TWIN FALLS, IDAHO, THURSDAY, AUGUST 18, 1921

PRICED FIVE CENTS

Conspiracy Charge Is Lodged Against Bergdoll's Lawyers and Those Military Officers Who Permitted His Escape

DROPS HIS LABORS IN COMMITTEE

Ashurst Declares Colleagues in Conference Seek to Pull the Teeth from Stanley Anti-Beer Amendment

SAYS HE WILL NOT BE PARTY TO BOOZE DEAL

House Substitute for Senate Bill Meets Vigorous Opposition Among Dry Supporters in Upper Body

WASHINGTON, D. C. (AP)—Senator Ashurst, democrat, Arizona, announced today that he had refused to participate in further conferences on the anti-beer bill "because of an evident intention on the part of the conferees to weaken and destroy the effect of the Stanley amendment, adopted unanimously by the senate."

Was Dry Manager. As a member of the judiciary committee Senator Ashurst was named one of the renegade managers, but it developed that he withdrew from the meeting Tuesday night. He declared that he would "not return to the conferees if they proposed to agree to any amendment which would indirectly permit the manufacture of vicious, malt or spirituous liquors in the home or elsewhere for beverage purposes."

Refuses to Comment. Senator Ashurst declined to comment on published reports that Wayne C. Wheeler, general counsel of the Anti-Saloon league and with the conferees yesterday and assisted in the work of trying to get the house and senate together on provisions of the bill.

Issue Is Drawn. The Stanley amendment was adopted the senate provided that prohibition agents may have search warrants for homes of a residence and premises other searches made without warrant, where "good cause" was not shown. Senator Ashurst authorized a statement saying he was a strong supporter of the anti-beer bill and had participated in the conference Tuesday evening and objected to the house amendment on the ground that it would limit the manufacture of distilled and malted spirits in the home for beverage purposes and would permit "hundreds and even thousands of miniature breweries and distilleries to be set up."

Substitute Not Satisfactory. It was said the conferees had prepared a substitute for both amendments requiring a search warrant for homes of a residence and premises other searches made without warrant, where "good cause" was not shown. Senator Ashurst authorized a statement saying he was a strong supporter of the anti-beer bill and had participated in the conference Tuesday evening and objected to the house amendment on the ground that it would limit the manufacture of distilled and malted spirits in the home for beverage purposes and would permit "hundreds and even thousands of miniature breweries and distilleries to be set up."

Makes Position Clear. The Stanley amendment was adopted unanimously by the senate and "is a re-statement of the guarantees contained in the fourth and fifth amendments to the constitution," the statement said, and Senator Ashurst, on observing "an evident intention on the part of the conferees to weaken and destroy the effect of the Stanley amendment," announced to the conferees that he would not sign a report which altered the Stanley provision, and left the conference not to return "unless the conferees agree to the Stanley amendment in the exact form that it passed the senate."

Longley Advised His Nomination Confirmed

Word has been received by Captain C. L. Longley of the confirmation last made by the senate of his appointment as government attorney at Boise. Mr. and Mrs. Longley expect to move to their new home as soon as they receive notification of the date set for the assumption of the new duties.

ROBERTS GETS POST. WASHINGTON, D. C. (AP)—James W. Roberts, of Great Falls, Mont., was selected today by the senate committee at Great Falls, Mont.

General Smuts' Plan May Be Basis For Irish Compromise

DUBLIN, (AP)—Debate on the reply of the Irish republican parliament to the British government's offer of dominion status to Ireland was begun by the parliament in executive session here today. During public meetings held on Tuesday and Wednesday, the members heard Eamon de Valera denounce the British offer, and said that Ireland would insist upon separation from England, but with the exception of the applause which greeted the utterances there were little by which observers could estimate the attitude of the majority of the parliament toward absolute rejection of the terms.

It was the general belief that the Dal Eileann would not break off the negotiations with Great Britain and it was thought that some action might be taken to approach Ulster in an effort to secure his cooperation in carrying on the conversations in London.

Mr. de Valera stated yesterday that he was ready to get in touch with the governments of northern Ireland and that the Irish republicans would "make sacrifices in Ulster that they would never think of making to England."

May Make New Proposal. Should an entente between Ulster and the Sinn Fein be reached, it was indicated yesterday, new proposals to Great Britain might be made, and there were cleavers who expressed belief that the offer would take the form of a proposition to enter the commonwealth of British dominions as an independent state.

Members Are Serious. Members of the Dal Eileann were said only this morning and were a more serious look than ever when they gathered at the Mansion House for their meeting. They arrive singly and in groups of young men and young women, as most of the members are, with an occasional veteran and Count Plunkett and Professor Stockley. All the women were in mourning, some wearing widow's weeds.

Most of these youthful legislators are shy and bashful, avoiding particular skill in dodging the cameramen, who are displaying much activity.

Confident War Ended. Judging from the newspapers, the people of Dublin seem to have no confidence that many people abroad that the war will not be renewed. For instance the Irish independent, which is closest to the Sinn Fein, says this morning:

"We rejoice to find in Mr. de Valera's statement no suggestion that the negotiations are likely to be terminated."

Sessions May Drag. How long the secret sessions of the Dal will last none of the deputies (which the members of the Dal are called) who are present here would venture to predict. The publicity seems to be that the Dal meetings will extend over "the week and the next public meeting on 3 next week."

Meanwhile, it is pointed out, the possibility exists that something may pass

between the Mansion House in Dublin and Downing street in London, there being hope in some quarters that Mr. de Valera's speech of yesterday will give the British government a clue as to what Premier Lloyd George or the Belfast authorities to action.

May Adopt Smuts Plan. If this does not come to pass, the political forecasters take the view that the Dal will either send a considered reply to Mr. Lloyd George's letter, announce its decision to submit the question to a plebiscite, or ask the government whether it will agree to give Ireland dominion home rule of the kind outlined in the recent letter of General Smuts.

DE VALERA'S MOTHER PLEADED. ROCHESTER, N. Y. (AP)—Mrs. Charles Wheelwright, mother of Eamon de Valera, president of the Irish republic, who makes her home here, said today concerning her son's rejection of the British peace terms: "It was just exactly what I thought he would do. I had chosen any other course he would have disappointed not only me, but millions of others in the world, who are of Irish birth, extraction or sympathy. I am proud of the position which Ireland is to take among the nations, there is nothing for us in this country to do, but to give them our undivided moral and financial support (as far as we are able)."

House Members Now Insist Wood Give Up His Army Commission

Opposition Develops in House to Bill Permitting Army Man to Hold Civilian Job

WASHINGTON, (AP)—Opposition developed today in the house to the senate bill which would permit Major General Leonard Wood to accept the governorship of the Philippines without giving up his army commission. A meeting of the military committee was called by Chairman Kahn for tomorrow to take up the bill. Representative McKenzies, republican, Illinois, said it would be a dangerous precedent to permit an army officer to hold a civilian position while he retains his military commission.

DIMISSAL PAP CABLED. MODESTO, Cal. (AP)—Charges of kidnapping against James L. Shen and John Lucas, in connection with the deportation from Turkey July 10 of a group of Japanese mail workers were dismissed today by Justice of the Peace W. H. Rhea here on motion of District Attorney W. E. Brown, who said "we were against them was not in."

DIVIDEND IS INCREASED. NEW YORK (AP)—The United States Fruit and Alcohol company today cleared a quarterly dividend of \$1 a share on common stock instead of the usual dividend of \$2.

FLASHES FROM THE WIRE

ROME, (AP)—Monignor John W. Lawlor, bishop of the diocese of Lead, South Dakota, was received by Pope Benedict yesterday, the pontiff avowing great interest in the bishop's report of the work done in the diocese.

NEW YORK, (AP)—The Right Rev. Jose M. Ignacio Montes de Oca, O.S.A., bishop of the diocese of San Luis Potosi, Mexico, died today at the home of Monsignor Michael J. Laville, rector of St. Patrick's cathedral.

PARIS, (AP)—One thousand houses have been destroyed by fire in Beirut, the section of Constantinople situated on the Asiatic bank of the Bosphorus, a fire which broke out in the morning. The fire was caused by a gas leak in a Constantinople co-operated with the fire men in bringing the fire under control.

WASHINGTON, (AP)—Favorable report on the administration railroad funding bill was ordered today by the house commerce committee. Republican leaders plan to have the house pass the measure early next week. A committee amendment provides that the bill shall in no way affect proposed government relief for farmers.

MIAMI, Fla. (AP)—J. G. Grossland, president of the Miami Fisheries company and a wealthy resident of this city, was arrested today on the charge of conspiracy to defraud the government and violation of the national prohibition act, in connection with the seizure on August 2 of the schooner Henry L. Marshall, off Atlantic City.

Arrest Woman in Zion; Collar Bone Exposed

ZION, Ill. (AP)—Mrs. Elizabeth Naden of Zion, was arrested today by Policeman Larry Parry for wearing a dress, the neck of which, was cut so low as to "partially show or expose the neck and shoulders of the wearer below the juncture of the pit of the neck with the clavicle or collar bone."

She is the second woman to be arrested since William Glenn Voliva, owner of Zion, issued his law against alleged immodest dress.

IDAHO WEATHER. Tonight and Friday fair.

PRISONER ESCAPES BY JUMP THROUGH WINDOW

OMAHA, Neb. (AP)—William Bridgman, said to be known also as William Moore, escaped by jumping through the window of a Union Pacific passenger train near Cozad, Neb., last night while being taken from Honolulu to Des Moines, Ia., on a counterfeiting charge according to information reaching federal officers here today.

BADE BAMB & BINGLO. CHICAGO, (AP)—The first of the New York Americans today hit his forty-third home run of the season in the seventh inning of the game with Chicago today. Two men were on base. Fieber was pitching.

MAKES OPEN APPEAL FOR JAP TREATY

British Premier Makes Clear His Purpose to Support Renewal of Agreement with the Nipponese

DECLARES IN COMMONS DUTY OF THE EMPIRE

Hopes for a Solution in the Far East which Will Be Satisfactory to Both America and England's Ally

LONDON, (AP)—The earnest hope was expressed by Premier Lloyd George in a statement to the house of commons today dealing with the subject of the coming disarmament conference in Washington that the conferees would result in a complete understanding of the Pacific and the reaching of a tri-partite agreement, including Japan and a great partnership of the United States and England, ensuring the peace of the world.

