

LEAGUE DECIDES TO LET MANDATE QUESTION ALONE

Council Adopts Policy of Hands Off While Negotiations Continue Between Washington and Various Mandatories

GIVES ITS APPROVAL TO UNITED STATES' REPLY

Overlooks American Objection to Settlement of Issue by the Forthcoming Session of Assembly

GENEVA, (AP)—The United States reply to the associated powers on the subject of mandates was approved by the council of the league of nations at its session here this morning. The council found that the reply furnishes a satisfactory basis for continuing negotiations, notwithstanding that the communication from the United States withholds permission for the mandate question to be settled by the forthcoming meeting of the assembly of the league.

The American note makes numerous suggestions for changes in terms, which appear to be acceptable to the powers and the league, but adds an interpretation of the relations of the United States to mandates which involves some difficulties. Allegedly, however, a favorable impression was created in league circles by the American note.

The council decided that there was nothing further for it to do in the matter, since negotiations are going on directly between the various mandating powers and Washington.

Presently American issues. Leon Jouhaux, president of the French general federation of labor and the secretary of the disarmament commission of the league of nations today brought before an sub-committee of that body a resolution calling for an international congress on disarmament.

UTILITIES COMMISSION SETS DAY FOR HEARING

Railroad Ballasting Question, from Twin Falls, Comes Up September 23

The state public utilities commission has designated Friday, September 23, as the date for a public hearing in its office at Boise in the case of the Twin Falls railroad ballasting question. The Oregon Short Line Railroad company has filed a petition with the commission asking for an order of the right of way of the Minidoka ball barge, in order to abate the dust nuisance.

Information to this effect has been received by John W. Graham, who appeared as attorney for the chamber of commerce in the case.

LONG BEACH APARTMENT HOUSE WRECKED BY BLAST

Boiler Explosion Tears Out the Rear Wall of Three Story Structure

LONG BEACH, Cal., (AP)—Explosion of a boiler in the basement of the Yale apartment house at Long Beach today blew out the entire rear wall of the building, injured 15 persons, none fatally, and caused damage estimated at \$200,000. The entire business district here has been closed for several hours. Bricks were blown as far as two blocks. The report that a woman had been killed in the debris caused firemen and police to work desperately until they rescued her. A wax figure which had formed part of the fixtures of a store on the first floor of the building.

PRINCE OF MONACO SERIOUSLY ILL AFTER HUNTING TRIP

PARIS, (AP)—The Prince of Monaco is extremely ill at a hotel here in the Pyrenees. He had been hunting chamois and caught a cold. Professor Barzay, hastily summoned from Paris, performed an operation on Thursday.

In observance of Labor Day, operations will be suspended Monday at The News office and no edition of The News will be issued on that day.

MAN BELIEVED TO BE CAPTAIN R. T. HAZZARD FOUND DEAD IN SEATTLE

SEATTLE, Wash., (AP)—The body of a man registered as A. P. Davis of San Francisco but believed to be Captain R. T. Hazzard of Boise, Idaho, was found in a room at a hotel today with a pistol clutched in the right hand, the police say. A telegram in the man's effects, signed "Mrs. R. T. Hazzard" of Boise, indicated financial troubles had caused the suicide.

LUMBER MILL OPERATORS DECIDE ON SUSPENSIONS

Curtail Activities in Forests of Washington and Northern Idaho

SPOKANE, Wash., (AP)—General suspension of lumber mills of eastern Washington and northern Idaho has been decided upon by the Lumber Products Manufacturers' association. It was announced today by J. B. Reynolds, the secretary. He said also that only seven companies plan to do any work in logging camps of the district during the winter.

Unfavorable conditions in the lumber market and falling surplus stocks of lumber induced lumber operators who have not already closed their mills to decide to do so in October or November, Reynolds said. Logging camps in the district will be manned with reduced forces, he stated.

AMERICAN HELD PRISONER BY RUSSIANS KEEPER RIGAS (AP)—Royal C. Keeler, the American engineer who was a prisoner in Moscow for many months, arrived here today. While in prison, Keeler received an offer from the soviet authorities to manage a factory and was released from confinement for this purpose. He was not able to secure permission to leave Russia until this week.

FLASHES FROM THE WIRE

CHICAGO, (AP)—A patrol wagon load of policemen, a citizens posse with torches and shotguns and a score of bound rats night were pressed into service to run down a big brown bear found wandering through Chicago streets. The bear was shot and taken to a hospital to have treatment of a kind of lumber from Wisconsin killed all persons and was still at liberty today.

WASHINGTON, (AP)—Illiteracy decreased in Montana between 1910 and 1920, the census bureau said today in announcing that the census of 1920 showed 9,444 illiterate persons ten years of age and over in the state. "Illiterates" meaning unable to write in any language. The percentage of illiteracy last year was 2.3 per cent as compared with 4.8 per cent in 1910.

WASHINGTON, (AP)—Frederick S. Houseman, 20, and Miss Leona Shepherd, 10, were killed by lightning yesterday when they sought refuge from a thunderstorm beneath a tree near the White House grounds. Houseman, a veteran of the 29th division, was engaged to Miss Shepherd. The storm was accompanied by high winds which caused much damage to the trees along the streets of the capital.

KINGSTON, N. Y., (AP)—Folks who have been gazing curiously at the structural activities on a suspension bridge 500 feet above Rondout creek were amazed today to learn that a blonde worker in overalls who is welding cables—a woman. She is Mrs. Catherine Nelson, of Jersey City, N. J., with two children and is earning \$30 a day. When her husband died she tried working as a stewardess on an ocean liner but found the pay too small and so obtained a job as a machine shop. When the bridge contractor called a company in Jersey City for his best welder she was sent to Kingston. She says she never is afraid or dizzy at a great height.

