Sennacher, Resuming Testimony, Says Arbuclle Called Miss Rapppe's Death "Unfortunate Accident"

DENIES IMPROPER ACTS ON PART OF DEAD GIRL

Guests Mingle in Dress Suits and Pajamas as Fancy Moves Finds Victim Stripped and Dying in Suite

SAN FRANCISCO, (P)—Alfred Sennacher resumed the witness stand today in the police court examination of Benson O. (Pat) Arbuclle on a charge of murder in connection with the death of Miss Virginia Rappe, motion picture actress here following a party in Arbuclle's suite in the Hotel St. Francis on last night. Today's court session will be about two hours during which Sennacher's testimony will be completed, it was announced.

Arbuclle is cheerful when he came into court. He greeted newspapermen with an amiable "Good morning." His wife and her mother sat beside him.

Sennacher testified Miss Rappe was in good health until she was found in distress in Arbuclle's suite. He denied he had seen Miss Rappe with her hair down standing in a doorway in the Arbuclle suite saying "Look here, boys."

Sennacher said the night Miss Rappe died he saw Arbuclle, Fred Fischbach and Lowell Sherman, who attended the party in Arbuclle's suite, and a woman, a woman in a blue dress, who was identified as Miss Rappe's death was discussed as an "unfortunate accident" which after they were drinking party at the St. Francis, Sennacher said he had Arbuclle in his apartment with Sherman, Fischbach and the comedian Harry Moran, Fischbach and the comedian Harry Moran, Fischbach and the comedian Harry Moran.

BOND MARKET IS INVITING SAYS FAMOUS STATISTICIAN

Era of Lower Money and Higher Securities Prices at Hand—Long Time Investments are Sought by Capital—"Callable" Feature Marks New Issues—Better Business on Way

By Special Arrangement with Babson's Statistical Organization, Wellesley Hills, Mass.

(Note—This is the second of a series of articles on the state of trade prepared by the famous statistician and expert for publication on each Saturday exclusively in this part of northern Idaho, by The Twin Falls News.)

(All rights strictly reserved.) WELLESLEY HILLS.—Business today is dragging on bottom—our index figure standing now at 100 points below normal compared with 100 points above a few months ago. This means that we are in the sixth period of the Business Cycle, and that a period of lower money and higher securities prices is at hand. When interest rates are low bonds are high priced so that they yield at the present rate of interest. Likewise, when interest rates are high, as at present, bonds are cheap, so that they yield a high rate of interest. When interest rates are low, as they were a few years ago, one should buy short time bonds because it is not advisable to tie one's money up for a long time at a small return. Today, however, when interest rates are high, the best investment is buying a long term bond as they can possibly get. Rocketteer, Morgan, Mellon and the other rich men of the country are making long term investments and buying not only bonds that pay a high rate of interest but bonds that do not become due for 20 or 30 years.

Old Issues Still Good. Investors who have trouble in finding new high rate long term issues will remember that the "callable" features should revert to their old friends, the three, four and five per cent bonds that were put out in 1909, when money rates were low. When companies could borrow for three, four or five per cent they made the bonds just as long term as possible, as they did not intend to pay in any chance in the plant. For instance, the Northern Pacific Railroad company three per cent bonds do not become due until the year 2009, when most of the good railroad bonds were put out for periods of 20 years. As these bonds can now be bought at a discount to 90 to yield five or seven per cent, they should not be forgotten. A \$1000 3 1/2 per cent bond at 90 which means that it can be bought for \$900 is a better investment than a 7 per cent \$1000 bond at par.

New Issues Have New Features. Recently I have been hunting such good issues for some very careful investors who are looking for the best features that most of the new issues have "callable" features. Many of these issues are callable at any time, after five years, at par or a small premium. The bonds have a great big six, seven or even eight per cent on them and the date when due, 20 or 30 years hence, is a long time. This gives an investor to understand that he will get the high rate of interest for 20 or 30 years. Careful examination of bond, however shows that in very many types

JAPAN WILL SEEK LEAGUE MEMBERS MANDATE VIEWS

Tokio Decides Upon Consultation with Associates at Geneva in Reference to Claims of United States

STUDIES CONTENTION FOR LAND OWNERSHIP IN YAP

Newspaper Comment Indicates Changing Decisions and the Tendency to Follow Other Nations' Lead

TOKIO, (P)—Japan will consult with other members of the league of nations relative to the issue of the United States to receive equal treatment in mandate islands of the Pacific as a feature of the settlement of the Yap question, it is said by newspapers here. Japan will also study the American claim to land ownership in Yap, as foreigners do not have the right to land ownership in Japanese territory. Figures Cited at \$2,000,000.

