

JAPANESE FIND CAUSE OF WARS IN TEXTBOOKS

Peace Workers of Oriental Empire Propose Censorship of Sources of International Prejudice

TOKIO. (Correspondence of the AP)—Formation of a committee which would submit school textbooks to a special committee with a view to rooting out sources of international prejudice, ignorance and hatred, is recommended by a representative group of Japanese peace workers. This is the group that recently urged upon the council of the league of nations the convening of an international education council to promote true friendship between nations.

Must Strike at Source
"It is needless to point out," said the group in its proposal sent to Geneva, "that the object of the league of nations is prevention of war, and that the outside world which had been, until last November, unopposed and neglected for years. The survey will be similar to that conducted recently by the navy at Midway island, now an American cable station, a replacement being made over the group, according to present plans.

The wireless message received here from the steamer Maletyru to develop the islands commercially. They are engaged in preparing copies for the market. They are isolated and virtually without any communication with the outside world, which islands have wireless equipment and are removed from the regular steamship routes.

The wireless message received here from the steamer Maletyru to develop the islands commercially. They are engaged in preparing copies for the market. They are isolated and virtually without any communication with the outside world, which islands have wireless equipment and are removed from the regular steamship routes.

Old Prejudice Continues
"But as we look critically into the prevailing education in each nation we see all sorts of old prejudices still wittingly or unwittingly inculcated into innocent souls. The education of people, we care say, is still predominantly influenced by national egoism. So long as this egoism is allowed to persist, all other efforts toward peace and understanding we are afraid, will be of no permanent value.

"We cannot, therefore, too strongly insist that without an international organization of educational influences, which shall effectively counteract all the hidden forces tending toward imperialism and militarism, no league of nations can possibly attain its object.

"It is from such considerations that we humbly submit the proposal for an early convocation of an international education council."

WHITE MEN MAROONED ON TINY ISLAND ASK FOOD

Eagle Boat to Visit Palmyra Group with Supplies for Disappointed Persons

HONOLULU, T. H., (AP)—Palmyra Islands, pin-point dots on the map seven hundred miles south of Honolulu, but effectively a part of the city and county of Honolulu, will be visited this month by a United States navy Eagle boat as the result of the receipt of a wireless message from the only three white residents of the isolated island, asking that food be sent immediately.

The eagle boat also will make a survey of the islands which had been, until last November, unopposed and neglected for years. The survey will be similar to that conducted recently by the navy at Midway island, now an American cable station, a replacement being made over the group, according to present plans.

The only three white residents of Palmyra are Colonel and Mrs. Ming and Edwin Jenner Jr., who have been there since last November in an attempt to develop the islands commercially. They are engaged in preparing copies for the market. They are isolated and virtually without any communication with the outside world, which islands have wireless equipment and are removed from the regular steamship routes.

The wireless message received here from the steamer Maletyru to develop the islands commercially. They are engaged in preparing copies for the market. They are isolated and virtually without any communication with the outside world, which islands have wireless equipment and are removed from the regular steamship routes.

The last mail received from Palmyra was in April.

INSTITUTES SEARCH FOR MAVERICK WARNING BELL

Former Executive of Hawaii Seeks the Missing Bell for Chimney at Riverside, California

HONOLULU, T. H., (AP)—Search for a bell that once warned mariners of a dangerous shoal off the coast of California, and current swept, blithely carelessly away for 2,000 miles along the Pacific until it came to rest years ago on the shores of Oahu Island, has been started by Judge Sanford B. Dole, former President of the Republic of Hawaii and later first governor of the territory.

The bell, it is said, will be placed among the chimneys at a Riverside, California, inn, where bells from many other parts of the United States have been hung in honor of the padre who built the first missions in California, Judge Dole said.

After coming to rest on the shores of Oahu the bell was salvaged and placed on one of the Hawaiian coast buoys, being replaced later by an electrically operated lighthouse. The bell disappeared, but Judge Dole hopes to find it and send it to Riverside as Hawaii's contribution.

SUMMER SCHOOLS COMPLETE LABORER ATTENDED REHEARSAL

CHICAGO, Ill., (AP)—Summer sessions held by universities and colleges this year throughout the United States generally enrolled more students than ever before, according to J. J. Pettigrew, director of the University of Minnesota's summer session.

