*Batted for Rogers in ninth.

Summary—Two-pace hit: R. Meaul, Young, E. Meaul, Burns. Three-base hits: Burns, Young, Frisch. Sacrifices: Pipp, Bancroft. Double plays: Ward and Pipp, Quinn, Peckinpaugh and Pipp. Left on bases: Americans, 12; Nationals, 10. Base on balls: off Shively, 4; off Tony, 2; off Barnes, 2; off Quinn, 2; off Collins, 1. Hits: off Tony, 4 in two innings, none out in third; off Barnes, 4 in two, none out in third; off Quinn, 3 in 2 1/2 innings; off Collins, 4 in 2 1/2 innings; off Rogers, 3 in 2 1/2 innings. Struck out: by Tony, 1; by Barnes, 7; by Quinn, 2; by Rogers, 1. Wild pitches: Barnes, 1. Winning pitcher: Barnes. Losing pitcher: Quinn.

Umpires—At plate, Quigley; first base, Chilly; second base, Higley; third base, Moriarty. Time of game 2:40.

First inning.

YANKEES—Miller lined out to Frisch with three outs. Peckinpaugh at first. Ruth struck out and Tony got a big cheer as he walked to the bench. No hits; no runs; no errors.

GIANTS—Barnes lined out to Frisch with two outs. Tony got a big cheer as he walked to the bench. Frisch struck a single into right. Young walked. McNally threw out Kelly at first. No runs; one hit; no errors.

Second inning.

YANKEES—Meusel got a two-base hit into left field. He made it by fast running. Pipp sacrificed, Tony to Kelly. Meusel went to third. Meusel was out at the plate, when Rawlings took Ward's grounder and threw to Snyder. McNally forced Ward, Bancroft in Rawlings. No runs; one hit; no errors.

Third inning.

YANKEES—Shively walked. Shively singled into right and Shively went to third. Shively scored on Miller's single into right. Shively got to second. Peck walked and the bases were filled. Shively and Miller scored on Ruth's single to center. Ruth went out stealing. Barnes' hit blew Tony out. Barnes' hit blew Tony out of the mound. Barnes took up the pitching burden for the Giants. Peckinpaugh scored while Rawlings was out at the plate. Ward struck out. Four runs; three hits; no errors.

Former Advocate of Large Family Revises Opinions

Professor Ross Says Death Rate's Fall, Not More Births, Builds Population

MADISON, Wis., (AP)—Population in the United States is increasing rapidly due to reduction in the death rate rather than to an increase in birth rate, P. R. Ross, professor of sociology at the University of Wisconsin, said speaking last night before the students' social science club.

RAILWAY PEACE PARLEY LIKELY

Operators and Union Leaders Profess to See Eff in Gathering Cloud

CHICAGO, (AP)—Both railroad operating officials and union leaders today professed to see a possible peace parley on the threatened railroad strike.

MANY COURT ACTIONS ENTERED DURING DAY

Aggregate Amount of \$91,728.55 Involved in Cases Filed in Court

Five court actions involving judgments aggregating \$91,728.55 have been filed with the clerk of the courts in the past 24 hours. The greatest single amount included in these is \$50,000 demanded of D. P. Driscoll by the Brown brothers, as damages alleged to have been sustained by reason of certain alleged malicious and defamatory statements of D. P. Driscoll by the John H. Morris, sons George W. and George L. Driscoll and Thomas H. Rogers for \$882,200 and to be due in a judgment of \$100,000.

FLASHES FROM THE WIRE

OMAHA, Neb., (AP)—Willard W. Mathews, president of the now defunct Pioneer State Bank, was indicted recently by a special grand jury on charges of embezzling \$300,000 and with "kiting" checks between the bank and the Denver State bank of Denver.

TOKIO, (AP)—On account of the decrease in emigration to South America the government is reported to have decided to grant an annual subsidy of 100,000 yen (\$500,000) to the Overseas Inlanders company, interested in Japanese prospective emigrants to the amount of 50 yen (\$250).

KNOXVILLE, Tenn., (AP)—Police have discovered a "wall" of whiskey in a residential section of the city. A small copper pipe from a copper tank sunk ten feet under the ground, enabled the owner to keep a supply of moonshine whiskey on tap at all hours. The whiskey was forced through a faucet by a handpump. The outfit was confiscated and the owner arraigned in police court.

CHICAGO, (AP)—A meek man with downcast eyes standing beside Mrs. Joseph Yenofsky was sentenced to jail yesterday by Judge Jacobs in municipal court after Mrs. Yenofsky had told the court that her husband had beaten her unmercifully. It was not until after sentence that the man had been subjected to a severe lecture that the meek man, Frank Kelly, with Mrs. Yenofsky's aid, convinced the court that he was not her husband but was appearing in connection with another case. The court's order was withdrawn.

Military Prisoners Would Join Fighters Germany Completes Treaty Ratification

MADRID, (AP)—Military prisoners confined at Ocaña have sent a petition to the R. R. Ross, president of the League to Enfranchise the World, to permit them to join regimental fighting in Morocco.

BERLIN, (AP)—The Reichstag, or imperial council, at today's session officially notified the releasing of its assent to the peace treaty with the United States without modification. After this formality the treaty may be officially pushed and acquire legal force.

CALLS ON U. S. TO HELP SOLVE WAR PROBLEMS

International Chamber of Commerce, in Session at Paris, Adopts Resolution for American Participation

PARIS, (AP)—The United States is called upon to join with the allied powers in plans to solve all the problems growing out of reparations and payment of allied debts in a resolution adopted unanimously by the council of the international chamber of commerce which met here today.

The resolution was recommended by the special finance committee appointed last June at the annual congress of the international chamber in London. Edward A. Piles of Boston proposed the resolution at the council meeting.

Other Growing Interest.

The resolution points out that the members of the council are in agreement to the international chamber had drawn the attention of the council to the fact that the financial and industrial problems of the world are increasing and increasing attention in the United States, and that there was a strong indication of a policy of greater participation by the United States.

Defers Definite Conclusions.

Payment of the allied debt to the United States should not be the subject of the coming Washington conference, according to the members of the council and the special financial committee which inquired into the financial problems of the world.

WIDOW OF KANSAS CITY STAR PUBLISHER IS DEAD

KANSAS CITY, Mo., (AP)—Mrs. William Beckhill Nelson, widow of William Beckhill Nelson, founder of the Kansas City Star, died at her home here Thursday, following an illness of more than a month.

FLAMES FROM THE WIRE

EXPERT TESTIMONY STRENGTHENS THEORY OF DEATH FROM POISONING THEORY

Dr. Hal Bieler Says Test Did Not Satisfy Him That Meyer Died From Typhoid Fever

WOMEN AND GIRLS PREDOMINATE IN HUGE AUDIENCE FILLING COURTROOM

The positive reaction shown by the widow test in the case of Edward F. Meyer did not satisfy the physician making the test that Meyer died of typhoid fever, according to Dr. Hal Bieler, pathological expert testifying for the state in the trial of Louis Meyer Southard for murder. Dr. Bieler declared that he made the test upon request of the state to establish either typhoid or syphilis poisoning as the cause of death.

An enormous audience still fills the courtroom at each session of the case, women and young girls predominating.

The story of his visit to the Twin Falls cemetery in April this year and the examination of the remains of Edward F. Meyer was told in court by Dr. Bieler. The disposition of the three sets of specimens taken from the body was set forth in detail. Cross examination failed to alter the story of the witness.

Reveals No Other Tests.

Efforts were made by counsel for the defense to get the witness to admit that he could not tell whether Meyer might have been made to determine definitely whether or not Meyer died of typhoid fever. The witness refused to say that any other test besides under the circumstances would have shed additional light upon the cause of death.

"Did you ever 'post' a body where you would allow to typhoid?" asked Attorney Miller.

"Yes, sir," replied the witness. "And you found the lowest standard?"

"Yes, sir," replied the witness. "Due to what?"

"To the presence of gas."

"It has always found in cases where death is due to typhoid?"