It is estimated that this country's expenses at the Washington conference on limitation of armaments and for Eastern questions will be about two million dollars. Government leaders believe the conference will be in session for two months.

Definite decision has been reached that the chief members of the League of Nations will call for the United States on board the steamer (Kashima Maru, on October 25.

Another meeting of Japanese field marshals and the supreme war council has been held and the newspaper says:

Japan will maintain her already settled principle of national defense and no change of attitude will be made until the time arrives when international dispute and trouble can be settled without relying upon, or resorting to, the use of arms. This is the basis of Japan's partition of national status, and the situation which exists in surrounding states.

INDICATES NEW DECISION

This would indicate a change from the previously announced decision of Japan, which supported in principle, the maintenance of 21 army divisions. It would seem she would be disposed to follow other nations in actual reduction.

SENATE TAX MEASURE ADDS \$84,000,000 TO REVENUES

Assumes Reduction of All Expenditures of Government to \$3,500,000,000 in 1923

COMMITTEE COMPLETES ITS WORK ON BILL AND REPORTS IT TO SENATE

WASHINGTON, (P)—The tax revision bill as reported by the senate finance committee is estimated to yield \$3,224,000,000 this fiscal year, or \$84,000,000 more than the measure passed by the house, says the majority report on the bill approved and made public today by the committee.

For the next fiscal year the report says, the bill should yield \$2,735,700,000 an increase of \$170,000,000 over the budget total. This program, it is added, assumes that for the fiscal year 1923 the total ordinary expenditures of the government will amount to approximately \$3,500,000,000 as compared with \$4,034,000,000 this year and \$4,316,000,000 in the last fiscal year.

INDIANS CRUSH YANKEES WITH 9 TO 0 SCORE

Forty Thousand Spectators See Ule Turn Home Folks Back from Plate and Even Up the Series Again

FINAL SCORE. B. H. E. Cleveland 9 2 9 New York 0 4 2

POLO GROUNDS, (P)—The Cleveland Indians crushed the Yankees by a score of 9 to 0 today in the "little world series" and the series is all over again, each club having won one game. Forty thousand spectators saw Ule turn the home folks back from the plate by hitting giving them but four hits during the game.

The left-hander, Harpo, put the Yankees in the hole in the fourth inning by leading up the bases with extra to the Clevelanders and then Evans cleared the bases with a two base crash. The Yankees used Pitcher Harry Harper in an attempt to repeat New York victory of yesterday. Ule pitched for Cleveland.

The hitting order: Cleveland—Evans, I. Miller, G. Beckinbaugh, S. Speaker, C. Mays, J. Gardner, J. Sewell, S. Burns, I. C. Harper, P. Ule, P.

First inning: Cleveland—Evans fouled out to Schang, Wambly flied to Miller. The crippled Speaker got a great hand when he came to the plate. Speaker pitched a weak fly to Ward.

New York—Speaker made a nice catch of Miller's drive. Peck singled to center with the count 3 and Ruth pitched for Cleveland.

New York—Speaker made a nice catch of Miller's drive. Peck singled to center with the count 3 and Ruth pitched for Cleveland.

Second inning: Wood lined out to McNally. McNally took Gardner's hole. Pipp tossed Sewell's hopper to Harper in time to get the bases. Harper was spiked by Sewell.

New York—Ward was thrown out at first by Gardner. McNally slashed a drive into center. Schang walked on fourth pitch ball. Wambly threw out Harper at first. Miller walked, filling the bases. Peck forced Miller at second. Sewell to Schang.

SALMON SECTION ASKS GOOD ROADS

Demand Made for 22 Miles of Gravel Highway—Secession is Proposed

Unless the Twin Falls highway commission will grant the case of a petition contemplating construction of 22 miles of gravel road from Knoll to Rogerson mechanics and farmers of the country south of the high line will petition higher authorities for the right to create a new highway district.

