

CANADA PLACES MANY VETERANS ON FARM LANDS

More Than 27,000 Individual Service Men Benefit from the Law Aiming to Re-Establish Soldiers

OTTAWA, Oct. (AP)—Canada has spent over \$34,000,000 in the establishment of returned soldiers on the land. This figure represents over 27,000 individual ex-service men who have benefited from the law which had for its twin aims soldier re-establishment and the development of the agricultural resources of the dominion. It represents 80 per cent of Canada's ex-service men who have gone back to the land and 30 per cent of the men of the Canadian army who were demobilized as physically fit.

Loans up to \$7,500 Under the law any ex-service man eligible from a military standpoint, having seen service overseas, may apply for loans up to a maximum of \$7,500 for the following purposes: for the purchase of land, \$4,500; for stock and equipment, \$2,000; for permanent improvement, \$1,000. If on encumbered land, the ex-soldier is entitled to loans amounting to \$5,000; if on free dominion land to loans amounting to \$3,000. In the case of purchased land the soldier may pay 10 per cent of the cost price of the land as a guarantee of good faith.

These benefits are open to men of the Canadian Expeditionary Force, to ex-service men of Great Britain, the dominion and the allied forces, who lived in Canada prior to the war, and to ex-service men of the imperial or dominion forces, if on their arrival in Canada they spent a sufficient time to gain practical agricultural experience on Canadian farms. The imperial, however, are required to pay 20 per cent of the expenditures for all purposes cash down.

Training Course Provided On July 31 the number of applications was 60,837, and of these 43,703 had been accepted as qualified to farm. Nearly 1,000 others are in training with the intention of taking up farms when qualified. Of the 26,701 settled on the land, 20,624 were granted loans.

The others were located on free dominion land without financial assistance. The Settlement Board adopted a system of re-education, requiring that applicants must pass a rigid examination as to physical ability, moral character and ability of purpose, with the result that, out of the 29,000 men who have now been on the land upwards of two years, strict supervision of their operations has revealed the fact that only about 10 per cent have failed to show promise of satisfactory results. In some cases it has been found necessary to allow the settler to withdraw from his obligation and the board has taken over his farm and sold it to another.

In 425 such cases, where the investment of the government was \$1,062,759, the government realized on resale \$1,534,523, showing a loss of only \$19,300 on each farm.

Loans Run 25 Years The loans for land and permanent improvements run for 25 years, there being no interest for the first five years, with interest at five per cent. No payments were due until the fall of 1920, when 12,231 men were liable. The number who made repayments was 9,330 and 1,430 made prepayments. There were 403 who repaid their entire loans.

In view of the collapse of the markets in the middle of the harvesting season and of the occurrence of drought and other visitations last year in some localities in the West, the government regards this statement as very satisfactory, and it is believed that a very few years will see most of these soldier farmers well on their way to success. Indeed, there are cases where settlers have taken from the ground crops aggregating in value more than the whole cost of their farms.

Alberta Has Most Alberta has the largest number of soldier settlers, with 6038; Saskatchewan second, with 5383; the other provinces in the order named: Manitoba, 3319; British Columbia, 2767; Ontario, 1621; New Brunswick, 641; Nova Scotia, 381; Quebec, 363; Prince Edward Island, 320.

In addition to the loan advantages which a soldier settler has, the board secures for him very favorable arrangements with regard to the purchase of his stock and equipment. Farm machinery manufacturers, lumber dealers and wagon makers give special prices to soldier settlers, in some cases, amounting to a reduction of 30 per cent. In the purchase of equipment the board has effected a saving of \$888,894. It also has saved the settlers large sums in land purchase. No intermediary is permitted to take a rake-off on soldier farms; the land is bought direct from the owner. The most important advantage, however, is the supervision which the board gives to its settlers. It advises him in all his operations until satisfied that he is doing well and in a position to carry on without assistance. It buys only what he needs, not what he wants, and very curbing his propensity for rash buying.

