

SOVIET SHIFTS HEAVY LOAD OF RESPONSIBILITY

Appeals to Spirit of Self-Reliance on Russian People to Carry On Activities where Communism Falls

MOSCOW, (AP)—Everywhere in Russia, the soviet government is unloading responsibilities it is unable to meet. Factory workers are being urged to obtain their own materials, run their own affairs and obtain their own food.

"Do It Yourselfes." "Decentralize; do it yourselves, and do not depend upon the central government for everything" is the burden of instructions broadcasted by the government since domestic free trade was instituted and the new economic policy of the bolsheviks was declared.

Provincial officials, labor unions, co-operative societies and family relief committees are all told the same thing: Unemployment increases.

Departments are being reduced and large numbers of men are being thrown out of employment. Those who have been receiving food have been placed on reduced rations and workmen in nationalized factories are being paid in manufactured products or money instead of food so that the food responsibilities of the government may be lightened.

It seems, however, that Russians, with the exception of the extreme communists, are pleased with the government's change of policy.

Prior Attempts Fail

Attempts at general centralization of everything proved so disastrous for three years that it is probable anything new would be welcome as possibly promising relief for the average citizen. Communists stoutly insist that the new system adopted is really modified communism and not capitalism. It is impossible, however, to find peasants holding land who will admit the government owns the soil.

Apart from the ardent communists, there seems to be a general opinion that the scheme of granting concessions to private industry is only camouflage capitalism. The military control that is being exercised and communist party discipline are so strong that the soviet government apparently has not weakened by its change of policy.

SOVIET WAR MINISTER

ST. PETERSBURG MOSCOW, (AP)—Leon Trotsky, the soviet war minister, who has just returned here from the Ukraine, addressed an enthusiastic meeting of the Moscow soviet Tuesday. He said an ultimatum had been received from Poland on Monday in which the Poles demanded fulfillment of the peace terms signed in 1918 but he declared Russia could also make demands for fulfillment of the treaty as Polish generals were supporting banditry in the Ukraine and Poland itself in many ways was violating the provisions of the treaty.

Pope Asks League to Lend Aid to Russians

GENEVA, (AP)—Pope Benedict has addressed to President Egan Kennecott of the assembly of the league of nations an appeal for the famine sufferers of Russia.

"News we have received concerning Russia has become graver daily," said the pontiff's appeal. "The misery is so great that only the united efforts of the people and their governments can avenge it. We therefore address, through your excellency, the representatives of all the states united under your presidency, and appeal in strongest terms to their feelings of humanity and brotherhood in order that they may take prompt and efficacious measures to aid the unhappy people of Russia."

WINNEBAGO TEACHER OF FORESTRY HEADS REDMEN

Chief Oshkoosh is Leader of Indians Participating in Illinois Holiday

CHICAGO, (AP)—Chief Oshkoosh, a Winnebago Indian, recently returned from France where he has been teaching forestry, heads the Indians participating in Chicago's celebration of Indian day tomorrow. Two years ago the Illinois legislature designated the fourth Friday in September as an annual Indian day, and this is its second observance here. Ceremonies will be held in Chicago's

forest preserve under chairmanship of Hanson E. Eggenfelt, its chief forester. The Chicago Historical society has joined with the forest preserve district, and the Boy Scouts will assist. A number of Indians have been invited by the district from reservations in Wisconsin and Oklahoma and from Nebrasko.

"The youth of America are being brought up on the cigar sign Indian," said Miss Caroline M. McIlwaine, librarian of the historical society, "and have no conception of the dignity and importance of the American Indian. The society is interested in Indian day from the educational standpoint. We want to see develop a more just and true conception of the original American Indian."

CO-OPERATIVE SHIPPING BODIES DOUBLE IN IOWA

Average Saving of Farmers Estimated at 35 Cents a Hundred Pounds

AMES, Ia., (AP)—There are 618 co-operative livestock shipping associations in Iowa, covering more than 700 towns and villages and doing a business last year estimated at \$103,000,000, according to Dr. E. G. Nourse of Iowa State college here. Dr. Nourse, who is head of the college's agricultural economics department, has just completed a state survey.

Average saving of farmers in marketing expenses is estimated at 35 cents a hundred pounds. Co-operative shipping associations in Iowa doubled last year, 310 being formed. The first was started in 1904 and in 1916 there were but 57 active. Approximately 27.5 per cent of the total livestock business of the state, or \$27,750 cars were handled by these associations in 1920, according to the survey.

EUROPEAN CAPTAIN OF INDUSTRY CALLED BY DEATH LONDON, (AP)—Announcement of the death of Sir Ernest Cassel, 60, financier and philanthropist, was made here today. He was born in Cologne and was a son of Jacob Cassel, a banker of that city. He floated immense national loans and was a prominent figure in the development of Egypt, Argentina and Mexico.

Knights of Columbus Fighting Intolerance

ATLANTA, Ga., (AP)—The Atlanta council of the Knights of Columbus has adopted resolutions calling on the chamber of commerce and other civic organizations to "heart their energies and to use their influence to lessen and eliminate the wave of religious intolerance that is overwhelming our community and to restore good will and peace among our people."