"Yes, sir," replied the witness. "Typhoid Germs Tenacious"

After a patient had had typhoid fever the blood might show a positive result reaction during the entire balance of his life, Dr. Bieler said in reply to a question. A positive typhoid test is fairly in the type of the patient has had typhoid or been inoculated. However, it is at all times suggestive of typhoid.

"Is the typhoid test worth anything?" asked Attorney Miller.

"It has a value in a very high percentage of cases," replied the witness.

"Can it satisfy your mind in Meyer's case, that Meyer had typhoid?"

"No, sir."

"In your report to Dr. Coughlin did you not suggest that Meyer might have had typhoid?"

"No, sir."

"Meyer might have been suffering from ptomaine poisoning, might he not?"

"Yes, sir."

Patent Shows Improvement.

The last time that he saw Meyer alive was on September 6, Dr. Bieler said.

"Did it true that you saw him on September 13," asked Attorney Miller.

Specialist Gives Testimony

Dr. Hal Bieler, called by the state for expert medical testimony, stated that he saw Edward F. Meyer at the Twin Falls county hospital while in special consultation with Dr. Coughlin in the Meyer case. He made a cursory examination of the patient and later made an examination of the blood. He described in detail the general method employed in such examinations. As a result of the test a positive typhoid reaction was obtained.

Test Covers Wide Range.

"What may cause a positive typhoid reaction?" asked Attorney Miller.

"Typhoid fever, previous typhoid infection by typhoid vaccine, acute tuberculosis, cirrhosis of the liver and malaria fever," replied the witness.

"When did you take the sample of blood from the patient?"

"On September 5 at 9 p. m. The report was given Dr. Coughlin next day."

Report in Evidence.

A copy of the report in question was introduced in evidence and identified by the witness.

The report indicated that Meyer was severely ill, Dr. Bieler and that he had a low fever, but that the typhoid test below normal. When a typhoid test is below normal, the typhoid test was positive, Dr. Bieler said.

Describes Post Mortem.

"The witness described the post mortem examination. The appendix was normal. The inside of the stomach was found to be entirely normal. No ulceration of the lower bowel was found. 'We looked for all signs and perforations,' said the witness, 'because these are evidences of typhoid.' None were found."

Makes Pathological Tests.

Referring to the later post mortem held the morning after the day of Meyer's death, the witness said small sections were taken from heart, lungs, liver, spleen, spleen, large and small intestine, stomach, kidneys, bladder, and lymphatics. Dr. Bieler. No report of this examination was made to Dr. Coughlin. The examination was made upon the request of the prosecuting attorney.

"How long did you keep the specimens you took?" asked Mr. Stephan.

"Until they were turned over to Judge Daulton September 28."

LEADERS ASK FOR INCREASE IN ALCOHOL TAX

Higher Levy on Spirits, Figuring in Tax Revision Program, is Estimated to Yield \$75,000,000 Additional

WASHINGTON, D. C., (AP)—A tax of \$4 a gallon on all alcoholic spirits drawn from bond for industrial, medicinal or any other purposes, has been agreed upon by republican leaders as a part of a new tax revision program. This is an increase of \$1.50 a gallon and is expected to yield \$75,000,000 additional revenue each year.

Drop Exemption Equal.

The proposal to repeal the \$2000 exemption allowed for corporations was abandoned on the ground that it would work too great a hardship on the small corporations. The leaders also were said to have decided on a flat corporation income tax per cent rate of five of ten and fifteen per cent rates.

Maximum Income Surplus Rate.

A maximum income surplus rate of 50 per cent would apply in the case of income in excess of \$200,000 instead of \$500,000 as proposed by the democratic senators. Existing rates above 32 per cent would be increased two per cent. Treasury experts expect that the additional yield from these changes would be fifty million dollars annually.

Raises Estate Tax Rates.

Estate tax rates would be increased to a maximum of 50 per cent over the present 25 per cent. The highest rate to apply in the case of estates valued at \$100,000,000 or more. The rates between \$50,000 and \$100,000 would be graduated. Deduction has been reached, leaders said, to repeal \$100,000,000 of the income taxes, but just which of these taxes are to go, has not been finally decided.

Postage Sales Unchecked.

It was said there would be no increase in first class postage sales, discussed yesterday as a possibility and the leaders have no mind imposing any new taxes.

The program as drawn by leaders, which include repeal of the excess profits tax next January 1, and retention of the excess profits tax, is to be held before majority members of the senate finance committee late today.

SWENSON IS NOMINATED AS MINISTER TO SWEDEN

WASHINGTON, D. C., (AP)—Laureis S. Swenson of Minnesota, who served as American minister to several European countries prior to 1918, was nominated by President Harding Thursday to be minister to Norway.

TRY SOUTHWEST WOMAN LATIN NEW OFFICIAL LINGO FOR COURT

Lawyers and Doctors at Famous Murder Trial Gambol with Language Supposed to be Long Since Deep Buried in Desolate—Everybody Takes an Erdite Peck at It with Meddlesome Leading the Chase

Latin is known as the language of the ancient ancients—in other words it is reputed as a "dead one."

But it still lives, other through process of reconstruction or by never having suffered a fatal stroke. It is the living thing since the philosopher of the Hittite injected the spirit of vitality and freedom into the 16 id id proposition of the fall 1910.

Proof that Latin as a language which is talked, which lives, and moves and has being in the district court chambers where a woman is being tried for her life because it is said she snuffed out the vital spark for a chag who took her to the his lawfully wedded wife, which occasion is said to constitute the fourth of her hymeneal pilgrimages.

Latin is known as the language of the ancient ancients—in other words it is reputed as a "dead one."

But it still lives, other through process of reconstruction or by never having suffered a fatal stroke. It is the living thing since the philosopher of the Hittite injected the spirit of vitality and freedom into the 16 id id proposition of the fall 1910.

Proof that Latin as a language which is talked, which lives, and moves and has being in the district court chambers where a woman is being tried for her life because it is said she snuffed out the vital spark for a chag who took her to the his lawfully wedded wife, which occasion is said to constitute the fourth of her hymeneal pilgrimages.

Expect witness called in the stand to testify on certain obscure (to the jury) technical facts at issue make matters and make speeches in bold, bold Latin language; attorneys mix with the tongue as if they thoroughly understood it every ramification; the court listens in rapt attention, while opposing counsel chew the textile fabric, as it were, in the tongue of the ancients, and even the jurors drink it in like it were the foaming brown head of some October month.

In no way is Latin dead. As a matter of truth a man would never know what killed him or what he died of were it not for Latin.

From Obscurity.

This state of affairs at the courthouse all comes about because there are so many educated folk snatched from their practices and their homes to attend about a man (and woman's, too, for that matter) anatomy, inside and out. These medical experts spend only in and out on the rubble of Latin. It is to be dead and buried while as a matter of fact they have adopted it and nurtured it as their very own.

A medical expert, a goodly number of yesterday's court hearing gave a fairish sort of sample of how the Latin tongue is employed in discussing medical designs and the flesh. He did it in lengthy clinical terms, expressions and sentences. The Latin language, apparently, has no in its use in rapt attention, while opposing counsel chew the textile fabric, as it were, in the tongue of the ancients, and even the jurors drink it in like it were the foaming brown head of some October month.

Anyhow Latin is the official court tongue during the present trial, occasion.

Today's Sporting News

NATIONAL LEAGUE PLAYING THUS FAR IN WORLD SERIES NOT EQUAL TO THE AMERICAN

Huggins' Men Display Better Practice in Exemplification of Great Sport with Pitchers Leading—McGraw's Catching Staff Has Not Made Good Up to Present—Frisch Star of Giants

NEW YORK (AP)—Behind their third pitching ace, Tommy, who batters from the hills of Tennessee, John McGraw's Giants will attempt today to scotch the best in which the Yankees have struggled two knots towards world's series triumph.

Though held scoreless through two games, 18 innings of nerve-racking baseball, by the great twirling pair of the Americans—Mays and Hoyt—McGraw's hearties have by no means given up hope. As exemplified in their regular season games, they fight to the last ditch and they are determined to throw off the jinx that has dimmed their battling eyes.

The Giants have been following the safe and sane idea in the first two games of the series, but they will not do today to try the consolation.