Works with Red Cross A home-branch council and auxiliary in whatever manner seems to be desirable the dependents of the settlers. This branch has secured the co-operation of the Red Cross and other societies to the establishment of hospitals in remote areas and it has brought thousands of the women to centers of population for courses in home economy, which have proved very interesting and helpful. This great re-establishment scheme, which is in vogue in the world, is administered by a board of three. Major John Barnett, Major E. J. Ashton, and Samuel Mober. The head office is at Ottawa and district offices are established in every province.

CO-OPERATIVE SOCIETY BANKRUPTCY IS DENIED

Man Prominent in Organization Declares Reversibly Proceedings Denial of Blackmail

CHICAGO (AP)—The Co-operative Society of America which was placed in the hands of the Central Trust company a receiver Thursday, was declared Friday by Harrison Parker, one of the chief figures of the organization, to have virtually been succeeded last February by the "Co-operators of America."

In federal district court yesterday, Judge Evans in appointing a receiver for the ten million dollar corporation, which owned dairies, grocery stores and other industries, declared the society was visionary. "There is nothing at all to this appointment of a receiver," said Mr. Parker. "The whole attack on the society is made by certain attorneys for blackmail. We have assets totaling five million dollars and do not owe a cent to anyone."

Taft Re-Elected as Unitarians' President

DETROIT, Mich. (AP)—William Howard Taft, chief justice of the United States supreme court, Friday was re-elected president of the Unitarian General conference at the organization's closing business session. He was elected without opposition, for a third consecutive term.

SHOTS SCATTER SHEETED GANG

Oklahoma Sheriff and Deputies Put White Robed and Masked Men to Rout

DURANT, Okla. (AP)—Several shots were fired Thursday night between officers of Durant and Sheriff Taylor of Bryan county and three deputies, and a band of nine masked white-robed men who the officers discovered in a pasture north of the city. None of the officers was injured. The robbers fled after the shooting and Sheriff Taylor said he believed none of them had been wounded. The sheriff declared he would not permit meetings of masked men.

Greeks Force Turk Columns to Retreat

ATHENS, (AP)—Serious fighting has occurred between Greek and Turkish nationalist troops on the Afion-Karabhisar front in Asia Minor, and as a result, the Greeks have forced nationalist columns to retreat, says an official statement issued here. The sixth Turkish division was completely defeated, and fled from the field, being pursued by the Greeks. The losses of the enemy are declared to be very serious.

Red River Valley in Grip of Cold Wave

WICHITA FALLS, Texas, (AP)—A cold wave reached here early Friday, followed by a drop in temperature to 53 degrees. Fort Worth and Denver railroad employes reported snow had fallen at Taxline.

OIL TAKES ANOTHER JUMP

Advance of 25 Cents a Barrel is Announced in Texas and Pennsylvania

TULSA, Okla. (AP)—Northern Texas oil was advanced to \$2.75 in quotations announced here Friday. The Prairie Oil and Gas company met the \$1.50 price on Oklahoma oil by announcing a 25-cent advance.

PITTSBURGH, Pa. (AP)—Another 25 cents a barrel was added to the principal grades of crude oil quoted in the Pittsburgh market Friday. It is the second advance in crude this week.

HINER NAMED SUCCESSOR TO GENERAL DIKEMAN WASHINGTON, D. C. (AP)—Major General John L. Hiner was designated Thursday by Secretary Weeks to succeed Major General Dickman, retired, as commander of the Eighth corps area with headquarters at Fort Sam Houston, Texas.

PROOF OF THE ARGUMENT
that best vulcanizing pays, is furnished by the fact that tubes never blow out again at points where we have repaired them. A tube may have but one weak point. When that gives way, bring the tube to us for repairing and rest assured that trouble is snuffed as far as that tire is concerned.