NIGHT BASEBALL PROVED POPULAR WITH HOME FANS

Attendance Approached 10,000
Mark—Teams Participate
in Profits

Nine thousand two hundred and twelve persons paid for admission to Lincoln field to witness the night league ball games the past season. The total admission receipts were \$1051.44.

These figures have been presented to the league directors by the treasurer in a general financial statement of the year's activities. The report shows an additional \$278.20 received from concessions, rentals and similar extraneous sources.

Of the total receipts \$1110 has been distributed among the six clubs of the league to help defray expenses connected with paraphernalia and equipment purchases. The statement also shows that during the season the league sustained an expense of \$80.35 for the recovery of balls knocked over the fence.

The statement in full follows:

NEW MEXICO VOTES TO LIMIT LAND OWNERSHIP

Prevents Aliens Incapable to
Citizenship from Holding
Property

ALBUQUERQUE, N. M. (AP)—New Mexico apparently has adopted an amendment to the state constitution which will prevent aliens who are ineligible to citizenship from owning land or holding land leases in the state. Incomplete returns from Tuesday's election on the 11 constitutional amendments indicate that this amendment has carried.

The amendment was submitted by the last legislature. Reports were received in the state that the Japanese were attempting to get a foothold in the lower Rio Grande valley in the state, and the proposed amendment met with little opposition in the legislature. Additional reports on Tuesday's balloting for United States senator showed few changes from yesterday's figures which gave Bureau a majority of 7173.

DEMAND FROM FAR EAST ADVANCES SILVER PRICE

Heavy Purchases for Orient Coupled
with Virtual Suspension of Mining
Responsible for Upturn

NEW YORK, (AP)—An advance in the price of bar silver in London today, due mainly to a continuance of the demand from China and India, was met by an advance here to 68 3/4 cents an ounce.

This is an increase of about 2 1/2 cents over yesterday's lowest quotations, 3 1/4 cents from that of September 15, and 6 1/2 cents over the price quoted three weeks ago.

Incidentally, Far Eastern remittances made further sharp gains. The Chinese Shung Hsi rate of exchange, which is covered almost entirely by movements of bar silver in London, registered an overnight advance of two cents to 70 cents per taol. A month ago this quotation was as low as 71 1/2 cents.

Local dealers say that apart from heavy purchases of silver for the Orient, the diminishing supply of the metal due to the virtual suspension of mining now is an important factor.

Deaths

Laurette E. Hacker
Laurette E. Hacker, aged 7, died last evening of diphtheria at the home of Mr. and Mrs. E. J. Kieselring at 428 Third avenue north, after an illness of less than a week. The child has been a member of the family for about two months, having been brought to Mr. and Mrs. Kieselring from the Children's Home at Boise for contemplated adoption.

The funeral will be held this afternoon at 3:30 from the DeWitt chapel, interment being in the Kieselring family plot here.

A brother, two years older than the deceased, is also a ward at the family home, it being the intention of Mr. and Mrs. Kieselring formally to adopt both children.

EPISCOPAL CHURCH PLANS SERVICES FOR ROSEWORTH

Many Members of This Faith Come with Caravan from the East

At a meeting of the board of vestrymen of the Church of the Ascension, held at the rectory last night, details of plans for leaving the Episcopal contingent of the Buhl caravan, which arrived from Brooklyn, N. Y., yesterday, were discussed. The Rev. Charles Glenn Baird, rector of Ascension parish, announced he had found 10 Episcopal families in the company of 24 families. This should bring the number of communicants of the church to not less than 20.

It is the plan, proposed by Bishop Frank Hale Tuxed to arrange for occasional meetings for these people when they are settled at Roseworth. Just when the services will be started depends largely upon the arrangements that can be made for a meeting place. The Rev. Mr. Baird has been asked to take temporary charge of this mission field. The vestry also considered plans for a parish meeting to be held the second week in October. At this session the church schedule of activities for the next year will be devised and decided.

We Are Going to Build That Railroad

For 20 years we have dreamed of a railroad to the South, and now every day brings us closer to the realization of that dream. The people of the tract are responding generously to the call for pledges, and without doubt when the final count is made, there will be a few thousand to spare. We are going to raise that \$500,000 and then some.

Already the spirit of optimism is with us. Crops are moving, prices are good. Business is better. We feel right down in our hearts that Prosperity is about here.

WORK WILL DO IT

The pessimistic statement given out yesterday by di-
rectors of the railroad subscription campaign forecast-
ing failure for the undertaking unless men selected for
the various soliciting committees really put their should-
ers to the wheel and accomplish what they are expected
to accomplish, must come as a severe blow to everyone
whose livelihood depends upon the prosperity of the Twin
Falls country.

The situation indicated in this statement can be sat-
isfactory only in the estimation of those whose desire is to
see southern Idaho stand still at the present level of its
development—a level from which there can be no progress
without the railroad outlet now within its grasp.

The situation as presented must come as a challenge
to the fellow who prefers to let someone else do the work,
who seeks advice in the task thought that it will be done
anyhow regardless of the effort he himself may or may
not put forth.