EXPLOSIVE IS GOAL OF CHICAGO POLICE QUEST

Officers Look for Bottle Supposed to Contain Nitro-Glycerine, Thrown Away by Bomber Suspect

CHICAGO, (AP)—Highland park police were searching today for a bottle supposed to contain nitro-glycerine, which was thrown away by a machine shop in an automobile bearing an Iowa license when a woman stopped them. A complete safe blowing outfit was found in the car with the car. Two of the men were identified as Sidney Mansfield, Wichita, Kan., and John Bigstaff, Clinton, Ia., both of whom have prison records, the police allege.

REFUGEES TELL OF HORRORS IN FAMINE REGION

Entire Lower Volga Basin, Under Scourge; Peasants Burn Houses to Gain Permission to Go to Siberia

BARANOVITSH, Russia, (AP)—Refugees passing through this city from districts in northeastern Russia declare that the entire lower Volga basin, the region through which flows the Don river, and the districts along the lower courses of the Dnieper and Bug are stricken by the scourge of famine. In conversation with Dr. Roy Smith, head of the American Red Cross medical unit here, they tell of severe drought, grain destroyed by the intense heat and of hunger, starvation and disease.

The soviet government issued orders that any person having a horse should not be allowed to go to Siberia from the famine districts, and it is asserted that whole villages have been burned so that the owners of horses in them would have an excuse to leave. As a result entire villages are migrating toward Siberia, or have started toward Poland.

Inquiry Bares Conditions. Two intelligence men were sent among the refugees lined up at food kitchens here and were instructed to ask every adult the name of the village whence he came and what the food prospects were when he left. When the work was finished it was found that the following districts were listed under "very bad": Astrakhan, Saratov, Simbirsk, Samara, Kazan, Ufa, the Don Cossack region, the Kuban, Cossack region, Tavris, Kherson, Ekaterinograd, and parts of Voronezh, Tambov, Penza and Khar'kov.

WEST VIRGINIA BELLIGERENTS SURRENDER ARMS TO REGULARS

Federal Troops, in First Encounter with Armed Bands, Meet and Disarm Men Holding Locomotive

REPORTS INDICATE PREVALENCE OF QUIET THROUGHOUT FIGHTING AREA

WASHINGTON, (AP)—A message received at the war department late today from Brigadier General H. H. Bandholtz in West Virginia said:

"About four hundred insurgents surrendered this afternoon at Sharples and Madison, turning in about eighty fire arms. They were immediately sent out of the disturbed area to St. Albans by train."

CHARLESTON, W. Va., (AP)—Federal troops operating out of Madison, W. Va., in the territory occupied by armed bands opposing the force of state police, had their first encounter near Sharples today. They met and disarmed some men who were holding a locomotive on the Little Coal river branch of the Chesapeake and Ohio railroad.

News Writer Wounded in Virginia Warfare

LOGAN, W. Va., (AP)—Boyd A. Sparks, correspondent of the New York Tribune, was shot in the head while making his way with other newspaper correspondents over the mountains from Blaine to Logan today, according to Dr. H. D. Hatfield, former governor of West Virginia, who dressed his wounds. Dr. Hatfield said Mr. Sparks' wounds were not serious. None of the others was injured.

Along the Boone-Logan county line where desultory fighting has been reported in progress during the last few days, stopping was quite according to reports to the office of Governor Morgan.

Details of the meeting between United States troops, rushed into the disturbed areas tonight and today to take up points of vantage in the five counties affected by President Harding's proclamation, and the hands of armed men were not given out by the governor's office, nor was it made clear whether or not there had been casualties.

At headquarters of the United Mine Workers here, a device said to be a bomb dropped from an airplane near Jeffers on Thursday, was placed on exhibition. The machine, bearing a typewritten slip of identification, is declared to have fallen between two men who were wearing cloaks in their back yards. It did not explode.

FEDERAL TROOPS MEET

CHARLESTON, W. Va., (AP)—Reports at army headquarters here were to the effect that everything was quiet along the Boone-Logan county line and that federal troops had not met with any action on reaching their headquarters in the disturbed area designated by Brigadier General H. H. Bandholtz, in command of the soldiers. No trouble was anticipated. It was said at headquarters, when the detachments of soldiers being cleared from the area and dispersing the belligerents on the firing line.

Reports of courier to headquarters here that troops have gone up to establish headquarters at Sharples and Clatbur near the firing line. More troops from the west are expected during the day and the regiment from Camp, N. J., is due in Charleston this afternoon.

Silent About Martial Law

Army headquarters were silent about the possible form of martial law being proclaimed in the disturbed counties. All men found to be unlawfully armed in the affected areas will be disarmed if they are carrying weapons and ordered to return to their homes. No one will be permitted to bear arms and all arms will be sent to the post. No arrests will be made except where persons resist the orders of the federal soldiers or stop to argue. Full protection will be given to all miners and others.

Telephone Lines Down

There was serious interference with wire communication east of Charleston today. The lines were cut at several points today. At 12:30 a. m. the telephone company had lost every one of its lines on the eastern route, cutting off communication with the cities of Washington, Philadelphia, New York and other cities.

COMPERS GIVES HARDING VIEWS ON DISORDERS

Veteran Labor Leader Tells the President Authority of Government and People of West Virginia Must Not Conflict

WASHINGTON, (AP)—President Compers filed a statement of Federation of Labor told President Harding today that against the authority of the government of the United States and the people of West Virginia cannot and must not stand in hostile array.

Mr. Compers and James Lord, president of the mining department of the federation, called on the president, they argued, to be before him the situation as they viewed it.

Mr. Compers said he also told the president that after all, when the men have obeyed the order of the president and dispersed, "it may crush their spirits, but that is no remedy of the acute situation as it exists in West Virginia and nothing will be settled."

Urges Conference Project

The federation president urged Mr. Harding to adopt the suggestion of President Lewis of the United Mine Workers of America that a conference of operators and miners be called to endeavor to reach a conclusion which would not only settle the present controversy but establish better relations between the miners and operators for the future.

