HARDING ASKS INQUIRY INTO LACK OF JOBS

Sets Up Goal for Attainment of Conclude in Opening National Unemployment Conference Sessions

PUTS FOOT DOWN UPON RAID ON PUBLIC FUNDS

Tells Delegates Other Nations Await Outcome of Their Effort to Solve War Inheritance Problem

WASHINGTON, (AP)—The national unemployment conference completed its first session today with the adoption of its organization committee report...

WASHINGTON, D. C. (AP)—The national unemployment conference, which the administration hopes will evolve means of putting the nation's involuntary idles back to work, was formally opened here today by President Harding.

Addressing the half hundred industrial economists and labor leaders comprising the conference, the president described the present industrial depression as a war in which the nation's resources are being applied to the United States, he added, he would have little enthusiasm for any proposed scheme from the public treasury.

Belief was expressed by the president that the results of the conference would be felt beyond the borders of the United States and that the delegates from its sister nations would be performing "a service to the world."

Condition of the world, "Fundamentally sound, financially strong, industrially unimpeded, commercially consistent and politically untroubled," the president asserted, "there ought to be work for everybody in the United States who chooses to work, and that the country should be in our condition at least as early as possible."

Belief was expressed by the president that the results of the conference would be felt beyond the borders of the United States and that the delegates from its sister nations would be performing "a service to the world."

Legal Mills In Motion in Case of Alleged Murderess

Work of Selecting Jury to Pass on Guilt or Innocence of Mrs. Southard Goes Forward

ACCUSED WOMAN LOOKS WORN AND TIRED AS CRUCIAL ORDEAL BEGINS

Before a crowded courtroom with the largest array of legal talent ever drawn together in Twin Falls county, the case of the state of Idaho against Mrs. Lydia Southard, charged with the murder of her fourth husband, Edward F. Heroy, opened here this morning.

Interested at this time centers in the selection of a jury, the impression being many court attendants being that this phase of the case may occupy six days or more.

Paul Vincent Southard, husband of the accused woman, stated this morning that his wife was in excellent health, sleeping and eating well and spending much of her time in the perusal of magazines.

Cleveland Players Knock Quinn Out of Box in First Inning but Ruth Starts Things for New Yorkers

THE SCORE: Innings—1 2 3 4 5 6 7 8 9 Cleveland.....1 3 4 6 7 8 9 New York.....1 0 5 2 8 3

POLIO GROUNDS New York, (AP)—The Cleveland Indians with all their weight on made their last ditch fight against the New York Yankees today in the last game of the "little world series." A defeat for the tribe meant practically a hopeless fight for the American league championship while a victory would enable the Indians to battle the Yankees down to the last scheduled contest for the honors of the pennant race.

Babe Ruth hit his fifty-eighth home run and his second in the fifth inning over the right field stands. This was a new world record. Peckinbaugh was on first at the time.

PREMIER HARA HOLDS CABINET IN FIRM GRIP

Friends of Japanese Prime Minister Deny Possibility of His Being Overthrown by Political Opponents

TOKIO, (AP)—Friends of Takahashi Hara, Japan's prime minister, say that far from being overthrown by his political opponents, he seems every week to be getting a stronger grip upon the empire, and now stands forth a powerful dominating figure, like Clemenceau and later, Briand in France, and Lloyd George in England.

Never Loses Calm

Hara, the imperturbable, some one has styled him. His smooth-shaven, smiling face seems crowned too young with pure white hair. He never loses his calm even when opponents of his cabinet finally depart for a moment from traditional oriental impassiveness when some such event as, for example, the American suggestion to discuss Far Eastern relations, comes unexpected and perhaps, undesired.

At cabinet councils he is said to impose his will like a Napoleon, and like Napoleon he is almost but free once a day. It is a most common opinion among Japanese that he is the man who decides almost all important issues coming before the cabinet, other ministers merely serving as secretaries, as automatic as he is in the handling of the government affairs. Japanese attribute his domination of his cabinet to his indomitable will power and political sagacity or cleverness.

Breeds Analysts

There is a saying that to understand Japan's foreign and domestic policies, one needs to understand Takahashi Hara's character, but Mr. Hara is not a personality to be understood easily. He always keeps his plans to himself and very few of his ministers or close associates know anything about his intended move until the last moment. It is believed that it was Mr. Hara, and not the home minister, who recommended that drastic steps be taken to handle the labor situation in Kobe, when the issue was brought up for a final decision of the cabinet and his word became law whether good or bad.

Reporters find Hara a hard man to interview. He is cautious enough, but his flashes of humor disturb them. Some of them tried to get him to talk about the Washington conference the other day. He opened for a while and then added: "Now let's stop talking shop. I don't like to talk every day about such dry subjects. I feel in heaven when I return to this nice city of mine." This was a reference to Morioka where he was visiting.