"We've got to take some chances," declared Assistant Manager Hughboy Jennings. "We took them during the regular season and turned many a defeat into victory."

Bob Shawkey, whose queer, clod-hopping walk, and roid flannel underclothes have been seen in other world's series is most likely to be on the mound today for the Yankees.

Shawkey has great speed. When he is in form, he is regarded as one of the finest twirlers in other league.

Neither the Giants' catchers, Snyder and Smith, have displayed so far, any of the sterling backup qualities which they had been credited. Both have been weak at bat and short in the fielding end. In yesterday's game, Smith made a bad muff on Rich's knee when Muesel was catching home. He could have caught Bob easily. He also made a bad throw to second when Ruth piffled and was slow in sending the ball to Frisch, when the Babe stole third. McGraw was expected to switch back to Snyder today. He has Gonzalez and Gaston in the second string and might call one of them if Snyder continues weak.

Little Willie Schang, while short in the batting department, has performed admirably behind the plate for the Yankees, and so far, his work has surpassed that of either of his highly rated

pitched, dashed for third, beating Smith's throw to Frisch. Muesel's steal of home in the eighth was executed after the manner of Mike McNally's theft in the first game.

Arout Ward and Captain Peckinpough performed as brilliantly as either of their club in the opening. Ward figured in no less than nine plays, without a bobble, and Peck was at one end of a number of brilliant plays.

Artie Nehf hurled excellently for the Giants, allowing only three hits, but he was wild, issuing many passes.

HOYT'S AMBITION IS REALIZED WHEN HE TAMES GIANTS

Lad, 22, on First Chance Beats Team That Once Turned Him Loose

NEW YORK (AP)—Waite Hoyt, the youthful pitching hero of the second world's series game, was happy today in the realization of a secret ambition to beat the club that turned him loose on his first venture into the big leagues.

A mere school boy, just out of Erasmus natl high school, Brooklyn, in 1910, Hoyt was signed by Manager McGraw of the Giants, but was quickly released to the minors.

The Giants chief sat on the bench yesterday, sadly watching the cast-off turn the National leaguers back with two scant hits for a 3 to 0 victory.

The young twirler was only 22 years old, was as cool and sure of himself as a Mathewson. "He had everything, plus," as the experts say.

But his father, Add Hoyt, who had shared the secret of his son's ambition, was as excited as Waite traditionally should have been. The elder Hoyt saw his boy win everlasting fame in baseball's hall of records, and was one of the first to congratulate him in the clubhouse after the game. Surrounded by a crowd of fans, the father laid and re-laid of the boy's early career, so often that he almost forgot to go home for supper.

Hoyt, after his release by the Giants, was sent to the Rochester, N. Y., club, but he didn't stay. He decided to join the Baltimore Droybacks instead. That he was a sensation. Later he played with the Memphis, Tenn., club and from there went to the Boston Red Sox. The latter club traded him to the Yankees last year.

Buttercups and Gold Mines. With many readers brilliancy of style passes for influence of thought; they mistake buttercups in the grass for immeasurable gold mines under the ground.—Lonsdale.

"Rookie" Twirler Bests Antagonist in Second Contest

Waite Hoyt, for Yankees, Easily Art Noh's Superior on Thursday

NEW YORK (AP)—Analysis of yesterday's pitching duel in the second series game shows that Waite Hoyt, the former Brooklyn school boy, had the better of his older opponent, Arthur Nehf, in every angle of the game.

Hoyt delivered the ball 118 times to the Giant batter in nine innings—an average of a trifle more than 13 deliveries per inning. He sent up 44 balls, 32 strikes, 16 foul strikes and four fouls. Nineteen deliveries routed out in infield and two were outfield out. Two were hits. Hoyt struck out five and gave five bases on balls.

Nehf threw the ball to the Yankee batters 121 times in eight innings, for an average of about 15 deliveries per inning. The umpire called 57 of them balls, 22 went as strikes, nine as foul strikes and four as fouls. Infield outs were made on 20 others. And three were recorded as outfield outs. Three times, the American league batter turned the ball back as safe hits and two resulted in errors. Nehf gave seven bases on balls and had no strikeouts.

FOOTBALL LEAGUE.

PORTLAND, Ore., (AP)—Six football teams have formed an independent league here in Portland and will start their season next Sunday, October 9. Five of the teams are from Portland and the sixth represents Oregon City, near here. Two other Oregon cities, Astoria and The Dalles, may enter clubs later.

EXPERT TESTIMONY

(Continued from Page One)

Were you present at the cemetery April 2, 1921?
I was.
What did you do there?
I made a further post mortem upon the Meyer body and two other bodies.

What, actually, did you do?
I went to the body and gave them to E. R. Dooley who placed them in three sets of containers. One set was given to Mr. Bodenbough, one to Mr. E. R. Dooley, one to Mr. Goughlin.
Gives Qualifications.
Under cross-examination by Attorney Mills Dr. Bieler said he had paid particular attention to pathology, as a specialist in diagnosis. He had personally seen about 1000 cases of typhoid, mostly at Charleston and Nitro, W. Va. although not all were patients of his. He described the various types of typhoid.

What causes subnormal temperature?
A derangement of the controlling mechanism in the brain.
All hemorrhages are not fatal are they?
No, sir.
After hemorrhage the temperature is subnormal, is it not?
After a large hemorrhage, you would expect to find a subnormal temperature?
Yes.

Meyer Had Had Typhoid.
Dr. Duncan L. Alexander examined by Prosecutor Stephan, yesterday afternoon, stated that he was called upon to treat Edward F. Meyer for typhoid fever, at the residence of Mr. and Mrs. W. W. at the Waverley hotel. He was called into consultation September 3, 1920, by Dr. Coughlin in the case of Meyer. He examined the patient and was given a history of the case by Dr. Coughlin. He described the condition of the patient, adding that Dr. Coughlin told the witness that his own diagnosis was not satisfactory to him.
Dr. Alexander made a physical examination of the patient which revealed that Meyer was a very sick man, although he could find no infection to account for his condition.
The mouth and throat showed no irritation either abnormal conditions. The witness suggested more laboratory examination to Dr. Coughlin. Dr. Alexander made but the one examination and only saw the patient on the one occasion.
I was diagnosed in my mind that the man was suffering from some sort of intoxication or some sort of poison," said the witness.
There was nothing to indicate typhoid fever to him, Dr. Alexander said. His pulse was approximately 90 and his temperature subnormal.
The witness described the symptoms

of typhoid fever and the progress of the disease in an average case.
One could not diagnose a case of metallic poisoning by physical examination alone, Dr. Alexander said. The Meyer symptoms were common to arsenical or any intestinal poisoning.
A positive reaction may be obtained on a Widal test from diseases other than typhoid. Dr. Alexander stated, such as acute tuberculosis, para typhoid, colon infection and malarial fever.

Test Not a Sure One.
Inoculation with typhoid vaccine might be responsible for a positive Widal test, or any of the other diseases mentioned, besides typhoid. A positive reaction on a Widal test might follow during the entire life time of a patient who had never had typhoid fever, the witness declared.
Upon cross-examination by Attorney Mills said he had had four or five cases of arsenical poisoning and had seen others. One of the cases resulted in death. He had one case in Twin Falls, a few years ago, that of a child who had eaten or drunk some form of insect exterminator.
Dr. Alexander said he had had never seen a case where subnormal temperature prevailed during the whole course of the disease. During the period of recovery typhoid patients sometimes develop subnormal temperature.

Not Symptoms of Typhoid.
Intestinal poisoning or infection of the gall bladder alone would account for the patient's symptoms, Dr. Alexander said. Typhoid fever would not account for the symptoms exhibited by Meyer. Soreness or tenderness over the region of the liver and gall bladder was a prominent feature of the case and was a determining factor in Dr. Alexander's conclusion that infection of the gall bladder was responsible for Meyer's condition.
Would arsenical poisoning cause an irritation within the intestinal tract?
Yes, sir.
Would the location of the pain, high up on the right side be inconsistent with arsenical poisoning?
Yes, sir, said the witness.

