ARBUCKLE'S SPOUSE ASKS SQUARE DEAL

Expresses Belief in Confidence of Indicted Film Comedian and Says Truth Will Exonerate His Good Name

GRAND JURY TO REVIEW ALL EVIDENCE IN CASE

Missing Physician Tells Authorities He Will Return to San Francisco; Another Member of Party on Way East

SAN FRANCISCO, Cal., (AP)—Mrs. Beatrice C. (Bessie) Arbutnot (Mrs. Durfee) arrived in San Francisco early today from New York to assist in the defense of her actor-husband against murder charges preferred against him for the death of Virginia Rappe, film actress. Miss Rappe is declared to have died following injuries incurred at a party staged in Arbutnot's suite at the Hotel St. Francis here early in September.

Charles Brennan and Milton Coleman, attorneys for the film star, met Mrs. Arbutnot at Sacramento and detailed her to all interviews. Mrs. Arbutnot is being interviewed by the grand jury in which she asked the people of San Francisco to be "fair" with her husband and to give him a "square deal." "I know and his friends know that he is innocent," the statement said.

The statement of the comedian's wife declared that only one side of the case had been made known to the public and expressed belief that "when the entire story had been unfolded and his good name thoroughly cleared and that he will again take his place in the hearts of the American people."

Remitted by Trouble. Mrs. Arbutnot was accompanied by her mother, Mrs. Flora Durfee, of Los Angeles, who has been in the city for five years, according to friends, she residing in New York and her husband living in Los Angeles.

Physician to Return. Dr. Arthur Beardslee, house physician at the Hotel St. Francis, and one of the witnesses in the case of Virginia Rappe, telegraphed District Attorney Brady from Bridgeport, Conn. today that he would be in San Francisco tomorrow. Dr. Beardslee told the city after the party in the St. Francis in which Arbutnot is charged with having attacked and fatally injured Miss Rappe. The physician was located after a police search had been ordered.

The grand jury is to meet tonight to review all of the evidence and information at hand on the Arbutnot case. Milton U'Ren, assistant district attorney said.

Witness Gets Away. Lowell Sherman, an actor, who was present at the party, has been subpoenaed to appear before the grand jury today. U'Ren announced Sherman is reported to be on route to Chicago and there is no way by which he can be brought back, the district attorney said.

The district attorney sent for Robert H. McCormack, assistant United States attorney general in charge of prosecution, to present the case against that actor who was brought to court at the party in the St. Francis hotel. McCormack expects to present all evidence to the federal grand jury tomorrow night.

Food Prices Lead in Price Advance Over July Levels

Labor Department Figures Show Average Increase of 2.75 Per Cent

WASHINGTON, (AP)—Whole sale prices increased 2.75 per cent in August over July levels, wholesale food prices leading in the advance with an increase of 3.35 per cent, according to figures made public today by the department of labor.

Farm products, including many food articles, were 2.5 per cent higher in August than in July, the statement said, adding that there were decided advances in butter, cheese, milk, eggs, rice, meats, sugars, fruits and potatoes. Meat animals, including cattle and hogs also advanced in August. In all other commodity groups, except clothing, which was unchanged, the statement said, there were decreases in prices.

MODERN CARAVAN AT IDAHO FALLS

Banquets, Dances and Indian Powwows Introduce New Yorkers to West

IDAHO FALLS, Idaho, (AP)—After having been formally welcomed to the west in Yellowstone National park by Secretary of the Interior Albert B. Fall and Governor C. W. Thyges, a caravan of 100 modern caravans, traveling from Brooklyn, N. Y., to settle on land near Buhl, Idaho, reached here last night on the last leg of their journey.

Hundreds of automobiles headed by a band of musicians and a group of young men, introduced them into the city. Banquets, dances and Indian powwows have introduced them into the west.

CONDITION OF PATIENT REPORTED AS CRITICAL

Elmer Olson, Secretary Employees' Association, Suffers Paralytic Stroke

Condition of Elmer Olson, secretary of the Employees' Association, is today reported critical. The patient, who has been ailing some months, yesterday suffered a stroke of paralysis, which has affected his entire left side. He is reported to have been in failing health for some years, having come to Idaho in 1910 from Chicago to seek physical betterment. For a time he displayed symptoms of impotency but during the past winter suffered a stroke and has been steadily sinking since the latter part of the spring. He was compelled to give up active office work three months ago. He has been prominent as a vocal musician, having been organist with the Temple church, and with the Presbyterian mixed quartet.

Mrs. Olson, who is at his home on Kinross street, has been in failing health for some years, having come to Idaho in 1910 from Chicago to seek physical betterment. For a time he displayed symptoms of impotency but during the past winter suffered a stroke and has been steadily sinking since the latter part of the spring. He was compelled to give up active office work three months ago. He has been prominent as a vocal musician, having been organist with the Temple church, and with the Presbyterian mixed quartet.

FLASHES FROM THE WIRE

FAIRMONT, Va., (AP)—Matthew Kersychich, aged 20, of Bagwood, died in a hospital here yesterday from injuries received in a football game between two semi-professional teams there.

TOKIO, (AP)—The battleship Mikasa, one of the older units of the Japanese fleet, has been badly damaged by striking a ledge of rocks while en route to Vladivostok from the northern Siberian coast. She was built in 1901, and during the Russian war was sunk. It was raised and rebuilt in 1906.

NEW YORK, (AP)—W. E. D. Stokes, wealthy realty owner, today laid his suit for divorce from Mrs. Helen Elwood Stokes, formerly of Denver, Colo., instead, Supreme Court Justice Finch granted Mrs. Stokes a decree of separation and permitted her to retain custody of the children over whom she has had charge as the result of a decision of the probate court in Denver.

CHICAGO, (AP)—The American Association of the Baking Industry which meets here tomorrow will make plans to maintain its own national inspection system and inaugurate a "bakery shop" move in bakeries throughout the country. This announcement was made today by C. W. Tower, of Pueblo, Colo., president of the organization.

First Woman Minister is Heard at Harvard

CAMBRIDGE, Mass., (AP)—Dr. Ruth Morse Mann, minister of the Third Unitarian church in Chicago, the first woman to receive a degree from the University of Jena in Germany, has attained a new distinction. When she appeared recently in the pulpit of Appleton chapel at Harvard University to preach to the students of the summer school she broke Harvard tradition. Never in the institution's history has a woman conducted chapel services.

JAPANESE ASK FOR EXPANSION OF DISCUSSION

Opposition Party Leader Says Nippon Should Insist Upon Consideration of All Pacific Questions by Conference

PROPOSES OPEN DOOR IN ALL PACIFIC COUNTRIES

Withdrawal of Fortifications and Neutralization of Panama Canal Figure in Propaganda of National Body

TOKIO, (AP)—Japan should insist on discussing at the Washington disarmament conference not only questions regarding the Far East, but also matters affecting the American coast, including Mexico, and also Australia, says Viscount Kato, president of the Keio-Kai, an opposition party, in a statement issued here.

The withdrawal of fortifications from all islands in the Pacific, the neutralization of the Panama canal, the removal of limitations on coasting trade throughout the world, inauguration of the "open door" in all countries touching the Pacific, and the settlement of racial discriminations on the principle of the co-existence of mankind and the spirit of justice and humanity should be included in Japan's proposals, in the opinion of the National Policy Investigation association. This body was organized to educate the public concerning the conference.

Revive Patriotic Organization

Seven professors here leaders of the Association, and before the war will organize the same men, formed a similar organization for furthering the spirit of patriotism.

OPPOSITION PARTY DEMANDS 21 DEMANDS UPON CHINA

TOKIO, (AP)—Japan should adhere to the 21 demands she sent to China and should insist upon acceptance in all other engagements of that country, says a resolution passed by the political committee of the Keio Kai, or opposition party, and member of the Okuma cabinet which concluded the treaty embodying the 21 demands, in a statement issued here today. The resolution, which could have serious political implications, was adopted in a meeting of the party held in Tokyo.