The prime minister gave no indication in his statement of the composition of the British delegation to the conference.

TO STAND BY JAPAN. LONDON, (AP)—Prime Minister Lloyd George, in a statement in the house of commons today concerning the recent conference of imperial powers, said the conferees were unanimous in recognizing that Japan had loyally observed the alliance with Great Britain during the war.

Makes Dramatic Plead. He asked was it right that Great Britain should now turn about and say to Japan: "Thank you for the trouble you have taken, but we don't want you any longer."

There were cries of "No," from the commons.

Mr. Lloyd George declared the British empire must behave in a gentlemanly manner but asserted he did not see why it should be impossible to fulfill Great Britain's obligation to Japan and at the same time observe a spirit of fraternity to the United States.

If the United States and Japan could combine on the problems of the Pacific, the prime minister declared, that would be a great event and a guarantee for the peace of the world. The surest way to success in the forthcoming disarmament conference, he said, would be through an understanding on the Pacific, and he was still hopeful that such an understanding would come as a result of the Washington conference.

ARRESTED AT FILER IN KANSAS MURDER CASE

A. M. Parkinson in Hands of Burns Detective in Connection with Shooting

Charged with complicity in the murder of Arthur Runk, a Great Brit. Kan., attorney, whose body with five bullet holes in it was found by the side of his car on the morning of July 7, A. M. Parkinson, aged 24 years, was the person arrested on a ranch near Filer at the instance of R. T. Meyer, a Burns detective.

According to the detective, Parkinson was a waiter in the employ of Corley, the person arrested on a ranch near Filer at the instance of R. T. Meyer, a Burns detective.

Following the murder, Parkinson was placed under arrest and a day or two ago confessed to the killing of Runk, who he was passing as a waiter, actually implicated in the killing has not as yet developed but he is believed to have knowledge of the crime which would make him an important witness for the state.

Offers Probable Motive. Just prior to the finding of Runk's body the hotel had served in the defense of Wallis on a charge of violation of the national prohibition law, in which case he was unsuccessful. The fact it offered as a possible motive for the killing.

Parkinson is understood to have been on the ranch for about two weeks and to be perfectly willing to return to Kansas with the detective. A few days ago Parkinson informed the sheriff of the fact that he was passing as a waiter, actually implicated in the killing has not as yet developed but he is believed to have knowledge of the crime which would make him an important witness for the state.

Release of the Draft Evader Draws Fire

House Committee Holds Ansell, Hunt and Cresson Responsible for Sensational Escape

WOULD DISBAR LAWYER AS MASTER MIND, AND CUT OFF OFFICER'S PAY

Suspect Rickard Is Seeking Court Fine to Legalize Pictures

Department of Justice Agents Seek to Find Solution of Handling Promoter

CHICAGO, (AP)—A warrant for the arrest of Rex Rickard, promoter of the Dempsey-Carpenter boxing match, was issued today after a hearing by John V. Clinan, assistant district attorney.

OFFICIALS ARE SUSPICIOUS. CHICAGO, (AP)—A department of justice agent has been sent to a downtown hotel to question Rex Rickard, promoter of the Dempsey-Carpenter fight, about the bringing of the fight from New York to Chicago.

When he was released from a military prison under guard, to dig up a plot of gold, the majority report recommended that he be disbanded from practicing in the courts of the nation "above whose safety and integrity he has placed gold."

File Minority Report. A minority report filed at the same time, held however, that there was no testimony to support the charge that Ansell through whose efforts, as counsel, the prisoner was released, "conspired to effectuate his escape" or that his motive was improper.

Party Needs Bridge. One representative, Lubling, of Indiana, and two democrats, Johnson of Kentucky, and Flood of Virginia, signed the majority report. The minority views were announced by Chairman Patterson, Maine, and Representative McArthur, Oregon, republicans. The majority finding is the first of the kind since the case of the war, where a republican member joined with democrats and enabled them to file majority views.

Col Hunt Is Responsible. The majority held that Colonel Hunt, commander of the barracks at Governor's Island, from which Bergdoll set out on his errand, was directly responsible for the slacker's escape through failure to handcuff him or to provide an adequate guard. The minority, after declaring that no officer of the army "knowingly participated in the controversy" found "grave dereliction of duty on the part of Hunt."

Question Cresson's Prosecution. As a basis for its criticism of Colonel Cresson, the majority report said that "Cresson was the man who planned the whole matter, and is more responsible than the conduct of Colonel Cresson, in his pretense of prosecution of Colonel Hunt," said by court martial in connection with the Bergdoll scandal.

Campbell Is Exonerated. Major Bruce R. Campbell, accused by Bergdoll's mother of having accepted \$5,000 to help obtain freedom for the prisoner was exonerated by the majority, as he was not a member of the staff, and there was no evidence that Campbell was in any connected with the escape.

Would Dismiss Wood. Dismissal from the department of justice of Earl L. Wood, in charge of correspondence in the department for failure to transmit to the war department warning from a special agent that the prisoner was planning to escape, was recommended by the majority.

Fix Harris' Responsibility. Major General Peter C. Harris, adjutant general of the army, who authorized Hunt to send Bergdoll, under guard, to the Mariney mountains to search for the gold, was charged by the minority with "primary responsibility for the situation which made possible the escape." According to General Harris did not attempt to assume responsibility, the minority held there was "no question of improper motive on his part, adding it was apparent his mind was readily overcome by the strong statement of Ansell" that he would stand responsible for taking out of the prisoner.

Hills Behind Weasels. For taking an alleged connection with the Bergdoll case of former Judge John W. Weasels, one time attorney general of New Jersey, the majority held it unimportant whether he actually had agency representing Bergdoll. The report declared "it was clear" that Ansell undertook to use Judge Weasels' name for the purpose.

WHEAT GROWERS ANNOUNCE NEW MARKET SCHEME

Association Furnishes Facilities
for Sale of Mortgaged Crop
Through Corporation

Members of the Idaho Wheat Growers' association can now sell direct for cash, where their wheat crop is mortgaged, through the Wheat Growers Warehousing corporation, according to an announcement made today from the offices of the association in American Falls. In the past it has been necessary for members with mortgaged crops, to sell to the elevators or warehouses, in order to liquidate their current indebtedness. Liquidation can now be made directly through the new corporation.

The South Idaho Growers Warehousing corporation, is the official title of the newly formulated organization. It is a subsidiary to the Wheat Growers association and facilitates marketing of their wheat and is believed by officials of the association to be a long step forward in meeting the needs of the farmer member who is forced to sell when he is unable to meet his notes or mortgages.

The announcement of the association made today tends in part as follows: "The Wheat Growers' association is the selling agency of its members and the Warehousing corporation is a separate and distinct corporation to warehouse grain. The Warehousing corporation will pay the full cash value of wheat, the same as any dealer.

"We realize that the wheat of many of the growers is mortgaged and that there must be liquidation of these mortgages. The association stands ready to waive its contract to the extent that the mortgagee pays, that is, the mortgagee pays the full cash value of wheat, the same as any dealer.

CHINA SENDS CORDIAL NOTE OF ACCEPTANCE

Express Confidence in President Harding's Sincerity and Hopes for Clarification

PEKING, (AP)—China has formally replied with a cordial acceptance to the invitation to attend the Washington disarmament and Far Eastern conference, it was announced today. President Harding's sincerity in calling the conference, manifested in the absence of limitation of the subjects which may be discussed, says the reply, is appreciated, and the hope is voiced that the mutual exchange of views will enable a clearer international understanding to be had regarding the problems of the Pacific, which have been the focus of world attention since the conclusion of the world war.

Seize Steam Yacht with Cargo of Booze

CLEVELAND, O., (AP)—Police here today took seven men and four women into custody in a spectacular seizure of the steam yacht Venice, said to be in the service of a whiskey ring operating in the United States and the United States. The seizure, made at Whiskey Island, west of the Cuyahoga river, netted 95 cases of imported wines and liquors. Six of the men seized, including Captain William L. Curry of Toronto, Canada, said to be the owner of the yacht, are charged with violating the prohibition law. The seventh man, the skipper, and the women were held for investigation.

Wheat Export Shows Increase in Volume

WASHINGTON, D. C., (AP)—Exports of both cotton and wheat increased in volume but declined in value during July as compared with last year, commerce department figures today disclosed. Cotton exports amounted to 677,000 bales valued at \$2,000,000, compared with 211,000 bales worth \$44,000,000 a year ago. Wheat exports aggregated 25,000,000 bushels at \$37,000,000 as against 21,000,000 bushels at \$70,000,000 last year.

FREIGHT RATES BLAMED FOR TARDY PAYMENTS

Interstate Commerce Commission is Told Present Tariffs Work Hardships

WASHINGTON, (AP)—The interstate commerce commission was told today by Maurice Hion, assistant secretary of the reclamation service, that the high freight rates were largely responsible for a great increase in the number of farmers delinquent in payments on irrigated lands. The average of delinquency, he said, has risen from four to eight per cent in other years to 42 per cent, and will result in curtailing the reclamation work.

Box E. Wilford, of the agricultural college, of North Dakota, said 1,100 farmers in western North Dakota had given up their land, of which 166,000 acres is not being cultivated. He estimated that 675,000 acres in the state would be out of cultivation due to this movement of farmers.

BURNS NEW HEAD SECRET SERVICE

Announcement of Successor to Flynn as Director of Investigations is Made

WASHINGTON, D. C., (AP)—Appointment of William J. Burns, as director of the bureau of investigation of the department of justice was announced today by Attorney General Daugherty. Mr. Burns succeeds William J. Flynn. Prizes New Man.

"I have known Mr. Burns personally for thirty years and have watched him develop in his specialty," Mr. Daugherty said. "He is familiar with all of the departments of the government, is an intelligent and courageous man and at this time especially is considered to be as high class a man as could be sought to assume the important duties assigned him. The bureau will be reorganized as expeditiously as possible and brought to the highest point of efficiency."