Five Hours' Sleep

"How about my health? It's fine. If I only get five hours sleep, which is hard enough to get these days, Mrs. Hara is recovered—may be because she has stopped smoking."

THIEVES TAKE SACRED BAMBINO FROM CHURCH

Hundreds of Devout Persons Join in Search for Missing Infant. Capture Leads to Recovery

ROME, (AP)—The "Sacred Bambino" of the church of Holy Mary of the Victory has been stolen but recovered. It is the revered image of the infant Jesus by Praga and is believed by many Italians to possess miraculous power of effecting cures among the people who worshipped at its shrine.

So revered was that number of pieces of jewelry were placed at its feet, draped about its body and placed in close proximity to it as marks of gratitude from the faithful who were convinced they had received healing.

One morning lately, the thieves gained access to the altar where the "Bambino" is placed and made away with jewels and everything.

Discovery that the adored image was not at its accustomed place was the signal for a general alarm and hundreds of devout persons in the neighborhood of the church made their pilgrimage to the altar to pray for the restoration of the "Bambino."

During the day, one of the thieves was caught and this led to recovery of the revered "Bambino."

The Church of Holy Mary of the Victory was erected to commemorate the victory of Lepanto, when the Christians defeated the Turk at sea. It is just in the shadow of the American embassy.

BROOKLYN FIGHTER SETS HEART ON DOUBLE GOAL

Harvey Bright Hopes to be Practicing Expedition and Featherweight Champion Within Two Years

NEW YORK, (AP)—Harvey Brotman of Brooklyn, known in the world of pugilism as Harvey Bright, has a dual ambition for the achievement of which he sets himself a limit of two brief years—to become a practicing physician and featherweight boxing champion of the world.

In a little more than a year, during which he studied medicine, Brotman has fought his way up through 28 fights, encounters to a position which, it is said, places him in line for a match with Johnny Kilbane.

In 1915 Brotman, then a high school graduate, became physical culture instructor in a New York school. With the passage of the Walker bill legalizing boxing in the state, he turned professional pugilist with such success that his income from his first year's efforts as a boxer is said to have been nearly \$20,000.

IMPORTANT MEETING OF UNITARIANS SCHEDULED

Changes in Church Government to be Considered at Conference at Detroit

DETROIT, Mich., (AP)—Important changes in the government of the Unitarian church are to be discussed here at the twenty-third biennial conference of the church October 4-7, inclusive, according to announcement of church leaders. The meeting, to be attended by about 700 delegates from the United States and Canada, is described in the official call for the conference as "one of the crossroads in American Unitarianism."

Chief Justice William Howard Taft of the United States supreme court, president of the conference, will deliver one of the chief addresses. "The Defects and Remedies of the Congregational Policy," and "The Obligations of the Church in Schools and Colleges" will be two of the chief subjects discussed during the conference. Plans for continuation of the Unitarian religious and educational campaigns also will receive attention.

Among the leading speakers on the conference program in addition to Justice Taft are William Wallace Faxon, D. D., editor of Harvard Divinity school; Dr. William L. Sullivan of New York City; Rev. John H. Lathrop of Brooklyn, and Rev. Sydney B. Snow of Montreal.

The delegates will spend one day of the session at the University of Michigan in Ann Arbor. Michigan is one of the five states chosen by the church as a center for increased activity.

SECRET SERVICE AGENTS WILL AID LOCAL POLICE

Chief W. J. Burns of Federal Investigation Bureau Announces Plans for New Activity

WASHINGTON, (AP)—Plans for the establishment of a federal bureau for identification here to aid local police throughout the country in tracing and identifying criminals were announced by William J. Burns, new chief of the bureau of investigation of the department of justice, in an address here before the International Association of Identification. The proposed bureau, Mr. Burns added, has secured the full endorsement of Attorney General Daugherty.

The bureau, Mr. Burns said, will be prepared to furnish to the police of any community identification data which are applied, such as finger prints, photographs, height measurements and personal descriptions.

"It is the desire of the attorney general to bring this proposed bureau to the highest degree of efficiency," said Mr. Burns. "After it has been organized we will co-operate with the police of every city and village in the country for the prevention of crime."

SCIENCE GAINER FROM MME. CURRIE'S VISIT

Discoverer of Radium Treatment Makes New Progress Following Trip to United States

NEW YORK, (AP)—Stimulated by the recent visit to the United States of Mme. Curie, the discoverer, scientist in this country are making new progress in treating cancer with radium, according to R. B. Moore, chief chemist of the United States bureau of mines.

The highly scientific treatment of disease by the use of radium, however Mr. Moore says, is successful only when applied with the greatest skill. "All cancer cannot be so cured, and it requires a skilled surgeon who thoroughly understands the proper dosage in order to get favorable results," Mr. Moore states.