This announcement was made this morning by a delegation of 50 men representing interests at Rogerson, Holladay and Knoll, who met at the Knoll salmon district, as well as all the land holders en route, at a meeting of the board of highway commissioners. The announcement grew out of discussion of an old petition asking for the building of a surfaced trunk highway between the points named, passing through Hollister.

Mr. Langford, representing Rogerson town interests, and Homer Green for Hollister, were the principal speakers in favor of the petition, though many of the farm interest representatives of the petitioners, that while bearing one-fifth of the cost of construction of road in the district immediately contiguous to Twin Falls, the new petition for the new petition has been benefited to the amount of \$50,000 in road building.

In case of rejection by the commission of the proposition the petitioners announced they will ask that all the district south of the high line, below townships 10 and 11 to the Colar Creek section, not including the Roseworth section, will be segregated to form a new highway district. In case of severance the Twin Falls district would be short of four million dollars value in property. Statement was made by representatives of the petitioners that while bearing one-fifth of the cost of construction of road in the district immediately contiguous to Twin Falls, the new petition for the new petition has been benefited to the amount of \$50,000 in road building.

While Yale is limbering up at New Haven against Bates, Harvard will undergo something of a gridiron novelty—a doubleheader in which the teams of Middlebury college and Boston university will be played.

Brief Bits of Sport

Both big leagues are racing to the finish of the season. Then comes the big championship series between the flag winners of the major circuits. The world's title tilt starts October 5, and whether it be between the Giants and the Yankees or the Indians largely depends on what happens today between the Indians and the Yanks on the latter's field. Outside of the present series on the Polo Grounds, Cleveland has four games to play in Chicago, beginning September 29. The Yankees play one game October 1 on their own field with the Athletics, entertain the Red Sox on the same lot on October 5, and play two games at Shibe park, Philadelphia, September 29-30. The News will give world series fans the same efficient inning by inning service of the world series as in former years. The report will be read as it

Now it is the Piedmont league that has a prominent dispute because of alleged violation of rules, the claim being that High Point, which presumably won the second half, has used more than two players who have been service in a league higher than class C, which would be against the league regulations.

They estimate in Philadelphia, that Babe Ruth, after getting his fifty-fourth home run there, did not try to break his record, hoping to give the

fans at the Polo Grounds that treat him as a saint reasonably, for Babe is out after all the homers he can get and he doesn't care where he makes them.

A Grand Rapids critic, commenting on the victory of the Central league season, says: "Sixth place in what one of the fans calls a 'class ZZ league' is a better job to swallow for a town that used to win pennants in a class A circuit." MINERS' UNION TO MAKE FIGHT ON INJUNCTION

Convention Directs Officers to Resist Issuance of Restraining Order when Adjudgment is Ruled Out

LEWIS DENIES HEARING TO STRIKE SUGGESTION

Green Tells Delegates "Heart and Soul" of Organization is at Stake in Suit Instituted by Operators

INDIANAPOLIS (AP)—After President John L. Lewis had ruled on a proposal that the convention of the United Mine Workers of America adjourn and "go home and prepare our fighting lines," the delegates today voted unanimously to instruct the international officers to use every lawful means to resist the issuance of an injunction against the union, sought in a suit filed in the federal court here yesterday.

Another proposal that the miners go on strike and remain idle until the suit was withdrawn from the courts, was also ruled out of order by President Lewis.

The Borderland coal corporation, which brought the suit in behalf of more than eight other operators, served notice today that it would make application on October 13 for a preliminary restraining order against the union and its officers before the federal convention of the miners was set aside while William Green, international secretary-treasurer, told the delegates that the "very heart and soul" of the union is at stake in the suit.

Samuel Gompers, president of the American Federation of Labor, who also addressed the convention, said the injunction, if granted, would enjoin all activities of the miners, and turning to President Lewis, he added: "John, in defense of that principle, I would like to vouch you in jail. The delegates showed their approval. Mr. Lewis arose, declaring: "I have every expectation that Mr. Gompers will be respected that privilege."