Leaves Burns Agency.
"Mr. Burns has covered his connection with the Burns detective agency and will come to Washington and devote his entire time to the service. It is the policy of this department, well understood by Mr. Burns and highly recommended by him, that the department of justice establish the most cordial relations with police officials and law enforcement officers throughout the entire country, and in fact, throughout the entire world, to the end that there may be co-operation and that life, property and the rights of the people may be preserved and protected."

"The present and I have known Mr. Burns for many years and know his dependability and efficiency."

MUSICIANS ARE ON STRIKE

KANSAS CITY, (AP)—Musicians in five downtown motion picture theaters here went on strike today after a disagreement with the owners over the length of time they were to play.

KEEN INTEREST IN DAIRY FOUND BY COW TESTER

Pioneer Association Members Strive Diligently for Betterment of Industry

Among 153 cows tested during July by W. C. Fletcher, official tester for the Pioneer Cow Testing association, the record for highest butterfat production was scored by Beauty, a six-year-old grade Holstein Friesian cow owned by L. J. Tenckhoff of Twin Falls, with a record of 2511 pounds of milk and 328 pounds of butterfat. She freshened in April.

The highest herd average goes also to Mr. Tenckhoff with an average milk production from seven tested cows of 1422 pounds of milk and 403 pounds of butterfat.

The average production of milk of each cow listed for testing by association members was 713.0 pounds of milk and 300.5 pounds of butterfat for the month.

The most profitable returns per cow were made by William Shotwell of Twin Falls. Mr. Fletcher says in comment accompanying his report on the month's operations which follows: "This being my first month on the Twin Falls tract I have studied feeding practices pretty closely. On finding that the most profitable returns per cow, the highest being that of William Shotwell of \$5.26 on a total cream price of 23.5 cents from having excellent pastures supplemented with a small grain ration, I have urged the necessity of rich pastures. William Shotwell of Twin Falls had one cow producing 507 pounds of fat, another 50.6, one 45.3, one 41.0 on pasture alone plus six pounds of bran, plus water, minus hay. Three more produced above 40 pounds on five pounds of bran. His average on 10 cows, including several dry cows, including several dry cows, was \$3.36. While others produced fat nearly as cheap on straight pasture, as in the case of Henry Schick's Guernsey for 5.6, the cows failed to reach the maximum returns per cow."

"Small breeders having herds too small for profitable use of the silo are arranging for a supply of roots for winter feeding."

"A great deal of interest is being manifested in dairying, not only for the immediate profitable source of money, but as a most efficient method of marketing a highly concentrated product to meet the current excessive inter-mountain freight rates. A movement to secure a shipment of excellent grades is on foot."

All herds are under federal supervision for the eradication of tuberculosis or plan to be as soon as an inspector becomes available. A director last two of his four pure-breds through reaction, he said: "I am damned glad to be rid of them; think of it, we were using the milk."

One very noticeable feature is the keen interest manifested by the women in dairy production. Aside from one herd, both owned and directed by a lady, a number of others take a very active interest in the development of the pure-breds. This interest extends to the actual work of milking and care of the dairy and milk house. Some of the best records for high producing

Americans Who Investigated Japan's Action in Siberia

Lieut. Col. W. J. Davis and Dr. J. E. Abbott

Lieutenant Colonel W. J. Davis, Assistant Military Attaché of the American Embassy, and Dr. J. E. Abbott, commercial attaché to the American embassy in Japan, who have just returned from an 8,000 mile trip into Siberia to investigate the claims that Japan is

stirring up trouble in that country, as well as investigating the general status of politics in the country, which has been under Bolshevik sway. Dr. Abbott will report to Washington, bringing his information in person. He will arrive in Washington about August 22.

GRUDE OIL ADVANCES

PITTSBURGH, Pa., (AP)—The principal purchasing agents today announced an advance in the prices of Somerset and Somerset light crude oil, the first to \$1.10 and the second \$1.25 a barrel. These grades are produced in Kentucky.

TRIAL OF WILHELM IS DEMANDED IN COMMONS

Independent Member Insists Upon Action Compelling Holland to Release Kaiser

LONDON, (AP)—The declaration that Holland should be called upon to surrender the former German emperor was made in the house of commons today by Horatio Bottomley, independent, who again raised the question of the recent trials in Leipzig of Germans accused of acts in violation of the rules of civilized warfare in the world war. Mr. Bottomley said that if the demand for the Kaiser's surrender should be refused by Holland and the British government found itself unable to deal with the matter effectively, the government should make way for "men of sterner stuff."

The solicitor general, Sir Ernest Pollock, who represented the government at the trials in Leipzig, reviewed them and declared that the punishments imposed by the German court on convicted German officers must be judged by German standards.

Work, and Men.

Work is the greatest boon ever conferred on man. Had he been able to live without it his development would have been hopeless. Look at the races to whom life is easy, where Nature is most luxuriant and productive, where there being no cold, no clothes are needed, and where food can be gathered without the planting or cultivation. They are the weakest of God's creatures and no progress can be expected of them. The stronger races are those who have much to do to live. Work has made man—William Howard Taft.

BANKS MUSTER EVERY OUNCE OF STRENGTH IN ONE SINGLE INNING AND BEAT ELKS 5 TO 3

Neuman is Punished Severely in Fifth Round by Batters of the Banking Fraternity who Pile Up Sufficient Scores to Win Game by a Safe Margin—Phil Fix Stars with Club

MUSTERING nearly every ounce of their collective batting strength in one inning the Banks of the Twilight League trounced the Elks last night, 5 to 3. The winners batted out victory over their opponents in the fifth, putting over four runs in that inning. Elks spread their runs over the entire game, counting one marker in the third, another in the fifth and still another in the seventh.

Once Neuman twirled the entire length for the Elks, but was ranned hard, and nearly sunk in the fifth. The Banks' management used two twirlers to cope the prize, Toline making pace for four innings, and then giving up the job to Phil Fix.

Toline twirled a good game as long as he cared to remain in the lineup, and Fix pulled through the rest of the way without very great trouble. In the seventh it looked as though the Elks were going to fix Fix proper, but when matters looked most serious the Banks' twirler settled down in the back of the Elks and set the opposition. In this frame, with two out, Bob Whitel smote a hit to right.

"Oa," Neuman, who once was Fix's battery mate on a high school team, slammed the ball for three bases, scoring Bob. Neuman failed to cross the plate as Fix fanned Patton.

The Banks scored their all in the one lucky inning when Neuman scored unable to fool anybody. Four hits, two being singles, one a double and a homer by Phil Fix himself, aided by

a brace of bobbles, brought the five runs across for the moneybags. Neuman stood the opposition off in the sixth, the first three men up going out on infield grounder.

The Score.

innings; off P. Fix, 2 hits, 2 runs in 3 innings. Time of game 1 hour. Umpire: A. E. Whitel.

Mile. Lenglen Fears Reputation Spoiled

FOREST HILLS, N. Y., (AP)—Mile. Suzanne Lenglen expressed fear today that Americans would regard her as a "poor sport." Discussing her defeat to Mrs. Molla Bjurstedt Mallory in the women's national tennis tournament, after which she refused to shake hands, the French star reproached herself with tears streaming down her cheeks.

"I am disgusted," she said, "disgusted with myself that I should ever have gone on the courts. My doctor advised me not to play. My own better judgment warned me against it. I was really feeling bad."

"You see, it meant so much to me. Just everything I had so looked forward to coming to America. I have always admired you from afar and I did wish to make a good impression. Now I am afraid everything is spoiled. What grieves me most, however, is that I did not show more of the game spirit of my country. I felt so sick and everything seemed going against me, but I should not have given in had I realized what I was doing. I am afraid you Americans will think I am what you call a 'poor sport.'"

"My own ambition now is to meet Mrs. Mallory again."

Japan Fears India in Tennis Tourney

CHICAGO, (AP)—Japan and India faced each other on opposite sides of the tennis net this afternoon on the Onward turf courts, in opening matches of the semi-final round Davis cup singles.

Captain Ichikawa Kumagoe of Japan was paired against Mohammed Blem, the play to start at 3 o'clock. Immediately after this match, Zeno Ahimida and A. H. Eyzee were paired for the second event of the day. Both Blem and Eyzee are native-born Hindus. Their selection for the singles matches followed an injury to the right arm of Captain S. M. Jacob, of the Indian team.

Egan to Try Again for Golfers' Crown

CHICAGO, (AP)—H. Chandler Egan, twice national amateur golf champion, is planning to try for the crown again at St. Louis next month, according to a letter received from him by Chick Evans, present national champion. Egan, who removed to Oregon several years ago, has not taken part in national championships since going west, except in coast meets.

Egan wrote that he intended to bring eight coast golfers east with him to compete in team matches. If they could be arranged.

SOVIET ENVOY REACHES LIMIT TO MEET DEMANDS

Bolshevik Organ Declares if Brown Cannot Accept Now Mission is Fruitless

RIGA, Latvia, (AP)—Maxim Litvinoff, the soviet envoy in the Russian famine relief negotiations here, with Walter Lyman Brown, of the American relief administration, has gone to the very limit in making concessions to meet the demands of the American organization as to control of the relief work, says the newspaper Novy Put, the bolshevik organ here.

M. Litvinoff has already exceeded his instructions, the newspaper insists, and in the event of an unsatisfactory reply from Mr. Brown on the points still in dispute, the negotiations can be considered as without result, it declares.

TRADE SHORTAGE \$3,000,000,000

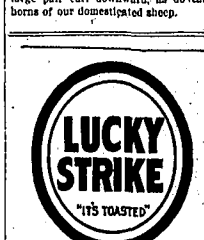

Astounding Decrease in Foreign Commerce Said To Be Due to War Aftermath

WASHINGTON, (AP)—The decrease of over \$3,000,000,000 in the value of the country's foreign trade during the past fiscal year was ascribed by the commerce department to the war wide trade depression coming as an aftermath of the war.

Lower prices rather than diminished quantities, were to a great extent responsible for the decrease in exports, the department asserted in a statement reviewing the year's foreign commerce. The total value of the foreign trade of the country dropped from \$13,347,000,000 in the fiscal year 1920, to \$10,171,000,000 in 1921, a decrease of 23.8 per cent, the statement showed. Imports dropped from \$5,538,000,000 in 1920 to \$3,650,000,000 in 1921, a loss of \$1,888,000,000 or 32.2 per cent, while exports amounting to \$8,109,000,000 in 1920 against \$6,521,000,000 in 1921, decreased \$1,588,000,000 or 19.6 per cent. Craps are now being raised on the battlefields of the devastated regions of Europe, the department said, the pressing needs of manufacturing industries abroad for raw materials has been filled and the United States must now compete in the world markets in prices and terms with the other countries.