Calls for Big Fund for Russian Relief

LONDON, (AP)—Efforts to save 10,000,000 Russians from starvation will fall unless 5,000,000 pounds is raised before Christmas, declared Dr. Fridtjof Nansen in an interview with the Daily Herald, last night. Dr. Nansen, who is in London for the purpose of furthering measures for the relief of Russia, asserted the solution of the world problem of unemployment was to be found in combating famine in that country.

GATES TIRES

The Tire With the Wider and Thicker Tread

Obvious, Isn't It---

The miles you get out of a tire depend upon the miles that are built into it.

That's why the tread is so important. It is this rubber tread that has to take all the road wear and keep the bumps away from the inside fabric.

Obvious, then, isn't it, that a tire with a wider and thicker tread should wear longer. It does. That's the one big secret back of the Gates Super-Tread Tire.

STATES' GRID TITLERS GET LITTLE OPPOSITION FROM NORTH-SIDE CHALLENGING TEAM

Champions Retain Superiority in First Game of the Season, Winning Tilt with Wendell on Home Lot 133 to 0—Individual Stars are Numerous on Home Side, with Captain Fix Leading the Way—Substitutes Get Chance

SCORES BY QUARTERS. 1st Quarter—Wendell 0, Twin Falls 42. 2nd Quarter—Wendell 0, Twin Falls 50. 3rd Quarter—Wendell 0, Twin Falls 21. 4th Quarter—Wendell 0, Twin Falls 14. Total—Wendell 0, Twin Falls 133.

Out-matched, out-played, out-classed, the Wendell high school football eleven was trounced by the state battlers and beaten into hopeless dejection by the smashing onslaughts of Clinton W. Evans' row high school grid team.

Act like titlholders. Evans' first team, at least the team he sent into the field to start the fray against P. E. Crutchfield's north-siders yesterday, looked like a championship outfit from the beginning.

Picked to Place. In the first quarter Selley dashed through the line for 55 yards to the goal after play had been about a half minute.

Substitutes Held 'Em. Coach Evans started off early tearing his first strength team to pieces in the third quarter.

Coach Evans started off early tearing his first strength team to pieces in the third quarter. Puckett went to the goal for Tucker.

Leiser at left guard. Scott went through for 35 yards for a touchdown and Fix followed up with another. Twin Falls was penalized for offside just before the whistle blew for the end of the quarter.

Beginning the fourth, King was substituted for Selley at right halfback. Fix went over for a counter.

WENDELL. Position. TWIN FALLS. Line—Left Guard, Leiser. Right Guard, Lohler. Center, Tucker. Right Tackle, Puckett. Left Tackle, Nicholson. Right End, Leiser. Left End, Lohler. Right Halfback, Puckett. Left Halfback, Selley. Quarterback, Fix. Fullback, L. Scott. Back—Right Back, Selley. Left Back, Leiser. Linebacker, Puckett. Tackle, Frazell. End, King. Receiver, Robinson. Linebacker, Lyons. Fullback, Kanes. Halfback, McKeeter.

KEYNOTE OF JOHN MCGRAW'S SPEECH ONE OF OPTIMISM

'We're Off,' Says Manager of New York Giants After Winning One. NEW YORK, (AP)—"We are off now. Watch us from this time on," is Manager McGraw's message to the supporters of the Giants today.

Yankees Do the Things Expected of the Giants, and Vice Versa, Up to Present in Championship Tilts—Ruth May Be Out of Game with Arm Trouble—Giants Punch Way to Victory

NEW YORK, (AP)—Their battling slighter clear and set for sharpshooting, the New York Giants were determined to do the honors in Yankee twinning selection, and gain an even footing in the world's series.

Both Has Bad Arm. Suffering from an abrasion on his arm as a result of his base stealing in the second game, Babe Ruth may be compelled to watch the fourth game from the home.

My greater desire right now," said Babe, "is to crown my world's series with a home run in the stands."

Twenty hits for one team in one game never was recorded before in a world's series. Babe garnered four of them, three singles and a triple and Snyder got four singles.