Might Have Been Plomianin.
Dr. Alexander admitted that Meyer's symptoms might have been caused by plomianin poisoning under cross-examination, explaining this in answer to a question by Mr. Stephan by saying that it is a general irritation of the intestinal system might result in similar symptoms. He added that the same symptoms could be produced by arsenical poisoning.
Dr. Coughlin resumed the stand following the noon recess yesterday. He said on direct examination that he did not get an immediate response to his treatment of the patient for plomianin poisoning.
Describes Effects of Arsenic.
What is a characteristic of arsenic

as to causing inflammation? asked Mr. Stephan.
In a concentrated application it would cause inflammation, replied the witness.
At the time you made your second post mortem you referred to a substance which you likened to cement.
This is the case, sir.
It was evidently a sort of dry powder which had absorbed enough moisture to cause it to become a coagulous mass. It is frequently used as it was in this case.
Would it be possible to detect arsenic in the urine by a casual examination?
No, sir.
If there is much element of danger in perforations?
Yes, sir.
Was peritonitis present in the Meyer case?
No, sir.
Evidence of Inflammation.
Dr. Coughlin said he examined the bowel for practically its entire length. Evidence of inflammation was present, he said, but no ulcers.
Was there bleeding of the appendix?
Only in common with the rest of the bowel.
Had the appendix ruptured?
No, sir.
Was it irritated more than other portions of the bowel?
No, sir.
Would you say Mr. Meyer died of appendicitis or not?
He did not.

Steel Casing Cabinets and safes.
How Better Than Pills?
The question has been asked: To what way are Chamberlain's Tablets superior to the ordinary cathartic and liver pill?
The answer is, they are easier and more pleasant to take and their effect is so gentle that one hardly realizes that it is produced by a medicine. That they not only move the bowels but improve the appetite and strengthen the digestion.—adv.

GIANTS EMERGE FROM SLUMP

(Continued from Page One)

GIANTS—Barnes got a single into left. Burns flied to Miller. Bancroft singled into right, Barnes going to second. Frisch walked and the bases were filled. Barnes scored when Young was given a base on balls. It was the first run the Giants have made in the series. Bancroft scored when Kelly got a base on balls. Sharkey had no semblance of control. He was taken from the box, Quinn replacing him. Frisch scored after Meusel went out to Pipp unassisted. Young went to third and Kelly to second. Young scored on Rawlings' infield hit. Kelly went to third. Snyder fouled out to Pipp. Four runs; three hits; no errors.

Fourth Inning.

YANKES—McNally was hit by a pitched ball and went to first. Schang singled into right, but was thrown out, trying to stretch it. Young to Bancroft. McNally went to third. Quinn fanned. Miller struck out. No runs; one hit; no errors.

GIANTS—Ward teared out. Barnes Burns got a three-base hit up against the right field wall. Bancroft whiffed. Frisch got a base on balls, Frisch stole second. Peck threw out. Young at first. No runs; one hit; no errors.

Fifth Inning.

YANKES—Peck flied to Meusel. Ruth fanned. Meusel hit a hot one at Bancroft and it went for a hit. Meusel went on a stealing base. Bancroft. No runs; one hit; no errors.

GIANTS—Kelly fanned. Meusel sent a high fly to Miller. McNally threw out Rawlings at first. No runs; no hits; no errors.

Sixth Inning.

YANKES—Pipp went out on a grounder. Kelly to Barnes. Ward singled into right. McNally struck out. Schang sent up a high one which Rawlings took. No runs; one hit; no errors.

GIANTS—Snyder hooked a single into right field. Barnes hit into a double play, Quinn to Peck to Pipp. Burns shipped a single past Peck. Barnes stole second. Ward threw out Bancroft. No runs; two hits; no errors.

Seventh Inning.

YANKES—Bunn robbed Quinn of a three-base hit, running to centerfield in order to get his fly. Miller fanned on a wild pitch. Bancroft threw out Peck. No runs; no hits; no errors.

GIANTS—Frisch singled into center. Young got a double to right, Frisch going to third. Kelly walked, filling the bases. Frisch and Young scored on Meusel's double to right. Kelly went to third. Kelly and Meusel scored of Rawlings' single to center. Quinn left the box and was replaced by Collins. Rawlings went out stealing. Schang to Peck. Snyder singled into center. Barnes singled into left. The Giants were on a hitting rampage. Burns singled to center. Frisch going to third and Barnes to second. Snyder scored on Bancroft's sacrifice fly to Ruth. Barnes held second. Frisch walked. Barnes and Frisch scored on Young's three-base hit. Collins left the box. Rogers took his place. Rogers threw out Kelly at first. Eight runs; eight hits; no errors.

Eighth Inning.

YANKES—Ruth walked. Fowder ran for Ruth. Fowder went to second on a wild pitch. Meusel fanned. Barnes threw out Pipp at first, Fowder going to third. Fowder scored on Ward's single to center. McNally forced Ward.

Rawlings to Bancroft. One run; one hit; no errors.

GIANTS—Do Verner went in to catch for the Yankees and Fawcett played left field. Meusel singled to center. Rawlings struck out. Meusel stole second. Meusel scored on Snyder's single to left. Peck took Barnes' short fly into left. Burns doubled to left. Snyder went to third. Ward threw out Bancroft. One run; three hits; no errors.

Ninth Inning.

YANKES—Rawlings threw out Do Verner. Baker batted for Rogers. Baker flied out to Meusel. Frisch threw out Miller. No runs; no hits; no errors.

PACKING HOUSE WORKERS TO VOTE ON STRIKE ISSUE

Opposition to Abolition of Arbitration System Comes to Cruc in East St. Louis Establishments

EAST ST. LOUIS, Ill., Oct. 7—A strike vote on the question of arbitration will be started late today by 2300 members of the International Meat Cutters and Butcher Workmen of East St. Louis packing houses, according to an announcement by Earl Jimerson, local secretary of the organization. The vote will be continued through Saturday when it is expected to be completed, then forwarded to Chicago, where the votes will be counted and the result announced.

The packing house workers are opposed to the abolition of the arbitration system which has handled their disputes during the past few years under an agreement which expired September 15.

NORTH DAKOTA A BATTLEFIELD

It is evident that a considerable proportion, if not a ma-
jority, of the voters of North Dakota has grown weary of
the process of bankrupting the state which has been car-
ried on by the Non-Partisan League. A recall election for
the governor, attorney general and the commissioner of
agriculture and labor has been ordered for October 28.
On the outcome of that election will depend whether the
league will pass from the stage in that state or be given
a further lease of power.

The fact that it was possible to get enough signatures
to force a recall referendum may be considered as proof
of the waning strength of the league. The various so-
cialistic enterprises which were inaugurated by the Non-
Partisan League are either total failures or in the hands
of receivers, with few exceptions. Even the Bank of
North Dakota, with deposits between \$30,000,000 and
\$40,000,000, refuses to pay checks, though still open. To
end the mismanagement and restore the state to a pos-
sibility of life is the purpose of the present movement.

However, it is not proposed to abandon all the enter-
prises in which the state has invested money, if the con-
dition is successful in the election. The state projects on
which millions have been expended will be given wider
careful management a chance to survive, if survival is
possible. The movement is at least a step toward the re-
turn to sanity in commercial affairs and in the hands of
sugacious men there is no reason why North Dakota
should not regain standing.

AN INHABITING PERIL

The various agencies, state and national, devoted to
the work of fire prevention seem to be especially anxious
this year for a thorough observance of the day set apart
for impressing their cause on the general public, judging
from the amount of literature they are sending forth.
This is probably because the menace from fire was never
greater. Last year more than 17,000 lives were lost in
fires throughout the world and 15,000 persons were in-
jured. About 80 per cent of these victims were women and
children. Fire caused property damage of \$500,000,000.

At the coming observance of fire prevention day, Octo-
ber 10, special stress is to be laid on the factor of care-
lessness, one of our national sins. "We Americans are
characteristically careless; we are too prone to 'take a
chance.'" We let property burn up every year at a cost
exceeding that of the maintenance of our pestal system
or what we spend on public school teachers' salaries. We
have the most efficient fire departments in the world.
They have to be. The "safety first" movement has done
much to prevent accidents. We can and must reduce the
number of destructive fires in this country.

