Freight on Livestock in Western and Mountain Pacific Territory Likely to be Reduced to Eighty per Cent

INTERSTATE COMMISSION
MAKES RECOMMENDATIONS

Suggests to Roads that Voluntary Reduction Would Be in Order and Fixes Minimum at Fifty Cents per 100 Pounds

WASHINGTON, (AP)—Freight rates on livestock in western and mountain Pacific territory were found by the interstate commerce commission today to be not unjust and unreasonable, but the commission suggested to the railroads that the present rates should be reduced voluntarily to 80 per cent of the present rates, the reduction not to be less than 50 cents a hundred pounds. Rates as suggested may be published to become effective on not less than five days' notice, the commission said.

Emergency reductions granted last May still are in effect, the commission said, and there is nothing to show that they materially increased traffic or that present rates have appreciably retarded the movement of livestock which must be marketed at its season.

World Stimulate Industry
Producers contend that reduced rates would stimulate the industry and help it to get on its feet. The commission indicated that it proposed reductions on this basis.

LOCAL BUILDING CANNOT
HOUSE Buhl's STUDENTS

Superintendent Mitchell Announces Accommodations Here Insufficient

That the Twin Falls high school building cannot accommodate the student body of the Buhl high school is the statement made by M. C. Mitchell, superintendent of the local school, in response to a question put to him by one of the board of trustees of school district No. 3 at Buhl. The question was suggested in view of the possibility that the trustees of the Buhl school district might vote down the tax levy proposed to create a fund necessary to meet obligations already incurred, in which case, it is stated, the schools would be closed.

Mr. Mitchell has written the school board a letter of which the following is a copy:

"The Twin Falls high school cannot accommodate anything like the student body of the Buhl high school and for each one of those who are permitted to attend the Twin Falls high school it will cost the Buhl district \$15.51 per month each month for tuition."

FOR ALASKA DISTRICT JUDGE

WASHINGTON, (AP)—G. J. Lenth was nominated today to be district judge, second division, Alaska, and Arthur G. Shoup and Sherman Duggan nominated respectively as district attorneys, first and third divisions, Alaska, and Morris W. Griffith, marshal, second division. All are residents of Alaska.

ON PHILIPPINE SUPREME BENCH

WASHINGTON, (AP)—Manuel A. Auza and Norberto A. Banaag, both of the Philippine islands, and Charles A. Johns, of Oregon, were nominated today to the Philippine supreme court. It is understood that Justice Banaag is to be designated as chief justice on his confirmation.

Would Curtail Authority of the Commission as to Long and Short Haul Rates

WASHINGTON, D. C., (AP)—Withdrawal of authority of the interstate commerce commission to impose long and short rates under the Esch act is proposed in an amendment offered today by Senator Pittman, democrat, Nevada, after the senate interstate commerce committee has refused to incorporate it in the administration railroad reformatory bill. Senator Pittman says he proposed to "end present discrimination in railroad rates against the middle west."

Attorney General Declares Railroad Ownership in Means of Avoiding Claims

TOPEKA, Kan., (AP)—Charging that the Santa Fe railroad controls the Atchison, Topeka and Santa Fe Hospital association as a means of avoiding compensation claims, Richard J. Hopkins, attorney general, today brought quo warranto proceedings in the Kansas supreme court, asking that the officers of the association, who are also present or past officers of the railroad, be ousted from office.

Fifty Men Engaged in Tearing Down Cliff where Remains of Priest were Found

SAN FRANCISCO, (AP)—Fifty laborers, directed by Constantine A. S. Laidlaw, of Topeka, today started to dig away the sand cliff where the grave of Rev. Father Healy, murdered priest was uncovered. Wednesday night by William A. Hedges, district attorney, he is in jail. In Redwood City, San Mateo county charged with the priest's death.

Laidlaw said he wanted to determine if there were other bodies buried nearby, for his theory was that the unknown man who abducted Rev. Healy had slain him by his own accomplices.