"At the present time the United States produces more radium than all the rest of the world together." From the beginning of the industry in 1913 to January, 1921, approximately 116 grams of radium element have been produced in this country. Probably not more than 40 grams have been recovered from foreign ore since the discovery of radium by Mme. Curie.

Mr. Moore said that most of the domestic production of radium is from mines in Colorado.

Ghost Fails to Walk at Grave of Hamlet

COPENHAGEN, (AP)—Returning from a visit to Hamlet's grave, one of the American delegates to the International Psychic congress just held here said with evident regret that the forty delegates saw neither Hamlet's ghost nor the ghost of Hamlet's father strolling the historical ramparts of old Elsinore castle.

The president of the congress, Dr. Kurt Korsten, said that he was disappointed at the outcome of the congress. "We scientists," he said, "proposed to give spiritualists a fair trial to demonstrate the scientific basis of their claims. They have done nothing to convince anybody. They arrived without their mediums, bringing photographs only of their materializations. We demanded proofs but only got statements that it is not science, therefore we scientists must protest."

YANKS COMPILE REAL LEAD OVER TRIS' INDIANS

Nine Points Advantage Marked Up to Huggins' Men After Sunday's Rout

NEW YORK, (P)—With an advantage of a nine-point lead, and assured of at least an even break in the present series, the New York Yankees today met the Cleveland Indians in the fourth and concluding contest. The leaders won the first and third games, while Cleveland took the second. The visitors cannot wrest the American league leadership from the Yanks by a win today. A victory for the Indians still would leave the New Yorkers in the lead by one point.

In piling up a score that resembled a cyclone—six runs, five hits and 21 to 7—the Yanks yesterday established a season's record for runs scored.

CHESS CHAMPION CHALLENGED

NEW YORK, (P)—Frank J. Marshall, United States chess champion, today had under consideration a challenge for his title received from Norman T. Whitaker, of Washington. Whitaker finished second in the master's tournament at Atlantic City while Marshall tied for fifth with two other players.

Brief Bits of Sport

Even though the Yanks did compile 21 runs in Sunday's game with the Indians, that does not spell a pennant for the New Yorkers.

But it gives the Metropolitans a long lead toward the goal.

The Indians, however, cannot be counted out, and at this moment they look like the weaker outfit of the two contenders.

While in the National league the Giants, with a lead of 18 points over the second place holders, seem pretty firmly entrenched.

Clint Evans is experiencing hard luck getting games with south Idaho high school teams. Two outfits have flunked games scheduled for the early part of the season, asking postponements because of inability to get into contact for bringing titles.

Frank Moran must be hard up again. He has accepted a match with Black Jack Johnson for October 28, in Montreal.

Charlie Burns, of Boston, and Cliff

Lewis, of Twin Falls, are matched for a 30-minute handicap mat match in Boise tomorrow night.

Burns is said to weigh 185 and Lewis 150.

Fred Toney, who probably has been hit with more batted balls than any other pitcher in the league so far this season—possibly because he affords such an excellent target—was a band aid plugging to bat for a practice photo a recent game, but he didn't last long. The second man to face him was Irish Meusel. Fred threw a ball at Irish, who snatched it back at him, the pellet striking Fred in the left leg and almost bowling him over. For a moment, went back in the box, wound up and delivered another ball. Irish hit this one back at him like a shot, and Fred just got his hands up in time to save himself from decapitation. On meek alarm Meusel darted back of the screen, but had nothing to fear, for Fred, reasoning that discretion was the better part of valor, turned about and jogged off the field.

Hubert Pruitt, youngster from the University of Missouri, who recently pitched a no-hit game for Tulsa, belongs to the St. Louis Browns and will be called in at the end of the World league season. He is but 19 years of age. One of his college stunts was to pitch 23 innings without allowing his opponents to score a run.

Cosmic Mack killed the story that he had written Scott Perry asking him to rejoin the Athletics. Mack said he had not written a line to Perry, nor had he heard from him; furthermore, that he wouldn't have Perry back if he could get him, which he could not, because the pitcher being on the ineligible list for jumping without hope of reinstatement.

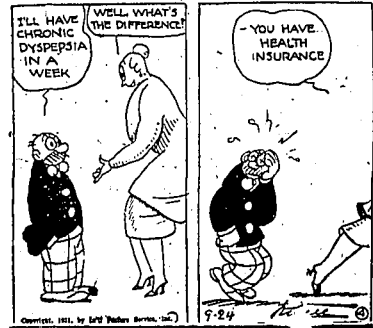

Zip Sloan, Pittsburgh boy, pitching for Hartford in the Eastern league for Hartford in the Eastern league, is to get a trial with the New York Yankees according to reports.