The University of Chicago had a 10 per cent gain over last year, bringing summer enrollment to 6,457. The University of Wisconsin showed a gain of about 25 per cent. Dr. Pettigrew reported 25 per cent more at Minnesota.

SIGNAL TOWERS WILL BE TRIED OUT ON BROADWAY

Two Way Traffic to be Restored on Principal New York Thoroughfare

NEW YORK, (AP)—Again they're tinkering with New York's traffic. The police department long has been unable to dodge the law of physics that two objects can't occupy the same space at the same time. And with the number of automobiles increasing daily and the crowd of pedestrians holding its own, the traffic problem is becoming worse.

In the old days traffic went up and down Broadway much the same way it does in any main street the country over—though with the same hectic confusion that reigns in the subway beneath the world-famous thoroughfare. But a little while ago it was decided that at night, at hours when most of the city were bound up Manhattan to their homes, Broadway between 38th and 57th streets should become a one-way street.

Now that plan has been abandoned. Merchants have complained that the northbound night traffic was distracting to other thoroughfares buildings which should come to them.

So Special Deputy Police Commissioner Harris has ruled that for a 30-day trial period two-way traffic shall be restored—to be regulated by signal towers such as have been operating for many months on Fifth avenue. Signal lamps atop the towers command traffic all along Fifth avenue to halt or proceed at the same moment. If a couple of experimental towers work out all right on Broadway the city will be asked to install more.

HAWAII'S GOVERNOR TO SPEAK FOR PRESIDENT

Harding Names Farrington to Deliver Special Message to Press Congress at Honolulu

COLUMBIA, Mo., (AP)—President Harding, honorary president of the Press Congress of the World, has named Wallace B. Farrington, his appointee as governor of the territory of Hawaii, to deliver a special message to the congress when the body meets in convention on October 12, according to an announcement today at the office of Walter Williams, president of the congress. Dr. Williams stated that President Harding would be unable to attend the conference in person.

Announcement also was made today that the American delegation would sail from San Francisco October 4 on board the steamer Matsushima and would be in the territory until November 2.

SLAYING OF FAMILY IS SHROUDED IN MYSTERY

Bloodstained Onb and Finger Print Only Clues to Clearing Up Murders

DOWAGIAC, Mich., (AP)—A blood-stained club, nail-studded, and a bloody finger print were the clues today by which local authorities hoped to clear up the murder of three persons and the serious injury of another, a child, in their home here.

William Moore, his wife and their 13-year-old daughter, Nora, yesterday were found beaten to death with the club. In the same room was found Ardyth Monroe, 10-year-old daughter, who had been beaten on the head until unconscious. The little girl was made blind by the blows. Although her recovery is said to be doubtful, officers hope she may be revived sufficiently to tell the story of the attack.

Officers believe the crime was committed by an insane person. Two inmates of the state hospital at Kalamazoo, near here, stepped a week ago.

MINERS LIKELY TO MAKE FIGHT TO BOOST WAGE

Mine Workers Union Vice-President, in Report to Convention, Says Demand for Increased Pay is Certain

Organized Coal Diggers Achieve Greatest Numerical Strength Despite Industrial Depression and Unemployment

INDIANAPOLIS, Ind. (AP)—That the United Mine Workers of America at their convention now in session here, will declare in favor of fighting for higher wages was stated in a foregone conclusion today by W. W. Harrison, Vice president of the union, in his annual report.

"The traditional policies of our great organization, forever in the mind of every member, are that it is the purpose of the convention to declare to the world that we propose not only to hold what we have got, but to improve upon the same, upon the extension of the present agreement."

"The question may be asked why the United Mine Workers of America assume the attitude that not only do they propose to maintain their present wage scale, but improve upon the same when practically every other union in the United States has accepted big wage cuts during the present year. We can only answer such questions by saying that, for years the annual report of the United Mine Workers have been considerably lower than that of men engaged in other lines of industry."

Annual Earnings Only \$1500. "Under our present wage scale with the mines operating as they have been during normal times on an average of about 200 days a year, the day wage an average of about a dollar for day men and an average of about the same for tonnage men, our people cannot be expected to exceed in annual earnings the amount of \$1500, excepting, of course, those who by fair-minded men have wages scale that only enables the men engaged in the mining of coal to earn \$1500 a year is not an excessive one."