WHEAT PRICES BREAK AT MARKET SESSION'S CLOSE

Trades Finishes Unsettled with Quotations 1 to 1 1/4 Off from Opening Figures

CHICAGO (AP)—Wheat opened about steady with prices the same to a fraction higher than yesterday's finish. The market was mainly of local character. The uncertainties in wheat was rather firm with sentiment rather bullish but there was very little early outside buying. There was a small advance shortly after the opening but a majority of the bid element appeared to be writing developments. After opening at \$1.27 for December and \$1.31 1/2 to 1.32 for May, the market made a slight rally but had reverted to around opening figures at the end of the first hour. There was a break right at the finish and the close was unsettled with December 1 to 1 1/4 off opening figures at \$1.25 3/4 to 1.26 and May 1 3/4 to 2c off the opening at \$1.29 3/4 to 1.30. Corn showed some strength early but the market held within narrow limits. Corn started unchanged from yesterday's close with December at \$2 7/8 and May at 57c but the market rallied and gained a shade but the wheat dropped and at the end of the first hour was a shade off the opening. Corn also was slightly weaker at the finish, being 3/8 to 1/2c off, and May at 52 1/2 to 53 5/8c. Oats were steady, December opening unchanged from last night's close at 32 3/8 and May showing a shade advance with 45 1/2c. Cash Quotations: CHICAGO (AP)—Wheat No. 1 hard \$1.28.

Corn No. 2 mixed \$3 1/2 to \$3 3/4; No. 2 yellow \$3 3/4 to 54c. Oats No. 2 white \$3 1/2 to \$3 1/2c. Eye No. 2 \$1.04 1/2. Barley 55 to 60c. Timothy seed \$4.25 to 4.75. Clover seed \$12 to 18. New York Stock Market: NEW YORK (AP)—Popular stocks, especially rails, were inclined to make further upward progress today, but the usual closing of weekly accounts together with heavier foreign exchange exerted a restraining influence. Royal Dutch declined almost five points, Mexican Petroleum 3 1/4 and General Asphalt 1 1/2. Sumatra Tobacco continued to weaken on its unfavorable financial showing. Rails were 1 to 3 points higher at their best, but yielded practically all their gains in the final hour. All other domestic stocks and obscure specialties made irregular gains. The closing was heavy. Sales approximated \$20,000 shares. Rails continued to feature the upward trend of stocks at the opening of this week's session, low grade as well as dividend paying issues extending their recent gains. Cleveland, Cincinnati, Chicago and St. Louis opened at a two point advance, soon increasing the advantage by another point. Missouri Pacific preferred rose one point and fractional advances marked the further buying of Southern Pacific, Union Pacific, Northern Pacific and St. Paul. Oils and copper also were irregularly higher with shippings and tobacco. Royal Dutch was the only prominent exception to the general movement, retreating two points. Liberty Bonds: NEW YORK (AP)—Liberty bonds closed 3 1/2 to 3 1/2c first \$89.60 bid; second 4c \$89.20; first 4 1/4 \$89.20; second 4 1/4 \$89.20; third 4 1/4 \$89.74; fourth 4 1/4 \$89.34; Victory 3 3/4 \$89.30. Sugar: NEW YORK (AP)—The raw sugar market was quiet and unchanged at \$4.13 for Porto Rico centrifugal and \$4.86 for Cuba with no sales reported.

ATLAS SPIRAL PISTONS

are scientifically designed, accurately machined and are the lightest successful cast iron piston on the market. Primarily designed as a replacement piston, they can successfully be installed in lieu of either aluminum or heavy cast iron pistons and should be specified by those desiring a superior piston.

DOES YOUR MOTOR

foul the spark plugs with carbon and oil, smoke, refuse to run steadily at low speed and is it hard to start? Undoubtedly the cylinder walls are scratched or scored or out of round and they should be reground and refitted with new over-size pistons, new rings and wrist pins. We have the very latest and best equipment in southern Idaho and are able to take care of any grinding job, regardless of size. We employ several machinists and are in position to turn out rush jobs in very short time. We guarantee that they will give perfect satisfaction. PISTONS—PINS AND RINGS IN STOCK

THE NEWS SUNDAY SERMONETTE

By CHARLES GLENN BAIRD, M. A. Rector, Church of the Ascension, Episcopal

FELLOWSHIP... Ephesians 2:10: "Now therefore ye are no more strangers and foreigners, but fellow-citizens with the saints, and of the household of God..."

One idea—probably more prevalent and potent throughout the world today than any other idea—is fellowship. Men never had the universal fellowship of which we speak at this time when they were first on the face of the earth...