Horned Sheep.
In their wild state all sheep were furnished with a pair of horns, but the number never exceeded two and some curious specimens were discovered in several isolated sections of Asia. These species had from four to six horns, the upper set being the longest, the other two being graduated with the smallest ones just above the eyes. Curiously enough, the two lower sets always curve upward, while the large pair curl downward, as do the horns of our domesticated sheep.

Cigarette

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

An Indispensable Service

More of us than is ordinarily supposed depend directly or indirectly upon the chief constituent of petroleum—gasoline. Don't think for a minute that motor vehicle owners are the only ones who depend on gasoline. Motor transportation is a vital factor today in the life of almost every American community—particularly in supplying the so-called "perishable" foods.

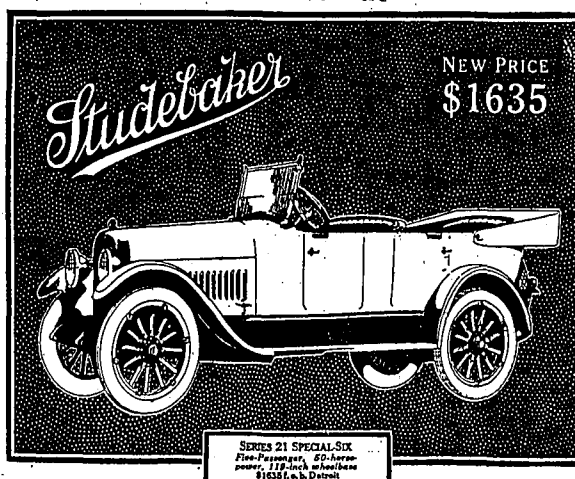

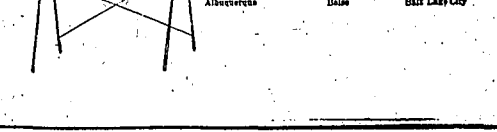

The problem of furnishing gasoline for the 9,000,000 motor vehicles registered in the United States is by no means a simple one. The Continental Oil Company is responsible as a public servant for maintaining a dependable supply of petroleum products in the six states which it serves at all times. And this responsibility is not an easy one to meet. It calls for a large amount of equipment, including tank-truck fleets; storage depots, properly maintained service stations, etc., all involving the investment of a large amount of capital. In other words, it is a decidedly big task and must be handled in a big, progressive way.

This company is always striving to be of the greatest possible benefit to the greatest possible number. It feels that the gratifying success it has attained is but an indication of the effectiveness with which its policies have been administered and the degree to which they have been of service to the public at large.

Largely as a result of the service now being rendered by the Continental Oil Company, motorized farm equipment is kept well supplied with fuel and oils of reliable and uniformly high quality; the motor truck fleets of industry and business in the large cities can obtain their full requirements at all times; housewives are always able to purchase pure, clean kerosene, paraffin, household lubricants and many other household necessities, all of which will usually be delivered at their doors. And, of course, every motorist is assured of high grade gasoline and motor lubricants by simply stopping at any one of the hundreds of Continental soldier signs—they are symbols of superior quality and supreme service.

Don't go shopping for your gasoline and motor oils. Get a supply of Conoco Coupon Books and carry them in your car. You'll find them a decided convenience on the road.

FIND NEW LEAD MURDER CASE

Police Now Seek Identity of the Men who Stole Auto on the Night of Murder

LOS ANGELES, Cal. (AP)—Possible arrest of a man on a Los Angeles-Salt Lake train who left here at 8 o'clock last night is forecast in a story which the Los Angeles Times is printing this morning, covering a new angle of the mysterious slaying of J. Belmont Kennedy, broker, August 5.

The Times says its information is that Deputy Sheriff Biscailuz wired from Los Angeles either to Barstow, Cal., or Las Vegas, Nev., asking that the man be taken from the train. The newspaper says the man is believed to have been one of two who automobile club officials of this city are searching for in connection with the theft of an automobile the night of the slaying of Kennedy. The car was recovered near the scene of the shooting two days later.

Biscailuz was unavailable here early this morning and Barstow could not be reached by telephone.

AMATEURS ARE RUBY

CHICAGO, (AP)—Amateur investigators of the Kennedy slaying case in Evanston are going to be "shooed out of town," according to Chief of Police Kellogg, as they dig into the case of the slaying of Kennedy, a Los Angeles murder mystery.

The chief is particularly interested in "Harry Lawrence," who appeared in Evanston yesterday with the announcement that he was the representative of District Attorney Woolwine of Los Angeles. Accompanied by a number of reporters, he was interviewed by several persons who were believed to have said they saw Durell carrying a gun when he left for the west.

Today Deputy District Attorney Keyes at Los Angeles denied his office had ever heard of "Lawrence."

HIS JOB IS SAFE

CHICAGO (AP)—Officials of the Automobile Company today denied reports from Los Angeles that Ralph H. Oberholzer, who left last week for the coast city to help defend his divorced wife, indicated that he was the representative of District Attorney Woolwine of Los Angeles. Oberholzer, who is believed to be one of the company's attorneys, it was explained that Oberholzer presented his resignation before leaving the west, saying he did not know how long he would be gone. It was indicated the lawyer can have his position back at any time he asks for it.

DRUGGISTS PLAN SESSION

Preliminary Arrangements for Convention Launched at Boise

BOISE — Preliminary plans were made yesterday for a meeting of the chamber of commerce for the state convention of the Idaho Pharmacists' association, to be held in Boise, October 13 and 14. This session is expected to bring to Boise nationally known speakers for the two-day session. The association, of which Frank J. Murray of Twin Falls, is president, and Thomas J. Bergdoll, secretary, who is a druggist of pharmacists from all over Idaho.

CONSPIRACY CHARGE LODGED

(Continued from Page One)

of bringing to bear "political influence" upon anybody in the then administration who might be needed to make sure of the gold mine release, which at last spelled Bergdoll's escape.

Seek to Recover Gold

The majority report commended the seizure of the Bergdoll property by Allen Property Custodian Miller and urged that he make every effort to produce \$100,000 in gold obtained by Mrs. Emma C. Bergdoll from the treasury department and alleged to have been buried on her farm near Philadelphia. This was put in at the instance of Representative Lohmeyer, who declared the withdrawal of the gold was the foundation stone of the whole conspiracy.

Say Conspiracy Existed

The minority held that while "unquestionably a conspiracy existed to effect the escape of Bergdoll," it did not find any officer "received any bribe or was approached with a view to bribery," but that the conspiracy was maintained by Grover Bergdoll, the late Dr. Clarence Gibbons, a Philadelphia lawyer, James E. Romig, formerly a Philadelphia magistrate and friend of the Bergdolls, and the late Dr. Bergdoll, who was the chief of the Bergdoll chauffeur, "and possibly Mrs. Bergdoll."

Would Stop Hunt's Pay

"From the moment Bergdoll left levered his island and the conditions surrounding him," said the minority, "became apparent, he saw he could not win when ready and without violence. That such a condition existed is, of course, a scandal. Less than ordinary precautions to prevent escape were taken."

Colonel Hunt "within the next two months after he participated so criminally in the escape," said the majority, "was promoted and retired."

"An outraged nation," it added, "has the right to demand that Colonel Hunt's annuity be discontinued."

Geraldine Farrar Sued by Husband for Separation

GERALDINE FARRAR

Geraldine Farrar, world famous American prima donna, has been sued for separation. Lou Tellegen, Dutch-Spanish-Greek actor, has taken his wife into court in Westchester county, N. Y. Tellegen charges his lawyer says, that Mrs. Farrar barred him from their home, when the matinee lady returned from a fishing trip. Since he was locked out, seemingly as an undesirable husband, the actor has been running the prima donna's doorman in vain. What seems to rankle the actor even more than being locked out was that the servants had a way of standing be-

hind the drawn curtains and grinning out at him during his ineffectual attempts to gain entrance to his home. From his boys refused to fit the locks, which apparently had been changed. Tellegen says he did not even have time to remove his wearing apparel.

Huck Finn Was Considered 'Harmful'

It is interesting to remember when one sees "Adventures of Huckleberry Finn" listed as one of the 30 books necessary for all-around culture by the New York public library, that when the book was new, some 25 years ago, the Boston public library and others about the country refused to place the book in the circulating department. The reason, as published, was that the book would be harmful to the youthful mind.—Milwaukee Journal.

Didn't Care to Substitute.

It is often annoying to have a small bottle of ketchup, but my mother, having no other, substituted a small bottle of ketchup. I was quite a man when she was calling on me one summer afternoon asked my small sister to sit in the swing and talk with him till I was ready. "Oh, Ella," she called to me. "Join just me to come and kiss him. You come."—Chicago Tribune.

Boats No Match for Ants

That ants should be able to kill a snake may seem incredible, at first. When an enemy is sighted the serpent is given at once and the whole community of ants arises in a body. They set upon the reptile, striking their nippers into it at thousands of points. The attack is made with such enormous numbers that the snake has no chance of escape. When the snake is dead the ants will tear off the flesh in small pieces, taking all away with them except the bones and skin.

To Remove Mildew

Make a paste of bleaching powder and water and allow the paste to remain on the fabric for a day or two. Keep the paste damp while it is on the material. Finally wash the fabric and dry in the sun.

WHEAT SLUMPS FURTHER ON OPENING IN CHICAGO

Corn Follows in Sympathy, while Oats Touch New Low Price Level for the Season

CHICAGO, (AP)—New downturns in the price of wheat took place today, with dealers giving continued attention to bearish aspects of the industrial and financial outlook. Unemployment figures especially remained a distinct factor. Besides, pit trade was still lacking in volume. Opening quotations, which varied from 1-2c lower to a like advance, with September \$1.10 1/2 to 1.10 3/4 and December \$1.20 1/4 to 1.21 1/4, were followed by a material setback all around.