The president, Mr. Compers said, intended with him latest and sympathy to his appeal but stated that his first duty as president was to establish the authority of the United States and maintenance of order.

Blames Gunmen

On leaving the White House Mr. Compers filed a statement of Federation of Labor referring to the wage award last year and the "disorganization" of the miners "first by injunction" and then imposition of individual contracts, he declared that "gunmen and detective agencies are really the cause of the whole conflict now."

REXBURG GIRL ENDS LIFE WITH BULLET IN TEMPLE

Cleo Sorenson, 19, Shoots Herself in Fit of Despondency Over Love Affair

POCAHONTO, Idaho, (AP)—Miss Cleo Sorenson, 19, of Rexburg, Idaho, shot herself in the right temple in a hotel at 3:50 o'clock this morning, dying at 7 o'clock. In company with Hilda Warren of Idaho Falls, Miss Sorenson arrived on an east-bound train registering under assumed names. Despondency over love affairs, told in a note to her mother, is declared to have been the cause.

Harding Bases Confidence On Unfortified Northern Boundary

WASHINGTON, D. C., (AP)—An unfortified boundary line more than three miles long between the United States and Canada is the best testimony that the world grows wiser and better, President Harding said in a letter today to be read at the dedication of peace monuments at Blue, Wash., in commemoration of more than a century of uninterrupted peace between America and Great Britain.

The president in a dedicated September 6, on the international line, was received by Samuel Hill of Seattle. The recognition of the significance of the occasion the president wrote Mr. Hill as follows: "The ancient Romans erected a temple to Juno, a dispenser of peace and justice, at the spot where the gates have never been closed while the nation was in war. In seven centuries they are said to have been closed but three times, whose gates are never to be closed save in war. Already it stands for more than a century of unbroken peace between Britain and America, and we all join in the hope that in coming times it may commemorate an era of peace which shall be a symbol of the end of wars for which the temple of Juno stands.

This tent colony, at Ethel, West Vir-between the miners and state troops like these the miners and their families, was the scene of a recent combat. Five of the miners were shot. In tentacles have been living for over a year.

FACTIONS SIGN PACT BRINGING PEACE TO ITALY

Fascisti and Socialists Agree to Stop Fighting and Refer Future Differences to New "Court of Last Resort"

ROME, (AP)—Fascisti and socialists, after months of guerrilla warfare, have signed an agreement to abstain from fighting and have constituted, in case of new disputes, "a court of last resort" whose judgments shall be final. Meanwhile, there are occasional skirmishes but peace has practically come to terrorized Italy.

The court consists of one arbiter, Enrico De Nicola, president of the Chamber of Deputies, who is clothed with supreme power in the settlement of disputes between the two factions. De Nicola was elected to the speakership of the chamber at the beginning of this session by a practically unanimous vote. He has a national known reputation for fairness. In his inaugural address he brought the house to its feet, shaking hands with socialists and communists to applaud his words.

Each Disciplines Own Members.

According to the agreement, each side binds to discipline its own members and to be responsible for their conduct, inflicting their own penalties for infractions of the peace pact. The return of all "the spirit of war" is demanded. During the hostilities, the Fascisti commanded and captured all kinds of socialist spies, including real banners, socialist arms, cashmere office furniture, seals, record books and thousands of members' cards.

During the strike, the Fascisti also had forced many socialists to resign their positions. Now they must work in return for the promise that they will in no way interfere with the patriotic propaganda promulgated by the Fascisti and will pay the respect due the Italian flag.

The Fascisti succeeded in the negotiations in persuading the socialists to disown the organization of militant radicals known as "Arditi del Popolo" who have been ambushing innocent travelers as well as Fascisti. Several deaths and many wounded had been the toll of these ambushed parties. The government is using every means to rid the country districts of them. Strong patrols of carabinieri and royal guards reconnoiter the troublesome sections of the country.

D'Annunzio Adherent's Work

The trace between the Fascisti and socialists was largely due to d'Annunzio's former chief-of-cabinet, Major Giannini, who has worked incessantly to bring both sides to an understanding. Mussolini, the head of the Fascisti, speaking of the pact, said: "Since the socialists have shown themselves inclined to leave Italy and be patriotic, we are ready to offer them peace."

COLORADO SENATOR STRICKEN BY ATTACK OF APPENDICITIS

WASHINGTON, D. C., (AP)—Senator Philipps of Colorado, is seriously ill at Flower hospital, New York, according to information reaching the White House today. The senator was operated on yesterday for appendicitis. It was stated, having gone to the hospital from his summer home at Watles Hill, R. I., on the advice of physicians.

3,000 Feet to Bottom and No Undertaker to Meet You

If you ever go to Yosemite National Park, in California, don't try to do this stunt at Overhanging Rock, at Glacier Point. If you do there is a man who is ready to arrest you for tempting death, just as Larry Keegan of Butte, Montana, was arrested and then brought before Superintendent Lewis, of the park force, who is firm in his contention that he wants no foolhardy person to attempt to perform this trick. An official sign on a nearby post reads as follows: "It is 3,000 feet to the bottom, and no undertaker to meet you. Take no chances. There is a difference between bravery and just plain foolishness. If you try this trick you will be arrested."

STATE AUTHORITIES MAKING HARD FIGHT

Strenuous Struggle is Being Waged in Washington Against Rates

The Spokane headquarters of the Farmers' Union for Washington and Idaho has received word from Governor D. W. Davis of Idaho that representatives of the state utilities commission are now in Washington endeavoring to have freight rates reduced on grain and grain products. Mr. Davis wrote in answer to a letter sent to him and to Governor Hart of Washington, detailing the alleged stifling result of exorbitant freight rates and asking for state surveys of the existing tariffs with a view to securing evidence on which to ask for reductions.

A. B. Cross, secretary of the Farmers' Union, in a letter to the governors pointed out that the purchaser of flour in the coast cities pays a good amount of his price for transportation at the present time. He stated that for the 300,000,000 bushels of wheat purchased by Europe last year, the foreign buyers paid an average of 31c more a bushel than they did the preceding season.