It is a call to action.
It is not yet too late to put the campaign across. The
people generally are ready to lend a hand. In but few in-
stances have the solicitors been turned down where they
have presented the proposition in its true character. It
is necessary only that there shall be no slackers among the
men entrusted with this work.

The possibility of failure must be relegated absolutely
and work will do it.

MR. HARDING'S HOLIDAYS

Although a physician says President Harding is the
most robust occupant the White House has had in many
years, it is always good news to hear that he is indulging
in a brief period of rest and relaxation from the cares of
his exacting office. As a result of his several week-end
trips of late Washington correspondents comment on the
removal of the "tired lines" from his face, although be-
fore the outings he was not seriously fatigued. But he is
extremely wise to take the ounce of prevention that is
worth so much more than the pound of cure.

The president is about to enter upon a period of un-
usually heavy responsibilities. The coming conference to
discuss reduction and limitation of armaments is known
to be much on his mind. He realizes that unless the mat-
ters coming before the conference are handled with the
utmost tact and skill they may precipitate a highly dan-
gerous situation. On the other hand, the nations will now
have the opportunity to take the most advanced step in
their history toward insuring the peace of the world, re-

lieving the burdens of military expense under which they
are now laboring and settling questions that threaten to
grow into causes of war. While Mr. Harding wisely will
not participate directly in the conference as a member,
his responsibility will be no less great as he considers
fully the progress that is being made toward the main
object of the gathering and confers with America's repre-
sentatives.

The people do not begrudge their president his outing.
They rejoice to find him keeping himself fit for his work.
If you want to feel young again, just for a moment,
drop around to a school ground just before school opens
on of these September mornings.

If a child is naturally left-handed he should be per-
mitted to remain so, says a doctor. Then he may become a
baseball pitcher.

A Glasgow professor says he can prove the earth is
8,000,000,000 years old. That's old enough to know how
to act better.

More Truth Than Poetry

THE DAILY ROUND

By S. E. RIGBER

"LIFE," said Mudge, "is a dreary round—
Drows in the morning, and back at night;
Over and over the same old ground,
Never a sign of a change in sight."

"Up for breakfast, and then away
To toil at the same old tasks once more;
Luck at the end of a long, dull day,
As you've done it a thousand times before."

POOR old, pitiful, jaded Mudge!
Eyes he has, but he fails to see;
Long ago he became a drudge,
And a plodding drudge he will always be.
To him the clouds are no more than clouds,
Though often they look like stately ships;
He gives no heed to the passing crowds,
Nor sends his fancies on thrilling trips.

"DOWN in the morning, and back at night!"
"Ay, but always a changing scene!
A friendly nod, or a laugh that's light;
Flashes of purple and pink and green;
Shouting children where, yesterday,
All was dreary and still and bare,
Hopeful thousands upon the way—
The call to do and the will to dare."

SOMETHING gained when the day is done;
The cheer in a word of praise well-earned;
A plan made clear, an ascent begun,
New skill achieved, or a lesson learned!
Eject the grumble, and close the door;
Forget the trivial snub or slight,
And life and work will be meaning more
Than "down in the morning and back
at night."

A WASTE OF TIME
A member of congress has introduced a bill
providing for the coinage of a 1-2 cent piece,
and our neighbor's estimable wife wants to
know why it is necessary to go to any such
trouble, seeing that the nickel is worth only two
and a half cents now.

MAKES PUBLIC AMERICAN
SUGGESTION FOR AGENDA

Secretary Hughes Gives Rec-
ommendations for Armament
Control Topics

WASHINGTON, (AP)—Secretary
Hughes made public Wednesday the

"Under the heading of 'status of ex-
isting commitments,' the depart-
ment's statement said, "It is expected
that opportunity will be afforded to
consider and reach an understanding
with respect to unsettled questions in-
volving the nature and scope of com-
mitments under which claims of rights
may hereafter be asserted."

ENGLAND WILL OBSERVE
UNEMPLOYMENT SUNDAY

Public Meetings to Urge Na-
tional Policy for Relief of
Jobless Persons

LONDON, (AP)—Plans for the obser-
vance of "unemployment Sunday" on
October 9 are being perfected and pub-
lic meetings will be held in every local-
ity throughout England to urge a na-
tional policy for the relief of people
out of work.

There was some disorder outside a
London police court yesterday when
several leaders of the unemployed were
arraigned on a charge of unruliness.
Considerable rioting occurred in Ab-
erdeen during the day and the police
charged upon a crowd following the ap-
pearance of the unemployed before the
town council, which was asked to ad-
ford relief.

John MacLean, the Glasgow com-
munist, was yesterday sent to trial on
a charge of sedition. It was alleged
he told the unemployed: "If you can-
not get food in a constitutional way,
then take it!"

ARES ANOTHER INVESTIGATION
IN WEST VIRGINIA COAL FIELDS

WASHINGTON, (AP)—Another in-
vestigation of conditions in the West
Virginia coal fields was proposed in a
resolution introduced in the house
Wednesday by Representative Forster,
Republican, Ohio, who suggested that
the inquiry be undertaken by a house com-
mittee and mining sub-committee.