Organized coal miners achieved the greatest numerical strength in the history of their union during the last year despite general industrial depression and widespread unemployment in the coal fields. According to the report made to the convention of the United Mine Workers of America by William Green, secretary-treasurer, the average monthly membership has 515,677 for this year and he expects to reach 600,000 by the end of the year.

Mr. Green's financial statement covered two years, ending August 1, 1920, and August 1, 1921. The total membership income was \$4,087,958. The balance August 1, 1919, was \$5,352,831 and expenditures were \$2,307,148. For the last year the income was \$4,087,958. The total membership income was \$4,087,958.

Soes Idealism Vanish. Besides the financial and membership conditions affecting labor, Mr. Green discussed the general conditions affecting labor. He discussed the general conditions affecting labor.

Thinking

Ellhu Root, appointed by President Harding as representative of the United States at the forthcoming armament limitations congress, is deep in study of the great question at Washington, where he has been frequently in conference with the president at the White House. It had previously been reported that there was coolness between Root and Harding.

HIBERNATION IN JAPAN IS SCHEME OF BALL PLAYERS

Stars of Many Leagues Form Clubs for Winter's Invasion of the Orient

SAN FRANCISCO, Cal. (AP)—American baseball teams are purring into Japan according to reports received here. Many clubs from the Pacific coast and Hawaii have either made the trip or are planning to go.

Japanese know good baseball and will not patronize poor teams, according to Frank Miyai, a Seattle Japanese baseball team. He is planning to take a team of Pacific Coast league players across this fall.

The University of California nine months ago, winning a national championship. A team from the University of Washington sailed from Seattle recently. A follow this team from the University of California and of the University of Oregon.

All Right With Sam. "Man," quoth Iustus. "If I'd just raise mah fist once at you and let it drop, youse gwino whop watermelon, chickens and pork chops bloody owing me. You'd be standing next time Ah has esalt threatened by pleasure," said Sam. "Let her drop," American Legion Weekly.

Today's Markets

WHEAT MARKET WEAKENED UNDER BEAR ONSLAUGHT

Reports of surplus in France and Lack of Export Demand Began Quotations Down 3-1-4 to 3-3-4 Cents

CHICAGO, (AP)—Bear has an advantage in the wheat market today, owing more or less to an official report indicating that France has a surplus of 28,000,000 bushels over and above seed and bread requirements. Selling commencing from commission houses. Aggressive support was lacking. Initial quotations, which ranged from 1-4 to 1-7-2, with December 31-27 1-4 to 1-27 1-14. May 1-13 1-4 to 1-21 1-5, were followed by a decided ret back all day.

TWIN FALLS COUNTY CROP REPORT

Yields Per Acre of All Kinds Actually Obtained by Growers and Compiled by the Twin Falls News

Table with 6 columns: Crop, Acreage, Crop, Bu. to Acre. Lists crops like Wheat, Barley, Oats, etc. with corresponding yields.

New low record prices for the season were ratcheted in the corn market. Predictions were current that the government crop report October 1 would be bearish. After opening unchanged to 1-1/2c lower including December at 20 1/2 to 22 3/4c, prices continued to sag.

Only transient rallies took place. The market closed weak, 5-8 to 1-3/4c net lower, with December 23 to 23 3/8c. Oats were weak with other grain, starting unchanged to 1-4c down and then strengthening further losses.

Chicago Livestock. CHICAGO, (AP)—Cattle receipts 10,000; fat yearlings and corn fed beef steers steady; other grade, top yearlings \$10.25; six head \$10.50; bulk beef steers \$9.25 to 9.50; sheep-stock steady; lambs strong; bulls, stockers and feeders 10 to 25c lower; hog-pigs largely 3-3/8 to 4-2/3; veal calves mostly 6-9c lower; heavy calves almost unobtainable; bulk vealers \$12 to 12 1/2c.

NEW YORK, (AP)—The stock market experienced its third successive reversal of the week today. Increased pressure from shorts and tighter money caused additional losses of 1 to 9 points. Ecles approximated 650,000 shares.