The wheat growers in the United States received an average of 75c a bushel less. "Thus," said Mr. Cross,

there was an additional tax of more than \$200,000,000, or \$1.00 a bushel taken for this wheat between the producer and the consumer. The advance in freight rates last September had a lot to do with this increase and its result is hurting farmer and consumer alike."

HARVEST SEASON FOR CANYON FRUIT GROWERS

Period of Intense Activity is Launched in Orchards and Fields North of Piler

The fruit season in Snake River canyon, north of here, is now at its height, says the Piler Record. At least 60 persons are employed at the Crystal Springs, Grouse and Niagara Springs orchards, in picking, packing and marketing the Elberta fruit crop. The fruit is said to be of a particularly luscious quality this season, although the yield is not equal to that of last year.

Pears, grapes, watermelons and cantaloupes are also on the market at these orchards. Careful shipments of ranches are being made to the east by the Crystal Springs ranch, operated by J. A. Tyler and sons. This same concern has also recently installed a canning plant enabling them to cold pack peaches, pears, plums and apples for the trade in either glass jars or tin cans.

PREMIUM BEING PAID FOR CLASS OF WHEAT

Mills of Spokane Boost Price of Triplet Over Market for Other Kinds

The Sperry Flouring mills of Spokane have purchased from the Oregon-Washington Wheat Growers' association 1200 bushels of Triplet wheat, paying a premium of 2 cents a bushel over club and fortyfold and 4 cents a bushel over Red Walls varieties. This is an increase of several cents in the price of Triplet as compared with other varieties of wheat.

The Sperry mills have asked the Wheat Growers' association for a lot of about 25,000 bushels of Triplet of the same grade. This wheat came from Prescott, Wash., and the gluten content as determined by the testing laboratory of the association was 33.13 per cent.

Triplet has been selling on an export basis since it was introduced some years ago by Washington State college. It is a hybrid and its milling possibilities were never realized by the miller until it was made the subject of intensive laboratory work by the grading department of the association. If it becomes firmly established among the milling varieties of wheat appears likely the best of the testing department will mean many thousands of dollars annually added to the income of wheat growers of certain locations in Washington, Oregon and Idaho, where its yields are high. Arrangements in the association's laboratories have just been completed whereby tests will be run on samples of wheat which is used for milling purposes. All such samples should be addressed to the wheat grading department of the Washington-Idaho Wheat Growers' association, of Spokane, Wash.

Puncture Vine Makes Trouble for Motorist

SANTA ANNA, Cal., (AP)—The "puncture vine" is the latest discovery to take joy out of the lives of motorists.

Horticulturalists and botanists would call it a "Tribulus terrestris." Lately the county horticultural commissioner has found numerous specimens scattered through the county, chiefly in the vicinity of Irwin, and investigation has indicated that the seeds must have been brought from abroad in ship's ballast. The vine is also present in some sections of Los Angeles county, and was first observed there several years ago, growing near San Pedro, where many ships from foreign lands discharge cargo.

The vine lies flat on the ground. It spreads in circular form, and reaches a diameter of six or eight feet. It grows out runners, and each runner bears bars which thrust out and penetrate the average automobile tire tread. The resulting damage has given the vine its nickname.

RUPERT MAYOR AND ALDERMEN FACE CHARGES

Allegations of Misconduct in Office are Made by County Attorney on Citations Involving 27 Counts

Citation notices were Thursday filed against I. W. Cressy, city mayor; W. D. Bohon, R. L. Willis and Jos. H. De Witt, councilmen, to appear in court on September 14 to answer charges of misconduct in office made by County Attorney Baker, on twenty-seven counts, says the *Minidoka County News*.

The charges include service done by councilmen for city, materials furnished and signing of warrants to pay for same, all said to be in violation of the law. Charge is also made in each case that in voting for John C. Lundy as city manager the law was violated as the powers and privileges carried by that office could only be exercised by the duly elected, qualified and acting officers of the city which is of insufficient population to permit or allow the appointment of a city manager.

Action of the county attorney was based on a written statement signed by R. T. Attle, Alvin Keller, W. W. Mattinson, E. R. Dampier, A. H. Smith, O. A. Scholer, A. F. Boymer, T. W. Halpin, B. L. Robinson, R. E. Allen, G. A. Jones, F. N. Victor, E. E. Fisher, Homer Martin and A. L. Funk, calling his attention to alleged infraction of the law committed by the four men in question.

DEAN OF WOMEN SEES BANNER YEAR AT THE 'U'

Miss French Meets Prospective Students on Southern Idaho Tour

UNIVERSITY OF IDAHO, Moscow. (Special) — "I look for a better year at the university than we ever had before," said Miss "Pomeau" French, dean of women, on her return from a trip through southern Idaho, on which she met prospective students in towns all the way from Pocatello to Weiser.

"There was some talk of hard times," said Miss French, "but many sections have redeemed themselves with their fall crops. Prunes, potatoes and apples are in good prices, and districts that depend on those crops are prosperous. The grain situation also is good and the dairy people are all right."

"If there were as much money in circulation as there was even two years ago, we would be absolutely unable to take care of the students who would come to the university next month."

Long lists of students who had applied for room reservations in Bldg. 10, the girls' dormitory, awaited Miss French on her arrival.

Banks Put Over Winner when Weakened Merchants Boot Ball About Infield

With Phil Fix (twisting a slightly better grade of ball than that of his opponent, Marshall Brown), the Banks bat wearing in the semifinale scheduled game of the season, defeated the I. D. S. team 8 to 6. The Banks presented "Spud" Morley at first base at start-off, and showed Steele of the All-Stars in a good American's position. These men were played in order to give them a chance to practice before taking the road with Orwig's big outfit, on an invitation of the Boise country.