NOT A "LEISURE CLASS"

Reading advance "dope" on the football season, some-
body remarked the other day that he wondered when col-
lege men got any time to devote to their studies. It
seemed to him that from the beginning of the fall term
until Thanksgiving football held first place in the cur-
riculum of our modern educational institutions. Because
a popular sport and pastime naturally receives more pub-
licity than the routine of class and lecture rooms, many
persons attribute to it an importance in college life that
it does not possess. In any college only a small per-
centage of the students go in for football as participants.
The interest of the large majority is expressed only by their
attendance at the games and most of the contests are
staged Saturday afternoons.

While there will always be some slackers, most college
students realize the significance of their job. They know
what they are there for and the penalty for wasting time.
The gospel of endeavor is being preached as never before.
"Work hard" should be the motto of all whether in or
out of college.

Sugar men must get a painful twinge in their pocket-

book nerve as they bring the price down to \$5.50 for re-
fined and remember what they got a year or two ago.

LEPROSY IN JAPAN IS CHECKED BY TREATMENT

Use of Chaulmoogra Oil Halts Spread of Dread Disease in the Orient
HONOLULU, T. H., (AP)—The chaulmoogra oil treatment for leprosy, evolved by Dr. A. L. Dean, president of the University of Hawaii, has been pronounced "remarkably reliable" in check-
ing the disease in Japan, according to Dr. H. H. Henshaw, director of the medical college of the Imperial university of Kyoto, Japan, in an address here to visiting members of the Japanese leprosy commission.
Dr. Henshaw, who is here studying the latest developments in the Dean specific, said that when the report of Dr. Dean's discovery reached Japan, chaulmoogra oil was prepared for the treatment and this very day a

The proposal to abolish mathematics as a required high school study is absurd. How could football signals be understood without it!

Four executions have been suspended by the Russian bolshevik government. Perhaps the official executioner needs a rest!

The conference could hold President Harding responsible for the fact that a lot of democrats are out of jobs.

OPINIONS REPRINTED

Philippine Public Ledger: Washington is letting it be known here and abroad that the United States will not enter the conference on the limitation of armaments with a despairing and sentiment-driven determination to get results, no matter what the cost to America. Washington holds, and properly, that the United States will flourish, no matter what happens in the conference. This country wants, demands and hopes arms limitation will come. We are not militarists. The American instinct is to keep the ways and means of war. The sentiment for disarmament comes up from the grass roots and down from the mountain tops. We are willing to go a long way to lessen armaments, but we are not going alone when we do go.

National Republican: The country does not want to witness again the spectacle of a president physically and mentally stricken, with a cabinet trying to take over the business of government and the American people in doubt as to the ability of their chief executive to give personal attention to public business. They not only do not beg for President Harding his plenary periods, but they hope that he will take more of them. Washington in Washington through a summer of unprecedented heat, taking his vacation in small doses from time to time. That he has kept himself in good physical trim in the face of the trying conditions of his office is justification for every hour of recreation he has taken and a good argument for more.

Moscow Star-Mirror: The American flag has been forbidden to go into Russia, with the flag of food being sent into that country, in which thousands of people are starving as the result of misgovernment. The reason given by the Russian authorities is that the political situation between the two countries is most delicate. It must be a damnable delicate political situation which would make it necessary for an American to haul down Old Glory and put it out of sight while the food is being delivered to the starving and misgoverned Russians. Such stuff is rot.

More Truth Than Poetry

AW, WHAT'S THE USE?

By S. E. KISER
"SAVE a little here and there,"
Says the wise economist;
"If you're tempted, have a care;
Practice nobly to resist."
I have found my last year's hat,
And my luncheon checks are small,
But the missus tells me that
Earnings are in style this fall.

"YOU can learn, if you will try,"
The economist asserts,
"To save money when you buy
Rocks and handkerchiefs and shirts."
I am taking his advice;
I am slugging my old haunts;
But they ask an awful price
For the cost the missus wants.

I AM eating frugal meals—
Crackers and a bowl of soup—
I save down at the desk,
But I do not care a whop!
Walking suits me, dry or wet—
Yesterday the missus paid
Forty dollars for a set
Of green curtains made of jade.

I'M admitting the good sense
Of economists who advise
"Keep on paring down expense,
Don't forget the rainy day."
I am smoking less and less,
But the missus has her eye
On an emerald, and I guess
It's the one I'll have to buy.

THE WAY OF A MAN

When he is traveling afar,
He beats his horns with all his might;
He tells what his attractions are,
Declaring that his future's bright;
But let him, after many days,
And he will have few words of praise
To utter for the old home town.

IF ONE MAY BELIEVE IN SIGNS

Glass bottle makers are threatened with a reduction of output. Production must be making headway in spite of reports to the contrary.

great many of them are waiting my return."
Dr. Henshaw estimated that there are 100,000 persons in Japan afflicted with leprosy. The fact that chaulmoogra oil is a curative for leprosy was known in Japan before Dr. Dean's. Dr. Henshaw said, but the effect of taking the oil prior to Dr. Dean's experiment was so terrible that many persons preferred to suffer with leprosy rather than submit to the treatment.

Names Traced to Chinese.
Many names of cities, mountains and rivers in the West, and along the Pacific coast, which have generally been regarded as Indian names, are really of Chinese origin, according to a writer in the New York Herald. Even the names of the state of Utah and Nevada are of Chinese origin, he says. "Uto" or "Uto" means "to be Chinese" therefore the Pleian Indians were merely the North Uto Indians.

WORKERS OPEN OWN COLLEGE

More Than 80 Men and Women Enroll to Train in Labor and Farm Movements

KATONAH, N. Y., (AP)—Brookwood, a resident workers' college, opened here Thursday with more than 80 men and women students who will train for leadership in labor and farm movements.

The college, which was founded by a number of labor organizations, aims to train economists, statisticians, writers, teachers, organizers and other workers and speakers "in order that these (labor) movements may have people capable of their own ranks with their own point of view who are fully capable of training and knowledge of creating a plus statementship."

Brookwood will be not only a college but an experiment in community living. Every one will take his turn at washing dishes and performing the necessary tasks about the school grounds.

"Faculty and students perform the jobs that call for attention from cooking in wood cooking and from farming, teaching and other work," said the college prospectus. "The importance and dignity of hard work and head work are both fully recognized."

The school will be one of genuine democracy and self government, according to announcements. The ruling power of the college will be an executive committee, which every faculty member will have one vote, whether faculty member or student.

The course of study will be two years, but there will be a third year of postgraduate work of a specialized character for those who wish. The regular course the first year includes social problems, history of civilization, English language and literature of students.

The second year continues social problems and includes modern social problems, science and certain practical courses, such as statistics, labor organization, labor and farm journalism and workers education.

Unions Select Students
Students to the college are chosen by labor organizations who have donated scholarships.

The cooperative labor committee, which took a prominent part in founding the institution is headed by John Fitzpatrick, Chicago labor leader, and James P. Murray, president of the Pennsylvania state federation of labor.

Japanese Marriage Laws

The legal restrictions on the age at which a person can marry are different between men and women, according to the civil code of Japan. Men must be above 17 and women 15 years. There can be no marriage without the voluntary agreement of the man and woman when a marriage is to be contracted. If they have parents living they must obtain their consent, unless the man has completed his thirtieth year and the woman her twenty-fifth.

Many Kinds of Honey

There are more kinds of honey than you think. There is honey that is black and sour; honey that is red; honey that is poisonous, honey that is green and honey that is rose color. Many of us have eaten honey that is white and most of us know honey that ranges in color from pale yellow to brown. Honey is of many flavors, depending on the kind of blossoms the bees work on.

DIDN'T HAVE TO ASK FOR IT

Simple Matter of Finance by Which Frederick Became Possessed of All-Day Sucker.

Frederick has not yet learned the addition and multiplication tables, but he has reached such an understanding of finance as a verb transitive that one wonders as to his future.