POLITICS WARM FOR ARGENTINA

Interest Centers on Choice of Nominces for Presidency of the Nation

BUENOS AIRES, 19--With the election that is to choose the president of Argentina for the next six years on eighth month off, political activity is becoming marked throughout the country, and there is much speculation as to who will be the nominees of President Yrigoyen's party, the Radical party and the opposition.

President is Debarred The law prevents the president himself from being re-elected. But it is generally conceded that President Yrigoyen desires to see himself succeeded by one of his faithful supporters so that his policy may be continued. Among those who are most mentioned for carrying the standard of his party are Dr. L. J. Castillo, the present mayor of Buenos Aires, and Dr. Honorio Pueyrredon, the minister of foreign affairs.

Dr. Leandro B. Torres, who was the principal candidate opposing President Yrigoyen in the election in 1916 and who has long been a political opponent of the president, having once fought a duel with him, is often mentioned as the probable chief of the opposition during the next campaign.

Radical Opposition Split The opposition to the Radical party in Argentina is at present split up into many sections, including the Socialists, Progressive Democrats, Conservatives, and the National Civic Union, and attempts are now being made to bring about an understanding between them in order to defeat the present administration.

In the city of Buenos Aires, which holds approximately 35 per cent of the population of the country, the Progressive Democrats and the Socialists are strong, while in the various provinces the opposition is divided between different groups. The Radical party has a national organization.

Six years ago the Radical party came into power for the first time following changes in the voting law providing compulsory and secret balloting.

THE TAX DODGERS

While there must be constant vigilance against the extravagance in the use of public money that adds to the tax burden, it should be kept in mind that one of the reasons for increase is that some evade payment of their share.

The statement from Washington that the dodgers are getting away with more than a billion dollars every year that ought to go into the United States treasury should set the country to thinking on this phase.

It is time that governments devised some other system for dealing with the tax dodgers than that of laying their burden upon the good citizens; of passing up the unwilling and urging still more from the willing.

LIFE'S ETERNAL TRIAL

In proportion to Mr. Edison's influence will the blow fall on the tobacco abolitionists, as the distinguished inventor John J. M. Harris in his adulation of the soothing weed.

It takes courage these days to defend anything at all, because it has been conclusively proved that life is surrounded by perils which certainly will carry us off untimely, and would have carried our forefathers off only they didn't know about them.

It is a never-failing mystery how the human race does so profitably thrive in the midst of conditions making it logically impossible. It seems that we must be the victims of a delusion; we delude ourselves into believing our food, clothing, tobacco, and in the case of some, drink, are all right and the first thing we know, by gosh, we are tottering wrecks of 87 or so with one foot in the grave, too late for reform and the damage done.

Yet the world is filled with horrible examples. Walter Raleigh, who is credited with introducing tobacco to the white race, smoked a great deal. He's dead. Hundreds of others who learned from him or after him the pernicious habit are dead too.

Chinese in the United States have started a newspaper. It is hoped it will not prove another contribution to yellow journalism.

VETERANS HEAR ADDISON SMITH ON BOARDS LATER

Congressman in Address to Legion Men, Predicts Approval of Compensation

Desiring that the American people are deeply appreciative of the service rendered by men and women who served with the nation's armed forces during the war, Congressman Addison T. Smith, in an address before Twin Falls post, American Legion, at its meeting last evening, predicted that adjusted compensation measures would be within a few days of being enacted.

Beyond Money Value

Mr. Smith preceded his statement relative to compensation measures with the observation that individual service of duty in the war had a value in terms of money value, by former service persons themselves. "There is, at the same time," he said, "no doubt but that the former service person meets in their compensation a compensation when the high wages paid to workers in munition plants and in other industries whose occupations exempted them from military service are taken into consideration."

Festival Plans Feature

Discussion of plans for the fall festival and Armistice day celebration to be held here under auspices of the post and the legion, were given by the legioners for legion members occupied considerable attention at last evening's session.

Idaho Veterans Invited

Among suggestions offered in relation to the festival were proposals that the legion invite all former legion members to be confined over Sunday, and that arrangements be made for holding competitive athletic contests between members of the several posts of the state.