China Unavoidable

An ultimatum to China is unavoidable, the statement declares, "because China has cancelled matters previously agreed to. Despite the denunciation of the treaty against the wishes of the majority of the people in the Far East."

Japan is principal is ready for a complete examination of all affairs connected with the conference in the completion regarding the Associated Press. Responsible Japanese declare that all trade and other engagements of the conference will be made public. The engagements affect the interests of other powers in China. Japan is ready to meet the conference in Tokyo.

League Turns Armament Problem Over to Washington Conference

Commission in Report, Intimates Superiority of American Proposal for Dealing With Question

STATE DEPARTMENT GIVES ASSURANCE OF SAFEGUARD FOR RUSSIAN CLAIMS

GENEVA, Switzerland, (AP)—The final report of the league of nations commission on disarmament, given out here today, intimates that the Washington conference, in the commission's view, will be better able to deal with naval disarmament, since this may best be accomplished through common agreement among the great powers.

SALES TAX LEFT OUT OF MEASURE

Senate Committee Omits the Smoot's Proposal for Manufacturers' Levy

WASHINGTON, D. C., (AP)—The sales tax proposal for a manufacturer's tax is not included in the revised house tax bill as formally approved today by the senate finance committee.

Senator Smoot reserved the right to present the plan in the senate. "Accepts Cramer's Suggestion."

While accepting the principle of Senator Cramer's amendment to impose a tax of 50 cents a gallon on all alcoholic liquors, the committee decided to eliminate from the bill the provision for a tax on other liquors. The committee did not include the tax in the bill to be presented to the senate. Senator Smoot reserved the right to present the plan in the senate.

ANNOUNCES DATE FOR CONFERENCE

Secretary Hoover Outlines Arrangements for National Unemployment, Meet

WASHINGTON, D. C., (AP)—The national unemployment conference will meet here next Monday at 10 o'clock, Secretary Hoover announced today. The list of delegates, which has been previously agreed to, will be made public tonight. The conference, Secretary Hoover said, would consist of about 30 men selected from those who would be interested in solving the nation's unemployment problem and a number of time represent geographically the various sections of the country. The conference on Monday will organize itself into a number of committees to handle the various matters to be considered. Sessions of the full conference will be held on Tuesday and Wednesday.

WHITE IS LOW BIDDER ON BUILDING CONTRACT

Twin Falls Contractor Makes Bottom Offer to County Commissioners

In proposals submitted for the construction of a fireproof building to house a printing plant at the county hospital, Ernest White of Twin Falls was low bidder. His lowest bid for the building, which is to be built on the site of the old county hospital, was \$8950 and \$10,000.

SALT LAKE MUSICIANS GUESTS OF KIWIANS

Members of the Salt Lake open guitar club will have lately fulfilled engagements here and at Piler, were guests today of the Kiwians club at its regular weekly luncheon meeting, and entertained the club with a number of popular and classical selections.

R. P. Meredith, pastor of the Methodist Episcopal church at Weiler, who was attending the conference here last month, also was a guest of the club, and responded with pertinent remarks to an invitation to address the Kiwians.

A detailed report on the district meeting of Kiwians clubs of Utah and Idaho, held last week at Boise, was given by I. L. Masters, who with E. G. Oster and others, were present and represented the local organization at this meeting.

RAILMEN DELAY STRIKE ORDER FOR NEW RULES

Action on Vote Against General Wage Reduction is Held Up Pending Decision of Federal Labor Board

CHICAGO, (AP)—Railroad employees throughout the country today received the official announcement that railroad shopmen belonging to the six federated shop crafts unions have voted to strike against the general railroad wage reduction of July 1st but will defer action pending promulgation of working rules now pending before the United States labor board.

Another vote will be taken on acceptance or rejection of the rules. The announcement was made yesterday by R. M. Jewell, head of the shop crafts organization, at a mass meeting of Chicago shop workers.

The unions seek to retain the present national agreement which the railroad labor board was also criticized.

GERMAN RADICALS HALT CELEBRATION OF BATTLE

Force Musicians to Accompany Them when Destroying ex-Kaiser's Bust

BERLIN, (AP)—celebration at Wilmersdorf of the battle of Tannenberg, following the anniversary of that engagement fought in East Prussia in 1914, was broken up yesterday by so-called radical elements who overpowered the nationalists and compelled their band to play revolutionary airs.

The radicals also forced the band to accompany them. There, where a bust of Emperor William and Marshal banners which they had captured were burned in the market place.

MINERS EXPECT LEADERS TO RESIST LOWER WAGES

INDIANAPOLIS, Ind., (AP)—Delegates arriving today for the biennial convention of the United Mine Workers of America, said they expect the international officers were expected to recommend opposition to any more wage reductions when the present convention convenes in the city on March 21, next.

FEDERATED RURAL CLUBS TO AID NEAR EAST WORK

Cooperation Guaranteed in Getting Donations of Grain to Help Europeans

At the meeting of the directors of the Federated Rural clubs held in the park Saturday afternoon, L. G. Kirkman and the Rev. Charles Cook appeared before the body with the request for their cooperation in making the collection of the county allotment of 2,500 bushels of wheat for the Near East relief. The club representatives agreed to each furnish their own territory.

THE SPIRIT THAT BUILDS RAILROADS!

Twain Falls, Sept. 17, 1921. Publicity Committee, Railroad Drive, Twain Falls, Idaho.

The writer is the owner of 63 acres of land and I gladly endorse the assessment of \$250 per acre to create the railroad route to the south. It is my belief that it is necessary to build a double track line to the south of the railroad. (Signed) D. H. BARKE.

I believe the construction of a railroad connecting this district with two main line railroads at Wells, Nev., will be the salvation of our country. I will gladly double my quota if necessary. (Signed) F. P. HOOD, Publicity Committee, Railroad Drive, Twain Falls, Idaho.

# SIMS GIVES HIS VIEWS ON TRADE FLEET FOR U. S.

### Explains That He Said Development of Merchant Marine Would Be Difficult, but Did Not Advise Against It

WASHINGTON, D. C. (AP)—Declaring that Senator Carter Glass of Virginia was mistaken in quoting him as saying in a conversation in London that the United States ought not to undertake the development of a merchant marine of its own, Senator William B. Sims, in a letter to the National Merchant Marine Association, made public here today, explained that what he did say was that "it is a present restriction of our present shipping laws it would be very difficult for our country to develop a merchant marine commensurate with our needs."

Replies to Inquiry.  
The statement was in reply to a letter asking if the admiral had been correctly quoted by the Virginia newspaper in a recent speech in the senate. In his private speech, Senator Glass was quoted as saying:  
"When I was abroad in 1918, Admiral Sims, much to my amusement, told me in London that he did not think that the United States ought to undertake the development of a merchant marine of its own. He thought that kind of activity should be left to Great Britain, saying that the British were our kinsmen, sons of our home and blood of our blood, and might be relied on to come to our defense in case of war; that they were natural enemies, and that the United States should be on the other side; he added, it would require a great subsidy to conduct a merchant marine, and the American people were inherently opposed to subsidies."

Involves Navy's Value.  
"I am not surprised that Senator Glass should be quoted as he understood me to state in London that the United States ought to undertake the development of a merchant marine of its own," the admiral wrote in reply. "Just how far this is from what I ever have or could have thought of the merchant marine, you may judge from the fact that the only time I talked of a fleet would be very little value as a defense of the United States and our possessions if it were not for the merchant marine."

# FIRE CAUSES LOSS OF \$350,000,000 ANNUALLY

### National Protective Association Collects Figures on Damage from Flames

NEW YORK, (AP)—October 9 will be the fiftieth anniversary of the date Mrs. O'Leary's cow kicked over the lantern causing the great Chicago fire, and the National Fire Protective Association has designated that day as International Fire Prevention day.  
Since 1871 annual fire losses have been increasing until there is now an average annual monetary loss of \$350,000,000 and an estimated loss of 15,000 lives yearly, according to the association.  
The association is arranging for a nationwide observance of the day to bring to the attention of the people that the fire loss is everybody's loss and everybody's responsibility and that the great majority of fires are preventable through exercise of ordinary carefulness.