MAKES NEW WORLD RECORD

COFFEYVILLE, Kan., (AP)—Fred H. Eichen, a local tramp, established what was declared to be a new world's record by breaking every one of the 100 double targets event at a regular shoot here yesterday. The record was 57.

Lawyers Likely to Base Defense Upon Woman's Story of Mysterious Foreigners on Scene of Crime

LOS ANGELES, (AP)—Arthur C. Booth and Mrs. Maryline Booth, who were charged with the murder of John Kennedy, insurance broker, in their attorneys' office, today announced their intention to enter a plea of not guilty to the charges. The attorneys, who were in the morning before Superior Court Judge Sidney N. Reese. It was said the court might be asked to extend the time for setting a trial date for the next month. The Booths had not completed their plans for engaging additional counsel.

Mrs. Booth's counsel, according to present plans, will include her divorced husband, Ralph R. Booth, attorney of Chicago, who arrived here yesterday and spent some time in consultation with her. Mr. Booth's counsel is expected to be Mrs. Booth's sister in law, but could take no part in the proceedings because he has not been admitted to practice in California.

Has Faith in Son

The Rev. William A. Birch of Exton, Ill., father of the other defendant, said he would be in court with his son. He expressed his absolute faith in the innocence of the young man. Mr. Booth said he regarded the charges against his former wife as "absurd" and declared she told him the same story she told authorities. This was said to be the first time the Booths had been together since the night of August 3.

Both Sides to Comment

On the charge against Birch. The Rev. Birch also declined to comment upon Mrs. Booth's case.

Mrs. Thomas Smith, cousin of Mrs. Booth, said she knew the men today who were charged with the murder of the Irish. She said she knew that Kennedy was killed by Mrs. Booth and that she knew of her own knowledge recent occasions when he had pressed his suit. The district attorney's office has announced its theory in the case that it was Mrs. Booth who was using marriage.

Charges and Counter Charges Mark Opening of Question of New Wage Agreement to Take Place of Present Scale

BUTCHER WORKMEN ARE IN
NO MOOD FOR WAGE CUT

Conference of Members of International Union Opens with Accusation of Double Cross by Former Union Chief

OMAHA, (AP)—Union packing plant employees will not accept a wage reduction, according to Cornelius J. Hayes, international president of the Amalgamated Meat Cutters and Butcher Workmen union, delegates and officers of which went into session here today to formulate a plan to negotiate with the packers an agreement to take effect when the present national agreement expires September 15.

Mr. Hayes made a verbal statement to this effect before entering the conference, which is expected to last for four or five days. He expressed the opinion that action at the present meeting would result in the arrangement of "an amicable" agreement with the packers so that "no drastic" action would be taken by the union.

Formulation of plans to attempt to continue the present national agreement under which packing plant employees are working and which expires Sept. 16 or negotiate another to serve in its place is the object of an international conference of officers and delegates of the Amalgamated Meat Cutters and Butcher Workmen's union here today.

Wage Reduction Anticipated.
Representatives of the union are said to be contemplating an effort by the packers to reduce wages at the expiration of the existing agreement.

Patric E. Gorman of Louisville, Ky., the union's international vice president, said following his arrival yesterday that the union was in a "very amicable" understanding with the packers would be made.

Although there have been reports that the conference would also deal with the industrial relations organization sponsored by the packers for adjustment of disputes, this subject would have no place in the meeting, according to Cornelius J. Hayes, the union's international president. The Omaha district union council, however, has already adopted a resolution asking affiliated locals to notify any of their members on boards of such conference organizations that their failure to withdraw from these positions will mean their expulsion from the union.

HEAVY DAMAGE

Santa Fe Railroad Bridge Over Fountain-River Washed Out at Pueblo—Much Damage to Highways Reported

MANY AUTOMOBILE PARTIES ARE HELD UP BY WASHOUTS

Only One Railroad from Pueblo into Colorado Springs—The Damage is General Over El Paso County

PUEBLO, Colo., (AP)—Heavy rains in Pueblo and at points nearby caused a rise in both the Arkansas and Fountain rivers here yesterday and last night. Considerable damage was done to roads in Pueblo and the vicinity, and the Fountain river was almost at flood stage. The Santa Fe railroad bridge over the Fountain river in this city city was washed out, delaying traffic.