L. O. Meyers, former captain of the University of California baseball team, has signed a 1922 contract with the Detroit club and will report to Ty Cobb for a trial next spring. He is an outfielder.

The St. Louis and Chicago and Cleveland and Detroit teams in the American league completed their games scheduled with each other on September 8. The Browns won the final from the White Sox and thus made the record stand 15 to seven in favor of St. Louis on the season. Detroit overcame Cleveland in their final, but was far from an even break on the season, the Indians getting 13 of the 22 games played.

The St. Louis Browns have recalled Billy Gleason from Tulsa and transferred him to Columbus and to replace him with Tulsa Lake Stuart, the Virginia leaguer, has been shifted to Tulsa. Stuart, during his stay with the Browns achieved the distinction of hitting n

FENIAN DENIES LIBERTY ASKED

Recognition is Not Demanded as Condition to Conference, Griffith Declares

LONDON, (P)—British recognition of Irish claims of independence as a preliminary condition to a conference were never asked by the Sinn Fein. declared Arthur Griffith, a member of the delegation chosen at Dublin to confer with Prime Minister Lloyd George, in an interview with the Daily Mail's correspondent in Dublin. He added that entering the conference without previous guarantees or conditions would not imply British recognition of the Sinn Fein's claims.

"Our entrance to a conditions conference," he went on, "would not give Ireland any fresh international status."

"The Sinn Fein has offered to enter the conference for the purpose of finding a solution which would terminate the quarrel between Ireland and England. The only thing that mattered would be the final agreement."

GARDNER WRITES STORY OF ESCAPE FROM PRISON

Flighty Convict Admits Having Been Shot Twice by Guards in Letter to San Francisco Editor

SAN FRANCISCO, (AP)—Roy G. Gardner, of California and convicted felon, who escaped from the McNeil island, Washington, federal penitentiary on September 5, has written an account of his escape to George W. North, assistant managing editor of the San Francisco Bulletin, in which he admits having been shot twice by the prison guards. The wounds, he said, were about four inches below the hip and in the left leg below the knee.

Enclosed in his communication to Mr. North is a letter addressed to Deputy Warding which appealed for a pardon and an opportunity to "prove to the world that a criminal can reform and be an asset to society and a good husband and father. For ten days Gardner said he hid in the loft of the prison barn and nursed his wounds. He said he crept back to the barn about midnight on the day of his break from prison.

Gardner wrote that he had escaped to the mainland and since has been led back recovering from his wounds.

HARDING ASKS INQUIRY

(Continued From Page One)

that they were destined to perform world service, the president quoted "a distinguished foreigner" as having recently declared:

"Our President, our people are deeply interested in the American conference on unemployment, because our problem is akin to your own, and your relief is that which we need. I have added signal of hope from America to you and other peoples who are much depressed."

"That remark of a distinguished foreigner emphasized our responsibility," the president added. "If it be true that no citizen is without example to some one among his fellows, which I believe we are entitled to see in the nations, great and small, are influencing others in all they do."

World Wide Depression

"The industrial depression which we are feeling is an war inheritance throughout the world. We saw nothing new in that, that depression which is impelled by nations disparate in self-protection. From such a test there is inevitable reaction. * * * * *"

"We are involved there is no escape for any of the world from the torments of depression. Though we suffered less than many of those with whom we were associated, and less than any of those with whom we came in contact, it was inevitable that we experience the fever's aftermath and come to know depression before we could become normal again."

Liquidation, reorganization, re-adjustment, re-establishment, taking account of things done and sober contemplation of things to be done are the findings of the ground and the open, sure and onward way—all these are a part of the inevitable and he who thinks they might have been avoided by this plan or that or of this policy or that or of this international relationship or that, only bugs the definition, when reason is needed for a safe course."

Unemployment Always Present

"There is always unemployment. Under most favorable conditions I can tell there are a million and a half in the United States who are not at work. But there is excessive unemployment

today than we are concerned, not alone about its diminution, but we are frankly anxious under the favorable conditions less it grow worse, with hardships of the winter season soon to be met. The problem of unemployment is the most difficult with which we are confronted."

"But there are no problems affecting our national life and the welfare of America which we can not deal with until we have met the one which we will try to solve tomorrow. * * * * *"

"It is fair to say that you are not asked to solve any long controverted fever of our society. We have built the America of today and the fundamentals of economic, industrial and political life which made us what we are, and we have no regret in so making now. We are constitutionally strong. We are morally depressed after the fever of our society and we are confident and dependable convalescence. When we know the way everybody in America—capital and labor, employer and employee, capitalist and laborer, and the price is in the trougher we are over the top, in the advance drive of peace. Frankly, it is difficult to know whether we have reached that bedrock which our reaction runs before the upward course begins, but here are representative of the forces which will make for all we are or ever can be, and your course will be the reliable."