Names Luncheon Committee

Plan and purpose of the week-end luncheon for delegates to the state convention developed in discussions on this topic. Pursuant to motion adopted by unanimous vote, Commander Herbert G. Tinterlin, announced the appointment of a committee composed of A. Dorman Johnson, Gayle G. Davenport and John S. Green to arrange for luncheon in the immediate future and to suggest a plan for the festival.

Garments Donations

Information from the local Red Cross headquarters is to the effect that the European relief supplies will be forwarded today. This call was for garments for children between the ages of 1 and 15 years and was included in the drive for Red East which included garments of any sort.

Entertainment at Buhl

Speaking of plans for the entertainment of the argonauts upon arrival at Buhl, the Republican of that city has the following to report: "After the arrival of the homeseekers in Buhl they will be taken to the tourist park where their cars will be left under guard. Addresses will be given in the city park by Mayor McClosky and J. H. Barker, president of the Buhl Chamber of Commerce. Following the addresses, the argonauts will be taken to the several private homes where they will remain on home guests until their final journey to the Roseworth tract."

GRAPES—Tully ripened on the vine. I have made arrangements to handle his entire crop, which will be ready Thursday, the 22nd. A few Siberia peaches are still coming in. Head cases of peaches only at 1 cent a pound. Bartlett pears about gone. Prunes, all kinds, at their best. Ed Vance, Public Market.

WESTWARD HO, CARAVAN AT LAST IS HOME IN "PROMISE LAND", LEGION OF OVERLAND JOURNEY ENDS

Scott's Brooklyn Argonauts Welcomed by Masses of Twin Falls People During Short Stay in This City—Invited Back for an "Acquaintance" Luncheon Tuesday—Undaunted by Arduous Trip Pilgrims are Ready for Pioneering Duties

Recorded by welcoming delegations representing both Twin Falls and Buhl, the Scott Modern caravan reached Twin Falls at 12:30 this afternoon. There were 20 cars in the caravan, the first of several overland special reaching this place, four passing later, their journey having been interrupted by minor troubles between Buhl and Twin Falls. There are approximately 80 people in the whole list of argonauts, who have come from Brooklyn, N. Y., by automobile, reaching by the way, to take and the Roseworth project, sponsored by the Idaho Farm Development company. They started the long trip late in July, and have made about 10,000 miles since they began from the Empire state.

Trail Blazers

William D. Scott, one of the prime promoters of the modern homeseeking excursion by the auto transportation method, led the caravan through the long journey, and was at the head of the caravan as the motor line pulled into Twin Falls. In the same car, breaking trail for the caravan, were Mrs. C. G. Gustafson and her children, Mrs. Wood Sherman, and the west and deposited to guide the fortunes of the argonauts. Mr. Eastman has been with the company since its start from Brooklyn, N. Y.

Home at Last

"I speak for the entire company when I say we feel that we have reached home at last, and we are most happy to be here. The journey has been a long one; sometimes tiring, but never tiring, we have enjoyed every minute of it, and we are here to stay," said Trailblazer Scott to a News representative.

Arrival of the caravan was scheduled for 11 o'clock, but happening on the road, it was not here until 12:30.

PREHISTORIC CORN IS FOUND IN SOUTH GRAVE

Corn that grew in Tennessee in prehistoric times, possibly before Joseph put away his seven years' supply in Egypt, was unearthed recently by W. E. Meyer, of the bureau of American Ethnology, and sent to the United States department of agriculture for identification. During recent excavations in Davidson county, Tenn., Mr. Meyer came upon a number of stone bins, some of which contained very well preserved corn of a type that was not known to have been raised in this country.

Entertainment at Buhl

Speaking of plans for the entertainment of the argonauts upon arrival at Buhl, the Republican of that city has the following to report: "After the arrival of the homeseekers in Buhl they will be taken to the tourist park where their cars will be left under guard. Addresses will be given in the city park by Mayor McClosky and J. H. Barker, president of the Buhl Chamber of Commerce. Following the addresses, the argonauts will be taken to the several private homes where they will remain on home guests until their final journey to the Roseworth tract."

GRAPES—Tully ripened on the vine. I have made arrangements to handle his entire crop, which will be ready Thursday, the 22nd. A few Siberia peaches are still coming in. Head cases of peaches only at 1 cent a pound. Bartlett pears about gone. Prunes, all kinds, at their best. Ed Vance, Public Market.