The water went over some low lands. Many Autos Stalled.

The storm was severest north of Pueblo at the Colorado Springs road. Near Butler the water was several feet deep and many automobile parties were stalled for hours.

Only One Track in Use

Only one railroad track is being used today between here and Colorado Springs, giving in washouts in El Paso county.

During the storm Sunday afternoon Thomas Holand, aged 47, a plumber of this city, was killed by lightning while riding in an automobile on the Pueblo-Boulder road.

MAY REMOVE SHOP CRAFTS
FROM NEW RAILROAD LAW

Leasing of Repair Plant by the Erie Road May Be in Violation of Statute

CHICAGO, (AP)—Announcement from Marlon, Ohio, that the Erie Railroad company has leased its shop and repair house there to a local operating company, which will handle the road's repair work, may bring intervention by the United States railway labor board if there is any evidence of a concerted plan on the part of the roads to follow the practice generally, a member of the board said today.

"It is not done to such an extent as to appear to be an evasion of the transportation act," the board member said, "this board would take some action."

The Railway Service company, formed at Marlon to operate the leased shops, would not be subject to the board's jurisdiction under the transportation act. It was pointed out, as it is not a "common carrier." Hence, members of the board said, its employees will not come under the board's wage and rates order. If the roads follow the plan generally it will have the effect of a "common carrier" law, removing the shop crafts from the benefits of the Zach-Commins act. He advanced the opinion that the board would have the right to consider such a step a violation of the law.

FILES BITTER COMPLAINT
ON KANSAS FREIGHT RATES

Interstate Commerce Commission Told that Present Schedules Must Come Down

WASHINGTON, (AP)—Bitter and financial conditions in states served by the tenth federal reserve bank, Kansas City, are deplorable, due to high cost of production and freight rates, agricultural products and prevailing low prices, A. E. Ramsey, chairman of the federal reserve bank at Kansas City, told the interstate commerce commission today in hearings of freight rates on the grain products and hay.

The complaint against present rates was made by the Kansas state railroad commission, joined by twenty other states and various grain producers' associations.

Producers are unable to sell their products above the cost of production and distribution, Mr. Ramsey said.

ASSOCIATION DISAPPOINTED BUT HOPEFUL

Idaho Reclamation Head Points
Out the Possibilities for De-
velopment Program in the
Gem State

POCATELLO, Idaho (Special to The News)—While the news from Washington that President Harding opposes any appropriation at the present time for further reclamation development is disappointing, at the same time it does not mean that progress is impossible with relation to Idaho irrigation projects, and more especially the American Falls enterprise, according to the statement issued today from the headquarters of the Idaho Reclamation association.

"While it is probable that the president's attitude, based on the economic grounds and not because of opposition to reclamation development, ends the high hope of enactment at this time of the McNary-Sinclair bill," this statement says, "we know that there are funds available that can be used to materially aid reclamation construction in Idaho. These are buried funds arising from a variety of sources, such as unused appropriations, proceeds from land sales, etc., that amount to a large sum."

To Dig Up Funds.
The Idaho Reclamation association is doing everything possible to bring these buried funds disinterred and applied. The money is there, and has been located in more or less obscure accounts, and there are several million dollars of it. We are looking upon it as being applied, and we shall be especially persistent, on behalf of Idaho, now in view of the improbability of the enactment of the McNary-Sinclair bill."

Retards Production.
The association regrets that President Harding has taken this action, and believes he might better have enforced economies elsewhere than to have directed it to the future production of the work. The effort to secure reclamation appropriation at this time should not be abandoned by this association, and it is urging the Idaho legislators to continue to endeavor to secure favorable action on the McNary-Sinclair bill, and if nothing can be done in that direction, we feel sure that by united effort these buried funds can be dug up and applied in a manner that will do us over."

Idaho People Indifferent?
Guy Fleming of Boise, has come to Pocatello, to take over the temporary management of the Idaho Reclamation association, and will continue to direct its activities if he can win the public support sufficient to justify the continuation of the important work of the association along broad and constructive lines.