Festa Guard at Treasury

"I would have little enthusiasm for any proposal relief which seeks either palliation or tonic from the public treasury. The excess of stimulation which our reaction runs before the cause of trouble rather than a source of cure. We should achieve in a remedial way if we continued to exert a contributing energy."

"I am not my thought to suggest your life of conference. * * * * * I have wished to say to you that the people of the United States are very deeply interested in the unemployed, but all who are concerned for our commonwealth, and the world is looking on to find helpfulness in our American example."

Hoover Outlines Program

Secretary Herbert Hoover, speaking immediately after the president had concluded his address, declared the conference first should determine the volume, distribution and character of legislation which would be necessary to carry out a series of emergency methods to meet the present situation.

The commerce secretary expressed his belief in the Justice Department handling that the conference also should consider measures which could be utilized in event of recurrence of unemployment.

Remedies for the unemployment situation, Mr. Hoover declared, must not include any legislative program and there must be no strain upon the public treasury. The United States, he said, had so far escaped the doles and charity methods of foreign nations and should seek a mobilization of the cooperative efforts of manufacturers, employers, and public authorities to meet the situation.

Suggests Committee Organization

Mr. Hoover suggested that the conference in order to facilitate its work as an advisory body should be divided into committees which would report the various recommendations to the conference and that a committee on organization and program be appointed.

A motion that a committee on organization be named by Mr. Hoover was adopted and a committee of ten to be named to later was named by Mr. Hoover as follows:

J. Henry B. Robinson, Los Angeles; Charles M. Schwab, New York; Julius Harves, Buffalo; Mayor James Hazens of Detroit; C. W. Merriam, Chicago; Commissioner T. V. O'Connor, shipping board; Ira A. Turbell, New York; Samuel M. Lindsay, New York; Clarence Holt Wood, Detroit; and Matthew Woll, vice president American Federation of Labor.

The conference then adjourned to meet again this afternoon and the preliminary report of the committee which immediately went into session.

Ledoux at Capital

Coincidentally with the opening of the unemployment conference, Urban Ledoux, who has been conducting a campaign for relief of the unemployed in Boston and New York, arrived in Washington and announced he would attend the conference as an observer. Ledoux said he would appeal to President Harding to publish the names of those who did not work in the present of more than 100 per cent so that they might have equally with the unemployed, the latter's part to be used under government supervision for "work of constructive welfare."

The strength of falls imparted a steady lull to the stock market at the outset of today's trading, but reaction set in almost immediately on further offering of foreign oils. Royal Dutch which unsettled last Saturday's session, opened at moderate recovery but soon dropped 1 1/2 points. Mexican Petroleum fell 2 3/8 and equipments, motors and shippings, as represented by Bethlehem, Pullman, Buickholder and American International, also gave way. A new low record for marks at 0.875 to 0.88 directed renewed attention to Germany's unstable economic situation.

James Oliver Curwood's Latest Special 8-Part Production—The First Time Here

"ISOBEL" or The Trails End

One of the Most Remarkable Film Productions of the Year

Billy McVeigh, driving into the face of a blinding blizzard, comes face to face with—Isobel! Beautiful, pure and sweet, but the wife of another man—the man he had sworn to take, dead or alive! A situation that will thrill you—a denouement that will amaze and delight you!

An epio of the Northland is "Isobel; or, The Trail's End"! One of the most powerful and compelling romances James Oliver Curwood ever produced.

House Peters and Jane Novak in the most remarkable story of the Great Northwest ever filmed.

Made doubly valuable through the fact that it is an Edwin Carow production of a James Oliver Curwood story.

Loved by two men and loving two men! A romance that takes you into the barren wastes of the Northland—into the land of the midnight sun and the gentle glare of the Aurora Borealis! An epio of that country "north of sixty"!

James Oliver Curwood at his best. Adopted from his famous novel of romance and thrill, "Isobel."

A cast par excellence! No more talented and typical group of players ever portrayed a film story.

Striking situations, dramatic action and unexpected climax. Entire story follows the book faithfully.

In "ISOBEL; OR, THE TRAILS END" Curwood has given you the most vivid of his love stories, the most virile of his characters. This picture came closer to approximating the 100 per cent box office attraction than any other production on the market during the next year.

BLOCKADE PLAN IS NOT SOLVED BY COMMITTEE

League of Nations Council is Asked by Assembly Commission to Suggest Plan for Dealing with Violators

GENEVA, (AP)—Details of applying for the economic blockade against nations violating the covenant of the league of nations cannot be decided here, the blockade committee of the assembly reported this morning. It proposed that the council of the league suggest a plan.