Last night's contest was fairly well played, with honors about even in all opposing departments. Fix and Brown were steady in most of the crisis. Infielders Hughes and Seick were missing from the I. D. S. lineup, Don Liville essaying the third base role in place of Seick. Error on the infield contributed to the defeat of the Merchants. C. Liville backstopped for the Banks and Frank Kieffer for the Mercantile men.

KNOCKOUT MUST DECIDE WHO IS DIVISION CHAMP

No Title for Downey Unless He Puts Wilson Down for the 10 Count

NEW YORK. (AP) — The championship belt held by Johnny Wilson, midweight, will not change hands in his best next Monday with Bryant Downey, Cleveland, O., title claimant, unless Downey "knocks him out. Promoter Tex Rickard announced Friday. The same ruling applies in the case of Johnny Buff, American flyweight champion, who meets Indian Russell of Harrisburg, Pa.

Rickard pointed out that the belt could be lifted only in decision matches save in case of a knockout. The Jersey City fights will be 12-round no decision affairs.

The St. Louis Sporting News, organized

ired baseball's official sheet, has brought another indictment against Eddie Cicotte, Coniskey's Black Sox leader.

The paper accuses Cicotte of playing the public false again in that he promised to return to the farm and never again appear in a baseball uniform. Then he went out and played the mound with an Independent club in Indiana or Wisconsin or some place else.

Both the Indians and the Yankees won yesterday, thus leaving the American pennant contention in statu quo, as it were.

Promoter Blue promises a fine bunch of fistie arguments for Monday night at the Princess pavilion.

SUPREME COURT AFFIRMS BOMBS PAVING RULING

Order Modifying Twin Falls City Corner Lot Assessments is Sustained

Owners of Twin Falls corner lot property who appealed to the district court from assessments made by the city council for street paving are carried to modification of the assessments made by the court, Idaho's supreme court rules in an opinion handed down Friday in the case of Cornea v. Twin Falls, plaintiff and respondent against the city of Twin Falls, defendant and appellant.

The case was appealed by the city from the decision rendered by Judge O. S. Baum, presiding in the eleventh judicial district in the city of Twin Falls. It is a corner lot, in the city of Twin Falls, in the city of Twin Falls, and the city council ordered that portion of the lot upon which it abuts. Appeal was taken to the district court. The court found that other inside lots were assessed, that lot 16 should be chargeable only with the cost of paving in front of the lot and with 50 per cent of the rest of the paving along the side of the lot.

COMPELS CALLS FOR SOLIDARITY

American Federation of Labor Executive Sends Personal Message

The following text of a letter prepared by Samuel Gompers, president of the American Federation of Labor, and a executive message to the workers of America on labor day was today released for publication by the Twin Falls Central Labor council:

We must to observe the labor day at a time when the citizenship, the understanding, the loyalty and solidarity of all our people is passing through the test of fire.

We are confronted by unemployment. Nearly six millions of our people have no work.

The reactionary force among employers are slow to turn their minds to constructive effort.

They are slow to learn that the injuriousness of our movement is an unlawful, unfair, ineffective, tyrannical weapon.

They are slow to learn that the real industrial contract is a measure of industrial enfranchisement which American workers will not accept.

Every advance of labor marks an advance in the education of employers. The constructive ability of our movement is called upon to the utmost to bring the full flow of life back to our industries under conditions of freedom, with the democratic ideal dominating everywhere.

We will not be driven back. We go forward. The light that has come into the life and work of our people never be shut away from them.

There must be more and more, and more—more tomorrow than today, more the next day than tomorrow, and more for every coming tomorrow.

The times of today are severely trying. They are not of our making, but they are for our redemption.

We must organize for our task. The individual is not sufficient. They can help neither themselves nor their fellow-workers. Their strength, their skill, their inspiration, are lost until they organize.

Our first great task is to organize—to bring together the unorganized, to unite and federate the organized, to bring together in strength of united thought and action all of our people everywhere.

Man today wins no victories alone; he overcomes no injustice by himself; he conquers nothing by the tide of progress, while he walks by himself.

Organize for the five million march—organize for justice, for freedom, for the great struggle to right wrongs, for the triumph of service over tyranny and greed.

Take the message of organization everywhere. Unite in the service of humanity, for the good of our people and for the good of the world.

Organize for the five million march. On this labor day begin the forward march.

possible another important one, for with the wooden box there places the separate rubber jar heretofore required for each wheel.

The new case being of rubber, it has been found practicable to mould it with seamless partitions, which eliminate the danger of leakage.

Between the plates, separated rubber, used as wooden separators are used. This use of rubber, however, is not entirely new, having been started six years ago under Willard patents.

The development of the new case and the bringing together of rubber container and rubber separator has been the latest important advance has been made.

An all-rubber battery has been the goal of the industry for years. The biggest obstacle was the apparent impossibility of making practical rubber separators.

The mounded rubber case, besides eliminating the separate battery jar, resists decay and corrosion, in much greater degree than the wooden container, being unaffected by acid solution or by water.

It is a non-conductor, it markedly reduces electrical leakage, which is especially important in hot climates, and it is a non-rusting material.

In a statement given out by him regarding his most recent contribution to the development of the storage battery, Mr. Willard said that it was the result of a project to produce a unit that would give a nearly uninterrupted service as possible, and the various parts of which would have no longer but also more equal life.

"My purpose has been," he continued, "to make a battery like the one made by the other, but which would live to a ripe old age and lay down their different burdens at the same time."

Today's Markets

WHEAT PRICES ADVANCE AS BUYING STRENGTHENS

Market Shows Greater Activity and Closes Strong 2 1/2 to 3 1/2 Cents Above Opening

CHICAGO, (AP)—Wheat opened somewhat unsettled with prices holding within a range of about 1 cent. A small break early was followed by a sharp rally, but buying by local commission houses while the selling was clustered in the main.

The end of the first hour found wheat 1-1/2 to 1-3/4 higher with the market taking on a slightly firmer tone.

Wheat showed more activity and there was some increase in outside interest and the market advanced sharply with houses with eastern connections frequent buyers.