He is getting in touch with the large reclamation connections, and expresses the belief that now is the time to put forth a concerted effort to counteract the antagonistic interests in the east. In the theory that God helps those that help themselves, Mr. Fleming thinks that the people of Idaho should stand up and be counted on this reclamation proposition, and take their place so that the enemies of reclamation extension cannot say there is any indifference in Idaho.

Letter from Governor.
The Idaho association, Mr. Fleming says, is co-operating closely with the Western States Reclamation association.

Girl, Sixteen, Loses Her Two
Husbands

Florence Cobligh, 16-year-old Brooklyn, N. Y., girl, had the distinction of losing two husbands. She lost them both in the Brooklyn Supreme Court recently, when Justice Squire annulled her marriages on application made by the girl's mother. Florence married Robert Brodchinski in November, 1920, and on April 2 of this year married Otto Beringer. Beringer heard of his bride's previous marriage and had her arrested for bigamy. The charge was not pressed because of the girl's youth.

as evidenced by the following letter from Governor Davis:

"Hon. Guy Fleming,
"Boise, Idaho:
"My dear Mr. Fleming:

"I have just learned that you are going to Pocatello in the capacity of managing director of the Idaho Reclamation association, succeeding the late Fred E. Reed."

"The Idaho Reclamation association has done good work since its organization, and I believe it would be a mistake to discontinue that work and wish you every success possible and hope that all the arduous and semi-arid portions of Idaho will give the association active co-operation, as every community interested in the reclamation of land can be a stimulant in itself to the general cause of reclamation."

"I know that the Idaho Reclamation association can be of great assistance to the Western States Reclamation association, and I want to express my hearty appreciation for the co-operation they have rendered the western states in the past."

"Wishing you every possible success, believe me,

"Sincerely yours,
"D. W. DAVIS,
"Governor."

Subject of Loser's Ex-

BERNE, Switzerland (AP)—The members of the Swiss rifle shooting team who have just returned from Lyons where they met defeat for the first time in 16 years, at the hands of the American marksmen, in the international rifle shooting tournament last week, complain that the American victory was due to "special technical apparatus such as field glasses, lenses and padded cushions for resting elbows and knees."

In future the Swiss team will refuse to compete unless the marksmen refrain from using such paraphernalia.

MEANING OF FREEHOLDER DEFINED BY AUTHORITY

State Attorney Roy L. Black Renders
Opinion Valuable to Owners

Intended to be merely a reply to questions sent him from Blah, but of interest and importance to all residents of this state, an explanatory of the term "freeholder," State Attorney General Roy L. Black, has written the following opinion, which has been received by Attorney J. W. Taylor, of Boise.

On the question submitted by you over the telephone, the only authority I have been able to find is Starkweather vs. Childfield, a Michigan case, reported in 112 Northwestern, 1071. There the court had occasion to rule on whether or not a vendee in a land contract in possession, is a freeholder. The court says he is and says:

"At the common law (1 Hawk's Bouvier, 693, lit. 'Estate and Freehold'), and by statute (Comp. Laws Sec. 5787) estates of inheritance are freehold estates. The estate of a vendee in a land contract, in possession, is an estate of inheritance."

"I agree with this opinion and that being the case, the holder of a contract who is in possession, whether the deed was in escrow or not, would be a freeholder."

TOKIO, (AP)—Reports of the overthrow of the Far Eastern republic at Chita, which have been current here for a couple of days, are still without confirmation.

A Vladivostok dispatch to the Jiji Shimpu says that General Thron Unger Sternberg was the supposed leader of the forces which brought about the collapse of the Chita government. The newspaper says wireless reports have been received telling of firings in Eastern Siberia.

A. T. Krasnotekhtoff, former foreign minister of the Far Eastern republic, one report asserted, escaped to Dauria in an airplane.