"Here, Frederick, you be mother's big man and take this empty milk bottle to the grocery on the corner and bring back a full bottle of fresh milk for baby."

"And I pay the money to the man, mummer?"

"No, dear. You know how we get it sometimes. The man will charge it."

"Haven't you got any pennies, mummer?"

"No, Frederick, mumsie hasn't any pennies for candy this time. Now be careful. That's a nice little man."

Frederick returned satily with a bottle of best grade milk. Also, he had a five all-day sucker in his mouth.

"Why, Frederick, I hope you didn't ask the grocer to give you that candy!"

The sucker had to be removed before the youngster could articulate.

"No—I wouldn't ask—I paid for it!"

"But Where did you get the money?"

"He give me a nickel for the empty bottle and then I pay for the sucker, and then—then he charge you for the new bottle milk."

CHURCH OF ENGLAND IN CANADA PROPOSES UNION

HAMILTON, Ont. (AP)—A series of resolutions favoring the union of the Canadian church of England with other Protestant denominations in the domain, were adopted today by the upper house of the general synod of the Church of England in Canada, and sent to the lower house for approval.

Sugar an Ancient Food.
Sugar is an old food in the Orient. Herodotus tells that the Hindus "obtained honey from reeds or bamboo."

There is a wealth of classic lore on bees and honey. In ancient days honey was extensively used in the practice of medicine and our European ancestors so used it. Even as late as two centuries ago they claimed medical virtue for honey, and many interesting recipes are stored away in faded books on medicine.

Evil of Discontent.
Discontent is like ink poured into water, which fills the whole fountain full of blackness. It casts a cloud over the mind and renders it more occupied about the evils which disquiet than about the means of removing it.—Folsham.

ROASTED A LITTLE BETTER THAN SEEMS NECESSARY

But it is that "little better roasting" which makes BLUE PINE COFFEE a little better in taste, flavor and nutritional value than any other coffee that ever reached your table.

As the roasting proceeds coffee loses in weight and gains in bulk, and the most it is roasted the more of the coffee's real goodness—the aromatic oil—is lost.

BLUE PINE COFFEE is roasted by a process which eliminates any possibility of over-roasting. Trained study and a scientific timing of the "roast" results in coffee of a light brown color—roasted just enough to bring out its inviting fragrance, smooth, mild taste, and distinctive flavor.

MEMORIAL WILL HONOR PIONEER OF NORTHWEST

Figure of George William Clark Erected by Native County, to Stand at Entrance to University of Virginia Campus

CHARLOTTESVILLE, Va. (AP)—George Rogers Clark, conqueror of the Northwest of Revolutionary days and brother of William Clark, the colleague of Meriwether Lewis in the Lewis and Clark expedition in exploring the far northwest, is to be honored in his native county of Albemarle by a memorial in the form of a bronze figure on horseback as the central figure of a group which soon will be placed in a park here near the entrance to the campus of the University of Virginia.

The group, the work of Robert Ingersoll Atkinson, a New York sculptor whose previous masterpieces is the McKinley monument in Golden Gate park, San Francisco, was a gift to the University of Virginia by Paul Goodloe Patton, a native of this city and an alumnus of the university. It epitomizes the adventure and achievement of the noted Virginian in exploring and acquiring the territory between the Mississippi and the Alleghenies known as the Northwest.

Clark Dominates Group

There are seven figures in the group. Clark, on horseback, is in the center and dominates the group. He is paralyzing with two Indian chiefs whose distrust or enmity is shown in every facial line and especially in the hands which their backs are partly turned to the explorer and his Virginians. Clark's typical is represented by three horses in the background. Two of these are wild their flankings in readiness for defense, or in threat. The third figure is posed over a barrel of powder. A young squaw, the third Indian figure, holds a baby.

George Rogers Clark was a native of Albemarle county. The site of the park in which he was born is still known about three miles northeast of Charlottesville. It is in full view of Monticello and there are evidences in Jefferson's letters that he was acquainted with the Clark family.

Recognition Comes Slowly

Virginia, whom he so signally honored, was slow to acclaim George Rogers Clark. In his last years the legislature of his native state tendered him a sword. He was then living in Louisville, Ky., where his grave is now marked by a monument which is an impressive and dignified tribute to his worth and recognition of his services. Clark received for his service during the Revolution a grant of land on past which, near Louisville, he spent his last years.

Homeless Dog Shares Fate of Equine Friend

KANSAS CITY, Kan. (AP)—During the burning of the garage at 13th and Stewart, Kansas City, Kansas, a little ownerless dog sacrificed his life that he might share the fate of a horse who died in the flames. The horse was brought from a trader and used for hauling a small ice wagon. After the arrival of the horse the dog was not noticed about his stall. The dog had many friends among the boys in the neighborhood and divided his time with them but never failed to say daily visits to the horse and sometimes followed the wagon on its rounds. Several attempts were made to rescue the horse from the rapid spread of the fire but the feet of explosions from oil and gasoline prevented the rescuers from reaching the animal. The dog accompanied each one who attempted to rescue the horse and was brought back forcibly several times but finally sprang in alone and made his way through flames and falling timbers and died beside the friend he could not save.

The Brownies Are Coming!

Little English Brownie Saluting Mrs. Jane Dexter Ruppel, National Director of the Girls Scouts

TWINTH-TWINGOO!

The Brownies little Brownies gathered in fairy ring and had their fun, too. But while they were having their fun they were getting other things. Treasure hunts taught them all about the flowers and grasses and trees that they found, and their games were designed to give exercise to every muscle in the Brownies' sturdy bodies. When Mrs. Jane Dexter Ruppel, the National Director of the Girl Scouts here in Boise, discovered that very many of the girls who wanted to join could not because they had to take care of their small sisters. So all the little girls under ten were formed in "packs" of twenty-four. They were given Brownie caps to wear, and later, Brownie uniforms. Then with a big Brown Owl as a leader and with the Girl Guides badge turns as leaders, the

PHEASANT HOLDER MUST FIND DONOR OR PAY PENALTY

Victim of Law's Minion Faces Court in Case of Illegal Possession

It is not safe for any man to be caught without of season game in his possession, no matter how that possession is obtained. That is a warning issued by J. H. Fitzsimmons, deputy state game warden of this district who reports a case in proof of this. The deputy early in the week while on his rounds as an enforcer of the state game laws, discovered a man having in his possession the carcass of a Chinese pheasant. The name of the man will not be made public until he has been given ample opportunity to either provide the authorities with satisfactory explanation or else be haled into court to answer charge of killing game out of season. The suspect, when apprehended, declared he had not shot the bird, but had been present with it by another man. The suspect has been given a chance to find the "other man," and should he do so the authorities will place the responsibility where it rightly belongs. In case of failure the man in whose possession the bird was found will have to pay the penalty. A Good Phyzic. When you want a phyzic that is mild and gentle in effect, easy to take and certain to act, take Chamberlain's Tablets. They are excellent. READ THE CLASSIFIED ADS.

Reserves

Many corporations and business men have been able to weather the late year of strain because of reserves which they had built from previous years. Such a reserve is useless unless it can be turned to account when needed. The Twin Falls Tract is now harvesting what will probably be the largest crop it has produced. There will be many farmers again in possession of surplus funds. Now is the time to start such a reserve. A savings account is the place to put this money for it will be at your service when needed. MIKADO'S MIND BREAKS UNDER DISEASE RAVAGES

Official Statement Declares the Condition of Emperor Yoshihito Worse

TOKIO, (AP)—Emperor Yoshihito, whose illness has been causing alarm in Japan, is said to be worse in an official statement issued here. It is declared his condition is most unsatisfactory. At the imperial household it is explained that the emperor's physical and mental condition has become aggravated. This difficulty he has experienced has been augmented, while his memory and capacity for attention have declined. There are signs that he has been suffering from a severe disease of the brain, and it is recalled that during his infancy he was seriously ill, his mind recurring after he attained his majority. Since the coronation he has gradually weakened in mind and body. The official statement concluded by saying that the growing volume of domestic and international business was placing an increased demand upon the time of the emperor, and compelled the issuance of a formal statement.