There was sufficient news of a bullish character to prevent any great amount of pressure. The market closed strong, 2 1/2 to 3 1/2 above the opening with September 12; December at \$1.25 to 1.28 1/2; and May at \$1.22 1/2.

Corn opened rather dull and a trifling lower. Country offerings were light, due to non-arrival to the recent high prices. September opened a shade to 1-1/4 off at 53 1/2; December 53 3-8 to 53 1-2 and May 57 5-8; but a slight rally during the initial hour carried the market slightly above last night's finish.

Corn was under pressure early but when wheat started upward course was followed. Trade was not large and mainly of a local character. The close found corn 3/8 to 1 3/8 above the opening with September at 54 1/2.

SUPPORT FOR WHITE CROSS IS INSISTENT

Dr. Edgington, Speaking at M. E. Conference Sees Christian Service Challenge

"There is an insistent demand for practical, applied Christianity," said Dr. Robert O. Edgington speaking at a late session of the Methodist conference at the White Cross movement, the speaker saw the timely and challenging challenge of Christian service. Dr. Edgington added: "In Idaho there are not more than two thousand Christian hospitals. The White Cross seeks by a careful program to build and maintain hospitals, to secure workers, collect members, and provide free hospital care for the poor. It is purely a charitable institution. The Idaho White Cross slogan is '15,000 Idahoans who will gladly support the White Cross movement.'"

Million and Half Dollar London Blaze Attributed to the Unemployed

Twenty-one acres of lumber in the yards of Gilkate & Son, Ltd., at Stratford, London, burned for more than six hours, baffling the attempts of the fire department to extinguish the blaze.

Although Scotland Yard claims that the unemployed had nothing to do in connection with the fire, members of the fire insist that it was set on fire by the disappointed 5,000 applicants for the twenty odd jobs open at the lumber yard. In response to an advertisement calling for twenty porters at 48 per week, 5,000 applicants appeared. The fire was discovered shortly after the twenty men selected had gone to work.

GREGG BUSINESS COLLEGE, TWIN FALLS, IDAHO

We wish to call the attention of the public to the fact that we are offering all the commercial subjects taught in any high school or business college. You can enroll any time and take any subject or subjects you may care to elect. It is not necessary to take any complete course of study at our school. The grades given on these subjects will be accepted by all high schools at par. Those wishing to complete the work with us and secure a position must, of course, take the work necessary for that position which they have not taken at some other school. We guarantee positions to graduates. Most of our students receive position long before they are officially advanced to graduate.

We have enlarged our faculty by two members to accommodate those who have heretofore taken the commercial work at the high schools. Miss Gladys Cornell Finch of Albion College, Albion, Michigan, will have charge of the shorthand department. Mr. E. E. Oliver of the Columbus Business College, Columbus, Ohio, will take charge of the bookkeeping department. Our teachers rank with those of the high school in education, having received degrees from their respective schools, and license from the State of Idaho to teach in the high schools. They have taught for several years and have appeared in the papers of their respective schools as sufficiently prepared to handle the work we are offering as well as any business college in the United States. We are determined to make this situation equal to any other in its educational standards.

Would it not be wasting money and robbing the community for you to go elsewhere when you can get equally as good, or better, service at home? If you look us up and let us show you what we have done and can do, we are sure you will enroll with us. The best typographers in Twin Falls are students of Gregg Business College. If you are interested and doubt this statement, we will be glad to prove it to you by telling you who they are. We live in the town for the year here to three terms beginning September 1st, January 1st, and June 1st. But unlike the public schools we do not have any regular semester or term as the student can enter any school-day of the year round. Our day sessions are like those of the public school, five days a week, beginning at 9 o'clock and extending to 4 o'clock. The tuition is just as low as that for the day session. The night school is intended for those who are working and cannot attend the day session.

Some students hesitate to attend a business college now, because of the financial depression at the present time. Those acquainted with history know that we have had ups and downs in the financial business world in past years and a revival of business is assured to come at the day follows the night—for history repeats itself. Now is the time, while business is dull, to get ready for the "REVIVAL" which will come. M. H. HOOVER, Mgr.

Social Notes

The Henry V. Walling Circle No. 16, Ladies of the G. A. R., will meet at the home of Mrs. H. H. Per 20 Eighth avenue east next Monday evening. Mrs. E. L. White was hostess yesterday afternoon to the members of the Ministers' Wives association which held the annual meeting at the Methodist parsonage. Following the short business session, President Mrs. J. E. Baker presiding, during which the report of the committee on constitution and by-laws reported, the 35 members present enjoyed a social hour. The social served refreshments, and social discussions contributed to the success of the event.

MISS SHOTWELL NAMED FOR RETIREMENT FUND

BOISE—Miss Elizabeth Shotwell, teacher and supervisor of Twin Falls city schools, and Joel Jenifer, superintendent of the Lewiston city schools, were Friday named on the board of the teachers' retirement fund at a meeting of Governor Dacia, Roy L. Black, attorney general, and Miss Ethel Redfield, state superintendent of public instruction. The meeting was held in the governor's office under provisions of a law passed by the last session of the legislature. The governor is chairman of the board, and the superintendent of public instruction is secretary. Appointment of the other members was made by Miss Redfield and approved by the governor and Attorney General Black. Mr. Jenifer was appointed to the five-year term and Miss Shotwell to the three-year term.

UNIVERSITY RECKONS GRAIN GROWING COST

Investigators Find Cost of a Bushel of Wheat 90 Cents to \$4.00

UNIVERSITY OF IDAHO, Moscow, (Special).—To show the actual cost of growing a bushel of wheat, oats, barley or peas, records have been taken on 23 Palouse farms this summer by representatives of Washington State college, the University of Idaho and the United States department of agriculture, advertising. Costs of harvesting these crops with a binder and with a combine also are being compiled and compared.

Similar figures on 210 Twin Falls county farms have been collected by investigators for the University of Idaho.