Burns Makes Historic Catch. George Burns' great run and capture of Quinn's drive toward the center field bleacher wall, will go down in baseball history as one of the greatest plays of the game.

Woman Started First Daily Paper. The first daily paper in the world is said to have been established by a woman named Matiel, in London, March, 1702.

Brief Bits of Sport

Which proves once again that it takes more than one noble to inaugurate a spring season.

The Giants won yesterday because they produced the punch.

Tomorrow there will be another game being permitted, and the News will supply its sidewalk guests with the same irreparable service that has marked all other games of the present series.

Meanwhile, Clinton W. Evans has demonstrated ability to reconstruct from the members of last year's championship winners and new title-contending gridlers even.

Yesterday's demonstration against Wendell, while not a real test, provided a pretty fair sort of line on the general playing ability of the local grid outfit.

A revolution that spells championship always.

Next Friday the local troupe will trot out to Filer for a game on Filer field.

This game, according to Filer grid experts, will be different, in fact Filer folk declare they will tear the Twin Falls machine to pieces, or at least chuck a wrench in the machinery.

And Filer has something on which to base its threat. Last week the team defeated a neighbor eleven by an overwhelming score, but not quite so overwhelming as that of yesterday here.

Captain Cliff Fix promises to adequately fill the slotted shoes dotted by "Speed" Newman, star of last year's team. He directed his team as superbly yesterday; took passes perfectly and made end runs that almost forced forgetfulness of the lad who won a place on the allstate high school team last year, and is now starring with Berkeley.

Johnny Houghtelin, Leonard Scott and Jimmy Selley, too, will do, and that very well indeed.

While against "Pat" Pitzer, "Bob" Nicholson and "Doc" Putzer, what chance has any other legitimate high school team in this district?

Gooding college wanted a game with Twin Falls. This was after the Mathodists had defeated Wendell 20 to 0.

It is hardly expected the request will be repeated in light of what happened here yesterday.

Reports from Filer indicate that the

grid team of that place ranks without doubt among the best of the year's possibilities. The team has left, speed and the advantage of superior coaching.

ENGLISH DELEGATION TO IRISH CONFERENCE NAMED

Lloyd George Heads Britons who are to Renew Parleys with Sinn Fein

LONDON, (AP)—The personnel of the English delegation to the conference with Irish leaders here next Tuesday was officially announced Friday as follows:

Prime Minister Lloyd George, Lord Birkenhead, the lord high chancellor, Sir Hanbury Thronwood, chief secretary for Ireland; Auston Chamberlain, government leader in the house of commons; Sir Lansing Worslingham Evans, secretary for war, and Winston Spencer Churchill, secretary for the colonies.

ARBuckle ARRAIGNED ON MANSLAUGHTER CHARGE

Takes Until October 15 to Enter Plea while Consulting with Legal Council

SAN FRANCISCO, Cal., (AP)—Recees (City) Arbutle was arraigned in the superior court Friday on a charge of manslaughter growing out of the death of Miss Virginia Rouse, October 11 was set as the date for pleading. Arbutle's attorneys, C. H. Brennan of San Francisco and Milton M. Cohen of Los Angeles, saying they wished time to consult with their counsel.

BICKEL SHOWS POSSIBLE ADVANTAGE TO BOISE IN TWIN FALLS-WELLS ROAD

Construction of 140 Miles of Railway Between Crane and Lake View after Building of Idaho-Nevada Connection, Would Materially Shorten Distance from Capital to San Francisco and Prove Highly Profitable, Says Irrigation Project Builder

Construction of the Twin Falls-Wells railroad will make possible the building and profitable operation of another cut-off from Crane to Lakeview that will reduce the distance by rail from Boise to San Francisco by way of Twin Falls to 867 miles, as compared with the present distance of 1,272 miles by way of Ogden, according to Paul S. A. Bickel, engineer in charge of the construction of the original Twin Falls Irrigation project.