UNIVERSITY PEP BAND MAY VISIT TWIN FALLS

Student Musical Organization Will Tour South Idaho After Armistice Day, Game at Boise

UNIVERSITY OF IDAHO, Moscow, (Special)—The university pep band will attend the Armistice day football game at Boise on November 11, when the University of Idaho meets Wyoming. Tryouts for new musicians are now under way. The band will leave several days before the game and visit towns adjacent to Boise, including Nampa and Caldwell. Possibly Boise alumni will take the musicians overland to Twin Falls for a concert there. READ THE DAILY NEWS.

OFFER TO RETURN CALL OF MIKADO'S SUCCESSOR

French Field Marshal to be One of the First of Dignitaries Making Official Visits to Japan

HONOLULU T. H., (AP)—An influx of foreign princes and high dignitaries soon will begin into Japan to return the official visits paid by Prince Hirohito, heir apparent to the Japanese throne, on his recent tour of the world, according to a special cable dispatch received from Tokyo by the Nippon Jiji, local Japanese language newspaper. The first of the visitors will be Field Marshal Joffre, hero of the world war, who left Paris Sept. 2 for Japan, according to an official message received by the Japanese government. He will come as a special envoy of the French government. Marshal Joffre will be followed by an official visit by the Prince of Wales, heir to the British throne, who will leave London March 17 next for Tokyo, according to an official message from the British court. The Japanese government, especially the imperial household, is making elaborate plans for welcoming Marshal Joffre and the Prince of Wales, the Nippon Jiji cable said. It is also reported from Tokyo that the crown prince of Belgium and Italy and a prince of the Holland royal family will visit Japan to return calls made by Crown Prince Hirohito.

Superstition of Sailors. Old sailors believe ill luck will surely follow if anyone even accidentally counts the number of persons on board ship.

Secret of Happy Life. The secret of the happy life is found in the direction of our eyes and the order of our thoughts. Which do we look for first, complaint or praise? Which goes first into our scale for estimation, trial or mercy? Are we looking part way up to compare ourselves with more successful men, or far beyond success to the center of our life and joy?—Exchange.
Eraser Hint. When the eraser becomes worn it is best to erase a letter. To avoid this, simply rub a little chalk on the edge of the eraser and no smearing will occur; and the erasure of the letter will be done much more quickly as well as more neatly.

LACK OF UNITY HOLDS MARXISTS OF ITALY BACK

Convention at Milan to Determine Whether or Not Party Will Lend Its Support to the Government

MILAN, (AP)—The Italian socialist party which will meet here October 10 to debate a change of tactics is represented in the Italian chamber of deputies by 122 members, the strongest party numerically but it is composed of dissenting groups. If the difference of these are not composed, the party's compact representation may be divided into small factions and cliques.

Leading up for the convention are the pro-soviet, anti-government groups, anti-Russia faction, pro-soviet, anti-internationalist and socialist tendencies. They are meeting mainly to decide whether the socialist deputies should participate in the government or stand up against the government on every proposal that it makes.

Get What They Can

The right wing under Donatelli Turati, Troves and Migoniani is for joining in with the Bonomi government and getting what they can in the way of legislation.

The left wing is for holding out until the socialists in full force can take possession of the government and the "spoils of victory." They are headed by Ettore Scazzari, director of the socialist press and Deputy Baralato.

The right wing is called the "collaborators" and the left, the "anti-collaborators."

The right wing looks upon the present parliamentary situation as one which would yield considerable socialist legislation. The leaders have been somewhat kindly disposed to President Squozzi, who at one time was a fiery leader in the socialist ranks but was dropped from the official rolls of the party because of a too patriotic attitude.

That wing is insistent on participation in the government and many of the deputies of that faction are reported to favor deserting the socialist party by a vote if the prevailing sense of the convention goes for "anti-collaboration."

The left wing holds that non-participation in the government puts the socialists in a strategic position, because if they are not in the government they

First Picture of Famine Suffers in Russia

The camera today gives us a view of suffering Russia. You see the pathetic spectacle of famine sufferers as an emaciated mother and child, and another woman prone on the ground, weary and half-starved. The mother is cleaning the child's head of typhus-carrying vermin with a piece of wood. News reports from the land of the soviet told of hundreds of thousands of such scenes as this. The healthy-looking man in uniform is Leon Trotsky, bolshevik war minister. The photograph was snapped as he was reviewing his Red army in Kremlin square, in August. For the first time you see "Big Bill" Haywood, American I. W. W. leader, as he appears in Russia, whence he fled to escape a twenty-year term in Leavenworth prison, forfeiting his hair-shirt, put-up by friends. Haywood wears American clothes and is shown surrounded by bolsheviks.

SENATOR KERNON DECLINES KLABON ON FEDERAL BENCH

WASHINGTON, (AP)—Senator Kernon, republican, Iowa, informed President Harding Thursday that he could not consider at the present time acceptance of the federal judgeship of the Northern Iowa district.

Coal Lost in Waste

Under ordinary conditions of mining and firing, out of every 2,000 pounds of steam coal in place in the mine, only about 75 pounds are converted into mechanical energy—a most surprising fact. The other 1,924 pounds are either unavailable or are absorbed by the light losses.

READ THE DAILY NEWS

will not be responsible for any misdeeds imputable to the government. On the other hand, if any credit is due, they are prepared to claim it, they contend, without having borne any responsibility.

Press Voices Complaint

The Italian newspapers have complained bitterly of the socialist abstention from the responsibility of the government.

While the discussion on "collaboration" and "anti-collaboration" will occupy the main attention, there will be insidiously dwelling especially on the Russian situation.

The third internationalist asked for the expulsion of Serrali and Turati from the party. This would mean that more than two-thirds of the organization would be outside the pale of the third internationalist. The remainder, headed by Deputy Baralato, Deputy Lazzari and others, would conform to

the dictates of the Moscow congress. A party split on these lines seems, however, rather unlikely.

Deputy Lazzari, who was a delegate to Moscow, went there opposing the Lenin and Trotsky dictatorship but returned all for them. Describing the conversion, he said:

"On his way to Moscow, Lazzari was struck by thunderings and lightnings like St. Paul on his way to Damascus and thereafter became a convert of Lenin."

"Expectation" Dream

To dream that you expect some one and he comes denotes you are safe. In the course you are pursuing, but if he does not come, then your course is unwise and you should change.

PEDALS HIS WAY ACROSS ENGLISH CHANNEL WATERS

Motor Engineer Negotiates Successful Crossing by Means of Bicycle Fitted with Two Large Pistons

PARIS, (AP)—Harold Bigby, an English motor engineer, has just crossed the English channel, from Folkestone to Calais on a bicycle fitted on two large pistons with a propeller on the fore part of the machine driven by a rod which in turn was operated by the pedals. The rider said that he covered just 30 miles in a little more than 12 hours.

Mr. Bigby was accompanied by a motor boat on the trip. Describing his ride, he said: "A strong sea was running and a southwest wind blowing but I was much better off than those in the boat for the cycle rode the water better."

"For three hours I was seasick and I couldn't be fed as the waves prevented the boat from getting close enough to me. Once I was almost washed off my seat and frequently I was covered in water up to the saddle of my machine."

His companions said Mr. Bigby alighted from his machine quite fit.

SPORTS

WASHINGTON'S VARSITY MEN HOPEFUL LOT

Victory Promised This Year where Disaster Prevailed in Season of 1921

SEATTLE, (P)—University of Washington's 1921 football team, admittedly an unknown quantity in the plans of Pacific coast coaches—is expected by the purple and gold followers to perform a brilliant reputation, by last year's almost unbroken series of defeats.

For more than three weeks, over 20,000 men, the largest squad in the history of the school, have been turning out daily under direction of Coach Doern (Daggy) Bagshaw. Seven letmen and a score of 1920 "fresh" are on the squad.

Coach Bagshaw has ventured no prediction. "I can't say anything as to how any football game here is going to turn out until the game is played," he said.

Washington's squad is speedily but ineffectually observed by the veterans of the 1920 team.

The seven letmen out are Captain Ray Eckman, half; Johnny Wilson, quarter; Zeke Clark, tackle; Ed Poreg and George Rogge, ends; Bob Ingram, tackle and Ed Hobi, guard.

