who had played a role of a "big brother" to the younger boy before he went to his death overseas.

## CAPTAIN KIDD'S NAME IS CLEARED BY ARCHIVIST

Investigator of Records Says Reputed Treasure Hunter Was Pirate.

BOSTON, (AP)—Song and story are wrong. Captain Kidd was not a pirate and his fabled treasure does not exist. Privateersman he was, but of good repute. His hanging, as a pirate, was done until he had enough to buy a fine wreath to place on the grave of a neighbor, a lad who had played a role of a "big brother" to the younger boy before he went to his death overseas.

These are the findings of John H. Brown, archivist for Massachusetts, as announced in a lecture at the Old South Meeting House, Archivist Edmunds was discussing "Lord Belknap and the Pirates."

Belknap, he said, was appointed governor of New England in 1685 with a special mission to suppress piracy. "Before leaving England," Mr. Brown mentioned, "he agreed with Captain William Kidd, a privateersman of good repute from New York, to ally against pirates in a ship called the Adventure Galley, on a 'no-catch-ture-no-pay' basis. The adventurers included Captain Kidd, Robert Livingston, Lord Chancellor Somers, the Earl of Oxford (first lord of the admiralty), the Earl of Romney and the Duke of Sutherland (secretaries of state). Belknap and the crew men, to whom the king's grant of treasure was later made, did not contribute a cent."

"On September 6, 1695, with a 'crazy' vessel and a crazier crew Captain Kidd proceeded on his mission," the archivist said, "and within 40 days of his departure he had captured a Moorish ship of 200 tons and a Bengal merchant man of 500 tons, both having French passes and being lawful prizes."

He came to New York and then to Boston "through the trickery of Belknap, who promised him safe conduct. With the consent of his crew he arrested them to England, tried for murder and piracy, convicted and hung on Execution Dock, Friday, May 23, 1701, to satisfy the political exigencies of the time. It was either Lord Belknap, the lord chancellor, the first lord of the admiralty, the secretaries of state or Captain Kidd, and under the circumstances he had to be a pirate in his trial; the French passes which would have cleared him of the piracy charge, though produced in parliament, were suppressed in the admiralty court. (The lord said about Belknap's notes in this matter, "bitter. The fact of Kidd, he fooled his court, and worst of it is, he allowed it in his letters to the lords of trade.")

"Where Glasses Are Fitted Right"

Testimony in a contest affecting riparian rights of about a score of Rock Creek district farmers was heard by W. O. Sorenson, United States commissioner of reclamation of Boise, yesterday afternoon. No final decision was reached at this hearing although somewhat voluminous testimony was submitted.

The case grows out of an application made by Henry Jones for the transfer of 60 inches of water, decreasing the flow from 100 to 40 cfs. at a point about five miles further up the creek to land sold by Jones to W. H. Larson, a Kimberly business man.

Opposition to the transfer developed when a number of ranchers, taking water from Rock creek stream, alleged that such an act would deprive the flow from the operation of a farm three and a half miles south of Kimberly to a point about five miles further up the creek to land sold by Jones to W. H. Larson, a Kimberly business man.

For deputy sheriffs, or other officers of the law, whose business it is to chase down malefactors, authorities are considering advisability of appeals to war department for trench helmets and similar defensive armor as a protective means against counter attack or accident while pursuing their hazardous occupations.

That night one Twin Falls police deputy came near losing his life or being seriously maimed for life while carrying out a program of practice defence against the netting of an alleged offender against the law, hence consideration of the plan to wear armor. As it came out a bailiff intervened between the deputy and injury, and J. B. Jackson, aged 22, languishes in jail and a Rocky Mountain whiskey still, with quantity of inspissated product of corn meal and the like are in the hands of the authorities as material evidence that Jackson has been fracturing the state prohibition law.

Some Adventure.

The arrest of Jackson was fraught with great deal of adventure and discomfort, according to the tale of Turkey Ben Brown, who was one of the apprehending contingent. Said Brown, who is a deputy sheriff, Hamilton and Ormsby, of the sheriff's section, and John M. Beck, leader of the police force. Brown nearly had his fingers crushed by the force and Ormsby fell into an open cellar, but they got their quarry.

It appears that during yesterday evening the hostile forces of the sheriff's department received radio information that an automobile bearing two men, one of the wheel and another in the capacity of messenger bearing glass slides in form of wet goods, would pass a certain given spot on Third avenue east some time between 10 and 11 o'clock last night. Led by Deputy Brown, the capturing party started for the spot in question. The place indicated in the clandestine information is the Third avenue east corner of the alley running back of the Rex Armory. There is a small vacant plot of ground at this corner, the area being covered with tall weeds. Nearby, and right up against the wall, but standing on the property, is a small material house and back of this is a small residence occupied by a colored family. Further up the avenue, in fact, the next building to the eastward, is a garage tenanted and used as a repair shop and service house. In the weeds about the area included in this description Chief Deputy Brown disposed his forces among squatters and some lying in vantage point.

Just as the town clock tolled the myrtle hour of 11 an automobile containing two men came from the east end of the avenue, driving at a good pace. The car stopped momentarily before the residence mentioned and a man, who later gave his name as T. B. Jackson, and his residence at 330 SE

and avenue east, stepped out. The car drove on.

The incandescent rays from the street corner light revealed to the hidden minions of the law the fact that the man carried under his arm a rather bulky paper package. He started into the vacant part of the lot and was stopped when Officer Hamilton sprang from his weedy couch and confronted him. The man, in panic, turned apparently intent upon fleeing the men who that he had him, but as he turned out popped Officer Ormsby. With two avenue of escape cut off Jackson threw his bulky package far into the weeds, the head of a secreted deputy being missed only by a whisker when the package fell.

Jackson gave up an attempt to escape and was placed under arrest.

Narrow Escape.

The package, which Jackson relieved himself of, was received by Deputy Sheriff Brown and proved to be a half gallon fruit jar filled to the brim with what is declared to be a fairish sample of Rocky Mountain dew, as manufactured in these parts. It so happened that the jar fell on soft soil, and was unbroken in the falling. It is held in evidence against Jackson.

At the sheriff's office Jackson is said to have stated that he lived on Second avenue east, but investigation of the premises at that number revealed the fact that no such person had residence at that place. Through this inquiry the deputies learned, it is related, that Jackson's regular abiding place is at 530 Fourth avenue east. A survey of that place revealed a complete moonshine still in the cellar, the apparatus consisting of a three-burner gasolene stove, a 10-gallon milk can used as a retort, a long copper worm, three 10-gallon wooden kegs containing metal mesh in various degrees of perforation, and some of the finished product of the plant.

Heat and Strain Are Too Much for Norris

WASHINGTON, D. C., (AP)—Senator Norris, republican, Nebraska, suffered a partial-collapse in the senate today at the close of an address of nearly three hours. The effort combined with intense heat exhausted him and he was taken to an adjoining committee room where first aid remedies were applied by Senator Ball of Delaware, a physician who said Mr. Norris' condition was not believed to be serious.