ANALYSES AGREE ON PRESENCE OF POISON

(Continued from Page One) practically duplicated those obtained from specimens taken from the body immediately after the death of Meyer, September 7, of last year.

Under the questioning of Prosecuting Attorney Stephen H. Milne, witness testified to having found 55 milligrams of arsenic in 5 grams of the specimen of kidney, liver and spleen and 10 milligrams in a 10-gram quantity of the specimen of the stomach.

On the basis of a normal weight of kidney, liver and spleen of 2000 grams, the result would indicate the presence of a little less than one-third of a grain of arsenic in these organs. Estimating the total weight of the intestinal tract to have 3500 grams, a total result of 27 milligrams of arsenic would be indicated.

OPENS RAIL BOUND AREA

The Crane-oreek road has easy grades and connects up the Boise, Payette, Boise and Snake river valleys with San Francisco at about the same distance, that Portland does and also gains a large territory in central Oregon which is the largest stretch of country in the United States without a railroad.

"The Twin Falls connection serves a wonderful country which is to say the least, a rich one, and it can be made to pay for itself in a very short time, and it can be made to pay for itself in a very short time, and it can be made to pay for itself in a very short time."

"This connection is the only real horse for Twin Falls and Rupert countries to thrive and everyone should strive to bring about this result. With these connections and later a connection down the Snake river canyon, they will have an equal break with the rest of the Snake river valley."

"The Crane-oreek extension is not profitable unless it is connected up with this line both in the branch in California and the Crane-oreek branch will have to make to pay well."

CITES SIGNIFICANT FIGURES

- 1. Nampa to Portland 500 miles; Portland to San Francisco 772 miles; total 1,272 miles.
2. Nampa to Ogden 184 miles; Ogden to San Francisco 811 miles; total 1,195 miles.
3. Nampa to Twin Falls by way of Minidoka 250 miles; Twin Falls to Wells 140 miles of new cut-off connecting 130 miles; Wells to San Francisco, 600 miles; total 990 miles.
4. Nampa to Ontario and Crane 167 miles; Crane to Lakeview (new construction) 140 miles; Lake View to San Francisco 600 miles; total 807 miles.

"No."
"Had it in the second set, those taken from the body at the cemetery?"
"Yes."
"Is it true that arsenic is known to preserve the organs with which it comes into contact?"
"Is it generally supposed so?"
"Is it your understanding that arsenic does preserve a body?"
"i) Don't know."
"Do you know of your own knowledge that the compounds used were tested for arsenic of my own knowledge?"
"Of no."

Guards Against False Result.

The witness declared, that he used every known method to ensure every part of his apparatus being free of arsenic. There is no arsenic whatever in the test paper alloys used in his experiments by the witness as those carrying the arsenic taken from the specimens obtained from Meyer's body.

Taken from Graves.

Dr. Lodenbaugh took the stand at the beginning of the morning session and identified the witnesses with the specimens taken from the body of Meyer at the Twin Falls cemetery April 2 of this year and turned over to him at that time. Dr. Lodenbaugh has since taken the specimens in his possession. He analyzed the contents of but two containers. The third, containing hair, he did not analyze. The two containers were offered in evidence.

Decline to Fix Time.

On cross-examination by Attorney Mills the witness went over his testimony of last evening with respect to the analysis of the specimen taken from the body of the victim on September 8, 1920. Dr. Lodenbaugh declined to say as to whether or not the arsenic had been received into the body before or after death.

State Traces Specimens

Prior to the introduction of the testimony of Dr. Edward F. Lodenbaugh, Idaho state chemist, late yesterday in which he made the accidental declaration that, based upon his analysis, the body of Meyer might have contained nearly 10 grains of arsenic, the state devoted its efforts to the tracing of the specimens, step by step from the time they were taken from the body of Meyer on September 8 of last year until their appearance in court yesterday afternoon in the hands of Dr. Lodenbaugh.