### RICH COPPER DISCOVERY IS MADE IN SCOTLAND

LONDON, (AP)—An important and rich discovery of copper has been made in Scotland. The lodes thus far proved give a high percentage and already have a million tons of copper ore are in sight.  
Experts and engineers are laying down mining plants and it is expected mining will commence next month.

# RACES AND ROUNDUP FEATURE CASSIA FAIR

### Sports Program of Worth Has Been Prepared for Annual Fall Carnival

BURLEY, Idaho (Special).—Beginning Tuesday, September 20, and continuing three days, Cassia county will hold an annual fair and roundup in this place. The carnival closes on Thursday night.

A sports program of importance and interest has been prepared for this occasion, with motorcycle races interspersed with regular rodeo contests. The committee in charge of the sports is composed of Levi Savage, chairman; A. J. Jex, Joe McHard and Joe Schuchard. There will also be run under rules of the Intermountain Fair and Racing association.

The products exposition is one of the best ever gathered for show purposes in this section of southern Idaho, and bids fair to establish a new record for Cassia county. Plans have been made for the entertainment of big crowds every night, and prizes will be awarded for dairy cattle, beef cattle, horses and mules, hogs, sheep, poultry and rabbits, flocks of chickens, sugar beets, peaches, grain, grasses and seeds, fruits and vegetables, bees and honey, household activities, including the making of bread, cakes, cookies, candy and ribbons, quilting, making of women's and girl's clothing, etc.

Prizes also will be awarded to the boys and girls making the best records in their respective club activities and school work.

# ENGINEERS WOULD BRING NATIONS INTO CONTACT

### Delegates from France, England and America to Meet in New York Session

NEW YORK, (AP)—Delegates from various engineering societies of England, France and America are to meet here next month to establish a new international contact which shall promote, amongst others the English speaking countries, advance the science of engineering and discuss various constructive lines for the establishment of international peace.

This movement began during the war, when the engineering societies of the world linked their activities behind the lines. Their program now, officials of engineering societies explain, is to open such international channels as rapidly as possible. The Endowment for International Peace, the Sulgrave Institution and the English Speaking union.

# HANGMAN OF HUNGARY DEFENDS HIS CALLING

### Denounces National Assembly Members who Make Snoring References to His Vocation

BUDAPEST, (AP)—The hangman of Hungary has risen to indignant defense of his calling and denounced those who cast stones upon it. He was prompted by their snoring references made in the Hungarian National assembly. Friends of former Emperor Charles and the anti-Hapsburgs are always quarreling about their and in some cases have abolished their office. "The hangman is your friend," he said.  
Michael Ball, the official hangman, has resented such slurs.  
"My profession," he writes, to the president of the national assembly, "is as honorable and useful as that of the judge, lawyer, minister or king. Why should the old superstition hold in modern times that the hangman's profession is disgraceful, abominable and loathsome? My friends are all present gentlemen and my member of parliament can consider it only flattery when he called my friend."

Classified advertising is the cheapest thing you can buy—measured by the profits it may bring you.

# "TURN OF THE ROAD IN SIGHT" SAYS DIRECTOR OF WAR FINANCE CORPORATION

The turn of the road in American business is in sight, says Eugene Meyer, Jr., Managing Director of the War Finance Corporation, the organization that has been authorized by Congress to make loans, not only to promote our export trade but also to facilitate the orderly marketing of our staple agricultural products in this country.

"One of the difficulties in the present situation," says Mr. Meyer, "is the fact that retailers, wholesalers and manufacturers are now conducting their business on a cash basis, each carrying the lowest possible stock of goods. The result has been a heavy back upon the producers and the country banks that finance them the raw materials which normally are carried by mills, wholesalers, jobbers and retailers. Growers of wheat, cotton and other producers, unable to market their products as rapidly as formerly have been compelled to hold them for a longer period than usual."

To meet the situation, and also the situation brought about by the failure of foreign merchants and manufacturers to purchase their requirements for the year in the period immediately following the harvesting of our crops, as in normal times they would be compelled to do, it became necessary to provide additional financing for carrying the products until they could be marketed in an orderly way.

Advises to Producers.  
"The War Finance Corporation has been able to give substantial aid by making advances to various associations of producers of cotton, wheat and other commodities as well as to banking institutions and exporters, and it will be in position, just enacted by Congress, to render even more effective assistance."

"If the business men of America would resume the carrying of normal stocks, the load forced back upon the producers would be more generally distributed, resulting in a freer circulation of business and greater buying power on the part of our agricultural population."  
"Undue loss of confidence in just as detrimental as reckless overconfidence, and the present price

# ADMINISTRATIVE ECONOMY URGED

### President Upham Addresses University Faculty on Questions of Importance

MOSCOW, Idaho (Special).—Urging the most rich economy in administration, Dr. A. H. Upham, president of the University of Idaho, Saturday, addressed the first faculty meeting of the new collegiate year. President Upham told of the rapid growth of the institution, announced faculty committee appointments, and discussed undergraduate scholarship and scholarship rulings.

The first faculty meeting was held Saturday at 10 a. m. All members of the teaching and experimental staff were present. Families of the several schools and colleges met separately for organization. In the afternoon, meetings of newly appointed standing committees were held.

Opening exercises of the academic year will be held in the university auditorium Wednesday morning. The ceremony will be formal with the faculty in full academic dress. Governor Davis will be one of the principal speakers and Congressman Burton L. French will be present and participate in the program. The honorary degree of a doctor of laws will be conferred upon Representative French, a graduate of the university of the class of 1901.

Idaho's collegiate year will open on Wednesday with a conditionally increased enrollment. Two days, Monday and Tuesday, will be devoted to registration and classes start Wednesday.

"It is our earnest desire that all divisions of the university may be administered during the coming year with the most rigid economy consistent with the service we owe our students and the public," said Doctor Upham. "For a number of us this may mean a heavier load than we are accustomed to carry, the curtailing of some favorite advanced courses or the postponement of a cherished plan of research. These same things are taking place all over the country, and are a part of our responsibility as public servants."

# COLLEGE BORROWS BABY FOR HOMEMAKER COURSE

### Instructors in Home Economics at Oklahoma Institution Provide Teaching Factor

STILLWATER, Okla. (AP)—The homemakers' cottage at the Oklahoma A. and M. college here today is complete, for it has a baby—the one essential which is years before instructors in home economics have complained was lacking.

David, the college baby, was adopted this year, or rather borrowed, from the Oklahoma Children's home at Oklahoma City. He is to be kept for the school year.

Plans are under way to make this boy, whose mother died when he was 10 days old, a month after she was deserted by the father, the most affectionately raised child in the state.

Half a dozen senior girls for six weeks at a stretch will make the home makers' cottage their own, cook the meals, make the beds, prepare David's diet, make his clothes—in short, play "foster mother" to him. Meanwhile an experienced matron will keep a practiced eye on the cottage and David.

# CHICAGO POLICE UNCOVER CACHE OF DYNAMITERS

### Search of Dwelling of Five Men Caught Bombing Shoe Shop Results in Finding of Explosives and Bomb Plant

CHICAGO, (AP)—Fourteen hundred sticks of dynamite, three inches in diameter and 10 inches long and 100 sticks of T. N. W. were seized today by police following the capture of five dynamiters in the act of bombing a shoe repair shop.

**One Man tops Bullet.**  
One of the prisoners was shot in the side by police, who had surrounded the shop for ten hours following a mysterious tip that it was to be bombed.

Richard Burke, 23 years old, who was wounded and may die, was carrying the bomb when the five approached the shoe shop, after parking a stolen automobile two blocks away. Forty detective hidden in neighboring buildings surrounded the bombers and ordered them to surrender. Instead, Burke hurled the bomb and the explosion tore the entire front out of the store, threw the crowd back and killed his family, from their beds and broke windows for blocks around.