Today the Christian church presents itself to the world as a brotherhood. It is the indispensable condition of human fellowship. The secret of life is the indivisible fellowship—fellowship with God and with our neighbors.

The church insists that industry is not a conflict but a fellowship. Every trade and profession ought to be producing something which men want and ought to want; and so far each is doing service to the community...

Nothing but the spirit of Jesus can develop a fellowship and brotherhood among men that is real and lasting. No other instrument, no device of the world, no theories of economists or social reformers can, by themselves, bring us near to the Kingdom of God...

# FUND CANVASSERS CONTINUED ANOTHER WEEK

## Organization Just Beginning to Show Class—Will Go Over Sure, Belief

Although canvass for rail building funds has been eminently satisfactory in the past two days, and results gratifying, the committee is desirous of carrying on during the coming week to bring the drive to a successful close.

"We found by experience that our organization could not be perfected into a hard-working unit in the time allotted and, as a consequence, we decided to carry on during the coming week. By the end of that time I am sure the block and section canvassers will have completed their job to the satisfaction of all concerned."

Organization Just Beginning to Show Class—Will Go Over Sure, Belief

Decision to continue the drive was brought about through failure of the week's activities to reach the goal. However, given rise to the belief that the canvassing organization will carry on operations under steam of its own impetus for more for the chance to dispose of their hay to better advantage."

Demostriate intense interest in the success of the railroad project in the Twin Falls district south to Wells the San Francisco Chamber of Commerce this morning sent the following telegram to the Twin Falls Chamber of Commerce:

"The members of San Francisco Chamber of Commerce engaged in buying mill and sporting grain and grain seed for the purpose of opening new territory available to this market and the San Francisco Chamber of Commerce reaffirms its position and requests the producers and merchants of Idaho that San Francisco buyers will enter that market with keen competition for all products of field, forest and mine. Our wholesale merchants will likewise enter the territory thus opened by this new line. Your people are assured of our kindly interest and cooperation."

## SIGNERS OF OLD NOTES ARE ASKED TO EXCHANGE

### Subscribers to Railroad Drive Invited to Substitute New for Old Form

At a meeting of chairman and workers in connection with the railroad drive held last evening it was decided to ask that all those who have signed notes for pledges under the old form of security take steps to retire those through the signature of the new form of security. This will be done at the Idaho State bank upon application to Clarence N. Beatty, treasurer of the fund. Cash payments where such have been made may be taken back by subscribers at the same time.

## AIKEN SEEKS POST AS INSURANCE FUND HEAD

### Twin Falls Man Applies for Position to be Vacated by D. W. Uhrich

George D. Aiken of Twin Falls, representative of the state insurance fund in southern Idaho, has applied for the position of director of the fund made vacant by appointment of D. W. Uhrich as president of the fund. Aiken's testimonials to succeed the late Charles E. Elmer. According to the statement of Governor Davis Friday night, an answering Mr. Aiken's application has been received. Mr. Church is to take up his new duties on October 1.

# POPULAR INTEREST FOCUSES ON SELECTIVE OF JURY AND TRIAL PROCEDURE IN SOUTH CASK

## Counsel for Either Side Express Confidence in Outcome as Opening Day of Trial Approaches—Legal Battle in Prospect Over Probable Effort to Introduce Evidence of Other Deaths Attributed to Accused Woman

With the stage set for the opening of the trial of Mrs. Myra Meyer Southard on the charge of first degree murder of her former husband, Edward F. Meyer, here last September, popular interest focuses for the moment upon the selection of the jury and upon the probable effort of the prosecution to introduce evidence relating to the deaths of three former husbands and a brother-in-law of Mrs. Southard when she is openly alleged to have poisoned.

### Both Sides Confident

On the one side of it is conceded to be the most important criminal trial in the history of the Twin Falls county at least, counsel both for the prosecution and defense express confidence in winning the verdict. W. F. Guthrie and E. C. B. Williams, who with D. B. Hicks and A. J. Meyer are associated as counsel for the defense, declare that there is no possibility of conviction, while prosecuting attorney, Frank W. Bingham, is equally confident of a jury acquit the accused woman after hearing the evidence the state has gathered. Roy L. Black, Idaho state attorney general, and A. H. Walters, former judge of the Fourth Judicial district, are associated with Mr. Bingham in the prosecution of the case.