ARRANGE ORGANIZATION OF RELIEF COMMISSION

Control of Russian Famine Food
Supply in Hands of Many
Nations

PARIS, (AP)—The allied supreme council decided today that the international Russian famine relief commission, which was agreed upon at Wednesday's session, be composed of three delegates from each country represented in the council including the United States and Belgium.

Ambassador Harvey told the supreme council he would communicate with Washington on the subject and that the American members of the commission would be appointed as soon as possible.

In a resolution adopted by the supreme council the United States congress is urged to pass as soon as convenient a measure in connection with financial relief for Austria, that Ambassador Harvey informed the meeting was still pending, so that the Austrian plan may be put into operation.

The pending American legislation also included in the foregoing dispatch apparently is the bill giving Secretary of the Treasury Mellon wide authority in the matter of refunding foreign loans.

American claims against Austria approximately \$24,000,000.

WORLD CONFERENCE OF FINANCIERS IS LIKELY

Plan Under Consideration for Meeting
to Stabilize Foreign Exchange

WASHINGTON, D. C., (AP)—Assembly of an international congress of financiers at Washington—possibly coincident with the disarmament conference in November—to discuss stabilization of foreign exchange is under consideration at the treasury, officials said today. The purpose would be to evolve a program which, by stabilizing exchange rates, would pave the way for a revival of commerce between the nations.

An appropriation by congress would be necessary to permit the holding of such a meeting, officials asserted but, they added, the expense would not be great.

MARINES IN SAN DOMINGO FACING SERIOUS CHARGES

Report of Investigator Declares
No Justification for Action

WASHINGTON, D. C., (AP)—Charges that American marines in San Domingo committed murders, terrorized the people and burned their homes were presented to the senate committee investigating conditions since the American occupation in 1916, by Horace G. Knowles, adviser to the Dominican national commission in the United States, in a report made public today.

The Knowles report declared there was no justification for sending troops to the island, that never in the history of San Domingo had there been a disturbance "comparable to one that recently occurred at Tulua," that lynchings were unknown and that life on the island is more secure than on Broadway or in Central park, New York.

The Wonderful Story of Powdered Milk

Did you know that you have been
using powdered milk for over ten years?

Yes, you have, too.

That thin, tender brown crust on
baker's bread

—that rich creaminess of ice cream

—that smooth richness in caramels,
milk chocolates, and cream candies

—those light tender pancakes, ready
mixed with powdered milk

—all these are made with powdered
milk.

But this is barely the beginning of the
wonderful story of powdered milk.

Klim Powdered Milk is nothing but
rich, fresh, pure cow's milk reduced to
powder form. Nothing is added—no pre-

servatives, flavors or other substances of
any kind.

The milk is pasteurized and then
sprayed by force, in the finest of mists,
into a room, where it is met by a whirl-
wind of warm air. The water is evaporated
at once and the solids of the milk
fall like snow in drifts.

M-I-L-K—Milk with the water removed
is KLIM.

K-L-I-M—Klim with the water replaced
is MILK.

You replace the water in Klim and
you have milk that looks, tastes, and
smells like fresh milk. It contains vita-
mines and all the nourishing properties of
pure, rich milk. For it is milk.

Klim in powdered form needs no ice to
keep it; it will not sour; and it will not
freeze in winter.

TWIN FALLS SELECT BALL MEN
SMOTHER WEST END ASPIRANTS
UNDER MANY HITS AND SCORES

Championship Hopes of Buhl Team are Extinguished when Orwig's Defenders Turn Back Opposition by One of Most Decisive Beatings Administered in History of Faris Field—Cooper Severely Punished

WHATEVER aspirations Moos's Buhl baseball team had to the district baseball championship were utterly extinguished yesterday at Buhl when the Twin Falls All-Star team smothered the strengthened West-enders under a score of 10 to 4. This gives Twin Falls the series, 3 to 1.