**Sells to Labor Unions.**  
Burke was shot in the side by Michael Hughes, chief of detectives, and the other men surrendered. Burke confessed, according to the police, that he supplied bombs to labor unions as well as men to throw them.

Search of a south side house where the prisoners lived resulted in finding the explosives and bomb-making plant.

# AUSTRALIA IS URGED TO LOWER IMMIGRATION BAR

### Student Christian Movement Urges Relaxing of Oriental Exclusion Policy

SYDNEY, N. S. W., (AP)—Relaxing of the policy of a white Australia was favored by several speakers at a conference of the Australian Student Christian Movement recently in Melbourne.

Dr. Sydney Strong of Seattle, Wash., said a policy of Asiatic exclusion would tend to make Australia provincial. He declared that allowing entrance to Australia on a numerical percentage basis of the great races of colored people surrounding her would cause no economic disturbance. He urged that "three races be admitted—white, yellow and black."

Samuel Mager, former member of the Commonwealth parliament, said the demand for a white Australia was born with the commonwealth. Economic reasons prompted it, he said, but it was "directly contrary" to the teachings of Jesus Christ.

The idea that any sections of the human race were to be permanently segregated could never be entertained, D. K. Picken, master of Queen's college, told the delegates.

# SUPPORT IS PROMISED IN WHEAT RELIEF DRIVE

### Chairman Fowler, of Near East Relief Operations, is Confident

Miss Z. Fay Fowler is in Buhl for a few days, going there on Saturday afternoon to complete the organization of the part of the county for the Near East relief work. Miss Fowler states that the allotment for this county is 2500 bushels of wheat, and for Twin Falls 500 bushels.

The date for shipment of donations has been set at October 15, and County Chairman L. J. Kirkman will work with this date in view. The completed list of local appointees will be announced in a few days. The Rev. Charles E. Romb will be in charge in Twin Falls, A. D. Lee in Murtaugh, the Rev. Arthur Evans in Buhl and Mrs. H. H. Schindler in Filer.

"We are receiving the most enthusiastic cooperation from elevators, mills and transportation companies," said Miss Fowler, before leaving for Buhl tonight, and there is no doubt that the entire allotment will be forthcoming at the stated date."

# COLONEL GEORGE HAM, THE MARK TWAIN OF CANADA

"HAVE SOMETHING THAT WILL KILL ANY INDIAN."

Fifteen years ago if any one had taken a vote as to who was the best known American, the answer would probably have been "Mark Twain. Today if any one were to take a vote as to who is the best known Canadian, the answer would probably be "Colonel George Ham," for the same reason, namely, that each in his time has been great of laughter maker of his native country.

In his ordinary conversation he has a ripple of quaint phrase an amusing story, that make him a forgettable even to chance acquaintances. Remarks come to him like second nature. Sir Wilfrid Laurier, Canada's most famous Premier, thought to pay a joke once upon Colonel Ham. "George," he said, "the Cabinet in Council has decided to promote you Admiral in Chief of the Canadian Navy."

"Thank you," said Colonel Ham, "but if it's all the same to you I'd rather be watchman at the Mint for one night." Mark Twain had the advantage in securing world-wide recognition as a humorist through his books, for the Canadian has hitherto reached his audiences only by word of mouth. His book, Colonel Ham has been persuaded to publish a book—"Reminiscences of a Raconteur"—sixty years of amusing recollections. In this volume he recalls many of the stories that have made him famous, weaving these into a record of Canadian life of the last sixty years, which will be invaluable to the future historian. Col. Ham was the first Canadian war correspondent, seeing service in both the Louis Riel Rebellion. He was editor of the Manitoba Free Press and Van Horne's commandant

him for the Canadian Pacific Railway. In his racy account of the wars with the half-breeds and Indians in the Northwest, he tells how as a reporter he visited Red Crow, Chief of the Bloods, for information about the intended uprising of the Indians who were charged with the supposed slaughter of all the whites in the Northwest. "And if you believe this," said Red Crow, "how are you come without a gun to defend yourself?" Col. Ham confidently replied, putting his hand over his upper vest pocket; "Oh, I have something here that will kill any Indian I ever meet." Whereupon he produced a lead pencil. The whole tribe laughed heartily when this was interpreted to them, and Col. Ham was henceforth known to the Bloods as the "Man With a Lead Pencil."

ity of disclosing individual operations are a number having products in excess of some for which figures are shown in the table. Of these industries the most important are condensed milk, lead smelting and beet sugar.

# IDAHO'S FOREST PRODUCTS MORE THAN HALF VALUE OF STATE'S MANUFACTURED ARTICLES

### Census Bureau Report Shows Lumber as Ranking First in the Year 1919—Flour Mill Output Stands Second—Interesting Resume of Industries Contained in General Statement

The lumber industry is of the first importance in Idaho, the value of lumber and timber products forming 37.4 per cent of the total value of all manufactured products for the state in 1919, according to the report of the census bureau on manufacturing in this state as compiled from the last census, copies of which report have just been received here.

The relative importance of Idaho as a lumber producing state is increasing, the report shows. In 1919 it ranked sixteenth among the states in the production of this commodity, in 1914 twelfth, and in 1909 twenty-first. In 1919, 33.3 per cent of the total lumber cut was from western yellow pine, 3.6 per cent from Idaho white pine, and 18.7 per cent from larch. Other important woods cut were white fir Douglas fir, cedar and spruce.

Flour-mill and gristmill products rank second in value, forming 16.3 per cent of the total. Wheat flour is the leading product, forming 82 per cent of the total value of products for the industry in 1919, as compared with 66.6 per cent in 1914. During the five-year period there was an increase in wheat flour of 531,563 barrels, or 92.9 per cent, in quantity, and \$2,815,774, or 583.7 per cent, in value. Bran and middlings during this period increased 14,118 tons, or 54.7 per cent, in quantity, and \$895,438, or 195.4 per cent, in value.

Other Industries  
Other industries rank 4th percentage

and value of products as follows: (a) and general shop construction and repairs by steam railroad companies, 5.5 per cent, \$4,002,000; battery, 4.5 per cent, \$3,064,000; printing and publishing, newspapers and periodicals, 2.3 per cent, \$1,554,000; slaughtering and meat packing, 2.2 per cent, \$1,791,000; automobile repairing, 1.8 per cent, \$1,405,000; bread and other bakery products, 1.7 per cent, \$1,311,000; confectionery and ice cream, 1 per cent, \$778,000; canning and preserving, fruits and vegetables, 3 per cent, \$728,000; cheese, 7 per cent, \$728,000; lumber, planing mill products, not including planing mill construction, sawmills, 7 per cent, \$555,000; printing and publishing, book and job, 4 per cent, \$329,000; mineral and soda waters, 3 per cent, \$320,000; brick, 4 per cent, \$303,000; all other industries 23.1 per cent, \$18,637,000. A note regarding the last division, all other industries, says: "Among the industries for which statistics cannot be shown separately without the possibility of disclosing individual operations are a number having products in excess of some for which figures are shown in the table. Of these industries the most important are condensed milk, lead smelting and beet sugar."

# FAIR GROUNDS GRANDSTAND IS STORM WRECKED

## Big Structure Demolished in Gale's Furious Onslaught; Injury Widespread

Damage estimated to run into thousands of dollars resulted from this morning's windstorm in and about the county, especially on the west end, where injury to fruit on trees, stacked grain, seed in the fields, trees, power and communication lines and buildings have suffered considerably.

Makes Matchwood  
The greatest single damage was wrought at the county fair grounds in Ellet according to report of H. M. Mirek, managing secretary of the fair, told of the total destruction of the grandstand. This structure was completely overturned when the wind reached its highest velocity shortly before noon. The wind came directly from the west and threw vicious waves under the stand, which was turned over on the race track where it fell into splinters.

The original fair grandstand was erected five years ago and several additions have been made to it since. Its cost is estimated at \$50,000. It was of wood construction throughout.

From various sections of the county reports reach Twin Falls of injury to power and lines of communication, as well as to standing crops. Apples already harvested. Trees of all sorts have been blown down and in some places light structures have been demolished.