About the only support was from the traders who had sold at higher figures. The market closed heavy, 2-3-4 to 3-4c net lower, with September \$1.10 1/2 to 1.10 3/4 and December \$1.17 1/4 to 1.17 1/2.

Corn was easy with wheat. After opening a shade off to 1-8c up, including September at 54 3/8 to 54 5/8c, the market averaged a little lower, all around.

Later the September delivery fell to the lowest level known at this season since 1900. The finish was weak at 1-4 to 1-3-4c net decline with September at 52 3/4 to 53 7/8c.

Oats touched a new low price record for the season, starting unchanged to 1-8c down, September 28 to 33 1-4c, and giving no sign of power to rally.

Higher quotations on hogs steadied provisions.

Cash Grain

Sheep steady; receipts 220; best val-

ley lambs \$9 to 10.50; fair to good \$5 to 6.

Omaha Livestock

OMAHA, Neb., (AP)—Hog receipts 8,000; supply included larger percentage of medium and light grades than has been coming recently. Market mildly uneven; medium and lights steady to strong; packing grades weak to 10c lower; bulk better grades \$8.75 to 9.40; top \$9.65; bulk packing grade \$7.50 to \$8.25.

Cattle receipts 3,200; beef steers mostly 15 to 25c lower; top yearlings, ten head, \$10.50; steers steady; bulk weak to 25c lower; veals steady; stockers steady to 25c lower.

Sheep receipts 12,000; lambs mostly 25c lower; bulk western lambs \$2.25 to 2.75; best lambs unskilled; sheep 25 to 30c lower; feeders dull.

Chicago Livestock

CHICAGO, (AP)—Cattle receipts 10,000; strictly choice steers strong; others dull, tending lower; bulk steers \$7 to 8.75; steers, stockers and feeders steady; bulk fat cows \$2.25 to \$4 to 6; bulls weak; veal calves strong to 25c higher; bulk \$5.50 to 9c.

Hog receipts 22,000; active, lights steady to 15c lower; others steady to 25c higher; bulk fat covers \$2.25 to 2.75; medium and heavy up more; top \$3.85; bulk light and light butchers \$5.50 to 8.50; bulk packing 50c to \$7.75 to 8.15; pigs steady to strong.

Sheep receipts 17,000; sheep and native lambs steady; western lambs slow; no early sales; top native \$10.25 to 10.50; bulk to packers \$9.50 to 10; bulk fat native, ewes \$3.25 to 4.50; no choice lambs here; best feeder lambs \$9.50.

New York Stocks

NEW YORK, (AP)—Standard issues, notably rails, sustained today's dull and narrow stock market. Specialists registered mixed gains and losses. Sales approximated 400,000 shares.

NEW YORK, (AP)—Rails and equipments carried yesterday's rally to greater heights at the opening of today's stock market. Shorts evidently were apprehensive of financial relief for the transportation companies before the congressional recess and covered contracts in their issues. Reading, Northern Pacific, Southern Pacific, Pullman and Westinghouse Electric averaged one point gains. Oils were irregular, American Petroleum closing slightly, but soon recovering. Food and tobacco shares were lower and Industrial Alcohol, on which dividend is expected today, also reacted.

Further buying of rails continued the later dealings. Pacifics and Coalers showed gains of 1 to nearly 2 points. Industrials also were better, Studebaker proving the only noteworthy exception. The closing was firm.

Liberty Bonds

NEW YORK, (AP)—Liberty bonds closed: 3 1/2's \$88.80; first 4's \$87.80; second 4's \$87.78; first 4 1/4's \$87.50; second 4 1/4's \$87.78; third 4 1/4's \$91.90; fourth 4 1/4's \$87.88; Victory 3 3/4's \$98.72; Victory 4 3/4's \$98.72.

Potato Market

CHICAGO, (AP)—Potatoes steady; re-

ceipts 85 cars; Minnesota and Kansas, sacked early October \$3 to 3.25 cwt; Nebraska \$2.40 to 3.00 cwt; Idaho and Colorado White, sacked \$3.50 to 3.75 cwt.

Sugar Market

NEW YORK, (AP)—There was no change in raw sugar prices early today but the undertone was unsettled and unsettled futures were still offered on the basis of \$4.61 for centrifugal. Cuba's however, were steadily held at 3 1/4c cost and freight, equal to \$4.85 for centrifugal.

The raw sugar futures market was earlier owing to the unsettled feeling in the spot market and prices at midday were 3 to 7 points net lower, under selling by commission houses.

The market for refined was unchanged at \$9 to 9.15 for fine granulated. Second hand sugars are said to be available at as low as \$5.85 to 6.00 for fine granulated.

A few scattering selling orders in September comprised the early business in refined futures and prices at midday were about one point net lower.

In the afternoon there were sales of 20,000 bags of Porto Rican and 81,000 of Cuba at \$4.50. The Cuban commission continued to hold Cuban at \$4.85.

Sugar futures closed easy; approximate sales: 5,000 tons; September \$5.95; October \$5.85; December \$5.71; January \$5.62.

TWIN FALLS MEN AND DAVIS CLASH OVER VALUATION

Graham Draws Fire of Executive with Assertion of Board's Duty to Out Taxes

Members of the Twin Falls county delegation appearing yesterday before the state board of equalization in Boise to protest rumored proposed increases of farm land valuations engaged in a lively word war with Governor Davis, according to the Idaho Statesman, which says:

John W. Graham, spokesman for the delegation, pounding his fist on a table for emphasis, had just told the board that "it is the duty of this board to reduce taxation" when Governor Davis agreed but told Graham that it was also the duty of the twin taxing boards to co-operate with the state board.

The governor agreed with the Twin Falls representative when told what the duty of the board is, but went on to tell the speaker to "make his fight first with the local taxing board."

"Had your county board done its duty during the inflation period it would not have been necessary to ask the state legislature for permission for a special levy," said the governor.

"We know where the failure lies," he continued. "Ours has been three years of experience. For three years we have endeavored to close the gap of inequality in Idaho. Each year we have done our best to close the gap and then we find the country going back to the old basis and still this year they come back."

Governor Davis also took up a statement of Mr. Graham's that the taxes in Twin Falls county were from \$8 to \$10 an acre. The governor showed that on the basis of \$10 the state tax was but 37 cents per acre.

Mr. Graham, C. A. Robinson of Twin Falls, former state senator, and Carl Miller of, Buhl, representative from Twin Falls county appeared before the board to show the alleged inaccuracy of figures compiled by John D. Robertson, director of the bureau of budget and taxation, and by tax representatives of railroad.

Shows Director's Error.

The contention of the Twin Falls delegation was that in taking figures on real estate sales in Twin Falls county as recorded, Mr. Robertson had not secured the value of property in the county as of 1921. It was claimed that the sale prices or considerations shown on the instruments were from 40 to 50 per cent higher than the real valuation of the property, at present.

In answer to the claim of "abundance" of figures compiled by Mr. Robertson and the railroads, Mr. Robertson cited three federal court decisions and one state court decision which have held that such data compiled by him was competent, conclusive evidence.

Tells Twin Falls History.

Mr. Graham was the principal speaker for Twin Falls county. In part he said:

"Ours is a serious economic prob-

lem. Fifteen years ago Twin Falls county was a barren and most remarkable and rapid advancement in the value of land has been made. The railroads have shown what purposes to be the value of segregated pieces of land. These figures and the figures presented this board by Mr. Robertson are unreliable as they do not show the value of land in 1921.

"Very few sales have been made in 1921. Considerations set forth in the records from which Mr. Robertson's figures were taken are considerations of 1918, 1919 and 1920 and do not show the real value of Twin Falls land today. This is true in most instances even though Mr. Robertson's data was compiled in 1921. The figures are from 40 to 50 per cent higher than the real valuation.

"Land that sold in January, 1920, at \$250 an acre cannot be sold today for \$150 an acre. The real value of real estate in my county has dropped 40 per cent from the peak prices of 1918 to 1921.

"The farmers are backed to the wall. Taxes must not go higher. They simply can't pay them. In some cases the farmers are not putting on the second and third cuttings of hay."

Carl Miller and C. A. Robinson presented affidavits of farmers tending to show that real estate values of Twin Falls county had dropped 50 per cent since 1920.

Others included in the Twin Falls delegation were Fred Graves of Piler and C. G. Higgins, clerk of the court, Twin Falls.

Social Notes

Phone 33

The Highland View club met with Mrs. A. Huntman on Wednesday afternoon. Following a business session, a delightful musical program was rendered. Six guests shared the pleasures of the occasion. The hostess served a two-course luncheon at the close of the afternoon.

The class of 1919 of the Twin Falls high school will meet in their annual reunion at the high school building at 8 o'clock Friday evening. Following the assembly at this hour the party will adjourn for a program, dinner, and later dancing.

The class of 1920 of the Twin Falls high school will meet in their first annual reunion at the high school building this evening at 7 o'clock. Later they will adjourn to Shoshone falls for dinner and dancing in the open air pavilion.

A party of young women from the L. D. S. church are in camp this week at Snake creek, ten miles above Oakley. They are enjoying all the camping privileges of a fine location and

especially the hikes to many interesting places to be found within a radius of a few miles. Among those participating are Phyllis Kirkman, Mima Bailey, Larue Cleveland, Viola Fels, Nellie Heath, Anita Tuttle, Eulalia Biedard, Luerella Heath, Nella Austin, Lucille Cleveland, Delia Tuttle, Susan Roberts and Alice Thomas.

The Bithany girls of the Baptist church spent the afternoon yesterday picnicking at the Blue Lakes. A motor trip in P. W. Kohl's car to the top of the grade and a "hike" to the scenic parts of the canyon made the picnic luncheon a welcome feature of the event. Those present were Mrs. T. H. Heathfield, Mrs. Owen Moore, Mrs. Lou Carter, Helen Heathfield, Ruth Kola, Lola Sparks, Irene Hurst, Helen Johnson and Madeline Duncan.

The Ladies' Missionary society of the Baptist church met this afternoon in the parlors of the church.

The Harmony club was entertained at the home of Mr. A. W. Husted at 255 Sixth avenue north yesterday afternoon. Owing to the absence from two of several members, there were but two tables of bridge played. After the game, at which Mrs. F. B. Cox won high score, the hostess, assisted by Mrs. Ralph Husted, served a delightful two-course luncheon. Mrs. Frank Hultman was the guest of the club.