Manager James Orwig carried a patched-up team to Buhl for the fourth game of the series, originally designed to be five. He was short. Whittier, regular second baseman and, in the absence of "Lefty" Oliver, was compelled to coach "Spud" Morley to the mound. Not that this defection made much difference. Orwig intended sending "Spud" in to start one game against the West-enders. The fact that Oliver was not available made it necessary to seek further for a relief pitcher to fill in should a breach be made in the defense of the domestics. And as it turned out, it did become necessary. Orwig carried Hank, pitcher, and utility man for the Elks of the Twilight League. He served two innings yesterday, and got by without being scored against. He gave a couple of hits and two walks, 10 men confronting his term of servitude.

Imported Help.

On the other hand, Moos of Buhl strengthened his new line defense materially with new men at third base and shortstop. In fact, three recruits, Neuman, in the former position, and Lindstrom in the latter, were strengthened towers for the west-end champions. It is said they were brought over from Salt Lake City yesterday's game safe for Buhl. Both men fielded it startling fashion and each did his share with the stick. Neuman got the blow, and good for two hits. His teammate got a good hit and added two counts to the Buhlmen's total. Between this pair new Twin Falls men were killed off. Each hobbled a chance.

To fill the breach caused by Bob Whittier's non-appearance Manager Orwig was forced to call "Old" Neuman for field to the key position. Carlos Lindville was sent to the left side of the outer area to take Neuman's place. Neuman played a game game at the new place, and was kingpin of both contending outfits with the warlike. He gathered five hits in six at-bats. One of his hits was a three-bagger late in the game, and another occasion he ramped the globe over the right field barrier for a circuit run.

Among the other local stars with the stick were Zienke, who had a perfect percentage for the day. "Zink" lamed the ball for safe hits every time. "Complacent" Cooper gave him a chance, but being there all said he feared the Buhl twister six times altogether, but Cooper was leary of his powers with the club and threw the ball wide of the plate the other three times.

Scintillant Stars.

Then there was "Silk" Kieffer, who surprised himself and the fan folk alike with his hitting. The tricky shortstopper of the Star outfit, got three blows in five times up. "Red" Bell hit on a level with Kieffer, and "Pat" Patton, Rile and Watson each gathered a brace of blows for themselves. It was Watson who really opened the storm attack on Cooper when in the fourth with Kieffer on base, he punished the pill for a hit over the right field fence. Zienke pulled a homer over the right wall in the inning, while Bell smote a two-bagger and Neuman a single, all after Kieffer had singled with two men out. These hits counted five runs. Later in the sixth Neuman slammed the sphere over the right barrier, making the total circuit clouts three for the day.

Every man on the Twin Falls team smote the ball safely at some period or another during the exercise, except "Spud" Morley and Carlos Lindville. "Spud" seemed to be paying most attention to the work of pitching during the early part of the game, but after being relieved of that responsibility to get at least one hit. But he had no luck. Lindville hit the ball over the right field fence, but on three occasions he was tossed out, while on the other two times he forced some man who had reached base ahead.

Some Hitting.

Except as it relates a tale of hard hitting and the administering of the severe sort of punishment to Pitcher Cooper, Buhl's third man from Salt Lake, the story of the game is scarce.

Farewell to the Ring for Georges After the Tom Gibbons Fight

Frenchman Announces Program for Retirement to Private Life after January

BOULOGNE, France. (AP)—Georges Carpentier will bid farewell to the fighting ring after he meets Tom Gibbons, the St. Louis light-heavyweight champion, in the United States next January. St. Desamps, the French champion's manager, announced today. He said that Carpentier would fight an English boxer, not yet designated, in London, some time in October or November; then he will meet a French heavy-weight in Paris, previous to meeting Tommy Gibbons for the light-heavyweight championship of the world.

Makes New Record But Dies in Half Hour—Burns' Fate

Oakland Speed Demon Has His Neck Broken in Fall from Motorcycle

TOLEDO, O., (AP)—Less than half an hour after he had broken the world's dirt track motorcycle record for one mile, exceeding the distance in 46 seconds, Albert W. Burns, 27, of Oakland, Cal., was fatally injured, when, in the first lap of a 25-mile race at the fair grounds here yesterday, a fellow rider crowded him, forcing his machine to skid and crash through a fence. Burns' neck was broken and he died on route to a hospital.