From Other Points  
Reports from the Kimberly and Hanson districts indicate the greatest loss to fruit trees and fruit, while Ellet reports heavy loss to grain, as well as fruit, which was seriously lashed by the storm. Hollister reports tell of a wind of gale proportions in that section, while Buhl reports similar damage and loss. All the reporting districts tell of interrupted communication, and of prostrate telephone and power line poles. In all places power and illumination service was temporarily disabled.

Officials of the Idaho Power company here announce no great amount of damage done to their circuits, although service was interrupted when the storm raged fiercest. One circuit was out some time after the storm.

So many high school graduates from southern Idaho have taken advantage of the new organization of the college work at the Idaho Technical Institute at Pocatello, that the enrollment in that department of the institute has jumped three hundred and sixty-two persons in two years, to 1,700. Thirty-five to one hundred and twenty-seven pupils, the advantage of being taught by heads of departments while a Freshman or Sophomore appeals strongly.

### Today's Markets

#### WHEAT PRICE RISES ON WET WEATHER REPORTS

Profit Taking Falls are Heavy but Well Absorbed in Upward Swing of the Grain Market

CHICAGO, (AP)—Wheat took an upward swing in price today helped by official announcement that exports of wheat and flour during August totaled 65,000,000 bushels. Unofficial estimates of the government estimate 65,000,000 bushels. It was the largest amount of wheat of the Argentine exportable surplus has been reduced from 40,000,000 bushels to 20,000,000 bushels. Opening quotations, which ranged from unchanged to 1-3/4c higher, with December \$1.25 to \$1.27 1/2c, followed by a little reaction and then by upticks higher than before.

Wet weather northwest was an additional stimulus. Profit taking subsided although heavy were well absorbed. The market closed firm, 1-3/4 to 2-1/4c higher, with December \$1.27 3/4 to \$1.29 1/2c, and May \$1.31 1/2 to \$1.32c.

Corn and oats were firmer with wheat. Corn after opening unchanged to 1-8c lower, including December at \$2 3/8 to \$2 1/2c, declined a trifle more and then set general gains. Selling increased later but downturns failed to last. The close was firm, a shade to 1-2c net higher, with December \$2 7/8 to \$2 7/8 to 6c.

Oats started 1-4c off to 1-3c advance, December \$1.14 to \$1.15c, and then hardened all around.

Higher quotations on hogs tended to strengthen provisions.

Cash Quotations

CHICAGO, (AP)—Wheat No. 3 red \$1.25 1-3; No. 2 hard \$1.35 to 1.25 1-3.

# BUIH SCHOOLS REOPENED FOR YEAR'S STUDY

### Thirty Teachers Are in Charge of Academic Instruction at West End Town

School bells rang and classes were opened in all academic departments of district No. 3 Buih, this morning. Thirty teachers are in charge.

"The outlook is most gratifying for a favorable school year, and I feel that we shall be able to pull through at the end of the year with all credits required," said J. Henry Allen, superintendent of the Buih schools, this morning.

Superintendent Allen, while admitting enrollment today is below the average, stated that the registration at the end of the week will probably compare favorably with former years, allowing for the fact that there have been many removals from Buih in the past month on account of the climatic conditions existing in the Buih school district.

**Election Leads Appetite.**

"The gratifying results of last week's election has banished all doubt as to the holding of schools, and has lent new impetus to their academic instruction. I am sure many of those who moved away to get advantage of schools in other places, will return in due time," Superintendent Allen stated.

Speaking of the departments and their heads Superintendent Allen says the school has been organized on the three units plan. The first six grades constitute the elementary school. The seventh, eighth and ninth grades constitute the junior high school and the tenth, eleventh and twelfth grades constitute the senior high school. This year the Broadway will not be used. Miss Olyda A. Chapman will be principal of the H. H. Buih school and H. W. Barry will be principal of the junior high school.

**Thirty Teachers Signed.**

About 30 teachers have been signed for the year, the superintendent explains. This is below the number of teachers last year at this time, but he is believed to be sufficient for the needs in 1922, or at least for the early part of the year. It is noted for more instruction, as there will be employed. Three local teachers have been placed on the emergency list and will be called upon as required. Last year's faculty list numbered 37.

Several departments have been eliminated from the curriculum of the Buih schools, but these will be restored in some form essential to the best interests of the school.

Last year's total enrollment in the Buih schools was 1300 pupils. Of these were in the grades, with 550 in the high school. Superintendent Allen this morning declined to hazard a guess on the total enrollment for the coming year.

## ADEQUATE PRICES FOR AGRICULTURAL PRODUCTS POSSIBLE ONLY THROUGH RAILROAD DEVELOPMENT

### Figures Prove as Nothing Else Can the Dollar and Cents Difference Between Results in Marketing Wreath by Railroads—North and South Line Will Add to Net Profits of Every Crop

By LEONARD WAY, Manager Southern Idaho Traffic Association

Do you know that during the last ten years the people of the state of Idaho have received the lowest price of any state in the union for their wheat, and do you know that they have received the third lowest price for their potatoes? Do you know that on this tract alone there are thousands upon thousands of tons of hay that cannot be sold at any price?

Why? A glance at the map will tell you. Idaho is located in the heart of a great producing country, surrounded on all sides by states that produce the same class of products and our closest market is the Missouri river. Long distances for transportation mean high rates.

**Crop Products Exorbitant**

The state of Idaho will produce this year in the neighborhood of twenty million bushels of wheat, ten thousand carloads of potatoes, and about four thousand carloads of apples. From this tract alone we will have somewhere in the neighborhood of thirty-five hundred to four thousand carloads of potatoes, one thousand carloads of apples

and about three million bushels of wheat.

The state of California does not raise within twelve million bushels of as much wheat as it consumes. California is the consumer of a great many of our potatoes as well as apples. It is a great market for our livestock, its affords an additional market for much we can purchase.

**More Care for Shipping**

Already we have encountered a very serious car shortage, and in spite of all we can do the local only knows when we will be able to get cars. This means tremendous losses to the growers and shippers. The building of the north and south railroads will open up to this territory a very large market, and will give us another source of car supply.

It will shorten the distance to that market by several hundred miles and I think that this territory is to be congratulated upon the opportunity of securing this additional outlet.

It is of the utmost importance and vital necessity, and let me say to you that if the Boise valley had the same opportunity it would expend three times the amount that is asked to secure the road.

By all means do not allow this opportunity to slip by, if you do you will always regret it.

**Immense Vanadium Deposits.**

Ninety-five per cent. of the total known vanadium in the world is represented in the deposits of the famous Minas Ragra, in Peru. There is supposed to be in sight at this mine ore of 20,000,000 pounds metallic content.

**She Missed Those Saints.**

A very religious colored lady exemplified a print of "The Last Supper" inquired which was St. Anthony and which was Francis of Assisi. When told they were not in the group, she exclaimed: "Well! I just knowed when these saints was all invited to this party."

**GUSTAV G. FLECHNER**, violin teacher, is prepared to accept a limited number of pupils. Phone 118W. 459 Third ave. No.—adv.

**ISIDOR G. FRIEDMAN**, teacher of violin. Accredited by Idaho state board of education to issue credits for violin study to high school students. Beginner accepted. 233 Seventh ave. E. Phone 556A.—adv.

**Words Change Their Meaning.**

There are many instances where words change their meaning completely in the course of time. The word mansion meant simply a tent pitched for soldiers on their march. Later on it was applied to a roadside house for the accommodation of strangers.

**Arranging Flowers.**

If in arranging flowers in a vase you find some stems that are contrary and refuse to bend in the way you desire, try massaging them for a few moments. This will make them supple and they will stay where they are placed.

## JAPANESE ASKS FOR EXPANSION

(Continued from Page One)

willing, it is said in the same quarter, for examination of the "21 demands" agreement, provided its validity is not questioned, and argument is not raised that the treaty was consummated by force.

**Provision for Lease Renewal.**

It is understood Japan would insist, under the provisions of that treaty on the right to renew leases in South Manchuria.