Body Kept Locked Up.

P. J. Grossman, undertaker and coroner, told of receiving the body of Meyer at his undertaking establishment about 4 o'clock on the afternoon of his death September 7. He told of the holding of the first postmortem at his morgue on the same evening. He was present during the latter part of the examination but did not observe the body, he said, was locked up from the time it entered his establishment until the examination was begun. The witness was not present when the second postmortem was performed on the evening of the day following the death of Meyer.

No one, Mr. Grossman asserted, had access to the body of Meyer or his assistant at any time other than during the two postmortems. Cross examination Mr. Mills brought out a description of the effect of the hardening compound used on the body and the statement that when the body was exhumed this spring the soil was in a good state of preservation.

Hardening Compound Kept

Mr. Grossman described the preparation of the body of Meyer for burial. No foreign substance was introduced into the body other than the hardening compound inherited by his assistant, E. G. Sturdevant. A certain lotion was used on hands and face. Mr. Grossman answered a number of questions about this lotion. Attorney Mills asked him if he knew of any other use to which the fluid was put, to which the coroner replied that "some used it after shaving."

TWIN FALLS DAILY NEWS

Issued every afternoon except Sunday

Twin Falls Publishing Co., Inc. (Established 1904)

JOHN A. HEAD Treasurer ROY C. HARVEY Treasurer Entered as second class mail matter April 9, 1915, at the postoffice at Twin Falls, Idaho, under Act of March 3, 1879.

MEMBER OF ASSOCIATED PRESS The Associated Press is exclusively entitled to the use for republication of all news dispatches...

MEMBER OF LATTER DAY REPRESENTATIVES George B. Easton Co., Inc., 171 Madison Ave., New York, N. Y.

ALL SHOULDERS TO THE WHEEL Renewed enthusiasm was instilled into the railroad subscription campaign at a mass meeting...

Figures made public at this meeting gave the Twin Falls district credit for subscriptions aggregating approximately \$150,000.

On the face of these figures there still remains about \$240,000 yet to be subscribed. It is entirely likely unreported subscriptions in other districts of the county will reduce this figure to a considerable extent...

More and more the people are coming to realize the imperative necessity for the construction of the railroad, and more and more appreciation is growing of the fact that subscription to the railroad fund offers the most profitable investment ever presented to this locality.

OLD WORLD FEAR OF AMERICA Back of the expressions of hope that the limitation of armaments conference will prove an unbounded success in the matter of accomplishment of benefits to the world...

President Harding did not summon the conference with purpose to confirm the old rules and perpetuate the old set-up. The others know that and the fact that they have agreed to confer gives ground for confidence that they will at least carefully examine what America has to propose...

NEW CERTAIN PROVIDES AN EXAMPLE OF SPEEDY JUSTICE If followed generally might have a beneficial effect in diminishing crime. Two men held up and robbed the cashier of a life plant of \$1,000. He was taken into the car and within 48 hours after the robbery was committed he was sentenced to 10 to 15 years and was on his way to prison.

THE NEWS' SUNDAY SERMONETTE By CHARLES GLENN BAIRD, M. A. Rector, Church of the Ascension, Episcopal

WHAT IS A CHRISTIAN? Acts 11:26—"The disciples were called Christians first in Antioch." Broadly speaking, there are three definitions of the word Christian practically accepted.

Ultimatum to conviction and imprisonment. A court cannot pass a sentence until the accused is present. Our means of pursuing and capturing violators admit of vast improvement in efficiency.

This is the month of Halloween; next month includes Thanksgiving and at that time the statistician will be impressing the public with the number of days remaining until Christmas.

It is also becoming more generally known that money in the hands of some persons merely enables them to show the worst in their natures.

An Illinois farmer plowed up \$35,000 in bills. Wait until the hired man who left to work in a factory here that.

Japan's 21 demands may go the way of the 14 points.