"Midsummer Madness"

with
Lois Wilson, Lila Lee,
Jack Holt & Conrad Nagel

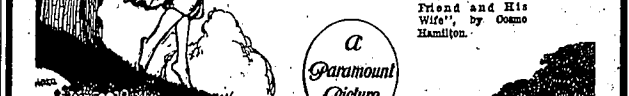

The woman's whole being cried out for affection. But the lover she married had changed to a cold, plodding husband.

Here was an ardent, old-time friend, feeding her hungry heart with the thrill her romance had lost.

A moment of midsummer madness—wild—flattering—reckless and then—

When the last stirring scene is ended, you'll know far more of modern love and marriage.

From the Novel "His Friend and His Wife", by Cosmo Hamilton.

DETECTIVE IS ON HOT TRAIL OF BIG REWARD

Missing Canadian Millionaire is Believed Discovered in Person of Legless Man Located in Des Moines

POLICE NOT INCLINED TO ACCEPT STORY YET

Private Operative Tells World Tale—Reward of Fifty Thousand Dollars Posted for the Past Two Years

DES MOINES, Ia., (P)—Local police officials today are inclined to question the story given out by Frank Hartley, a private detective, that he has found Ambrose Small, Toronto millionaire, who has been missing from his Canadian home for more than two years. Hartley and his associates continue to shroud the case with mystery and refuse to tell exactly where the man they believe to be Small is located. The man is legless, according to Hartley.

Former Secretary in Jail. John J. Drophy, former chief of detectives, who is working on the case with Hartley, says the man they believe to be Small, was brought to Des Moines more than a year ago. He intimated that he was brought here by John Doughty, Small's former secretary, who is now serving a term in a Canadian prison for the theft of some of the millionaire's stocks and bonds. Hartley says the man was fairly well supplied with money and that he was left in the care of a private family, who promised to keep his whereabouts a secret. Drophy says it is impossible to encourage the man to talk, but he says he is "yes" or "no" and frequently meaningless.

A reward of \$50,000 is offered for Small's return to Toronto.

A local theatrical man who had dealings with Small in Toronto several years ago has been taken to see the man being cared for here. He says he is sure that the man is Small.

Remember? Little Margery wanted to talk over the telephone with her mother, who was visiting a friend, so her older sister went to the phone number and let her call Central. A few days after this conversation, when the mother was paying another visit to the same friend, the older sister overheard Margery at the telephone. Central evidently had been asking for the number, and Margery was explaining her situation. "Central, I want the number," she said. "I had Thursday. Don't you understand? The same number."

April Fool Jokes. According to tradition the custom arose from the fact that Noah sent the dove on the first of the month, which corresponded to our April. The water had started to pour, to the memory of the great deluge of Noah and his family, it was an anniversary on the anniversary to positive persons who had forgotten the remarkable circumstances connected with the deluge by holding on to one foolish error, similar to that which the patriarch sent the luck to the dove from the windows of the ark.

SO YOU DON'T THINK SISTER JAYNE SHOULD MARRY MR. HOOKUM? NO, I DON'T.

WELL THEN, GIVE YOUR HUNDRED REASONS WHY NOT? WELL, THE FIRST REASON IS THAT HE HAVEN'T GOT ANY MONEY.

MACAULEY IS NAMED LOCAL COUNCIL HEAD

Irish Recognition Movement Council Has Temporary Officers Here.

Temporary officers have been selected to look after the affairs of Twin Falls council, American Association for the Recognition of the Irish Republic, with T. C. Macauley as president. The other executives, holding office until a regular and permanent organization shall have been completed, are: Mrs. Charles B. Larson, vice president; Thomas McElwaine, recording secretary; (Lionel) Buchanan, financial secretary; L. J. Bradley, treasurer. A wide convention of the association will be held in about six weeks and at that convention a report of progress will be made by committee from the local council. Petitions are to be prepared for signatures, these urging upon the representatives in congress support for the Irish recognition movement. The committee will carry on the membership and petition campaign simultaneously in order to save duplication of effort.