This summer's study is the second in a series of projects. Figures that have been collected are now being tabulated. Last year's figures showed that the cost of producing a bushel of wheat in Latah county, Idaho, and Whitman county, Washington, ranged from 90 cents to \$4. The \$4 man was one whose crop was hauled out, while the 90 cent man were several who produced heavy yields from grain on land that had just grown a crop of peas.

"The problem here, of course," said one of the investigators, "is utilization of the peas."

Announcement of conclusions from this year's figures, it was stated, probably will be ready in the spring. The first year's study showed that the average cost of raising a bushel of winter wheat in the Palouse district was \$1.43; of spring wheat, \$1.25; and of all wheat, \$1.69.

The average size of 158 farms studied in Latah and Whitman counties last year was 207 acres. The average farm capital was \$15,973. Average receipts were \$5431; average expenses, \$3956; average income \$1475. After paying the farmer for his labor, this income represented 7.6 on the investment.

Sinithree on the Palouse district were collected this summer by Earl D. Strick, representing the federal government; Ralph R. Rowell, a university student, also employed by the government; Byron Hunter, farm manager, Nounen Johnson, of Idaho Falls; a University of Idaho graduate; Professor George Severson of the Washington State college; and H. B. Johnson, a student at Washington State college.

Twin Falls statistics were collected by M. H. Egan, county agricultural agent, and A. H. Egan, county agricultural agent, of the University of Idaho extension division; E. H. Niekirk, representative of the United States department of agriculture, and E. B. Rowell and Ralph Strick, University of Idaho students.

BARRISTERS TO STUDY FLYING AT FIRST HAND

Demonstration Flights at McCook Field Furnish Practical Data for Bar Association Members

CINCINNATI, O., (AP).—Members of the American Bar association, concluding their forty-fourth annual convention here last night, departed for Dayton, O., this morning, where they will have a day's outing as guests of the Montgomery Bar association.

Demonstration flights at McCook field will be given to furnish practical data for discussion of proposed aviation laws which the convention considered yesterday.

The principal discussion arose over whether the federal government could assume jurisdiction over the air or whether flying invaded the rights of adjacent landowners.

The committee inclined to the belief that jurisdiction was lodged in the admiralty but expressed doubt that the federal government could assume jurisdiction without a constitutional amendment.

MORO BANDITS PUT UP LOSING FIGHT WITH BOLOS MANHA, P. L. (AP).—Nine Moro bandits have been reported killed by a constabulary patrol on Lubon capitulation here last night. Today, they robbed and murdered another Moro. It was reported and the constabulary went in pursuit of the murderers. The Moros fought with bullets and one revolver. There were no casualties among the constabulary.

Theatre

Heart interest, suspense and drama are the outstanding features of "The Freese Out" which will have its first local showing at the Orpheum theatre next Monday and Tuesday, Harry Carey is the star.

Carey is known as the ace of western drama. He has a new type of western vehicle in "The Freese Out." Throughout the five reels he has an opportunity to demonstrate a mastery of subtle drama and flashing wit.

George Hult wrote the original story and Jack Ford, who has produced many of Carey's successes, directed the production.

Headlining the supporting cast is Helen Ferguson, a capable dramatic actress, who recently was seen in "The Mystery of the Elsiore" and in other feature productions. Carey also is supported by Joe Harris, J. Farrell McQuinn, Charles Hays, Lydia Yemmas Titton and many others.

ARRESTS CONTINUE FOR REFUSAL TO RAISE TAXES

Labor Organ Editor and Son with Three Other Members of Borough Council are Detained

LONDON, (AP).—George Lanebery, editor of the Daily Herald, the national labor organ, who is a member of the popular borough council, his son, Robert, and three other popular councilors were arrested this morning in connection with the refusal of the council to carry out the order of the London county council to raise tax rates. The women members of the council will be arrested Monday, it was announced.

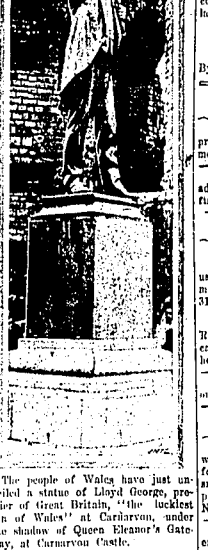

Several of the councilors were arrested yesterday and today's arrests bring the number taken into custody to 10. The council has 30 members.

The Poplar trades council and other bodies have issued appeals for subscriptions to support the families of the arrested members of the council while they are in custody.

EVIDENTLY AUNT MAGGIE WAS FIGURING ON WHERE TO LOSE POLLY AND HER PALS

VOTERS MUST SELECT FIVE NEW TRUSTEES

Three of New Board Will Be Chosen to Fill Unexpired Terms

Two tickets are in the field for the election next Tuesday of five trustees to the school board, having been formed at meetings early in the week. While it is now too late to enter other list of candidates, names may be written on the ballots.

Nominations
The first ticket filed with Mrs. C. R. Scott, clerk of the board, names E. P. Dunning and C. E. Wright to fill terms of one year, W. E. Evans and Quincy Norris are candidates for the two year offices, and Mrs. Herman Deiss is named for the one year term. James Fitzgerald and R. W. Veters are the other ticket's candidates for the three-year terms, O. H. Keith and W. E. Foster for two year terms, and D. W. Undergraff, present chairman, is in the running for the single year office.

Three trustees will be elected to fill unexpired terms of former board members, H. F. Clark and W. E. Nixon, and two for two years remaining, and G. E. Bryant, who had one more year to serve. Voters of ward No. 1 will vote at the ticket school and ward No. 2 voters at the Lincoln school. In contumacious with law, the election will not be held at the high school, as at previous vote. Polls will be open from 1 o'clock to 6 o'clock, city time.