**AMERICAN AMBASSADOR TO JAPAN LANDS AT YOKOHAMA**, 27—Charles E. Warren, the new United States ambassador to Japan, arrived here Saturday with his wife and three sons on board the steamer Golden Breeze.

"I came to Japan not only for the purpose of seeking to be useful to my own country as far as possible, but also to become familiar with the Japanese people."

It was apparent Ambassador Warren struck a note pleasing to his hearers. His arrival is attracting special attention because Japan now is plunged in preparations for the Washington conference.

Edward Bell, the America charge d'affaires, and the embassy attachés as well as delegations of the American associations of Yokohama and Tokio and others, welcomed the ambassador.

After talking with the correspondent, Ambassador Warren proceeded in an automobile through lines of photographers and boarded a train for Tokio.

## Local Brevities

**Will Study Music**—Miss Vera Cook left Sunday for Denver where she will spend the winter in the study of music.

**To Reside in Arkansas**—M. C. McCoy left Saturday evening for Jonesboro, Ark., where she will make her home with her sister.

**Novada Visit Concluded**—William Austin of 336 Fourth avenue west, returned from Nevada where he spent the past few months.

**To Take Special Course**—O. A. Fuller of 414 avenue C, left for Los Angeles, Cal., to enter college for a special course in eye study.

**Overseas Paving Operations**—W. A. Alexander spent Saturday in Filer in connection with the street paving operations that are in progress in that town.

**Child Seriously Ill**—George, 5-year-old son of Mrs. W. E. Crozier of Ninth avenue east, is in a local hospital in a serious condition from intestinal complications.

**Married in Salt Lake**—Mr. and Mrs. Kent Bowers arrived home Saturday from Salt Lake where they were married on September 14. They are at home at 628 Main south.

**Attends Sister**—Edward Wells of Burley spent the past few days in Twin Falls in attendance upon his sister, Mrs. Agnes Weighall, who is a patient in the general county hospital.

**Minister Completes Engagement**—Rev. A. G. Pearson, who has filled the pulp in the Presbyterian church for the past two Sundays, left this morning for his home in Kansas City.

**Come from Garden Valley**—Mr. and Mrs. James Mills and children, and Mr. Mills' sister, Mrs. McCubbins motored from Garden Valley to Twin Falls Sunday to visit for a few days at the home of Mr. and Mrs. Arthur J. Povey.

**Will Enter Normal School**—Miss Jeannette Malone, who has spent some time here with her sister, Mrs. W. W. Smith, of Tenth avenue east, left Saturday evening for San Jose, Cal., where she will attend the California State Normal school during the coming year.

**Guests of Daughters**—Mr. and Mrs. M. S. Miller of Greeley, Kan., are here to visit their daughter, Mrs. D. N. Mc-

roy, who lives northwest of Twin Falls. They have just come from Alberta, Canada, where they have spent some time with another daughter.

**Take Civil Service Test**—Russell McCoy of Burley returned home Saturday, having spent two days in Twin Falls taking the civil service examination for railway mail clerks conducted here as examinations were conducted at the local federal building and ten candidates presented themselves for the test.

**Returns to Mexico**—Orin S. Harner, who until three years ago was a mining engineer in Hermosillo, Mexico, and was driven out because of the rebellion, and who has been living with his sister, Mrs. L. White, has returned to Sonoma, Mexico, where he has a plantation in a large mine. For the past few months Mr. Harner has been working in Juridico. His family will remain in Twin Falls for the winter.

**Pioneers Come Back**—Mr. and Mrs. C. W. Butters of Chicago are in Twin Falls and Dahl for a few days, visiting Mr. and Mrs. I. C. Landers and other old acquaintances. Mr. Butters is a pioneer of the Buih district, having made proof on his ranch there several years ago. He has made his home in Chicago during the last few years. Mr. and Mrs. Butters were married September 10 and are on route to the Pacific coast to spend the winter.

**Interested in Railroad**—J. W. Mulloy of Reynolds, W. J., left for his home Saturday, having spent the past summer on the Pacific coast and with friends in the Twin Falls section since September 1. Mr. Mulloy who is interested in manufactures, said that he would await, with much interest, the result of the campaign now on for building the railroad, as in his opinion that

outlet is all that is needed to make this district the best farming area of the northwest, and to make possible a prosperous manufacturing city here as well.

**Justice to the Bebebug.**

Many times the bebebug has been accused of transmitting disease, but the investigating scientist of the United States public health service says the bug apparently has been charged with wrongdoing when not guilty, as the pest has no way save the mouth in which to carry germs and is too busy eating to make mouth germs of any special danger. However, the flea, house and mosquito have been convicted of being disease carriers.

**Says Uncle Eben.**

"Waccopponer time," said Uncle Eben, "dar was a mouse dat said he could whip a cat or a bull terrier or anything. But every time he saw any critter on four legs, top number mouse, he hid hisself. - Do intire mouse population said he was a terrible fighter, an' if it wasn't for his mercy do cats an' all bull pups would be as extinct as buffaloes. Even a mouse kin be a conversation hero if he knows when to run."

**Reflections Commercialized.**

Mirrors fascinate a good part of the world, including the Manchurians. A looking-glass is an absolute essential for a Manchurian matron; for without it she would never achieve her elaborate coiffure. The really smart young man of Manchuria will consider the purchase of a cigarette case or a purse unless it contains a small looking-glass, in which he may frequently observe his image.

## SOME OF THE REASONS WHY

### We Should Raise \$500,000.00 to Secure the Building of the Railroad From Rogerson to Wells:

1. It will open up a new market for Twin Falls products.
2. It will shorten the route from Twin Falls to California, according to official report of U. S. Interstate Commerce Commission, by 311 miles over Ogden route, and 350 miles by route across Salt Lake.
3. The company cannot, under present laws and the certificate take or offer promotion stock or bonds as a bonus to either promoters or persons investing money in the construction of the road.
4. Every dollar invested in stock must be spent in actual construction of the road, under the provisions of the Interstate Commerce Commission. There is no padding of capital, no rake-offs, all must be on the square.
5. The certificate granted by the Interstate Commerce Commission expressly says: "There is to be no promotion stock, but certain promoters are to receive as a bonus for underwriting the securities, the sum of \$500,000.00" subscribed by citizens of the territory to be served, "payable when the completed line shall be ready for operation."
6. The present great demand for money and the high rate of interest paid on unquestionable securities makes it absolutely necessary to induce capital to take the risk of investing in this new railroad. Our bonus is the only inducement offered.

Can we expect capital to take their money out of established securities, paying high rates of interest, or securities exempt from taxation, and take the risk of this new railroad without receiving a bonus, when the road must be built under the provisions of the Cummins-Esch bill, with all its restrictions?

TAXES

A cursory examination of tax levies lately filed in the office of the county recorder indicates that a greater amount is to be collected in taxes in Twin Falls county this year than in any previous year in its history.

Such an examination indicates that the Twin Falls townowner who last year paid around \$100 taxes on property valued at \$1,000 will this year pay approximately 100% more in taxes than in any previous year in its history.

It is a matter for satisfaction to find at least one taxing body which has found it possible to reduce its tax levy this year. The county commissioners have cut the county levy from 13.2 mills last year to 11.6 mills this year, and but for the extraordinary expense incident to costly criminal trials would have pared the levy still further.

The tax situation in this county, on the whole, is not one that makes for the best of feeling, but there is this about it: When the final installment is paid next July, every taxing body in the county will be on its feet financially and there will be no occasion for recurrence of any more such levies. In fact it is to be expected that with the anticipated increase in wealth and population a situation will result in which, although the total amount of tax money collected will be larger, there will never be a time when each individual taxpayer will be called upon to shoulder a heavier load than he is carrying this year.

GREECE'S WAR

Greece is rejecting over the reported rout of the Turkish armies north of the Chukuk and Katsradji rivers. The Christian World rejoices with the Hellenes and hopes that the defeat of the Turks will be complete. There is a good deal of misunderstanding of the objective of the Greek offensive in Asia Minor, but that does not affect the sympathy of civilization, which is with Greece.