### Many Witnesses Cited

The state has cited 134 witnesses to appear. The list includes Mrs. Southard's parents, Mr. and Mrs. W. J. Trumble, Mrs. A. H. Walters, former Vincent Southard, a petty officer in the United States army, besides the two chemists of Idaho and Utah and the doctor of the latter state.

### Special Prosecutor

Because of the exceptional character of the case and the high public interest that has been created by it, the Associated Press and other news agencies have arranged for special service covering the details of the trial all over the country. Several newspapers will be represented by their own staff correspondents.

Candidates for Jury. From the following list drawn up from the jury panel, attempt will be made to obtain a jury of 12 for this trial: Ern Hershey, P. H. Decker, R. H. Heston, Thomas D. Fritch, H. C. Stocklin, L. C. Brown, R. C. Winans, A. M. Vance, H. M. Holler, David Here, W. F. Mickrell, H. North, W. F. Parker, M. A. Thomas, Will G. W. Brown, Louis Harrell, George E. Francis, A. A. Davis, Stacey Simpson, W. E. Sanger, Peter Link, William Austin, James Fitzgerald, Ezekiel Murrin, George H. D. Williams, R. H. Brown, B. Coe, C. A. Bulman, C. A. Jackson, C. A. Dickford, F. A. Bowman, E. F. Moore, L. G. Hull, C. C. Karl, W. G. Brown, Lewis Harrell, George E. Fritch, W. F. Foster, A. G. Venable, J. D. Zullinger, J. R. Stone, L. W. Rawlins, Guy A. Conan, James Hall, E. M. Baird, Jess G. Eastman, E. L. Harrell, R. H. Brown, L. C. Stocklin, J. P. Harris, C. D. McKelvey, R. T. Graves, Sam Gamble, L. J. Miller, William Walter, W. M. Richardson, David Link, E. B. Williams, Fred E. Heston, H. L. McKintire, Art Nelson, R. C. Moore, G. H. Self, George McPherson, W. R. Letsch, D. E. Chapman, M. F. Wright, J. B. Doherty, A. M. Simpson, Arthur E. Schellen, Edward H. Crawford, L. T. Wright.

### Other Crimes Alleged

The state's action is based only upon the alleged murder of Edward F. Meyer, fourth husband of the defendant. It is expected to be the principal point at issue. Mrs. Meyer Southard is openly charged by authorities of carrying the death of four and possibly five other persons by Meyer. These were the woman's husbands.

Authorities say Mrs. Southard's first matrimonial venture was her marriage to Robert C. Dooley, a farmer, in Twin Falls, Idaho, in 1904. Dooley died in a hospital here October 1, 1915, typhoid fever being assigned as the cause. A child was born to the Dooleys but it died at the age of two years, typhoid being given as the cause of the death. Suspicion has connected the woman with causing the death of the child.

Mrs. Southard's second marriage, to

officials assert, was in June, 1917, to William G. McElfaffie, a waiter. On October 22, 1918, McElfaffie died at Hurdin, Mont., supposedly from influenza and diphtheria.

Next Mrs. Southard married Harlan C. Lewis, a Billings, Mont., automobile mechanic, at Denver, March 10, 1919. Meyer, a ranch foreman, at a Twin Falls hospital September 7, 1920, less than a month after his marriage. An autopsy revealed traces of poison.

Meyer, a ranch foreman, at a Twin Falls hospital September 7, 1920, less than a month after his marriage. An autopsy revealed traces of poison. Prosecutor Stephen has stated that he has in his possession evidence which will establish that poison caused the deaths of the two Dooley boys, McElfaffie, Lewis and Meyer. Stephen said the bodies of the first four men were exhumed and the contents of their stomachs analyzed by Herman Harms and Edwin P. Rosenbluth, state chemists, respectively of Utah and Idaho and deadly poison found. In each case, he declared, the poison was the same.

In two cases, authorities say, Mrs. Southard had collected insurance on her husband's life. The policy on McElfaffie's life was allowed to lapse through non-payment of a premium. Meyer, the fourth husband, carried \$10,000 insurance which was increased from \$2000 shortly before his death but no attempt was made by his wife to collect it before she left Twin Falls.

### Ends Long Pursuit

Shortly after the death and burial of Meyer last fall the widow left Twin Falls. When it was finally determined to bring an action which charges her with the murder of the woman left the authorities, headed by V. H. Ormsby, deputy sheriff, a wild-o-man chase over a trail led her through the mountains of southern Idaho, and finally ended in arrest of the woman in Honolulu last June.