MORLEY TAKES MOUND FOR TWIN FALLS ALL-STARS

Stellar Legion Pitcher to Start Things in Contest Against Jerome Club

"Spud" Morley, stellar pitcher for the American Legion club, will do service on the mound for Twin Falls this afternoon when the Jerome team comes here to engage in a contest for the district championship against Orwig's All-Stars. The game is to be called promptly at 5:30 o'clock at Lincoln field. Full nine innings are to be played.

Morley was drafted as Twin Falls' moundman after Cooper, Buhl's strong arm man, who had expressed a desire to pitch the game for Twin Falls, found that he could not take part because of Buhl's schedule for a game Sunday afternoon.

The Twin Falls team will enter the contest with this lineup: Whitel, second base; Watson, third base; Neuman right field; Zienko, first base; Bell, center field; Riley, left field; Patton, catcher; Kieffer, shortstop; Morley, pitcher.

ALL-STARS GO TO KIMBERLY

Twin Falls All-Star baseball team will oppose the Kimberly team at Kimberly on Sunday afternoon next, according to announcement made today by Manager J. M. Orwig. The game is to be called at 3 o'clock.

COUNTY TEACHER STAFFS FILLED

Dependent Districts Near Beginning of Terms with Full Compliments

With the opening of the school year in the several school districts still some three weeks distant, there are no vacancies in the teaching staffs of any of the independent districts of the county, according to the statement today of Miss Brittemer Wolfe, county superintendent. Schools throughout the county will open during the first week of September.

No difficulty has been experienced this year in filling teachers' positions in the county schools, Miss Wolfe states, an unusually large number of applications being presented and positions being filled by persons trained for the work within the state. The situation presents a marked contrast to that which existed last year, Miss Wolfe declares, when it was necessary to resort to use of agencies to fill almost one-third of the positions.

Teachers' institute for the district comprising all counties will be held this year in Burley, Miss Wolfe announces, and the sessions will open at a date yet to be determined during the second week of October.

FUNERALS

Funeral services for Jean Lorain Wallace, two days old daughter of Mr. and Mrs. R. L. Wallace of Piler, who died last night at a local hospital, will be held this afternoon from the Grosz-nag chapel.

plied locally upon request.

THE VALUATION BOOBY.

The whole issue of the right or wrong of the proposed
increase in the valuation of Twin Falls county farm lands
for purposes of tax assessment seems to hinge on the
question of whether or not it is possible now to revise tax
levies already made against the lower valuation by the
county, municipalities and school districts.

If these levies can be changed then it will make very
little difference whether the valuation is forty per cent or
full cash value; but if they cannot be revised, then, pro-
viding it is still possible to make collections, sums of
money largely in excess of the requirements of the sev-
eral taxing bodies will be raised and placed to their
credit. A situation would thus be created which would
be desirable neither from the standpoint of the public or
of the taxpayer.

The preponderance of legal opinion here seems to incline
to the view that these levies cannot now be altered.

There can be no question about the propriety of the
Governor's insistence on a uniform valuation of taxable
property as between the several counties in which state
taxes are to be levied and collected. Nor is there any
justifiable disposition on the part of the taxpayers of this
county or others similarly situated to evade payment of a
just proportion of state taxes.

The question, in the final analysis, is whether it is wise
or expedient at this time to revolutionize the basis of
taxation and attain perfection with respect to the collec-
tion of state taxes at a cost which must be tremendous in
the case of taxpayers whose county, municipal and school
district taxes, being already established for this year,
must necessarily be boosted along with any increase in
valuation.

Good business judgment would seem to dictate pos-
tponement of any such step until the various taxing bodies,
such as the county, municipality and school district, might
take into consideration the proposed increase before mak-
ing their levies within the time fixed by law.

A GREAT NEED

For five years destitution has reigned in the Near East.
For five years thousands of Armenians have wandered,
homeless, in pitiable condition. They left their homes
with little besides what they wore. They have had no
way to acquire anything since. There is no stability, no
industry, no security. Life is reduced to infinitely less
than bare necessity. This winter will witness their last
extremity.

We have called ourselves poor. We have testified that
we are seeing hard times, and then we go home to food
and pleasant surroundings and all the things that lift life
above the level of hard existence. We know that winter
will not bring to us suffering from cold or hunger. Even
though our own supply might be less than usual, still we
have an abundance.

Into this supply comes the cry of starving men and
women, of babies wailing with cold. We see little feet
and hands swollen and covered with gangrene from freez-
ing. Little bodies are protected from the bitter weather
only by a strip of fraying burlap. The little forms are
twisted with rheumatism, racked with the ravages of
pneumonia. Even the minimum of their needs is scarcely
to be measured. Workers in those countries where a
measure of relief has already been recorded, while im-
pressed by the things already accomplished, are staggered
by the amount of suffering it has yet been impossible to
reach. The minimum amount of required relief is all that
can be obtained.

The country has been organized during the summer for
this work of mercy as it has not been organized since the
war. The abnormal heat of summer in America and in
Europe took its toll of crops. With us it has meant a les-
sening in the supply of some things. With them it has
in many places meant a winter of cold and starvation
unless the United States finds for them the means of life.
We have not the money to give for the purchase of new
warm clothing, but it is only urged that we give those
warm things that we have cast off. Anything that is
clean and warm is the slogan that it is believed will bring
from trunks and closets the unused things that are so
sorely needed.

RUSSIA'S DEPLOABLE CONDITION

The appeal for help sent, "to all governments" by
George Tchitcherine, Russian soviet minister of foreign af-
fairs, confirms other reports of the deplorable condition
of Russia, a condition to which that great nation has been
brought by the operation of bolshevik rule. It appears
that something like 18,000,000 persons must have im-
mediate help if they are to be barely kept alive. And this
is one of the greatest food producing countries on the
face of the globe.

This is the result of the operation of a system which
has destroyed all individual initiative, and which simply
lives on the accumulated capital of previous years, dis-
couraging production and enervating the people in worse
degree than they were ever enervated even in the days of
serfdom. Showing the utterly destructive effect of the
theories which have prevailed in Russia in recent years,

the Wall Street Journal gives some comparative figures
of the products of that country and of other nations.

In 1918 Russia produced 600,000,000 bushels of wheat.
Our crop that year was 700,000,000 bushels. Its oats crop
was 1,225,000,000 bushels, or about 15 per cent more than
ours. It produced more barley than all the rest of Eu-
rope, and nearly as much as the entire outside world. Its
rye crop was 1,000,000,000 bushels, while the rest of the
world, the United States included, raised about 800,000,
000 bushels.

In the same year Russia raised four times as many po-
tatoes as does the United States in a normal year; its
production approximated one-third the world's total. It
was a large producer and exporter of bean sugar. Aside
from the United States it was the greatest livestock coun-
try in the world. Russia was once the fourth largest
spinner of cotton. A world survey of the cotton industry,
as of January 1, showed 570,000 Russian spindles running
and 6,320,000 idle. The proportion holds true in all in-
dustry and transportation. The people freeze in a land
of forests, coal and petroleum, and they starve in a land
of boundless agricultural and grazing territory.

"VERBOTEN" DISREGARDED.

A dispatch from Berlin says that the Germans are
taking delight in doing many things that are "verboten"
and are getting away with it. The laws, or the rules,
have not been repealed but the people disregard them.
So long as the old government remained, penalties for
violation of a "verboten" sign were swift and sure and
the average person would not think of defying it because
the regard for the warning had been instilled through
long practice. Now that there is a less rigorous govern-
ment, a people's government in name at least, like chil-
dren, the people feel daring. Released from parental con-
trol they want to cut capers, so they disregard "verboten"
signs. They go in bathing where once they would
not have dreamed of such an act and laugh at the po-
lice-men who are helpless to deal with such a crowd.

The situation is not astonishing. In fact it is logical.
The fear of the rigorous Hohenzollern rule having been
removed it might be expected that a bit of license would
succeed repression. No longer held down by an ar-
rogant caste, it is natural that the common people should
have their day and do things that make the junkers sick
for the old time when authorities were powerful enough
to make members of the common herd keep to their
places. It is not stated that they are doing anything
very bad, only that "verboten" no longer carries the au-
thority it once enjoyed. The situation is an indication
that liberty is gaining way in Germany, that the paternal-
istic feature of the government is disappearing because
the people disregard it. Germany was the most "ver-
boten" place on earth under the Hohenzollerns. It is
well that it is changing.

The farmers of the middle west are beginning to re-
alize the benefits of the emergency tariff, which the dem-
ocratic press, and other free trade propagandists mis-
quoting as "political economists", have been claiming
was a farce. Unlike a year ago, lake-carrying corpora-
tions and railroads are not marshalling their equipment
to transport Canada's harvests to this country to com-
pete with American grain. Neither are Canadian herds
being sent to this country to sell in competition with
American cattle.

More Truth Than Poetry

WHAT YOU GET AND WHAT YOU'VE GOT

By S. E. KISHER

IT'S not the salary you get
That makes you rich or otherwise;
Your income may be large, and yet
Perhaps you find yourself in debt
Up to your chin or to your eyes.
It may be that the man next door
Is paid two dollars to your one,
Or even three, or maybe four,
And still your savings may be more
Than his are when the week is done.

SUPPOSE we take the case of Hinks,
Who draws two hundred boxes per week,
And blows himself for bootleg drinks,
And monkeys with the chips, and thinks
Poor say, that all his pockets leak!
He lives from hand to mouth, his wife
Has little, and his children less;
He's always worried, and at strife
With creditors who make his life
A struggle with unhappiness.

HIS neighbor, Wise, draws meagre pay,
As salaries are figured now,
But every week he puts away
A little for the rainy day,
And lives in comfort still, somehow.
He owns his house, pays what he owes,
And all his children's needs supplies;
But Hinks, with plentiful nose,
Continues proudly to suppose
That he's an abler man than Wise.

BE worthy of big pay, but let
No false pride cause you to express
Contentment for him whose pay is less;
It's what you've got, not what you get,
That proves the wisdom you possess.

TOO SWEET TO BE RELINQUISHED

It appears that the terrible story about
the nationalization of Russian women was a mere
hoax, invented by the propagandists, after they
had become weary of the yarn about the mutila-
tion of Belgian children. Nevertheless, we con-
tinue to meet people who are able to get satis-
fying shudders out of those horrors.