The plain truth is that the Greeks are waging war to recover from the Ottomans the territory which was theirs for centuries before the Turkish invasion and which since that historic event has been occupied by Greeks whose yearning to be reunited with their kindred has remained undiminished through all the intervening years. Greece expected to recover her own through the defeat of the Central Powers in the world war. Being disappointed in the treatment accorded the Turks by the allied council at Paris she seized what appeared to be a favorable time to reappropriate her lost nationalities by force of arms.

Withal it appears that the Greeks are exerting themselves to a futile cause. They may defeat the Turks, but can they hold the fruits of victory? The considerations which operated to deprive them in 1919 must still appeal with force to those who made the decision then.

The practical reasons which Great Britain advanced for leniency toward the Turks will not appear less cogent because Greece unabled has recovered her ancient provinces by the sword. It was fear of the consequences to herself of driving the Turks from their capital city that moved the British to favor the Mohammedans.

The threat was that if the Turks were too deeply humiliated the Mohammedan world would rise in revolt; that India might be lost to England. It might make a difference were the Greeks to drive the Turks back to their original boundaries. At least the British could plead no responsibility for the outcome. But might not the threat which was powerful to prevent the award of territory that Greece was entitled to be renewed and compel intervention to cheat the Greeks again? When the Turks are driven out of their last stronghold, will she still see whether the hopes of Christians can be realized.

JAPAN'S ATTITUDE

A resident of Tokyo writing in the Outlook throws some light on the attitude of Japan toward the armament limitation conference and suggests some possible course she may pursue. Since Japan will occupy a key position in the conference what he says is worthy noting and keeping in mind. No Big Bertha bombshell, he says, ever created greater consternation than did President Harding's invitation, coupled with an outline of the subjects to be discussed.

to place on the table her plans for the future in respect to Siberia, China and elsewhere," he goes on. This, of course, she does not wish to do. The writer avers that Japan believes England, her ally, has tricked her—that while the voice may be Harding's, the hand is England's. This assumption shows that the attention is highly disturbing to the Nipponese. While the authorities are guarded in their utterances, the undercurrent of resentment at the turn affairs have taken is too strong not to be noticeable, says the writer. Japan recognizes that she must play the game according to the new world morality or find herself an outcast.

The condition thus portrayed shows where the forthcoming conference will meet with obstruction, possibly Japan cannot well afford to assume a solitary position in conflict with the other leading nations of the world. At the same time she may be stubbornly averse to laying her cards on the table and agreeing to go along with the other nations in a policy that may be mapped out. Unquestionably Japan needs relief through armament limitation but such a course may conflict with the policy she has in mind, though not revealed. The fright exhibited over the situation is evidence that it is not her intention to submit her interests to a council of the nations. As an alternative, because she fears to take any other course, she may "go along," but if she does, it will not be willingly, if the opinions of the writer are well founded.

The German government is reported as having trouble in finding a man for ambassador to the United States who would be satisfactory to us and yet a true representative of Germany. There hasn't no such man.

British chemists oppose gas warfare as "abhorrent to the high instincts of humanity." And they might have said the same about any other method of warfare.

A scientist predicts that the sun will be impressed to provide heat. We hope he gets it done before cold weather sets in, if it is cheaper than coal or gas.

Some democrats profess to believe the Washington conference will be a failure. There will be no joy in living for them if it isn't.

OPINIONS REPRINTED

GERMANY'S PROFIT FROM PEACE PENALTIES

It has been figured out that the amount which Germany will have to pay on the indemnity exacted from her by the European alliance will be less than the sum which the United States will have expended on armament alone during the time the indemnity is expected to run. In other words, if the war had never occurred and Germany had maintained for forty years longer her armament, it would have cost her more than it will to pay the indemnity, assuming that she kept up with the United States in armament. On this basis it is predicted that Germany is bound to come out of the indemnity period the victor unless the other nations learn the lesson which is being forced upon Germany.

The strength of the desire in this country to limit armament is not only due to our desire to limit taxation as far as may be, but also to our wish to gain the confidence of the world so that our goods may go anywhere without the least of impediment upon them. By limiting our armament expenditures we save at home. But we do more; we gain abroad—gain friendship and trust. From considerations such as these it seems doubly foolish to submit to a vote which by force of arms we removed from the neck of a former foe—Lewisian Tiliouas.

Wallace Press/Times — A union cigarette to be hit by trains with startling regularity, but the result is always the same so far as the auto is concerned.

More Truth Than Poetry
Illustration of a man and a woman.

"POOR OLD FOOLS"
By S. H. KIBER
CONTENTMENT means in Duntley's breast:
his wife is fifty-four;
Once fawn-like grace belonged to her, but she
is little no more;
Her once dark hair is turning gray and also get-
ting thin;

An ample roll of flesh is where she had a grace-
ful chin;
But Duntley doesn't seem to see how age has
dimmed her eyes;
She keeps believing him to be the wisest of the
wise.

It's long since Duntley's waist grew large,
long since his step was light;
He needs an alibi no more for brushing out at
night;
The heavy locks that once were straying over his
bulging brow
Have gone the way of earthy things; his ways
are settled now;

He used to be a bit inclined to elevate his
heels,
But he has lost that all behind and now goes
home to meals.

HE likes to sit and hear her hum some half-
forgotten song,
And she has learned to think him good and won-
derful and strong;
She does not fail to give him praise; she knows
his little smallest whim;

And shapes her wants to suit his own; she likes
what pleases him;
Like two good pals they go their way, without
let, job or sin,
And younger people, smiling, say: "What poor
old fools they are!"

ATTENUATED AND LIMP
Our dastly currency seems to have been stretched so hard that it won't snap back.

DAVE AUBREY INCREASES Sugar cane acreage is increasing in all states where the cane is used mostly for making sirup, that is outside of Louisiana. In that state the cane area in 1921 is 268,100 acres, or less than the 287,000 acres of 1918, although greater than the cane area of 275,000 acres in 1919 and 268,000 acres in 1920 according to estimates by the bureau of markets and crop estimates, United States department of agriculture.

Classified advertising is the cheapest thing you can buy measured by the profit it may bring you.

What is useless to you may be valuable to others—advertise it in the classified.

BEFORE THE ADVENT

of the Audit Bureau of Circulations in 1914, each publisher made his own circulation statements to advertisers.

Many of them were truthful. Some were not.

But there was confusion and lack of uniformity. An intelligent comparison was impossible. Details regarding distribution were not generally given because there was no standard of practice in keeping the records.

The Audit Bureau of Circulations has brought order out of chaos. Today the Bureau's system of keeping records is almost universal among the better publishers. Uniform reports are furnished to advertisers verified by that absolutely independent organization.

The experienced advertiser demands A. B. C. reports and if the publisher has nothing to hide, he gets them.

A. B. C. reports in the Twin Falls Daily News are furnished on request.

### HIGHEST PLANE REACHED BY FIGHTING GAME

#### National Cooperation Has Provided a Big Boost for Boxing Sport

By HARIB NEWMAN  
NEW YORK (Special)—Boxing is probably on a higher plane now than at any time in its history. Due principally to the general idea of co-operation, the various boxing commissions throughout the country, the sport is now enjoying its most prosperous period. Boxing has been on trial for one year. As a matter of fact, boxing has been on trial before the American public for the last twelve months, and the verdict appears unanimous in favor of a continuance of the sport.

#### Old Hacks Driven Out

The old hacks who huddled the cards in bygone days are being weeded out gradually. The moonshiners and auting men who held the public during every other administration have been driven out of the pastime. It is true that there is still room for improvement, but the wheels have been set in operation by the various commissions, and it is only a question of time when all the undesirable are eradicated and the methods of unscrupulous politicians and promoters. Now it is all different, and with stringent laws enacted for the game and honest officials to enforce the methods of unscrupulous politicians and promoters. Now it is all different, and with stringent laws enacted for the game and honest officials to enforce the methods of unscrupulous politicians and promoters. Now it is all different, and with stringent laws enacted for the game and honest officials to enforce the methods of unscrupulous politicians and promoters.