Roman Baths Overlooked. The baths of ancient Rome were wonderfully pictured by painters and story tellers, do not compare favorably with the modern bath. Judged by standards prevailing before the coming of Christ, these baths were wonderful, but measured by standards of today the glories of Rome, marks of the highest degree of civilization in the ancient world, would be declared unsanitary and likely to be condemned as menaces to the health of users.

The Uninvited Guest. One evening I dropped in to see some intimate friends. When I entered the house I discovered to my surprise that they had friends for the evening. Before I could excuse myself their youngest daughter, Elizabeth, asked me if I had been invited to the party. Upon answering in the negative, she said, "Well, why did you come?"—Chicago Tribune.

Today's Markets

WHEAT SHORTAGE IN INDIA STRENGTHENS PRODUCE

Definite Estimate of Exportable Surplus Helps to Clarify the Market

CHICAGO, (P)—Wheat showed considerable firmness in price today owing in some degree to a current estimate that the United States exportable surplus would not exceed 176,000,000 bushels. Announcement that India's crop would be more than 125,000,000 bushels short of last year's total was also a bullish factor. On the other hand, adjectives in price here brought about increased offerings. Initial quotations, which varied from 1-4 to 3-4, and with September 1-24 3/4 to 1-25 and December 1-26 1/2 to 1-26 3/4, were followed by slight further gains and then something of a reaction. Subsequently, smallness of country offerings had a tendency to uphold values. The market closed steady at the same Saturday's finish to 1-26 3/4, with September 1-24 3/4 to 1-25 and December 1-26 1/2 to 1-26 3/4. Large receipts counted against upward movement in the corn market. After opening unchanged, including September at 50 5/8 to 50 5/8 to 3-4, prices hardened a trifle, and then showed a disposition to sag.

Reports that Iowa and Nebraska farmers were showing less willingness to sell gave a little advantage later to the bulls. Prices closed steady, at a shade to 1-4c net advance, with September 50 3/4 to 50 3/4. Oats like corn were weakened by liberal arrivals. The market opened 1-8 off to a like advance, September 3-8 3/4, and later went below any level which has been touched this season by the September delivery. Provisions locked support. RAILS GROW FIRMER AS INDUSTRIALS SLIP BACK

Early Morning Trading Indicates Heavy Selling with a Few Low Records

NEW YORK, (P)—Selling of selected industrial was renewed in the early stages of today's stock market session. New low records for the current movement were made by United States Rubber, common and first preferred, Central Leather and Continental Can, these shares showing extreme fluctuations of one to four points. Mexican Petroleum, Retail Stores, Bethlehem Steel, General Electric, Studabaker, Anaconda and Goodyear are also lower by substantial fractions to one point.

Among rails, especially the investment group, as represented by Great Northern and Union Pacific, a firmer trend was noted. Rails of the latter type were bid up two to two and a half points, but oils and industrials, notably Mexican Petroleum, Harvester and General Electric extended their losses. The closing was weak. Additional declines of one to nearly five points were registered by various industrials and specialties in today's bull stock market, establishing minimum prices for the year. Sales approximated 400,000 shares.

Liberty Bonds NEW YORK, (P)—Liberty bonds closed: 3 1/2's \$98.00; first 4's \$97.70; second 4's \$97.00; first 4 1/4's \$97.90; second 4 1/4's \$97.50; third 4 1/4's \$91.50; fourth 4 1/4's \$97.85; Victory 3 3/4's \$98.70; Victory 4 3/4's \$98.70.

Sugar NEW YORK, (P)—The raw sugar

market was steady early today at 3 1/4c for Cuba's cost and freight, equal to \$18.65 for centrifugal. No sales were reported.

In raw sugar futures trading was confined to new crop deliveries and prices at midday were 7 to 8 points lower under selling by commission houses. Refined was unchanged at \$6 to \$6.15 for fine granulated with a fair inquiry reported. Refined futures declined five points. Trading was light, consisting of one lot of August at \$6.10.

Sugar futures closed steady; approximate sales 2,050 tons; September \$3.02, October \$2.97, December \$2.84, January \$2.75.