RAIL RATES MUST COME DOWN What Investment News has iterated and reiterated since the economic readjustment began about the excessive and oppressive American transportation bills...

If Congress did not breathe a word about rate reductions and if the Interstate Commerce Commission did not suggest as much change in a transportation tariff as the crossing of a 44' or the dotting of an 'i'...

As a matter of fact the operating expenses right now are higher where they are than by what might be called a policy of maintenance.

And the cost of coal, of course, is nearly all labor-labor at the mine, in the transportation and in the final handling of the coal.

Christially, There are multitudes of good men who have not professed the Christian faith. There are many men of good character who have felt the strongest kind of religious conviction...

Religion, His standard, His religious consciousness. In the first place, it was the intense conviction of the Father in His mind...

These things being realized, the Master asserted that He would be changed from a field wherein each one pursued selfish interests to a field wherein each one would seek the other's good.

LOCAL FIRM APPOINTED TO HANDLE DODGE CARS

Mogel Brothers to be Agents for Popular Line of Automobiles Here

Announcement is made by Dodge Brothers, Detroit, of the appointment of Mogel Bros. as their dealer in this city. Mogel Brothers will occupy the Mogel garage on Third avenue north with a complete salesroom and service station.

The remarkable popularity of the Dodge Brothers motor car has caused automobile men all over the country to clamor for sales privileges, but Dodge Brothers policy of quality in selling methods, as well as quality in the car, requires a painstaking investigation in every instance before a selection is made. In Mogel Brothers the Dodge Brothers have a dealer on whom they believe they may rely for both progressive and fair business methods. The prompt manner in which Dodge Brothers assumed one of the foremost positions in the automobile industry is regarded as a striking testimonial to the high regard in which their name was held by the public even before they marketed a motor car bearing his name. Prior to that time Dodge Brothers had built the wheel parts for more than a half million other cars, establishing a reputation for thoroughness and mechanical skill.

This reputation has been more than upheld. It is said of Dodge Brothers in explanation of their unusual success, that they spare no money or effort in building a car to suit their particular ideas of thoroughness in manufacture. What their ideas on this subject mean to the purchaser of their product may be imagined from the fact that they have a staff of more than 700 inspectors who do nothing but check up on workmanship in the various processes of manufacture. In addition there are several large departments devoted on-

tly to similar work, such as the physical and chemical laboratories, wire raw and finished materials are subjected to tests so thorough as to leave no doubt of the quality.

Georgian Demands Investigation of All Secret Orders

WASHINGTON, (AP)—Investigation of "such and every secret organization in the United States" was called for in a resolution introduced Friday by Representative Upshaw, democrat, of Georgia. Proposed as a supplement to efforts to investigate the Ku Klux Klan, Mr. Upshaw declared in a statement that he felt a sort of wounded pride in hearing many criticisms hurled at the Klan which was organized in his district and whose "supreme wizard" "is one of the knightliest, most patriotic men I have ever known."

He declared the public would commend the fairness of his resolution to investigate concurrently with the Ku Klux Klan all other organizations holding meetings behind closed doors.

AMSTERDAM
AMSTERDAM, Idaho — Mrs. L. V. Denn and Miss Jeta Konkler were Twin Falls visitors on Friday. Gilbert Holt and Leslie Denn were transacting business in Rogerson on Saturday. Mrs. Miss Dornman was in Twin Falls on Monday. Miss Jeta Konkler and Master Anthony Hardman motored to Twin Falls on Monday. Sewell McCaw of Piler passed through Amsterdam on Monday en route to the McCaw homestead above Rogerson. The water was turned on again on Tuesday for a few days run and for domestic use. Threshing is just about finished and hilling has started.

By actual count, four out of every five homes in Twin Falls receive The News, Daily. Tell all these people what you have to sell, trade, barter or exchange, about your rooms for rent, houses for sale or rent, the position you want or the help you need—One Cent Per Word—Phone 32