Among other who have developed fast in the early season work is Zed, backfield man whose punting and kicking leg indicated he will run Wilson a race for kicking honors.

Washington will open the intercollegiate season next Saturday playing against Whitman College.

"Haven't Started to Play Yet", Mentor of the Nationals Declares

NEW YORK, (P)—"I am not at all discouraged. I expect the Giants to go out and win for Tony," declared Manager McGraw of the Giants as he announced that the big twister will be sent against the Yankees today.

"They have got to win and I am confident that they will do it," he added.

Indiana Eleven is Facing Tough Task in Meeting Harvard

Crimson Unbeaten in Intercollegiate Games Played in Many Years

CANDRIDGE, Mass., (P)—Indiana, facing Harvard at the stadium Saturday, will have to contend both with the Crimson team and with a Crimson record of being unbeaten in every intercollegiate game played in the past 40 years.

Beginning with Michigan on November 5, 1921, Harvard has turned them all back, high spots in the intercollegiate series being the defeats administered to Michigan in 1914, to Oregon by the team of 1919, and to Centre college last year.

The Rutbs and the rest, who have won undying fame heretofore, now form only the background of the picture in which Ward, McNeill, and Meusel stand out in bold relief.

Bob Meusel, it is said, told everybody the night before the game that he intended to steal home in the eighth. He made good.

There exists an agreement between the Meusel brothers that the one who gets least hits must defray all expenses of a Meusel family Thanksgiving dinner.

Waldo Hoy was formerly a member of the Giant staff.

Muggsy McGraw has an ally for the two games lost.

Opportunities turned to advantage cannot always be considered "breaks".

The American league team has been quick to make the best of its opportunity.

Business at the world series score board in front of The Xerox office yesterday.

The most "snapped" man of the series, thought enough of him that he had been taken yesterday when he was asked to pose for the 101st time during the day.

"Dad" Hoy watched "Bonn" Hoy win a place in the backfield of the team; he was some excited dad, too.

From now on the games should develop hitting. The slugging on the contending team cannot be held back much longer.

Clint Penn's high school opponents are at grips this afternoon against the Wendell team. The game is playing in Lincoln lot.

Babe Ruth has some ideas of his own about what is new.

The most "snapped" man of the series, thought enough of him that he had been taken yesterday when he was asked to pose for the 101st time during the day.

Most odd. Hoy, the two winning Yankee pitchers are tied for first place in their club's hitting averages.

By actual count, four out of every five homes in Twin Falls receive The News, Daily. Tell all these people what you have to sell, trade, barter or exchange, about your rooms for rent, houses for sale or rent, the position you want or the help you need—One Cent Per Word—Phone 32

of both teams in hitting—five hits out of eight times up—625 average.

Nick Altrock, famous comedian of the series a too reticent. He is believed to put some comedy into it today.

Fifty-five baseballs were used in the second game. Out of five dozen brands are ones, furnished by the Yankees as it was their day "at home," it implies saved five to use in early batting practice today.

"There's something to it, it's a game," Babe Ruth's comment after the clutch. He didn't do much with it but mostly because he didn't have a chance.

If a man look sharply and attentively, he shall see. Fortune, he will find she is blind, she is not invincible.—Lord Byron.

CANCER LEADS TUBERCULOSIS AS DEATH KING

Dr. Jones, Addressing Convention, Tells of Rapid Strides Made by Disease

Nearly one-third of all cases of tubercular death in inflammation of the eyes in newborn babies. This condition is entirely preventable. If the proven means were used in all cases, every infant in the United States could be eliminated from every state west of the Mississippi and from the states of Connecticut, Florida, Georgia, Delaware, South Carolina, West Virginia and Louisiana.

Cancer Leads Tuberculosis
The subject of treatment of cancer and other malignant growths which frequently destroy life, was discussed by Dr. A. C. Jones of Butte, Montana, in considering rapid cancer, and the effects obtained through that treatment. The speaker was introduced by Dr. J. P. McCalla of Boise, who made the startling statement that tuberculosis is no longer to be regarded as the "Spanish influenza" which it is, but is being outstripped by cancer in the race for the gruesome honor. The rapid increase of this deadly disease is accounted for in the corresponding increase in the number of deaths.

Disease is Curable
"Cancer is entirely curable," said Dr. McCalla in speaking further, "but it must be taken in time. It is not upon people whom you can reach. Chronic irritation is a preexisting cause, and any tumor is an object of suspicion. Ulcers must be watched for, for too often cancer follows."

ODD-FELLOWS PLAN AN ACTIVE LODGE SEASON
District Drill Teams to Compete for Silver Cup in Confering Degrees

With a silver loving cup for the prize competition will be held between the drill teams of the I. O. O. F. lodges of Twin Falls, Bull, Rupert and Burley. This is but one of the events planned by the local lodges to stimulate the interest and enthusiasm that will characterize the work of the fall and winter.

BOYD BRINGS SUIT
Nick Smith is made defendant in an action filed by Dr. P. O. Boyd in the district court, in which judgment for \$501.51 is asked in liquidation of a promissory note on which that defendant is to be due.

NOTE INVOLVED
The sum of \$485.05 is asked in judgment in an action filed by Dr. P. O. Boyd against Mr. and Mrs. Ward V. Bonner. The amount is alleged to be due on a promissory note.

To rally all forces, whether active or passive, a mass meeting has been called to be held in the auditorium of the high school this evening for the purpose of giving further consideration to the south rail line fund canvass. The meeting will be opened at 8 o'clock and will be in charge of the canvass and executive committee.

COMMISSIONERS GIVE MUCH TIME TO ROADS
Highway Board is Beset with Many Petitions for Improved Highways

Members of the Twin Falls board of highway commissioners yesterday afternoon viewed certain stretches of road from which have come applications for improvements. Attention for better piece of road from the Knoll highway to Rogerson through Hollister, filed a fortnight ago, has been given priority.

CITY IS REPRESENTED AT POWER SITE HEARING
C. E. Wright and Newell S. Wright, representing the Twin Falls Chamber of Commerce, are in Rupert today attending a meeting called by the interstate commerce commission to investigate a petition of the Idaho Power company which asks a permit for power development at the Twin Falls of the Snake river.

Numerous protests have been entered against the proposal to commercialize the river for the benefit of commercial bodies, individuals and associations, including irrigation and reclamation companies. Representatives of all these protesting factions are attending the hearing.

A Remarkable Record.
Chamberlain's Cough Remedy has a remarkable record. It has been in use for solids, croup and whooping cough for almost half a century and has constantly grown in favor and popularity as its good qualities become better known. It is the standard and main reliance for these ailments in thousands of homes. The fact that it can always be depended upon and is so pleasant to take are greatly in its favor when it is wanted for children.—adv.

PARDON BOARD DECLARES THAT RAMIREZ MUST DIE

First Hanging in State Since 1909 to Result from Decision in Murder Case

Sentence of death in the case of Vincent Ramirez, convicted of murder, will be carried into execution as a result of the refusal of the state board of pardons, at a special meeting Thursday, to commute the prisoner's sentence to life imprisonment.

The hanging of Ramirez will be the first in Idaho since January 2, 1909, when Fred M. Stewart paid the death penalty. No date will be set for the execution until the case is again referred to the court in which it was originally tried and a retrial imposed upon the doomed man. The date of execution must be not more than 30 but less than 60 days from the date of the order of the court.

Decision of the pardon board was rendered despite the unprecedented action of the members of the supreme court last July when they appeared before the board as private citizens asking clemency in the disposition of the case.

Ramirez and Pedro Espinoza were convicted of killing Dr. Biscarra in Madson county in 1917. Ramirez received the death sentence and Espinoza life imprisonment. Both have been at the penitentiary ever since.

Vote to hang the convicted man was two to one. Governor D. W. Davis and Robert O. Jones, secretary of state, attended the meeting. Roy L. Black, attorney general, was in Twin Falls at the Southern hotel, but in a letter left with the governor before he left Boise, he made it clear that he stood for commutation of sentence.