#### There is Little Chance These Days for Reputation of the Peter Maher-Mortimer

There is little chance these days for reputation of the Peter Maher-Mortimer fiasco of years ago, nor a Corbett-McCoy lip-dropper. The Jesse James boxing crowd is through, and the boxing rules prescribing age limits and physical fitness for contestants has ordered many of the sprained and decrepit boxers who would have been tolerated a few years back, while Mr. Citizen sits in, getting the worst of it.

#### Action in Cleveland

The prompt action by the Cleveland boxing commission following the Downey-Watson scandal in the Ohio city shows to what extent the game might reach, if fraud is attempted. The Ohio board overruled the decision of the referee, barred the alleged offending principal, and was supported in its decision by the national boxing association, which reaches nearly every state in the Union which has a boxing law. Discipline in one state practically carries the punishment to every other town. Under the existing condition an offender cannot pull his freight from one city to another. The spirit of co-operation in the far advanced with the officials in charge of the enforcement, and the guilty ones are bound to be ousted from the boxing game for all time.

What is useless to you may be valuable to others—advertise it in the classified.

### "REASONABLE" OUTLOOK FOR GRID ELEVEN

#### Varsity Coach Has Eight Letter Men Out of Squad of 34 Athletes

UNIVERSITY OF IDAHO, Moscow, (Special)—Eight letter men, a squad of 34, Coach Thomas Kelley, Captain Grover Evans of American Falls, and the Idaho football has started. Prospects are looked upon as "reasonably good" on the gridiron this season.

In realization of a hard schedule of games Coach Kelley is making no prediction, except that of hard grueling work for his team. Upon his broad and capable shoulders will rest the responsibility of "Silver and Gold" success on the gridiron this season.

Passing the ball, punting, simple sign practice for the back field candidates; and charging, packing the pigskin for the linemen, constitute the daily routine work of the varsity aspirants. Each practice is wound up with a jog or two around the quarter-mile track.

First work is designed to acquaint the jereyed "hulks" with the handling of the elusive oval and to condition them. One of the most encouraging features of the seasonal outlook is that every man returned in good shape—the result of summer outdoor work. Idaho undergraduates came to know last year that the words "Tom Kelley and Eight" were synonymous. Certain it is that whether or not the 1921 eleven is light or heavy, fast or slow, it will be a fighting football machine.

Probabilities in every sense of the word in the material Kelley has to work with. It will be impossible to tell just what strength or lack of strength is in the new men. Material from the freshman class of 1920 is of a minor quantity. The freshman season was a poor one and Coach Kelley does not look for anything phenomenal from the incoming sophomores.

Probabilities in every sense of the word in the material Kelley has to work with. It will be impossible to tell just what strength or lack of strength is in the new men. Material from the freshman class of 1920 is of a minor quantity. The freshman season was a poor one and Coach Kelley does not look for anything phenomenal from the incoming sophomores.

#### PESSIMISM IS COACH KELLEY'S RINGING NOTE

#### Athletics Head at State University Not Jubilant Over Football Prospects

UNIVERSITY OF IDAHO, Moscow, (Special)—Pessimism is the keynote of a press statement made today by Coach Thomas Kelley on the football outlook at the University of Idaho. While 21 men in suits on the opening day of practice he regarded the season's prospects as not overly encouraging.

The boys will have in tight hand from here-on-out," said the coach today. "Each individual man will have to do his best from the very start if Idaho is to have as good a team as it did in 1920."

"My work is to develop a better team this year than the 1920 eleven, and the goal of the men and myself is the best ever in Idaho football history. However, no predictions of a successful season are coming from me. We hope to have a good season but I am not sure."

The first day of practice with 21 men in suits was devoted to an hour and a half's work in fundamentals, passing the ball and charging.

### CARPENTIER WILL RETURN TO STATES TO FIGHT GIBBONS

#### European Fistic Champion Will Be Back Some Time in December to Train

NEW YORK, (Special)—George Carpentier will come to the United States some time during December to start preparations for his light-heavyweight championship bout with Tom Gibbons of St. Paul, Minn. The Frenchman's training announced today.

#### Brief Bits of Sport

Johney Kilbuck may be old, grey haired and stoop-shouldered, from taking the title so long, but he has demonstrated that he is still master of all the bits of the featherweight.

Johnny made a most artistic job of handling that aspiring pugilist from Baltimore, Harry Frank, on Saturday afternoon.

Furthermore the champion did in decisive job, such as one leaves no doubt in the mind of Frank as to who is the better man.

Cebis has further cleared the air by taking the title from the American League and the American League for leadership.

Only four points separate the twins. Mike Gibbons says he will "gladly give Champion Johnny Wilson's match."

After the showing Johnny has made in recent bouts the public will be abundantly as glad to stay away from the affair.

The Giants seem to have the National League pennant clinched to the Polo grounds dispute, while it is still a nip and tuck race in the American league for leadership.

The Cleveland club has a slight lead over the Yankees, and by whipping the Senators yesterday while the Gothamites were, idle on account of rain, stretched its advantage some.

The closing days of the major league season is at hand, but none there are yet who can swear which teams will win the big series.

Pittsburgh has been counted out by the majority of students of the game, but Gibson's men are still full of fight and ready to show their best prowess.

The Yankees are far from down and out, and, in fact, are a 50-50 bet to win.

Seems as though a lot of these pups had determined to play the game on the square. Puggy Morton, a fighter of Spokane, has been barred from boxing in Montana by official writ. Morton put up a bad bath with Monk Towler recently.

In Philadelphia on Saturday night Bill Brennan of Chicago, knocked out Ned Carpenter, a heavyweight brawler of Racine, in 30 seconds.

Benny Kauff, who has been barred from playing baseball by ruling of Commissioner Landis, has taken his case to the courts of New York for adjudication.

Some time ago Kauff was in the same courts to answer a charge of being implicated in automobile stealing. A jury acquitted him, but Judge Landis did not. So Benny can't play baseball with any club in organized society.

Judge Landis seems to enjoy the sport that acquitally by some judges do not constitute clean bills of health for the accused.

### NOTICE

Sale of Truck for Storage. Notice is hereby given that I will sell at public sale, to the highest bidder for cash, one Vim Light Delivery Truck, 1920, license number 50022. Said truck being the property of Harry Evans. There is due as storage on said truck the sum of \$6 per month from November 27th, 1920, and interest and costs of this sale. Said sale to be held at the garage at the rear of 512 Fifth Ave. E., Twin Falls, Twin Falls County, Idaho, on the 30th day of September, 1921, at one hour of 2 o'clock p. m. (Twin Falls time).

Dated this 10th day of September, 1921.

W. M. WERNER.

### NOTICE OF SHERIFF'S SALE OF ESTATE ANIMALS.

I, E. R. Sherman, sheriff of the County of Twin Falls, State of Idaho, have taken into my possession at the Louis Harrell farm, the following described estray animals, to-wit:

1 black and white Holstein cow, 2 years old, brand OQ counter circle on right side; no ear marks;

1 black and tan Jersey cow, about 2 years old;

1 tan colored Jersey steer, about 2 years old;

1 light red steer, white face, about 2 years old, brand OQ counter circle on right hip, crop off right ear and split in left;

1 red cow about 7 years old, branded S on left hip, overslope both ears;

1 red steer, white face, underbit left ear, no brand.

Public notice is hereby given that I will sell the above described estray animals in accordance with Section 2009, Compiled Statutes of Idaho, at public auction, to the highest bidder for cash, lawful money of the United States, on the 15th day of October, 1921, at the hour of 2 o'clock p. m. (Mountain time), at the old Louis Harrell farm, situated one mile east of the Rock Creek postoffice, County of Twin Falls, State of Idaho.

Dated this 29th day of August, 1921.

E. R. SHERMAN, Sheriff.

By BEN J. BROWN, Deputy.