## BELIEVE VAN EATON'S BODY IS RECOVERED

### Conditions at Salmon Dam Indicate Early Recovery of Murderer's Remains

Answering a call from a special watchman at the Salmon dam Sheriff E. R. Sherman and Deputy Sheriff R. S. Hamilton went to that place this morning to resume dragging operations for the body of Sylvia Van Eaton, alleged murderer of his sweetheart, Dolores Weighlin, at Contact three weeks ago. The man is believed by authorities to have drowned himself in the waters of the reservoir.

Sheriff Sherman late yesterday received information that unusual conditions on the surface of the water induced the belief that the body is slowly rising. It is stated that gas bubbles, appearing for the first time two days ago, have gradually increased in number and size, indicating decomposition of the remains. The sheriff and deputy are using grappling hooks in an effort to pick up the body.

Belief that an Eaton drowned himself is based upon the fact that some of his personal effects, together with a note scratched on a leather legging, on the wall of the dam.

A regular meeting will be held Monday evening by Camp No. 605, Woodmen of the World, in L. O. O. F. hall.

## CATTLE BUYER TELLS OF RAILROAD POSSIBILITIES

### Offers Concrete Example of Saving to Stockmen in the Twin Falls Country

That an overland drive of 80 miles from Oakley to Kellon, Utah, saved 50 cents per hundred in freight, on 5000 cars of California hay a day or two ago is the statement of Frank E. Hickey, representing a California and Nevada cattle company made to Charles N. Beatty here yesterday.

Mr. Hickey bought 5000 tons of cattle at Oakley and 2000 at Three Creek and wanted 2000 more. The cattle were consigned to San Francisco by reason of the freight saved through the shortened railroad haul the sellers were paid 60 cents per hundred more than they would have received by shipping either to Omaha or Chicago.

Mr. Hickey states that a railroad connection between Rogerson and Wells, Nevada, would mean an even bigger saving to cattle growers of both Idaho and Nevada and that in his judgment such a line would result not only in providing a better market and better prices for stock but would permit the raising of thousands of head of the animals in the Twin Falls country.

San Francisco packing interests are being represented by a party from 30,000 to 50,000 head of cattle and from 150,000 to 200,000 hogs a year. While here he also bought two cars of wool at Oakley and one at Twin Falls for shipment to San Francisco.

## EARL FRUIT COMPANY SELLS LOCAL HOLDINGS

### Produce Concern's Business is Disposed of to Harmon & Welnberg

L. T. Hubbard, representing the Earl Fruit company of the Northwest, yesterday closed a deal that transferred the title of the company's holdings in Twin Falls to the firm of Harmon & Welnberg.

The Earl Fruit company has headquarters in Spokane and has operated in Twin Falls for several years prior to this season, having erected and equipped their packing house at the corner of Second street and Fifth avenue south.

Mr. Hubbard states that their decision to withdraw from the field was induced by the distance between Twin Falls and Spokane and the adverse freight rates which affected their operations. The Earl Fruit company packing firm has had the premises under lease this season, and will continue to conduct a business of packing and shipping fruit at that location.

## TWIN FALLS STUDENTS ENTER WESTERN SCHOOL

### One Delegation Already Gone to Leland Stanford, Another Packs Up for the Trip

The opening of the year's work at Leland Stanford University on October 1 will take several Twin Falls young people from home during the next few days. Miss Phyll Hunt left this morning for the university, having spent a year in the institution. Chester Wyl expects to leave Sunday morning and will be joined in Salt Lake by Ted Bowen, who has spent the past few days in that city with relatives.

Mr. Wise was a student in the university last year, and Mr. Bowen is this year a junior and is majoring in law. Cecil Marquis left Thursday, going by way of Portland. This is his first year in Leland Stanford where he expects to enter as a sophomore, having been in the University of Oklahoma last year. Tom Twiss left last week on his senior year. He is majoring in journalism. John Jarvis will leave on Wednesday.

### TEACHERS' EXAMINATIONS

Miss Edithmott Wolfe, county superintendent, is conducting a special examination of teachers in room No. 201, high school building. There are 34 candidates taking tests for endorsed state certificates.