The State Law

Election officials call attention to that part of the Idaho school law which provides for eligible voters. Section 19, article 1, says that in addition to electors fulfilling requirements of article 6, section 2, there are customary qualifications and being residents of the district at the time of the election, they must possess one of the two following qualifications:

- (1) Parents or guardians of a child or children under 21 years of age, and when such child or children and the parents or guardians there are residents of the district at the time of the election.
- (2) A person who pays taxes within the district, and the husband or wife of such taxpayer, in case the taxpayer is not a resident of the district is not a taxpayer within the meaning of this act.

BUHL DISTRICT REPORTS HEAVY CROPS HARVEST

Wheat End Comes to Front with Unusual Grain and Seed Production

Reports which continue to come to The Herald of grain and seed production in the Buhl district show that generally all the crops are being above normal crops, says the Buhl Herald. Wheat is being brought to market which shows a fine quality and good yield. It is noted that the yield of wheat which has had an excellent result, one grower getting nine bushels per acre, and another eight and one-half bushels.

Shelton Makes 60 Bushels
A good yield of wheat is that of Fred Shelton four and one-half miles northeast of Buhl. Mr. Shelton has 23 acres of wheat this year that averaged 67 bushels per acre. The yield of the crop averaging 60 1/2 bushels to the acre. About one-third of the field was so rank of growth that it went down and some of the crop was lost which would have added to the yield.

Wheat Yield Goes 65 Bushels
Phil Bertram living six miles west and one mile south of town, has an 85-acre field of wheat that produced an average of 65 bushels per acre. The Buhl and One-half Bushels of Clover. A. O. Karber has threshed five acres of white clover which has averaged eight and one-half bushels per acre. The yield of the crop was 65 cents per pound for his clover but is holding for a higher price. He has clean seed and it is of desirable color.

Bambo Gets 25 Bushels of Clover
N. E. Spencer who farms the Buhl district has raised 25 bushels of white clover per acre from 17 acres is the banner clover crop and is the record of W. H. Bambo living west of town.

Castleton Makes 60 1/2
Theodore Holley harvested 60 1/2 bushels of wheat from an acre from 100 acres of land in the Castleton country, according to reports reaching The Herald. Wheat is worth 81 cents per bushel at the local elevators.

Rainbow Ranch Produces 60 Bushels
Fifty bushels per acre average for 29 acres of Buckeye wheat, is the record of M. D. Spencer who farms the Rainbow Ranch. The yield of the crop was 60 bushels per acre from 17 acres is the banner clover crop and is the record of W. H. Bambo living west of town.

COMMERCE BOARD SYMPATHETIC TOWARD GRAIN PRODUCERS ON QUESTION OF HIGH RAIL RATES

Leonard Way, Tariff Expert, Upon Arrival to Assume Important Position Here, Tells of Important Rate Hearing Before Commerce Commission—Sees Opening of Way Toward Better Conditions

Leonard Way, former traffic commissioner of the Idaho public utilities commission, reached Twin Falls yesterday from Washington, D. C., where he presented to the interstate commerce commission the hay and grain rate situation as it affects Idaho. The hearing, which has been in progress for more than two weeks, was attended by representatives of practically all states west of the Mississippi river.

"The Idaho situation," Mr. Way said, "is one that is peculiar to itself, that is, it is more aggravated than that of any other state. Idaho is on the peak of its hay production. During the past few years Idaho has received the lowest price of any state for its hay. The amount received by the farmer is the price at the primary market, and the freight rate and the balance to the grower is 75 cent per ton. If the price at Chicago is \$1.25 per bushel and the freight rate and balance amounts to 40 cents, the balance to the grower is 75 cent per ton. The states that have a lower rate than Idaho receive more for their grain and are able to sell all of their grain before a demand is made on the elevator, so that the rate not only does not

Jerome District Rancher Reports Big Wheat Yield

H. S. Green Gets 219 1-2 Bushels of Grain from 2.17 Acres on Northside
Yield of 219 1/2 bushels of wheat from a measured plot of 2.17 acres on the H. S. Green farm two and one-half miles east of Jerome, was reported in telephone advices received here today. The plot was last year the site of a sheep corral. Green is engaged in threshing the wheat crop from 500 acres.

BIG YIELDS OF GRAIN FOLLOW BEET CROPPING

Better Than 100 Bushels Oats and 65 Bushels Wheat Reported by Jerome Farm Operators
The Settlers Reclaiming and Operating company report some splendid yields of grain on its land a short distance east of Jerome, says the North Side News. P. L. Dodd, now local manager of the Farmers' Grain and Milling company, marketed the farm the past season and supervised the raising of the crops.

Twenty acres of oats returned a yield of better than 100 bushels to the acre. These oats are a new variety recently introduced here, known as the Idaho. Twenty acres of what returned an average yield of 65 bushels per acre. The first crops following the beets. The beets followed several years cropping to alfalfa. It is believed the alfalfa crop equally as good as the crop this year before it will be necessary to seed it down again.

ENTOMOLOGIST SCHEMES TO CONDUCT BUG CLINIC

Prearranged Invited by Dr. H. Smith to Attend Pest Control Session
Attention of all orchardists is directed by the farm bureau officials to the demonstrations to be conducted next Wednesday afternoon at 1:30 at the laboratory of Ralph H. Smith, entomologist for the experiment station of the University of Idaho, on the methods of control of the codling moth, or apple worm. Control of this pest is of the greatest commercial importance to orchardists and much time has been given to the study of the best methods of its eradication.

The party will gather at the farm bureau office, and from there repair to the laboratory to observe the methods. It is believed to be the most effective one yet devised for the control of the insect.

Warmer Weather Due Right Soon, Prediction Says

UPON the heels of storm-visiting the surrounding hill sections, the tail-end of which cleared here briefly, temperatures in the past 24 hours suffered something of a slump. An uplift movement is due, however, according to the man of mystery at the Boise clock. "A rough fair and warmer," is the announcement, and Sunday is included in the prognosis. "Yesterday's high point was 75, with 45 for low last night. Precipitation amounted to a fair-sized sprinkle.