Defines Diplomatic Break
The committee held that interruption of diplomatic relations should be begun with the withdrawal of heads of diplomatic missions. To proposed resolutions it was provided that certain states in case of special danger to them, might be released from blockade obligations.

Before the blockade committee resolutions are voted on, it is expected that an effort will be made to obtain a veto abrogating the rule requiring unanimity, as it is believed a unanimous decision on committee recommendations is impossible.

Commended World Decisions
In addition to resolutions interpreting the covenant of the league, the committee proposed an amendment to article XVI of the covenant, which provides for united action against a state which has broken the agreement. The amendment follows:

"The council of the league will give an opinion whether a breach of the covenant has taken place. When a council gives such opinion, the state charged with having committed a breach of the covenant and of states bringing the charge, whether they are members of the council under article IV, or have been specially summoned, shall not be reckoned in determining whether or not there has been an unanimous decision."

May Postpone Action
Another proposed amendment reads:

"The council may in the case of a particular member postpone the coming into force of any of these measures for a specified period where it is satisfied such postponement will facilitate the attainment of the object of the measures to be applied, or that it is necessary in order to minimize the loss and inconvenience which will be caused by such postponement."

This amendment is proposed to satisfy the Scandinavian members, who demanded exemption from the blockade obligation should the measure be applied to neighboring states.

SKATING POND PROMISED AT PUBLIC PLAYGROUND

Davall, chairman of the Kiwanis club committee in charge of establishing the public playgrounds here, reporting at today's luncheon meeting of the club, stated that several high school students would be excused Tuesday from their studies to pick rock up the playground site which is located on lots immediately north of the high school. Judge Davall said that excavation for a skating pond would be begun in the near future.

E. A. Donaldson of San Francisco, western manager for the United Press, was a guest of the club at today's meeting.

SHEEP HURANDER, IDAHO'S GREAT INDUSTRY, THREATENED BY UNIDENTIFIED SHODDY

Congressman French Is Fighting Hard for Truth-in-Fabric Bill to Protect the Wool Grower and the Public

"ALL WOOL" TERM IS SHODDY'S ALIAS

Educational Virgin Wool Exhibit of Strong-Hest Co. Shows Wool Manufacturers, Export Merchants to Wool Growers and to the Public from Unidentified Shoddy

Attempting to save sheep husbandry, merely by a tariff, essential as the tariff may be, like a shepherd who attacks his sheep by their woolly heads, the shoddy dealer attacks the lambs but permitting the wolves to go in and out of the sheep fold, killing both lambs and sheep.

Unidentified shoddy is the wolf, and it is in sheep's clothing, that is destroying the sheep industry.

It has been proved that a large part of the raw material used in wool cloth is shoddy. Shoddy and Virgin Wool have for years sold under the one term of "wool," making it impossible for the purchaser to know whether the cloth purchased is made from Virgin Wool or shoddy, and depriving the purchaser of his right to know and choose between Virgin Wool, the genuine, and shoddy, the impostor.

The practice of selling both shoddy and Virgin Wool under the one term of "wool," provides both the opportunity and inducement to fabric manufacturers to use shoddy and to discriminate against Virgin Wool.

Shoddy now counterfeits Virgin Wool and it is this fraud that is eating the heart out of the sheep industry.

The "Truth-in-Fabric" Bill, which makes it compulsory for fabric manufacturers to stamp cloth and state the contents, will, if enacted, put a stop to shoddy's counterfeiting of Virgin Wool.

Congressman French of Idaho, in January, 1920, introduced the Truth-in-Fabric Bill in Congress. A Congressman French, realizing not only that the enactment of such legislation is necessary in order to protect the public against the fraud that results from unidentified shoddy, and also knowing that the enactment of such legislation is necessary to protect the woolgrower, has fought valiantly and often times with little appreciation and encouragement, to have this piece of legislation put on the Statute Books.

Hearings on the Truth-in-Fabric Bill were held before the Interstate Commerce Committee of the House of Representatives, in March, 1920, and a committee to which the Bill was referred, made a unanimous report to the committee of the whole, reporting the Bill favorably.

The shoddy interests and the many fabric manufacturers and others who directly or indirectly profit from the sale of shoddy as Virgin Wool, are doing everything in their power to prevent the enactment of the Bill.

The opponents are thoroughly organized and exert powerful influence. The Bill is still held in committee.

Public sentiment, however, organized, and determined and brought with full force to bear upon the officials at Washington, is the only power capable of overcoming the opposition to the shoddyists and getting the Truth-in-Fabric Bill out of committee and on to the Statute Books.

The National Sheep and Wool Bureau of America, with offices at Chicago, Ill., has been one of the leaders both in the fight for an adequate tariff, to protect the wool grower, and for the enactment of the French-Capper Truth-in-Fabric Bill.