MURTAUGH

MURTAUGH, Idaho—The Rev. and
Mrs. H. G. McCullister and daughter
of Jerome, and the Rev. J. E. Baker
of Gooding were guests at the V. H.
Hall home last Wednesday.
The Ladies' Aid met at the home
of Mrs. Alfred Hoover Thursday of
last week. The afternoon was spent
in conversation and sewing. At the
close of the afternoon refreshments of
sandwiches, olives, coffee, cake and
sherbet were served. The Ladies' pre-
sent were: Madamess Peter Worrell,
Elbert, Whitlatch, B. F. Jain, Lloyd
Jain, E. B. True, R. B. True, P. J.
Fahy, Campbell, V. R. Bell, Eva
Blair, Misses Cella True, Anna Her-
vey and Ruth Brown.

Henry C. Johnson was called to Al-
merican Fork last week by the illness
of his mother.

Mrs. D. E. Bell and daughter,
Surla and Winifred of Blackfoot, were
Sunday visitors here on their way to
Baker City, Ore.

The Murtaugh baseball nine played
against the Eden team on the home
diamond Sunday afternoon. The score
was 8 to 4 in favor of Eden. Batteries
for Eden were Modrell and Cracken-
berry; Murtaugh: Nelson, Olsen and
Adkins.

Mrs. and Mrs. William B. Lindsay,
Miss Louise Litchfield and Oliver
Johnson returned Monday from a
camping outing.

Bishop and Mrs. A. D. Lee and fam-
ily, Mr. and Mrs. Nathan Merrill and
daughter, Art Hutchinson and the Bee
Five girls left Monday morning for
the hills on a fishing trip.

E. S. True, Mr. and Mrs. R. B. True
and son, Misses Cella True, Edna
Washoltz and Ida Campbell have re-
turned from a trip to the hills where
they spent several days on a camping
trip.

A heavy hail storm at Milner and
on the north side near Hazelton Fri-
day did considerable damage to the
grain. In some places whole fields
were destroyed. The shooting tract
also suffered.

Miss Mae Rose and Ira Allen were
married Wednesday evening, August
10, at Jerome. They will reside on a
farm on the north side.

Mrs. Alice Matthews is visiting re-
latives at Buhl.

Mrs. P. J. Fahy underwent an op-
eration at the county hospital Sat-
urday morning. She is reported to be
doing as well as can be expected.

Can't Blame Her.

A West Dallas widow says the reason
she broke her last engagement was
because her fiancé was a fat man
who said he wanted a suburban home
so he could snore all he wanted to
without disturbing the neighbors.—
Dallas News.

International Court
Assured by 24 Nations

GENEVA, (AP)—Creation of the per-
manent court of international justice
is assured, it is announced here. The
secretariat of the league of nations
has been informed that Spain and
Haiti will soon deposit their ratifica-
tions of the agreement to establish the
court, when they are received the num-
ber of nations which have deposited
ratifications will have reached twenty-
four, the requisite number.

If they are received in time, the as-
sembly of the league of nations, which
will meet next month, will be able to
elect the judges and constitute the
court.

The indispensable.
It is said there are 60 different
ways of cooking potatoes, but that
fact amounts to nothing if you are
out of salt.

POWDERED MILK—
a real find in the food world

That morning when the milkman is late, that day when the ice
gives out—wouldn't you give most anything for some milk at a
moment's notice. Powdered Milk is the solution to such prob-
lems. It is a real find in the food world.

Spell it backwards

KLIM

BRAND

POWDERED MILK

Klim is pure, rich milk reduced to powder
form without cooking. Nothing is added.
Nothing is changed. Nothing is taken out
but the water. Replace the water and you
have milk again—fresh and sweet.

No matter whether you want a spoonful
or a gallon—Klim is always ready for use
in any quantity. Keep it in its package right
beside your other staples. It is not affected
by droughts, rainy seasons, summer heat, or
Jack Frost.

Should you want sour milk, restore Klim
to liquid form and let it sour naturally. It
makes excellent cottage cheese.

Make your pantry your dairy. Get a

supply of Klim to fill your family needs:
Klim Powdered Whole Milk (full cream),
for drinking, for coffee, for cereals and
desserts; Klim Powdered Skimmed Milk,
for all cooking purposes.

Leading doctors see in powdered milk
a veritable godsend for humanity. Many
hospitals are already using
Klim, as are many schools.

NATIONAL GRAIN DEALERS' EIGHT WHEAT GROWERS

Localize Campaign by Criticism of Audit of Idaho Association Operations

The national campaign of the National Grain Dealers' association, is being localized by members of the association in American Falls, who more than in any other section of the state, are faced with the rapid progress being made by the Idaho Wheat Growers association, says the American Falls Press. Farmers and grain dealers in this town, who are active in the wheat growing industry, are likely to happen to the wheat grower who thoughtlessly signs contract with this association are being used freely.

Distributing Literature. Members of the National Grain Dealers' association in American Falls, feel that it is too late to successfully combat the organization of the wheat growers in Power county. They feel, however, that they can prevent the strong organization of other sections of the state that are not as highly organized as is Power county. Literature dealing with the situation from the grain dealers standpoint is being distributed as freely as desired, because of lack of promotion funds, according to local grainmen.

The cooperative marketing program of the wheat growers association is likened to the program put over by the Non-partisan League in North Dakota. Large farmers show a favorable attitude toward the marketing plan, but it is then read, "Remember North Dakota. Remember the Non-partisan League. If grain pooling comes, it is offered you, better consult your lawyer, your banker, your grain dealer. Study it before you sign." Another poster reads, "Be careful what you sign. Your lawyer will tell you that. You may lose by signing. You can't lose by not signing."

Objections Listed. The principal objections listed against the Wheat Growers' association are that there is no limit to the deductions that may be made for the cost of handling and organization work; (2) to farmer loses control of his income over a period of six years; (3) the life of the contract with the wheat growers; (4) no guarantee is made that overhead expense will be kept at a minimum amount; (5) the grower is not guaranteed any particular price for his grain.

In addition to the above alleged objections, the grain dealers are making local fight on the management of the association in effect that excessive salaries are being paid inexperienced officials and cost of handling grain in excess of the usual handling charges of local grain dealers.

Local grain men maintain that their campaign is more for education and defense than for a direct attack on the association.

Effective in Ancient Warfare. Among types of sword famous in the past most mentioned the great two-handed affair swung by the Germans in antiquity, who were much used up in the French wars. So large was it it could not be carried at the side in a scabbard, but had to be swung across the back when the languet went into a scabbard. They had to be stationed a good distance apart, in order to confine casualties to the enemy. Each took his stand, started the old scything and developed quite a sphere influence.

Wettest Spot in Hawaii. The summit of Mount Maialeale in island of Kauai (Hawaii) is said to have had a rainfall of 600 inches in thirteen months. The mountain is 580 feet high and is exposed to the prevailing trade winds—Scientific American.

Overheard at a certain O. S. L. ticket office, time taken by passengers—"I want a berth." "Upper or lower?" said the agent.

"What's the difference?" said the man.

"A difference of 50c in this case," replied the agent. "The lower is higher than the upper. The higher price is for the lower. If you want it lower, you'll have to go higher. We sell the upper lower than the lower. In other words, the higher the lower. Most people don't like the upper although it is lower on account of its being higher. When you occupy the upper you have to get up to go to bed and get down when you get up. You have the lower if you pay higher. The upper is lower than the lower because it's higher. If you are willing to go higher it will be lower. Well, the train has gone. Now I'll go back to VANDERBILT and get an ice cold SODA."—adv.

FILER

FILER, Idaho—Mr. and Mrs. Arthur Small and children returned on Thursday from a two weeks vacation spent at the Teton country, returning by Mackay and Halley.

Mr. and Mrs. Arthur Scholten, Miss Grace McDonald and Jack Johnson returned Saturday from a two weeks outing during which time they visited many points of interest, among which were the Jackson lake and Yellowstone park.

Mr. and Mrs. Leonard Woods left Sunday on their vacation to the Yellowstone park.

A boy baby arrived at the home of Mr. and Mrs. Earl Mayman Monday, August 15.

A daughter was born August 15 to Mr. and Mrs. Ray Wallace.

Mme. Bernstorff Regains \$1,000,000 From Allen Property Custodian

Countess von Bernstorff, wife of the former German ambassador to the United States, has regained possession of stocks, bonds and cash totalling \$1,000,000, which were seized from her by the alien property custodian at the beginning of the war.

The victory of the Countess and a fight she began on September 25, 1920, when she filed a claim for the return of the property. This action proving futile, she filed suit before the United States Supreme Court, which entered a decree in her favor and directed that the Bankers' Trust Company, as depositary of the alien property custodian, deliver the property to her. This was done.

Eruptions of Kiluea. The great eruptions from the volcano of Kiluea, in the eastern part of the island of Hawaii, were those of 1783, 1823, 1832, 1840 and 1903.

Kiluea, a companion crater lying a mile north of the main crater, is now extinct.

The Summer Cloud

It is a bright summer day. You're working hard in your office or in your store, and your wife is working hard at home.

Suddenly the summer day is no longer bright. Great thunder clouds cover all the heavens.

Immediately, thousands of hands in factories, in offices, in homes, reach for a switch or a button and turn on the light. The response is instantaneous.

As far as its obscuring power is concerned the summer thunder cloud is vanquished.

Under the clear electric lights, work goes on as before.

This is made possible by the constant vigilance of employees in the electric light and power stations, who, upon the first indication of a cloud in the sky, or of approaching night, prepare additional generators for instantaneous service, fire up the boilers, or open the water gates and start up the turbines, so that there may be no flickering of lights and no delay in the response of electrical energy when it is needed.

On a cloudy or stormy day more electrical energy is needed, and, therefore, more equipment is required to handle the load than during the bright, sunny days.

All this means equipment.

And equipment means capital.

Capital means investment by thrifty American men and women who look for a fair return upon their money.

Already, in addition to banks and insurance companies which have invested and loaned millions of dollars, there are 1,450,000 individual American investors in the electric light and power industry. They expect fair treatment from the public of which they are a part.