Alexander Walker, President of the National Sheep and Wool Bureau, is one of the foremost leaders in the fight to protect the public and the wool grower from the menace and wrong that result from unidentified shoddy. He is also Vice President of the National Sheep & Wool Bureau.

It is the firm that has, by its Virgin Wool educational exhibits, which have been shown by public-spirited retailers throughout the United States, by educational institutions and by state and county agricultural organizations, contributed mightily to the cause of Truth-in-Fabrics and the unmaking of shoddy.

There are two things which the wool growers and general public can do to protect themselves against the fraud of unidentified shoddy.

1. Buy clothing of the dealer who features Virgin Wool fabrics;

2. Write congressmen and senators demanding the speedy enactment of the French-Capper "Truth-in-Fabric Bill."

THE RUSH TO COLLEGE

The extent to which the young people of this country have acquired faith in the value of higher education may be gathered from college enrollments which are now being made public.

Despite some remarkable records in the past, it is certain that the rush to college this year will be greater than ever before. Even increased tuition and living costs in college towns as a result of this crowding are no bar to the great crowd clamoring for a college education.

For obvious reasons many educators had expected, if not a decreased, at least no greatly increased enrollment; so that they are now at a loss to explain this unexpected phenomenon.

A good share of the increased college enrollment is due to the fact that the value of a college education is becoming more widely known. No doubt the raising of the standards of education even in the high schools has much to do with this rush to college.

OUTTING IT OUT

President Harding and Budget Director Dawes together have performed a surgical operation on government expenses that promises soon to put the patient—Uncle Sam—on his feet.

Heads of departments have been told to trim their estimates for the fiscal year to the bone. They will have to get along with less money. They are reminded that the world is getting back to normalcy at a rapid rate, and that the cost of high living in government circles must be reduced.

It has been recognized for a long time that one of the principal causes of outrageous taxation was the loose administration of government finances. Public officials seemed to think that they were not required to practice economy. They planned without a definite idea of how much money would be required to finance their ideas, and when appropriations were consumed all they had to do was to charge up the balance as a "department deficit."

Rise and Fall in Food Prices After War Repeats History of American Conflicts

The family man whose income did not increase between 1914 and 1918 was in a bad way. Everything he needed, and all the things he and his wife and children believed they ought to have to be nappy, became so costly that a new system of living had to be adopted.

Wholesale Prices Doubled. Compared with the five-year average before the world war, wholesale prices in 1918 had doubled, or were represented by 200 as an index number from what it was in 1913.

States department of agriculture was a contribution from the bureau of markets and crop estimates, shows that the rise in prices during the world war was much the same as during the Civil war period, but continued longer after the close of the war, and resulted in a more violent drop than occurred in either the war of 1812 or the Civil war.

if department estimates were exceeded by officials, congress would refuse to take care of the debt.

Government officials must set the pace in reducing costs and in showing a practical method of living within one's income. Cutting out the deficiency appropriations is a happy step in the right direction.

Swiss are criticizing the expenditure by Geneva of 20,000 gold francs for fireworks in honor of the meeting of the league of nations, but the delegates may have enjoyed the spectacle. They have not much else to do.

For the first time in seven months postal receipts in August showed an increase, but that may have been caused by the frequency with which those away on vacation wrote home for more money.

A Kentucky man, candidate for jailer, who announces that if chosen, he "will be the jailer of all the people," will probably not attain his ambition.

The "joy ride" frequently has the morgue for its destination.

MAKING A DAY OF IT

By R. E. KISER

WHEN Jenks was getting on the car A person who was big and rough Asked rudely: "Whodja think you are? Crowd 'em, ya stiff—there's room enough!"

THE elevator wouldn't wait When Jenks arrived, and that was why He reached his desk three minutes late— No chance to slip in on the sly.

W With gully feelings in his breast And nervous fingers he fell to, Endeavoring to do his best— As much as any man may do.

AT quitting time Jenks tried to free His mind of problems big and small, But everywhere he seemed to see Disaster looming grim and tall.

SANAGAMON COUNTY CITIZENS PROMISE SMALL FARM TRIAL

SPRINGFIELD, Ill. (AP)—State's Attorney Mendinger today in the Sangamon county circuit court filed 2000 affidavits by citizens asserting that Governor Len Small, under indictment charging embezzlement of funds during his term as state treasurer several years ago and Vernon Curtis, Grant Park banker, could obtain a fair trial in this country. The defendants seek a change of venue.

Pioneer settler of Southern Idaho has been appointed head of the state insurance department, Governor Davis announcing selection. He takes charge of the office October 1.

AIKEN SELECTED INSURANCE HEAD

Governor Davis Announces Appointment of Twin Falls Man to Office

That George D. Aiken, of Twin Falls will be the next state insurance manager, is information contained in an announcement from the state capital. This announcement states that Governor Davis has acted favorably upon an application entered by the Twin Falls pioneer, Mr. Aiken, while receiving no official documentary announcement of the appointment, on Saturday was orally informed by the governor of his selection. The appointee expects to assume the duties of office October 1. He succeeds D. W. Church of Pocatello, who has been appointed commissioner of public investments.

Mr. Aiken is now representative of the state insurance fund for Southern Idaho, with headquarters in this city, and has made extensive trips through the state on behalf of the fund. He has negotiated employers' contracts for compensation insurance, and settlements for insured workmen, and is thoroughly conversant with the affairs of the office.

Mr. Aiken has been a prominent figure in business and political affairs of southern Idaho for more than a decade and a half, being one of the original settlers in this district. He was the first sheriff of Twin Falls county after the partition of this district from Cassia county. Governor Gooding making the appointment. This office he filled with credit to the county, and to himself. He is prominently identified with the Masonic fraternity and is an enthusiastic Elk. He has held the high position of eminent commander of the

Reserves

Many corporations and business men have been able to weather the late year of strain because of reserves which they had built from previous years. Such a reserve is useless unless it can be turned to account when needed.

The Twin Falls Tract is now harvesting what will probably be the largest crop it has produced. There will be many farmers again in possession of surplus funds. Now is the time to start such a reserve.

ELKS RESUME BUILDING OF GREAT TEMPLE

Workers Prepare Wool Forms for Second Story of Important Lodge Structure

After a delay covering more than six months active construction operations were resumed this morning on the new Elks temple, corner of Second avenue north and Shoshone street. H. E. Bohler, construction contractor, is in charge. For the immediate present the working force will be small, but plans comprising additions to the building outfit needs demand Mr. Bohler announced this morning. It is the plan to remove all concrete forms from the basement and rebuild the first story construction. This will take some time, but the hope is expressed that concrete pouring can all be completed on one floor at least, before winter sets in. The building scheme at present contemplates erection of two stories only. The foundation, as to walls and supports, will comprise a spring floor and rafters are still to be added. The main structure will be 100 feet by 119 feet, the foundation footings being constructed to bear the weight of an extra five or six stories. The entire building will be fireproof, built of concrete with a veneer and ornamentation of brick and terra cotta. In addition to the purpose of the property has been expended on the property thus far a sum approximating \$65,000. For the erection of the two upper stories a sum aggregating \$75,000 has been appropriated. There is on hand at present building material and equipment valued at about \$7000.

SALMON RESERVOIR GETS MORE FISH FRY

Shront and Moore Plant Liberal Consignment of Bass in Idaho Dam

The South Idaho Fish and Game commission received a consignment of 8000 black bass fingerlings Saturday, which were immediately taken to the Salmon dam by Jack Shront and J. O. Moore, local representatives of the association. The fry came in eight screened cans and required no attention other than that of feeding. They were arranged from the time of shipment from the hatchery, La Grande, Ore. The western above the dam are said to contain the food best suited for the growth of bass and the temperature to be that which is best flourish. The present consignment is only one of a number of such shipments received for this lake and the temperature and a previous lot of bass have been used in stocking the reservoir.

DRIVE FOR RAILROAD BUILDING FUND GETS AN ABREZIMPULSE

With Well Oiled Organization Machinery Work is Carried On with Greater Enthusiasm and Prospects of Success Than in Opening Week—Land Owner is Enthusiastic

With greater impetus than was marked on any single day during the inaugural week the drive for railroad bond funds was taken up again this morning under direction of a general committee headed by U. D. Thomas and Harry McKay. The committees report all fields are working with zest. "Our organization machinery is well oiled and going fast," said Chairman Thomas this morning. He announced that no figures on the drive would be made public today, but said publication of subscribers' names would start Tuesday. He added an encouraging note by saying that the committee is anxious to see the thing put over, and expressed confidence in the final result of the local endeavor.

The committee this morning received the following message from Charles E. Simpson, residing in Chicago, owner of a small tract in this district, telling of his desire to help the railroad building drive: "I have just received your circular regarding the building fund. I am ready to do my part, \$2.50 per acre. Send me the necessary papers and I will get the ink upon you and back in your hands before it has time to dry. Let's go. I am with you when it \$2.50 per acre won't win the game, why I'll dig up some more."

Cleaver, Mr. Farmer, Mr. Business Man, came to hand today: Let's get together and build the road. You bet I'll do my little bit, every one in the county do his or hers and the winning trick will win a game worth needing. I am the owner of 20 acres in the North Park subdivision. I am ready to do my part, \$2.50 per acre. Send me the necessary papers and I will get the ink upon you and back in your hands before it has time to dry. Let's go. I am with you when it \$2.50 per acre won't win the game, why I'll dig up some more."