British Service Men Rush to Ports for Service in Morocco

Call for Recruits Finds Moneyless Soldiers Anxious for Return to Firing Lines

LONDON, (AP)—Publication here yesterday of news that the Spanish consulate was enrolling recruits for a foreign legion to fight against the rebellious tribesmen in Morocco resulted in a rush of former British soldiers to the consulate this morning in such numbers as to necessitate the presence of a large force of police to keep order.

Approximately 500 men, all of whom are veterans of the allies, many of them being veterans of three or four years' fighting are on the way to Southampton, from which port they will proceed to Spain on a Spanish transport.

Many of the applicants said they had no funds with which to reach Southampton and some of the men indicated the intention of walking to the port.

One Use for the Wicked. The wicked ones are in the world to produce patience in the good—St. Augustine.

ALIAS SUMMONS FOR PUBLICATION.

In the District Court of the Eleventh Judicial District of the State of Idaho, in and for the County of Twin Falls.

Olive May Kendall, Plaintiff, vs. Frank Armando Kendall, Defendant.

The State of Idaho hereby giving to Frank Armando Kendall, the above-named defendant.

You are hereby notified that a complaint has been filed against you in the District Court of the Eleventh Judicial District of the State of Idaho, in and for Twin Falls County, by the above-named plaintiff, and you are further notified that unless you appear and answer said complaint within 20 days of the service of this summons if served within said judicial district, and within 40 days if served elsewhere, and you are further notified that unless you so appear and answer said complaint within the time herein specified, the plaintiff will take judgment against you as prayed for in said complaint.

This action is brought for the purpose of obtaining a decree of absolute divorce from said defendant, upon the grounds of desertion and non-support, and for the custody of the minor child, John Armando Kendall.

Witness my hand and the seal of said District Court this 1st day of July, 1921.

C. O. SUGGINS, Clerk.

(Seal) E. M. Wolfe, J. P. Martin, L. A. Wade, attorneys for plaintiff, residing at Twin Falls, Idaho.

WHEAT GROWERS SELECT AGENCY FOR MARKETING

Farmers' Grain and Milling Company to Handle Crop for Members

Through an arrangement reached here yesterday by representatives of the Idaho Wheat Growers' association and of the Farmers' Grain and Milling company, members of the association throughout most of southern Idaho will this year market their wheat through the company's elevators and loading facilities.

Local Shipping Plans

Wheat hauled in by members will be received by the company at its elevators throughout the state. The part of the state of which the southern portion is in Twin Falls county, including the towns of Buhl, another, and a third, at Twin Falls. The company's manager will exceed this figure by a considerable amount.

Arrangements have been made for advance of cash to the grower approximating from 60 to 75 per cent of the value of his wheat on the local market at the time it is turned over to the agent of the association. Pending the arrival here of an agent of the association, the Farmers' Grain and Milling company is lending his assistance to association members in marketing their crop.

Bankers Send Approval

Representatives of the association who here yesterday in conference with the elevator operators, called upon Twin Falls bankers and received assurances that growers of mortgaged crops would be permitted to market through the association whenever the amount of the cash advance would exceed the amount of the mortgage, and furthermore that the association's channel would be acceptable if the warehouse corporation operating as a subsidiary of the growers' association, was in position to sell within a reasonable time at a figure as high or higher than that offered locally.

Representatives of the association attending the conference here were Allen of American Falls, manager of the warehouse corporation, and W. F. Alworth of Twin Falls, district director. The elevator concern was represented by David J. Robinson of Oden, president, and R. H. Denton of Kimberly, district manager.

Warns Offenders of Parking Requirement

Instituting a drive on offenders against municipal traffic ordinance regarding the parking of automobiles in the roadside districts with the right hand side of the car next to the curb, Traffic Officer Ray E. Brown today reported to the municipal court the names of 14 persons whom he had warned of their violation of this requirement. The list included John Amahay, Cecil Marquis, Dr. F. W. Moore, W. J. Grinstead, O. Strong, LaVerne Strong, W. T. Leslie, Twin Falls Central, George E. H. Siler, High, Ray Logan, George Spencer, J. C. Clark and J. W. D. Smith.

AMUSEMENTS

ORPHEUM—H. B. Warner in "When We Were Twenty-one," also "The Day and the Night" and "The Song of the Sea." IDAHO—Alice Brady in "Out of the Clouds," also Harry Lloyd in "The Day and the Night" and "The Song of the Sea." LAVERING—"The North Wind's Malice," a Rex Beach story of the romantic north.

CARD OF THANKS

We take this means of expressing our grateful appreciation for the kind and sympathetic help given us in our bereavement in the loss of our boy.

Mr. and Mrs. J. H. McNichols, Mrs. McNichols.

SPUD GROWERS INSPECT CERTIFIED SEED FIELD

Farm Bureau Expedition Makes Survey of Crop Grown by F. W. Oater at Burley

Three cars of potato growers left the Farm Bureau yesterday morning for the F. W. Oater ranch at Burley, the object being a survey of a certified field of Idaho Rural potatoes. At Kimberly they were joined by another car and at Hansen by still another.

Mr. Oater supplied several growers of this district with seed last spring, and the investment was so satisfactory that the expedition of yesterday was undertaken primarily to see the field and make note of the methods employed.

Although the field was defoliated to an extent by a hail storm that visited the section last Friday, the visitors were unanimous in the opinion that they had seen a better seed field. Oater plants his crop 15 inches in the row and 32 inches between rows as against the usual 14 inches in the row and 30 inches between rows, and uses 3,000 pounds of seed to the acre as against the 1,100 or 1,200 pounds usually used. He expects to harvest at least 400 bushels per acre.

RELIEF WORK CAMPAIGN IS BRINGING RESULTS

Committee on Solicitation Reaches Every Twin Falls Home with Personal Appeal

The committee on solicitation for the Near East, European, and home relief report that they have reached every family in Twin Falls either by telephone or by personal appeal. Returns are already beginning to come in, and the committee announces that bundles may now be delivered directly to the Parish hall where the sorting and packing will be conducted. If anyone is unable to bring a messenger, they will call. Monday is the last day. It will be necessary to have all supplies on the way as soon after that date as possible, from this source for the Twin Falls campaign in time to bring the relief needed.

CANAL COMPANY GIVES FIGURES ON WATER USE

Amount Diverted at Milner Totals 3, 140 Second Feet for Week; 705 Second Feet of Stored Water

A total of 3,140 second feet of water of which 2,435 second feet was natural flow of Snake river and 705 second feet diverted stored water was diverted from the canal during the week ending Monday, according to report made public today by General Manager J. C. Wachen of the Twin Falls Canal company.

TRUCK-HAUL

154 2ND AVE. NO.

POTATO PRICES DROP FROM PEAK

Buyers Play Cautious Game, Offering \$1.65 for Early and \$1.10 for Late Crop

Prices offered for potatoes in the local field have reached somewhat from the high level reached last week while buyers, noting on advice of their principals, seem to have lapsed into a temporary state of lethargy.

As compared with high record of \$2.00 for early and \$1.25 for late potatoes offered here last week, buyers today are offering around \$1.65 for early and \$1.10 for late potatoes, this being the limit of safety set for one of the principal buyers by his employers who are large operators in the middle west. These prices, however, are about the same as were paid last week for the bulk of the offerings.

Play Cautious Game

In this particular instance, the buyer was instructed not to overbid but to play a cautious game while the possibilities of the northern producing districts were being investigated.

Congestion of consignments at Chicago is assigned as a principal cause of the potato price recession. Advances received here from the Illinois metropolis said that there are now standing on the tracks at Chicago 750 cars of Idaho potatoes; that peak consumption reached there in the winter season does not exceed 750 cars and that is 150 carloads of early potatoes and 150 carloads of late potatoes.

Local Brevities

Go to Capital—H. M. Heller left this morning on a business trip to Boise.

Drive to Pocatello—Fred W. Kohl and Bert Marsh drove to Pocatello today. They will return tomorrow.

Poultry Raisers to Meet—A meeting of the poultry raisers of the county will be held at the county fair grounds at Filer tomorrow at 11:30.

There will be a basket luncheon at noon and the afternoon devoted to a discussion of the problems pertaining to the business.

On Way to King Hill—Raymond L. Paul, watermaster, and C. W. Brannon, Otto W. Paul and John Martin, directors of the Minidoka irrigation district, left for Burley today to inspect the operation of an irrigation project in the vicinity of King Hill, Idaho.

Adds to Offenders List—The list of persons violating the traffic ordinance requirement with respect to use of automobiles left lights has been increased by six names, according to municipal records today. The latest offenders include Charles Cox, Dr. C. D. Weaver, L. P. Baris, Ed. Kinney, R. E. Knece and E. B. Burleigh.

Back from Outing—Dr. R. A. Parrott, C. F. Green and Tom Irwin returned early in the week from an outing of several days with front and back as the incentive. During the trip they visited the Three Creek country and Jarblidge. Fishing was fairly good but sage chickens are notably scarce this year.

Scout Council to Meet—A meeting of the Boy Scout council is called for this evening at 7:30 at the office of J. E. White. Only one more report of scouts will avail itself of the camp site privilege this year, namely, that under the leadership of Donald McLean which will take to the hills a week or ten days prior to the opening of school.

Recruiting Huntsman—John Irons is today recruiting from among the membership of the Knights of Pythias lodge a party of hunters to go with him into the country north of Shoshonee gunning for game birds to form the nucleus of resistance for the annual picnic dinner of the order which is scheduled to be served on Sunday afternoon in the grove at the C. E. Eldred country home.

Prisoners Returned—Emmie Jennings and Raymond Jennings, brothers, prisoners at state penitentiary who were brought here to testify yesterday in the case of Russell Cayender, accused of complicity with them in the theft of an automobile for which they were convicted and sentenced last March, were today returned to the state prison in custody of Sheriff E. R. Sherman, the trip to Boise being made overland.

Former Teacher Visits—Mr. and Mrs.

A GOOD PLACE TO TRADE

JERSEY SUITS

Have just received one dozen of those remarkable values in Jersey Suits. They are in navy and dark brown. Sizes are from 40 to 44.

Jersey Suits are now hard to get and the price is going up. If you want one of these, better come right in to get it.
